

Swordsman 3701

Chapter 3701: Secret Patterns

“At first, my master only had the battle strength of a primary Ruler, but after mastering this Heaven Suppression Tablet, he was able to reach the level of a superior Ruler in one leap. Such a precious treasure is naturally extraordinary, but I don’t know what’s so special about this Heaven Suppression Tablet.”

With a trace of expectation, Jian Wushuang’s consciousness immediately covered the nearly 30,000-meter-tall gray stone tablet in front of him.

When his consciousness entered the Heaven Suppression Tablet, Jian Wushuang instantly sensed the extremely mysterious secret patterns hidden in the tablet.

Jian Wushuang could only sense these secret patterns, but he could not sense anything else.

“These secret patterns are so mysterious.”

Jian Wushuang knew that his strength was not weak, and he was definitely at the top of the Divine Beginning Realm. However, when he saw the secret patterns in the Heaven Suppression Tablet, he did not know what they were, so he could not see through them.

However, Jian Wushuang knew that these secret inscriptions were probably the key to controlling the Heaven Suppression Tablet.

As Jian Wushuang carefully examined them, he began to display them. The secret inscriptions hidden in the Heaven Suppression Tablet were roughly divided into three layers.

Each of the three layers of secret inscriptions had a lot to do with the Heaven Suppression Tablet.

“If I’m not mistaken, these three layers of secret inscriptions should be the method to control the Heaven Suppression Tablet. I only need to comprehend the first layer of the three layers of secret inscriptions to be able to use the Heaven Suppression Tablet normally,” Jian Wushuang muttered.

He had already understood the way to control the Heaven Suppression Tablet.

However, although he understood the way, the process was not that easy.

After all, the secret patterns hidden in the Heaven Suppression Tablet were indeed too profound and unfathomable. Jian Wushuang observed for a long time, but he did not have any clue.

“Master is a genius, but after I got the Heaven Suppression Tablet, it took me a long time to slowly master the Heaven Suppression Tablet. In other words, master also spent a long time to comprehend the first secret pattern on the Heaven Suppression Tablet.”

“It takes me a long time to master the first level of the secret inscription.”

“No rush, I’ll take my time.”

Jian Wushuang smiled and sat down in front of the Heaven Suppression Tablet with his legs crossed. He closed his eyes and began to fully comprehend the secret inscription on the Heaven Suppression Tablet.

Ten days passed in the blink of an eye.

During these ten days, Jian Wushuang was in a confused state because he could not see through the secret patterns. It was not until ten days later that he could barely see through the secret patterns.

“Universal principles!”

“There are universal principles in the secret patterns!”

Jian Wushuang opened his eyes with a hint of surprise.

Under normal circumstances, only the legendary supreme experts were qualified to comprehend the supreme universal principles.

However, it was still very difficult to comprehend them.

Jian Wushuang was only a Principles Master now. Logically, he should have been able to come into contact with the universe principles. However, when he had completely refined the Eternal Chaotic World, the universe principles had come to him personally, at that time, the universe principles covered his body, giving him a chance to feel the universe principles up close.

For a cultivator, that chance was simply a stroke of luck.

Although he did not get any substantial benefits from the close contact with the principles of the universe, there were too many intangible benefits.

For example, under normal circumstances, he would not be able to feel the existence of the principles of the universe from these secret patterns. However, because he had been in close contact with the principles of the universe before, he was able to feel them after 10 days of comprehension, that was why he could sense them.

“No wonder these secret engravings are so difficult to comprehend. It turns out that these secret engravings are derived from the universe principles.” Jian Wushuang sighed softly.

The universe principles were too extraordinary. It was not something that he could comprehend right now.

Even though what Jian Wushuang encountered was not purely the universe principles, but the secret engravings that were derived from the universe principles, the difficulty of comprehending them was much lower than comprehending the universe principles directly, however, it was still too difficult for a Principles Master like Jian Wushuang.

“Fortunately, I have experienced it up close and come into contact with the universe principles. This at least gives me the possibility of comprehending it. Without that encounter, even if the Heaven Suppression Tablet was placed in front of me, I wouldn’t be able to do anything about it,” Jian Wushuang said.

He knew that in order to comprehend the secret pattern in the Heaven Suppression Tablet, he had to first be able to sense the existence of the universe principles inside.

Jian Wushuang could sense it because of the opportunity he had last time, so he had the possibility to comprehend it. Without that opportunity, he could only watch helplessly.

“Strange. When master got the Heaven Suppression Tablet, he was only a Principles Master. Logically speaking, he was also not qualified to touch the universe principles. However, he still mastered the Heaven Suppression Tablet in the end. How did he comprehend the secret inscriptions derived from the universe principles in the Heaven Suppression Tablet?” Jian Wushuang was puzzled.

After all, his master did not have the same opportunity as him, but he did not receive any universe principles from his master.

However, Xuan Yi still managed to master the Heaven Suppression Tablet.

In that case, Xuan Yi must have had other opportunities, and he must have come into close contact with the universe principles by chance.

“Now that I know the whole story, I only need to spend time to slowly comprehend it.”

Jian Wushuang took a deep breath.

He knew that it would be extremely difficult to fully comprehend the first level of the secret patterns of the Heaven Suppression Tablet. However, he had no choice. In order to master the Heaven Suppression Tablet, he had to spend a lot of time to slowly comprehend it.

Even if the process would be very long.

The good news was that these secret patterns were derived from the universe principles. Jian Wushuang could gain a lot of benefits during the process of comprehending them. It was definitely unrealistic to comprehend a trace of the universe principles, however, during the process of comprehending, it would be helpful to improve his understanding of sword principle and the comprehension and application of various principles.

This kind of help was certainly much better than using some special resources to cultivate.

Jian Wushuang was completely immersed in comprehending the secret patterns in front of the Heaven Suppression Tablet under the ancient battlefield.

Time passed quickly.

In the blink of an eye, 30 years had passed.

During these 30 years, Jian Wushuang had been immersed in comprehending the secret pattern and did not stop for a moment.

Even so, his comprehension of the first level of the secret pattern was still very low. It could even be said that he did not comprehend it at all. At most, he had a little understanding and familiarity with this level of the secret pattern.

He knew that he still had a long way to go before he could completely grasp the first level of the secret inscription.

However, the thirty-year deadline had already arrived. He had to stop first and complete the agreement made by Di Shisan.

Chapter 3702: Jian Wushuang and Di Shisan

The headquarters of the Seven Star Mysterious Sect was once the headquarters of the Three Saint Realms.

Although the territory had been destroyed due to the previous war, the aura of the war had gradually dissipated after 30 years of reconstruction. The place had returned to its former glory and glory.

The Seven Star Mysterious Sect was once recognized as the number one Ruler of the Divine Beginning Realm. Even the Three Saint Realms could only catch up to it.

With the battle strength of three Masters and the Seven Star who stood at the top of the Principles Master...there were countless experts and how glorious it was.

Even though a large number of experts had died, there were still many top experts who stayed behind.

With these experts as the foundation, the headquarters in the Divine Beginning Realm was in the best cultivation condition of the territory, and with the full support of Star Palace and Jian Wushuang, the Seven Star Mysterious Sect would regain its former glory, it was not impossible.

For example, although only 30 years had passed, the Seven Star Mysterious Sect had gained a new status in the Divine Beginning Realm.

Today, everyone in the Seven Star Mysterious Sect was watching!

Many top experts of the Seven Star Mysterious Sect had gathered here. In the past 30 years, most of them had recovered and were now full of battle strength.

In addition to the Seven Star Mysterious Sect, the Heaven-cleaving Alliance Master, his three Palace Masters, Temporal Temple Master, Deputy Temple Master Bai Xing, Ba Cang, and many experts from the Heaven Ancestor's bloodline had also arrived.

They had come because of the sword principle battle between Jian Wushuang and Di Shisan.

Di Shisan used to be a legend of sword principle in the Divine Beginning Realm. His sword principle was so powerful that even Rulers were amazed.

Jian Wushuang was a legend in the Divine Beginning Realm today. His sword principle was also extremely powerful. The sword principle showdown between the two of them was naturally very attractive to cultivators from various forces.

On a calm lake, Di Shisan carried the magic sword on his back and stood there calmly. He was clearly stepping on the lake surface, but there were no ripples under his feet.

It was clear that he was extremely calm now. He did not have any strange emotions because of the upcoming battle.

As for Jian Wushuang, he had also slowly walked over.

His steps were deep and step by step, stepping through the void. Ripples spread out along with his steps.

After a long while, he appeared in front of Di Shisan.

"You're here." Di Shisan raised his head and looked straight at Jian Wushuang.

"I'm sorry to have kept you waiting." Jian Wushuang smiled.

The two exchanged a simple greeting as if they were old friends.

In fact, they had a certain friendship. It was not an exaggeration to say that they were old friends.

"Have you fully recovered to your peak condition?" Jian Wushuang asked.

"More or less. Even if there are some differences, it won't affect the battle." Di Shisan's voice was still as cold as ever. "Shall we begin?"

"Yes." Jian Wushuang nodded and said, "This fight is purely a competition of sword principle and swordsmanship. So, you and I will only use the power of an ordinary Principles Master. What do you think?"

"No problem," Di Shisan said.

In terms of divine power, even ten of them were no match for Jian Wushuang.

Now that both of them controlled and only used the power of the ordinary Principles Masters, this undoubtedly made the fight fair.

Jian Wushuang smiled faintly. With a flip of his hand, a blood-red divine sword appeared in his hand.

"This sword is called the Blood Mountain Divine Sword. My Master Xuan Yi personally refined it for me. Although it's not a universe supreme treasure, its power is very impressive. Moreover, it's extremely sharp and has the ability to suppress," Jian Wushuang said as he looked at the divine sword in his hand, he said slowly.

For the sake of fairness, Jian Wushuang would not take out the Netherworld Divine Sword, which was the strongest supreme treasure. He did not even plan to use a universe supreme treasure to fight with the Blood Mountain Sword.

After all, the Blood Mountain Sword had been with him for the longest time, and he was the most familiar with it. With the Blood Mountain Sword, Jian Wushuang could perfectly display his sword principle and swordsmanship.

Di Shisan knew Jian Wushuang's intention and immediately took out a cyan divine sword. "This sword is called moon-cutting. It used to be with me for a long time. It's also not a universe supreme treasure, but its power is not weaker than the Blood Mountain Sword in your hand."

"Very good."

Jian Wushuang smiled and the two looked at each other.

The next moment, whoosh! Whoosh!

The two figures moved at the same time.

“It’s starting!”

“The battle has finally begun!”

“One is a legend of sword principle, and the other is a new legend of the invincible Divine Beginning Realm. Who is stronger and who is weaker in the battle of sword principle?”

“It’s hard to say who is stronger and who is weaker. After all, their understanding of sword principle has exceeded the scope of the Divine Beginning Realm and reached a new level. But I’m sure that this battle will be extremely exciting.”

The surrounding experts watched the battle with anticipation.

They also focused their eyes on the void in front of them, afraid of missing out on the details of the battle.

Under the gaze of countless experts, Jian Wushuang and Di Shisan finally fought head-on.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

Countless sword lights burst out at the first moment.

The place where the two men exchanged blows turned into a sea of sword principle in an instant.

In this sea of sword principle, Jian Wushuang and Di Shisan’s figures flashed one after another like two ghosts, making it difficult to see clearly.

Each flash was accompanied by a large number of sword lights.

These sword lights were displayed by the two men at the moment their figures flashed. In this flash, the two men had exchanged dozens of sword skills.

That was why every time they flashed, a large number of sword lights would appear.

“So fast!”

“They actually unleashed so many sword lights in that instant?”

“It’s too fast. These two’s sword techniques are too fast.”

The surrounding spectators exclaimed in surprise at the first moment.

Even the Heaven-cleaving Alliance Master, Temporal Temple Master, and Xuan Yan, these three Rulers, could not help but exclaim in admiration when they saw the scene before them.

“Both of them didn’t use their absolute arts or any sword techniques at the first moment. They were purely using their swords. They were just competing in speed,” the Temporal Temple Master said.

“It’s not that simple.” The leader of the Heaven-cleaving Alliance shook his head. “It might seem like a simple speed competition, but in reality, the sword techniques that the two of them casually used contained the universe origin of the Sword Dao. That universe origin of the Sword Dao greatly increased

their sword techniques' speed. Therefore, in this speed competition, they were actually competing to see who had the highest comprehension of the universe origin of the Sword Dao."

...

Chapter 3703: Probing

"You're right. If they hadn't fused the universe essence of Sword Dao into it, they wouldn't have been able to instantly unleash such terrifying speed with the power of an ordinary Principles Master." Xuan Yan nodded as well.

"The two of them are only at the beginning. Right now, they are just testing the waters, but even so, this scene is still quite shocking." The Temporal Temple Master laughed.

These Rulers were powerful and had high standards, so they were able to see many things.

They knew that Jian Wushuang and Di Shisan were just testing the waters and had not really done anything yet.

Even so, the flashing figures and the sword shadows that burst out in an instant still shocked the surrounding spectators.

Both of them only used the power of ordinary Principles Masters, but after activating the universe origin of sword principle, their terrifying swordsmanship was still beyond the power of ordinary Principles Masters.

Clang! Clang! Clang! Clang! Clang! Clang!

Dozens of clashing sounds rang out, and Jian Wushuang and Di Shisan finally separated.

"Jian Wushuang, it seems that I have underestimated you. I thought that you had just reached the fourth level of sword principle, so you should not have a deep understanding of the universe origin of sword principle. You should only have a little understanding. I didn't expect that your understanding of the universe origin of Sword Principle has reached a certain level. You are not inferior to me at all."

Di Shisan stood there with a rare look of excitement on his cold face, this kind of excitement was only possible when one met a real opponent.

"The same goes for you. You are indeed the first person in the Divine Beginning Realm to step into the fourth level and master the origin of the universe of sword principle. Your understanding of the origin of the universe of sword principle was already so amazing when the Seven Star Mysterious Sect was destroyed. If it weren't for the fact that you were in a deep sleep later on, with your talent in sword principle, your comprehension of the origin of the universe of sword principle would have already reached a new level that I can only look up to." Jian Wushuang also praised.

Both of them had tested each other's comprehension level of the universe origin of sword principle.

Obviously, their comprehension level of the universe origin of sword principle was about the same.

Because of this, the two of them were evenly matched in the test fight, and there was no difference in the speed of their swordsmanship.

In fact, only Jian Wushuang knew that the reason why he could be evenly matched with Di Shisan was mainly because he had been comprehending the secret inscriptions in the Heaven Suppression Tablet for the past 30 years, it was extremely helpful to his sword principle, which deepened his comprehension of the universe origin of sword principle.

However, if he had not made progress in the past 30 years and fought with Di Shisan at his peak 30 years ago, his comprehension of the universe origin of sword principle would definitely be inferior to Di Shisan's.

"Jian Wushuang, I already know the level of your comprehension of the universe origin of sword principle. What I want to know next is your attainments in swordsmanship," Di Shisan said.

"I'm looking forward to it too," Jian Wushuang said with a smile.

"In that case, I'll draw my sword." Di Shisan's face was cold, but the sword in his hand suddenly burst out with a bright light.

The light was like a huge sun. It was vast and majestic. Countless powerful sword essences were completely condensed in the sun.

Di Shisan drew his sword.

He did not move. He just pointed the sword in his hand in the direction of Jian Wushuang.

In an instant, the huge sword essence 'sun' swept out. When it appeared in the Void where Jian Wushuang was, it directly exploded.

Buzz! Buzz! Buzz! Buzz!

Countless solemn and cold sword shadows formed a huge sea of sword essence in an instant.

The Sea of sword essence covered the sky and covered the earth. For a moment, it crazily pressed down on Jian Wushuang from all directions.

It was like an extremely powerful sword principle domain. In this sea of sword essence, Di Shisan was like the master of sword principle.

"The two of them are finally getting serious," Heaven-cleaving Alliance Master, who was watching the battle, said.

"Watch carefully." Temporal Temple Master also revealed an expectant look.

Jian Wushuang, who was completely covered by the sword principle domain, was surprised when he saw the scene around him.

"This move...is so familiar."

He knew this move.

In his previous life, he had encountered a crisis in the Eternal Chaotic World. When he faced the blood emperor from the blood clan, Di Shisan had fought with him and used the same move.

However, because he was in the Eternal Chaotic World and was restricted by the Heavenly Dao, Di Shisan only had the strength of a half-step divine devil. The power of this move was probably less than one-millionth of its original power.

Until now, Di Shisan's strength had recovered to its peak. Without any restrictions, the true power of this move had been fully displayed in his hands.

The sword essence ocean that was rampantly charging toward Jian Wushuang was like a tidal wave. Even Jian Wushuang could not help but exclaim in surprise.

"It's just the impact of the Sword Essence Ocean?" Jian Wushuang frowned. "No, it shouldn't be so simple."

Although the sword essence impact in front of him was terrifying and would affect his strength to a great extent, judging from the power of the sword essence ocean, this sword was not so simple.

And it was true.

"Jian Wushuang, take my sword."

"Emperor Sword!"

Di Shisan glanced at Jian Wushuang and slashed out with the divine sword in his hand.

It seemed to be an ordinary sword, but the moment it was slashed out, a dazzling sword light swept out.

The sword light was so dazzling that it could cause damage to the eyes of ordinary cultivators. The dazzling light instantly made it the focus of the world.

It was as if this sword was the only thing left in everyone's eyes.

"An absolute art at the Ruler Realm?" Jian Wushuang's expression was calm.

He saw that this sword was extraordinary, but he was not afraid. His body swayed, and a violent force was released instantly.

"Peerless Sword Manual, Xi Xiang!"

The cold sword light suddenly slashed down with endless violent intent.

In the blink of an eye, it collided with the dazzling sword light.

Both were ultimate skills at the Ruler Realm, and the power they used was exactly the same. Even their comprehension of the universe origin of sword principle was almost the same.

The two sword lights disappeared almost at the same time.

"Di Shisan, is your swordsmanship only at this level?" Jian Wushuang looked at Di Shisan.

Di Shisan merely glanced at Jian Wushuang and did not say anything. However, he struck out with his divine sword again.

Chapter 3704: Swordsmanship System

Di Shisan attacked again, but this time, hua! Hua! Hua! Hua! Hua!

One after another, dazzling sword lights whistled out.

Each sword light was so dazzling and eye-catching.

Each sword light was so tyrannical.

However, there were dozens of such sword lights from Di Shisan's hands.

"What?" Jian Wushuang was shocked.

The spectators were shocked when they saw the sword essence from Di Shisan's hands.

"How could this be?"

"Those sword skills are so powerful. I feel that every sword move is an absolute art at the Ruler Realm!"

"He has used so many absolute arts at once?"

Everyone was shocked.

An absolute art at the level of a Ruler was extremely powerful.

It was not easy to use an absolute art at this level.

Even though Jian Wushuang's comprehension of sword principle was very high, and he had even created an advanced level seven absolute art, he still had to use an elementary level seven absolute art one sword at a time, unlike Di Shisan, he used dozens of sword lights in one breath, each of which was comparable to an absolute art at the Ruler Realm.

"It's because of this sword principle domain."

Jian Wushuang's face darkened, but he was not afraid at all when he saw the sword lights coming at him.

He moved his body to meet them and waved the Blood Mountain Sword in his hand.

Clang! Clang! Clang! Clang! Clang!

A series of clashing sounds rang out as Jian Wushuang blocked the dozens of sword lights.

However, they were all absolute arts at the Ruler level. It was very difficult for Jian Wushuang to block them. After dozens of collisions, he was forced to retreat a great distance.

Seeing this, Di Shisan's eyes were still cold. Then, he waved his hand again.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

One after another, dazzling sword light swept out like a storm.

The onlookers were completely stunned by this scene.

They did not expect that Di Shisan could use a sword skill at the Ruler Realm so easily. It was as if he could do it with ease.

Jian Wushuang's eyes darkened, and then a shocking sword essence burst out.

This sword essence was filled with hatred that would not rest until death.

"An absolute art at the level of a Ruler!"

It was also an offensive sword art, but it was much more powerful than the one created by Jian Wushuang.

If the move was the most common level seven absolute art, then the move would not rest until death was the best level among the level seven absolute arts.

Boom!

With a violent boom, a huge hole was blasted open in the void.

In the hole, a terrifying power swept out with a hatred that would not rest until death. It swept in all directions and instantly crushed all the brilliant sword lights unleashed by Di Shisan.

Jian Wushuang also took a step forward and appeared in front of Di Shisan.

Whoosh!

The violent power and endless flames rose in an instant.

It was an advanced level seven skill, star fire burning the sun!

Boom!

It was like a volcano that had been silent for hundreds of millions of years suddenly exploded. This sword attack contained extremely terrifying power and completely exploded in front of Di Shisan.

Seeing this, Di Shisan's expression was still very calm.

The moment the sword light slashed over, the longsword in his hand was stretched out straight.

"Hidden sword!"

The two words were light, but there was a unique sword essence sweeping up.

At this moment, the void where Di Shisan was seemed to have begun to undergo a huge change.

It was clearly a vast void, but it suddenly formed a storm eye. A terrifying vortex-like eye with a diameter of more than 1,000 meters appeared.

The terrifying thing was that the eye of the storm was completely formed by sword essence.

Jian Wushuang's sword skill, which contained explosive power, displayed its full power in the eye of the storm. However, it was completely destroyed by the power contained in the eye of the storm in a moment, there was nothing left.

Buzz!

With the change of sword essence, the huge vortex-like eye of the storm suddenly disappeared. Di Shisan appeared in front of Jian Wushuang again with a calm expression. Even though he took Jian Wushuang's terrifying sword attack head-on, there was no change at all.

Obviously, Jian Wushuang's sword attack had been easily blocked by Di Shisan. Not only did he not suffer any damage, but he did not even take a step back.

How could Di Shisan not move after receiving Jian Wushuang's most powerful sword attack 30 years ago?

"What a terrifying sword art. It actually weakened the power of the Starfire Burning Sun in an instant. Di Shisan, you actually created such an amazing defensive sword art." Jian Wushuang stared at Di Shisan in shock.

"Jian Wushuang, your sword art is indeed very powerful. At least in terms of attack and killing, the explosive power of your sword art is far greater than my most powerful sword attack. However, sword principle is not just about attack and killing power," Di Shisan said calmly.

"Do you know the difference between you and me?"

"In terms of swordsmanship, I have created a complete swordsmanship system. With the sword world as the core, my swordsmanship evolved into the Emperor Sword, which can continuously attack, and the hidden sword, which can defend against all kinds of attacks. In addition, there are all kinds of swordsmanship that can be used to tie down enemies and instantly kill them!

"This is a complete swordsmanship system. It can be used to attack, defend, advance, and retreat. It also complements each other. In fact, in this sword world, the consumption of my swordsmanship is very low!

"However, your swordsmanship is different. Although your swordsmanship includes all aspects, all of these aspects are used to attack and kill. In other words, your swordsmanship only pursues attacking and killing, but in terms of defense, advance, and retreat, you are far inferior to me!

"Today's battle, you are in my sword world. Even if you use all your swordsmanship, you can't break my hidden sword. But against my swordsmanship, you don't have any means of defense. Therefore, you will definitely lose this battle."

Di Shisan's expression was still extremely cold, but his words were full of absolute confidence.

He was indeed full of confidence in his swordsmanship system. It was because of this that he was so confident that he could defeat Jian Wushuang in sword principle.

It turned out that his confidence was not groundless. In the short exchange just now, Jian Wushuang had already used an advanced level seven secret skill. It should be the strongest move that Jian Wushuang had created, however, he still could not break his hidden sword.

As long as he could not break his hidden sword, Di Shisan would be invincible in the sword world.

...

Chapter 3705: The Winner Is Decided?

“A complete swordsmanship system?” Jian Wushuang narrowed his eyes slightly.

Once upon a time, he also wanted to create a complete swordsmanship system.

Therefore, there was the later Peerless Sword Manual.

However, as Di Shisan said, the Peerless Sword manual was full of offensive swordsmanship, but it did not even have a single defensive swordsmanship. It was indeed incomplete.

On the other hand, Di Shisan’s swordsmanship was based on the sword world, which evolved into the Emperor Sword and the hidden sword, which could be used for both offense and defense.

The sword world itself was equivalent to the realm of swordsmanship. At that time, the impact of the sea of sword essence had always affected Jian Wushuang.

In addition to what Di Shisan had said, his swordsmanship was indeed a complete system.

Moreover, this swordsmanship system was like a magic array. It could complement each other, attack and defense, and advance and retreat at the same time.

This swordsmanship was indeed powerful.

Di Shisan, who was once known as the number one sword principle genius in the Divine Beginning Realm, was finally experienced by Jian Wushuang today.

There were many aspects in his opponent’s swordsmanship that he could not compare with.

And this was because he had made great progress in sword principle and swordsmanship over the past 30 years by comprehending the secret inscriptions in the Heaven Suppression Tablet. Otherwise, he would have been defeated by Di Shisan in the contest of sword principle.

“Di Shisan, I’d like to see whether your swordsmanship system is really complete and whether it’s really that powerful.” Jian Wushuang licked his lips and attacked again in the next moment.

Whoosh! Whoosh! Whoosh!

Sword light flashed and activated the universe origin of sword principle.

On the battlefield, Jian Wushuang had displayed his swordsmanship to the fullest.

He had displayed the several sword skills in the Wushuang Sword Manual, Purple Charm, Sword Rainbow, and other sword skills he had created in that special space and time, as well as Star Fire Burning Sun, a seventh-level advanced absolute art created by Jian Wushuang.

He attacked again and again, trying to break through Di Shisan’s hidden sword while fighting against the Emperor 13 Emperor Sword.

Unfortunately, Di Shisan’s hidden sword seemed to be integrated with the entire sword world. This sword technique was almost flawless. Even Starfire Burning Sun could not move the hidden sword, and Jian Wushuang’s other sword techniques could not break it either.

On the other hand, Di Shisan's emperor sword did not seem to be very powerful, but the key was that it was easy for him to use it. With a casual attack, dozens of sword lights and dozens of emperor swords slashed at Jian Wushuang at the same time, which brought great trouble to Jian Wushuang.

There was also the sea of sword essence that was constantly being attacked. During the battle, Di Shisan even performed several other sword skills derived from the sword world, and one of them was extremely powerful, it was not much weaker than Jian Wushuang's Star Fire Burning Sun.

Anyone with a discerning eye could see that Jian Wushuang was at an absolute disadvantage.

It was normal. As long as he could not break the hidden sword, Di Shisan would be invincible from the very beginning.

"As expected of Di Shisan. His self-created sword technique system can be attacked from afar and defended from close range. Moreover, it is impeccable. Even Heavenly Sword Marquis could not do anything against Di Shisan's sword technique in the sword world."

"In fact, Heavenly Sword Marquis' swordsmanship is already very powerful and terrifying, especially that sword that suddenly erupted like a raging fire. Its power is really terrifying and it is so powerful that it is suffocating. However, even that sword can't break through Di Shisan's hidden sword."

"This Di Shisan, I don't know how he created this swordsmanship. It's really too powerful."

The surrounding spectators all praised him.

They could see that Jian Wushuang was at a disadvantage in this battle. However, they did not feel that Jian Wushuang's swordsmanship was weak. It was because Di Shisan's swordsmanship system was too powerful and too abnormal.

Even the Rulers sighed secretly when they saw the scene in front of them.

"It seems that the winner is decided," Xuan Yan said with a smile.

"What a pity." The leader of the Heaven-cleaving Alliance sighed, "Actually, in terms of comprehension of the Sword Dao universe origin, Heavenly Sword Marquis isn't any weaker than Di Shisan. However, in terms of the sword techniques created by both sides, Di Shisan is still slightly stronger."

"If it was a head-on battle, our little friend Heavenly Sword Marquis wouldn't be any weaker than Di Shisan. In fact, he might even be a little stronger. Unfortunately, Di Shisan has already created a complete sword technique system and is almost invincible in the sword world. With the same level of power, our little friend Heavenly Marquis really can't do anything about it." The Temporal Temple Master added.

"It's normal for him to lose. After all, Di Shisan has been passed down since the era of the Seven Star Mysterious Sect. Moreover, Di Shisan has stayed at the level of a Principles Master for a very long time. He has been studying the way of the sword for a very long time. That's why he was able to create this complete sword technique system. As for Heavenly Sword Marquis, the time he has spent practicing is still too short. Moreover, he hasn't grasped the origin of the universe of Sword Dao for too long. He still has a long way to go in terms of sword techniques."

“However, it’s only a matter of time before he surpasses Di Shisan in the future,” the Heaven-cleaving Alliance Master said.

“I hope this battle won’t be a big blow to the Heavenly Sword Marquis,” the Temporal Temple Master sighed.

Among the three Rulers, Xuan Yan was the only one who was better, but the Heaven-cleaving Alliance Master and the Temporal Temple Master felt it was a pity.

They actually hoped that Jian Wushuang could defeat Di Shisan in this battle, but the reality was...

“Jian Wushuang, you can’t break my hidden sword. Admit defeat.”

On the battlefield, Di Shisan stared at Jian Wushuang with a cold expression.

From the beginning to the end of the battle, Di Shisan appeared extremely calm. On the other hand, Jian Wushuang had been forced into a sorry state by Di Shisan’s swordsmanship.

Moreover, Jian Wushuang had never been able to break Di Shisan’s hidden sword. Therefore, in many people’s eyes, the outcome of the battle was already decided.

However, after hearing Di Shisan’s words, Jian Wushuang smiled. “Di Shisan, the swordsmanship system that you created really impressed me and gave me a lot of inspiration. I didn’t expect that swordsmanship could form such a complete system. It could even evolve on its own and complement each other.”

“I have to thank you for teaching me a lesson. However, it’s unlikely that you want me to admit defeat so easily.”

“Oh?” Di Shisan looked at Jian Wushuang in surprise.

Jian Wushuang still did not recognize the current situation. Could it be that he still had some trump cards in sword principle that he had not used?

“Di Shisan, I admit that if I fought you 30 years ago, I would never be your match. But now, I might not be your match.” Jian Wushuang smiled faintly.

“Do you have a stronger sword skill?” Di Shisan’s eyes flashed with a hint of surprise.

Jian Wushuang smiled in tacit agreement.

It was true that the strongest sword skill he had created 30 years ago was Starfire Burning Sun.

However, in the past 30 years, he had been comprehending secret inscriptions under the Heaven Suppression Tablet and had made great progress in sword principle. Therefore, he had made a great breakthrough in sword skill.

Now, he had indeed created a sword art that was far stronger than the spark burning the sun!

...

Chapter 3706: Falling Into the Underworld

“Di Shisan, take this sword of mine.”

Jian Wushuang smiled faintly, and the Blood Mountain Sword in his hand glowed with a faint blood-red light.

He held the Blood Mountain Sword with both hands and raised it high. Suddenly, a large amount of sword principle universe origin seemed to be attracted by it and surged toward him.

Jian Wushuang’s sword was still in the process of brewing.

However, the process of brewing shocked everyone present.

“Does Heavenly Sword Marquis really have a stronger swordsmanship?”

“It seems so.”

“Just looking at the process of brewing, the power of his sword is extraordinary.”

The surrounding spectators were staring at the scene.

As for Di Shisan, his expression was still cold as he stared at Jian Wushuang. “It’s useless. Your comprehension of the universe origin of sword principle is similar to mine. The sword skill that you can create with this level of comprehension is at most at the advanced level of level seven. With this level of sword skill, you won’t be able to break my hidden sword.”

“Oh, really?” Jian Wushuang smiled noncommittally.

Then, the Blood Mountain Sword in his hand finally fell down.

Whoosh!

The sword slashed out, and the void turned into chaos.

There was no sound of explosion or air explosion. At this moment, the sword that Jian Wushuang slashed out did not seem to have any terrifying power.

However...when the divine sword fell, a cold sword light mercilessly cut through the space, mercilessly tearing apart everything in front of it, and mercilessly slashing toward Di Shisan.

If the seventh-level advanced skill, Starfire Burning Sun, which Jian Wushuang had created before, was extremely violent and had a shocking burst of power in an instant, then the sword he was using now was cold and merciless!

This cold and merciless sword seemed to be able to cut through everything in its path.

No one, no matter what, could withstand its sharp edge.

The name of this sword was ‘Fallen Yellow Spring’.

The sword landed on the road to the yellow spring!

This sword should have been performed more appropriately by the Netherworld Divine Sword, but now, because it was only a contest of sword principle, Jian Wushuang could display its tyrannical power with the Blood Mountain Divine Sword.

The onlookers were shocked when they saw the cold and merciless sword light, which seemed to be able to cut through everything.

“What a terrifying sword!”

“This sword is too powerful. Even though it is far away from us, I can still feel the invincible power contained in this sword.”

“This sword is indeed stronger than the sword technique that Heavenly Sword Marquis used previously. I wonder if Di Shisan can block it.”

Everyone’s eyes were filled with anticipation as they stared at the battlefield.

Everyone was staring intently, afraid that they would miss even a single scene.

In the middle of the battlefield, the cold and merciless sword light that was invincible had already appeared in front of Di Shisan.

Di Shisan’s expression did not change at all.

“Hidden sword!”

As Di Shisan’s voice fell, the terrifying vortex-like eye of the wind that was over a thousand meters in diameter appeared once again.

The eye of the wind still contained the power to kill everything. It was enough to neutralize any attack.

Previously, no matter what sword skill Jian Wushuang used, he could not defeat the eye of the wind even with the Star Fire Burning Sun. Instead, the power of the sword skill was completely neutralized by the eye of the wind.

With this move, Di Shisan was almost invincible in the sword world.

Now, Di Shisan was using the same move. The difference was that he was facing Jian Wushuang’s fall of the yellow spring, which could cut through all obstacles in front of him.

Chi!

There was still no loud explosion. The cold and ruthless sword light swept into the center of the eye of the wind, producing only the sound of energy colliding with each other.

Originally, everyone thought that this cold and ruthless sword light should be gradually destroyed by the eye of the wind like before.

However, suddenly...bang!

The entire wind eye suddenly emitted an intense rumbling sound. Immediately, countless sword intent violently rose. This sword intent Vortex Wind Eye also lost its previous balance and directly became chaotic.

At the very center of the wind eye, that icy cold and merciless sword light erupted with a bright light.

Crash! The entire wind eye was completely shattered.

The sword essence in the sky scattered crazily in all directions.

“What?”

Di Shisan finally revealed a look of shock. The confidence in the depths of his heart had disappeared the moment the eye of the storm was shattered.

He had thought that Jian Wushuang’s comprehension of the origin of the universe of sword principle was similar to his, and that the sword skill he could create was at most at the advanced level of level seven. It was not very strong.

It turned out that Jian Wushuang’s sword of the underworld was indeed only at the advanced level of level seven.

However, he had never expected that this sword would directly destroy his hidden sword.

“The universe principles!”

“There is a trace of the aura of the universe principles in this sword!”

Di Shisan’s body trembled and his pupils dilated.

The moment the sword essence wind eye dissipated, he sensed a trace of special aura contained in the cold and ruthless sword light.

Although he had never come into close contact with that extremely special aura, he had at least sensed it before.

It was the aura of the supreme universe principles, which could only be possessed by the universe principles.

There was actually a trace of the aura of the universe principles contained in Jian Wushuang’s swordsmanship?

This was simply incredible.

Compared to Di Shisan’s shock, Jian Wushuang appeared very calm. There was also a faint smile on his face.

“In the past 30 years, I’ve been studying the secret inscription under the Heaven Suppression Tablet. The secret inscription was derived from the universe principles, and the aura of the universe principles was extremely rich. When the universe principles descended, I also came into close contact with the universe principles...because I came into close contact with them and had the opportunity to comprehend them, I was able to grasp a trace of the aura of the universe principles with the help of the universe principles in the secret inscription!”

“Although the aura of the universe principles is very weak and insignificant, it comes from the supreme universe principles. I integrated it into my swordsmanship and created this move.”

“That’s right. Di Shisan’s hidden sword is very impressive. Ordinary Advanced Level Seven Absolute Arts can’t break his hidden sword, but a sword art containing the aura of the universe principles is enough to break his hidden sword.”

Jian Wushuang clenched his hands.

The aura of the universe principles was only a trace of the aura of the universe principles, not the real universe principles.

Under normal circumstances, only supreme experts were qualified to comprehend the universe principles and grasp a trace of the universe principles. But if it was just the aura of the universe principles, a Ruler Realm cultivator...but it can be mastered.

Now, Jian Wushuang had just grasped the breath of the universe principles.

...

Chapter 3707: Victory or Defeat

Chi chi!

After the sword will wind eye was shattered, the cold and merciless sword will wind eye didn't completely disappear. Instead, it carried extraordinary power and directly slashed at Di Shisan's body.

The sword light finally dissipated, but the world completely fell silent.

Around the battlefield, countless experts looked at the scene in front of them, and their eyes flashed with intense shock.

"Di Shisan's hidden sword has been broken?"

"His swordsmanship system has been defeated by Heavenly Sword Marquis?"

"Has he lost?"

A series of shocked voices sounded one after another.

Jian Wushuang stood in the void with a sword in one hand and stared at Di Shisan.

Di Shisan looked at the white mark on his supreme treasure armor with a trace of disbelief in his eyes.

But soon, Di Shisan's expression calmed down. He raised his head again and looked at Jian Wushuang with a rare smile on his face. "Jian Wushuang, you've won this battle."

He had won!

This battle was indeed Jian Wushuang's victory!

Everyone saw that Jian Wushuang's strongest sword attack had directly destroyed Di Shisan's swordsmanship system and slashed at Di Shisan's body.

Although this sword attack did not cause much damage to Di Shisan, it was able to defeat his swordsmanship system. This meant that Jian Wushuang's swordsmanship was stronger than Di Shisan's!

Di Shisan had lost and was completely convinced of his defeat.

“The swordsmanship system you created is indeed very impressive. If I hadn’t had some special opportunities over the years and made great progress in swordsmanship, I would definitely not be your opponent,” Jian Wushuang also praised.

He sincerely praised Di Shisan.

Whether it was his understanding of swordsmanship or the swordsmanship system he created, Di Shisan was indeed amazing.

In particular, the swordsmanship system had given him a lot of inspiration. If he had not been able to infuse a trace of universe principles aura into his swordsmanship by chance, he would not have been able to defeat Di Shisan in swordsmanship.

Therefore, a sword principle expert like Di Shisan was naturally worthy of Jian Wushuang’s respect.

“A loss is a loss. There is no other reason. From today onwards, you are truly the strongest in the Divine Beginning Realm with the strongest sword principle,” Di Shisan said.

Although he had lost, there was not a hint of disappointment in his words. On the contrary, there was a hint of joy in his voice.

It was obvious that he hoped that Jian Wushuang could defeat him in sword principle.

The reason was because he had been invincible in sword principle for a long time.

The so-called loneliness of an expert was precisely because he had always been invincible. That was why he longed for someone to challenge his position and even defeat him in sword principle. However, no one had been able to do so for a long time, because of this, he could not find an opponent in sword principle and felt extremely bored.

But today, someone had done so.

Jian Wushuang had used sword principle and defeated him fair and square.

This actually made him feel a sense of relief and at the same time, a sense of joy from the bottom of his heart.

In addition, there was another reason. It was because Jian Wushuang was carrying the hope of the entire Divine Beginning Realm.

Only Jian Wushuang could free the Divine Beginning Realm from the control of Devil Cloud Star Master, and only he could restore the Divine Beginning Realm to normal operation.

Therefore, Jian Wushuang’s strength was crucial to the Divine Beginning Realm.

Now, seeing that Jian Wushuang’s attainments in sword principle were so high and that he had even incorporated a trace of the universe’s principles into his swordsmanship, Di Shisan was amazed and happy that Jian Wushuang was so strong.

The stronger Jian Wushuang was, the greater the hope of representing the Divine Beginning Realm.

When the surrounding experts heard Di Shisan say that from today onward, Jian Wushuang was the strongest in sword principle in the Divine Beginning Realm, they were all shocked.

Then, countless eyes filled with respect and admiration looked at Jian Wushuang.

In the void next to him, Heaven-cleaving Alliance Master, Temporal Temple Master, and Xuan Yan also rushed over.

“Heavenly Sword Marquis, you are indeed powerful to defeat Di Shisan in sword principle,” Xuan Yan said.

He did not like Jian Wushuang at first, mainly because of Xuan Yi.

However, because of Jian Wushuang’s astonishing strength, he changed his attitude toward Jian Wushuang. Now that Jian Wushuang had defeated Di Shisan in sword principle, even he could not help but exclaim in admiration.

He was well aware of Di Shisan’s attainments in sword principle. Di Shisan’s talent in sword principle had once terrified him.

But now, Jian Wushuang’s talent in sword principle was clearly stronger than Di Shisan’s!

“You’re so young, and you’re only a Principles Master, but you’ve already grasped a trace of the aura of the universe’s principles. This is incredible. Marquis Jian, I look forward to your growth in the future.” The Heaven-cleaving Alliance Master’s eyes flickered with a rich light, he stared at Jian Wushuang.

“You’re welcome.” Jian Wushuang smiled and looked around. “Today’s battle has come to an end. If there’s nothing else, I’ll take my leave.”

Jian Wushuang did not stay any longer.

He had been immersed in studying the first layer of the secret inscription in the Heaven Suppression Tablet. It was only because he had made an agreement with Di Shisan that he stopped the shocking sword principle battle.

But now that the battle was over, he naturally had to return to the Eternal Chaotic World to study the secret inscription in the Heaven Suppression Tablet again.

After all, the secret inscription in the Heaven Suppression Tablet was too profound. Even though it was only the first level, he had not been able to enter the rudiments even after spending 30 years.

After Jian Wushuang left, the spectators also dispersed.

However, after this battle, Jian Wushuang’s title of the strongest sword principle in the Divine Beginning Realm was completely confirmed.

And the original title was Di Shisan’s.

Although Di Shisan was defeated by Jian Wushuang, he did not suffer the slightest blow. On the contrary, because of Jian Wushuang’s last sword strike that carried the aura of universe principles, and because he was defeated by Jian Wushuang in sword principle...it had actually caused a great impact on his heart.

This impact made the bottleneck that he had been stuck at for countless years begin to loosen up.

Di Shisan had also benefited greatly from this battle.

Therefore, after this battle ended, Di Shisan immediately began his closed-door cultivation.

...

In front of the Heaven Suppression Tablet in the Eternal Chaotic World, Jian Wushuang sat down cross-legged again.

"I didn't expect that just a trace of the aura of the universe principles could improve the power of my swordsmanship to a whole new level. I wonder how strong I will be if I really master a trace of the universe principles one day." Jian Wushuang clenched his hands, his eyes flashed sharply.

However, he quickly closed his eyes and began to immerse himself in comprehending the first layer of the secret inscription.

Time passed once again...

Chapter 3708: Red Cloud Mist Tide

In the blink of an eye, 5,000 years had passed since the battle between Jian Wushuang and Di Shisan.

During these 5,000 years, Jian Wushuang had been comprehending the first level of the secret inscription in front of the Heaven Suppression Tablet. During these 5,000 years, the Divine Beginning Realm had been extremely calm. Almost nothing major had happened. The only thing that was more eye-catching was...it was only because of the rise of the Seven Star Mysterious Sect that they had regained their position in the Divine Beginning Realm.

In the universe void, in the star field where the Divine Beginning Realm was located, it was one of the three battlefields, Crimson Stone Mountain!

The vast and boundless blood-red land was like a huge blood-red mouth, devouring everything.

No experts who were adventuring in Crimson Stone Mountain dared to set foot on the blood-red land. They could only stand on the blood-red stones that stood on the blood-red land.

As one of the three great Universe Battlefields, Crimson Stone Mountain was filled with endless dangers and opportunities. Naturally, there were many strong warriors here.

In the core area of Crimson Stone Mountain, two Principles Masters landed on a blood-red rock.

One of them was tall, and the other was short. The Aura on their bodies was not weak, and they had already reached the sixth level of the Void Space Realm.

"Our luck is really bad. We have been here for tens of thousands of years, but we haven't gotten a single true treasure." The taller man curled his lips and said.

"Don't be ungrateful. Although we haven't acquired any universe true treasures of top-tier or higher over the years, we've still acquired a few basic true treasures, and we've even acquired two senior

Rulers. We've already gained quite a bit. If you want to acquire higher-level and more precious true treasures, you can do so, but you'll have to venture deeper," the short old man said.

"Deeper?" The tall man's pupils constricted, but he shook his head. "This is already the core region. If we go any deeper, it'll be too dangerous for both of us."

"It's good that you know." The short old man smiled.

And just as the two of them were casually conversing...

Boom!

The world suddenly shook violently, and the entire Crimson Stone Mountain and the blood-red continent below began to tremble violently.

"What...what's going on?"

"What's going on?"

The tall man and the short old man were both shocked as they looked around at the void in a daze.

Suddenly, bang!

In front of them, somewhere on the blood-red land, there was a loud bang. Following that, the blood-red land exploded, and large patches of blood-red clouds erupted like lava from a volcano, they directly erupted from the exploded land.

The red clouds swept wildly, and their power was earth-shaking.

In the blink of an eye, the majestic red clouds had already arrived in front of the blood stone that the tall man and the short old man were standing in.

"Hurry up and leave!"

The tall man and the short old man were both shocked, and they did not hesitate to burst out with their fastest speed to rush toward the void behind them.

As soon as they left, the vast blood-colored cloud invaded them and completely covered the blood stone they were at earlier.

After it was covered, the blood stone did not change much. However, from within the blood-colored cloud, one could clearly hear the terrifying sound of erosion.

This sound caused the expressions of the tall man and the short old man to change drastically.

However, before the two of them could rejoice that they had escaped a calamity, the blood-colored fog once again swept over.

At the same time, on the blood-colored land not too far away from them, bang!

The same thing happened.

Similarly, it was as if a volcano had erupted from the ground. Large swaths of blood-colored fog erupted from the ground and swept wildly in all directions.

It was not just the area where the tall man and the short old man were located. At this moment, Crimson Stone Mountain was already in the midst of a huge riot.

Deep within Crimson Stone Mountain, in every corner, the blood-colored ground suddenly exploded. Countless blood-colored clouds erupted from within and wildly swept away everything in the surroundings.

The entire Crimson Stone Mountain was like a huge active volcano that had completely erupted.

That power was earth-shattering.

And the countless cultivators who were wandering around Crimson Stone Mountain, after seeing this scene, they were shocked and terrified at first, but very quickly, they turned into joy.

“Red Cloud Mist Tide, this is the Red Cloud Mist Tide!”

“So many blood colored clouds, erupting from underground, engulfing the entire Crimson Stone Mountain, this is the legendary Red Cloud Mist Tide!”

“The Red Cloud Mist Tide has finally appeared again.”

Many cultivators who had been adventuring in the Universe Battlefield for a long time and knew more about it had already understood why there was such a drastic change in Crimson Stone Mountain.

They also understood that the drastic change in Crimson Stone Mountain this time was the legendary Red Cloud Mist Tide!

And the Red Cloud Mist Tide was quite dangerous. To the cultivators who were adventuring on Crimson Stone Mountain, it was definitely on the level of a disaster.

This was because the blood-colored mist that was erupting from underground contained a terrifying erosive power. It was enough to easily corrode all the divine power of the Principles Masters. Therefore, even the Principles Masters., if they were not careful and were completely covered by the blood-colored mist, the chances of them dying were very high.

Therefore, almost all the Principles Masters on Crimson Stone Mountain were frantically fleeing for their lives.

In the depths of Crimson Stone Mountain, the tall man and the short old man who happened to be at the center of the Red Cloud Mist Tide were frantically fleeing. Their hearts were trembling with fear.

“Red Cloud Mist Tide! I didn’t expect that the two of us would actually encounter the Red Cloud Mist Tide. Furthermore, we happened to be right in the middle of it. This time, we’re in big trouble!” The tall man said in a low voice.

“Damn it. Wasn’t the Red Cloud Mist Tide only a short while ago? Why did it erupt again in such a short time?” The short old man cursed in a low voice.

“Who knows? Most people would be extremely happy to see the Red Cloud Mist Tide erupt. I believe that many people in this galaxy would be pleasantly surprised after hearing the news. However, the Red Cloud Mist Tide is a disaster for you and me, who are at the center of the Red Cloud Mist Tide!”

“We have to think of a way to quickly escape from this fog tide. Otherwise, when the fog tide in all directions connects together, the two of us will be dead for sure!” The tall man said.

“Hurry up and escape!”

At this moment, the two of them were frantically fleeing for their lives.

They only wanted to find a gap in the red fog tide in all directions and escape.

However, they didn’t know if they could find that gap or if it was too late.

However, just as they had said, although the two of them were terrified and running for their lives, many experts in this star area became excited after hearing the news of the Red Cloud Mist Tide.

Chapter 3709: Excitement

North Sea Palace.

As one of the top three forces in the entire Starfield, the North Sea Palace knew about the Red Cloud Mist Tide at Crimson Stone Mountain.

In the Grand Palace, almost all the top experts of the North Sea Palace had arrived. Even those who had been adventuring in the three battlefields had their incarnations gathered here.

The three Rulers of the North Sea Palace were seated at the very top.

“It has only been 120 million years since the last time the Red Cloud Mist Tide appeared. It actually appeared again?”

“The time it appeared this time is indeed a bit too early.”

“That’s normal. The Red Cloud Mist Tide didn’t appear at a regular time, and the longest time it appeared was 800 million years ago. This time, it has been 120 million years, which isn’t too short.” “Please reading on >”

The high-level experts of the North Sea Palace were all discussing.

“After the Red Cloud Mist Sea appears, the Red Cloud World should also appear.” A peak level six Principles Master suddenly said.

At the mention of the Red Cloud World, smiles appeared on the faces of the many experts of the North Sea Palace.

Clearly, the reason why they were so excited when they heard that the Red Cloud Mist Sea appeared was because of the Red Cloud World.

At this moment, the Sky Roc Ruler, who was the strongest and had the highest status among the three Rulers, personally spoke out, “After the Red Cloud Sea appears, the Red Cloud World will immediately appear. Every time the Red Cloud World appears, it will be a great opportunity. This time, it will be no exception.”

“Therefore, the experts under the North Sea Palace can make preparations now. In ten days, all of you will follow me to Crimson Stone Mountain. I will personally go to the Red Cloud World this time. Longyuan, you will go with me. As for Xing Kang, you will stay in the North Sea Palace to keep watch.”

.....

Sky Roc Ruler glanced at the two Rulers.

Although they were both Rulers, the two clearly followed Sky Roc Ruler’s lead.

“Yes.” Ruler Longyuan and Ruler Xing Kang both nodded.

Ruler Longyuan’s eyes were clearly filled with a hint of excitement. As for Ruler Xing Kang, although he felt a bit regretful, he didn’t complain.

Ruler Xing Kang was the weakest of the three Rulers in terms of power, after all. It made sense for him to stay behind to keep watch. As for the opportunities within the Red Cloud World, Sky Roc Ruler and Ruler Longyuan would have to fight over them.

Ten days later, the people of the North Sea Palace set off.

...

In the vast void of the universe, a triangular gray palace quietly floated there.

In this palace were Elder Dark Bone and Life Fall King.

Although these two had stayed in this palace for a long time, they knew clearly about the major events that had happened in this star field.

The two had immediately learned of the appearance of the Red Cloud Mist Tide at Crimson Stone Mountain.

“The Red Cloud Mist Tide has appeared. It seems that the Red Cloud World will soon see the light of day again.” Elder Dark Bone laughed calmly.

Elder Dark Bone had lived for an incomparably long time. He was someone who had lived in the same era as the Temporal Temple lord. He had experienced the Red Cloud Mist Tide many times, so he naturally knew of it.

“I’ve heard of the Red Cloud World as well. It is said to be a great opportunity. Many Rulers in this region are extremely excited about this opportunity. They definitely won’t miss it.” Life Fall King said.

“I see.” Elder Dark Bone nodded. He then asked, “Life Fall, you are a Ruler Realm expert as well. This time, the Red Cloud World has appeared. Don’t you want to go take a look and try your luck?”

“Of course I want to go. If I miss such an opportunity, who knows how long it will take next time?” Life Fall King smiled. “Elder Dark Bone, what about you?”

“As for me...” Elder Dark Bone pondered for a moment, then smiled. “I have nothing to do these few years anyway. Let’s go take a look.”

“Then let’s go together.” Life Fall King smiled.

Soon, Elder Dark Bone and Life Fall King headed toward Crimson Stone Mountain.

...

The Star Palace was a fairly famous power in this starfield. There were quite a few cultivators in the Star Palace who had been adventuring within Crimson Stone Mountain.

When the dramatic changes occurred within Crimson Stone Mountain, the Star Palace received the news as well.

Upon receiving the news, Daoist Xuan God immediately summoned the many experts of the highest level of the Star Palace.

Within the towering palace, more than ten figures were seated.

These ten figures were all the most powerful experts of the six realms within the starpalace.

“The appearance of the Red Cloud Mist Tide means that the Red Cloud World will immediately reappear in the mortal world. If any of you are interested in the opportunities within the Red Cloud World, you can head to Crimson Stone Mountain as soon as possible and enter the Red Cloud World to search for opportunities. I have only one request for you.” Daoist Xuan God looked downwards.

“When we arrive at the Red Cloud World, you must unite as much as possible so that we can obtain the greatest benefits for our Star Palace.”

“Yes.”

The ten or so Principles Masters nodded solemnly and quickly left.

After these Principles Masters left...buzz! Buzz! Buzz! Buzz!

Four figures appeared around Daoist Xuan God.

They were Jian Wushuang, the Heaven-cleaving Alliance Master, the Temporal Temple Master, and the Heaven Ancestor.

Among them, Jian Wushuang, the Heaven-cleaving Alliance Master, and the Temporal Temple Master were all in the Divine Beginning Realm. Only their consciousness avatars appeared here.

“Xuan God, why did you summon us here?” The Heaven-cleaving Alliance Master asked.

Jian Wushuang also looked at Daoist Xuan God.

He was meditating under the Heaven Suppression Tablet in the Eternal Chaotic World when Xuan God suddenly sent him a message, asking him to be aware of it.

Xuan God knew that Jian Wushuang had been cultivating all these years. Under normal circumstances, Xuan God would not disturb him unless there was something important.

“Yes, there is. Three days ago, red clouds covered the sky at Crimson Stone Mountain. As expected, the Red Cloud Mist Tide appeared again,” said Xuan God.

“Red Cloud Mist Tide?” Heaven-cleaving Alliance Master and Temporal Temple Master were stunned when they heard this, and then they were pleasantly surprised.

Only Jian Wushuang was puzzled.

He had not cultivated for a long time, and he did not spend much time in the Universe Battlefield. He had never been to Crimson Stone Mountain, so he did not know many things.

He did not know what the so-called Red Cloud Mist Tide was.

Daoist Xuan God, who was standing beside him, naturally noticed Jian Wushuang’s confusion, he could not help laughing and said, “The Red Cloud Mist Tide is a unique phenomenon in Crimson Stone Mountain. When it appears, the red clouds cover the sky and almost cover the entire Crimson Stone Mountain. The terrifying corrosive power contained in the red clouds is enough to easily kill the Principles Master. Therefore, the Red Cloud Mist Tide is equivalent to a disaster for Crimson Stone Mountain.”

This explanation made Jian Wushuang even more confused.

“Since it’s a disaster, why are you so surprised?” Jian Wushuang asked in puzzlement.

...

Chapter 3710: Red Cloud World

“Since it’s a disaster, why are you so surprised?”

Jian Wushuang really did not understand.

Seeing this, Daoist Xuan God and the others looked at each other and smiled.

“My young friend, you may not know this, but the Red Cloud Mist Tide is indeed a disaster for Crimson Stone Mountain. However, under this disaster, there are also huge opportunities,” Daoist Xuan God said with a smile.

“Opportunities?” Jian Wushuang’s expression changed.

“Red Cloud World is one of the biggest opportunities in Crimson Stone Mountain,” Daoist Xuan God said, “every time the Red Cloud Mist Tide appears, the Red Cloud World will reappear in the human world. At that time, all cultivators can enter the Red Cloud World and stay there for 10,000 years.

“And the Red Cloud World is full of endless opportunities and treasures. As long as you are lucky and have a certain strength, you can get these opportunities.

“Since the three great battlefields began to exist in this star area, the Red Cloud World of Crimson Stone Mountain has appeared many times. Under normal circumstances, the Red Cloud Mist Tide will only appear once every several hundred million years. Naturally, the Red Cloud World will only open once every several hundred million years. However, there is no set time. Sometimes, the longest time is eight hundred million years.

“Every time the Red Cloud World opens, countless experts from the various powers in this starfield will go crazy and venture into the Red Cloud World. Of course, many of them have obtained great fortunes there.

“For example, billions of years ago, there was a Ruler of principles. His strength was quite ordinary, but he was lucky enough to obtain a great fortune in the Red Cloud World. After staying in the Red Cloud World for 10,000 years, he immediately reached the Ruleric level. He also had a powerful secret art, and his combat power was comparable to that of top Rulers!

“There’s also someone who got a precious inheritance in the Red Cloud World. From then on, he soared to the sky and reached the top of this star area in just a few hundred thousand years. Then, he went to the depths of the universe to explore.

“Of course, these are all rare opportunities. Not only the Red Cloud World, but many other places in the three battlefields are hiding such great opportunities. However, those great opportunities contain great dangers, while the Red Cloud World is relatively easy to encounter. Moreover, the danger is smaller.

“However, in terms of true treasures...every time the Red Cloud World reappears in the human world, there will be a large number of universe true treasures emerging. For example, top-tier and Pinnacle universe true treasures, be it attack weapons, true treasure armor, domain type, suppression type, flying type, and so on, all of them are available. In addition, there are many of them. Even Supreme universe true treasures...

.....

“Every time the Red Cloud World reappears, during these 10,000 years, there will definitely be supreme universe true treasures emerging, and not just one, but a total of 10. Although most of them are attack weapons, true treasure armor, and other special types of supreme universe true treasures will also be present.

“For example, Heaven Ancestor’s axe, which is a supreme universe true treasure, was obtained from the last time the Red Cloud World appeared,” said Daoist Xuan God with a laugh.

“Haha, I was purely lucky that time. I just happened to come across a supreme universe true treasure appearing, and it just so happened that I could use it.” Heaven Ancestor laughed very proudly.

In terms of power, the heavenly clan was considered quite ordinary among the great beings at the Ruler Realm. Under normal circumstances, a low-level Ruler like him would not be able to use a supreme universe true treasure unless he had the support of a major power, however, the Heaven Ancestor was lucky enough to obtain a suitable giant axe in the Red Cloud World.

Hearing their conversation, Jian Wushuang could not help but feel excited.

As Daoist Xuan God had said, the great opportunities in the Red Cloud World were not very attractive to Jian Wushuang.

After all, those great opportunities were usually only available to those who were truly lucky. Under normal circumstances, it would be considered good enough for one person to obtain such a great opportunity in the Red Cloud World, Jian Wushuang did not think that he would be so lucky.

However, the supreme treasures that were born in the Red Cloud World in the past 10,000 years made Jian Wushuang's heart flutter.

There were a large number of top-tier and peak-tier universe supreme treasures, and even 10 supreme universe Supreme Treasures!

Supreme universe Supreme Treasures, supreme treasures of that level, were enough for experts at the Ruler Realm to fight madly for them.

There were many great beings at the Ruler Realm in this star field, but none of them had a supreme universe true treasure. These Rulers were all eager to get a supreme universe true treasure that was suitable for them, just like Heaven Ancestor.

Normally, they roamed the three battlefields. Although there were many supreme universe true treasures in the three battlefields, only one could be born after a long time, unlike the Red Cloud World. As long as the Red Cloud World was opened...within 10,000 years, no less than 10 supreme universe true treasures would be born.

Who would want to miss such an opportunity?

It was no wonder that the great beings of the various powers in this starfield were so eager to see the Red Cloud World.

It was no wonder that Daoist Xuan God and the others were so excited and surprised.

The Red Cloud World was a great blessing to the Principles Masters of this starfield and the Rulers.

"My young friend, you are no weaker than an advanced Ruler now. However, although you have the Supreme Treasure Divine Sword that you got from the Sky Roc Ruler and the Mountain River Map and the Heaven Suppression Tablet that your master left for you, I'm afraid that you can't control or use them now. The Supreme Treasure Divine Sword is still not enough for you," said Daoist Xuan God.

Jian Wushuang nodded slightly.

He also understood that if he had the Divine Sword of Styx as his most powerful weapon and the map of mountains and rivers, he would be able to master the Heaven Suppression Tablet one day, it was definitely a very rich treasure.

However, his enemy came from the distant Devil Cloud Star, the Star Master.

The Master of the Devil Cloud Star was a Master of a second-level Astral World. He had a lot of resources, so he must have all kinds of treasures. He was much richer than Jian Wushuang.

Therefore, Jian Wushuang must find a way to get more supreme treasures. At the very least, he must have a decent supreme treasure armor?

"It's definitely good news for us that the Red Cloud World has come out at this time. This means that we can get as many supreme treasures for you as possible in the next 10,000 years. When the Master of the Devil Cloud Star arrives, we will have a better chance of winning," said Daoist Xuan God.

Jian Wushuang nodded slightly.

“By the way, Xuan God, there are countless opportunities and treasures in the Red Cloud World. I wonder if there are treasures like the Ice Heart Glazed Jade in the Red Cloud World?” Jian Wushuang asked.
