

## Swordsman 3511

### Chapter 3511: Human Illusion Level

The Purple Blood Sect had been destroyed for more than 500 years.

Although they had the capital to rebuild the sect, the sect-protecting formation was still very important.

“Heavenly Sword Marquis, I know that Star Palace has a special relationship with you, and Marquis Duan Yu said that he was willing to listen to you. So, can you ask him to come to the Purple Blood Sect and set up a protective array for us? Of course, the Purple Blood Sect will not let him come for nothing. We will prepare a generous reward for him or let me owe him a favor.”

Hearing this, Jian Wushuang could not help but smile and said, “Let me ask him for you.”

Jian Wushuang directly sent a message to Marquis Duan Yu and soon got the answer.

“Marquis Duan Yu has agreed to set up a clan-protecting formation for your Purple Blood Sect. As for the conditions, he hasn’t mentioned it yet,” Jian Wushuang said.

“Thank you,” Demon Master Chenhuo thanked him. He knew that the reason why Marquis Duan Yu agreed so readily was largely because it was Jian Wushuang who invited him.

“Marquis Duan Yu said it would take him two to three months to reach the Second Heaven. Let’s wait here,” Jian Wushuang said.

In the following time, the Purple Blood Sect began to rebuild on a large scale.

To rebuild the sect, of course, it would require a lot of resources, which was easy to do.

Demon Master Chenhuo had a lot of resources left by the Purple Star Demon Sect, which could be used.

Moreover, even if there were not so many resources, the six forces that controlled the Blood Origin Domain nearby would definitely come to him.

Three months later, Marquis Duan Yu arrived at the Purple Blood Sect.

“My young friend, Mr. Chenhuo.” Marquis Duan Yu bowed humbly.

Updates by . com

“Marquis Duan Yu, you already know the purpose of inviting you here. Now, the Purple Blood Sect is under your feet. It has just been rebuilt. What do you think of the sect-protecting formation?” Jian Wushuang asked directly.

Marquis Duan Yu looked down at the Purple Blood Sect and nodded slightly. “The general sect-protecting formation is nothing more than to block strong enemies at the critical moment. Therefore, the sect-protecting formation is mainly used for defense. However, there are some sect-protecting formations that can be used for both offense and defense. However, the cost is even greater. Which one do you need, Mr. Chenhuo?”

“We will use a pure array formation to defend against strong enemies. As for attacking, we will only need to carry some offensive power on our shoulders,” said Demon Master Chenhuo.

“What about the level of the array formation?” Marquis Duan Yu said again, “My young friend Heavenly Sword Marquis has told me before that the Purple Blood Sect is not considered a very powerful sect now. However, because of you, Mr. Chenhuo, it will definitely rise in the future. The level of this array formation should also be higher, right?”

“Of course, it needs a high-level array formation. It would be best if it could block the array formation of a Saint Realm Master,” said Demon Master Chenhuo.

Back when the Purple Star Demon Sect was destroyed, the one who attacked the Purple Star Demon Sect was a Saint Realm Master!

The sect-protecting array formation of the Purple Star Demon Sect back then was actually very powerful. However, in front of a Saint Realm Master, it was like paper.

Having experienced it once, Demon Master Chenhuo did not wish for the next Saint Realm Master to charge into the Purple Blood Sect. Therefore, he naturally wanted a sect-protecting array formation that could block a Saint Realm Master.

However, Marquis Duan Yu smiled when he heard the words of the Demon Master. “I do have a formation that can block a Saint Realm Master. Moreover, I can set it up with my attainments in the Dao of formations. However, the prerequisite is that the resources required to set up such a formation will be much greater than what you can imagine, Mr. Chenhuo.”

“Oh?” Demon Master Chenhuo frowned.

“Let’s not talk about other things first. Just the energy required to maintain the formation can only be absorbed through divine power. To maintain the normal operation of the formation, the divine power that is stored throughout the year is in the hundreds of millions, not to mention the other precious natural treasures.”

“In addition, even if the formation is set up, it must be maintained by two or more experts who have reached the pinnacle of the sixth level of the void every million years. Otherwise, the formation might also collapse and disintegrate.”

“These two conditions are just two of the requirements for setting up the formation. There are also many other requirements that are equally demanding, such as the time required to set up the formation. I wonder if Mr. Chenhuo can accept them?” Marquis Duan Yu said playfully.

Upon hearing this, Demon Master Chenhuo was somewhat stunned.

Jian Wushuang’s expression also became strange.

However, he could understand. After all, it was not easy to set up a magic array that could withstand a Saint Realm Master?

Even if Marquis Duan Yu had the ability to set up this magic array, he did not have the capital to do so.

Although Demon Master Chenhuo had a lot of resources on hand, he was afraid that he would not be able to meet the conditions mentioned by Marquis Duan Yu.

"It seems that I have been too arrogant. I won't think about this array that can withstand the attacks of a Saint Realm Master for the time being. Then, what are the requirements for setting up a slightly lower level array?" Demon Master Chenhuo said.

"There are many levels of array formations. An array that can withstand the attacks of a Saint Realm Master or an ordinary ruler-level expert is already an earth sage-level array formation. This level of array formation is extremely impressive, so it is naturally quite difficult to set up. For example, the five elements array formation of the Nine-tailed Clan is an earth sage-level array formation. However, because the Nine-tailed Clan does not have a ruler-level expert supporting them, they are unable to unleash the power of an earth sage-level array formation. That is why I was able to break it so easily!"

"However, if a genuine holy-level formation is successfully set up, there is absolutely no need to worry about it being broken in the Divine Beginning Realm. However, with the resources of the cultivators in the Divine Beginning Realm, it is almost impossible to set up an holy-level formation!"

"In that case, we can only take a step back and set up a human-illusion-level formation," Marquis Duan Yu said.

"Human illusion-level magic array?" Jian Wushuang was puzzled.

"In the vast universe, a human illusion-level magic array is only an entry-level magic array, but in the Divine Beginning Realm, it is very high-level. For example, the Blood Marten Clan's clan protection magic array was also at the human illusion level, but it was only at the intermediate level among the human illusion-level magic arrays."

"And I have a few complete peak-stage human illusion-level formations in my hands. Once these formations are set up, ordinary sixth-level void realm experts would definitely not be able to break them. Even if there are three or five peak-stage void realm experts, it would be very difficult to shake them. Unless there are two or more peak-stage void realm experts, only then would they be able to break them." Marquis Duan Yu said.

Upon hearing this, the eyes of the Demon Master brightened.

Even experts at the pinnacle of the void six realms would need at least two to break through it?

However, it must be known that other than him, there were only two experts at the pinnacle of the void six realms in the Divine Beginning Realm.

In other words, once such a formation was set up, as long as the Saint Realm Master did not personally take action, no one would be able to break it.

...

## **Chapter 3512: Unshakable**

"Marquis Duan Yu, what is the price of setting up a formation at the peak of the human illusion level?" Jian Wushuang asked.

"Although the formation at the peak of the human illusion level is far inferior to that at the Earth Saint Realm, the price of setting it up is still very high. However, it is still acceptable for an expert at the pinnacle of the six realms of the void," Marquis Duan Yu said.

"If that's the case, Marquis Duan Yu, please help us set up the magic formation at the peak of the human illusion level. You can tell me the cost and resources you need. After the magic formation is set up, I'll owe you a favor," Marquis Duan Yu said.

"Haha, it's difficult to set up the magic formation at the peak of the human illusion level, but if I can exchange it for the favor of an expert at the pinnacle of the six realms of the Void, I'll be very lucky," Marquis Duan Yu said.

"Let's not waste time, Marquis Duan Yu, start to set up the formation," Jian Wushuang said.

Marquis Duan Yu nodded and then discussed with Demon Master Chenhuo how to set up the formation.

After everything was ready, Marquis Duan Yu began to set up the formation.

It was not easy to set up a magic formation at the peak of the human illusion level. Not only did it require a lot of resources, but it also took a lot of time.

During this time, Jian Wushuang stayed in the Purple Blood Sect and watched Marquis Duan Yu set up the magic array.

Although he did not know much about the Dao of magic array, it was because of this that he did not want to miss this opportunity.

After all, Marquis Duan Yu could be said to have the highest attainments in the Dao of magic array in the Divine Beginning Realm. Watching him set up the magic array with his own hands could also help Jian Wushuang understand more about the dao of magic array. In the future, whether he was in the Divine Beginning Realm or in the Universe Battlefield, he would certainly have to deal with some special arrays. Thanks for your understanding of array formation, it would be more or less useful.

Time passed, and in a flash, three years had passed.

In these three years, the Purple Blood Sect had almost been rebuilt.

The original ruins had now become a pure land. Birds sang and flowers were fragrant, and palaces and pavilions were everywhere. The entire sect looked magnificent. It was no longer as tragic as before.

Updates by . com

Most importantly, there was a layer of light membrane that could not be seen by the naked eye in the void around the Purple Blood Sect.

This light membrane was the pinnacle human illusion-grade array that Marquis Duan Yu had spent three years to set up.

"Mr. Chenhuo, this array has already been set up and it has already formed a cycle. From now on, as long as your Purple Blood Sect infuses a batch of divine power into it every once in a while to provide the energy for the array to operate normally, this array can continue forever. Furthermore, even if an expert were to forcefully break this array in the future, as long as the foundation of the array is not uprooted, you can casually hire one or two array masters of the ninth stage or above to repair the array."

“Yes.” Demon Master Chenhuo nodded slightly and said gratefully, “Thank you, Marquis Duan Yu, for the past three years.”

“Haha, it’s only been three years. I’m more than happy to be able to exchange for your favor,” Marquis Duan Yu said with a smile.

“Marquis Duan Yu.” At this moment, Jian Wushuang opened his mouth and said, “The power of the magic formation in front of me is really as amazing as you said. But why does it look like that to me?”

“That’s because the power of this magic array hasn’t really erupted. Normally, the magic array only keeps simple operation, so it doesn’t consume too much energy. However, once the magic array is attacked, the power of the magic array will be revealed.” Marquis Duan Yu smiled. “If you don’t believe me, you can try the power of this magic array yourself.”

“Then I won’t be polite.” Jian Wushuang did not refuse. His palm had already grabbed the Blood Mountain Sword behind him.

Swish!

The Blood Mountain Sword was unsheathed, and a shocking sword essence instantly swept out in the surrounding void.

Then, Jian Wushuang’s body flashed and appeared around the magic formation. He activated his life divine power and heaven-cleaving skill at this moment.

Whoosh!

A blood-red sword light, like a bolt of blood-red lightning, suddenly slashed out with extreme violence.

It was the Peerless Sword manual, Xi Xiang!

The power of this extremely powerful sword, especially when Jian Wushuang used his full strength, had reached the peak of the fifth void realm.

However, when the sword directly hit the light film, it was like a drop of water falling into the sea. The light film did not cause much waves, and the whole Purple Blood Sect was still very calm. However, the power of Jian Wushuang’s sword...had been completely exhausted.

“Amazing!”

Jian Wushuang could not help but exclaim, “My sword attack is even more powerful than the full-strength attack of an ordinary expert of the fifth void realm. However, it did not shake the magic formation at all. After all, I attacked from the inside of the magic formation.”

Jian Wushuang sighed in his heart.

Attacking from the outside of the magic formation and attacking from the inside of the magic formation were two completely different things.

Under normal circumstances, a magic array had the strongest defense against the outside world, but its internal defense was much weaker.

Because of this, in the Divine Beginning Realm, if a force wanted to contribute to another force, they had to attack from the inside and cooperate with the outside. This way, it would be easier to break the protective magic array of the other party.

However, the magic array set up by Marquis Duan Yu in the Purple Blood Sect had such a strong internal defense that Jian Wushuang could not even move it with his full strength. However, the defensive energy outside the magic array was very strong.

“With this magic array, the Purple Blood Sect will be safe as long as the Saint Realm Master doesn’t personally take action,” Jian Wushuang said.

“Logically speaking, the Purple Blood Sect was inherited by the Purple Star Demon Sect, and the one who destroyed the Purple Star Demon Sect was the Saint Realm Master,” Demon Master Chenhuo said in a low voice.

Although the magic array had been set up, Demon Master Chenhuo was still a little worried.

Seeing this...Jian Wushuang smiled and said, “Chenhuo, you don’t have to worry. So what if the Flame Saint Realm knows that the Purple Blood Sect was inherited by the Purple Star Demon Sect?

“After all, the Purple Blood Sect has you. It’s no longer the Purple Star Demon Sect. It can’t resist the Flame Saint Realm at all

“Moreover, even if the Purple Blood Sect can’t resist it, it’s almost impossible for the Flame Saint Master to kill you. As long as you don’t die, you can crazily take revenge on the Flame Saint Realm and kill their experts. That would be a disaster for the Flame Saint Realm.

“The Flame Saint Realm definitely knows this as well. Hence, before they have absolute confidence in killing you, the Flame Saint Realm wouldn’t dare to attack the Purple Blood Sect. This is because they aren’t willing to pay the price for you.”

“That’s true, but this is also because I’m here. What if one day, I’m no longer here?” Demon Master Chenhuo frowned.

### **Chapter 3513: Outside the World**

What if one day, Demon Master Chenhuo was no longer around?

The Flame Saint Realm would not hesitate to attack the Purple Blood Sect and destroy it, just like how it had destroyed the Purple Star Demon Sect.

“No one can say for sure what will happen in the future. At least now that you’re here, the Flame Saint Realm won’t dare to act recklessly,” Jian Wushuang said.

“Well, that’s the only way to think about it.” Demon Master Chenhuo nodded slightly, then he said seriously, “Heavenly Sword Marquis, the Purple Blood Sect has just been rebuilt, and there’s a lot of work to be done. Right now, the Purple Blood Sect needs me very much. I can’t leave here in a short time, so I can’t continue to be your guard.”

“I expected that.” Jian Wushuang was not surprised.

He was very clear about the current situation of the Purple Blood Sect.

In the current Purple Blood Sect, other than Demon Master Chenhuo, only Skyheart Sword Saint, an Invincible Saint, could be considered an expert. The other disciples were mostly weak, so at this moment...Demon Master Chenhuo definitely could not leave this place.

Not only now, but also for a long time in the future.

At least until the Purple Blood Sect's strength had grown to a certain level and they were able to protect themselves, he would not leave.

Naturally, he would not be able to stay by his side anymore.

"Although I can't continue to stay by your side and be your guard, if you encounter any trouble in the future, you can still send me a message at any time. I'll be there immediately," Demon Master said.

"In that case, our previous agreement still stands," Jian Wushuang said.

"Of course it does." Demon Master Chenhuo also nodded.

"Well, you can lead the Purple Blood Sect to grow up first. As for me..." Jian Wushuang frowned slightly. He did not know where he should go next.

Updates by . com

Back to the Temporal Temple?

There was nothing for him to do in the Temporal Temple at the moment, so it did not matter whether he went back or not.

If he continued to wander alone in the Divine Beginning Realm, there were few places in the Divine Beginning Realm that could have a great effect on him.

Even if he wanted to improve his strength, he had to find a good place first.

As if he had read Jian Wushuang's mind, Marquis Duan Yu suddenly said, "My young friend, if you don't have a place to go for the time being, why don't you come with me to the Star Palace?"

"To the Star Palace?" Jian Wushuang's eyes immediately lit up.

Yes, when he first came into contact with the Star Palace in the demon realm, he had been curious about it.

Especially after he found out that the founder of the Star Palace was Daoist Black God and had an inseparable relationship with the Seven Star Mysterious Sect, he looked forward to the Star Palace even more.

He had wanted to go to the Star Palace before, but now he was worried that he had nowhere to go. It was undoubtedly the best choice to go to the Star Palace at this time.

"Marquis Duan Yu, I do want to visit the Star Palace now, but is it convenient?" Jian Wushuang asked.

"Yes, of course." Marquis Duan Yu smiled and said, "If you want, I can take you to the Star Palace now."

“Okay.” Jian Wushuang nodded.

“In that case, let’s go now,” Marquis Duan Yu said.

“Goodbye, Chenhuo,” Jian Wushuang said to Demon Master Chenhuo and left with Marquis Duan Yu.

...

After leaving the Purple Blood Sect, Marquis Duan Yu led Jian Wushuang toward Star Palace.

Both of them traveled very fast, especially Jian Wushuang. Under the guidance of Marquis Duan Yu, he teleported and spent two days in a near-chaotic void.

“This is...” Jian Wushuang stood in the chaotic void and looked around with a frown. After a long while, he spoke again, “Marquis Duan Yu, if I’m not wrong, this should be the edge of the Divine Beginning Realm, right?”

“Yes.” Marquis Duan Yu nodded.

“As expected.” Jian Wushuang took a deep breath.

He knew more about the Divine Beginning Realm than before. He was very clear that in the Divine Beginning Realm, other than some extremely strange places, only the edge of the Divine Beginning Realm was chaotic.

Since Marquis Duan Yu had brought him here, Jian Wushuang had roughly guessed the location of the Star Palace.

“It seems that my previous guess was right. The Star Palace is not in the Divine Beginning Realm, but...outside the realm!” Jian Wushuang narrowed his eyes slightly.

Outside the realm, outside the Divine Beginning Realm, was naturally the vast Universe Battlefield!

Jian Wushuang had guessed it from the conversation between Marquis Duan Yu and Axe One Master.

Axe One Master had said that the three Principles Masters from Star Palace were too sensitive and could not wander around in the Divine Beginning Realm, in addition, Marquis Duan Yu, Axe One Master, and star Saint Master were all powerful experts of the six void realms, but they were not famous in the Divine Beginning Realm. Obviously, they had never been in the Divine Beginning Realm, instead, they had been staying in the Universe Battlefield.

Since that was the case, the Star Palace was most likely located in the Universe Battlefield.

Only by setting their headquarters in the Universe Battlefield could the three great Saint Realms do nothing to the Star Palace.

After all, the three great Saint Realm Masters of the three great Saint Realms were only supreme in the Divine Beginning Realm. However, outside the Divine Beginning Realm, without the support of the will of the Heavenly Dao, any ruler-level expert...could have easily killed all three of them.

“The edge of the Divine Beginning Realm is just separated from the Universe Battlefield by a piece of primal chaos void. As long as we pass through this piece of primal chaos void, we can truly enter the Universe Battlefield. That place is the heaven of the strong,” said Marquis Duan Yu.

“Universe Battlefield.” Jian Wushuang could not help but clench his hands.

He vaguely remembered that many years ago, in the endless territories, he had seen Xue Bei’s consciousness incarnation in the blood north secret area. From Xue Bei’s words, it was the first time he knew about the existence of the Universe Battlefield, only then did he understand how vast and vast this world was.

The Divine Beginning Realm was just a part of the universe.

From that time on, he had been full of yearning for the Universe Battlefield. Unfortunately, his strength had not been enough before, so he was not qualified to go to the Universe Battlefield. But now, his strength should be barely enough.

“My young friend, follow me. Let’s go through the chaotic void first,” Marquis Duan Yu said.

Jian Wushuang nodded slightly and followed Marquis Duan Yu slowly.

The chaotic void was very vast. Because they were in the chaotic void, there might be some dangers. Both Marquis Duan Yu and Jian Wushuang were slow, so Jian Wushuang did not dare to use teleportation again.

The journey was very peaceful. The two of them flew in the chaotic void for five days and finally passed through it. After passing through the chaotic void, Jian Wushuang stepped into the Universe Battlefield!

### **Chapter 3514: World Star**

“This is the vast universe?” Jian Wushuang stood in the Universe Battlefield and looked up.

What he saw was a vast dark void, which was boundless and infinite.

In the center of the dark void, he could vaguely see some weak lights, which were faintly discernible, like stars.

Standing here, Jian Wushuang could clearly sense the great pressure coming from the surrounding void. This pressure originated from the universe origin. Previously, because Jian Wushuang had been staying in the Divine Beginning Realm, with the obstruction of the Divine Beginning Realm, he could not sense the pressure of the universe origin.

But now that he was out of the Divine Beginning Realm, he could clearly sense the pressure.

“This pressure is too strong. With such a strong pressure, ordinary people won’t be able to survive in the universe,” Jian Wushuang could not help saying.

“In the vast universe, the pressure from the universe origin is indeed very strong. Moreover, we are still at the edge of the universe, so the pressure from the universe origin is not too strong. However, if you want to go to the core of the universe in the future, the pressure from the universe origin will be even stronger,” Marquis Duan Yu said.

"It's because the universe origin is so powerful that ordinary cultivators can't move around in the universe. Those who can resist the pressure and move around in the universe are usually experts above the Principles Master Realm!"

"Of course, you're only a saint, but you're stronger than most Principles Masters. You can also move around in the universe."

Jian Wushuang nodded slightly.

He also felt the pressure of the universe origin, which was extremely strong, but it did not affect his ability to walk in the universe.

"My young friend, turn around and look behind you," Marquis Duan Yu suddenly said.

Jian Wushuang turned around and immediately a huge object appeared in front of him.

It was a huge and magnificent star. It was oval in shape and floated in the universe. The star was surrounded by a hazy chaotic airflow. Jian Wushuang stood in front of the star, although he was some distance away from the star, he could still feel the vastness of the star.

Updates by

"Is this...the Divine Beginning Realm?" Jian Wushuang's eyes widened.

"Yes, it's the Divine Beginning Realm." Marquis Duan Yu smiled. "You've been in the Divine Beginning Realm before, so you can't see its complete appearance. But now that you're out of the Divine Beginning Realm and in the universe, you can see its original appearance clearly."

"In addition, although the Divine Beginning Realm seems to be in front of you now, in fact, you're already very far away from it."

Jian Wushuang could not help but suck in a breath of cold air. "I didn't expect that the Divine Beginning Realm would look like this, like an ordinary star."

"It's a star, but it's a world star that contains endless vitality and can give birth to living beings," Marquis Duan Yu said.

"A world star?" Jian Wushuang was puzzled.

Marquis Duan Yu immediately explained, "The vast universe is vast and boundless. In this vast universe, there are countless kinds of stars. These stars are divided into two types. One is a world star, which contains boundless life force and is extremely large. It can give birth to living beings and cultivators.

"The other type is the ordinary earth star, which has no life force. Most of these earth stars only have a piece of land and nothing else. Many times, these earth stars are occupied by some forces in the universe and then transformed into strongholds and bases.

"The world star and the earth star are very common in the universe. In addition, because of their size and their cultivation environment, the world stars in the universe are divided into several levels.

"World stars are divided into levels?" Jian Wushuang's expression changed.

“World stars are divided into level one, level two, and level three. Among them, level three world stars are the most common. For example, the Divine Beginning Realm is an ordinary level three world star. It doesn’t give birth to many experts. Since the birth of the Divine Beginning Realm, there have only been a few ruler-level experts.”

“Second-grade world stars have much greater potential than third-grade world stars. Naturally, they give birth to more experts. Let’s compare the Divine Beginning Realm. If first-grade and second-grade world stars were born at the same time as the Divine Beginning Realm, then this second-grade world star has already given birth to more than 20 rulers, or even more!”

“More than 20 rulers?” Jian Wushuang was shocked.

They were born at the same time, but there were so many more masters in a second-grade world star than in a third-grade world star?

It was obvious that the cultivation environment in a second-grade world star was much stronger than a third-grade world star.

“What about a first-grade world star?” Jian Wushuang asked again.

“A first-grade world star is even more amazing. It is said that in the vast universe, as long as a first-grade world star is born for a period of time, the experts in it can easily rule a great territory in the Universe Battlefield and become an overlord. Even in the deepest part of the universe, no one dares to underestimate the power of a first-grade world star,” Marquis Duan Yu said.

Jian Wushuang sighed in his heart.

A second-class world star was much stronger than the Divine Beginning Realm, and a first-class world star with even greater potential...was naturally even more terrifying.

“In addition, there is a legend in the universe that there is an eternal world star in the deepest part of the universe, which is above the first-class world star. The eternal world star is the true ruler of the universe!” Marquis Duan Yu added.

“There is an eternal world star?” Jian Wushuang was stunned.

He had little knowledge of the universe before, but today, he had an eye-opening experience.

For the current him, even if the Divine Beginning Realm was relatively vast, he still could not stand at the top of the Divine Beginning Realm. The second-grade and first-grade world stars that were stronger than the Divine Beginning Realm...there were even the legendary eternal world stars, which were too far away for him now.

“Marquis Duan Yu, are there any world stars above the second-class near the Divine Beginning Realm?” Jian Wushuang suddenly asked.

“Well...” Marquis Duan Yu’s expression changed, he said, “The Divine Beginning Realm is located in a relatively remote and marginal part of the universe. Because it’s far away from the universe, the level of the world stars in the universe are very low. Most of them are third-class world stars. For example, the dozens of world stars that are known near the Divine Beginning Realm are only third-class world stars.

Some of them have been born for a long time, some of them have been born for a short time, and they have given birth to many experts.”

### **Chapter 3515: Chaos Cycle**

“If we are talking about a second-class world star, I have heard of one. However, it is too far away from us. It would take tens of thousands of years to get to the Divine Beginning Realm from there,” Marquis Duan Yu said.

Jian Wushuang was shocked.

It would take tens of thousands of years to get there, and it was at least the speed of an expert above the Principles Master Realm. Jian Wushuang could not help but sigh at the vastness of the universe.

“By the way, Marquis Duan Yu, you said that among these third-grade world stars, there is only a difference in the length of their birth. Is there a big difference between the length of their birth and the length of their birth?” Jian Wushuang asked.

“Of course there is a difference, and the difference is huge,” Marquis Duan Yu said, “My Dear Heavenly Marquis, first of all, you should know that the world stars do not exist eternally. They are like a person’s lifespan. After they are born, they will slowly grow and become stronger. However, when a world star is at its peak, it will turn from prosperity to decline and eventually destroy.”

“Destroyed?” Jian Wushuang widened his eyes. “You mean, the Divine Beginning Realm will be destroyed in the future?”

“Of course, not to mention the Divine Beginning Realm, which is a third-grade world star, even a second-grade or first-grade world star will be destroyed. However, the lifespan of a second-grade or first-grade world star is far longer than that of a third-grade world star,” Marquis Duan Yu said.

“In the vast universe, there is a definition of time. It is the process of a third-grade sector star being born and destroyed. It is known as a chaos cycle. This definition of time may seem very simple, but a chaos cycle is an incredibly long period of time!”

“For example, the Divine Beginning Realm has probably been in existence for close to ten billion years now. However, in reality, if one were to look at age, compared to the other third-grade sector stars, the Divine Beginning Realm is still very young. It is still very far away from destruction.”

“However, because the Divine Beginning Realm is still very young, there are not many experts. As time passes, the Divine Beginning Realm will continue to grow, and more and more experts will be born. At the end of the Divine Beginning Realm’s lifespan, there will be at least a dozen rulers in the Divine Beginning Realm.”

“A third-grade world star can give birth to more than a dozen rulers at the end of its growth? According to you, there are many rulers in this universe, right?” Jian Wushuang exclaimed.

He had just heard from Marquis Duan Yu that there were dozens of third-grade world stars around the Divine Beginning Realm. Although these dozens of world stars had not been nurtured to the end, even when they were in their prime...they could still give birth to many rulers. When these sector stars were added up, the number of rulers would be very exaggerated.

"It's like this. In the vast universe, Principles Masters are everywhere. As for ruler-level great beings, if they are in the territory near the Divine Beginning Realm, they are actually quite rare."

"Don't look at how there are many sector stars nearby and how many ruler-level great beings have been born. However, in reality, many of these ruler-level great beings have died while adventuring in the Universe Battlefield. Most of the rulers are unwilling to live in this marginal region. Therefore, after becoming rulers, they directly went into the depths of the universe. There are actually not many who are truly willing to stay in this marginal region."

Updates by

"In fact, there are only about 30 known master-level experts in the territory of the Divine Beginning Realm. More master-level experts have already gone to the depths of the universe. However, it seems that none of the master-level experts born in the Divine Beginning Realm have gone to the depths of the universe. Instead, they have all stayed," Marquis Duan Yu said.

"Oh?" Jian Wushuang's expression changed. "That's strange. Most of the ruler-level experts born in other world stars choose to travel to the depths of the universe, but why aren't there any ruler-level experts from the Divine Beginning Realm?"

"I don't know. Maybe there are some special reasons," Marquis Duan Yu said.

Jian Wushuang narrowed his eyes slightly. After hearing Marquis Duan Yu's words, Jian Wushuang indeed felt that it was a little strange.

"My little friend, I've told you about the world star. Now follow me to the Star Palace," Marquis Duan Yu said.

"Okay." Jian Wushuang nodded.

Then Jian Wushuang followed Marquis Duan Yu to the Star Palace.

The two of them were moving rapidly in the dark void of the universe. Although they were constantly suppressed by the universe origin, it did not affect their speed much. However, they were in the universe void after all, Jian Wushuang did not dare to use teleportation.

There were countless dangers in the vast universe. If they teleported in the void of the universe, it was very likely that they would fall into these dangers and be doomed. Even if they were lucky enough not to fall into these dangerous places...however, if they did not grasp it well and teleported to an unfamiliar void, they would also be lost and waste more time.

A month passed by in the blink of an eye.

"Marquis Duan Yu, we've been traveling in the void for a month, but we haven't reached the Star Palace yet?" Jian Wushuang asked with a strange expression.

"Haha, my dear Heavenly Sword Marquis, this is not the Divine Beginning Realm. In the vast universe, a hundred years or a thousand years is nothing. After all, the universe is too big. Even if we set off from the Divine Beginning Realm at the speed of a Principles Master, it will take us more than a hundred years to get there."

“Although our Star Palace is not too far from the Divine Beginning Realm, it would take at least several decades to travel at the speed of a Principles Master,” Marquis Duan Yu said with a smile.

“Several decades?” Jian Wushuang was stunned.

Marquis Duan Yu smiled and said, “But don’t worry. Our Star Palace is a well-known force in this territory, especially because it has an extraordinary relationship with the Divine Beginning Realm. Therefore, the Star Palace has set up a hidden universe passage on an uninhabited earth star on the way. Through this universe passage, we can directly reach the vicinity of the Star Palace. However, we are still several days away from the location of the earth star.”

Hearing this, Jian Wushuang shrugged and continued to sneak.

After another six days, Marquis Duan Yu finally came to an earth star with Jian Wushuang.

Earth star was different from world star. It was a piece of land floating in the universe. Moreover, the land was not big, and it was lifeless.

Marquis Duan Yu came to the center of the Earth Star and stopped in front of a concave stone wall.

Jian Wushuang also came here and looked at the stone wall in front of him. On the stone wall, there was a special pattern made of secret patterns.

#### **Chapter 3516: Inside the Star Palace**

Marquis Duan Yu stood under the special pattern and waved his hand, throwing a token toward the special pattern.

When the token was about to touch the pattern, the pattern seemed to come alive, swallowing the token in one gulp. After a while, it was spat out again.

At the same time, a layer of gray light slowly emerged from the special pattern, and an ancient aura spread out from it.

Buzz, buzz, buzz. The stone wall vibrated, and the pattern began to evolve. In just a moment, a dark and boundless passage appeared in front of Jian Wushuang.

“This is the universe passage?” Jian Wushuang looked at the passage in front of him in surprise. He felt that the universe passage was much more stable than the spatial passages he had seen in the Divine Beginning Realm, in the depths of the universe passage, there was an aura that frightened Jian Wushuang.

“The principle of the universe passage is actually the same as the space passages in the Divine Beginning Realm. It’s just that the vast universe space is much more stable than the Divine Beginning Realm. The pressure of the universe origin is also very strong. To set up a universe passage in the vast universe is countless times more difficult than setting up a space passage in the Divine Beginning Realm. For example, my Star Palace once spent a lot of money to set up this universe passage.”

“The most important thing is that the distance between the Star Palace and the Earth star is not too far. It takes a Principles Master dozens of years to reach the Star Palace, so the universe passage can be set up. However, if the distance is too far, for example, the universe passage from one world star to

another, it will be very difficult to set up. Even if the entire Star Palace works hard, it will be very difficult to set up such a universe passage,” Marquis Duan Yu said.

“Is that so?” Jian Wushuang raised his eyebrows.

“The universe passage has been opened. My dear Heavenly Sword Marquis, please follow me.” After saying that, Marquis Duan Yu directly entered the universe passage.

Jian Wushuang did not hesitate and immediately followed him.

Through the universe passage, Jian Wushuang and Marquis Duan Yu came to the vicinity of Star Palace.

“My dear Heavenly Sword Marquis, look, that’s Star Palace.” Marquis Duan Yu pointed to a floating land in front of them.

This floating land was a small earth star.

However, this earth star had been occupied by the Star Palace a long time ago, and it had been modified by the Star Palace. It indeed looked different from an ordinary earth star.

Updates by

“In the vast universe, many forces will occupy some earth stars as their nest, and our Star Palace is no exception.” Marquis Duan Yu smiled and then led Jian Wushuang directly to the earth star where the Star Palace was located.

This earth star was very small, and its area was not as large as a small territory in the Divine Beginning Realm. However, it was more than enough to be the lairs of a force.

In the dark void around the earth star, Jian Wushuang could vaguely see some faint golden thunderbolts flashing from time to time. Any of these faint golden thunderbolts gave Jian Wushuang a feeling of destruction.

“There is a special formation around the Earth Star. It seems that the level of this formation is extraordinary. It should have reached the level of the Earth Saint Realm, right?” Jian Wushuang asked.

“You are right. After all, the earth star is the nest of the Star Palace. The sect-protecting formation can not be careless. It is indeed an Earth Saint Realm formation, and it is not weak among the Earth Saint Realm formations. Usually, the formation maintains normal operation. Even if three or five masters come at once, the formation can easily resist them!”

“In a life-or-death battle, Star Palace will activate the formation regardless of the consequences. At that time, the formation will not only be able to resist the attacks of several masters, but it will also be able to kill the masters!” Marquis Duan Yu said.

“Kill the masters? So powerful?” Jian Wushuang was secretly shocked.

“My young friend, what I just said is actually a secret in Star Palace. Only the experts at the highest level of Star Palace are qualified to know about it. However, your relationship with Star Palace is quite delicate, so it’s okay to know about it. However, you must not tell others about it. After all, it’s a killer move of Star Palace. If the enemy forces know about it, it will have a big impact,” Marquis Duan Yu said.

“Understood.” Jian Wushuang nodded slightly.

“Let’s go in first.”

With Marquis Duan Yu’s guidance, Jian Wushuang entered the Star Palace without any obstacles.

There were also many buildings in the Star Palace, which were very strange in shape and were very different from the Divine Beginning Realm.

As they flew through the Star Palace, Jian Wushuang could also sense the obscure aura coming from the surrounding buildings.

Along the way, they also met other cultivators. Some of them even came up to greet them.

“Marquis Duan Yu, you’re finally back. I’ve been waiting for you here for a long time.” A burly middle-aged man with a height of more than two meters came up to Marquis Duan Yu.

“Oh, Heavy Master?” Marquis Duan Yu’s expression changed, and then he said with a smile, “You’re here for your brother, right?”

“Yes, my brother has been trapped there for some time, and his situation is getting more and more dangerous. If I don’t find a way to break the formation and save him, my life will be in danger at any time,” Heavy Master said anxiously.

“I know, don’t worry. I’ll go with you after I’ve settled the young friend behind me,” Marquis Duan Yu said.

“The young man behind you...” the Heavy Master immediately looked at Jian Wushuang. However, when he saw Jian Wushuang, his expression immediately became strange. “Is he...a saint?”

“A saint actually came to the Universe Battlefield?”

“Heavy Master, although the young man behind me is only a saint, his status is extraordinary. In terms of strength, I’m afraid you’re not his match,” Marquis Duan Yu said.

“I’m not his match? Marquis Duan Yu, are you kidding?” Heavy Master laughed.

This was normal. Heavy Master was a Principles Master at the peak of the void fourth realm and had cultivated a special secret skill. Even if he met an expert of the void fifth realm, he could still fight. But Jian Wushuang...was obviously just an Immortal Saint.

The Heavy Master had never been to the Divine Beginning Realm and had never heard of Heavenly Sword Marquis’ name. Naturally, he subconsciously felt that a saint was not that strong.

“You’ll know whether it’s a joke or not in the future. But now, if you want me to hurry up and save your brother, you’d better step aside,” Marquis Duan Yu said.

“Of course, of course.” The Heavy Master laughed dryly and immediately stepped aside.

Jian Wushuang looked at the Heavy Master with interest and then continued to follow Marquis Duan Yu.

Chapter 3517: Number 400?

After Jian Wushuang and Marquis Duan Yu left, the Heavy Master curled his lips and muttered, “An Immortal Saint actually said that he was stronger than me? What a joke.”

“But that person just now was clearly an Immortal Saint, yet he could walk in the universe and was treated so seriously by Marquis Duan Yu. It seems that his identity is indeed extraordinary.”

“Who cares? It has nothing to do with me. I’d better wait for Marquis Duan Yu to come out and save my brother.”

The Heavy Master muttered a few words and quietly waited.

Not only the Heavy Master, but many Principles Masters in the Star Palace noticed Jian Wushuang’s existence when Marquis Duan Yu led Jian Wushuang through the void of the Star Palace.

“Immortal Saint?”

“An Immortal Saint actually came to our Star Palace? And he was led by Marquis Duan Yu himself?”

“Interesting. This Immortal Saint seems to have an extraordinary identity.”

The Principles Masters in Star Palace had begun to communicate in secret, and they also began to guess Jian Wushuang’s identity.

However, it was more common for the Principles Masters in Star Palace to be unaware of what had happened in the Divine Beginning Realm over the years, and no one had heard of Jian Wushuang. If only one of them knew...they would not be so surprised if they knew of Jian Wushuang’s achievements in the Divine Beginning Realm.

At the same time, Jian Wushuang was also asking Marquis Duan Yu about some things in Star Palace.

“Marquis Duan Yu, I’m very curious. How many Principles Masters are there in Star Palace now?” Jian Wushuang asked.

“Many,” Marquis Duan Yu said directly. “I can tell you that there are more than 60 Principles Masters in Star Palace. However, most of the Principles Masters in Star Palace are adventuring in the Universe Battlefield. If all the Principles Masters are added up, there are more than 400 Principles Masters in Star Palace.”

“400 Principles Masters?” Jian Wushuang gasped.

In the Divine Beginning Realm, Principles Masters were definitely the top experts. Many top forces in the Divine Beginning Realm did not have many Principles Masters.

The Nine-tailed Clan and the Blood Clan, which Jian Wushuang knew the best, only had 20 to 30 Principles Masters.

In the Divine Beginning Realm, 20 to 30 Principles Masters was already very scary.

But now, in Star Palace, Marquis Duan Yu told him that there were more than 400 Principles Masters in Star Palace?

More than 400 Principles Masters? What did that mean?

If it was in the Divine Beginning Realm, it would be scary.

Marquis Duan Yu naturally saw Jian Wushuang's shock, he immediately smiled and said, "My young friend, you don't have to be too surprised. I told you before that the Divine Beginning Realm is only a world star, and it's only a third-class world star. Compared to the entire vast universe, it's negligible. As for the Principles Masters, they are indeed considered top experts in the Divine Beginning Realm. However, in the vast universe, they are only qualified to roam the universe.

"In the universe, Principles Masters are indeed too mediocre, and the number of them is frightening. For example, in the territory near Divine Beginning Realm, there are dozens of sector stars. Some of them have been born for a very long time, and the number of Principles Masters they have nurtured is very shocking.

"There are also many Principles Masters. The sector stars that have nurtured them have already reached the end point. The sector stars have all collapsed, but as Principles Masters, they can still survive. Among these Principles Masters that have survived, only a small number choose to go to the depths of the universe to try their luck, and most of them stay here.

"Over time, the number of Principles Masters in this territory has reached an astonishing number. After all, Star Palace is a force with a ruler-level expert overseeing it. It has a certain reputation in the surrounding territories. Naturally, its subordinates can recruit a group of Principles Masters to come and rely on it. It can be said that Star Palace can have more than 400 Principles Masters. This is very normal," Marquis Duan Yu explained.

Although Jian Wushuang was still shocked by Marquis Duan Yu's words, he could still accept it.

Indeed, the universe could not be compared to the Divine Beginning Realm.

There were some things that could not exist in the Divine Beginning Realm, but in the universe, they could exist in a very reasonable way.

"Marquis Duan Yu, you just said that the Principles Masters of Star Palace were recruited, which means that most of the Principles Masters of Star Palace are not from the Divine Beginning Realm?" Jian Wushuang asked.

"Yes, although Star Palace was founded on the experts of the Divine Beginning Realm, most of the Principles Masters in Star Palace have nothing to do with the Divine Beginning Realm. In fact, my hometown is not the Divine Beginning Realm," Marquis Duan Yu said.

"Oh? What is your hometown, Marquis Duan Yu?" Jian Wushuang asked.

"My hometown is also from a third-grade world star, but it doesn't belong to this territory and is quite far away from here. I came to this territory because I know there are some great opportunities in this territory, so I came here to try my luck."

"Later, I met Lord Palace Master in this territory. Lord Palace Master saw that I had a very high attainment in array formation, so he made me some conditions that I couldn't refuse. He asked me to join Star Palace, and I agreed. After that, I stayed in Star Palace," Marquis Duan Yu said.

"Is that so?" Jian Wushuang understood. "Speaking of Lord Palace Master, didn't Axe One Master say that Lord Palace master had gone into closed-door cultivation? Who Are you taking me to see now?"

"Haha, it's true that the palace master is in closed-door cultivation, and he doesn't have time to see you now. But besides the palace master, there's another master in Star Palace who wants to see you," Marquis Duan Yu said with a smile.

"Another master?" Jian Wushuang's expression changed. "Someone you can address as a master, Marquis Duan Yu, could it be another ruler?"

"Well, you'll know when you see him." Marquis Duan Yu smiled but did not say it.

Under the guidance of Marquis Duan Yu, Jian Wushuang soon arrived in front of an exquisite black tower.

The black tower was seven stories high. Marquis Duan Yu led Jian Wushuang to the top floor of the tower.

At the entrance of the top floor, Marquis Duan Yu stopped.

"My young friend, the lord is here. You can go in. I have to help the Heavy Master save his brother. I Won't accompany you. After seeing the lord, you can send a message to the Axe One Master. He will arrange a place for you in the Star Palace," Marquis Duan Yu said.

"In that case, thank you, Marquis Duan Yu," Jian Wushuang said gratefully.

...

#### Chapter 3518: Desolation Emperor

After Marquis Duan Yu left, Jian Wushuang did not hesitate to enter the top floor of the tower from the entrance in front of him.

When he entered the top floor of the tower, he thought it should be like an ordinary tower, but in fact, the space on the top floor was different.

Jian Wushuang had already arrived at a unique space, and what he saw was a dense forest.

The trees in the forest were so tall that they reached the clouds. Their trunks were extremely huge, but at first glance, they were not much different from ordinary divine trees except for their sturdiness, after Jian Wushuang entered the forest, he immediately heard the sound of cutting wood coming from the depths of the forest.

Obviously, someone was cutting trees in the depths of the forest.

Following the sound, Jian Wushuang also walked into the depths of the forest. Soon, he saw a woodcutter wearing a simple black robe. The woodcutter wore a bamboo hat and held an ordinary axe in his hand, he chopped the branches of the big tree in front of him again and again.

The exposed dark muscles were covered with sweat. Obviously, the woodcutter had been busy for a long time.

"Is this the lord that Marquis Duan Yu mentioned?" Jian Wushuang frowned slightly.

In his eyes, the man in front of him was indeed no different from an ordinary woodcutter, and he did not emit any divine power fluctuation.

It felt very ordinary.

However, Jian Wushuang knew clearly that the person who could appear in this special space was not an ordinary person?

Only if the other party was so strong that he completely surpassed his level would he feel like an ordinary person.

Taking a deep breath, Jian Wushuang bowed and said, "Greetings, senior."

The woodcutter's axe stopped and he finally raised his head, revealing an extremely ordinary middle-aged man's appearance. However, although the woodcutter's appearance was extremely ordinary, his eyes were extremely deep, he had already looked at Jian Wushuang.

"You are Heavenly Sword Marquis?" The woodcutter stopped what he was doing and rested his ax on his shoulder, looking at Jian Wushuang with interest.

"Yes." Jian Wushuang nodded. "May I know who you are, senior?"

"My name is Desolation Emperor, but few people know this name. In the Universe Battlefield or in the Divine Beginning Realm, people usually call me the Heaven Ancestor," the woodcutter said casually.

"Heaven Ancestor?" Jian Wushuang was stunned, but then he was shocked.

Heaven Ancestor, the Heaven Ancestor of the Heaven Ancestor Daoist Sect!

Like the Heaven-cleaving Alliance Master and the Temporal Temple Master, he was one of the most powerful experts in the Divine Beginning Realm and the founder of the Heaven Ancestor Daoist Sect!

In the Divine Beginning Realm, he had dealt with both the Heaven-cleaving Alliance Master and the Temporal Temple Master, but he had never had the chance to meet the Heaven Ancestor. However, Jian Wushuang did not expect to meet the Heaven Ancestor directly when he had just entered the Universe Battlefield, moreover, "he had met the Heaven Ancestor directly in the Star Palace.

Taking a deep breath, Jian Wushuang suppressed the shock in his heart and said respectfully, "Heavenly Sword Marquis, greetings, Senior Heaven Ancestor."

"Haha, little guy, you don't have to be so formal. Just find a place to sit," the Heaven Ancestor said.

Jian Wushuang looked around and found that there was not even a chair here. However, he did not put on airs and directly sat on the ground.

The Heaven Ancestor sat down on the ground and casually put the axe in his hand to the side.

"Little guy, it seems that you are surprised to see me here." The Heaven Ancestor looked at Jian Wushuang with interest.

"A little." Jian Wushuang nodded slightly. "After all, this is the Star Palace, and you are here. Are you also a member of the Star Palace?"

"No, no, don't misunderstand." The Heaven Ancestor waved his hand, "I'm not a member of the Star Palace, but I have some friendship with the palace master. I've been adventuring in the Universe Battlefield all year round, but I occasionally stop to find a place to rest. However, I'm too lazy to return to the Divine Beginning Realm, so I usually come to the Star Palace. This time, when I heard that you were in the Star Palace, I wanted to see you."

"Is that so?" Jian Wushuang raised his eyebrows and then said with a smile, "It's my great honor to be summoned by you."

"Young man, don't be humble. Others may not know your real identity, but I know it very well." The Heaven Ancestor glanced at Jian Wushuang, he said playfully, "Although you're only a young man at the saint level, you're chosen by Xuan Yi. You carry the hope of the rise of the Seven Star Mysterious Sect."

"Um..." Jian Wushuang was stunned, but he was not surprised.

Most of the experts in the Divine Beginning Realm did not know his true origin, but as the founder of the Heaven Ancestor Daoist Sect and a close friend of Star Palace, it was normal for him to know about it.

"Senior, do you know my master? Do you know him?" Jian Wushuang asked.

"No." The Heaven Ancestor shook his head. "When the Seven Star Mysterious Sect was destroyed, the Heaven Ancestor Daoist Sect was not yet one of the three Freedom Alliances in the Divine Beginning Realm. At that time, I was not a ruler and was not qualified to interact with a big shot like your master. However, after the Seven Star Mysterious Sect was destroyed, I became a ruler and began to interact with Star Palace. Naturally, I know your master better."

"I have to say, your master's skills are indeed impressive. Before he died, he not only sealed the original seven-star divine realm with his heaven-reaching means, but also created you in the sealed Seven Star Mysterious Realm, creating hope for the Seven Star Mysterious Sect to rise again. Even now, I still admire his ability."

Jian Wushuang was also slightly silent.

His master's methods were indeed incredible. Compared to his Master Xuan Yi, he was still far behind.

"You have inherited Xuan Yi's mantle, and just like him, you have unlimited possibilities in the future. You even have the opportunity to overturn the rule of the three Saint Realms and change the overall structure of the Divine Beginning Realm. Unfortunately, your current strength is too weak. Although you have some battle strength, in the end, you are not even a Principles Master yet."

"But it's normal. After all, you're a perfect-level creature, and you're restricted by the Heavenly Dao. It's not easy for you to become a Principles Master. For example, your master was said to have completely comprehended three rules and fused them together to become a Principles Master. But now, how far are you from that?" The Heaven Ancestor looked at Jian Wushuang.

Jian Wushuang pondered for a moment and then said, "I have mastered and merged two principles, but I am still comprehending the third principle."

“Oh?” The Heaven Ancestor’s expression changed, and then he asked, “What is the third principle you are comprehending?”

“The destruction principle,” Jian Wushuang answered directly.

### **Chapter 3519: Chopping Down Trees**

“The destruction principle?” The Heaven Ancestor smiled and stood up. “Little guy, you stay here and watch.”

Jian Wushuang looked puzzled.

The Heaven Ancestor picked up the axe beside him and walked to the bottom of a big tree.

“Watch carefully,” the Heaven Ancestor said as he chopped the axe directly at the big tree.

The axe looked ordinary, just like how an ordinary woodcutter cut a tree.

However, the axe looked completely different in Jian Wushuang’s eyes.

The axe did not contain any divine power or the power of rules.

However, the moment he swung it, Jian Wushuang felt an unprecedented sense of destruction.

This sense of destruction was as if the things in front of him should be destroyed and would be destroyed.

In the face of this destructive will, nothing could survive.

Bang!

The axe hit the tree, but it broke the tree in half. The tall tree immediately fell down and collapsed.

The Heaven Ancestor put the axe back on his shoulder and looked at Jian Wushuang. “Little guy, how is it?”

“This...” Jian Wushuang was a little confused.

Updates by

He did not know how the Heaven Ancestor used the axe.

He did not use any divine power or the power of the destruction principles, but the destructive will contained in the axe was so powerful, it was even more powerful than the killing moves of some experts who had mastered the destruction principles perfectly.

“You didn’t see it clearly? Then let’s see it again.” The Heaven Ancestor smiled and swung the axe again.

This time, Jian Wushuang focused his attention on the identical axe.

Indeed, he did not sense any divine power or the power of the destruction principles in the axe, but the destructive will was so powerful that it shook the world.

“How can the pure destructive will be so powerful without any power of destruction principles?” Jian Wushuang’s eyes were wide open.

“The will of principles is the original will of any principles. This will can be said to be the root of the principles. If you master this will, it will be much easier for you to comprehend this principles in the future,” the Heaven Ancestor said with a smile, then he handed the axe to Jian Wushuang and said, “Try it.”

Jian Wushuang nodded and took the axe.

After taking it, he understood that the ax used by the Heaven Ancestor was indeed the most ordinary one. The axe used by mortals did not have any power. Even the blade of the axe was rusty and not sharp, however, when the Heaven Ancestor swung the axe without using any divine power, Jian Wushuang felt that the axe could destroy the world.

“Will of Destruction?” Jian Wushuang took a deep breath and walked to a big tree. He swung the axe in his hand and chopped at the tree.

He did not use any divine power or use any principles.

The axe hit the tree, but it made a sound like metal colliding. Jian Wushuang’s axe did not even break the bark of the tree.

“This...” Jian Wushuang was stunned.

The Heaven Ancestor smiled and said, “Although the axe is very ordinary, the trees in this space have existed for a long time and have absorbed a lot of heaven and Earth Spiritual Qi. They are much tougher than ordinary trees. Little guy, if you have nothing else to do, stay here and chop more trees. I’ll take a nap first.”

After saying that, Spirit Ancestor found an empty space and lay down. He covered his face with the bamboo hat and did not look at Jian Wushuang again.

However, Jian Wushuang’s expression was extremely grave at this moment.

“Opportunity!”

“This is undoubtedly a rare opportunity for me!”

“Senior Heaven Ancestor, teach me how to master the will of destruction principles!”

“As long as I don’t use any divine power or the power of principles, I will most likely be able to master the will of destruction principles. By then, it will be very easy for me to comprehend the will of destruction principles!”

“Such an opportunity is a once-in-a-lifetime opportunity. I must not waste it!”

“Let’s begin...”

Jian Wushuang’s eyes flashed with determination. In this special space, he held the ordinary axe and began to chop the tree in front of him again and again.

Every time he swung the axe, he was thinking about the destructive will brought by the Heaven Ancestor when he swung the axe.

Time began to pass slowly.

Jian Wushuang had already forgotten everything. He only thought about the axe and the tree in front of him.

In a flash, three years had passed.

Bang!

The axe directly hit the tree in front of him. This time, there was no sound of metal colliding. Instead, there was a heavy muffled sound. The axe in Jian Wushuang's hand had already cut open the bark of the tree, a trace of the axe blade barely sank into the tree.

This scene made Jian Wushuang's eyes light up.

"The will of destruction, so this is the will of destruction!"

"I have only grasped a trace of it. I can barely let the axe cut open the bark of the tree, but I finally understand the will of destruction."

Jian Wushuang's eyes flashed with surprise.

Everything was difficult at the beginning, but once it started, the rest would be much easier.

Jian Wushuang also grasped the will of destruction. Although he had sensed the existence of the will of destruction from the axe wielded by the Heaven Ancestor, it was extremely difficult for him to grasp it. He simply practiced and tried again and again in the forest, but he finally grasped a tiny bit of the will of destruction.

Although it was only a trace, it had already opened the door.

"Continue!"

Jian Wushuang continued to wave the axe in his hand.

The moment Jian Wushuang waved the axe and cut open the bark of the tree, the bamboo hat on the Heaven Ancestor's face moved slightly. Under the bamboo hat, the eyes of the Heaven Ancestor had opened, and there was a playful smile on the corner of his mouth.

"He is worthy of being chosen by Xuan Yi. In just three years, he has comprehended a trace of the destruction will. His comprehension is indeed amazing. It seems that it won't be long before he can master the complete destruction will." The Heaven Ancestor smiled, then he closed his eyes again.

Time continued to pass.

In the blink of an eye, Jian Wushuang had stayed in the forest for a full ten years.

On this day, Jian Wushuang also swung the axe in his hand and chopped down a whole tree.

There was no divine power on the axe, but the moment it was swung, it suddenly burst out with a shocking destructive intent.

Bang!

The rusted ordinary axe was like a sharp blade, directly cutting through the body of the tree.

Boom!

The tree collapsed.

Jian Wushuang was also ecstatic.

### **Chapter 3520: The Ultimate Divine Fruit of Destruction**

“It’s done!”

Jian Wushuang was pleasantly surprised.

“In the past ten years, I’ve been hacking in the forest day and night. During this time, I’ve hacked a million times. Finally, I’ve mastered the destruction origin will. Without using any divine power or principles, I can cut down the tree in front of me with this destruction will alone...” Jian Wushuang murmured, his heart was filled with excitement.

Lying on the empty ground beside him, the Heaven Ancestor, who had been dozing off for ten years, had removed his bamboo hat and opened his eyes to look at Jian Wushuang.

“Tsk, ts. I thought I would sleep for decades or even centuries. I didn’t expect to be woken up by you in just ten years,” the Heaven Ancestor said indifferently.

“Senior, I didn’t fail you. I have already mastered the destruction origin will,” Jian Wushuang said.

“Well, not bad.” The Heaven Ancestor smiled faintly. Then he waved his hand and threw a pitch-black fruit that was emitting a strong destructive aura to Jian Wushuang.

Jian Wushuang took the fruit and held it in his hand. He asked in puzzlement, “Senior, what is this?”

“The ultimate destruction divine fruit contains the complete power of the destruction principles. Under normal circumstances, a cultivator who consumes the ultimate destruction divine fruit will more or less comprehend many destruction principles. Some geniuses who are extremely talented in the destruction principles can fully comprehend more than half of the destruction principles with the help of the ultimate destruction divine fruit, or even completely grasp them!”

“However, if you rely solely on the ultimate destruction divine fruit to control the destruction principles, there will be some difference in the use of the destruction principles in the future. This is because if you rely solely on the ultimate destruction divine fruit to control the destruction principles, it will be very difficult to understand the destruction origin will in the future.”

“However, if a person who has already mastered the destruction will consumes the ultimate destructive divine fruit, it will be no different from the destruction principles he has comprehended. It will be exactly the same,” the Heaven Ancestor said, then he looked at Jian Wushuang calmly.

Jian Wushuang was even more surprised.

According to the Heaven Ancestor, he had already mastered the destruction will, so he could swallow the ultimate destructive divine fruit without any scruples. With the miraculous effect of the ultimate destructive divine fruit, he could completely master the destruction principles.

“Senior, this fruit...” Jian Wushuang hesitated.

Updates by

“After all, it’s our first time meeting. This fruit can be my gift to you,” the Heaven Ancestor said with a smile.

“Thank you, senior,” Jian Wushuang thanked him, but he did not refuse.

He could see that the Heaven Ancestor in front of him was likely on the side of the Seven Star Mysterious Sect. Even if he did not fight against the three Saint Realms with the Seven Star Mysterious Sect, he would at least be against the three Saint Realms, and he was chosen by Xuan Yi, the Heaven Ancestor knew that he could overthrow the rule of the three Saint Realms in the future, so he did not hesitate to give him opportunities.

First, he taught him the will of destruction, and then he gave him the ultimate divine fruit of destruction.

This allowed him to master the principles of destruction in a short period of time, which would greatly increase his strength.

“You can leave now after receiving the greeting gift,” the Heaven Ancestor said.

“I’ll take my leave.” Jian Wushuang did not stay any longer. After bowing respectfully, he turned around and left.

Soon, Jian Wushuang disappeared into the forest.

After Jian Wushuang disappeared, the Heaven Ancestor slowly stood up from the ground. He stretched out his hand, and the axe that he used to chop the tree flew into his hand. This ordinary-looking axe...the moment he held it in his hand, it instantly transformed.

The ordinary axe turned into a golden divine axe that emitted a monstrous aura. It seemed to have the ability to split the sky.

“Old friend, thank you for the past ten years. If it weren’t for you, I’m afraid that little guy wouldn’t have been able to grasp the destruction origin will so quickly.” The Heaven Ancestor smiled faintly.

As he spoke, the divine axe in his hand began to tremble slightly. The casual tremble immediately produced waves that shook the entire space-time.

Jian Wushuang had thought that the axe in his hand was just an ordinary axe used by ordinary people.

At least, that was how he saw it. After all, he could not feel the slightest bit of power from the axe in his hand.

In fact, the axe was an extremely powerful universe supreme treasure. It was just a retractable power. Jian Wushuang had been in the forest for ten years, and when he used the axe to cut down trees time and time again, it was invisible, the axe had helped him a lot. Otherwise, in just ten years, no matter how talented Jian Wushuang was or how strong his comprehension was, he would not have been able to grasp the destruction origin will so easily.

After all, the level of the destruction origin will was extremely high. Even many Principles Masters who had mastered the destruction principles were unable to master the destruction origin will.

"I've helped the little guy. As for his future growth, it's up to him." The Heaven Ancestor smiled and put on his bamboo hat again. The power of the divine axe in his hand was restrained again, the Heaven Ancestor turned into a woodcutter again and continued to cut down the trees in the forest.

...

In the Star Palace.

"My dear Heavenly Sword Marquis, this is the place for you to live. See if you're satisfied." Axe One Master led Jian Wushuang to a courtyard.

Although the courtyard was not large, it was extremely exquisite. There was a separate magic formation around the courtyard that could block the detection of the surrounding experts.

"Not bad. Thank you for your help, Axe One Master," Jian Wushuang said.

"You're too kind. You can stay here and do whatever you want for the rest of the time. However, most of the Principles Masters in Star Palace are very old and have very strange temperaments. If you want to communicate with them, you'll have to be a little more lenient," Axe One Master said.

"I understand." Jian Wushuang nodded slightly.

Axe One Master left after giving his instructions.

In the courtyard, Jian Wushuang stood alone with a smile on his face.

"I have already mastered the destruction origin will and the ultimate destruction divine fruit given to me by the Heaven Ancestor. In the following days, I will first consume the ultimate destruction divine fruit. In addition to the special treasures I exchanged for in the treasure pavilion of the Heaven-cleaving Alliance, I will first master the destruction principles thoroughly.

"Once I master the destruction principles, I'll have an additional power of the will, and my strength will also increase dramatically. At that time, I'll have nothing to fear even when facing experts of the six void realms.

"In addition, once I master the destruction origin will, my swordsmanship can also be improved, and I can even try to create stronger swordsmanship."

Jian Wushuang muttered and soon began to cultivate alone.
