

## Swordsman 3541

### Chapter 3541: Master Dragonhawk

Hong!

Suddenly, an aura fluctuated, and the black spear that everyone was staring at finally rose up from the ground.

The moment the spear rose up, the surrounding Principles Masters instantly moved.

One by one, figures rushed down at the fastest speed. Everyone wanted to rush to the front of the spear and put it into their interspatial rings.

But right at this moment...weng!

A layer of space-time principles energy suddenly spread out. As soon as this layer of spacetime principles energy appeared, it instantly covered the entire void. In the blink of an eye, it formed a massive spacetime domain, the numerous Principles Masters who had rushed toward the spear at the first moment also immediately fell into this spacetime domain, their speed drastically decreasing.

"What's going on?"

"A spacetime treasure?"

"What a powerful spacetime domain. My speed has been suppressed by so much?"

These Principles Masters were all secretly shocked.

After the spacetime domain appeared and suppressed the speed of all the Principles Masters present, a figure appeared in front of the black long spear. With a simple wave of his hand, he put the black spear into his interspatial ring.

After that, he slowly turned around.

"What a strange escape art. We didn't notice that someone was beside us."

"This person is Blood Sword Master!"

"It's him. It's rumored that he has a space-time domain and an extremely strange escape art that can hide from the soul detection of cultivators. It seems that it's true."

The surrounding Principles Masters had already recognized Jian Wushuang.

However, after knowing that the long spear had fallen into Jian Wushuang's hands, the Principles Masters immediately gave up the idea of fighting for it.

In the past 50 years, Jian Wushuang had roamed the outer area of Devil Smoke Valley and constantly challenged experts from all over the place. This challenge had made him extremely famous, among the experts he had challenged, there were at least 10 experts at the peak of the fifth void realm. However, after the fierce battle with Jian Wushuang, these experts all admitted that Jian Wushuang had not displayed his strongest strength, during the time he had fought with them, he had not displayed his strongest strength.

Even so, Jian Wushuang could still slightly suppress them.

This led to the judgment that Jian Wushuang should be able to fight against experts of the six void realms.

Such an expert had a strong life-saving ability. If the long spear fell into his hands, who would be qualified to fight for it with the surrounding Principles Masters?

Moreover, the long spear was only an elementary universe supreme treasure. It would be unwise to snatch it from Blood Sword Master for such a Supreme Treasure.

"Everyone, I'm sorry to have made you wait in vain." Jian Wushuang smiled and looked around at the Principles Masters.

"Blood Sword Master, you're too kind. If we had known you were here, we would have left long ago. Everyone knows that you, Blood Sword Master, have a powerful space-time domain, and your speed and movement techniques are very strange. It's simply asking for trouble to snatch the treasure from you," a purple-haired man said with a smile.

"Yes, with you here, Blood Sword Master, how can we compete for the treasure?" Another man also smiled.

Jian Wushuang also smiled. He could see that the Principles Masters present were very good to him.

After all, in the 50 years he had been wandering in Devil Smoke Valley, although he had challenged countless experts, Jian Wushuang had never killed any of them, regardless of whether they were strong or weak, in the fierce battle, he had even made friends with many experts. Among them, there were experts from various star worlds and forces.

In addition, Jian Wushuang was very strong, which made people respect him. Naturally, the Principles Masters treated him better.

"Blood Sword Master, you've already got the long spear. You don't want us to stay and fight you one by one, do you?" The stronger expert of the five void realms among the Principles Masters said.

"That's not necessary. If you want to leave, you can leave now. But...Master Dragonhawk is an exception." Jian Wushuang's eyes locked on one of the Principles Masters in the crowd.

"Me?" Master Dragonhawk, who was wearing cyan armor and had eagle-like eyes, looked surprised, but then he smiled and said, "Blood Sword Master, are you going to spar with me?"

"Yes, it's you." Jian Wushuang nodded. His eyes looked calm, but there was a hidden killing intent in the depths of his eyes.

Master Dragonhawk did not notice this killing intent,

the surrounding Principles Masters also looked at each other with strange expressions.

There were no less than ten Principles Masters present. Master Dragonhawk's cultivation was only at the peak of the fourth realm. Among these Principles Masters, he was definitely not the best and was stronger than him, obviously, there were two experts of the fifth realm of the void.

Generally, experts who liked to fight would definitely challenge the experts. Why would they challenge the weaker ones?

Therefore, they initially thought that Jian Wushuang would only challenge two experts of the fifth realm of the void. They did not expect that Jian Wushuang would challenge Master Dragonhawk.

Although it was strange, they did not pay much attention to Jian Wushuang as he had never killed anyone in the past 50 years.

Master Dragonhawk still greeted them with a smile. "It's rare for Blood Sword Master to think highly of me. I, dragonhawk, will have to risk my life to accompany you."

"Master Dragonhawk, show me your strongest strength." Jian Wushuang's expression was cold as the Blood Mountain Sword appeared in his hand.

"Be careful." Master Dragonhawk reminded him as a hook-type magic weapon appeared in his hand. His body swayed slightly and appeared in front of Jian Wushuang. The hook also strangely bypassed the special curve, it went straight for Jian Wushuang's throat.

The moment Master Dragonhawk made his move, Jian Wushuang's expression turned completely cold as he activated the life divine power in his body.

During the past 50 years, when he sparred with others, even if he needed an ordinary expert of the void five realms, he would not easily activate the life divine power in the beginning, Master Dragonhawk was only at the peak of the void four realms, but Jian Wushuang had already used the life divine power in the beginning.

Not only that, his power had also reached its peak at this moment.

The Blood Mountain Sword in his hand, with an unprecedented violent aura, drew a beautiful blood-red mark in the void and suddenly slashed out furiously.

Peerless Sword Manual, Xi Xiang!

Boom!

The sword light swept out with earth-shaking power.

In addition to the heaven-splitting skill, Jian Wushuang had already used his strongest power and strength.

...

## **Chapter 3542: Killing Move**

"This move!"

The moment Master Dragonhawk saw Jian Wushuang's move, he could feel the extraordinary power contained in the move.

However, he was the first to make a move, and his power had been pushed to the limit. At this time, he could not avoid the fight at all. He could only brace himself and meet Jian Wushuang head-on. As a result, the collision...

Clang!

The hook in Master Dragonhawk's hand was smashed and changed direction. It was almost thrown away, but the brilliant blood-red sword light was not affected at all. It continued to chop at Master Dragonhawk's divine body.

Master Dragonhawk also had an elementary universe true treasure armor on his body. It immediately reduced the power by more than half, but the rest of the power was transferred to his body, causing him to be severely injured, almost 40% of his divine power was instantly destroyed.

Buzz!

Master Dragonhawk retreated rapidly. On the way, everyone could see that his aura had been greatly weakened.

"Blood Sword Master!"

After he stabilized himself, Master Dragonhawk revealed a look of shock and anger.

"Master Dragonhawk, I forgot to tell you that the battle between us today will determine the victor and the victor, as well as life and death," Jian Wushuang said leisurely.

"Life and death?" Master Dragonhawk was stunned.

"Blood Sword Master is...going to kill Master Dragonhawk?" The surrounding Principles Masters were also astonished.

In the 50 years that Jian Wushuang had been wandering in the outskirts of Devil Smoke Valley, he had never killed anyone among the experts he had challenged. But today, he was going to kill Master Dragonhawk.

"Run!"

Master Dragon Eagle did not hesitate. He immediately fled when he saw that Jian Wushuang was going to kill him. He did not dare to stay any longer.

Jian Wushuang's sword attack had scared him.

The power of that sword attack was so strong that it was no less than that of an ordinary expert of the six realms of the void. He had the armor of an elementary universe supreme treasure, but almost 40 percent of his divine power had been destroyed in an instant, if he were to receive a few more strikes, he would definitely die!

"Do you think you can escape?" Jian Wushuang smiled coldly. His space-time domain instantly covered Master Dragonhawk, and he disappeared into the void at once.

The space-time domain suppressed Master Dragonhawk, causing his speed to drop drastically.

Jian Wushuang, on the other hand, used his shadowless escape art, and his speed was extremely fast. He easily caught up with Master Dragonhawk.

“Master Dragonhawk, die!” Jian Wushuang shouted and slashed his Blood Mountain Sword at Master Dragonhawk.

“Why, Blood Sword Master, why do you want to kill me?” Master Dragonhawk roared crazily.

He did not understand why Jian Wushuang wanted to kill him when he had never killed anyone before.

He had never had any contact with Blood Sword Master before?

Was it because of Star Palace?

However, there was a certain conflict between his camp and the highest level of Star Palace. Most of the experts under Star Palace came from the surrounding star worlds, so they did not get involved in the conflict between Star Palace and the highest level of his camp, most of them did not get involved.

In that case, what was the reason?

“Master Dragonhawk, do you want to know why I want to kill you?” Jian Wushuang looked down at Master Dragonhawk with a cold gaze.

At this moment, Master Dragonhawk’s aura was extremely weak, and he had less than 10% of his divine power left. There was no chance for him to survive in Jian Wushuang’s hands. When he heard Jian Wushuang’s words, he immediately raised his head, he was eager for Jian Wushuang to give him an answer.

However, Jian Wushuang smiled coldly and said, “You want to know the answer? Unfortunately, I won’t tell you.”

As soon as he finished speaking, Jian Wushuang attacked again. He cut off the head of Master Dragonhawk and killed him.

After the death of Master Dragonhawk, his supreme treasure armor, his long hook, and his interspatial ring naturally fell into Jian Wushuang’s hands.

After killing Master Dragonhawk easily, Jian Wushuang looked at the surrounding Principles Masters.

The Principles Masters were not as relaxed as before when they saw Jian Wushuang’s eyes. On the contrary, they were all vigilant.

They did not know whether Jian Wushuang was purely looking for trouble with Master Dragonhawk or whether he would continue to target them after killing him.

Jian Wushuang naturally saw through their thoughts and smiled, “Don’t worry, the person I’m looking for is only Master Dragonhawk. I want to kill him because of the Sacred Island behind him. I’ll kill anyone who comes from the Sacred Island. As for experts from other astral worlds or forces, I don’t have any enmity with them.”

Hearing Jian Wushuang’s words, the surrounding Principles Masters heaved a sigh of relief.

“Farewell, everyone.”

Jian Wushuang turned around and left.

Seeing Jian Wushuang leave, the Principles Masters were relieved.

“Fortunately, Blood Sword Master is friendly to us,” a Principles Master said.

“Blood Sword Master has always been friendly to us. As for Master Dragonhawk, it seems that Blood Sword Master killed him because of the Sacred Island behind him.”

“I just don’t know what grudge Blood Sword Master has with the Sacred Island.”

“The Sacred Island is just an insignificant small force in this universe territory. This force itself seems to be the overlord of the absolute beginning Star World, the three great sacred territories. However, the absolute beginning star world has something special compared to the other Star Worlds. Although the three great sacred territories are the overlords of the absolute beginning star world, they don’t have a ruler-level expert guarding them. Because there is no ruler-level expert guarding them, the Sacred Island doesn’t have much presence in this territory.”

“In addition, I heard that there are some grudges between the highest level of the Star Palace and the Sacred Island. It’s very likely that Blood Sword Master killed the people of the Sacred Island because of this.”

The Principles Masters all started to discuss.

Whether it was the Star Palace or the Sacred Island, they were both one of the powers in this universe. Even though the Sacred Island was weaker and had a lower sense of existence, these experts from the various astral worlds still knew about it, they also knew that there were some grudges between Sacred Island and the highest level of Star Palace, so they had all made guesses.

“No matter what grudges there are between Star Palace and Sacred Island, or between Blood Sword Master and Sacred Island, it has nothing to do with us. We can only not take the initiative to provoke this Blood Sword Master.”

“That’s true. However, Blood Sword Master’s power is indeed tyrannical. That Master Dragonhawk is, after all, a great being at the pinnacle of the fourth level of the void realm, and he has a universe true treasure armor to protect his body. Yet, he was easily killed by Blood Sword Master, and he didn’t even have the slightest chance of escaping.”

“Tsk, tsk, that’s true.”

These Principles Masters left one after another amidst the admiration.

...

### **Chapter 3543: Absolute Shadow**

“Master Dragonhawk is indeed an expert at the peak of the fourth void realm. He is quite wealthy.”

Jian Wushuang was flying alone in the void outside Devil Smoke Valley with a faint smile on his face.

After killing Master Dragonhawk, he had already checked his interspatial ring. Apart from Master Dragonhawk's elementary universe true treasure armor and the hook, which was also at the elementary universe true treasure level, Master Dragonhawk's interspatial ring also had an offensive universe true treasure.

In other words, Master Dragonhawk had three universe true treasures. Although they were only at the elementary level, they were indeed very valuable.

"If I exchange these three universe true treasures in the Star Palace's true treasure vault, the two elementary offensive true treasures can be exchanged for 20 contribution points, and the true treasure armor can be exchanged for 40 contribution points. In total, it's 60 contribution points," Jian Wushuang said with a faint smile, "Now I finally understand why God Fei Master loves killing so much."

God Fei Master was a crazy person who killed everyone in Devil Smoke Valley. He seemed crazy, but in fact, he benefited a lot from such wanton killing. After all...the experts who dared to venture into the Universe Battlefield were not weak, and most of them had one or two universe true treasures. At the very least, they had to have one universe true treasure for attacking.

Every time God Fei Master killed someone, he would get all of their wealth. After killing one great being after another, God Fei Master would naturally accumulate a lot of true treasures, and his wealth would become richer.

Of course, there were disadvantages to doing so.

Firstly, he would become the public enemy of all the forces, and many Great Beings would try to kill him.

Second, he would kill and collect true treasures like this. Because he had killed too many, when he got too many true treasures, he might be targeted by some top-tier Great Beings, and he might even attract a ruler-level great being.

Although a ruler-level great being rarely lowered his status to deal with a Principles Master, if this Principles Master had too many true treasures and too much wealth, even a ruler would be envious.

"I got three elementary universe true treasures from Master Dragonhawk, and in the past 50 years, I've encountered a few true treasures. I also got two attack-type elementary universe true treasures from them, and I also got the Poluo God parts from the beginning. If I exchange them all for contribution points in the true treasure vault, it should be quite a large amount. It should be enough for me to exchange for some things," Jian Wushuang muttered.

Over the past 50 years, Jian Wushuang had challenged experts from all over the world. His swordsmanship had improved a lot over the years. Up until now, most of his swordsmanship had improved, reaching the level of a sixth-level advanced absolute art was already his goal.

Now, he did not need to continue the wanton challenge. Instead, he was ready to explore the core area of Devil Smoke Valley.

"I'll go back to the Star Palace and exchange for contribution points. Then I'll exchange for some suitable true treasures, and then I'll explore the core area." Jian Wushuang made up his mind and immediately headed to the Star Palace. Of course, when he decided to return to the Star Palace, he sent a message to Saber Python Master and Heavy Master.

In the Star Palace.

Jian Wushuang first went to the true treasure vault and exchanged all the treasures he had acquired over the years for contribution points.

Among them, the Poluo God parts were exchanged for 350 contribution points, the true treasure armor of Master Dragonhawk was exchanged for 40 contribution points, and the other four offensive universe true treasures were also exchanged for 40 contribution points, a total of 430 contribution points, however, Jian Wushuang had to return the contribution points of the Blood Crystal Armor first.

As the Blood Crystal Armor was the best among the elementary universe true treasure armors, the exchange price was 55 contribution points. After subtracting it, Jian Wushuang actually only got 375 contribution points.

Then, Jian Wushuang went to see Heavy Master and Saber Python Master.

"Heavy Master, Saber Python Master, these are your contribution points." Jian Wushuang gave them the share that belonged to Heavy Master and Saber Python Master.

"Blood Sword Master, I heard that you've made a name for yourself in the outer area of Devil Smoke Valley over the years?" Saber Python Master looked at Jian Wushuang.

"More than that. Not long ago, I heard that Master Dragonhawk of Sacred Island was killed by Blood Sword Master on the spot," Heavy Master said.

"Is that so?" Saber Python Master's eyes lit up.

"Gentlemen, I still have something to do, so I'll take my leave first." Jian Wushuang laughed and left.

Then he returned to the true treasure trove.

Although many experts in Star Palace had accumulated true treasures over a long period of time, in fact, there were not many true treasures in Star Palace's true treasure trove during this period.

This was very normal. Although the three battlefields were full of opportunities and many true treasures, there were too many experts who were adventuring in the three battlefields. Compared to all the experts who were adventuring in the three battlefields...the Star Palace could be said to be insignificant, so naturally, they would not get too many true treasures. Moreover, many true treasures had long been exchanged by the Star Palace experts with contribution points.

After giving the contribution points to Saber Python Master and Heavy Master, Jian Wushuang still had 270 contribution points left, which was a relatively large number.

With these contribution points, Jian Wushuang was quite confident. Then, he began to check the list of true treasures.

There were only more than 100 true treasures on the list. In just a moment, Jian Wushuang had finished reading them all.

After reading them, Jian Wushuang began to hesitate.

He saw two true treasures on the list.

The first one was a flying-type elementary universe true treasure.

It was a pair of wings, just like the flying-type true treasure of God Fei Master. Although it was only at the elementary universe true treasure level, it cost 110 contribution points to exchange for it, its value was no less than that of an ordinary advanced universe true treasure.

The other true treasure was the offensive magic weapon of an advanced universe true treasure, the Absolute Shadow Sword!

The Absolute Shadow Sword was extremely powerful. It was a top-tier offensive true treasure in the advanced universe, so its value was more than twice that of an ordinary offensive true treasure in the advanced universe. It cost 250 contribution points to exchange for it.

However, Jian Wushuang only had 270 contribution points, so it was impossible for him to exchange for both of them.

That was why he hesitated. Should he exchange for a flying-type true treasure and an ordinary attack treasure in the advanced universe, or should he use almost all of his contribution points to exchange for the Absolute Shadow Sword.

After hesitating for a while, Jian Wushuang finally made a decision.

“A flying-type universe true treasure can greatly increase my speed and make my ability to chase and kill stronger than my ability to escape. But in fact, my life-saving ability is extremely good. This flying-type universe true treasure won’t help me much. It’s more worth it to exchange for the Absolute Shadow Sword.”

...

#### **Chapter 3544: Appeared Three Times**

As Jian Wushuang had said, the flight-type true treasure had improved his life-saving ability and pursuit ability, but the improvement was limited. The key point was that his life-saving ability was very strong. Even if the ruler personally attacked him, he might not be able to kill him.

As for his pursuit ability...in the great Universe Battlefield, he had a grudge with the Sacred Island. However, the Sacred Island was a small force without a ruler-level expert. There were not many experts in the Universe Battlefield, it was rare to meet them on a normal day. Naturally, he did not need to deliberately pursue anyone.

Compared to the flight-type true treasure, the Absolute Shadow Sword was obviously more useful to him.

With his current strength, after activating the life divine power and the first level of the Blood Crystal Armor, his battle strength was at the peak of the five void realms. Combined with the swordsmanship he created...if he could have another powerful attack supreme treasure, he would be able to compete with ordinary experts of the six void realms.

The Absolute Shadow Sword had such a great improvement for Jian Wushuang.

“With my strength, if I can use the Absolute Shadow Sword, the power of my swordsmanship will not be weaker than that of an ordinary expert of the six void realms. Once I use the heaven-cleaving skill, I can easily crush an ordinary expert of the six void realms,” Jian Wushuang muttered, he immediately exchanged for the Absolute Shadow Sword with 250 contribution points.

After the exchange, Axe One Master personally handed the sword to him.

“Is this the Shadow Sword?”

Jian Wushuang looked at the purple sword in front of him, which was emitting a faint cold light.

The purple sword was about the same length as the Blood Mountain Sword, but its body was thinner and its blade sharper. It floated in the air and emitted a suffocating, cold aura, which made people fear it.

The name of the sword was Absolute Shadow, so it was a divine sword that focused more on killing and cutting.

“My young friend, please recognize me as your master,” Axe One Master said.

Jian Wushuang nodded and immediately dropped a drop of his blood essence into the Absolute Shadow Sword. Soon, the sword recognized him as its master and refined it.

After that, Jian Wushuang finally grasped the divine sword.

“This sword is so cold.” Jian Wushuang held the sword tightly in his right hand, but he could feel the extreme coldness from it.

It was so cold that it was suffocating.

“Unfortunately, I’m in the Star Palace now, so I can’t find a suitable opponent to test the power of this sword. I can only find a suitable opponent to test it when I go to the core area of Devil Smoke Valley later.” Jian Wushuang smiled.

He had obtained the Absolute Shadow Sword. As for the Blood Mountain Sword that Jian Wushuang had used before...it was refined by his master Xuan Yi. Jian Wushuang had used it from his previous life until this one, so they had a deep relationship.

Even now that he had the more powerful Absolute Shadow Sword, Jian Wushuang did not intend to give it up. Instead, he carried it on his back as usual.

“Unless I am facing an expert who is much stronger than me, I will use the Blood Mountain Sword to fight against him. I will use the Absolute Shadow Sword to defeat him after I have a clear understanding of its strength,” Jian Wushuang muttered.

After exchanging 250 contribution points for the Absolute Shadow Sword, although Jian Wushuang still had 20 contribution points left, he could not use them to exchange for anything useful.

“Axe One Master.” Jian Wushuang suddenly looked at Axe One Master and asked, “Can you ask about something for me?”

“What is it?” Axe One Master asked.

“Ice-heart glazed jade. Have you heard of it, Axe One Master?” Jian Wushuang asked.

“Ice-heart glazed jade?” Axe One Master’s expression changed and he nodded deeply, “Of course I’ve heard of it, but it’s a very rare treasure. My dear Heaven Marquis, do you need this ice-heart glazed jade?”

“Yes.” Jian Wushuang nodded. “My wife’s soul is now attached to the star-moon agarwood that has existed for hundreds of millions of years. Only when we find the ice-heart glazed jade can we reconstruct her body.”

“Is that so?” Axe One Master understood, but he immediately frowned. “Although there are a lot of opportunities in the three Universe Battlefields and some special treasures appear from time to time, treasures at the level of the ice-heart glazed jade are very rare. In the long time since the Star Palace was founded, this ice-heart glazed jade has only appeared three times.”

“Three times?” Jian Wushuang’s eyes lit up.

“Yes, and they were all born in the depths of the three battlefields. Although they were born three times, the environment of the first birth of the iceheart glazed jade was too harsh. Not long after it was born, the surrounding experts fell into a terrible inferno and were burned on the spot before they could fight for it,” Axe One Master said.

“Incinerate? A treasure like the iceheart glazed jade can be incinerated?” Jian Wushuang was surprised.

“Nothing is impossible. After all, there are a lot of divine flames of destruction in the depths of Devil Smoke Valley. The lower-level divine flames of destruction are fine, but the higher-level divine flames of destruction can even burn a ruler-level expert to death. Although the iceheart glazed jade is a rare treasure, it can still be incinerated at the level of the divine flames of destruction,” Axe One Master said.

“What about the other two times?” Jian Wushuang asked.

“The second appearance of the iceheart glazed jade was much better. In the end, it was also obtained by an expert of the six void realms. However, after he obtained the iceheart glazed jade, he sold it to a ruler-level expert for a very high price,” Axe One Master said.

“Ruler? That ruler also needs the iceheart glazed jade?” Jian Wushuang was puzzled.

“Yes, that ruler-level expert is like you. His wife only has a soul, and your soul is too weak to be possessed. Therefore, the ruler managed to get the iceheart glazed jade from the six void realm expert. Then, he used the iceheart glazed jade to create a glazed body and a divine body for his wife. After that, he and his wife disappeared. I guess they went to the depths of the universe,” said Axe One Master.

“What about the last time?” Jian Wushuang clenched his fists and stared at Axe One Master.

One of the two pieces of ice heart glazed jade had been burned and the other had been used. Jian Wushuang only hoped for the last piece of ice heart glazed jade.

“The last piece of ice heart glazed jade should still be preserved because I’ve never heard of anyone who yearned for it. However, the person who got it was not a nobody,” Axe One Master said.

## **Chapter 3545: Asking for Information**

“Who is it?” Jian Wushuang asked.

“Earth Saint Star Master,” Axe One Master said.

“It’s him?” Jian Wushuang’s expression changed.

Axe One Master had given him a detailed list of experts, including experts from various forces in the surrounding Star Worlds.

Among them, there was naturally an introduction by Earth Saint Star Master.

The first impression that Earth Saint Star Master gave Jian Wushuang was that he was a difficult and terrifying super figure.

First of all, he was a genuine Ruler Realm expert. Secondly, he was extremely eccentric and eccentric. It could even be said that he was crazy!

He was an old monster who had lived for God knows how many years. His hometown, the Star World where he was born, had already reached its end a long time ago and finally collapsed. However, he survived. At that time, he was only a Principles Master.

However, after such a Principles Master collapsed in the astral world where he was born and had no worries at all, he began to crazily pursue his own strength. He roamed the three great battlefields and killed crazily, just like the current God Fei Master, he killed everyone he saw and did not care who he offended.

At that time, this Earth Saint Star Master had stirred up a bloody storm in the three great battlefields and made a great reputation for himself. At that time, he had offended many experts. There were even experts who joined hands to kill him, there was even a Ruler Realm expert who had personally made a move, but he had managed to escape.

In the end, he had even obtained an opportunity in the three great battlefields and leaped to become a Ruler Realm expert. Naturally, no one could do anything to him.

However, after this Earth Saint Star Master became a Ruler Realm expert, he gradually restrained his killing. He no longer killed as wantonly as before. Instead, he chose an earth star to occupy, he named this Earth Star the Earth Saint Star.

After that, the Earth Saint Star and the Earth Saint Star Master were recognized as the most untouchable existences in this territory.

“The Earth Saint Star Master is a crazy person who likes to kill. He has a very strange personality. I can’t ask him for the ice heart glazed jade.” Jian Wushuang did not frown.

Although he had some strength now, he could not ask him to face a Ruler Realm expert.

Moreover, this Ruler Realm expert was a person who liked to kill. If Jian Wushuang took the initiative to come to him, the Earth Saint Star Master would kill him before he could explain why he came.

“My young friend, the icy heart glazed jade is indeed a bit troublesome, but you don’t have to worry too much. Although the Earth Saint Star Master is not easy to deal with, he is only one person. Star Palace

has some influence in this territory. I will try to contact the Earth Saint Star Master in the name of Star Palace and see if he is willing to exchange the icy heart glazed jade,” Axe One Master said.

“In that case, I’ll leave it to you, Axe One Master.” Jian Wushuang nodded.

He had no choice but to ask Star Palace to negotiate with him. For the time being, he did not have the ability to face the Saint Star Master.

“In addition to icy heart glazed jade, I also want you to ask about someone for me, Axe One Master,” Jian Wushuang said.

“Who?” Axe One Master looked at him.

“Star Luo Master!” Jian Wushuang said.

“Star Luo Master? Who is that?” Axe One Master was puzzled.

“I don’t know much about the identity of Star Luo Master, but I know that she was involved in the world-ending war in the Divine Beginning Realm. She stayed in the Divine Beginning Realm for a long time. During these 10,000 years, she was still in the Divine Beginning Realm, but she disappeared soon after. I suspect that she came to the Universe Battlefield. Even if she’s not in this territory, she might be in the nearby territory,” Jian Wushuang said.

Star Luo Master...this person was Leng Ruxue’s master!

In his previous life, it was this Star Luo Master and the three masters of the Saint Realm who forcefully opened the passage to the eternal chaotic world and brought Leng Ruxue to the Divine Beginning Realm. It was also the opening of the passage, it allowed Xuan Yi to find an opportunity to open the reincarnation passage and send his soul and Leng Rushuang’s soul to the Divine Beginning Realm.

Jian Wushuang did not know much about Leng Rushuang’s master. He had carefully checked the information of Star Luo Master in the Temporal Temple. He only knew that she had stayed in the Divine Beginning Realm for a long time, however, she was not a Ruler expert who had risen in the Divine Beginning Realm, but from the outside world.

She had participated in the destruction of the Seven Star Mysterious Sect. It was because of this that the three Saint Realm Masters of the three Saint Realms had helped him open the passage to the eternal chaotic world.

However, when Jian Wushuang came to the Divine Beginning Realm and gradually rose to power, Star Luo Master disappeared completely. Jian Wushuang asked the Temporal Temple to investigate, but they did not find any trace of her, therefore, Jian Wushuang suspected that Star Luo Master had come to the Universe Battlefield.

If Star Luo Master really came, Leng Ruxue would most likely be with her.

The main reason why Jian Wushuang wanted to find Star Luo Master was to find Leng Ruxue!

In Jian Wushuang’s opinion, there were two ways to restore his wife’s body. The iceheart glazed jade was just one of them. What Jian Wushuang wanted to do more was to find Leng Ruxue and suppress her, then he would find a way to let Leng Ruxue regain control of her body.

Naturally, he had to find the iceheart glazed jade, Star Luo Master, and Leng Ruxue as well.

"I've never heard of this Star Luo Master. But since he's a Ruler Realm expert, it's impossible for him to be unknown. I'll use some of Star Palace's intelligence abilities to look for him for you. As long as he's in this territory, Star Palace should be able to find him. But if he's in another territory, although Star Palace has some intelligence abilities, we're not so sure that we can find him," Axe One Master said.

"Well, I'm counting on you, Axe One Master," Jian Wushuang said.

"Don't stand on ceremony with me. Whether I contact Saint Star Master for you or Star Luo Master for you, I won't do it for free. You have to pay the price," Axe One Master said suddenly.

"Eh?" Jian Wushuang was stunned.

"My young friend, I know that you received a lot of contribution points in the true treasure vault, and then you gave some to Heavy Master and Saber Python Master, and then you exchanged for the Absolute Shadow Divine Sword. But if I'm not wrong, you should still have 20 contribution points. These 20 contribution points are the price for Star Palace to contact Saint Star Master and Star Luo Master for you," Axe One Master said with a smile.

"You need contribution points to gather information?" Jian Wushuang asked with a strange expression.

"Of course, in the Star Palace, no matter what resources you want to use, you have to pay a price," Axe One Master said.

Jian Wushuang had no choice but to take out his last 20 contribution points.

...

## **Chapter 3546: Blazing Sea**

After obtaining the shadow-killing divine sword and asking Axe One Master to track down ice heart glazed jade and Master Star Luo, Jian Wushuang was ready to venture into the depths of Devil Smoke Valley.

"Devil Smoke Valley is too vast. Although there are many routes to enter the core area from the outer area of Devil Smoke Valley, there is only one closer route to Star Palace's stronghold. Moreover, to reach the depths of Devil Smoke Valley from this route, one must pass through the Blazing Sea. It will take at least several decades," Jian Wushuang muttered.

At his current speed, it would still take him dozens of years to travel at full speed. However, he remembered how far the journey was.

"I have no choice. I have to go to the depths of Devil Smoke Valley. I can still take that road." Jian Wushuang made up his mind and immediately headed toward Devil Smoke Valley.

This time, Jian Wushuang did not stay in the outer area of Devil Smoke Valley. He went directly to the core area of Devil Smoke Valley at the fastest speed. However, it still took him three years to reach the Blazing Sea.

The Blazing Sea, as its name implied, was a scorching ocean.

This ocean was boundless, and no one knew how big it was because it not only stretched out many branches, but the center of the Blazing Sea was an unexplored area.

The so-called unexplored area was a place that the experts of the surrounding astral world had not been able to explore since the appearance of Devil Smoke Valley Battlefield.

It was not that the experts did not want to explore it, but the central area of the Blazing Sea was too dangerous. Even a Ruler Realm expert would die if he intruded there. Naturally, no one dared to touch it.

However, other than the central area, the other places in the Blazing Sea were relatively safe.

“This is the Blazing Sea.”

Jian Wushuang had already arrived in the Blazing Sea. What entered his eyes was a sea of blazing red flames. Endless blazing flames were burning wildly in all directions. The entire world was burning red. As soon as he arrived here, he could already feel the extremely hot air in the void.

“So hot!”

“The temperature here is too high. An ordinary Principles Master would not be able to withstand this scorching temperature,” Jian Wushuang thought to himself.

The astonishing temperature baked the world and his divine body at once. Jian Wushuang’s divine power was extremely powerful, so he could easily withstand the scorching temperature by relying on his own power.

“I can only reach the depths of Devil Smoke Valley after passing through the Blazing Sea. Take your time,” Jian Wushuang said with a faint smile. Then he flew forward according to the star map.

It was a boring journey. Fifteen years had passed.

Although it had been fifteen years, Jian Wushuang had only crossed half the distance of the Blazing Sea. The rest of the journey was still long.

“Now I finally understand why it takes so long for experts from different astral worlds to go back to the battlefield. I can’t help it. The battlefield is too big, and it takes too long to go back and forth.” Jian Wushuang smiled faintly.

But at this moment...

“Huh?” Jian Wushuang suddenly frowned and stopped.

“The temperature seems to be higher than other places?” Jian Wushuang looked around at the Blazing Sea and his face suddenly darkened. “No, the temperature is rising.”

Jian Wushuang felt that the void he was in was obviously different from the other places in the Blazing Sea. The temperature was so high that even though he used the power protection, he still felt a little uncomfortable, the temperature was still rising.

At the same time, a suffocating hot aura slowly rose under Jian Wushuang’s feet.

“What is this?” Jian Wushuang’s expression changed.

But before he could react.

Boom!

The surrounding Blazing Sea suddenly shook, and the suffocating hot aura completely erupted. With a roar that sounded like a landslide, the Blazing Sea under Jian Wushuang’s feet violently rose up. It was originally burning on the ground, but at this moment, it completely rose up.

It was as if a huge wave had suddenly rolled up on the surface of the Blazing Sea. At this moment, the Blazing Sea suddenly swept up a layer of fierce flames huge waves. The vast and mighty fierce flames huge waves crazily flapped the void and swept out. Most importantly, the fierce flames that rose up came from the bottom of the Blazing Sea. The temperature was frighteningly high.

“Oh no!” Jian Wushuang was shocked.

“Flame tide, it’s the flame tide!”

When Jian Wushuang was preparing to explore the depths of Devil Smoke Valley, he had read all kinds of information about the Blazing Sea. In the Blazing Sea, as long as he did not go to the central area, he would rarely encounter any danger, but it did not mean that he did not encounter any danger.

The flame tide that appeared now could be regarded as a major disaster in the Blazing Sea.

It was like a tsunami in the Blazing Sea.

The information about the Blazing Sea stated that if he encountered a flame tide in the Blazing Sea, he could only run away!

He had to run away!

Jian Wushuang reacted, but the flame tide appeared under his feet and was too close to him. The waves of raging flames swept toward him at such a close distance, no matter how fast he was, he could not dodge the first flame tide.

Since he could not dodge it, he could only rely on his divine body to forcibly resist it.

Puff!

The incoming flame tide directly covered Jian Wushuang’s divine body. Endless raging flames swept over Jian Wushuang’s entire body, and a terrifying burning erosion power was transmitted over. Although this erosion power was weakened by more than half when it passed through the Blood Crystal Armor...there was still a lot of scorching power left to erode Jian Wushuang’s body.

Jian Wushuang could only rely on his divine power to crazily resist this erosion power, which consumed a lot of divine power.

In just a moment, Jian Wushuang felt that he had consumed one-thirtieth of his divine power!

One should not underestimate it. After all, Jian Wushuang’s divine power was as vast as the sea because he was a perfect chaotic creature. Even a Ruler Realm expert’s divine power was far inferior to his,

usually, unless he had to use a large amount of divine power to activate the Heaven-cleaving skill, he did not need to care about the consumption of his divine power when fighting others or using absolute arts. It was clear how vast his divine power was.

However, the erosion of the first flame tide had consumed one-thirtieth of his divine power in an instant. If it were an ordinary Principles Master, even a Principles Master in the fifth or sixth realm of the void...his divine power would have evaporated in an instant.

“Terrifying. This flame tide is too terrifying.”

Jian Wushuang felt a trace of fear in his heart, especially when he saw the successive waves of flame tides behind him. His expression changed drastically.

### **Chapter 3547: Cutter Board**

“The first flame tide alone has cost me more than one-thirtieth of my divine power. The flame tide behind me is even hotter and more massive. Once I’m completely sucked in, even if my divine power is vast, I might not be able to withstand it.” Jian Wushuang was shocked, he immediately burst out with his fastest speed and rushed to the side.

Although the flame tide was terrifying, its speed was actually not very fast. The first flame tide just now could not be avoided because Jian Wushuang was too close to it, but the remaining flame tide...Jian Wushuang could avoid it.

However, just as he was about to break out of the range of the flame tide, a sudden red light attracted Jian Wushuang’s attention.

“What’s that?” Jian Wushuang looked at the red light in front of him.

Although it was surrounded by red flames because of the flame tide, the red light was very eye-catching in the midst of the flames.

“Whatever it is, take it away.” Jian Wushuang waved his hand and caught the red light while moving to the side.

However, the moment his right hand touched the red light, an incredible scorching power was transmitted directly from the red light.

Almost in an instant, Jian Wushuang’s right hand burned up.

“This?” Jian Wushuang was shocked. Although his right hand was burning up, he still endured the intense pain to grab the red light and put it into his interspatial ring.

After doing all this, Jian Wushuang escaped from the range of the flame tide as fast as he could.

Whoosh!

The flame tide was still rolling up crazily, and its range was getting larger and larger. It swept out in a vast and mighty manner.

However, Jian Wushuang had already arrived in the void outside the flame tide. He watched the flame tide crazily sweep around, but the flame tide could no longer affect him.

However, at this moment, Jian Wushuang did not pay attention to the flame tide. Instead, he was checking his divine body.

“My divine power was consumed by one-fifth at that moment?” Jian Wushuang was completely stunned at this moment.

When the first flame tide came, he had lost more than one-thirtieth of his divine power. Although he was a little surprised, he could understand.

After all, it was a flame tide that could make people’s faces change. It was normal for it to have such erosive power.

However, Jian Wushuang could not understand. He had just put the red light into his interspatial ring...he had just caught the red light and put it into his interspatial ring in an instant. The process was so short, it had only been a moment, but in such a short time, not only had his right palm been completely burned, but he had also used up one-fifth of his divine power.

He had used up one-fifth of his massive divine power at one time? What kind of terrifying power would be needed to do that.

As for the red light...Jian Wushuang immediately began to inspect his interspatial ring.

He found a shocking scene. After all, there were many treasures in his interspatial ring, which he had collected after killing many experts over the years, but now, except for a few extremely high-level treasures, all the other treasures in his interspatial ring had disappeared.

Yes, they had disappeared.

To be exact, because the red light had entered the interspatial ring, the original treasures had been directly evaporated by the terrifying temperature contained in the red light.

Only a limited number of extremely high-level treasures had managed to resist the terrifying temperature contained in the red light and remained.

Jian Wushuang immediately switched the remaining few treasures to another interspatial ring. Then he carefully looked at the red light.

It was not until the red light was the only treasure left in the interspatial ring that the red light finally quieted down. Jian Wushuang finally saw the true appearance of the red light.

The red light was actually a strange-shaped knife disk.

The knife disk looked a bit old and a bit old, but its surface was red and boiling hot, which appeared because it had been at the bottom of the Blazing Sea for a long time.

“What is this knife disk?” Jian Wushuang frowned and looked at the knife disk.

He could not see the material of the knife disk, but he could imagine that it had stayed at the bottom of the Blazing Sea for such a long time without being damaged. The material of the knife disk must be amazing.

Jian Wushuang also tried to refine the knife disk, but as soon as his soul power touched it, his soul immediately began to hurt. This was caused by his soul being unable to withstand the incredible temperature on the knife disk.

“The temperature is too high. I can’t even touch it, let alone refine it,” Jian Wushuang murmured, but soon he felt relieved. “Although I don’t know what this cutter board is, I can tell that it must have a great origin. Maybe it’s a very special treasure. I just don’t know its use.”

“I have no choice but to keep it. When I have the chance, I’ll find someone to see what it is.”

Jian Wushuang let out a sigh of relief. Even though he had lost one-fifth of his divine power and his right palm had been burned, his strength was still at his level, the burning of his palm would not harm him at all, and the divine power he had lost could be recovered at the fastest speed.

The only thing that made Jian Wushuang feel a bit distressed was the treasures in his interspatial ring that had been evaporated. After all, they had been accumulated over the years. However, when he thought of the miraculous properties of the knife disc...Jian Wushuang felt better.

Even if he did not know the exact origin and use of the knife disk, he could guess its value. It was definitely more valuable than all the treasures evaporated from his interspatial ring combined.

Boom!

A sudden boom made Jian Wushuang look toward the void in front of him.

In the void in front of him, the huge flame tide filled the entire sky. The flame tide had crashed into a huge rock that had stood in the middle of the Blazing Sea for many years, it had long been immune to the impact of the flame tide. It only made some booming sounds.

“The flame tide is too terrifying. It will sweep over a larger and larger area. I don’t know when it will completely stop. If an expert accidentally falls into the range of the flame tide at this time, I’m afraid the end will be quite miserable.” Jian Wushuang sighed, however, he did not think too much about the flame tide. Instead, he continued to fly toward his target, the core area of Devil Smoke Valley.

## **Chapter 3548: First Battle**

In the blink of an eye, nearly 20 years had passed. Jian Wushuang had finally crossed over from the Blazing Sea.

“I’m finally out.”

Jian Wushuang looked at the Blazing Sea, which was quite far away, and could not help smiling.

In the Blazing Sea, the boring travel time was secondary. The key was that the temperature of the Blazing Sea was too high. He had to rely on his own power to withstand the scorching temperature at all times, but even so, he still felt extremely dry and hot, the dry heat for decades would inevitably make people feel irritated.

“I completely followed the star map given to me by the Axe One Master. After passing through the Blazing Sea, I have now reached the core area of Devil Smoke Valley. If nothing unexpected happens, I am now in the Nine Twists Demon Cave,” Jian Wushuang muttered.

More than 90% of the core area of Devil Smoke Valley was unexplored. Even the remaining 10% of the area that had been explored was still unbelievably large, and such a large territory...naturally, there were many special places.

The Nine Twists Demon Cave was the core area of the Devil Smoke Valley, a relatively famous special place.

“The Nine Twists Demon Cave not only has many natural dangers like the nine twists thunder tribulation and the Devil Cloud Sea, but there are also some terrifying monsters living in the Nine Twists Demon Cave. Although these monsters are generally low in intelligence, their strength is very shocking. It is said that the most ordinary monsters have combat strength comparable to the masters of the six states of the void. And some of the stronger monsters can even suppress peak experts of the six states of the void.”

“In addition, among these monsters, there is the most terrifying blood-armored monster. It is said that this blood-armored monster can fight against a Ruler Realm expert. It lives here and hates us foreign cultivators. As long as we meet it, it won’t hesitate to kill us. I’m traveling alone in the Nine Twists Demon Cave, so I have to be careful,” Jian Wushuang thought.

He had read the information about the Nine Twists Demon Cave and knew how dangerous it was.

It was not like the outer area of Devil Smoke Valley. As long as he did not foolishly intrude into some dangerous places, he could do whatever he wanted in the outer area, but not in the core area, especially in the Nine Twists Demon Cave.

The monsters in the Nine Twists Demon Cave were known to all the experts in the astral world.

“Although the Nine Twists Demon Cave is dangerous, it contains many opportunities. There are also many experts wandering around here. I really hope to fight with them as soon as possible,” Jian Wushuang murmured.

In the core area of Devil Smoke Valley, especially in places like the Nine Twists Demon Cave, there were many experts, and they were usually very strong. Any one of them could reach the level of the sixth void realm, the reason why Jian Wushuang chose to come here was that there were many opportunities, and the most important thing was that there were many experts.

“I wonder who will be my first opponent.”

With a hint of expectation, Jian Wushuang began to explore the Nine Twists Demon Cave.

Three days later, a red-haired sloppy old man was half-lying behind a black boulder on a pitch-black land. Although he looked very relaxed and comfortable, his soul energy had long since spread out, allowing him to see everything in his surroundings.

The slightest movement in the surrounding void would immediately attract his attention.

And at this moment, an unfamiliar aura suddenly intruded into the range of the red-haired sloppy old man’s soul perception.

“Eh?” The red-haired sloppy old man’s gaze focused slightly. “What an unfamiliar aura. And this aura doesn’t seem very strong. It’s only at the level of an ordinary Principles Master?”

The red-haired sloppy old man was somewhat puzzled.

This was because this was the core region of Devil Smoke Valley. Under normal circumstances, those who rushed here to explore the core region were usually experts at the fifth level of the void. No matter how weak they were, they would only be able to join forces with a few peak fourth level void realm experts, even so, they could only walk around some ordinary places in the Blackheart Region.

But this was the Nine Twists Demon Cave. Even in the core region, it was an extremely dangerous place. Under such circumstances, those who dared to venture here were usually at the sixth realm of the void, or perhaps, they were at the peak of the fifth level of the void.

However, the aura that appeared within the range of the red-haired sloppy old man's soul perception was indeed not very strong. However, in terms of aura, it was much weaker compared to the fourth level of the void.

However, to a Principles Master, he could not completely rely on aura to evaluate the other party's strength.

"This man..." The red-haired sloppy elder stood up, and at the same time, he had a good look at his appearance.

"This appearance and the divine sword on his back...could it be the Blood Sword Master who has been famous in the outer area recently?" The red-haired sloppy elder pondered.

Although he had been wandering in the Nine Twists Demon Cave for some time and had not returned, he still knew clearly about some things that had happened in the three battlefields through the forces behind him, of course, that included Jian Wushuang's reputation in the outer area of Devil Smoke Valley.

After all, many people in the outside world believed that Jian Wushuang was qualified to fight with experts of the six void realms. Such a figure was already qualified to be heard by those experts of the six void realms.

"Well, it should be him. This place is close to the Blazing Sea. It seems that he has just passed through the Blazing Sea," the red-haired sloppy old man said softly. Then, he began to ponder, "Although this Blood Sword Master has made quite a name for himself in the outer region of Devil Smoke Valley, the people he fights there are only some void fourth level experts or void fifth level Principles Masters. As for void sixth realm experts, I'm afraid that he has never encountered them before."

"Although many people now say that this Blood Sword Master has the strength to fight against void sixth realm experts, without truly fighting against void sixth realm experts, how can he be in charge?"

"At least, I don't believe it. But now, he has come to this Nine Twists Demon Cave to explore, and he actually met me?"

The red-haired sloppy old man muttered to himself, but his gaze gradually became cold, "This Blood Sword Master has a low-level universe true treasure armor, and the outside world is saying that he has an extremely special time-space type universe true treasure. That time-space type universe true treasure is of an extremely high level...it might be a high-level universe true treasure."

The red-haired sloppy old man didn't care about a single low-level universe true treasure armor.

However, a time-space type true treasure that was suspected to have reached the level of a high-level universe true treasure was enough to make him excited and even go crazy.

“It’s rare to meet this Blood Sword Master. This is equivalent to the heavens giving me a chance. If I miss it, I’m afraid I won’t have such an opportunity in the future!” The red-haired sloppy old man’s eyes were burning. The next moment, he moved, he rushed towards the human figure within his soul perception.

#### **Chapter 3549: Red Nether Master**

Jian Wushuang slowly moved forward on the black earth of the Nine Twists Demon Cave.

Because there were too many dangerous places in the Nine Twists Demon Cave, he did not dare to move too fast.

“It’s said that the monsters in the Nine Twists Demon Cave live on the black earth. Most of the time, they live underground and only come out occasionally to get some fresh air. However, I haven’t seen any monsters in the past few days, so I don’t know what they look like,” Jian Wushuang muttered.

But all of a sudden...

“Huh?” Jian Wushuang’s face suddenly darkened. He had already sensed the killing intent coming from his side, and a strange figure had appeared there.

“It actually appeared silently by my side, but my soul power did not sense it? What a good trick.” Jian Wushuang smiled indifferently and immediately activated his life magic power.

The red-haired sloppy old man suddenly appeared beside Jian Wushuang. He had completely set his eyes on Jian Wushuang, even though he did not think that Jian Wushuang had the battle strength of the sixth realm of the void, however, he did not want to give Jian Wushuang a chance to kill him.

Instead, he unleashed his strongest power as soon as he attacked. A dazzling blood-red saber light with a suffocating cold aura slashed toward Jian Wushuang.

The timing of his attack was just right. In the red-haired sloppy elder’s opinion, even if his attack could not kill Jian Wushuang, it could at least severely injure him, he had a high chance of killing Jian Wushuang.

However, he did not expect that Jian Wushuang would react the moment he attacked and immediately attack.

This move was still performed with the Blood Mountain Sword. Because the time was too short, Jian Wushuang did not have the time to perform any amazing swordsmanship. It was purely a move that relied on his own brute force and his strongest power.

Clang!

The Blood Mountain Sword and the saber light collided head-on. An extremely powerful force immediately surged from the saber light and forced Jian Wushuang to retreat at once.

Jian Wushuang retreated rapidly, and it took him a long time to stabilize himself.

"Impressive. This saber alone should have the battle strength close to the advanced level of the sixth realm. There are indeed many experts in the Nine Twists Demon Cave." Jian Wushuang smiled faintly, and at the same time, he saw the appearance of the person.

"This appearance...you are the Red Nether Master, right?" Jian Wushuang asked.

"Yes, I am." The Red Nether Master stared at Jian Wushuang with a cold gaze. "Blood Sword Master, I didn't expect you to be able to take my attack without being noticed. It doesn't seem like you used up much divine power."

"Haha, it's my honor for you to recognize me, Red Nether Master. However, I don't have any enmity with you. It's not right for you to launch a sneak attack without saying anything. After all, you're an expert of the sixth realm of the void," Jian Wushuang said.

"Humph, I don't care whether you have enmity or not. As long as I don't like you, or if you have something I want, I can kill you at will," Red Nether Master said coldly, "It's said that you have a time-space type universe true treasure on you."

"Blood Sword Master, hand over that time-space type true treasure and I'll let you go. Otherwise, you'll have to stay alive."

"Oh?" Jian Wushuang raised his eyebrows, then he smiled and said, "Red Nether Master, you're right. Cultivators who wander around the three battlefields don't need any reason to kill each other. They can kill each other if they want to, but I'm afraid you're not qualified to do so."

"You'll know whether I'm qualified or not." Red Nether Master did not waste any time. Since Jian Wushuang did not take the initiative to hand over the time-space type true treasure, he immediately took action.

Whoosh!

A terrifying speed burst forth. Red Nether Master was clearly still some distance away from Jian Wushuang, but in the blink of an eye, he had already arrived in front of Jian Wushuang, and the dark-red saber in his hand...he struck out fiercely once again.

This strike had the ability to split mountains and break mountains, as if it wanted to cut everything in front of him into two.

Seeing this scene, Jian Wushuang's eyes flashed with excitement.

"If you want to fight, then let's fight."

Jian Wushuang's aura suddenly soared, and an extremely violent aura suddenly rose.

He held the Blood Mountain Sword with one hand and instantly slashed.

A scarlet sword light easily cut through the void, and with a roar like that of an ancient fierce beast, it suddenly slashed out.

It was the peerless sword technique, Xi Xiang!

It was the same Xi Xiang move, but after 50 years of practice, it had reached the level of an advanced level six absolute art.

Coupled with Jian Wushuang's terrifying power, it instantly collided with the saber light of the Red Nether Master.

Clang!

With another loud sound, Jian Wushuang staggered and took a few steps back.

But the Red Nether Master also took a few steps back.

"Is this...an advanced level six secret skill?" The Red Nether Master looked at Jian Wushuang in surprise.

"Haha." Jian Wushuang just smiled faintly and then attacked again.

"Humph." The Red Nether Master snorted, and his eyes turned cold as he went up to meet Jian Wushuang.

The two immediately engaged in a fierce battle in the Nine Twists Demon Cave.

Although the Red Nether Master was a genuine expert of the six void realms, his cultivation was only at the initial stage of the six void realms. He was still far from reaching the advanced stage of the six void realms. As for Jian Wushuang, he activated his life divine power, by relying on his advantage in basic divine power to activate the first stage of the Blood Crystal Armor, the power he unleashed was definitely stronger than that of an expert at the peak of the five void realms. He was only slightly weaker than an expert of the six void realms.

However, Jian Wushuang could make up for this difference with his own swordsmanship.

After all, he had created a complete set of swordsmanship. These swordsmanship had reached the advanced level of level six. During the fierce battle with the Red Nether Master, each of his swordsmanship was an advanced level six absolute art, this was something that the Red Nether Master could not do.

With the advantage of the absolute art, Jian Wushuang could fight the Red Nether Master head-on.

Clang! Clang! Clang! Clang! Clang! Clang!

A low sound of collision could be heard. The two of them had fought in the void for nearly a hundred times.

Although the Red Nether Master had some advantage in these nearly a hundred collisions, he did not have much of an advantage.

"Red Nether Master, is that all you've got?"

Jian Wushuang suddenly stopped what he was doing and looked at the Red Nether Master.

The Red Nether Master had an ugly look on his face. He had not taken Jian Wushuang seriously before and thought that his strength was enough to crush Jian Wushuang and kill him. But now, in a real fight...he could not even completely suppress his opponent, let alone kill him.

## Chapter 3550: He Fled in a Sorry State

"Although my strength is only at this level, you are still slightly weaker than me. What are you so proud of?" Red Nether Master shouted in a low voice.

"Slightly weaker than you?" Jian Wushuang laughed playfully, "That may not be the case."

As soon as he finished speaking, Jian Wushuang put the Blood Mountain Sword back into its scabbard. Then, with a flip of his hand, a purple divine sword emitting a faint cold light appeared in his hand.

This purple divine sword was, of course, the Absolute Shadow Divine Sword.

"Red Nether Master, now you and I will fight again," Jian Wushuang said with a faint smile.

Of course, Red Nether Master also saw Jian Wushuang's action, and his expression could not help changing. "That sword is a universe true treasure. Blood Sword Master clearly has an offensive magic weapon at the level of a universe true treasure, but he hasn't taken it out before."

Red Nether Master's expression was gloomy. He knew that he had been underestimated by Jian Wushuang.

"Kid, you're too conceited."

With a stern shout, Red Nether Master attacked again. This time, he tried his best to fully unleash his power.

Jian Wushuang took a simple step forward and instantly slashed down with the longsword in his hand.

It was the peerless sword technique, Xi Xiang!

Jian Wushuang used the same sword technique with the same power. The only difference was that Jian Wushuang had used the Blood Mountain Sword before, but now he used the Shadow Divine Sword. However, the power of the last sword attack...was obviously much more powerful.

Clang!

A low sound of collision was heard. Red Nether Master took a few steps back.

However, Jian Wushuang was not affected at all. After a head-on collision, he immediately gave chase.

In the void, Jian Wushuang and Red Nether Master were fighting again.

However, the situation had been completely reversed.

Previously, Red Nether Master had gained the upper hand in the fierce battle between Jian Wushuang and Red Nether Master with Blood Mountain Sword. However, now that Jian Wushuang had changed to Absolute Shadow Divine Sword, the power of his swordsmanship had increased greatly, in a head-on collision, Jian Wushuang had the advantage, so naturally, Jian Wushuang had the upper hand.

"Bastard, after the Blood Sword Master changed to a divine weapon, the power of his swordsmanship has increased by so much?" The Red Nether Master's face was extremely ugly. He carefully looked at the purple divine sword in Jian Wushuang's hand. "This sword is definitely an advanced universe true

treasure, and it should be considered a top-grade one among the advanced universe true treasures. Otherwise, its power would not have increased so much all of a sudden.”

At this moment...

“I’m not playing with you anymore.” Jian Wushuang’s voice suddenly turned cold, and his face became serious.

Buzz!

A supreme destructive will suddenly rose.

This destructive will, with a hatred that was determined to die, completely exploded from Jian Wushuang’s hand.

A sword light also extended from the heaven and earth.

This sword light seemed to have split the sky of the Nine Twists Demon Cave in half.

“An absolute art at the peak of the sixth rank?”

The moment the Red Nether Master saw this sword light, his expression immediately changed.

When Jian Wushuang had used several advanced sixth rank absolute arts, he was already surprised enough. However, he had never expected that Jian Wushuang had also created an absolute art at the peak of the sixth rank.

“Block it!”

Red Nether Master clenched his teeth and swung his saber to block the sword light.

The sword light crushed his saber technique almost instantly, and a powerful destructive force was transmitted to his body.

Although he was protected by the universe true treasure armor, which had offset most of the power, the remaining power entered his divine body and directly depleted 10 percent of his divine body.

“That sword is indeed a top-tier senior universe true treasure. If it were an ordinary senior universe true treasure, my true treasure armor could at least cancel out more than 90% of its power. However, my true treasure armor only canceled out 70% of its power with his sword!” Red Nether Master’s face was cold. “I can’t keep fighting with him. Let’s go!”

Red Nether Master did not hesitate at all and rushed toward the void space at the fastest speed.

Seeing this, Jian Wushuang did not intend to chase after him.

He knew very well that although he could suppress or defeat the Red Nether Master, it was still very difficult to kill him.

“It’s just as I thought. I’m a perfect level life-form. Even though I’m only at the Immortal Saint Realm, my basic divine power is still much stronger than that of an ordinary Principles Master. I have an advantage in basic divine power, and the first stage of the power of the Blood Crystal Armor brings out my advantage almost perfectly!

“Even if I only have four parts of the power of my will and one part of the power of my life divine power, I’m not much weaker than an ordinary expert of the six void realms!”

“My swordsmanship has almost reached the advanced level of stage six. With Jian Wushuang’s help, I can fight against weaker experts of the six void realms head-on. For example, the Red Nether Master was at a slight disadvantage at the beginning. However, once I take out my Absolute Shadow Sword, I can easily suppress him,” Jian Wushuang murmured.

He had guessed that his current strength was no weaker than that of an ordinary expert of the six void realms. After the battle with the Red Nether Master, it proved that he indeed had such strength.

Of course, the Red Nether Master was an ordinary expert of the six void realms, which was why Jian Wushuang had the upper hand. But do not forget, the battle strength that Jian Wushuang mentioned...did not include the heaven-cleaving skill.

The heaven-cleaving skill was quite harmful to Jian Wushuang’s divine power. Therefore, Jian Wushuang had decided that he would not use it if he could not use it during his time in the Universe Battlefield.

For example, he did not use the heaven-cleaving skill during his fight with the Red Nether Master. Once he used it, his battle strength could instantly rise to the peak of the six void realms.

“In the end, Red Nether Master is still a little weak, but I can use it to test my strength,” Jian Wushuang said with a faint smile. Then, he took a step forward and continued to fly forward.

Red Nether Master, who was not far from Jian Wushuang, returned to a black boulder after he had gotten rid of Jian Wushuang.

“Phew.”

Red Nether Master exhaled and began to inspect his divine body. His expression immediately turned ugly.

“Damn it. I wanted to kill Blood Sword Master and take his time-space type true treasure, but I failed. Not only did I fail to kill him, but I also lost more than 20 percent of my divine power.”
