

## Swordsman 3791

### Chapter 3791: Choice

"Of course, there are too many changes in a battle, and you can't only use one method that consumes divine power. Even if your divine power is hundreds or thousands of times more vast than ordinary cultivators, you can't be so extravagant as to recklessly use this divine power burning secret technique. But no matter what, if you have this divine power burning secret technique, it will be much more convenient than other cultivators."

"Other cultivators, even if they have the divine power burning secret skill, use it as their ultimate trump card to fight for their lives. But you can use it as long as you feel it's necessary. After all, you have a lot of divine power, so it's not a big deal even if you burn 10-20% of it," Lord Wu said.

Jian Wushuang nodded secretly and began to think about it in his heart.

Indeed, compared to ordinary cultivators, he had a huge advantage in divine power.

The divine power burning secret skill could last for a long time even if he burned it at all costs.

With his strength, an ordinary life-and-death battle would not last long. It might even end in an instant. In his hands, the divine power burning secret skill could become a sharp blade, it was also a big trump card, and it could last much longer than ordinary cultivators.

"It's decided. I want the dragon-exterminating secret skill." Jian Wushuang had made up his mind.

After careful consideration, he confirmed that among the 36 secret skills, he could only cultivate more than 10 of them.

Among the 10 secret skills, the dragon-exterminating secret skill should be the most helpful to his strength.

According to Lord Wu, the divine power burning secret skill was extremely rare in the universe. If he missed it this time, he would not know whether he could get another divine power burning secret skill next time.

"Little guy, trust me. You won't regret choosing the dragon-killing secret skill," Lord Wu said with certainty.

Jian Wushuang smiled. Then he received the information of the dragon-killing secret skill according to Lord Wu's instructions.

Although the dragon-killing secret skill was recorded in the token, Jian Wushuang could not take it directly.

Instead, under the guidance of Lord Wu, the information in the token entered his mind and formed a memory.

Soon, the complete information method of the dragon-exterminating secret skill was completely imprinted in Jian Wushuang's mind.

"This dragon-exterminating secret skill is actually so powerful."

After completely receiving the information of the dragon-exterminating secret skill, Jian Wushuang was shocked and overjoyed.

He had thought that the dragon-exterminating secret skill was just a simple method to burn divine power. He did not expect that the dragon-exterminating secret skill could burn divine power in different levels.

The dragon-exterminating secret skill was divided into three volumes.

The first volume could be cultivated by the Principles Master. After burning divine power, one's strength would increase by 100 times.

The second volume could be cultivated by the Ruler. The burning speed of divine power would increase by 10 times, and the strength would increase by 1,000 times.

In the third volume, the burning speed of divine power was increased by a hundred times, and the strength was increased by ten thousand times!

"Terrifying, it's too terrifying!" Jian Wushuang shouted.

At the level of Principles Master, his strength was increased by a hundred times, and at the level of Ruler and Master, it was increased by a thousand times and ten thousand times.

Of course, the burning of divine power could only increase the power. As for his understanding of the Dao and understanding of the universe principles, he had not improved his ultimate moves. Moreover, in the second and third volumes., the burning of divine power would also increase by 10 times or 100 times, which meant that the consumption of divine power was increasing.

Even so, it was still very abnormal.

"I'm now a Principles Master, so I can cultivate the first volume. Once I succeed...my battle strength will be at the level of a Superior Ruler. Once I use the dragon-killing secret skill to increase my power by 100 times, my battle strength will be able to soar to the level of a second-level Ruler. I'm afraid that among the second-level Rulers, I'm not weak, but I'm at the level of an advanced or even Superior Ruler." Jian Wushuang clenched his hands, his eyes were shining brightly.

He felt that as long as he mastered this secret skill, his battle strength would be able to reach a new level.

In the future, even if the Devil Cloud Star Master came to kill him personally, he would be more confident in dealing with him.

"Although this dragon-killing secret skill is powerful, it's not too complicated. You just need to spend some time to master the first volume. Of course, you don't need to cultivate now. After all, this is the Red Cloud World. You Won't encounter any danger here, and you won't be able to use the dragon-killing secret skill in the Second Heaven. So it's not too late for you to cultivate when you leave the Red Cloud World or when you're about to leave," Lord Wu said.

"Yes." Jian Wushuang nodded slightly.

“By the way, Lord Wu, you said that there are many opportunities in the Second Heaven? What opportunities are there?” Jian Wushuang asked.

“The opportunities in the Second Heaven are on this island.” Lord Wu smiled. “Although this island is small, it contains countless opportunities. Some of these opportunities are left behind by experts of the Red Cloud lineage. Of course, most of them come from the outside world and are of a very high level. Of course, your strength is still too weak, and you haven’t even comprehended the universe principles. You can only see a little of the opportunities in the Second Heaven, but even if it’s just a little, it should be of great help to you.”

“For example, the Sword Stone that was born in the First Heaven during the opening of the Red Cloud World...”

“Sword Stone?” Jian Wushuang’s expression changed.

He had studied the Sword Stone in the First Heaven for 5,000 years.

During these 5,000 years, not only had his comprehension of the sword principle origin improved greatly, but he had also perfected his earth protection sword skill.

It could be said that the Sword Stone was very helpful to him, and it contained a total of four sword skills. He had only comprehended one sword skill before comprehending the body-protecting sword skill.

If he was not worried that the Red Cloud World would only open for 10,000 years, he did not want to waste too much time on the Sword Stone. Otherwise, he would have studied the other three sword skills under the Sword Stone.

“Is the Sword Stone related to the Second Heaven?” Jian Wushuang could not help asking.

“Yes.” Lord Wu nodded. “In the First Heaven of the Red Cloud World, there will occasionally be some special opportunities. In fact, these special opportunities do not belong to the First Heaven, but come from the Second Heaven. For example, the Sword Stone comes from the Second Heaven. There is not only one Sword Stone, but a total of 11 Sword Stones. On each Sword Stone, there are four golden characters. Each golden character has a sword skill that has reached the pinnacle of a Ruler.”

Hearing this, Jian Wushuang immediately became excited.

Each of the 11 Sword Stones was engraved with four golden characters. Each golden character contained a swordsmanship that had reached the ultimate level of a Ruler?

...

## **Chapter 3792: Opportunities on the Island**

**Translator: EndlessFantasy Translation Editor: EndlessFantasy Translation**

Jian Wushuang knew very well how strong the swordsmanship in the Sword Stone was.

It was because he had grasped the universe origin of sword principle that he was barely able to observe some of the mysteries and concepts in the swordsmanship. However, what he could see was only the tip of the iceberg.

Even if it was just the tip of the iceberg, it had greatly improved his sword principle and swordsmanship.

And there were 11 Sword Stones like this?

“Those Sword Stones are the most important ones on this island, but they are only one of the many opportunities on this island. They are not the most precious opportunities. As for the other opportunities, you can explore them yourself,” Lord Wu said.

“Lord Wu, how long can I stay on this island?” Jian Wushuang asked.

“It’s up to you. You can stay as long as you want. And even if you leave now, you can come in anytime,” Lord Wu said.

“Great.” Jian Wushuang’s eyes were shining with joy.

“Go.” Lord Wu waved his hand.

ower and kept looking down at everything below.

There were all kinds of opportunities on the island. Jian Wushuang did see some places where opportunities should exist, but he did not stay. Instead, he kept moving forward.

Soon, he came to the center of the island, where he saw the pile of Sword Stones mentioned by Lord Wu.

Sure enough, there were 10 Sword Stones floating calmly in the air.

There were ancient and ethereal golden characters on each Sword Stone.

Each Sword Stone had four golden characters, and each golden character contained an extremely powerful sword skill.

In addition to the Sword Stone that was born in the First Heaven, there were 11 Sword Stones, which added up to a total of 44 heaven-shaking sword skills.

“The Sword Stone that was born in the First Heaven of the Red Cloud World alone is enough to drive many cultivators who are proficient in sword principle crazy, but there are 10 Sword Stones here.” Jian Wushuang smiled, he immediately rushed toward the 10 Sword Stones.

When he came to the Sword Stones and looked at the ancient and elegant golden characters on them, Jian Wushuang did not hesitate and immediately sank his consciousness into them.

In an instant, the golden characters began to evolve into sword skills in his mind.

The world-shaking and terrifying sword skills were continuously practiced in Jian Wushuang’s mind.

“So powerful, so terrifying!”

“These sword skills are simply incredible.”

Jian Wushuang looked at the sword skills that evolved from the golden words.

Without a doubt, these sword skills were not inferior to the four sword skills he had seen on the Sword Stone of the First Heaven.

Even with his current comprehension of the sword principle origin, he could only peek at some of these sword skills.

But even the surface of these skills was enough to shock him.

“This sword skill is as fast as the wind, shaped like fire, and can cause the world to collapse!”

“This sword skill has directly formed a boundless sword principle domain.”

“This sword skill can destroy everything with one strike!”

Jian Wushuang was extremely excited.

He knew very well that any one of the sword skills contained in these ten Sword Stones was unfathomable to him. Even if he studied them for a long time, he could not comprehend 10-20% of the sword skills, let alone so many sword skills, not to mention so many sword skills.

“There’s no rush. There are more opportunities on this island than just this Sword Stone. I’ll go and look for other opportunities first.”

Jian Wushuang took a deep breath and released his consciousness from the Sword Stone. He immediately stood up and flew toward the surrounding void.

On this island, he began to look for other opportunities.

There were many opportunities in the Second Heaven, and they were everywhere. Moreover, they were not hidden. Naturally, it was very easy for him to look for them.

Soon, he found all kinds of opportunities on the island.

...

### **Chapter 3793: Wu God**

“What is this? A vortex?”

Jian Wushuang looked at the huge blood-colored vortex in front of him in surprise.

The blood-colored vortex was thousands of miles wide and looked like an open bloody mouth. It was extremely ferocious and terrifying.

On this island that was only hundreds of thousands of miles wide, the blood-colored vortex that covered thousands of miles was extremely eye-catching.

Besides the Sword Stone, the first place Jian Wushuang found was this blood-colored vortex.

“This vortex doesn’t seem to be dangerous,” Jian Wushuang muttered.

First of all, although the blood-colored vortex looked terrifying, it did not give Jian Wushuang any sense of danger.

Moreover, Lord Wu had said that the Second Heaven only contained opportunities, and there was no danger.

Naturally, he did not need to be too vigilant or worried.

After hesitating for a moment, Jian Wushuang slowly walked toward the core of the vortex. He did not encounter any obstacles,

when he appeared at the core of the blood-red vortex, a huge ancient picture appeared in front of him.

In the picture, a blood-red figure held a saber in one hand.

Suddenly, he swung his saber.

Whoosh!

It was a beautiful and extremely experienced saber move.

Jian Wushuang's mind was instantly attracted by this saber move. At this moment, Jian Wushuang even felt that his entire consciousness and soul were about to be forcefully split apart by this saber move, a monstrous fear involuntarily emerged in his heart.

He was completely stunned and could not move.

He was completely intimidated by the shocking saber in the ancient picture.

It was not until the saber light in the ancient picture completely disappeared that Jian Wushuang managed to recover.

"Terrifying, too terrifying!"

"I've never seen such a terrifying saber."

Jian Wushuang looked at the ancient picture in horror.

In the picture, the blood-red figure had already put away the saber, but Jian Wushuang would never forget the feeling of that moment.

At that moment, it felt as if his soul and consciousness were about to be forcefully split apart.

Without a doubt, it was a shocking move.

"Peerless Saber Skill!"

"The person who used this saber skill must be an expert at the supreme-level!"

"Absolutely!"

Jian Wushuang was absolutely sure.

Although the blood-red figure was not a supreme-level expert, the saber skill he used was definitely at the supreme-level.

“Such a saber technique has a complete ancient picture, and you can even feel the essence and mystery contained in it. Even you will be shocked by it. If an expert who is good at Saber principle were to look at this ancient picture and comprehend it, his understanding of saber principle would definitely improve at an incredible speed, and so would his saber technique.”

“Unfortunately, I’m not good at Saber Principle.” Jian Wushuang shook his head.

Without a doubt, the ancient scene at the core of the blood-red vortex was a great opportunity for any saber principle cultivator.

But for Jian Wushuang, who was good at sword principle, it was not very useful.

Shaking his head, Jian Wushuang walked out of the blood-red vortex and quickly went to another place.

“Hmm, statues?”

Jian Wushuang raised his head and looked at the statues standing side by side in front of him.

There were four statues, each of which was extremely huge and towering, with a height of more than 300 meters.

Jian Wushuang could feel the existence of an extremely dense rule power from the four statues.

“Master, this is the statue of Wu God.” The voice of Devil Flame suddenly sounded in Jian Wushuang’s mind.

“Statue of Wu God?” Jian Wushuang was stunned. “What is Wu God?”

“Wu God is an extremely unique and powerful special life form in the universe. This kind of special life form is very unique. They are born to be favored by the principles of heaven and earth. They don’t need to comprehend the principles of heaven and earth. As long as they grow slowly and reach the peak stage, they will naturally comprehend nine rules and merge all nine rules to become a Ruler at the ultimate level,” Devil Flame said.

“What?” Jian Wushuang was shocked.

He did not need to comprehend the principles. As long as he reached the peak, he would naturally understand the nine principles and fuse them perfectly?

How could there be such a heaven-defying special life form in the Universe?

“No, since it’s a special life form, it should be unique. But you just said that there’s more than one Wu God?” Jian Wushuang frowned.

“Master, you misunderstand. Wu God is just a general name for this kind of special life form. Although they are all Wu Gods, the principles they comprehend and integrate with each other are different. After all, there are many kinds of heaven and earth principles. Even if each Wu God has comprehended and integrated nine principles, it can still create many Wu Gods,” Devil Flame said.

"Is that so?" Jian Wushuang understood.

Yes, they were both gods. One had comprehended the nine rules, while the other had comprehended the other nine rules. Of course, they were different.

"It's because gods are blessed that their divine bodies are so precious. Let alone a complete divine body, even a scale on their body represents the essence of the fusion of the nine rules. Therefore, in the universe, a scale at its peak is extremely valuable."

"Later, some cultivators used the scales of the Wu God to transform them into statues of the Wu God. Although they were statues, they still contained the essence of the fusion of nine principles. Therefore, master, you can see the four statues of the Wu God in front of you now. Each one of them contains a rich power of principles. If you carefully sense them, you can even sense the fusion of nine different principles on each statue of the Wu God."

"Master, you are only at the level of a Principles Master. If you want to break through to become a Ruler, you must understand and integrate more principles. The Wu God statue is of great use to you. Master, you can experience the integration of the nine rules on the Wu God statue. The four Wu God statues represent different principles of heaven and earth. Even the director can experience them," Devil Flame said, he paused.

Jian Wushuang's eyes had already lit up.

"The statue of Wu God...has fused nine different principles perfectly?" Jian Wushuang was excited.

Yes, he had not become a Ruler yet. Even if he had become a Ruler, he would need to fuse more principles of heaven and earth to increase his strength.

However, the statue of Wu God contained the fusion of nine principles. He could even experience the fusion process of the nine rules. It was a rare opportunity for him.

"The statue is of great use to me," Jian Wushuang said in a deep voice.

Although it was of great use, Jian Wushuang was not in a hurry to comprehend it. Instead, he continued to look for other opportunities on the island.

...

## **Chapter 3794: Breaking Through Heaven-Treading Mountain**

??

There were so many opportunities on the island.

Sword Stones, ancient scenes in the blood-red vortex, and the statue of Wu God were just one of them.

Jian Wushuang searched the island and easily found all kinds of opportunities.

In the blink of an eye, three days passed.

Jian Wushuang searched the entire island and found nearly 100 opportunities.

There were all kinds of opportunities.

They were not only for improving one's strength and cultivation, but also for comprehending the principles of the universe, the principles of heaven and earth, and various daos.

There were even opportunities to temper one's consciousness and soul strength.

Many of them were very helpful to Jian Wushuang.

As for sword principle, there were three opportunities on the island that were helpful to the improvement of sword principle, and Sword Stone was just one of them.

"Strange, there are all kinds of opportunities on the island. There are even opportunities to deepen the comprehension of the universe principles, but there are none that can help a cultivator to cross the threshold of the universe principles." Jian Wushuang frowned.

He had to master a trace of the universe principles to pass the test of the Second Heaven.

Therefore, he was naturally eager to find opportunities on the island that could help him master a trace of the universe principles and cross the threshold of the universe principles as soon as possible.

However, Jian Wushuang did not find such opportunities on the island.

On the contrary, there were several opportunities on the island that could help him deepen his understanding of the universe principles.

Reading on Myb o xno vel. com ,Please!

The key point was that Jian Wushuang had not even grasped a trace of the universe principles and had not really stepped into the threshold of the universe principles, so how could he deepen it?

In other words, if an expert had already comprehended the universe principles, he could continue to improve on the island with the help of opportunities, but for a cultivator like Jian Wushuang who had not grasped a trace of the universe principles...he could not find any opportunities on the island that would allow him to grasp a trace of the universe principles as soon as possible.

"If I think about it carefully, maybe Patriarch Red Cloud deliberately arranged it this way," Jian Wushuang muttered.

He understood that for a Principles Master, the test of the Second Heaven was to grasp a trace of the universe principles.

Under this standard, if the island of the Second Heaven still had a shortcut that could allow him to quickly comprehend a trace of the universe principles, then the test of the Second Heaven would be a little too easy.

"Although there are no shortcuts, there are too many opportunities on this island. There are even many opportunities to deepen my understanding of the universe principles. Among these opportunities, I can more or less feel the existence of the universe principles. It's much easier to comprehend it than just relying on myself," Jian Wushuang thought.

"Let's begin to comprehend it."

Jian Wushuang took a deep breath and soon began to cultivate on the island.

Time passed quietly.

Jian Wushuang stayed in the Second Heaven and took advantage of the opportunity on the island to meditate carefully and increase his strength.

However, in the First Heaven, many experts in the Star Field were still crazily fighting for the Supreme Treasures.

As the Supreme Treasures were born one by one, the competition for the Supreme Treasures in the Red Cloud World became more and more intense and crazier.

Especially in the last thousand years, because there were only one thousand years left, there were obviously not many treasures that were born, so the competition became more and more intense.

And in this frenzied competition, the deadline of ten thousand years in Red Cloud World was slowly approaching.

In the blink of an eye, there were only ten years left to the deadline of ten thousand years.

In the last ten years, the first sky of Red Cloud World began to gradually calm down, and the rush for True Treasures had gradually subsided.

Now, most of the cultivators in the first sky had gathered on the Seventh Continent, and they had all come to the foot of Heaven-Treading Mountain.

The Legend of the Red Cloud World had long been known in this Star Field. Everyone knew that Heaven-Treading Mountain was a test. Since it was a test, passing it would naturally bring great benefits. It was precisely because of this...in the last ten years, most of the experts of this Star Field would choose to come to the foot of the Heaven-Treading Mountain to try and pass it.

Although it had been several chaos cycles since the Red Cloud World had appeared in this Star Field, no one had ever set foot on the peak of the Heaven-Treading Mountain. Everyone knew that they had to pass the trial of the Heaven-Treading Mountain, it was virtually impossible, but everyone was still willing to give it a try.

After all, what if their luck was heaven-defying and they passed?

Heaven-Treading Mountain. In a pavilion at the foot of the mountain, a black-robed man was calmly sitting there.

In front of the black-robed man was a densely packed long dragon.

Countless cultivators walked up the stairs to the pavilion and accepted the black-robed man's trial.

After a short moment, the black-clothed man and the purple-clothed youth in front of him opened their eyes at the same time.

The moment they opened their eyes, the purple-clothed youth's face turned slightly pale.

"Weak, truly too weak."

The black-clothed man's expression was cold as he stared at the purple-clothed youth in front of him. "You don't even need me to make a move. Just the divine might alone will crush you. With such strength, you dare to challenge the Heaven-Treading Mountain? Scram!"

The black-robed man did not hold back in his berating.

The purple-robed young man's expression was ugly, but there was nothing he could do.

Just now in the space of consciousness, the black-robed man had indeed not made a move. Just the casual pressure he released was enough to suppress him to the point of kneeling down. Both sides did not even need to make a move before he lost.

There was nothing he could do. The black-robed man was guarding the foot of the mountain. Although this was the simplest stage of Heaven-Treading Mountain, when facing the challenger of a Principles Master, the combat power he unleashed was still at the pinnacle of a Beginner Ruler, his power was also at the elementary Ruler realm, and the divine might of a Ruler was something that an ordinary Principles Master would not be able to withstand.

"Next."

The black-robed man spoke.

Immediately, more people came to challenge him.

"Too weak, too weak!"

"It's been so long, and there are already thousands of people taking the test in front of me. But up until now, I haven't even taken anyone seriously. This Star Field is really trash."

Although the black-clothed man said this, he knew in his heart that this Star Field was not that bad.

At least, not long ago, someone had easily passed through his hands. Moreover, he had received news that that person had passed the test of the Heaven-Treading Mountain and entered the Second Heaven.

In the last ten years of the First Heaven, a large number of cultivators had tried the test of the Heaven-Treading Mountain.

In the end, after five years, not a single person passed the trial at the foot of Heaven-Treading Mountain.

It was not until the sixth year that someone finally passed the trial guarded by the black-clothed man.

This person was a Ruler, Ruler Kun Yu.

A Peak Ruler who had long become famous in this Star Field. It was rumored that he was not the Ruler of this Star Field, but came from another Star Field. It was only because he saw the existence of the three great battlefields in this Star Field...he had always stayed here.

### **Chapter 3795: Had He Reached the Peak?**

??

Ruler Kun Yu was a solitary expert who had never joined any faction before.

Over the years, he had been adventuring in the three battlefields in search of treasures and opportunities, and his strength had been constantly increasing.

There had been rumors that he had fought with the Northern Sea Palace's Sky Roc Ruler, but no one knew who had won.

And today, Ruler Kun Yu had passed the test at the foot of the mountain. It was obvious that he had won that battle back then.

After all, two years ago, Ruler Sky Roc had come to challenge the test at the foot of the mountain. Although he had fought with the black-clothed man for a very long time in the space of consciousness, he had still been unable to defeat the black-clothed man in the end, so he had not been able to pass the test at the foot of the mountain, and since Ruler Kun Yu had passed, it naturally meant that he was stronger than Ruler Sky Roc.

"You're still alright."

The black-robed man looked at Ruler Kun Yu with a faint smile. "You've clearly only fused four principles and are only a first level Ruler. However, your combat power is extremely strong and isn't the slightest bit inferior to a second level Ruler. In fact, even amongst the second level Primary Rulers, you are extremely strong. It seems that amongst the Rulers of this Star Field, your strength should be the strongest."

"Let's go up."

Ruler Kun Yu's face was as cold as an ice mountain.

Upon hearing the black-robed man's words, he nodded slightly, then began to walk up the stairs.

However, the black-robed man once more spoke to everyone present, "Although the standard of your Star Field's cultivators is indeed very low, for two of you to be able to pass through my hands during the opening of the Red Cloud World is already quite impressive."

Ruler Kun Yu's footsteps immediately came to a halt.

The experts present all turned to look at the black-robed man.

"Two people?"

"Aside from Ruler Kun Yu, there's someone else who passed the test at the foot of the mountain?"

Reading on Myb o xno vel. com ,Please!

"Who is that person?"

The sounds of discussion immediately rang out.

Ruler Kun Yu turned to look at the black-robed man as well. "The Principles Master?"

"Yes." The black-clothed man nodded.

He had just said that Ruler Kun Yu should be the strongest expert in the Star Field. If the same Ruler had passed the test at the foot of the mountain, the black-clothed man would not be so sure.

Naturally, it was the master of rules.

After all, the test of Heaven-Treading Mountain varied from person to person. Different levels of cultivation would challenge Heaven-Treading Mountain, and the gatekeepers would show different strengths.

For example, when Jian Wushuang came here to pass the test, the black-clothed man was only at the peak of the Primary Ruler realm.

However, if the Ruler came to pass his test, the battle strength he displayed would be at the peak of the Superior Ruler realm, or even the second level. Fortunately, the battle strength of the Kun Yu Ruler was extremely strong among the second level Primary Rulers, that was how he could pass the test.

Ruler Kun Yu did not stay any longer and continued to walk toward the mountainside.

However, the foot of the mountain was completely in an uproar.

Many cultivators were wildly discussing and guessing.

“Then who is the Principles Master who passed the test at the foot of the mountain before Ruler Kun Yu did?”

“If I’m not mistaken, it should be Blood Sword Master, right?”

“Blood Sword Master?”

“Yes, it’s very likely. Among the Principles Masters in this Star Field, the most powerful ones are Blood Sword Master and Blood Saber Emperor. If that Blood Saber Emperor goes all out, he can barely unleash the battle power of a Primary Ruler. Although he’s very impressive, he’s still far from Blood Sword Master. Blood Sword Master has the battle power of a top Ruler at the level of a Principles Master. With such battle power, it should be very easy for him to pass the test at the foot of the mountain.”

“Yes, I think it’s the Blood Sword Master. I don’t think any other Principles Master could pass the test at the foot of the mountain. The Blood Saber Emperor came here a year ago and failed.”

Most of the cultivators in the Star Field believed that the Principles Master who passed the test at the foot of Heaven-Treading Mountain before the Ruler of the Devil realm was Jian Wushuang.

This was normal. After all, Jian Wushuang had shown his true strength.

The Ruler of the Devil Realm also believed that he had the battle strength of a Superior Ruler.

It was unbelievable that a Principles Master had the battle strength of a Superior Ruler. It was so heaven-defying that the test at the foot of Heaven-Treading Mountain could not stop him.

Now, many cultivators in this Star Field were guessing whether Jian Wushuang had just passed the test at the foot of the mountain, or whether he had also passed the test at the mountainside and even reached the peak, he had gone to the Second Heaven?

Everyone was guessing. Some of them even tried to ask Jian Wushuang’s friends.

For example, some masters asked Daoist Xuan God, Temporal Temple Master, and the others to find out the answer from them.

After all, this was not a trivial matter.

If Jian Wushuang had only passed the test at the foot of the mountain, it would not be a big deal.

Even if he passed the test at the mountainside, although it was amazing, it would not cause too much of a stir. However, if he really stepped on the peak of Heaven-Treading Mountain and went to the Second Heaven...that was something that no one in this Star Field had ever reached in the long years.

The First Heaven of the Red Cloud World contained endless Supreme Treasures, which was enough to drive many cultivators crazy. What was in the Second Heaven?

Almost all the cultivators in this Star Field were full of longing and desire for the Second Heaven, but they just could not go there.

It could be imagined that if the news of Jian Wushuang going to the Second Heaven was confirmed, it would set off a huge wave in this Star Field.

...

"Everyone, another Ruler came to see me. He also asked if the Heavenly Marquis had entered the Second Heaven of the Red Cloud World. According to our agreement, he passed the two tests at the foot of the Heaven-Treading Mountain and the mountainside, but he failed to pass the tests at the peak. Naturally, he could not enter the Second Heaven. Now, he has left the Red Cloud World and is on his way back to our Star Palace."

Daoist Xuan God exchanged messages with Jian Wushuang, Temporal Temple Master, Heaven-cleaving Alliance Master, and the Heaven Ancestor.

"Haha, another one. This must be the eighth Ruler who came to ask you, right?" Temporal Temple Master laughed loudly.

"Not only you, but also quite a few people came to ask you for information," Daoist Xuan God said with a smile.

Jian Wushuang had passed the three tests of Heaven-Treading Mountain and entered the Second Heaven of the Red Cloud World. Naturally, Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and the Heaven Ancestor knew about this, after all, they were on the same side as Jian Wushuang, so he had nothing to hide from them.

After hearing the news, even the four Rulers were excited for half a day.

At the same time, they also learned from Jian Wushuang that he had gained a lot of benefits in the Second Heaven. Even now, he was in the midst of an opportunity, but Jian Wushuang did not tell them what he had gained, they did not ask.

Because they had considered that some people would doubt whether Jian Wushuang had entered the Second Heaven, they had already agreed on the story.

They all said that Jian Wushuang had only passed the test at the foot of the mountain and the mountainside, but he had lost in the test at the peak.

Chapter 3796: 10,000 Years

It could not be helped. If Jian Wushuang was told that he had passed the three trials of Heaven-Treading Mountain and entered the Second Heaven, it would definitely cause a huge wave in this Star Field, moreover, Jian Wushuang would definitely be targeted by many people with ulterior motives. Although Jian Wushuang did not need to fear anything in this Star Field with his current strength, it was still better to be cautious.

Now they said that Jian Wushuang had passed the first two trials of Heaven-Treading Mountain, but it was appropriate for him to be defeated in the third trial, which was the trial at the peak.

After all, until now, no one in this Star Field except Jian Wushuang could pass the trial at the mountainside. Many cultivators in this Star Field, as strong as Ruler Kun Yu, could only struggle a little in the trial at the mountainside, and they could not pass it at all. No one in this Star Field was sure whether there was a third test on the peak.

With Jian Wushuang's heaven-defying strength, it was acceptable for him to pass the test at the foot of the mountain and the mountainside, but he could not pass the test on the peak.

Even if some people still did not believe it, there was no need to explain too much.

"My young friend, the Red Cloud World is about to close again, but you said that you would still stay in the Red Cloud World?" Daoist Xuan God suddenly asked.

"Yes." Jian Wushuang nodded. "The Red Cloud World is not as simple as we thought. After passing the trial of Heaven-Treading Mountain, I am qualified to enter the Red Cloud World at any time. From now on, I can stay in the Second Heaven for a long time to cultivate. Therefore, you two can return to the Star Palace without waiting outside. When you return to the Star Palace, just announce to the public that I am in closed-door cultivation," Jian Wushuang said.

"Okay." Temporal Temple Master nodded.

"In that case, Temporal and I won't wait for you. We'll go back first." The Heaven-cleaving Alliance Master laughed heartily.

The two of them already knew that Jian Wushuang had gone to the Second Heaven, and they did not have the strength to go to the Second Heaven. Therefore, they did not even bother to go to Heaven-Treading Mountain and were ready to leave the Red Cloud World.

"My young friend, how long will you stay in the Red Cloud World?" The Heaven Ancestor suddenly asked.

"I don't know, but I don't think it will take too long." Jian Wushuang said calmly, "By the way, when I return from the Red Cloud World, I will bring a surprise to everyone."

"Surprise?"

Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and the Heaven Ancestor were all surprised.

“Haha, what? Did you not only get an opportunity in the Second Heaven, but also something we can use?” Heaven-cleaving Alliance Master said with a smile.

“Can you bring us some Supreme Treasures from the Second Heaven?” Daoist Xuan God teased.

Jian Wushuang did not say much. After chatting for a while, he ended the communication.

In the Second Heaven, Jian Wushuang put away the transmission token and shook his head with a smile.

“I’m afraid Xuan God and the others don’t know. The surprise I’m going to give them is the strongest Supreme Treasure.” Jian Wushuang smiled slightly.

Lord Wu had promised him that he could pick some Supreme Treasures to bring back before he left.

The Supreme Treasures mentioned by Lord Wu, such as the supreme-grade Supreme Treasures like the Celestial Light Wings, might not be worth his time, but it was obvious that Lord Wu did not care about ordinary Supreme Treasures, he could bring a lot of them back.

After all, Xuan God and the others did not have many Supreme Treasures.

He only needed to bring some Supreme Treasures back and let them use them. Their strength could reach a new level.

The Divine Beginning Realm and Star Palace camp would naturally be stronger.

“Continue to meditate.”

Jian Wushuang soon calmed down and continued to cultivate and meditate with the opportunity on the island of the Second Heaven.

The last ten years in the Red Cloud World soon passed.

During these ten years, there were countless experts who went to Heaven-Treading Mountain. However, except for Jian Wushuang who passed at the beginning and the Ruler Kun Yu who passed later, there was no third person who passed the test at the foot of the mountain in this Star Field, master Kun Yu had only passed the trial at the foot of the mountain, but he was easily defeated by the gatekeeper at the halfway point.

When the last ten years were up, many cultivators of the Red Cloud World left the Red Cloud World. Even if they did not want to leave, they would be sent out by the experts of the Red Cloud World.

The entire Red Cloud World immediately fell silent. It would only reappear in front of the world after hundreds of millions of years when the next Red Cloud fog tide appeared.

At least, most of the cultivators in this Star Field thought so. However, only a few people knew that Jian Wushuang had appeared in the opening of the Red Cloud World. He had directly passed the test of Heaven-Treading Mountain and entered the Second Heaven, and he had been quietly meditating in the Second Heaven all these years.

Time passed quietly like flowing water.

In a flash, the Red Cloud World had been closed for 8,000 years.

Jian Wushuang had come to the Second Heaven about 2,000 years before the Red Cloud World closed.

In other words, he had stayed in the Second Heaven for more than 10,000 years.

Over the past 10,000 years, he had been improving his strength with the help of various opportunities on the island in the Second Heaven.

With the help of these opportunities, he had made great progress.

...

In the Second Heaven, there was an open space on the island that spanned hundreds of thousands of miles. However, there were layers of pale purple restrictions on the open space.

There were nearly 20 layers of restrictions, each of which emitted a sharp aura and was stronger than the last.

Jian Wushuang sat cross-legged in front of the first restriction and closed his eyes slightly.

“Break!”

A soft moan suddenly sounded. A terrifying sword essence suddenly burst out from Jian Wushuang’s body and rushed into the restriction in front of him, rampaging inside the restriction.

Although this was only the first restriction, which was the weakest of all restrictions, it was difficult for even a second-level master to break this restriction.

But now, under the impact of Jian Wushuang’s sword essence, the restriction quickly began to collapse.

After a moment, the first restriction completely disappeared.

“It took me 4,000 years to finally break the first restriction of Sword Principle!” Jian Wushuang opened his eyes, full of surprise and joy.

4,000 years.

That was right, Jian Wushuang had spent 4,000 thoughts on this restriction.

The restriction of sword principle was a great opportunity for sword principle on the island. Each of these restrictions required a certain level of comprehension of sword principle to be able to crack. When Jian Wushuang first arrived at the restriction of sword principle, he could only crack one-tenth of the restriction of sword principle.

Over the past 4,000 years, he had gradually studied and understood it step by step. Finally, he had completely broken the first complete restriction of sword principle. Naturally, his comprehension of sword principle had also been greatly improved.

Chapter 3797: Treasure Selection

“I’ve already broken the first restriction of sword principle. As for the second restriction...”

Jian Wushuang also tried to break the second restriction, but after trying, he shook his head helplessly.

“The second restriction of sword principle is probably ten times more complicated and difficult than the first restriction of sword principle. It’s extremely difficult for me to break the first restriction of sword principle. I don’t know how long it will take to break the second restriction.” Jian Wushuang sighed.

It took him 4,000 years to break the first restriction of sword principle alone.

This was because he had a certain level of comprehension of sword principle origin, so he was able to study it step by step.

The second restriction contained more profound sword principle universe origin, so it was more than ten times more difficult to break. Jian Wushuang was not confident that he could break the second restriction in a short time.

“Forget it. I have benefited a lot from breaking the first restriction of sword principle. As for the second restriction of sword principle, I’ll try it again when I have the chance,” Jian Wushuang murmured.

He had been comprehending and improving his strength through various opportunities on the island for nearly 10,000 years.

After 10,000 years, he had made the greatest progress in sword principle, which was enough to break the first restriction of sword principle.

It must be known that even the restriction of the first layer of Sword Dao was difficult for a second-level Ruler who was proficient in sword dao to break through.

In other words, his current attainments in Sword Dao were no less than that of a third-level Ruler.

This was only in Sword Dao.

As for the principle, he had already completely comprehended the fourth principle, the principles of the Earth. However, he had yet to perfectly fuse it with the other three principles.

Although he was familiar with the integration process of Temporal, reincarnation, destruction and the earth principles under the statue of Wu God, it was obviously not that easy for him to integrate them.

As for the universe principles, he still had not really mastered it. However, the aura of the universe rule he had mastered was getting stronger and stronger.

Jian Wushuang understood that only supreme experts were qualified to comprehend the universe principles. Even a Ruler would find it difficult to comprehend it, let alone a Principles Master.

He could not be anxious. He could only slowly improve and comprehend them.

“After 10,000 years of comprehension, I feel that my strength has reached a bottleneck, especially in sword principle and other principles.” Jian Wushuang frowned.

He had realized that even with the help of many opportunities on the island, his progress was getting slower and slower.

As he said, he had reached a bottleneck.

This kind of bottleneck was not something that could be broken through simply by continuing to meditate here.

It required extremely special conditions, such as Epiphany.

Especially the kind of Epiphany in life and death, which was enough to make a person undergo a qualitative transformation. What Jian Wushuang lacked now was this kind of transformation.

"It's been a long, long time since I've experienced the feeling of life and death." Jian Wushuang shook his head.

There was nothing he could do. As his strength continued to increase, especially his life-saving ability, there was no one in this Star Field who could threaten him.

Even if he was as strong as a Ruler, he could easily crush an ordinary Ruler. Even if he was a Superior Ruler, he would still have to deal with it seriously ten thousand years ago. But now, ten thousand years later, an ordinary Superior Ruler was also a threat to him.

It could be said that he was completely invincible in this Star Field.

Except for some of the most dangerous places in the three battlefields, no one could threaten him. Naturally, no one could force him to the brink of death.

Jian Wushuang carefully recalled that the last time he was on the brink of death was a long time ago, when he had set up an inescapable net to kill him in the three Saint Realms on the Saha Island.

That time, he was indeed on the verge of death.

After that battle, he had never been forced into a desperate situation again.

"Now I understand why the experts in the universe chose to venture into the depths of the universe after being invincible in a Star Field. Indeed, being invincible in a Star Field means that one can no longer experience life-and-death experiences, and their strength will stagnate. Only by constantly taking risks and constantly challenging stronger existences can one's strength continuously increase." Jian Wushuang clenched his hands.

"It's a pity that I have to worry about the Divine Beginning Realm and can't leave freely with the danger of the Devil Cloud Star. However, I should be invincible in this Star Field. In that case, I can only go to the deepest part of the three battlefields where even the Rulers are afraid."

"As for the Red Cloud World...it's time for me to leave."

Jian Wushuang narrowed his eyes and made up his mind.

"Lord Wu," Jian Wushuang said in a clear voice.

Buzz! A figure quickly condensed in the void around Jian Wushuang. It was Lord Wu, who was in charge of everything in the Red Cloud World.

"Little guy, are you ready to leave?" Lord Wu looked at Jian Wushuang.

“Yes.” Jian Wushuang nodded. “My progress on this island is getting slower and slower. Obviously, I have reached a bottleneck, and I can’t comprehend the universe principles in a short time. In that case, it’s useless to stay here. I might as well go to the outside world and look for other opportunities. As for the Second Heaven test, I’ll come back when I have comprehended a trace of the universe principles.”

“Okay, this is the token of the Red Cloud World. Take this token. You can come to the Red Cloud World Anytime in the future.” Lord Wu handed a token to Jian Wushuang.

Jian Wushuang was secretly happy to have obtained the token.

After all, with this token, he could enter the Red Cloud World Anytime in the future. The numerous opportunities in the Second Heaven of the Red Cloud World were very useful to him.

“Besides that, I’ve promised you before that you can choose some useful True Treasures. I’ll let you choose now.” After saying that, Lord Wu waved his hand, and an ancient black tower appeared in his hand, this black tower was divided into three levels, and its structure was very unique.

“The hundreds of millions of True Treasures that the Red Cloud World absorbed before are inside this tower. The tower is divided into three levels. The first level is the most garbage and the lowest level treasures. I can give you hundreds of thousands of such treasures, or even millions of such treasures.

“The second level is for ordinary level treasures, which are the strongest Supreme Treasures in your Star Field. I’ll let you choose one hundred of them.”

“As for the third level, it’s the strongest Supreme Treasure in the same level as your wings. There are only dozens of them left. I can only let you choose one.”

“Are you satisfied?” Lord Wu looked at Jian Wushuang.

Chapter 3798: Shadow Demon Armor

“Yes, of course.” Jian Wushuang nodded without hesitation, but he was ecstatic.

Although the treasures on the first level were trash in Lord Wu’s eyes, many of them were top-tier or even top-tier universe True Treasures. Such True Treasures were enough to drive Principles Masters crazy, some powerful top-tier True Treasures were highly valued by even the Rulers in this Star Field.

As for the second and third floors, there was no need to mention them.

On the second floor, there were Supreme True Treasures. Any one of them was enough to make the Rulers in this Star Field envious and even crazy. However, Lord Wu had promised Jian Wushuang a total of 100 Supreme True Treasures.

On the third floor, there were dozens of Supreme True Treasures that could be compared to one Principles True Treasure. Although Lord Wu had only promised to give him one more, Jian Wushuang was already very satisfied.

“Little guy, you can enter this tower now and choose for yourself.” Lord Wu waved his hand, and the three-story black tower began to enlarge in front of Jian Wushuang, soon it became a towering tower that was a thousand feet tall.

Jian Wushuang did not hesitate and directly entered the tower.

The first floor of the black tower was actually a dark space. Jian Wushuang did not see any Supreme Treasures in this dark space, but there was an extremely detailed list of Supreme Treasures in front of him. This list...the information was too huge.

After all, there were hundreds of millions of Supreme Treasures here. Ordinary people would not record the information of these Supreme Treasures on the list, it was because Lord Wu was too bored in the Red Cloud World that he divided the levels of these Supreme Treasures and recorded the information of these Supreme Treasures.

Of course, the information of these Supreme Treasures was only the simplest kind, which was the name of the Supreme Treasure and the category it belonged to.

Jian Wushuang did not bother to read so much information. He chose a total of 100,000 Supreme Treasures at the level of a pinnacle Supreme Treasure. There were all kinds of Supreme Treasures.

“100,000 Pinnacle True Treasures should be enough,” Jian Wushuang muttered.

Of course, he did not need Pinnacle True Treasures.

But the Divine Beginning Realm could use them.

After all, the Divine Beginning Realm had the potential threat of Devil Cloud Star, and it would not be long before the top experts of Devil Cloud Star felt that the entire Divine Beginning Realm must unite and fight with Devil Cloud Star, at that time, the numerous Principles Masters of the Divine Beginning Realm would also contribute.

And these Pinnacle True Treasures would definitely be of great help to the numerous Principles Masters of the Divine Beginning Realm. At the very least, they would be enough to raise the combat power of these Principles Masters by a large margin.

As for the number of 100,000 True Treasures...although Lord Wu said that he would be able to get hundreds of thousands or even millions of True Treasures, the total number of Principles Masters in the Divine Beginning Realm was estimated to be only a few thousand, there was no need for so many Supreme True Treasures. It was not necessarily a good thing to take too many.

After choosing the first floor, Jian Wushuang quickly went to the second floor.

The Supreme True Treasures on the second floor were all Supreme True Treasures. There were protective armor, Domain Type, Flight Type, Soul Type, and Suppression Type.

Jian Wushuang also began to choose.

The selection of these Supreme True Treasures was mainly for Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and Heaven Ancestor, as well as some Principles Masters who were at the top level of strength in the absolute beginning miracle, for a Ruler, having a few Supreme True Treasures could definitely raise his strength to a whole new level.

Soon, Jian Wushuang had selected the 100 Supreme Treasures. Among them, the most were the offensive magic weapons and body-protection armors, followed by the flying and domain Supreme Treasures. In total, he had selected about 40 Supreme Treasures.

Then, Jian Wushuang entered the third floor of the tower.

He was still in a dark space, and there was still a list of Supreme Treasures in front of him.

However, the number of Supreme Treasures on this list was much less than the first two levels.

There were less than 100 Supreme Treasures on this list, but there was no doubt that each Supreme Treasure on the third level was more valuable than the ordinary Supreme Treasures on the second level.

The only Supreme Treasure on the third level that Jian Wushuang could choose was for himself.

After all, although he had enough True Treasures, there was still room for improvement.

A good True Treasure could also greatly improve his strength. For example, the Celestial Light Wings had greatly increased his strength.

“Although there are not many True Treasures on the third floor, there are all kinds of True Treasures.” Jian Wushuang looked at the information on the list with his eyes shining.

Indeed, some of the Supreme Treasures on the list were very useful to him.

For example, the magic shadow armor that Jian Wushuang saw now.

According to the information on the list, although it was only a protective armor, its value was more valuable than Domain Type and Flight Type Supreme Treasures.

The reason was that the Magic Shadow Armor was a Principles Supreme Treasure. Although it was the lowest level Principles Supreme Treasure, its value was still very important. After several battles, the Magic Shadow Armor became more and more valuable, the Magic Shadow Armor was damaged time and time again, and its power was greatly weakened. Later, it was disintegrated by the bombardment. Later, someone got a piece of the magic shadow armor and refined it again, but the refining level was not good enough, the Magic Shadow Armor had just been reduced from a Principles Supreme Treasure to the strongest Universe Supreme Treasure.

Of course, even though it was no longer a Principles Supreme Treasure, the power of the Magic Shadow Armor was still far above that of ordinary Supreme Treasure Armor. At least, it was much more powerful than Jian Wushuang’s Dark Gold Magic Dragon Armor.

“The Shadow Demon Armor used to be a Principles Supreme Treasure. Even though it’s not as powerful as it used to be after being broken up and refined, it still has the foundation of a Principles Supreme Treasure. No wonder its restrictions are much more precious than the Domain Type and the Flight Type at the same level.” Jian Wushuang sighed secretly.

He considered the Shadow Demon Armor for a while, but he still gave up.

After all, he had the Dark Gold Magic Dragon Armor Now. Although it could not protect him as well as the Shadow Demon Armor, it was not too bad. With his divine body, he could do whatever he wanted in

this star area, he didn't need to pursue a more powerful True Treasure Armor. As for the power of the Shadow Demon Armor, it had to be under certain conditions.

For example, he could barely activate the second level of power of the Dark Gold Magic Dragon Armor, which was 30 percent of the power of the Magic Dragon.

Shadow Demon Armor had the foundation of a Principles True Treasure, so it would be even more difficult to activate its power. It was still unknown whether he could meet the requirements to activate its power.

Chapter 3799: Left

"It would be best if I could choose a divine sword or a Domain Type Supreme Treasure that is more powerful," Jian Wushuang said lightly.

Needless to say, a divine sword.

His Netherworld Divine Sword was the strongest Supreme Treasure. With it in hand, his swordsmanship could be greatly enhanced. If it was a more powerful divine sword, then his swordsmanship would be more powerful, his power could also be enhanced to a certain extent.

As for Domain Type True Treasures, they were also of great use to him.

After all, his Celestial Light Wings had the move of Mystic Light Realm on his wings of Heaven escape, which could be used with Domain Type True Treasures. Previously, he only had a Pinnacle Domain Type True Treasure, Magic Sand Realm, which could be used with Mystic Light Realm, so the power was not ridiculously strong, however, if he had a Domain Type Supreme True Treasure to complement each other, its power would naturally be stronger.

"I've already obtained an ordinary supreme Domain Type True Treasure on the second floor, but it's only an ordinary Domain Type Supreme True Treasure. Perhaps it won't be able to exert its advantage in the domain to the maximum. If it's a supreme-grade supreme Domain Type True Treasure..." Jian Wushuang's eyes widened.

A supreme-grade Supreme Domain Type Supreme Treasure combined with the Mystic Light Realm could suppress even a Ruler at the top of the first level. Even a Ruler at the second level would be greatly suppressed by his domain, even a Ruler at the top of the first level would be greatly suppressed by him.

Moreover, a Supreme Domain Type Supreme Treasure had the advantage of being able to suppress many people at the same time, not just one person.

Jian Wushuang was bound to have a great battle with Devil Cloud Star in the Divine Beginning Realm. If the army of Devil Cloud Star came and suppressed the entire battlefield with a powerful domain technique...it would be enough to increase the chances of the Divine Beginning Realm's camp winning.

"The supreme-grade Supreme True Treasure divine sword might improve my strength, but it won't be as useful as a Domain Type True Treasure in that great battle. If I'm lucky enough to pass the second test of the Red Cloud World, I can choose a Principles Type True Treasure divine sword. A Principles Type True Treasure divine sword is much more powerful than a supreme-grade Supreme True Treasure," Jian Wushuang muttered to himself.

Soon, he made up his mind.

He would choose the supreme-grade Domain Type Supreme Treasure.

There were three supreme-grade Supreme Treasures in the third level. Jian Wushuang quickly picked one of them.

The supreme-grade supreme-grade Supreme Treasure, Triple Magic Light Mirror.

The reason why Jian Wushuang chose this near-Domain Type Supreme Treasure was that the triple magic light mirror was not only useful for one level, but also three levels.

The first level, suppression!

The second level, Impact!

The third level, strangle!

The first level, suppression, was like an ordinary Domain Type True Treasure. It could restrict and suppress the opponent to the greatest extent within the domain, causing the opponent's strength to be greatly reduced. Of course, the strongest Domain Type True Treasure at the supreme level...the suppression effect was definitely much stronger than the ordinary strongest Domain Type True Treasures on the second floor of the tower.

The Second Impact was a large-scale domain impact. Of course, it was different from the normal domain impact. The domain impact of the triple magic light mirror was extremely wide and could cover an area of nearly a million miles.

It should be known that an ordinary Domain Type Supreme Treasure could cover an area of 10,000 miles. For example, some of the most powerful Domain Type Supreme Treasures on the second floor of the tower could only cover an area of about 100,000 miles with their full power, only the triple magic light mirror could cover an area of 1,000,000 miles. During the process, Jian Wushuang's soul power could also cover the beams of magic light.

This was not to be underestimated. One must know that in some special places, the ability of soul perception was greatly limited. For example, in the Red Cloud World, Jian Wushuang's soul perception could only cover an area of 100,000 miles at most, if he were to be trapped in the depths of the three battlefields, in some extremely dangerous places, it was possible for his soul perception to be limited to a range of tens of thousands of miles or even thousands of miles.

Under such circumstances, Jian Wushuang used the realm impact of the Triple Magic Light Mirror with all his strength and covered the magic light with his soul power. With the impact of the Magic Light, he could detect the situation within a range of 1,000,000 miles, this was a very rare use.

As for the third power strangle, it relied on the power of the realm to annihilate the experts who were trapped in the realm.

With Jian Wushuang's current strength, if he used the triple magic light mirror with all his strength, he could easily kill the Principles Masters. Even the weaker Rulers would not be able to last long under his realm, if he used the triple magic light mirror at full strength and only targeted one person, the Superior Rulers would not dare to ignore the strangling power of the domain.

The triple power had three different functions and was extremely powerful.

That was why Jian Wushuang chose the Triple Magic Light Mirror.

After choosing, Jian Wushuang walked out of the tower.

“Lord Wu, this is the Supreme Treasure I picked. Please take a look.” Jian Wushuang handed the list of Supreme Treasures he picked to Lord Wu.

Lord Wu took it and nodded slightly. “You have good taste. The treasures you picked are all of the same level, especially the triple magic light mirror. It has three different functions and is more valuable than other Supreme Treasures. Ten of these treasures together should be comparable to one of the lowest level Principles Supreme Treasures.”

Hearing this, Jian Wushuang’s eyes sparkled with joy.

“Wait a moment.”

Lord Wu had already chosen the treasures for Jian Wushuang according to the list.

Soon, the selection was finished.

“Oh, this is what you want. It’s all in this interspatial ring.” Lord Wu handed an interspatial ring to Jian Wushuang.

After taking it, Jian Wushuang looked at it and became excited.

The interspatial ring contained 100,000 Supreme Treasures, 100 Supreme Treasures, and the three magic light mirrors, the Supreme Realm Supreme Treasure he had chosen from the black tower.

“Little guy, I’ve given you everything. You can leave now.” Lord Wu waved his hand and a complete space passage appeared in front of Jian Wushuang. “I hope you can return here soon and pass the test of the Second Heaven.”

“I will.”

Jian Wushuang nodded and stepped into the space passage. Soon, he disappeared.

Lord Wu looked at the space passage that was slowly closing. He narrowed his eyes and fell into deep thought.

The vast Red Cloud World had finally calmed down.

...

Chapter 3800: Back to the Star Palace

Red Rock Mountain, one of the three great battlefields.

Since the Red Cloud World had closed, Red Rock Mountain had returned to its original appearance. Many cultivators from this star area were still wandering around Red Rock Mountain, hoping to find some opportunities and treasures.

At a certain place in Red Rock Mountain, a vortex suddenly appeared in the center of the blood-red Earth.

The whirlpool grew bigger and bigger, and it became more and more complete, like a space tunnel.

This sudden change immediately attracted the attention of the two Principles Masters nearby.

“What is this?”

“A whirlpool? Could it be that a True Treasure is about to be born?”

The two Principles Masters, one at the pinnacle of the fourth level and the other who had just entered the fifth level, were not very powerful. At that moment, the two of them were standing on a piece of blood stone, looking at the whirlpool that appeared on the ground below with great anticipation.

Crimson Rock Mountain had endless opportunities, and there were many types of True Treasures.

The sudden change in front of their eyes made them subconsciously think that a True Treasure had appeared.

However, as the blood-colored whirlpool gradually completed, there were no True Treasures that extended out from within. Instead, a human figure rose up.

“It’s out.”

A hearty laughter reverberated in the world. This laughter carried a trace of joy.

The two Principles Masters on the blood stone immediately widened their eyes.

“It’s a human? It’s actually a human?”

“This appearance and this terrifying aura...it’s the Blood Sword Master!”

“Blood Sword Master? Didn’t he return to the Star Palace long ago and has been in closed-door cultivation all these years?”

The two Principles Masters looked at each other in dismay. They could see the shock in each other’s eyes.

Back in the Red Cloud World, a large number of cultivators in this Star Field had attempted to challenge the Heaven-Treading Mountain. And as the publicly acknowledged number one genius of this Star Field, the Blood Sword Master, who possessed the battle prowess of a Peak Ruler at the level of a Principles Master...his achievements naturally attracted the attention of many people.

Everyone was speculating whether the Blood Sword Master would be able to pass the test of the Heaven-Treading Mountain.

However, there was no concrete answer. Later, news spread from the Star Palace that the Blood Sword Master had passed the trial at the foot of the mountain and the mountainside, but was defeated in the trial at the peak, after that, he left the Red Cloud World and returned to the Star Palace. He had been in seclusion in the Star Palace for the past few years.

Most people chose to believe the news spread from the Star Palace. There were also a few people who still had doubts.

But whether they believed it or doubted it, the Red Cloud World had been closed, so no one had any thoughts about it.

But now...the two Principles Masters saw Jian Wushuang emerge from the underground of Red Rock Mountain.

Everyone knew that the Red Cloud World was under Red Rock Mountain, but they could not enter it normally.

In other words, Jian Wushuang did not leave the Red Cloud World and return to the Star Palace. He had stayed in the Red Cloud World all these years, and he did not come out of it until today.

There was only one possibility for this, and that was that he passed the test of Heaven-Treading Mountain and went to the legendary Second Heaven.

“He, he really passed the test of Heaven-Treading Mountain?”

“The Red Cloud World has been closed for a long time, but he could stay there. If he didn’t pass the trial of Heaven-Treading Mountain, he would have some special privileges. How could he do that?”

The two Principles Masters secretly sighed. They were ready to immediately tell the news to their forces so that it would be announced to the world.

However, before they could send a message, a ghostly figure suddenly passed between them. Jian Wushuang, who had always been in their eyes, had disappeared.

“I don’t have any enmity with you, but in order to avoid unnecessary trouble, I can only apologize.”

Jian Wushuang’s voice rang in the ears of the two Principles Masters. The two Principles Masters widened their eyes and looked terrified, but their voices had been completely cut off.

Jian Wushuang waved his hand and directly destroyed the divine bodies of the two Principles Masters. After collecting the treasures they left behind, he shook his head gently. “I didn’t expect to meet someone when I came out of the Red Cloud World, just like the last time when I came out of the Life and Death Realm.”

“However...I was too careless in the Life and Death Realm, and I wasn’t that strong back then. That’s why I attracted so much trouble. But this time, there won’t be any trouble.”

Jian Wushuang smiled.

After learning from the Life and Death Realm last time, he immediately killed the two Principles Masters when he came out of the Red Cloud World to make sure that they didn’t have time to spread the news.

“It’s time to go back to Star Palace.”

Jian Wushuang sent a message to Daoist Xuan God, saying that he had come out of the Red Cloud World, and then he directly rushed out of Red Rock Mountain.

...

The place where Jian Wushuang came out of the Red Cloud World was not the deepest part of the Red Cloud World. It was just the periphery. With his current strength, Jian Wushuang could run amok in the periphery of the Red Cloud World, he did not encounter any obstacles along the way. Soon, he left the Red Cloud World and spent some time to return to Star Palace.

When he returned to Star Palace, Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and Heaven Ancestor, who had already received the news, were already waiting for him.

Jian Wushuang sat side by side with Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and Heaven Ancestor in a separate pocket of space time.

"My young friend, you must have gained a lot from the Second Heaven of the Red Cloud World, right?" Daoist Xuan God asked with a smile.

"Yes." Jian Wushuang nodded.

"How's your strength?" The Heaven-cleaving Alliance Master asked.

"It's much better than before. Now I can do whatever I want in this Star Field. Even ordinary Superior Rulers can't do anything to me," Jian Wushuang said with a smile.

He was being modest.
