

Swordsman 3271

Chapter 3271: Jackpot

Among the people that Light King was facing, Di Hao and the people from the Temporal Temple were undoubtedly on Jian Wushuang's side.

As for the Underworld Emperor and Tie Ta...the Underworld Emperor owed Jian Wushuang a favor. In addition, the three of them had been chatting for the past few days and had developed a certain friendship. If Light King came to find trouble with Jian Wushuang...of course, the two of them would also choose to help Jian Wushuang.

In such a situation, if the Light King still wanted to attack Jian Wushuang, he would indeed be asking for trouble.

"Don't misunderstand." The Light King looked around at the people in front of him, but he smiled and said, "I didn't come to find Heavenly Sword Marquis to kill him like last time. After all, I only accepted the invitation from the three Saint Realms, and the three Saint Realms offered me a condition that I couldn't refuse. But since the siege, I have done what I should do. What happens between you and the three major businesses has nothing to do with me!"

"I'm not here for anything else. I'm here for the evaluation of your killing power."

"Oh?" Jian Wushuang's expression changed.

"Heavenly Sword Marquis, I have no objection to your being called number one in terms of your life-saving ability and assassination ability. However, I don't agree with you that your killing power is number one. After all, I have always thought that my killing power is the strongest among the Immortal Saints. Therefore, I really want to compete with you!" Light King's eyes sparkled. "You and I will use our strongest move and see who is more powerful. What do you think?"

"I see." Jian Wushuang nodded secretly. He finally understood the purpose of the Light King's visit.

To put it bluntly, he was not satisfied with the evaluation of his killing power on the True Saint List.

"The Light King has always been arrogant and confident in his own strength. Brother Heavenly Marquis, you were only ranked first in your life-saving ability and assassination ability, so it doesn't matter. After all, these two rankings are just some means and can not be considered as strength. However, it's different if you are ranked first in your killing power. It means that in terms of the strongest attack power, you are stronger than him. That's why the Light King wants to challenge you," Tie Ta said softly.

"I understand." Jian Wushuang understood.

"Brother Heavenly Marquis, how about it? Do you want to compete?" Underworld Emperor whispered, "With the power of your strongest sword, you can crush Light King!"

"Yes, I think so too." Tie Ta also nodded heavily.

Di Hao and the people of the Temporal Temple also looked at Jian Wushuang.

At this time, Jian Wushuang revealed a strange smile. "Light King, it's not a problem for you to compete with me in the strongest power. However, it's meaningless to compete in this kind of competition. Why don't we add some stakes?"

"Add stakes?" Underworld Emperor and Tie Ta were both stunned.

They had witnessed Jian Wushuang's terrifying sword move and thought that Jian Wushuang could win against Light King. Therefore, they supported Jian Wushuang's competition. However, they did not expect that Jian Wushuang was smarter than them. At the same time, he actually wanted to increase the stakes?

This increase in stakes was a gamble.

"Light King, what do you think?" Jian Wushuang looked at Light King with a smile.

"Interesting." Light King also smiled. "Okay, let's increase the stakes. However, since our strength has reached our level, and we will soon enter the Blood Wave Temple and become Principles Masters, ordinary things are useless. How about this? Many years ago, I obtained a reincarnation pearl from an Invincible Saint. I will now use this reincarnation pearl as the stakes for our competition. How about it?"

"Samsara bead?" Jian Wushuang was puzzled. He did not know what the samsara bead was, but judging from its name, it must have something to do with the reincarnation principles.

"Heavenly Sword Marquis, I know that you have not only comprehended the space-time principles, but you have also studied the reincarnation principles. It's just that your comprehension of the reincarnation principles is far inferior to the space-time principles. This time, when you enter the Blood Wave Palace, you will become a Principles Master with the space-time principles, but after becoming a Principles Master, you will definitely find a way to master the second principles, which is naturally the reincarnation principles!"

"The samsara bead is the proof to enter the Samsara Heaven Domain. It is said that the Samsara Heaven Domain is a cultivation Holy Land for comprehending the Samsara principles. If you can enter it, it will be of great help to you in comprehending the Samsara principles," said the Light King.

"Samsara Heaven Domain?" Jian Wushuang's eyes lit up.

"I have heard of the Samsara Heaven Domain. It is indeed very useful for cultivators who are comprehending the Samsara principles," Tie Ta said.

Hearing this, a smile appeared on Jian Wushuang's face.

As the Light King had said, it was difficult for ordinary things to attract people with their strength.

However, the certificate to enter the Samsara Heaven Realm was very helpful to him.

"I've taken out my wager, but what do you use as your wager?" The Light King looked at him.

“Light King, the samsara bead you took out is indeed useful to me, but I don’t have any treasure that can help you a lot. Although it’s not useful to you, I believe it’s much more valuable than your samsara bead,” Jian Wushuang said, then he flipped his hand, and an azure lamp appeared in his hand.

As soon as this azure lamp appeared, an ancient and majestic soul aura immediately spread out.

Sensing this aura, many experts present were stunned.

“This is...a supreme treasure!”

“It’s a soul attack supreme treasure, the one belonging to the Nine Temples Saintess!”

The Underworld Emperor and Tie Ta recognized this azure lamp immediately.

After all, they had fought with the Nine Temples Saintess and forced her to use this supreme treasure.

“Soul attack treasure?”

When he saw the green lamp, Light King’s eyes lit up, and he laughed heartily, “Haha, Heavenly Sword Marquis, you are really generous. In terms of value, not to mention one reincarnation pearl, even two or three can’t compare to the soul attack treasure in your hand. Using this soul attack treasure as a wager is obviously giving me an advantage.”

“But I, Light King, am not a person who likes to take advantage of others. In this case, in addition to the reincarnation pearl, I will add three top-grade holy treasure protective armor and one top-grade soul defense holy treasure as a reward. Although the value is still not as valuable as your soul attack treasure, this is all I can offer.”

“Okay.” Jian Wushuang smiled and directly agreed.

....

Chapter 3272: Crushing

— —

The betting was settled, and soon Jian Wushuang and Light King were ready to fight.

Underworld Emperor, Di Hao, and the others immediately stepped aside to make way for an empty battlefield.

The experts who were looking for opportunities around Blood Wave Temple noticed what was happening.

“What’s going on? It seems like the Light King is going to fight with the Heavenly Sword Marquis?”

“Yes, they are going to fight, and it was the Light King who took the initiative to go up. However, they shouldn’t be fighting to see who is stronger. After all, the Light King is definitely the strongest. The reason they are fighting now should be because of the number one offensive power!”

"The first place in attack power?" Although the Light King was publicly acknowledged to be the strongest, the Heavenly Sword Marquis killed the Nine Temples Saintess with one sword attack. Then, he was recognized as the first place in attack power by the Heaven-cleaving Alliance. Now, if the two of them were just fighting for the strongest power, the outcome would not be certain!"

"In my opinion, the Light King will definitely win. After all, he has merged the two principles, and his strength is unfathomable. In terms of attack power, the power of the combination of the two principles is too strong."

"That's not necessarily true. You didn't see the scene where Heavenly Sword Marquis killed the Nine Temples Saintess. Although the Nine Temples Saintess has less than 50% of her divine power left, I dare say that the Light King is absolutely incapable of doing that."

Many experts expressed their views on the fight between Jian Wushuang and the Light King. Some thought that the Light King's attack power was the strongest, but many also thought that Jian Wushuang's unique skill was the best. After all, even the ranking on the True Saint List said so.

But who had the strongest attack power was about to be revealed.

In the vast void, Jian Wushuang and the Light King were facing each other from a distance.

"Light King, you attack first." Jian Wushuang appeared very casual.

"Then I won't be polite." The Light King smiled faintly, and the cyan long stick on his back appeared in front of him. As he held the long stick in his right hand, in an instant, a dense wave of light and wind principles surged out.

The power of these two great principles was incomparably dense. Clearly, the Light King's comprehension of these two principles had already reached the limit of a True Saint. and the most terrifying thing was that after these two great principles surged out...they directly fused together at the fastest speed.

When the new power emerged after the two principles merged, everyone present was filled with fear and gratitude.

Among the many Immortal Saints in the Divine Beginning Realm, only the Light King could merge the two principles.

"Heavenly Sword Marquis, what I'm going to use next is my most powerful move. I created it many years ago after merging the two principles. So far, I've only used this move four times. Three times, I killed an Invincible Saint, and the last time, I killed eight Peak Saints in one breath!

"Extermination!"

"I named this move...extermination!"

Light King stared at Jian Wushuang with sparkling eyes, and his leisurely voice spread throughout the surrounding area of Blood Wave Temple.

Hearing his words, there was a commotion among the surrounding spectators.

Extermination. Just from the name alone, it could be seen how terrifying this move would be.

"I'll wait and see." Jian Wushuang still smiled faintly, showing no signs of wanting to make a move.

"Heavenly Sword Marquis, be careful!" Light King finally made his move.

He held the cyan-colored long stick in both hands at the same time. The cyan-colored long stick, which was less than two meters long, suddenly expanded to three meters long, like a small mountain. On this 'small mountain'...the principles of light and the principles of wind were perfectly combined, and a destructive power slowly condensed.

"One strike...extermination!"

The cyan staff in the hand of Light King finally smashed down.

Boom!

The world suddenly trembled, and the void seemed to be completely collapsed.

The mighty cyan staff shadow, with a terrifying aura that shocked everyone present, directly smashed toward Jian Wushuang.

At this moment, the entire world fell into a dead silence. Everyone stared at the cyan staff shadow with wide eyes.

"This Light King really hid his strength!" Di Hao shouted in his heart.

He had fought with Light King directly, but Light King had easily defeated him with the combined power of two principles. At that time, Light King did not use the combined power of two principles to perform his ultimate move.

"This strike is too powerful!"

A trace of shock appeared in the eyes of Underworld Emperor and Tie Ta.

While everyone was in a state of shock, under the cyan staff shadow, Jian Wushuang's face turned cold as he watched the cyan staff shadow smashing toward him.

"Heaven-cleaving skill!"

Buzz!

Strong pressure from the life level directly burst out from Jian Wushuang's body.

This pressure ignored the strength of both sides and the realm level. It was the pressure from the most fundamental life level.

The most important thing was that this pressure could not be resisted.

Light King's aura was overwhelming, and his eyes were shining. He was very confident in his most powerful strike. None of the Immortal Saints could resist this strike.

That was why he wanted to compete with Jian Wushuang in terms of offensive power and even took the gamble.

However, at this moment, the supreme life-level pressure from Jian Wushuang suddenly came into effect.

Under this supreme pressure, the expression on Light king's face instantly froze!

"What, what is this?" There was a trace of fear in Light King's eyes. Under this pressure, his consciousness seemed to have come to a halt. And what he had used was an earth-shaking strike, at this moment, the power of the strike was reduced by nearly half.

Then, Jian Wushuang struck.

He simply raised the Blood Mountain Sword in his hand and struck out with it.

In the eyes of everyone around him, his strike was very ordinary.

However, when they were fighting for the eighth Blood Wave Token, Underworld Emperor and Tie Ta had seen with their own eyes that Jian Wushuang had used such an ordinary strike to kill the Nine Temples Saintess, who had nearly 50% of her divine power.

Now, the same sword move collided with Light King's cyan long staff in an instant.

Then...bang!

With a deafening sound, the overwhelming power spread out crazily. In the middle of the battlefield, a cyan long staff was thrown out, and Light King's body was shot out like a cannonball, finally, it smashed into the formation light membrane surrounding Blood Wave Temple.

The array light film, under the impact of the Light King, slightly trembled.

Chapter 3273: Blood Wave Temple Opens

Silence!

The whole world was completely silent.

Everyone's eyes were wide open as they stared at the scene in front of them in a daze.

A huge wave rose in everyone's hearts!

Before Jian Wushuang and the Light King fought, many experts had already guessed that the collision of the strongest power would be very intense, they also knew that their strongest moves would be extremely terrifying. At the same time, many people also guessed that since Jian Wushuang was recognized by the Heaven-cleaving Alliance as having the strongest attack power, he should be stronger than the Light King in the collision of the strongest power.

However, no matter how they used their imagination to guess, they did not expect this scene.

In a head-on confrontation, the power of both sides did not appear to be in a stalemate. Just a clash, the Light King's weapon was thrown out, and then the Light King was pushed back.

Easily crushed!

This was definitely a crushing level.

The difference in power between the two sides was too big!

Not to mention the surrounding spectators, even the Light King himself was a little stunned.

“How did this happen?”

“What was that suppressive force?”

The Light King frowned.

He still remembered very clearly what he had felt in that moment just now. When that pressure came, it made him feel an unprecedented pressure and shock. The power of the most powerful move that he had displayed, in that instant, it reduced its power by at least 40%.

If it had not been for the pressure, his most powerful move might not have been as powerful as Jian Wushuang’s sword, but it would not have been so easily defeated, there was no room for him to fight back.

“The pressure just now was a bit like bloodline pressure, but there was a clear difference between it and bloodline pressure. It should be at the level of life.” Light King narrowed his eyes and stared at Jian Wushuang. “What kind of monster is Heavenly Sword Marquis? How could he have such a terrifying pressure?”

While Light King was puzzled, Jian Wushuang had already put away his Blood Mountain Sword. A smile slowly appeared on his face as he said, “Light King, you lost!”

“Haha, Light King, are you convinced now?” Underworld Emperor and the others had already rushed over, and there was a strange smile on his face.

Light King’s face darkened, but then he smiled, “No wonder the True Saint List thinks that your attack power is number one. The power of your sword just now has completely exceeded the level of the Immortal Saint. Heavenly Sword Marquis, in terms of attack power alone, you can indeed be ranked number one. I, Light King, am willing to accept my defeat.

“Samsara bead, as well as three top-grade holy treasure-level protective armor and one soul defense top-grade holy treasure, they are all yours.”

Light King threw an interspatial ring at Jian Wushuang.

Jian Wushuang took it and glanced at it with his consciousness. The smile on his face grew wider. “Light King, thank you!”

Light King nodded slightly and walked to the side.

After Light King left, the surrounding void exploded. Countless experts were talking about the battle just now.

Most of them were amazed by the power of Jian Wushuang’s sword.

Everyone was shocked by the power of the sword.

Especially a few experts on the True Saint List.

These experts on the True Saint list were strong, so they felt it even more.

The moment Jian Wushuang used the sword, although they were outside the battlefield, they still felt a faint sense of death, which made them shudder.

“There was a rumor that if Jian wushuang used his strongest trump card, he could kill experts on the True Saint List instantly. At first, I didn’t believe the rumor, but now I believe it!”

“Indeed, that sword move could kill an Invincible Saint easily. As for experts on the True Saint List, if their protective abilities were weaker, they could kill them instantly.”

“This sword attack is too terrifying. I don’t know how the Heavenly Sword Marquis mastered such a terrifying trump card. He is a monster.”

Many eyes could not help looking at Jian Wushuang.

However, most of them were filled with fear and fear.

At this moment...boom!

The world suddenly shook. A faint ripple appeared on the light membrane of the formation that the Light King had crashed into. The light membrane of the formation began to gradually fade.

Seeing this scene, many of the experts present were stunned.

“The Blood Wave Palace is about to open!”

“It’s finally about to open.”

Many burning gazes turned toward the towering palace in the center.

At this moment, the light membrane of the array that had been surrounding the palace had completely turned into nothingness. Naturally, the array had also dissipated.

At the main entrance of the palace, the huge golden palace door had always been closed. However, a crack had suddenly appeared in the middle of the palace door. This crack was getting bigger and bigger...the ancient golden door slowly opened.

Finally, the golden door completely opened, and the world once again calmed down.

However, although the world returned to calm, the hearts of the many experts present could no longer calm down.

The door of the Blood Wave Hall, which all the experts present yearned to enter, had opened!

The Blood Wave Hall was the location of opportunities in the Blood Wave Realm. After a long period of time, 99 out of 100 Immortal Saints who entered the Blood Wave Hall could directly become Principles Masters!

In other words, as long as the Immortal Saints present could enter the Blood Wave Temple, they would definitely become Principles Masters!

The only pity was that there were only 10 Blood Wave Tokens to enter the Blood Wave Temple!

"The door of the Blood Wave Temple is wide open. Those of us who have obtained the Blood Wave Tokens must enter through the door. For those experts who have not obtained the Blood Wave Tokens, this is their last chance." Underworld Emperor looked around at the densely packed figures, he said in a low voice.

"We're fine. There shouldn't be any blind people who will come to find trouble with us. However, the other five who didn't arrive in the beginning will not be able to enter Blood Wave Temple easily," Jian Wushuang said.

"Indeed. Now everyone's eyes are probably on those five people. As soon as they appear, the surrounding people will definitely swarm over," Tie Ta said.

"It doesn't matter whether they can enter the Blood Wave Palace successfully or not. Let's go in first," Di Hao said.

"You guys go in first. I'm not in a hurry." Jian Wushuang shook his head.

"Oh?" Emperor Ming and Di Hao looked at Jian Wushuang in surprise.

"I have some other things to do," Jian Wushuang explained.

Emperor Ming and Di Hao looked at each other in dismay.

"Okay, be careful."

After saying that, Emperor Ming and Di Hao flew directly into the Blood Wave Temple.

....

Chapter 3274: Cunning

The doors of the Blood Wave Palace opened wide, and the countless experts present stared at the entrance of the palace with bloodshot eyes, eyeing it like a tiger eyeing its prey.

Right at this moment, a human figure directly passed through the void and rushed toward the palace door.

In an instant, countless gazes turned toward this human figure, but after seeing who it was, these people immediately chose to suppress the fanaticism in their hearts.

After all, it was the Light King who intended to enter the Blood Wave Palace.

Without any hindrance, the Light King directly entered the Blood Wave Palace.

Then, the Holy Devil Son entered the Blood Wave Palace under everyone's gaze, followed by Emperor Ming and Di Hao.

Since then, four out of the five experts who had the Blood Wave Token had entered, except for Jian Wushuang.

"Brother Heavenly Marquis, why are you staying here instead of entering Blood Wave Temple with Underworld Emperor and the others?" Tie Ta looked over.

"Of course, I have my reasons." Jian Wushuang did not explain too much.

Outside Blood Wave Temple, after Underworld Emperor and Di Hao entered, no fifth expert with Blood Wave Token entered for a short period of time. Although everyone present did not make any moves, everyone knew that...the atmosphere was already tense.

Suddenly...from the void beside them, a group of people erupted with astonishing speed and rushed toward the door of the Blood Wave Palace.

The appearance of this group of people instantly caused the many experts present to become restless.

"They are from the Heavenly Ancestor Daoist Sect!"

"Master Ku is in the crowd, he wants to enter the Blood Wave Palace!"

"Stop him!"

A series of explosive shouts suddenly resounded through the void. Countless powerful warriors moved.

The Heavenly Ancestor Daoist Sect was one of the three great Freedom Alliances of the Divine Beginning Realm. Normally, the many powerful warriors present did not have the courage to provoke the core powerful warriors of the Heavenly Ancestor Daoist Sect, much less snatch the treasures in their hands, however, in the Blood Wave Realm, no one cared about the temptation of the opportunity to become the Principles Master in the Blood Wave Palace. Right now, they only wanted to stop Master Ku before he entered the Blood Wave Palace, then, they would snatch the Blood Wave Token from his hand.

Hong! Hong! Hong! Hong!

Streams of tyrannical aura rose up in this void space. The many experts surrounding the Blood Wave Palace swarmed toward the Heavenly Ancestor Daoist Sect from all directions at this moment, all sorts of techniques were directly displayed at this moment.

"It's really crazy!"

Qian Hongzi, Duan Lang, Yue Yu, and Fei Xue stood there and looked at the scene in front of them with fear.

There were 2,000 experts on the field. At this moment, at least half of them were attacking the people of the Heavenly Ancestor Daoist Sect. Facing so many experts, even the Light King would have to retreat, the people of the Heavenly Ancestor Daoist Sect naturally encountered unprecedented trouble.

"Fortunately, although there are many experts attacking them, most of them are not united and their attacks are scattered. Otherwise, the few people from the Heavenly Ancestor Daoist Sect would have

been killed in just a few moves.” Jian Wushuang looked at the scene in front of him with an indifferent expression, he did not have the slightest intention to attack.

At this moment, Master Ku suddenly erupted. He swallowed a drop of divine power and instantly unleashed his terrifying strength, repelling the people around him, then, he easily passed through the crowd and arrived at the door of Blood Wave Temple. Then, he entered the temple.

Since Master Ku had already entered Blood Wave Temple, the people surrounding them had nothing to attract them, so they naturally stopped.

“Not bad. Master Ku is ranked sixth on the True Saint List, so he has some strength.” Jian Wushuang nodded secretly.

Not long after Master Ku entered the Blood Wave Temple, Snow Saint, who was ranked tenth on the True Saint List, also appeared.

Snow Saint came from the Burning Heart Celestial Sect, one of the eight great celestial sects. However, there were no other experts from the burning heart celestial sect around her. When the experts surrounded her, her figure became ghostly.

Swish! Swish! Swish! Swish! Swish! Swish!

Many white shadows moved through the crowd at such a fast speed that many people could not keep up with them, let alone her speed.

“What a terrifying movement technique!” Jian Wushuang’s pupils constricted. At the same time, he recalled the introduction of Saint Snow on the True Saint List.

Saint Snow was extremely powerful. At the same time, her movement technique was widely recognized by many experts as the number one Immortal Saint. Now, Jian Wushuang had finally witnessed it.

Unlike his shadowless escape skill, his shadowless escape skill was an escape skill. It was mainly used to hide his tracks so that no one could detect him. As for his movement skill, it could be detected, but it was as useless as being unable to detect him.

Using her number one movement skill, Snow Saint easily passed through the crowd in front of her and soon arrived at the gate of Blood Wave Temple.

What was interesting was that when the Snow Saint arrived at the gates of the Blood Wave Temple, there were still some people behind her with bloodshot eyes. Those who had gone mad still wanted to chase after her.

“Kill, kill her!”

Among them, the black-robed skinny youth who was charging at the very front was the craziest. He roared and roared crazily like a wild beast because the snow saint had already entered the Blood Wave Temple, the others had already given up when they saw this, but he was still charging forward crazily.

However, just as everyone was mocking the black-robed skinny youth, the black-robed skinny youth who was about to reach the entrance of the Blood Wave Hall suddenly sped up and entered the Blood Wave Hall.

This scene shocked everyone.

“What?”

“What’s going on?”

“Without the Blood Wave Token, it’s impossible to enter the Blood Wave Temple. But that person just now...”

Most of them had not reacted and were still somewhat baffled.

However, when Jian Wushuang saw this scene, the corners of his mouth curled up into a strange smile. “So it’s him. He’s really cunning.”

“Haha, this kid is really smart!” Tie Ta, who was beside him, also laughed.

The two of them already knew the identity of the black-robed skinny youth.

As expected, that black-robed skinny youth was the mysterious Invincible Saint who had luckily obtained the ninth Blood Wave Token.

Although he had obtained the Blood Wave Token, no one in the Blood Wave Realm recognized him and did not know who he was. Therefore, he had just blended into the crowd and pretended to be like everyone else to crazily block and kill the Snow Saint, he even pretended to be incomparably crazy and charged forward like his consciousness had been completely occupied by greed. The people around him did not pay much attention to him.

Then, he followed the Snow Saint to the entrance of the Blood Wave Hall, and easily entered the Blood Wave Hall.

It had to be said that this person was indeed cunning.

Chapter 3275: It Wasn’t Her

After the black-robed skinny youth entered the Blood Wave Hall, the experts who had regained their senses immediately guessed his identity and began to curse loudly.

“Bastard!”

“Damn it, that person just now was the Invincible Saint who received the ninth Blood Wave Token. He actually played us?”

“Fooled us?”

“No, only an average Invincible Saint like him can successfully enter the Blood Wave Temple. Otherwise, he will die unless he hands over the Blood Wave Token. We can only say that he is very smart.”

“Now, seven people have entered the Blood Wave Temple. Although the Heavenly Sword Marquis didn’t enter, we can’t get the Blood Wave Token in his hand. In other words, there are only two chances left.

One of these two Blood Wave Tokens is on Han Xin of the Supreme Emotion-forgetting Valley, and the other one is on the Silver Snow King. These two people must not let them enter the Blood Wave Temple!”

All the experts present made up their minds. They had no choice. Their chances were running out.

“The people from the Supreme Emotion-forgetting Valley are here!”

A low roar suddenly reverberated between the heaven and earth. In an instant, the eyes of the experts who were still eager for the Blood Wave Token turned scarlet again.

Jian Wushuang also looked over from the void not far away. His hands could not help clenching into fists.

There, five figures were rushing over.

All five of them wore white robes and were women. Four of the five women revealed their faces, but the one in the middle was covered by a veil.

Although the face could not be seen clearly with the veil, the beautiful eyes and figure alone were enough to make everyone’s heart flutter.

Without a doubt, this woman’s beauty was extraordinary. She might not be as beautiful as the dead Nine Temples Saintess, but she was definitely not far off.

Looking at the veiled woman in the center, Jian Wushuang’s fanatical heart was instantly doused with a basin of cold water. It cooled down, and his tightly clenched fist slowly loosened.

“It’s not her.” Jian Wushuang shook his head with a trace of disappointment in his eyes.

From the very beginning, when he learned of Han Xin’s name on the True Saint List and that she came from the Supreme Emotion-forgetting Valley, he had been looking forward to it because he felt that...this Han Xin was most likely his wife, Leng Rushuang.

After all, Han Xin was not famous before. It was as if she had appeared out of nowhere, but she was very strong and had an extremely cold temperament. These characteristics were very similar to his wife.

Han Xin had obtained a Blood Wave Token, so she would definitely enter the Blood Wave Temple. Because of this, he did not choose to enter the Blood Wave Temple with Emperor Ming and Di Hao immediately. Instead, he stayed here and waited, he had waited for Han Xin to appear and then wanted to see if she was really his wife.

But in the end...he was disappointed.

Although the veiled woman in front of him was still veiled and his face could not be seen clearly, and her temperament was also extremely cold, Jian Wushuang could tell at a glance that she was not his wife. The difference between the two was too great.

Jian Wushuang sighed heavily in his heart. After a long while, he raised his head again, but a trace of determination flashed in his eyes. “Although Han Xin is not Shuang ‘er, she is after all a genius disciple of the Supreme Emotion-forgetting Valley. If I want to reunite with Shuang ‘er in the future, I will have to

deal with the Supreme Emotion-forgetting Valley. If I can help Han Xin now, it can be considered as a favor to the Supreme Emotion-forgetting Valley. In the future, it will be much easier to deal with her.”

Thinking of this, Jian Wushuang did not hesitate any longer. He immediately used the shadowless escape technique and rushed toward Han Xin.

Han Xin and the other four people from the Supreme Emotion-forgetting Valley had long known that they would be blocked by many experts when they entered the Blood Wave Temple. Therefore, they were prepared. They immediately formed a defensive formation, this defensive formation was of a very high level. In addition to the five people who were driving the formation, including Han Xin, who had swallowed a drop of divine power, their strength had soared. Even if they were surrounded by many experts, this array could barely hold on.

Meanwhile, the five of them were relying on the array to fend off the attacks from all directions while continuously approaching the Blood Wave Hall’s door.

“Soon, we’re almost at the door of the hall!”

As the five of them got closer and closer to the door of the Blood Wave Hall, a trace of joy rose in the hearts of the five people.

However, at this moment, a sudden change occurred!

“You want to rely on this defensive array to forcefully walk to the door of the Blood Wave Palace? How can it be so easy!” A fierce shout suddenly sounded on the battlefield.

“Everyone, they are using the indestructible true martial array. This array’s defensive power is extremely strong. Regardless of whether we attack separately or concentrate our power to attack a single point, it will be very difficult for us to break this array. However, every array has a weakness. The weakness of this indestructible true martial array is in Zi Gan’s position. Everyone, listen to my instructions and attack this point together!”

The one who shouted was a purple-robed old man. When the surrounding people saw this purple-robed old man, their hearts calmed down.

“Oh no, it’s Elder Ghost Heaven Sorcerer!”

The expressions of the five people from the Supreme Emotion-forgetting Valley changed.

Elder Ghost Heaven Sorcerer was just a carefree Invincible Saint. In terms of strength, he was not much, but he was very famous in the Divine Beginning Realm. That was because he had a very high level of research on formations, especially, he had a very high level of research on some strange and strange formations.

For example, the eternal true martial formation that the five people of the Supreme Emotion-forgetting Valley had used was an extremely strange and rare defensive formation in the Divine Beginning Realm. This formation was very hard to recognize, and there were so many powerful people here, there were also many people who had studied formations. However, since the appearance of the five people of the Supreme Emotion-forgetting Valley, no one had seen through this formation.

However, this Elder Ghost Heaven Sorcerer was able to see through this formation now.

If someone were to see through this formation and find its weakness, then the power of this formation would be greatly reduced.

As expected, under the guidance of the Elder Ghost Heaven Sorcerer, many experts attacked consecutively. In just two or three attacks, they had directly destroyed the indestructible true force formation.

When the formation collapsed, the five people from Supreme Emotion-forgetting Valley immediately appeared in front of the many experts present. With the Blood Wave Token, Han Xin did not have the tyrannical strength of Master Ku, nor did she have the terrifying movement technique of the Snow Saint, under the encirclement of so many experts, they instantly fell into a crisis.

However, at this moment, a figure appeared in the middle of the battlefield.

His appearance immediately attracted the attention of many strong people present.

....

Chapter 3276: Summon

— —

“Heavenly Sword Marquis, it’s Heavenly Sword Marquis!”

“Why is he here at this time?”

“Heavenly Sword Marquis, we are not interested in the Blood Wave Token in your hand. I hope you won’t hinder us!”

Many experts looked at Jian Wushuang, and some even warned him.

“Haha, I’m just trying to get in your way, so what can you do?” Jian Wushuang sneered. He swayed in the crowd and did not attack the surrounding experts, however, those experts who were crazily surrounding and killing Han Xin did not dare to provoke him.

Jian Wushuang easily came to the center of the battlefield and came to Han Xin’s side.

“Grab me.” Jian Wushuang stretched out his arm.

“Huh?” Han Xin looked at Jian Wushuang in surprise. However, since she was in a critical situation, she did not have time to think about it. She immediately grabbed Jian Wushuang’s arm and whooshed!

Jian Wushuang and Han Xin disappeared into the crowd. When they reappeared, they had already arrived at the entrance of Blood Wave Temple.

Time-space teleportation!

This move could not only teleport from a long distance but also move at a close distance.

Now, Jian Wushuang used time-space teleportation and brought Han Xin to the entrance of Blood Wave Temple. Then, they immediately rushed into Blood Wave Temple.

Seeing Jian Wushuang and Han Xin enter Blood Wave Temple, many experts present were extremely angry.

“Bastards, they escaped!”

“We had a chance to kill Han Xin and get the Blood Wave Token from her because of Heavenly Sword Marquis!”

“Damn Heavenly Sword Marquis, he entered the Blood Wave Temple by himself, but he helped others to enter the Blood Wave Temple?”

Those experts who did not get the Blood Wave Token were cursing Jian Wushuang, but now that it was a foregone conclusion, there was nothing they could do.

Around them, Tie Ta, Qian Hongzi, and the others had strange expressions when they saw this scene.

“Did the Heavenly Sword Marquis stay here to help Han Xin enter the Blood Wave Temple?” Tie Ta stroked his chin.

“It seems so, but when did the Heavenly Sword Marquis become friends with the people of the Supreme Emotion-forgetting Valley? I’ve never heard of them.” Qian Hongzi, Duan Lang, and the others were also puzzled, but they did not think too much about it.

...

After Jian Wushuang and Han Xin entered the hall, they came directly to a magnificent hall.

After entering the hall, there were no pursuers behind them. Han Xin immediately looked at Jian Wushuang.

“Heavenly Sword Marquis, why are you helping me?” Han Xin asked in puzzlement.

She asked herself if it was the first time she met Jian Wushuang, so they did not have any friendship. And she had never heard of the relationship between the Supreme Emotion-forgetting Valley and Jian Wushuang.

“I helped you because of someone in the valley,” Jian Wushuang said.

“Who?” Han Xin asked.

“Her surname is Leng. She should have entered the valley hundreds of years ago, and her position in the valley should be very special,” Jian Wushuang said.

His wife, Leng Rushuang, was suitable to cultivate the supreme divine skill of the valley. Even the old valley master of the valley valued her very much. After she entered the valley, her position was certainly extraordinary.

After hearing Jian Wushuang’s words, Han Xin’s expression under the veil changed. Obviously, she knew who the person Jian Wushuang was talking about was.

“Han Xin, you should know who I’m talking about, right?” Jian Wushuang stared at Han Xin.

"I don't know." Han Xin shook her head directly. "In the past thousand years, many disciples have entered Supreme Emotion-forgetting Valley. I don't know all of them. As for the person whose surname is Leng, I have never paid attention to him."

"You don't know?" Jian Wushuang narrowed his eyes. He could tell that Han Xin was lying at a glance. However, Han Xin clearly did not intend to continue this topic with him.

"Heavenly Sword Marquis, you have indeed helped me a lot this time. I will remember this favor. I will repay you when I have the chance in the future," Han Xin said.

Jian Wushuang looked around and hesitated for a moment. He did not continue asking but looked at the front of the hall.

The grand hall was quite simple and crude. There were no exquisite and brilliant decorations. In front of the hall, there were two passages leading to the inner layer.

"Two passages?" Jian Wushuang frowned.

"Someone from the Supreme Emotion-forgetting Valley came to the blood wave palace with the Blood Wave Token, but they left a message that there was only one passage in the Blood Wave Temple. But now, why are there two passages?

"Is it because we entered the Blood Wave Temple at the same time?" Han Xin was puzzled.

"It's possible." Jian Wushuang smiled and said, "Han Xin, since there are two passages, you and I can choose one to enter. You choose first."

"I'll take this one." Han Xin did not stand on ceremony and directly chose the passage on the right.

"Then I'll take this one. Good luck." Jian Wushuang said. His body flashed and he directly rushed toward the left passage.

The dark and long passage was bottomless.

Jian Wushuang carefully moved forward, but his mind was still full of thoughts.

"Han Xin clearly knows who I'm talking about, but she insists that she doesn't know. Why?"

"Is it because she doesn't want the outside world to know about Shuang 'er, or is it because Shuang 'er has started to cultivate that divine skill and the Supreme Emotion-forgetting Valley wants her to cut off all ties with the outside world?" Jian Wushuang frowned.

Although he did not get anything out of Han Xin's conversation, Jian Wushuang felt a little uneasy.

He felt that he could not delay the matter of Shuang 'er any longer. Once the matter of the Blood Wave Realm was settled and he had successfully broken through to the Principles Master realm, he would immediately set off for the Second Heaven!

"If I can really become the Principles Master, I can at least be treated seriously by the Supreme Emotion-forgetting Valley," Jian Wushuang muttered.

But at this moment, a long voice slowly came from the end of the passage.

“Little guy, come here! Come to me!”

The voice seemed to contain special magic power. It came from the tunnel in front of him, but it sounded in Jian Wushuang’s heart and echoed in his mind again and again.

“Come here!”

“Come here!”

The voice sounded again and again, and at the same time, an unprecedented summoning power came.

Although Jian Wushuang had been vigilant, as the voice sounded again and again, his consciousness gradually sank down.

His eyes gradually became listless. At this moment, his consciousness had been completely sealed, like a walking corpse. With the guidance of the voice, he moved forward numbly.

....

Chapter 3277: Divine Palace of Life

After an unknown period of time, Jian Wushuang finally regained consciousness.

Once he regained consciousness, he immediately understood his situation. His face suddenly changed, and his back was instantly drenched in cold sweat.

He was very clear that his previous state was completely at the mercy of others.

“What’s going on?” Jian Wushuang immediately looked around and found that he had come to a dark void where there was no light at all, even his vision was blocked.

Even so, Jian Wushuang still saw a dark figure not far in front of him.

“Who are you?” Jian Wushuang stared at the dark figure. His intuition told him that his muddleheaded state was likely caused by this dark figure.

“You are now in Blood Wave Temple, but I can easily bring you here. Who do you think I am?” The dark figure said slowly in the dark void.

“You are the master of the Blood Wave Temple?” Jian Wushuang was surprised.

“Yes, but it’s just a consciousness.” The dark figure said.

Jian Wushuang was not surprised. He could feel that the figure in front of him did not have any life aura. It was indeed a consciousness.

“Let me introduce myself. My name is Blood Wave, and I come from the Life Palace!” The dark figure said.

"Life Palace? Is it a sect or force that specializes in comprehending the principles of life?" Jian Wushuang frowned. He had never heard of a force or sect called the Life Palace in the Divine Beginning Realm.

However, the Blood Wave Realm could not even be touched by the three Saint Realms and the three Freedom Alliances. It could even block the will of the Heavenly Dao. It was evident that the strength of the master of the Blood Wave Temple was extraordinary to be able to produce such an expert in the Life Palace, he must be extraordinary.

"Jian Wushuang, greetings, Elder Blood Wave." Jian Wushuang immediately bowed to show his respect.

"Jian Wushuang? Aren't you called Heavenly Sword Marquis?" Blood Wave asked playfully.

"Senior, you know my name?" Jian Wushuang was stunned.

"Of course, I created the Blood Wave Realm. I know what happened here. Of course, my consciousness is in a deep sleep all year round. Under normal circumstances, it would not be awakened, let alone pay attention to the things in the Blood Wave Realm. But this time, I was alarmed because of you." Blood Wave gave Jian Wushuang a deep look. "Little guy, it's your perfect life-level that has alarmed me!"

"Perfect life-level?" Jian Wushuang's expression suddenly changed.

He was a perfect chaotic creature, which was his biggest secret. Although he had used the Heaven-cleaving skill in the Blood Wave Realm and revealed the life pressure of a perfect chaotic creature, he had never expected that...his display would alarm Blood Wave, who had been sleeping all this time?

Moreover, Blood Wave had directly seen that he had a perfect life level.

One must know that there was no specific concept of a life level in the Divine Beginning Realm. An ordinary life was an ordinary life, and a special life was a special life.

As for the word 'perfect', it was named by his Master Xuan Yi.

"Senior Blood Wave, how do you know the level of a perfect life-form and recognize it at a glance?" Jian wushuang asked.

"It's simple. I've seen a cultivator at the level of a perfect life-form," Blood Wave said.

"You've seen my master?" Jian Wushuang's heart skipped a beat. He knew that his master was the only one who had a perfect chaotic life-form in the Divine Beginning Realm, now that Blood Wave had said that he had met a cultivator with a perfect life-level, he subconsciously thought that it was his master, so he blurted it out.

"Your master? What's his name?" Blood Wave asked.

"His name is Xuan Yi," Jian Wushuang answered immediately.

"Xuan Yi? I've never heard of him." Blood Wave shook his head.

"How is that possible? Have you met other perfect chaotic creatures, Elder Blood Wave?" Jian Wushuang asked in surprise.

“Haha, little guy, it seems that your horizons are still a little low, but it’s normal. After all, you’re only a saint. You’re not qualified to touch the secrets of this world, let alone the secrets of the entire universe,” Blood Wave said with a smile.

“The universe? Is it the universe battlefield?” Jian Wushuang asked.

“The universe battlefield? Sort of.” Blood Wave continued to smile. “Let me put it this way. A cultivator at the level of perfect life, which is a perfect chaotic creature, is very rare. In your current world, it is absolutely unique. However, if it is in the vast universe, it may not be the case. At least, I have seen other perfect chaotic creatures, and there is more than one.”

Jian Wushuang was shocked.

Universe? Universe battlefield?

It was said that the universe battlefield was extremely mysterious and had unlimited possibilities.

He had always thought that the universe battlefield was just an opportunity, but now it seemed that it was not so.

In the vast universe battlefield, there seemed to be other cultivators besides the Divine Beginning Realm, and there were even other perfect chaotic creatures!

“Senior Blood Wave, is the Life Palace that you mentioned also a force in the universe battlefield?” Jian Wushuang asked.

“Yes.” Blood Wave nodded. “The Life Palace is the most mysterious and terrifying force in the universe. It has a special feature, which is that it is only open to special life forms. In other words, only special life forms born in the universe are qualified to join the Life Palace.”

“Only special life forms are qualified to join?” Jian Wushuang’s pupils constricted.

He knew very well how rare and powerful special life forms were.

In the Divine Beginning Realm, there were indeed too few special life forms. So far, Jian Wushuang had only met two special life forms. One was the Saint Devil Son, and the other was someone he had met before, Xiong Tao from the Divine Ancestor Daoist sect.

These two special life forms had a huge innate advantage.

Saint Devil Son, for example, was only ranked in the top 10 on the True Saint List due to his simple comprehension of the principles. He did not have many unique skills and secret skills, but because of the huge innate advantage of the special life forms, he could even compete with Light King, and that was why he was ranked second on the True Saint List.

Jian Wushuang thought it was terrifying to see a force that only special life forms were qualified to join, and all the experts under its command were special life forms.

“Senior Blood Wave, I’m very curious. How many people are in the Life Palace?” Jian Wushuang could not help asking.

“Many. I don’t know exactly how many, but it’s definitely beyond your imagination. In addition, I just said that only special life forms are qualified to enter the Life Palace, and I’m not talking about ordinary initial-level special life forms,” Blood Wave said.

....

Chapter 3278: Added

— —

“It’s not an ordinary initial-level special life-form? What do you mean? Are there different levels among the special life-forms?” Jian Wushuang asked.

“Of course, there are differences among the special life-forms. Just like bloodline groups, there are weaker and lower-level bloodline groups, and there are also extremely powerful bloodline groups standing at the top!” Blood Wave smiled faintly.

“There are several levels of special life forms. First of all, the most common and easier to see in the universe are the initial-level special life forms. Compared to ordinary cultivators, these special life forms have obvious innate advantages, but their potential is actually similar to that of ordinary human cultivators. If you want to reach the peak, you still have to work hard and take risks to have a chance!”

“Most initial level special life forms are born within the Dao World and are born within the Dao World. However, above the initial level, there are universe-level special life forms. Special life forms at this level may not be stronger than initial level special life forms, but they have greater potential. This is because universe-level special life forms are born within the vast universe. There is still a huge difference between the two.”

“Above the universe level, there are special life forms in the creation level. Special life forms at this level have huge innate advantages and extremely high talent. Of course, their potential is much higher than the first two special life forms. In the universe, ordinary special life forms in the creation level can reach the level of universe overlords as long as they don’t die halfway.”

Blood Wave was talking slowly.

However, Jian Wushuang, who was listening in front of him, was a little stunned.

“Initial level? Universe level? Creation level?”

“Dao Realm? Universe Overlord?”

These words completely exceeded Jian Wushuang’s understanding of heaven and earth, making him feel as if he had entered a completely new level.

“Above the creation level is the final perfect level!” Blood Wave spoke again, his expression became solemn. “A perfect level life-form is an almost extinct existence in the vast universe. It is possible to have one life-form after countless chaos cycles. Such a life-form not only controls the supreme life-level pressure and makes countless life-forms submit to it, but most importantly, it has unlimited possibilities!”

"Infinite possibilities?" Jian Wushuang's pupils constricted.

He did not know what infinite possibilities Blood Wave was referring to, but for Blood Wave to have such a high evaluation of him, it was clear that the level of a perfect life-form was extraordinary.

And he was the owner of a perfect life-form.

"A perfect chaotic life-form is indeed a special existence that countless experts admire. However, because its life-form is too high, it makes it difficult for the Heavenly Dao, so there are a lot of restrictions and suppression. I think you must have experienced such suppression." Blood Wave looked at Jian Wushuang.

Jian Wushuang's face darkened.

Of course, he had experienced the suppression from the Heavenly Dao.

In Jian Wushuang's opinion, it was not just suppression. The power of the Heavenly Dao was clearly trying to kill him at all costs.

He had long known that the perfect chaotic creature was repelled by the Heavenly Dao's will.

"In fact, not only perfect level creatures, but also special creatures in the creation, universe, or even the initial level. They are more or less restricted and suppressed. This is a trade-off between the Heavenly Dao's will and the special creatures and ordinary cultivators.

"And since there is suppression, there will naturally be resistance. Therefore, the Life Palace, which is made up of special life forms, was born. The Life Palace exists to fight against the heavenly will," Blood Wave said.

Hearing this, Jian Wushuang's heart was in turmoil.

Now he finally understood why so many special life forms joined the Life Palace. It turned out that the purpose of the life palace was to fight against the heavenly will, to resist the suppression of the heavenly will on the special life forms.

The special life forms were not willing to be suppressed by the will of the Heavenly Dao, so they would naturally resist. However, they would choose to join the Life Palace because of the influence of one person's strength.

"Little guy, now you know why I was awakened by you, right?" Blood Wave looked at Jian Wushuang again. "There are very few perfect life forms in the Life Palace where special life forms gather. Since I can meet one, I won't miss it!"

"Jian Wushuang, as the chief supreme of the Divine Life Palace, I'm asking you, would you like to join my Divine Palace of Life?"

The sudden invitation startled Jian Wushuang. His eyes flickered, but then a smile appeared on his face. "I'd like to!"

Of course, Jian Wushuang could not find any reason to refuse.

After all, he had been hunted by the will of heaven all year round. Now that he finally found out that there was a divine palace of life, which was formed by many special life-forms to resist the pressure of the will of heaven, he naturally wanted to join it.

“Haha, very good. From today on, you are a member of my Life Palace.” Blood Wave smiled, then waved his hand and handed an interspatial ring to Jian Wushuang. “There are three tokens in this interspatial ring. One is a token for a member of the Life Palace. After you refine it, it will leave a special mark in your body. In the future, if you meet another member of the Life Palace, you can sense it through this mark. Of course, the other party can also sense your identity.

“The second token is my communication token. You are still in this Dao Realm, so you don’t need to contact me for the time being. But when you leave the Dao Realm and go to the depths of the vast universe, you can use this token to contact me. I will tell you how to go to the Life Palace.

“As for the last token, it records a unique magic power of the Life Palace. This magic power is named after life. All members of the Life Palace can cultivate this magic power.”

At this point, Blood Wave paused for a moment.

“Life divine power?” Jian Wushuang frowned slightly. “Elder Blood Wave, what is the use of this divine power?”

“The life divine power was created by the founder of the Life Palace after studying the essence blood of countless special lives for a long time. This secret skill can maximize the potential and innate advantage of special lives!”

“To put it simply, the innate advantages and potential of a special life form, especially universe-level and creation-level special life forms, are much greater than that of ordinary cultivators. However, most of these innate advantages are only simple and crude. To a large extent, they are reflected in the power of divine power. However, in reality, the innate advantages they use are only 10%!”

....

Chapter 3279: Divine Power of Life

“10%?” Jian Wushuang was stunned.

In the Divine Beginning Realm, the innate advantage of the special life forms was very shocking.

It was almost difficult to make up for the innate advantage, but Blood Wave told him that the special life forms had only used 10% of their innate advantage?

“Don’t be surprised. To be called special life forms, each of them is extraordinary, not something ordinary cultivators or some bloodlines can compare with. Without any guidance, it’s already good enough to be able to use 10% of their innate advantage. and the life divine ability created by the founder of the Life Palace can let these special life forms use their innate advantage as much as possible!”

“For ordinary special life forms, as long as they cultivate this life divine power, they can at least exert 20-30% of their innate advantage. If they cultivate the life divine power to the extreme, they may even exert 60-70% of their innate advantage!” Blood Wave said.

“Even if they cultivate it to the extreme, they can only exert 60-70% of their innate advantage? Can’t they fully exert their innate advantage?” Jian Wushuang asked in puzzlement.

“No.” Blood Wave shook his head. “Perhaps someone will be able to perfectly utilize the innate advantage of a special life form in the future, but so far, no one has been able to do so. The founder of the Divine Life Palace is extremely talented and has spent so much time, yet he has only been able to do so much.”

Hearing this, Jian Wushuang was secretly amazed.

“By the way, the move you performed when you displayed your perfect life level in the Blood Wave Realm seems to be extraordinary.” Blood Wave looked at Jian Wushuang. “If I’m not wrong, did you integrate your supreme life-level pressure into your swordsmanship?”

“Yes.” Jian Wushuang nodded. “But I didn’t create that move. If it was my master.”

“Your master? He’s also a perfect chaos creature?” Blood Wave looked at Jian Wushuang in surprise.

“Yes, but unfortunately, my master has died,” Jian Wushuang said.

“Is that so? That’s really a pity,” Blood Wave sighed, “It’s incredible that a perfect chaotic creature who hasn’t joined the Life Palace can combine the supreme power of his perfect life with his moves and exploit his innate advantage as much as he can. Judging from your previous sword move, you have already exerted a little more than 10% of your innate advantage. If I’m not wrong, this shouldn’t be the limit of that move!”

“Yes, the most powerful divine power that master created is called Heaven-cleaving skill. Although I’ve been studying it, I’m still too weak. I can only use part of the power of that move. It’s still far from the ultimate power of that move!”

“Yes!” Jian Wushuang said.

“That’s it. If I’m not wrong, the ultimate power of this move created by your master should allow you to exert 30% of your innate advantage. The key point is that he used an offensive divine power, while the life divine power is a special application method. The two might not conflict,” Blood Wave muttered.

“No conflict?” Jian Wushuang’s expression changed.

In other words, it was possible for him to use the Heaven-cleaving skill as well as the life divine power.

If he cultivated both the life divine power and the Heaven-cleaving skill to the limit and used the life divine power to exert 60% or even 70% of his innate advantage, and then used the Heaven-cleaving skill to exert about 30% of his innate advantage, did that not mean...would it be possible for him to fully exert the innate advantage of his perfect life?

“Theoretically, it is possible. As for the result, you can only try it after you have mastered the life divine power,” Blood Wave said.

"I will try it now." Jian Wushuang was obviously impatient.

"Don't worry." Blood Wave waved his hand. "You'll have plenty of time to cultivate the life divine power in the future, but you'd better not waste your time now. Don't forget that you're in the Blood Wave Temple now. You came here for the opportunity in the Blood Wave Temple. I used some means to lure you here, but no one else knows about it."

"But if you waste your time here for a few days, others will surely guess that you have some special encounters in the Blood Wave Temple, and you'll have a lot of trouble later. So you'd better stay with them now."

Jian Wushuang was stunned, and then he smiled.

Indeed, he had enough trouble, and the three Saint Realms had their eyes on him. If people knew that he had a special encounter in the Blood Wave Temple at this time, there would be more people targeting him.

It was better to save these unnecessary troubles.

"I've told you what I should tell you. As a member of the Life Palace, I hope you can grow up as soon as possible. After all, a special life form of the perfect level can grow to a certain level, which is very terrifying. It's also a great battle strength for the Life Palace!

"Go!"

"Go!"

Blood Wave waved his hand, and a space passage immediately appeared in the dark void.

"Goodbye, senior!" Jian Wushuang bowed respectfully to Blood Wave, then he plunged into the space passage and disappeared.

The dark void calmed down again.

Blood Wave, who was shrouded in darkness, looked at the space passage that Jian Wushuang slowly closed, and his eyes flashed with a strange luster.

"Someone actually developed the innate advantage of a special life form through an ultimate attack. Even the founder of the Life Palace couldn't do this. What kind of person is Jian Wushuang's master?"

"Xuan Yi, this name seems familiar. Who is he?"

With doubt, the dark figure gradually quieted down.

...

In the deepest part of the Blood Wave Temple, a huge golden palace door was tightly closed.

In the open space in front of the golden palace door, there were a few eight-figures.

These eight people were the first to enter the Blood Wave Temple, including Han Xin, who had just entered the Blood Wave Temple with Jian Wushuang. At this time, they came from a passage behind, Jian Wushuang's figure also came over.

“Haha, Brother Heavenly Marquis, you finally came in.”

Upon seeing Jian Wushuang, Emperor Ming immediately greeted him with a smile.

Di Hao also nodded to Jian Wushuang.

“Heavenly Sword Marquis, you seem to be a little slow.” Han Xin glanced at Jian Wushuang.

“I’m not as anxious as you,” Jian Wushuang replied with a smile.

Han Xin’s eyes flickered, but she did not suspect anything.

Everyone thought that Jian Wushuang had just entered the Blood Wave Temple normally, but they did not know that he had just gone to the dark void and met the master of the Blood Wave Temple.

....

Chapter 3280: Gray Star

Time passed, and soon, the last person to enter the Blood Wave Temple arrived.

Jian Wushuang and the others thought that the last person to enter the Blood Wave Temple would be Silver Snow King, who had obtained the Blood Wave Token. However, when this person came to the open space, everyone was shocked.

“Silver Wolf?”

“It’s you?”

“The Blood Wave Token in Silver Snow King’s hand fell into your hands?”

Everyone looked at the last person to arrive.

This person was Silver Wolf, one of the three Saint Realms, the strongest expert in the Life and Death Saint Realm, and ranked seventh on the True Saint List!

“Silver Wolf, what about Silver Snow King?” Underworld Emperor glanced at Silver Wolf.

“He’s dead.” Silver Wolf’s face was a bit gloomy. “He was a solitary expert. He tried to break into the Blood Wave Hall by himself but was surrounded by many experts. In the end, he was killed. As for him, he was still alive. Many experts in the outside world began to fight over the Blood Wave Token he left behind. My luck was clearly better. That Blood Wave Token fell into my hands.”

“Oh?” Underworld Emperor and the others were relieved.

Indeed, many experts in the outside world were eyeing the Blood Wave Token. Except for Light King and the others, who were unrestrained in the beginning, they were also stopped by many experts in the process of entering the Blood Wave Temple, they almost could not enter the Blood Wave Temple.

For example, Han Xin, if Jian Wushuang did not help her, her result would not be much better than that of Silver Snow King.

“Silver Wolf, when the Snow Saint and Han Xin entered the Blood Wave Temple, none of the three Saint Realms showed up. But when Han Xin and I entered the Blood Wave Temple, you showed up.” Jian Wushuang looked at Silver Wolf coldly, his words were full of mockery.

“Humph, to fight for the Blood Wave Token in front of you is courting death. The three Saint Realms are not that stupid.” Silver Wolf snorted, the three Saint Realms did wait for Jian Wushuang to enter the Blood Wave Temple before fighting for it.

If Jian Wushuang was there, they would not dare to fight.

After all, Jian Wushuang’s previous slaughter had scared them, especially after he killed the Nine Temples Saintess, which made experts like Silver Wolf, Thunder God, and Gu Zhenzi, who ranked high on the True Saint List, afraid to appear in front of Jian Wushuang, they did not dare to appear in front of Jian Wushuang.

“Haha, Silver Wolf, you are indeed smart, but you are in front of me now. Aren’t you worried that I will kill you directly here?” Jian Wushuang stared at Silver Wolf with a wicked smile.

Silver Wolf’s heart trembled, but he said seriously, “This is the Blood Wave Temple. How dare you attack me? Do you think the rules of the Blood Wave Temple are just for show?”

Blood Wave Temple was a lucky place in the Blood Wave Realm, where fighting was forbidden. In the history of the Divine Beginning Realm, it was not that no one had attacked in the Blood Wave Temple, but the first person to do so...was directly killed by a mysterious force, and no one dared to attack in the Blood Wave Temple anymore.

Silver Wolf knew this, so he was fearless at this moment.

Hearing Silver Wolf’s words, the smile on Jian Wushuang’s face grew wider.

Others might be afraid of the rules in Blood Wave Temple, but to him, the rules were not binding.

After all, the master of Blood Wave Temple was definitely on his side. Even if he killed Silver Wolf now, he was sure that Blood Wave would not attack him. But if he really did that...it would expose the extraordinary relationship between him and the master of Blood Wave Temple.

“Forget it, I’ll let him live for a while.” Jian Wushuang smiled faintly and looked away.

Seeing this, Silver Wolf thought that Jian Wushuang did not have the courage to attack him in Blood Wave Temple. He could not help but look proud.

At this moment, the huge temple shook slightly. Then, in front of everyone, the tightly shut golden gate slowly rose up. A deep and mysterious passage appeared in front of everyone.

“It’s here!”

“The opportunity to become Principles Master is inside!”

“Haha, what are you waiting for? Hurry up and enter!”

No one hesitated. Immediately, the ten figures on the empty ground rushed into the mysterious tunnel.

When they walked out of the mysterious tunnel, they discovered that they had arrived in a gorgeous galaxy.

This galaxy was gorgeous and beautiful. There were countless stars in it. At a glance, it was intoxicating.

In the center of this galaxy, there was a huge, boundless gray star floating quietly. This gray star was the absolute core of this galaxy. It was surrounded by endless gray air currents...it was flowing endlessly.

From this gray star, a total of ten gray light beams extended out. At the end of these ten gray light beams, there was each a floating high platform, the high platform was not big, but it was enough for one person to use it to their heart's content.

"That gray star is the opportunity we are looking for!" The Underworld Emperor raised his head and looked at the gray star in front of him with a face full of yearning.

"The ancestors of our Supreme Emotion-forgetting Valley said that this gray star is very magical. The ten light beams from its body are the connection point between us and the gray star. There are ten high platforms under the ten light beams, so we can each have one," Han Xin said.

"Let's go!"

Jian Wushuang and the others rushed toward the gray star. None of them chose a high platform and immediately sat down on the high platform.

Jian Wushuang was also sitting cross-legged on one of the high platforms. The gray light beam connected to the high platform instantly shone on his body. At this moment, Jian Wushuang finally saw the huge 'gray star' in front of him.

At first, he thought it was a star, but now, through the guidance of the gray light beam, he realized that it was not a star, but a light ball formed by the fusion of various powers.

The power in the light ball had formed a complete cycle, forming an eternity, which made the power extremely calm. That was why the light ball looked like a star.

The power that formed the light ball was the power of principles!

Yes, it was the Principles Master, but it was not just one or two principles, but a dense amount of the power of principles!

Space-time principles, reincarnation principles, destruction principles, life and death principles, darkness principles, light principles, thunder principles... Everything Jian Wushuang knew about the principles, the light ball had everything, these principles were obviously different, but they were perfectly integrated in the light ball..
