

## **Swordsman 3521**

### **Chapter 3521: 600 Years**

It was quiet in the Star Palace.

Jian Wushuang was alone in his courtyard, cultivating and no one came to disturb him.

He could feel at ease comprehending the destruction principles and studying swordsmanship at the same time.

Time passed quickly. In the blink of an eye, 600 years had passed.

In a secret pavilion in the Star Palace, several high-level experts of the Star Palace gathered together and were sorting out some information about the Universe Battlefield during this period.

"Everyone, take a look at this information." Axe One Master waved his hand, and immediately, a piece of information appeared in everyone's line of sight.

The content of the information was that an advanced universe true treasure armor had appeared on Blood Rock Mountain battlefield, which had caused a lot of competition, and this advanced universe true treasure armor had been obtained by Gold Master in the end.

"Gold Master? Isn't this old guy adventuring in Quicksand Demon Realm? When did he go to Blood Rock Mountain?" Star Saint Master said.

"He probably went there in the near future. My Star Palace hasn't heard anything about him, but I'm sure he's lucky. He got an advanced universe true treasure armor not long after he arrived," a red-clothed girl said with a smile.

This red-clothed girl was one of the higher-ups of Star Palace, Seven Emotions Master.

To be able to become a higher-up of Star Palace, this red-clothed girl was also a Principles Master who had reached the sixth level of the void realm Realm.

"Tsk, tsk," said Marquis Duan Yu. "This Golden Crow Master's combat power is already extremely powerful, and he's already considered quite strong among the Principles Masters of the sixth level of the void realm Realm. Now that he has obtained an advanced universe true treasure armor, his combat power will definitely be stronger than before. In the future, he'll be even more difficult to provoke."

"Who cares?" Seven Emotions Master said, "Anyway, there's no enmity between Golden Crow Master and my Star Palace. Whether he's strong or not has nothing to do with us. In the future, we just need to pay a little attention to him. There's no need to pay too much attention to him."

"Compared to Golden Master, I'm more concerned about that God Fei Master who appeared in Devil Smoke Valley recently!"

Updates by

"God Fei Master?"

Hearing this name, the expressions of the people present immediately became solemn.

"This God Fei Master is indeed worthy of being taken seriously. After all, ever since he appeared in Devil Smoke Valley, he has been killing experts in a frenzy. Furthermore, his killing spree is extremely frenzied. Regardless of who the other party is, regardless of what background the other party has, which faction he comes from, or even whether he is weak, as long as he meets him, he will not hesitate to kill him with all his might."

"Most importantly, he is terrifyingly strong. From the strength he displayed previously, he should have already reached the peak of the sixth level of the void. Such a powerful madman would be a huge headache for any power." Axe One Master said.

"Indeed. I don't know where this God Fei Master came from. Before this, he didn't have any fame at all. Now that he has appeared, he is slaughtering maniacally. Furthermore, his survival abilities are extremely strong. Previously, he angered an expert at the pinnacle of the sixth level of the void, but in the end, he easily escaped from the hands of that expert. This proves that to kill him, at the very least, a ruler-level expert would have to act personally."

"But how many ruler-level experts do we have in this territory? If we don't reach a certain level, why would we lower our status to deal with a Principles Master?" Marquis Duan Yu asked.

A ruler-level expert was high and mighty, something a Principles Master could not compare to.

However, because a ruler-level expert was too aloof, they would not lower their status to deal with a Principles Master personally unless the other party really offended them too harshly.

However, in ordinary small fights, for example, the current God Fei Master wantonly massacred in Devil Smoke Valley. However, he massacred experts from all sorts of factions and was not a single faction, so he did not cause too much of a loss to any faction, a ruler-level expert would not personally appear.

"According to my estimations, this God Fei Master shouldn't be an expert from our territory. He might be from another territory. When he heard that we have three great battlefields here, he specially rushed over. We've already encountered quite a few madmen like him who have no background and are incomparably powerful. All of them are extremely difficult to deal with. The best way to deal with such madmen is to stay at a respectful distance. Send a message to all the experts under my Star Palace who are adventuring in Devil Smoke Valley to be extremely careful of this God Fei Master. The moment they see him, they will immediately flee for their lives."

"Although this God Fei Master is powerful and his life-saving abilities are exceptional, his methods of pursuing and killing others aren't necessarily that brilliant. As long as we don't let him get too close, the Principles Masters within our Star Palace will have a very high chance of escaping," Axe One Master said.

"Mm, that's all we can do."

Everyone present nodded.

And at this moment...

"Oh?" Axe One Master's expression suddenly changed.

"Axe one, what's wrong?" Marquis Duan Yu looked over.

"It's my little friend, the Heavenly Marquis. He just sent me a message saying that he's going to Devil Smoke Valley to explore," Axe One Master said.

"My little friend, the Heavenly Sword Marquis?" Seven Emotions Master's expression changed. "The little friend you're talking about, could it be the Immortal Saint called Heavenly Sword Marquis sword that you brought from the Divine Beginning Realm?"

"It's him." Axe One Master nodded.

"This little fellow, has he gone mad? He is an Immortal Saint, but he actually said that he wants to go to Devil Smoke Valley?" Seven Emotions Master said in surprise.

"That might not be the case." Marquis Duan Yu smiled. "Seven Emotions Master, you might not know this, but although Heavenly Sword Marquis is only an Immortal Saint, his combat strength has long surpassed that of an ordinary Principles Master. Back then in the Great War of the Nine-tailed Clan in the Divine Beginning Realm, I personally saw him kill a Principles Master of the fourth level of the void realm by himself. Therefore, in terms of combat strength, he is at least at the peak of the fourth level of the void realm and is at the fifth level of the void realm."

"In addition, his talent is extremely shocking. After cultivating in my Star Palace for six hundred years, his strength must have improved. Now that he says he wants to explore Devil Smoke Valley, he must have a certain degree of confidence."

"An Immortal Saint killed a Principles Master of the fourth level of the void? Is this true?" Seven Emotions Master was in disbelief.

"This is absolutely true. Axe One Master, Star Saint Master, and I saw it with our own eyes," Marquis Duan Yu said.

"It is true." Axe One Master and Star Saint Master nodded.

"Even if it is true, he is still an Immortal Saint. It would be too ostentatious for him to venture into Devil Smoke Valley," Seven Emotions Master said.

"That's why he's sending me a message now. He wants me to think of something, such as finding him a supreme treasure that can hide his godly power aura." Axe One Master smiled. "There's an obvious difference between the Principles Master and the Immortal Saint. It's nothing more than his godly power aura. As long as there's a treasure that can hide his godly power aura, naturally no one will know that he's the Immortal Saint."

#### Chapter 3522: The Three Battlefields

"There are a few treasures in Star Palace that can hide the divine power aura of a cultivator. If you want, just pick one for him," Marquis Duan Yu said with a smile. "Based on his strength and some of his previous achievements in the Divine Beginning Realm, as long as he doesn't seek death or accidentally enter some dangerous places in Devil Smoke Valley, there shouldn't be too much danger."

"Well, I think so too," Axe One Master said with a smile.

They knew clearly that Jian Wushuang could not even deal with a master of the Saint Realm in the Divine Beginning Realm. His life-saving ability was probably much stronger than the one they were

talking about, Master Fei. In the Devil Smoke Valley...as long as he did not enter those dangerous places, only a master level expert would be able to kill him.

However, how could an ordinary master level expert have the time to deal with a little guy like him?

Marquis Duan Yu, Axe One Master, and Star Saint Master all agreed that Jian Wushuang should go to Devil Smoke Valley. Only Seven Emotions Master, who did not know Jian Wushuang very well, rolled his eyes but did not say anything.

"In that case, you guys continue to chat. I'll go and see this Heavenly Sword Marquis in person." Axe One Master laughed and disappeared into the secret pavilion.

...

Star Palace, in the courtyard where Jian Wushuang lived.

"Heavenly Sword Marquis." Axe One Master rushed over from afar.

"Axe One Master, please come in person." Jian Wushuang greeted him with a smile.

"You're too kind. I know you're going to Devil Smoke Valley, so I don't dare to delay." Axe One Master also smiled. "My friend, since you've decided to go to Devil Smoke Valley, you should know where it is, right?"

"Yes. It's one of the three battlefields in this territory. It's filled with endless dangers and opportunities," Jian Wushuang said.

"Haha, it's good that you know. Devil Smoke Valley is the second most dangerous of the three battlefields, especially the core area of Devil Smoke Valley. Even a ruler-level expert has to travel carefully. Although your life-saving ability is not weak, you still have to be careful if you go there," Axe One Master said.

"I understand." Jian Wushuang nodded.

Jian Wushuang had known for a long time that there were three Universe Battlefields in the territory of the Divine Beginning Realm, namely Bloodstone Mountain, Devil Smoke Valley, and Quicksand Demon Realm.

These three battlefields had existed in this territory for God knows how long. No one knew how these three battlefields came about, but everyone in this territory knew that there were a lot of opportunities in these three battlefields.

Because of this, experts from all the world stars in this territory liked to explore the three battlefields, including many ruler-level experts.

For example, in the Divine Beginning Realm, the Universe Battlefields mentioned by the Principles Masters referred to these three places.

Since Jian Wushuang had already left the Divine Beginning Realm, he would naturally explore the three Universe Battlefields. Especially in the past 600 years, his strength had improved greatly, which had given him a certain amount of capital.

In the Devil Smoke Valley of the three Universe Battlefields...the reason why Jian Wushuang chose to explore this place first was that there was a star map of the Universe Battlefields among the opportunities given to him by the blood north secret area, the star map recorded a special space that might contain great opportunities.

The location of this special space was in the Devil Smoke Valley.

“As one of the three battlefields, Devil Smoke Valley not only has a large number of experts from various astral worlds roaming there but also contains a large number of natural dangers. For me, I don’t need to pay too much attention to those experts from various astral worlds. After all, they are not experts above the ruler level, so they should not be able to threaten me. But the natural dangers in Devil Smoke Valley... are the most terrifying.” Jian Wushuang knew very well.

His life-saving ability was strong. Even if a ruler-level expert was chasing after him, he could still try to escape. There was even a chance that he could escape.

However, some of the natural dangers in Devil Smoke Valley could even kill a ruler-level expert. If he was careless and fell into those natural dangers, forget about the Star Palace, he was afraid that no one in this territory would be able to save him, no one would be able to save him.

For example, Xue Bei found the special space. According to Xue Bei, when he just approached it, he was suffocated and did not dare to go deep, however, Xue Bei was a very powerful expert of the fifth void realm. He did not dare to go far in that special space. It was obvious how dangerous that special space was.

This time, Jian Wushuang was going to explore that special space, so he had to be careful.

“My young friend, this is what you need.” Axe One Master reached out and took out a gray bead with a strange aura and handed it to Jian Wushuang. “This bead was accidentally obtained by an expert of Star Palace. After you refine it and integrate it into your body, it will naturally help you hide your divine power aura.”

“However, the level of this bead is not too high. After it conceals your aura, the Principles Master will naturally not be able to see any flaws. An ordinary ruler-level expert who is weak in strength or perception may not be able to see through it. However, if you encounter an extremely strong or extremely sensitive ruler-level expert, he will be able to see through you easily.”

“It’s already good enough to fool an ordinary master level expert.” Jian Wushuang accepted the gray bead with satisfaction.

There were only so many master level experts in this territory. He did not even know if he would meet a master level expert during his trip to Devil Smoke Valley. Even if he did meet one, he would not be able to see through his strength unless he was extremely strong, or if it was a ruler-level expert with sharp senses, he would not be able to see through his actual strength.

Most importantly, even if a ruler-level expert happened to see through his strength, so what?

A ruler-level expert wouldn’t be so bored as to reveal this matter to the public unless it was a ruler who had a grudge against him or the Star Palace.

“Other than this ruler, I’ve also prepared two things for you.” Axe One Master said, then flipped his hand and took out another jade slip. “This jade slip contains the star map of Devil Smoke Valley that our Star Palace experts have obtained after searching for a long time. Of course, Devil Smoke Valley is too huge. Even after searching for a long time, the star map that our Star Palace has obtained is probably less than one-tenth of Devil Smoke Valley. However, it’s better to have this star map than not having it.”

“Okay.” Jian Wushuang nodded.

The star map was very important in the Devil Smoke Valley.

Without the star map, it was no different from seeking death to wander blindly.

### **Chapter 3523: Blood Crystal Armor**

“Other than the star map, the jade slip also contains information about most of the experts from the various forces in the astral world of this territory. Most of them are experts who happened to be wandering in the Devil Smoke Valley during this period of time, especially those who are extremely powerful and need the main experts. They are all marked in the jade slip. Take a good look and have a good idea.”

“In the future, when you are adventuring in the Devil Smoke Valley, if you encounter these extremely powerful experts, it’s best to avoid them. After all, those who are adventuring in the Universe Battlefield, as long as they aren’t from any major faction, can be classified as enemies. In the Universe Battlefield, there are people everywhere who kill and plunder the treasures of other experts. There are many people like this in the Devil Smoke Valley, and among them, there is no lack of experts!”

“Take the newly-risen Master Fei for example. He is a complete killing maniac. In Devil Smoke Valley, he kills anyone he sees. You must be careful when you meet such a person,” Axe One Master warned.

“I understand.” Jian Wushuang nodded slightly and took the jade slip.

“In addition to this jade slip, Star Palace has specially prepared a supreme treasure for you. Oh, this is it.” Axe One Master waved his hand, and a blood-red crystal-like armor appeared in front of Jian Wushuang.

As soon as the blood-red crystal jade armor appeared, a strong aura of a true treasure immediately emanated.

The strength of this true treasure aura was much stronger than many true treasures Jian Wushuang had seen in the Divine Beginning Realm.

“Axe One Master, this is?” Jian Wushuang looked puzzled.

“Its name is the blood crystal armor. It was obtained by Star Saint Master when he was adventuring in the Quicksand Demon Realm. It is an elementary universe true treasure armor,” Axe One Master said.

“Elementary universe true treasure?” Jian Wushuang frowned.

“Don’t underestimate it. Although it’s only an elementary universe true treasure, it’s completely different from those true treasures in the Divine Beginning Realm. Most of the true treasures in the Divine Beginning Realm are produced by the Divine Beginning Realm itself, or forged by the blacksmiths

in the Divine Beginning Realm. They can't be compared to universe true treasures. Even Elementary universe true treasures are much more powerful than those so-called top-tier true treasures in the Divine Beginning Realm

"As for this blood crystal armor, as a low-level universe true treasure armor, not only does it have amazing protective abilities, but it can also greatly increase one's own power. This is a treasure that many Principles Masters yearn for and even fight over madly.

"Actually, there aren't many such treasures in Star Palace, so under normal circumstances, even great beings from Star Palace would need to make sufficient contributions to Star Palace or rely on other treasures to exchange for a universe true treasure of this level. There are almost no free gifts.

"As for you, our Star Palace has also considered that you are only an Immortal Saint after all, and it's your first time exploring the Universe Battlefield. In order to improve your life-saving ability, we temporarily gave you the blood crystal armor. However, we only lent it to you, and you will have to repay it in the future.

"After you have explored the Universe Battlefield for a period of time and familiarized yourself with the environment, Our Star Palace will take back the blood crystal armor. Or you can take out a treasure of equal value to exchange for the blood crystal armor," Axe One Master said.

"Is that so?" Jian Wushuang raised his eyebrows and looked at the blood crystal armor in front of him. Without hesitation, he forced out a drop of blood essence and began to refine it.

In just a moment, the blood crystal armor turned into a blood-red robe and was put on his body.

As for the golden armor that Jian Wushuang was wearing, he naturally put it back into his interspatial ring.

Although the golden armor was his natal armor, which had gradually grown over the years and reached the level of a supreme treasure, it was forged in the Divine Beginning Realm, so its limitations were too low, it was far from being comparable to the universe supreme treasure armor.

Previously, Jian Wushuang wore the golden armor, so it could only provide him with some protective abilities. But now that he wore the blood crystal armor, Jian Wushuang immediately understood the universe supreme treasure armor, it was very different from the golden armor.

The blood crystal armor not only had excellent protective abilities, but it could greatly weaken the attack power of the enemy experts. At the same time, it also contained three layers of power.

The first layer of power increased the power of one's divine power by ten times!

The second layer of power increased the power of one's divine power by forty times!

The third level of power increased the power of his divine power by 100 times!

"This, this is too strong?" Jian Wushuang's eyes widened.

The power of divine power increased by 10 times or 100 times? Did this not increase a person's strength?

Although the armor only increased the basic divine power, not the power of the will after mastering the rules or the strongest power of the whole, the increase in the basic divine power was still significant, would also have a huge impact on a person's strength.

Especially for Jian Wushuang, he was a perfect chaotic creature. Although he was only at the saint level, his basic divine power was even stronger than that of an ordinary Principles Master.

In other words, his basic divine power was already stronger than that of an ordinary Principles Master. If he activated the power of the blood crystal armor, he could fully display his advantage in the basic divine power.

"This armor is too powerful, and it's only an elementary universe true treasure. I wonder how powerful that so-called advanced universe true treasure or top-tier or pinnacle universe true treasure is." Jian Wushuang exclaimed, at the same time, the image of the Mountain River Map appeared in his mind.

After all, the Mountain River Map was a pinnacle universe true treasure.

It was a pity that although he had the supreme treasure, he had never been able to fully utilize its power. He had only used the power given to him by the Blood Wave on the Saha Island, he had forcefully activated the power of the Mountain River Map and severely injured the Flame Saint Master and the Sorcerer God.

"My young friend, can you activate the triple power of the blood crystal armor?" Axe One Master looked at Jian Wushuang.

Jian Wushuang immediately tried, and the result soon came out.

"I've already tried. Now I can only activate the first level of power. As for the second level of power, I feel it's still far from enough," Jian Wushuang said.

"It's already good enough to activate the first level of power." Axe One Master smiled and said, "Under normal circumstances, only the top experts among the Principles Masters can activate the first level of power. The second level of power can only be activated by experts who have reached the pinnacle of the void master. As for the third level of power, it can only be activated by experts at the ruler level."

...

## **Chapter 3524: Devil Smoke Valley**

"Only a master level expert can activate the third level of power?" Jian Wushuang was surprised.

"It's all the same, and it's because the blood crystal armor is only an elementary universe true treasure armor. If it's an advanced or top-tier universe true treasure armor, even an ordinary master can't fully unleash its power. But as long as it can unleash part of the power of a true treasure, it can greatly increase its strength." Axe One Master smiled.

"My dear Heavenly Sword Marquis, you've just arrived at the Universe Battlefield, and you haven't really explored it yet, so you don't know much about it. In fact, for many great beings who have explored the three battlefields of the universe, their own power is important, but there are some powerful true treasures that can greatly enhance their power.

“Take ordinary attack true treasures as an example. Any universe true treasure, even if it’s just a low-level universe true treasure, can be very useful in the hands of great beings. Ordinary Principles Masters all have immortal bodies, which are extremely difficult to kill. However, as long as they have an attack godly weapon at the level of a universe true treasure, it’ll be easy to kill this Principles Master.

“For example, in the Divine Beginning Realm, it is extremely difficult for a Principles Master at the fifth level of the void realm to kill a Principles Master at the fourth level of the void realm. It requires a certain degree of luck. However, on the Universe Battlefield, if those Principles Masters at the fifth level of the void realm who have universe true treasures encounter a Principles Master at the fourth level of the void realm, as long as they think of a way to prevent the other party from escaping, it will be extremely easy to kill him. Sometimes, they can even kill the other party with a simple move or two.”

“Some Principles Masters who have a big gap in strength can even kill a Principles Master in one strike.”

“Is that so?” Jian Wushuang raised his eyebrows, he thought to himself, “It’s indeed very difficult to kill a Principles Master in the Divine Beginning Realm. However, in the Universe Battlefield, even though they are all Principles Masters, it seems that it’s relatively easy for an expert to kill a weak one as long as they have a powerful universe true treasure.”

“However, I don’t have any universe true treasures that can be used to attack.”

His offensive godly weapon was the Blood Mountain Sword, which was his original godly weapon. It had grown with him. Although it had the potential to become a universe true treasure, there was still a big gap between it and a universe true treasure, Star Palace had only given him a blood crystal armor for life-saving purposes, but they had not given him any offensive godly weapons.

“My young friend, there is another token here. This token is your identity token. After you refine it, you can sense any experts from the Star Palace near you. In addition, if you encounter any danger or trouble in the three battlefields in the future, you can use this token to seek help from the experts from the Star Palace around you at any time,” Axe One Master said.

“I understand.” Jian Wushuang took the token and nodded slightly.

“Alright, I’ve given you everything I need to give you. I’ve told you everything I need to tell you. Now, you can go directly to the hidden stronghold near Devil Smoke Valley through the universe passage in my Star Palace,” Axe One Master said, then he turned around and left.

“Thank you, Axe One Master.” Jian Wushuang thanked him.

After Axe One Master left, Jian Wushuang heaved a sigh of relief and then smiled.

“I have mastered the principles of destruction in the six hundred years of cultivation in the Star Palace. I have also created the strongest move in swordsmanship. It is time for me to go to the Devil Smoke Valley and have a good look.”

With that, Jian Wushuang headed straight for the Star Palace Cosmic Passage.

...

As one of the three battlefields, Devil Smoke Valley was frighteningly large.

In the Divine Beginning Realm, there were countless cultivators and vast territories in the universe, but in fact, the area of the Divine Beginning Realm was far smaller than Devil Smoke Valley, it was not even one-twentieth of the total area of Devil Smoke Valley.

It was precisely because Devil Smoke Valley was too vast that so many experts from the Star Palace went to explore it. However, the area they explored was still less than one-tenth of Devil Smoke Valley.

In the void near Devil Smoke Valley, there was a hidden stronghold of the Star Palace.

In the void outside the stronghold...

"Brother, this time, we have to properly explore Devil Smoke Valley. We have to find more opportunities before we can return," Heavy Master, who carried a heavy sword on his back and was more than two meters tall, said in a deep voice.

"I know. Last time, in order to save me, you exchanged all the contribution points you earned in Star Palace in one go. You even exchanged the basic universe true treasure armor you obtained with great difficulty for contribution points. Only then did you ask Marquis Duan Yu to come and save me. Don't worry. This time, you and I will explore Devil Smoke Valley. We must earn back all the things you exchanged for," said an evil middle-aged man with purple hair and purple eyes.

"Haha, with your words, I can rest assured. With us brothers working together, as long as our luck isn't too bad and we encounter a limited number of monsters, we should be able to do whatever we want. If we have the chance, we can even try venturing into the depths of Devil Smoke Valley," the Heavy Master said.

"Venturing into the depths is still too much of a stretch. Let's first venture into the outer regions and see if there are any gains," the purple-haired, purple-eyed, evil middle-aged man said.

"Mhm." Heavy Master nodded. But suddenly, his expression changed. He lifted his head and stared at the space behind him. There, a figure walked out from the Star Palace's stronghold.

"Heavy heavy, that person walked out from your Star Palace's stronghold. He should be an expert from your Star Palace, right? But why does he look so unfamiliar?" The violet-haired, violet-eyed, evil middle-aged man asked.

"Of course he's unfamiliar. He has only stepped into the universe and has only been in my Star Palace for 600 years. During these 600 years, he has been staying in my Star Palace's lair. This is probably the first time he has ventured into the three great battlefields," Heavy Master said.

"Is that so?" The purple-haired, purple-eyed, evil middle-aged man understood.

However, Heavy Master had already frowned at this moment. "Strange. Six hundred years ago, Heavenly Sword Marquis was only an Immortal Saint when he was brought to the Star Palace by Marquis Duan Yu. Now, he has already broken through to become a Principles Master?"

"Six hundred years ago, he was only an Immortal Saint? In other words, he has just broken through to become a Principles Master?" The purple-haired, purple-eyed, evil middle-aged man could not help but be surprised. "A Principles Master who has just broken through actually dares to come to Devil Flame Island to explore. Moreover, it seems that he intends to explore alone? What audacity."

“That’s right.” Heavy Master also nodded. “He has just broken through, and yet he dares to explore Devil Flame Valley alone. This Heavenly Sword Marquis really doesn’t know what’s good for him. In any case, he doesn’t have any friendship with us, so there’s no need to pay attention to him. Let’s go.”

After saying that, Heavy Master and the purple-haired, purple-eyed, evil middle-aged man headed straight for Devil Flame Valley.

### **Chapter 3525: Heavy Master**

Jian Wushuang had just walked out of the stronghold of Star Palace, so he naturally noticed Heavy Master.

“Heavy Master, the one next to him should be his brother, Purple Sound Master, right?”

“Six hundred years ago, when I first arrived at Star Palace, Heavy Master was very anxious to ask Marquis Duan Yu to save his brother. Now it seems that he has been saved.

“However, the Heavy Master doesn’t seem to want to talk to me.”

Jian Wushuang touched his nose with a strange expression, but he did not care.

He had already refined the bead that hid the aura of divine power. He used the bead’s saint aura and deliberately disguised it as the aura of a Principles Master.

Therefore, when the Heavy Master saw him, he thought that he had broken through to become a Principles Master. In fact, he was still an Immortal Saint.

However, even though he was just an Immortal Saint, Jian Wushuang still went to the Devil Smoke Valley alone.

The Devil Smoke Valley was filled with black smoke, which was a kind of miasma. It had a certain erosive effect on the divine body of cultivators, especially in the deepest part of the Devil Smoke Valley, where the miasma was extremely strong, even Principles Masters in the four or five void realms could hardly resist it. Therefore, under normal circumstances, the experts who dared to go to the deepest part of the Devil Smoke Valley were all above the six void realms.

Just like what the Heavy Master had said earlier, they were not venturing into the depths of the Devil Smoke Valley.

Within the hazy black smoke, the Heavy Master and the Purple Sound Master were moving forward side by side. As they had just entered the Devil Smoke Valley, they were still at the outermost perimeter of the valley. The dangers here were much less, hence, the two of them were not too nervous. They were chatting as they moved forward.

“I don’t know what kind of ability that Heavenly Sword Marquis has. Six hundred years ago, it was said that Marquis Duan Yu personally went to the astral world to bring him in. When I saw him at that time, he was clearly just an Immortal Saint, but Marquis Duan Yu said that his strength might not be inferior to mine. Brother, don’t you think this is a joke?” The heavy Heavy Master curled his lips and said.

“An Immortal Saint is as powerful as you?” Purple Sound Master shook his head and smiled. “Maybe there’s a special relationship between Sword Sky Marquis and Marquis Duan Yu.”

“Yeah, I think so too. You didn’t see it, but I sensed him. The blood robe he’s wearing is actually a low-level universe true treasure armor, the blood crystal armor. It’s one of the top-tier universe true treasure armors, and it’s more valuable than the one I got before. Now that it’s in his hands, I’m sure he didn’t exchange it for it with his contribution points.”

“Maybe it was Marquis Duan Yu who gave it to him,” said Heavy Master.

“Haha, Why? Are you jealous of him or the blood crystal armor on his body?” Purple Sound Master laughed, “In fact, even if there is a special relationship between Marquis Duan Yu and Sword Sky Marquis, Marquis Duan Yu can’t give him a low-level universe true treasure of Star Palace by himself. Even if he wanted to give it to him, he had to exchange it with his contribution points.”

“That’s true,” said Heavy Master. “But I still can’t accept it. A great being from Star Palace risked his life to get a true treasure, and yet, it was given to him for nothing. Look at him. With his power, he’s wandering around Devil Smoke Valley alone. It Won’t be long before other great beings find him and kill him. His blood crystal armor will naturally fall into the hands of others. If I get this blood crystal armor, my power will completely recover to peak level, or even stronger.”

“Alright, don’t be jealous. If you want a true treasure, you can look for it in Devil Smoke Valley. There are many opportunities and true treasures here. If you’re lucky, you might be able to get a higher-level true treasure armor,” Purple Sound Master said.

“Yes, you’re right.” Heavy Master nodded.

However, at that moment, a thin figure suddenly appeared in the black smoke in front of them.

“Huh?”

Heavy Master and Purple Sound Master immediately looked over.

“This person is...Bitter Hand Master from the punishment God Sector!”

“Bitter Hand Master is only at the fourth level of the void realm realm, and he doesn’t have a universe true treasure armor to protect his body. However, he has an offensive godly weapon that is at the level of a low-level universe true treasure. In addition, he has a domain type true treasure and a soul defense type true treasure, which is the best in the star sector.”

Heavy Master and Purple Sound Master recognized the figure in front of them immediately, and at the same time, they immediately remembered the information about this person.

In an instant, their gazes became somewhat heated.

And that Bitter Hand Master also noticed their gazes at the first moment, and was startled on the spot. His expression also changed drastically, and without any hesitation, he immediately turned around and fled madly.

“Haha, you still want to escape?”

“Bitter Hand Master, why are you in such a hurry to escape? You should stay and have a good talk with us brothers.”

Both Heavy Master and Purple Sound Master laughed loudly, and their speed immediately erupted as they chased after Bitter Hand Master.

On the Universe Battlefield, the great beings from various forces and factions did not need to pay attention to any rules. When they saw each other, as long as they thought they were stronger than the other, they could directly intercept and kill or plunder.

Now that the two of them saw Bitter Hand Master, the first thing they understood was that Bitter Hand Master could not compete with either of them. Besides, Bitter Hand Master had an offensive godly weapon at the level of a universe elementary true treasure, there were also several top-tier true treasures within the star sector. These things were very attractive to both Heavy Master and Purple Sound Master.

Therefore, the two of them made a decision without hesitation. They wanted to kill Bitter Hand Master in front of them and seize the treasures in his hands.

However, as the two of them chased after him, they discovered that although this Bitter Hand Master was not very strong, his escape speed was very impressive. The two of them had already burst forth with their fastest speed, however, they were unable to close the distance between them.

And during the chase, Zi Ming Master also discovered something.

“Something isn’t right. The direction this Bitter Hand Master is fleeing toward is actually the tornado stream?” Zi Ming Master frowned, “The tornado stream is filled with incomparably terrifying hurricanes on both sides. Even the divine bodies of experts at the six void realms could be easily annihilated. Although there is a passageway in the middle of the tornado stream that can be directly passed through, the passageway isn’t wide. Once an intense battle occurs, the slightest carelessness would cause one to fall into the hurricanes on both sides and be doomed forever.”

“The Bitter Hand Master is not slow. He has a chance to escape from us. Why is he running toward Whirlwind Brook?”

### **Chapter 3526: Traps**

There were many dangerous and dangerous places in Devil Smoke Valley. One of them was Whirlwind Brook, and it was quite famous.

The surroundings of Whirlwind Brook were filled with terrifying hurricanes. Those hurricanes could easily kill Principles Masters. Even the Principles Masters of the six states of void would have a high chance of dying if they were caught in those hurricanes, such a dangerous place was a taboo for ordinary cultivators, and they did not dare to go there easily.

Therefore, seeing that Bitter Hand Master was actually fleeing in the direction of the tornado stream, Zi Ming Master felt a little strange at the first moment.

However, Heavy Master snorted coldly and said, “This place is relatively close to the tornado stream. Bitter Hand Master was chased by you and me, so he could only run for his life. It’s normal for him to flee to the tornado stream in a moment of desperation. It’s not a big deal. He’s a Principles Master at the bottom of the four levels of the void, and he doesn’t have any great power or background behind him. Could it be that he wants to scheme against the two of us?”

Heavy Master did not mind.

Hearing his words, Purple Sound Master nodded slightly. "You're right."

Although the two of them sensed that Bitter Hand Master was fleeing in a strange direction, they did not pay too much attention to it and continued to chase after him.

The main reason was that the two of them were more confident in working together. In the outer area of Devil Smoke Valley, there were only a few top experts who could truly threaten the two of them, and this Bitter Hand Master did not have a big background, thus, they were not too vigilant and on guard.

After a round of pursuit, the three of them quickly entered the Whirlwind Brook.

The moment they entered the Whirlwind Brook, Heavy Master and Purple Sound Master immediately sensed the terrifying hurricanes on both sides.

Although the Hurricanes were still some distance away from them, they still gave them a feeling of fear and trepidation.

"Heavy, be careful. The hurricanes in this Whirlwind Brook are extremely terrifying. If either one of us were to fall into these hurricanes, we would most likely die," Purple Sound Master said.

"I know." Heavy Master nodded heavily. However, his gaze was fixed on Bitter Hand Master, and a fierce light flickered in the depths of his eyes. "Bitter Hand Master's speed has already slowed down."

"Mm." Purple Sound Master nodded. "From the moment we chased after him, his speed was close to ours at the start. However, gradually, his speed slowed down. It seems that he used some sort of secret technique previously. In a short period of time, he was able to burst out with a speed close to ours. However, as time passes, his speed will become slower and slower. This way, we can catch up to him."

During his escape, Bitter Hand Master's speed had been slowing down. It was precisely because of this that the two of them felt that they had a chance to chase down and kill Bitter Hand Master, which was why they did not hesitate to chase him all the way to this Whirlwind Brook.

However, right at this moment...the figure of Bitter Hand Master, who had been frantically fleeing ahead, suddenly stopped.

He stopped in the central area of the Whirlwind Brook passage. After which, he turned his head to look at Heavy Master and Purple Sound Master. A cold and strange smile appeared on his face.

"Heavy Master from Star Palace and solitary expert Purple Sound Master have chased after me for such a long time. Aren't the two of you tired?" Bitter Hand Master said coldly.

"Hm?" Heavy Master and Zi Ming Master's expressions sank.

From Bitter Hand Master's expression and his words, they immediately had a bad premonition.

Bitter Hand Master's gaze suddenly turned to the side. "I wonder if these two Principles Masters are in accordance with your wishes, my lord?"

"My lord?" Heavy Master and Zi Ming Master's expressions changed.

Sure enough, after Bitter Hand Master finished speaking, a human figure slowly stepped out from the hurricane on the other side.

“Someone is here? And he is hiding in the hurricane?” Heavy Master was shocked.

They knew very well how terrifying the Hurricanes on both sides of the tornado stream were. Even the hurricanes at the edge could easily kill a five-level Principles Master of the void realm. As for a six-level Principles Master of the void realm...they could only withstand it. Only a great being at the sixth level of the void realm with a universe true treasure armor and above could stay in the Hurricanes at the edge with relative ease.

And the person who appeared now was obviously hiding in the Hurricanes at the edge. While enduring the attacks of the Hurricanes, he was also using them to perfectly hide himself, Heavy Master and Purple Sound Master did not notice that there was someone there at the first moment.

It was not until Heavy Master and Purple Sound Master arrived here, and they were very close to him, that he finally walked out of the hurricane and appeared in front of Heavy Master and Purple Sound Master.

To be able to do this, there was no doubt about his strength!

“Bitter Hand Master, you did well. This is for you.”

The person who walked out of the hurricane glanced at Bitter Hand Master and threw an interspatial ring over.

“Thank you, my lord.” Bitter Hand Master received the interspatial ring, and his face revealed a look of surprise and joy.

At this moment, Heavy Master and Purple Sound Master had also clearly seen the appearance of the person and recognized him at the first moment.

Once they recognized him, their hearts instantly trembled.

“God Fei, God Fei Master!”

“It’s actually him!”

“Wasn’t he adventuring in the depths of Devil Smoke Valley? When did he come to the outer region of Devil Smoke Valley?”

Heavy Master and Purple Sound Master’s expressions changed drastically.

God Fei Master was an extremely powerful expert who had risen to power in Devil Smoke Valley all these years, and he was an absolute madman who only knew how to kill.

When he roamed the Devil Smoke Valley, he would kill all the experts he met, regardless of their strength or background!

Furthermore, he was terrifyingly strong. He was a peak existence among the experts of the six void realms.

Such a madman was feared by all the powers, including the experts of the various astral worlds. They did not dare to provoke him.

For example, the Star Palace had already given the order that all the experts who roamed the Devil Smoke Valley, as long as they encountered this God Fei Master, they would immediately flee for their lives. Moreover, they would immediately flee when they discovered the other party's existence, they absolutely could not give the other party the chance to get close to them.

Heavy Heavy Master naturally remembered this point. However, he had never expected that this God Fei Master would actually come from the depths of Devil Smoke Valley to this outer region. Moreover, he had come just as he came. He had actually joined forces with Bitter Hand Master, he had let Bitter Hand Master set up a trap to lure him and Purple Sound Master over.

Now, he and Purple Sound Master had already arrived here, and God Fei Master was right in front of them, just a short distance away!

"Brother, run!"

Heavy Master did not hesitate. After confirming that the other party was God Fei Master, he immediately let out a roar and turned around to flee frantically.

#### **Chapter 3527: The Person Who Came to Save You**

"Run!"

Purple Sound Master was also burning with anxiety, and he started to run away madly.

Seeing this, God Fei Master sneered, "You are already jumping on my face, and you still want to escape?"

Sou!

God Fei Master's speed burst out. As a peak expert of the six states of the void, his speed was much faster than that of Heavy Master and Purple Sound Master. Moreover, the distance between them was not far, and with his speed...he caught up in a short moment.

"Die!"

God Fei Master held a golden hammer in each of his hands.

These two golden hammers seemed to weigh hundreds of millions of kilograms. As God Fei Master waved his right hand, one of the golden hammers streaked across the void like a bolt of golden lightning, it struck out in the direction of Heavy Master and Purple Sound Master.

Heavy Master and Purple Sound Master were so frightened that their expressions changed drastically.

"Attack together!" Heavy Master shouted in a low voice, and the heavy sword behind him immediately went up to meet it.

Purple Sound Master also unleashed all of his power at the first moment, and a purple battle blade slashed out like a purple demon.

Heavy Master and Purple Sound Master were not weak, and they were both pinnacle Great Beings at the fourth level of the void realm. Furthermore, one of them had cultivated a special secret technique, and the other had two universe true treasures on him. If they were to clash head-on...they were not weaker than ordinary Great Beings of the fifth level of the void realm.

Now that the two of them were working together, they were not completely defenseless against God Fei Master.

Peng!

Heavy Master spat out a mouthful of blood, and his godly body trembled crazily. More than 40 percent of the godly power in his body was consumed.

As for Purple Sound Master, his godly body was heavily injured because he had the protection of a low-level universe true treasure armor. However, the amount of godly power consumed was much better than Heavy Master's.

However, the rebounding force created by the collision caused the distance between the two of them and God Fei Master to widen.

The two of them started to flee frantically once again.

At the same time, Heavy Master took out his Star Palace token and hurriedly sent a message to the token.

"Mayday, mayday!"

"I've already fought head-on with God Fei Master, and I've already used up a lot of my godly power. Anyone who is near, come and save me!"

As soon as the news of Heavy Master was spread out, most of the experts who were adventuring in the outer area of Devil Smoke Valley received the news and immediately responded.

"God Fei Master? He actually came to the outer area of Devil Smoke Valley? Heavy Master, how could you be so careless and actually fight with God Fei Master? You should have immediately fled when you saw God Fei Master from afar. Now that you've fought him head-on, how could you escape?"

"Being targeted by God Fei Master? Then how can we save you? Even if we can rush over, wouldn't it be suicide?"

"I don't fear God Fei Master too much, but unfortunately, I am too far away from tornado stream. There is no way I can rush over. Heavy Master, you'd better pray for your own good."

"Heavy, there is nothing we can do to redeem you."

Most of the Principles Masters who were adventuring outside Devil Smoke Valley had sent news.

However, it was either because they were too far away that they could not make it in time, or even if they were relatively close, they were not as strong as Heavy Master. Rushing over would also be courting death, and it would be of no use at all.

Naturally, none of them could do anything about it.

After receiving these replies, Heavy Master's heart turned cold.

But right at this moment...

"Heavy Master, I just happened to be near tornado stream, and I'll be arriving at the entrance of tornado stream soon. Hurry over to my side as soon as possible, and I'll help you escape." A message was suddenly transmitted over.

"Yes, this is..." Heavy Master was startled, but then his expression became strange.

Because the person who transmitted this message to him was none other than Heavenly Sword Marquis, whom he had not thought highly of before and thought that the other party was seeking his own death by coming to Devil Smoke Valley.

"Sword Heaven Marquis, he is also near Tornado Stream, and he is already rushing over here?" Heavy Master narrowed his eyes. "Although he came here to save me, his strength...I don't care about that. Let's escape first."

Heavy Master still did not believe in Jian Wushuang's strength. However, in the current situation, Jian Wushuang was the last straw, so he had to grab hold of it.

The tornado stream passage was not long. With the speed of Heavy Master and Purple Sound Master, they soon reached the entrance of the tornado stream, and Jian Wushuang arrived there just in time.

"Is that God Fei Master?"

Jian Wushuang stood at the entrance. His soul power had already sensed the existence of God Fei Master, and at the same time, he had also sensed the danger of the Heavy Master and the Purple Sound Master.

Without hesitation, Jian Wushuang activated the Golden sky-painting banner.

"Space-time domain!"

A vast amount of space-time power merged into the Golden sky-painting banner. The golden sky-painting banner shook slightly and immediately merged with the surrounding void.

Hualala! An endless amount of time and space power visible to the naked eye swept out like a wave of air. In the blink of an eye, it formed a huge space-time ocean.

The space-time ocean covered the entire world around it, and the entire world was under Jian Wushuang's control.

The Golden Banner was a universe supreme treasure to begin with, and it was an advanced universe supreme treasure that focused on space-time.

Over the years, as Jian Wushuang's strength increased and he became more proficient in the use of time and space rules, he was able to perform some of the techniques in the golden sky-painting flag better. From the time and space imprisonment at the beginning to the time and space imprisonment...now, he was able to use the complete time and space domain.

The effect of the time and space domain was actually similar to that of an ordinary domain-type advanced universe true treasure. The difference was that an ordinary advanced domain-type true treasure mainly suppressed the opponent's strength, but the time and space domain...suppressed the opponent's speed to the greatest extent.

For example, when Jian Wushuang used the space-time domain and used it, all the space-time power pressed down on God Fei Master's body, instantly reducing her speed dramatically.

"Heavy Master, Purple Sound Master, both of you, get out of here quickly," Jian Wushuang shouted.

"Heavenly Sword Marquis?" Heavy Master looked up at Jian Wushuang. At the same time, he also noticed that God Fei Master's speed had been greatly reduced, and he was immediately overjoyed.

He did not have time to thank Jian Wushuang and rushed to the void with Master Purple Sound Master at their fastest speed.

After all, the two of them were not suppressed by the space-time domain at all.

God Fei Master also looked at Jian Wushuang.

"Did you call for help?" God Fei Master narrowed her eyes and stared at Jian Wushuang, "I've never seen this person in the information. He must be a Principles Master who just appeared. However, his universe true treasure in space-time is extremely rare."

...

### **Chapter 3528: Flying Type True Treasure**

God Fei Master was very knowledgeable. He could tell that the time-space true treasure Jian Wushuang was using was of a very high level. Otherwise, it would not have exerted such a great pressure on his speed.

"If I'm not mistaken, this should be a senior universe true treasure in terms of time and space. It might even be at the top level among senior universe true treasures." God Fei Master's eyes narrowed slightly. "A true treasure in terms of time and space is extremely valuable. It's not much more valuable than an ordinary true treasure armor. As for a time and space true treasure that has reached the level of an advanced universe true treasure, I'm afraid it's even more valuable than the combination of Heavy Master and Purple Sound Master."

Thinking of this, God Fei Master's eyes locked on Jian Wushuang.

He did not chase after Heavy Master and Purple Sound Master. Instead, he rushed toward Jian Wushuang.

Jian Wushuang was not as good as God Fei Master.

"God Fei Master is coming for me?" Jian Wushuang raised his eyebrows. He guessed that God Fei Master was thinking about his golden banner.

"Haha, it depends on whether you have the ability to think about my true treasure." Jian Wushuang smiled. He turned around and rushed toward the void. God Fei Master followed him at full speed.

As for Heavy Master and Purple Sound Master, they had already escaped.

“That was close. We were almost killed by you, God Fei Master.”

Heavy Master and Purple Sound Master stood in the void not far away from tornado stream. Both of them were still in fear.

“God Fei Master is too terrifying. He lost more than 40 percent of my divine power in one move. He could have killed me in another two or three moves. Fortunately, Heavenly Sword Marquis came in time and stopped him for us. Otherwise...” Heavy Master sighed softly.

“Heavy Master, you previously said that Heavenly Sword Marquis came to Devil Smoke Valley alone to seek death. However, in the blink of an eye, he saved you. If it weren’t for him, the two of us would have been doomed,” Purple Sound Master said.

“It was indeed my fault. I was too stupid. When I see him after this, I will definitely apologize to him in person,” Heavy Master said.

“Not just apologize. This time, he saved us brothers. We must remember this favor. We should be grateful to him,” Purple Sound Master said.

“Of course. But now, the troublesome thing is that God Fei Master has his eyes on him. We don’t know if he can escape from God Fei Master’s hands,” Heavy Master said worriedly.

“Don’t worry. Heavenly Sword Marquis has a universe true treasure in the aspect of time and space, and it seems to be of a high level. Even God Fei Master’s speed is greatly suppressed by him. As long as God Fei Master’s speed is constantly suppressed, he shouldn’t be able to catch up with Heavenly Sword Marquis, so he won’t pose any threat to him,” Purple Sound Master said.

“Well, I hope so.” The Heavy Master nodded slightly.

In the vast void outside Devil Smoke Valley, Jian Wushuang and God Fei Master were chasing each other rapidly.

It had to be said that God Fei Master was an expert at the peak of the sixth realm of the void realm, so he had some strength. Even though he was limited by the space-time domain, his speed was still very fast. Unfortunately, in terms of speed...Jian Wushuang was also very good at it.

If God Fei Master had not been suppressed by the space-time domain, Jian Wushuang’s speed would have been much slower than his. However, because of the pressure of the space-time domain, Jian Wushuang’s flying speed...was actually a little faster than God Fei Master’s.

“God Fei Master, you can’t catch up with me at all. Do you want to waste time following me?” Jian Wushuang chuckled as he flew.

“Can’t catch up with you?” God Fei Master sneered and looked around the void. “There shouldn’t be any experts around here. In that case, there’s no need to hide anymore.”

As soon as he finished speaking, God Fei Master’s body shook and a pair of huge golden wings appeared behind him.

The golden wings had beautiful lines as if they had grown on God Fei Master's body. However, Jian Wushuang knew that the golden wings were a true treasure and an elementary universe true treasure.

"A flying universe true treasure?"

Jian Wushuang was stunned when he saw the golden wings.

There were many types of true treasures, including flying, space-time true treasures, and suppression true treasures. They were much more precious than ordinary attack true treasures and true treasure armors.

What God Fei Master took out was obviously a flying elementary universe true treasure.

Wow!

As soon as the golden wings appeared, God Fei Master transformed into a golden stream of light, leaving golden phantoms in the void. His speed was more than twice as fast as before. The gap between him and Jian Wushuang...and it was starting to close up fast.

"So fast." Jian Wushuang's pupils contracted, "This God Fei Master has been wandering in Devil Smoke Valley for quite some time. Not only has he killed wantonly, he has even been hunted down by experts at the pinnacle of the six levels of void. However, no matter if he is killing or being hunted down, no one has ever heard of him possessing a flying type universe true treasure. From the looks of it, he has quite a few tricks up his sleeve."

Jian Wushuang sighed in admiration. After seeing the speed of God Fei Master's golden wings, Jian Wushuang understood that he could not get rid of God Fei Master by relying on his speed alone. The latter would certainly catch up with him.

In this case, Jian Wushuang simply did not bother to run anymore.

Buzz!

Jian Wushuang suddenly stopped in the void and turned to look at God Fei Master.

"Haha, kid, you know you can't escape, so you don't want to run anymore?" God Fei Master laughed loudly and appeared in front of Jian Wushuang. The golden wings on his back were still unfurled, it seemed that he was ready to pounce on Jian Wushuang at any time.

"God Fei Master, you're too conceited. The only reason I ran away just now was because I didn't want to cause trouble. Do you really think I'm afraid of you?" Jian Wushuang smiled faintly without any fear in his heart.

Although God Fei Master was very powerful and was already at the peak of the six void realms, and was well-known in Devil Smoke Valley, Jian Wushuang was no longer comparable to before.

Six hundred years ago, when he was adventuring in the demon realm, it was impossible for him to face an expert at the peak of the six void realms. Jian Wushuang was even shocked when he saw the fierce battle between Demon Master Chenhuo and Da Ying, but now, 600 years later, as his strength soared, he had nothing to fear from a mere expert at the peak of the sixth realm of the void.

## Chapter 3529: Fighting God Fei Master

“God Fei Master, I’ve heard that you’ve been slaughtering people in Devil Smoke Valley all these years. Only a few people have survived. But today, I’d like to see how powerful you are.” Jian Wushuang smiled, the Blood Mountain Sword had already appeared in his hand.

“Boy, you’re so arrogant. Since you’re courting death, I’ll grant you your wish!” God Fei Master’s eyes turned cold. The pair of golden wings on her back flapped violently, and a gale instantly blew. God Fei Master also turned into a golden stream of light, in an instant, he appeared in front of Jian Wushuang.

God Fei Master held a golden sledgehammer in each hand. One of the sledgehammers turned into a golden bolt of lightning and struck toward Jian Wushuang furiously.

Jian Wushuang had already activated his life divine power the moment God Fei Master attacked.

He also activated his heaven-cleaving skill.

“I’ve been cultivating in seclusion in Star Palace for 600 years. I’d like to see how much progress I’ve made in these 600 years.” Jian Wushuang’s eyes shone with a fierce light. The moment God Fei Master swung the Golden Hammer, he took a step forward and swung the Blood Mountain Sword in his hand.

At this moment, Jian Wushuang unleashed all of his power without holding back. At the same time, he activated the first stage of the Blood Crystal Armor with his divine power, which instantly increased the power of his basic divine power by ten times!

Whoosh!

A blood-red sword light suddenly descended and collided with the Golden Hammer in the blink of an eye.

Even though his opponent was an expert at the peak of the six void realms, Jian Wushuang had no intention of retreating.

Boom!

An earth-shaking explosion suddenly sounded.

A large amount of black smoke in the void was blown away by the power and disappeared. The surrounding void even began to tremble violently.

Whoosh!

God Fei Master turned into a golden flowing light again and retreated rapidly.

As for Jian Wushuang, he also retreated for a distance before coming to a stop.

On the surface, the two were evenly matched.

“You...” God Fei Master raised her head and looked at Jian Wushuang in surprise. “You’re an expert of the sixth realm of the void?”

“Why, are you surprised?” Jian Wushuang smiled. “There are dozens of star worlds in this territory, and there are countless experts. Isn’t it normal for a sixth realm of the void realm to suddenly appear? Like you, you didn’t have any fame before. Did you suddenly appear?”

God Fei Master understood.

Indeed, there were many experts in this territory. Not only in the Universe Battlefield, but there were also many top experts hiding in the star worlds. Many of them had yet to venture into the three battlefields, therefore, they were not famous.

However, not being famous did not mean that they were weak.

When God Fei Master saw Jian Wushuang today, he immediately felt that Jian Wushuang was a stranger. Secondly, the divine power aura emitted by Jian Wushuang was very ordinary, at the level of an ordinary Principles Master, it made him think that Jian Wushuang was very weak. He only dared to venture into the Universe Battlefield because he had a time-space type universe supreme treasure.

But now, he realized that Jian Wushuang was also very strong!

Although he could not compete with Jian Wushuang, he was not much weaker than Jian Wushuang.

“If you can compete with me, you will be famous in the Universe Battlefield. Boy, what’s your name?” God Fei Master stared at Jian Wushuang.

“My name...I use the blood sword in my hand as a weapon. You can call me Blood Sword Master.” Jian Wushuang smiled.

He did not want to continue using the name of Heavenly Sword Marquis.

After all, Heavenly Sword Marquis was too famous in the Divine Beginning Realm, and the three Saint Realms of the Divine Beginning Realm dreamed of killing him. Unfortunately, they could not do it in the Divine Beginning Realm, but it was different in the Universe Battlefield, although the three Saint Realm Masters would not rush to the Universe Battlefield, they could think of other ways to kill him in the Universe Battlefield.

Therefore, he decided to change his name.

The name Blood Sword Master was derived from his Blood Mountain Sword, which was why he had such a personality.

“Blood Sword Master, you are indeed extraordinary to be able to fight me head-on. However, you ruined my plan today. So, don’t think that I will let you go so easily,” God Fei Master said.

“Haha, since you won’t let me go, then go ahead. Use whatever means you have. To be honest, I really hope you can find a way to kill me,” Jian Wushuang said with a bright smile.

“As you wish.” God Fei Master did not hesitate. His figure flashed and his terrifying speed burst out again.

Even with the suppression of the spacetime domain, God Fei Master’s speed was still far faster than Jian Wushuang’s.

This time, when God Fei Master appeared in front of Jian Wushuang, he brandished his golden hammers at the same time. The two hammers were like two golden firewheels, hurling at Jian Wushuang continuously and ferociously.

Jian Wushuang immediately defended himself.

Bang! Bang! Bang! Bang! Bang!

Deafening sounds of collisions and explosions rang out in the void.

Jian Wushuang and God Fei Master had fought with all their might, and Jian Wushuang had used the peerless sword manual he had created to its fullest. However, God Fei Master's two sledgehammers...were obviously more terrifying.

Each of the two sledgehammers was extremely powerful and fierce. Jian Wushuang had to use all his strength to defend against the power of a single hammer strike, but the two sledgehammers kept attacking him crazily, it put a great pressure on Jian Wushuang.

"God Fei Master is really fierce. His strength is indeed terrifying, especially his two hammers. They are too powerful. I'm at a disadvantage in close combat with him. If it weren't for my Blood Crystal Armor, I wouldn't have been able to resist them." Jian Wushuang's face was solemn.

He could see that God Fei Master's strength was not at the peak of the six void realms. However, the two hammers in his hands and the supreme treasure armor he was wearing were both universe supreme treasures, moreover, her level was not low. Coupled with the golden wings on her back, her battle strength was no weaker than that of an ordinary expert at the peak of the six void realms.

Jian Wushuang had already mastered the destruction principles, so with the addition of his will power, life divine power, and heaven-cleaving skill, he could also unleash the battle strength of an expert at the six void realms, his Blood Crystal Armor was of a very high level. After activating the first level of power, it increased his basic divine power by ten times, which gave him an advantage in the power of basic divine power.

Unfortunately, Jian Wushuang was at a great disadvantage in terms of offensive divine weapons.

...

### **Chapter 3530: Retreat Unscathed**

Jian Wushuang's offensive magic weapon, Blood Mountain Sword, was not even a universe supreme treasure, so it was naturally inferior to the two hammers in the hands of God Fei Master.

Moreover, in terms of absolute arts, Jian Wushuang was also inferior to God Fei Master.

As a result, when the two fought fiercely, Jian Wushuang was completely suppressed.

"Blood Sword Master, is that all you've got? Humph, I thought so highly of you just now." God Fei Master snorted coldly, "How dare you ruin my plan with such strength? You're courting death!"

God Fei Master's eyes were cold. The two golden hammers in his hands contained earth-shaking power.

However, as soon as God Fei Master finished speaking, the power of his two golden hammers increased by another level.

In an instant, Jian Wushuang felt his pressure increase sharply. Any one of the two hammers could crush him completely.

Whoosh!

Jian Wushuang barely withstood the attack of the golden hammers, but he suddenly retreated.

After regaining his balance, Jian Wushuang smiled and said, "God Fei Master, how about you take my sword?"

"Hmm?" God Fei Master narrowed her eyes.

Jian Wushuang had already made his move. He was still some distance away, but he had already slashed out the Blood Mountain Sword in his hand.

The moment the sword was slashed out, a shocking destructive will suddenly swept up.

This destructive will, with a will to die, pressed down on God Fei Master in an overwhelming manner.

"Hmm?" God Fei Master raised his head with a hint of surprise in his eyes, but his speed was not slow. The golden hammer in his right hand suddenly burst out with golden light.

"Star flash!"

Swoosh!

The golden light flashed and disappeared like a golden meteor streaking across the void.

The golden hammer had already collided with the sword light that Jian Wushuang had slashed out.

When the two collided, a burst of terrifying power immediately erupted and swept out in all directions with a huge airwave.

At the center of the airwave, God Fei Master's body trembled slightly and then staggered back a few steps.

As for Jian Wushuang, he did not take a step back.

"A supreme skill?" God Fei Master looked at Jian Wushuang in surprise.

"I tried my best to use my strongest skill, 'till death do us part'. In the end, I only gained a slight advantage in a head-on collision with him. As expected of God Fei Master, your strength is really impressive." Jian Wushuang smiled.

To the death...is the latest trick he has created in his 600 years in the constellation.

This unique move was mainly because he had seen the scene of the Heaven Ancestor waving that axe in the forest. That axe not only contained the complete will to destroy, but also contained many mysteries, which also had a great impact on him.

After he mastered the principles of destruction, he combined the principles of time and space, the principles of reincarnation, and his swordsmanship comprehension to create this latest move. This move did not only contain the will to destroy, Jian Wushuang also mastered the three principles, as well as his swordsmanship attainments to the fullest.

But in terms of level, this move, indeed has reached the peak of the sixth level absolute art level.

Although God Fei Master's combat power was at the level of a great being at the pinnacle of the six levels of void realm, the reason he was so powerful was largely due to the fact that he had a universe true treasure, his combat strength was only relatively strong among the six void realms, and he had never created a peak level six secret skill.

Therefore, Jian Wushuang was able to gain a slight advantage in the fight against God Fei Master's secret skill.

However, this advantage was very small.

"God Fei Master, I've learned my lesson in today's battle. There's still a long way to go. If we meet again in the future, we'll fight again," Jian Wushuang said with a smile.

"You want to leave?" God Fei Master's eyes were cold. The wings on his back had already spread out. It was obvious that he did not intend to let Jian Wushuang leave so easily.

With God Fei Master's speed and the help of the wings on his back, he could easily catch up to Jian Wushuang even under the suppression of the spacetime domain.

Jian Wushuang naturally knew this, but he smiled and said, "God Fei Master, there's something I haven't told you. If I really want to leave, there aren't many people in the Universe Battlefield who can stop me."

"Really?" God Fei Master narrowed her eyes, eager to try.

"Goodbye." Jian Wushuang smiled and disappeared in front of God Fei Master.

"What?" God Fei Master looked at the empty void in front of her in astonishment.

"What happened? Blood Sword Master disappeared?" God Fei Master frowned. "Teleportation? No, this is Devil Smoke Valley, one of the Universe Battlefields. The space and time in Devil Smoke Valley are distorted, so teleportation is impossible."

Everyone knew that teleportation was impossible in the three battlefields.

It was not only because there were too many dangerous places and too many obstacles in the three battlefields. More importantly, the space and time in the three battlefields were different from the space and time in the universe. The space and time here were not balanced, so even Great Beings who were proficient in the principles of space and time...they could not teleport in the three battlefields.

But the scene in front of them...

“He suddenly disappeared without leaving any soul aura. This is obviously a teleportation method. Blood Sword Master...” God Fei’s expression was a little ugly. He observed the surrounding void for a long time before he was sure, Jian Wushuang had indeed used a teleportation method to leave.

“Blood Sword Master, I’ll remember you,” God Fei Master muttered, “He was not famous before, but now he has the battle strength of the six void realms. Although he is still far from the peak of the six void realms, he has many techniques. Not only does he have an advanced universe supreme treasure in space-time, but he also knows how to teleport in the Universe Battlefield. It Won’t be long before he becomes famous in the Universe Battlefield.”

“It’s a pity that he can teleport. Unless he is an expert who is also proficient in the space-time rule and can confine space-time, it’s impossible for anyone to keep Blood Sword Master. At least, I can’t do anything to him.”

God Fei Master shook his head. He had to admit that even though he was stronger than Jian Wushuang in terms of physical strength, he could not do anything to Jian Wushuang even if Jian Wushuang appeared in front of him again.

If Jian Wushuang wanted to leave, there was no way he could keep him.

“I originally wanted to quietly go to the outer area to hunt some prey and get some benefits, but I met a Blood Sword Master at the beginning. How unlucky.” God Fei Master sighed softly and turned to leave.
