

Swordsman 3041

Chapter 3041: Passed

Swish!

Jian Wushuang's figure had disappeared into thin air. In its place was a strange silver stream of light, followed by a sword light.

It was incredibly fast.

When the sword light lit up, the black-clothed woman's eyes shrank, and a trace of horror flashed across her face.

The sword was so fast that the black-clothed woman did not react at all.

Chi!

The sword light flashed and the black-clothed woman's head flew away.

In just one move, the black-clothed woman among the three gatekeepers had been killed.

"Humph!"

With an angry snort, the stocky elder had already arrived in front of Jian Wushuang. He held a big hammer in each of his hands and his body was covered with a large number of black thunderbolts. It was as if the Thunder God had come to the world, and he suddenly attacked Jian Wushuang.

"Good timing."

Jian Wushuang smiled indifferently and threw out his sword with his right hand.

At the moment he threw out his sword, a shocking sword essence suddenly burst out.

Space-time sword art, Xi Xiang!

Bang!

A low collision sound was heard. The stocky elder's body suddenly trembled and he immediately retreated in a sorry state.

Before Jian Wushuang's comprehension of space-time principles had reached a breakthrough, he had used all of his strength to use Xi Xiang to clash with the stocky elder. He had barely gained the upper hand. But now, his comprehension of space-time principles had reached the third stage! The power of Jian Wushuang's Xi Xiang move had increased by three times!

When the two fought again, it was naturally a crushing blow.

"Die!"

Jian Wushuang's body flashed and he attacked the last white-robed woman.

The white-robed woman used her soul attack and controlled the strange spears to flash toward Jian Wushuang one after another. However, Jian Wushuang easily dodged them. Then, the sword light flashed past the white-robed woman and she was killed.

In just a moment, two of the three gatekeepers were killed, and the burly elder was completely crushed. The result was naturally out.

“Boy, congratulations on reaching the top of Di Mountain.”

The burly elder stood aside and watched Jian Wushuang.

The divine bodies of the black-robed woman and the white-robed woman, who had been ‘killed’ by Jian Wushuang, were restored. They looked at Jian Wushuang with a strange look in their eyes.

“Thank you.” Jian Wushuang smiled indifferently.

At this moment, a figure condensed on the top of Di Mountain. It was Elder Gu, who had been watching the battle from the side.

“Congratulations, little guy.” Elder Gu looked at Jian Wushuang with a hint of joy on his face as he said, “It has been a long time since Master left this secret realm. Now, someone can finally pass the test left by Master!”

“Little guy, come with me.”

Elder Gu waved his hand, and a space passage appeared in the void around Di Mountain.

Elder Gu led Jian Wushuang directly into the space passage.

They were still in the secret realm, but it was still the core and the most important area of the secret realm.

They were still in a palace, but the palace was 30,000 feet tall and vast.

As soon as Jian Wushuang stepped into the palace, he looked through the void and saw a figure sitting on a lofty throne at the end of the palace.

It was a slender, three-meter-tall, handsome young man.

The young man’s skin was fair, tender, and even better than many beautiful women.

He wore a snow-white velvet coat with golden edges, and his long brown hair fell to his shoulders. He looked lazy, but he had a pair of deep eyes that seemed to contain billions of stars. Above those deep eyes were two sword-shaped eyebrows.

These two sword-shaped eyebrows were like two peerless divine swords in a scabbard. As long as they were slightly bunched up, a terrifying sword essence would burst out.

The young man sat on the throne lazily. There was no aura emanating from his body, making him look extremely ordinary.

However, even though the young man was sitting at the end of the palace, he was still far away from Jian Wushuang. The young man did not even raise his head to look at him. He just sat there, it still made Jian Wushuang feel a trace of respect.

Yes, it was respect!

It was an instinctive respect for experts.

“Little guy, come with me to see Master,” Elder Gu said.

“Master? Is that the Master of the secret realm?” Jian Wushuang was quite excited.

He followed Elder Gu and slowly walked toward the palace.

After a while, they finally arrived at the center of the palace and in front of the towering throne.

As they walked here, the reverence in Jian Wushuang’s heart grew stronger and stronger.

“Master,” Elder Gu said.

His voice was gentle, but it was absolutely respectful.

On the towering throne, the three-meter-tall handsome man moved slightly. Then he slowly raised his eyelids. His pitch-black, emotionless eyes looked directly at Elder Gu and Jian Wushuang.

The moment Jian Wushuang sensed the handsome man’s eyes, his heart turned cold, as if he had completely fallen into an ice cellar.

Fortunately, Jian Wushuang had lived for two lifetimes and had experienced many storms. In his last life, he had even seen countless top experts. Although those experts were restricted by heaven and earth and could not unleash their true strength and power, however, Jian Wushuang had seen some incredible methods.

Therefore, although Jian Wushuang was full of awe in front of this handsome man, he did not lose his composure too much.

“Heavenly Sword Marquis, greetings, senior,” Jian Wushuang said respectfully.

He could see that the handsome man in front of him had died a long time ago, leaving behind only a consciousness incarnation.

“Heavenly Sword Marquis?”

An ancient and deep voice slowly came out of the handsome man’s mouth. “Did you pass the Di Mountain test that I left behind?”

“Yes.” Jian Wushuang nodded.

“Master, this little guy is extremely talented and has an extraordinary background,” Elder Gu said.

“I know.” The handsome man nodded.

He had created the secret realm himself. Although Elder Gu was in charge of many things in the secret realm, as the Master of the secret realm, he knew all the things that had happened in the secret realm.

For example, when Jian Wushuang had tried to get the corpse puppet army, the handsome man had seen that his soul had been killed six or seven times in order to survive the test.

“Once his soul is destroyed, he will definitely die. This is a common thing of the heavenly axiom, but this little guy completely goes against the common knowledge of the heavenly axiom. He is a special anomaly in the heaven and earth, and the heavenly axiom does not allow him to exist.” The handsome man glanced at Jian Wushuang with a strange look in his eyes.

“In any case, since you have passed the Di Mountain test that I left behind, what I left in the secret realm will naturally belong to you.”

The handsome man’s voice rang out slowly.

Chapter 3042: Xue Bei

“In any case, since you have passed the Di Mountain test I left behind, what I left behind in this secret realm will naturally belong to you.”

Hearing the handsome man’s words, Jian Wushuang was also delighted.

This handsome man was a genuine principles master, and he was also a principles master who had opened a secret realm.

As far as Jian Wushuang knew, principles masters were superior, but there were differences in strength.

Most principles masters who were weaker could not open a secret realm of heaven and earth.

Those who could open a secret realm of heaven and earth were definitely the best among principles masters.

Moreover, on the way to the depths of the secret realm, he saw a lot of sarcophagi. In addition to many top-notch and Invincible Immortal Saints, there were two principles master sarcophagi, the handsome man had also killed the two principles masters.

To be able to kill principles masters and two principles masters at that, one could imagine the strength of the handsome man.

Jian Wushuang was naturally eager to get the things left in the secret realm by such a super existence.

“Before you get what I Left, you must remember my name. My name is Xue Bei and I come from the Divine Ancestor Daoist Sect, the bloodline of the blood ancestor.” The handsome man’s voice sounded again.

“Divine Ancestor Daoist Sect? The bloodline of the blood ancestor?” Jian Wushuang was stunned.

He had never heard of the Divine Ancestor Daoist Sect or the bloodline of the blood ancestor.

He had only heard of the Blood Clan, which was one of the four great divine clans of the Divine Beginning World.

However, the Blood Clan and the bloodline of the blood ancestor were clearly two different things.

Seeing the confusion on Jian Wushuang's face, Xue bei asked, "Heavenly Sword Marquis, you haven't left the endless territory, have you?"

"Yes." Jian Wushuang nodded.

He had been born in the endless territory. Although he was full of longing and yearning for the vast third heaven, he had never been there before because he was not strong enough.

"That's right. Born in the endless territory, you haven't really explored the third heaven, so your horizons are limited. It's normal that you haven't heard of the Divine Ancestor Daoist Sect." Xue Bei said, "Although you haven't heard of the Divine Ancestor Daoist Sect, you can still come into contact with the Heaven-cleaving Alliance with your strength."

"I know about the Heaven-cleaving Alliance. I'm now a heaven-level member of the Heaven-cleaving Alliance," Jian Wushuang said.

"Heaven-level?" Xue Bei glanced at Jian Wushuang and nodded slightly. "The Heaven-cleaving Alliance is recognized as the most powerful freedom alliance in the Divine Beginning World. However, there are many powerful freedom alliances in the Divine Beginning World. There are three of them, and the Heaven-cleaving Alliance is only one of them."

"Three freedom alliances?" Jian Wushuang's expression changed. "The Heaven-cleaving Alliance is only one of the three freedom alliances? Then the other two freedom alliances are..."

"The remaining two freedom alliances are the Spacetime Temple and the Divine ancestor Daoist sect," Xue Bei said.

Jian Wushuang was stunned.

He knew about the Heaven-cleaving Alliance and the three freedom alliances.

He also knew about the Spacetime Temple, and it must be related.

After all, the two spacetime divine skills he had obtained from the golden stone came from the Spacetime Temple!

According to the information in the golden stone, he had already entered the Spacetime Gate, so he was a member of the Spacetime Temple.

"The Spacetime Temple is one of the three strongest freedom alliances in the Divine Beginning World?" Jian Wushuang was a little shocked.

He had guessed that the Spacetime Temple must be extremely powerful and that the Temple Master who created it must be unfathomable. Now it seemed that it was true.

One of the three freedom alliances in the Divine Beginning World was on par with the Heaven-cleaving Alliance. Although the Heaven-cleaving Alliance was ranked first and recognized as the strongest, the fact that the Spacetime Temple was on par with it was enough to show how terrifying the Spacetime Temple was.

This was the case for the Temporal Temple as well as for the Divine Ancestor Daoist Sect.

“Of the three great freedom alliances, the Heaven-cleaving Alliance is the strongest and has the largest number of branches. It is not an exaggeration to say that it has spread to every corner of the Divine Beginning World. However, the Temporal Temple is different from the Divine Ancestor Daoist Sect. The Temporal Temple is the most mysterious and its methods are also very impressive. Most of the powerful warriors within the temple have comprehended the principles of time and space. And these powerful warriors who are proficient in the principles of time and space have used their most powerful methods to create a special patch of time and space, making it difficult for others to find them.”

“Especially the mysterious Temple Master of the Spacetime Temple. His comprehension of the principles of spacetime is widely recognized as the number one person in the Divine Beginning World. His ability to use spacetime is unparalleled, and he is definitely one of the best among the countless cultivators in the entire Divine Beginning World.”

Hearing this, Jian Wushuang was shocked, but he was not surprised.

The Temple Master of the spacetime temple had created the spacetime divine skill himself. Jian Wushuang had already experienced how powerful the spacetime divine skill was.

“Finally, it’s the Divine Ancestor Daoist sect. The Divine Ancestor Daoist sect is not as extensive. Most of its power is concentrated in the third heaven. Although the Divine Ancestor is the leader of the Divine Ancestor Daoist Sect, it has many factions under its command. My Blood Ancestor faction is one of them,” Xue Bei said.

“Senior, with your strength, you should be at the top of the Blood Ancestor faction, right?” Jian Wushuang could not help asking.

Xue Bei was a powerful Principles Master who could open a secret realm of heaven and earth. Such a rule master was a peak expert in the entire Divine Beginning World. Among the factions under the Divine Ancestor Daoist Sect, he should be ranked among the top.

“You can say that.” Xue Bei nodded slightly. “I belong to the blood ancestor’s lineage. There are more than ten masters of principles, but there are only two who can match my strength. Back then, I was a great general in the blood ancestor’s lineage!”

As Xue Bei spoke, his gaze became Misty. It was as if he had recalled everything he had experienced over the long years.

“I once fought my way into a sect alone, killed four rule masters, and left unhurriedly!”

“I was lucky enough to accept the invitation to participate in the Heaven Lake Banquet where the top experts gathered!”

“I once participated in the world-ending war with the experts of the blood ancestor’s bloodline!”

“I was even lucky enough to go to the universe battlefield with the blood ancestor!”

Xue Bei’s voice was rather ethereal.

Hearing his words, Jian Wushuang’s expression was very strange.

"The Heaven Lake Feast? The world-ending war from countless years ago? The Universe Battlefield?" Jian Wushuang murmured. He was very unfamiliar with these things.

However, he also knew that he was only an Immortal Saint and had stayed in the endless territories. He had not been to the third heaven, the core of the Divine Beginning World. It was normal that he did not know many things.

However, Xue Bei's words still made Jian Wushuang's blood boil and his heart filled with yearning.

After a long time, Xue Bei seemed to calm down.

"Forget it, it's all in the past."

His voice also became low.

...

Chapter 3043: Four Opportunities (First Half)

Xue Bei's expression was obviously a bit desolate.

Right, no matter how brilliant and arrogant he used to be, he still died in the end.

What was left now was only a trace of consciousness.

"Heavenly Sword Marquis, if you can pass the test I set, then the opportunities in this secret realm will be handed to you. I left four opportunities in this secret realm," Xue Bei said.

"Four?" Jian Wushuang's eyes lit up and his heart was full of expectation.

"First is the first opportunity."

Xue Bei waved his hand and took out an interspatial ring.

"This is..." Jian Wushuang looked at the interspatial ring in confusion.

"This is all the resources and treasures that I have collected in my life. They are all in this interspatial ring," Xue Bei said.

Hearing this, Jian Wushuang's eyes couldn't help reddening.

The treasures and resources that Xue Bei had collected in his life?

Wasn't this all of Xue Bei's wealth?

This was an extremely powerful principles master. All of his wealth? How many resources and treasures did he have?

Jian Wushuang could not imagine.

"Don't be happy too early. This interspatial ring is not meant for you." Just as Jian Wushuang was excited, Xue Bei poured cold water on him.

Jian Wushuang could not help but be stunned.

Xue Bei had just said that he would give him an opportunity, and then he took out this interspatial ring. In the end, it was not for him?

"It's true that this interspatial ring is what I've collected all my life, but I intend to leave these things to the blood ancestor lineage. After all, there is competition among all the factions in the Divine Ancestor Daoist sect. This competition is very fierce, and the blood ancestor lineage also desperately needs the resources that I've left behind. The reason why I'm taking it out now is that I hope you can give it to the blood ancestor lineage in the future."

"Of course, I've already set a special restriction on the interspatial ring. Only the unique means of the blood ancestor bloodline can unlock it. Otherwise, even a principles master can not open it," Xue Bei said.

Jian Wushuang's expression became even more strange.

Xue Bei glanced at Jian Wushuang, he said, "Heavenly Sword Marquis, although you didn't take me as your master, you passed my test and can inherit my legacy. You can barely be considered half a disciple of me, so you can be considered a member of the blood ancestor's bloodline. It's not too much for me to ask you to give this interspatial ring to the blood ancestor's bloodline."

"It's not too much, of course it's not too much." Jian Wushuang just smiled awkwardly.

"You don't have to be too disappointed. Although I won't give you this interspatial ring that I've collected all my life, I've also chosen three special treasures for you. These three treasures are my first opportunity for you," Xue Bei said.

Hearing this, Jian Wushuang looked forward to it again.

"First is the first treasure."

Xue Bei waved his hand, and a one-meter-long jade ruler appeared in front of Jian Wushuang.

The jade ruler had a unique shape, and its body was carved with extremely complicated secret patterns. These secret patterns covered the entire body of the jade ruler.

Moreover, the jade ruler was surrounded by two completely different powers, ice and fire.

Seeing the jade ruler in front of him, Jian Wushuang's expression could not help but change.

From the first glance at the jade ruler, he could already tell that it was extraordinary.

"This aura is extraordinary and superior... What level is this treasure?" Jian Wushuang exclaimed.

He had seen many treasures, and the most amazing one was naturally the mountain river map.

However, because the level of the map was too high, Jian Wushuang could not see the specific level of the map.

Other than the map, the other treasures Jian Wushuang had seen were probably far inferior to the jade ruler.

"This is the ice-fire swimming dragon ruler. It's a domain-type supreme treasure that I obtained by chance a long time ago," Xue Bei said.

"Supreme treasure?" Jian Wushuang's pupils constricted.

In the Divine Beginning World, there were all kinds of treasures, from Earth Treasures to Heavenly Treasures to Holy Treasures!

Holy Treasures were only used by the Immortal Saint, but the principles masters, whose strength far surpassed that of the Immortal Saint, used Supreme Treasures!

The Supreme Treasure of Heaven and earth was extremely powerful!

Jian Wushuang finally understood why the jade ruler's aura was so extraordinary and superior. It turned out to be a supreme treasure!

And it was a domain-type supreme treasure!

Among all kinds of treasures in the world, attack weapons and body-protection armors were the most common, while domain-type, suppression-type, and soul-type treasures were very rare.

Such a rare treasure was much more valuable than ten attack weapons of the same level.

A domain-type supreme treasure was naturally comparable to more than ten attack weapons of the same level!

"If a cultivator wants to go further, he first has to survive in all kinds of dangers or environments. Only by living longer will he be able to walk a longer path in the future. That's why I left you this ice and fire swimming dragon ruler so that you can control your domain. With the help of your domain, as long as you don't encounter too strong an enemy, you can leave whenever you want, stay whenever you want, and seize the opportunity."

"You'll need this ice-fire swimming dragon ruler in the future," Xue Bei said.

"Yes, of course." Jian Wushuang was very excited.

Of course, he needed a domain-type supreme treasure!

After all, he was good at domains.

Previously, he had relied on the combination of the nine bends blood light river, star armor domain, and prison of punishment to suppress cultivators of the same level.

However, because of his great increase in strength, this domain technique gradually weakened.

There was nothing he could do. The nine bends bloody light river was only a third-grade holy treasure. It was still very effective against some False Saints or ordinary first-grade True Saints, but at the second and third-grade True Saints level...the suppression effect of the nine bends bloody light river was negligible.

As for the prison of punishment, it was just one of the methods of the secret skill divine punishment.

This method was just the most basic method. It formed a golden domain to trap the opponent and at the same time, produce a certain domain suppression effect.

However, as Jian Wushuang had cultivated the divine punishment god to 30,000 feet high, this method was rarely used, because the effect was just so-so.

The only domain that had a good effect was the star armor domain.

After the nine luminaries star armor reached the heavenly armor chapter, the star armor domain it used still had a certain oppressive effect.

Now, if he got the ice-fire swimming dragon ruler and used the power of this domain-type supreme treasure, he did not need to use too much. Even if he only used 10% of it, it would be enough to greatly increase his battle strength. With the star armor domain, it would be even better! The effect would be even better!

Without hesitation, Jian Wushuang waved his hand and took the ice-fire swimming dragon ruler. Xue Bei did not stop him.

Chapter 3044: Four Chances (Second Part)

— —

“Next is the second treasure,” Xue Bei said again.

Jian Wushuang’s eyes were shining, and his heart was full of expectation.

The first treasure Xue Bei left for him was a domain-type supreme treasure, so he would not be able to find the second treasure.

Under Jian Wushuang’s expectation, Xue Bei suddenly flipped his palm and a golden seal appeared in his hand.

“This is...” Jian Wushuang looked at the golden seal and felt an extremely powerful aura from it.

“This is the ruler seal. Before I became a principles master, I specially hired someone to refine it so that I could better kill the Immortal Saint. Although this ruler seal is not a supreme treasure, its value is not inferior to a supreme treasure,” Xue Bei immediately began to explain.

“The ruler seal contains a special magic formation. Once it’s used, it can seal a large territory as fast as possible. It can control time and space. The person holding the seal knows what’s happening in the territory sealed by the magic formation.

“The magic formation can be big or small. It’s all under your control. If you’re in a fight and you’re worried that your opponent will escape, you can use the ruler seal to seal the territory. Unless your divine power is two levels stronger than yours, no one can escape from the magic formation.”

Jian Wushuang was shocked.

He was shocked because the sight of the ruler’s seal reminded him of the dragon-imprisoning compass of the Magic Note Divine Kingdom.

The dragon-imprisoning compass could also seal a huge territory in a short period of time. At that time, the experts of the demonic sound kingdom had sealed off his territory so that he would not have a chance to escape, its function was obviously similar to that of the master seal.

“No, although the dragon-imprisoning compass is very powerful, it came from the Magic Note King. Even if a rank four True Saint spent a lot of money to refine this treasure, its level would not be much higher. If I’m not wrong, the dragon-imprisoning compass must have a great limit,” Jian Wushuang thought.

This was indeed the case.

Although the power of the dragon imprisoning compass was extraordinary, it had already taken shape.

The power of the array within the dragon imprisoning compass had a limit. In the hands of the Magic Note Divine King, it could unleash its full power. The array could seal space and time, making it difficult for even a rank four True Saint to escape in a short period of time, however, even if the Magic Note King’s strength broke through to a rank five True Saint, the power of the ball cage array would still not increase. It could only trap cultivators below rank four.

The ruler seal was completely different.

The ruler seal directly controlled space and time, and the power of the magic array was automatically activated by the cultivator.

The stronger the divine power of the owner of the ruler seal, the more powerful the magic array would be. To break the magic array, the strength of the magic array must be two levels higher than the owner’s divine power.

For example, if Jian Wushuang used all his secret skills, his divine power would definitely be at rank four True Saint-level or even one of the best. At this time, he could use the ruler seal magic array to seal an area, then this array, only the sixth level True Saint and above the strong can be broken.

Even a rank five True Saint, a level stronger than Jian Wushuang’s divine power, could not escape from this magic array.

“The seal of mastery, awesome!”

Jian Wushuang’s eyes sparkled.

Before the Ice and Fire Dragon Ruler, is the domain class treasure, can let his life-saving ability greatly enhance.

Now, the ruler seal could increase his ability to chase after his enemies.

With the ruler seal in his hand, Jian Wushuang was not afraid that his enemies would escape. Even if his enemies had an immortal body, as long as they were trapped in the formation of the ruler seal and could not escape, Jian Wushuang could kill them slowly.

“The last treasure is this.” Xue Bei flipped his palm again and took out several purple crystals.

These purple crystals were very pure in color and would definitely be dazzling in the sunlight.

“Senior, what is this?” Jian Wushuang asked.

"It's a universe crystal. I brought it back when I was adventuring in the universe battlefield," Xue Bei said.

"Universe crystal? What's the use of this?" Jian Wushuang asked.

"Its use...is very broad, but it's not useful to you now. After all, if you want to use this universe crystal, you have to be at least a principles master," Xue Bei said.

"Only the rule master can use it?" Jian Wushuang was stunned. "Senior, since I don't need it now, why do you leave it to me?"

"It's simple. Although you don't need it, it represents great wealth," Xue Bei said with a smile, "didn't you say that you're a heaven-level member of the Heaven-cleaving Alliance?"

"I know about the treasure pavilion of the Heaven-cleaving Alliance. You can exchange these universe crystals for sacred elixirs in the treasure pavilion. If nothing unexpected happens, one universe crystal can be exchanged for five billion sacred elixirs."

"What?" Jian Wushuang was shocked.

One universe crystal could be exchanged for five billion sacred elixirs?

But Xue Bei had taken out ten universe crystals.

10 universe crystals? Wasn't that 50 billion sacred elixirs?

"Take it. Although I didn't give you the interspatial ring, you are the inheritor of my legacy, so you can't be too shabby. These 10 universe crystals are for you, so you should spend them sparingly," Xue Bei said.

"Thank you, senior." Jian Wushuang was very excited. He waved his hand and put all 10 universe crystals into the interspatial ring.

After taking them, he was still very excited.

The three treasures that Xue Bei had prepared for him...Ice and Fire Dragon Ruler, ruler seal, and ten universe crystals, all of which were extremely valuable and useful to him.

But the three treasures added together were only the first opportunity that Xue Bei wanted to give him!

Xue Bei had just said that there were four opportunities left for him in this secret realm.

If the first one was like this, then the other three opportunities...

"The second opportunity I want to give you is a secret skill!" Xue Bei said again.

"A secret skill?" Jian Wushuang was looking forward to it.

"This secret skill is very special. It's called...Emperor's Order," Xue Bei said slowly.

"The Emperor's Order skill is also a life-saving secret skill. It was obtained by the leader of the blood ancestor's bloodline, the blood ancestor, by chance when he was adventuring in the universe battlefield.

After that, he only passed this secret skill to two people. One was his personal disciple, and the other was me!”

“Now, I will pass this secret skill to you!”

With that, Xue Bei slowly raised his palm and pointed his right index finger at Jian Wushuang’s glabella.

Chapter 3045: Four Opportunities (Third Part)

— —

Xue Bei’s index finger touched Jian Wushuang’s glabella, and instantly, a vast amount of information surged toward Jian Wushuang.

Jian Wushuang was also rapidly receiving this information in his mind.

After he had completely received this information, he finally had some understanding of the Emperor’s Order skill.

“This...this is the Emperor’s Order skill!” Jian Wushuang was completely shocked.

There was nothing he could do because the Emperor’s Order skill was indeed shocking.

This secret skill required a special method to create a clone.

Of course, this clone was not a clone that could be used for fighting, but a pure energy clone.

Yes, it was a pure energy clone. It only had a huge amount of divine power, but it did not have the ability to fight and kill people.

Do not underestimate this kind of energy clone.

According to the message that Xue Bei had just sent him, the Emperor’s Order technique was to condense such an energy clone and carry it around with him. The divine power of this kind of energy clone was equivalent to the original body. Once the original body went through a big battle, the divine power would be exhausted, he could immediately replenish it through the energy clone. If he was willing, he could instantly replenish his divine power.

After all, when a cultivator reached the Immortal Saint Realm and controlled the immortal body, as long as his divine power was not completely exhausted, he could constantly refill it.

The importance of this divine power was obvious.

Thus, in the Divine Beginning Realm, many Immortal Saints carried a large number of pellets to recover their divine power. They were prepared for emergencies. Some of the best pellets could recover 20-30% of the Immortal Saint’s divine power in a short time, to those Immortal Saints, they were like precious treasures that would attract countless people to fight for them.

Because such a medicinal elixir, at a critical moment, could possibly give the Immortal Saints an extra life.

Just that medicinal elixir alone was enough. and how important was an Emperor's life clone that could provide the same divine power as the original body?

Moreover, when the Emperor's Order skill was cultivated to an extremely high level, it could not only form one Emperor's life clone, but also nine!

Nine Emperor's life clones, that was nine lives!

What an incredible secret skill!

"Senior, this, this Emperor's life skill..." Jian Wushuang was so shocked that he could not speak.

"Why, are you shocked?"

Xue Bei smiled. "When the blood ancestor taught this secret skill to me, I was as shocked as you. This secret skill is indeed incredible, but it's from the universe battlefield, so it's normal for it to be so amazing. However, the Emperor's Order skill is very powerful, but it can't guarantee that you won't die. For example, I condensed five Emperor's Order avatars at my peak, but in that battle, I wanted to escape, but in the end, I used up all my divine power, but in the end, I still died!"

"If I hadn't reacted quickly and split my consciousness when I was about to die, carrying my secret realm and my interspatial ring directly into the space-time crack, you wouldn't have had the chance to see me."

Jian Wushuang was shocked and then nodded secretly.

"You can barely cultivate the Emperor's Order skill with your current strength. However, to cultivate this secret skill, you need a well-preserved divine body. Such a divine body can only be relied on by other cultivators. If you want the divine power of the Emperor's Order avatar to be equal to the original body, the divine body that carries the Emperor's Order avatar should be at the same level as the original body. For example, I hope to collect the corpses of many experts for the Emperor's Order skill," Xue Bei said.

"Senior, you said before that you broke into a sect and killed four principles masters in one go, but there are only two principles masters' corpses in this secret realm. If I'm not wrong, you used the other principles masters' corpses to refine the Emperor's Order doppelganger, right?" Jian Wushuang said.

"Yes." Xue Bei nodded.

"Senior, I have a favor to ask of you," Jian Wushuang said.

"Speak," Xue Bei said.

"My physique is very special and my divine power is very vast. Although I'm only a rank one True Saint now if I cultivate the Emperor's Order skill, the corpse of the expert who carries the Emperor's Order doppelganger can not be done by a cultivator of the same level. Even the corpse of a rank four, five, or even rank six True Saint who is stronger than me may not be able to do it. Therefore, I want to take a few corpses from this secret realm. I don't know if it's possible," Jian Wushuang said.

"How many corpses?" Xue Bei raised his eyebrows. "These corpses were prepared for the cultivation of the art of Emperor's Order. Since you want to use them, of course, you can, but you have to be able to take them with you."

“Will I encounter any trouble when I take these corpses?” Jian Wushuang frowned.

“Of course.” Xue Bei smiled. “The corpses of the experts in my secret realm were all well-known in the Divine Beginning World. Even the weakest among them was almost invincible among the Immortal Saints. Even if such experts are dead, their will still remains on their corpses. If you want to refine these corpses into tools to carry the emperor’s avatar, of course their will won’t agree.”

“Is that so?” Jian Wushuang understood. “Let’s try it later.”

Jian Wushuang had received the inheritance of the Emperor’s Order skill, so he knew how powerful this secret skill was. He definitely wanted to cultivate this secret skill.

However, to cultivate this secret skill, it was necessary to carry the equipment of the Emperor’s Order doppelganger, which was the corpse of an expert!

“Next is the third opportunity,” Xue Bei said again.

Jian Wushuang looked at him expectantly.

Xue Bei flipped his hand and took out a token.

“This is the third opportunity for you.” Xue Bei threw the token to Jian Wushuang.

Jian Wushuang took it and scanned it with his consciousness, but his expression became strange.

Because he could not see any information or content from the token.

To be exact, there was something inside the token, but there was a layer of restriction inside the token, which prevented his consciousness from exploring.

“Senior, what is inside the token?” Jian Wushuang asked.

“A star map,” Xue Bei said.

“Star map?” Jian wushuang was stunned.

Just a star map was the third opportunity left for him?

Jian Wushuang immediately understood that this star map was not a trivial matter.

“I told you before that I went to the universe battlefield and this star map came from the universe battlefield. To be exact, when I went to the universe battlefield, I entered a special space-time by chance. However, I was too weak and could not move in that special space-time. I had no choice but to leave. However, I used this star map to record the location of that special space-time,” Xue Bei said.

....

Chapter 3046: Bodhi World

— —

“Another universe battlefield?” Jian Wushuang’s expression was strange. “Senior, what is this universe battlefield?”

“The universe battlefield...I don’t know exactly what it is or where it came from, but I know that there are countless opportunities. As long as you have the strength and good luck, you can get unexpected things from it,” Xue Bei said, his expression was obviously a little excited.

But soon, he became serious. “Little guy, your strength is still weak, but you can pass my test, and you have a big secret on you. The space for you to grow in the future will be huge. In the future, as long as you grow carefully, it shouldn’t be difficult to become a top-tier warrior. And if one day you can breakthrough to become a Principles Master, when your strength reaches or surpasses mine, you can break this restriction and get the star map hidden in the token.”

“Through the star map, you can go to the universe battlefield and find the special space-time that I found. I have a feeling that there is a great opportunity hidden in that special space-time. I didn’t have the strength and courage to go there, but you did!

“If your strength is limited in the future and you can’t break through to become a Principles Master, you can give this token and the interspatial ring that I gave you to the blood ancestor, the leader of the blood ancestor’s bloodline.”

“I understand.” Jian Wushuang nodded slightly and then carefully put the token into the interspatial ring.

He understood that the star map hidden in the token was related to a great opportunity in the universe battlefield, and its value was immeasurable.

Xue Bei gave the star map to him in the hope that when he grew to a certain level, he would go to the space-time where the star map was located and find the opportunities inside.

Three of the four opportunities had been given to him, and there was only one left.

“Little guy, the last opportunity I left you is a good fortune,” Xue Bei said directly.

Jian Wushuang’s eyes lit up.

Good fortune?

Three opportunities. The first opportunity was three priceless treasures.

The second opportunity was the incredible Emperor’s Order skill.

The third opportunity was related to a star map of a great opportunity in the universe battlefield.

The fourth opportunity was finally a good fortune.

“This good fortune also comes from the universe battlefield.” Xue Bei smiled. Then he flipped his hand and took out a stone.

Yes, it was an ordinary-looking stone.

At first glance, the stone seemed to have been picked up on the ground.

However, Jian Wushuang’s perception was extremely sharp. When he carefully examined the stone with his soul power, his pupils secretly shrank.

“Life!”

Jian Wushuang’s heart trembled.

He actually felt a vigorous vitality from the ordinary stone in front of him.

It seemed that this stone was a complete life.

“This is?” Jian Wushuang looked at Xue Bei curiously.

Xue Bei smiled and said, “I just told you that I found that special space-time when I was adventuring in the universe battlefield. Although I only stayed in that special space-time for a short while, I also obtained a treasure, which is the stone in my hand.”

“A flower, a tree, and a bodhi. This seemingly ordinary stone contains a complete Bodhi World.”

“A Bodhi World?” Jian wushuang was stunned.

“It’s okay if you don’t understand. When you’re ready, I’ll let you enter the Bodhi World. You can stay there for a full 100 years. In 100 years, the Bodhi World will directly collapse, and the stone in my hand will also shatter. You will also come out of the Bodhi World. As for how much you can gain in these 100 years, it’s up to you,” Xue Bei said.

“I understand.” Jian Wushuang nodded.

Although he did not know what kind of fortune was contained in the Bodhi World, the stone alone gave him an extraordinary feeling.

Moreover, since Xue Bei treated this as his last opportunity, it was certainly not bad.

“Little guy, you can prepare yourself first,” Xue Bei said.

“There’s no need to prepare. I’m already at the peak of my condition,” Jian Wushuang said.

“Well, let’s go in.” Xue Bei clenched his hand, and the stone in his hand immediately burst out with a dazzling light. The dazzling light shone on Jian Wushuang, and his body began to shrink involuntarily, then he slowly floated up like a piece of paper and finally completely disappeared into the stone.

...

Inside the stone, in the Bodhi World.

When Jian Wushuang appeared, he found that he had arrived at an otherworldly paradise.

Here, the birds sang and the flowers were fragrant, and the land was full of vitality.

There were lush trees, all kinds of flowers all over the mountains and plains, and much green grass under the ground.

It was a scene of prosperity.

In the middle of the land, there was a cottage. The cottage was small but exquisite. In front of the cottage, there was a clear river, and in the middle of the river, there was a wooden bridge.

At first glance, it looked like a secluded place for an unworldly expert.

“Is this the Bodhi World?” Jian Wushuang frowned slightly. “Is there anything different about this world except that it’s full of vitality?”

With a heart full of doubts, Jian Wushuang began to carefully explore the surroundings.

At first, Jian Wushuang did not find anything different. He even searched the entire world, but he did not see anything different.

However, when his consciousness simply swept past the woodpecker on a big tree, his expression suddenly changed.

“That bird...” Jian Wushuang stared at the bird, or to be exact, every feather on the woodpecker’s body.

He first focused on one of the feathers, and in an instant...boom!

He saw a person holding a sword and waving it.

Yes, it was just a feather of a woodpecker, but he saw a man waving his sword.

Moreover, the sword was light and casual. It looked ordinary, but there was an indescribable desolation in it.

Jian Wushuang was stunned by the sword. He was completely stunned.

Because he could not understand that sword. He could not see through it!

He could not even see the slightest bit of profoundness or sword principle, let alone understand it.

But he could clearly sense that the sword move was many times more profound than the violent elephant and star dream moves that he had created!

It was a complete difference between heaven and earth.

The reason why he could not sense any profoundness or sword principle was that the sword move was too high-level!

“It’s obviously a bird’s feather, but in the blink of an eye, it has evolved into a sword skill that is so unfathomable,” Jian Wushuang murmured. After a long while, he looked at the second feather of the woodpecker.

Buzz, buzz, the same scene appeared.

It was still a person holding a sword and waving it, but this sword seemed to be chopping wood...

Chapter 3047: Good Fortune

— —

When an ordinary person wielded an ax to chop firewood, the moment the ax touched the firewood, a hidden power would burst out.

This was the swordsmanship that Jian Wushuang was seeing now.

But the same thing was, Jian Wushuang still could not see any mystery or depth in this sword move.

But his instinct told him that this sword was very powerful and terrifying!

Jian Wushuang looked at the third, the fourth...and the feathers one by one, but he saw the world-shaking swordsmanship hidden in the feathers.

“Not only the feathers on this bird, but also other things.” Jian Wushuang looked at the other materials in the world.

He looked at the flowers, grass, trees, and the thatched cottage in the center.

Looking at it carefully, he was completely shocked.

Just as he expected, it was not just the feathers on the woodpecker, but all the substances in this world, the petals of every flower, the leaves of every big tree, and even the straw on the thatched cottage. He just looked at them with his heart, all of them could be transformed into astonishing swordsmanship.

“What, what kind of world is this?” Jian Wushuang was completely shocked.

This world looked ordinary, but it contained countless swordsmanship. Moreover, each of these swordsmanships was profound and unfathomable, making it difficult for Jian Wushuang to figure it out. It was really incredible.

Outside this world, in the huge palace, Xue Bei’s consciousness incarnation was still sitting on the lofty throne, while the stone was still in his palm. Looking at the stone in his palm, Xue Bei’s eyes flickered with a strange color.

“The Bodhi World...every flower, every plant, every Bodhi. Even when I first got it, I was shocked by the opportunities contained in it.” Xue Bei sighed. The Bodhi World was in his hands, naturally, he knew about the opportunities contained in it.

The Bodhi World was made up of countless substances, which could evolve into shocking secret arts.

The type of the ultimate skill was determined by the cultivator who entered it.

For example, Jian Wushuang was good at sword principle, so what he saw in the Bodhi World were countless profound sword skills.

However, if a cultivator who was good at saber principle entered the Bodhi World, the substances in the Bodhi World would evolve into profound saber skills.

In short, any cultivator who entered the Bodhi World would see things that would be of great help to him.

However, each person was allowed to enter the Bodhi World once, and they could only stay for 100 years. After 100 years, the Bodhi World would directly collapse and disappear.

“I saw that the little guy performed two sword skills when he was challenging Di Mountain. Those two sword skills have already had a basic outline, so they should have formed the embryonic form of the sword skills. However, it’s only the embryonic form of the two sword skills, so it’s not comprehensive at

all. Now...I hope that the little guy can make good use of the opportunities in the Bodhi World and gain a lot in these 100 years," Xue Bei muttered, then he closed his eyes.

In the Bodhi World, Jian Wushuang had already recovered from the endless shock.

After the shock, Jian Wushuang immediately became ecstatic.

Yes, ecstatic!

One had to know that the Bodhi World he was in now had countless substances. Not to mention the woodpecker's feathers, there were countless leaves on a big tree, and the thatched cottage was made of many straws, how many straws were there?

There were too many!

But these things could evolve into astonishing swordsmanship.

There were all kinds of swordsmanship, and they were all powerful and profound. Usually, Jian Wushuang would be excited to see one of them, and he would study it carefully. There were too many swordsmanship here.

He had 100 years to study these profound swordsmanship.

"After I broke through to the Immortal Saint Realm, my comprehension of the space-time principles has also broken through. The most important thing now is to improve my swordsmanship." Jian Wushuang clenched his hands.

He had long known that the two unique skills, 'Xi Xiang' and 'Star Dream', were not enough for a fierce battle.

These two unique skills were not a complete sword skill at all.

Therefore, he had to think of ways to create more unique skills to perfect his sword skill.

In order to create new sword skill unique skills, the fastest way was to have a large number of profound sword skills for him to learn from, study, and study.

Unfortunately, such sword skills were too rare. Jian Wushuang did not have such an opportunity before.

But now...there were countless powerful sword skills in the Bodhi World. He could study them as he wished.

The only thing he felt regretful about was that it was too short a time.

Only 100 years.

Jian Wushuang might not be able to completely study such countless sword skills even if he was given 1,000 years, 10,000 years or even tens of thousands of years. 100 years was indeed too little.

"I can't be too greedy. It's already good enough for me to stay in the Bodhi World for a hundred years and carefully study it for a hundred years. Senior Xue Bei is right. This Bodhi World is a great fortune for me. What happens next will depend on how much progress I can make in the next hundred years." Jian Wushuang clenched his fists, his eyes sparkled.

Soon, he sat down under a big tree, closed his eyes, and began to meditate.

Buzz, buzz, buzz!

Jian Wushuang carefully inspected every leaf on the tree, and in an instant, pictures appeared in front of him.

In the pictures, there was a scene of a person performing swordsmanship. The swordsmanship performed by that person was extremely profound.

Normally, he would have to study this sword technique for a very long time. However, because there were too many profound sword techniques like this, he only saw most of the sword techniques once before he looked at the second sword technique, even if there was one sword technique that inspired him, he would only see it twice at most. He would never see it a third time.

Even so, it would still take him a long time to read all the sword techniques represented by each leaf on the tree.

While reading the sword techniques, Jian Wushuang was constantly studying his own sword techniques in his mind.

He was very determined. Although the sword techniques in front of him were powerful, he only watched and learned them. His real goal was to create a prototype of his own sword techniques, then, he would create a brand new swordsmanship that was completely his own.

Chapter 3048: 'The Peerless Sword Technique'

— —

Time passed quickly. A hundred years passed by quickly.

Xue Bei slowly opened his eyes in the huge palace. He glanced at the stone in his palm. A crack had already appeared in the middle of the stone, and the crack was still expanding.

"The time is up. I wonder how the little guy got in the Bodhi World?" Xue Bei murmured.

The Bodhi World was originally a world where birds sang and flowers were fragrant, like a paradise.

But now...boom!

Purple-brown thunder suddenly streaked across the sky, and it did not disappear for a long time. It seemed to have completely consumed half of the world.

The world began to tremble crazily.

"Is it going to collapse?"

Jian Wushuang sat cross-legged in the thatched cottage. He felt the changes in the world and slowly opened his eyes.

There was a trace of regret in his eyes.

He had no choice. The opportunities in the Bodhi World were too helpful to him.

In the past 100 years, he had not wasted a single second. He had spent all his time comprehending those sword skills, but even so, the sword skills he saw were not even one-thousandth of the entire Bodhi World.

However, the Bodhi World was about to collapse.

“Forget it. Although I can’t go through all the sword skills in the Bodhi World, in the past 100 years, I have created five sword skills, namely Canyon, Emperor’s Blood Kill, Instant of Life and Death, Ninth Heaven of Illusory Sword, and the Strongest Blood Asura. In addition to the two sword skills, Xi Xiang and Star Dream, I have created a total of seven sword skills!” Jian Wushuang’s eyes were shining.

His cultivation had not improved in the past 100 years, and his comprehension of the rules had not improved at all. All of the improvement was in sword principle and sword skill.

First was the sword principle. Not long ago, the boundless sword tree in his body had only reached 6,600 feet. Now, after 100 years, the boundless sword tree in his body had grown again. Now, it had reached 9,900 feet. When it came to time sword skill...the power of swordsmanship had once again risen to a new level.

As for absolute arts...swordsmanship absolute arts were Jian Wushuang’s greatest gains in the past 100 years.

Canyon, Emperor Blood Kill, Instant of Life and Death, Ninth Heaven of Illusionary Sword, and Blood Asura. Jian Wushuang had created a total of five swordsmanship moves in the past 100 years. Each sword move was perfectly integrated with the space-time principles, like the two sword moves of Xi Xiang and Star Dream, they were both embryonic forms of sword skills.

And all five of them had reached the level of rank four absolute arts.

The two moves of Xi Xiang and Star Dream had also reached the level of rank four absolute arts in the past 100 years.

In other words, a total of seven embryonic forms of sword skills had been created, and all of them had reached the level of rank four absolute arts!

Each of the seven moves had its own characteristics and functions. The seven moves of swordsmanship had formed complete swordsmanship!

Even the name of the swordsmanship had been decided by Jian Wushuang. It was called the ‘Wushuang Sword Manual’.

The ‘Wushuang Sword Manual’ was named after Jian Wushuang himself. It was a type of swordsmanship that he had personally created and was most suitable for himself. In the next long period of time, the ‘Wushuang Sword Manual’ would accompany him and grow together!

Jian Wushuang was already quite satisfied to be able to create a complete sword art within a short 100 years.

Moreover, among the sword arts that he had created, the ‘Blood Asura’ move surprised him even more!

“The Bodhi World is about to collapse. It’s time for me to go out.”

Jian Wushuang smiled faintly and slowly stood up.

Rumble! The huge and magical Bodhi World finally collapsed completely.

Although the world collapsed, it did not affect Jian Wushuang. After a series of changes, Jian Wushuang returned to the huge palace. Standing in front of him were Xue Bei and Gu Lao.

"Little guy, it's been 100 years. You must have gained a lot in the Bodhi World." Xue Bei looked at him.

"I did." Jian Wushuang nodded.

"That's good." Xue Bei nodded slightly. "As long as you are satisfied, you won't waste my fourth opportunity."

Jian Wushuang was secretly grateful.

Xue Bei had left him four opportunities. Except for the third opportunity and the mysterious star map, the other three opportunities were of great use to him, especially the fourth opportunity, the hundred years he had spent in the Bodhi World had surprised him.

"I've given you all the opportunities. You can leave now. Do you have any questions before you leave?" Xue Bei asked.

"Senior, I have something to ask you," Jian Wushuang said respectfully.

"Tell me. If I know it and you are qualified to know it, I will tell you," Xue Bei said.

"Senior, you should know that I am an anomaly in heaven and earth, and the Heavenly Dao doesn't allow me to do so. That's why I was extra careful when I was roaming around the Divine Beginning Realm. I was afraid that I would attract the power of the Heavenly Dao's will. However, in the Divine Beginning Realm, other than the Heavenly Dao's will itself, there are also some experts or forces that are on the same side as the Heavenly Dao's will. This made me even more cautious and careful."

"Take the Heaven-cleaving Alliance for example. Although I am a heaven-grade member of the Heaven-cleaving Alliance, and the Heaven-cleaving Alliance has invited me to cultivate in the Three Palaces of Heaven-cleaving Alliance twice, I didn't know the position of the Heaven-cleaving Alliance. I was worried that the higher-ups of the Heaven-cleaving Alliance would notice something in the Three Palaces and get killed. Therefore, I declined both invitations."

Before Jian Wushuang could ask his question, Xue Bei had already opened his mouth. "You want to ask which forces in the Divine Beginning Realm are on the same side as the will of heaven and will be your enemy, right?"

"Yes." Jian Wushuang nodded.

"I know the answer to this question, and I can answer it for you." Xue Bei said, "In the Divine Beginning Realm, the will of heaven is indeed very special and supreme. If it goes against the laws of heaven, the will of heaven will not tolerate it. This is also a fact. However, the will of heaven is not truly omnipotent in the Divine Beginning Realm. It has many limitations, and even its own strength is limited."

"The will of the Heavenly Dao is limited? Even his own strength is limited?" Jian Wushuang was stunned.

“Because of this, some of the supreme experts in the Divine Beginning Realm can completely ignore the will of the Heavenly Dao. Even the will of the Heavenly Dao has to retreat in front of him and don’t dare to offend him,” Xue Bei said.

“What?” Jian Wushuang was shocked. “Even the will of the Heavenly Dao has to retreat and don’t dare to offend him? Is there really such a supreme expert in the Divine Beginning Realm?”

Chapter 3049: Exhortation

— —

“Of course there are.”

Xue Bei said with absolute certainty, “I don’t know about other powerful warriors, but what I know can make the will of Heavenly Dao retreat. There are three people that I don’t dare to offend. These three people are the founder of the Divine Ancestor Daoist Sect, the Divine Ancestor, the Temple Master of the Temporal Temple, and the mysterious Alliance Master in the legends of the Heaven-cleaving Alliance!”

“These three people have already reached an astonishing level of strength. They don’t even need to fight. They just stand there and form their own world, which is not something the will of the Heavenly Dao can touch. As long as they are in their place, the power of the will of the Heavenly Dao will not exist.”

“So powerful?” Jian Wushuang was shocked, but at the same time, he immediately thought of his master, Xuan Yi.

Xuan Yi was the first perfect chaotic creature in the world.

His strength was also shocking. Jian Wushuang had been lucky enough to see a scene in which the power of the will of heaven could not do anything to Xuan Yi, and could only retreat, he wondered who was stronger, the founder of the Divine Ancestor Daoist sect, the Temple Master of the Spacetime Temple, and the Alliance Master of the Heaven-cleaving Alliance compared to his master, Xuan Yi.

“By the way, Senior Xue Bei, you just said that the rulers of the three Freedom Alliances are supreme in the third heaven. Shouldn’t the three masters of the Saint Realm make the will of heaven retreat?” Jian Wushuang asked.

“Masters of the Saint Realm?” Xue Bei shook his head. “I don’t know if the three masters of the Saint Realm can make the will of heaven retreat, but I do know that they are not as powerful as they seem.”

“What do you mean?” Jian Wushuang looked at him.

“I don’t know the details. After all, I’m not qualified to be in contact with some secrets of that level. But I heard from the leader of the Blood Ancestor’s Bloodline that the three masters of the Saint Realm were just lucky and favored by the Heavenly Dao. If they were not favored by the Heavenly Dao, they would not be as strong as him,” Xue Bei said.

“He’s just lucky and favored by the Heavenly Dao?” Jian Wushuang was stunned. “From the leader of the Blood Ancestor’s Bloodline, it seems that he looks down on the three masters of the Saint Realm?”

"I guess so, but so be it. Although the three masters of the Saint Realm are no match for the Blood Ancestor, they wouldn't be able to kill him alone. Moreover, the Blood Ancestor is the leader of one of the great sects of the Divine Ancestor Daoist sect and the founder of the Divine Ancestor Daoist sect. The three masters of the Saint Realm don't have the courage to deal with the Blood Ancestor," Xue Bei said.

"In other words, the founder of the Divine Ancestor Daoist sect is stronger than the three masters of the Saint Realm?" Jian Wushuang asked.

"That's for sure." Xue Bei nodded. "I've heard that any one of the three masters of the Saint Realm has to be respectful to the founder of the Divine Ancestor Daoist sect."

Hearing this, Jian Wushuang could not help but sigh in his heart.

He had always thought that the most terrifying people in this world were the three masters of the Saint Realm in the third heaven, but now it seemed that this was not the case.

The founder of the Divine Ancestor Daoist sect, the Temple Master of the Temporal Temple, and the mysterious Alliance Master of the Heaven-cleaving Alliance might all be stronger than the Three Great Saint Realm Masters.

"Little Fellow, you were just about to ask how many enemies you have in this world. I can tell you now that since it is an anomaly of the Heavenly Dao, other than being careful of the power of the will of the Heavenly Dao, you only need to be careful of the Three Great Saint Realm Masters and the forces under them. As for the other forces, you don't need to care about them. For example, the three great Freedom Alliances are not on the same side as the will of the Heavenly Dao, especially the Heaven-cleaving Alliance!"

Xue Bei's expression became serious, "The Heaven-cleaving Alliance is the strongest force among the three Freedom Alliances and has the deepest foundation. Just from its name alone, you can see that the Heaven-cleaving Alliance has always been in a state of hostility with the Heavenly Dao will. The experts under the Heaven-cleaving Alliance and the Three Saint Realm Masters often have all sorts of fights and even fights. This has long been known by everyone."

"As you said, the Heaven-cleaving Alliance has invited you twice. If you want to cultivate in the three palaces, you don't have to worry about it. You can just agree to it directly. When you get to the three palaces, the fact that you are an extraordinary figure may not be exposed. Even if it is exposed and the Three Masters of the Saint Realm know about it, the Heaven-cleaving Alliance will do its best to protect you."

"Is that so?" Jian Wushuang smiled.

According to what Xue Bei said, his previous concerns were unnecessary.

However, he was just being cautious. Now that he knew that the Heaven-cleaving Alliance and the will of Heavenly Dao were enemies, he did not need to worry about the Heaven-cleaving Alliance.

"Little guy, I have answered your question. In addition, I have another word for you." Xue Bei's voice was solemn, "You have great talent and great potential. Your achievements in the future should be

limitless. But you must remember that no matter what level you reach in the future, you must always remain in awe of this world. That is to say, the heart of awe!"

"Heart of awe?" Jian Wushuang's expression changed.

"This world is too big and vast. You can't imagine how vast it is. Even what I know is just a drop in the ocean. Take the will of heaven as an example. For ordinary cultivators, the will of heaven is superior and can not be challenged. However, for those who stand at the top of the Divine Beginning World, such as the founder of the Divine Ancestor Daoist Sect and the Temple Master of the Spacetime Temple, the will of heaven is nothing.

"However, even super existences like the founder of the Divine Ancestor Daoist Sect, the Temple Master of the Spacetime Temple, and the Alliance Master of the Heaven-cleaving Alliance still have something they need to fear in this world.

"In short, there is always someone better than you. No matter what, you should always be in awe. For example, I was too careless and underestimated this world. That's why I ended up dead. I hope you won't follow in my footsteps in the future," Xue Bei said.

"I will definitely remember senior's teachings," Jian Wushuang nodded solemnly.

Jian Wushuang also deeply remembered Xue Bei's advice.

In fact, even if Xue Bei did not mention it, Jian Wushuang's awe of this world had never disappeared. Moreover, the higher his strength increased, the greater the awe.

Now, through his conversation with Xue Bei, he had a deeper understanding of this world. Jian Wushuang's awe of this world had reached an unprecedented level.

Of course, what he feared was this world, but not the will of the Heavenly Dao. The two were not the same thing.

Chapter 3050: Will

— —

"Well, I've given you what I needed to give and said what I needed to say. Let's go." Xue Bei waved his hand.

"Thank you, senior!" Jian Wushuang bowed deeply to Xue Bei, his heart filled with gratitude.

Although Jian Wushuang had never taken Xue Bei as his master, Xue Bei had given him four opportunities and left everything to him. Jian Wushuang could be said to have obtained Xue Bei's mantle, even if he did not acknowledge Xue Bei as his master, he could still be considered half a disciple. Jian Wushuang was naturally grateful.

After taking a deep breath, Jian Wushuang followed Gu Lao out of the palace.

After Jian Wushuang and Gu Lao left, the huge palace fell silent again. Xue Bei's consciousness avatar was still sitting on the throne, but his figure became more and more illusory and ethereal.

“Heavenly Sword Marquis, I can see that you have a great secret, which is far more than the heaven and earth. Your ambition and space for growth are beyond my imagination, so I didn’t even think of taking you as a disciple...”

“Although I don’t know where you came from and what your real purpose is, at least you have my mantle. I hope you can fulfill your ambition and achieve your purpose in the future.”

His mumbling slowly echoed in the palace, but his voice sounded quite desolate.

...

After leaving the huge palace, Elder Gu brought Jian Wushuang to the cemetery.

There were a lot of stone coffins in the cemetery. The bodies lying in the coffins were once famous experts.

“Heavenly Sword Marquis, master has promised that you can dispose of the bodies here, but only if you can take them away yourself,” Elder Gu said.

“Okay.” Jian Wushuang nodded slightly and looked at the many sarcophagi in front of him.

The sarcophagi lay peacefully in the cemetery. At first glance, the entire cemetery seemed very calm.

However, Jian Wushuang knew very well that the experts in the sarcophagi had remnant willpower on their bodies.

Back then, Jian Wushuang was only a Divine Master. He had joined hands with several Great Divine Masters to break into the cemetery. When he first saw the sarcophagi, he wanted to get close to them, the sarcophagi contained a powerful will, which made it impossible for them to get any closer.

At that time, the will was too strong for him to resist, but now it was different.

“Let’s try it first.”

Jian Wushuang walked toward one of the sarcophagi with a hint of anticipation, inside the sarcophagi lay a woman.

The woman was slender, more than two meters tall, and wore a white robe. Although she was dead and her eyes were closed, she still gave off an extremely holy and extraordinary aura.

She was like a Saintess.

The reason why Jian Wushuang chose this woman was that when he first came to the sarcophagus, there was a low shout from the woman’s corpse. Now, Jian Wushuang was approaching her again...

“Get lost!”

A low shout suddenly exploded in Jian Wushuang’s ear, just like the low shout from before.

The low shout was accompanied by extremely strong willpower, trying to stop Jian Wushuang’s steps.

“Yes, you are indeed an invincible existence among the Immortal Saints. Even after so many years of death, the remnant willpower is still extraordinary. If I were an ordinary first rank True Saint, I’m afraid I

would be hindered by your willpower. I can't do anything to you." Jian Wushuang smiled faintly, he continued to move forward.

One step!

Two steps!

Three steps!

He was getting closer and closer to the sarcophagus where the white-robed woman was, and the power of the will that was blocking him was getting stronger and stronger.

"Get lost!"

"If you don't get lost, you'll die!"

The low voice was getting stronger and stronger, and it was getting crazier and crazier.

"What a joke." Jian Wushuang smiled disdainfully. He gathered his divine power and a powerful divine power aura swept out. His steps became faster and faster, and in the blink of an eye, he was in front of the sarcophagus.

"What do you want to do?" The white-robed woman shouted in a low voice, but her voice was clearly a little panicked.

Jian Wushuang glanced at the white-robed woman in the sarcophagus and his face darkened. "No wonder you can shout in a low voice. It turns out that apart from the power of will, there is still a trace of consciousness left. However, a mere remnant of consciousness wants to obstruct me. How Ridiculous." Jian Wushuang attacked directly.

He waved his hand, and a terrifying divine power passed through the sarcophagus to the white-robed woman's body.

The white-robed woman's body was not affected, but the trace of consciousness hidden in the body was destroyed by the divine power.

Buzz!

The sarcophagus completely calmed down, and the remaining power of the white-robed woman's will was directly shattered by Jian Wushuang.

With a wave of his hand, Jian Wushuang put the white-robed woman's body and the sarcophagus into his interspatial ring.

"The process is very easy. It seems that the power of the Immortal Saints' will can't do anything to me. If I want, I can take away all the Immortal Saints' bodies in this cemetery," Jian Wushuang thought.

However, although he needed the bodies of experts to carry his Emperor's Order clone, with his current strength, he could only condense one Emperor's Order clone. He only needed one body, even if there were mistakes in the refining process, two or three corpses were enough. It was useless for him to keep so many corpses.

Most importantly, what Jian Wushuang really wanted was not the corpses of the Immortal Saints, but the two 30-meter-long sarcophagi at the front of the cemetery.

The two 30-meter-long sarcophagi were the two Principles Masters!

Principles Masters were much more powerful than the Immortal Saints.

Although Jian Wushuang was only a rank one True Saint, his physique was too special. The divine power he possessed was enormous. It was a vast sea of divine power.

Such enormous divine power had long exceeded the scope of an ordinary Immortal Saint. Even the Immortal Saints at the top, or even those who had reached the invincible level...the divine power they possessed was definitely not as much as Jian Wushuang's.

Therefore, if Jian Wushuang wanted to use the corpses of the Immortal Saints in the cemetery to refine an Emperor's life avatar, it was likely that the Emperor's life avatar would not be able to bear all of his divine power, it was estimated that it could only bear 30-40% of his divine power, which was not what Jian Wushuang wanted.

Jian Wushuang wanted to condense an Emperor's life avatar that had the same divine power as his original body. Therefore, the best way was to obtain the corpse of a Principles Master and use it as an Emperor's life avatar to bear his divine power.
