

## Swordsman 3291

### Chapter 3291: Inescapable Net

— —

“Haha, Brother Heavenly Marquis!”

Emperor Ming, Di Hao, and the others were already walking toward Jian Wushuang.

“Brother Heavenly Marquis, you’re amazing!” Emperor Ming could not help but exclaim, “It has never happened in the history of the Divine Beginning Realm that an Immortal Saint defeated a Principles Master head-on. To put it bluntly, Brother Heavenly Marquis, you can be said to be the number one Immortal Saint in the Divine Beginning Realm since ancient times. I’ve never heard of an Immortal Saint who is stronger than you!”

“Yes, it’s incredible that the Immortal Saint defeated the Principles Master. No wonder you dared to challenge the Silver Wolf. It turns out that you have such great strength,” Di Hao added.

Jian Wushuang just smiled faintly.

To him, defeating the Silver Wolf was nothing.

His basic strength was not weaker than the Principles Master, and it was even slightly stronger. Once he used his life divine power, it was equivalent to having two parts of the power of will, of course, it was much stronger than Silver Wolf, who only had one part of the power of will.

If he used his strongest trump card, the Heaven-cleaving skill, the burst of power was equivalent to three parts of the power of will, and Silver Wolf would not be able to withstand it.

“By the way, Brother Heavenly Marquis, why do I feel like you have two parts of the power of will when you defeated Silver Wolf in the end? Could it be that you have comprehended two principles at the same time in the Blood Wave Temple and have mastered two parts of the power of will?” Underworld Emperor suddenly asked.

“No.” Jian Wushuang shook his head. “It’s difficult to comprehend one principle, let alone two. The reason why I can exert two parts of the power of will is because of some special reasons.”

Jian Wushuang did not explain too much.

Of course, he would not spread the news about the life palace and the life divine power.

Underworld Emperor raised his eyebrows and did not ask any further questions.

After the battle between Jian Wushuang and Silver Wolf, the surrounding experts immediately changed their opinion of Jian Wushuang.

Then, they began to wait for the exit of the Blood Wave Realm. During this time, some people would look at Jian Wushuang from time to time, but Jian Wushuang did not pay attention to them.

In a corner of the void, Silver Wolf had already joined the people from the life and death saint realm, but at this moment, his face was extremely ugly.

“Heavenly Sword Marquis! Damn Heavenly Sword Marquis!”

Silver Wolf’s body trembled. He had never hated Jian Wushuang before.

Since ancient times, there had never been a Principles Master who was defeated by the Immortal Saint, but he was the first. He would undoubtedly become a disgrace among Principles Masters in the future, all the Principles Masters in the Divine Beginning Realm would probably laugh at him. Not only in this era, but even after a long time, he would probably become a joke among the Principles Masters.

After a long time, his mood gradually calmed down.

“I didn’t expect that although this Heavenly Sword Marquis didn’t break through to become a Principles Master, his strength is actually so tyrannical. I’ve miscalculated. However, there will always be gains and losses. Although I was defeated by him, I’ve already tested out his current strength. At the very least, I’ll be more prepared when the three upper echelons of the Saint Realm make a move!” Silver Wolf’s eyes were cold, in the next moment, he took out his token and began to transmit the message.

...

The Grand Palace was filled with a faint chaotic aura.

In the center of this chaotic aura, three figures slowly gathered together.

Although the three figures could not be seen under the influence of the aura, the aura they emitted was abnormally powerful and ancient.

“Sky Nether, are you ready to destroy the Saint Realm?” A long voice rang out. It was a female voice.

“Of course I’m ready. As soon as Heavenly Sword Marquis comes out of the Blood Wave Realm, my men will immediately make a move and not give him any chance to escape,” said Sky Nether Master.

“That’s good. This time, the three Saint Realms have joined hands to set up an inescapable net in order to kill Heavenly Sword Marquis. In this inescapable net, your move to destroy the Saint Realm is the most important part. If this part fails, our plan will fail,” said the last person with a hoarse voice.

“Don’t worry. Although there are a total of ten entrances to the Blood Wave Realm, there is only one exit. It is on the Saha Island. This time, I have made ample preparations to destroy the holy region. I can ensure that the ring will not fail,” Sky Nether Master said, “Right now, I am not worried about whether Heavenly Sword Marquis will have a chance to escape. I am worried about the Temporal Temple!”

“This time, the three Saint Realms have gone through so much trouble to kill Heavenly Sword Marquis in the Blood Wave Realm, but we haven’t killed him yet. The Temporal Temple should be extremely vigilant. In addition, although the three Saint Realms have been secretly setting up this encirclement, with the Temporal Temple’s intelligence techniques, we might be able to detect some clues. If the Temporal Temple is prepared, it won’t be so easy for us to succeed.”

“Humph, so what if we are on guard?”

“Even if the Temporal Temple had guessed that the three Saint Realms would attack Heavenly Sword Marquis, they would never have thought that we would pay so much attention to him this time. They would not be able to stop us with just their current forces. By the time they realize what is going on, we would have already succeeded!” The hoarse voice said.

“That’s true. The three Saint Realms went through a lot of trouble to kill Heavenly Sword Marquis. If he managed to escape, he must be very lucky,” the female voice said.

“Oh, there’s one more thing. It just came from the Blood Wave Realm. Although Heavenly Sword Marquis didn’t become a Principles Master with the help of the opportunities in the Blood Wave Palace, his combat strength is above that of an ordinary Principles Master. Silver Wolf of the Life and Death Saint Realm has already broken through to become a Principles Master. However, he was defeated in a head-on fight with Heavenly Sword Marquis. He was defeated badly. If I’m not mistaken, Heavenly Sword Marquis has the combat strength of a Principles Master, and he’s not weak among them,” the hoarse voice said.

“The Immortal Saint can actually defeat the Principles Master? This Heavenly Sword Marquis is truly terrifying, but it is precisely because of this that he deserves to die!” Sky Nether Master’s voice was icy cold.

“Yes, we have already given him too many opportunities to grow. If we allow him to continue growing, I’m afraid that it won’t be long before our three great Saint Realms are completely unable to do anything to him. Therefore, this time, no matter what, no matter what price we have to pay, we must kill him. Even if we have to completely lose all decorum with the Temporal Temple and erupt into a great battle, we will not hesitate!” The hoarse voice was unusually firm.

“Alright, the two of you. It Won’t be long before Heavenly Sword Marquis comes out of the blood wave realm. We should start moving as well.” As he spoke, the three of them slowly disappeared from the palace.

....

## **Chapter 3292: Surging Undercurrent (Part One)**

---

Everything in the Blood Wave Realm had calmed down.

The fight for the Blood Wave Token had long ended, and all the opportunities in the Blood Wave Palace had been obtained. The trip to the Blood Wave Realm had come to an end, many experts present were quietly waiting for the spatial passage to appear.

Jian Wushuang, Emperor Ming, Di Hao, and the others were also waiting quietly.

But at this moment...

“Heavenly Sword Marquis.” A message suddenly came.

Jian Wushuang immediately took out a message token. “Temple Master Bai Xing?”

The person who sent the message was Temple Master Bai Xing.

"Heavenly Sword Marquis, I heard that you defeated Silver Wolf, who had broken through to become a Principles Master, in the Blood Wave Realm?" Temple Master Bai Xing asked first.

"Yes." Jian Wushuang nodded slightly.

"Since ancient times, you are the first person to defeat a Principles Master in the Immortal Saint Realm. You are indeed impressive," Temple Master Bai Xing said.

"You flatter me, Temple Master," Jian Wushuang said humbly.

"Don't be too happy. I'm not sending you a message to compliment you. I'm telling you that the three Saint Realms will continue to make moves against you," Temple Master Bai Xing said.

"Oh?" Jian Wushuang frowned.

"The intelligence department of the Temporal Temple has already detected the high-level experts of the three Saint Realms and secretly dispatched many of them. Although we haven't figured out where they are heading, everyone's attention is focused on the Blood Wave Realm at this time. In addition to what the three Saint Realms did to you in the Blood Wave Realm, even a fool can guess that they are targeting you," Temple Master Bai Xing said.

Jian Wushuang nodded secretly.

Indeed, in the Blood Wave Realm, the three Saint Realms had risked everything to kill him, but they did not succeed. Now that he had obtained the opportunity in the Blood Wave Palace, his strength had soared. This was definitely a greater threat to the three Saint Realms, the three Saint Realms would definitely not let him continue to grow.

"No matter what, I am a member of the Temporal Temple. It's fine if the three Saint Realms attack me in the Blood Wave Realm, but if they attack me in the outside world in front of the Temporal Temple, it would be a total loss of face with the Temporal Temple. It seems that the three Saint Realms would rather fight the Temporal Temple than kill me," Jian Wushuang thought.

"There are quite a number of experts from the three great Saint Realms. My Temporal Temple has only detected a small part of them, but even so, it is already very shocking. That is why I am sending you a message now. When you leave the Blood Wave Realm, you must be careful. After all, there is only one exit to the Blood Wave Realm, and that is the Saha Island. The three great Saint Realms will most likely set up an inescapable net there. Once you leave the Blood Wave Realm, they will use lightning-fast methods to kill you!"

"Yes!" Temple Master Bai Xing's voice was cold.

"Of course, you are a member of the Temporal Temple, so we will do our best to protect you. When we sense the three Saint Realms are making a move, I will gather people as quickly as possible. I will lead them myself. When you come out of the Blood Wave Realm, the experts of the Temporal Temple will come to meet you."

"Thank you, Temple Master." Jian Wushuang thanked him immediately.

"Don't thank me yet. I feel that the three Saint Realms will definitely do something big this time. I can't guarantee that I can protect you, so I can only do my best. You also have to be well prepared."

Fortunately, you have a good life-saving ability. When the two sides really fall out, you have to remember that you have to try your best to survive. Don't worry about anything else." Temple Master Bai Xing said.

"Yes." Jian Wushuang nodded heavily.

After the communication ended, Jian Wushuang opened his eyes and let out a long sigh.

"Brother Heavenly Marquis, what's wrong?" Emperor Ming, Di Hao, and the others looked at each other.

"Temple Master Bai Xing just sent me a message saying that the three Saint Realms will make a move against me on Saha Island. He wants me to be ready," Jian Wushuang said seriously.

"Three Saint Realms?" The expression of the Underworld Emperor changed.

"The three Saint Realms are really persistent!" Qian Hongzi cursed in a low voice.

Since they entered the Temporal Temple, they had been in conflict with the three Saint Realms. Later, the three Saint Realms joined hands to kill Jian Wushuang once, but they did not succeed. But now...the three Saint Realms wanted to attack Jian Wushuang not only in the Blood Wave Realm but also outside the Blood Wave Realm...

"The three Saint Realms and I have been fighting to the death for a long time. I expected the three Saint Realms to treat me like this." Jian Wushuang was not surprised. He pondered for a moment, then he took out another token.

This token was given to him by Blood Wave.

"Master Blood Wave." Jian Wushuang sent a message directly.

"Jian Wushuang, why are you looking for me?" Blood Wave replied quickly.

Hearing Blood Wave's reply, Jian Wushuang could not help but feel happy.

Blood Wave had given him this token to contact his original body when he went to the universe battlefield. Therefore, Jian Wushuang was not sure whether this token could be used to contact Blood Wave's consciousness in the Blood Wave Temple.

But now it seemed that this token could be used to contact Blood Wave's token.

"Master Blood Wave, I want to ask, how long will it take before the exit of the Blood Wave Realm appears?" Jian Wushuang asked.

"An hour," Blood Wave replied.

"So fast?" Jian Wushuang frowned and then asked, "Master Blood Wave, is there a second exit of the Blood Wave Realm?"

In Jian Wushuang's opinion, with his current strength, he did not need to worry about anything in the Blood Wave Realm. However, if he was outside the Blood Wave Realm, it would not be appropriate for him to confront the three Saint Realms directly, therefore, if there was a second exit in the Blood Wave

Realm, he could leave quietly through the second exit, and all the preparations made by the three Saint Realms on the Saha Island would be in vain.

However, Blood Wave replied, "My Blood Wave Realm has long been fixed. There can only be one exit, and the location of the exit has been fixed for a long time. If my original body was here, I could easily change the location of the exit or create more exits. However, I'm only a consciousness now, and I can't change anything."

"Is that so?" Jian Wushuang felt a little regretful.

"Jian Wushuang, you seem to be in some trouble?" Blood Wave asked.

"Yes, I am." Jian Wushuang nodded. "As expected, my enemies in the outside world have set up an inescapable net at the exit of the Blood Wave Realm. Once I appear from the blood wave world, I will be immediately attacked by them."

"I see." Blood Wave understood and paused, then he continued, "The exit of the Blood Wave Realm can not be changed, but there is still a certain connection between the exit of the Blood Wave Realm. After you go out, if you are really attacked by them, I can still give you some help."

"Oh?" Jian Wushuang raised his eyebrows..

### **Chapter 3293: Surging Undercurrent (Part Two)**

---

"Don't be too happy. Don't forget that I'm just a consciousness now. The help I can give you is very limited. As for whether you can escape this crisis, it's up to you," Blood Wave said.

"I see." Jian Wushuang nodded. "Master Blood Wave, can you do me one more favor and make the space passage out of the Blood Wave Realm appear later?"

"That's fine, but the Blood Wave Realm has its own rules. Even I can't change it too much, or the balance here will be completely broken. So I can give you a delay of three days at most," Blood Wave said.

"Three days? That should be enough. Thank you, Master Blood Wave," Jian Wushuang said gratefully.

"Okay," Blood Wave replied and did not say anything else.

At this moment, Jian Wushuang's mind was racing.

"Three days may not be very useful to others, but to me...these short three days are enough for me to be fully prepared. In addition, these three days should be enough for me to master that move!"

Jian Wushuang clenched his hands and looked at the surrounding Underworld Emperor and the others. "Everyone, I need to meditate alone for a while. I hope you can protect me. Don't let anyone disturb me before the spatial passage from the Blood Wave Realm appears."

"No problem." Di Hao nodded.

“Brother Heavenly Marquis, don’t worry about cultivating. With us here, no one will disturb you,” Underworld Emperor added.

Jian Wushuang nodded slightly, then closed his eyes and fell into meditation.

Time slowly passed in the Blood Wave Realm.

The spatial passage that was supposed to leave the Blood Wave Realm would appear in an hour. However, because of Jian Wushuang, the appearance of the spatial passage would be delayed for three days.

During this time, the outside world was already in turmoil.

...

On the vast drill ground of the time-space island.

Whoosh! Whoosh! Whoosh! Whoosh!

Figures appeared one after another. In a short while, more than 30 people had gathered on the drill ground.

Each of them was emitting an extremely powerful aura. Each of these auras had surpassed the Immortal Saint and reached the level of Principles Masters.

More than 30 Principles Masters had gathered in a short time.

At this moment...whoosh! Whoosh!

Two more figures appeared. They were Temple Master Bai Xing and Ba Cang, who had brought Jian Wushuang to the Temporal Temple!

“Is everyone here?” Temple Master Bai Xing looked around coldly.

“Time is too short. Most of the experts of our Temporal Temple are roaming in the universe battlefield or other places. We can’t gather too many of them in such a short time. Most of them just happened to stay on the island. Other than the experts who have to show mercy on the island, most of the Principles Masters who can be mobilized are here. Some of them are not on the space-time island, but they went to the Saha Island as soon as they received the order,” Ba Cang said coldly.

Temple Master Bai Xing’s eyes flickered when he heard this.

The Temporal Temple was one of the three Freedom Alliances in the Divine Beginning Realm. It had always been mysterious and unpredictable.

However, although the Temporal Temple had a deep foundation and powerful means, there were not many true experts. When Jian Wushuang had left his divine seat, he had already learned that the current Temporal Temple had only a small number of experts, there were only about 1,000 of them alive, many of whom were Immortal Saints and only a small number were Principles Masters.

Moreover, because no one dared to provoke the Temporal Temple and there were few conflicts with other forces, let alone wars, most of the experts of the Temporal Temple were wandering outside, very, very few of them actually stayed on the temporal island.

If given some time, the Temporal Temple could naturally summon even more experts, and even invite many experts who did not belong to the Temporal Temple to come and help. But unfortunately, this incident had happened too suddenly...the Temporal Temple had just discovered the movements of the three saint-level experts. Thus, in such a short period of time, they did not summon many experts.

"The three great Saint Realms are spending a lot of money this time. With just the experts we have gathered now, I'm afraid it won't be enough to deal with them," Temple Master Bai Xing said.

"That's right. However, the good news is that our Temporal Temple is led by Master Lin Guang. The ten-man team that has been adventuring in the universe battlefield has arrived at the edge of the Divine Beginning Realm. I've already sent a message to him that they will arrive at the Saha Island as soon as possible. Among Master Lin Guang's ten-man team, besides Master Lin Guang, whose combat power is no less than mine, there are three other top-notch Principles Masters. Once this ten-man team arrives, our combat power will soar!" Ba Cang said.

"Master Lin Guang's team? I hope they can make it in time." Palace Master Bai Xing nodded to himself.

"Other than that, the four who have been staying in the Quiet Moon Abyss have already left." Ba Cang added.

"Oh?" Palace Master Bai Xing's eyes immediately lit up. "Although those four old fellows are members of our Temporal Temple, no one can move them apart from the palace master. Even when I asked them to act, they weren't willing to pay any attention to me. They're actually willing to act this time?"

"I don't know. Perhaps because their opponents are the three great saint-level experts, the four of them have already moved out," Ba Cang said.

"Since these four old fellows have already acted, then even if we are a bit lacking in manpower, we aren't afraid of those three great saint-level experts." Temple Master Bai Xing laughed coldly, then waved his hand. "Follow me and set off. Our target...is the Whirling Island!"

With Palace Master Bai Xing's order, the more than thirty Principles Masters of the Temporal Temple set off toward the Saha Island at their fastest speed.

...

This was the Third Heaven, which was located at the core of the Divine Beginning Realm!

In this Third Heaven, there were many top forces and sects standing. Other than the three great saint realms, there were also the four great divine races and the eight directions heavenly sect. Any of the forces had extremely powerful foundations.

At this moment, within one of the four great divine clans, the Nine-tailed Clan.

There were nearly ten human figures floating in the air.

Sou!

A peerlessly beautiful human figure suddenly rushed out from a towering mountain below and appeared in front of these human figures.

"Third sister, have you seen mother?" A charming young lady dressed in a white robe asked.

"No." The beautiful figure that rushed out from the mountain was a red-robed enchanting woman. Her every move was enough to make people's hearts tremble. She was definitely a natural beauty. "Lord Mother is still in closed-door cultivation. She doesn't want to see us!"

"How can that be? Sixth Sister is dead and has been killed. Lord Mother is still not willing to come out of closed-door cultivation?" The charming white-robed girl said angrily.

"Perhaps Lord Mother's seclusion this time is no small matter. However, it doesn't matter. If Lord mother doesn't come out of seclusion, we will be the ones to take revenge for sixth sister. It's the same!" The red-robed woman's gaze was extremely cold.

....

### **Chapter 3294: Leaving the Blood Wave Realm**

— —

"Mother is in closed-door cultivation. Among us sisters, eldest sister, second sister, and fourth sister have been adventuring in the universe battlefield all year round. Now, in the Divine Beginning Realm, only the two of us can avenge sixth sister," said the charming white-robed girl.

"Let's go. We'll go to the Saha Island and skin Heavenly Sword Marquis alive!" The charming red-robed girl's killing intent soared to the sky.

Soon, led by the red-robed woman and the white-robed charming girl, the experts of the Nine-tail Clan headed directly to the Saha Island.

...

The Blood Wave Realm was still calm.

At this moment, it was already the fourth day since Jian Wushuang and the others came out of the Blood Wave Palace.

Normally, the spatial passage would appear shortly after Jian Wushuang and the others came out of the Blood Wave Palace. But this time, it was obviously delayed.

However, after three days, the spatial passage still appeared.

Buzz, buzz, buzz. A large amount of strange power gathered in the void, and a huge spatial passage appeared in the eyes of all the experts present.

"It's time to leave!"

"Let's go, let's go!"

Countless experts gathered near the Blood Wave Palace stood up and rushed toward the spatial passage.

“Brother Heavenly Marquis.” Underworld Emperor also woke Jian Wushuang up.

“Has the exit passage appeared?” Jian Wushuang raised his head and looked at the huge spatial passage in front of him. “Fortunately, this spatial passage was delayed for three days. During these three days, not only did I have enough time, but I also successfully mastered that move...”

“With my current strength and many trump cards, even if the three Saint Realms want to kill me, it won’t be easy. Moreover, the Temporal Temple will be on my side.” Jian Wushuang’s eyes flashed with a bright light. “Three Saint Realms, as expected, this should be the last time you can attack me. If you succeed, that’s fine. But if you fail and let me escape, it won’t be long before the end of the three Saint Realms!”

“Come!”

“Come!”

Jian Wushuang took a deep breath and stepped into the space passage with Emperor Ming, Di Hao, and the others.

...

This was a vast sea with no name.

In the center of the sea, there was an unremarkable island. But this island had become the center of attention in the Divine Beginning Realm.

This small island was the Saha Island!

There was only one exit from the Blood Wave Realm, and it led to the Saha Island.

At this moment, many experts had gathered on the Saha Island. Most of these experts came from various forces and sects in the Divine Beginning Realm. They were all waiting for the young experts from their own sects, they walked out of the Blood Wave Realm.

Along the way, these experts were chatting casually. The content of their conversation was about the things that happened in the Blood Wave Realm.

“This year’s competition in the Blood Wave Realm is even more intense than the previous ones.”

“Right. This time, many experts died in the competition in the Blood Wave Realm. I heard that even the proud child of heaven from the Nine-tailed Clan died there. The three great Saint Realms are even more miserable.”

“Hehe, the three great Saint Realms should have fallen at the hands of that little fellow called Heavenly Sword Marquis. I have to say, that little fellow is really powerful. He was able to cause such heavy losses to the three great Saint Realms alone. Furthermore, he was able to defeat the Principles Master with his Immortal Saint Realm cultivation. This is unprecedented!”

“Heavenly Sword Marquis is indeed very powerful. However, with the style of the three great Saint Realms, they will definitely not let this matter rest. Look around, have you noticed that not a single expert from the three great Saint Realms has appeared on the Saha Island?”

"It's true. Not only the three great Saint Realms but also the experts from the Temporal Temple. No one has come to the Saha Island yet. What are they trying to do?"

"Who knows? It has nothing to do with us anyway. We'll just watch."

Most of the experts on the Saha Island could see that something was wrong.

After all, the forces of the Divine Beginning Realm had sent experts to this Saha Island to receive their subordinates. However, the Temporal Temple and the three great Saint Realms did not even send a single expert, of course, something was wrong.

Time passed. Finally, a huge spatial passage appeared in the sky above the central region of Saha Island.

This spatial tunnel seemed to be connected to two different dimensions. The moment it appeared, it immediately attracted the attention of all the experts present.

"Are they all about to come out?"

Many experts on the Saha Island raised their heads at the same time and looked at this spatial tunnel.

Soon, people began to pass through this spatial tunnel one after another.

These people were naturally the Immortal Saints who were adventuring in the Blood Wave Realm. After they came out of the spatial tunnel, they immediately found the experts from their sects and hurried over to meet up.

The Light King, the Saint Devil Son, and Master Ku, who had already broken through to become Principles Masters, also walked out of the spatial tunnel one by one.

Sou!

The Saint Devil Son and the Immortal Saints of the Heaven-cleaving Alliance directly came to the front of a black-clothed skinny elder.

This black-clothed skinny elder was a high-level expert of the Heaven-cleaving Alliance.

"How does it feel to break through to become a Principles Master?" The black-clothed skinny elder smiled and glanced at the Saint Devil Son.

"Not bad." The Saint Devil Son smiled. "Unfortunately, the competition within the Blood Wave Realm is too crazy. It wasn't easy for me to obtain a Blood Wave Token for myself, but I wasn't able to obtain a second one. Therefore, I was the only one who broke through to become a Principles Master among the people from the Heaven-cleaving Alliance who entered the Blood Wave Realm."

"It's already not bad to be able to obtain one." The black-robed old man smiled. "Let's go, we'll leave this place first."

"Why are you in such a hurry?" The Saint Devil Son was puzzled.

"It's not that we're in a hurry. Something big will happen here soon. If we stay, we'll inevitably get involved. So we should leave this place first. At the very least, we should leave Saha Island first." The black-robed elder said.

The Saint Devil Son's pupils constricted. He looked around and realized that it was not just the Heaven-cleaving Alliance. The other forces and sects had also left Saha Island as soon as they received their experts from the Blood Wave Realm, Saint Devil Son's heart moved, but he had already reacted.

Without hesitation, Saint Devil Son and the others also left the island.

There were still people coming out from the huge space passage. At this moment, several figures stepped out from the space passage.

Among these people, there were three people in the lead, and the one standing in the middle was Jian Wushuang, who carried a long sword on his back and had a cold face!

....

### **Chapter 3295: Space-Time Imprisonment**

— —

When Jian Wushuang stepped out of the space passage and appeared in the void above Saha Island, the entire Saha Island fell silent at first. Then, countless eyes looked at Jian Wushuang in unison, in an instant, Jian Wushuang became the focus of everyone's attention.

"Heavenly Sword Marquis?"

"Is he Heavenly Sword Marquis?"

"Finally, we meet the Immortal Saint who defeated the Rule Master."

The experts from various sects chatted casually and looked at Jian Wushuang with different eyes.

Some praised him, some were amazed, and some sneered.

When Jian Wushuang appeared, the experts from the three Saint Realms who had been hiding around the island immediately made their moves.

Buzz!

A vast power of time and space suddenly rose and spread out.

The power of time and space spread so fast that it almost covered the entire island the moment it rose.

All the experts on the island sensed the difference in their own space and time.

"This is...space-time imprisonment?"

"It's space-time imprisonment, but it's not just one expert who used this technique."

"Who could it be?"

Many experts looked around, trying to find the person who used space-time imprisonment. However, they could not find any trace of him.

Space-time imprisonment could only be used by experts who had extremely high attainments in the use of space-time.

In the entire Divine Beginning Realm, there were not many people who were qualified to use this move, and any one of them was a top Principles Master.

Now, it was obvious that such an expert had arrived at the Saha Island.

“Space-time imprisonment? Sure enough.” Jian Wushuang narrowed his eyes slightly. He was not surprised to see this scene in the surrounding space-time.

His life-saving ability was very strong, and one of the life-saving methods was the third move of the space-time divine skill, space-time teleportation!

Once he mastered this move, he could go almost anywhere, even though the world was vast. In the Blood Wave Realm, he relied on this move to make the three experts of the Saint Realm unable to do anything to him.

There was only one way to restrict space-time teleportation, and that was to imprison space-time!

Only by using a great method to completely imprison the surrounding space-time could space-time travel not be used.

The three Saint Realms had long known this, so since they were going to make a move this time, they would naturally be well-prepared. They would certainly imprison space-time from the beginning so that he could not use space-time travel to escape.

“According to Temple Master Bai Xing, there are only a dozen or so experts in the Divine Beginning Realm who are qualified to use space-time travel. More than half of them are in the Temporal Temple. I wonder who is using space-time travel now?” Jian Wushuang frowned slightly, he was also looking for the person who had cast the space-time imprisonment, but unfortunately, he did not find anything.

At this moment...

“Master Qingyan, I didn’t expect that the three Saint Realms would invite you here this time. They really put in a lot of effort!” An angry voice sounded, then, a black-clothed elder rushed over from the void outside the Saha Island and appeared beside Jian Wushuang in the blink of an eye.

“Lord Hunyuan.” Jian Wushuang and the people from the Temporal Temple immediately saluted.

It was Hunyuan Master, who had escorted them into the Blood Wave Realm.

However, Hunyuan Master ignored them and looked at the void in the distance, his eyes filled with anger.

“Haha, Hunyuan, you and I haven’t seen each other for many years. I remember the last time we met was in the universe battlefield, but we fought together.” A hearty laughter sounded in the void, a green figure gradually appeared in the void.

This green figure was a middle-aged man with long green hair. He was handsome and unrestrained, and the smile on his face was extremely gentle as if he was chatting with Master Hunyuan.

Seeing this person, the surrounding void immediately let out a wave of exclamations.

“Qingyan Master!”

“It’s actually him!”

“The three great Saint Realms are really generous. Not only is Qingyan Master powerful, but his use of the space-time principles has also reached the peak. However, Qingyan Master has always ignored the fights between the various forces in the Divine Beginning Realm. He only wants to increase his own strength. It’s rumored that someone once paid a huge price to ask him for help, but he didn’t pay any attention to it. But this time, he actually made an exception?”

“It’s not an exception. In my opinion, the three holy realms must have given Master Qingyan a condition that he couldn’t refuse. Regardless of whether Master Qingyan really doesn’t care about the competition between the forces of the Divine Beginning Realm, if there really is a treasure or condition that drives him crazy, he would definitely not refuse.”

The crowd was discussing animatedly.

Master Hunyuan stared at Master Qingyan who appeared, but his face was extremely unsightly.

“Qingyan, you know that you’ve fought alongside me before. This time, can you give me some face and leave?”

“Haha, Primal Chaos, you and I do have some friendship. If it were anything else, since you have stepped in, I would have left without saying anything. But this time, I can’t. The conditions offered by the three great Saint Realms are enough to drive me crazy and make me disregard everything. So, I can only apologize!” Qingyan Master said.

“Hmph, Qingyan, your use of the spacetime principles has indeed reached the peak. But don’t forget that in terms of spacetime, my Temporal Temple is the strongest in the Divine Beginning Realm. So what if you have restricted spacetime?”

“Once the experts of our Temporal Temple arrive, we can completely break your space-time restriction in an instant. Just based on these methods of yours, you want to keep Heavenly Sword Marquis? Isn’t it a little laughable?” Primal Chaos Master said.

“Yes, you’re right.” Qingyan Master nodded slightly. “With just my strength alone, facing the many experts of the Temporal Temple, it’s impossible for me to completely restrict space-time. However, what if I add it in?”

Qingyan Master flipped his wrist, and a purple-gold command flag appeared in his hand.

This purple-gold command flag emitted a dense amount of time and space energy. The density of this time and space energy caused the expressions of everyone present to change.

“This, this is...the painting Sky Golden Flag?” Master Hunyuan stared fiercely.

“Yes, it is the Sky Golden Flag. It is one of the top-tier space-time true treasures in the Divine Beginning Realm, and it has always been a legend.” Master Qingyan smiled. “Legend has it that 80 million years ago, in a secret region of the universe battlefield, four sky golden flags appeared at the same time. One of them was obtained by the Palace Master of your Temporal Temple, but the other three rods drifted

into the void space of the universe, and their whereabouts are unknown. However, no one knows that one of the three sky-painting golden flags was found by the people of the three great Saint Realms many years ago.”

“This time, the three sanctums are asking me to lend them to me for ten million years!”

....-

## **Chapter 3296: Void God!**

— —

“Golden sky painting flag...the three great Saint Realms really have big arms. They even took out the golden sky painting flag. No wonder even you were moved and listened to the orders of the three great Saint Realms.” Master Hunyuan’s expression was dark and cold, he knew about this golden sky painting flag.

Just as Master Qingyan had said, this painting Sky Golden Flag was definitely one of the strongest time and space true treasures in the Divine Beginning Realm. It was very rare. Previously, he had known that the one-stroke painting sky golden flag was a technique used by time and Temporal Palace Master, this painting Sky Golden Flag was a very important treasure even to Temporal Palace Master. To Master Qingyan, it was even more useful.

With the golden sky-painting banner, Master Qingyan’s strength and life-saving ability would be greatly improved. In the next 10 million years, he could go to many places in the universe battlefield that he did not dare to go before. The opportunities and treasures he could get there were far beyond what he could compare with before.

It was because of this that Master Qingyan could not refuse the conditions offered by the three Saint Realms, so he came here to help them kill Jian Wushuang.

“Hunyuan, you and I have fought side by side before. You know my strength very well. I may be able to break the space-time imprisonment that I cast alone. But now, I’m using the space-time imprisonment that I cast with the Golden Painting Sky Flag. Even if it’s your Temporal Temple, no one can break my space-time imprisonment unless your temple master comes personally. This little guy named Heavenly Sword Marquis has absolutely no chance of escaping!

“Master Qingyan!” Master Qingyan’s voice shook the sky.

Hearing this, Master Hunyuan’s face turned extremely ugly.

Jian Wushuang, on the other hand, was quite calm. He looked at Master Qingyan in the void with indifferent eyes. “Master Qingyan, is it? “At most, you can help the three Saint Realms to use space-time imprisonment. But if you want to kill me, the three Saint Realms will have to arrange other experts. But I don’t know how many people from the three Saint Realms have come to kill me. There’s no need to hide anymore. Let’s show up together.”

As soon as Jian Wushuang finished his words, the void on Saha Island suddenly became silent.

However, this silence only lasted for a moment before it was immediately broken by someone.

In the void around Saha Island, waves of extremely powerful aura rose one after another.

“Heavenly Sword Marquis? A little guy at the saint level can still be so calm when facing the three Saint Realms. His boldness is indeed extraordinary.”

“I’ve long heard that Heavenly Sword Marquis is the number one genius of this era in the Divine Beginning Realm. It can even be said that he is the number one person in the Divine Beginning Realm since ancient times. I’ve finally met him today.”

“Hmph, so what if he is a genius? As long as he is targeted by the three great Saint Realms, no matter how talented he is, he will only die.”

Three consecutive voices came from three different directions. Then, from these three directions, many figures rushed over side by side.

There were fifteen people in each of these three directions. When the three directions were added together, there were a total of forty-five people.

Just by looking at the number, it was not considered too many. However, when the many experts within and outside the Saha Island noticed the aura emitted by these forty-five people, their expressions turned into shock and astonishment!

This was because each of the forty-five experts who came from these three directions at the same time emitted an aura that belonged to a Principles Master!

All 45 of them were Principles Masters!

“Oh, my God!”

“All of them are Principles Masters?”

“More than 40 Principles Masters came together?”

“Are you kidding me?”

Everyone was shocked by the generosity of the three Saint Realms.

They had guessed that the three Saint Realms would attack Jian Wushuang, so they would send many experts. However, they did not expect that the three Saint Realms would send so many experts at once.

What did it mean to have 45 Principles Masters?

The experts from the big forces who were Principles Masters were better off, but the Immortal Saints who had just walked out of the Blood Wave Realm were shocked to an unprecedented extent.

For them, Principles Masters were high and mighty, and it was difficult to meet one. But now, 45 Principles Masters had come at the same time, which made them confused.

Moreover, the 45 Principles Masters who had just arrived in the three great Saint Realms were not the kind of Principles Masters who had just grasped a portion of the power of their wills. The auras on their

bodies were all extremely powerful, they were obviously much stronger than the Principles Masters who had just broken through and grasped a portion of the power of their wills.

In other words, these 45 Principles Masters had grasped at least two portions of the power of their wills.

Especially the three people in the lead...

“That’s Sky Nether Master from the Destruction Saint Realm! There’s also Star River Master from the Life and Death Saint Realm, and the last one is the eight treasures master from the Flame Saint Realm!”

“Heavens, it’s actually the three of them!”

“Sky Nether Master’s status in the Destruction Saint Realm is only second to that sacred master. It’s said that he had already reached the peak of the Void fifth stage many years ago. Now that so many years have passed, even if he hasn’t reached the void sixth stage, he’s probably not far from it!”

“Star River Master is even more terrifying. 30 million years ago in the universe battlefield, he once fought with an expert of the sixth level of the void. In the end, he retreated calmly. In terms of strength, he is probably stronger than Sky Nether Master. As for eight treasures master, although he is slightly weaker than Star River Master, he is also an absolute expert at the peak of the fifth level of the Void!”

“In order to kill a puny Heavenly Sword Marquis, three peak level five void realm experts were alarmed?”

Inside and outside the Saha Island, the Principles Masters from the various powers were all trembling in their hearts.

The Immortal Saints present were relatively inexperienced. They did not know what kind of existences the leader of the three was, but they, the Principles Masters, knew!

The peak of the five states of the Void, which was the Realm Sky Nether Master and the other two were at!

In the Divine Beginning Realm, there were different levels of strength between each realm. For example, the Immortal Saints, from False Saint to True Saint rank seven, then to Peak Saint and Invincible Saint, there were almost rank ten.

The Immortal Saints were like this, and the Principles Masters naturally had different levels.

However, there were not that many levels of Principles Masters.

Principles Masters...what did they mean by Principles Masters? They had completely comprehended and grasped the principles, and at the same time, they had the power of will. This was what Principles Masters were like.

However, the title of Principles Master was only spread in the Divine Beginning Realm. And outside the Divine Beginning Realm, in the even more vast universe battlefield, Principles Masters had another title, which was....Void God!

## **Chapter 3297: Sixth Stage Void Realm**

---

Void God could enter the void and walk in the void space of the cosmos.

Because of this, only Principles Masters could enter the cosmos battlefield to explore. Because those below law masters could not walk in the cosmos battlefield, they naturally could not survive.

And Void Gods were divided into six stages of the Void!

This six stage of the Void was mainly decided by the willpower they grasped.

Just like ordinary Void first stage experts, they could only grasp a portion of willpower. Like Underworld Emperor, Vast Emperor, Silver Wolf, and the other Principles Masters who had just broken through, they could only comprehend a single principle and grasp a portion of willpower, hence, they were all at the level of the first level of the Void Realm.

The second level of the Void Realm would be able to grasp two portions of the power of the will. They could comprehend two portions of the power of the will at the same time. They could also open up their own Mystic Realms and obtain a second portion of the power of the will.

For the third level of the Void Realm, under normal circumstances, they would be able to comprehend two portions of the power of the will at the same time and open up their own Mystic Realms.

Among the four realms of the void, there were those who comprehended three principles at the same time and opened their own Mystic Realms. There were also those who comprehended only two principles and opened their own Mystic Realms. However, the two principles that he comprehended had already perfectly fused together, this was because when two principles fused together, one could obtain a portion of the power of the will. This level could already be considered as the peak level among the Principles Masters (Void Gods).

The void five realms, under the premise of comprehending three principles at the same time and opening up their own Mystic Realms, two of the principles would be perfectly fused together. This level was already considered a supreme existence, even in the entire Divine Beginning Realm, there were pitifully few of them. For example, the Sky Serene Master, Star River Master, and eight treasures master that appeared now belonged to this level. There were also the three Palace Masters of the Heaven-cleaving Alliance, two of them also belonged to this level.

After reaching this level, they were already a magnate in the Divine Beginning Realm. They were super experts, and no force or sect dared to look down on them. Even the three great Freedom Alliance and the three great Saint Realms...when facing experts at this level, they would also treat them with caution and not dare to provoke them.

As for the six realms of the void, they were even more amazing. They either comprehended four principles at the same time and fused two of them together, or they comprehended three principles at the same time and perfectly fused all three of them together. No matter which one it was...as long as one had reached this level and grasped a total of six wills, then his battle prowess could be said to be earth-shattering. In the Divine Beginning Realm, he could absolutely walk unhindered.

However, the six states of the void were not something that could be easily achieved. In the entire Divine Beginning Realm, the number of Principles Masters who had reached the six states of the void

could be counted on one's fingers. On the surface, the experts of the six states of the void that the outside world already knew of...Palace Master Bai Xing of the Temporal Temple was one of them. The strongest palace master among the three Palace Masters of the Heaven-cleaving Alliance had also reached the six states of the void.

Of course, the six states of the void only referred to the levels of Principles Masters. However, the true combat strength of a Principles Masters did not only depend on the power of his will, but it also included many other aspects, for example, the absolute art he created, his comprehension of the Dao, his special use of the principles, and so on. If he was strong enough in these aspects, even if he only grasped one part of the power of his will...he could still be compared to a Principles Master who grasped two parts of the power of his will.

Just like Master Qingyan who was currently using the space-time imprisonment. He only grasped four parts of the power of his will and was at the fourth level of the Void Realm. However, his use of the space-time principles was very impressive, therefore, even if he met an ordinary expert of the fifth void realm, he would still be able to tangle with him. Now that he had obtained the Golden sky-painting banner, a space-time supreme treasure, even if he were to face an expert of the fifth void realm, he would probably be able to fight him.

Moreover, the Master Star River, who was at the peak of the fifth void realm, was able to retreat easily from an expert of the sixth void realm. This proved that they were very powerful, but now, just to kill Jian Wushuang, the Immortal Saint, the three Saint Realms had sent three experts at the peak of the five void realms, and more than 40 Principles Masters at the bottom of the two void realms, it was indeed a big deal!

"To kill me, the three Saint Realms sent so many experts. You really think highly of me." Jian Wushuang smiled coldly.

"It's been a long time since the three Saint Realms joined hands, let alone sending so many Principles Masters at once. So, Heavenly Sword Marquis, you can die in peace." The voice of the Sky Nether Master was warm, it made people feel extremely gentle.

"Little guy, you're just an Immortal Saint, so you're not worth the trouble of the three Saint Realms. Unfortunately, you're too special, and your secret is too big, so the three Saint Realms don't dare to be careless. So today, I have to bully the weak." Master Star River in a black robe looked at Jian wushuang, he looked at Jian Wushuang.

"Little guy, I advise you to stop struggling and let us kill you. This way, we can save trouble and you can suffer less." The Eight Treasures Master in a golden robe was a delicate girl, her eyes were shining with a faint golden light and she looked extremely charming.

"Humph, you want to kill Heavenly Sword Marquis? Have you asked my Temporal Temple?" Master Hunyuan suddenly snorted.

As soon as he finished speaking, a large amount of tyrannical auras rose in the void beside him.

Each of these auras was extremely tyrannical. Any one of them was far superior to the Immortal Saint.

Clearly, the auras that erupted at this moment all belonged to the Principles Masters.

“Three Saint Realms, how dare you!”

A low shout echoed in the void like thunder, resounding throughout the entire Saha Island.

At the same time, this low shout contained an extremely terrifying pressure. This pressure was much stronger than anyone present, even Sky Nether Master, Star River Master, and Eight Treasures Master!

After that, a large group of figures rushed over.

“This pressure, it seems that the person from the temporal temple has come personally!” Sky Nether Master looked at the group of people charging over, his expression still indifferent.

“Bai Xing, huh? I’ve dealt with them many years ago. Looks like we’ll have the chance to fight again today.” Star River Master smiled slightly.

“It’s not just Bai Xing who has come personally. Even Ba Cang has come. Even though this Ba Cang hasn’t broken through to the fifth level of the void space for a long time, his battle prowess is indeed extraordinary. Even if I were to face him, I don’t have absolute confidence in winning.” Eight Treasures Master also spoke.

While the three of them were chatting and laughing, the many Principles Masters of the Temporal Temple, under the guidance of Palace Master Bai Xing and Ba Cang, arrived at the Saha Island!

....

## **Chapter 3298: Battle, Begin!**

— —

More than 30 Principles Masters of the Temporal Temple, led by Temple Master Bai Xing and Ba Cang, had already appeared on the Saha Island, standing next to Jian Wushuang.

However, compared to the huge lineup of the three Saint Realms, the Temporal Temple only had about 30 Principles Masters, so there was obviously a gap between them.

“As expected, it’s just as we thought. Because we didn’t have much preparation, the Temporal Temple can’t gather too many experts in a short period of time. Now that they can gather so many, it should be the Temporal Temple’s limit.” Sky Nether Master smiled faintly.

In terms of overall strength, the Temporal Temple, as one of the three great Freedom Alliances, was indeed very powerful. Compared to any other Saint Realm, it was a little stronger. If it were to fight against one great Saint Realm alone...the Temporal Temple would naturally be able to gain the upper hand.

But this time, the Temporal Temple had to fight against the three Saint Realms at the same time. Naturally, it would be difficult.

Just from the experts present, it was obvious that the three Saint Realms were much stronger.

“Bai Xing, long time no see. How have you been?” Star River Master’s gaze was cold as he looked toward Temple Master Bai Xing.

“Star River Master, the three of you Saint Realms have openly attacked the experts under my Temporal Temple. Why? Do you want to start a war with my Temporal Temple?” Temple Master Bai Xing said coldly.

“Start a war?”

“We three Saint Realms don’t have such thoughts. We are here for one purpose, and that is to kill Heavenly Sword Marquis. As long as he is dead, the three Saint Realms will immediately retreat. We will not dare to offend the Temporal Temple again,” Star River Master said.

“Bai Xing, if you are sensible, let us kill Heavenly Sword Marquis. That way, both of us can live in peace,” Sky Nether Master said.

“What a joke.” Palace Master Bai Xing sneered, “You obviously want to kill the people of my Temporal Temple, but you want my Temporal Temple to sit back and do nothing? What do you three Saint Realms regard my Temporal Temple as?”

“If that’s the case, it seems that we can’t come to an agreement,” Star River Master said.

“Since we can’t come to an agreement, let’s just attack directly. We’ll see who’s stronger,” Sky Nether Master said.

“Leave Bai Xing to me. I haven’t fought with her for a long time. I’d like to see if her strength has improved after so many years,” Star River Master said with a smile.

“I’ll deal with Ba Cang. As for the rest, let’s divide them up.” Eight Treasures Master smiled slightly.

“Let’s fight!”

Following Star River Master’s order, 45 rule masters of the three Saint Realms immediately moved.

Powerful auras pressed down on Jian Wushuang and the others.

“Be careful. Don’t fight them head-on. Remember, our goal is to buy time!” Temple Master Bai Xing looked around.

“Yes.” The Principles Masters nodded.

They could see the situation clearly. The three Saint Realms were much stronger than the other two. If they chose to fight them head-on, they would be at a disadvantage. Therefore, they had to find a way to fight them, at the same time, they had to try their best to stall for time while keeping themselves alive.

After all, there were still reinforcements from the Temporal Temple that had not arrived yet.

As long as the ten-man team of Master Lin Guang and the four from the Quiet Moon Abyss arrived on the battlefield, they would not be afraid of the three Saint Realms. Only then would they be able to fight freely.

“Heavenly Sword Marquis.”

Temple Master Bai Xing looked at Jian Wushuang again. “There is a big gap between the formation of the Temporal Temple and the three Saint Realms. In this battle, we can only try our best to stop the experts of the three Saint Realms for you. However, it is inevitable that someone will find an opening to attack you. Although you are an Immortal Saint, your battle strength is not weaker than an ordinary Principles Master. If the Principles Masters of the three Saint Realms really attack you, you have to be careful. If you can’t deal with them, you have to find a way to get closer to the people around you. Do you understand?”

“Understood.” Jian Wushuang nodded slightly.

He also knew that it would be very difficult for the people of the Temporal Temple to stop all the experts of the three Saint Realms. If the three experts of the Saint Realm came to him through the gap, he would have to deal with them, of course, he would have to deal with them himself.

“Everyone, let’s go!”

Temple Master Bai Xing’s voice sank, and a terrifying power burst out from her body, directly suppressing the entire area.

The Principles Masters of the Temporal Temple also erupted with powerful auras as they charged toward the experts from the three great Saint Realms.

The two sides, with a total of 80 Principles Masters, came into direct contact in the Void at the center of Saha Island!

A great battle erupted instantly!

Boom! Boom! Boom! Boom! Boom!

Terrifying explosions rang out in the void at the center. The space above Saha Island began to tremble and shake as if it was about to collapse.

Any one of the Principles Masters possessed a terrifying power that could destroy the heavens and earth, especially the power of their will. Once they used it, it would be even more shocking. Usually, just two Principles Masters fighting head-on...the commotion was shocking.

And now, nearly eighty Principles Masters were directly clashing against each other. What kind of scene was this?

The figure that was crazily shuttling through the void was as fast as a ghost. With a casual movement of his wrist, it was enough to tear the air apart.

Someone used a divine weapon. With a swing of his saber, the world seemed to be split into two.

Someone used his fist to smash downwards, directly piercing through the entire Saha Island, causing the land of the island to be completely stirred up.

Someone relied solely on the might of his will to sweep out in all directions, causing air currents to billow and annihilate everything.

Any one of them was so strong that it was suffocating. And for a total of 80 such super experts, for a moment...

The heavens and earth were collapsing!

All things were silent!

And in the instant that both sides exchanged blows, the Saha Island below had already directly split into pieces.

It was originally just an island, but in an instant, dozens of small pieces of land had been split apart, and some of the land had already sank.

The countless Immortal Saints and a few Principles Masters watching the battle around the island were already stunned by the terrifying battle.

“Too, too terrifying!”

“Principles Masters, a large group of Principles Masters engaged in a chaotic battle!”

“Doomsday, doomsday battle!”

Many of the Immortal Saints who saw this battle let out howls and wails.

This world-destroying battle made them feel as if doomsday had arrived.

This kind of big battle was not something that the Immortal Saints could interfere in. Not to mention the Immortal Saints, even those who had already broken through to Principles Masters after coming out of the Blood Wave Palace felt a little apprehensive when they saw this big battle, they felt a little apprehensive in their hearts.

Although they had already broken through to become Principles Masters, they were only at the ordinary first level of the Void Realm. and among the nearly eighty Principles Masters on the battlefield, the weakest one was at the second level of the Void Realm!

### **Chapter 3299: Earth-Shattering Battle (Part One)**

— —

“This is a true battle between the strong. Compared to this group of Principles Masters, the fierce battle between us saints is like playing house.”

“It’s too terrifying. I feel that anyone in this battle can easily kill us!”

“It’s the first time for me to see a battle between 80 Principles Masters!”

The many experts who were watching the battle around Saha Island were both shocked and excited.

It was rare to see a battle between nearly 80 Principles Masters in the Divine Beginning Realm. Now that they had seen it, they were naturally excited.

The few people who had already broken through to become Principles Masters in Blood Wave Hall were feeling very complicated at this moment.

"This is a true Principles Master. With a single move, he can destroy the world. Even though I am also a Principles Master now, I have only comprehended one principle and grasped a portion of the power of will. Compared to them, I am still too far away." Di Hao clenched his hands tightly, looking at the battlefield in front of him, his eyes flashed with a strange light.

"Among these 80 or so Principles Masters, the weakest one has grasped two portions of the power of will. Most of them have grasped three or even four portions of the power of will. Among us who have just broken through to become Principles Masters, even the strongest Light King is only at the top of this battle. Tsk tsk." Master Ku shook his head, he kept exclaiming in admiration.

"Hehe, Heavenly Sword Marquis, aren't you very strong?"

"An Immortal Saint was defeated by you, but unfortunately, any of the experts sent by the three Saint Realms to kill you are experts in the second realm of the Void Realm. Any one of them is stronger than you. Even if you have the help of experts from the Temporal Temple, you will not be able to escape this disaster. This time, you will die. Let's see how arrogant you can be!" Silver Wolf was also standing nearby, he secretly laughed in his heart.

On the battlefield, the two sides were already engaged in a fierce battle.

The three Saint Realms had an absolute advantage in the number of experts. They constantly wanted to break through the obstacles of the experts of the Temporal Temple so that they could kill Jian Wushuang.

The experts of the Temporal Temple tried their best to stop them as long as they could protect themselves.

The experts of the Temporal Temple were all good at the principles of spacetime. The principles of spacetime were quite powerful in terms of life-preservation and entanglement. Therefore, in a short period of time...none of the experts of the three Saint Realms had come directly to Jian Wushuang.

Jian Wushuang stood in the center of the battlefield, looking at a battlefield in front of him.

That battlefield was where the two strongest experts of the two camps, Temple Master Bai Xing and Star River Master, were fighting.

Temple Master Bai Xing had grown to three meters tall. Her body was filled with monstrous power, blowing up her hair and clothes. Her eyes were suffused with a layer of white light, and a special pattern of a four-pointed star vaguely appeared in them, she wore a pair of crystal gloves on her slender arms. She looked like a goddess of heaven and earth and was not to be violated.

However, Temple Master Bai Xing, who looked like a goddess, was extremely ruthless and brutal in her attacks.

She waved her hands one after another, either directly transforming into a mountain and striking out ferociously, or clenching her fists in anger, or transforming into a palm blade that easily tore through the

void in front of her. Each of her attacks was extremely violent, she did not give her opponent a chance to catch his breath.

Jian Wushuang could sense the existence of three principles from her attacks.

“Space-time, raging fire, and earth...the three principles combine perfectly!” Jian Wushuang’s eyes shone with a fierce light.

However, in the face of Temple Master Bai Xing’s violent attacks, Star River Master had completely turned into boundless darkness. There was a gentle power mixed in the boundless darkness as if it could devour everything in the world, when Palace Master Bai Xing’s attack struck this boundless darkness, it was as though it had struck a ball of cotton. It was soft and soft, and its power had been completely dissipated.

“Haha, Bai Xing, after not seeing you for so many years, your strength doesn’t seem to have improved much?” Star River Master’s hearty laughter reverberated throughout the center of the battlefield.

“Hmph, you might not have improved much either.” Palace Master Bai Xing snorted coldly.

“Oh, is that so?” Star River Master gave a strange smile. In the boundless darkness, a terrifying destructive force suddenly appeared!

This destructive force was completely combined with the boundless darkness and the gentle force from before. In an instant, the boundless darkness became completely different from before.

Hua la la ~ The boundless darkness flowed out like a river. At the same time, streaks of dark air currents formed numerous dark chains that carried three different types of forces and swept toward Temple Master Bai Xing in an instant.

Peng! Peng! Peng! Peng! Peng! ~ ~ ~

In the blink of an eye, Temple Master Bai Xing had clashed with these dark chains more than ten times. However, after these dozen times, Temple Master Bai Xing did not gain the slightest advantage.

“Galaxy, you actually broke through?” Temple Master Bai Xing’s expression was cold as he stared at Star River Master.

“Three million years ago, I was lucky enough to break through.” Star River Master smiled indifferently.

And these words caused a commotion in the surrounding void space.

“Star River Master has actually broken through?”

“He was already an expert at the pinnacle of the fifth level of the void space. Now that he has broken through, he has obviously fused three principles and stepped into the sixth level of the void space. One must know that when he was at the fifth level of the void space, he could easily face the sixth level of the void space. Now that he has broken through again, his strength will definitely be stronger than before!”

“The Star River Master is too terrifying!”

Some experts secretly sighed in admiration.

The Star River Master displayed the strength of the six void realms. He was not at a disadvantage in a head-on fight with Temple Master Bai Xing, and he even began to gain an advantage. In other battlefields, the Temporal Temple was also at a disadvantage, and some were even at a great disadvantage.

Although the three experts of the Saint Realm had not broken through the obstacles of the experts of the Temporal Temple and were now in front of Jian Wushuang, it was obvious that this situation would not last for long.

In the middle of this unprecedented battle, Jian Wushuang was the most relaxed because so far, no experts of the three Saint Realms had come to kill him, however, he had been watching the scene around him.

“Principles Master...once Upon a time, the consciousness avatar of any Principles Master forced me into a corner and almost cost me my life. But today, nearly 80 Principles Masters are fighting because of me!”

“Although I’m just a saint, I don’t want to be completely protected by the experts of the Temporal Temple,” Jian Wushuang murmured. He slowly looked up, and there was an unprecedented gleam in his eyes.

At the same time, with a thought, a golden light directly emerged from his body.

....

### **Chapter 3300: Earth-Shaking Battle (Part Two)**

---

The golden light was extremely dazzling. After emerging from Jian Wushuang’s body, it flew directly into the void above and merged with it.

Buzz! The Heaven and earth suddenly shook, and then an unusually ancient and majestic treasure aura slowly spread down from the void above.

As soon as this aura appeared, it instantly attracted the gazes of everyone present.

It was not just the experts watching the battle outside the Saha Island. The experts from both sides who were fighting fiercely in the void at the center of the Saha Island all raised their heads in unison.

Above them, the sky had completely disappeared, and was replaced by a vast and boundless painting world.

This painting world was beautiful and magnificent, as if it truly existed.

Within this scroll world, there were not only mountains and rivers, but also a total of nine towering continents.

The ancient and majestic aura of treasures emanated from this scroll world. This aura was so powerful that it shook the heavens, and it directly overshadowed all the auras on the battlefield.

One had to know that the time space godly palace and the three great Saint Realms were fighting against nearly 80 Principles Masters from both sides. These Principles Masters had quite a number of true treasures in their hands, and at this moment, these true treasures had already fully exerted their power, among them, there were many domain type true treasures, suppression type true treasures, and so on.

The aura of these true treasures filled every corner of the battlefield, but now, the aura of these true treasures paled in comparison to the aura emanating from the scroll world.

The numerous Principles Masters from the two great camps, who were at the bottom of the scroll world, could not help but shudder.

“What is this?”

“A true treasure? But the aura of this true treasure is way too powerful!”

“A universe true treasure! This is a universe true treasure, and it’s definitely a top-tier universe true treasure!”

Someone exclaimed, and the entire battlefield was filled with huge waves.

There were two types of true treasures.

One type was born in the Divine Beginning Realm, and some were born naturally. There were also some powerful master refiners who made their own true treasures. Although these true treasures were extremely powerful, they had certain limitations.

The other type of true treasure was a universe true treasure!

They were both true treasures, but universe true treasures only appeared in the universe battlefield. They originated from the vast universe and had unimaginable power. Compared to the true treasures born in the Divine Beginning Realm, they were much more powerful.

In the Divine Beginning Realm, many Principles Masters used the first type of true treasure. As for universe true treasures, there were some who had obtained them in the universe battlefield, but they were few in number, and most of them were not of a high level.

For example, the golden banner in Master Qingyan’s hand was also a universe true treasure, and its power was also very impressive. However, the true treasure aura of the golden banner was clearly far from the rich aura of the scroll world above.

“Scroll world, nine ancient continents? This is...the Mountain River Map!”

“It is indeed the Mountain River Map, and it is one of the strongest true treasures of the ancient seven star mysterious sect. I didn’t expect it to be here.”

“This Mountain River Map was taken out by Heavenly Sword Marquis?”

There were also some Principles Masters who had extraordinary knowledge. For example, Sky Nether Master, Star River Master, Eight Treasures Master, and the others were all extremely ancient. They had all participated in the world-ending war countless years ago, they also knew some secrets of the Divine

Beginning Realm. They recognized the scroll world above them at the first moment, and their expressions immediately became solemn.

The ancient Seven Star Mysterious Sect was truly a giant. Even though the Seven Star Mysterious Sect had been destroyed for countless years, they were still filled with fear and respect toward the Seven Star Mysterious Sect.

And now, one of the Seven Star Mysterious Sect's most powerful treasures had appeared here?

Heavenly Sword Marquis, an Immortal Saint who possessed one of the Seven Star Mysterious Sect's most powerful treasures, of course, they understood what this meant.

Not only the three of them, but Temple Master Bai Xing, Ba Cang, and the others also recognized the Mountain River Map.

"One of the most powerful treasures of the Seven Star Mysterious Sect is with this little guy?" Temple Master Bai Xing was shocked.

"No wonder, no wonder the three Saint Realms spared no expense to kill him. It turns out that this little guy has a close relationship with the Seven Star Mysterious Sect. In that case, we can't let them succeed!" Ba Cang's voice was cold.

The appearance of Jian Wushuang's Mountain River Map caused a huge commotion on the battlefield.

At this moment, Jian Wushuang's eyes were filled with a fierce light as he looked at the wonderful scroll world above.

"Old friend, I haven't fought with you for a long time," Jian Wushuang muttered. While chatting and laughing, he had already resonated with the scroll world above.

The Mountain River Map had been Jian Wushuang's most powerful treasure and one of his most powerful trump cards since his last life.

In his last life, when he entered the reincarnation passage, he was separated from the map for a short time. Then, by chance, he reunited with the map in this life, previously, Jian Wushuang had used the map to fight with powerful enemies many times. However, after he broke through to the Immortal Saint Realm, he had never used this treasure again.

It was better that he did not want to use it, but he had too many concerns.

After all, the level of the Mountain River Map was too high. As his strength became stronger and he came into contact with more and more experts, more and more people could see that the Mountain River Map was extraordinary, if he used the Mountain River Map again, it would bring him endless trouble.

Therefore, he would not easily use this treasure unless it was at the last moment.

When he arrived at the third sky, although he had encountered some trouble, it had not truly endangered his life. Thus, he had never used the Mountain River Map before. However, today, under the current situation...he could not care less.

“Old friend, show your power in this world once again.”

“Thousand treasures great world, space-time world!”

Weng!

The power spread out, and the heaven and earth transformed. Large amounts of space-time power filled every corner of the heaven and earth.

Waves of space-time storms appeared one after another.

A brand new world appeared in front of everyone.

The countless experts present, regardless of whether they were comprehending the principles of spacetime or not, were able to sense the boundless power of spacetime in their surroundings at this moment.

This world revered spacetime!

“So rich, so rich in the power of spacetime principles!”

The many experts on the battlefield immediately felt the changes in this world, and they were all greatly shocked. After their shock, the experts of the Temporal Temple camp were all overjoyed, while the experts of the three great Saint Realms...had ugly expressions on their faces.

As soon as the spacetime world appeared, this world only existed in the vast power of spacetime laws. In such an environment, the experts who comprehended the spacetime principles would be able to use more of the spacetime principles, and their battle prowess would naturally be stronger.

As for those experts who had not comprehended the spacetime principles....
