Chapter 3801: Surprise

“Surprise?” The four Rulers were surprised.

“The surprise is in this interspatial ring. Take a look.” Jian Wushuang took out the interspatial ring.

“Guess what the surprise will be?” Daoist Xuan God smiled and looked at the three people around him.

“In my opinion, it should be one or two Supreme Treasures.” The Heaven Ancestor’s eyes lit up.

“For the Heavenly Marquis to treat it as a pleasant surprise, it must be something that we can use. It’s most likely a Supreme True Treasure, and it might also be a special opportunity,” said the leader of the Heaven-cleaving Alliance.

“Could it be a special treasure comparable to the heaven-subduing stele?” The Temporal Temple Master guessed.

The four of them were chatting and guessing, but their consciousness had already sunk into the cosmos ring. Soon, they swept through the items in the interspatial ring.

Immediately, the eyes of these four Rulers who were absolutely high and mighty in the Divine Beginning Realm widened. Even their mouths could not help but open.

They were completely stunned.

There was nothing they could do. The things in the cosmos ring were really too shocking.

“Supreme Treasures. All of them are Supreme Treasures. Judging from their auras, they are all Pinnacle Supreme Treasures?”

“There are so many Pinnacle True Treasures! There must be tens of thousands of them!”

“No, no! Not only Pinnacle True Treasures! There are also Supreme True Treasures! Look carefully!”

The four of them scanned the ring with their consciousness. Indeed, there were a lot of Pinnacle True Treasures in the ring. There were also some True Treasures that gave off auras that were far superior to those of Pinnacle True Treasures. That unique aura...it was something that only a Supreme True Treasure could possess.

“It’s a Supreme True Treasure, and there are more than one or two of them. There must be dozens of them, right?”

“How is that possible?”

“This, this...”

“How can there be so many Supreme True Treasures and Pinnacle True Treasures?”

The four Rulers were all shocked.

Pinnacle True Treasures were considered extremely precious in this Star Field, and even Rulers would attach great importance to them. After all, it was very rare for Principles Masters to have Pinnacle True

Treasures in this Star Field, most Rulers only used Pinnacle True Treasures, and many did not have a Supreme True Treasure in their hands.

As for Supreme True Treasures, there was no need to mention them. Any one of them was enough to make Rulers envious and even go crazy. It was as crazy as the fight in the Red Cloud World, and those Rulers were so eager, they wanted to get the Supreme True Treasures that were born in the Red Cloud World.

Since Jian Wushuang said that he had brought them a surprise, the four of them guessed that Jian Wushuang's surprise might be a Supreme True Treasure.

If there were only a few Pinnacle True Treasures or two or three Supreme True Treasures in the interspatial ring, they would not be so surprised.

However, the key point was that there were tens of thousands of Pinnacle True Treasures in the interspatial ring.

There were also dozens of Supreme True Treasures.

With so many Supreme True Treasures, how could they not be excited?

"Heavenly Marquis!"

"Heavenly Sword Marquis!"

The four Rulers looked at Jian Wushuang with burning eyes.

"Heavenly Marquis, how many Supreme True Treasures and Supreme True Treasures are there in the interspatial ring?" Temporal Temple Master asked excitedly.

"There are 100,000 pinnacle treasures in total. As for Supreme Treasures, there are 100 of them," Jian Wushuang said with a smile.

"100,000 Pinnacle Treasures and 100 Supreme Treasures?" The four Rulers were a little confused.

They were really shocked by the number, and it took them a long time to come back to their senses.

"My Heavenly Marquis friend, what's going on? What great opportunity did you get in the Second Heaven of Earth in the Red Cloud World?" Daoist Xuan God asked.

"Well..." Jian Wushuang shook his head and smiled. "I can only say that there is a great opportunity in the Red Cloud World, but I can't tell you what it is because of some special relationships. However, I can tell you the origin of these Supreme Treasures. They are all Supreme Treasures in the Red Cloud World, and only a small part of them."

"A small part?" The four Rulers were stunned.

"You know that every time the Red Cloud World is opened, a large number of True Treasures will be born. The Red Cloud World has been born many times, but there are still countless True Treasures each time. This is mainly because there is a huge True Treasure vault in the Red Cloud World. There are hundreds of millions of True Treasures there, and there are also many Supreme True Treasures," Jian Wushuang said.

As soon as he finished speaking, he heard the four Rulers throbbing their throats.

Jian Wushuang was not surprised by this.

Even he was shocked when he heard Lord Wu mention the Supreme Treasures in the Red Cloud World. However, when he learned about the existence of the Principles Supreme Treasures, he gradually understood.

“These hundreds of millions of Supreme Treasures are incredible to our Star Field. However, the Red Cloud World has a huge history, so these Supreme Treasures are nothing to the Red Cloud World. I passed the test of Heaven-Treading Mountain, so the lord in charge of the Red Cloud World asked me to enter the treasure vault to pick out the Supreme Treasures. He gave me the authority to pick out 100 Supreme Treasures. As for the Pinnacle Supreme Treasures, he didn’t have too many restrictions. If I want them, I can even pick out hundreds of thousands of pinnacle Supreme Treasures.”

“However, I thought it might not be a good thing if there were too many Supreme Treasures, so I chose 100,000 of them. As for your 100 Supreme Treasures, I chose them carefully,” Jian Wushuang said with a smile.

The faces of the four Rulers in front of them had long turned red, and they were breathing heavily. It was obvious that Jian Wushuang had given them a big surprise.

However, the four Rulers had experienced many storms, so they soon calmed down.

“My young friend, you’ve really given us a big surprise this time,” Daoist Xuan God praised.

“Indeed.” Temporal Temple Master nodded. “100,000 Supreme True Treasures and 100 Supreme True Treasures. There are all kinds of Supreme True Treasures, and there are so many of them. If this batch of Supreme True Treasures is taken out, it will definitely cause a huge wave in this Star Field. Countless Rulers will probably go crazy because of it.”

“If we had known that you could get so many Supreme True Treasures after passing through Heaven-Treading Mountain, we wouldn’t have risked our lives to kill Pupil Master for a Supreme True Treasure Armor.” Heaven-cleaving Alliance Master curled his lips and said.

“Haha...” Jian Wushuang also smiled.

“By the way, my young friend, how do you plan to distribute these Supreme True Treasures?” Daoist Xuan God looked at him.

“I have already thought about how to distribute them on the way back.” Jian Wushuang became serious.

Chapter 3802: Decision

“I brought these Supreme Treasures back from the Red Cloud World. No one knows about them except us, so I’m not stupid enough to make them public. Although I prepared these Supreme Treasures for the war between the Divine Beginning Realm and the Devil Cloud Star in the future, and I will certainly distribute them to the Principles Masters participating in the war to enhance their strength, the war hasn’t started yet, so there’s no need to distribute them now.”

“So, except for the four of you, each of you can choose a few Supreme True Treasures that are suitable for your use. The rest of the Supreme True Treasures will be kept in the Star Palace by you, Xuan God. You can take them out when the war starts,” Jian Wushuang said.

“Well, the war hasn’t started yet. We don’t need to expose the existence of these Supreme True Treasures. This way, we can have more trump cards when the war with the Devil Cloud Star begins. I even suggest that we don’t need to choose too many Supreme True Treasures for now. At most, we can choose one or two Supreme True Treasures that can save our lives,” Temporal Temple Master said.

“I agree.”

“I agree as well.”

The leader of the Heaven-cleaving Alliance and the Heaven Ancestor both nodded repeatedly.

“My young friend, Heavenly Marquis, you want me to take care of this batch of Supreme Treasures?”

Daoist Xuan God frowned. “Although I am the palace lord of the Star Palace, and I spend most of my time within the Star Palace, although I won’t encounter any danger, there’s always a chance. I feel that it’s best for you to keep this batch of Supreme Treasures by your side. After all, your power is there. In this Star Field, no one can do anything to you. Naturally, no one will be able to snatch this batch of Supreme Treasures away from you.”

“Yes, Heavenly Marquis, it’s better for you to take care of this batch of treasures,” the Heaven-cleaving Alliance Master said.

“Everyone, there’s another reason why I want Xuan God to take care of this batch of treasures,” Jian Wushuang said.

“Oh, what is it?” The four Rulers looked at him.

“To tell you the truth, I got a great opportunity in the Second Heaven of the Red Cloud World. Although my strength has improved a lot, my strength has reached a bottleneck. If I want to improve a lot more, I can’t just blindly meditate. I have to go through life-and-death experiences. Therefore, I’ve decided to explore the depths of the three battlefields.”

“In the depths of the three battlefields, there are many dangers. I can’t guarantee my safety, so it’s better to leave these treasures in Star Palace,” Jian Wushuang said.

“Is that so?”

The four Rulers nodded.

They were all Rulers and top experts in this Star Field. They knew that a cultivator was stuck in a bottleneck and it was very difficult to break through.

Without a doubt, it was the easiest way to break through a bottleneck.

They could understand why Jian Wushuang chose to explore some dangerous places at this time.

"In that case, I'll keep this batch of Supreme Treasures for now." Daoist Xuan God nodded, then he asked, "By the way, my young friend, there are many dangerous places in the depths of the three battlefields. Where are you going to explore?"

"I've already thought of going to the Dark Magic Region," Jian Wushuang said.

"What?"

The four Rulers were all shocked.

"Heavenly Sword Marquis, are you going to the Dark Magic Region?" The Heaven-cleaving Alliance Master exclaimed, his expression becoming extremely solemn.

"My young friend, don't be rash," Daoist Xuan God said immediately. "The Dark Magic Region is one of the most dangerous places in the depths of Devil Smoke Valley. In terms of danger, it's not much worse than the Life and Death Realm. Even a Superior Ruler is afraid of the Dark Magic Region and doesn't dare to go there. Although your strength is comparable to a Superior Ruler, it's still too dangerous for you to go there."

"Right." The Temporal Temple Master nodded solemnly. "Although the Dark Magic Region can be considered a known region, very few people in this Star Field know what dangers lie within it. Our Star Palace knows nothing about the Dark Magic Region, but we know very well that without the power of a Supreme Ruler, anyone who enters the Dark Magic Region will die!"

"Even a Superior Ruler has a high chance of dying once they enter the Dark Magic Region. From several eras ago until now, there have been 18 recorded Superior Rulers who have entered the Dark Magic Region. Only three of them survived, while the other 15 died in the Dark Magic Region."

"The survival rate is less than 20%. It's too low!"

When Jian Wushuang said that he wanted to explore the Dark Magic Region, the four Rulers objected.

Of course, it was normal for them to object.

The Dark Magic Region was located in the depths of Devil Smoke Valley. It was a forbidden area that many cultivators in the Star Field did not dare to set foot in.

In a few epochs, a total of 18 Superior Rulers entered the Dark Magic Region to explore, but only three of them came out alive. The terrifying probability of death was enough to scare people.

Moreover, even the three Superior Rulers who had escaped from the Dark Magic Region were unwilling to talk about anything in the Dark Magic Region and strictly ordered their experts not to venture into the Dark Magic Region, obviously, they were frightened by what had happened in the Dark Magic Region.

Such a terrifying place had even frightened the Superior Rulers. They were naturally worried that Jian Wushuang would also meet with misfortune if he ventured into the Dark Magic Region.

"Gentlemen, I've made up my mind."

Jian Wushuang looked around at the four Rulers with a faint smile. "Perhaps the Dark Magic Region is indeed very dangerous. Even a Superior Ruler has less than a 20% chance of surviving there. It's a

narrow escape. But what I need now is precisely such danger. After all, my life-saving ability has long surpassed most of the Superior Rulers. In addition, I have many skills that are far superior to ordinary Superior Rulers. If I were in other places, it would be difficult for me to gain life-and-death experience.”

“Even so, you can’t choose the Dark Magic Region directly. You can choose a less threatening place, such as the Bone Forest and the Emperor Evil Island. These places can also be very useful for a Superior Ruler,” Daoist Xuan God said.

Jian Wushuang just smiled and said nothing.

The Bone Forest and the Emperor Evil Island were indeed dangerous places. A Superior Ruler only had a 50-60% chance of surviving.

However, after 10,000 years of cultivation in the Second Heaven of the Red Cloud World, Jian Wushuang’s strength had long surpassed that of an ordinary Superior Ruler. In terms of life-saving ability, those Superior Rulers were far inferior to him, not to mention all kinds of Supreme Treasures and means.

It was precisely because he was now strong and his life-saving ability was heaven-defying that he was so confident.

Places like the Bone Forest and the Emperor Evil Island were not too challenging for him. If he wanted to experience life-and-death experiences, he could only go to the Dark Magic Region, where he had a slim chance of survival.

Chapter 3803: There Was No Other Choice

Daoist Xuan God and the others still wanted to persuade him, but Jian Wushuang did not listen to them. They were helpless.

“Well, since you’ve made your decision, we won’t stop you. But when you get to the Dark Magic Region, you must be careful and come back alive,” Daoist Xuan God said solemnly.

“Of course, I don’t intend to lose my life there.” Jian Wushuang smiled.

“My young friend, when do you plan to leave?” Temporal Temple Master looked at him.

“I’ll go back to the Divine Beginning Realm first. I think I’ll leave in about a dozen years,” Jian Wushuang said.

“A dozen years?” Temporal Temple Master’s expression changed. “Okay. In these ten years, we’ll try our best to gather some information about the Dark Magic Region for you. After all, there were three Superior Rulers who came out alive. They must know something about the dangers in the Dark Magic Region. Although the three Superior Rulers have left this Star Field long ago, they might have left some information behind.”

“Well, it would be best if I could get some information about the Dark Magic Region.” Jian Wushuang nodded. “In that case, I’ll go back to the Divine Beginning Realm first.”

After saying that, Jian Wushuang turned around and left.

After Jian Wushuang left, Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and Heaven Ancestor all looked unhappy.

"I still don't want him to go to the Dark Magic Region. After all, it's too dangerous there," Daoist Xuan God said.

"I don't agree with him, but what can we do if he insists?" Heaven-cleaving Alliance Master spread out his hands.

"Heaven Marquis is fighting," Temporal Temple Master suddenly said seriously.

"Fighting?" Daoist Xuan God, Heaven-cleaving Alliance Master, and Heaven Ancestor all looked over.

"The situation in our Divine Beginning Realm is extremely dire. It won't be long before Devil Cloud Star Master and the experts under his command arrive. Given the current strength of our Divine Beginning Realm, it will be very difficult for us to fight against him. Thus, the best way to change the situation and turn the situation around is for our heavenly marquis friend to break through to become a Ruler and then seize the Divine Beginning Realm. As long as he takes over the Divine Beginning Realm, we will truly be able to rest easy."

"However, it's obvious that our heavenly marquis friend is still a distance away from the Ruler realm. He has even reached a bottleneck. Under normal circumstances, he wouldn't need to be in such a rush. In the future, he would slowly think of a way to break through. However, the situation in the Divine Beginning Realm is too tense, so he has no choice but to go all out!"

"He has to take the risk for the sake of our Divine Beginning Realm." The palace master's voice was deep.

The other three Rulers were also stunned by Temporal Temple Master's words.

They immediately understood.

Indeed, if it was not necessary, who would be willing to take the risk in the Dark Magic Region, where even the top Rulers had a slim chance of survival?

Even if Jian Wushuang encountered a bottleneck, he could slowly find a chance to break through it in the future. As long as he had enough time, it would be enough.

Jian Wushuang had just cultivated for a long time, so he had plenty of time.

But why was he in such a hurry to venture into the Dark Magic Region? It was because the Divine Beginning Realm was in a very critical situation, and it would not be long before many experts from the magic cloud planet would come to kill him.

He could not wait, and he had no choice.

He could only take risks, and he could only risk his life for the Divine Beginning Realm.

After understanding this, the four Rulers present could not help but feel a trace of admiration.

To them, Jian Wushuang could only be considered a junior. After all, Jian Wushuang's master, Xuan Yi, was a good friend from the same era as them, but he was such a junior, at this moment, they all felt admiration.

This admiration was not only in terms of strength, but also in terms of character and responsibility.

The responsibility and burden on Jian Wushuang's shoulders were indeed too heavy. The life and death of the entire Divine Beginning Realm was above him.

Under such pressure, Jian Wushuang did not have any intention of retreating. Instead, he tried his best to find life for the Divine Beginning Realm.

He had brought out so many Supreme Treasures from the Red Cloud World, which were prepared for the cultivators of the Divine Beginning Realm.

He had gone to the Dark Magic Region to fight for a greater opportunity for the Divine Beginning Realm.

Unknowingly, the four Rulers' impression of Jian Wushuang had become extremely lofty.

Perhaps Jian Wushuang was still very young, but he was definitely a towering tree in the Divine Beginning Realm.

...

The Divine Beginning Realm.

After Jian Wushuang returned, he first went to meet his parents and relatives to understand the situation of the cultivators from the eternal chaotic world in the Divine Beginning Realm. Then, he directly entered his secret realm of heaven and earth, that was the eternal chaotic world.

Under the huge ancient battlefield, a towering stone tablet was still standing there quietly.

"Devil Flame, you were an ultimate Chaos Ruler and have explored the depths of the universe. You have good knowledge. Can you see what level the stone tablet in front of me is?" Jian Wushuang asked.

Although Devil Flame's soul was in the Blood-Red Gourd, he could still see what was happening in the outside world.

"This is...the Heaven Suppression Tablet?" Devil Flame's voice was obviously a little shocked.

"Do you know it?" Jian Wushuang's eyes lit up.

"Of course I know it. This is the Heaven Suppression Tablet. It's very famous even in the vast universe," Devil Flame said.

"It's very famous in the vast universe?" Jian Wushuang's eyes lit up, and he became excited. "Is the Heaven Suppression Tablet the most powerful treasure or a Principles Treasure?"

This was Jian Wushuang's concern.

Although he guessed that the Heaven Suppression Tablet was a Principles Treasure, he was not sure.

“Well...” Devil Flame pondered for a moment and said, “The Heaven Suppression Tablet is indeed a Principles Treasure, but it’s a special Principles Treasure.”

“Special?” Jian Wushuang’s expression changed. “How special?”

“Master, since you have a Heaven Suppression Tablet, you should know that there is more than one, right?” Devil Flame asked.

“I know that.” Jian Wushuang nodded. “I heard from Xuan God that there are nine Heaven Suppression Tablets. In the Quicksand Demon Realm, three Heaven Suppression Tablets appeared at the same time. The one in front of me is one of the three Heaven Suppression Tablets that appeared in the Quicksand Demon Realm.”

“Nine?” Devil Flame smiled. “It seems that the information master received is not comprehensive. In fact, there are not only nine Heaven Suppression Tablets, but many.”

“Many? What do you mean?” Jian Wushuang frowned.

The rarer something was, the more valuable it was. Nine Heaven Suppression Tablets had already made the Heaven Suppression Tablets less valuable, but now Devil Flame told him that there were many Heaven Suppression Tablets?

Chapter 3804: The Origin of the Heaven Suppression Tablet

“This has something to do with the origin of the Heaven Suppression Tablet.”

Devil Flame began to explain.

“First of all, this Heaven Suppression Tablet is undoubtedly a Principles Treasure, and it’s a Suppression Type Principles Treasure. However, in terms of pure power, it’s slightly weaker than a normal Suppression Type Principles Treasure. However, in the vast universe, the value of a Heaven Suppression Tablet is definitely not lower than a normal Suppression Type Principles Treasure. In fact, it’s even much higher.”

“That’s because the Heaven Suppression Tablet involves a powerful magic array.”

“Magic array?” Jian Wushuang raised his eyebrows.

“Yes, it’s a magic array created by a supreme expert who has reached the top level. That supreme expert is not only ridiculously strong, but also extremely skilled in the Dao of magic array. Among the countless cultivators in the Dao of Magic Array in the vast universe, he can definitely rank in the top ten!”

“The formation created by such a super great being is naturally ridiculously powerful. However, although this formation is powerful, it requires a special Principles Treasure as the foundation of the formation to be able to be used. And since it’s a special Principles Treasure, it’s naturally different from ordinary Principles Treasures. Therefore, this Supreme Being spent a lot of time and energy to refine an incomparably special Principles Treasure, which is this Heaven Suppression Tablet!”

“The Heaven Suppression Tablet is the only Principles Treasure that can perfectly display the power of the formation. The Supreme Being refined a total of 108 Heaven Suppression Tablets. Using these 108 Heaven Suppression Tablets as the foundation of the formation, he can display the strongest power of

the formation. With this formation, the Supreme Being became a Universe Overlord and was invincible among the Supreme Beings!”

Hearing this, Jian Wushuang could not help being shocked.

Universe Overlord, invincible among Supreme Beings?

Was Supreme Being Ling Yun also not a Universe Overlord, and was also known as invincible among Supreme Beings?

For example, the Master of Red Cloud World, Patriarch Red Cloud, was a top-notch Supreme Being, but he was still inferior to that kind of Supreme Being, Invincible Universe Overlord.

“Of course, the universe is vast. Even the Invincible Universe Overlords have the possibility of dying. The Supreme Being who created the formation died in the end. Although he died, his formation and those heaven-suppressing monoliths were left behind. Furthermore, the later generations of experts who were proficient in formations broke the formation he created and evolved into the four levels of this formation.”

“The first level requires only three Heaven Suppression Tablets.”

“The second level requires nine Heaven Suppression Tablets.”

“The third level requires a total of 36 Heaven Suppression Tablets.”

“As for the fourth level, it requires the collection of 108 Heaven Suppression Tablets, which is the strongest power of the formation.”

“The 108 Heaven Suppression Tablets have long been scattered throughout the universe. Later, some experts obtained the formation, so they paid a great price and hired people to refine more Heaven Suppression Tablets based on the Heaven Suppression Tablets. That’s why I said there are many Heaven Suppression Tablets, but the exact number is unknown.”

“Is that so?” Jian Wushuang understood.

It turned out that the Heaven Suppression Tablet was the foundation of a powerful magic array. No wonder there were so many of them, and they were extremely precious.

“Master, you received information that there were nine Heaven Suppression Tablets. Maybe it was left behind by an expert who had gathered nine Heaven Suppression Tablets. This expert had gathered nine Heaven Suppression Tablets, so this is the information you received,” Devil Flame said.

Jian Wushuang nodded slightly.

According to Devil Flame, the formation created by the Supreme Being had been passed down in the universe. Many people in the universe must have obtained the formation, even if they did not obtain all four layers, however, it was possible to obtain the first and second layers.

After the experts in the universe had obtained the formation, they would naturally try to collect the Heaven Suppression Tablets. Some had collected three, while others had collected nine. It was normal for them to use different powers of the formation.

“Devil Flame, although the Heaven Suppression Tablet is mainly used for the array, it is a Principles Supreme Treasure. Even if there is only one, it should be quite powerful, right?” Jian Wushuang asked.

“Of course.” Devil Flame nodded. “A single Heaven Suppression Tablet is not as powerful as an ordinary Suppression Type Supreme Treasure, but it is a Principles Supreme Treasure, and it is also a Suppression Type Supreme Treasure. Its power is naturally not ordinary. As far as I know, if a single Heaven Suppression Tablet is used as an attack, its pure material attack can barely approach an ordinary attack type Principles Supreme Treasure. As for the suppression effect, of course, it is much more powerful than an ordinary Universe Supreme Treasure.”

Hearing this, Jian Wushuang’s eyes lit up.

He was worried that even if he could obtain a Heaven Suppression Tablet, it would not increase his battle strength by much. It seemed that he was thinking too much.

For example, his master’s battle strength was only that of a Primary Ruler. However, after he mastered the Heaven Suppression Tablet, his battle strength increased by leaps and bounds, and he could rival a Superior Ruler. The Heaven Suppression Tablet had obviously improved his battle strength greatly.

“I’ve made great progress in the Red Cloud World, and my grasp of the aura of the universe principles is much higher than before. I wonder how far I am from fully comprehending the first level of the secret pattern of the Heaven Suppression Tablet,” Jian Wushuang muttered.

There were three levels of secret pattern of the Heaven Suppression Tablet. As long as he fully comprehended the first level of secret pattern, he should be able to use it.

Previously, Jian Wushuang had spent 5,000 years comprehending the Heaven Suppression Tablet, but he had barely comprehended 20-30% of the first layer of secret patterns.

Now that he had returned from the Red Cloud World, he should be able to comprehend more secret patterns.

Sure enough, as Jian Wushuang comprehended, he found that he was very familiar with many things in the first layer of secret patterns.

Half a day later, Jian Wushuang opened his eyes again.

“50%. After over 10,000 years of comprehension in the Red Cloud World, I have comprehended 50% of the first layer of the secret inscription of the Heaven Suppression Tablet. But why do I feel that the remaining 50% is much more difficult than the previous one?” Jian Wushuang frowned.

“Master, if you want to master the Heaven Suppression Tablet now, I’m afraid it will be very difficult.” Devil Flame’s voice sounded again.

“Why?” Jian Wushuang asked.

“Master, if it’s an ordinary Principles Treasure, you can use it now. Although it’s difficult to fully display the power of the Principles Treasure, at least it can be used. But the Heaven Suppression Tablet is different. It contains extremely special mysteries. I once got a Heaven Suppression Tablet at my peak, but I sold it. But I know very well that the threshold of the Heaven Suppression Tablet is very high. Just to use it, you must comprehend a trace of the universe’s principles,” Devil Flame said seriously.

...

Chapter 3805: Divine Power Control

"It's simple and practical, but I have to comprehend a trace of the universe principles?" Jian Wushuang frowned.

He could not help feeling that the threshold for using the Heaven Suppression Tablet was too high.

Previously, he thought that he only needed to comprehend the first level of the secret inscription in the Heaven Suppression Tablet to master it. Although the first level of the secret inscription was extremely difficult, with his comprehension ability, he only needed sufficient time to comprehend it. But now, it seemed that it was not so simple.

"No."

Jian Wushuang's expression suddenly changed. "Master mastered the Heaven Suppression Tablet, so his strength increased dramatically. He jumped from a Primary Ruler to a Superior Ruler. Could it be that master had comprehended a trace of universe principles?"

Jian Wushuang was shocked.

"Yes, master is a genius. He could even create a special secret skill, such as the Heaven-cleaving skill, and he spent a long time and a lot of money to develop me. He also developed the Heavenly Dao cycle in the eternal chaotic world. All of these are earth-shaking techniques!"

"In terms of strength, I may have surpassed master at his peak, but in terms of talent, master is far stronger than me. In this Star Field, I don't believe that others have comprehended a trace of the universe principles at the level of Principles Master. But if it's master, it's completely possible."

Jian Wushuang clenched his hands tightly.

His Master Xuan Yi had always been respected and admired by Jian Wushuang.

This admiration was not only because Xuan Yi had been a great benefactor to him and his charisma, but also because of Xuan Yi's great contributions.

For example, a perfect level life-form could only be born in billions of Star Worlds in the vast universe, and they were all born by the universe itself. But what about Xuan Yi? He had spent a long time to create a second perfect level life-form according to his own life-form level.

There was also the evolution of the eternal chaotic world, which directly evolved into a Heavenly Dao cycle. Once Jian Wushuang refined it, he directly attracted the universal principles.

There was also the Heaven-cleaving skill, which could coordinate with his own life-form level and stimulate the innate advantage of his life-form level as much as possible. Such a method was even more shocking to Xue Bo, the Master of Blood Wave World.

All these methods were shocking, but they were all created by his master, Xuan Yi.

Now that his master had comprehended a trace of universe principles at the level of Principles Master, he was not surprised at all that he could control the Heaven Suppression Tablet.

“I understand now. The reason why master’s strength increased so much, from the level of a Primary Ruler to the level of a Superior Ruler, maybe the Heaven Suppression Tablet did help him a lot, but the most important thing is that he has comprehended a trace of universe principles.”

“Any Ruler who has comprehended a trace of the universe principles will have a great increase in strength. Although master is only a Principles Master, after comprehending a trace of the universe principles, his strength will also be greatly improved.” Jian Wushuang understood.

After understanding this, Jian Wushuang looked at the Heaven Suppression Tablet in front of him and shook his head with a bitter smile.

“Master left the Heaven Suppression Tablet to me because he wanted me to comprehend the secret inscription in the Heaven Suppression Tablet and eventually grasp and comprehend a trace of the universe principles step by step. If I really did this, I might be able to comprehend a trace of the universe principles, but it would take too long.” Jian Wushuang sighed lightly.

He had only comprehended 50% of the first level of the secret inscription of the Heaven Suppression Tablet, only half of it.

The remaining 50% of the secret inscription was very difficult for Jian Wushuang. It was much more difficult to comprehend than the previous 50%. He estimated that if he stayed under the Heaven Suppression Tablet to comprehend the secret inscription, it would take him at least 40,000 to 50,000 years to fully comprehend the first level of the secret inscription.

40,000 to 50,000 years?

It was too long for Jian Wushuang. He could not afford to wait, nor could he afford to wait in the Divine Beginning Realm.

Therefore, he could only find other ways and continue to take risks.

For example, he had to go to the Dark Magic Region, even though it was full of dangers and dangers.

“It seems that I have to wait until I come out of the Dark Magic Region to comprehend the secret inscription in the Heaven Suppression Tablet.” Jian Wushuang sighed lightly. He did not leave, but sat down cross-legged in the empty space beside him, a lot of information began to appear in his mind.

This information was about the dragon-exterminating secret skill.

Jian Wushuang had gained a lot from his trip to the Red Cloud World.

Not only did he gain a lot of Supreme Treasures, but he also gained many opportunities in the Red Cloud World, which greatly increased his strength. At the same time, he also obtained an extremely powerful secret skill.

This secret skill was the dragon-exterminating secret skill.

However, even though he had obtained this secret technique, he had been busy comprehending and improving his power in the Red Cloud World. He had not spent any time to truly cultivate this secret technique.

At this point, he had already decided to venture into the Dark Demon Region. Before he truly entered the Dark Demon Region, he would definitely cultivate the first volume of the Dragon Annihilation secret technique. This way, he would also have another trump card, after entering the Dark Magic Region, his ability to survive would be stronger.

“The dragon-exterminating secret skill is the divine power burning secret skill. This secret skill is indeed very useful to me.”

Jian Wushuang sat cross-legged and began to cultivate according to the information in the first volume of the dragon-exterminating secret skill.

Although it was called cultivation, the most important thing in this secret skill was how to control the divine power more accurately.

After all, once the divine power started to burn, it would burn up all the divine power. If one wanted to make it stop, one had to have extremely precise control over the divine power.

Simply put, it was the use and control of the divine power.

In this star area, there were actually some simple techniques to use and control the divine power. Some techniques could even let the cultivator control the divine power to burn up.

However, the techniques to use divine power in this star area were too low-level. Once you used divine power to burn, it was almost impossible to stop. Only when the cultivator's divine power was completely burned out...would he stop.

However, his divine power had been completely burned out. Without divine power in his body, he would naturally lose his vitality. This cultivator would definitely die.

Moreover, even if he did not care about anything else, at the standard of the cultivators in this Star Field, burning his divine power crazily could only increase his power by several times at most, compared to the secret skill of dragon extermination, which could increase the power by a hundred times at any time, it was completely different.

“The control of divine power of this secret skill of dragon extermination is actually so fine?”

Jian Wushuang was more and more surprised as he cultivated the dragon-exterminating secret skill.

This perfect control of divine power was also a great benefit to him.

Twelve years passed in a flash.

During these 12 years, Jian Wushuang stayed here to meditate and cultivate the dragon-exterminating secret skill. After 12 years, he finally mastered the first volume of the dragon-exterminating secret skill.

Chapter 3806: Dark Magic Region

Jian Wushuang sat cross-legged in the open space next to the Heaven Suppression Tablet. He did not emit any aura, and there was not even a trace of divine power circulating on his body, it looked as if his divine power had been exhausted, but in fact, it was just Jian Wushuang's perfect control of divine power.

In the past 12 years, after practicing the dragon-exterminating secret skill, he was indeed much stronger than before.

“I wonder how much my strength will increase if I use the first volume of the dragon-exterminating secret skill with all my strength.” Jian Wushuang’s eyes were shining.

“Let’s try it!”

Without hesitation, Jian Wushuang immediately activated the dragon-exterminating secret skill.

In an instant, Jian Wushuang felt a burst of heat in his body, and then his divine power began to burn crazily, like dry wood encountering a raging fire.

The burning of divine power made Jian Wushuang’s expression a little painful.

“This burning of divine power is really painful. Fortunately, my consciousness is strong enough, so I won’t be affected too much. However, the speed at which my divine power is being consumed is indeed a little frightening.” Jian Wushuang could feel the rapid consumption of divine power in his body.

It was very normal. The secret skill of divine power burning was something that would make many fourth-and fifth-level Rulers change their expressions.

Such a secret skill was an absolute trump card for many experts in the universe. They would never use it unless they were in a life-and-death situation.

Jian Wushuang’s divine power was as vast as the sea because of his perfect life. It was thousands of times more than that of an ordinary Principles Master, so he could barely withstand the speed at which his divine power was being consumed.

“However, after burning my divine power, my power has increased a lot.” Jian Wushuang clenched his hands and felt the terrifying power contained in them.

The crazy burning of his divine power had greatly compressed his divine power and made it a hundred times stronger than before.

After all, Jian Wushuang’s own divine power was comparable to that of a Primary Ruler. The sudden increase of his divine power by a hundred times made his basic divine power comparable to or even better than that of an ordinary Superior Ruler.

Jian Wushuang had several secret skills, which would greatly increase his strength.

For example, the life divine power and Heaven-cleaving skill would greatly increase his divine power.

Most importantly, Jian Wushuang also had the power of the will given by the universal laws, which could double the original power of Jian Wushuang!

All in all, Jian Wushuang’s sudden burst of power had completely surpassed the level of the first-level Ruler.

“The power of my basic divine power is much stronger than that of an ordinary Superior Ruler. If my secret skills are used at the same time and the power given by the universal law is superimposed on

each other, my strongest burst of power should be comparable to that of an Advanced Ruler of the second-level,” Jian Wushuang muttered.

He had never met or exchanged blows with a second-tier, high-level Ruler before.

However, he had judged the difference between the first-tier Rulers. If he used the dragon destruction secret technique at full strength, he could barely reach that level of power.

“The power of a second-tier, high-level Ruler, and my understanding of Sword Dao has long surpassed that of a second-tier Ruler. I can even match a third-tier Ruler. In addition, I have many True Treasures, including the mystic light sky-escaping wings, the Triple Magic Light Mirror, the Mountain River Map, the Netherworld Divine Sword, and the Dark Gold Magic Dragon Armor...my current combat power has reached the peak of this Star Field!”

“I’m afraid that very few of the top experts in the history of this Star Field are as good as me.”

Jian Wushuang was not boasting, but he was right.

After all, this Star Field was a remote place in the universe. There were not many Rulers here. The Rulers at the top of the first level were almost the strongest, and it was rare to see a Ruler at the second level, Ruler Kun Yu, who had passed the test at the foot of the Heaven-Treading Mountain, was relatively rare.

Moreover, in this Star Field, once those Rulers reached the second level, they would not stay here for too long. They would soon choose to leave for other Star Fields in the universe. After all, second level Rulers...they were absolutely invincible in this Star Field. As the saying went, experts were lonely. If they stayed in this Star Field long enough, they would choose to leave.

It would not take long for Master Kun Yu to leave this Star Field.

Therefore, Jian Wushuang’s current battle strength was among the top experts in the history of this Star Field. It was not empty words.

In fact, with his current battle strength, he could also prepare to explore other Star Fields in the universe. However, he had too many responsibilities and the crisis of the Divine Beginning Realm, so he could not leave.

“With my current strength, it’s difficult for me to improve in a short time. It’s time for me to explore the Dark Magic Region.”

“Of course, before I leave, I’ll stay with my parents for a while.”

Jian Wushuang let out a sigh of relief and then set off.

The Dark Magic Region was too dangerous. Although Jian Wushuang was very confident in his current strength and life-saving methods, he was not absolutely sure that he could walk out of it alive. Therefore, before he set off...he naturally had to spend time with his parents, relatives, and friends. However, he did not stay too long because of the time constraint.

He set off after only three years.

When he left, he did not mention the danger to his parents. He did not want his parents and his many relatives and friends to worry about him.

Star Palace.

"My young friend, over the past ten years, my Star Palace has tried to collect some information about the Dark Magic Region for you. The information here is either true or false. We can't explain it clearly. You should go and find out for yourself. In short, the Dark Magic Region is not like other places. It is full of dangers. You must be careful when you travel alone," Daoist Xuan God exhorted.

"I understand."

Jian Wushuang nodded and took the report from Daoist Xuan God. He took a quick glance at it and nodded slightly.

There were some valuable things in the report, but there were still many things that could not be confirmed. He could only go on his own to explore and distinguish between them.

"Everyone, I'll be going now. Please take care of my relatives in the Divine Beginning Realm for me," Jian Wushuang said.

"Well, come back soon."

Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and Heaven Ancestor watched Jian Wushuang leave.

They knew that Jian Wushuang was going to fight for more life in the Divine Beginning Realm.

...

Chapter 3807: Ruler Wu Yin

One of the three great battlefields, Devil Smoke Valley.

In the deepest part of the valley, the world was filled with a hazy black fog. This black fog contained a lethal poison. If an ordinary Ruler of Principles were to stay a little longer in this black fog-filled void...it was very likely that their divine power would be completely eroded and evaporated.

This was already a forbidden area for Principles Rulers. Those who dared to come here were usually Ruler-level experts who could resist the erosion of the black fog, for example, there was a bald black-clothed old man who was currently adventuring in this black fog-filled area.

This bald black-clothed old man was the Ruler Wu Yin. In this Star Field, he could be considered a relatively famous Ruler.

Of course, he was only a low-level Ruler, and his power was only average.

"The black fog in the deepest part of Devil Smoke Valley is terrifying. Although I'm a Ruler, I can barely resist the erosion of the fog. I can't stay in the black fog for too long. Otherwise, I might not be able to resist the erosion of the fog."

“Fortunately, though I’ve only been in the black fog for less than a hundred years, I still managed to get a Pinnacle True Treasure. This trip was worth it,” said Ruler Wu Yin with a smile.

A Pinnacle True Treasure, even if it was just an ordinary attack type True Treasure, was enough to make a low-level Ruler like him take it seriously.

To be able to get such a True Treasure in nearly a hundred years was already quite a good harvest.

Even though he had been adventuring in the Red Cloud World for the past 10,000 years, he had only been able to acquire a Pinnacle True Treasure and a few top-tier True Treasures. In the Red Cloud World, he had only been able to acquire a Pinnacle True Treasure and a few top-tier True Treasures, although many True Treasures had been born, the competition for them had been intense.

Although he was a Ruler, there were many Rulers in the Red Cloud World who were stronger than him. However, the area covered by the black fog was different. Very few Rulers had been adventuring here, in the past hundred years, he hadn’t encountered a single Ruler, and no one could compete with him.

When he had sensed the birth of a True Treasure in the black fog, he had immediately rushed over and easily obtained the Pinnacle True Treasure.

Of course, although there were not many people competing with him in the black fog, the danger it contained was enormous. If he was not careful, he, a Ruler, might die. Thus, he had been very careful during the past hundred years.

Now, he found that it was getting more and more difficult for him to resist the black fog. Therefore, he had decided to leave the area of the black fog first and come back after he had gone out to recuperate.

“The area of the black fog isn’t too big, and I’ve remembered all the routes in this area. As long as I’m careful, I shouldn’t encounter any danger,” the Ruler Wu Yin murmured, he had already begun to slowly move out of the black fog.

He did not move very quickly, so he did not run into any danger.

However, just as he passed by a dense dark red forest, his heart instantly tightened.

“It’s the Dark Demon Region. According to legends, even top-tier Rulers have a slim chance of surviving the Dark Demon Region. Anyone below that level will definitely die if they enter.”

“The Dark Magic Region is one of the most dangerous places in Devil Smoke Valley. Given my level of power, I probably won’t even know how I died if I accidentally entered it. I have to be careful. I can’t accidentally enter it.”

Ruler Yin Magus knew that the dark red forest was where the Dark Magic Region was located. Having a certain level of understanding of the Dark Magic Region, he became even more cautious as he moved forward. He didn’t dare to approach the dark red forest at all.

But suddenly...

“Eh?” The chief Ruler Wu Yin’s expression suddenly changed.

“Someone’s here?”

He had already noticed that a figure had appeared in the void not too far ahead.

That figure was hidden by the gray fog. Although he could not see his face clearly, there was no doubt that the person who dared to come to the deepest part of Devil Smoke Valley and wander around the area covered by the black fog was definitely a true expert.

However, as the figure gradually approached, he was stunned when his soul power could detect his aura.

“This aura is only that of a Principles Master?” Ruler Yin Wu was extremely surprised, but as the figure gradually appeared in his sight, he felt relieved.

“Blood Sword Master, so it’s him.” Ruler Yin Wu nodded secretly.

Among the many Principles Masters in this Star Field, there were only a few who dared to come to this area of black fog. Jian Wushuang was undoubtedly one of them.

“It’s said that Blood Sword Master fought head-on with Doom Ruler in the Red Cloud World. Even Doom Ruler himself admitted that he has the battle strength of a Superior Ruler. Although he’s only a Principles Master, he’s much stronger than me in terms of strength.” Ruler Wu Yin sighed secretly.

Although he knew that Jian Wushuang was very powerful, he was not afraid.

After all, he had no enmity with Jian Wushuang and had no quarrel with Star Palace. With Jian Wushuang’s current strength and status, he should not have attacked him for no reason.

As expected, Jian Wushuang arrived. After seeing Ruler Wu Yin, he smiled faintly and said, “Ruler Wu Yin, are you wandering here?”

“Yes, I’ve long heard of Blood Sword Master’s name. I didn’t have the chance to meet him before. I didn’t expect to meet him in the black fog.” Lord Wu Yin smiled, but there was a hint of flattery in his words.

“Blood Sword Master, are you also here to explore the black fog and look for opportunities?” Lord Wu Yin asked casually.

“Sort of.” Jian Wushuang nodded slightly.

“Then you have to be careful. The black fog is full of unknown dangers. The black fog that surrounds you at all times is only one of them. There are many dangers lurking in the black fog. In addition, there is a special place in the black fog, which is the Dark Magic Region where the dark red forest is located. The Dark Magic Region is an amazing place. Blood Sword Master, it’s better for you to stay away from it.” Ruler Wu Yin said.

“Oh?”

Jian Wushuang raised his eyebrows and said, “Lord Wu Yin, thank you.”

After saying that, Jian Wushuang had already rushed toward the dark red forest.

“You’re welcome.” Lord Wu Yin smiled and wanted to continue chatting with Jian Wushuang. However, he saw Jian Wushuang moving, and Jian Wushuang was heading toward the dark red forest.

"Blood Sword Master, that's the Dark Magic Region," Lord Wu Yin shouted.

"I know." Jian Wushuang moved. "But that's where I'm going."

After saying that, Jian Wushuang rushed into the dark red forest without looking back.

...

Chapter 3808: Courage

"He broke into the Dark Magic Region?"

Lord Wu Yin's eyes widened in astonishment.

He had just reminded Jian Wushuang to stay away from the dark red forest.

But in the blink of an eye, Jian Wushuang broke into the Dark Magic Region.

"He should have known the location of the Dark Magic Region and the dangers it contains, but he still broke into it."

"How dare the Blood Sword Master."

Master Yin Wu shook his head and sighed.

The Dark Magic Region was a taboo for ordinary Rulers. No one dared to enter it.

For example, master Yin Wu was extremely cautious when he passed by the Dark Magic Region. He was afraid that he would accidentally enter it.

Jian Wushuang, on the other hand, knew how dangerous the Dark Magic Region was, but he still dared to enter it. This was extraordinary.

"No, Blood Sword Master has entered the Dark Magic Region. I must let my good friends know about it immediately."

Lord Wu Yin immediately took out token after token and sent a message.

Although Lord Wu Yin was a solitary expert and did not have any forces behind him, he still had some good friends at the level of a master.

He told his good friends about Jian Wushuang's intrusion into the Dark Magic Region, and his friends kept spreading the news.

Soon, almost all the top experts in the star area knew about it.

"The Blood Sword Master actually broke into the Dark Magic Region? He's really brave."

The Sky Roc Ruler, who had reached the top level in the North Sea Palace, could not help but exclaim in surprise when he heard the news.

Even he was extremely afraid of the Dark Magic Region and did not dare to break into it.

But Jian Wushuang did.

“When he came to me under the guidance of the Xuan God, he was still very young. At that time, he only used some tricks to deceive me with the Netherworld Divine Sword. I didn’t expect that after only 20,000 years, he could already rival a top master. Moreover, he even dared to enter the Dark Magic Region, which even I did not dare to enter.”

The Sky Roc Ruler could not help but sigh.

The younger generation was stronger than the younger.

Although Jian Wushuang was very young in his eyes, and he was only a junior, judging from his strength, even he had to take him seriously.

Now that Jian Wushuang had gone to the Dark Demon Region, he was even more shocked.

“The Dark Demon Region is very dangerous. Even a Superior Ruler would have a narrow escape. It would be fine if Blood Sword Master died there, but if he finally walked out of the Dark Demon Region, it would be really terrifying. By then, I’m afraid that even the North Sea Palace can’t afford to offend him.”

...

In the dark blood-colored demon palace, Ruler Kun Yu sat on the throne at the very top. He held a cup of blood-colored wine in his hand as he gently swayed it.

“The Dark Demon Region...”

“A hundred thousand years ago, when my strength was at a bottleneck and I was unable to improve any further, I considered whether or not I should venture into the Dark Demon Region. I struggled and hesitated for thousands of years, but I did not truly make up my mind. It was only after I was lucky enough to obtain an opportunity and my strength broke through that I gave up on the idea of venturing into the Dark Demon Region.”

“Even I, an old man who has lived for hundreds of millions of years and experienced countless hardships, have to hesitate for a long time before entering the Dark Magic Region. I still can’t make a decision. However, Blood Sword Master is only a Principles Master. He has only cultivated for a short period of time and is so young. How could he go to the Dark Magic Region so decisively?”

Ruler Kun Yu secretly praised Jian Wushuang.

In his heart, he also compared himself to Jian Wushuang. He even thought that if he was Jian Wushuang.

He was so young and was only a Principles Master, but he had the battle strength to rival a Superior Ruler. With such terrifying talent and potential, he would definitely not take such a risk to explore the Dark Magic Region.

“What an amazing little fellow. Just in terms of courage and courage, I can’t compare to him.”

“I hope he can walk out of the Dark Demon Region alive. Moreover, it would be best if he does so within the next thousand years.”

Ruler Kun Yu smiled faintly.

A thousand years...the reason it was a thousand years was because Ruler Kun Yu had already made a decision. After a thousand years, he would leave this Star Field and venture into even more vast Star Fields.

After all, although he had only fused five rules and was still a first-level Ruler, his battle strength must have reached the peak of the second-level Primary Ruler if he could pass the test at the foot of Heaven-Treading Mountain, such battle strength was invincible in this Star Field, except for Jian Wushuang.

Since he was invincible and the Red Cloud World had opened not long ago, it would take hundreds of millions of years to open the next time, so he naturally would not wait any longer.

Although there were still a lot of opportunities in the three battlefields, he did not plan to stay any longer.

He wanted to explore more vast places and see more experts.

He was not the only one. In this Star Field, generally, as long as a Ruler with second-level battle strength had nothing to worry about in this Star Field, he would choose to leave.

...

The news that Jian Wushuang had ventured into the Dark Magic Region caused a great shock in the Star Field.

No one had expected that the Blood Sword Master, who was only a Principles Master and had incredible talent and potential, would actually go to the Dark Magic Region at this time.

Indeed, in the eyes of many people, Jian Wushuang was courting death.

After all, in the Dark Magic Region, even a Superior Ruler would have a slim chance of surviving. Although Jian Wushuang had the battle strength to rival a Superior Ruler, he was still a Principles Master.

When a Principles Master entered, most of the experts in this star area did not think that Jian Wushuang would survive.

Therefore, the rumor in this star area was that Jian Wushuang, the most dazzling genius in history, was about to die.

...

The dark red forest was cold, and even the air was filled with a chill.

Jian Wushuang flew in the air above the dark red forest alone.

"According to the information collected by Xuan God and the others, there are two known dangers in the Dark Magic Region."

"The first one is the fog that pervades every corner of the Dark Magic Region."

Jian Wushuang surrounded the surrounding void, which was filled with a large amount of faint red fog that could be seen by the naked eye.

This faint red fog was similar to the black fog that covered the area outside the Dark Magic Region.

The black fog contained a lethal poison that could easily kill Principles Masters. Even a Primary Ruler could barely resist the erosion of the fog, but after a long time, he had to leave to recuperate.

Chapter 3809: Known Dangers

Translator: EndlessFantasy Translation Editor: EndlessFantasy Translation

For example, Ruler Wu Yin had stayed in the black fog for too long before he was ready to leave.

However, the black fog could not be compared to the red fog in the Dark Demon Region.

The red fog in the Dark Demon Region was also poisonous. Even the thinnest light red fog was dozens of times more corrosive than the black fog in the outside world.

Ordinary low-level Rulers would not be able to withstand such a poison. Even Senior Rulers had to have powerful protective True Treasures to be able to move around in the Dark Demon Region normally.

And this was only the light-red fog.

There was also a dark-red fog in the Dark Demon Region, and there was a blood-red fog that looked like pure blood.

These two types of fog were scattered randomly in the Dark Demon Region, and some of them were hidden in the light-red fog.

For example, if you looked at it with the naked eye, you would see a patch of faint red fog in front of you, but if you passed through it, you would most likely encounter a dark red fog, or even a blood-colored fog.

The dark red fog and the blood-colored fog were far more terrifying than the faint red fog.

This was especially true for the blood-colored fog. According to the Information Daoist Xuan God and the others had gathered, even if a Supreme Ruler was trapped within the blood-colored fog, in a few breaths'time, his divine power would be completely eroded and evaporated.

There was once a Superior Ruler who was lucky enough to walk out of the Dark Magic Region and accidentally fell into the bloody mist. In less than three breaths, 70% of his divine power had been eroded, fortunately, the bloody mist was not too big, so he managed to escape in time. Otherwise, the Superior Ruler would not have survived.

"In terms of divine body, I have cultivated the first level of the supreme eternal celestial body, and my divine body is comparable to a primary Supreme Treasure. This divine body is much more powerful than a Superior Ruler of the first level. I also have the most powerful Supreme Treasure Armor, and my divine power is much greater than a Ruler's. The faint red mist alone can not affect me. However, if I fall into the dark red mist, I have to be careful."

"As for the blood-colored fog...even a Superior Ruler can't last for more than a few breaths. I might last longer than an ordinary Superior Ruler, but I won't be able to withstand it in the end," Jian Wushuang murmured softly.

Jian Wushuang was well aware of the dangers of the Dark Magic Region, so he naturally did not dare to be arrogant.

He was naturally very careful about the fog, which was one of the two known dangers of the Dark Magic Region.

As for the second known danger of the Dark Demon Region, it was the dark red monsters scattered throughout the Dark Demon Region.

The dark red monsters were the words of a top Ruler who had walked out of the Dark Demon Region.

No one knew the name of the dark red monster.

However, the dark red monsters were extremely terrifying and hated outsiders. In the Dark Demon Region, if one encountered a dark red monster and was discovered by the other party...those dark-red monsters would immediately attack them in a frenzy, vowing to kill them.

Back then, of the three top Rulers who had emerged from the Dark Demon Region, two of them had left behind information regarding the Dark Demon Region. Both of them had mentioned that the weakest of those dark-red monsters was a High Ruler, their battle prowess was even close to that of a top Ruler. The slightly stronger ones were at the level of a top Ruler.

Most importantly, there weren't only one or two dark red monsters in the Dark Demon Region. There were quite a few of them.

No one knew exactly how many there were, but a Supreme Ruler who came out alive once said that he had encountered eight dark red monsters in one go. Six of them were average in strength, but two of them were extremely terrifying...all of them had superior protective battle strength. With eight dark red monsters attacking at the same time, the Superior Ruler had no choice but to flee in embarrassment.

"Dark red monsters live in the Dark Magic Region all year round. Although their strength is extremely terrifying, their intelligence seems to be very low. Devil Flame, you have been roaming the universe for so many years. Do you know what these dark red monsters are?" Jian Wushuang asked.

"Master, the universe is too huge and vast. There are all kinds of life forms and all kinds of races. Although I have been in the universe for a long time and have seen it in the depths of the universe, I don't know more than 10% of all the life forms in the universe. I can't recognize this dark red monster without seeing it."

"Maybe I'll be able to recognize it when I see a dark red monster," Devil Flame said.

Jian Wushuang nodded slightly. He was not surprised.

The universe was large, and there must be a lot of life groups. Devil Flame had never seen a dark red monster, so it was normal that he could not recognize it directly.

"The information collected by the Xuan God mentioned the two known dangers in the Dark Demon Region. However, we don't know much about the Dark Demon Region. There might be other dangers in the Dark Demon Region, but I don't know about them yet. The two known dangers are enough to make me take them seriously."

Jian Wushuang narrowed his eyes, "I have to be careful when I travel in the Dark Magic Region. After all, I only have one life. If I lose my life here, the Divine Beginning Realm will be finished. My parents, my family, and my friends will all be finished

"And Shuang 'er, her soul is still sleeping. I haven't been reunited with her yet. I can't die like this."

Taking a deep breath, Jian Wushuang began to carefully inspect his surroundings.

His soul power had already swept out.

However, his soul power was greatly limited in the Dark Magic Region.

In the Red Cloud World, his soul power was also limited, but he could still detect a range of 100,000 kilometers.

But now, in the Dark Magic Region, he could only detect a range of thousands of kilometers.

Yes, only a few thousand miles.

For an ordinary Ruler, a distance of several thousand miles could be covered in an instant.

With such a narrow range of soul perception, his movements in this Dark Demon Region were restricted even more.

"Although I have the most powerful Domain Type True Treasure, the three-layered Devil Light Mirror, one of the three-layered devil light mirror's domain attacks can instantly cover an area of one million miles. At the same time, I can cover the layers of devil light with my soul power, so I can detect movements within an area of one million miles.

"However, I have just arrived in the Dark Magic Region and am unfamiliar with everything here. If I recklessly use the triple magic light mirror to attack an area of one million miles, the movements will be too big. Who knows what will happen?"

Jian Wushuang pondered.

Chapter 3810: Dark Red Monster

The triple magic light mirror was too noisy, so Jian Wushuang could not use it easily.

Therefore, he could only rely on his soul perception range of thousands of miles to travel carefully in the Dark Magic Region.

An hour later.

"Eh?"

Jian Wushuang suddenly stopped in the void and looked around. He could sense the extremely violent and brutal aura 3,000 miles away.

"I finally found a dark red monster?"

Jian Wushuang's soul power had completely locked onto the brutal aura. At the same time, he also saw the true appearance of the dark red monster.

It was nearly three meters tall, dark red in color, but its body was relatively thin and weak. The dark red monster had two eyes on its face, a nose and a mouth, but they were all twisted together, making it look extremely ferocious, its two arms were very long, just like a saber. They also gave off a dark red, cold luster and were obviously very sharp.

"Its hands are just like a saber?"

Jian Wushuang raised his eyebrows. He had already discovered the existence of the dark red monster, but the latter did not seem to have noticed him.

"Devil Flame, do you recognize this monster?" Jian Wushuang asked.

"No." Devil Flame shook his head. "This monster gives me a strange feeling. I'm sure I've never seen such a monster before."

"But if I can't recognize it from its appearance, I'll have to fight with it to see what's special about it and what tricks it has," Jian Wushuang said.

"Master, you want to fight with this monster?" Devil Flame was surprised.

"Of course, the two most dangerous things in the Dark Magic Region are the red fog and this dark red monster. As long as I'm careful, the red fog won't pose any threat to me, but this dark red monster is different."

After a pause, Jian Wushuang continued, "There are many dark red monsters in the Dark Magic Region, and I just happened to meet one now. It's a good opportunity to fight with this dark red monster and find out its background. Then, when I travel in the Dark Magic Region, even if I meet more dark red monsters at once, at least I'll have a sense of confidence, instead of not knowing anything and not knowing whether I should flee or fight."

"Yes." Devil Flame nodded.

Indeed, a dark red monster was no threat to Jian Wushuang.

However, it was a good opportunity to have a rough understanding of this monster.

"Devil Flame, you have to look carefully and try to identify this monster," Jian Wushuang said.

"I'll try my best." Devil Flame nodded solemnly.

Jian Wushuang moved and rushed toward the dark red monster.

Jian Wushuang was able to cover a distance of 3,000 kilometers in the blink of an eye. However, he did not go forward immediately. Instead, he slowly approached it.

"This dark red monster has very low intelligence. Not only can it not detect the soul like human cultivators, but it also seems to have a weak perception. I was 3,000 kilometers away, so it's understandable that it didn't notice me. But now, I'm only 200 kilometers away from it. How could it not notice me?" Jian Wushuang was very surprised.

After all, he did not use any secret skill to conceal his aura or figure. He just approached his opponent normally.

If it were a human cultivator, he would have noticed it long ago. Even some exotic beasts and fierce beasts with slightly sharper senses could already sense the arrival of danger.

However, the dark red monster, which was being stared at by Jian Wushuang, did not react at all.

Obviously, it had not noticed Jian Wushuang's arrival.

Jian Wushuang continued to approach.

180 miles, 150 miles, until Jian Wushuang was only 100 miles away from the dark red monster.

"Roar!"

With a low roar, the dark red monster finally made a difference. It stood up with a leap, and its cold dark golden eyes looked directly in Jian Wushuang's direction.

"You only discovered it now?"

Jian Wushuang grinned, but his speed suddenly increased.

A strange stream of light instantly streaked across the void, covering an area of 50 kilometers. Jian Wushuang had already appeared in front of the dark-red monster, and at the same time, the Netherworld Divine Sword had appeared in his hand.

"Xi Xiang!"

Jian Wushuang casually slashed out with his sword. The sword light, with endless violent aura, cut through the void, causing the light-red fog around to become chaotic.

Jian Wushuang was too fast. Although the dark red monster had discovered Jian Wushuang's existence, its reaction was still slower than before.

Seeing the violent sword light slashing over, the dark red monster raised its two arms at the same time.

The two arms, which were like battle sabers, crossed together and blocked in front of him.

Clang!

With a crisp sound, the dark red monster's body suddenly sank, and then its entire body was sent flying. Finally, it crashed into a giant rock, shattering it into pieces. Only then did it stop.

"Huh?" Jian Wushuang frowned slightly. "Although I didn't use my full strength, with my high comprehension of the origin of sword principle, the power of my sword is definitely at the level of a Superior Ruler. However, when I hit the arm of the dark red monster, I can only leave a white mark on it?"

"The monster's arms are so hard?"

After all, Jian Wushuang's swordsmanship was performed with the Netherworld Divine Sword.

When a Supreme True Treasure godly weapon was used, the power of the sword technique used was at the level of a top-tier Ruler. If it were a human cultivator, even a Senior Ruler with a top-tier True Treasure Armor would be able to withstand such a level of sword technique, it was gonna take a hell of a beating.

However, this dark red monster did not have any True Treasure Armor. It only relied on its two arms to block the power of the sword attack, and its two arms were not directly cut off by the sword light, it only left a white mark.

Such arms were probably harder than ordinary elementary universe True Treasures, and they were probably comparable to advanced universe True Treasures.

“I’ve cultivated the first level of the supreme undying mysterious body, and my divine body is only comparable to an elementary universe True Treasure. The dark red monster’s two arms are actually stronger than my divine body,” Jian Wushuang exclaimed, “I wonder if it only has two arms that are as tough as an advanced Universe Supreme Treasure, or if its entire divine body is so strong?”

Jian Wushuang’s eyes flickered with a dark light.

Although the dark red monster was sent flying and looked extremely miserable, it was actually not injured at all. After it stabilized itself, its dark golden eyes locked onto Jian Wushuang’s body, a terrifying and brutal aura suddenly rose.
