

Chapter 2031:

As for the bone marrow transplant, the doctor had also found out about it from Su Mulan's previous cases.

"Miss Su had two bone marrow transplants, one for an adult bone marrow and one for a child's umbilical cord blood. I've seen the results of both surgeries. It can be said that the surgery was actually very successful."

"But miss su is not a normal person. No matter which of the two surgeries she underwent, they were all trying to save her life. However, there was no way to cure her. Now, the transplant is no longer of any use to her. Her body has the ability to create blood. Thalassemia has actually been cured. However, her current situation is a very serious complication after the surgery. Many of her organs are slowly declining."

"How much longer can she have?" Lu Yi asked. His voice was frighteningly calm. Perhaps in other people's hearts, he was forcing a smile, but Lu Qin knew that.., he really wanted Su Muran to die early. Of course, before he died, he had to pave the way for him.

Su Muran should have died early, but he also knew that she still had a long time to live.

"This..." the doctor thought for a moment, "In other words, it will probably happen in the next half a year. So, your family members should give in to her a little. After all, she is still a patient, a patient who is seriously ill."

The doctor's words were very clear. Su Muran was about to die, but she was still going to die. Now, everything was going according to her wishes, so that she could spend the remaining half a year of her life, then, she could die.

Even if Su Muran did not give up, she still wanted to continue living. She also fantasized that as long as she replaced all the blood in her body, she would be fine, and she would be able to live for a long time.

So what if she killed a few young children? She did not have children. How could Yan Huan have children? Could it be that he still wanted to use these children to rob the Su family's property? Those things were all hers.

The Su family belonged to her, Su Muran. She was an only child, so how could she have any sisters.

Of course, Lu Qin also had the same thoughts. He was eager to let Lu Yi's three children die, and he had the same thoughts as Su Muran. He didn't have any children, so how could Lu Yi have a son, he couldn't have everything of the Lu family, and he wouldn't let anyone else have it.

In any case, those three children should not have existed in the first place. Yes, he had such a strong feeling that those children should not have been born. Even Yan Huan should not have appeared.

Right now, he was leading a life that was neither human nor ghost. On what basis did Lu Yi have a better life than him? In the future, the entire Lu family would belong to him. There were also those three

children, but they were all born by Lu Yi. Lu Qin, on the other hand, did not have anything, he didn't even have the ability to give birth. Of course, it was impossible for him to have his own children.

No matter how he was living, he would let Lu Yi live as well. If he was in pain, Lu Yi couldn't be happy.

"Haha..."he suddenly smiled. His eyes sank deep into his thin face. Under this intentional smile, his entire face trembled.

Su Muran's needles were hanging bottle by bottle in the ward.

Of course, Lu Qin did a good job at this moment. He would find a doctor for her and pay attention to whether the medicine was finished. Of course, he would also serve her to eat, drink, and take a dump. He was really like an obedient dog.

If he gave way to the east, he would not go north. If he gave way to the west, he would not go east.

Su Mulan was very satisfied with Lu Qin's performance. Of course, it was also because of those things that he gave her so readily.

However, she did not know that the reason why Lu Qin was so devoted to serving her was not because of anything else. It was because he wanted to let Su Mulan live longer. At the very least, he wanted to kill those three children, of course, he also wanted the money from Su Qingdong.

He wasn't a fool. He would change his appearance and emigrate. He wanted a new identity. Of course, what he needed the most was that sum of money.

Su Muran's money was money that couldn't be counted. She could spend as much as she wanted. However, the money was still Su Muran's and not his. Therefore, he wanted Su Muran to spit out the money.

"I'm going to get the medicine for you,"Lu Qin said. There was not much guilt on his face as if that was the case. He did not lie.

"The medicine is more expensive."

Of course, the medicine was more expensive. Su Mulan had money anyway, so he could afford to buy as much medicine as he wanted. Of course, he could also afford to use it.

Su Mulan glanced at him lightly.

"You used to be a member of the Lu family. Why do you know how to say the word 'expensive'now?"

Lu Qin did not speak. He just stood there and let Su Muran scold him while ridiculing him one by one.

Yes, he had never run out of money in the past. In the past, whether he was with Su Muza or Sun Yuhan, he had never put money in his eyes, other than the Lu family's experience, these two women were very rich. Apart from bringing him fame and help, they could also give him financial support, however, after he became a eunuch, his life became worse and worse. When he left the Lu family, he still had tens of millions in his hands. However, he and Qin Xiaoyue only knew how to Squander and did not know how to make money. Whether it was him or Qin Xiaoyue., they didn't have any financial brains, so they

squandered the tens of millions just like that. There was no money left, and the Lu family couldn't go back.

Later on, he was also arrested for crime.

Although he was out now and free, he became a poor man. His previous identity couldn't be used anymore. Su Muran gave him a new identity, called Shi Da, however, he was a pauper. He had to rely on Su Muza to spend, use, eat, and drink. Even if he wanted to buy a new pair of underwear, he had to ask for money for Su Muran, every time, Su Muran acted as if he was doing it on purpose. He was mocking him for his inferiority and shamelessly spending money on women.

Even now, the money was not spent by him but by Su Muran himself. However, Su Muran did not think so.

She sneered contemptuously and the disdain in her eyes was obvious.

She took out her card and directly threw it at Lu Qin's face.

"Buy me the most expensive medicine."

"I got it." Lu Qin took the card and walked out. Of course, at this moment, all of his dignity was gone. He had nothing to say and he did not want to say anything, he was just a dog that Su Muran raised. Of course, this dog had to be obedient. Obedient dogs were good dogs. Disobedient Dogs would bite their owners' dogs, and they would be beaten to death.

Chapter 2032: a few days less to live

Lu Qin walked out with the card in his hand. His face was gloomy. He was no longer Lu Qin, but Shi Da. The bones in his body had already been deformed, and he was no longer the handsome young man he used to be, he could have thousands of fangirls, but now he had nothing. He only had this life to live on, surviving on the food that occasionally came out of Su Muran's mouth.

However, he stopped and turned the card in his hand. Soon, it would be over, and she could leave this place and live a new life.

Of course, he was only thinking about his own life now, but he had forgotten about Qin Xiaoyue.

He had also forgotten that Qin Xiaoyue was still locked up in prison. Lu Qin was a selfish man. If he really became selfish, he would not recognize his own family, including his own mother.

Lu Qin found a bank and walked to the 24-hour atm. He closed the door and put the card into the ATM. Then, he pressed the password and took out 20,000 yuan. As for how much money was in Su Muran's card, he did not look at it and did not want to look at it. After all, this card would be his in the future. Of course, no one would look into Su Muran's account. Su Muran was never a person who worried about money, just like Sun Yuhan, they were equally extravagant. Similarly, they did not know how to earn money and only knew how to spend it. Of course, there were differences. What Su Muran spent was his own family's, while the other spent others'.

Of course, there was something even more ridiculous. Regardless of whether it was Su Muran or Sun Yuhan, they both spent it happily in the end.

He took the money and walked into a pharmacy to buy a medicine here. This medicine was imported, so it was very expensive. A bottle of it cost thousands of yuan.

However, the doctor also told them that this medicine could be replaced with other medicines, which cost dozens of yuan.

Lu Qin only took a glance at the imported medicine and bought the cheap medicine in the end. Regardless of whether it was thousands of Yuan or dozens of yuan, it was the same for Su Muran. No matter how much he ate., they were all waiting to die. So what was the difference between eating a few tens of Yuan and a few tens of thousands of yuan?

He picked up the medicine bag and took all the medicine back.

If you have some money left, do you want it? Lu Qin placed the medicine on the table. Of course, the medicine was put away one by one. He had to serve Su Mu ran to eat and drink. How could he let him take the medicine himself? Then, he took out the medicine from the middle and ate it himself., he did everything for Su Muran, except that he could not take the medicine for Su Muran.

Su Muran took the medicine and stuffed it into her mouth without thinking. He measured the poison that Lu Qin could not buy for her to eat. Her death would not benefit him at all, they were now like grasshoppers tied to a rope. They still had to use each other. Of course, they also had to support each other. Otherwise, no one would be able to get a good name.

As for the money, Su Muran obviously did not want it, but it was only a few hundred yuan. She obviously knew how much money Lu Qin had. Her phone would receive a notice from the bank, and she knew how much money she had withdrawn, she obviously knew how much each box of medicine cost.

Yes, Lu Qin would not buy rat poison to poison her to death. In any case, they were indeed using each other now. He would not do anything to the medicine she took, but Su Muran did not even think of dying, it was because she raised Lu Qin like a dog that Lu Qin replaced her high-grade medicine with cheap medicine.

In fact, these cheap medicine could cure the disease after taking it. There were no major side effects, but there were still differences. For example, the imported expensive medicine could allow her to live longer, but this cheap medicine., would only shorten her life by a few days.

In any case, a few days of life didn't matter to most people. A person could live for at least fifty to sixty years, or at most a hundred years. A few days of life was something that could be sacrificed, as long as they treasured it, who knew how many days they would have to save. However, Su Muran was different. She only had less than half a year left.

What was half a year's time? Two hundred more days, and a hundred less days. Therefore, these few days were for Su Muran to breathe less air, do less work, and open her eyes fewer times.

To put it bluntly, the lives of others were calculated in years, while Su Muran's life was calculated in seconds.

Therefore, this time it was a few days less. How many times a month would she have to buy such medicine? It added up to a few days. Every time she bought it, her life would be shortened by a few days. How many lives would Su Muran, this patient, have.

Of course, Su Muran would never know about these things. Of course, she would never know that the reason for her short life was because of the medicine she was taking.

Lu Qin spent 20,000 yuan to buy a few hundred yuan worth of medicine. It was a net profit.

Su Muran took a few hundred yuan worth of medicine and lost a few days of her life for nothing. She lost everything..,

therefore, some things were not easy to explain. There was karma in this world. It was just that many people were unwilling to believe it.

Su Muran could not wait any longer. Every day she lived was a torture. She had to recover to her health as soon as possible.

She took out her phone and dialed Yang Coco's number.

"Yang Coco, I've said it before. I don't have much time and patience. Go and do your job well. If you succeed, not only will you get the money, but you'll also get the videos on my phone. You'll also get a lot of good resources. These resources will be enough to make you famous for a while."

Her words contained both coercion and inducement, because she could no longer bear it. She could no longer bear it. Her gums bled every day, and she drank her own blood every day.

People who had never experienced this kind of feeling would never understand.

And those who were not sick would never know the kind of despair and pain that sick people had to go through.

And in the hearts of some patients, what they hated the most was the health of others. When others were alive, they wished that everyone would be the same as her, suffering from the same illness.

Su Muran was such a woman. She wished that she was dead, and everyone else would follow her. Of course, even if there was no one else, she had to add Yan Huan, or else she would die in peace.

Stealing her father, robbing her family, and destroying her life...

If she had agreed to donate her bone marrow earlier, she would not have become like this. She would not have been half-dead, waiting to die every day.

The doctor had already said that the second time she fell ill, although it was very dangerous, as long as the shift was timely, she would be fine. However, Yan Huan did not agree, and she was delayed for nearly half a month, even if the transplant was successful, it was impossible for her body to recover. Don't think that she did not know that the doctors and nurses were always saying things behind her back?

Chapter 2033: clearly stated that she could still live

In other words, it was a pity for her. It was clearly a disease that could be cured. It was because the transplant was late and there was no way to cure it. However, as long as it was earlier, she might be able to be discharged from the hospital, she could even live for a hundred years in the future.

Clearly, she could be cured.

Clearly, she could be cured.

She could clearly live.

However, it was because of Yan Huan that she was able to live. It was also because of Yan Huan that she was able to die.

Therefore, if she, Su Muran, was not able to live well, she would not allow Yan Huan to live well. She would take good care of her three children. Didn't they say that these three children were the Lu family's lifeline, then, she would have to dig out the roots of the Lu family with her own hands.

She hung up the phone. Now, she had to wait for her real medicine to come. She also believed that as long as she had the medicine, she would definitely be cured.

Of course, she did not think that she would fail. She definitely would not fail. Yes, she definitely would not fail. How could she fail? She had spent so much effort to cast the net for so long, she had spent so much time and money to create such a good chess piece for herself. Therefore, she would not fail. Of course, it was impossible for her to fail. She would not allow such a failure.

The medicine still flowed into her blood vessels bit by bit. She could no longer taste blood in her mouth, so her gums no longer bled out.

She opened the drawer and took out a small mirror. She looked at her teeth and sure enough, there was no more bleeding.

There was no rush. Yes, there was no rush. She had to endure for a few more days. After a few more days, she would be able to live like a normal person.

She smiled. Her smile was extremely sinister and strange. Even her face, which was covered in skin and bones, had a twisted greenish-gray color. Her eyes also seemed to be suffused with a murky light.

Yan Huan woke up and rubbed her eyes. She seemed to be in a daze from sleep. She sat up and picked up the program list on her lap before putting it aside.

Why was she sleeping here.

She looked at the time. It was almost ten o'clock. She should have gone to prepare food for Lu Yi.

She stood up and stretched her back. Then, she opened the drawer and placed the half-finished program list inside. She walked out, took the apron and put it on. Then, she rolled up her sleeves, she was ready to get busy.

First, she steamed the rice. Then, she opened the refrigerator and took out the ingredients that she had just bought in the morning. There were green shrimp, chicken, and fish.

It was about ten o'clock when she finished cooking. She also took out the ingredients from the fridge and turned them into delicious food.

She put her prepared food in the lunchbox, then got on her bike and prepared to go to Lu Yi's place.

The wind outside blew on her face and brought a slight chill. The weather was just right and it was suitable for a trip. She just didn't know where Zhu Meina, that woman, had gone to? Did she really die from shopping?

She stopped her bicycle and took out her cell phone from her bag. She also called Zhu Meina. She thought that no matter what, it had been a few days. There should be some news. Even if her cell phone was lost.., couldn't she buy one? Or did she meet a thief or something? Did she let someone steal all her things? But even if she stole all her things, wasn't there an embassy? Or, to put it bluntly.., with Zhu Meina's character, no matter what, she wouldn't starve to death.

She couldn't lie and swindle. She could at least be ruthless enough to sacrifice her looks.

No matter what, it was impossible for her to lose all her information just like that.

In the end, she only dialed for a few seconds before she knew that it was a waste of effort. The phone on the other side was still switched off.

What the hell? Yan Huan got on her car again and prepared to rush to the prosecutor's office. She didn't even know where Zhu Meina had gone. Even if she knew.., who knew what weird little places that woman had gone to after that? Anyway, that woman had always been like that. She shouldn't think too much of it. She just had to stay in one place and not leave.

She would walk around everywhere, and she would walk around inexplicably. If she really lost it, how would she find her in a foreign country.

She thought about it all the way, and it was annoying all the way. When she noticed it, she had already arrived.

She put the bicycle at the gate of the Procuratorate. Soon, the gate of the Procuratorate opened. She pushed the car in and put it at the door of Lu Yi's office. Lu Yi's office was very independent, only his office was the most independent. It did not interact with any department and was almost a single door.

Of course, the newly built building, whether it was the interior decoration or other facilities, was also very good.

In the summer, there was air-conditioning, and in the winter, there was heating. The canteen was a little worse. In the old procuratorate, there was a university, so they sometimes got tired of the food in the canteen and could go to the school. However, this place was far from the city, there wasn't even a delivery service, so they could only eat the difficult-to-eat meals in the canteen. They could still make do with it in a day or two, but eating it every day was really difficult to swallow.

The workplace was good, but the days were getting worse.

Yan Huan was knocking on the door when he heard Lu Yi's invitation from inside. She opened the door and walked in. Coincidentally, Yu Bo was also there. When he saw Yan Huan, his eyes immediately lit up, it wasn't because of anything else. It was because of the food that had arrived, the hand that he had

hidden behind his back, and the large bowl that he had already prepared in his hand. It was obvious that he was here to freeload off the food.

Yan Huan opened the lunchbox that he had brought with him and took out the food from inside. Fortunately, there was a lot of food prepared. Even if four people came over to share it, it wouldn't be too much of a problem. Moreover, Yan Huan didn't eat much to begin with, therefore, the food could barely be shared among five people. Now that there were only two people, it was definitely enough.

Yu Bo was given a very large bowl. Of course, the dishes were also quite rich. Today, there was actually his favorite, the deep-fried prawns. One of the red prawns was as big as his palm. It was spicy, spicy, and enjoyable, there were also scrambled eggs, braised fish segments, and vegetarian stir-fried vegetables. The combination of meat and vegetables was also the best. Of course, these were not his favorites. They were Lu Yi's favorites.

Yan Huan peeled a prawn and placed it in Lu Yi's bowl. Lu Liang picked up the prawn with his chopsticks and placed it in front of Yan Huan.

"Eat one."

Yan Huan opened his mouth and ate the prawn.

Chapter 2034: Zhu Meina was really in trouble

"MMM, it's delicious."

Yes, it was delicious. It couldn't be any more delicious.

Lu Yi saw that Yan Huan was eating so happily, and his appetite wasn't bad either. He directly finished his bowl of rice. As for the dishes, he gave Yu Bo a portion, which was just enough for the two of them to eat.

It was just that Yan Huan always felt that something was on her mind, so she was always a little absent-minded.

"What's wrong? Are You Not Happy?"

Lu Yi placed his hand on Yan Huan's shoulder and saw that she did not seem too happy from the start. Although she was smiling, her mind was clearly not there, and she had run off to somewhere beyond the clouds.

"I'm thinking about Zhu Meina." Yan Huan took out his cell phone and tried to call her again, but her cell phone was still switched off, switched off, switched off again.., she didn't know how many times she had called Zhu Meina this month, but she hadn't made a single call.

"Her phone has been switched off the whole time. What's wrong with Zhu Meina? Could she really have gotten lost? Or was she kidnapped?"

The word 'kidnapped' had always annoyed her. It wasn't because of anything else, but because she herself had been kidnapped countless times. Therefore, the word 'kidnapped' was the most annoying thing to her.

Zhu Meina's situation was very strange. Could it be that she was like ye Xinyu back then, unable to contact anyone for no reason? But who could go against Zhu Meina? Zhu Meina was a woman with big breasts but no brain, wasn't her biggest enemy Zhu Xianglan? But the current Zhu Xianglan was still in some hook somewhere, struggling on the verge of death. It was impossible for her to find trouble with her.

Besides Zhu Xianglan, she really couldn't think of a second one.

"Don't worry, she'll be fine," Lu Yi comforted Yan Huan, "She's that kind of person. As long as she sees something good, she'll forget everything. Maybe she saw a fashion show or a trade show or something like that."

"It's also possible," Yan Huan nodded. This reason was quite convincing.

Because she had attended such a trade fair before and indeed, she had to switch off her phone. Moreover, some transactions required a few days of continuous opening.

Just like the last time they went, it was actually three days.

However, they had only gone for one day. Previously, Zhu Meina had said that if she could attend it again, then she had to go for three days.

As for the duration of the trade fair, sometimes it was one year, sometimes it was three years, sometimes it was five years, and sometimes it was not fixed. Zhu Meina could get a ticket once, but of course, it was not impossible for her to get a second ticket.

Perhaps she had really gone to the underground trade fair, so her phone was always switched off.

"Go and rest for a while." Lu Yi touched the area under Yan Huan's eyes. "I didn't sleep well last night. My eyes are dark."

"Alright then." Yan Huan pulled his hand down and shook his finger. She was also prepared to go to a good place to sleep. Indeed, she didn't sleep well last night. She didn't know if it was because she woke up too early or because she had a nightmare the entire night, but even now, she was still a little dazed and extremely sleepy.

After she laid down properly, Lu Yi had already pulled open the blanket and covered her up. He then placed her hand on the outside and placed it in the middle of the blanket while he sat by the side, waiting for her to fall asleep.

It was only after Yan Huan had fallen asleep that Lu Yi stood up and gently closed the door. He also left the silence in the room to Yan Huan. Yan Huan's sleep.., it seemed like he was going to sleep until he got off work.

He sat down, but his expression did not look very relaxed. He turned on his computer and opened the flight information. In the end, he found the flight that Zhu Meina was on. Zhu Meina actually did not board the flight that day, in other words, she might really be what Yan Huan was worried about, another

missing person. For some unknown reason, she did not board the plane that day, but she did indeed go to the airport that day.

But it was really quite ironic to say it out loud.

She was such a living person, and it had been almost a month. There was no news, no reply, and no phone contact. Could it be that there was no concern, and no one was worried about her?

On the other hand, Yan Huan, who was an outsider, had always felt that something was off. He had been trying his best to contact her. Could it be that her relatives had never thought about Zhu Meina, it had been a long time since they had contacted her. Even if Zhu Meina did not contact them, shouldn't they take the initiative to contact her.

He had already sent people to look for Zhu Meina, hoping to find out the news as soon as possible. When there was no news, he had no intention of telling Yan Huan about it. He would just suppress it for now, Yan Huan was already very disgusted with the kidnapping. Perhaps it was just like how she did not like the water in Taihai River. It was a thorn in her heart.

Therefore, it was better for him to hide it from her first. When he had a clue, he would tell her.

Lu Yi took his phone and made a call.

Ah Shi, it's Lu Yi. You should pay more attention to her recently. Don't let her be alone

After he repeated his instructions, he put down his phone and turned on his computer. He didn't know why, but after the incident with Lu Qin, he felt a strange unease in his heart, however, he still didn't know where this unease came from.

Hence, he had people pay attention to Yan Huan first and wait until he found Zhu Meina.

However, was it really that easy to find? If it was really that easy, then they wouldn't have to look for the missing father, daughter, and children for decades, or even a lifetime. Sometimes..., they wouldn't even see each other until they died.

By the time Yan Huan woke up, it was almost time for Lu Yi to get off work. She sat up and was still a little sleepy. Sleeping at this time was indeed tiring and tiring, but the more she slept, the more sleepy she became, the more she wanted to sleep.

She patted her face. She really couldn't sleep anymore. Otherwise, she might not be able to sleep at night.

When Yan Huan tidied herself up and came out, Lu Yi was still busy.

She found a place for herself to sit down and used one hand to pull her chin up. Then, she took out the next program list and started to read it.

While she was memorizing the program, she also accompanied Lu Yi to work.

When she lifted her face and looked out of the window, she seemed to be able to hear the sound of a few leaves falling down. Moreover, the yoghurt had also become a little withered and yellow. wasn't

that what it meant, the autumn of a season had also withered along with it. In the garden, one could immediately see a golden ginkgo forest, right?

Chapter 2035: envy others for having so many children

It was as if gold had fallen on the entire land. It was indeed a wondrous and beautiful scenery. Many people knew that there were two places within the sea city that could enjoy the ginkgo forest. However, they did not know that in the Liuyuan Garden., there was also a large area of ginkgo forest. This ginkgo forest also grew very well. In autumn, it could be said to be a beautiful and fantastical scenery. One could indulge in it., one could also enjoy the unique beauty of this season.

It was a pity that this could be said to be a good place in the original ecology, but it was a private residence. There were really not many people that could be seen. Of course, this was also a place that Yan Huan and the three children liked to go.

This was especially so for Xun Xun. Xun Xun loved to go there and play. A few days ago, she had said that she wanted her mother to bring her over to see the leaves. She could even roll around on it because when autumn arrived, a very thick layer of leaves would fall, hence, Xun Xun loved to play with her two older brothers.

Of course, the three children also loved to pick up leaves to give to their mother.

She did not know how they had such thoughts at such a young age. They all thought that their mother loved leaves, so they all wanted to pick up leaves to give to their mother.

Of course, Yan Huan also really liked those leaves, and she liked the children who gave her leaves even more.

Although she spent less time with the children, she knew that in the hearts of the three children, their mother was irreplaceable. Their mother was their mother, and also their only mother.

They were born from their mother's flesh and blood, and each of them was their mother's most beloved baby. Even if there were three of them, each of them was their mother's favorite.

At this time, the three children were standing outside the kindergarten. They were waiting with the other children, waiting for their parents to come and pick them up after school. Xiao Qi and Xiao Guang held their little sister's hand, and every time after school., they would hold their little sister's hand tightly. Their father had said that they had to protect their little sister, so they couldn't lose her. Therefore, they held onto their little sister in crowded places, they also absolutely couldn't let others carry their little sister away.

"Lu Qi, Lu Guang, and Lu Wei, your parents are here,"the teacher said to the three children. These three children were the most recognizable children in the kindergarten. There weren't even any twins in their kindergarten now, in the end, there was a pair of triplets. The two boys looked exactly the same, and the little girl was especially beautiful. If their birthdays were on the same day, the difference would only be five minutes. To be honest., no one really believed that they were triplets, or that they were real triplets.

Xiao Qi and Xiao Guang held their little sister's hand. They saw Grandma and two aunts coming over.

Ye Shuyun noticed her three children at a glance. Her heart was about to melt.

She quickly pulled her three grandsons over and took out three water bottles from her bag. She placed them in front of the three children and told them to drink some water before going home.

The three children obediently drank some water before they were brought home by their grandmother. Their home was very close to the kindergarten and they only needed to walk a few steps to reach it. Ye Shuyun carried Xun Xun in her arms, Xiao Qi and Xiao Guang were held by the hands of the two nannies as they walked.

This scene always made people envious and jealous. The families that could afford to attend this kindergarten were not ordinary families. After all, this kindergarten was considered very noble, a child cost several thousand yuan a month in tuition fees, but there were still many parents who wanted to stuff their children in. Of course, since they could pay so much for their children's tuition fees, their families could not be too poor, they all had some family background.

And in such a family, of course, they all hoped that their own family would have as many children as possible. However, there was probably only one more child, unlike the Lu family, which had three children at once.

And all of them were healthy, smart and beautiful children.

Outside the kindergarten, every parent had one child with them, but there were no two children with them. Two children were already rare enough, let alone three. This was simply bullying.

Everyone brought one child over. This family was so good that they had three children every day. They carried one child, carried one child, and carried one child.

It was not only envious, but also extremely jealous. Every time this happened, these parents could not help but take another look at the little bean in their hands, they thought how good it would be if they were in that family. They all wanted to hug one more, but nowadays, there were many young people who didn't give birth. It was as if having one was so great, in the end, there was nothing they could do. It was better to have one than to not have one. weren't there many people who didn't have grandchildren?

No matter what, they also had grandchildren. Although they couldn't compare to that family, they had three in one go

At this moment, not far away, a pair of eyes was staring at the group of people who had already walked far away. The owner of these eyes was a woman. She had sunglasses on her face, and only her nose and mouth could be seen, they were actually somewhat similar to Yan Huan, but there were no fluctuations in the corners of her mouth. It was unknown if she did not want to laugh or if she could not laugh, but she was like a piece of solidified cement, he was so stiff that he did not even have the slightest movement.

"Grandma, Xun Xun is coming down to walk with brother." Xun Xun was carried by her grandmother for a while, and no matter what she said, she would not let her grandmother carry her anymore.

...

Ye Shuyun had no choice but to put Xun Xun down. She could still carry her in the past, but now she had really grown up. She was a four-year-old child, and she had grown so tall. Ye Shuyun sighed in her heart, feeling sad, time did not forgive. In the past, when Lu Yi was five years old, she was still carrying him. At that time, Lu Yi was already very tall and heavy, but as a mother, she did not know where her strength came from, Lu Yi, who was carrying five years old, not only could walk, but he could also run. But now, Xun Xun was only four years old, but she could not carry him anymore.

“Why aren’t you letting Grandma Carry You Anymore?” Ye Shuyun tidied up her granddaughter’s two small notes. She used to let Grandma carry her, but now she was not allowed to carry her anymore. Did she dislike her?

“Grandma, Xun Xun has grown up,” Xun Xun raised her little face and said seriously, “Mom said that Xun Xun is already a big girl and is already very heavy. She will crush Grandma. Xun Xun will go with brother. He won’t let Grandma carry him, and he won’t crush Grandma.”

Ye Shuyun picked up her little granddaughter and kissed her fiercely. Her little granddaughter was different. She knew how to feel sorry for Grandma. When Lu Yi was young, she had been carrying him everywhere, she didn’t see that Little Brat say anything. Mommy has worked hard. Mommy is heavy and won’t let you carry me. Mommy, you should carry me.

Chapter 2036: bad guys

She seemed to have forgotten about it. Of course, Lu Yi was obviously a little late-witted. He was always too stupid to be laughed at, and he couldn’t even speak. How could he still say such sweet words to her.

This was obviously something that was impossible.

“Let’s go.” Grandma pulled Xun Xun away. Ye Shuyun held her granddaughter’s little hand. She was actually quite sad. In the past, she could still hold Xun Xun, but now she wasn’t allowed to hold her anymore. She had really grown up., time really passed by too quickly, didn’t it? Back then, they were all little dolls in her arms. But now, they were all grown up and sensible.

The three children were all carrying small school bags. Even their steps were the same. Although they might really be triplets that didn’t look like triplets, no matter how she looked at it., it also looked like a second child.

Compared to her two older brothers, she was much shorter and more delicate. However, in reality, Xun Xun and her two older brothers were born on the same day, so it was definitely triplets.

Outside the kindergarten, perhaps no one knew that recently, there had been a woman standing there. She was observing something, and it seemed like she was preparing to do something. However, she had always been wearing sunglasses, and no one knew what she was waiting for?

Her appearance was very strange. She did not seem to be very open and aboveboard even when she raised her finger.

It was almost time for school to end. Many of the children had been picked up, and there were not many left. However, the three children from the Lu family were still standing there. Their two older brothers were holding their younger sister's little hand, they had never let go. They were waiting for Grandma to come and pick them up. Grandma had said that if they did not come, they could not go with others, and those people were all bad people.

After being taken away by the bad people, they couldn't see their mother, their father, their grandparents, and their great-grandfather. They couldn't eat good food, and they couldn't have good toys, therefore, they definitely wouldn't go with the bad people.

At this time, the woman standing at the side took out a mirror from her bag and looked at the mirror for a long time before walking over. She kept her head down, and her palms were covered in cold sweat, of course, she was also prepared to leave at any moment.

When she arrived, she did not know if she was going to take a step closer or stop there.

"Eh, Miss Yan, are you here to pick up the children?"

The kindergarten teachers saw the woman standing still and quickly went over to welcome her. They had been waiting for her for a long time and were getting anxious.

The children could not be anxious. If any parent did not come for a long time, the children would cry.

The woman pushed the sunglasses on her face. Her heart hardened as she walked in front of the three children.

However, the three children stared at their mother strangely. Why did they suddenly feel that their mother was strange.

"Little Lu Wei, mommy is here. Hurry and go home with Mommy." The teacher touched Xun Xun's little head. Why? Did she not recognize her mother? Our Little Lu Wei looks exactly like Mommy.

The woman covered half of her face, revealing her nose and mouth. This half of her face was indeed very familiar.

She suddenly bent her face down and picked Xun Xun up. Xun Xun struggled for a while and wrinkled her delicate little nose. Her mother's body smelled good, but this mother's body didn't smell good at all. It smelled bad.

The woman carried Xun Xun and left without saying a word. Even the kindergarten teacher was puzzled. What was wrong with Miss Yan? Why did she not say a word? When she came to pick up the children in the past., people were very amiable. Of course, she would give them some small gifts. What was wrong with her today? Why did she feel a little strange.

However, she seemed to be able to understand. After all, she was a celebrity and not an ordinary person. It was understandable for her to throw a little tantrum sometimes, right?

The woman carried xunxun and left. Xiao Qi and Xiao Guang followed behind her. The woman walked very quickly. She did not care about the little brothers behind her at all. The Little Brothers followed her and ran.

Xun Xun had been pursing her lips the whole time. Of course, she was unhappy.

“You are not a mother.”

Xun Xun suddenly stiffened her little face. Her little hands pulled the woman’s hair forcefully.

“You are not Xun Xun and brother’s mother. You are a bad person.”

“A bad person!”The two brothers also went forward and wanted to beat up the bad person. However, even though they were more mature than ordinary children, they were still not a match for an adult. They were still too young. One finger of an adult., was enough to stab them to death.

“Big Brother, run. There are bad guys coming. Let Daddy Save Xun Xun.”Xun Xun was a very smart child. She knew that she had to let Daddy save her. Moreover, she had to protect her big brother from being taken away by the bad guys.

“Big Brother, run quickly.”Xun Xun kept shaking her hands at the two brothers. “Go and find Daddy. Xun Xun, be good. Xun Xun, wait for Daddy to save Xun Xun.”

At this moment, another man came over. It was the two little brothers from the metropolis. Xiao Qi looked at Xun Xun, who was being held by the fake mother, and then looked at his angry little brother, whose face was flushed red. He held his little brother’s hand, he ran to the back. The children ran very fast, while Xiao Qi and Xiao Guang ran even faster. They had always been learning ancient martial arts in the Lei family. They might not have any skills now, but if they really ran., not many people could catch up to them, including adults.

When the man saw that Xiao Qi and Xiao Guang had run away, he quickly chased after them. However, Xiao Qi and Xiao Guang ran too fast. The two brothers had already disappeared in the blink of an eye.

Lu Qin put one hand on his waist and stumbled back. It could be seen that his expression was very bad.

“Didn’t I say that you have to get them all together? These three are very smart.”

“Didn’t you say that if you catch one, you can also catch all three?”The woman took off her sunglasses. Her face was 30% like Yan Huan’s, but her entire face was made of plastic. To be able to make her face look like this., there was only one Yang Keke in this world.

Also, what did this have to do with her? She was completely helpless against this little girl, and her scalp was almost torn off by this little girl.

The man wasn’t anyone else. He looked like a ghost. Who else could it be if it wasn’t Lu Qin? He panted heavily, and the words that came out of his mouth were half powerless and half angry.

“I’ve said it before. You have to keep a close eye on the few of them. Why are you walking so fast? Those two are so far away, how could they not run? These three are very smart. Don’t look like they’re four years old, they’re all the same as Lu Yi.”

“Bad People!”Xun Xun used her little hand to grab Yang Keke’s face. Don’t look at it as a child, don’t look at it as a plastic face, but when this little hand grabbed people, it was like a kitten., her little claws were very sharp, and Yang Keke suddenly felt pain on her face. Instinctively, she was afraid that her face would be disfigured. Without thinking, she threw the child in her arms to the side.

Chapter 2037: the child is missing

Xun Xun was thrown to the ground, her head also broken.

She grew up being held in the palm of someone's hand, so she had never suffered such pain before. Even the last time old master Lu kicked her, her head was also broken, but that was also because of her mother and her father.

She sat on the ground and cried until she was hoarse, but no one paid attention to her. Lu Qin raised his hand and slapped her delicate face. As long as he thought that she was Lu Yi's daughter and that she was born happily.., he would not be polite.

Anyway, all Su Muran wanted was the blood on the child's body. It did not matter even if he was crippled.

This slap scared xunxun. She sniffled from time to time and could not cry anymore. It was as if something was stuck in her throat, her little face was red from holding it in.

"Get away from me." Yang Keke kicked her little body. She was only four years old. The blood on her little forehead had not stopped and her little face was swollen, there was a big footprint on her clean little clothes.

"You Little Vixen." Yang Keke kicked xunxun again and again on her little head. Xunxun sniffled her little nose and pouted her little mouth, but she did not cry anymore.

She was obedient. She was obedient. If she did not cry, her father would definitely save her.

She hugged her little body tightly. Her big eyes were filled with all kinds of uneasiness and fear.

It really hurt, and she was also afraid.

She shrank her little body. She missed her mother, her father, her grandfather and grandmother, the doll, and the delicious food that her mother had made.

Coco Yang stared at her face in the mirror for a long time. She saw that the skin on her right face was broken. From the corner of her right eye all the way to her chin. She didn't know if it would leave a scar, but.., she was very dissatisfied with her current face, but no matter how dissatisfied she was, it was still her face. She was an actress, and she was in the entertainment industry. If she didn't have a face, what else could she do?

"If my face is bad, I'll definitely beat you to death." She kicked and kicked again and again until she almost cried to death. It really wasn't her birth, so she didn't know how to feel heartache.

At this moment, Ye Shuyun and the nanny came to pick up the children. There were some things at home today, and they were so busy that they forgot about the time. When they remembered, it was already at this time.., ye Shuyun complained about herself along the way. It was already more than twenty minutes in the evening. At this time, there might only be her three children in the kindergarten, so she almost ran all the way there.., she even forgot to drive the car.

But when she arrived just now, she was dumbfounded.

There were no three children of her family here.

“Where are my children?”

Ye Shuyun asked the teacher anxiously. Her face instantly turned pale, and the color of her blood faded from her face. Oh right, where were her children, her three children, and her three precious grandchildren?

Were they still playing inside?

“Didn’t Miss Yan Pick Up Xun Xun and the others?” The teacher was quite puzzled. How many times did she have to pick up the children?”

“Miss Yan?” Ye Shuyun did not react for a moment. “What Miss Yan? Where did Miss Yan come from?”

“It’s Miss Yan Huanyan.”

Ye Shuyun also directly confused the kindergarten teacher. How could they find another Miss Yan? If Miss Yan did not come to pick up the children, how could they hand the children over to someone else?

“My Huanhuan?” Ye Shuyun’s first thought was that it was impossible.

She shook her head. Yes, it was impossible. Yan Huan would not come to pick up the children at this time. She should be at the prosecutor’s office. If she did not record the program, she would spend most of her time there, it was impossible for her to pick up the three children. Moreover, even if she really wanted to pick up the children, she would usually do it at home in advance. It was impossible that they all came, but Yan Huan had picked up the children himself.

Yan Huan was not such an insensible person, so it was not Yan Huan. It was definitely not him.

But now, she really hoped that it was Yan Huan who had taken the children away. If it was not Yan Huan, then where were her three grandsons? Where were her little qi, her little light, and Xun Xun? Where had they gone? Who had taken her three grandsons away?

She took out her cell phone and called Yan Huan. At this moment, Yan Huan didn’t know what was wrong with him. He was a little upset and restless. In fact, she didn’t know why it was like this.., she just had some lies in her heart, but she didn’t know what she was panicking about?

When she saw her cell phone ring, she hurriedly took it over. It was ye Shuyun calling.

Could it be that the children were sick?

She hurriedly picked up the phone and placed it beside her ear. Her voice sounded anxious as well.

“Mom, What’s Wrong? is the child sick?”

Ye Shuyun’s heart skipped a beat as well. She had a very bad feeling. who was the one who picked up the three children?

Yan Huan meant that she did not take the children away. If she had taken the children away, would she still ask such a question?

“Huanhuan, have you seen the children recently?”

Ye Shuyun did not dare to ask too directly. She was afraid that Yan Huan would not be able to accept it. She was also afraid that she would not be able to accept it.

“No.” Yan Huan shook her head. She had been staying in the garden all this while. She had just finished recording the program yesterday. weren't the children coming over on Saturday? It was only Monday now. She also wanted to go home to see the children, however, as soon as she went back, old master Lu would glare at her to death. He would say that he was already so old and still had a few years to live. Even if he wanted to see the children a few more times, were they not willing?

Cold Sweat also broke out on ye Shuyun's forehead. However, how could this be? Yes, how could this be? Yan Huan did not come. Then, who was the one who took the children away? who was the one who took her three grandsons away?

Ye Shuyun suddenly felt her head spin and she fell to the ground.

The two nannies were scared out of their wits, even the kindergarten teachers were the same. What was going on? How could a normal person faint so easily.

Yan Huan put down his phone and stood up as well. He was restless and couldn't sit still.

“Lu Yi, Lu Yi...”

She ran out and grabbed Lu Yi's arm. She had never been like this. When Lu Yi was working, she would never disturb him. But this time, she really did not know why she was afraid.

“What's Wrong?” Lu Yi put down the document in his hand and placed his hand on Yan Huan's forehead. “Why are you all sweaty? You're fine. Are you feeling unwell?”

Yan Huan shook her head. She didn't know what to say either.

“Mom called just now and asked me if I've seen the three children recently. I felt that her words were a little strange and she hung up before she could explain it clearly.”

Chapter 2038: premeditated kidnapping

Yan Huan could not be blamed for his suspicions. It was just that ye Shuyun's question was a little strange. She clearly knew that she had a program on Monday. Moreover, she and Lu Yi usually went together and returned together, how could she have seen the children? Moreover, Ye Shuyun's tone at that time did not seem too good. Even if she did not want others to discover it, it would be a little difficult.

Upon hearing Yan Huan's words, Lu Yi frowned slightly. At this moment, the phone beside his desk rang. He brought the phone to his ear, and in an instant, his expression changed drastically.

“What's Wrong?” Yan Huan asked Lu Yi curiously. who called? Was it very serious? Why did his expression look so awful?

Lu Yi placed his hand on Yan Huan's shoulder. He was also considering whether or not to tell her?

“Huanhuan...”he opened his mouth with some difficulty. He really did not know how to tell her about this matter.

“En.”Yan Huan was puzzled and puzzled. She forced out a stiff smile. “Did you make a mistake? Did you secretly hide your money?”Perhaps Yan Huan also felt that the current atmosphere was a little too tense. She was also a little uneasy, so she deliberately said a cold joke that she could not laugh at herself.

She tried for a long time to pull the expression on her face, and she tried for a long time, but she just couldn't smile.

What's going on? Yes, tell me what's going on, what's going on?

“Huanhuan...”

Lu Yi called her name again.

Yan Huan placed her hand on her ear.

“I don't want to hear it.”

She didn't want to hear it, she didn't dare to hear it, and she was afraid to hear it.

To be able to make Lu Yi turn pale with fright, it proved that he couldn't bear it. He couldn't bear it either. So what about her? Tell her, how could she bear it?

She covered her ears and squatted on the ground like a turtle hiding its head

It seemed like if she didn't listen, didn't ask, didn't know, nothing would happen and nothing would happen.

But no matter how long she had been hiding, some things had already happened, so it was impossible for her to pretend that nothing had happened just because she didn't want to listen.

“Huanhuan, it's okay. Don't be afraid.”Lu Yi also squatted down and hugged Yan Huan's body in his arms. But at this moment, even he himself was unconsciously trembling.

‘I'm alright.’Yan Huan took a deep breath. She didn't know if she was consoling herself or Lu Yi.

“What happened? Tell me.”Yan Huan grabbed onto her clothes forcefully. Yes, she could bear it. Yes, she could. She definitely could. No matter what, she had to bear it.

Lu Yi moved his thin lips. The touch of his lips was also filled with bitterness.

“The children are gone.”

Yan Huan only felt her head buzz as it exploded.

She grabbed Lu Yi's hand tightly. Even her fingernails had left a bloody mark on the back of his hand. At this moment, the palms of their hands were dry. At this moment, they were also afraid. They were also afraid.

They had protected the three children so carefully. They had never let them suffer a single bit of injustice.

They could not even imagine what the children would do if they were hungry, Cry, or hurt?

The weather outside had always been cloudy. It was supposed to be sunny. However, now that the sky had turned dark, even the moisture in the air was a little more than it was not long ago. It was also a little more humid, there were also withered leaves that were blown everywhere by the wind.

Yellow leaves had already fallen all over the ginkgo forest in the Liuyuan Garden. They were golden in color.

Yan Huan said that he would let the children go there to play.

It was only Tuesday now. There were still four days left until Saturday.

Yan Huan said that he had learned a few more dishes, and one of them was very suitable for the children to eat.

In the children's clothing store, there was a call a few days ago saying that there were new clothes on the shelves, and she wanted Yan Huan to bring the children over to pick them out.

Yan Huan had said that xunxun had grown a lot taller this year, and she was going to prepare beautiful clothes for her. Her Little Xunxun was a very beautiful girl.

But, how could the children have disappeared? How could they have disappeared just like that?

She didn't believe it. She absolutely didn't believe it. No, many people couldn't believe it. They also couldn't believe it. The children were gone. They were gone. They were lost.

They were all children. They were all very well-behaved. They just obediently stayed in the kindergarten, waiting for their families to come and pick them up. Everyone else picked up their own children.

But tell her, why is her child missing, in the end where it is missing, kindergarten teachers, are all dead, in the middle of the day, her child disappeared, isn't it very strange?

It just disappeared.

It's gone.

In public.

In front of everyone.

The baby was gone.

Lu Yi stopped the car and opened the door. Yan Huan walked out from the car. She was not in good spirits and Lu Yi was very worried about her. He was afraid that if the children were not found, she would break down first, three children were her life. Not to mention three, if one of them were to be in trouble, she would not be able to bear it.

"I'm fine." Yan Huan shook her head, but she held onto Lu Yi's hand tightly. She was very clear that no matter what happened, the children were gone. They were not the most desperate because they had not started searching yet, right.

She couldn't fall at this moment and push everything onto others, blaming the heavens for her injustice. Why did she lose her children? Why did such a thing happen to her, and not to others, and then wait for others to find her children and return them to her.

That would be useless. It would be useless.

Her child, she would find it herself, her child. Even if she had to sacrifice everything, she would find them.

These were her children. They were still young, and they needed a mother. She could not let her children be lost without any reason and suffer again.

If they met a good parent, they would not suffer. However, many of the children who were abducted in this world did not want to be sold to others as children. Instead, they wanted to cripple the children, it was just so that they could pretend to be beggars and demand more money.

She could not bear such a thing, so she wanted to look for his three children. No matter what, even if she lost everything she had now, she still wanted to find her three children.

Lu Yi held Yan Huan's hand tightly.

"We will find them."

"Yes." Yan Huan nodded. She had told herself that she would definitely find them. She would definitely find them.

Lu Yi opened the door. He could feel the gloomy atmosphere inside. Ye Shuyun sat there with a pale face. Ye Xinyu was consoling her, but there was no use consoling her now, unless the three children could be found, the self-blame that almost killed her would torture ye Shuyun to death.

Chapter 2039: suspicious woman

It was her fault. She had gone too late. She had forgotten the time. Otherwise, her three grandsons would not have been taken away. Her Little Qi Xiaoguang and Xun Xun were only four-year-old children, the weather had already changed today. The weather was also cold. How were the three children now? Did they eat or cry? Did those people beat them. Xun Xun was the most timid. Did they harm her.

The more she thought about it, the sadder ye Shuyun became. She couldn't bear it.

Yan Huan let go of Lu Yi's hand and walked over. Then, she squatted in front of ye Shuyun.

"Huanhuan, I'm sorry..." Ye Shuyun almost burst into tears, but she couldn't even cry now.

It was her fault, it was all her fault. She didn't pick up the child, so the child was lost.

Yan Huan reached out and placed her hand on the back of Ye Shuyun's hand. At this moment, Ye Shuyun's hand was very cold. It was almost as if she was touching an ice brick. There wasn't even a trace of warmth.

And Yan Huan was actually similar.

"Mother, this has nothing to do with you."

Yan Huan did not blame anyone. Of course, he also did not blame ye Shuyun because it was not ye Shuyun's fault.

"Believe me." She tugged at her colorless lips, "This person has probably been watching us for a long time. Even if it's not today, it will still be tomorrow. He will use all sorts of methods to take away the three children. In fact, even if it's wrong, it should still be mine. Because it was someone who looked like me who took away the children."

They could even find someone who looked similar to them.

This proved that these people had been scheming for a long time. They had to succeed. Even if it wasn't this time, they would still find countless other times.

Ye Shuyun covered her face and cried again. She missed her three grandchildren. What should she do? As long as she thought of how the three children were hungry, thirsty, and afraid, her heart would ache. She couldn't bear the pain, tell her what to do, what to do, what to do?

Yan Huan did not know how to persuade ye Shuyun again. She could not persuade her. She could not even persuade herself now. It was already her limit that she could say so much, because she was the same as ye Shuyun, she was about to go crazy from thinking about her three children. She was also about to break down from worry. The three children had never left home since they were young. Now that it was so cold outside, what should they do? They were still so young. They must be scared to death.

Lu Yi walked over and placed his hands on Yan Huan's shoulders.

Qingyi would come over in a while. "We will pull up the nearby surveillance cameras. We will find them."

"Okay." Yan Huan nodded lightly. She wanted to smile at Lu Yi, but she couldn't. In fact, she should be crying. However, she couldn't cry, nor could she shed tears.

She was worried about her three children, and she was also thinking about her three children. Therefore, she had to calm down, and she had to persevere.

"Do you want to sleep for a while?"

Lu Yi asked her worriedly. Yan Huan's complexion was very bad now. No, it was simply very bad. She had already become like this.

"I'm fine." Yan Huan shook her head. She wouldn't sleep. If she couldn't find her three children, she definitely wouldn't sleep.

Lu Yi had no choice but to let her sit down. Actually, none of the family members could sleep. As for Old Master Lu, they didn't let him know about it. Instead, they asked he yibin to give him a health care bill, they asked him to go to the hospital to recuperate. If he found out about the disappearance of the three children, the old master might really have to be hospitalized.

The three children were the old man's hope of survival. If anything happened to the three children, the old man's life would be lost here.

At this moment, no one could sleep, and no one dared to sleep. They were all waiting for news. There were already many people outside looking for them, but it was like looking for a needle in a haystack. How Long had it been, however, there was still no news. They did not dare to go out altogether. They had to wait for news, because no one was more suitable than lei qingyi to find people, or better at finding people.

Half an hour later, Lei Qingyi arrived. He placed the computer in his hand on the table.

Then, he opened it and began to type on the keyboard. As he typed, he said, "The school's surveillance did not capture this woman's face. However, the teacher said that this person looked like Yan Huan, so no one doubted her motives. She carried Xun Xun and ran away. Xiao Qi and Xiao Guang followed behind her. It was because they looked too similar that everyone thought that this woman was Yan Huan."

Lei Qingyi stopped the screen, "It's a pity that once we received more accurate information, this woman did indeed come prepared. She was probably afraid that people would take another look at her, so she covered her face."

"The kindergarten teachers didn't suspect anything. After all, Yan Huan is a public figure. It's not strange for him to dress like this on a normal day."

"Also, they didn't drive here, so this is all we can find so far."

Lei Qingyi was also shocked when she heard the news.

Who was so bold to capture the child of the Lu Family? Moreover, this was obviously premeditated. Otherwise, why didn't they take the other children away? Instead, they found a woman who looked like Yan Huan, they came over and took the children away. Moreover, they looked so alike that even the kindergarten teacher didn't recognize them.

The sentence that looked like Yan Huan reminded Lu Yi of something. He stood up and pulled Lei Qingyi's laptop in front of him. His mouse moved slightly, in a short while, a few photos appeared.

Yan Huan stood up and stared at the computer screen.

It was her?

Yes.

It was her.

Yang Keke was the Yang Keke who had undergone plastic surgery. Yang Keke was very similar to Yan Huan, especially under his nose. If the makeup was more detailed, it would be at least 60% similar.

“I’ll go check on this person first.”

Lei Qingyi stood up and quickly called Yi Ling to ask her to help check on the information. He had an impression of this Yang Keke. Although he did not pay much attention to women, Yi Ling would often say that.., this Yang Keke had remade many of Yan Huan’s works. In the end, she had even made herself look like Yan Huan. Moreover, from her words and actions, it seemed like she was imitating Yan Huan.

If it was hard to tell whether someone was telling the truth or not, then this person was indeed the most suspicious. Moreover, she was currently in Hai City, which made her even more suspicious.

Chapter 2040: wasn’t her?

Yi Ling quickly found out Yang Keke’s contact information, but it wasn’t Yang Keke’s, but Yang Keke’s manager’s. Yang Keke had changed her number a long time ago, so she didn’t know what her current phone number was, they could find out, but it was a little troublesome and took up a lot of time. They lacked time the most and were most afraid of the passage of time, so it was better to ask directly

He asked for Yang Keke’s manager’s number and directly dialed it.

The call was quickly connected.

“Hello, May I know who you are?”

This was an unfamiliar number. Yang Keke’s manager had never seen it before. She yawned and was about to sleep. Recently, Yang Keke did not have much activity, so as Yang Keke’s manager.., she began to Pat the flies. All day long, she was either eating or sleeping. She did not know how long it had been.

“I’m from the Security Department.”

Lei Qingyi introduced herself so that the other party would not think that he was calling from somewhere and directly hang up on her.

When Coco Yang’s manager heard that he was from the security department, she immediately sat up straight. She thought to herself that they had not done anything illegal.

However, they had not done anything illegal. Although Keke Yang had recently filmed some bad films and wanted to enjoy the conversation, they had not committed any crimes.

“You don’t have to be nervous. I just have something to ask you.” Lei Qingyi’s voice sounded again with a hint of comfort. However, Keke Yang’s manager was still nervous. Of course, she was even more afraid, who would be at ease after being taken care of by a place like the Safety Hall? How could she not be nervous?

If she wasn’t talking nonsense, then what was she talking about?

“Where’s Yang Keke?” Lei Qingyi asked directly what she wanted to know. “Do you know where she is now?”

“You’re asking Miss Yang?” Of course, the assistant was telling the truth. He didn’t dare to hide anything.

“Miss Yang went abroad.”

“Abroad?” Lei Qingyi’s throat tightened. Could it really be that she did it? was she fleeing for her crimes?

“When did you go?”

He asked again, but there was also some nervousness in his tone.

“Three days ago,” the assistant said honestly.

Three days ago... Lei Qingyi narrowed her eyes. If that was the case, it didn’t make sense. The three children were taken away today, but Coco Yang went abroad three days ago. It was really hard to tell, she couldn’t have grown wings and flown over and back again. It wasn’t her who had grown wings, but a plane. As long as it was a plane, she could find out.

“Can you contact her?”

Lei Qingyi asked Coco Yang’s manager again, unwilling to give up. He felt that this wasn’t a lie, but whether it was the truth or not, he had to check it out himself.

“This is fine.” The assistant quickly gave out Yang Keke’s contact information. After lei qingyi dialed this number, Yang Keke also answered. Of course, she was also very willing to cooperate with Lei Qingyi’s investigation.

“Miss Yang, when did you leave the country?” Lei Qingyi asked. Her expression was not good, and her tone was very serious.

Yang Keke held the phone to her ear, and her face was covered up like a pig’s face.

In order to remove Coco Yang as a suspect from this matter, Su Muran had to cut Coco Yang’s face again. Coco Yang knew that the people over there would definitely find her, therefore, Su Muran had already prepared everything in advance. He first let her leave the country, then found a private hospital and performed a fake surgery.

Her people were still in the country, and they still had to do that for Su Mulan.

After the matter was done, they would smuggle her out. This way, she would have time to be out of the country and perform the surgery abroad. The surgery list was very clear. It was three days ago, however, in reality, she had just finished the surgery an hour ago. Her entire face was swollen and she could not stand the pain. Even the slightest breath made her face want to die.

Yes, this was arranged by Su Mulan. It was not to cure her, nor was it to help her get back her face. Su Mulan did this not to help her, but to help herself. She wanted to remove her own face, she wanted to remove others as well. Therefore, Yang Keke was already here.

According to Su Mulan’s method, Yang Keke did not have time to commit crimes because she had undergone surgery.

What Surgery? What surgery was on her face? What surgery was on her face? She was removing the prosthesis.

She was the one who had to endure the pain, but now, she had to take out the prosthesis. She had to endure the pain, and she had to endure the pain. Why did she have to do this? When this matter was

over, she wanted to quit this industry, if she wanted to be an ordinary woman, she just had to have a proper job. She did not want to think about anything else.

Lei Qingyi put down the phone in his hand.

He glanced at Lu Yi and shook his head, "Based on the current evidence we have, Yang Keke had a prosthetic surgery overseas. The surgery was three days ago. I also found out her boarding information. It was indeed three days ago. It might not be her."

"There are many ways to eliminate the suspicion." Yan Huan did not believe it. Her intuition was telling her that the disappearance of her child was related to that woman. What three days abroad, and what surgery.

It was because the excuse was too perfect that it could not be her. That was why she felt that something was wrong.

And this woman, Coco Yang, was the most suspicious.

In his previous life, Yan Huan had interacted with Coco Yang. This woman was very arrogant, and of course, she didn't like to be compared to her. What she hated the most was others comparing the two of them. And now, she had changed her face.., wasn't it very strange to film her?

And now that her child had been lost, she absolutely didn't believe that it had nothing to do with that woman. There must be something wrong with the abnormality. She believed in this saying.

"I will personally investigate it."

Lei Qingyi naturally would not easily believe Yang Keke's words. After all, she was indeed the most suspicious person. This was definitely not wrong. The problem now was that they had to find the child as soon as possible.

The three children were still too young. They were all four years old. A four-year-old child still needed to find his mother to hug and comfort him. No matter how precocious Yan Huan's child was, it was impossible for him to be able to take care of himself.

No one could fall asleep that night, but it was unknown if it was because of that sentence. It was raining all the time, and in the second half of the night, it started to rain heavily outside. It was late autumn, and it was very cold.

Lu Yi clenched Yan Huan's hands tightly, but he realized that her hands were very cold. She was worried about the children, he knew that, but he could not comfort her?
