

## **Swordsman 1971**

### [Chapter 1971 - Powerful Assistan](#)

“Jian Wushuang, long time no see. Do you need help?”

The incomer’s faint laughter reverberated in the universe. Everyone at the scene was astonished.

Abysmal Saint Master, Great Emperor Zi Xu and Great Emperor Colored Glaze saw the incomer and their eyes dilated in shock.

No doubt, they had never seen an enchanting woman in a red robe.

However, the enchanting woman in the red robe gave out an aura that wasn’t weaker than theirs. She was definitely at the level of a Great Emperor.

The moment she appeared, she brought about great pressure to the other three Great Emperors. She was obviously not only a Great Emperor but an extremely strong Great Emperor.

“Previously, there was a mysterious Emperor Thirteen. Then, Jian Wushuang’s sword servant reached the level of a Great Emperor. Now, there’s another Great Emperor? She obviously knew Jian Wushuang personally. Since when did Great Emperor experts become so invaluable?” Great Emperor Colored Glaze muttered.

However, they didn’t know that Jian Wushuang was quite shocked then.

He looked at the enchanting woman in the red robe and it stirred a great commotion in his heart.

The enchanting woman in the red robe, he of course knew her!

“Lord Spirit Sound!!!” Jian Wushuang couldn’t help but clenched.

“It’s her?” King of Venomous Worms who was living on Jian Wushuang was shocked too.

That was right. The enchanting woman in the red robe who had suddenly come was Lord Spirit Sound who had stayed in Star Foggy Sea back then!

Back then, before Jian Wushuang had yet to leave Green Fire World, he had once received a great opportunity. It was in Star Foggy Sea. Through the test on Star Island, he became a disciple of Star Palace in Lineage of Star. Then, Star Foggy Sea was under Lord Spirit Sound’s control.

When Jian Wushuang first saw Lord Spirit Sound, he thought Lord Spirit Sound was from Lineage of Star and it was Master of Star Palace who had intentionally arranged to pick disciples for Lineage of Star.

Even Lord Spirit Sound had said that herself.

When Jian Wushuang passed the test and became a disciple of Star Palace in Lineage of Star, Star Foggy Sea had been within Jian Wushuang’s control. Then, Lord Spirit Sound left and Jian Wushuang had no idea where she went.

In the beginning, Jian Wushuang never minded much.

But later on, when he really arrived in Lineage of Star then became the new palace master of Lineage of Star, and after he had found out more about the environment of Green Fire World, he noticed the unusual.

Firstly, everyone from Lineage of Star, including Master of Star Palace, had no idea who Lord Spirit Sound was. Hence, it was even more impossible that it could have been Master of Star Palace who arranged it.

Secondly, under normal circumstances, it would be impossible for Star Foggy Sea to appear in Green Fire World.

After knowing this, Jian Wushuang started suspecting Lord Spirit Sound's true identity.

He had even asked King of Venomous Worm about that before. After all, King of Venomous Worms had stayed in Star Foggy Sea for a very long time but he had said that he wasn't sure either.

Just then, Lord Spirit Sound reappeared in front of him again. Jian Wushuang had finally determined that Lord Spirit Sound was from a great background.

As for controlling Star Foggy Sea for Master of Star Palace, it was a plain joke.

After all, the aura that Lord Spirit Sound had displayed was of Great Emperor level!

During the Master of Star Palace's peak, he was only a Peak Emperor God. How could he command Lord Spirit Sound?

Jian Wushuang took a deep breath. He didn't think further but answered, "Lord Spirit Sound, lend me a hand. I, Jian Wushuang, and Green Fire World will remember this."

"No problem," Lord Spirit Sound smiled faintly.

After that, she suddenly pointed with her delicate finger.

Rumble. The spacetime shook. The dark void where Jian Wushuang was instantly dispersed and the vast darkness prison around him broke apart.

There was boundless light that filled the universe. Jian Wushuang moved and he immediately shook off the darkness prison.

The sight shocked Abysmal Saint Master, "She broke my darkness prison so easily. This person's power is not any weaker than mine."

Swoosh! Swoosh!

Great Emperor Zi Xu and Great Emperor Colored Glaze appeared next to Abysmal Saint Master.

As for Jian Yi and the five godly spirits, they naturally came behind Jian Wushuang.

"Lord Spirit Sound, thank you," Jian Wushuang expressed his gratitude.

"Hehe. Don't worry about it. I have stayed in Green Fire World for so many years and I do have feelings for the place. How could I just sit and watch outsiders trying to conquer Green Fire World?" Lord Spirit Sound said with a smile.

Jian Wushuang nodded and he looked at the three Great Emperors again.

“Lord Spirit Sound, could you please help me keep one of them busy next?” Jian Wushuang asked.

“Sure,” Lord Spirit Sound nodded and then she pointed at Great Emperor Zi Xu, “Among the three, this person in the purple robe is the strongest. I will keep him occupied so he doesn’t have extra time to attack. As for the other two, you can take care of them.”

“No problem,” Jian Wushuang nodded heavily.

As long as Lord Spirit Sound could keep Great Emperor Zi Xu occupied, Jian Yi, the five gods and himself could deal with Abysmal Saint Master and Great Emperor Colored Glaze.

“Let’s do it!”

Lord Spirit Sound didn’t waste any more time but flew out.

“Hey, you in purple robe, your opponent is I,” Lord Spirit Sound flashed a malicious smile at Great Emperor Zi Xu. There was a strange light in her eyes.

Great Emperor Zi Xu’s heart skipped a beat. His face instantly grew solemn and he lost the relaxed look earlier.

“Oh, you could resist my magic. Not too shabby,” Lord Spirit Sound commented. Then, there was a evil-looking crimson sickle in her hand.

Wow!

From a very far distance, the crimson sickle in Lord Spirit Sound’s hand was swung out.

Just like Death’s sickle.

Wow! Wow! Wow!

The three sickle lights swept out simultaneously and instantly formed three brilliant sickle rivers in the void.

The three sickle rivers were beautifully magnificent. They were captivating.

The sickle river flowed over and Great Emperor Zi Xu instantly felt that he was in a billowing sickle ocean that he couldn’t shake off.

He instantly counter-attacked. Every time he broke a sickle light, there was another brilliant sickle light that flew at him again.

In an instant, Great Emperor Xi Xu of the fifth place on Heaven and Earth Supreme ranking list was suppressed by Lord Spirit Sound.

“So strong?”

Abysmal Saint Master and Great Emperor Colored Glaze’s faces changed at the sight.

They could tell that although Lord Spirit Sound was far below the mysterious expert Emperor Thirteen, she was much stronger than all the ordinary Great Emperors in Eternal Chaotic World. If they have to list her in terms of ranking in power, she absolutely could fight with Red Dragon King in the second place.

“Even if I were to be at my peak status, I reckon I would still have the lower hand when I fought with this person,” Abysmal Saint Master said.

Then, Jian Wushuang, Jian Yi and the five godly spirits moved at the same time!

#### [Chapter 1972 - Hometown?](#)

Hong!

Both parties continued to fight again.

However, it was different then. Great Emperor Zi Xu were suppressed by Lord Spirit Sound. There was only Abysmal Saint Master and Great Emperor Colored Glaze left.

Jian Wushuang sent Jian Yi to keep Great Emperor Colored Glaze occupied.

As for Abysmal Saint Master, Jian Wushuang had dealt with him with the assistance of the five godly spirits!

“Previously, it was only myself and I was not your match. But now...” Jian Wushuang’s eyes were cold. At the same time, the first ancient star in between his eyebrows immediately broke.

Among the seven ancient stars, he had only broken one. It was nothing as it was quite easy to recover it.

With the breaking of the ancient star, Jian Wushuang’s overall power instantly increased tremendously. In addition to that, he had the five godly spirits with him.

Besides, Lord Spirit Sound who already suppressed Great Emperor Zi Xu, as she suppressed Great Emperor Zi Xu, she could perform some sickle light occasionally to the surrounding battlefield. That gave some Jian Wushuang some assistance.

“Fight!”

Jian Wushuang was billowing with murderous intention and they fought with Abysmal Saint Master directly.

Then, Abysmal Saint Master wasn’t as relaxed as before.

It would be impossible if he wanted to trap Jian Wushuang as easily.

“D\*mn it. My power had yet to reach my peak status. Alone, it would be impossible for me to take Jian Wushuang down!” Abysmal Saint Master’s face grew grave and he couldn’t help but steal a glance at the battlefield by the side. He realized that Great Emperor Colored Glaze’s situation was quite similar to his.

As for Great Emperor Zi Xu, it was one-sided.

“Where did Jian Wushuang find such powerful assistants?” Abysmal Saint Master was roaring in his head.

Previously, he had had the terrifying Emperor Thirteen to help him.

Now Jian Wushuang had another Great Emperor expert who was only stronger, not weaker, than when he was at his peak.

How long had Jian Wushuang lived for? How could he be that capable?

“We’re in big trouble!”

Great Emperor Colored Glaze looked cold as he looked around, “With the assistance of that person, the three of us couldn’t even lay a foot in Green Fire World, let alone conquering Green Fire World.”

That was true. The three of them were held back entirely.

It was impossible to barge into Green Fire World.

On top of that, one should know that the news about Green Fire World had spread all over.

Although the three of them had rushed there, the speed of other experts from various forces absolutely wouldn’t be any slower.

As long as they couldn’t conquer Green Fire World at the first instant, it would be difficult for them to achieve the greatest advantage.

As expected, the experts from Eternal Chaotic World arrived in a short while.

Those who rushed over were merely three ordinary Sir Gods. They were closer to Green Fire World and they rushed over when they had found out about the existence of Green Fire World.

When they arrived, they saw Green Fire World and they also saw a shocking battle!”

“My goodness, this, this is...”

“Great Emperors, there are so many Great Emperors?”

“Abysmal Saint Master, Great Emperor Zi Xu and Great Emperor Colored Glaze, also the infamous Sword Emperor, his sword servant became a Great Emperor as well?! As for the enchanting woman in the red robe, I don’t know her but she is powerful. She could even suppress Great Emperor Zi Xu directly?”

“What are they doing? Why are they fighting?”

The few Sir Gods were astonished but mostly confused.

Very soon, they spread the news about the war.

Most of the experts from various forces that were rushing over to Green Fire World were shocked at the news and they traveled at an even faster speed.

On the battlefield, regardless of if it was the three Great Emperors or those from Jian Wushuang’s side, they noticed the surrounding experts.

Jian Wushuang didn’t care much.

However, Abysmal Saint Master and Great Emperor Colored Glaze’s faces grew grave.

They knew that it might be only a few Sir Gods who had arrived but in no time, there would be more experts. Even, in the end, the entire Sanctuary Alliance or the entire Eternal Chaotic World would be there.

That was fact.

There were more and more experts gathering around Green Fire World. Most of them were Sir Gods and Emperor Gods.

In no time, rumble. A vast figure descended from the sky and there was an aura of Great Emperor level that spread.

“Purple Moon?”

“It’s Great Emperor Purple Moon!”

Every expert was impressed.

Experts from both parties were fighting a battle and they noticed the arrival of Great Emperor Purple Moon.

Abysmal Saint Master, Great Emperor Zi Xu and Great Emperor Colored Glaze were unhappy. But as Great Emperor Purple Moon had already arrived, it would be impossible if the three of them wanted to conquer Green Fire World first. The three of them immediately stopped.

“Why? Don’t you want to continue the fight?” Jian Wushuang’s face was cold as he glared at the three Great Emperors.

“Jian Wushuang, you’re just lucky. You got help from all the experts all the time,” Abysmal Saint Master said coldly and he couldn’t help but look at Lord Spirit Sound.

Until then, Lord Spirit Sound had seemed to be extremely at ease all this while. He wondered if she had really revealed all her power.

Regardless, whatever power she displayed would be enough to gain Abysmal Saint Master’s attention.

“Humph, being able to get help from experts is my skill as well,” Jian Wushuang replied coldly.

Even though they had stopped fighting, both parties were still oppositional.

“Everyone, please calm down.”

Great Emperor Purple Moon walked over and said with a curious look as he watched both parties, “What’s going on?”

“What’s going on? Ask Jian Wushuang,” Abysmal Saint Master said coldly, “He carries a big secret with him.”

“Big secret?” Great Emperor Purple Moon was confused.

“It seems that Purple Moon has yet to know. Let me tell you, Green Fire World is Jian Wushuang’s hometown. When I found out Green Fire World’s unique point, I wanted to check it out at Green Fire World at the first instant. But in the end, he chased me out. I had no choice and asked Abysmal and Zi Xu

to come along with me. But in the end... Hehe, you saw that yourself,” Great Emperor Colored Glaze smiled coldly.

The moment Great Emperor Colored Glaze said that, everyone at the scene was stunned.

There were gazes that were redirected to Jian Wushuang in shock.

Green Fire World was Jian Wushuang’s hometown?

Was it a joke?

Looking at the gazes that flew to him, Jian Wushuang had no intention of hiding. He replied, “Yes, Green Fire World is really my hometown. As such, without my permission, don’t even think about entering Green Fire World!”

All experts at the scene went quiet when they heard that.

Even Great Emperor Purple Moon’s face changed.

If Green Fire World was really as magical as the rumor said and had limitless possibilities, Sanctuary Alliance definitely would try to figure a way to conquer it. Then, make some changes to make Green Fire World a brand new sanctuary. In other words, Sanctuary Alliance would take control of everything there.

However, Green Fire World was Jian Wushuang’s hometown...

#### [Chapter 1973 - All Parties Arrived](#)

After a while, Great Emperor Purple Moon finally spoke again, “Everyone, this is very serious. From my point of view, let’s wait until the others arrive before we discuss this.”

Then, Great Emperor Purple Moon stole a glance at Jian Wushuang.

From the bottom of his heart, Great Emperor Purple Moon would be on Jian Wushuang’s side. However, Green Fire World was associated with many parties. He, who was an ordinary Great Emperor, couldn’t do much.

Hearing what Great Emperor Purple Moon had said, the three of them nodded simultaneously.

“Alright then. Let’s wait until the others arrive,” Abysmal Saint Master looked cold.

Their initial plan had failed anyway. It would be impossible if they wanted to conquer Green Fire World and get the biggest advantage.

However, even if they couldn’t get the biggest advantage, they absolutely wouldn’t want to see Jian Wushuang continue to conquer such a great treasure.

As for Jian Wushuang, he stood there without saying a word.

He knew that it was a matter of time until he would have to deal with experts from various forces in Eternal Chaotic World.

Hence, he had been well prepared since long ago.

As time flew past, there were more and more experts that came to the void around Green Fire World.

The experts who came saw Green Fire World and they found out about the relationship between Jian Wushuang and Green Fire World.

Suddenly, there was shock and astonishment.

“No wonder Sword Emperor was so talented. It turns out that his hometown is Green Fire World!”

“It is only a unique place like Green Fire World that could nurture a genius like him. Plus, before the news of the ancient battlefield spread, Green Fire World possessed it. Sword Emperor definitely received great advantage from the ancient battlefield!”

“That’s a definite. I have heard of Sword Emperor’s billowing skills long ago. I think all his skills are from this ancient battlefield. Previously, during the war in Lineage of Star, they brought out so many Dao soldiers and where were they from? There’s no doubt they were definitely obtained from this ancient battlefield.

Countless experts were talking about it.

Then, most of the experts who were wandering in the ancient battlefield had already arrived outside Green Fire World. Even Great Emperors, besides Great Emperor Purple Moon, there were another three.

Including Abysmal Saint Master, Great Emperor Zi Xu and Great Emperor Colored Glaze, the fifteen Great Emperors on Heaven and Earth Supreme ranking list, there were seven of them there.

As for the remaining Great Emperors, either they cultivated in seclusion all year round or they were staying back to guard Eternal Chaotic World.

Plus, these were merely human cultivators camp.

Those special tribes also had a large number of experts rushing over.

Especially the top four peak tribes that had Great Emperors standing guard.

The four peak tribes conquered a piece of sanctuary each among the special tribes. Their positions and foundations were extraordinary.

The four peak tribes were Ancient Gods, Sky-devouring Clan, God-Eater and Black Water Dragon.

Among the four, Ancient Gods were widely acknowledged as the best at close body combat. On top of that, they were also recognized as the most prosperous tribe. Their Ancient God Emperor was once known to be the top overlord in the first era as well.

Sky-devouring clan was known to be the most barbaric tribe. They grew through consumption of various bloodline powers. They had the smallest population but their overall power were second to Ancient Gods.

The remaining God-eater and Black Water Dragon tribes were ancient and they were extremely powerful as well.

Then, the four peak tribes had Great Emperors attending the scene personally.

The Great Emperor from Ancient God tribe who came had a total of nine stars in between his eyebrows!!

Behind the nine-star Ancient God, Jian Wushuang saw two familiar faces. They were King Gu Tong and King Gu You.

King Gu Tong were friends with Jian Wushuang.

It could be said that besides Holocaust Sect and Acheron Palace who were always in the dark, all experts from various forces in Eternal Chaotic World were there.

And they only had one target, which was Green Fire World!!!

However, if they wanted to step foot in Green Fire World, they had to first wipe out the only hindrance, which was Jian Wushuang, who blocked the Green Fire World.

Jian Wushuang, Lord Spirit Sound and Jian Yi stood side by side. His gaze was cold as he glared at the thickly dotted experts in front of him.

He felt an unprecedented pressure.

"I'm impressed. So many Chaotic Realms. I think more than half of the cultivators of the Chaotic Realm from this era gathered here." Lord Spirit Sound was astonished. She looked at Jian Wushuang and asked, "Jian Wushuang, there are so many people who are eyeing Green Fire World. Are you confident you can protect it?"

"I don't know," Jian Wushuang shook his head.

"You don't know?" Lord Spirit Sound creased his eyebrows.

"I really don't know, but I can play a bet," Jian Wushuang squinted his eyes and there was determination in his eyes.

Jian Wushuang's body immediately moved and he flew to the experts in front.

When he arrived before the experts, Jian Wushuang stopped and took a deep breath. He bowed to the experts and spoke, "I greet you all. Everyone should be here for my Green Fire World. However, it's a pity that Green Fire World is only a small temple. It can't contain so many experts. Hence, I apologize for the shortcomings in our hospitality."

"Sword Emperor."

There was a cold voice. A tall man who was red-skinned as though he was covered in flame stood out.

The tall man was called Yan Zun, one of the Great Emperor from Sanctuary Alliance.

However, there were fifteen Great Emperors on Heaven and Earth Supreme ranking list and Yan Zun happened to be in the fifteenth place.

Then, Yan Zun said with a loud and clear voice, "Green Fire World is the core of the battlefield. It contains boundless potential and magic. Such an important place shouldn't be conquered by you alone.

Please hand over Green Fire World. You are also a member of Sanctuary Alliance. As long as you hand over Green Fire World, Sanctuary Alliance won't mistreat you too. We can discuss to let you keep territory in Green Fire World. What do you think?"

"Keep territory? I wonder Mister Yan Zun, how about the cultivators in Green Fire World?" Jian Wushuang asked.

"This..."

Yan Zun thought for a while and answered, "If Green Fire World were to be that magical, Sanctuary Alliance would definitely remake a brand new sanctuary that is far better than any one of the ten cultivation sanctuaries. It might even surpass Thunderbolt Island. However, such an important place isn't suitable for any ordinary cultivators there. However, don't worry. We will find a way to relocate all your cultivators in Green Fire World. I assure you that they will continue to cultivate and grow."

Although it was Yan Zun's speech, he had been in Sanctuary Alliance long enough that he was certain that the result would be as such after the discussion among the higher-ups from Sanctuary Alliance.

However, the result was definitely not something Jian Wushuang wished for.

As expected, Jian Wushuang's face grew cold.

#### [Chapter 1974 - Bloodline Is Of Paramoun](#)

To make Green Fire World into another cultivation sanctuary far beyond Thunderbolt Island?

Jian Wushuang believed that Green Fire World absolutely had the potential. It might be even better.

However, to create cultivation sanctuary, it would require all cultivators in Green Fire World to relocate...

Firstly, these cultivators were nurtured in Green Fire World to begin with and it was their hometown. Why would they need to be relocated?

Who would be willing to leave their home?

Besides, Green Fire World was a big world. It contained many ancient worlds in different sizes. In accumulation, how many cultivators would there be?

With so many cultivators, even if they really relocated, just how difficult would it be?

During the process of relocation, it was inevitable that a large number of cultivators or innocent people would die. The people had been plunged into an abyss of misery anyway!

The condition that Yan Zun proposed was considered generous in Sanctuary Alliance. If it wasn't for Jian Wushuang, they would have conquered Green Fire World by force with thunderous measures. As for cultivators in Green Fire World, Sanctuary Alliance would at most leave those who were stronger and more talented. The remaining, including countless living spirits in ancient worlds, would be wiped out straightaway.

That was Sanctuary Alliance's cruelty.

To Sanctuary Alliance, they only cared about the safety of the entire Eternal Chaotic World. As for cultivators in the big world, they wouldn't care.

Sanctuary Alliance didn't care but Jian Wushuang couldn't not care, because Green Fire World was his hometown.

"How about the special tribes?" Jian Wushuang looked at the experts who were from special tribes.

"Sanctuary Alliance want to make Green Fire World into a brand new sanctuary, we naturally won't stop them. However, if Green Fire World were to be that magical, the few of our special tribes would only need Sanctuary Alliance to agree to segregate a territory for us to cultivate," the Great Emperor from Sky-devouring clan spoke.

Sanctuary Alliance and the special tribe had always been keeping a mutual position. Plus, there were times where if it concerned the safety of Eternal Chaotic World, both parties would work together. Hence, there wasn't any hatred nor resentment. Just like Green Fire World, a special place, as the special tribes listed their conditions, Sanctuary Alliance would mostly agree.

"It seemed that the cultivators in Green Fire World are destined to be relocated?" Jian Wushuang's voice was cold.

"Jian Wushuang, don't be stubborn. With you alone, you won't be able to keep Green Fire World," Yan Xun advised.

"Jian Wushuang, do you still want to be stubborn about this?" Abysmal Saint Master smiled coldly. He was dying for Jian Wushuang to persist. Then, all experts from various forces would be raging with anger, especially the special tribe that was hot-tempered. It'd be best if they were to kill Jian Wushuang straightaway.

"Sword Emperor, hand over Green Fire World. Considering the fact that you carry the bloodline of Ancient God, I guarantee that if you were to be willing to hand out Green Fire World, they absolutely won't have the guts to do anything to the cultivators in Green Fire World," the nine-star Ancient God who lead the Ancient God spoke loud and clear.

Jian Wushuang couldn't help but look at the nine-star Ancient God.

He had heard long ago that there was a nine-star Ancient God in Ancient God tribe but it was his first time seeing one.

"I wonder how I should address you?" Jian Wushuang asked.

"I am King Luo Yu!" The nine-star Ancient God replied.

"King Luo Yu? The Luo family?" Jian Wushuang was surprised, "I once received the blood essence inheritance of an eight-star Ancient God, King Luo Zhen. He should be related to you, right?"

"King Luo Zhen?" Your Ancient God bloodline is from King Luo Zhen?" King Luo Yu's face changed.

"King Luo Yu, I once visited Ancient God Sanctuary and I know of an Ancient God too. From what I know, Ancient God tribe has an iron discipline whereby bloodline is of paramount importance. Regardless of

their strength, as long as their bloodline is stronger than yours, you have to be respectful and you even have to listen to their command. I wonder if that's true," Jian Wushuang said.

"It is," King Luo Yu nodded, "Ancient God tribe is a tribe that honors the bloodline. We believed in Ancient God Emperor from the first era. Over the years, this has never changed."

"If so..." there was a strange light in Jian Wushuang's eyes. Then... vroom!!!

There was a boundless bloodline power that exploded from Jian Wushuang's body.

The bloodline power was extremely intense and vast. It was also very powerful!

Jian Wushuang naturally let his ancient tribe bloodline power to flow out then.

Ancient tribe was one of the four God tribes back in ancient times. It was a complete version of Ancient God.

Ancient God was merely a faint bloodline that was segregated from ancient tribe.

In terms of purity of the bloodline, ancient tribe bloodline was naturally above Ancient God.

Then, as Jian Wushuang displayed his bloodline power, the experts from various forces didn't care but only thought that Jian Wushuang's bloodline power was ferocious.

However, the Ancient Gods at the scene.

For instance, King Gu Tong and King Gu You, and even nine-star Ancient God King Luo Yu, were instantly dumbfounded.

"This, this bloodline..."

"Royal, royal bloodline!!!"

"It wouldn't be mistaken. A bloodline aura that was sufficient for me to yield to. It is absolutely royal bloodline. It might even be purer than royal bloodline. How is this possible?"

The experts from Ancient God tribe looked at Jian Wushuang in astonishment.

They had known long ago that Jian Wushuang carried Ancient God bloodline and it was Royal Ancient God.

However, they had never expected that Jian Wushuang's bloodline would have heightened again and reached a brand new level.

"King Luo Yu, do you remember what you said earlier?" Jian Wushuang looked at King Luo Yu coldly.

The expression on King Luo Yu's face was complicated. After he struggled for a bit emotionally, he let out a long sigh.

King Luo Yu lifted his head again and the look he gave to Jian Wushuang had a tinge of reverence, "Sword Emperor, although I have no idea how you obtained the bloodline, no doubt, the purity of your bloodline is above mine. There is no one in Ancient God tribe that could compared to it favorably. In history, Ancient God tribe has always honored bloodline above all. If you are willing to, you can head

back to Ancient God Sanctuary with me and I will gather all masters of nine cities to discuss taking you as out new Ancient God Emperor. I believe no one would dare to suspect.”

Jian Wushuang was surprised by his reply.

The surrounding experts from various forces burst into an uproar.

Although they had known since long ago that Ancient God honored bloodline the most, King Luo Yu was a Great Emperor. His power was far stronger than Jian Wushuang’s and he should be on the top among Ancient God tribe. At such a crucial moment, he could totally ignore it if he were to meet anyone who had a higher bloodline than him.

However, they never expected that King Luo Yu would immediately show his willingness to take Jian Wushuang as the new Ancient God Emperor.

#### [Chapter 1975 - Astonished](#)

“This King Luo Yu is so... stupid!” Many of them thought to themselves. They thought King Luo Yu was stupid.

However, they weren’t people of Ancient God tribe. They naturally wouldn’t understand how much Ancient God tribe values bloodline.

Actually, not only Ancient God tribe but also the other three peak tribes, they valued bloodline as important too. But just not as ridiculous as Ancient God tribe.

As for Jian Wushuang, he was shocked as well.

He never thought that King Luo Yu would recognize his bloodline and immediately take him on as the new Ancient God Emperor.

“King Luo Yu, as you recognize my bloodline, who would you stand by if I wanted to protect Green Fire World?” Jian Wushuang asked.

“Of course, by your side,” King Luo Yu said without hesitation. At the same time, his eyes glowed with golden lustre as he looked at everyone around. “Listen up, although Sword Emperor has yet to become Ancient God Emperor, his bloodline is right there. We Ancient God tribe has to follow his lead from today onwards. Whoever goes against Sword Emperor will be our enemy too!”

King Luo Yu was determined and firm with his decision. He didn’t leave any space for negotiation.

There were many people who creased their eyebrows at the sight.

Ancient God tribe was one of the strongest tribes among the unique tribes. It was said that there was not only a nine-star Ancient God, there were also eight-star Ancient Gods and seven-star Ancient Gods. With such powerful force, there was no one who dared to ignore them.

“Humph, so what if the Ancient God tribe is supporting you? Today, Sanctuary Alliance and many other unique tribes are here to conquer Green Fire World. With Ancient God tribe alone, you can’t stop us,” Colored Glaze Great Emperor’s cold voice reverberated in the air.

The surrounding people looked rather enthusiastic.

It was true. Almost all top forces in Eternal Chaotic World gathered there, including Sanctuary Alliance.

With Ancient God tribe alone, he didn't stand a chance for all forces and experts to give way.

"Jian Wushuang, I'll ask you for the last time. Are you moving away?!" Colored Glaze Great Emperor stared at Jian Wushuang with a cold look.

All forces and experts at the scene were staring at Jian Wushuang. There were chilly gleams in their eyes.

Just then, Jian Wushuang, who had everyone's attention, lifted his head again. On his cold face, there was a tinge of madness.

He didn't speak and only beckoned to Green Fire World nearby.

Jian Nantian in Green Fire World's formation saw Jian Wushuang's signal and he immediately plunged to Jian Wushuang.

When he appeared next to Jian Wushuang, he waved and took out a pearl.

The pearl looked murky as it contained a unique aura.

Looking at the pearl, the madness in Jian Wushuang's eyes flowed out.

He glared at the countless experts before him. These experts could almost represent the entire Eternal Chaotic World!

Then, he was fighting against the entire Eternal Chaotic World alone!!

Even so, he wasn't nervous or afraid. There was only determination and madness.

"Everyone, let me show you something. You'll definitely be very emotional after you see it," Jian Wushuang smiled maliciously and handed the blurry pearl over.

All the experts at the scene couldn't help but look at the pearl.

Everyone started to feel it using their soul power.

Through the pearl, they could instantly sense the existence of the surrounding ancient battlefield.

Not only could they sense it, but they could also recognize it clearly.

The boundless ancient battlefield was before all experts' eyes then.

"So huge!!!"

"This ancient battlefield is so vast!"

"It's too vast. The area that we searched is only a drop in a bucket compared to the entire ancient battlefield.

"With such a vast ancient battlefield, it is at least ten times bigger than the one in ancient mystery land!!"

All experts at the scene were astonished.

After a short while, they noticed a huge object on the ancient battlefield.

Skull!

An extremely huge skull.

A skull that was countless times bigger than any other worlds.

Just like Green Fire World, it was a world that considered quite large in size. However, Green Fire World looked only like a small spot in-between the eyebrows of the skull.

“This... how is this possible?!?!”

“Unbelievable, this is simply unbelievable!”

“Who is this? Whose head is this?”

“Whose head could be that huge? Could it be a head of an expert from ancient times? Impossible! Even though there were countless experts during ancient times, there shouldn’t be any experts’ body that could be that huge in size.”

Dumbfounded, everyone was dumbfounded.

They were shocked by the huge skull.

Actually, they couldn’t be blamed. When Jian Wushuang first saw the skull, he was shocked too. He found it unbelievable too.

The skull was too shocking.

Compared to the boundless ancient battlefield, the skull was even more astonishing.

The few Great Emperors at the scene, such as Abysmal Saint Master, Great Emperor Zi Xu, Colored Glaze Great Emperor, Yan Zun, King Luo Yu and other Great Emperors from the other three special tribes, were all gawking at the sight.

As Great Emperors, they were extremely experienced. However, it was their first time coming across such an unbelievable sight.

However, after a short while of astonishment, all experts at the scene burst with excitement.

Excitement!

Yeah, excitement.

They had previously only known that the ancient battlefield contained boundless opportunities but they couldn’t determine just how impressive the place was.

However, as they saw the entire ancient battlefield through the pearl then, they had a better understanding of the ancient battlefield.

Merely the boundless territory size was enough to make them go crazy.

The unbelievable skill shocked them even further. One should know that the more astonishing it was, the more unusual the skull was.

There was no doubt that the territory where the skull was located absolutely contained unbelievable opportunities.

At the same time, they saw that the location of Green Fire World was right in-between the eyebrows of the skill while the skull was located in the core of the ancient battlefield.

Even a silly man could see the value of Green Fire World.

It was absolutely much greater than what they had guessed earlier.

It was truly a huge treasure, a huge treasure that could drive the entire Sanctuary Alliance crazy.

The experts' gazes were burning with enthusiasm. It was unprecedented enthusiasm.

Even the Great Emperors' were burning enthusiastically.

Jian Wushuang smirked coldly at the sight, "Hehe, all of you are enjoying the view of this ancient battlefield, enjoying the discovery of the huge skull? Didn't you notice anything different in the surrounding void on the ancient battlefield?"

Everyone was caught off guard. Then, they looked into the surrounding void on the ancient battlefield.

#### [Chapter 1976 - Grand Formation, Spacetime Storm!](#)

The experts fixed their gazes upon the ancient battlefield but they had never bothered with the surrounding void on the ancient battlefield.

When they heard Jian Wushuang's comment, they looked at the surrounding void on the ancient battlefield through the light. Then, they noticed the difference in the void.

"Spacetime, spacetime storm?"

"Such a huge spacetime storm and this spacetime storm covered the entire battlefield?"

"My goodness, such a huge spacetime storm! I have lived for over a million of years but it is my first time seeing this!"

Many experts at the scene exclaimed in surprise.

The ancient battlefield was huge but the spacetime storm could engulf the entire battlefield. Its size could be well imagined.

Of course, with such a huge spacetime storm, the energy contained was definitely shocking too.

"Just a spacetime storm?" Jian Wushuang scoffed.

Among the experts, there were people who immediately found the unique point of the spacetime storm.

"No. Not just a spacetime storm, there is also a grand formation. In the surrounding void on the ancient battlefield, there is a grand formation. The formation merged into one with the surrounding spacetime

storm, that's why it is hardly noticeable," an Emperor God explained. The Emperor God was an accomplished one in formations.

He said and the other experts had found the trace of the grand formation.

"There is really a formation and the formation is profound!"

"A huge formation merged flawlessly with the spacetime storm? This... who set up this grand formation?"

"Unbelievable, the grand formation is simply unbelievable."

There were experts exclaiming in surprise again.

The exclamations were mostly from those who were accomplished in formations.

Because they had a better understanding of formations, they knew how difficult it was to set up such a huge formation. To be able to merge the formation with the surrounding boundless spacetime storm flawlessly, it was shocking.

"Impossible. This is impossible!"

"How could such a terrifying spacetime storm merge with the formation flawlessly?"

"Forget about us from the second era, even in the first era, there was absolutely no one who could set up such great formation. Even in the ancient era, he would definitely be a top Almighty in formations to be able to set up such a great formation!!"

Everyone was astonished.

All their gazes were surprised.

Regardless of if they understood formation or not, as long as one was experienced, they should be able to tell how unbelievable the grand formation was.

At least to all experts in Eternal Chaotic World, it was simply a dream to merge a grand formation to spacetime storm.

But then, someone had done it.

Jian Wushuang looked at the experts' response in front of him with a faint smile. His voice slowly reverberated in the universe, "Can you all see clearly? Are you astonished? Are you excited? Do you find it unbelievable?"

His voice had a tinge of disdain.

All experts became quiet. All the gazes were fixed upon Jian Wushuang again.

They didn't know what Jian Wushuang's purpose was when he took out the pearl and showed them the true appearance of the ancient battlefield, the surrounding spacetime storm and the grand formation.

At that very moment, Jian Wushuang waved and his will power moved.

Rumble. Heaven and earth quivered.

There was a life-destroying aura that suddenly spread from the void above.

The experts at the scene were stunned and looked towards the light. In the end, they saw a scene that they would never forget for the rest of their lives.

They saw in the surrounding void on the ancient battlefield, the huge space spacetime storm that was originally stable all this while suddenly became extremely violent.

Hualala. Boundless spacetime storm started churning in madness to destroy the earth.

The extermination aura that filled the universe and the entire ancient battlefield was from the spacetime storm.

At that very moment, everyone could feel the aura that the spacetime storm gave out, an aura that could destroy heaven and earth.

At the same time, they could faintly feel the power contained in spacetime storm.

Plus, the power had already started brewing and becoming very aggressive and it continued to accumulate. It was as though the entire spacetime storm would rain down on the ancient battlefield the very next moment.

The scene shocked everyone.

“What, what is going on?”

“Such terrifying power. If it were to rain down at the ancient battlefield, I wonder if the ancient battlefield could still survive.”

“Gone. It’d be gone. If the power were to explode, the ancient battlefield would absolutely turn into a flatland. There wouldn’t be anything left!”

Many experts answered.

Then, all the gazes turned to look at one person.

“Jian Wushuang! Jian Wushuang!!”

“It was him who made the spacetime storm violent!!”

“What is he trying to do?”

The experts at the scene were staring with anger as they questioned him.

Then, there was unprecedented madness in Jian Wushuang’s eyes. His face grew red and his burst of malicious laughter suddenly filled the air, “Haha, you finally knew to be anxious? Knew to be worried? All of you seem pretty aggressive earlier!!!”

“Jian Wushuang, what did you do?” Colored Glaze Great Emperor roared.

“What did I do? Colored Glaze Great Emperor still can’t tell? Actually, it’s nothing. It’s very simple. I merely manipulated the formation around the ancient battlefield so that the formation could shake off

the spacetime storm. But the spacetime storm is so powerful that it is inevitable that there is going to be power that overflows,” Jian Wushuang chuckled and spoke casually as though it was just a petty matter.

However, many experts who studied formation at the scene stared as they heard Jian Wushuang’s reply.

“No, no!!!”

The Emperor God who noticed the formation roared, “This formation was merged with the spacetime storm using an immeasurable method. The grand formation has become one with the spacetime storm, how could they be separated? Once they are separated, the grand formation will collapse instantly, then the spacetime storm will lose its balance and stir up a great commotion that will destroy the universe, destroying everything within the spacetime storm!”

“The ancient battlefield has no space to struggle but will instantly be squashed into dust by the spacetime storm!!”

“All opportunities and treasures on this ancient battlefield, even all of us will vanish in an instant!”

“Stop it, Sword Emperor! Hurry up and stop it!!!”

#### [Chapter 1977 - Fight To Death But Not Give In!](#)

“Stop, stop it!!”

The Emperor God started shouting at him.

The others quickly responded as well.

“Jian Wushuang, stop. Stop it!”

“Sword Emperor, don’t act on impulse. We can discuss this!!”

“Jian Wushuang, what are you trying to do? Don’t forget that Green Fire World is on this ancient battlefield too!!”

Many started bellowing in anger while there were angry gazes on Jian Wushuang as well.

In their anger, there was a faint tinge of fear!

The power of the spacetime storm was too terrifying.

“Why? Do you know how to be afraid now?” Jian Wushuang sneered but the spacetime storm didn’t stop and became even more violent.

The extermination aura from the void above and the surrounding became more intense. There were many experts at the scene who were shivering with fear because of the extermination aura.

Jian Wushuang’s malicious laughter continued to reverberate.

“Actually, I didn’t want to use this trump card. But it’s a pity that you all are such bullies!!!”

“You really think I am just a softie from Green Fire World? That everyone could pressure me as they wish?!”

“So what if you are Sanctuary Alliance? So what if there are unique tribes? Even if the entire Eternal Chaotic World’s forces and Great Emperors gather here, so what?”

“Green Fire World is my hometown! Whoever dares to lay a finger on it, I will kill him!!!”

“You want the countless cultivators in Green Fire World to relocate and leave Green Fire World, I, Jian Wushuang, am the first to disagree. The billions of cultivators in Green Fire World absolutely wouldn’t agree as well. The ancestral experts from Green Fire World that died would be even more against that idea!!!”

“We of Green Fire World would rather become ashes with the ancient battlefield. We strive to fight a life-and-death battle. Until the very last person dies, until the very last drop of blood is shed, we will never give in!!!”

“Come on. If you have guts, come on in!”

His voice was like thunder, reverberated in the universe.

Behind Jian Wushuang, in Green Fire World, large number of cultivators stood together as Jian Wushuang’s hysterical laughter resounded in their ears.

At that very moment, they clenched their hands together as hopelessness filled their eyes. They were roaring from the bottom of their hearts.

They were born in Green Fire World!

It was where their roots were!

Countless ancestral experts saved Green Fire World for them!

Forget about the further history, merely tens of thousands years ago, when the troops of Jin Kingdom came, Green Fire World relied on themselves. Countless cultivators had advanced wave by wave and sacrificed countless experts. In the end, under Jian Wushuang’s lead, they had won and survived.

Then, Green Fire World’s potential was gradually unearthed and growing to prosperity.;

There were experts in Green Fire World who had put in painstaking effort, especially their leader, Jian Wushuang.

Then, the so-called experts from Eternal Chaotic World wanted to take away their hometown and chase them to other territories? To make them leave their homes?

They swore to not yield!!!

“Fight! Fight! Fight!”

“All of us are willing to following Wushuang City Master to fight a life-and-death battle!!”

“Until the very last person, until the very last drop of blood!!”

“We will never give in!!!”

“At worst, we will all meet death together!!”

There were angry roars with unprecedented determination and will that resounded across the sky.

Although the countless cultivators in Green Fire World were nothing before the experts from Eternal Chaotic World, they were willing to fight to the death!

There was soaring war intention that shook heaven and earth.

At the far front of Green Fire World, countless experts from Eternal Chaotic World gathered there. That very moment, the experts exchanged a look and became quiet.

They could feel Green Fire World's war intention and their determination.

Most importantly, it was their determination. Their determination to live or die alongside Green Fire World.

It was obvious that Green Fire World wanted to fight till the end of the world with them.

The crucial thing was that they had the capital to meet death together. Once the spacetime storm power exploded, everything would vanish into thin air. Maybe the few Great Emperors who were powerful could survive in the spacetime storm with their fierce power but no doubt, the others would all die.

The ancient battlefield would vanish into thin air too.

"What should we do?"

Abysmal Saint Master, Colored Glaze Great Emperor, Great Emperor Zi Xu, Yan Zun and the other Great Emperors from the other three peak unique tribe gathered.

Although the Great Emperors were powerful, they felt helpless then.

They were helpless towards the spacetime storm.

"D\*mn it. I wonder who was the one who set up such a terrifying grand formation in the void surrounding this ancient battlefield. Most importantly, the grand formation is in the hands of Green Fire World," Abysmal Saint Master said in a low voice.

Then, spacetime storm had yet to stop and it grew stronger.

There was no one who didn't feel fearful of the spacetime storm.

With the threat of spacetime storm and Green Fire World. who viewed death as an option, many of them were thinking of retreating.

However, they were unwilling to just leave like that.

Just as the experts were caught in a fix, in the nearby void, a figure in grey robe walked over slowly.

With white hair and white eyes, his skin was as terrifyingly fair.

He was a man but he had a beautiful appearance that put all ladies in Eternal Chaotic World to shame.

Once he had appeared, everyone at the scene quietened down.

Countless gazes turned to him.

“Emperor Bai!!”

“That’s great. Mister Emperor Bai came personally!”

“The strongest one, Emperor Bai?”

Countless experts at the scene were surprised.

Jian Wushuang looked at the incomer too.

“He’s finally here?”

Jian Wushuang muttered. He sent a message to Emperor Bai long ago but Emperor Bai didn’t reply. Just then, when both parties were in a stalemate, Mister Emperor Bai finally appeared.

Jian Wushuang had a good opinion of him.

However, his good opinion aside, Green Fire World had such great potential and Emperor Bai was widely acknowledged as the leader, the strongest one. Jian Wushuang couldn’t be certain on which side Emperor Bai would take.

Emperor Bai appeared and first looked the pearl in Jian Wushuang’s hand. Through the pearl, he saw the changes in the surrounding ancient battlefield and his face grew solemn.

“Jian Wushuang, slow down the formation first,” Emperor Bai said.

Then, everyone looked at Jian Wushuang.

The great formation was still spinning and the extermination aura grew stronger over time. It was just like a knife above everyone’s head.

Jian Wushuang squinted his eyes and looked at Emperor Bai solemnly. He moved his willpower and the grand formation stopped.

The void surrounding the ancient battlefield, including the spacetime storm, gradually slowed down.

#### [Chapter 1978 - Sit Down And Discuss](#)

As the extermination aura from the surrounding void slowly dispersed, the experts at the scene gradually let out a breath of relief.

Emperor Bai looked around and said in a great voice, “I already know what happened. If both parties continued to fight, it is definitely a fight with a risk of mutual destruction. I believe that there shouldn’t be anyone who wish to see such a situation. So, why don’t we both sit down and discuss this.”

Then, Emperor Bai glanced at Sanctuary Alliance and Great Emperors from the three special tribe.

The Great Emperors in Sanctuary Alliance naturally didn’t dare to go against Emperor Bai’s order. As for the Great Emperors’ from the three special tribe, they nodded faintly too.

They also knew that it wasn’t the way to continue in a stalemate situation.

“Jian Wushuang, how about you?” Emperor Bai looked at Jian Wushuang.

“Sure,” Jian Wushuang nodded.

If it wasn't necessary, he, of course, wouldn't wish to really use the killer move to meet death together with the experts from Eternal Chaotic World.

“That's great.”

Emperor Bai waved there was a lofty palace that appeared from nowhere. There were layers of prohibition over the palace.

“Come on in,” Emperor Bai's voice reverberated while he entered the palace first.

Sanctuary Alliance and the Great Emperors from the three special tribes entered the palace one after another.

Jian Wushuang didn't hesitate and entered the palace as well.

...

In the lofty hall, there were thrones towering.

At the bottom half of the palace, there were dozens of thrones. The ruler of the bigger forces in Eternal Chaotic World sat there, including Emperor God Tian Ling from Soaring Heaven King Palace, Number One Divine King from Divine King Island. The peak Emperor Gods were gathered there.

Of course, these Emperor Gods, including Emperor God Tian Ling himself, were sure that they were only audience in the hall but had no right to speak.

Those who had the right to speak were the Great Emperors who were seated on the upper half of the hall.

Vroom!!!

There were shadows that substantiated one after another. Besides the Great Emperors who came from outside of Green Fire World, those who didn't come personally, their consciousness incarnation were there.

The fifteen Great Emperors on Heaven and Earth Supreme ranking list were there.

The Great Emperors from special tribes were all there too.

The most eye-catching thing was that the Great Emperors were all seated on the left side of the hall.

On the right side of the hall, it obviously belonged to another camp. The camp was naturally led by Jian Wushuang. Next to him, there was Lord Spirit Sound, King Luo Yu and Jian Yi.

Compared to the other camp, Jian Wushuang was really much weaker. However, with the existence of spacetime storm, Jian Wushuang had great power too.

As for Emperor Bai, he was seated in between both parties.

“Let's begin.”

Emperor Bai said softly then he became silent. He even closed his eyes faintly. He obviously didn't intend to be biased.

He had been aloof to begin with. He was always high and above. Although he was widely acknowledged as the strongest in Sanctuary Alliance, he was almost never involved in any matter in Sanctuary Alliance.

An elder in a simple grey robe stood up.

The grey-robed elder first bowed politely at Emperor Bai then at other Great Emperors. Then, he looked at Jian Wushuang and said, "Sword Emperor, I am Tian Chen."

"Ancestor Tian Chen," Jian Wushuang greeted politely too.

Ancestor Tian Chen was in fourth place on Heaven and Earth Supreme ranking list, which was right behind Abysmal Saint Master.

Most of the matters in Sanctuary Alliance for all these years were taken care of by Ancestor Tian Chen and East Royal Emperor.

Besides, Jian Wushuang also knew that Ancestor Tian Chen was a Great Emperor who had a good opinion of him and anticipated for him to grow stronger when he had risen abruptly back then.

Hence, Jian Wushuang revered Ancestor Tian Chen.

"I believe Sword Emperor knows that I have always had high hopes for your growth. I am certain that Sword Emperor will definitely be one of the greatest fighting powers in Sanctuary Alliance in the future. The truth is as such too," Ancestor Tian Chen first gave him compliments, then he said, "However, Green Fire World is unusual!"

"Its value and potential is too great. For Sanctuary Alliance, it would be of great help. Sword Emperor, you are also a member of Sanctuary Alliance. So, I wish Sword Emperor, you could consider on Sanctuary Alliance's behalf, Sanctuary Alliance would definitely remember your contribution."

Jian Wushuang grew in distress.

"Ancestor Tian Chen, I am really a member of Sanctuary Alliance but Sanctuary Alliance is an alliance that is free without restriction. Your goal is to fight against the two dark forces and those underlying dangers. What I could do is to help when Sanctuary Alliance is in trouble."

"To put it in an indecent way, Sanctuary Alliance is nothing much to me. However, Green Fire World is different!"

"It is my root!"

"You want me to abandon my hometown for Sanctuary Alliance? That'd be a joke. Even if I agreed, a billion cultivators in Green Fire World wouldn't.

Jian Wushuang looked determined and his voice was extremely cold too.

"Sword Emperor, is there really no space for negotiation?" Ancestor Tian Chen frowned.

“Of course there is. Otherwise, I wouldn’t sit here and talk to you,” Jian Wushuang said in a deep voice, “However, to get the space from me, you have to show your sincerity. You want the countless cultivators in Green Fire World to relocate and hand over Green Fire World? That’s impossible. Don’t even think about it!”

“I wonder what Sword Emperor would like?” Ancestor Tian Chen said.

“Very simple. I’d let the value of Green Fire World to be put to play in Sanctuary Alliance but I have a few conditions,” Jian Wushuang said.

“What conditions?” Ancestor Tian Chen and the experts looked at Jian Wushuang with full anticipation.

“The first condition is that Almighties to Real Gods in Eternal Chaotic World absolutely can’t step foot in Green Fire World,” Jian Wushuang said directly.

However, just as his condition was brought up...

“Impossible!!!”

There was a Great Emperor that slammed the table and stood up from Sanctuary Alliance’s side while there were many glares from the experts too.

“Jian Wushuang, you want Sanctuary Alliance to show sincerity and that is your attitude?” Ancestor Tian Chen stared at Jian Wushuang as his face grew grave.

Almighties to Real Gods couldn’t enter Green Fire World. In other words, only cultivators of Universe Gods level and below could enter. What was the difference from that to no one being able to enter?

That was Jian Wushuang’s sincerity?

“Don’t be in a hurry. Listen to me.”

Jian Wushuang looked around with a cold look.

Although the experts were raging with anger, they suppressed their anger to listen to Jian Wushuang’s explanation.

“Actually, all of you misunderstood Green Fire World’s value,” Jian Wushuang smiled faintly. “All of you thought Green Fire World’s value was its unprecedented cultivation environment that was filled with intense spiritual influence of heaven and earth. You wanted to make Green Fire World into a sanctuary that surpassed Thunderbolt Island. But it actually wasted all Green Fire World’s resources.”

#### [Chapter 1979 - Condition](#)

“Wasted its resources?” The experts looked at Jian Wushuang.

“That’s right. The cultivation environment in Green Fire World now is far beyond Eternal Chaotic World. However, the easiest thing to create in such a cultivation environment isn’t peak expert but... genius!” Jian Wushuang lowered his voice, “the more outstanding a place is, the higher the probability of giving birth to a genius. Just like the ancient times...”

“During ancient times, the geniuses were as many as the clouds. It was far beyond our era. If we really want to compare, our batch of geniuses would at most be second-grade if put in ancient times. We couldn’t even be considered as first-grade geniuses. I believe everyone should know this clearly.

Hearing what Jian Wushuang said, the experts at the scene became quiet.

The ancient times, the most prosperous first era and the era that they were in, there were vast differences.

Not only in terms of experts, but also in talent.

There were countless geniuses in ancient times. Any one of them in the current era would be known as a miracle.

“Sword Emperor, what are you trying to say?” Ancestor Tian Chen creased his eyebrows and asked.

“Very simple. If Green Fire World were to be made as a cultivation sanctuary better than Thunderbolt, it would only benefit the higher experts in Eternal Chaotic World. Although it would help to increase the fighting power of the top experts tremendously, it wouldn’t make any changes to the roots. If Green Fire World’s value were to be put on the younger geniuses, it would be entirely different,” Jian Wushuang’s voice was loud and clear.

“I suggested the condition to not let any experts above Real God level enter because I wanted to turn Green Fire World into the number one genius sanctuary in Eternal Chaotic World, a genius’ cradle.

“I’d give out a huge territory in Green Fire World. Sanctuary Alliance, special tribes and all forces in Eternal Chaotic World could send a batch of disciples to the territory. Then, as long as they never break through and become Real Gods, they can reside there. They can even reproduce there.”

“Although there wouldn’t be much of a visible effect in the short term, through generations of reproduction and inheritance, the later disciples would be more and more talented, more and more outstanding. There might even be people who possess a unique constitution in the future generation.

“Unique constitution?” There were many who were surprised.

“That’s right. As long as the cultivation condition is outstanding, some babies that have just been born will possess unique constitution, just like my father. He has the body of a sword spirit, which is rare. One of my brothers is a Celestial Elixir. This happened before Green Fire World transformed entirely. As the cultivation environment becomes more outstanding, the unique constitution born in Green Fire World is growing in number. Now, from what I know, among the cultivators in Green Fire World, there are more than thirty of them who have unique constitutions. There are many that have yet to be discovered,” Jian Wushuang said.

“This, this...” Many experts were dumbfounded.

Unique constitution was what countless cultivators dreamed of in Eternal Chaotic World.

Having a unique constitution was equal to having the requirement to be a peak expert. Then, one was only required to work hard and obtain opportunities.

For instance, the body of a sword spirit was born an expert in Sword Principle.

If a Celestial Elixir reincarnated, he would only need sufficient resources to nurture. He was destined to become the top elixir maker. He could even become an elixir almighty.

These were all unique constitutions that people were envious of.

However, such constitutions were too rare in Eternal Chaotic World. Among the geniuses and experts in the ten cultivation sanctuaries, the number of cultivators with unique constitutions could be counted on one's fingers.

But then, in Green Fire World itself, there were more than thirty of them who possessed unique constitutions in Green Fire World?

Just how unbelievable it was.

The experts' eyes became green with envy.

It was just as how Jian Wushuang had described, Green Fire World could totally become a genius' cradle. If it was put to use appropriately, it could totally generate large number of top geniuses continuously. It could even be comparable to the first era, or even the ancient times.

If these geniuses grew stronger, even if among dozens of them or even hundreds of them, there was only one who really grew strong for real, Green Fire World could still continuously produce more experts in Eternal Chaotic World. It was of a much greater use in making a cultivation sanctuary.

"Sword Emperor, even if what you said is true, you do not allow any Almighties or even a Real God to enter Green Fire World. Only cultivators below Universe God level are allowed to enter. When they enter Green Fire World, wouldn't they be under your control? By then, you can still do whatever you wish. From what I know, Green Fire World already has many Real Gods. If the cultivators from Sanctuary Alliance didn't even have any Real Gods in Green Fire World, wouldn't the cultivators from Green Fire World bully our men as they wish?!" Yan Zun suddenly said.

"No one needs to worry about this. I can guarantee that no cultivators from Green Fire World will step foot in the territory that your cultivators are having, nor will they get involved in any affair in your territory. Plus, if you are really worried, I can take another step back. I will allow you to pick ten Almighties to form an Alliance of Ten to attend garrison duty all year round. However, these ten Almighties could only be Sir Gods or Emperor Gods," Jian Wushuang said.

The surrounding people were in deep thought.

Only ten Almighties and only Sir Gods and Emperor Gods. They naturally couldn't restrict Jian Wushuang at all. However, it wouldn't be a problem to restrict the cultivators from Green Fire World.

With the ten Almighties, it shouldn't be a problem to protect those who were below Universe God level.

As for Jian Wushuang, he naturally had Sanctuary Alliance and experts from various forces to guard against him. He shouldn't act recklessly too.

"Everyone, this is my first condition. I wonder if all of you agree with it?" Jian Wushuang looked around.

The Great Emperors immediately started their discussion.

After a short discussion, Ancestor Tian Chen spoke again, "Sword Emperor, you do know that Eternal Chaotic World is huge? Sanctuary Alliance alone has great power, let alone the special tribes. Hence, the territory required definitely isn't small."

"To allocate how huge a territory for Sanctuary Alliance, special tribes and also various forces, we can talk about this later. I only want to know if everyone is willing to agree with my first condition to only send cultivators below Real God level and have ten Sir Gods or Emperor Gods form an Alliance of Ten to step foot in Green Fire World." Jian Wushuang said.

"Yes, we can agree on this condition," Ancestor Tian Chen nodded.

#### [Chapter 1980 - Give An Inch, Take A Mile](#)

Jian Wushuang's eyes glowed with happiness when Ancestor Tian Chen agreed.

The first condition was actually the most important condition.

The first condition included a crucial question, which was the control rights of Green Fire World over the years!

If the experts from Sanctuary Alliance and special tribes were to be allowed to step foot in Green Fire World, then even if Jian Wushuang had the grand formation, it would be difficult for him to control Green Fire World.

But now, only cultivators below Real God level were allowed to enter. At most, only the Alliance of Ten would be there.

Regardless of which Almighties Sanctuary Alliance chose, as long as there wasn't a Great Emperor, Jian Wushuang would be able to suppress them.

Green Fire World's actual control right still belonged to him and belonged to Green Fire Palace.

The cultivators from Green Fire World were still the owner.

The moment the first condition was done, Jian Wushuang's goal had been achieved. Now, he needed to figure out a way to get the biggest advantage for cultivators in Green Fire World.

"Sword Emperor, tell us your other conditions," Ancestor Tian Chen looked at Jian Wushuang.

The Sanctuary Alliance and the few special tribes actually had no alternatives.

Jian Wushuang, or it should be Green Fire World's final trump card was too scary. They didn't have the guts to corner them too much.

"My second condition is that, from today, all cultivators who are wandering in this ancient battlefield will not step foot in the surrounding area in Green Fire World. In other words, within the huge skull that you saw through the pearl earlier," Jian Wushuang said in a deep voice.

The moment he said that, many experts' faces changed.

Through the pearl, they could see that the huge skull where Green Fire World was located was the core of the ancient battlefield.

On top of that, the skull was huge and shocking. It definitely contained boundless opportunities.

The attraction of the skill to these experts was far beyond any other places on the ancient battlefield. There were many experts who had already made up their minds that they'd wander on the skull after they dealt with the matter with Green Fire World.

However, the condition that Jian Wushuang suggested was to prohibit them from entering the territory of the skull.

"Everyone, I'm afraid you don't know that Green Fire World has been nurtured by this ancient battlefield for many years, over forty thousand years. Over the years, the cultivators from Green Fire World had been wandering in the surrounding ancient battlefield and the region that they wandered was mostly around the skull. In other words, ninety percent of the skull was already searched through by cultivators from Green Fire World, including myself. As for the opportunity in the skull, hehe..." Jian Wushuang smiled but didn't finish his sentence.

The experts at the scene heard and they were surprised again.

Although they didn't truly believe in Jian Wushuang's speech, they could make their own judgment.

Green Fire World had been on the battlefield for such a long time and they definitely would search for the surrounding opportunities and treasure. It was normal that they would search through the area around the skull.

Battlefield that had already been searched through... Even though they didn't find any opportunities, the value was not as high as they thought it was.

"Plus, everyone, please don't only think about yourself. Think about your disciples and juniors. If they intend to grow in Green Fire World, they will need a training ground." But a Universe God could easily wander around the dangerous places in Green Fire World itself. There was no effect of training. They naturally only could place their hope on the ancient battlefield.

"Hence, the territory that the skull took up, live for your younger disciples and the cultivators in Green Fire World. What do you think?" Jian Wushuang smiled faintly.

He sounded reasonable. But in actual fact, he knew clearly.

At the territory where the skull was, there were boundless opportunities that had yet to be unearthed.

However, he did so for the cultivators of Green Fire World. Of course, all forces in Eternal Chaotic World that allocated cultivators to the territory of Green Fire World definitely wouldn't reap the same advantages.

The experts at the scene exchanged a look and they seemed a little hesitant.

Then, Emperor Bai, who sat in the middle, suddenly opened his white eyes, "This condition is agreeable."

Then, he closed his eyes again.

Emperor Bai spoke himself. Even though the experts hesitated, they never spoke again.

They finally agreed to this condition as well.

“The third condition, “Jian Wushuang looked at the surrounding people, “I hope that the experts who wandered in the ancient battlefield would give a certain amount of Doctrine Gem or resources of equivalent value to Green Fire World as rewards.”

“What?”

“You are asking for Doctrine Gem? How could you?”

“Get an inch, want a mile!!!”

Everyone’s faces changed and a few Great Emperors stood up in anger.

“Jian Wushuang, we have already comprised. Aren’t you going a little overboard now?” Ancestor Tian Chen said in a deep voice.

“Overboard? Am I really overboard?” Jian Wushuang scoffed, “Everyone, do you think this ancient battlefield could be so stable all the time? For you to wander and search for opportunities at ease? Why don’t you think about the grand formation surrounding the ancient battlefield. Without it, how would the ancient battlefield be?”

Everyone stunned.

Without the grand formation, they naturally knew the outcome.

They shivered in fear at the thought.

“Because the grand formation restricted the surrounding spacetime storm and the ancient battlefield could be maintained without effect. Plus, the outstanding cultivation environment is also affected by the formation. You have to think about how many resources we Green Fire World has spent in order to maintain such an unbelievable formation. How much treasure? Do you think it’s easy?” Jian Wushuang humphed coldly.

Many kept quiet when they heard what he said.

Especially those who were good with formations.

The grand formation surrounding the ancient battlefield was simply unbelievable in their eyes. The stronger the formation, the greater the energy required to maintain it.

The grand formation was so unbelievable. Hence, the resources required to maintain it would definitely be a sky-high number.

Then, Jian Wushuang added, “The grand formation was a huge burden. Previously, our cultivators from Green Fire World took turns to wander in the surrounding ancient battlefield to obtain resources and barely maintained the formation. But then, we handed over the ancient battlefield and only kept the territory where the skull was. The resources that we could get naturally diminished tremendously. At this time, if I didn’t ask for resources from you, who else could I ask?”
