

Swordsman 1601

Chapter 1601: Jian Wushuang's Treatment

"You're really..." Hall Master Yuan's eyes shone brilliantly right away and he laughed, "Haha. Jian Wushuang, your luck is not too bad."

"My luck is not too bad. However, I have a question now," Jian Wushuang had an indifferent expression, "I have heard that the requirements to enter the Thunderbolt Island are extremely high?"

"Indeed. The minimum requirement to enter the Thunderbolt Island is to be an Eternal Real God," Hall Master Yuan nodded his head and laughed soon after: "However, in terms of realm, you do not need to be an Eternal Real God; it will be fine as long as you have the fighting capabilities of an Eternal Real God. For example, there are some Void Real Gods at the Thunderbolt Island as well. In particular, most of these Void Real Gods are those who stand at the top and they are geniuses who are extremely outstanding. However, the key point is that they are not Eternal Real Gods."

"Since Void Real Gods are able to enter, as long as the abilities of a Universe God like you are able to achieve that level, you will naturally be able to enter the Thunderbolt Island."

"Is that so?" Jian Wushuang's eyes brightened up.

"In actual fact, I had already made preparations for you to go to the Thunderbolt Island even if you didn't obtain this Token of the Fairy Palace's Legacy. I have filed an application to the higher-ups of the Sanctuary Alliance to get a Token of the Fairy Palace's Legacy for you by paying a price for it," Hall Master Yuan said.

"What?" both Real God Wu Liang and Real God Fei Yan looked over with surprise.

"In the history of the Lineage of Star, you are the most outstanding genius disciple and you possesses an immeasurable amount of talent. As such, the Lineage of Star will naturally do its best to nurture you. Moreover, it's only one Token of the Fairy Palace's Legacy. Although it's precious, it's nothing to the Lineage of Star. Not only will I help you to get a Token of the Fairy Palace's Legacy now, but in sixty thousand years, the new Token of the Fairy Palace's Legacy that is given out by the Sanctuary Alliance will also be given to you. However, the requirement for this is that you must have already made a breakthrough to a Real God," Hall Master Yuan laughed.

After hearing what was said, Real God Wu Liang and Real God Fei Yan were completely stunned.

They then looked at Jian Wushuang at once and their eyes were filled with enviousness.

It should be known that deacons of the Lineage of Star like them wanted the Token of the Fairy Palace's Legacy so much that they even dreamt about it. However, no matter how hard they fought for it, they were unable to get such an opportunity.

However, what about Jian Wushuang?

When he was a Universe God, he would be given a Token of the Fairy Palace's Legacy. After sixty thousand years, he would be given a second one as long as he became a Real God?

He did not even need to fight with anyone. Moreover, even without needing him to request for the token, Hall Master Yuan would have also taken the initiative to make preparations for him.

Such treatment...

When comparing his treatment to others, it was really infuriating.

Even Jian Wushuang himself was a bit dumbfounded.

"Hall Master Yuan, since you have already made a trip to exchange a Token of the Fairy Palace's Legacy with the higher-ups of the Sanctuary Alliance for me, then the token with me..." Jian Wushuang did not finish speaking.

"Since you have obtained this Token of the Fairy Palace's Legacy yourself, it is naturally yours," Hall Master Yuan laughed.

"In other words, I can have two Tokens of the Fairy Palace's Legacy when I am a Universe God and sixty thousand years later, I will be able to get a third token if I make a breakthrough to a Real God by then?"

"That's right," Hall Master Yuan nodded his head, "For the Token of the Fairy Palace's Legacy, one token will only allow you to choose one Fairy Palace to comprehend for one hundred years. However, you have been comprehending the Reincarnation Doctrine and Spacetime Doctrine at the same time. Hence, if you have two tokens, you can comprehend a hundred years each in the Reincarnation Doctrine's Fairy Palace and in the Spacetime Doctrine's Fairy Palace.. that would be just nice for you."

"However, isn't this a bit..." Jian Wushuang had a puzzled expression.

"A bit what? A bit too biased?" Hall Master Yuan sneered, "If anyone feels that way, tell him to try to fight an Eternal Real God on equal footing when he is still a Universe God. If he is able to do it, I guarantee that I will give him the same treatment. Moreover, this matter is not decided by me alone; it is decided by me, the Palace Master and the two other Hall Masters after some discussion. Thus, who in the Lineage of Star would dare to have something to say?"

After hearing what was said, Real God Wu Liang and Real God Fei Yan who were by the side looked at each other and they forced a smile.

They knew that for this matter, Hall Master Yuan was not being biased. Instead, the talents that Jian Wushuang displayed were indeed worthy enough for the Lineage of Star to pay such a big price to nurture him.

Even if the news were to spread, the experts in the Lineage of Star could at most be envious of Jian Wushuang and they would not be dissatisfied in the slightest bit.

After all, the Lineage of Star was just like that. One would need to display abilities that were good enough to earn the Lineage of Star's resources.

"We shall leave this matter as such. In no time, the Token of the Fairy Palace's Legacy will come. At that time, I will send people to bring you to the Thunderbolt Island," Hall Master Yuan said.

"Understood," Jian Wushuang said.

“Oh right, I heard from Wu Liang that you have already cultivated the second volume of the Secret Skill of Star Palace successfully?” Hall Master Yuan looked toward Jian Wushuang abruptly.

“That’s right,” Jian Wushuang nodded his head.

“That’s great,” Hall Master Yuan had a beaming smile and it was only after a long time that he calmed down. He then warned: “Remember this, Jian Wushuang. From now on, unless there is a need to, try to refrain from using the Secret Skill of Star Palace. This Secret Skill is a trump card and if you were to use it properly, you would be able to turn the tide during a critical situation. Hence, you had better not let other people know about it. In addition, I will also tell Wu Liang and Fei Yan to keep this matter to themselves.”

“Understood,” Jian Wushuang nodded his head again.

“That’s it. You may leave now,” Hall Master Yuan waved his hands.

Jian Wushuang, Real God Wu Liang and Real God Fei Yan then went their own separate ways.

After returning to the Sword Star, Jian Wushuang started to train again. At the same time, he was also waiting quietly for the second Token of the Fairy Palace’s Legacy to arrive.

He was looking forward to the Thunderbolt Island as well as the Fairy Palace on it.

On the other hand, the news of him obtaining two Tokens of the Fairy Palace’s Legacy in one go and the fact that he might even get a third token in the future started to spread in the Lineage of Star.

After many experts in the Lineage of Star knew about that, many of them gasped.

However, no one was jealous.

All of them knew that Jian Wushuang had obtained everything with his own abilities.

If they had the same abilities as well, they would definitely have gotten the same treatment as Jian Wushuang. However, it was a pity that they did not have the same abilities.

In the blink of an eye, ten years had passed and the second Token of the Fairy Palace’s Legacy finally arrived.

“Jian Wushuang, I will get Wu Liang to send you to the Thunderbolt Island. As for some of the matters regarding the Thunderbolt Island, Wu Liang will tell you about it clearly. In addition, after reaching there, remember to train properly and don’t miss this opportunity at any cost,” Hall Master Yuan warned.

Jian Wushuang naturally agreed to it. After that, he went to the Thunderbolt Island together with Real God Wu Liang.

“Elder Wu Liang, I’m sorry for troubling you to bring me to the island,” Jian Wushuang was standing in front of Real God Wu Liang.

“No problem. It just so happened that I was planning to go to the Thunderbolt Island as well. Therefore, sending you there is no trouble,” Real God Wu Liang laughed.

“Elder Wu Liang is planning to go to the Thunderbolt Island as well? For training?” Jian Wushuang asked randomly.

“Yes” Real God Wu Liang nodded his head, “The Thunderbolt Island does not only contain the Fairy Palace; it also contains other opportunities as well as special training grounds.”

Chapter 1602: Thunderbolt Island

“Thunderbolt Island is Sanctuary Alliance’s lair. There are many opportunities and cultivation places. To us, Eternal Real Gods, these are all of great use. The experts from each force in the ten sanctuaries would like to cultivate in Thunderbolt Island too. Similarly, it is restricted too. Sanctuary Alliance set a rule that Eternal Real Gods under the control of the great forces get a chance to head to Thunderbolt Island for cultivation every one hundred years and the cultivation period can last for three thousand years each time,” Real God Wu Liang said.

“There’s such a rule?” Jian Wushuang was astonished.

“No choice. After all, forces in the ten sanctuaries, including many solo experts, all the Eternal Real Gods are members of Sanctuary Alliance. The total number of all Eternal Real Gods is large while the resources on Thunderbolt Island is limited. Hence, there must be rules. Otherwise, all Eternal Real Gods would stay on Thunderbolt Island all year round. The resources on Thunderbolt Island would have been exhausted long ago.” Real God Wu Liang said.

“True,” Jian Wushuang smiled and nodded in agreement. But his face suddenly changed, “In other words, I can only stay on Thunderbolt Island for three thousand years?”

“Yes, that’s why Hall Master Yuan told you to seize your chance. If you were to waste this opportunity, you would have to wait another one hundred thousand years to visit Thunderbolt Island again,” Real God Wu Liang said, “Of course, if you were to achieve one condition, you would receive the right to stay on Thunderbolt Island permanently.”

“What condition?” Jian Wushuang asked.

“Pass the fifth level of Doctrine Palace!” Real God Wu Liang said.

“Er...” Jian Wushuang was shocked at first, then gave a bitter smile.

The fifth level of Doctrine Palace?

One should know that he only possessed the standard to pass the second level of Doctrine Palace. He was still far away from the third level, let alone the fifth level.

“Many Chaotic Real Gods have yet to reach the fifth level of Doctrine Palace, right?” Jian Wushuang asked.

“Yes, normally, a Chaotic Real God’s standard is to pass the fourth level of Doctrine Palace. As for the fifth level, only extremely strong Chaotic Real Gods on the top would be able to pass through that level. Also, only they would get the right to stay on Thunderbolt Island forever,” Real God Wu Liang said.

Jian Wushuang understood too.

Those who had passed through the first level would be the top Void Real Gods.

Those who passed through the second level would be ordinary Eternal Real Gods.

The third level would be considered the top Eternal Real Gods. For instance, Real God Wu Liang, Real God Dan Ding, Real God Ming Xin were on this level.

The fourth level would be the standard of an ordinary Chaotic Real God.

The fifth level would be the top of Chaotic Real Gods. Real God Long Qing who went to Blood Demon Church to catch Lord Leng alive with Jian Wushuang back then was barely at that level.

The sixth level would be the standard of an expert on Real God ranking list.

The seventh level... to enter the seventh level from the sixth level, there was a huge threshold. One who reached this level would have reached the standard of an Almighty in terms of comprehension towards Heaven Way.

Many Almighties were on this level. Also, there were a few monsters listed in the top few on Real God ranking list who were also at this level.

"The fifth level of Doctrine Palace is too far away from me," Jian Wushuang smiled.

"Who's not?" Real God Wu Liang shook his head too, "There are many Real Gods in Lineage of Star and there are some who are Chaotic Real Gods. However, those who could stay on Thunderbolt Island all year round, including Lei Chao, there are only eight of them."

"Eight?" Jian Wushuang was surprised.

Even such a great force like Lineage of Star only had six people who had reached the criteria. The total number of experts from all forces in the ten sanctuaries who reached the criteria was probably not many.

Of course, that was if the Almighties were excluded.

The Almighties definitely had the right to stay on Thunderbolt Island permanently.

Jian Wushuang and Real God Wu Liang chatted casually as they hurried their journey. Very soon, they arrived at Cloud Island.

There were many wormholes on Cloud Island. Among the wormholes, there was one that connected directly to Thunderbolt Island. It was just that there were not many that activated it normally.

With a wormhole, Jian Wushuang and Real God Wu Liang stepped foot on Thunderbolt Island very quickly.

...

"This is the lair of Sanctuary Alliance, Thunderbolt Island?"

Jian Wushuang looked around and there was a giant floating island.

The island was extremely huge and boundless. On the island, there were tall mountains that could be seen faintly. There were also palaces and pavilions that were floating in the void.

Jian Wushuang was at the border of the island while there was a faint green light lid behind him. The green light lid covered the entire island and there was green lightning flashing in the lid faintly as though it was going to swallow the world.

The randomly flashing green lightning gave Jian Wushuang a chill after just one glance.

He could tell that if a bolt of slight green lightning were to strike him, it would shatter him into pieces and he would be doomed forever.

Just then, Jian Wushuang's expression suddenly changed.

"This is...?" Jian Wushuang looked at his palm. He gripped his fist, then he creased his eyebrows.

"Why? Do you feel your divine power weakening?" Real God Wu Liang looked at him.

"Yes," Jian Wushuang nodded faintly.

Although he was only a Universe God, as an inverse cultivator, his explosion of divine power could be compared to the top Void Real God favorably. It was maybe even not much weaker than an Eternal Real God. However, he could clearly feel that his divine power was only at the level of an ordinary Real God.

"It's very normal. Every expert who comes to Thunderbolt Island, including Almighties, have their divine power restricted!"

"Real Gods like us, regardless if we are Void Real Gods, Eternal Real Gods or Chaotic Real Gods, our divine power would only maintain at the level of an ordinary Void Real God when we are here. As for Almighties, their divine power would maintain the level of an ordinary Almighty's level," Real God Wu Liang explained.

"I see," Jian Wushuang understood.

As everyone's divine power was restricted, he naturally found it acceptable.

Plus, to him, it was good news.

After all, his divine power should be bottom of the people on Thunderbolt Island. But then as their divine power was equal, when they fight against one another to learn from each other, they were only competing for their comprehension of Heaven Way and also unique skill and secret skill. The vast difference in terms of divine power wouldn't exist.

"Follow me," Real God Wu Liang brought Jian Wushuang to the middle of the island.

As they plunged forward, he briefed Jian Wushuang about the fundamental of Thunderbolt Island.

"Jian Wushuang, listen up. On Thunderbolt Island, you must remember one thing. They prohibit fighting and killing without permission."

"After all, Sanctuary Alliance gathered countless sects within Ten Cultivation Sanctuaries, including many solo experts. Between these forces and experts, there were many that harbored hatred against one

another. But regardless of your resentment, no one can launch an attack on Thunderbolt Island. If the hatred can't be resolved, there will be a Fighting Space designated for battle on Thunderbolt Island and also and Life and Death Space. They can head over there to resolve it.

Chapter 1603: Opportunities Everywhere

"Fighting Space. This is where both people fight and see who is stronger."

"Life and Death Space. In here, you will regain your Divine Power completely and you can fight to the death!"

"Apart from these two places, if you were to fight someone else in any other places, you would be punished immediately. Hence, no matter how deeply rooted your hatred is, you must absolutely remain calm. You must know that quite a number of Emperor-level super experts oversee the Thunderbolt Island. The moment you attack someone at any other places, they will suppress you immediately and not give you any chance," Real God Wu Liang said.

"Emperor-level?" Jian Wushuang was shocked.

He also knew that Emperor-level experts were at the level of Sanctuary Masters.

For example, the Purple Moon Sanctuary Master was the Purple Moon Emperor!

Back then, Jian Wushuang had obtained two White Blaze Fruit trees from Wu Bei's cave. As the two White Blaze Fruit trees were extremely valuable, even the Star Palace Master only dared to be in the possession of one of them. As for the other tree, it was given to the Purple Moon Emperor so that he would support the Lineage of Star. With that, no one in the ten Sanctuaries dared to set their eyes on the White Blaze Fruit tree in the Lineage of Star.

This was how high the deterrence level of an Emperor-level super expert was.

With quite a number of Emperor-level super experts overseeing Thunderbolt Island, no one in the ten Sanctuaries would dare to act presumptuously on Thunderbolt Island.

"Jian Wushuang, look," Real God Wu Liang pointed toward a direction abruptly.

"That's...?" Jian Wushuang saw that there was a lofty mountain at the end of the direction. However, at the middle of the mountain, there was a large saber marking that was made using a saber.

Not only could the saber marking destroy the universe, it was also extremely intimidating.

"What a frightening stroke," Jian Wushuang revealed a panicked expression.

"That is left behind by an Almighty of the Sanctuary Alliance. Even though it's only a saber marking, it still made many Real Gods who are proficient in saber skills obsessed with it," Real God Wu Liang said.

Jian Wushuang also saw that at the foot of the lofty mountain, there were two shadows sitting down with their legs crossed and they were most likely comprehending the saber marking.

“A saber marking left behind by an Almighty has actually been placed there randomly?” Jian Wushuang was surprised.

“Haha. It’s not only saber markings. Look over there,” Real God Wu Liang pointed at another direction.

Jian Wushuang looked in his direction and his pupils shrank at once.

That was a floating statue of a purple, crawling Exotic Beast. Its consciousness and size were not too big, it was floating in the air and it was also not too eye-catching. However, a total of ten Real Gods were surrounding it and they were comprehending the hidden secrets that the statue contained.

“What a peculiar statue.”

Although Jian Wushuang was looking at the statue from a long distance away, he nearly got absorbed by it.

That statue contained the shocking Myriad Beasts Doctrine.

“Now, look over there...” Real God Wu Liang pointed toward another place.

Jian Wushuang also saw many other peculiar places at the Thunderbolt Island. There were three holes that were created by three long spears, there were wonderful and unfathomable patterns, there were many different kinds of ancient characters...

Every place was extremely profound and there was quite a number of Real Gods studying them intensively.

At the same time, Jian Wushuang also saw three shocking sword markings and every marking had extremely similar qualities. Moreover, every marking caused Jian Wushuang to be stunned.

“Those three sword markings were left behind by the owner of the Sky Sword Mountain,” Real God Wu Liang explained.

“No wonder,” Jian Wushuang nodded his head.

The owner of the Sky Sword Mountain was an Almighty who was proficient in Sword Principles with great Sword Skills. Hence, the sword markings that he left behind were naturally not normal.

“The Thunderbolt Island is too incredible,” Jian Wushuang exclaimed with admiration.

During his walk, he saw tens of special places. Some of them were left behind by top Chaotic Real Gods, while some of them were left behind by Almighties.

In short, if those peculiar places were placed in the outside world, they would definitely attract a great number of cultivators to comprehend them. However, in Thunderbolt Island, they could be seen everywhere.

“Thunderbolt Island is full of opportunities everywhere. Those that you have just seen were merely a small part of it. For the opportunities, you have to look for them slowly and it is entirely by luck. If your luck is good, you will be able to find something that is helpful to you. However, if your luck is bad, you will be unable to find anything. For example, if I were to add the total amount of time that I have spent in the Thunderbolt Island, the time would amount to tens of thousands of years. During that period of

time, I have found a few peculiar places that were suitable for me to comprehend in. However, I have never managed to come across a big opportunity,” Real God Wu Liang said.

“A big opportunity?” Jian Wushuang’s expression changed.

“A big opportunity is where one is able to raise his abilities greatly in a short amount of time,” Real God Wu Liang laughed, “This kind of opportunity does not have a requirement. Be it left behind by a Chaotic Real God or an Almighty, as long as it is very helpful to you such that it can raise your abilities greatly, it works as a big opportunity.”

“I agree,” Jian Wushuang nodded his head as well.

Be it an opportunity or anything else, the best thing was for it to be suitable for oneself.

“Jian Wushuang, look over there,” Real God Wu Liang pointed toward another place again.

Jian Wushuang looked over immediately and he saw a lofty palace that was floating in the air. The palace was extremely big and it looked extremely imposing.

“That’s the Doctrine Palace,” Real God Wu Liang said.

Jian Wushuang’s body and mind became frozen.

Doctrine Palace... In the Eternal Chaotic World, the comprehension of the Power of Heaven Way by cultivators were based off the standards of the Doctrine Palace by using it as a reference.

Jian Wushuang had also heard of the Doctrine Palace a long time ago. However, he had never tried challenging it for real.

It was only until the very moment that he finally saw the real Doctrine Palace.

“The Doctrine Palace has nine levels. From here on, when you train in Thunderbolt Island, if you wish to check how much your abilities have grown, you can challenge the Doctrine Palace,” Real God Wu Liang said.

“Look over there. That area was left behind by a few top experts. In particular, that area includes a cave that was left behind by some experts. The cave also contains opportunities. However, the requirement is that you must pass their test...”

“There is a big wasteland in the middle of that huge mountain range which contains countless stone tablets. Records of a few Unique Skills are recorded on the stone tablets and you can study them directly.”

“There is also that ancient tower. The ancient tower contains videos of fights of countless experts and you can study it directly as well.”

Real God Wu Liang continued to introduce the different places in the Thunderbolt Island.

As Jian Wushuang listened on, he became even more dumbfounded.

When he first came to the Lineage of Star back then, he was already extremely dumbfounded by the excessive training resources that the Lineage of Star possessed.

However, even though the Lineage of Star contained a lot of resources, what was it as compared to the Thunderbolt Island?

It could not even be compared.

“As expected of the Thunderbolt Island which is the base of the Sanctuary Alliance. It’s indeed a place that countless experts yearn to come to,” Jian Wushuang gasped in admiration.

Under the guidance of Real God Wu Liang, Jian Wushuang came to the middle of the island in no time. Over there, he saw a total of thirteen extremely huge palaces.

For the thirteen palaces, every one of them was like a vast, lofty mountain and they were split into two regions. The first region contained four palaces while the region behind contained nine palaces.

“Jian Wushuang, what you are seeing right now is the thirteen Fairy Palaces which are famous in the Thunderbolt Island!”

Chapter 1604: Reincarnation Fairy Palace

Jian Wushuang looked at the lofty palaces before him.

Every palace gave him an extremely shocked feeling.

“Jian Wushuang, follow me.”

Real God Wu Liang brought Jian Wushuang to the front of those palaces then they landed on one of the platforms. Real God Wu Liang immediately revealed a humble manner when he landed.

Then, at the front of the platform, there was a figure than gradually substantiated. It was a tan-skinned elderly who looked really scrawny in hemp clothes.

The elderly looked ugly but the aura that he gave out was aloof.

“Almighty?” Jian Wushuang squinted his eyes and he immediately behaved respectfully.

“Old Snake,” Real God Wu Liang greeted politely.

“Lineage of Star’s?” The tan-skinned ugly-looking elderly, Old Snake, glanced at Real God Wu Liang then at Jian Wushuang.

“Oh?” Old Snake looked surprised but he quickly resumed normalcy, “A Universe God who can come to Thunderbolt Island. You should be the inverse cultivator in Lineage of Star. I have heard of you before. As for your name, I can’t recall.”

“I’m Jian Wushuang. Greetings, senior,” Jian Wushuang bowed as he replied.

“Senior?” Old Snake laughed, “Just call me Old Snake like everyone else.”

“Jian Wushuang, Old Snake is the person in charge of Fairy Palaces. Whoever intends to enter Fairy Palace on Thunderbolt Island has to acquire his permission,” Real God Wu Liang introduced.

“Oh, I see,” Jian Wushuang understood.

“You want to enter Fairy Palace? Pass me your token of the Fairy Palace’s Legacy,” Old Snake said.

Then, Jian Wushuang immediately took out a token of the Fairy Palace’s Legacy.

“With this token of the Fairy Palace’s Legacy, you can choose to enter any Fairy Palace and comprehend for a hundred years. You can opt to stay for one hundred years in one go, or you can opt to comprehend periodically. Every time you enter to comprehend, you must at least stay for a year,” Old Snake said.

“There are options?” Jian Wushuang beamed with joy and smiled, “This is my first time entering Fairy Palace. I don’t know what I’ll encounter. I’ll go in to comprehend for one year first.”

“Sure,” Old Snake nodded. He waved the token of the Fairy Palace’s Legacy in his hand faintly. Then, he returned the token of the Fairy Palace’s Legacy to Jian Wushuang.

After Jian Wushuang took it back and skimmed through it with Soul Power. He immediately noticed that there was a number on the token of the Fairy Palace’s Legacy, the number was ninety-nine.

“It meant that I have ninety-nine years left?” Jian Wushuang smiled.

“Jian Wushuang, I heard that you once retrieved the Painting of Understanding Sword via Reincarnation by Real God Jue He.” Real God Wu Liang suddenly looked at him.

“Yes,” Jian Wushuang nodded.

The Painting of Understanding Sword via Reincarnation had provided great help to Jian Wushuang in terms of Reincarnation Doctrine and Sword Principle at the beginning.

But then, as his comprehension towards Reincarnation Doctrine and Sword Principle had continued to increase, the Painting of Understanding Sword via Reincarnation wasn’t as helpful as before.

“The Painting of Understanding Sword via Reincarnation by Real God Jue He actually was created in the simulation of Fairy Palace. You have the experience of comprehending the Painting of Understanding Sword via Reincarnation so you should be able to avoid the roundabout ways when you are comprehending in Fairy Palace,” Real God Wu Liang said.

“Really?” Jian Wushuang looked shocked.

“You’ll know when you go in and try,” Real God Wu Liang flashed a mysterious smile.

Jian Wushuang walked towards one of the Fairy Palaces immediately without hesitation.

“Reincarnation Fairy Palace.”

Jian Wushuang looked at the Fairy Palace before him and smiled. Then, he immediately entered the Fairy Palace.

It was a vast and boundless starry night. The starry night stretched as far as his eyes could see and it was dim.

Jian Wushuang was standing right in the middle of the vast starry night.

“Starry night? This feels just like Real God Hall in Lineage of Star,” Jian Wushuang looked confused.

But just as he was thinking, the starry night immediately changed. The strange strength that filled the air gathered in the starry night. In the end, it derived into one scroll painting after another. The scroll paintings were scattered around Jian Wushuang. Jian Wushuang took a closer look and realized that there were a total of twenty-seven scroll paintings.

The twenty-seven scroll paintings, every one of them was huge. On every scroll painting, there was a mountain, a mountain that was made of broken stones.

Jian Wushuang looked at one of the scroll paintings and he saw every single stone that made out the mountain in the scroll painting. Every single stone gave a distinct feeling to Jian Wushuang.

“Reincarnation Doctrine?” Jian Wushuang was stunned and he was enveloped by the scroll painting right in front of him.

The mountain in the painting was made of countless stones flawlessly.

A total... of eleven thousand one hundred and eleven stones.

At that very moment, under Jian Wushuang’s full attention, every one of the eleven thousand one hundred and eleven stones turned into a part of Reincarnation Doctrine.

“This, this... is too magical!”

Jian Wushuang stared and immediately looked at the other twenty-six scroll paintings while the twenty-six scroll paintings were also mountains that were made of eleven thousand one hundred and eleven stones.

Every single stone was part of Reincarnation Doctrine.

A part to the entire Reincarnation Doctrine could be nothing. But mountains that were formed by eleven thousand one hundred and eleven of parts each played an extremely important position in Reincarnation Doctrine.

Twenty-seven scroll paintings. If the twenty-seven mountains were to combine... It would be a complete Reincarnation Doctrine!

“I understand!”

“This is dissection!”

“One, or maybe a few, experts who reached a high level in Reincarnation Doctrine teamed up and dissected the complete Reincarnation Doctrine in detail.”

“They dissected Reincarnation Doctrine into twenty-seven parts and every part was dissected into eleven thousand one hundred and eleven elements!”

“Making complications simple!”

“An unbelievable measure!”

Jian Wushuang’s gaze was filled with astonishment.

One should know that a complete Reincarnation Doctrine was unfathomable and it was extremely difficult to study and comprehend.

If it were to be dissected perfectly, dissecting Reincarnation Doctrine into twenty-seven parts would make it much easier to comprehend.

It was just like if a person were to eat a big pancake, it would be impossible if a person wanted to eat it all in one. No one would be able to do so. Hence, if he were to cut the pancake into four or eight pieces, it would be much easier to eat.

The twenty-seven scroll paintings in Reincarnation Fairy Palace worked on the same principle.

“No wonder Elder Wu Liang said that the Painting of Understanding Sword via Reincarnation by Real God Jue He derived from Reincarnation Fairy Palace. It was really so. However, Real God Jue He was only a Real God after all. No matter how he simulated, he merely copied part of it, but the Painting of Understanding Sword via Reincarnation was still extraordinarily precious.”

“Comparing the Painting of Understanding Sword via Reincarnation to the twenty-seven scroll paintings in Reincarnation Fairy Palace, they were miles apart.”

Jian Wushuang was exclaiming in surprise.

Plus, Jian Wushuang also found out that the twenty-seven scroll paintings had not only dissected the Reincarnation Doctrine so flawlessly and so simply, but the scroll paintings also contained extremely strong guiding power too.

...

Chapter 1605: Real God Tian Ming

The Power of Guidance guided Jian Wushuang to every picture scroll to comprehend them.

“Twenty-seven picture scrolls. I have already comprehended the first six picture scrolls completely and I am going to comprehend the seventh picture scroll now,” Jian Wushuang understood instantly.

The twenty-seven picture scrolls were placed according to the nine levels of the Doctrine Palace.

Every three picture scrolls represented one level.

In the aspect of the Reincarnation Doctrine, Jian Wushuang already possessed the ability to clear the second level of the Doctrine Palace. Hence, he had already comprehended the first six picture scrolls completely.

What he needed to comprehend at the very moment were the seventh to ninth picture scrolls. By comprehending the hidden secrets within the three picture scrolls, he would be able to clear the third level of the Doctrine Palace.

“Let’s begin.”

Jian Wushuang started to comprehend thoroughly at once.

He realized that within the Reincarnation Fairy Palace, his affinity toward the Reincarnation Doctrine had increased greatly and it was easier for him to comprehend compared to the outside world.

In addition, the shocking technique to make the twenty-seven picture scrolls in front of him easier to comprehend had caused Jian Wushuang's comprehension speed to increase by countless times.

In just one month's time, Jian Wushuang had completely comprehended the seventh picture scroll.

Of course, this was because of the fact that at the very start, Jian Wushuang's level of comprehension of the Reincarnation Doctrine was already very close to being able to comprehend the seventh picture scroll completely.

Next, Jian Wushuang continued to comprehend the eighth picture scroll.

Time passed by and one year's time was up in no time.

Jian Wushuang who was in the Reincarnation Fairy Palace was pulled by a kind of power and his body was sent outside the Fairy Palace.

It was only after arriving outside the Fairy Palace that Jian Wushuang opened his eyes and regained his senses from the state of comprehension.

"It's too engrossing. Even though I felt that I have only comprehended for a short while, one year's time passed by already," Jian Wushuang smiled and he was extremely excited.

It must be known that during the short one year, his comprehension of the Reincarnation Doctrine improved greatly. He had comprehended the seventh picture scroll completely as well as a portion of the eighth picture scroll.

For such an improvement, if he were in the outside world comprehending by himself, he would need at least hundreds of years to achieve the same improvement.

"In just a short, one year's time, I have improved so much. Moreover, I still have ninety-nine years," Jian Wushuang smiled, "I shall not rush my comprehension in this Fairy Palace. Since this Thunderbolt Island is full of opportunities everywhere, I shall take a look around first."

After Jian Wushuang made up his mind, he left the Fairy Palace immediately and started to walk around the Thunderbolt Island.

As for Real God Wu Liang, he had gone to start his own comprehension somewhere else and it was not possible for Jian Wushuang to follow him all the time.

On the island, there were many Real Gods and most of them were making the best use of their time to immerse themselves in training.

When Jian Wushuang walked past them, most of the Real Gods did not notice him. However, there were still a small portion of them who noticed him.

"A Universe God?"

Those Real God experts who realized the existence of Jian Wushuang then revealed a surprised expression. However, they understood in no time.

"In the Eternal Chaotic World, there is only one person who can come to the Thunderbolt Island as a Universe God. Thus, he must be Jian Wushuang of the Lineage of Star!"

"Yes, it's him. Previously, I have seen him with Real God Wu Liang of the Lineage of Star. I also heard that he had gone to the Fairy Palace as well."

"He is able to come to the Thunderbolt Island as a Universe God. Moreover, he also has the Token of the Fairy Palace's Legacy. Hehe. I'm really envious of him."

Those Real Gods were all whispering.

Jian Wushuang ignored them and continued walking. After a short while, he appeared below a stone wall.

It was an extremely huge stone wall and it contained tens of ancient characters that had been carved flamboyantly.

Every ancient character was emitting an extremely special aura.

As soon as Jian Wushuang saw those ancient characters, his eyes brightened up.

"Sword Principles? Moreover, it's Sword Principles that are swift, fierce and tough," Jian Wushuang exclaimed with admiration.

He could feel that every one of the tens of ancient characters was actually a Sword Principle. The only difference was in terms of their power.

Jian Wushuang sat down below the stone wall with his legs crossed. After that, he closed his eyes and immersed himself in the ancient characters.

Those ancient characters were most probably left behind by a first-rate Real God who was proficient in Sword Principles. Although it would not be of much help to Jian Wushuang, it could still give him some inspiration.

At the same time that Jian Wushuang was comprehending below the stone wall.

On the Thunderbolt Island, there was a purple-armored, handsome man sitting atop a giant rock which was filled with secret patterns with his legs crossed.

"Real God Tian Ming."

When the sound was heard, a seductive and beautiful married woman appeared beside the giant rock.

The purple-armored handsome man opened his eyes slowly and looked over, "Do you have something for me?"

"Nothing. I am only here to tell you that the Lineage of Star's Inverse Cultivator has come to the Thunderbolt Island," the seductive and beautiful married woman said.

"Jian Wushuang?" the eyes of Real God Tian Ming, the purple-armored handsome man, shrank immediately, "Where is he now?"

“He’s before the stone wall that has been left behind by Real God Hei Jue and it seems like he is comprehending at this very moment. If you go over there, you should be able to find him,” the seductive and beautiful woman said.

“Thank you,” after Real God Tian Ming had thanked her, he headed in the direction that Jian Wushuang was in straight away.

After seeing that, the seductive and beautiful married woman laughed indifferently.

She knew that Real God Tian Ming would be interested in Jian Wushuang.

...

Below the stone wall with tens of ancient characters, Jian Wushuang opened his eyes slowly after comprehending for more than one hour.

“The Sword Principles within the ancient characters are not of much help to me. However, after comprehending them once, it has allowed me to have some new knowledge of Sword Principles,” Jian Wushuang laughed and he was about to leave.

Swoosh!

All of a sudden, a purple, glittering light flew over and landed below the stone wall in front of Jian Wushuang.

“Eh?” Jian Wushuang raised his head and looked toward the person who had come.

A few Real Gods who were comprehending below the stone wall were alarmed as well and they looked over.

“It’s Real God Tian Ming?”

Those people recognized the identity of the person who had just arrived. After that, they had a puzzled expression.

“Jian Wushuang,” the handsome man who wore purple armor was staring at Jian Wushuang.

“You are?” Jian Wushuang revealed an uncertain expression.

“Tian Ming of the Four Symbol Mansion!” Real God Tian Ming spoke.

“Four Symbol Mansion?” Jian Wushuang was extremely surprised.

There was a considerable amount of hatred between him and the Four Symbol Mansion. However, the Four Symbol Mansion could not find an opportunity. Otherwise, they would have killed him without hesitation.

“Do you have something for me?” Jian Wushuang laughed apathetically as he looked at Real God Tian Ming, who was in front of him.

If he were to come across experts of the Four Symbol Mansion somewhere else, he would probably be a bit fearful.

However, he was at Thunderbolt Island at that very moment. Not mentioning the fact that Real God Tian Ming who was in front of him was merely a Void Real God, even if a Chaotic Real God were to come personally, Jian Wushuang would not be concerned at all.

"I heard about you a long time ago. Today, since we have come across each other by chance, do you have the guts to have a duel with me?" Real God Tian Ming said.

"Have a duel with you?" Jian Wushuang's eyes could not help but squint, "Is it only a normal duel?"

"Of course not. Since it's a duel, we have to make it interesting. I know that the Lineage of Star has given you a Token of the Fairy Palace's Legacy. I have one with me as well, and I still have fifty years' time left to comprehend. Hence, how about we bet on the time for comprehension?" Real God Tian Ming said.

Chapter 1606: Not Interested

"Comprehension time? You can bet with that?" Jian Wushuang was shocked.

"Of course. On Thunderbolt Island, as long as both parties are willing to, they can bet with anything. Not only the time to comprehend in Fairy Palace, but also the time to stay in Thunderbolt Island can be staked," Real God Tian Ming smiled faintly and said, "So, how about it? Do you want to bet?"

"I'm sorry, I'm not interested," Jian Wushuang shook his head.

Real God Tian Ming creased his eyebrows, "Jian Wushuang, although you're a Universe God, you're an inverse cultivator, which equals an ordinary Void Real God. I am also a Void Real God. So, it's not like I'm bullying you if we were to battle. Why are you so afraid?"

"Not interested," Jian Wushuang didn't bother with Real God Tian Ming but turned to leave.

"Jian Wushuang!" Real God Tian Ming watched Jian Wushuang as he left and bellowed, "Back in Burning Demon Region, you massacred so many Real Gods from Four Symbol Mansion alone. Where's your spirit? Unless, you only bully the weak? Are you that kind of person?"

But no matter what Real God Tian Ming said, Jian Wushuang ignored him. He quickly vanished from Real God Tian Ming's sight.

"This young man can keep his composure," Real God Tian Ming squinted his eyes, "I thought geniuses like him would definitely be arrogant and wouldn't reject my challenge. Then, I would be able to get some more time to comprehend in Fairy Palace from him. In the end... well, he passed three inverse cultivation tests after all. His mental state must not be weak. Provocation wouldn't work on him."

"It seems like it's impossible to force him to take action. I can only look for other ways."

Very soon, Real God Tian Ming left too.

On Thunderbolt Island, Jian Wushuang walked around alone.

He was wearing a scornful smile, "Real God Tian Ming thought I would be provoked so simply? He said that I'm an inverse cultivator at Universe God level. So, it is fair to fight against him who is a Void Real God and he said that he wasn't bullying me? He would be only able to scheme against a kid."

Jian Wushuang sneered at the thought about Real God Tian Ming.

An inverse cultivator at Universe God level was truly treated as Void Real God in Eternal Chaotic World. There was nothing wrong about that.

But that only referred to one aspect, which was divine power. In terms of comprehension towards Heaven Way and unique skill, there was a vast difference between Real God and Universe God.

Especially comprehension towards doctrine.

After all, the comprehension power of a Real God toward Heaven Way was much stronger compared to Universe God. Hence, when a Real God comprehends Heaven Way, it was naturally much easier compared to a Universe God's attempt.

With such a condition, Real God Tian Ming had the guts to say that he, who was a Void Real God asking for a battle with Jian Wushuang on Thunderbolt Island, wasn't bullying him?

"Thunderbolt Island, a normal threshold requires one to possess the fighting power of an Eternal Real God. Real God Tian Ming appeared on Thunderbolt Island with his realm at Void Real God. He was definitely a top genius too. If I'm not mistaken, his comprehension of Heaven Way was at least at the passing of the third level in Doctrine Palace. As for a unique skill, it definitely was even more shocking. If I were to fight him now, eighty percent of the time I'd be at a disadvantage," Jian Wu Shuang smiled faintly.

Hall Master Yuan exhorted that the opportunity to be on Thunderbolt Island was extremely hard to come by, especially the time to cultivate in Fairy Palace was even more precious.

Under the circumstance where Jian Wushuang wasn't confident, he wouldn't be that stupid to stake comprehension time with Real God Tian Ming.

Jian Wushuang flew forward slowly and he appeared above a huge mountain before long.

In the middle of the mountain, there was a vast, barren land. Jian Wushuang could see the towering steles on the barren land from above.

"This is the place where Elder Wu Liang said that there are countless unique skills?" Jian Wushuang was surprised and he immediately landed.

Among the countless steles, it was recorded with a unique skill on each stele.

Jian Wushuang came to the region of unique skills for swords and looked at one of the steles casually.

Jian Wushuang immediately saw the stele contained an image of an expert performing the unique skill.

"The secret skill is at least a rank three Real God unique skill," Jian Wushuang thought.

Rank three Real God unique skills can be created by an ordinary Chaotic Real God. It was nothing in Eternal Chaotic World.

However, a Chaotic Real God intentionally demonstrated the unique skill and turned it into an image that displayed itself to the audience to comprehend. This itself was a chance that was hard to come by.

In the barren land, there were countless steles that contained unique skill images.

Jian Wushuang constantly demonstrated and learned.

Unique skills that the others had created contained their unique doctrines. Although Jian Wushuang couldn't fully master the unique skill, experiencing the transformation process of the unique skill helped with the development of his personal unique skill too.

...

On the north of Thunderbolt Island, there was a lofty mountain.

The mountain covered the expanse of one-tenth of the entire Thunderbolt Island while the foothill, mid-slope and the peak of the mountain had various palaces, pavilions and courtyards scattered around.

The mountain was special. The experts who had the right to stay on Thunderbolt Island permanently resided on the mountain.

Then, on the mid-slope of the mountain, there was a middle-aged man in a baggy long robe, Real God Li Huo, was standing in front of his mansion.

Real God Li Huo was a Chaotic Real God who was extremely close to the Real God ranking list. He resided on Thunderbolt Island all year round and he would wander outside occasionally.

He had just returned from a trip out. He went through the prohibition of his mansion then Real God Li Huo came to his courtyard in the middle of his mansion. There was a huge pond in the middle of his courtyard. The pond water was made of the extremely precious White Flame Spirit Liquid.

One should know that White Flame Spirit Liquid costs a thousand Chaos Gem a drop in Eternal Chaotic World and there was a big pond of it. Just how luxurious was it?

"Haha, babies, it has been years. Did you grow bigger?" Real God Li Huo smiled as he walked to the pond and overlooked the pond.

Then, Real God Li Huo's face suddenly changed.

"The six Illusory Heart Carp that I reared... why are they missing?"

"How could it be?"

Real God Li Huo swept out his consciousness but he couldn't detect the existence of any Illusory Heart Carp in the pond in his courtyard.

"D*mn it! Who was it? Who stole my Illusory Heart Carp?" Real God Li Huo was raging with anger.

Illusory Heart Carp was a celestial beast that had almost extinct in Eternal Chaotic World. If they were to grow up, it would be extremely helpful for a cultivator's mental state. Hence, they were priceless.

Real God Li Huo happened to get six Illusory Heart Carp during a coincidental opportunity. He then had been keeping them carefully on Thunderbolt Island. He already took care of them for more than one hundred thousand years. But then, he had lost his six Illusory Heart Carp.

"I set up a prohibition around my mansion but there was no response from the prohibition at all. On Thunderbolt Island, there's only one person who can do these filthy things!" Real God Li Huo clenched his teeth and he quivered with rage.

"Bastard!"

"That damn bastard! It was definitely him that stole my Illusory Heart Carp!"

...

Chapter 1607: The Strange Old Man

As Real God Li Huo was roaring madly about his six Illusory Heart Carps, there was an emaciated, short, small body flying about leisurely in a part of the sky of the Thunderbolt Island.

"I didn't expect that little kid Li Huo to actually get his hands on the Illusory Heart Carps. Moreover, he kept it to himself and did not let anyone know about it. If not for me passing by his mansion by chance, I would still not know that he was actually hiding such good stuff," the emaciated old man laughed in a strange way. He even stuck out his head and licked his lips.

"The Illusory Heart Carps are extremely delicious. However, it's a pity that there's only six of them, which is a bit too little. When I see the little kid Li Huo the next time, I will have to tell him to get more of them."

However, he did not know that the Real God Li Huo of the very moment even had the intention to kill him.

"Eh?"

The emaciated old man stopped moving abruptly and his extremely small, mouse-like eyes looked down at the wasteland.

Stone tablets stood upright on the wasteland and there were a few people comprehending before them. In particular, one of the people attracted the old man's attention.

"A Universe God?" the person who the old man had noticed was Jian Wushuang.

He saw that at that very moment, Jian Wushuang was sitting before a stone tablet with his legs crossed and his hands were mimicking the motion of a Sword Principle.

Jian Wushuang did not use the Blood Mountain Sword as well as any Divine Power in the slightest bit. With his fingers as a sword, he depended purely on his own sword essence to practice his Sword Principle.

With that, he would not damage the stone tablets around him.

As Jian Wushuang's fingers moved, a total of ten extremely small sword shadows appeared in the void at once and they fused together quickly to form a completely new sword shadow.

For the new sword shadow, it was obvious that its power had risen greatly.

After seeing such a scene, the eyes of the emaciated old man who was above squinted slightly. At the next moment, his body floated downward.

Buzz~~ The sword shadow dissipated and Jian Wushuang also withdrew his fingers. He then opened his eyes.

“That’s wrong. I feel that this stroke of mine still lacks something,” Jian Wushuang frowned slightly.

He had already stayed in the wasteland for three days, during which he had studied quite a number of Sword Principle Unique Skills. With that, he had got some knowledge and he had practiced his Sword Principle straight away. However, he was not satisfied with the results of the practice.

At that moment...

“Hey, little kid!” A strange voice could be heard abruptly.

Jian Wushuang was stunned and he turned his head to take a look. He then realized that an emaciated, small, short old man had somehow appeared behind him. The old man’s extremely small eyes were emitting a dim light like a gem and they were staring at Jian Wushuang.

When Jian Wushuang saw the old man, he was shocked.

Firstly, the emaciated old man could appear behind him so quietly that he was not even detected by Jian Wushuang’s Soul Power. Hence, the emaciated old man was most likely an Almighty. If not, he could also be a top Chaotic Real God who had already awakened the Soul Fire.

It was obvious that Jian Wushuang had the tendency to attract experts.

Moreover, the emaciated old man’s looks and attire were a bit strange.

He had messy hair, he was clothed in tattered black clothes and his exposed skin was filthy. He was a complete mess. Moreover, there was a neckband on his neck and it was strung with shining white bones. He was extremely weird.

“Little kid, you are the Inverse Cultivator, Jian Wushuang, right?” the strange old man’s eyes were glowing with a dim light. His voice was also very screechy and it was extremely unusual.

“That’s me. May I know to whom I speak?” Jian Wushuang was modest.

“You don’t need to care who I am. Let me ask you, do you have White Blaze Fruits with you?” it was obvious that the strange old man’s eyes were filled with excitement.

Jian Wushuang felt uneasy. However, when he remembered that he was on the Thunderbolt Island where no one dared to act recklessly, he heaved a sigh of relief and he said immediately: “Elder, I have indeed obtained quite a number of White Blaze Fruits previously. However, I have already handed those White Blaze Fruits over to the Star Palace Master of the Lineage of Star. Hence, I do not have any of them with me now.”

“You really don’t have them? You’re not lying right?” the strange old man’s eyes turned grave.

"Of course not. Think about it, elder. I am merely a Universe God. Hence, the White Blaze Fruit is useless to me. Moreover, it might even bring me trouble. As I am not an idiot, why would I have it on me?" Jian Wushuang forced a smile.

"Yes, that makes sense," the strange old man nodded his head slightly and his face revealed a pitiful expression, "What a pity. Originally, I had wanted to get my hands on a few White Blaze Fruits so that I could try them. Looks like I can only wait for the next time now. I wonder what kind of taste the White Blaze Fruit has."

After finishing his speech, the strange old man could not help but swallow a mouthful of saliva.

After hearing what the strange old man had said to himself, Jian Wushuang had a puzzled expression.

The White Blaze Fruit was an extremely valuable treasure and it was of great use to even Almighties.

Jian Wushuang had originally thought that the strange old man had wanted the White Blaze Fruits for training. However, looking at it at that very moment, he actually only wished to have a taste of the White Blaze Fruit?

It was only to eat it?

"This person is a bit weird," Jian Wushuang sighed.

"Little kid," the strange old man looked over again, "When you meet the Star Palace Master after you return to the Lineage of Star, could you talk to him and get me some White Blaze Fruits?"

"This..." Jian Wushuang forced a smile. However, he still replied, "I will do my best."

"Haha, not bad, not bad. You're still sensible," the strange old man nodded his head, "Looking at the fact that you're so sensible, I shall give you some tips. Your Sword Principle just now was a complete mess."

"Umm..." Jian Wushuang could not help but be stunned.

"The wasteland that you're in right now contains countless Unique Skills. In particular, at the area of Unique Skills of claw skills, there is a stone tablet which contains a simple claw print and you can go over to take a look at it," after speaking, the strange old man's body changed and he disappeared.

As Jian Wushuang looked at the place where the strange old man disappeared from, he became even more baffled.

"This elder's way of doing things is really strange. However, he should be an Almighty and I wonder which Almighty of the Sanctuary Alliance he is," Jian Wushuang muttered to himself. After that, without hesitation, he acted in accordance to what the strange old man had said and headed to the area of Unique Skills of claw skills.

As he searched the stone tablets over there, he found the stone tablet that the strange old man had mentioned in the blink of an eye.

"Claw skills?"

Jian Wushuang looked at the stone tablet in front of him. There was indeed an extremely simple claw print on the stone tablet.

“As an Almighty, that elder has a wider perception of things. Even though he knows that I am proficient in Sword Principles, he still made me come over here to study the claw-type Unique Skill. Hence, there must be something to it. I shall try and see what happens,” Jian Wushuang immersed his mind into the stone tablet in front of him.

In no time, there was another picture scroll in front of Jian Wushuang.

The picture scroll was a blurry shadow that could not be seen clearly. The blurry shadow then changed into an Exotic Beast that galloped about in the sky with its four hooves. Its speed was so fast that it was unbelievable.

However, all of a sudden, with a change of the blurry shadow, one body changed into three bodies instantly.

The three shadows of the Exotic Beast then leaped high up into the air and swung out the sharp claws on their hands at the same time.

Chapter 1608: Unique Skill, Myriad Waves!

Wow! Wow! Wow!

Three flowing lights grazed.

The three flowing lights burst out at the same time. Suddenly, they formed a brand new flowing light with a tremendous increase in power.

It tore the void into pieces straight away.

The image stopped right there and then.

Jian Wushuang was dumbfounded and he was stunned on the spot.

“How could it?”

There was shock in Jian Wushuang’s eyes, “The three flowing lights weren’t strong separately, but when the three superposed, the brand new flowing light that was formed was at least ten times stronger or maybe even more. How is that possible?”

Jian Wushuang thought that when the three attacks of similar power superposed, the newly formed attack would only perform power by threefold at the most, even if there wasn’t any power dispersed.

However, in the image, the three flowing lights of similar power overlapped and superposed, and gave out power that was more than ten times stronger.

Then, he associated with the Ten Waves that he created.

Ten Waves was a crystallization of ten sword shadows that derived from his sword intention, divine power, and comprehension towards doctrine. When the ten sword shadows superposed together, there was a large amount of power spillage during the process of superposing. Hence, the newly formed sword shadow would at most possess five times the power.

Jian Wushuang knew about it too. Hence, he had been thinking for ways to familiarize himself with the power superposition skill in order to decrease power spillage. In turn, the brand new sword shadow would be able to explode with a stronger power. However, he had never imagined the ten sword shadows of similar power could combine and explode twenty, thirty or even a hundred times the power.

He had no idea at all.

However, the image before him...

"I now understand why senior told me to come before this stele," Jian Wushuang smiled

The instant he saw the stele, Jian Wushuang had a brand new understanding about Ten Waves that he created.

"There are different power superposition skills. Ten Waves that I created superposed ten shadows instantly and forcibly. With such a brutal method, no matter how perfect one manages the strength, it will still cause power spillage, but then the image showed... the power superposition skill is obviously different. Besides, the law and order of the strength in the claw were different too.

Jian Wushuang muttered and in the next moment, he continued to watch the demonstration and learn from the image of the unique skill.

He watched the three flowing lights burst out in the image again. Then, the three flowing lights superposed and formed a brand new flowing light.

Jian Wushuang watched the process of superposing carefully and felt the law of manipulation of the divine power meticulously.

"Previously, I thought one plus one definitely equalled two. In a similar fashion, if ten sword shadows of the same power superposed and formed a brand new shadow intention, it could only explode the power by tenfold. But now, I know that as long as the manipulation method is proper, one plus one could also equal to three, or four. Hence, ten sword shadows of the same power superposed and formed a brand new shadow intention, could explode the power by tenfold or even a hundredfold!"

Jian Wushuang smiled as he immersed himself entirely in demonstration and comprehension.

On Thunderbolt Island there were opportunities everywhere.

Most of the opportunities required luck.

When one was lucky, he would even run into it randomly.

Jian Wushuang obviously ran into one.

The opportunity that he ran into should be the weird old man. The weird old man guided him and told him about the existence of the stele.

If there wasn't the weird old man, it might be impossible for him to find the region for this claw unique skill in his lifetime and stayed back to watch the stele with a simple claw print.

He naturally wouldn't have the current opportunity then either.

As time flew past, Jian Wushuang continued to stay before the stele. It had been thirty years in total.

In the thirty years, there were many Real Gods who had come there and were shocked when they saw Jian Wushuang.

After all, they knew that Jian Wushuang was good with swords.

A sword principle cultivator came to the region of claw unique skill to learn about claw unique skills?

They didn't understand what Jian Wushuang was doing but they didn't worry either.

At the stele, Jian Wushuang continued to close his eyes. However, his index finger formed a sword. An outstanding sword intention along with Power of Heaven Way formed ten small sword lights in the void next to him. As he moved his index fingers, the ten small sword lights were instantly superposed and overlapped. The power increased tremendously all of a sudden.

"Haha, I succeeded!"

Jian Wushuang opened his eyes and there was joy across his face.

"Although I only just began to master the power superposition skill and the power has already dispersed quite a bit, the brand new sword light still needs to be strengthened by ten times!"

"This is only the beginning. I am not familiar with the power superposition skill. If I were to continue to comprehend and study. The superpose of sword intention will definitely explode to a stronger power," Jian Wushuang clenched his hands.

"Continue!"

Without hesitation, Jian Wushuang closed his eyes again and started comprehension.

In the void above Jian Wushuang, the weird old man with a white bone necklace overlooked. He also saw the scene where he had performed his sword principle.

"This young man, in just thirty years, has understood the power superposition skill that I studied painstakingly? Although it is only the beginning, he has already passed the beginner level? Then it is only a matter of time to master and familiarize himself with it entirely." The weird old man squinted his eyes but his facial expression grew strange.

"D*mn it, when I first studied power superposition skill, I spent a total of three hundred thousand years of continuous repetitive polishing and perfecting, but this young man... He didn't even put in much effort but only picked it up ready-made and mastered the power superposition skill?"

"No way, no way. Isn't that too easy for him?"

"I went through so much trouble to get it..."

The weird old man's facial expression looked complicated. He seemed happy yet sad. It was strange.

After a while, his gaze suddenly fixed and he made a decision. There was a malicious smile spread across his face.

At the stele, Jian Wushuang continued to comprehend carefully.

He was already at the beginner level of power superposition skill. The following familiarization and mastering would be much easier but the time required was more.

In the blink of an eye, fifty years passed and Jian Wushuang finally got up.

“After comprehending for eighty years, I finally mastered the power superposition skill flawlessly. My Ten Waves, the brand new sword shadow formed by the superposition of the ten sword shadows, its power increased by thirty times!” Jian Wushuang clenched his hands.

Thirty times was already the limit of the power superposition skill. Jian Wushuang was content with the result.

Because of his Ten Waves, the power increased tremendously. And, most importantly, from then on, not only at the level of Universe God but to the level of Real God, it was not necessary for him to create another attack unique skill.

In the aspect of attack unique skills, one was enough.

“Ten waves... No, it should be called Myriad Waves. It’s more suitable!”

Chapter 1609: Getting A Disciple

Jian Wushuang wore a smile and he was over the moon.

He was clear how impressive the method of power superposition that he had mastered was.

The presence of such a method would be a lot better than the attack power Unique Skills that he would use a lot of time and energy to create in the future.

Take the Ten Waves move as an example. Previously, this move had only barely reached the requirement of being a high-level Stage Two Real God Unique Skill. However, by mastering the power superposition skill at that very moment, the Ten Waves move would definitely be equivalent to a Stage Two Peak Real God Unique Skill.

Moreover, he could also continue to develop the Ten Waves move in the future.

After all, Ten Waves was the fusion of ten sword shadows which were created by Jian Wushuang using his own sword essence, his understanding of Sword Principles, as well as his comprehension of the Power of Heaven Way. As his Sword Principles and his comprehension of the Power of Heaven Way improves in the future, he would definitely be able to create eleven, twelve or even more shadows. Hence, the power of the move would continue to get stronger.

Ten Waves could absolutely become Twenty Waves, Thirty Waves and even One Hundred Waves.

As such, Jian Wushuang said that Ten Waves was not suitable to be the name of this move. Instead, Myriad Waves was the most suitable name.

As Jian Wushuang was thinking, all of a sudden... an emaciated body appeared in front of him again.

"Ah, elder," Jian Wushuang looked toward the person who had appeared and he had a modest expression.

He was certain that it was because of the advice of the 'elder' in front of him that he could master the power superposition skill. As such, he naturally felt indebted to the elder.

"Little kid. Let me ask you. Have you ever had a Master?" the strange old man looked toward Jian Wushuang.

"I have," Jian Wushuang nodded his head instinctively.

The eyes of the strange old man squinted slightly and he raised his voice: "Is that Master of yours dead or alive now?"

"That..." Jian Wushuang frowned and he said immediately: "Of course he is still alive."

"Then, if I wish for you to cut ties completely with that Master of yours and have me as your only Master for the rest of your life, would you be willing to do so?" the strange old man said.

"I'm not willing," Jian Wushuang shook his head straight away.

The strange old man in front of him had indeed given him some advice and he was grateful for that. However, the strange old man actually wanted him to betray his Master for that. Was that a joke?

"Wayayaya!!!"

The strange old man laughed weirdly and his eyes turned completely red, "Damn little kid. You have learnt the power superposition skill that I have taken lots of effort to create and in the end, you are unwilling to have me as your Master? Do you believe that I will kill you straight away or even kill your Master who is supporting you?"

After hearing what was said, Jian Wushuang could not help but be stunned.

Previously, the strange old man in front of him had gone out of his way to give him advice to comprehend the stone tablet. However, after he had learnt the power superposition skill, the strange old man had become dissatisfied and wanted to snatch him forcefully to become his disciple?

What the hell was going on?

"Elder, I am very grateful to you for giving me advice and helping me learn this power superposition skill. However, it is impossible for me to betray my Master just because of this. As for elder being furious and wanting to kill me, you can go ahead and do it. However, this place is the Thunderbolt Island. Thus, I believe that elder should be cautious as well. As for my Master..."

Jian Wushuang laughed indifferently, "My Master left me and went somewhere else a long time ago. Even I have no idea where he is. If elder wishes to kill him, you may go ahead and do it straight away."

"Little kid. Are you trying to say that I'm unable to do anything to you?" the strange old man stared at Jian Wushuang.

"That's not what I mean. I am thankful for elder's advice and I will always remember this debt in my mind. However, it is impossible for me to give up on my own Master," Jian Wushuang said.

“Remember the debt in your mind?” the strange old man rolled his eyes and laughed weirdly, “How about this. If you are really grateful to me, after you return to the Lineage of Star, get some White Blaze Fruits for me to try. I do not need a lot, just three will do.”

“Three White Blaze Fruits?” Jian Wushuang was shocked.

One White Blaze Fruit was already extremely precious. However, the strange old man had asked for three right away. It was really daylight robbery.

“Elder, I really wish to know what you want the White Blaze Fruits for. Is it really for the purpose of eating?” Jian Wushuang asked doubtfully.

“Of course,” the strange old man laughed, “In my whole life, I have had nothing that I liked. What I like most is to eat and try all the flavors in the world. Moreover, the more difficult it is to get the item, the better it is. For example, the White Blaze Fruit is exceptionally rare and, to date, I still have not tried it.”

“All right,” Jian Wushuang had no choice, “Elder, I have no guarantee as to whether I can help you get three White Blaze Fruits. However, if you really want delicious fruits, I actually have some of them with me and I wonder if elder will like any of them.”

After his speech, Jian Wushuang took out some precious fruits.

Those fruits were obtained from experts who were killed by Jian Wushuang. Hence, there were definitely some rare and precious treasures.

However, when the strange old man saw the fruits that Jian Wushuang had taken out, he regarded them as beneath his notice. He only took an additional glance at a purple-red fruit. After that, he extended his hands and grabbed the purple-red fruit.

“Among all your items, only this Dark Silk Fruit can be considered decent,” as the strange old man spoke, he took a bite of the fruit. However, taking a bite, he threw the fruit away, “It’s taste is only normal.”

After seeing such a scene, Jian Wushuang’s heart could not help but shrink.

It should be known that the Dark Silk Fruit was worth about two hundred million Chaos Gems in the Eternal Chaotic World. If it were Doctrine Gems, the Dark Silk Fruit would be worth two of them which were almost equivalent to all the treasures of an Eternal Real God. However, the strange old man threw the fruit away after taking just one bite of it.

“Little kid. I shall not make things difficult for you anymore. If you are able to get some White Blaze Fruits in the future, go ahead and get them. If you are unable to get them, you will still have to get me something rare such as the Illusory Heart Carp which is a Celestial Bird. Also, I will stay on Thunderbolt Island. If you are able to get something delicious in the future, you can use this token to contact me.”

The strange old man threw a token to Jian Wushuang and left straight away.

After Jian Wushuang caught the token, he still had an extremely puzzled expression.

“What a weird person.”

“After talking to me for so long and even wanting to make me his disciple, I still don’t know his name.”

Jian Wushuang shook his head and laughed. He then put the token in his Qian Kun Ring.

At that moment...

"Jian Wushuang, how is Thunderbolt Island?" Hall Master Yuan messaged.

"Not too bad," Jian Wushuang answered.

"I heard from the people that during this period of time in the Thunderbolt Island, you have been comprehending in front of a tablet with records of a claw-type Unique Skill. What's going on?" Hall Master Yuan questioned.

"I have my own reasons for comprehending over there," Jian Wushuang did not explain too much.

"Yes, as long as it's of use to you. It is up to you to decide how you want to train on the Thunderbolt Island. However, remember not to waste this opportunity."

After his speech, Hall Master Yuan cut the transmission.

Jian Wushuang grinned, "It's about time for me to head to the Fairy Palace."

...

Chapter 1610: Advanced By Leaps And Bounds

Fairy Palace had been of unbelievable help towards the power of Heaven Way,

"I have two tokens of the Fairy Palace's Legacy and could return to Reincarnation Fairy Palace and Spacetime Fairy Space for a hundred years respectively. In the next one hundred years, I could divide it into ten times and every time I spend ten years in there. I would have three thousand years to cultivate on Thunderbolt Island. If so... I shall go to Reincarnation Fairy Palace and Spacetime Palace on rotation once. Then I will cultivate on Thunderbolt Island for two hundred and eighty years. Two hundred and eighty years later, I shall comprehend for the second time

"I shall set three hundred years as one term!"

"With such an allocation, when I finish my time limit for both Fairy Palaces, I will happen to fulfill a three thousand year time limit on Thunderbolt Island. It will be a better cultivation effect too.

Jian Wushuang made his mind.

He immediately entered Reincarnation Fairy Palace.

He stayed in Reincarnation Fairy Palace for nine years, then he headed over to Spacetime Fairy Palace for ten years.

Both Spacetime Fairy Palace and Reincarnation Fairy Palace were similar. They both had twenty-seven scroll paintings and the effect was identical.

Along with the comprehension, Jian Wushuang immersed himself in the cultivation opportunities on Thunderbolt Island and in cultivation.

Under such a logical allocation, in the blink of an eye, about a thousand and five hundred years passed. To be exact, one thousand five hundred and twenty years.

...

Jian Wushuang slowly walked out from the Fairy Palace and glanced at the Fairy Palace behind him. There was a faint smile plastered on his face.

“The sixth time!”

“I comprehend for ten years on each visit and I have comprehended sixty years each in both Reincarnation Fairy Palace and Spacetime Fairy Palace. Now, the token of the Fairy Palace’s Legacy only has forty years left each. However, this forty-year quota might not be put to use anytime soon.”

Jian Wushuang smiled.

One thousand five hundred and twenty years, Jian Wushuang went to Reincarnation Fairy Palace and Spacetime Fairy Palace twice. But then, he didn’t plan to comprehend in both Fairy Palaces again in the near future.

It was because his comprehension towards Heaven Way had already reached the limit his current realm could achieve.

He already comprehended the first tenth scroll paintings in both Reincarnation Doctrine and Spacetime Doctrine.

One should know that the twenty-seven scroll paintings in Fairy Palace corresponded with the ninth level in Doctrine Palace. When one understood the first nine scroll paintings, it meant that one could pass through the third level of Doctrine Palace. As he understood the tenth scroll paintings, it meant that not only did he pass through the third level of Doctrine Palace, he even took a step in the fourth level of Doctrine Palace.

The two doctrines that he understood had already reached a level.

“Not only in comprehension towards Heaven Way but in all aspects, it seems to be so,” Jian Wushuang clenched his hands.

With the aid of Thunderbolt Island’s designated place to train consciousness, his soul power broke through and reached the level of an Eternal Real God in the one thousand five hundred and twenty years.

In unique skill, his Myriad Waves also increased to his extreme limit that he could reach.

In each aspect, he had already reached his limit.

He already lost the possibility to continue to improve.

In other words, he had already achieved the third conditions to break through and become a Real God.

One should know that he had just passed through the third inverse cultivation test.

If he were to cultivate by himself in the outside world, he wouldn't know how long it would take for him to reach the limit of his current realm.

On Thunderbolt Island, with the aid of Fairy Palace, with the aid of opportunities on Thunderbolt Island, he had already achieved it in one thousand five hundred and fifty years!

From this itself, he could see the rarity of Thunderbolt Island. No wonder there were so many experts in Chaotic Real God who wanted to cultivate there.

"I have achieved the first three conditions to breakthrough and become Real God. Now, there's only one last condition left, which is the opportunity to break through," Jian Wushuang muttered to himself as he walked.

Opportunity to break through, it was the most uncertain condition among the four conditions to break through and become a Real God.

Opportunity and luck came as they wished.

If one was unlucky, it might not even come in a hundred or a few hundred thousand years.

Jian Wushuang could do nothing about it.

"Mm?"

Jian Wushuang suddenly looked to the side and there were some noises.

"It should be where the Fighting Space is located. I have been in Thunderbolt Island for so long but I've never been there," Jian Wushuang thought and immediately walked toward the Fighting Space.

It looked just like an ordinary battle ring.

In the middle of the battle ring, there was a layer of prohibition. Under the coverage of the prohibition, the battlefield was extremely huge.

The boundless battlefield was Fighting Space.

The cultivators on Thunderbolt Island fought against one another and learned from one another in the Fighting Space.

The Life-and-Death Space was located in another place.

Jian Wushuang came to the battlefield and saw many experts in the surroundings while there was a vigorous fight going on in the Fighting Space.

The two opponents in the vigorous fight, one was an Eternal Real God while the other was someone Jian Wushuang knew.

"Real God Tian Ming from Four Symbol Mansion," Jian Wushuang raised his eyebrows, "Such a coincidence. I come here and immediately run into Real God Tian Ming in a battle."

When Jian Wushuang first came to Thunderbolt Island previously, Real God Tian Ming had found him and wanted to battle with him. The bet was fifty years of cultivation time in Fairy Palace.

However, Jian Wushuang had rejected him.

Then, in the Fighting Space, there should be a bet between Real God Tian Ming and the other Eternal Real God as well. Both of them were fighting with their all.

However, it was obvious that under the similar divine power explosion, Real God Tian Ming's comprehension of Heaven Way was stronger by one notch compared to an Eternal Real God's. From the beginning of the battle, Real God Tian Ming had the upper hand. Even when the battle ended, nothing changed. In the end, the one who won was naturally Real God Tian Ming.

"Haha, Real God Yue Luo. Thank you for your eight hundred years cultivation time," Real God Tian Ming laughed.

"Eight hundred years?" Jian Wushuang looked surprised. Then, he understood that the eight hundred years should be referring to cultivation time on Thunderbolt Island, not cultivation time in Fairy Palace.

As long as he was an expert in Sanctuary Alliance, he could cultivate three thousand years on Thunderbolt Island in every one hundred thousand years.

The three thousand years cultivation time was very important to experts in Sanctuary Alliance and he had lost eight hundred years in one go. Real God Yue Luo must be full of heartache.

As expected, he saw Real God Yue Luo walk out of the Fighting Space in distress.

In the Fighting Space, Real God Tian Ming smirked coldly, "Yue Luo, that dumbass. I intentionally showed my white feather before him and he really thought I was not his match?"

"Eight hundred years of cultivation time on Thunderbolt Island is not too shabby."

Real God Tian Ming was thinking but he suddenly saw a figure outside Fighting Space. He immediately squinted his eyes and immediately let out a hearty laugh, "Isn't that the top genius of Lineage of Star, Jian Wushuang? Do you have the guts to compete with me?"
