Chapter 3611: The Results of the Investigation

Axe One Master, Marquis Duan Yu, Star Saint Master, and Seven Emotions Master, the four highest-ranking officials of Star Palace, stood respectfully in front of Jian Wushuang.

"My young friend, let me introduce you. This is Seven Emotions Master, a member of the highest-ranking officials of Star Palace. Usually, the four of us handle all the matters of Star Palace together," Axe One Master said.

"Seven emotions, greetings, young Palace Master," Seven Emotions Master said respectfully.

In fact, Seven Emotions Master had doubted Jian Wushuang at the beginning. However, as Jian Wushuang's progress became faster and faster, it had only been 100,000 years, becoming the number one Principles Master in this territory, Seven Emotions Master had completely submitted to Jian Wushuang.

"Young Palace Master?" Jian Wushuang smiled faintly. "This title sounds a little awkward. From now on, you should call me Heavenly Sword Marquis friend as before."

Upon hearing this, Axe One Master and the other two looked at each other and smiled.

The status of Star Palace young Palace Master was definitely much higher than the four of them. Coupled with Jian Wushuang's absolute strength, they had no choice but to treat Jian Wushuang with great respect and even caution, it was almost the same as when they faced the Palace Master of Star Palace.

But now, Jian Wushuang's simple words made them feel a lot more relaxed.

Obviously, although Jian Wushuang had reached the stage where they could only look up to him, his attitude toward them was very gentle and did not put on any airs, which made them feel much more comfortable.

"Four, although Palace Master has given me the identity of the Young Palace Master, the four of you will manage the Star Palace from now on. I won't interfere. However, the many resources in the Star Palace..." Jian Wushuang had not finished his words.

"Don't worry, my friend. Palace Master has ordered that you can use any resources in the Star Palace at your will. However, in order to maintain the normal order of the Star Palace, you just need to let me know what resources you use," Axe One Master said.

"Okay." Jian Wushuang nodded. Then he looked at Axe One Master and said, "Axe One Master, I asked you to find out some information for me. Is there any result now?"

Before he set off for the depths of Devil Smoke Valley, he had specifically asked Axe One Master to find out information about ice heart glazed jade and Master Star Luo. It had been almost 100,000 years, so there should have been a result.

As expected...Axe One Master said with a serious expression, "Heavenly Sword Marquis, my young friend, I have tried my best to do the two things you asked me to inquire about. The first is the ice heart

glazed jades. I told you before that a total of three pieces of ice heart glazed jades were born in this territory. One of the first two pieces was destroyed on the spot, and the other piece was taken by a Ruler to save his wife. The last piece was obtained by the Earth Saint Star Master!"

"Earth Saint Star Master is a reclusive and bloodthirsty Ruler Realm expert. Over the years, I've tried to contact him on behalf of Star Palace to exchange for the iceheart glazed jade. However, Earth Saint Star Master sent me a message."

"What message?" Jian Wushuang asked.

"Earth Saint Star Master's original words were, 'I don't have the iceheart glazed jade. Get lost and don't bother me!' after receiving this message, I haven't had any further contact with Earth Saint Star Master," Axe One Master said.

Jian Wushuang frowned slightly.

In the past 100,000 years, Axe One Master had only had one contact with the Earth Saint Star Master, but this one contact was enough to show Star Saint Master's attitude.

"Axe One Master, have you ever asked him if he really doesn't have the icy heart glazed jade?" Jian Wushuang asked.

"Of course I want to ask, but the Earth Saint Star Master didn't give me a second chance. Besides, he has already spoken, so I don't dare to pester him anymore. After all, everyone in this territory knows that the Earth Saint Star Master is a crazy person who likes to kill and is terrifyingly strong. Even my Star Palace would not dare to provoke such a person," Axe One Master said helplessly.

Jian Wushuang nodded slightly. He also understood the helplessness of Axe One Master.

Earth Saint Star Master was indeed not to be trifled with.

Not only was Earth Saint Star Master powerful, but he also had many tricks up his sleeve. Even if he asked Daoist Xuan God, Temporal Temple Master, and the Heaven Ancestor to deal with Earth Saint Star Master personally, they might not be able to take him down completely.

Moreover, Daoist Xuan God, Temporal Temple Master, and the Heaven Ancestor had been busy trying to find a way for him to get the Nether Fire Blood Crystal and the Supreme Universe Supreme Treasure Divine Sword, how could he make any requests to the three Rulers at this time.

"Forget it. I'll put Earth Saint Star Master aside for now. After the three Rulers have gathered what I need, and I've truly broken through to become a Principles Master, I'll go to Earth Saint Star myself." Jian Wushuang's eyes flashed with a hint of fierceness.

"What about Star Luo Master? Have you heard anything about her over the years?" Jian Wushuang asked again.

"I've investigated her thoroughly, but I've never heard of her. I'm sure that she either doesn't wander around the territory, has no contact with anyone, or has never revealed her strength or identity," Axe One Master said.

"No News at all?" Jian Wushuang's face darkened.

"It's not that there's no news at all." Axe One Master changed the topic. "I've asked around, but I did get a piece of news. It might be related to Star Luo Master."

"Oh?" Jian Wushuang immediately looked over.

"That was more than 80,000 years ago. During the period when they were trapped in the deepest part of Devil Smoke Valley and lost their tracks, someone once met a mysterious female Ruler in the deepest part of Red Rock Mountain, one of the three battlefields. Not only was the Ruler beautiful, but she was also accompanied by a beautiful woman who had reached the level of Principles Master. If I'm not mistaken, that woman should be the disciple of the female Ruler." Axe One Master said.

"A beautiful Ruler with a beautiful female disciple?" Jian Wushuang was stunned.

She had seen Star Luo Master, and she was indeed extremely beautiful.

As for Leng Ruxue, her body was Leng Rushuang, and her beauty was almost incomparable. After so many years, under the guidance of Star Luo Master, Leng Ruxue had reached the level of Principles Master, it was normal.

In this case, the Ruler in the depths of Crimson Rock Mountain had a beautiful female disciple with him. It was very likely that they were Star Luo Master and Leng Ruxue!

"What happened after that?" Jian Wushuang immediately asked.

Chapter 3612: Netherfire Blood Crystal

"There was no later." Axe One Master shook her head. "The female Ruler and her disciple only appeared once and did not attack. After that, no one has seen them or anyone has seen them, but our Star Palace did not find them."

Jian Wushuang narrowed his eyes slightly.

In his opinion, the female Ruler and her disciple who appeared in the depths of Crimson Rock Mountain were likely to be Star Luo Master and Leng Ruxue, but unfortunately, Star Palace's intelligence could only find them this time, and it was more than 80,000 years ago.

"Axe One Master, please continue to investigate this matter," Jian Wushuang said.

"Yes." Axe One Master nodded.

"There's nothing else. Everyone, go on with your work."

After saying this, Jian Wushuang turned around and left.

After that, Jian Wushuang made a trip to the supreme treasure house and left a moment later.

Before leaving, he took the Supreme Universe Supreme Treasure Divine Sword mentioned by Daoist Xuan God, as well as many treasures that were helpful in integrating the destruction principles, the space-time principles, and the reincarnation principles. In addition...Jian Wushuang also took a flying and domain supreme treasure.

As the Young Palace Master of Star Palace, he could freely use the many resources of Star Palace, including the many supreme treasures and treasures in the Supreme Treasure Vault. As long as he felt that they were useful, he could take them without paying any price.

However, although Jian Wushuang took these things, he still left some of the treasures that he had collected over the years in the Supreme Treasure Vault.

For example, the top-tier universe supreme treasure divine weapon left by the Star Thunder Ruler, the Shadow Devil Thunder Stick!

There was also the axe, which was a top-tier universe supreme treasure, and the spear, which was a top-tier universe supreme treasure, which he had obtained when he first entered the special space-time.

These treasures were all extremely valuable.

After leaving the Supreme Treasure Vault, Jian Wushuang returned to his residence and began to cultivate in seclusion.

He had met with three master-level experts, namely Daoist Xuan God, Temporal Temple Master, and Heaven Ancestor. After knowing the reason, he felt even more stressed and could not afford to slack off, after all, he did not know when Devil Cloud Star Master would personally come. Once he arrived, the final battle would begin immediately.

Before that, all he had to do was try his best to increase his strength.

Right now, the fastest way to increase his strength was to fuse the three principles and break through to become a Principles Master!

Once he broke through, his strength would definitely reach a whole new level, and he could even completely rival a Ruler!

Nine years passed in the blink of an eye.

In this territory, on an Earth Star that was quite far away from the Star Palace.

Rumble...

Three terrifying auras descended at the same time, pressing down on this Earth Star. There were quite a few Principles Masters on this Earth Star, and when they felt these three auras, they instantly began to tremble, and their hearts trembled.

In the void at the center of this Earth Star, a cold middle-aged man who was over three meters tall stood there, looking around at the source of the three auras. He frowned deeply. He was the master of this planet. He was also the most famous person in this territory, Ruler Guyou.

"Star Palace Master, Temporal Temple Master, and the Empyrean Patriarch, the three of you came from the incomparably distant primordial starworld. If you were to travel here by foot, it would probably take thousands of years. Even if you were able to rely on a cosmic tunnel, the price you would have to pay for such a long-distance teleportation is incredibly high. Even though you know this, the three of you still came," Ruler Guyou said in a low voice.

“Guyou, let’s cut to the chase. You should know why the three of us are here. Hand over the Netherfire Blood Crystal, and the three of us will leave immediately. Otherwise...” Daoist Xuan God’s eyes turned cold.

In another void, the Temporal Temple Master’s face flickered. Instantly, boundless spacetime energy swept out, completely sealing off the surrounding spacetime.

Ruler Guyou’s face sank as he glanced at the Temporal Temple Master. “It’s rumored that this Temporal Temple Master’s understanding and usage of the spacetime laws have already reached the peak. Now that I look at it, it seems that this is indeed the case. With him around, I don’t even have the chance to escape. If these three Rulers join forces and attack me at the same time, I’m definitely no match for them.”

Taking a deep breath, Ruler Guyou raised his head again. “Is it worth the trouble of the three of you for a Netherfire Blood Crystal?”

“Of course it is,” Heaven Ancestor growled. “Guyou, hand over the Netherfire Blood Crystal honestly. The conditions I promised you will not change. However, if you continue to be stubborn, be careful that this Ruler of yours will really die here.”

“It’s just a single Netherfire Blood Crystal. Although it is of some use to me, it isn’t enough for me to risk my life for it. The reason I rejected you earlier was because I wanted you to pay an even greater price. Now that you have gone through so much trouble, you can just take the Netherfire Blood Crystal.” Ruler Guyou waved his hand, instantly, a streak of blood-colored light shot toward the Empyrean Lord.

The Heaven Ancestor stretched out his hand to receive it. After giving it a sweeping glance, he nodded toward Daoist Xuan God and the Temporal Temple Master.

Now that they had acquired the Netherfire Blood Crystal, the three of them naturally had no plans to attack.

“Ruler Guyou, we’ve offended you in many ways today, but the Netherfire Blood Crystal is of great importance to us. We can only come up with this plan. I’m sorry. This is what I promised you previously.” The Heaven Ancestor waved his hand, tossing an interspatial ring to Ruler Guyou, then, the three of them left.

Seeing the three of them leave, the cultivators on this Earth Star let out a heavy sigh.

As for Guyou Ruler, after he received the Heaven Ancestor’s interspatial ring, he glanced at it and his expression became strange.

“Although the Netherfire Blood Crystal is rare, it shouldn’t be too important to a Ruler. However, these three people actually paid such a high price to rush here from the Divine Beginning Realm just for a Netherfire Blood Crystal. They actually came to kill me?

“What is the use of the Netherfire Blood Crystal to them?” The Guyou Ruler frowned, but he did not think too much about it.

As for what happened today, it was a bit aggrieved for him. However, facing three Rulers at the same time, and one of them was a Ruler who had reached the peak of space-time, he had no choice but to

bow his head, after that, the other party had apologized to him personally and left him some face. Therefore, he did not hold a grudge. At most, he felt a little unhappy.

After the Daoist Xuan God trio obtained the Netherfire Blood Crystal from the Guyou Ruler, they immediately returned to Star Palace as fast as they could. They handed over the Netherfire Blood Crystal and the other treasures on the list that Jian Wushuang had given them, all of them were given to Jian Wushuang.

Chapter 3613: No Feeling

After collecting all the treasures, Jian Wushuang started to cultivate the supreme eternal celestial body without any delay.

This cultivation lasted for 80 years.

After 80 years, Jian Wushuang finally succeeded in cultivating the first level of the supreme eternal celestial body.

“Is this a divine body comparable to a supreme treasure?”

Jian Wushuang clenched his hands and felt his divine body. His eyes lit up. “This feeling...is so powerful!”

It was not as if he had never encountered a body-refining secret skill before.

When he was weak, he had cultivated the primordial void celestial body, a body-refining secret skill of the ancient clan, which was one of the four great divine clans. However, although the primordial void celestial body was one of the top ten body-refining secret skills in the Divine Beginning Realm, it was not very helpful to Principles Masters, when he cultivated this secret skill to the top, it would only be of little help to the Principles Master.

Therefore, Jian Wushuang had stopped cultivating this secret skill a long time ago.

However, the supreme imperishable celestial body was different.

The supreme imperishable celestial body was a secret skill that came from the inner heart of the Planet Lingyun.

Planet Lingyun used to be an Ruler in the deepest part of the universe, and there were many supreme experts. The supreme imperishable celestial body, when cultivated to an extremely high level, was of great help to Rulers and even supreme experts. It was also of great help to the Principles Master, it was even more helpful.

Jian Wushuang was only at the level of the Immortal Saint Now. It was also because of the magic of the perfect life that he could barely cultivate the first level of the supreme-level Immortal Xuan body. Once he cultivated it, his divine body could be comparable to an elementary universe supreme treasure!

A divine body at the level of an elementary universe supreme treasure. How strong was such a divine body?

Jian Wushuang did not know. He could only feel that his current divine body was very strong, hundreds or thousands of times stronger than before.

How much help would this divine body be to his strength?

“Let’s try it.”

With a smile on his face, Jian Wushuang slowly stood up and left his residence.

Soon, Jian Wushuang found the woodcutter who was chopping trees in the special tower, which was the Heaven Ancestor.

The Four Masters of the Star Palace Camp, the Heaven-cleaving Alliance Master, stayed in the Divine Beginning Realm all year round to guard the seal.

After Daoist Xuan God and the Heaven Ancestor obtained the Netherfire Blood Crystal, they left the Star Palace to help Jian Wushuang find the Supreme Treasure Divine Sword.

As for the Temporal Temple Master, he also went to the quicksand demon area, one of the three battlefields. Now, only the Heaven Ancestor was still in the Star Palace.

“Little guy, why did you come to see me?” The Heaven Ancestor looked at Jian Wushuang.

“I did.” Jian Wushuang smiled. “I just mastered a secret skill, but I don’t know its exact power. That’s why I wanted to practice it with you, Senior Heaven Ancestor.”

“Is that so?” The Heaven Ancestor raised his eyebrows. “Then what do you need me to do?”

“It’s very simple. Senior Heaven Ancestor, you just need to attack me with all your strength,” Jian Wushuang said.

“That’s it?” The Heaven Ancestor was stunned for a moment, but then he smiled and said, “Alright, but you have to be careful. After all, I’m a Ruler, and my attacks are not something an ordinary person can withstand.”

“I’m confident. Senior Heaven Ancestor, you just need to focus on your attacks,” Jian Wushuang said with great confidence.

“Alright, be careful.” The Heaven Ancestor did not waste any time. He raised the axe in his hand, which had been chopping trees. Jian Wushuang had used this axe before, so it looked just like an ordinary mortal’s axe, but now, in the hands of the Heaven Ancestor, it suddenly revealed an earth-shaking power!

This power carried an extremely powerful aura.

“Supreme true treasure!” Jian Wushuang’s pupils constricted.

He had been cultivating with this axe for a long time and had thought that it was very ordinary. But now, it seemed that he was too weak to sense the real power of the axe.

There were not many supreme true treasures, even among experts at the Ruler Realm, but the Heaven Ancestor had one.

“I’m coming.”

As soon as the Heaven Ancestor finished his words, he appeared in front of Jian Wushuang as if he had teleported. The axe he raised also fell straight down.

Whoosh! It was a light axe, but the moment he swung it, he felt as if everything was torn apart.

Seeing the axe falling down, Jian Wushuang did not move at all. He did not have any intention of waving his sword to block it.

"This kid isn't going to block it?" The Heaven Ancestor frowned. "Does he want to use his divine body to block my axe?"

Clang!

The axe struck Jian Wushuang's body without any resistance. The terrifying power burst out and left a white mark on the armor on Jian Wushuang's body, however, Jian Wushuang still stood there unscathed until the power of the axe was completely exhausted. His expression did not change at all.

"How could it be?" The Heaven Ancestor was shocked.

"Haha, Heaven Ancestor, you put too much water in, right?" A voice with a smile sounded.

"That's right. If you put too much water in, you'll lose face." Another gentle voice sounded.

Two blurry figures appeared in the void out of thin air.

These two people were, of course, Daoist Xuan God and Temporal Temple Master. However, they were not their original bodies. They were just consciousness incarnations left in the Star Palace.

Although they were consciousness avatars and did not have much battle strength, their vision was still there.

"Senior Heaven Ancestor, how much strength did you use with your axe just now?" Jian Wushuang looked over.

"10%," Heaven Ancestor said.

He was worried that his attack would be too powerful and hurt Jian Wushuang, so he deliberately suppressed his strength.

Although he only used 10% of his strength, an expert at the Ruler Realm could crush any Principles Master under normal circumstances. Unexpectedly...

"Only 10% of his strength? No wonder I didn't feel anything," Jian Wushuang said.

"You didn't feel anything?" The Heaven Ancestor was stunned.

"Haha, Heaven Ancestor, you have to work harder. Otherwise, this little guy will look down on you." Daoist Xuan God laughed very happily.

"No, I don't mean to look down on senior Heaven Ancestor. It's just that I really didn't feel anything from Senior Heaven Ancestor's axe just now." Jian Wushuang spread his hands and said.

He was telling the truth.

He had the Blood Demon Cave Armor to protect him, so he could directly weaken the Ruler Realm attack by more than 90%. The remaining 10% of the power would be absorbed by his divine body, which meant that the strike from the Heaven Ancestor...only less than 1% of the power was used on his divine body. With his divine body, which was comparable to a supreme treasure, he could indeed ignore this 1% of the power.

"Heaven Ancestor, try 50% of your strength," Temporal Temple Master said.

"Okay." Heaven Ancestor nodded slightly.

Before, he was afraid of hurting Jian Wushuang, so he did not dare to use too much strength. But now that he knew Jian Wushuang's ability to protect his body, he was not so cautious.

Soon, Heaven Ancestor attacked again.

Chapter 3614: The Divine Body Was Comparable to a Supreme Treasure Translation

Whoosh!

The axe still swung out, and its speed was extremely fast. Like a bolt of lightning, it landed on Jian Wushuang's body in an instant.

Rumble! A terrifying power burst out in an instant.

The strike of the Heaven Ancestor with 50% of its power could be said to be earth-shattering.

However, Jian Wushuang only trembled slightly and took two steps back, but he immediately stopped.

"How was it?"

The Heaven Ancestor, Daoist Xuan God, and Temporal Temple Master all looked at Jian Wushuang.

"Yes, it's much stronger than the previous strike. However, it still hasn't broken through the limit of my divine body," Jian Wushuang said.

"What do you mean?" The Heaven Ancestor asked.

"That is to say, Senior Heaven Ancestor, your axe didn't cause any damage to my divine body, so it can't destroy my divine power," Jian Wushuang said.

Jian Wushuang said it tactfully, but the three Heaven Ancestors immediately understood.

"You didn't use any of your divine power?"

"It's intact?"

"How is that possible?"

The Heaven Ancestor widened his eyes.

Even Daoist Xuan God and Temporal Temple Master were surprised.

The Heaven Ancestor used 50% of his power to attack Jian Wushuang with his axe, but he still could not do any damage to Jian Wushuang?

"Heaven Ancestor, use your full strength!" Temporal Temple Master said in a low voice.

"Yes, not only use your full strength, but also use the secret skill you created," Daoist Xuan God said.

"Okay." The Heaven Ancestor nodded solemnly, and his eyes became sharp.

"Use your full strength?" Jian Wushuang licked his lips, but there was an excited smile on his face.

Boom!

The Heaven Ancestor's body shook, and his terrifying power burst out without any concealment.

For a moment, the terrifying power of the Ruler Realm filled this special space.

"Indestructible, God Slayer!"

The Heaven Ancestor raised the huge axe in his hands at the same time. With a low shout, the huge axe was brought down.

Hua!

A shocking axe shadow appeared in this space-time. As soon as the axe shadow appeared, the space-time began to tremble crazily, as if it could not withstand the power.

Indeed, although this space-time was created by the Heaven Ancestor, and its endurance was extraordinary, the Heaven Ancestor was giving it his all. Furthermore, he had used his ultimate technique. This was the full power attack of a Ruler Realm expert, it was normal that the space-time could not withstand it.

"Good timing."

Jian Wushuang's eyes lit up when he saw the axe shadow coming at him. However, he had no intention of dodging it.

He just stood there quietly and let the axe shadow come at him. His heart was filled with anticipation. "Don't disappoint me with the supreme imperishable celestial body!"

With endless anticipation, the earth-shaking axe finally struck his divine body.

In an instant...rumble...a large area of space cracks appeared, and the space began to collapse crazily.

In the center of the space-time, Jian Wushuang was immediately sent flying. He was sent flying to the edge of the space-time and crashed into the space-time barrier, the astonishing power contained in the axe also rushed into Jian Wushuang's divine body.

Jian Wushuang stood there with his eyes closed.

In the void in front of him, Daoist Xuan God, Temporal Temple Master, and the Heaven Ancestor had stood together again. They all frowned slightly.

"I wonder how the little guy is doing." Temporal Temple Master said with some worry.

"If the Heaven Ancestor's axe didn't hurt him at all, he should be fine even if it did," Daoist Xuan God said.

"You two asked me to use all my strength. Don't blame me if I hurt him badly." The Heaven Ancestor rolled his eyes and said.

While the three of them were waiting, Jian Wushuang finally opened his eyes and rushed in front of them.

"Little guy, how was the result?" Daoist Xuan God immediately looked over.

"As expected of Senior Heaven Ancestor. The power of the axe just now was indeed very strong. It could already hurt me," Jian Wushuang said.

"Hurt you?" The Heaven Ancestor looked strange. "How badly?"

"Well..." Jian Wushuang raised his eyebrows. "Let me use up one-thousandth of my divine power."

"Excuse me?"

Heaven Ancestor, Daoist Xuan God, time and Temporal Temple Master are all stunned.

1 in 10,000?

An expert at the level of a Ruler attacked Jian Wushuang with all his strength without any hindrance. As a result, Jian Wushuang only lost one-tenth of his divine power?

1 in 10,000? How could that be called a loss?

"Little guy, is what you said true? Did you really only use 1 out of 10,000 of your divine power?" Daoist Xuan God looked at Jian Wushuang with a strange expression.

"That's true." Jian Wushuang nodded. "Senior Heaven Ancestor's attack just exceeded the limit of my divine body and caused a little damage to my divine body. I only used 1/10,000 of my divine power to completely recover from this little damage."

"Impossible, this is impossible!" Heaven Ancestor shook his head crazily, he growled, "Even an expert at the same level as a Ruler, who is good at defense, can't only use 1 out of 10,000 of his divine power as long as he doesn't have a supreme true treasure armor."

What he said was the truth.

The full-strength strike of a Ruler Realm expert was so powerful that even a Ruler would suffer some damage if he took it head-on.

But what Jian Wushuang said now was only one-thousandth of his divine power, which was incredible.

"Senior Heaven Ancestor, you don't have to be amazed." Jian Wushuang smiled. "During my years in Devil Smoke Valley, I've indeed obtained an extraordinary opportunity. One of them is an incomparably powerful body-refining secret technique. This secret technique is of an extremely high level. The list I gave you before is the list of the natural treasures needed to cultivate this secret technique. Now, the first level of that secret technique has already been refined by me, and after refining it, my godly body is already comparable to a low-level universe true treasure!"

"What?"

Daoist Xuan God, Temporal Temple Master, and Heaven Ancestor were all shocked.

“A supreme...supreme treasure?”

“Little guy, you said your divine body is comparable to a universe supreme treasure?”

The three Masters looked at Jian Wushuang in astonishment.

“It’s like this.” Jian Wushuang nodded again. “It’s because my divine body is comparable to an elementary universe supreme treasure that I dared to withstand the attack of Senior Heaven Ancestor.”

“The power of the Heaven Ancestor’s axe just now was indeed extremely powerful. However, I have the supreme true treasure armor to protect my body. The power of the supreme true treasure armor was reduced by more than 90% at the first moment. Less than 10% of the power of the axe was used on my divine body. My divine body is comparable to an elementary universe true treasure, so less than 10% of the power was barely able to reach my limit. That’s why it caused me a bit of damage.”

Chapter 3615: Walk Horizontally

Jian Wushuang had explained in great detail how he had received the blow, and it was the truth.

However, Daoist Xuan God, Temporal Temple Master, and Heaven Ancestor were still confused and shocked.

After a long time, the three finally managed to regain their senses, but their faces were still filled with shock and disbelief.

“A godly body comparable to a universe supreme treasure? This is simply inconceivable!”

“That’s right. We’ve roamed this territory for so long, and we’ve come into contact with some of the surrounding territories, but we’ve never heard of anyone with a godly body that’s as powerful as a universe supreme treasure!”

“Incredible, truly incredible!”

The three Rulers were also very excited at this moment.

After a while...

“Little guy, you just said that you’ve only mastered the first level of the secret skill?” Temporal Temple Master suddenly looked at Jian Wushuang.

“Yes.” Jian Wushuang nodded. “The level of the secret skill is very high. Just by mastering the first level of the divine body, it can be comparable to an elementary universe true treasure, and by mastering the second level, it can be comparable to an advanced universe true treasure, and so on. Unfortunately, the threshold for cultivating the secret skill is very high. The first level alone requires a Principles Master to cultivate it. I can barely master the first level because of my perfect life form!”

“In addition, during the process of cultivating this secret art, you will need some natural treasures to assist you. In addition, these natural treasures are extremely rare and precious. For example, the first level’s natural treasures can be acquired in our territory, but the second level’s natural treasures are

hundreds of times more valuable and rare than the first level's natural treasures. It is virtually impossible to find them in this territory!"

"In other words, you can only cultivate the first level in this territory?" Daoist Xuan God asked.

"Yes, if you want to cultivate the second level, you have to leave this territory and go to the deepest part of the universe. Only there can you find the genius earthly treasures needed to cultivate the second level," Jian Wushuang said.

"That's a pity." Daoist Xuan God sighed.

"Yes, the first level alone is so heaven-defying. If you have the chance to cultivate the second level, then you are truly invincible in this territory. Your divine body is comparable to an advanced universe supreme treasure. Who can shake it?" The Heaven Ancestor also sighed.

"However, even if you can't cultivate the second level, just the first level alone is already incredible. This is definitely a big surprise for us," Temporal Temple Master said.

"Yes, yes, a big surprise. This is definitely a big surprise." Daoist Xuan God was also excited. "A divine body comparable to an elementary universe supreme treasure, coupled with a pinnacle universe supreme treasure armor, even if you take a full-strength attack from a Ruler Realm expert, you only use one-tenth of your divine power. This means that you can completely ignore an ordinary elementary Ruler. Even if you stand in front of him, he probably won't be able to do anything to you."

Upon hearing this, Jian Wushuang could not help but smile.

Indeed, he had now experienced two primary Rulers.

One was the tall man from the three Saint Realms who had ambushed him in Devil Smoke Valley, and the other was the Heaven Ancestor.

In terms of strength, the tall man from the three Saint Realms was probably stronger, but he was definitely not much stronger.

Now that the Heaven Ancestor's full-strength attack had hit his body, it had only consumed 1 out of 10,000 of his divine power. It was like scratching an itch and could not shake him at all. After all, the speed at which he absorbed divine power...was even faster than this.

And that tall man's full-strength attack could only cause 2 out of 10,000 damage to him at most. It still could not affect him much.

Besides, if he were to really fight against a Ruler, there was no way he would just stand there and allow his opponent to attack him. If that was the case, then in this territory, a junior Ruler really would not be able to do anything to him.

"It's not just a junior Ruler. Even a senior Ruler like the Heaven-cleaving Alliance Master wouldn't be able to do anything to your godly body," Daoist Xuan God said with a laugh.

"Yes, with your current divine body and the protection of your supreme true treasure armor, you can completely ignore a primary Ruler. As for a senior Ruler, he can barely hurt you, but it's impossible for

him to threaten your life. Even if two or three senior Rulers joined forces, it would be difficult for them to kill you.”

“The only one who can really threaten you is probably a top-tier Ruler, but as far as I know, there’s only one such Ruler in this territory. And that Ruler has always paid attention to his status. He doesn’t have any enmity with my Star Palace, so he won’t come to deal with you for no reason. In other words, you can almost do whatever you want in this territory now,” the Heaven Ancestor said with a smile.

Jian Wushuang also smiled.

He knew that once he mastered the first level of the supreme eternal celestial body, his life-saving ability would be greatly enhanced. In this territory, there were very few people who could kill him.

At least, he did not have to care too much about ordinary Rulers.

“Of course, you should not be too conceited. After all, the Devil Cloud Star Master definitely has the strength to kill you,” Daoist Xuan God suddenly said.

Jian Wushuang was stunned, and his expression became serious.

Indeed, his biggest enemy, Devil Cloud Star Master, was a Master of a second-grade star world. He had dozens of masters under his command, and experts of that level had long reached the peak of the Master Realm. Of course, they had the strength to kill him.

“Not only that, as far as I know, Devil Cloud Star Master also has an extremely special supreme treasure in his hand. That supreme treasure is different from the others, and it has an extremely special power. That power is the bane of all special life forms. When the Seven Star Mysterious Sect was destroyed, Xuan Yi was heavily injured by that supreme treasure and lost most of his divine power, which was why he died,” Daoist Xuan God said seriously.

Upon hearing this, Jian Wushuang’s pupils shrank.

“Senior Xuan God, is the Supreme Treasure you mentioned a spear?” Jian Wushuang asked.

“Yes, you know it?” Daoist Xuan God looked at him in surprise.

“I was lucky enough to see a picture of that battle in the Seven Star Divine Realm. In the picture, my Master Xuan Yi was pierced through the heart by a spear. That attack should be fatal to him,” Jian Wushuang said.

“Yes, it was that spear that caused your Master Xuan Yi’s death,” Daoist Xuan God said seriously, “Your Master Xuan Yi is also a peerless genius. He has also obtained many great opportunities. Not only is his strength extremely strong, but he also has perfect control over the Mountain River Map as a supreme treasure. At the same time, he also obtained a heaven-suppression tablet by chance!”

Chapter 3616: The Heaven-Suppressing Tablet

“Heaven-suppressing tablet?” Jian Wushuang’s pupils constricted.

Of course, he was familiar with the heaven-suppressing tablet.

In his previous life, Di Shisan had taken him to a heaven-suppressing tablet, and through it, he had obtained an extraordinary opportunity.

At that time, he had heard from Di Shisan that there were nine heaven-suppression tablets, and one alone was enough to shock the world. If the nine heaven-suppression tablets were gathered together, they could suppress the world!

One could imagine how powerful the heaven-suppression tablet was.

“The Mountain River Map, the two Supreme Treasures Xuan Yi had, is the most powerful one in the domain category. It should be in your hands now.” Daoist Xuan God looked at Jian Wushuang.

“Yes, it’s in my hands.” Jian Wushuang nodded slightly.

The Mountain River Map had been his most powerful supreme treasure since his last life. It was also one of his most powerful trump cards. He would not use it unless it was absolutely necessary, after all, he knew that this supreme treasure was extraordinary.

In addition, he had never fully exerted the power of this supreme treasure since he got it. Even when he was on Saha Island, the power of the entire Blood Wave Realm was infused into his body because of the blood waves, it had allowed him to possess the combat power of a Ruler for a short period of time. However, even so, he was still unable to fully unleash the power of the Mountain River Map.

For example, the most terrifying killing move of the Mountain River Map, the nine dragons heaven-cleaving great formation, had only been able to unleash the two dragons heaven-cleaving great formation.

One had to know that the most powerful move of the nine dragons heaven-cleaving great formation was the nine dragons heaven-cleaving great formation.

Moreover, the Mountain River Map was a domain-type supreme treasure. Its most terrifying technique was a domain, not an offensive technique. However, the most powerful domain of the Mountain River Map...he could not use it.

“A domain-type supreme treasure? Master really gave me a good treasure,” Jian Wushuang sighed.

He had never been clear about the level of the Mountain River Map. Before he came to the Universe Battlefield, he thought the map was a top-tier universe supreme treasure, but after arriving here...he immediately changed his mind. After all, he had come into contact with many supreme treasures.

A top-tier universe supreme treasure could never have such tyrannical power and could not be used by him. Therefore, Jian Wushuang had guessed at that time that the Mountain River Map might be a supreme true treasure. Now, it seemed that it was true!

A supreme supreme treasure, a domain-type supreme treasure, might not be able to unleash its full power even if it was a Ruler Realm expert. He was just a saint, and even if he had the invincible battle strength of a Principles Master...how could he unleash its full power?

“As a domain-type supreme treasure, the Mountain River Map is coveted by countless Ruler Realm experts. Back then, Xuan Yi relied on this supreme treasure to fight against several Rulers at the same

time. However, the Mountain River Map was not Xuan Yi's supreme treasure. His true supreme treasure was still the heaven-suppression tablet!" Daoist Xuan God's voice was low.

"The heaven suppressing monoliths were obtained by Xuan Yi from the core of the Quicksand Demon Realm, one of the three great battlefields. There were a total of nine heaven suppressing monoliths, and only three of them appeared in the Quicksand Demon Realm. However, even if only three of them appeared in the Quicksand Demon Realm, the commotion they caused was still unbelievably huge!"

As he spoke up to this point, Daoist Xuan God could not help but exclaim in admiration.

"That was indeed a huge commotion." The Temporal Temple Master nodded as well. "The three great battlefields have existed in this territory for so many years, and countless treasures have been born within them. Even Supreme Treasures have been born before. Every time a supreme treasure is born, there will be some commotion. However, there has never been a supreme treasure that has been born that is comparable to the birth of the heaven suppressing tablet!"

"That scene not only shocked the entire quicksand demon area, but even the other two battlefields and the territory we're in can sense the astonishing energy fluctuation."

"The entire territory can sense the fluctuation?" Jian Wushuang was shocked.

After all, the territory he was in was extremely vast. There were dozens of astral worlds, and these astral worlds were connected to each other. Even him, who traveled at the speed of a Principles Master...it would take hundreds or even thousands of years to reach here. These were only two astral worlds that were connected to each other.

From this, one could imagine how vast the entire territory was.

However, when the heaven suppressing tablet appeared, the commotion it caused could actually affect the entire territory?

"At that time, the commotion was too great, causing all the experts in this territory to be alarmed. Countless experts even dared to head into the depths of the Quicksand Demon Realm like madmen, including many Rulers. In the end, it caused the most intense battle in this territory!"

"During that battle, I remember that there were a total of eighteen Rulers who participated in it. As for the Principles Masters, there were countless of them. There were so many experts who wanted to obtain the heaven-suppressing monument, yet there were only three. Hence, the frenzied battle began. In the end, the three Rulers died on the spot. As for the Principles Masters, a large number of them died. No one even bothered to count them."

"In the end, two of the three heaven-suppression tablets fell into the hands of two extremely powerful Rulers in this territory. As for the other one, it was obtained by your Master Xuan Yi."

"Master actually obtained a heaven-suppression tablet from that multi-Ruler expert?" Jian Wushuang could not help exclaiming.

He knew that his master was only a Principles Master at his peak. Although his battle strength was comparable to a Ruler, there were a total of 18 Rulers on the battlefield. In the end, a total of three Rulers died, how difficult would it be to obtain a heaven suppression tablet from that multiple Ruler.

“At that time, your master’s combat power was only comparable to that of a low-level Ruler. He was considered average among the eighteen Rulers. However, he had many tricks up his sleeve, and his life-saving abilities were even more impressive. Most importantly, he still had the mountain river country map, a domain type supreme true treasure. In addition, he was only a Principles Master. Those Rulers didn’t guard against him in the beginning, which was why he was able to succeed.”

Daoist Xuan God smiled and said, “When your master obtained the heaven-suppressing tablet, his strength reached a whole new level, and he could even rival a superior Ruler!”

“What?” Jian Wushuang was shocked.

“Why? Isn’t it incredible?” Daoist Xuan God looked at Jian Wushuang with a smile.

“Yes.” Jian Wushuang nodded.

According to Daoist Xuan God, his master was only comparable to a primary Ruler at that time. However, after obtaining the heaven-suppressing tablet, he was now comparable to a superior Ruler!

A superior Ruler was two levels higher than a primary Ruler, and there were probably no more than three such Rulers in this territory.

A treasure could allow Xuan Yi’s battle strength to go from a primary Ruler to a superior Ruler and directly match a superior Ruler?

Chapter 3617: 3,000 Years of Closed-Door Cultivation Translation

“What level is the heaven-suppression tablet?” Jian Wushuang asked in shock.

The heaven-suppression tablet was so terrifying that someone with the battle strength of a primary Ruler could instantly rival a superior Ruler.

“I don’t know what level it is, but I’m sure it’s more powerful than a supreme treasure. Only supreme-beings are qualified to use such a treasure,” Daoist Xuan God paused for a moment, then he said seriously, “Little guy, there’s only one reason why I’m telling you so much...”

“Your master is as strong as a superior Ruler. Although he doesn’t have your terrifying divine body, which is comparable to an elementary universe supreme treasure, the treasure in his hand is extremely powerful. Even so, he still died under that special spear. There’s no room for struggle. So, you must be very vigilant against that spear. In the future, if you meet an expert invited by the three Saint Realms and see him take out a strange spear, don’t hesitate and run away immediately. Do you understand?”

“I understand.” Jian Wushuang nodded heavily.

He knew that it was the existence of that special spear that caused his master’s death.

He did not want to follow in his master’s footsteps. Of course, he had to be wary of that spear, which had a great restraining effect on any special life form.

“By the way, I’ve seen master’s heaven-suppressing tablet before,” Jian Wushuang said.

“It’s not strange.” Daoist Xuan God smiled. “Although your master died, he left a way out for the Seven Star Mysterious Sect. He sealed the entire Seven Star Divine Realm and kept all his treasures. He gave

you the Mountain River Map, but the heaven-suppression tablet is too high-level. You were too weak to refine it.”

“But the heaven-suppression tablet must be left to you in the end. After you break through to become a Principles Master and break the seal, you can go to the heaven-suppression tablet and try to refine it!

“Once you refine the heaven-suppression tablet, your strength will certainly reach a new level.”

“Yes.” Jian Wushuang nodded slightly.

The heaven-suppression tablet...Jian Wushuang had a trace of desire in his heart to make Xuan Yi, who only had the strength of a primary Ruler, a supreme treasure that could rival a superior Ruler in one leap.

“Well, continue to cultivate.” Daoist Xuan God waved his hand and said.

Jian Wushuang bowed respectfully to the three Rulers in front of him and then turned to leave.

After Jian Wushuang left, the three Rulers began to chat again.

“This little guy is worthy of being created by Xuan Yi, who gathered all the Heavenly Dao and good fortune in the Seven Star Divine Realm and the Divine Beginning Realm. He is even more blessed than Xuan Yi,” Daoist Xuan God said.

“Yes, a body-refining secret skill that can make your divine body comparable to a universe supreme treasure. I’ve never heard of it before. It’s too abnormal. Such a secret skill must come from the deepest part of the universe. In the deepest part of the universe, only some big forces can have it. To be able to get such a secret skill, it’s really extraordinary.” The Heaven Ancestor sighed.

“Not only that, he also had a special opportunity in the Blood Wave Realm. The Master of the Blood Wave Realm is undoubtedly a super powerful warrior from the depths of the universe. However, such a powerful warrior helped him with all his strength during the battle on the Saha Island. He even caused the entire Blood Wave Realm to collapse. It can be seen that their relationship is no small matter. After he came out from the Blood Wave Realm, his power has soared. It can be seen that the opportunity he got in the Blood Wave Realm is not small either.” Temporal Temple Master chuckled.

“He already has a heaven-defying opportunity. With the help of us and the things Xuan Yi prepared for him, he has thousands of opportunities in his body. If he can’t take the final step, there won’t be anyone else in the Divine Beginning Realm who has the same opportunity as him.”

The three sighed. Soon, Daoist Xuan God and Temporal Temple Master gradually disappeared. The Heaven Ancestor continued to pick up the axe in his hand and began to chop the trees next to him.

...

Jian Wushuang returned to the courtyard where he lived, but his heart was still very heavy.

“The supreme-level Immortal Xuan body did not disappoint me. It’s comparable to a divine body of an elementary universe supreme treasure, so I don’t have to care about ordinary elementary Rulers or even advanced Rulers now. However, just as Senior Xuan God said, Devil Cloud Star has a treasure that is specialized in restraining special life forms. My master died under that long spear. Although my

current body-protection ability may be stronger than my master's, that long spear can still pose a fatal threat to me." Jian Wushuang clenched his hands.

"Keep cultivating. I need to fuse the three rules as soon as possible and break through to become a Principles Master. When that happens, my strength will Sky Rocket. If I can refine the heaven-suppression tablet again, I might be even stronger than my master when he was at his peak. By then, even if my opponent has the special spear, as long as the real body of Devil Cloud Star Master doesn't arrive personally, it shouldn't be able to pose a fatal threat to me!"

After taking a deep breath, Jian Wushuang began to cultivate in seclusion again.

This time, he was in seclusion purely to merge the three rules and break through to become a Principles Master.

Moreover, he had made up his mind that he would not come out of seclusion until he had completely merged the three principles!

Time passed quietly.

The merging of the three principles was dozens or even hundreds of times more difficult than the previous two principles!

However, Jian Wushuang had already mastered the destruction will. After so many years of groping, especially when he was trapped in the eighteen ultimate formation, the breakthrough in sword principle triggered the Universe Origin of Sword Principle. Although the universe origin was in the aspect of sword principle, it was more or less helpful to the various principles of heaven and earth.

Because of this, he had already made some progress in the fusion of the three principles. Now, he had obtained a large number of treasures from the Supreme Treasure Vault that combined the destruction principles, the space-time principles, and the Samsara principles, this allowed him to go further and further in the fusion of the three principles.

It was not until the 3000th year of Jian Wushuang's seclusion.

Finally, he had completely fused the three principles he had comprehended.

"The three principles of destruction, space-time, and Samsara are perfectly fused!"

Jian Wushuang sat in the secret chamber with his eyes open, but his eyes were full of surprise and excitement.

After 3,000 years of secluded cultivation, he had finally taken this step and perfectly integrated the three principles. At the moment of integration, he immediately gained an additional power of will, however, this power of will was not what Jian Wushuang really wanted.

What he wanted was to break through the bottleneck that had troubled him for a long time.

"As I expected, after the three rules were merged, I could clearly sense where the bottleneck was. What I have to do now is to force a breakthrough!" Jian Wushuang's eyes flashed.

"Let's begin!"

The Principles Master's breakthrough began.

Chapter 3618: Breakthrough

The perfect fusion of the three principles had long exceeded the requirements for an Immortal Saint to break through to the Principles Master Realm.

Even though Jian Wushuang was a perfect being and was extremely restricted by the universe principles, after the fusion of the three principles, he had finally met the requirements for the breakthrough. What he lacked now was a final kick.

He had to forcefully kick it away.

In the secret chamber, Jian Wushuang's face was cold and his divine power surged.

At the same time, a light cyan divine sword appeared in his hand. This light cyan divine sword was the Pinnacle Universe Supreme Treasure he had obtained from the Supreme Treasure Vault. It was called the Cyan Spirit Divine Sword. Compared to the many divine swords he had used before, its blade was not as sharp as before.

Such a divine sword would allow Jian Wushuang to display the strongest tearing effect when he used the sword art of laceration.

However, the sword with a thicker body was stronger under the gravitational force, so its power was naturally much stronger.

"Break for me!"

With a low shout, Jian Wushuang's three principles merged divine power crazily rushed toward the barrier in his body. At the same time, he swung the Cyan Spirit Divine Sword in his hand.

It was the most powerful skill that Jian Wushuang had created, Starfire Burning Sun!

Boom!

The space trembled, and Jian Wushuang's body roared crazily. After a while, the barrier in his body collapsed.

"I've made a breakthrough!" Jian Wushuang was overjoyed.

In fact, it was quite normal.

He had already met the requirements for a breakthrough. In addition, he had accumulated enough power before, so it was natural for him to make a breakthrough.

As he made a breakthrough, the vast and majestic divine power in his body surged and began to change qualitatively.

During the process of the divine power's transformation, the divine power gathered in his body also increased at an incredible speed.

...

The Star Palace. That special tower was the tower where the Empyrean Patriarch was located.

Within the special space on the top floor of the tower, the forest had already disappeared. What replaced it was an enormous estate.

This estate was incredibly beautiful and majestic.

In the center of the estate was a stone pavilion. Daoist Xuan God, the Temporal Temple Master, and the Empyrean Patriarch were seated together, casually drinking tea while chatting.

"That little fellow has been in closed-door training for three thousand years, right?" The Empyrean Patriarch said slowly.

"Right. It has been three thousand years. It seems he intends to completely break through to become a Principles Master before coming out. I wonder how long he will need," the Temporal Temple Master said.

"There's no rush." Daoist Xuan God just smiled. "A long time ago, I sent some people to the territory which Devil Cloud Star is located in. I've been keeping an eye on Devil Cloud Star's movements, and from the information I've received, Devil Cloud Star doesn't have any intentions of personally coming to our territory. He doesn't even have any intentions of sending a few Rulers here. As long as Devil Cloud Star doesn't come here in person, we have nothing to worry about."

"That's true." Temporal Temple Master nodded slightly.

They already knew that Devil Cloud Star had sent three Rulers to this territory and that they were staying on the Sacred Island. However, they did not care about these three Rulers, even if they were very strong, moreover, they were not worried about bringing the spear that could restrain Jian Wushuang.

With Jian Wushuang's current life-saving skills, it would be too difficult to kill him.

What they were afraid of now was Devil Cloud Star Master, who had reached the peak of the Ruler Realm. If their original body came in person, together with the spear that could restrain Jian Wushuang...that would be a fatal threat to Jian Wushuang.

However, since Devil Cloud Star Master did not intend to come to this territory, they were not worried.

"Not only that, they also said that Devil Cloud Star seems to have caused some trouble recently. The entire planet is very busy. I'm afraid that we won't be able to take care of our territory in a short time," Daoist Xuan God said with a smile.

"Haha, that's great!" Temporal Temple Master was overjoyed.

"This is indeed good news for us." The Heaven Ancestor nodded solemnly.

As long as the original body of the Devil Cloud Star Master did not arrive in this territory, they would have one more day to prepare. Jian Wushuang could also have one more day to improve his strength. If the Devil Cloud Star Master delayed for tens of thousands of years or hundreds of thousands of years before coming here...that would be even better. After all, with Jian Wushuang's talent and speed of improvement, he might have become a Ruler in hundreds of thousands of years.

By that time, even if Devil Cloud Star Master noticed it, it would be too late for him to rush over.

"I just hope that Devil Cloud Star Master can't get away. He can't worry about this place and give the little guy enough time. Even better, he might as well give up on the Divine Beginning Realm completely," Daoist Xuan God said.

"Give up on the Divine Beginning Realm? How is that possible?" Temporal Temple Master sneered, "To possess an astral world and comprehend the workings and evolution of an astral world is a tremendous opportunity. Even many top Rulers and even legendary Autarchs would covet it. Why would he give up?"

"Not necessarily. You have to understand that the reason why planet Devil Cloud Star Master is so crazy about accelerating the evolution of the Divine Beginning Realm is because he wants to squeeze out the potential of the Divine Beginning Realm in order to break through as soon as possible. However, if he has truly broken through and Moyun has caused trouble for his flawless clone, he might really give up on this place," Daoist Xuan God said.

"If? How can there be so many ifs in this world? In my opinion, it's absolutely impossible for him to give up on the Divine Beginning Realm," the Heaven Ancestor said seriously.

"I was just casually saying that." Daoist Xuan God smiled awkwardly.

"Let's not talk about this for now." The Temporal Temple Master waved his hand. "Blackgod, you said earlier that you wanted to get that little fellow a suitable supreme attack treasure. What was the result?"

"That supreme treasure is a bit troublesome," said Daoist Xuan God.

"Why? Can't I get it?" Temporal Temple Master frowned slightly.

A supreme supreme treasure was much more powerful than a pinnacle supreme treasure.

Jian Wushuang only had a pinnacle supreme treasure divine sword, which he had just obtained. However, if Jian Wushuang could get a supreme supreme treasure divine weapon that was suitable for him, then his attack would definitely be improved, it was gonna be a big step up.

"I can't say that I can't get it at all. It's just that there are some problems, and I can't solve them either." Daoist Xuan God pondered for a moment before saying, "In short, there are some twists and turns in this process, or wait for the little guy to come out of seclusion, I will tell him in detail."

"Yes." The Temporal Temple Master and the Heaven Ancestor all nodded, two people also did not continue to inquire.

And right at this moment...

Boom!

The entire world suddenly shook.

Chapter 3619: Divine Might Unrivalled

The world trembled, and the special spacetime where the three Rulers were located began to shake wildly, as though it would collapse at any moment.

“What’s going on?”

The three Rulers, who were chatting leisurely, all had solemn looks on their faces.

“Such a huge commotion. Could it be...” Daoist Xuan God glanced at the Temporal Temple Master and the Heaven Ancestor, only to discover that the latter two were just like him, and their eyes were filled with a hint of excitement.

“Let’s go out and take a look.”

The three Rulers immediately moved out of spacetime, arriving in the void outside the Star Palace.

As soon as they left, they immediately sensed the source of that enormous disturbance.

“As expected, this disturbance came from the place where that little fellow lived.” Daoist Xuan God was incomparably excited.

“Haha, it seems that that little fellow has finally made a breakthrough.” The Temporal Temple Master was overjoyed as well.

They all understood that it was impossible for such a disturbance to appear within the Star Palace for no reason.

Without a doubt, it was definitely caused by humans. Under normal circumstances, when a cultivator’s strength reached a certain level, their breakthrough would cause some sort of disturbance. Moreover, the higher the level of the breakthrough, the more heaven-defying the cultivator would be, the disturbance that would be caused would also be greater.

An ordinary Immortal Saint breaking through to become a Principles Master would also cause some commotion. However, the commotion was not very big and would not attract the attention of the three Rulers. The key point was that the commotion that was spreading out at this moment...it was so huge that it caused an uproar in the entire Star Palace.

In addition, the source of the commotion was where Jian Wushuang lived. Therefore, there was no doubt that Jian Wushuang had broken through.

“This little guy did not disappoint us. He broke through to become a Principles Master so quickly. What a big commotion. When I broke through from a Principles Master to a Ruler, the commotion I caused was not as big as his,” the Heaven Ancestor said with a smile.

“Not good.” Daoist Xuan God’s expression suddenly changed. “It’s a good thing that the little guy made a breakthrough, but we didn’t expect him to cause such a big commotion. We didn’t hide anything for him. There are so many cultivators in Star Palace, so they must have known that he made a breakthrough at the first moment. I’m afraid this news can’t be hidden. Soon, all the forces in this territory will know, and so will Sacred Island.”

“If you know, then so be it.” The Temporal Temple Master waved his hand. “Since this little fellow has already broken through, unless he doesn’t use his full strength or doesn’t meet with a Ruler Realm

expert, he will definitely be exposed. We can't hide it even if we want to. We might as well let the world know. It's not a big deal. Even if that Devil Cloud Star Master gets the news, he probably won't be too alert."

"Yes, Xuan Yi had reached the level of Principles Master and stayed there for a long time, but he was still killed by the Star Master. With Xuan Yi's example, the star master might not take him seriously," the Heaven Ancestor added.

Daoist Xuan God was worried that the news of Jian Wushuang's breakthrough would alert the star master and speed up his arrival. However, just as the Temporal Temple Master and the Heaven Ancestor had said, the news of Jian Wushuang's breakthrough would spread sooner or later.

Moreover, because of Xuan Yi's example, Devil Cloud Star Master thought that he could still kill Xuan Yi who had been in the Principles Master for a long time, therefore, even if Jian Wushuang was allowed to stay in the Principles Master Realm for a period of time, as long as his original body made a move, he could still kill Jian Wushuang easily and would not take it seriously.

Hearing their words, Daoist Xuan God frowned and did not say anything more.

At this moment, Jian Wushuang's divine power had clearly begun to transform. A terrifying divine power swept out from where he was, covering the entire Star Palace in an instant.

This divine power was too strong!

It had completely exceeded the scope of Principles Masters, and it was still improving crazily.

Within the Star Palace, other than the three Rulers, there were still quite a few Principles Masters present. When that divine might completely filled the area, these Principles Masters instantly became extremely terrified. Some of the weaker ones...their legs even began to go weak, and they almost knelt down.

Divine might was unrivalled!

This divine might suppressed everything in the surroundings, causing all the Principles Masters within the Star Palace to tremble in fear.

This sort of fear was as if they were facing a powerful Ruler alone, and that Ruler was unleashing all of his divine might to suppress them.

They were indescribably terrified!

Most importantly, this divine might was still increasing at a terrifying speed.

"Too terrifying, this divine might is too terrifying!"

"Who is it? Who is emitting this divine might? How can it be so terrifying! !"

"Blood Sword Master is Blood Sword Master! The commotion was caused by him, so he must be the one who released the divine power. It's obvious that he has made a breakthrough!"

"A breakthrough? To become a Ruler?"

The Principles Masters in Star Palace were all shocked. They were both envious and terrified of Jian Wushuang's breakthrough.

Blood Sword Master had been recognized as the strongest Principles Master before he made the breakthrough. Now that he had become a Ruler, how strong would he be?

They could feel it just by looking at the divine power in front of them.

The divine power emanating from Jian Wushuang was obviously not something an ordinary Ruler could have.

"This divine power is really scary."

The three Rulers stood in the void of the Star Palace and felt the divine power from up close. Their expressions were quite interesting.

"It's indeed terrifying. It's much more powerful than an ordinary Ruler. When I broke through from Principles Master to Ruler, the Divine Power I released was probably not even one-third as strong as his," the Heaven Ancestor said.

"You are nothing more than the most ordinary Ruler of this universe. How can you compare yourself to a freak at the level of a perfect being?" Daoist Xuan God laughed, "The special lifeforms of this universe are all extraordinary creatures to begin with. They are far more powerful than ordinary cultivators, especially when it comes to divine power. They have a tremendous advantage, while perfect lifeforms are even more heaven-defying."

"I've seen mystic one make a breakthrough before, and the commotion was just as terrifying. He only broke through to become a Principles Master, but the commotion of his breakthrough and the godly power he released were much greater than many Rulers who had just broken through. And this little guy is naturally no weaker than mystic one. In fact, from what I can see, the godly power he is displaying now is even stronger than mystic one's. This proves that his potential is definitely greater than mystic one's!"

Chapter 3620: Triple!

Daoist Xuan God, Temporal Temple Master, and Heaven Ancestor were chatting and laughing.

On the other side, Jian Wushuang's transformation of divine power was coming to an end. The overwhelming divine power that had filled the entire Star Palace was finally beginning to fade away.

In the secret chamber, Jian Wushuang slowly opened his eyes.

The moment he opened them, he clenched his hands tightly and instantly felt a terrifying power that could easily crush stars.

This power was much stronger than his previous Saint level.

"It's just as I guessed. At the Immortal Saint Realm, my divine power is no less than that of an ordinary Principles Master, or even stronger than an ordinary Principles Master. Now that I've broken through to the Principles Master Realm, my divine power is comparable to a Ruler!" Jian Wushuang's eyes flashed with a hint of surprise.

The innate advantage of a perfect life-level cultivator was simply too great.

And this innate advantage was first reflected in the power of divine power.

He had only just broken through to become a Principles Master, but his divine power was already comparable to a Ruler. Of course, this also had a few functions of the power of will. After he broke through, the power of will he had grasped...it had also undergone a qualitative transformation and had reached a new level.

Moreover, this was only the basic power of divine power.

“Life divine power...”

With a thought, Jian Wushuang activated the life divine power.

Suddenly, Jian Wushuang felt that his strength had increased by a large margin, almost by 40%.

“It has improved so much all of a sudden?” Jian Wushuang was immediately delighted.

He had obtained the life divine power from Blood Wave. It was a secret skill from the Life Palace, which was specially for special life forms to cultivate, to a large extent, it could allow special life forms to exert their innate advantages.

However, the effect of this secret skill had a lot to do with the realm of the cultivator.

Previously, Jian Wushuang was only at the level of the Immortal Saint. After using this secret skill, the increase in power was equivalent to an additional portion of the power of the will.

Now that he had reached the level of Principles Master, his divine power was comparable to that of a Ruler. When he used the life divine power, his power was increased by another 40%!

Don't underestimate this 40% power. This was the power of a Ruler. Just an additional 10% was enough to have a great impact on a big battle. 40%..’ ’.this meant that if he encountered a primary Ruler in the future, he could definitely crush his opponent in the power of divine power.

“Although senior Blood Wave gave me the life divine power, this life divine power is only the first level. There is still a limit to the advantages I can bring out. If I can learn the complete life divine power one day, it will be even more helpful to me.” Jian Wushuang sighed.

He knew very well that he could only exert 10% of his innate advantage by using the first stage of the life divine power. However, he had heard from Blood Wave that the creator of the life divine power had cultivated the life divine power to the peak, he could exert more than 10% of his innate advantage.

Unfortunately, he did not have the complete life divine power.

In addition to the life magic power, Jian Wushuang had another trump card, which was the heaven-cleaving skill.

“Now that I have broken through to become a Principles Master, my realm is no weaker than that of my master at his peak. Logically speaking, I should be able to exert the strongest power of the heaven-cleaving skill. I wonder how much the heaven-cleaving skill can improve my strength?” Jian Wushuang had a trace of expectation in his heart.

The heaven-cleaving skill was the most powerful skill created by his master.

Most importantly, this skill was very unique. When Jian Wushuang used it, even Blood Wave was shocked by it.

At that time, Blood Wave said that if he could use all the power of his heaven-cleaving skill, he would be able to use 30% of his innate advantage!

After all, the life divine power he was cultivating now could increase his own power by 40%, but this 40% was only 10% of his innate advantage.

If he could use 10% of his innate advantage, he would be able to use 40% more of his divine power. As for the 30% innate advantage...

"Let's give it a try."

Jian Wushuang's eyes flashed with a sharp light. He waved his right hand and immediately used the heaven-cleaving skill.

The moment he used the heaven-cleaving skill, the power in his hand suddenly increased.

Boom!

A low sonic boom was heard in the void. The void in front of him was almost shattered by him.

"This power..." Jian Wushuang widened his eyes.

He could clearly feel the sudden increase in power when he used the heaven-cleaving skill.

The power had more than doubled!

"The 30% innate advantage didn't disappoint me." Jian Wushuang clenched his hands, a hint of surprise on his face. Then he tried again.

He wanted to fully understand the level of power he had reached after using the life divine power and heaven-cleaving skill.

After trying again and again, he soon figured it out.

"My current power is equivalent to that of an ordinary Ruler, maybe a little stronger than an ordinary primary Ruler. When I use the life divine power, my power will increase by 40%, which is equivalent to 140% of my power. But once I use the heaven-cleaving skill, my power will more than double. If I count all of them, I estimate that my power will be 280% or 290%!" Jian Wushuang muttered.

280% , or even 290%?

This was almost three times the power of an ordinary primary Ruler.

"Three times the power of a primary Ruler. If I only talk about power, I'm afraid I can compete with an ordinary advanced Ruler." Jian Wushuang exclaimed.

He had to admit that the life divine power and the heaven-cleaving skill had given him a great surprise, especially the heaven-cleaving skill.

One had to know that he had already activated the origin of the Sword Dao universe and had already created a seventh-tier high-grade ultimate art. Combined with the power that was comparable to that of a high-grade Ruler, his battle prowess would be able to reach the level of a high-grade Ruler in a short period of time, even if he couldn't completely compare to a high-grade Ruler, he would at least be very close.

As for a high-grade Ruler, one had to know that even in this territory, there were very, very few of them. Daoist Xuan God, the Temporal Temple Master, and the Heaven Ancestor were all just low-grade Rulers. In the Divine Beginning Realm, after Xuan Yi had fallen...it seemed that only the Heaven-cleaving Alliance Master had the battle strength of a senior Ruler.

However, now that he had broken through to Principles Master, his battle strength had risen to the level of a senior Ruler, which surprised Jian Wushuang.
