Chapter 2007: Seven Treasure Divine Elixir

"Mister Emperor Bai, this is..." Jian Wushuang looked at the elixir in Emperor Bai's hand.

He could feel that the elixir was unusual. Even he couldn't help but felt greed in him the moment he saw the elixir.

"This is Seven Treasure Divine Elixir," Emperor Bai smiled, "I got this elixir by sheer luck a long time ago. It was in the first era when I was wandering in the ancient battlefield. I found five in total and I am only left with two now."

"This elixir is amazing. Even in ancient times, it was considered a top grade item. Many experts in ancient times, including those existences above Great Emperor, would use this elixir at crucial times. After consuming this elixir, the super experts who were above Great Emperor could recover their divine power instantly. To inverse cultivators like us, it is shockingly useful!"

"You know that we inverse cultivators could constantly fuel our divine body as long as we had enough divine power. Even if I consume this Seven Treasure Divine Elixir, it could instantly recover more than an ordinary level of divine power. To you who are only in the first stage, your divine power could be instantly recovered after you consume this elixir.

Jian Wushuang was delighted when he heard that.

His divine power could be instantly recovered when he consumed the elixir.

It was considered another life to an ordinary cultivator, but to an inverse cultivator... It was even more useful.

His current divine power enabled him to reorganize his divine body for four times, which meant four extra lives.

With the addition of Seven Treasure Divine Elixir, his divine body could be reorganized eight times!!!

Just how amazing was that!

"The elixir is what I prepared for your troop. But among the four members in the troop who are going to enter the dark millstone, only you can give full play to the power of this elixir. So, I am giving it to you," Emperor Bai passed the Seven Treasure Divine Elixir to Jian Wushuang.

"Thank you Emperor Bai," Jian Wushuang quickly thanked him.

"Everything is for Eternal Chaotic World. Go ahead and get ready," Emperor Bai waved.

Jian Wushuang left then.

There was only Emperor Bai left in Presbytery Pavilion. Emperor Bai watched Jian Wushuang as he disappeared at the end and there was a strange light twinkling in his eyes.

In actual fact, he had arranged for Jian Wushuang to go into the dark millstone not only because Jian Wushuang would be helpful to the troop, but because there was also another reason. Emperor Bai wanted Jian Wushuang to receive greater training.

It was about time for Eternal Chaotic World. It at most had another one thousand years to go. By then, the two dark forces would definitely incite war.

In merely a thousand years, Jian Wushuang wouldn't improve much with ordinary training. Hence, he had to be sent for polishing.

...

Jian Wushuang immediately started to make arrangements when he returned to Green Fire World.

No one knew what would happen in the dark millstone. Jian Wushuang wasn't even sure if he could come out alive.

Hence, Jian Wushuang naturally had to make the necessary arrangements.

In the lofty palace.

"Father, after I leave, you shall take over the great formation that merged with spacetime storm. As for those Dao soldiers, Hall Master Yuan and you can work together to take care of them. If there is any problem in Green Fire World, Green Fire World can discuss with Lineage of Star."

"Jian Yi, stay back in Green Fire World to serve as a deterrent to other experts."

"Hall Master Yuan..."

Jian Wushuang passed down the tasks one by one.

Everyone who was seated in the hall looked extremely solemn.

They all knew that Jian Wushuang was going to a dangerous place and it was hard to predict his life and death.

"Third Brother. Do you have to go no matter what?" Wang Yuan looked at him.

"No matter what," Jian Wushuang nodded. "This is not only for Eternal Chaotic World, it is also for Green Fire World. This crisis concerns the life and death of Eternal Chaotic World. If we fail, the entire Eternal Chaotic World will vanish. Green Fire World naturally won't exist either. Hence... All experts in Eternal Chaotic World will be obligated!"

Jian Wushuang was determined.

Everyone around him saw his determination and didn't pursue further.

Then, Jian Wushuang began to prepare for his trip into the dark millstone.

Although ten years' time wasn't long, at least he was given some time to prepare himself.

"It's a pity that the dark millstone appeared all of a sudden and a little too early. If it had appeared a little later, by about a hundred years, I would be able to cultivate the ancient tribe's first volume of

Immemorial Celestial Body. By then, my divine body and my divine power would improve again. Regardless of if it was my overall power or my defensive power, both would improve tremendously. Then, I would be even more confident in surviving.”

“It’s a pity...”

Jian Wushuang found it a regrettable matter but he had no alternatives.

The crisis had descended and he had to deal with it.

In ten years’ time, Great Emperor Colored Glaze had passed the four of them the concealment skill.

Besides, Abysmal Saint Master, Great Emperor Zhi Luo and Emperor Jiu Qiao had made a trip to Green Fire World one after another and they had received the inheritance of Secret Skill of Star Palace in Lineage of Star.

Although the three Great Emperor had received the perfect inheritance of the Secret Skill of Star Palace, the three of them could only perform the first volume, no matter how hard they tried.

It was impossible for them to even perform the second volume!

It seemed that only Jian Wushuang and the Star Palace Master, who had already passed away, had cultivated the second volume successfully in the entire Eternal Chaotic World.

Star Palace Master had once absorbed the blood essence of an expert from Seven Star Black Sect but Jian Wushuang... It was smooth sailing for his cultivation. Not to mention the second volume, he had already cultivated the third volume successfully.

Of course, even the first volume itself would be a great trump card for the three Great Emperors.

It was a pity that the trump card would require a long time until it could be performed the next time again. Hence, they didn’t dare to use it recklessly.

Ten years passed by very quickly.

Jian Wushuang was well prepared and he handed down all the tasks. Then, he left.

In Eternal Chaotic World, in the boundless dark void.

It was still extremely far from the ten cultivation sanctuaries.

In the dark void then, there was a huge black steel ball that was far bigger than the size of a holy kingdom spinning and traveling forward.

Everywhere it passed would vanish. There was no space for struggle.

In the dark void near the dark millstone, swoosh! Swoosh! Swoosh! Swoosh!

There were a few figures that appeared simultaneously.

The higher-ups from Sanctuary Alliance, led by Emperor Bai, Red Dragon King, Ancestor Tian Chen and the others were there.

Of course, Jian Wushuang, Abysmal Saint Master, Great Emperor Zhi Luo, Emperor Jiu Qiao were there too.

Their gazes were fixed upon the huge black steel ball before them.

Chapter 2008 Barge In

“This, this is the dark millstone?”

Everyone looked astonished.

Previously, they had only seen the dark millstone through the mirror image and the mirror image hadn't shown the entire scene. Plus, ten years had passed. The size of the dark millstone had grown bigger significantly.

“The speed of growth of this dark millstone is shocking. Its power is constantly growing stronger too. We have to destroy it at our fastest possible speed,” Ancestor Tian Chen said in a deep voice.

“Don't delay anymore. The four of you, are you ready?” Emperor Bai looked at the four of them.

Jian Wushuang, Abysmal Saint Master, Great Emperor Zhi Luo and Emperor Jiu Qiao exchanged a look and nodded solemnly.

Emperor Bai squinted his eyes and then took out a transparent pearl.

The transparent pearl contained a grayish mysterious power and there was faint lighting flashing within.

“This is...” Jian Wushuang was surprised.

He had seen this transparent pearl before.

XXX

It was used to break formation or prohibition.

A long time ago, when Jian Wushuang had yet to leave Green Fire World, they took out XXX when they fought with Jin Kingdom.

However, the power of the XXX that they had taken out back then and the one Emperor Bai was holding was vastly different.

“This is the top grade XXX from ancient times. XXX of this level can forcefully tear an opening in the great formation, no matter how powerful it is. However, the opening will only last for a split second. The four of you have to seize the chance to get inside.

“Yes,” the four of them nodded.

Emperor Bai took action.

He drove the pearl with his divine power and he threw it at the huge dark millstone that was spinning.

The moment the XXX appeared on the surface of the dark millstone, there was a dim light on the dark millstone. The dim light looked extremely mysterious but powerful!

As the XXX exploded, a terrifying power exploded too. It tore everything and the dim light tore a gap big enough for a person to pass through.

"Right now," there was a flash of light in Emperor Bai's eyes.

"Let's go!" Abysmal Saint Master roared.

Then, the four of them who were ready long ago plunged through the gap without hesitation and disappeared behind the gap.

The gap immediately vanished right after they plunged through.

"They're in."

Emperor Bai and the rest waited in the void outside the dark millstone and all of them looked solemn.

They didn't know what was in the dark millstone, nor did they know what Jian Wushuang and the troop would encounter. However, because they didn't know, someone had to step forth to find out.

"I hope that the four of them will return from the dark millstone alive," Ancestor Tian Chen said.

"They not only have to walk out alive, more importantly, they also have to collaborate with us to destroy this dark millstone. Otherwise... If the dark millstone continues to spin, it will be only a matter of time until we all die," Red Dragon King said in a deep voice.

The surrounding Great Emperors heard and nodded simultaneously in agreement.

They knew the responsibility that the four members carried.

It could be said that they were a crucial factor if Eternal Chaotic World could survive the crisis.

"The four of them carry a heavy responsibility. The other experts outside the dark millstones are equally important too. We can't be careless," Emperor Bai said.

"Yes," the surrounding Great Emperors' gazes were cold.

...

In the huge, dark millstones, Jian Wushuang and the others went through the gap and appeared within a huge formation.

"This great formation is complicated. Not only does it have the powerful defense power on its exterior, there are also many prohibitions internally," Emperor Jiu Qiao's face grew grave.

"Zhi Luo, you're the best at the manipulation of spacetime power and you're the best among the four of us in formation. Hurry up and lead us out of this prohibition," Abysmal Saint Master said.

"I'll try," Great Emperor Zhi Luo looked solemn.

She walked at the front while Abysmal Saint Master, Jian Wushuang and Emperor Jiu Qiao followed behind her.

“Jian Wushuang,” Abysmal Saint Master suddenly looked at Jian Wushuang as they traveled forward, “Although you and I had a conflict, this is no trivial matter. I hope you draw a clear distinction between private and public interests. I hope you will follow my instructions.”

“Don’t worry. As long as you do not scheme against me, or are obviously sending me to death, I naturally will follow your instructions,” Jian Wushuang replied coldly.

“Good,” Abysmal Saint Master glanced at Jian Wushuang again but didn’t say anything more.

Just as the four of them entered the dark millstone and traveled forward in the prohibition, in the depth of the dark millstone.

There were three lofty thrones towering in the boundless dark void.

Leng Ruxue, the savage man and the blurry, bloody man sat there.

In front of them, there was a man in a black robe who knelt down politely.

“Misters, I have already located the location of the few people who barged in via the great formation. However, they are extremely powerful and they have already broken through the strongest obstacle. Although there are some prohibitions in front of them, it will be impossible to kill or even block them,” the man in the black robe reported.

“If prohibitions won’t kill them, why not send a few experts to kill them?” The savage man spoke with a bright void.

“Sure, but judging by their travel speed, they would have definitely passed the prohibited range and appeared in our world by the time our experts arrive. In other words, we can’t kill them before they enter the world,” the man in the black robe said.

The savage man’s expression grew in distress.

If the few of them were to really enter the world, there would be many secrets about the world that would be exposed.

“Forget it. It is only a matter of time until they are exposed. Which territory will they appear in after they pass the prohibition?” The savage man asked.

“Looking at their current location, they should appear near Silver-Winged God Mansion,” the man in the black robe replied.

“Silver-Winged God Mansion?” The blurry, bloody man looked down, “As we can lock onto their location, send experts over immediately. Kill them at the fastest possible speed! It’d be best if it happens before they receive any information about this world or even share the information before they die.”

“Ling Zong is near Silver-Winged God Mansion, right? Tell him to rush over. With him there, these few people won’t even think about fleeing! Humph! Want to resolve this grand formation from within and destroy this world entirely, dream on!”

“Yes,” the man in black took the command and sent it down immediately.

Jian Wushuang and the others weren't aware that they were being watched since the very moment they entered the dark millstone.
