

## Swordsman 3281

### Chapter 3281: Complete Heavenly Dao

— —

“Incredible, simply incredible!”

Jian Wushuang carefully felt the composition of the light ball, but his heart was already in turmoil.

Different rules contained unique characteristics, and it was almost difficult to co-exist.

For example, in the Divine Beginning Realm, it was very difficult for many cultivators to combine the two principles. This could be seen from the countless Immortal Saints, including the Light King, who had combined the two principles.

However, this light ball did not only fuse the two principles, but it also perfectly fused all the principles in the world and formed an eternal state.

What was this eternal light ball?

“Heavenly Dao. If I’m not wrong, this light ball is a complete Heavenly Dao!” Jian Wushuang’s heart trembled.

He had long known that the Heavenly Dao was formed by the fusion of countless principles and mysteries. It was clearly the same as the light ball in front of him.

“This is the great opportunity in Blood Wave Temple. Each and every one of the complete Eternal Heavenly Dao is in front of us.” Jian Wushuang was a little confused.

He did not expect to see a complete Heavenly Dao here. Moreover, he could clearly see the composition of the Heavenly Dao. Most importantly, each and every branch of the complete Eternal Heavenly Dao was formed, every single principle was placed before him in an incomparably complete and clear manner.

Take the spacetime principles that he had comprehended for example. Right now, he could directly see the essence of the spacetime principles through the complete Heavenly Dao in front of him. The vast and majestic spacetime principles...it was as if the outermost layer of his mysterious clothes had been stripped off, completely exposing himself in front of him.

With a thought, he had many doubts about the space-time principles in the past, but almost instantly, he had an epiphany.

“I understand now. No wonder any Immortal Saint who enters the Blood Wave Temple can become a Principles Master after leaving the Blood Wave Temple.” Jian Wushuang secretly praised.

He could feel that it was too easy for him to comprehend the space-time principles through the complete Heavenly Dao on this high platform. It was like eating and drinking water. His comprehension of the space-time principles was already extremely high. In such a state...he believed that it would only take him ten days at most to completely master the remaining space-time principles. Once he

completely comprehended and mastered the principles, he would have reached the threshold of becoming a Principles Master.

“Every time the Blood Wave Temple opens, the cultivators who enter with the Blood Wave Token can stay there for a whole month. One month...” Jian Wushuang could not help smiling.

After all, everyone who entered the Blood Wave Realm was an expert. The weakest one was almost a Peak Saint. They had abundant divine power and high comprehension of the principles, regardless of who had obtained the Blood Wave Token and entered the Blood Wave Temple, through the comprehension of the complete Heavenly Dao, anyone who was not stupid enough should be able to master the principles in one month.

Once they had mastered the principles, they could easily attack the Principles Master as long as they had sufficient divine power.

“Divine power...” Jian Wushuang moved his body and suddenly found a large amount of gray fog surging toward him.

The gray fog was quite familiar to him.

“Heaven-cleaving Mystic Realm!” Jian Wushuang narrowed his eyes.

He clearly remembered that when he had entered the Heaven-cleaving Mystic Realm, he had obtained the powerful divine power of the six paths of reincarnation. He had also gained something else, his realm had increased by two levels, from a rank one True Saint to a rank three True Saint.

The reason was that there was the same gray airflow in the Heaven-cleaving Mystic Realm. The gray airflow entered his body and made his divine power increase rapidly.

The gray fog that was moving toward him along the light beam was obviously of the same nature as the gray airflow in the Heaven-cleaving Mystic Realm, but it was purer and denser than the gray airflow in the Heaven-cleaving Mystic Realm.

Buzz, buzz, buzz. A large amount of gray fog swept toward Jian Wushuang, whether he wanted to or not. It rushed directly into his body.

Jian Wushuang immediately felt that his divine power was increasing at an astonishing speed.

The speed of improvement was much faster than when he ate the divine power fruit. In just a moment, he felt that his divine power had reached the high level of the rank seven True Saint from the initial stage of the rank seven True Saint.

“It’s too fast. This speed of improvement is too fast. At this rate, it won’t be long before I reach the peak of a rank seven True Saint. Then, I’ll continue to improve and reach the limit of a True Saint!” Jian Wushuang’s eyes were shining.

Through the complete Eternal Heavenly Dao, they could master the principles in a short period of time. Then, through the gray fog, they could accumulate their divine power to the limit, master the principles, and have abundant divine power, the two requirements for breaking through the Principles Master were met at the same time, which led to 99 out of 100 experts who entered the Blood Wave Temple breaking through to become Principles Masters.

“Senior Blood Wave is really incredible. He actually created a complete Eternal Heavenly Dao. With this complete Eternal Heavenly Dao, doesn’t he create as many Principles Masters as he wants?” Jian Wushuang could not help thinking, but soon he shook his head slightly.

He had guessed that the formation of the complete Eternal Heavenly Dao would not be so easy, and it would probably be limited. Otherwise, the Blood Wave Realm would not only open once every 100,000 years.

But in any case, the opportunities in the Blood Wave Temple were indeed incredible.

The nine people on the other nine high platforms around Jian Wushuang were also overjoyed when they saw the magic contained in the complete Heavenly Dao!

“Haha, with the help of this light ball, I’ll definitely be able to master a complete set of principles within a month and become a Principles Master with ease!”

“So this is the opportunity in the Blood Wave Realm. It’s amazing!”

“With the help of the complete Heavenly Dao, I’ll be useless if I can’t become a Principles Master!”

Excited voices sounded in their hearts.

The people on the high platform did not waste any time and immediately began to comprehend their own principles.

Jian Wushuang naturally closed his eyes and began to comprehend the space-time principles with the help of the complete Heavenly Dao in front of him.

With the help of the complete Heavenly Dao, Jian Wushuang’s path of comprehending the space-time principles no longer had any obstacles. He had clearly understood what he had been puzzled about before. As time passed...his comprehension of the space-time principles became higher and higher.

On the 16th day, he had completely comprehended the space-time principles.

### **Chapter 3282: He Could Not Make a Breakthrough**

— —

“Space-time, this is the real space-time!” Jian Wushuang’s eyes sparkled with a trace of joy.

Now, he was clear about the space-time principles and no longer had any doubts. At this moment, he could grasp all the power of the space-time principles that existed between heaven and earth.

This kind of complete mastery was completely different from before when he had only comprehended part of it.

For example, no matter how high his comprehension of the space-time principles was, the power of the space-time principles that he could use could only be a part of heaven and earth, at most between 40% to 50%.

But after completely grasping the space-time principles, the space-time principles that he could use suddenly reached 100%, which was undoubtedly a huge change.

“However, although I have completely mastered the space-time principles, it doesn’t mean that I have reached the limit in the space-time field. After all, I have also mastered the space-time principles, but if different people use it, the strength they will display will be different,” Jian Wushuang thought.

After completely mastering the space-time principles, the next step of the space-time Dao was to improve the method of using the space-time principles.

Do not underestimate this method of use. To many Principles Masters, the use of the power of principles was an important factor that represented their combat strength.

For example, in the Temporal Temple, many Principles Masters had already comprehended the principles of time and space, but their strength was still strong and weak. For someone as strong as the Temporal Temple Master, his use of the principles of time and space had already reached the peak, his strength looked down on the entire Divine Beginning Realm. Even the three high and mighty Saint Realm Masters were better than the enemy when facing the space-time Hall Master.

As for the weaker ones, like the ordinary Principles Masters, their use of the space-time principles was very shallow, so their combat strength was not much stronger.

Of course, for Principles Masters, the true decisive difference in strength was still the power of will.

Every Principles Master in the Divine Beginning Realm had at least one part of the power of will. This power of will could come from several aspects, but the most important part was the comprehension of the principles.

As long as he had fully comprehended the principles, the Principles Master could have one more part of the power of will. Now that Jian Wushuang had fully comprehended the power of the space-time principles, he had mastered the space-time principles, naturally, he had an additional will power of the space-time principles. This will power was a space-time mark that directly entered Jian Wushuang’s glabella and merged into his mind.

Jian Wushuang could also clearly sense the additional strange power in his mind.

He guided this strange power as he pleased.

“Will power, is this the complete will power?” Jian Wushuang exerted strength with both hands, and the strange power in his mind was instantly activated.

Buzz, buzz, buzz. He felt that the void in which he was standing was trembling crazily.

“It’s too strong, this will power is really too strong!” Jian Wushuang was extremely excited.

He had swallowed divine power before, so he had temporarily obtained some of the power of the will. The power of the will contained in the divine power was only a small part of it.

Even so, it still made his strength soar.

But now, he had comprehended the complete principles and mastered a portion of the power of the will.

The power of his will was much stronger than before.

“No wonder the Immortal Saint can’t compete with the Principles Master in the Divine Beginning Realm. No Immortal Saint can make up for the power of his will alone. Even for me...although I have a perfect life level and an incredible innate advantage, I’m at the top of the Immortal Saint Realm. At most, I can match the Principles Master in the power of my divine power, but I can’t make up for the difference in the power of my will,” Jian Wushuang murmured.

The power of will was granted by the principles of heaven and earth, so it was extraordinary.

“I have comprehended the space-time principles and gained a portion of the power of will with the help of the complete Heavenly Dao for more than ten days. During this time, my divine power has reached the peak of the Immortal Saint. I should be able to directly attack the Principles Master and make a breakthrough easily, but why do I feel like I can’t make a breakthrough at all?” Jian Wushuang suddenly frowned.

If it were an ordinary cultivator, he would have already met all the conditions for a breakthrough. If he chose to make a breakthrough, he would be able to become a Principles Master.

Unfortunately, Jian Wushuang was not an ordinary cultivator.

“I can’t make a breakthrough. Even if I have met all the conditions for a breakthrough, I still can’t make a breakthrough. I don’t even need to try.” Jian Wushuang shook his head secretly, but he was not surprised.

He had already guessed it when he was talking to Xue Bo.

There were all kinds of special life forms in the world. Although they had a huge innate advantage, they were greatly suppressed by the restrictions of the world.

The reason why he could not make a breakthrough was because of the restrictions of the Heavenly Dao.

For other cultivators, they could make a breakthrough, but he could not.

He needed to be stronger and satisfy more difficult conditions than ordinary cultivators.

“It seems that it’s impossible for me to become a Principles Master in Blood Wave Temple with the help of the opportunities here.” Jian Wushuang smiled helplessly, but then he raised his head again.

“Although I can’t break through to become a Principles Master, the opportunity in front of me is really hard to come by. It’s still very helpful to me. I’ve only used 16 days to completely comprehend the space-time principles. In the next 14 days, I can completely focus on the reincarnation principles. If I can completely comprehend the reincarnation principles in the remaining time, then I can have an additional power of will. In that case, I won’t be any weaker than a real Principles Master.”

Jian Wushuang smiled faintly and soon closed his eyes again. He began to study the Samsara principles wholeheartedly.

Of course, his comprehension of the Samsara principles was much lower than that of the space-time principles. Under such circumstances, it took him 16 days to completely understand the space-time principles. The remaining 14 days...it was obviously impossible for him to completely understand the Samsara principles, but it was enough to greatly improve the Samsara principles.

Time slowly passed, and in the blink of an eye, fourteen days had passed.

In the Blood Wave Temple, the one-month deadline had also arrived..

### **Chapter 3283: Breakthrough After Breakthrough**

---

“Whew, is it over?”

On the high platform, Jian Wushuang slowly opened his eyes. He saw that the light that had been shining on his body had disappeared, and his connection with the ‘light ball’ in front of him was also slowly disappearing. Indeed, it did not take long, this connection had completely disappeared, and Jian Wushuang could no longer sense any mysterious existence from the light ball.

He understood that the one-month deadline had come to an end, and their opportunity in the Blood Wave Temple had ended.

“Sure enough, in just 14 days, it’s impossible for me to comprehend the Samsara principles again. However, in these 14 days, my gains are still not small.” A smile appeared on the corner of Jian Wushuang’s mouth.

During these 14 days, he had been studying the Samsara principles. With the help of the complete Heavenly Dao cycle, his comprehension of the Samsara principles had reached the limit of a saint in just 14 days, he was only one step away from completely grasping it, but that was not the most important thing.

The most important thing was that Jian Wushuang had stepped into a new threshold in these 14 days!

The threshold was the fusion of principles!

The perfect fusion of two different principles!

The complete cycle of Heavenly Dao in front of Jian Wushuang was formed by the perfect fusion of many principles.

Through the complete cycle of Heavenly Dao, he could not only clearly see each principle, but also feel how these principles merged together. Therefore, in these 14 days, he also carefully studied the process of merging these principles. Although he did not merge his space-time and Samsara principles, he had already seen some of the paths.

Although it was just a path, he knew that everything and process started from stepping into the path.

Previously, Jian Wushuang did not even know the path. Even if he wanted to merge the two principles, he could not find any place to start.

But now, it was different. He had already seen the path, and he had barely comprehended some of the next steps. This was definitely a big step for him.

In the future, it would be much easier for him to merge the two principles.

Even now, if he was willing, he could still combine the power of the two principles of space-time and reincarnation at the same time when he attacked.

It was similar to Di Hao's ability to superimpose the two principles, but Di Hao was able to do it. Not only did he have a certain understanding of the fusion of the two principles, but it was also related to the giant axe that he had specially refined.

However, Jian Wushuang did not need it. Now, he could superimpose the two principles with great ease. Although the power of the explosion could not be compared to the fusion of the two principles, it was definitely much easier than Di Hao's, naturally, his power was also much stronger.

"In general, although I did not become a Principles Master in this month, my gains are definitely not lower than that of becoming a Principles Master." Jian Wushuang smiled, he was already very satisfied with his gains in this month. At this time, he looked at the high platforms on the side.

The people on the high platforms had also cut off their connection with the complete Heavenly Dao cycle. However, they did not feel regretful or regretful. On the contrary, their faces were filled with smiles.

Jian Wushuang had gained a lot in the past month, and their gains were certainly not small.

Moreover, when they were able to form a connection with the complete Heavenly Dao cycle, they were trying their best to comprehend and improve their strength, even though they had met the various requirements to become Principles Masters, they did not immediately break through and continued to comprehend. However, now that they had severed their connection with the complete Heavenly Dao cycle, they immediately began to attack the Principles Master.

In just a short moment...boom!

This great galaxy shook violently, and an incomparably vast and tyrannical aura suddenly spread out from one of the high platforms.

As soon as this aura appeared, it immediately attracted the attention of everyone around.

"It's the Light King!"

"Look at this aura, he has broken through to become a Principles Master!"

"Tsk ts, as expected of the number one Light King on the True Saint Rankings. His speed is really fast. Looks like we have to speed up as well!"

Everyone sighed in their hearts, but they were not envious.

Because they could also break through.

Sure enough, not long after the Light King broke through, boom! Boom! Boom! ~ ~

One after another, a strong aura spread out, the Underworld Emperor, Emperor Hao, Kuzun several people also broke through to become a Principles Master.

“Ha-ha, breakthrough, finally breakthrough!”

“Principles Master, I have been waiting for this day for a long time!”

“Principles Master, this is the power of the Principles Master, is really very strong.”

Hearty laughter echoed in the galaxy. Those who had broken through to Principles Master were naturally very happy and had left their respective high platforms.

On the other high platforms, the remaining people were also doing their best to charge at Principles Master.

At this time, Emperor Ming and Di Hao had already come to Jian Wushuang’s side.

“Brother Heavenly Marquis, haven’t you broken through yet?” Emperor Ming looked at Jian Wushuang.

“I’m not like you. It’s not that easy to break through,” Jian Wushuang said with a smile.

Emperor Ming raised his eyebrows and was not surprised. “In that case, you can break through slowly. Di Hao and I will wait for you outside.”

“Okay.” Jian Wushuang nodded.

Not only did Emperor Ming and Di Hao leave, but the others who had broken through to the Principles Master also left one after another.

After all, they had obtained the opportunity and become Principles Masters. It was meaningless for them to stay in the Blood Wave Temple.

Boom! Boom!

The breakthrough still did not end. Han Xin, Silver Wolf, Snow Saint, and the extremely cunning and unknown Invincible Saint also broke through to become Principles Masters.

Han Xin, Snow Saint, and the unknown person did not stay in the galaxy for long. They left immediately after the breakthrough.

As for Silver Wolf, he paused for a moment.

In the center of the galaxy, Silver Wolf looked at Jian Wushuang with a hint of coldness in his eyes.

“Heavenly Sword Marquis hasn’t made the breakthrough yet. If I attack now, can I kill him directly?” Silver Wolf pondered.

He had made the breakthrough to become a Principles Master, so he naturally thought that he was stronger than Jian Wushuang, who had not made the breakthrough. However, he was hesitating whether to attack or not.

It must be known that at the very beginning, the highest level of the three Saint Realms gave the order to kill the Heavenly Sword Marquis at all costs. After discovering that the Heavenly Sword Marquis could

not be killed, he ordered them to find a way to prevent Jian Wushuang from getting the Blood Wave command and becoming the Principles Master. Unfortunately, they did not succeed.

Now, the Silver Wolf sees an opportunity.

#### **Chapter 3284: Had Been Completed**

— —

Jian Wushuang, he definitely wanted to kill him!

Not only himself but also the three Saint Realms behind him.

It should be known that the highest level of the three Saint Realms had given the order to kill Heavenly Sword Marquis at all costs. But when they found that Heavenly Sword Marquis could not be killed, they ordered them to find a way to prevent Jian Wushuang from becoming a Principles Master with the Blood Wave Token. Unfortunately, they did not succeed. But now, Silver Wolf seemed to see an opportunity.

After pondering for a moment, Silver Wolf finally shook his head.

“Forget it. The life-saving ability of Heavenly Sword Marquis is very good. Although I have broken through to become a Principles Master, I’m still not absolutely sure that I can kill him. At most, I can only hinder his breakthrough. But if he really meets the conditions to become a Principles Master, I can only hinder him now. After he leaves the Blood Wave Temple, he can still break through anytime and anywhere!”

“Besides, this is the Blood Wave Temple after all. No one knows what the principles are. If I attack now and make the Master of the Blood Wave Temple angry, I might be the one to suffer.”

With a sigh, Silver Wolf turned around and left.

After Silver Wolf left, Jian Wushuang and Saint Devil Son were the only two people left in the galaxy.

Saint Devil Son was also a special life-form. Although Jian Wushuang guessed that he was only an initial-level life-form, as long as he was a special life-form, he would be restricted, however, the restriction was not as huge as Jian Wushuang’s. Saint Devil Son had already reached the condition of breaking through to become a Principles Master in the past month. However, he needed some time and luck to break through.

As for Jian Wushuang, he could not break through to become a Principles Master now, so he had no intention of breaking through here.

The reason why he chose to stay was because he wanted to master the life divine power here first.

The Life Divine Power was created by the founder of the Temple of life in order to allow special life forms to make more use of their innate advantages.

This divine power was of great use to every special life form, and it was even more useful to perfect life forms like Jian Wushuang.

This divine power was extremely complicated, but fortunately, Blood Wave only gave Jian Wushuang the first volume of this divine power. With Jian Wushuang's talent and comprehension, it was not too difficult for him to master it.

Time passed, and Jian Wushuang continued to pass.

In a flash, another three days passed.

Boom!

A violent rumble suddenly sounded in the galaxy, and the entire galaxy shook violently.

On a high platform in the galaxy, a terrifying aura suddenly spread out.

Three days after the others had left, Saint Devil Son, who was a special life form, finally made a breakthrough.

His breakthrough was obviously much more significant than that of ordinary people. Fortunately, he was in the Blood Wave Realm and not in the Divine Beginning Realm, otherwise, it would have been even more significant.

The breakthrough only lasted for a moment, and then everything began to calm down.

Whoosh!

A figure suddenly rushed out from the high platform and came to the surroundings of the high platform where Jian Wushuang was.

Saint Devil Son, who had become a Principles Master, looked down at Jian Wushuang, who was still motionless with his eyes closed. His expression changed slightly.

"Heavenly Sword Marquis hasn't made a breakthrough. It seems that his life level is slightly higher than mine," Saint Devil Son thought to himself.

He did not know how many levels special life forms could be divided into, but he knew that there were strong and weak life levels. Jian Wushuang's performance in the Blood Wave Realm had been recognized as a special life form, naturally, Saint Devil Son was also curious about Jian Wushuang. He wanted to compete with Jian Wushuang and see who had a higher life level.

But now, he had a rough guess.

The higher the life level, the more difficult it would be to break through from the Immortal Saint to the Principles Master. It took him three days to break through to the Principles Master, but Jian Wushuang had not made any progress, this was enough to explain the problem.

"I hope he's lucky. If he doesn't break through to the Principles Master level in the end, he'll become a joke," Saint Devil Son muttered and left.

After Saint Devil Son left, Jian Wushuang was the only one left in the galaxy.

Two days later, Jian Wushuang finally opened his eyes again.

"The first volume of the Life Divine Power has finally been completed." Jian Wushuang smiled.

Having mastered the life divine power, his appearance and body had not changed at all. However, his understanding of his own life had reached a new level.

“Lord Blood Wave is right. The innate advantages of special life are far from simple on the surface. It’s just that we can’t fully exert these advantages. But now, with the full power of the first volume of the life divine power, I should be able to exert 20% of my innate advantages!”

“An innate advantage of 20%... Let’s try it.” Jian Wushuang’s eyes sparkled. Then, he flipped his palm and the Blood Mountain Sword appeared in his hand.

In this galaxy, Jian Wushuang did not use any secret skill. He just relied on his own strength and swung his sword.

He did not use any sword skill.

Even so, the moment he swung the Blood Mountain Sword, a terrifying sword shadow suddenly took shape.

The terrifying sword shadow cut through the void with an earth-shaking power, leaving an extremely long distance before gradually dissipating.

“This sword attack of mine should not be weaker than an ordinary Principles Master’s attack, right?” Jian Wushuang smiled.

This sword attack of his was just a casual sword attack. He did not use any means, and of course, he did not use any life-force divine power.

He only used his current divine power to execute this sword attack.

But one had to know that during the one month in this galaxy, his divine power had been constantly increasing. Now, his divine power had already reached the limit of a True Saint. In other words, in terms of realm...he was already an Invincible Saint.

As a perfect level life-force, once he reached the Invincible Saint Realm, his innate divine power advantage allowed his divine power to completely rival that of an ordinary Principles Master.

In other words, every move and move of his could unleash the power of the Principles Master’s divine power.

Then, Jian Wushuang began to activate his life divine power.

Buzz, buzz, buzz. Jian Wushuang’s divine body was trembling, and a strong aura of life gradually emerged.

The moment he activated his life divine power, Jian Wushuang clearly sensed that the hidden power in his body had been activated.

Although he had only activated a part of it, it was still enormous.

## **Chapter 3285: Power of Two Wills**

---

Buzz!

Jian Wushuang struck again. It was also an ordinary sword move without any techniques. However, he had only used his own strength to perform the previous sword move, but this sword move...he had used his life divine power to fully display 20% of the innate advantage of his perfect life.

Whoosh! The sword shadow passed by the galaxy in front of him and instantly caused the entire galaxy to tremble crazily. The countless dazzling stars in the galaxy seemed to have lost their light in front of this sword light.

This sword attack was exceptionally eye-catching.

The sword light fell, and the galaxy was finally completely cut open. A large amount of power swept out crazily like a tide. Just the power that spread out...in Jian Wushuang's eyes, it was enough to kill the Invincible Saints easily.

This power was above that of an ordinary Principles Master.

After a long time, the power finally dissipated and the galaxy calmed down. However, Jian Wushuang was still too excited to calm down.

"It's too strong. My sword is too strong. It feels like it's dozens of times stronger than the sword I just used!" Jian Wushuang clenched his hands.

The sword he just used with his divine power was not weaker than an ordinary Principles Master, but dozens of times stronger than that one? What did that mean?

"Under normal circumstances, even if a Principles Master used all the power of his will in his body, he could not increase his attack dozens of times. Now that I've used my life divine power to bring out my innate advantage to a greater extent, the extra power feels like it's comparable to the power of my will!" Jian Wushuang was very excited.

It was very difficult to obtain the power of will.

In addition to completely mastering a principle, only by opening up his own Mystic Realm of heaven and earth or fusing principles could he gain more power of will.

But now, Jian Wushuang was able to gain more power of will just by relying on a special divine power he got from Blood Wave. What a huge advantage was this?

Moreover, Jian Wushuang had already completely mastered the principles, so he already had a portion of the power of will.

"A portion of the power of my will, coupled with the additional power of my life divine ability, is equivalent to one portion of the power of my will. In other words, I now have two portions of the power of my will." Jian Wushuang was stunned.

A rule master with one part of his will power could only be considered an ordinary Principles Master.

If he had two parts of his will power at the same time, he was not considered weak among Principles Masters. However, Jian Wushuang now had two parts of his will power at the same time. In addition to his life level, his basic divine power was no weaker than that of a Principles Master. Even the secret skills he cultivated from the Seven Star Mysterious Sect were extraordinary. In total, he was now...comparable to those Principles Masters who had two wills.

"I still have many trump cards, especially the heaven-cleaving skill created by my master, which can also allow me to display more of my innate advantages. This heaven-cleaving skill is barely comparable to the power of one will. In total, doesn't that mean I have the power of three wills?" Jian Wushuang was shocked, even he himself was shocked by this result.

Not long ago, he was just an Immortal Saint, and he could only avoid meeting the Principles Master. However, in the blink of an eye, he had divine power comparable to the Principles Master, and it was equivalent to having 30% of the power of his will, one had to know that a Principles Master who could have three parts of his will at the same time was definitely a peak existence among the many Principles Masters in the Divine Beginning Realm.

It was a huge improvement from an Immortal Saint to a level that was almost comparable to a top-notch Principles Master.

All of this was largely due to the opportunity in Blood Wave Temple.

Blood Wave Temple was the dream place of countless Immortal Saints. Many of them had broken through to become Principles Masters through Blood Wave Temple.

However, for Jian Wushuang, although he did not break through to become a Principles Master in Blood Wave Temple, his gains were even greater than breaking through to become a Principles Master directly!

Most importantly, he saw Blood Wave, learned about many secret existences, knew about the Life Palace, and also came into contact with the universe!

"My gains are so great. Even if I can't break through to become a Principles Master, I'm satisfied. Now, it's time to leave." Jian Wushuang smiled faintly. He did not miss this galaxy too much, he walked out directly.

...

Outside the Blood Wave Palace, there was a sea of people.

During the month when Jian Wushuang and the others entered the Blood Wave Palace and obtained the opportunity, the many saint experts who had stayed in the Blood Wave Palace did not leave. Instead, they stood there and waited quietly.

After waiting for a full month, finally, people came out of the Blood Wave Palace one after another.

The first one to come out was the Light King!

"The Light King is out!"

"Judging from his aura, he has indeed broken through to become the Principles Master!"

“It’s normal. His strength is publicly recognized as the number one among the Invincible Saints. It’s impossible for him to not break through in the Blood Wave Hall with such strength.”

“When the Light King was a saint, his combat strength was already so strong. Moreover, he had already fused with the two great principles very early on. Now that he has broken through to the Principles Master, it’s very possible for him to directly obtain two portions of the power of will. How strong must his strength be?”

“Who knows? In any case, he is very strong.”

Countless gazes gathered on the Light King who had just walked out of the Blood Wave Hall. Most of these gazes were filled with reverence, but at the same time, there was also hidden envy and jealousy.

The Principles Master was something that everyone yearned for.

But unfortunately, they had already missed the opportunity in the Blood Wave Hall this time.

After the Light King, the others also walked out one after another.

Just as everyone thought, those who entered the Blood Wave Hall alone almost became the Principles Masters after coming out.

The Underworld Emperor, Emperor Hao, Master Ku, and the others, as well as the Invincible Saint who was only lucky enough to get a Blood Wave Token but was relatively average in strength, also directly broke through to become the Principles Masters, even a special life form like the Saint Devil Son also broke through to become the Principles Masters and walked out of the Blood Wave Hall.

Since then, nine out of ten people who had entered Blood Wave Temple had stepped out, and all of them had broken through to Principles Master.

As for the last person, of course, it was Jian Wushuang.

“Nine of them have come out, and all of them have broken through to Principles Master. All that’s left is Heavenly Sword Marquis.”

“Why hasn’t Heavenly Sword Marquis come out yet?”

“I don’t know. It’s probably because of some special reason. After all, he’s also a special life form.. When he breaks through, he still needs to spend some effort.”

### **Chapter 3286: No Breakthrough?**

---

Everyone was not in a hurry and continued to wait outside the Blood Wave Hall.

In the blink of an eye, another three days passed.

Just as everyone was getting impatient from waiting, the doors of the Blood Wave Hall finally opened once again. Following that, a figure slowly walked out of the hall.

“He’s out!”

“He’s finally out!”

The people outside Blood Wave Temple also looked over.

But when they saw this, many people had strange expressions.

Because they had noticed the divine power aura that Jian Wushuang emitted at the first moment.

If this divine power aura was much stronger than Jian Wushuang’s before, it would be much stronger. However, no matter how strong it was, it was only at the limit of True Saint. It was still far from being a Principles Master.

The aura of the Principles Master emitted by the Light King and the others was extremely dazzling. Compared to them, Jian Wushuang’s divine power aura was on a completely different level.

“He didn’t make a breakthrough?”

“It’s still the aura of the True Saint Realm. Heavenly Sword Marquis stayed in the Blood Wave Temple for so long, but he didn’t make a breakthrough?”

“He got the Blood Wave Token and entered the Blood Wave Temple, but he didn’t make a breakthrough to become a Principles Master?”

The crowd was immediately filled with shocked and surprised voices.

Even the people who had entered the Blood Wave Temple with Jian Wushuang and become Principles Masters were surprised.

“He hasn’t broken through?” Light King frowned slightly, as if he had not thought of this.

“The Blood Wave Temple has such an incredible opportunity. Almost anyone who doesn’t look like a saint should be able to break through. Heavenly Sword Marquis is so talented, but he hasn’t broken through. How is this possible?” Master Ku was stunned.

“Huh?” Han Xin’s eyebrows twitched. No one knew what she was thinking.

“As expected, Heavenly Sword Marquis; life level is much higher than mine, and there are more obstacles and difficulties in making a breakthrough. I finally made a breakthrough to become a Principles Master, but it seems that he is still a little lacking.” Only Saint Devil Son was prepared for Jian Wushuang’s result, he was not too surprised.

The people who were on good terms with Jian Wushuang, including Emperor Ming, Di Hao, Tie Ta, and the Temporal Temple, frowned. Emperor Ming and Emperor Hao immediately rushed toward Jian Wushuang.

“Brother Heavenly Marquis, what happened?” Emperor Ming asked.

“What do you mean, what happened?” Jian Wushuang was confused.

“What do you think? Of course it’s about breaking through. How come you haven’t broken through to become a Principles Master?” Emperor Ming said.

He was indeed puzzled. After all, he had entered Blood Wave Temple personally and knew what the opportunity in Blood Wave Temple was.

It was simply an incredible opportunity. With this opportunity, as long as he was not extremely stupid, he would definitely be able to break through to become a Principles Master.

As for Jian Wushuang, he was an incredible genius. It should be easier for such a genius to break through, but he could not accept the result now.

Seeing the expression on Emperor Ming's face, Jian Wushuang smiled and said, "There's nothing to say. If I can't break through, I can't."

Jian Wushuang looked very relaxed, as if he did not care about his failure to break through.

In fact, he did not care at all, because his gains in Blood Wave Temple were already very great.

"Well, you're open-minded." Underworld Emperor rolled his eyes and did not know what to say.

Jian Wushuang smiled and walked forward. Along the way, he noticed many strange gazes around him.

These gazes were indeed strange and good, with some mockery, doubt, and even some gloating.

The first to bear the brunt was naturally Silver Wolf.

"Haha, Heavenly Sword Marquis, I thought you had great abilities, but I didn't expect you to be so useless. In front of such an incredible opportunity in the Blood Wave Temple, as long as you are not stupid enough, you should be able to break through to become a Principles Master with ease, but you actually didn't break through? Haha..."

"Haha, I'm dying of laughter, I'm dying of laughter!"

"Heavenly Marquis Sword, so you're such trash!!"

Silver Wolf laughed without restraint. That laughter reverberated throughout the entire void, allowing everyone present to hear it clearly.

When the surrounding experts heard these words, although they did not say anything on the surface, from the strange smiles on the corners of many people's mouths, they clearly agreed with Silver Wolf's words.

"Previously, Heavenly Sword Marquis said that he is a super genius that is rarely seen in the Divine Beginning Realm for billions of years. But now, it seems that he is only so-so!"

"Indeed, Blood Wave Hall is such a good opportunity. If any one of us could enter, we would have broken through, but he couldn't. He wasted such a good opportunity for nothing!"

"Hmph, what peerless genius? In my opinion, he is more or less a trash!"

"Trash, stupid pig. I don't even know what he's been doing in Blood Wave Temple for so long."

"This Heavenly Sword Marquis is really embarrassing."

Many experts were whispering to each other. Although they lowered their voices so that Jian Wushuang could not hear them, Jian Wushuang could guess what they were talking about just by looking at their expressions.

Jian Wushuang was not annoyed. He did not care about what they thought of him. He just wanted to know how much progress he had made in Blood Wave Temple.

On the other hand, Emperor Ming, who was standing beside Jian Wushuang, could not hold it in any longer.

“A bunch of bastards! Do you want to die?!” Emperor Ming’s cold voice with killing intent suddenly echoed. For a moment, the entire world fell silent.

The experts who were still whispering among themselves also smiled bitterly and did not dare to say anything more.

After all, although Jian Wushuang had not broken through to become a Principles Master, his strength was still enough to make them revere him, not to mention that Emperor Ming and Di Hao were obviously on his side.

However, the Immortal Saints present did not dare to say anything because they were afraid. However, Silver Wolf, who had already broken through to become a Principles Master, did not have any fear.

“What? Underworld Emperor, this Heavenly Sword Marquis is a trash. It’s a fact that he wasted such a good opportunity. Why doesn’t he let others say it?” Silver Wolf sneered.

Before he broke through, Underworld Emperor was stronger than him. He was still a little afraid of Underworld Emperor. However, both of them had already broken through and become the Principles Master. Moreover, both of them had grasped a set of principles and the power of a will, under such circumstances, the two of them were very close. Naturally, the Silver Wolf did not need to be afraid of the Underworld Emperor.

Because no matter what, the Underworld Emperor could not do anything to him.. Among the people present, only the Light King who had fused two principles and a special life-form, the Saint Devil Son, had two wills, had the right to make him fear.

#### **Chapter 3287: Jian Wushuang and Silver Wolf**

---

“Silver Wolf, before you entered the Blood Wave Temple, you didn’t even dare to show your face in front of the Heavenly Sword Marquis for fear of being targeted and killed by him. You’re not as good as the Nine Temples Saintess. Now that you’ve come out of the Blood Wave Temple and saw that the Heavenly Sword Marquis hasn’t broken through to become Principles Masters, you’ve become arrogant?”

“What a joke.” Underworld Emperor looked at Silver Wolf, his face was full of mockery.

Upon hearing Underworld Emperor’s words, Silver Wolf’s face suddenly changed.

Before entering the Blood Wave Temple, not only him, but all the experts of the three Saint Realms in the Blood Wave Realm were extremely afraid of Jian Wushuang. No one dared to show their faces in front of Jian Wushuang.

Even outside the Blood Wave Temple, Silver Wolf had waited until Jian Wushuang had entered the Blood Wave Temple to fight for the last Blood Wave Token. Everyone knew this, but now, Emperor Ming had said it in front of everyone, which made Silver Wolf feel embarrassed.

"Humph, what a joke. Why should I be afraid of him?" Silver Wolf snorted.

"You know very well whether I'm afraid or not." Emperor Ming sneered. He wanted to say something, but Jian Wushuang, who had been standing silently by the side, stopped him with a wave of his hand.

"Silver Wolf," Jian Wushuang opened his mouth and looked over. "Congratulations on breaking through to become a Principles Master."

"Eh?" Silver Wolf was shocked.

He did not expect Jian Wushuang to congratulate him first?

They did not have any friendship, only a great enmity. Such a congratulations would not be good.

Sure enough, Jian Wushuang continued, "It's said that the supreme Principles Master is far more powerful than the Immortal Saint. Now that you've broken through, your strength must be much stronger than before, right?"

"Nonsense. The Principles Master and the Immortal Saint are two completely different levels. Of course, the gap is huge," Silver Wolf said before asking, "Heavenly Sword Marquis, what are you trying to say?"

"Nothing. I'm just curious how much stronger you are now that you've become a Principles Master. That's why I want to fight you head-on," Jian Wushuang said indifferently.

His words were extremely calm. However, as soon as he said that, the entire void instantly quieted down.

Many people looked at Jian Wushuang with astonishment and astonishment.

Although Jian Wushuang was the focus of everyone's attention previously, they only looked at him with surprise and disdain because he had not broken through. But now, they looked at him as if he was...as if they were looking at a fool.

Yes, they were looking at a fool.

After all, although the Immortal Saint was only one step away from the Principles Master, the difference was like the difference between heaven and earth. After all, the power of the Principles Master's will was too strong, it was almost impossible for the Immortal Saint to make up for it.

In the history of the Divine Beginning Realm, there had been countless talented experts, many of whom were enough to shock the world. Similarly, there were also many who were able to cross ranks to challenge the Principles Master, however, they were only at the level of a True Saint. It was impossible for a True Saint to challenge a Principles Master.

At least in the history of the Divine Beginning Realm, there had never been an Immortal Saint who could defeat a Principles Master. It was impossible for him to even fight a Principles Master head-on.

Jian Wushuang knew this, but he still took the initiative to challenge Silver Wolf. Was he not a fool?

“Heavenly Sword Marquis, what did you just say?” Silver Wolf looked at Jian Wushuang with a strange smile.

“Brother Heavenly Marquis.” Emperor Ming and Di Hao also looked over, among them, Emperor Ming said directly, “Brother Heavenly Marquis, you don’t have to pay attention to him. At most, you can let him be proud for a while. If he dares to be presumptuous again, I, Brother Geng Hao, will help you teach him a good lesson.”

Di Hao also nodded slightly.

Apparently, both of them thought that Jian Wushuang was a little impulsive to take the initiative to challenge the Principles Master.

After all, they were both Principles Masters now and knew how powerful the Principles Master was.

However, after hearing the Underworld Emperor’s words, Jian Wushuang just shook his head and smiled. “It doesn’t matter. Since I dare to take the initiative to challenge him, I naturally have a certain degree of confidence. You two just watch in peace.”

Underworld Emperor and Di Hao looked at each other. Although they were still frowning, since Jian Wushuang had said so, they would not stop him. Moreover, they knew how strong Jian Wushuang’s life-saving ability was, after breaking through to Principles Master, Silver Wolf might be able to crush Jian Wushuang, but it was almost impossible to kill him.

Therefore, they could rest assured that Jian Wushuang would make a move.

At this moment, the smile on Silver Wolf’s face grew wider, and a trace of killing intent emerged from the bottom of his heart.

“Heavenly Sword Marquis and the three Saint Realms have been at each other’s throats for a long time. The highest-level officials of the three Saint Realms all want to kill him, but they have been unable to kill him in the Blood Wave Realm, but that was before...”

“Before, the battle strength in the Blood Wave Realm was only at the Saint Realm, so any battle strength above the Principles Master level would be limited. But now, we Principles Masters who have made a breakthrough in the Blood Wave Realm are not limited in strength at all. With my current strength, I have a chance to kill Heavenly Sword Marquis with all my strength.”

“Of course, the premise is that he doesn’t use space-time teleportation and Emperor Ming and Di Hao don’t help him.” Silver Wolf narrowed his eyes.

He believed that he now had the battle strength to kill Jian Wushuang, but he did not want to kill Jian Wushuang in the beginning because Jian Wushuang’s life-saving ability was too strong, in addition, Emperor Geng and Emperor Hao were obviously on Jian Wushuang’s side.

However, it was different now because Jian Wushuang had taken the initiative to challenge him, which gave him a chance to fight Jian Wushuang face-to-face. Moreover, Jian Wushuang would never choose to use space-time teleportation to escape in the beginning, this gave him a perfect opportunity to kill Jian Wushuang.

Although Jian Wushuang's divine power was vast and his chances of success were slim, what if he succeeded?

"Although I'm one of the top geniuses in the Life and Death Saint Realm and have reached the Principles Master Realm, I still can't enter the highest level of the Life and Death Saint Realm. However, the highest level of the Life and Death Saint Realm values Heavenly Sword Marquis so much that even the Saint Master has been paying attention to him.. If I can kill Heavenly Sword Marquis again, it will definitely bring me closer to the highest level, and I might even be favored by the Saint Master!" Silver Wolf clenched his hands, at the thought of this, his heart became incomparably excited.

### **Chapter 3288: The Master of Principles, Silver Wolf!**

— —

"Kill him. You must seize this opportunity to kill Heavenly Sword Marquis!" Silver Wolf looked at Jian Wushuang with a fierce look, like a beast ready to come out of its cage. "Heavenly Sword Marquis, you asked for it. If you lose or die in my hands, don't blame me, the Principles Master, for bullying an immortal saint like you!"

"Of course not. So many people here have witnessed me taking the initiative to challenge you. Even if I die in your hands, it's my own fault. It has nothing to do with you," Jian Wushuang said with a smile.

"Well, then let me see where you get the courage to take the initiative to challenge me." Silver Wolf's voice was cold and echoed in the surrounding void. At the same time, the tyrannical aura of the Principles Master Realm on his body also spread out in all directions, also unscrupulously spread out in all directions.

Previously, Silver Wolf's aura had been somewhat restrained, but now that it had completely erupted, the strength of this aura caused the expressions of the surrounding experts to change.

"Too strong, Principles Master. Just this aura alone is enough to make an ordinary Immortal Saint lose the courage to resist!"

"Looks like this Heavenly Sword Marquis is going to be unlucky!"

"Humph, even if he's unlucky, it's his own fault. How dare the Immortal Saint challenge the Principles Master!"

Many experts were whispering among themselves. Of course, they did not think highly of Jian Wushuang. After all, the gap between their levels was obvious. In their opinion, this battle would at least be the result of Jian Wushuang being trampled on.

On the contrary, the experts who had already broken through to the Principles Master now had a change of character.

They were also curious as to why Jian Wushuang dared to challenge Principles Masters as a Saint Realm expert.

The surrounding people had already retreated and made way for a huge battlefield. Jian Wushuang and Silver Wolf stood at the center of the battlefield. Countless gazes were fixed on them, they were all looking forward to the battle between the two of them.

“Heavenly Sword Marquis, don’t think that you can disregard the Principles Master just because you have some talent. Today, I will let you know what a real Principles Master is and how big the gap between the Principles Master and the Immortal Saint is!” Silver Wolf sneered, the aura emitted by his voice became stronger and stronger.

“Cut the crap, let’s fight,” Jian Wushuang said indifferently.

“Kill!” Silver Wolf did not hesitate anymore. He suddenly rushed forward like a shooting star.

A ghostly silver light flashed and suddenly appeared in front of Jian Wushuang like a silver moon. Then, a cold silver spear pierced through the void and stabbed toward Jian Wushuang’s throat.

This spear was incredibly fast, but its power was also terrifying. Just the sound of the spear piercing through the void made the hearts of countless experts palpitate.

This spear had completely surpassed the level of the Immortal Saint. Logically speaking, the Immortal Saint should not be able to block it.

However, in the face of this spear, Jian Wushuang still had a smile on his face. The Blood Mountain Sword behind him had already been unsheathed, and he casually waved his sword.

The sword light flashed and struck the spear tip, and then the power burst out.

Clang!

With a crisp sound, the silver light danced and the sword essence spread out. But then, a silver ghost-like figure directly retreated backward.

He stood firm and revealed the shocked face of Silver Wolf.

“How could it be?” Silver Wolf stared at Jian Wushuang in surprise. “You are just an Immortal Saint, but how could you be so powerful? I used 100% of my strength, but in the face of a head-on collision, I was actually at a disadvantage?”

Silver Wolf indeed felt incredulous.

And when the surrounding spectators saw Silver Wolf’s figure fly backward, they immediately cried out in surprise.

“Silver Wolf was actually repelled? How is this possible?”

“Silver Wolf is a true Principles Master. Logically speaking, his strength should be able to completely crush the Immortal Saint, but in a head-on collision with Heavenly Sword Marquis, he was actually at a disadvantage?”

“Did Silver Wolf just break through and not fully control his strength? Or did he not use his full strength just now?”

“No, Silver Wolf should have used his full strength and used the power of the Principles Master. But if nothing goes wrong, Heavenly Sword Marquis might be stronger in terms of strength. Don’t forget, he is a special life form!”

The experts on the field were discussing.

Silver Wolf stared at Jian Wushuang with cold eyes. “Heavenly Sword Marquis, it seems that I was too careless. Indeed, you’re a special life form, and I’m afraid you’re very strong among special life forms. Before, you just broke through to rank seven True Saint and your strength was already comparable to that of an Invincible Saint. Now, after a month in the Blood Wave Palace, your divine power has greatly increased and you’ve reached the limit of an Immortal Saint. It’s normal for you to be comparable to the Principles Master in terms of strength.”

Hearing Silver Wolf’s words, the surrounding people also came to a sudden realization.

“You’re not stupid.” Jian Wushuang smiled slightly, which was a tacit agreement.

Indeed, as a special life form, his strength was much stronger than that of other cultivators of the same level.

Even for a special life form of the initial level like the Saint Devil Son, as long as he reached the limit of the Immortal Saint, his strength should be close to that of an ordinary Principles Master, Jian Wushuang, on the other hand, was a perfect life form standing at the top, much stronger than an initial stage special life form.

Once he reached the top of the Immortal Saint, he would be comparable to an ordinary Principles Master in terms of the most basic power, or perhaps even stronger.

Because of this, he had just defeated the Silver Wolf with a casual sword strike.

Of course, this was also because the Silver Wolf had yet to use the power of his will.

The Principles Master! The reason why he was far stronger than the Immortal Saint was not because of his basic strength, but because of the power of his will!

“Silver Wolf, I’m going to use the power of my will!!”

The gazes of the surrounding experts were focused on the Silver Wolf, and at this moment, a special power surged out from the Silver Wolf’s body.

This power was the power of will!

Then, Silver Wolf attacked again.

Whoosh!

Silver light flashed, and a cold spear flew through the void, whistling toward Jian Wushuang’s head.

It was also a cold and sharp spear, but with the addition of the power of will, the power of the spear suddenly increased by dozens of times!

Dozens of times? What kind of concept was that?

“This is the power of the complete willpower of the Principles Master!”

“It’s too powerful, too terrifying. It’s much, much stronger than the willpower we barely used after swallowing divine power!”

“This is the true Principles Master!”

The countless experts around also sighed.

### **Chapter 3289: He Was Not a Principles Master, but He Was Better Than a Principles Master!**

---

After using the power of his will, Silver Wolf finally unleashed the true strength of a Principles Master.

The spear, which was whistling and thrusting forward, spun with a monstrous air wave and formed a huge dark vortex, as if it was going to swallow Jian Wushuang completely.

When the dark vortex appeared in front of Jian Wushuang, Jian Wushuang also made a move. He also casually slashed out with his sword. At the same time, Jian Wushuang also used the principles power that he had mastered. Whoosh! The sword light was like ink, and it immediately struck the huge dark vortex.

This time, there was no sound, but the dark vortex had already collapsed. From the large amount of black air flow, a figure retreated in a sorry state.

This person was Silver Wolf again!

It would be understandable if the first time Silver Wolf was pushed back by Jian Wushuang because he did not use the power of his will and the divine power of his Principles Master, but now, Silver Wolf had used the power of his will to fully display his battle strength.

On such a basis, he was still at a disadvantage in a head-on fight with Jian Wushuang. This was unacceptable to everyone present!

“How is this possible?”

“This, this is impossible!”

“The Principles Master can’t defeat an Immortal Saint with his power?”

Many people looked at Jian Wushuang in disbelief.

Silver Wolf was completely dumbfounded.

He stared at Jian Wushuang with his eyes wide open. “You, you have broken through to become the Principles Master?”

"A Principles Master? No, I'm not." Jian Wushuang shook his head.

"Then how could you be so strong? You've clearly mastered a complete set of the power of will!" Silver Wolf said in a low voice.

"What a joke. can only a Principles Master master the power of will? Or can only a Principles Master master a complete set of principles?" Jian Wushuang said with a chuckle.

Silver Wolf was stunned, but he immediately understood, "You have perfectly mastered a principle, and your divine power has clearly reached the limit of the Immortal Saint. You have fulfilled all the requirements for breaking through to become a Principles Master. Is it because you're a special life form that you can't break through?"

The surrounding people immediately understood when they heard this.

That was right. As long as one completely comprehended a principle, one could obtain a portion of the power of will. However, this did not mean that only the Principles Master could grasp the power of will.

There were some extremely special Immortal Saints. Although they grasped the principles, due to various reasons, they were unable to break through and become the Principles Master. However, they could already use this power of will to kill their enemies. However...such people were very rare.

After all, ordinary cultivators could easily break through to become Principles Masters as long as they had comprehended the principles and accumulated their divine power to the limit. If they could break through...no one would choose to stay at the Immortal Saint Realm. Because of this, the experts present had almost forgotten that there was such a special Immortal Saint.

It was not until now that Jian Wushuang revealed his strength that everyone came to a realization.

"It turns out that Heavenly Sword Marquis has mastered the principles and obtained a portion of the power of will!"

"No wonder. I thought it was strange. Even an ordinary Invincible Saint could break through to become a Principles Master after entering the blood wave temple. It should be impossible for an incredible genius like him to fail. It turns out that he has fulfilled all the conditions to break through to a Principles Master. The reason why he can't break through is because of the special life form!"

"Although a special life-form has a huge innate advantage, its limitations are equally shocking. Heavenly Sword Marquis must have a very high life-level, so it must be more difficult for him to break through. It's reasonable that he can't break through!"

"We all understand now. I told you, how could Heavenly Sword Marquis be a waste?"

Voices of discussion rose and fell in the surroundings.

Those who had started to belittle Jian Wushuang when he failed to break through to become a Principles Master had all changed their words.

Obviously, there was a reason why Jian Wushuang could not break through in Blood Wave Temple. It was not because he was not capable, but because of some special relationship.

“As a special life form, Heavenly Sword Marquis is no weaker than Silver Wolf, the Principles Master, in terms of basic strength. He is even stronger. Now he has also mastered the principles and has the power of will. In this way, Silver Wolf, the Principles Master, will have no advantage in front of him. Instead, he will be at a disadvantage. This is interesting!”

“I used to think that the Heavenly Sword Marquis was asking for trouble by challenging the Silver Wolf with the Immortal Saint Realm, but now it seems like that’s not the case!”

“Yes, the difference between the Principles Masters and the Immortal Saint Realm is that the difference in strength is huge, and then the power of will is added. Now that the two advantages have been equalized, the next competition is about their own methods, and in terms of methods, the Heavenly Sword Marquis is obviously stronger!”

“Yes!”

“Although Heavenly Sword Marquis is not a rule master, he is better than a Principles Master!”

Many experts began to guess the outcome of the battle, and most of them were biased toward Jian Wushuang.

It was very normal because the Principles Master was competing with Jian Wushuang in terms of techniques without any advantages. Jian Wushuang’s techniques were very famous. If Silver Wolf could compete with him...he would not have been afraid to show his face in front of Jian Wushuang.

“Damn it, I don’t believe it!”

Silver Wolf’s eyes were red like a furious beast. Divine power surged out of his body, and the power of his will swept out crazily.

Boom! Boom! Boom! Boom! Boom!

A series of monstrous explosions resounded in the void. Silver Wolf and Jian Wushuang had already engaged in a fierce battle.

Both of them displayed astonishing divine power and collided with each other in the void. It was obvious that Jian Wushuang had the upper hand.

Silver Wolf was also trying to figure out a way. He had also used many of his secret skills. Silver Wolf came from the Life and Death Saint Realm, one of the three Saint Realms, and his secret skills were also very powerful, however, Jian Wushuang’s secret skills came from the Ancient Seven Star Mysterious Sect, so they could only be of a higher level than Silver Wolf’s. Therefore, after dozens of exchanges...Silver Wolf was faintly suppressed by Jian Wushuang.

Suddenly, Jian Wushuang stopped moving his hands and his body stopped in the void.

“Silver Wolf, you have already broken through to become a Principles Master. Is that all you have?”

Jian Wushuang’s eyes were cold as he looked down at Silver Wolf with a hint of arrogance.

....

**Chapter 3290: Did He Just Lose?**

--

"How could this be?" Silver Wolf was stunned. He did not react at all after hearing Jian Wushuang's words.

Jian Wushuang continued, "I was looking forward to fighting with you, but you have disappointed me. If your strength is only at this level, then you will lose."

As soon as Jian Wushuang finished his words, he flew out.

He was not fast, so he appeared in front of the Silver Wolf and raised the Blood Mountain Sword in his hand.

With the long sword raised, Jian Wushuang's strength burst out to the extreme, and the power of his will was fully unleashed. At the same time, the life divine power in Jian Wushuang's body began to circulate, the innate advantage in his body was greatly stimulated at this moment.

Once the life divine power was activated, it was equivalent to the power of a will!

Together with the power of Jian Wushuang's own will, it was equivalent to releasing two wills at the same time!

Roar!

A surge of heaven-shaking brutal Qi suddenly swept over, and a faint beast roar was heard in the world.

It was the peerless sword technique, Xi Xiang!

Whoosh!

The sword light slashed down ferociously, and its shocking power caused all the experts present to change their expressions.

Silver Wolf suddenly raised his head, and a trace of shock appeared in his eyes. Then, he raised his spear with all his strength and hurriedly blocked it.

But then...clang!

With a loud sound, the spear in Silver Wolf's hand was slightly changed by the terrifying power, while Jian Wushuang's sword light continued to strike Silver Wolf's divine body.

"Puff!"

Silver Wolf threw his head back and spat out a mouthful of blood. His aura was greatly weakened, and his body was sent flying in a sorry state. It took him a long time to regain his balance.

After he regained his balance, his face was pale.

The surrounding crowd was silent.

Everyone became quiet. The whole world was silent!

In this silence, there were countless shocked and shocked gazes.

They were all focused on Jian Wushuang.

“He, he lost?”

A trembling voice suddenly sounded in the crowd. The next moment, the whole crowd exploded.

“He lost, Silver Wolf lost!”

“A Principles Master actually lost to the Immortal saint?”

“Oh my God, am I dreaming? How is this possible!?”

“I also feel that this isn’t real!”

All the experts present could not accept this scene, even though it was the truth.

One had to know that since ancient times, Principles Masters had always been high and mighty. The Immortal Saint could not compare to them at all.

In the Divine Beginning Realm, for a long time, no one had ever heard of anyone who could challenge a Principles Master at the level of an Immortal Saint. They could not even fight head-on, let alone defeat him.

Because of this, many experts in the Divine Beginning Realm had come to a conclusion that the Immortal Saint could not challenge the Principles Master.

However, this scene was beyond their understanding.

Jian Wushuang and silver wolf, one was obviously the Immortal Saint, and the other was the real Principles Master. They fought in front of countless people, but Silver Wolf was defeated! Moreover, he was crushed by Jian Wushuang!

“Heavenly Sword Marquis!”

Light King, who was wearing a black robe, stood in the void nearby with his arms crossed. His long and narrow eyes were staring at Jian Wushuang with a strange light, “The power of his sword just now doesn’t seem to be weaker than mine, which could release two parts of my will at the same time. And he defeated Silver Wolf easily without using his strongest trump card...haha, how interesting.”

“I thought that since we have broken through to become Principles Masters, we are no longer comparable to Heavenly Sword Marquis. But now it seems that we were wrong. Even if Heavenly Sword Marquis is not a Principles Master, his strength is no weaker than ours.” Saint Devil Son also thought to himself.

“The Immortal Saint crossed ranks to challenge the Principles Master and won. This should be the first time in the history of the Divine Beginning Realm. Heavenly Sword Marquis should also be called the number one genius in the history of the Divine Beginning Realm.” Master Ku Sighed quietly.

Han Xin and Snow Saint were also secretly amazed.

Silver Wolf was stronger than them before they broke through. Now that they had broken through to the Principles Master, Silver Wolf should be slightly stronger than them. But in the end, even Silver Wolf was defeated by Jian Wushuang.

This caused a huge wave in their hearts.

In the vast void, Jian Wushuang had already put away his Blood Mountain Sword. He looked at Silver Wolf coldly and said, "The Principles Master is nothing!"

It was a simple sentence, but it was like a huge slap on Silver Wolf's face.

Silver Wolf's face instantly turned the color of a pig's liver. His body trembled crazily, and the anger in his heart soared to the sky, but he could not flare up at all.

As for those who had already broken through to become Principles Master, they frowned when they heard Jian Wushuang's words, but they did not say anything.

If Jian Wushuang, an Immortal Saint, had dared to say that Principles Masters were nothing, he would have been laughed at by countless people. But now, he had defeated a Principles Master in front of everyone, he was qualified to say these words.

"Silver Wolf, you should be glad that I did not break through to become a Principles Master in Blood Wave Temple. Otherwise...you would have died!" Jian Wushuang looked at Silver Wolf coldly, looking down on him.

After all, Silver Wolf had broken through to become a Principles Master. Although he was not as strong as Jian Wushuang, it was very difficult or impossible for Jian Wushuang to kill him.

Even if he relied on his own assassination techniques, it would not work.

After all, his shadowless escape technique was just at the beginning, and he had only mastered the first move of the blood drop sword technique. If he was given more time, he would be able to understand more about the shadowless escape technique, if his swordsmanship improved again, he might really be able to keep Silver Wolf with his assassination skills.

Jian Wushuang's words were casual, but in Silver Wolf's ears, they were like knives. He gritted his teeth and took a deep look at Jian Wushuang. Without saying another word, he turned around and retreated to the edge of the void.

Obviously, he knew how humiliating it was for a Principles Master to be defeated by an Immortal Saint in front of so many people.

Now, the surrounding experts looked at him as if he was a joke. Of course, he did not want to stay here any longer.

....
