

Swordsman 3571

Chapter 3571: Sword Principle, Narrow!

"Can't you feel it?" Axe One Master frowned slightly and took a deep breath after a while. "In that case, we can only wait for another 20,000 years. If there is still no trace of the Heavenly Sword Marquis in the next 20,000 years, we can announce his death to the public."

"20,000 years?" The people around were surprised.

After all, Jian Wushuang had been missing for 10,000 years.

If the other cultivators under Star Palace had been missing for thousands of years, Star Palace would have announced his death. However, Jian Wushuang had to wait for 30,000 years before announcing his death, it was obvious how important Jian Wushuang was to Star Palace.

Of course, Axe One Master and the others did not know the importance of Jian Wushuang, but they knew how much his Palace Master valued him.

The reason why they had waited so long to announce Jian Wushuang's death was, to a large extent, because they wanted to wait until they were more certain before reporting the news to their Palace Master, in addition, they still had a glimmer of hope for Jian Wushuang.

Unfortunately, after another 20,000 years, there was still no news of Jian Wushuang.

This time, Axe One Master, Marquis Duan Yu, and the others no longer had any hope for Jian Wushuang.

Soon, the news of the Blood Sword Master's death spread throughout the territory.

However, the three battlefields were extremely dangerous. There were countless experts from various forces in the Star Worlds. Although Jian Wushuang had a certain reputation, he was still a small fry compared to this territory, he was still a nobody.

Even if the news of his death spread, it would not cause any ripples in this territory. At most, he would only have contact with Jian Wushuang, Heavy Master, Saber Python Master, and Purple Sound Master, who had a certain friendship with him, sighed slightly in their hearts.

...

Time passed quickly, and the three battlefields were still bustling with activity.

In the depths of Devil Smoke Valley, Jian Wushuang had been trapped here for 50,000 years in the special space-time zone in the unknown region.

Being trapped for 50,000 years was a torture for Jian Wushuang. Fortunately, he could constantly fight with those human-shaped sculptures, and his swordsmanship and strength had been improving, therefore, he was not too lonely and boring.

In addition, after 50,000 years, he had become completely calm and even quiet.

Now, he was not worried about his predicament at all. Instead, he was looking forward to his future.

"50,000 years!"

"In these 50,000 years, I have fought with these six human-shaped sculptures many times. I have been pondering over the mysteries of their swordsmanship fusion. I didn't understand how their swordsmanship could be perfectly fused together, and why their power would increase so much after the fusion. But now, I understand."

Jian Wushuang stood there with a smile on his face as he looked at the six human-shaped sculptures in front of him.

That was right. For 50,000 years, he was still stuck in the six human-shaped sculptures. Even though his swordsmanship had improved greatly, he still could not break through the obstacles of the six human-shaped sculptures.

However, although he could not break through the obstacles of the six human-shaped sculptures, he understood the reason why the swordsmanship of the six human-shaped sculptures had suddenly skyrocketed.

"It's the sword principle!"

"The reason why the sword techniques they displayed could be combined so perfectly is that the sword principle they have mastered is completely different from the sword principle I have mastered!"

"My sword principle is the solipsistic sword principle, with myself as the core. Even the power of the sword principle originates from the sword world condensed in my body. However, the sword principle of these human-shaped sculptures doesn't have themselves as the core, but the entire heaven and earth as the core. The power of the sword principle they use also originates from the surrounding heaven and earth. To be exact, it originates from the vast universe!"

"Although my sword world is stable and powerful, it's still just a small sword world. No matter how much my sword principle improves, its power will still be limited. However, the power of the sword principle from the universe is truly boundless!"

Jian Wushuang clenched his hands, his eyes shining with a bright light.

He understood the shortcomings of his sword principle.

Just as he said, his sword principle was centered on himself. Although it was powerful, it was too narrow!

It was like a small stream. Although he could control it freely, how could the power of a small stream be compared to the mighty sea? Let alone the entire universe?

"Wrong, wrong!" Jian Wushuang laughed, "I've been using the Enlightenment system of the Divine Beginning Realm's sword principle, with my own sword principle as the core. I've been improving step by step according to the level of the Divine Beginning Realm's sword principle. However, I've never thought that the Divine Beginning Realm is just an unremarkable third-class world star in the vast universe. How could the cultivation system in this world star be complete? How can it all be right?"

"I couldn't help it. I was born in the Divine Beginning Realm, so my horizons were too small. I didn't see the true vastness of this universe, so I didn't question some of the cultivation and comprehension systems in the Divine Beginning Realm. But now, I understand that the true Sword Dao isn't based on

oneself, but should be based on heaven and earth, with the vast universe as the core. That is the true vastness, the most powerful Sword Dao!”

“Ha ha ~ ~”

Jian Wushuang laughed crazily, and his laughter echoed in this special space and time.

The laughter lasted for a long time before it finally calmed down.

In the middle of the high platform, Jian Wushuang had already sat down with his legs crossed. His eyes were cold, and his body slightly shook. In an instant, a huge and complete sword world appeared in front of Jian Wushuang.

This sword world was the sword principle world that Jian Wushuang had spent a great deal of money to condense. It represented Jian Wushuang’s achievements in sword principle. Now, this sword world spanned 100,000 years, the boundless sword tree in the center was also 100,000 feet tall. Its branches were lush and lush, covering the entire sword world. In this sword world, there were mountains, rivers, and everything that a normal world should have.

This was formed after Jian Wushuang reached the third level of sword principle and evolved everything.

But now...looking at the sword world in front of him, Jian Wushuang’s eyes were extremely cold.

“I have a hunch that my judgment is not wrong.”

Taking a deep breath, Jian Wushuang made up his mind. In an instant...the entire sword world began to collapse at an astonishing speed.

Jian Wushuang had destroyed the sword world that he had painstakingly condensed!

Chapter 3572: Three People Arrived

The collapse of the sword world meant that all of Jian Wushuang’s previous efforts in sword principle had been in vain.

This step was not easily accomplished. Even Jian Wushuang had made a great determination, even with a hint of a gamble.

He did not know if his guess was correct, but he knew that his sword principle was indeed too narrow. If he wanted to change this, he had to change his previous understanding of sword principle and start afresh.

This was what Jian Wushuang had already done.

“Sword principle, with the vast universe as its core...” Jian Wushuang closed his eyes and began to touch the sword principle in the vast universe.

Time continued to pass like flowing water.

While Jian Wushuang chose to destroy his Sword World and start comprehending the universal sword principle again, in this territory, there was an ordinary earth star not far from the Divine Beginning Realm.

This Earth Star had been occupied by someone a long time ago, and the force that occupied it was called...the Sacred Island!

Sacred Island was built on the foundation of the three Saint Realms of the Divine Beginning Realm. The cultivators on the Sacred Island were mostly experts who came from the three Saint Realms. However, because the Sacred Island did not have a Ruler Realm expert overseeing it...thus, the Sacred Island was only a small faction in this territory. It was far inferior to the Star Palace.

However, at this moment, in the center of the Sacred Island, in a majestic and majestic palace, there were three figures sitting on towering thrones in three different directions. Below them, there was a peak level six realm Principles Master, he was respectfully kneeling there.

It must be known that a peak sixth realm Principles Master could be considered a peak expert even in this territory. Normally, even if he met an expert at the pinnacle of the sixth realm, he would at most lower his stance slightly, however, this peak sixth realm Principles Master was actually kneeling here.

One could imagine how powerful the three people he was kneeling on were.

That was right, the three people sitting on the throne were the three Rulers!

"It's been so long. Is there still no news from Heavenly Sword Marquis?" An indifferent voice rang out as the tall man in front of him looked down. His eyes were ice-cold and contained a faint evil intent, anyone who saw him would shudder.

"My lord, there is no news," the peak sixth realm Principles Master respectfully replied. Facing three genuine Rulers, especially knowing their true origins and identities...this Principles Master did not even dare to breathe loudly.

"The three of us have already been in this territory for 30,000 years, while Heavenly Sword Marquis has been missing for 20,000 years before we arrived. In that case, he has been missing for 50,000 years. From the looks of it, he should already be dead," the tall man said.

"That should be the case." The evil-looking youth wearing a scarlet cape on the other throne said with a strange smile, "I have a certain understanding of this territory, and I also know the existence of the three battlefields in this territory. Those three battlefields should come from the depths of the universe, or even the core, and they contain endless dangers. As for the unexplored area in the core of Devil Smoke Valley, let alone that Heavenly Sword Marquis, even the three of us would die if we were careless!"

"Heavenly Sword Marquis has been trapped in the undiscovered region for fifty thousand years. No matter how you look at it, he is definitely dead."

"Milord, you are right. When Heavenly Sword Marquis entered the undiscovered region of Devil Smoke Valley and disappeared without a trace, he was already considered dead. However, the Star Palace did not release any news until thirty thousand years after he disappeared. The Star Palace finally announced his death. If even the Star Palace thinks so, then Heavenly Sword Marquis should no longer have any chance of survival." The kneeling Principles Master said.

"Since we are all going to die for sure, why are the three of us still standing here like idiots? Let's go back." The last of the three Rulers, a child-faced, white-haired old man, spoke out.

“Don’t be impatient.” The tall man laughed, “We spent tens of thousands of years in order to reach this territory. How can we go back in such a hurry?”

“Even if Heavenly Sword Marquis is dead, you have to know that the three battlefields in this territory are indeed a great treasure land. The opportunities contained in them are no small matter. The three of us can spend some time exploring these three battlefields and obtain some opportunities. This won’t be a wasted trip.”

“Moreover, this matter was ordered by that Lord. That Lord said that he must kill Heavenly Sword Marquis no matter what. Although he has been missing for 50,000 years and the probability of him dying is over 99%, we haven’t really seen his corpse. If we go back like this, it will be very difficult to explain in front of that lord. Therefore, it’s better to wait.”

“Mmh, I agree.” The devilish youth laughed, “The three great battlefields are indeed quite good, and there are many opportunities. The most important thing is that there aren’t many people competing against each other. This isn’t like the territory we are in. Although there are many places with great opportunities, there are simply too many experts there. How can this place be like this? There are only a few dozen Rulers in this entire territory, and all of them are ordinary Rulers.”

“Since you think so, then let’s Wait a little longer.” The child-faced, white-haired old man nodded, then, he shouted, “Right, doesn’t that lord have three slaves in the Divine Beginning Realm? I need some natural treasures. This is the list. Tell them to collect them quickly and send them to me.”

“Yes.” The Principles Master was so scared that he nodded immediately.

The three of them were not Rulers of this territory, but came from other territories.

The reason why they came to this territory was very simple. It was for Jian Wushuang. To be exact, it was for the Divine Beginning Realm!

In the Divine Beginning Realm, the three Saint Realms ruled over everything, and behind the three Saint Realms was the Heavenly Dao will of the Divine Beginning Realm.

In the world-destroying battle countless years ago, the Seven Star Mysterious Sect was destroyed and Xuan Yi was killed. The reason for that battle was because Xuan Yi’s existence threatened the divine will of the Divine Beginning Realm, after that, the divine will invited many experts from outside the world to destroy the Seven Star Mysterious Sect and kill Xuan Yi.

This time, the three rule Rulers in the hall were also invited by the divine will of the Divine Beginning Realm to kill Jian Wushuang. They had arrived here 30,000 years ago, but when they arrived...Jian Wushuang had already entered the unknown region of Devil Smoke Valley and had been missing for more than 20,000 years.

After all, the Sacred Island was founded on the three Saint Realms, so it had been paying close attention to Jian Wushuang. When Jian Wushuang was traveling in the three battlefields under the name of Blood Sword Master and killed Sacred Island’s Dragonhawk Master...the Sacred Island had already guessed that Blood Sword Master was Jian Wushuang.

Therefore, Sacred Island knew that Jian Wushuang had entered the unexplored area of Devil Smoke Valley and had been missing.

Chapter 3573: Universe Origin of Sword Principle

In a flash, Jian Wushuang had lost contact with the outside world for a full 80,000 years.

He had also been trapped on the high platform for a full 80,000 years.

30,000 years ago, Jian Wushuang collapsed the sword world on his own and began to re-establish his sword principle with the universe as the core. Because he had many understandings and understandings of sword principle before, he was naturally familiar with the way to re-establish his sword principle now.

During the past 30,000 years, his sword principle had been improving rapidly and had never stopped.

Until now...

On the high platform, Jian Wushuang opened his eyes and slowly stood up. However, the moment he stood up, an invisible sword essence stretched out and instantly triggered the surrounding universe, endless sword principle origin surged toward him.

He was standing there, but he felt that he had become the core of the sword principle origin. With a thought, the sword principle origin of the universe could be used by him. With a simple action, he could immediately absorb a large amount of the sword principle origin contained in the universe.

"This feeling...is the real sword principle." Jian Wushuang sighed with surprise and joy in his eyes.

He had renewed his sword principle and activated the universe sword principle origin. Now that he had finally used the universe sword principle origin, his sword principle had reached a new level.

"If I'm not wrong, Di Shisan's sword principle level should also be at this step," Jian Wushuang muttered.

Di Shisan was an amazing genius in sword principle.

His sword principle was the strongest in the Divine Beginning Realm since ancient times.

Even though he was only a Principles Master, his level of sword principle was beyond the reach of many Rulers.

Although Jian Wushuang could not really compare with Di Shisan, he felt that his current grasp of sword principle should not be much weaker than Di Shisan's.

"I'm very curious about how much my swordsmanship will improve after reaching this step." Jian Wushuang slowly extended his right hand with a hint of expectation.

He did not use a sword nor did he display swordsmanship. He just casually slashed with his right index finger.

This slash instantly activated the origin of sword principle in the universe. For a moment, the space was almost cut open.

"Wow, when I activated the sword principle origin of the universe, the power of my sword suddenly increased by dozens of times. It's so terrifying!" Jian Wushuang exclaimed.

Previously, when he had reached the third level of sword principle and evolved everything, the power of his swordsmanship could also be increased with the support of sword principle. However, the increase

in power was very limited. It was already incredible to be able to increase the power by one or two times.

But now, with a casual move of his sword, the power of the origin of sword principle in the universe was instantly increased by dozens of times. This increase was too great!

“Now I understand why Di Shisan was able to cut off the arm of a Ruler,” Jian Wushuang said with a smile.

With the comprehension of sword principle at this stage, the power of each move was extremely powerful. For example, now, even with a casual move of his sword, the power of this move would still be no weaker than a level six absolute art, once he displayed his sword skill and activated the sword principle origin of the universe, the power of his sword skill would be even more terrifying.

Moreover, his understanding of sword principle was so high that it had already surpassed most of the Master Realm experts. At this stage, he could completely create a level seven absolute art, which was an absolute art at the Master Realm.

Once he created a level seven absolute art and activated the sword principle origin of the universe, the power would be too terrifying.

“I was absolutely confident that I had some talent in sword principle, but I wasn’t confident that I could compete with Di Shisan. I didn’t expect that I could really catch up with Di Shisan in the blink of an eye.” Jian Wushuang’s face was full of surprise and joy.

However, he also understood that the reason why he was able to achieve this step was because of his extraordinary perception and comprehension.

Another point was the human-shaped statue array in front of him. The combination of the human-shaped statues in the array and their swordsmanship made Jian Wushuang realize the shortcomings of his sword principle and allowed him to find a flaw, he also saw a brand-new sword principle.

Of course, the most important point was Jian Wushuang’s decisiveness and boldness!

After all, he had destroyed his sword world on his own and then re-cultivated his sword principle.

This process was not something that an ordinary person could do.

After all, it was not easy to cultivate a sword principle to this point. Who would be willing to destroy it on their own? Who would be willing to re-cultivate it?

Even if they knew that they had made a mistake, after all, they had put in so much effort. No one would be willing to reject everything and re-cultivate it, let alone Jian Wushuang, who only relied on his own comprehension, with some conjectures, he decisively broke down the sword world and then relearned his sword principle.

Such decisiveness and boldness were not something that ordinary people could have.

Jian Wushuang had done it, and he had made the right bet!

After relearning his sword principle for 30,000 years, his sword principle had reached a new level, which was far above the sword principle he had comprehended before.

“Although I have taken this step, I don’t know what level it is.” Jian Wushuang smiled. “However, in the Divine Beginning Realm, sword principle was divided into three levels. Although the Sword Principle I have mastered now is not the same as the three levels, it is still considered the fourth level of sword principle.”

The fourth level of sword principle was beyond the realm of Principles Masters. Jian Wushuang had reached the level of sword principle that even many Master Realm experts could not reach.

And then...

“I’ve reached the fourth level of sword principle. I wonder what will happen if I try to break through this human-shaped sculpture array again.” Jian Wushuang licked his lips, looked at the human-shaped sculptures in front of him, and took out his shadow-killing sword, then he walked forward step by step.

Soon, Jian Wushuang fought with the human-shaped sculptures again.

This time, because he had reached the fourth level of sword principle, his swordsmanship was completely different.

While Jian Wushuang was fighting with the human-shaped sculptures, the consciousness in the deepest part of this special space-time awakened again.

This time, when he woke up and sensed what was happening on the high platform, the consciousness was completely shocked.

“Sword...Universe Origin of Sword Principle?”

“This kid has activated the Universe Origin of Sword Principle? He has reached, he has reached the first step of the Universe Origin of Sword Principle!”

“How is this possible?”

The consciousness was completely shocked.

After all, 80,000 years ago, when Jian Wushuang first came to this special space-time and was trapped on the high platform, the sword principle that he displayed was extremely laughable to him, but now...

Chapter 3574: Unbelievable

To activate the Universe Origin of Sword Principle and take the first step into the Universe Origin of Sword Principle!

In just 80,000 years, this rate of improvement was too frightening.

“The key is that he is only an Immortal Saint?”

Even though this consciousness was knowledgeable, at this moment, a huge wave was stirred up in his heart.

It took a deep breath before it shouted again, “Third brother, wake up!”

"Fourth brother, what's wrong now?" The second consciousness that had previously awakened and conversed with this consciousness also woke up.

"Hehe, it's still for that little fellow trapped in the eighteen ultimate formation." The first consciousness laughed.

"I already said that that little fellow was destined to die from the moment he stepped into the eighteen ultimate formation. What's there to say? It's a waste of time." The second consciousness said with some dissatisfaction.

"Doomed to die? I don't think so," the first consciousness said with a demonic charm. "Third brother, take a good look at the little guy in the 18-ultimate formation and see what level he has reached."

"Oh?" The second consciousness could not help but be surprised.

Although he had woken up, he did not immediately grasp the situation of this special space-time. Now that he heard the first consciousness's words, he subconsciously looked at the high platform, immediately, he saw the scene on the high platform.

He saw Jian Wushuang walking on the high platform. There were still six human-shaped sculptures in front of him. When these six human-shaped sculptures joined hands, they were extremely powerful. Previously, even if Jian Wushuang tried his best, he was still completely suppressed by these six human-shaped sculptures.

But now...Jian Wushuang looked relaxed and content. He casually drew his sword and did not display any extraordinary sword skills, but he could easily block the sword skills of the six human-shaped sculptures, each of his casual moves triggered the Universe Origin of Sword Principle, making his swordsmanship even more terrifying.

"This, this is?"

After seeing the scene on the high platform, the second consciousness was stunned, but then became excited. "The Universe Origin of Sword Principle, yes, it's the Universe Origin of Sword Principle!"

"Haha, yes, it's the Universe Origin of Sword Principle. He has already taken the first step of the Universe Origin of Sword Principle. Now you dare to say that he can't break through the eighteen ultimate formation and is doomed to die?" The first consciousness laughed.

"How is this possible?" The second consciousness was still filled with shock. "A mere Immortal Saint can actually take such a step in Sword Dao?"

"Moreover, when he first came to this space-time 80,000 years ago, he didn't come into contact with this level at all. He even took the wrong step in Sword Dao. However, in a short span of 80,000 years, he has already taken this step?"

"I also find it unbelievable." The first consciousness said, "Even though I spent most of my time sleeping, I still pay attention to this little guy. I can be sure that when he entered this space-time, he didn't even know what the Sword Dao universe origin was, and he was trapped here the entire time. There was no one to guide him. He relied purely on his own trial and error, and in just a short 80,000 years, he actually reached this step..."

“Tsk, tsk. I know that there are some incredible geniuses in this vast universe. All of them are incomparably heaven-defying. For example, the two geniuses who passed through the eighteen absolute formations were extremely heaven-defying. However, one of them was a Principles Master, while the other was a Ruler. In terms of talent, they probably can’t compare to that little fellow trapped within the eighteen absolute formations.”

“Indeed, he did not receive any guidance. He only relied on his own exploration.” The second consciousness sighed.

If Jian Wushuang had reached this stage under the guidance of an expert, they would still be able to accept it.

After all, the most important step to step into the origin of the sword universe was to first come into contact with the origin of the sword universe.

If there was no guidance, ordinary people would not know what the origin of the sword universe was, so how could they come into contact with it?

However, Jian Wushuang really did not have anyone to guide him. He just relied on his own trial and error, relying on his comprehension on the way to battle with those human-shaped sculptures to find his sword principle’s inadequacies, then he decisively collapsed the sword world and began to re-cultivate sword principle. This ability was indeed incredible.

“The first step in his dao of the sword to enter the origin of the sword universe means that his understanding of the Dao of the sword is already higher than that of an ordinary Ruler. His understanding of the Dao of the sword is so high that even if he hasn’t fused four laws to become a Ruler, he can still easily create a level seven absolute art, or even an advanced level seven absolute art. Once he creates an advanced level seven absolute art, the eighteen absolute formations won’t be able to stop him,” the first consciousness said.

“Well, with such a high understanding of sword principle, it is indeed easy to create a level seven absolute art.” The second consciousness nodded.

Seeing that Jian Wushuang had already taken the first step into the origin of the sword universe, the two consciousnesses understood that it was difficult for Jian Wushuang to break through the eighteen ultimate formations.

Now they were both looking forward to Jian Wushuang creating a level seven advanced absolute art and then breaking through the eighteen ultimate formations.

For this reason, they even stopped sleeping temporarily and stayed awake, keeping an eye on Jian Wushuang.

On the high platform, Jian Wushuang had already defeated the six human-shaped sculptures.

It was normal. After reaching the fourth level of sword principle, each of his sword skills was extremely powerful. Even if he did not use any extraordinary sword skills, he could easily defeat the six human-shaped sculptures, once he used his strongest technique, he could easily crush the six sculptures.

However, after he defeated the six sculptures, the remaining 12 sculptures around the platform woke up at the same time. Together with the previous six sculptures, a total of 18 sculptures attacked at the same time.

Although the absolute arts performed by the 18 human-shaped sculptures were only at the pinnacle of the six realm, the swordsmanship performed by the 18 human-shaped sculptures was as powerful as the previous six human-shaped sculptures, it had completely reached the peak of the seventh level elementary absolute arts. Jian Wushuang could not withstand such power, so he was defeated and retreated to the center of the platform again.

However, Jian Wushuang was not at all disappointed this time. On the contrary, he was full of confidence.

“Fortunately, the swordsmanship power of these 18 human-shaped sculptures is only at the level of the seventh-level absolute skill. At most, it is at the peak of the seventh-level elementary skill. Although I can’t fight against this level of absolute skill now, I have reached the fourth level of sword principle. It should not be difficult for me to create a seventh-level absolute skill now. As long as I can create the same level of the seventh-level elementary skill, I can fight these 18 human-shaped sculptures head-on!”

“And once I’ve created a seventh-level art, I can easily break out of this array!”

Chapter 3575: Level Seven Secret Skill

The level seven secret skill was not too difficult for him now.

Even if it was a level seven advanced secret skill, he could create it if he needed time.

Fortunately, the human-shaped sculpture array had a time limit of ten million years, and only 80,000 years had passed since he was trapped here. He had plenty of time.

Jian Wushuang immediately sat down cross-legged.

“In terms of swordsmanship, I created the move Starfire Burning Sun after tens of thousands of years of evolution. Although this move is only the strongest level six ultimate skill, with my current understanding of sword principle, I can completely improve this move and upgrade it to level seven!”

“Not only can I improve Starfire Burning Sun, but I can also improve my swordsmanship, which is at the peak of level six, such as Till Death Do Us Part, Purple Charm, and Sword Rainbow. I can also improve the seven sword moves in the Peerless Sword Manual.”

Jian Wushuang smiled faintly. Soon, he closed his eyes and began to study it.

Just as Jian Wushuang had expected, with her current understanding of sword principle, it was too easy for her to improve the swordsmanship that she had created before. It did not take long, for example, it only took him more than a thousand years to upgrade Starfire Burning Sun to the level of an elementary level seven skill.

However, it was obviously not enough to meet his requirements.

Time passed, and another 17,000 years passed in a flash.

17,000 years, plus the previous 80,000 years, Jian Wushuang had been trapped there for 97,000 years.

On this day, Jian Wushuang suddenly opened his eyes. The moment he opened his eyes, a shocking sword essence swept out. This sword essence was extremely powerful. Fortunately, he was in this special space-time, there were no cultivators around. If there were cultivators in the outside world, ordinary Principles Masters would definitely be scared to death by this sword essence.

“Haha, it’s done!”

Jian Wushuang also revealed a surprised smile.

After spending 17,000 years to improve his swordsmanship, his swordsmanship finally met his requirements.

“The three sword techniques of ‘Till Death Do Us Part’, ‘Purple Charm’ and ‘Sword Rainbow’ have all been upgraded to the level of an elementary level seven absolute art, and they are all at the peak of the elementary level seven!”

“In the Wushuang Sword Manual, I’ve also upgraded to the peak of the initial stage of the seventh rank for the two common sword techniques, ‘Xi Xiang’ and ‘Star Dream’. As for the remaining five sword techniques, they are all at the threshold of the seventh rank.”

“And most importantly, this move, ‘Starfire Burning Sun’!”

Jian Wushuang clenched his hands tightly.

After all, ‘Starfire Burning Sun’ was the sixth rank ultimate skill that he had spent tens of thousands of years to create. Previously, its level was much higher than the other sword techniques that he had created. But in these 17,000 years, he had spent a lot of time on improving this sword skill.

Until now, this sword skill had finally reached the level of the seventh-level advanced ultimate skill!

In Jian Wushuang’s opinion, the seventh-level advanced skill was enough for him to pass through the human-shaped sculpture array.

“Let’s try it.”

Jian Wushuang did not hesitate and directly began to pass through the human-shaped sculpture array.

As he stood up and walked toward the human-shaped sculptures, the two consciousnesses that had been watching Jian Wushuang in the deepest part of the space-time immediately perked up.

“He has been sitting there for 17,000 years. He must be creating swordsmanship. Now that he is getting ready to break through the 18-ultimate formation, he must have created his swordsmanship,” the first consciousness said.

“Yes. He has fought with the 18 human-shaped sculptures at the same time. He knows the power of the sword technique formed by the combination of these 18 human-shaped sculptures. Now that he has come to challenge the formation again, it means that he has the confidence to challenge it,” the second consciousness said with a smile, “it seems that master’s lineage will have another amazing little guy.”

“Haha, this little fellow is indeed remarkable. At the very least, he is much more powerful than the two of us.” The first consciousness laughed as well.

“Such a rare moment can not only be seen by the two of us.” The second consciousness smiled faintly. Following that, a magnificent voice reverberated in the deepest part of the special space-time, “Second, fifth, and seventh, the three of you should also wake up.”

This voice was not only majestic, but it also contained an invisible power. This power spread out like a wave board, instantly awakening the other three consciousnesses that were sleeping in this special space-time.

“Third brother, what’s the matter?”

“Third brother, you should know my current situation. If there isn’t anything urgent, don’t disturb me.”

Different voices came from two different directions. The five of them were in different corners of this special space-time, but their consciousnesses had already gathered together.

“I know your situation, but don’t worry. I won’t take too long to wake you up, and I won’t let you use your strength. I just want you to see the little guy in the 18-ultimate formation,” the second consciousness said, it was the third one.

“In the 18-ultimate formation?”

The other three consciousnesses had just woken up, and they had not paid enough attention to what was happening in this special space and time. Therefore, they did not know about Jian Wushuang’s existence until their consciousnesses covered it, they finally understood why the third one woke them up.

“Immortal Saint? An Immortal Saint actually created a level seven absolute art?”

“My god, his swordsmanship has triggered the Universe Origin of Sword Principle? He has actually stepped into the first step of the Universe Origin of Sword Principle?”

“A level seven absolute art is a level seven absolute art, and it’s not just one. He created many types of level seven absolute arts at the same time. This little guy is really amazing!”

The newly awakened three consciousnesses were all extremely shocked when they saw Jian Wushuang’s performance on the high platform.

“Ladies and gentlemen, there is one more thing I have to tell you. This little guy has only been in this special space and time for 97,000 years. He has only been trapped in the 18-ultimate formation for so long. When he first came here, his sword principle was still very immature and laughable. He even took the wrong path in his sword principle. However, it only took him 97,000 years to reach this step.”

“If nothing goes wrong, he will be able to break through the eighteen ultimate formations soon,” third brother said.

“Unbelievable! It’s really unbelievable!”

“He has been trapped for less than 100,000 years, and his Sword Dao was very laughable at the beginning. This little guy is really a monster!”

“Haha, I didn’t expect that we would meet such an incredible monster even though we have been reduced to this barren land. He has broken through the eighteen ultimate formations at the level of a saint. Even in the deepest part of the universe where geniuses are as common as clouds, there is no such thing, right?”

The five consciousnesses were both amazed and excited.

Chapter 3576: Golden War God

Jian Wushuang was too amazing.

If Jian Wushuang was a Ruler or a Principles Master, they would not be so excited and incredulous even though they were amazed that he had passed the 18-ultimate formation, however, Jian Wushuang was just an Immortal Saint.

Even in the deepest part of the universe where geniuses gathered, no Immortal Saint could pass the 18-ultimate formation.

“Well, he passed it.” The third brother smiled.

“Sure enough, after his sword principle has reached this level, the 18-ultimate formation is no longer difficult for him,” the first consciousness, the fourth brother, said.

“Is that the seventh-level advanced absolute art he created? It looks pretty good.”

“Haha, master’s lineage has another amazing little guy.”

The other three consciousnesses were also laughing.

Suddenly, one of the consciousnesses said seriously, “After passing the eighteen ultimate formations, logically, we should send someone to come in contact with him and tell him the significance of this test. However, the three of us are too weak. Even if we awaken our consciousnesses, it will be very difficult, let alone going to see that little guy. Third brother, fourth brother, the two of you are in better condition. One of you should go.”

“I’ll pass. Fourth brother, go and make a trip,” the third brother said.

“Leave it to me.”

The fourth brother, who was the first one among the five to pay attention to Jian Wushuang’s consciousness, was in the best condition. It was because of this that he had the time to pay attention to Jian Wushuang. Now, he had to make contact with Jian Wushuang, naturally, he was also the best choice.

In the deepest corner of this special space-time.

Rumble! The space-time began to tremble crazily.

It was pitch-black and there was not a trace of light in the void. Suddenly, a pair of huge, narrow golden eyes opened.

There was a trace of ice-cold luster in the pair of golden eyes.

"I've been asleep for too long. My body is almost rusty."

A loud voice sounded from the pitch-black void. The owner of the golden eyes slowly stood up. At the moment he stood up, a large amount of golden light surged out from his body. The golden light was extremely dazzling, it directly lit up the entire void.

After stretching his back, the golden figure directly stepped into the void in front of him.

...

At this moment, Jian Wushuang had just broken through the array of the 18 human-shaped sculptures.

"Finally, I'm out."

Jian Wushuang stood in the gray void and looked at the high platform in front of him.

Just now, when he directly attacked and forced his way through, the 18 human-shaped sculptures tried their best to stop him. Unfortunately, Jian Wushuang had created a level seven absolute art, and with his comprehension of sword principle, he was able to face the 18 human-shaped sculptures head-on, he was not inferior at all.

When he was fighting with these human-shaped sculptures, he had even deliberately displayed all of his sword skills. Through these human-shaped sculptures, he tested the power of his sword skills. After all the trials were over, only then did he really make his move. He directly used Starfire Burning Sun, an absolute art that had already reached the advanced level of level seven, and defeated the 18 puppet fighters head-on.

The 18 human-shaped statues on the high platform were still there, but they had fallen into a deep sleep. In the center of the high platform, the corpse of the Star Thunder Ruler was still intact, this scene made a strange smile appear on Jian Wushuang's face.

"Star Thunder Ruler, although you had the intention to scheme against me, it's a pity that I didn't die on the high platform as you wished. Moreover, the years I've been trapped on the high platform have been a great opportunity for me, which has made my sword principle an incredible improvement."

"And the Shadow Demon Thunder Staff and Blood Demon Cave Armor you left behind are also precious treasures for me. I really have to thank you for having such a great harvest," Jian Wushuang said with a smile.

The reason why he was trapped on the high platform this time was partly because of the Star Thunder Ruler.

Before the Star Thunder Ruler died, he deliberately set a trap in order to let others follow in his footsteps. Unfortunately, Jian Wushuang did not do as he wished. On the contrary, he had obtained a great opportunity.

"I have passed the test in the high platform, but I still don't know anything about this special space-time." Jian Wushuang frowned.

At this moment...

"Haha!"

A hearty laughter suddenly echoed in the space-time.

"Who is it?" Jian Wushuang's expression suddenly changed, and he immediately looked toward the source of the voice.

A golden light slowly lit up from the deepest part of the void. As the golden light got closer and closer, the light became more and more dazzling. When it reached Jian Wushuang...the golden light was still like a huge golden sun, illuminating the entire space and time.

Jian Wushuang immediately saw the origin of the golden light.

This golden light was a tall cultivator.

He was hundreds of feet tall, wearing golden armor, boots, and a golden puppet fighter on his head. He also held a golden spear in his hand, making him look like a golden war god.

When he came to Jian Wushuang and stood firmly in front of him, although he did not emit any aura, the moment Jian Wushuang saw him, he immediately felt a chill run down his spine.

Yes, it was a chill down his spine. All the pores on his body had stood up.

He was scared.

"He's too strong. This man is too strong!" Jian Wushuang's body was trembling crazily.

He had seen many experts, including the Temporal Temple Master and the Heaven Ancestor. Although these two experts were extremely powerful, he had seen and come into contact with them, Jian Wushuang was in awe of them, but he was not afraid of them.

But now, the Golden War God in front of him...even though he did not exude any aura or power, Jian Wushuang was terrified just by standing there.

He did not know what was going on. He could only say that it was an invisible pressure that made him lose the courage to resist.

Jian Wushuang knew that the man in front of him was definitely a world-shaking super expert. He might even have surpassed the level of a Ruler!

Jian Wushuang did not know what level he would reach after he surpassed the level of a Ruler, but he knew that it was beyond his reach.

Taking a deep breath, Jian Wushuang suppressed the fear in his heart and bowed respectfully to the man. "Jian Wushuang, greetings, Your Excellency!"

"Jian Wushuang? Is that your name?" The Golden War God gazed at Jian Wushuang with his narrow golden eyes and a faint smile appeared on his lips.

Chapter 3577: Supreme Lingyun

"Little guy, let me introduce myself first. I'm from Planet Lingyun, and I'm Wind Demon, the fourth among the Seven Devils under Planet Lingyun!" The Golden War God said grandly, "My master is the Star Master of Planet Lingyun, Supreme Lingyun."

"Planet Lingyun? Supreme Lingyun?" Jian Wushuang was shocked.

In his eyes, this Golden War God was terrifyingly powerful. He did not expect that he had a master behind him?

"Supreme? Above the Ruler Realm is the Supreme Realm?" Jian Wushuang could not help but ask.

"Yes, above the Ruler Realm is the Supreme Realm." The Golden War God smiled faintly. "Among them, the Ruler Realm cultivators are indeed top experts in some barren places in the universe. However, in the deepest part of the universe, they are nothing. Unless they are some of the top Rulers, they can be considered as a figure in the deepest part of the universe. In the deepest part of the universe, the Supreme Realm is the expert who stands at the top of the pyramid!"

"Is that so?" Jian Wushuang was shocked, but he quickly calmed down. He looked at the Golden War God in surprise. "If I'm not wrong, you're also a supreme-being, aren't you?"

"Yes, I'm also a supreme-being." The Golden War God nodded. "I'm not the only one. The other six demons who are as famous as me are also experts at the Supreme Realm. Although they are also supreme-beings, there are still differences in strength. For example, as one of the seven demons of Lingyun Star, my strength is extremely strong even among supreme-beings!"

"However, even if we join hands, we are still nothing in front of my master. He had reached the top of the Supreme Realm many years ago. Later, he became even more powerful and became invincible among the supreme-beings. Even in the deepest part of the universe, where there are as many experts as clouds, my master is definitely an overlord. With a stomp of his foot, the entire universe will tremble. As for a supreme-being like me, he can destroy it with a wave of his hand."

Hearing the Golden War God's words, Jian Wushuang was secretly shocked.

The Golden War God in front of him was a super existence that terrified him. How could he be annihilated with a wave of his hand in front of his master, Star Master Lingyun? It was obvious how powerful Star Master Lingyun was.

"Little guy, I'm not telling you this for other reasons. I just want to tell you that the special space you're in now was left behind by my master. The eighteen-ultimate formation you just passed on the high platform was also a test left behind by my master. According to the rules of Planet Lingyun, anyone who can pass the eighteen-ultimate formation can become a disciple of Planet Lingyun. He or she is an inner star disciple, and his or her status is no lower than mine." The Golden War God stared at Jian Wushuang with his golden eyes.

"Become a disciple of Planet Lingyun?" Jian Wushuang raised his eyebrows. He was not too surprised. He was very clear about the difficulty of the eighteen ultimate formations. It could be said that he was indeed heaven-defying. If it were any other cultivator...it was simply impossible for him to create an advanced level seven skill at the level of an Immortal Saint.

With the tyrannical strength and status of the Star Master of Planet Lingyun, it was impossible for him to set up such a difficult test for no reason. It was very likely that the test was to select disciples for Planet Lingyun.

The Golden War God had not shown up when Jian Wushuang was trapped in the 18-ultimate formation. He only told him this when Jian Wushuang passed the test.

“Little guy, I ask you, do you want to join Planet Lingyun and become an inner disciple of Planet Lingyun?” The Golden War God asked seriously.

“Well...” Jian Wushuang narrowed his eyes and did not answer immediately, instead, he asked, “Lord Wind Demon, you mentioned just now that Star Master Lingyun is an extraordinary supreme-being. Even in the deepest part of the universe, he is an overlord. But if I’m not wrong, it must have been many years ago, right?”

Jian Wushuang was not stupid. If Star Master Lingyun had always been like that, how could this special space-time come to this territory, moreover, it had existed in the deepest unexplored area of Devil Smoke Valley for so many years.

“You’re right. What I just said was a long time ago. It has been more than 100 chaos cycles since then,” the Golden War God said.

“More than 100 chaos cycles?” Jian Wushuang was shocked.

He knew that it was only one chaos cycle when a grade-3 Earth Star was born and completely annihilated.

What was the concept of hundreds of chaos cycles?

Jian Wushuang could not even calculate how many years it had been.

“At that time, our Planet Lingyun was indeed an overlord in the deepest part of the universe. My master’s strength was enough to intimidate countless experts. However, there was an accident that led to a great change in our Planet Lingyun. Our experts died and were injured. Many people escaped from the depths of the universe and fled to every corner of the universe. For example, I fled here with this space-time. Because of my heavy injuries, I have been sleeping for a long time. This time, I woke up because of you,” the Golden War God said, his expression darkened.

However, he continued, “Even though that incident caused Planet Lingyun to be on the verge of collapse, there are still many experts from the Lingyun lineage scattered throughout the universe. There’s also master!”

“Master, although he was heavily injured in that battle, I know that he didn’t die. His strength has reached his level. It’s too difficult for anyone in this universe to kill him!”

“As long as master doesn’t die, Planet Lingyun will have a chance to rise again. My brothers and I are waiting here quietly. We will recover our strength and return to the deepest part of the universe when master gives the order!”

“So, don’t underestimate Planet Lingyun.”

Jian Wushuang was speechless.

He did not mean to underestimate Planet Lingyun. He just wanted to have a deeper understanding of Planet Lingyun.

But now, he understood almost everything.

Planet Lingyun used to be an overlord in the deepest part of the universe. However, hundreds of chaos cycles ago, the entire planet collapsed and countless experts fled in all directions. However, Star Master Lingyun did not die, it was entirely possible for Planet Lingyun to rise again.

“Little fellow, I’ve said so much. I’ve told you everything you need to know. Now, you can answer me. Are you willing to join our Lingyun lineage or not?” The Golden War God said.

Chapter 3578: Internal Star Secret Skill

“I do.”

Jian Wushuang agreed without hesitation.

In fact, Jian Wushuang had nothing to refuse. He had never been to the deepest part of the universe, nor had he had much contact with it. The only contact he had was with Blood Wave, and through Blood Wave...he knew about the existence of the Palace of Life.

However, the Palace of Life was formed by the special life forms in the universe. Since he was one of the special life forms, he was naturally part of the Palace of Life. Because of the special relationship of the Palace of Life, he could freely join the other major forces in the depths of the universe.

Although Planet Lingyun had undergone drastic changes, it used to be an overlord in the deepest part of the universe. There seemed to be many experts at the supreme level. Such a major force...usually, it was difficult for many experts to join. Now that Jian Wushuang had the opportunity, there was no need to refuse.

After all, with another identity, if he went to the deepest part of the universe in the future, he would have more to rely on.

“Very good.”

Seeing Jian Wushuang agree, the Golden War God also smiled. “Little guy, you’re very lucky. If previously, when Planet Lingyun was at its peak, countless geniuses tried to join our Planet Lingyun, but we didn’t bother with them. It’s a great fortune for you to be a disciple of our Planet Lingyun.”

“Lord Wind Demon, since it’s a good fortune, as an inner star disciple of the Planet Lingyun, I should be able to get some benefits, right?” Jian Wushuang asked directly.

“Of course.” The Golden War God smiled. “But our Planet Lingyun suffered heavy losses in the accident, and its foundation has been almost destroyed. Now, in this barren territory, I can’t give you the same treatment as an inner star disciple. At most, I can only let you choose an inner star secret skill.”

“Inner star secret skill? Is it a secret skill that only inner star disciples of Planet Lingyun are qualified to cultivate?” Jian Wushuang looked over.

“Yes, and not every inner star disciple is qualified to cultivate it. Only a few outstanding inner star disciples who win the competition every once in a while are qualified to choose an inner star secret skill. This time, because of the current environment, I can’t give you the treatment you deserve as an inner star disciple, so I made an exception and let you choose an inner star secret skill.”

“In addition, there are nine internal star secret skills in our Planet Lingyun. Each of them is extremely powerful, enough to make countless Rulers and even supreme-beings yearn for them. However, because of the accident, the cultivation methods of these nine internal star secret skills are available to different experts under my command. I only have two internal star secret skills. You can choose one of these two internal star secret skills,” the Golden War God said, with a wave of his hand, two golden stone tablets appeared in front of Jian Wushuang.

It was obvious that these two golden stone tablets were the cultivation methods of the inner star secret skill.

Obviously, the protection of the inner star secret skill in Planet Lingyun was very strict. The secret skill could only be taught by these golden stone tablets. In other places, even if the other party had already mastered one of the inner star secret skills...but this person could not teach this secret skill to others.

“Only two inner star secret skills?” Jian Wushuang frowned, he said, “Sir, according to what you said, because I can’t get the treatment that an ordinary inner star disciple should have, you made an exception and let me choose one inner star secret skill. But you only have two inner star secret skills to choose for me. This is still a little unfair to me. Otherwise, you might as well let me cultivate both of these secret skills.”

Jian Wushuang was not willing to cultivate only one internal star secret skill. He wanted to cultivate two at the same time.

After all, according to Wind Demon, countless Rulers, including many supreme-level experts, yearned to cultivate the nine internal star secret skills that originated from the Planet Lingyun at its peak, naturally, Jian Wushuang also yearned for it.

It would be best if he could cultivate two such secret skills at the same time.

But after hearing his words, the Golden War God directly shook his head. “Don’t even think about it. You Don’t even know the value of these inner star secret techniques and their strength. This inner star secret technique is definitely much more precious than the treatment that all your inner star disciples can receive. I’ve already opened a back door for you by letting you choose one inner star secret technique, but you actually want to cultivate a second one?”

“Do you think the internal star secret skill of Lingyun star is like cabbages everywhere?”

“I see.” Jian Wushuang curled his lips and did not insist. “Let me take a look at these two secret skills first.”

“Okay.” The Golden War God nodded and then revealed some of the information on the golden stone tablet to Jian Wushuang.

Jian Wushuang immediately knew the secret skills on the two golden stone tablets.

One of the two inner star gates was a special secret skill for the circulation of divine power. Once one mastered this secret skill, his divine power could be instantly increased by several times, or even dozens of times, to the peak, it could even reach hundreds of times.

Of course, the flaw was that this secret skill consumed a lot of divine power, and it could not be used together with other secret skills that also increased divine power. Most importantly, the threshold of this secret skill was very high, under normal circumstances, only great beings who had reached the Ruler Realm were qualified to practice it.

As for the other internal star secret technique, it was a secret technique related to godly bodies. It was called the supreme undying mysterious body.

This secret technique was used to shape and refine godly bodies. It could make one's godly body incomparably tough and powerful, and it could directly reach the level of a universe true treasure. Besides, this secret technique could be practiced at the level of a Principles Master, but the flaw was...when cultivating this secret skill, it required the assistance of some extremely high-level genius earthly treasures, which were very difficult to find.

These two secret skills were placed in front of Jian Wushuang at the same time, but Jian Wushuang chose the second one decisively.

"Although the special divine power circulation secret skill can increase a cultivator's divine power and strength, it can only be cultivated by an expert at the Ruler Realm. Although I'm a perfect chaotic creature with some special features, I can't cultivate it at the Immortal Saint Realm. Even if I break through to the Principles Master Realm in the future, I may not be qualified to cultivate this secret skill. I don't have so much time to reach the Ruler Realm. Besides, who knows if I'll have the chance to become a Ruler in the future?" Jian Wushuang laughed in his heart.

A Ruler...there were so many astral worlds in this territory, but there were only so many experts at the Ruler Realm. There were only a few in the Divine Beginning Realm, so it was extremely difficult to reach that level, although Jian Wushuang had great potential, he did not dare to say that he would definitely be able to break through to become a Ruler.

Chapter 3579: Supreme Imperishable Body

"The Ruler is still too far away for me. On the contrary, the second inner star secret skill can be cultivated by Principles Masters. With my life level, I might be able to cultivate it to a certain level at the level of the Immortal Saint. The only troublesome thing is that it's difficult to find a genius earthly treasure to assist in cultivation. But if I really succeed in cultivating it..." Jian Wushuang's eyes were shining.

The second internal star secret technique was the undying godly body of a supreme being.

This secret technique could make one's godly body indestructible. As long as one completed the first level, one's godly body could rival a low-level universe true treasure. This was too terrifying.

Universe true treasures, even if they were only at the level of a low-level universe true treasure, were incredibly tough.

There were so many great beings in this territory, but even a Ruler Realm great being who stood at the top of this territory could not destroy a low-level universe true treasure with his own power. It was because of this level of true treasure, it was not something an ordinary Ruler Realm great being could shake.

If his godly body alone could rival a low-level universe true treasure, then not only would his offensive power increase by another level, but his defensive power would be too strong.

Without the strength of a Ruler, it would be impossible for a divine body comparable to an elementary universe supreme treasure to destroy his divine power. Even a Ruler Realm expert would have a hard time dealing with such an indestructible divine body, this was because a Ruler Realm attack would be weakened to a very low level when it passed through his divine body. Only then would it affect Jian Wushuang's body, the real damage to Jian Wushuang would be very, very small.

It could be said that if he could cultivate the first level of the supreme eternal celestial body, he would be able to do whatever he wanted in this territory in the future. Even if he encountered an expert at the Ruler Realm, he would not be afraid at all.

"Just the first level alone is enough, and the second and third levels of the supreme eternal celestial body are unimaginable. This secret skill is very useful to me." Jian Wushuang clenched his hands tightly, and a fierce light flashed in his eyes, taking a deep breath, he said directly, "Lord Wind Demon, I've decided to choose the supreme imperishable body."

"The body-refining secret skill?" The Golden War God glanced at Jian Wushuang and nodded slightly.

Jian Wushuang's choice was not unexpected. He only had two inner star secret skills, and the supreme imperishable body was more suitable for Jian Wushuang than the first one.

"Now that you've made your choice, come over and drop a drop of blood essence into the stone tablet. After that, you'll be an inner star disciple under the command of Planet Lingyun. I'll give you an inner star disciple token. From now on, you can use this token to sense if there are any experts from Planet Lingyun around."

"In addition, this stone tablet will transmit the complete supreme imperishable celestial body technique to your mind. However, although you've obtained the technique, you can only cultivate it by yourself in the future. You can't teach it to others. Even if you want to, it's useless because you can't do it," the Golden War God said.

Jian Wushuang shrugged and walked to the golden stone tablet, dropping a drop of his blood essence into it.

As soon as the blood essence entered the stone tablet, ancient golden characters floated out of the golden stone tablet and entered Jian Wushuang's body.

"These characters..."

Jian Wushuang's expression changed. He did not know what these golden characters were, but he was not unfamiliar with them.

There was even a similar golden character on the back of his right hand. This golden character represented the six-path reincarnation secret skill that he had comprehended in the Heaven-cleaving Secret Realm.

“Heaven-cleaving Secret Realm, Black Divine Pillar?” Jian Wushuang narrowed his eyes.

When he had obtained the opportunity in the Heaven-cleaving Secret Realm, he had also mastered the six-path reincarnation secret skill.

There were a total of 16 such ancient golden characters on the Black Divine Pillar. Later, he learned that the 16 ancient golden characters represented 16 different secret skills.

Jian Wushuang was very curious about the origin of the 16 golden characters. Now, he saw the same golden characters, but this time, the golden characters surged out from the golden stone tablet.

“It seems that the Black Divine Pillar of the Heaven-cleaving Secret Realm is from the deepest part of the universe, just like this golden stone tablet,” Jian Wushuang murmured. He guessed that these golden characters were passed down from the deepest part of the universe.

As for the specific meaning of these golden words, he still did not know.

After these golden words entered his body, they completely stayed in his mind. Jian Wushuang could sense the existence of these golden words, at the same time, he also sensed the powerful divine body secret skill contained in these golden words.

“It seems that before I cultivate the supreme eternal celestial body, I have to comprehend the secret skill from these golden words,” Jian Wushuang thought.

“This is your identity token. Take it and you can leave this time and space,” the Golden War God said.

“Leave now?” Jian Wushuang’s expression changed, but he said, “Lord Wind Demon, I have obtained a top-tier universe supreme treasure armor in this time and space. I want to completely refine this armor before I go out.”

“It’s up to you. In short, I will open the exit passage of this space-time later. This passage is at the end of this direction.” The Golden War God pointed in a direction. “If you are willing, it doesn’t matter if you stay here for a while, but you must not wander around. Master personally arranged this space-time. Although master is not here now and my brothers control it, there are some places in this space-time that have strict rules. Even us brothers can’t control them.”

“Just like the 18-ultimate formation you just broke through, it was left behind by master. As long as you fall into it, you can only do as master asks. We can’t stop you, so if you continue to break into some special places, get trapped, or even die, I can only watch.”

“I understand. I’ll only refine the supreme treasure armor and then go out. I won’t wander around recklessly,” Jian Wushuang said.

“Okay, you can arrange it yourself.” The Golden War God nodded. “My brothers are not in their peak condition. They have been sleeping here for a long time. I think they will stay here for a long time. If you encounter any problems in the future, you can come here. We are both from the Planet Lingyun. If we can help you, we will do our best to help you.”

“Thank you.” Jian Wushuang’s eyes lit up.

Chapter 3580: Blood Demon Cave Armor

The Golden War God, Wind Demon, walked toward the deepest part of the space-time after giving his instructions, and soon disappeared in front of Jian Wushuang.

Jian Wushuang heaved a heavy sigh of relief after the Golden War God left.

He had no choice. The invisible pressure of the Golden War God in front of him made it hard for him to breathe.

“Fortunately, Wind Demon and I belong to the Planet Lingyun. From now on, he won’t be dangerous to me. Instead, he might be my helper.” Jian Wushuang smiled, then he took out the blood-red armor.

The blood-red armor was the pinnacle universe supreme treasure armor left behind by the Star Thunder Ruler, the Blood Demon Cave Armor.

The value of the pinnacle universe supreme treasure armor was shocking.

However, Jian Wushuang had been trapped on the high platform. The test on the high platform was purely based on absolute arts and had little to do with other factors. Therefore, he had not refined the armor, but now...

“This Blood Demon Cave Armor needs to completely master the destruction rule or the slaughter rule to be refined?” Jian Wushuang raised his eyebrows.

Ordinary Supreme Treasure armor could be refined as long as one’s strength was sufficient, but the Blood Demon Cave Armor had a high requirement.

Not only did it require extremely strong strength to suppress the terrifying murderous aura contained in the armor, but it also required one to completely master one of the destruction or slaughter principles, and Jian Wushuang had mastered the destruction principles, he had also mastered the will of destruction. As for the killing aura in the armor, he could suppress it with his current strength. He was fully qualified to refine the supreme treasure armor.

Jian Wushuang immediately sat down cross-legged and began to refine the Blood Demon Cave Armor in the gray void.

The refining process was very smooth and did not encounter any trouble. Soon, the Blood Demon Cave Armor turned into a blood-red robe and was put on his body.

As for the Blood Crystal Armor that Jian Wushuang was wearing, he naturally put it back into his interspatial ring.

After refining the Blood Demon Cave Armor, Jian Wushuang immediately understood the power of the armor.

“It is indeed worthy of being a top-tier universe supreme treasure armor. Its power is really strong.” Jian Wushuang clenched his hands with a hint of joy on his face.

The Blood Demon Cave Armor had to be activated by the power of destruction or slaughter. It had an extremely powerful protective ability.

When faced with an attack below the Master Realm, which was the level of a Principles Master, even an extremely powerful Principles Master at the pinnacle of the six realm, or even a Principles Master at the pinnacle of the sixth realm...the Blood Demon Cave Armor could be directly immune to 99% of the attack's power.

It meant that a Principles Master who had reached the pinnacle of the six realm would use his full strength to attack Jian Wushuang. When it passed through the Blood Demon Cave Armor, its power would be weakened by 99%, in the end, only 1% of the power would be transmitted into Jian Wushuang's body.

"1%..." Jian Wushuang's expression was strange.

His body protection ability was not weak. The most important thing was that his divine power was too vast. Under such circumstances, it was already very difficult for a Principles Master to seriously injure him. Now that he had the Blood Demon Cave Armor...it directly weakened the attack of Principles Master by 99%.

Jian Wushuang estimated that he would no longer need to care about Principles Master in this territory in the future. Even if the strongest expert, who was comparable to the underworld bone monster, attacked him with all his strength...it would only barely tickle him.

And this was only against a Principles Master.

The Blood Demon Cave Armor could weaken 90% of the power of an ordinary Ruler's attack, which was very impressive.

"The protective ability of the Blood Demon Cave Armor is indeed very strong." Jian Wushuang smiled.

Of course, what really surprised him was not the protective ability of the Blood Demon Cave Armor, but the power of the armor!

The Blood Demon Cave Armor was a treasure armor that combined destruction and slaughter. Like the Blood Crystal Armor, it also contained three levels of power, but these three levels of power were much more heaven-defying than the Blood Crystal Armor.

The first level of power that came with the Blood Demon Cave Armor directly gave the cultivator ten times the power of the pinnacle of the six realm.

The second level of power was a hundred times the power of the pinnacle of the six realm!

The third level of power was 1,000 times the power of an expert at the pinnacle of the six realm!

The pinnacle of the six realm!

Before entering this space and time, he had to use all his strength to barely burst out the power of an expert at the pinnacle of the six realm. But now, just the first level of power of the Blood Demon Cave Armor was activated, it was 10 times the power of an expert at the pinnacle of the six realm. It was too terrifying.

“The power of 10 times the power of an expert at the pinnacle of the six realm should be stronger than that of an expert at the pinnacle of the six realm, but a Ruler definitely can’t compare.” Jian Wushuang was extremely excited. He understood, if he could activate the first level of the power of the Blood Demon Cave Armor, his strength would definitely soar to a whole new level in an instant.

However, as a top-tier universe supreme treasure armor, it was not easy to activate the first level of power.

“The power of the Blood Demon Cave Armor can be activated by the rule of destruction or the power of the rule of slaughter. After all, I have mastered the will of destruction. I wonder if I can activate the first level of power,” Jian Wushuang thought to himself.

Soon, he began to try.

With this attempt, Jian Wushuang found that he could barely activate the first level of the Blood Demon Cave Armor.

Yes, it could be activated.

It was mainly because he had mastered the destruction will. With this destruction will, he barely met the requirements to activate the first level of the power.

“Great!”

Jian Wushuang was overjoyed. He immediately activated the first level of power of the Blood Demon Cave Armor.

In an instant, a faint layer of blood-red energy surged up from the blood-red robe he was wearing and covered his entire body. At this moment, Jian Wushuang immediately felt the power of his power, which had increased by countless times.

“This is the power of the pinnacle of the six realm? This is too strong.” Jian Wushuang clenched his hands and felt the infinite power in his hands.

When he used the heaven-cleaving skill with all his strength, he could barely reach the pinnacle of the six realm in an instant. However, compared to the power he had now, the difference was really too great, a full 10 times.

“If I use the life divine power and the heaven-cleaving skill in my current state, what will happen?”

With a trace of expectation, Jian Wushuang immediately used the life divine power and the heaven-cleaving skill. However, the result after using them made Jian Wushuang somewhat disappointed.

“It seems that I’m overthinking. The power I have now is purely given to me by the Blood Demon Cave Armor, while the life divine power and heaven-cleaving skill try to bring out my innate advantage. This improvement is based on my own strength.”
