

## Swordsman 3331

### Chapter 3331: External Threats

— —

Jian Wushuang had already fallen silent.

Although he did not know the origin and process of the battle, he had long known the outcome of the battle.

In that battle, the Seven Star Mysterious Sect was defeated and the entire Seven Star Divine Realm was reduced to ruins. Countless experts fell and fell asleep. Fortunately, at the last moment...his Master Xuan Yi used a heaven-reaching method to completely seal the entire Seven Star Divine Realm. Only then did he preserve the Seven Star Mysterious Sect's inheritance, and at the same time, he created a chance for the Seven Star Mysterious Sect to turn the tables.

And he was also born in the Seven Star Divine Realm that was completely sealed.

"After that battle, the Seven Star Mysterious Sect completely became history, and the three great Divine Realms replaced the position of the Seven Star Mysterious Sect, becoming the new overlord of the Divine Beginning Realm. They even surpassed our three great Freedom Alliance. However, that was also because the few overlords from outside were still in the Divine Beginning Realm."

"Not long after the battle ended, the foreign overlords left. The three Saint Realms did not have real overlords, so they were not as intimidating as before. Therefore, the three Freedom Alliances were on equal footing with the three Saint Realms. To a certain extent, the three Freedom Alliances were stronger than the three Saint Realms," Temporal Temple Master said.

"Is that so?" Jian Wushuang understood.

After his conversation with the Temporal Temple Master, he had learned more about the world-ending war.

However, there were also questions, such as why the power of the will of heaven could not tolerate their existence. Was it simply because of their lives?

Also, why did those foreign rulers come and even brought special treasures that could kill his master, Xuan Yi?

He could not explain these questions, and Temporal Temple Master obviously did not know. He could only wait for his strength to grow in the future and then slowly explore.

"Little guy, you are Xuan Yi's disciple. If I'm not wrong, your life level should be equal to your master's. Aren't you the legendary perfect level life?" Temporal Temple Master looked at Jian Wushuang.

"Senior, do you know about the perfect level life form?" Jian Wushuang asked in surprise.

"Of course. I have been in the universe battlefield for many years, so I have some knowledge. I have heard about the classification of the special life forms, and the perfect level life form is known as the

supreme life form. Even in the vast universe, such a life form is as rare as a phoenix feather or a qilin horn.”

“Under normal circumstances, it is only possible for a perfect level life-form to appear in thousands of chaos worlds. No one in the Divine Beginning Realm had a perfect life-form before your master. It is reasonable for a perfect level life-form to suddenly appear. However, you and your master were obviously born in the Divine Beginning Realm, and they were both perfect level life-forms. This is a little unbelievable.” Temporal Temple Master’s expression was a little strange.

Jian Wushuang’s heart skipped a beat.

His master and he were both at the perfect level of life, and they were both born in the Divine Beginning Realm.

But the difference was that his master had created his perfect level life with great magic power!

Temporal Temple Master would never have thought of this, and Jian Wushuang did not intend to say it out loud. After all, it would be too shocking to say that someone had created a perfect level life.

“Although I don’t know why you can have a perfect-grade life-form, you will inevitably face the same situation as your master. That is...the heavenly axiom will not allow it! This can be seen from the three Saint Realms’ repeated attacks on you and the arrival of the power of the heavenly axiom’s will,” Temporal Temple Master said.

“Yes.” Jian Wushuang nodded solemnly.

“In the previous battle, the three Saint Realms had set up an inescapable net to kill you. Even the three masters of the Saint Realm and the Sorcerer God had personally come to kill you, but they were still unable to kill you. This means that the three Saint Realms’ power alone will not be able to do anything to you, so...” Temporal Temple Master’s expression became solemn.

“Temple Master, are you saying that there will also be a ruler-level expert from the outside world who will come to the Divine Beginning Realm to kill me?” Jian Wushuang asked.

“It’s hard to say, but there is a possibility,” Temporal Temple Master said.

Jian Wushuang’s heart also became heavy.

He knew very well that his current strength was at most at the third realm of the void realm. Even if he used many trump cards, he would only be able to fight against the fourth realm of the void realm. However, if he fought against a Saint Realm Master or even a ruler-level expert...he would not be able to resist at all.

The reason why he was able to fight against the Flame Saint Master and the Sorcerer God in that battle was because he had received the power given to him by Blood Wave. Blood Wave had given him the power at the cost of the collapse of the Blood Wave Realm. After giving him the power once...there was absolutely no way to give him the power a second time. He could only rely on himself.

“Even my master, who was at his peak, could only die in the face of the attacks of several rulers from the outside world. Compared to my master now, I’m definitely not a bit inferior.” Jian Wushuang frowned, he felt tremendous pressure.

“Little guy, don’t be too nervous. First of all, there might not be any masters from the outside world arriving. Second, even if the masters from the outside world know of your existence and want to kill you, it will take them a long time to arrive at the Divine Beginning Realm from their own chaotic world.”

“If I’m not mistaken, it will take at least thousands of years or even tens of thousands of years for the overlords to reach the Divine Beginning Realm. It might even take hundreds of thousands of years for them to arrive. Such a long period of time should be enough for you to do a lot of things,” Temporal Temple Master said with a smile.

Upon hearing this, Jian Wushuang heaved a sigh of relief.

If the overlords from the outside world could reach the Divine Beginning Realm in just a few decades or hundreds of years, there was really nothing he could do.

However, if it was a long time, tens of thousands of years would be a lot of opportunities for him.

Tens of thousands of years was already a long time for Jian Wushuang.

After all, it had only been a thousand years since he was born. In such a short period of time, he had already stood at the peak of the Divine Beginning Realm, and his strength was comparable to a Principles Master of the three void realms if he was given thousands of years or tens of thousands of years, who knew what level he would have reached?

He might even have become a ruler.

Of course, these were all Jian Wushuang’s own expectations. Moreover, he could not be sure when the experts from the outside world would arrive. He did not know what level he could reach at that time, so he could only take one step at a time.

“Little guy, I know that you are very talented in space-time. Not only did you comprehend the space-time divine skill from the space-time gold stone I left behind, but you also integrated my space-time divine skill into your swordsmanship. This is indeed rare,” Temporal Temple Master suddenly said.

Jian Wushuang immediately looked at Temporal Temple Master.

....

## **Chapter 3332: The Temple of Principles**

— —

“Your talent in the space-time principles is so high that I should take you as my disciple under normal circumstances. Unfortunately, I have lived for so many years and seen too many things. I have already given up on taking you as my disciple. Moreover, you are already Xuan Yi’s disciple. Although Xuan Yi is dead, I have no intention of taking him as my disciple,” Temporal Temple Master said.

Jian Wushuang looked calm. He had heard from Temple Master Bai Xing that the Temple Master had already given up on taking him in as a disciple.

He had never expected that the Temple Master would take him in as a disciple.

“However, although I can’t take you in as a disciple, I can give you some guidance on the space-time principles,” Temporal Temple Master said with a smile.

“I’ve carefully checked your current physical condition. If nothing unexpected happens, you won’t be able to condense a trace of divine power within 300 years. In other words, you won’t have much strength during these 300 years, let alone fighting with others. However, these 300 years won’t affect your comprehension of the principles and the application of the principles.

“So, if you’re willing, you can stay by my side for the next 300 years and cultivate in this independent space. What do you think?”

Jian Wushuang was overjoyed when he heard the Temple Master’s words. He nodded without hesitation and said, “Temple Master, I’m willing!”

Of course, Jian Wushuang was willing.

What kind of existence was the temple master?

No one in the Divine Beginning Realm could compare to him in terms of spacetime principles alone. It was extremely difficult for others to come into contact with such a super expert, even some of the higher-ups of the Temporal Temple, people like Temple Master Bai Xing, Ba Cang, and others could not meet the Temporal Temple Master just because they wanted to, let alone stay by his side all the time.

In the Divine Beginning Realm, there were countless experts, but many powerful Principles Masters were also eager to seek guidance from the Temporal Temple Master because the Temporal Temple Master could give them a little guidance on the principles of space and time, it was a great help to these masters of principles, but the Temporal Temple Master could not be bothered to give them any guidance.

If he could cultivate by the Temporal Temple Master’s side, the Temporal Temple Master would not be stingy with his guidance. It would benefit any cultivator who was proficient in the principles of space and time!

It could be said that cultivating by the Temporal Temple Master’s side was a dream opportunity for countless cultivators.

But now, the Temporal Temple Master had given this opportunity to Jian Wushuang.

Jian Wushuang was not stupid. Of course, he knew that this was a rare opportunity, so how could he refuse it.

“Well, in these 300 years, I will arrange your cultivation so that you can make the greatest progress during the 300 years when divine power can not be condensed. After 300 years, when your strength recovers, I will leave the Divine Beginning Realm and continue to explore the universe battlefield. The rest of your journey will be up to you,” Temporal Temple Master said.

“Thank you, Temple Master.” Jian Wushuang thanked him profusely.

“In the past 300 years, besides staying by my side and cultivating according to my arrangements, there are 15 Principles Temples on my island. They should be of great help to you, Bai Xing!” Temporal Temple Master glanced at the void beside him.

“Temple Master.” Temple Master Bai Xing’s figure appeared directly.

“Take this little girl to the Principles Temple,” Temporal Temple Master instructed.

“Yes.” Temple Master Bai Xing nodded respectfully.

Jian Wushuang immediately followed Temple Master Bai Xing.

After walking out of the independent space where Temporal Temple Master lived, Jian Wushuang and Temple Master Bai Xing walked side by side on the Saha Island.

“Little girl...” Temple Master Bai Xing had just opened her mouth, but she immediately stopped. “That’s not right. Although you’re still an Immortal Saint, your real combat strength is stronger than that of an ordinary Principles Master. You’re on the same level as me. It doesn’t seem appropriate for me to call you little girl. I’ll just call you by your name.”

“Heavenly Sword Marquis, what did Temple Master tell you just now?” Temple Master Bai Xing asked curiously.

“Nothing much. He just told me about the difference in strength between a ruler and a Principles Master, as well as some things about the three Saint Realms. In addition, Temple Master wants me to cultivate by his side for the next 300 years,” Jian Wushuang said, he did not mention his master and the Seven Star Mysterious Sect.

“What?” Temple Master Bai Xing was shocked. “Temple Master wants you to cultivate by his side for 300 years?”

“Yes.” Jian Wushuang nodded.

Temple Master Bai Xing immediately praised him, “Heavenly Sword Marquis, I have to say that you’re really lucky. Temple Master had made up his mind many years ago not to accept any more disciples. This time, he didn’t make an exception when he met you, but he asked you to cultivate by his side...”

“Our Temporal Temple has been established for a long time. Although there have been countless experts who are good at spacetime principles, there are probably no more than 20 of them who have received personal guidance from Temple Master. Moreover, Temple Master has only given them some simple guidance once or twice, but there hasn’t been anyone who can cultivate by Temple Master’s side until now!”

“Tut-tut, if you can cultivate with the Temple Master, even if you are the Temple Master’s personal disciple, you won’t get the same treatment. You are really lucky this time.”

“Ah?” Jian Wushuang was stunned at first, but then he nodded slightly.

Indeed, it was really lucky that he could cultivate with the Temple Master for 300 years.

“Temple Master Bai Xing, Temple Master wants me to go to the temple of principles. The temple of principles should be the palace complex that you pointed out to me, right?” Jian Wushuang changed the subject.

Jian Wushuang remembered that when he had just arrived on the Saha Island, Temple Master Bai Xing had brought him to several fortuitous places on the island. However, there was one place that Temple Master Bai Xing pointed out to him but did not bring him in, it was a group of palaces.

According to Temple Master Bai Xing, the threshold of the palaces was extremely high. Even an ordinary Principles Master of the first or second realm of the void realm was not qualified to enter. In order to enter, one usually needed to master more than two rules.

Since the threshold was so high, it was obvious that the palaces were extraordinary.

"You guessed right. The group of palaces that I pointed out to you is where the Principles Temple is located. As for the purpose of the Principles Temple...can't you guess it?" Temple Master Bai Xing looked at Jian Wushuang with interest.

"Of course, the Principles Temple is aimed at the rules, but the threshold is so high. Obviously, it's not only aimed at the space-time principles. If nothing goes wrong, the purpose of the Principles Temple should be to integrate the principles, right?" Jian Wushuang said..

### **Chapter 3333: Affinity Test**

— —

"Smart." Temple Master Bai Xing smiled. "There are a total of sixteen Principles Temples. Apart from the other one which is used for the affinity test, the other fifteen are all for fusing another principle with the spacetime principles. Cultivating in the Principles Temple might not guarantee that you'll be able to fuse these two principles, but at least it's much easier than comprehending them yourself."

"These 15 temples focus on the fusion of principles, including destruction and space-time, life and death and space-time, life and space-time, thunder and space-time, and so on. Heavenly Sword Marquis, I know that apart from the space-time principles, the second principle you have comprehended is the Samsara principles. Among these 15 temples, there is one that combines the Samsara and space-time principles, which you can use."

"The fusion of space-time and reincarnation?" Jian Wushuang's eyes lit up.

The fusion of space-time principles and reincarnation principles were two different principles. When he was in the Blood Wave Temple, he had barely found the key points of the fusion. He had already entered the rudiments of the fusion of the two principles, what he needed next was a lot of time to constantly adapt and study them.

Now, if the Principles Temple that corresponded to space-time and reincarnation was really helpful to the integration of the two principles, it would definitely save him a lot of time.

"Let's go to the Principles Temple now," Jian Wushuang said.

Although there were 15 Principles Temples for the integration of principles, he did not need the other Principles Temples for the time being. Only the Principles Temple that corresponded to space-time and reincarnation was useful to him. It would be of great use to him.

"Don't worry, before you go to the Principles Temple, you have to test your affinity for the principles." Temple Master Bai Xing said.

“Rule affinity?” Jian Wushuang was puzzled.

“There are all kinds of principles between heaven and earth, and I don’t need to explain how useful these principles are to cultivators. Every cultivator has a different affinity with the principles between heaven and earth. This affinity represents whether he has the talent and qualification to comprehend this principle.”

“Take you for example. You have been comprehending the space-time principles and the Samsara principles at a very fast speed and have a very high talent. This means that you have a very high affinity with these two principles. Only in this way can you comprehend these two principles so quickly.

“But if it were other principles, such as you comprehending the life-death principles, the same perception, the same opportunity, and the same time, the achievements you can achieve in the life-death principles might not necessarily be able to achieve your achievements in the space-time principles and the Samsara principles,” Temple Master Bai Xing said.

“I see. The affinity is equivalent to the talent for meditating on various principles. Only when the affinity is high, the speed of meditating on the corresponding principles will be faster.” Jian Wushuang nodded slightly. He could understand what Temple Master Bai Xing meant by affinity, he could understand.

“Yes, the affinity with the principles determines whether you have the qualification and talent to study this principle. You can comprehend the principles of space-time and reincarnation in such a short time, which means that you have a very high affinity with these two principles. If you are an ordinary Immortal Saint, then you don’t need to care about your affinity with the principles of heaven and earth. But you are not ordinary!” Temple Master Bai Xing continued to explain.

“You already have the battle strength of the three realms of void, but you have already grasped the power of will. The strength of the Principles Master depends largely on the power of will. As for the way to obtain the power of will, the most important thing is to grasp more principles or to integrate more principles!”

“You have already grasped one principle, and it won’t be long before you grasp two principles. In the future, you must find a way to grasp the third or even the fourth principle. Naturally, you must now figure out which principles are suitable for you to comprehend so that you can make corresponding preparations in advance.”

Jian Wushuang suddenly understood.

Yes, it was enough for him to master the principles of space-time and reincarnation.

However, once he reached the level of Principles Master, he had to find a way to master more principles. At this time, he had to figure out which principles were suitable for him to comprehend.

“Heavenly Sword Marquis, come with me.” Temple Master Bai Xing led Jian Wushuang to the building complex of the Principles Temple and directly entered the temple at the front.

There were all kinds of air currents in the magnificent temple. These air currents represented the principles of heaven and earth. At a glance, there were at least hundreds of such air currents, Jian Wushuang could immediately sense the existence of the space-time principles and reincarnation principles from these air currents.

“Temple Master Bai Xing, what should I do?” Jian Wushuang asked.

“It’s simple. You just sit here with your legs crossed, close your eyes and try your best to communicate with the surrounding principles power,” Temple Master Bai Xing said.

“I understand.” Jian Wushuang nodded and immediately sat down in the center of the hall according to Temple Master Bai Xing’s instructions, then he closed his eyes and began to communicate with the airflow that represented the principles power.

An hour passed in the blink of an eye.

During this one hour, the air currents in the hall surrounded Jian Wushuang. Among the air currents, a few of them emitted light, some dazzling and some dim.

“Well, you can open your eyes now,” Temple Master Bai Xing said.

Jian Wushuang immediately opened his eyes and saw the airflow that was emitting light.

“These glowing airflow should be the principles power that has a high affinity with me, right?” Jian Wushuang said, because he had noticed the most dazzling airflow among these glowing airflow, it was the airflow that represented the space-time principles.

“Yes, the more dazzling these glows are, the more affinity you have with this principle. Without a doubt, your affinity with the space-time principles is the highest. As for the reincarnation principles, it is slightly inferior to the space-time principles, but its affinity is still very high. In addition, your affinity with the earth principles, the gold principles, and the fate principles is also good. You can find a way to understand these principles in the future!”

“But what surprised me the most was the principles of destruction!”

“Heavenly Sword Marquis, I didn’t expect your talent in the principles of destruction to be so high. It’s not much weaker than yours in the space-time principles,” Temple Master Bai Xing said with a hint of surprise.

Jian Wushuang immediately looked at one of the equally dazzling airflow that was comparable to the airflow of the space-time principles.

That airflow represented the destruction principles!

....

### **Chapter 3334: The Fusion Process**

---

“I didn’t expect my affinity with the destruction principles to be so high.” Jian Wushuang was also surprised.

It was not that he had not been exposed to the destruction principles.

After all, he had met many experts who were good at the destruction principles.

However, even though he had come into contact with the principles of destruction, he had never tried to comprehend it. After all, the principles of spacetime and the principles of reincarnation were enough for him to study, he did not have the time and energy to study other principles.

Because he had never tried, he subconsciously thought that he was not suitable to study the principles of destruction. But in the end...his affinity with the principles of destruction was not weaker than his own principles of spacetime.

"The light is so dazzling, and your affinity with the destruction principles is much higher than your affinity with the Samsara principles. It would be a pity if you don't comprehend the destruction principles," Temple Master Bai Xing said.

"I didn't know that I had the talent to comprehend the destruction principles. Now That I know it, after I have mastered the Samsara principles, the next thing I want to comprehend is the destruction principles," Jian Wushuang said with a smile.

"A cultivator, even a Principles Master, has limited energy. Under normal circumstances, Principles Masters can only choose four rules to comprehend. You have already comprehended two principles. If you want to comprehend the destruction principles as the next principle, you can choose three principles. As for the fourth principles...you have a good affinity with the earth principles, the gold principles, and the fate principles. You can choose one of them to comprehend," Temple Master Bai Xing said.

A Principles Master could only become a ruler if he had comprehended four principles and completely fused them. Therefore, Jian Wushuang had to comprehend four principles as well, now that he had three principles: space-time, reincarnation, and destruction, the only principles left was...

"There's no rush. I'm still far from mastering the Samsara principles and destruction principles, let alone fusing all three principles. I'll consider choosing the fourth principle after I've comprehended and fused all three principles," Jian Wushuang muttered.

"It's up to you. Let's go. I'll take you to the Principles Temple."

Immediately, Temple Master Bai Xing brought Jian Wushuang to the Principles Temple that focused on space-time and reincarnation.

As soon as they entered the Principles Temple, Jian Wushuang immediately sensed the two different principles that filled the entire temple.

These two principles were the space-time principles and the Samsara principles, and both were very strong.

"Heavenly Sword Marquis, you can sit down and slowly feel it with your heart. Soon, you will be able to feel some strange things in this temple," Temple Master Bai Xing said.

Jian Wushuang nodded and sat down cross-legged according to Temple Master Bai Xing's instructions. He began to feel it with his heart. In his senses, the power of two different principles that filled the temple began to slowly merge.

Yes, the reason why the Principles Temple was unique was that there was a process of merging two different principles in the Principles Temple.

What Jian Wushuang saw now was the process of merging the space-time principles and the Samsara principles. From the beginning to the end, the two principles completely merged into one. Jian Wushuang saw it clearly.

“I saw a complete cycle of Heavenly Dao in the Blood Wave Temple, which also included the merging of various principles. Unfortunately, I spent most of my energy on mastering the space-time principles and the Samsara principles. As for the merging of the two principles, although I studied it for a while, it was too short and didn’t involve much. Now...”

“The Principles Temple is purely a fusion process of the two principles of space-time and reincarnation. The fusion process is clearer and more detailed than what I saw in Blood Wave Temple, so it will be more helpful to me.” Jian Wushuang was pleasantly surprised.

He only needed a simple scan to understand how helpful the Principles Temple was to him.

He had already barely taken that step in the fusion of the two principles of spacetime and reincarnation, and could be considered to have entered the rudiments. Under such circumstances, if he could cultivate in the Principles Temple...then his progress in the fusion of the two principles would definitely be huge. It would not be long before he could truly fuse the two principles together.

“Heavenly Sword Marquis, you stay here and meditate. I have something to do, so I’ll leave first. If Temple Master has any instructions, I’ll let you know,” Temple Master Bai Xing said.

“Thank you, Temple Master Bai Xing,” Jian Wushuang thanked him.

Temple Master Bai Xing waved his hand and left quickly. Jian Wushuang was the only one left in the huge Principles Temple.

Jian Wushuang sat cross-legged in the center of the temple. He closed his eyes and began to meditate quietly.

Ten days passed in the blink of an eye.

During these ten days, Jian Wushuang stayed in the Principles Temple. By watching the fusion process of the two principles and studying them, he had improved a lot in the fusion of the two principles of space-time and reincarnation.

However, Jian Wushuang did not stay any longer.

After all, the Principles Temple had always been on Saha Island. As long as he had time, he could cultivate in the Principles Temple. However, the Temple Master did not stay on Saha Island all the time. Now, he had the opportunity to cultivate with the Temple Master, of course, he did not want to miss the 300 years.

In the independent space where the Temple Master lived, Jian Wushuang stood respectfully in an ordinary manor. The Temple Master was holding a kettle in front of him and watering a young sapling that had just sprouted.

Temporal Temple Master was very familiar with both the kettle and the watering. He was very calm, no different from an ordinary person.

Jian Wushuang saw all of this.

“Little guy, guess what I’m doing?” Temporal Temple Master turned to look at Jian Wushuang after watering the sapling.

“Temple Master, you must be planting a tree,” Jian Wushuang replied.

“How long has this tree been growing?” Temporal Temple Master asked again.

“This tree...” Jian Wushuang looked at the sapling carefully.

In his eyes, the sapling was very ordinary and nothing special. It was obviously an ordinary sapling that could be seen everywhere in the world. Jian Wushuang could clearly sense the vitality of the sapling.

“Judging from its vitality, this sapling should have been planted less than ten days ago. If I’m not mistaken, it must have been planted after you returned to the Divine Beginning Realm, Temple Master,” Jian Wushuang answered truthfully.

“Oh, really?” Temporal Temple Master said with a faint smile, “Then take a look at it now.”

After saying that, Temporal Temple Master sprinkled the kettle in his hand on the sapling.

In an instant, the sapling began to change..

### **Chapter 3335: Space-Time Conversion**

---

In the manor, under Jian Wushuang’s gaze, the ordinary little sapling that had just shown its leaves began to grow at an incredible speed. In the blink of an eye, it had turned into a towering tree, and it was still growing, its branches were luxuriant and luxuriant.

Hualala! The trunk extended, and the entire tree was like a huge mushroom vine, covering the entire manor. In the end, it even covered the entire independent space, at this time, the diameter of the tree had already exceeded hundreds of meters. An extremely ancient and ancient aura emanated from the tree.

Jian Wushuang stared at the tree in front of him in astonishment. He could also sense the vitality of the tree and thus determine its age. However, the current age of the tree was definitely more than 10 million years old!

This was an ancient tree that had lived for more than 10 million years!

“How could this be?” Jian Wushuang was extremely shocked.

“It’s simple. This is the original appearance of the sapling. However, in order to make it easier for me to irrigate it and to not attract too much attention, I used time conversion to keep it in the sapling stage,” Temporal Temple Master said.

“Time conversion?” Jian Wushuang was stunned and asked, “What is time conversion?”

"Time conversion is the conversion of two things of different time periods. For example, this tree has lived for tens of millions of years, but after time conversion, it still looks like a sapling. Similarly, after time conversion, a sapling can also turn into an ancient tree that is tens of millions of years old!" The Temporal Temple Master explained.

"The principles of time and space are profound and profound. After mastering the principles of time and space, the next step is to improve the application of the principles of time and space. The first step in the application of the principles of time and space is the conversion of time and space!"

"The conversion of time and space is one of the methods of the conversion of time and space. This conversion can only be used on inanimate objects such as mountains and lands. As for the conversion of time and space to life, that is a higher level method."

"In addition to time conversion, there is also space conversion. This space conversion is even easier to demonstrate. look."

Temporal Temple Master waved his hand. The independent space they were in was originally a manor, but in the blink of an eye, it had turned into a huge plain. The plain was clear and full of vitality.

Temporal Temple Master waved his hand again, and the plain disappeared. In its place was an endless sea.

"This is..." Jian Wushuang's expression changed. From the manor to the plain and then to the sea, everything was within Temporal Temple Master's control.

This method immediately reminded Jian Wushuang of the secret skill of the mountain and river map, the thousand treasures great world.

The thousand treasures great world contained many worlds, and each world had its own characteristics and were different. The thousand treasures great world changed according to Jian Wushuang's will.

"You have the map of mountains and rivers. The world of treasures in the map is actually a kind of world transformation. You should be able to understand the space transformation more easily," Temple Master Bai Xing said.

"Indeed." Jian Wushuang nodded slightly, but he immediately asked in puzzlement, "Temple Master, although the space-time transformation is very strange, it shouldn't be very useful in a fight, whether it's time transformation or space transformation, right?"

"It's not very useful." The Temple Master nodded. "Time-space conversion is only the most rudimentary use of the space-time principles. After mastering the space-time conversion, one can truly step into the threshold of using the space-time principles. As for in a real battle, there is almost no need to use the space-time conversion. However...after you master the space-time conversion, the biggest use is not the space-time conversion, but your use of the space-time principles has reached a new level. The difference is still very big."

Temporal Temple Master smiled and continued, "Little guy, now that you have completely mastered the principles of spacetime, how many principles of spacetime do you think you can use now?"

"All of them, of course. I can use all the power of the principles of spacetime around me," Jian Wushuang said.

"That's right. Since you can use all the power of the principles of spacetime around you, and the power of the principles of spacetime between heaven and earth is endless, why do different people control the power of the principles of spacetime differently?" Temple Master Bai Xing looked at Jian Wushuang with interest.

"This..." Jian Wushuang frowned and said, "This is the different application of the principles of time and space."

"Yes, it is the application. To give a simple example, two people draw water from the same river. One of them draws water from a bowl. He can only draw water back and forth bowl by bowl. How much water can he draw back from the river?"

"The other person is using a bucket to fetch water back and forth. Although it's still insignificant to the river, the amount of water that he can fetch back is far from what the first person can compare to."

"The space-time principles that we know is that river. It's endless, and no matter how you use it, it can be used by you. But the difference is that the tool that we use to fetch water is the use of the space-time principles. Right now, your use of the space-time principles is very shallow, and it's still at the most basic stage. You're just like the person who uses a water bowl to fetch water. The space-time principles that can be used at one time is only a small bowl!"

"As for a master of space-time conversion, he is equivalent to a person who uses a bucket to fetch water. Although he still uses relatively simple tools, a bucket of water is much more than a bowl of water. Therefore, after mastering the space-time conversion, the power of space-time principles that he can use immediately will be greatly enhanced

"Under normal circumstances, when two cultivators who have comprehended the space-time principles use the same space-time techniques, the power of the cultivator who has mastered the space-time transformation is at least ten times stronger than that of the cultivator who has not! This is the difference!"

At this point, the Temple Master finally stopped and looked at Jian Wushuang.

"I understand." Jian Wushuang looked as if he had suddenly realized something. "After mastering the space-time transformation, the technique of the space-time transformation is not important. What is important is that the use of the power of the space-time principles will be much stronger."

"That's right." The Temporal Temple Master smiled.

"Temple Master, according to what you said, the time-space conversion is only a superficial method of using the time-space principles. Then what is it after the time-space conversion?" Jian Wushuang asked curiously.

"The time-space conversion is the first stage of the use of time-space. This stage is very long. More than 99% of the cultivators in the Divine Beginning Realm who are good at time-space stay in this stage. As for the second stage, it is time-space imprisonment!"

....

## Chapter 3336: 300 Years

— —

“Space-time imprisonment?” Jian Wushuang’s expression changed.

He was no stranger to space-time imprisonment. He had mastered space-time teleportation and had a strong life-saving ability. Only by using space-time imprisonment could he defeat him.

The three Saint Realms had been prepared for the battle on Saha Island. They had asked Master Qingyan to use space-time imprisonment from the beginning, not giving him a chance to escape.

“The space-time imprisonment can only be used by experts who use the space-time principles. I heard from Temple Master Bai Xing that there are no more than 20 people in the Divine Beginning Realm who can use the space-time imprisonment,” Jian Wushuang said.

“Yes, the space-time conversion can only be regarded as a shallow use of the space-time principles, but at the level of the space-time imprisonment, the use of the space-time principles is already considered good. Such people are indeed not big in the Divine Beginning Realm, so it’s normal that there are no more than 20 of them.” Temporal Temple Master nodded slightly.

“After mastering the space-time imprisonment, the next step is to master the third stage of the application of the space-time principles, the space-time flow rate!”

“Flow rate?” Jian Wushuang narrowed his eyes. “Is it the same as the space-time tower?”

The time flow rate in the three-story space-time tower was completely different from that in the outside world.

In the first story of the space-time tower, the time flow rate was ten times slower than that in the outside world, and in the second story, it was a hundred times slower. In the third story, the time flow rate was a thousand times slower, which was incredible. The characteristics of the space-time tower...were clearly the same as the spacetime flow that the Temporal Temple Master had mentioned.

“The spacetime tower can be considered as such. However, the spacetime tower only purely changes the flow of time. On the other hand, the real flow of time and space can change together. There are still some differences between the two.” The Temporal Temple Master smiled.

“Actually, in the Divine Beginning Realm, many experts who specialize in the principles of space-time can simply change the flow of time. However, they can only barely change the flow of time in a small area. Not only is the area small, but it can only be maintained for a short period of time. It can not be sustained at all. However, experts who have truly grasped the move of the flow of time and space can turn the flow of time in a piece of space into eternity. They can even refine it into a treasure!”

“Just like the space-time tower, I refined it myself. The flow of time in it is completely stable and can continue.”

Jian Wushuang understood.

“Temple Master, the flow of time and space is only the third stage of the application of the space-time rule. What about the fourth stage?” Jian Wushuang asked curiously.

“The fourth stage...that is a higher level of application. Unfortunately, even I am far from being able to reach that level. Even if I tell you, it is useless. In the Divine Beginning Realm, if you can reach the third stage of the application of the space-time principles and master the flow of time and space, it will be very impressive,” Temple Master said.

Jian Wushuang raised his eyebrows.

Apparently, the Temporal Temple Master was also in the third stage of mastering the flow of time and space. In this way, the Temporal Temple Master was already the one who had the highest understanding of the principles of time and space in the history of the Divine Beginning Realm, however, Jian Wushuang had not even reached the rudiments of the principles of time and space. Even if he knew the fourth stage, it would be useless.

“Little guy, you have been staying here for the past 300 years. I will teach you the use of the space-time principles according to your progress. If you encounter any problems that you don’t understand, you can take the initiative to ask. With your talent in the space-time principles, under my guidance, although you won’t be able to reach the stage of space-time imprisonment in the past 300 years, it shouldn’t be difficult for you to master the space-time transformation.”

“Work hard,” Temporal Temple Master said.

“Yes, thank you, Temple Master.” Jian Wushuang was pleasantly surprised.

From that day on, Jian Wushuang spent most of his time in this independent space. He followed Temporal Temple Master, sometimes watching him plant trees, sometimes meditating on his own, and sometimes asking for advice from Temporal Temple Master, Temporal Temple Master was not stingy with him. Whenever he asked a question, he would guide and answer it in various ways, either directly or indirectly.

Under such circumstances, Jian Wushuang’s application of the principles of space-time had been improving at an alarming rate.

Spring went to the east, and time continued to pass.

Three hundred years was insignificant to the Divine Beginning Realm, which had existed for an unknown number of years. For an ancient existence like Temporal Temple Master, three hundred years passed in a snap of the fingers. He simply planted trees a few times, let alone three hundred years, 30,000 years would pass easily.

However, to Jian Wushuang, these three hundred years were very precious. He did not dare to waste any time during these three hundred years. He had been cultivating wholeheartedly. Now, the three hundred years had finally passed.

He was still in the manor in the independent space. Jian Wushuang sat cross-legged on the empty ground with his eyes slightly closed. The surroundings were calm and peaceful.

At this moment, Jian Wushuang's expression changed. He slowly extended his right arm and opened his palm. There was a faint white light in the center of his palm.

This white light was extremely sharp. It was a sword essence!

Sword essence...this was Jian Wushuang's sword essence condensed from his own sword principle.

At first, it was extremely weak, as if it would be extinguished at any time. But soon, the light of the sword shadow became brighter and more dazzling. The size of the sword essence kept increasing, and in the blink of an eye, it formed a three-foot sword shadow.

After the three-foot sword shadow was formed, it did not stop there. Instead, it continued to enlarge. It was clearly a sword shadow, but it suddenly turned into a sword river in Jian Wushuang's hand and spread out.

The sword river disappeared, and then a towering sword mountain appeared. After that, the sword shadow evolved into various things.

After a long time, the sword shadow disappeared, and Jian Wushuang opened his eyes.

"Temple Master!"

After opening his eyes, Jian Wushuang immediately stood up and bowed respectfully to the figure in front of him.

"Sword essence evolves everything. Have you reached the third realm of sword principle?" Temporal Temple Master looked at Jian Wushuang with interest.

"Yes." Jian Wushuang nodded.

Jian Wushuang had already reached the third realm of sword principle. He had already reached the second realm, boundless sword tree!

His boundless sword skill had already reached the limit of the second stage of sword principle when he was in the Blood Wave Realm. After returning to the time-space island, he had cultivated in this independent space for 300 years, although he focused most of his energy on the application of the space-time principles, the principles were used in conjunction with sword principle. While studying the application of the principles, he also took into account sword principle and swordsmanship.

Therefore, he had also made some progress in the way of the sword.. Now, he had broken through to the third realm of the way of the sword and evolved everything!

### **Chapter 3337: Swordsmanship and Divine Arts**

"The third level of Dao is common among the principles. Most Principles

Masters have reached the third level of Dao. Only a few weaker Principles

Masters are still at the second level. Now that you have reached the third level

of sword principle, if you fight with Principles Masters in the future, you won't

be at a disadvantage.”

“Now that you’ve made a breakthrough in sword principle, how about your swordsmanship? How are the sword techniques you created?” Temporal Temple Master looked at Jian Wushuang.

“The seven sword techniques of the Wushuang sword manual have been improved. Although they are not the best among the unique skills created by the Principles Master, they are not weak,” Jian Wushuang said.

“That’s right.” Temporal Temple Master nodded slightly. “Although your seven sword moves were created when you were weak, this sword move is quite complete. It involves all aspects and can be improved continuously. Moreover, this sword move of yours can be combined with the space-time principles. It’s already very rare that you can use the space-time principles perfectly.”

Jian Wushuang also smiled, then he said, “Temple Master, you asked me to try to integrate the space-time divine skill into these seven sword techniques. I’ve tried my best. Blood Asura has integrated the first move of the space-time divine skill, the heaven-designated skill, and the second move of the space-time divine skill, Canyon, which is part of the unparalleled sword manual I created.”

“Oh?” Temporal Temple Master’s eyes lit up. “Show me what you’ve got.”

Without hesitation, Jian Wushuang waved his sword in the open space of the manor.

Whoosh!

The sword swept across, and a scarlet sword shadow burst out.

The sword shadow was like the setting sun, its red light illuminating the world.

However, the setting sun was obviously incomplete.

The peerless sword technique...the setting sun!

Weng!

The sword shadow swept across the void in front of him, instantly creating a large space ripple. This space ripple was filled with a red light. Following that,

the scarlet sword shadow directly exploded. Rumble...an endless killing power swept out, a huge space-time storm instantly formed.

The second move of the space-time divine art, space-time annihilation!

Under this sword move, the power of space- time annihilation was completely unleashed, and the power was earth-shaking!

When the Temple Master saw this scene, the light in his eyes became even brighter.

When the space-time annihilation completely dissipated, the Temple Master looked at Jian Wushuang again. "Yes, your sword skill is powerful, and the sword skill combines space-time annihilation. The two complement each other and are much stronger than your own pure space-time annihilation. Most importantly, the hidden sword skill of space-time annihilation makes it impossible to guard against."

"When I created this sword skill, I only wanted to integrate space-time storm into it. After mastering space-time annihilation, I wanted to integrate space-time annihilation into this move. Although I spent a lot of effort, I still succeeded," Jian Wushuang said with a smile.

Space-time divine skill was the most powerful divine ability created by the Temporal Temple Master. Now, Jian Wushuang had directly integrated this divine ability into his sword skill, which made the Temple Master praise him greatly.

"It's a pity that I have only successfully integrated time-space annihilation into the first move of setting sun. However, although I have mastered the fourth move of the time-space divine skill, time-space illusion kill, I still can't integrate it into the life and death instant that I created," Jian Wushuang said.

Among the seven sword moves of the Wushuang Sword Manual, the life and death instant was the most terrifying burst of speed in an instant. It was a strike that could kill the opponent without giving the opponent a chance to react.

Not only did this strike need to burst out with terrifying speed, but it also needed to carry a shocking power that could directly kill the opponent.

The fourth move of the space-time divine skill was called 'space-time illusion kill'. Jian Wushuang had mastered this move in the past 300 years, and this move also needed to burst out with terrifying speed to kill the opponent in an instant, it was exactly the same as the instant of life and death, so the two could naturally be combined.

After Jian Wushuang mastered the space-time illusion kill, the Temple Master had reminded him to try to integrate the space-time illusion kill into the instant of life and death. Jian Wushuang did the same, but after all, there was too much time, and it was not effective yet.

"Don't worry, the space-time divine skill is, after all, my painstaking work over the years. Every move is very impressive. If you casually integrate it into your own sword skill, wouldn't it make the divine skill I created too useless?" The Temple Master said with a smile.

Jian Wushuang smiled.

It was true that space-time divine skill was created by Temporal Temple Master himself. It was already amazing that he could integrate two divine abilities into his swordsmanship in such a short period of time. He had just mastered the space-time illusion kill, it was indeed too fast for him to integrate it into his swordsmanship.

"Little guy, it has been 300 years. Your divine power should have recovered to its peak, Temporal Temple Master suddenly asked.

"It has completely recovered." Jian Wushuang nodded.

Because of the backlash of the power given by Blood Wave, he could not condense his divine power during the past 300 years. He had been in a weak state, but after 300 years, he finally began to recover, now, his strength had recovered to its peak.

"After your divine power has recovered, have you sensed any signs of a

breakthrough?” Temporal Temple Master asked again.

“No.” Jian Wushuang hit his head with a bitter smile.

His divine power had long reached the limits of the Immortal Saint, and he had completely mastered the space-time principles. His sword principle had already reached the third realm. If it were an ordinary person, they would have broken through long ago, but he...showed no signs of a breakthrough at all.

“It’s indeed not easy to break through to the Principles Master level at the perfect life-level. As far as I know, your master Xuan Yi took a long time to break through to the Principles Master level. When he finally broke through, he had already fused three principles,” Temporal Temple Master said.

“What?” Jian Wushuang was

His master had fused three principles to become a Principles Master?

Like his master, he was a perfect life-form. Could it be that he had to wait until the three principles were fused before he could break through?

But that was too far away.

“I don’t know the details. You Don’t have to be too impatient. The more impatient you are, the harder it will be for you to break through. Everything will be fine when the time comes,” Temporal Temple Master said.

“I will follow your instructions, Temple Master.” Jian Wushuang nodded repeatedly.

“Well, 300 years have passed. It’s time for me to leave and go to the universe battlefield. But before I leave, there are some things I have to explain to you.”

Temporal Temple Master smiled.

### **Chapter 3338: Inspector**

Translator: EndlessFantasy Translation EndlessFantasy Translation

In the magnificent palace, many high level experts of the Temporal Temple had gathered together.

Although Jian Wushuang was not one of the high-level experts of the Temporal Temple, because of the battle on Saha Island and his explosive

power, he had gained a very high among the of the Temporal Temple. In addition, over the past 300 years, Jian Wushuang had cultivating by the side of the Temple Master. This kind of treatment had never been given to anyone since the creation of the Temporal Temple. It was clear that Jian Wushuang's position in the Temporal Temple Master's heart was very high, therefore, Jian Wushuang also had a place in the temple. The Temporal Temple Master sat on the throne at the top and looked down at the people below.

"I have been adventuring in the universe battlefield all year round. This time, I only came back temporarily. I plan to go to the universe battlefield again soon. and before I leave." Bai Xing," The Temple Master shouted.

"Palace Master." Temple Master Bai Xing immediately stood up.

"When I am adventuring in the universe battlefield, you will still be the acting Temple Master of the Temporal Temple. You will be in charge of all the matters in the Temporal Temple," the Temporal Temple Master said.

"Yes." Temple Master Bai Xing nodded respectfully.

"Ba Cang, you will still be the supervisor of the palace and assist Bai Xing in managing the Temporal Temple," Temporal Temple Master said.

"Yes, master." He accepted the order.

"Phosphorescence..." Temporal Temple Master continued to issue some more appointments, which were basically the same as before.

In the end...

"Heavenly Sword Marquis," Temporal Temple Master suddenly said.

Jian Wushuang was stunned, and the surrounding people all looked at Jian Wushuang.

"Temple Master." Jian Wushuang walked forward.

"Heavenly Sword Marquis, although you are only an Immortal Saint, your strength has long surpassed that of an ordinary Principles Master. I now appoint you as the sixth inspector of the Temporal Temple. Do you agree?"

Temple master said.

“Inspector?” Jian Wushuang was shocked.

He had been in the Temporal Temple for so many years, so he knew a little about the positions of the higher ups in the temple. Temple Master and Inspector were undoubtedly at the top and held great power. As for the inspector...he was under the supervisor and also had great power. He was also one of the highest-ranking officials in the Temporal Temple. In terms of status and power, he was higher than many Principles Masters in the two or even three void realms.

Moreover, there had only been five patrol masters before, but now the Temporal Temple Master had appointed him as the sixth?

“His...” Jian Wushuang was a little stunned. He could not help looking around at the people around him.

Sure enough, the surrounding Principles Masters looked at him strangely.

There were some strange emotions in their eyes. The Principles Masters immediately communicated with each other secretly.

The Temple Master wants Heavenly Sword marquis to be an inspector?”

“An inspector has a lot of power. Usually, only experts in the four void realms and above will be appointed. As for Heavenly Sword Marquis...although his performance in the previous battle was amazing, everyone knows that he used external forces. As for his own strength, he is still far from being appointed as an inspector, right?”

“You can’t say that. After all, in the previous battle, even without external help, the Heavenly Sword Marquis’ combat strength was still at the third level of the Void Realm. Moreover, he was only an Immortal Saint, and his talent and potential were so great. Now, it has been three hundred years since that battle, and he has been cultivating by the Temple Master’s side. Perhaps he has already reached the fourth level of the Void Realm?”

“It’s possible, but he’s still too young and inexperienced. It’s still too early for

him to become an inspector and become the highest-ranking official of the Temporal Temple. ”

The Principles Masters discussed quietly and had their own opinions on the appointment of the Temporal Temple Master.

As for Jian Wushuang himself, he knew his own limits, he immediately said, Temple Master , let’s not talk about whether I’m qualified to be an inspector. I’ve only been in the Temporal Temple for a short period of time. I’m afraid it’s not appropriate for me to be an inspector without much contribution to the Temporal Temple.”

“It’s not a problem for you to be an inspector with your strength. As for your experience and contribution, you can slowly accumulate them in the future. I said that you’re qualified to be an inspector, so naturally you’re qualified. You don’t have to worry too much. I’ll ask you if you’re willing to be an inspector.” Temporal Temple Master looked down, there was a hint of deep meaning in his eyes.

Jian Wushuang was obviously still hesitant, but when he noticed the profound in the Temple Master’s eyes, he stopped thinking and said, “I do.”

“Well, from today on, you are the sixth inspector of the temple.” The Temple Master smiled, he continued, “Inspector, you have a very high position in the temple and your position is extraordinary. You will fight for the temple directly. In the Divine Beginning Realm, if there is a fight between the temple and the experts from other forces, the inspector will deal with it immediately.”

“Although your strength has reached the required level, the enmity between you and the three Saint Realms is too deep to be resolved. In the future, when you fight for the Temporal Temple, you will inevitably have to deal with the three Saint Realms again. In order to prevent the three Saint Realms from using any tricks against you in the future, here is a token. Keep it well.” The Temporal Temple Master waved his hand, a token emitting a special space-time fluctuation was thrown towards Jian Wushuang.

Jian Wushuang took the token and held it in his hand. He asked in puzzlement, "Temple Master, what is this token?"

"This token is a life-saving token that I personally refined. It can save your life.

As long as I have this token, I can guarantee that no one in the Divine Beginning Realm can really kill you," Temporal Temple Master said, his words were filled with absolute confidence.

He did have such confidence.

As a ruler-level expert, he was proficient in the principles of spacetime. He was definitely the best at using the principles of spacetime in the Divine Beginning Realm. With such high attainments in spacetime, the life-saving token he refined contained special spacetime techniques, although it did not have the ability to attack, it was definitely enough to save his life.

Even if a master-level expert from the outside world arrived, Jian Wushuang could still escape with this token, let alone the fact that a master-level expert from the outside world had yet to arrive at the Divine Beginning Realm.

Therefore, the Temple Master did not show any fear even though he knew that the three Saint Realms were backed by the power of the will of heaven. He also knew that the power of the will of heaven could possibly allow a master-level expert from the outside world to arrive at the Divine Beginning Realm, he dared to protect Jian Wushuang's real trump card!

In the Divine Beginning Realm, although Temporal Temple Master could not be said to be truly invincible, no one could stop him if he wanted to leave.

### **Chapter 3339: He Was Flattered**

Translator: EndlessFantasy Translation Editor: EndlessFantasy Translation

Upon hearing the words of the Temple Master and looking at the token in his hand, Jian Wushuang was not only pleasantly surprised, but also flattered.

At this moment, the hearts of the Principles Masters were also surging.

"The Temple Master has personally refined two life-saving tokens. As far as I know, the Temple Master has refined two of them before. One of them has

been used a long time ago, and the other one is left in the Temporal Temple in case anything happens. The Temple Master has also warned us not to use this token unless the Temporal Temple is in a life-or-death situation!”

“It’s like this. One of the tokens Lord Temple Master refined was used as one of our trump cards, but now Lord Temple Master has refined one for Heavenly Sword Marquis?”

“Previously, he asked Heavenly Sword Marquis to cultivate by his side for 300 years, and then appointed him as an inspector. Now he has given him a life-saving token. I’m afraid even Lord Temple Masters personal disciple won’t be able to get this treatment.”

“Temple Master, aren’t you favoring Heavenly Sword Marquis too much?”

Many Principles Masters present thought that Temporal Temple Master was favoring Jian Wushuang too much. That was great.

Indeed, Temporal Temple Master had been teaching Jian Wushuang since he returned to the Divine Beginning Realm. Now that he was going to the universe battlefield, he also left some trump cards for Jian Wushuang, just like Temporal Temple Master’s return, it was purely for Jian Wushuang’s return.

“Heavenly Sword Marquis, remember, the token I’m giving you now is extremely difficult to refine. I can only give you this one token at most to save your life. If you use it, there won’t be a second one. So, unless it’s a life-or-death situation, don’t use this token easily,” Temporal Temple Master specially warned.

“Yes.” Jian Wushuang nodded immediately.

“Oh, one more thing,” Temporal Temple Master said. He flipped his palm and a purple-gold command flag, which was emitting dense space- time power, appeared in his hand. “When I left the Saha Island, I brought this heavenly golden flag back. It’s a top-tier treasure in space-time and has great power. I used it many times when I was adventuring in the universe battlefield.

“However, I already have a golden sky-painting flag, so it’s useless now. Now,

I'll give this golden sky-painting flag to you. I hope you can use its power as soon as possible."

With that, Temporal Temple Master waved his hand and threw the golden sky-painting flag to Jian Wushuang.

Jian Wushuang took it, but his mind was in a daze.

He was surprised by Temporal Temple Masters arrangement today.

First, he appointed Jian Wushuang as an inspector, gave him a life-saving command talisman, and now he gave him the golden banner that he had gotten from green rock master on Saha Island. It was equivalent to completely spoiling Jian Wushuang.

course, Jian Wushuang was flattered.

The surrounding Principles Masters looked at Jian Wushuang with completely changed expressions.

Although they had seen Temporal Temple Masters preference for Jian Wushuang they had only felt a little bit of emotion. Now that Temporal Temple Master had given him the heavenly golden banner, these Principles Masters could no longer calm down. They were more or less envious, even jealous.

Yes, when a person who was just a little kid in their eyes had suddenly become their equal, or even higher than them, and had obtained all kinds of resources and treasures that drove them crazy...of course, they would be jealous.

Jian Wushuang also saw all of this jealousy. He looked at the Temple Master and saw the faint smile on his face.

Jian Wushuang immediately understood.

"The Temple Master has lived for so many years, and he has always been watertight in dealing with things. He should have known that if he gave me the life-saving talisman and the golden banner in front of so many people, it would definitely attract the jealousy of others. It would bring me a lot of trouble in my future position as an inspector, but the Temple Master still did

it..." Jian Wushuang understood.

In fact, Temporal Temple Master could have given him the life-saving command talisman and the golden sky-painting flag. After all, he had been cultivating by Temporal Temple Master's side and had had opportunities, but Temporal Temple Master did not give them to him back then, but now, he had given them to him in front of so many people. Jian Wushuang could guess the meaning behind it.

"Temple Master wants to train me. He doesn't mind giving me more obstacles in the Temporal Temple. If I can't even pass this small obstacle, how can I compete with the three Saint Realms in the future? Not to mention that I might face a ruler-level expert from the outside world in the future," Jian Wushuang murmured, but at the same time, he had questions.

Because under normal circumstances, to make things difficult for the younger generation, or even to deliberately arrange some obstacles to temper the other party, this kind of behavior, usually only in the training of their own successors, that's why I did it.

Is the Temporal Master doing this...to train him to be the next Temporal Master?

"Maybe it's possible," Jian Wushuang thought.

He knew that the Divine Beginning Realm was no longer attractive to the Temporal Temple Master. The reason why the Temporal Temple Master came back every once in a while was because he was worried about the Temporal Temple. After all, the Temporal Temple had a deep foundation, however, there were too few experts. Once they lacked a master-level battle strength like him, it would be difficult to guarantee their safety.

Take the battle on Saha Island as an example. If Temporal Temple Master had not arrived in time, the outcome of that battle would have been quite tragic. Because of this, Temporal Temple Master had never ventured into the deepest part of the universe battlefield. Actually, with his strength, he could have gone

to the central region of the universe. That place was the paradise for experts like him.

Under this premise, if he could cultivate an heir with the strength of a ruler who was qualified to intimidate hundreds of millions of experts in the Divine Beginning Realm, he would not have any worries and could go to the depths of the universe directly, he could even go for tens of millions of years without coming back.

Because as long as there was a ruler, the Temporal Temple could ensure his safety.

Thinking of this, Jian Wushuang took a deep breath and felt bitter.

“Well, I’ve told you what I need to tell you. I’ll leave the Temporal Temple to you. Haha!” The laughter of the Temporal Temple Master echoed in the temple, he slowly disappeared from everyone’s sight and soon disappeared completely.

#### **Chapter 3340: Patrol Squad**

Transtator: EndlessFantasy Translation Editor: EndlessFantasy Translation

“Farewell Temple Master!

Many experts in the hall respectfully sent Temple Master off.

After Temple Master disappeared completely..

“Alright everyone, Temple Master has already left for the universe battlefield, and our space-time shrine is still the same as before. Everyone, carry out your duties and leave.” Palace Master Bai Xing waved his hand, then he said, “Ba Cang, Heavenly Sword Marquis, you two stay here.”

The experts in the temple left one after another.

When they left, they glanced at Jian Wushuang a few more times, with strange emotions in their eyes.

Soon, only Jian Wushuang, Temple Master Bai Xing, and Ba Cang were left in the temple.

“Heavenly Sword Marquis, Congratulations on becoming the sixth inspector of our Temporal Temple. You also received the life-saving token and the golden

sky-painting flag from Temple Master.” Temple Master Bai Xing looked at Jian Wushuang with a smile.

“Heavenly Sword Marquis, you are really lucky to be valued so much by the Temple Master. He even gave you a life-saving token and a golden sky-painting flag. To be honest, even I am envious of these two things.” Ba Cang also smiled.

“You two, don’t you see that the Temple Master seems to have other intentions? Jian Wushuang asked.

“Of course.” Ba Cang nodded.

“It’s possible that the Temple Master wants to groom you as his successor. Of course, he may have other motives. As for why..I can’t figure it out, Temple Master Bai Xing said.

“Yes, the Temple Master has always been unpredictable. Now that he deliberately gave you the life-saving command talisman and the heavenly golden banner in front of so many people, he must have his own plans. But these plans shouldn’t be bad for you,” Ba Cang added.

Hearing this, Jian Wushuang could only shrug his shoulders helplessly.

“Ba Cang, you are the supervisor of the Temporal Temple, and Heavenly Sword Marquis is now your direct subordinate. Tell him something about the supervisor first,” Temple Master Bai Xing said.

“Okay.” Ba Cang nodded slightly and looked at Jian Wushuang.

The inspector has a very high position in the Temporal Temple and is responsible for external battles. Under normal circumstances, it should be an expert of the void fourth realm, or at least the void third realm. However, Heavenly Sword Marquis, although you are only an Immortal Saint, your strength has long reached the void third realm. In addition, you have been cultivating with the Temple Master for 300 years. Even the Temple Master himself said that your strength is not a problem, so it’s definitely not a problem.”

“In addition to the position of inspector, there is also a patrol team.”

“Patrol team” Jian Wushuang was stunned.

The patrol team is directly under the command of the inspector and fights with him. After all, in the Divine Beginning Realm, although our Temporal Temple is aloof from worldly affairs, we often fight with some big forces and experts. Once a fight breaks out, the inspector alone will not be enough. We need a large number of experts!”

“A patrol squad consists of 10 Principles Masters from the second to the first realm of the Void Realm and 100 top-notch Immortal Saints,” Ba Cang said.

“10 Principles Masters and 100 top-notch Immortal Saints? Jian Wushuang was intrigued.

This squad could be considered very powerful in the Divine Beginning Realm. In the Divine Beginning Realm, only first-rate forces could have such a squad of experts. However, for the Temporal Temple, this squad was just one of the patrol squads that were usually responsible for battles.

One person can lead ten Principles Masters and hundreds of Immortal Saints to battle outside. It’s no wonder that the position of the patrol envoy is very high and that he’s very powerful,” Jian Wushuang thought.

“Our Temporal Temple has only had five patrol envoys before, so naturally, we only have five patrol squads. Now that you’ve become the sixth patrol envoy, Our Temporal Temple naturally has to arrange a patrol squad for you. However, this patrol squad needs a lot of experts. Even our Temporal Temple will need some time to gather them for you,” Ba Cang said.

“There’s no hurry. I’m just curious. Are all the people in the patrol team members of the Temporal Temple?” Jian Wushuang asked.

“Of course not.” Ba Cang shook his head with a smile. “Heavenly Sword Marquis, it’s not like you haven’t entered the Divine Hall of the Temporal Temple before. The divine seats of the experts of the Temporal Temple are all there. In total, there are only about 1,000 people. How can there be so many

experts in the patrol team?

“After all, a patrol team needs 100 Peak Saints, not to mention Principles Masters. Six patrol teams make up 600 Peak Saints.

“Most of the experts in the patrol team are rule masters, but the Peak Saints are experts recruited by the Temporal Temple in the Divine Beginning Realm. We pay them and they fight for us.”

“Is that so? Jian Wushuang thought for a moment and asked, “Master Ba Cang, how long will it take to gather the patrol team?

“Under normal circumstances, we can gather a complete patrol team within 100 years,” Ba Cang said.

“That’s good. I’ve been improving my understanding of the principles of time and space with the Temple Master for 300 years, but I rarely have the opportunity to go to the Temporal Temple. Now that the Temple Master has left, I can go to the Temporal Temple to cultivate during the 100 years that the patrol team has been established,” Jian Wushuang said.

“No problem. You can cultivate by yourself. When the patrol team is established, I’ll send a message to you. It doesn’t matter if you’re in the middle of cultivation. Anyway, we don’t have many opportunities to use the patrol team. You can ask them to wait for you as long as they don’t wait too long,” Ba Cang said.

“I understand” Jian Wushuang nodded.

Soon, Jian Wushuang left the temple and went straight to the Principles Temple.

In the Principles Temple, where the two principles of space-time and reincarnation had fused, Jian Wushuang sat down alone in the center of the temple. He took a deep breath, looked around, and sensed that...the two principles of space-time and reincarnation had slowly fused together.

“The Principles ‘Temple..I’ve been here a few times in the past 300 years, and made a lot of progress. However, I’ve only stepped into the threshold of

fusing the principles of spacetime and reincarnation. I only know how to fuse them, but I still need a lot of time to fully fuse them. In the Temporal Temple, I need a lot less time!"

"If I'm not mistaken, in about a hundred years, I should be able to perfectly merge the space-time principles and the Samsara principles. Let's begin!

Jian Wushuang immediately fell silent in the fusion of the two principles..
