### Chapter 3811: Can't Be Killed?

"Foreign...foreign...people...die!"

A low, intermittent roar came out of the mouth of the dark red monster.

Although the voice was not very clear, Jian Wushuang still heard it clearly.

"This dark red monster can talk?" Jian Wushuang raised his eyebrows.

The reason why he took the initiative to fight with the dark red monster was that he wanted to know more about the dark red monster.

Now he knew that the dark red monster's two arms were extremely hard, comparable to an advanced Universe Supreme Treasure. In addition, the dark red monster could speak simply.

Boom!

The dark red monster turned into a red stream of light and rushed up.

Jian Wushuang only felt a surge of evil aura pressing toward him.

"This evil aura is really strong." Jian Wushuang sighed.

The dark red monster extended its arms like two sharp sabers.

Swish! Swish!

As the dark red monster swung its arms, the air was immediately cut open, and two cold-blooded saber lights chopped down on its head.

Not only were the two saber lights extremely powerful, but they also contained a strong sense of destruction, and even the saber lights themselves were quite mysterious.

"Saber skills?"

"This dark red monster clearly has very low intelligence, but it can also use saber skills. Moreover, this saber skill is quite exquisite?"

Jian Wushuang was surprised.

However, although the saber skills of the dark red monster were quite exquisite, they were nothing in front of Jian Wushuang. Jian Wushuang's body flashed, and then he easily passed through the gap between the two saber lights, he was already approaching the dark red monster.

Jian Wushuang casually thrust the Netherworld Divine Sword forward.

A blood-red flower bud seemed to have bloomed. The dark red monster's chest directly exploded, revealing a bowl-sized bloody hole. The white bones in its body could be clearly seen through the bloody hole.

“Fortunately, the monster’s arms are very hard, but the other parts of its body have not reached that level,” Jian Wushuang said calmly.

His sword attack just now did not increase in power, just like the sword attack on the arm of the dark red monster.

But the previous sword attack only left a white mark on the arm of the dark red monster.

But now, the sword attack on the chest of the dark red monster broke the surface defense of the dark red monster and hurt it.

Obviously, the dark red monster’s body was not as hard as an advanced Universe Supreme Treasure. Jian Wushuang estimated that the other parts of its body were only comparable to an elementary Universe Supreme Treasure.

“However, this monster is indeed very strong. It’s very close to a Superior Ruler. In addition, its saber technique is not very durable. Its battle strength is indeed very strong among Advanced Rulers. Perhaps one or two of them is nothing, but if there are six or seven of them together, they can indeed pose a threat to an ordinary Superior Ruler,” Jian Wushuang thought.

Jian Wushuang had been studying the dark red monster.

However, the dark red monster was already furious, especially after Jian Wushuang had broken its chest with his sword.

The dark red monster had low intelligence, so it did not know how to distinguish the strength of its opponent. It did not even know the law of the jungle.

Born in the Dark Magic Region, the dark red monster only knew one thing. As long as it was an outsider, it had to kill it at all costs.

“Kill, kill!”

A series of low roars were heard, and the dark red monster charged again.

Jian Wushuang also tried to fight it, but he found that the bloody hole in the dark red monster’s chest had been completely repaired and there was no trace left.

The monster’s strength was still at its peak.

“Immortal body?”

“No, this monster doesn’t have divine power at all. It just uses the muffled power of its body. It’s completely different from a cultivator at the Ruler level. It shouldn’t have an immortal body, but its injuries have been completely healed.”

Jian Wushuang casually attacked and completely suppressed the dark red monster. However, he did not kill it directly. Instead, he deliberately reserved his strength to fight with the dark red monster.

He wanted to understand the dark red monster more deeply.

Soon, dozens of breaths passed.

"This monster is really stupid. Its strength is obviously far inferior to mine. No matter how crazy it is, it will still be easily crushed by me. However, from the beginning of the fierce battle until now, it has no intention of escaping."

"Obviously, it can't beat me, but it still wants to kill me crazily." Jian Wushuang shook his head with a smile, but he was pondering in his heart. "I have a good understanding of the monster's strength, speed, and methods. The only thing I don't understand is its body composition. I don't know whether it really has an immortal body. In this case, there is no need to tangle with it."

A fierce light flashed in Jian Wushuang's eyes.

Whoosh!

A shadow flashed and a dazzling sword light lit up at the same time.

The entire head of the dark red monster had been thrown away. Then Jian Wushuang blew a breath and a sword light directly crushed the head.

"Is it dead?"

Jian Wushuang stared at the body of the dark red monster in front of him.

Although it had lost its head, the body of the dark red monster was still moving freely. Its two arms were still crazily slashing at Jian Wushuang.

"It's not dead?" Jian Wushuang's expression changed slightly. After dodging the saber light of the dark red monster, he saw that the head of the dark red monster had grown back.

Jian Wushuang attacked again.

First, he crushed the head of the dark red monster. Then, he pierced the heart of the dark red monster with his sword. Finally, he used a huge divine power attack to crush the entire body of the dark red monster.

However, the dark red monster was still beautiful. It was alive and full of battle strength.

"What's going on?"

Jian Wushuang frowned. "This monster's body is extremely tough. Although my attacks can hurt it, it's difficult to destroy it on a large scale. It obviously doesn't have an immortal body, but how can its injuries be healed instantly, including its head and heart?"

He clearly had the strength to crush the dark red monster, but now he could not kill it.

"No, this dark red monster must have a weakness, but I haven't found it yet." Jian Wushuang narrowed his eyes slightly.

Devil Flame, who was in the Blood-Red Gourd, had been paying attention to the outside world. Just like Jian Wushuang, he had been observing the dark red monster.

After seeing that the dark red monster's head and heart were instantly repaired, Devil Flame immediately thought of a group.

...

## Chapter 3812: Immortal Ghost

"Abdomen, master, attack his abdomen." Devil Flame's voice sounded in Jian Wushuang's mind.

"Abdomen?" Jian Wushuang's expression changed.

"Yes, it's best if you can directly pierce through his abdomen with one sword," Devil Flame said.

Jian Wushuang did not hesitate. His body moved strangely and easily moved around the dark red monster. Then, a hazy sword shadow lit up.

There was only one sword shadow, but at first glance, it looked like countless thin lines.

The dark red monster tried to wave its saber-like arms to block it, but it only blocked a small part of the thin lines. Most importantly, it failed to block Jian Wushuang's sword shadow hidden in the thin lines.

The hazy sword shadow pierced the dark red monster's abdomen with a sharp edge.

The terrifying power penetrated the dark red monster's abdomen on the spot.

Bang!

A crisp sound like glass breaking was heard. The dark red monster's eyes were still filled with anger and madness, but its voice had disappeared, and its two saber-like arms drooped down.

"Dead?"

Jian Wushuang looked at the dark red monster's corpse in astonishment.

Previously, he had chopped off the dark red monster's head and shattered it. At the same time, he had shattered the monster's heart. However, the monster did not die, but immediately recovered.

But now, he had pierced through the dark red monster's abdomen with his sword, and it was dead?

Obviously, the dark red monster's weakness was in its abdomen.

"As expected, as expected."

Devil Flame's excited voice sounded.

"Devil Flame, did you recognize it?" Jian Wushuang asked.

"Yes, if I'm not mistaken, this dark red monster should be the rarely seen blood-colored ghost demon in the vast universe," Devil Flame said.

"Blood-colored Ghost Demon?" Jian Wushuang frowned.

"Although blood-colored ghost demon is a race, it's completely different from most of the races in the universe," Devil Flame said, "most of the races in the universe were born by the universe in the beginning. After a long time of reproduction, they gradually formed into a race."

“But the blood-colored Youmo is different. This race was not born by the universe, but by the life of another race.”

“Another race? What do you mean?” Jian Wushuang was puzzled.

“Master, the blood-colored Youmo actually originated from an extremely terrifying race in the universe, the Immortal Ghost Clan!” Devil Flame explained, “The Immortal Ghost Clan is definitely a top race among the many races in the vast universe. They are extremely powerful. In terms of talent, they are even more powerful than the special life form, Wu God, that you mentioned before.”

“What?” Jian Wushuang was shocked.

More powerful than Wu God?

Wu God was an extremely special life form. He was favored by the principles of heaven and earth. Even if he did not cultivate, as long as he slowly grew up and reached the peak, he would be an Ultimate Ruler who had integrated the nine-gate rule, such a special life form was already unbelievable to Jian Wushuang.

But the Immortal Ghost Clan was more talented than Wu God?

“Although Wu God is amazing, he is only an Ultimate Ruler at the peak of his growth. But the Immortal Ghost Clan can reach the supreme level at the peak of its growth. In terms of sheer number, the Immortal Ghost Clan is much more than Wu God. Most importantly, there is a reason why the Immortal Ghost Clan is called Immortal.”

“The reason for this is, first of all, that every single Immortal Ghost is terrifyingly strong, and their life-saving abilities are the best in the universe. There is a saying in the universe, at their peak, the Immortal Ghost are undefeatable!”

“The reason why they are undefeatable is not because they are undefeatable, but because their life-saving abilities are too strong, and no one can kill them.”

“Of course, this is an exaggeration. Although most of the Supreme Beings at their peak can’t kill them, there are countless experts in the vast universe. The Universe Overlords who stand at the top of the universe and are invincible among the Supreme Beings can still kill them.”

Jian Wushuang understood.

The Immortal Ghost might have a terrifying life-saving ability, but it was not invincible.

After all, even the Master of the Red Cloud World, the Patriarch of the Red Cloud World, who had reached the supreme-level, could be killed. Even the Ling Yun planet created by supreme-level Universe Overlords like Paragon Ling Yun would decline, the universe was vast and terrifying.

The Immortal Ghost was strong in life-preservation, but it was not invincible.

“There is a second reason.” Devil Flame continued, “The number of Immortal Ghost has always been 99 in the universe. This is eternal. Even if one Immortal Ghost dies, the universe will immediately give birth to a new Immortal Ghost. In other words, the Immortal Ghost will never be extinct. As long as the cycle

of the universe continues, the number of Immortal Ghost will always be 99. There will never be more than 99, and there will never be less than 99.”

Hearing this, Jian Wushuang was extremely shocked.

He finally understood how terrifying this race was and why it was called Immortal.

It was indeed immortal.

Not only did it have incredible life-saving abilities, but more importantly, it had a special status in the universe.

Even if one was killed, the universe would immediately give birth to one. Such a race was indeed immortal and no one in the universe could destroy it.

“Of course, the Universe is fair. Although the Immortal Ghost Clan is powerful and eternal, they have some disadvantages.” Devil Flame continued, “First of all, their growth period is too long. As far as I know, an Immortal Ghost Clan must go through hundreds of chaos cycles from birth to its peak.”

“Hundreds of chaos cycles?” Jian Wushuang was stunned.

It had only been one chaos cycle since the birth and destruction of a third-grade astral world.

Hundreds of chaos cycles?

How many years would that take?

That was a bit too long.

“Are all the Immortal Ghost Demons like this? Can’t they reach their peak ahead of time?” Jian Wushuang asked.

“No. No matter how talented you are and how strong your battle strength is, you have to wait until you reach your peak in order to reach the supreme realm. To reach your peak, you have to spend hundreds of chaos cycles.”

“But hundreds of chaos cycles are simply too long. Many of the undead specters won’t even be able to last that long before they are killed during their growth period. Only a very small number of undead specters will be able to survive their peak period and become autarchs. They will truly be able to roam the universe, and even supreme autarchs won’t be able to do anything to them.”

Chapter 3813: Opportunity

“In addition to the long growth period, the Immortal Ghost demon has another weakness.” Devil Flame suddenly changed the topic. “In fact, it’s not a weakness, but a strength.”

“What do you mean?” Jian Wushuang was surprised.

“It’s like this. The Immortal Ghost Demon is blessed in the universe. It’s a race that countless cultivators marvel at. In the vast universe, there are less than ten races that can be called peak races. Each race has

a huge population base, but the Immortal Ghost Demon Race is still a peak race even though it only has a fixed number of 99.”

“This race is completely favored by the universe. Because of this, their entire body is basically a treasure,” Devil Flame said.

“Their entire body is a treasure?” Jian Wushuang was stunned.

“Yes, their entire body is a treasure.” Devil Flame smiled. “The Immortal Ghost’s divine body, blood essence, and even hair are of great value in the universe. Take the Immortal Ghost’s divine body as an example. Even the corpse of an Immortal Ghost that has been dead for many years, as long as it is well preserved, is comparable to the entire wealth of an ordinary Supreme Being!

“Of course, the most precious thing about the Immortal Ghost is their life core, which is the source of their life force. It’s a treasure that can make countless Supreme Beings in the vast universe go crazy over it.”

“Life core?” Jian Wushuang’s expression changed.

The value of a life core that could make countless Supreme Beings go crazy over it was imaginable.

“It’s precisely because the Immortal Ghost’s entire body is a treasure and its divine body and life core are too precious that most of the cultivators in the universe would think of ways to kill it the moment they see it. This can be considered their weakness,” Devil Flame said.

Upon hearing this, Jian Wushuang could not help but smile.

The whole body was a treasure, but it became a weakness instead.

In fact, it was also true that a man was not guilty of having a treasure.

The entire body of an Immortal Ghost was a treasure. Not to mention a Ruler, even an autarch would go crazy for it. This naturally caused the Immortal Ghost to live in the universe for less than a second.

If it were not for the fact that one Immortal Ghost would immediately give birth to another, this race would have been gone long ago.

“Devil Flame, you always talk about the Immortal Ghost, but what is the direct relationship between the Immortal Ghost and the blood-colored ghost in front of me?” Jian Wushuang asked.

“The relationship between the two is huge.” Devil Flame smiled. “Master, I just said that the Immortal Ghost’s vitality is terrifying. Even if they are dead, their blood will evolve into new life after they die. This is the origin of the Scarlet Youmo in front of you, Master.”

“What did you say?” Jian Wushuang was shocked. “Are you saying that the dark red monster I killed was actually formed from the blood of an Immortal Ghost Demon?”

“Yes.” Devil Flame nodded. “If I’m not wrong, an Immortal Ghost demon once died here, and its blood evolved into a large number of blood-red ghost demons. There are so many dark red monsters in the Dark Magic Region.”

"Is that so?" Jian Wushuang understood, then he asked, "When I fought with this dark red monster, I was able to crush its head and heart. Its vitality is really terrifying. No wonder it evolved from the blood of the Immortal Ghost. However, after I pierced its abdomen, it died?"

"Of course, the core of the Immortal Ghost is its life core. As long as its life core is not broken, it will be fine no matter how serious the injury is. These blood-red ghosts are formed from the blood of the Immortal Ghost, and they also inherit some of the characteristics of the Immortal Ghost. Their core is also their life core, and this life core is in their abdomen."

"Just now, master's sword pierced through the abdomen of the scarlet ghost and shattered its life core. It naturally died," Devil Flame said.

"So that's it?" Jian Wushuang completely understood.

No wonder when he pierced through the abdomen of the dark red monster, he heard the sound of glass breaking.

This sound should be the sound of the life core breaking.

"Master, an Immortal Ghost died here, and the blood of this Immortal Ghost can evolve into a blood-colored ghost. This Immortal Ghost is likely at the peak of the supreme-level. Even if he is not an supreme-level, he is at least an Ultimate Ruler. If the corpse of such an Immortal Ghost is left here, it will be a huge treasure. Master, if you can get it, you will be rich," Devil Flame said excitedly.

"The corpse of the Immortal Ghost?" Jian Wushuang's eyes lit up.

He had just heard from Devil Flame that the corpse of the Immortal Ghost was comparable to the entire wealth of an ordinary Supreme Being.

Moreover, the entire body of the Immortal Ghost was a treasure. Even if it was just a piece of ordinary hair, it would definitely be a priceless treasure for him, who was only a Principles Master.

Of course, the most important thing was the life core.

"Devil Flame, if there really is an Immortal Ghost's corpse in the Dark Magic Region, would the life core of the Immortal Ghost be left behind?" Jian Wushuang asked.

"It's impossible to have a complete life core. If the Immortal Ghost's life core was complete, it wouldn't have died. But since it's dead, its life core must have been shattered." Devil Flame said solemnly, "But master, although you can't get a complete life core, you might have a chance to get some life core fragments."

"A fragment?" Jian Wushuang frowned. "Just a fragment?"

"Even if it's just a small fragment, as long as it can be preserved, it contains a great opportunity. Master, if you can get a small fragment, with the help of this fragment, you might be able to directly comprehend a trace of the universe principles," Devil Flame said.

"What?" Jian Wushuang's heart jumped.

As long as he got a small fragment of life core, he could directly comprehend a trace of universe principles?

Did he not come to the Dark Magic Region to adventure because his strength was at a bottleneck and he could not find a way to comprehend universe principles?

But this life core fragment could actually help him comprehend universe principles?

Opportunity!

A once-in-a-lifetime opportunity!

“Master, don’t be happy too early.” Devil Flame’s voice sounded once again, “Undying you demon’s life core fragment can indeed help you comprehend the universe principles. However, I can see that this battlefield has existed for a very long time. In such a long time, the universe power contained within the undying you demon’s life core fragment will gradually dissipate. As long as the universe power is completely drained, the life core fragment will crumble and dissipate.”

“After such a long time, I wonder if there are still life nuclear fragments left here.”

...

Chapter 3814: End the Battle Quickly

Jian Wushuang frowned.

The life core fragment was extremely precious, and it was definitely a once-in-a-lifetime opportunity for him. However, if there were no more life core fragments left in the Dark Magic Region, he would feel like crying.

“I hope there are life core fragments left in the Dark Magic Region. I don’t need too many. Two or three pieces should be enough,” Jian Wushuang thought to himself.

In the Dark Magic Region, Jian Wushuang continued to move forward.

He was still very slow, and his soul power covered an area of thousands of miles.

Although it was only thousands of miles, it was still enough for him to find the position of the dark red monsters in advance. Moreover, the dark red monsters were formed from the blood of the Immortal Ghost Demon. They had very low intelligence and did not know how to detect souls, as long as Jian Wushuang was not within a hundred miles of them, they would not be able to discover his existence.

Because of this, Jian Wushuang could easily avoid these dark red monsters along the way.

In a flash, three days passed.

Although three days had passed, Jian Wushuang’s speed had been very slow, so he did not travel too far during these three days.

“I have been going deeper and deeper in these three days. I should be reaching the depths of the Dark Magic Region soon, right?” Jian Wushuang thought to himself.

Of course, he did not know how big the Dark Magic Region was. No one in this Star Field knew, so he was not sure whether he had reached the depths of the Dark Magic Region. He was just guessing, after all, as he went deeper, he encountered more and more dark red monsters.

And these monsters were not alone, but at least several of them gathered together.

There were even more than a dozen of them gathered together.

Jian Wushuang did not care about one or two of these dark red monsters, but if there were more than a dozen of them, even he would have a headache.

Fortunately, he deliberately avoided these dark red monsters along the way.

At this moment...

"Hmm, there are more monsters?"

Jian Wushuang's soul power had already sensed the existence of a total of eight violent auras.

Those eight auras were eight dark red monsters. Among these eight dark red monsters, there was one that was obviously taller than the other seven monsters and emitted a more violent aura, it was also more powerful.

"What a powerful aura. It's much more powerful than ordinary dark-red monsters. If I'm not mistaken, it should be a monster that can match the battle strength of a Superior Ruler, right?" Jian Wushuang's expression changed.

The intelligence he received mentioned that there were two types of dark-red monsters. One was the most common one, which could match the battle strength of a Superior Ruler and was close to that of a Superior Ruler.

The stronger one was the battle strength of a Superior Ruler.

Obviously, the larger monster he saw now was the stronger dark red monster.

"I might have a headache if there are too many ordinary monsters. It's better not to provoke such a monster, which is comparable to a Superior Ruler." Jian Wushuang smiled faintly, he was about to go around them.

But suddenly...

"Oh no!" Jian Wushuang's face suddenly changed.

He had sensed that just as he was about to go around the eight monsters, the largest and most powerful dark red monster suddenly raised its head, and a terrifying, brutal aura rose, it also rose in an instant.

"Roar!"

An earth-shaking roar suddenly reverberated in the sky. This roar was filled with endless killing intent and rushed to the sky.

"Intruder, die, die!"

“Kill, kill him!”

After the roar, a series of unclear hisses sounded.

The eight dark red monsters in Jian Wushuang’s soul perception, led by the most powerful dark red monster, had already rushed toward him at an extremely fast speed.

“Have I been discovered?” Jian Wushuang’s expression was a little ugly.

He had been careless.

When he saw the larger dark red monster, he knew that it was very strong, comparable to a Superior Ruler. He also thought that this monster’s perception ability might be slightly stronger than those of ordinary monsters, but it should not be very strong.

Therefore, when he took a detour, he was slightly closer to it, probably about 1,000 miles away.

But the stronger dark red monster actually sensed his existence from a distance of 1,000 miles.

Thus, this scene occurred.

“Eight dark red monsters, one comparable to a Superior Ruler, seven close to a Superior Ruler. Although this lineup alone can not threaten me, since these monsters have discovered my existence, unless I burst out of here, they will always follow me and notify other monsters along the way to kill me together.”

“But if I burst out too fast, I will create a big commotion and attract other monsters.” Jian Wushuang’s face turned cold.

If he was in the outer area of the Dark Magic Region, he would have fled immediately if the dark red monsters were discovered.

But now he was close to the depths of the Dark Magic Region. There were many dark red monsters here, and there were many branches. In this case, he burst out too fast and passed under the eyes of these monsters, it would attract even more monsters.

“I have no choice but to fight them and kill them as fast as possible.” Jian Wushuang’s eyes flashed with killing intent.

It was the best way to end the battle quickly.

Perhaps during the battle, the power would attract the surrounding monsters, but as long as he was fast enough, he could still leave first.

“Kill!”

With a low shout, the Netherworld Divine Sword appeared in Jian Wushuang’s hand, and a pair of huge black wings spread out behind him.

He used the Mystic Light Phantom movement technique directly.

Jian Wushuang was like a fish in the water, easily passing through the void.

The eight dark red monsters had already come at the fastest speed, but before they could reach Jian Wushuang, Jian Wushuang had already met them.

Buzz!

A hazy sword shadow lit up.

The Sword Shadow was like a dream and an illusion. It was intoxicating. It was like a huge sword net that covered the eight dark red monsters in front of him at the same time.

It was too fast and too strange.

Except for the strongest dark red monster, the other seven could not even see clearly how Jian Wushuang attacked.

Chi! Chi! Chi! Chi! Chi! Chi! Chi! Chi!

The sound of seven swords piercing into their bodies could be heard. The bodies of the seven average dark red monsters were extremely tough, but in front of Jian Wushuang's swordsmanship, they were like pieces of paper, the bodies of the seven monsters were cut in half from the abdomen.

Chapter 3815: Danger Zone

Their abdomens were cut open, their bodies were cut in two, and most importantly, their life cores were shattered.

Once their life cores were shattered, no matter how strong the seven monsters were, they could only die immediately.

As for the strongest monster, which was comparable to a Superior Ruler, it waved its arm to block Jian Wushuang's sword, but its body was also directly hacked down.

Jian Wushuang's body swayed, and the close-range teleportation of the Mystic Light Phantom movement followed. He appeared next to the last monster like a ghost.

He stabbed the longsword in his hand, and a terrifying spiral force appeared. The space seemed to be torn apart by the sword light.

The monster's body was in a sinking stage, so it had no time to block Jian Wushuang's sword.

Bang!

The monster's abdomen exploded, sending blood and flesh flying everywhere. The life core hidden in the abdomen was crushed by the terrifying power and collapsed at this moment.

In an instant, the dark red monster, which was comparable to a Superior Ruler, died on the spot.

"In terms of strength, these monsters are indeed very strong, especially this big one. It must have the battle strength of a Superior Ruler to be able to block my sword just now. Unfortunately, although it has battle strength, it doesn't have an immortal body. As long as I know its weakness, it's really easy for me to kill them with my strength." Jian Wushuang smiled faintly.

Jian Wushuang was calm and did not feel proud at all after killing seven top-tier masters and a dark-red monster that was comparable to a top-tier master in an instant.

After all, these monsters were only formed from the blood of the Immortal Ghost. They had very low intelligence and had battle strength but no immortal body. They were still far inferior to human cultivators.

It was easy for Jian Wushuang to defeat a Superior Ruler with his current strength.

However, it was very difficult to kill a Superior Ruler, such as the Sky Roc Ruler.

First of all, the Sky Roc Ruler had an immortal body, so he had to destroy all of his divine power to kill him. Secondly, the Sky Roc Ruler cultivated a protective secret skill and had a Supreme Treasure Armor to protect his body, even if Jian Wushuang tried his best, he could only cause some damage to Sky Roc Ruler. It would take a long time to kill him.

This also ensured that Sky Roc Ruler would not run away.

However, this dark red monster did not even have an immortal body, nor did it cultivate any secret skill or Supreme Treasure to protect its body. It just relied on its own body. Yes, its body was hard, however, they could not ignore Jian Wushuang's swordsmanship attacks. Moreover, the divine sword he used was the Netherworld Divine Sword, which was the strongest Supreme Treasure.

"If I really want to fight, I can kill ten of these dark red monsters much more easily than killing a human Superior Ruler." Jian Wushuang sighed and waved his hand to put the eight dark red monsters' corpses into his interspatial ring, he put them all into his interspatial ring.

The bodies of these monsters were so hard that their arms were comparable to advanced Universe Supreme Treasures. Naturally, their corpses had some special uses.

After doing all this, Jian Wushuang immediately left.

Just as he had expected, when he attacked, he burst out with extraordinary power. Coupled with the roars of the monsters, he did attract many monsters around him. Unfortunately, Jian Wushuang was too fast, he killed the eight monsters in an instant.

Therefore, when the other monsters arrived, Jian Wushuang had already left, and the monsters had missed him.

However, after this encounter, Jian Wushuang was even more careful in the Dark Magic Region, especially when it came to the bigger and stronger monsters that could rival a Superior Ruler, he became even more cautious.

After all, those monsters could detect his presence from thousands of miles away.

Now that he was in the Dark Magic Region, his soul power could only cover thousands of miles, so he did not have as much of an advantage in the range of perception as before.

In particular, the deeper he went, the larger the monsters were. Jian Wushuang temporarily called them 'elite' level monsters, which made it more and more difficult for him to move.

Soon, another ten days passed.

Jian Wushuang's current position was getting closer and closer to the depths of the Dark Magic Region.

At this point, Jian Wushuang found that he had to be very careful with every step he took.

There was nothing he could do. The monster branches around him were too dense. Every few thousand miles, there would be monsters gathered together, and there were dozens of them, among them, there were elite-level monsters. As long as he made a slight movement and was detected by the monsters, there would be a large number of monsters surrounding him and attacking him.

"Now I finally understand why there were only three Supreme Rulers who made it out of the Dark Magic Region alive." Jian Wushuang could not help sighing.

He could imagine what had happened to the Supreme Rulers.

When they first entered the Dark Magic Region, they did not encounter any danger. In this way, they would continue to make their way deeper into the Dark Magic Region.

Gradually, the Supreme Rulers would come into contact with these dark red monsters.

With their soul perception ability, the Supreme Rulers could easily deal with these dark red monsters at first. After all, they could easily avoid them. However, as they continued deeper into the Dark Magic Region, there were more and more dark red monsters, it became more and more difficult for them to move.

At this time, if the Superior Rulers chose to leave, they could survive. However, these Superior Rulers came to the Dark Magic Region to obtain opportunities. They left without obtaining any opportunities, most of the Superior Rulers would not choose to do so.

Therefore, they would continue to advance until they reached the depths of the Dark Magic Region, such as Jian Wushuang's current position.

Jian Wushuang was already in a difficult situation. It was even more difficult for ordinary Superior Rulers to move.

If they were careless and were discovered by the monsters, a large number of monsters would surround them and kill them. They would not be able to escape.

"The three Rulers who survived the Dark Magic Region were either strong enough to survive and leave in such an environment, or they did not really come to the depths of the Dark Magic Region and did not encounter the dangerous situation I'm in now," Jian Wushuang muttered.

Dangerous Situation, yes, he was indeed in a very dangerous situation.

After all, he was surrounded by dark red monsters. There were three teams of such monsters within thousands of miles of his consciousness, and each team had dozens of monsters, there were hundreds of them in total.

...

Chapter 3816: Life Core Fragment

"I can't make any noise in the Dark Magic Region. If I make any noise, a large number of monsters will surround me. I'm afraid that ordinary Superior Rulers won't be able to escape," Jian Wushuang said with a faint smile, "As for me...fortunately, I have the secret skill that you told me about."

After fighting with the eight-headed monster, Jian Wushuang understood that in order to enter the Dark Magic Region, hiding skills were especially important, in addition to strong strength and life-saving skills.

After all, if you hid well enough so that the monsters could not find you, you would naturally be safe.

Therefore, during the time he entered the Dark Magic Region, he had been looking for secret skills to cultivate.

He had been wandering in this Star Field for a long time and had even killed a Ruler. He had obtained a lot of resources, including some unique secret skills.

He also had secret skills to conceal his aura, but they were not of a high level. In this Star Field, they could only be considered at an ordinary level.

It would be difficult for such an ordinary secret skill to hide from monsters at the 'elite' level.

Fortunately, Jian Wushuang still had the Devil Flame in his hand.

Devil Flame was a Ruler at the ultimate level when he was alive. Not only was he powerful, but he had also experienced the drill ground in the vast universe. His knowledge and skills were extraordinary.

Devil Flame naturally knew some secret skills to conceal his aura. At Jian Wushuang's request, Devil Flame taught him a secret skill to conceal himself.

The level of this secret skill was not very high in the vast universe, but it was much more powerful than the secret skills of concealment in this Star Field.

Moreover, it was relatively easy to cultivate this secret skill. In just a few days, Jian Wushuang had already mastered it.

After mastering this secret skill of concealment, Jian Wushuang immediately went to try it. He found that with this secret skill, even the monsters at the 'elite' level could not sense his arrival in advance, only then did he enter the depths of the Dark Magic Region smoothly and did not make much noise.

"I can sense the existence of the monsters around me, but those monsters can't find me. Even though there are many monsters around, I can still deal with them calmly." Jian Wushuang chuckled.

He was wandering alone in the depths of the Dark Magic Region.

Half a day later...

"Eh?" Jian Wushuang's expression suddenly changed, and a trace of shock appeared on his face.

"Monsters, so many monsters."

Jian Wushuang could sense that thousands of miles ahead of him, there were a large number of dark red monsters gathered.

A fierce and tyrannical aura soared into the sky.

Jian Wushuang simply swept his consciousness over and saw hundreds of such monsters. This was because the range of his soul power was close to that area. As he slowly approached that area...the number of monsters he sensed increased.

“Too many, too many.”

“There must be more than a thousand monsters.”

Jian Wushuang was amazed.

Along the way, he encountered many monsters, but at most, there were only dozens of monsters gathered together. But now, there were more than a thousand monsters gathered in front of him, most of the monsters were ordinary level monsters, but there were still dozens of elite level monsters.

“So many monsters gathered together. Is there something special about that area?” Jian Wushuang raised his eyebrows and immediately used his concealment secret skill to carefully approach the area.

Soon, he appeared in the void around the thousands of monsters.

Even without using his soul power, Jian Wushuang could see a large number of dark red monsters gathered on the ground in front of him. In the center of the land...there was a blood-colored stone with an extremely strange shape. On the blood-colored stone, there were a few white light spots floating quietly.

The white light spots were extremely dazzling and emitted a unique aura.

“That’s...” Jian Wushuang’s eyes were completely fixed on the white light spots.

“A life core fragment. Yes, that’s a life core fragment.” The Devil Flame in the Blood-Red Gourd also became excited. “Master, you’re really lucky. There are indeed pieces of the Immortal Ghost’s life core fragment left behind in the Dark Magic Region. Moreover, there are not only one, but several pieces, or even more.”

Jian Wushuang’s eyes were also shining with surprise and joy.

The dazzling white light spots floating on the blood stone seemed to contain a special magic power, which made his mind go silent.

The numerous monsters around the blood stone looked at the white light spots with fanaticism. Obviously, the white light spots meant a lot to them.

“There’s more than one life core fragment.” Jian Wushuang clenched his hands. “There are four pieces of life core fragments floating on the blood stone. I’m afraid there are other life core fragments in this area and other places in the Dark Magic Region!

“However, although the life core fragment is right in front of me, it’s not easy for me to get it.”

Jian Wushuang narrowed his eyes slightly.

The Blood Stone was in the center of the monsters. If he wanted to step on the blood stone and collect all the life core fragments, he would have to pass through the monsters. Even if he got the life core fragments, he would still have to escape from these crazy monsters, it was not easy for him to escape from these crazy monsters.

Moreover, Jian Wushuang also found that the life core fragments on the blood stone were not floating together, but scattered in different places. Even if he rushed to the blood stone at the first moment, if he wanted to collect the life core fragments...he could only collect them one by one. He could not put all four life core fragments into his interspatial ring at once.

"It's a bit troublesome." Jian Wushuang frowned. He did not choose to attack at once, but began to think.

He was thinking about how to get the life core fragments from the group of monsters, and it was best to get all four life core fragments at once.

"Master, these blood-colored specters are formed from the blood of the immortal specters. They have very low intelligence. The life core fragments left by the immortal specters should be something like holy objects for them. That's why they pay so much attention to them. If you try to snatch them, they will definitely go crazy," Devil Flame said.

"I know. I'm thinking about how to get the life core fragment easily or how to reduce the risk," Jian Wushuang said.

"Reduce the risk? Almost impossible." Devil Flame shook his head.

#### Chapter 3817: Forced Entry

"I can see that the reason why these scarlet specters are gathered here is to protect the life core fragments. This is their mission. Master, if you want to get the life core fragments, you have to force your way through them," Devil Flame said.

"I have to force my way through?" Jian Wushuang frowned.

It would be risky to force his way in.

After all, there were thousands of monsters gathered in front of him, including dozens of elite level ones, which was equivalent to dozens of Superior Rulers.

It would not be easy to snatch the four life core fragments from under the nose of these monsters and escape.

"No matter what, I have to give it a try." Jian Wushuang made up his mind.

Immediately, he carefully approached the blood stone.

The concealing secret skill that Devil Flame had taught him was indeed impressive. He had clearly come to the vicinity of the monsters, but the monsters had not found any trace of Jian Wushuang.

Jian Wushuang was still slowly approaching.

His idea was very clear. First of all, he had to get as close as possible before the monsters found him. Only then could he reach the blood stone at the fastest speed, that was why he slowly approached.

He was very close. Jian Wushuang was already less than a mile away from where the monsters were gathered.

Suddenly...among the thousands of monsters, dozens of the strongest elite-level monsters raised their heads at the same time. It was obvious that they had noticed something.

“Charge!”

Jian Wushuang did not hesitate. The moment he saw the dozens of elite-level monsters raise their heads, he instantly burst out with his fastest speed.

He saw a pair of huge black wings spread out behind his back, and the Mystic Light Phantom movement technique burst out to the extreme. His aura soared into the sky, and his whole body was like a sharp sword, directly piercing into the monsters.

At the same time, a large amount of pitch-black and cold light crazily swept out.

These pitch-black and cold lights were layers of magic light.

Triple Magic Light Mirror, domain suppression!

In the Mystic Light Realm combined with the Celestial Light Wings, this terrifying domain covered an area of thousands of miles and suppressed thousands of monsters in this area.

“Roar! Roar! Roar!”

One after another, earth-shaking roars sounded.

These roars were accompanied by an unprecedented madness and anger.

The thousands of monsters in this area had been awakened. Countless violent auras locked onto Jian Wushuang almost at the same time, followed by a large number of dark red monsters.

However, Jian Wushuang’s speed was too fast.

He had tried to close the distance as much as possible. After being discovered, he immediately attacked with his fastest speed. In addition, the triple magic light mirror combined with the domain suppression effect of the Mystic Light Realm had greatly reduced the speed of those monsters, the speed of the monsters was greatly reduced.

When the monsters reacted and charged forward, Jian Wushuang had already charged into the group of monsters and was very close to the blood stone.

“The life core fragment is in front.” Jian Wushuang’s eyes flashed with an unprecedented firmness.

He could feel the soaring killing intent from all directions.

He did not care about the monsters that were coming at him from the back and from both sides. On the contrary, there were many monsters in front of him blocking his way.

He had no choice. After all, this was a group of monsters. Although he rushed in at the first moment, there were definitely monsters in front of him that would block him.

However, for Jian Wushuang, these obstructions could only be defeated head-on.

“Kill!”

The Netherworld Divine Sword appeared in Jian Wushuang’s hand. At this moment, Jian Wushuang did not dare to hide anything and unleashed his strongest strength almost at the first moment.

A dragon’s cry sounded, and 30% of the Magic Dragon Power of the Endless Devil Dragon Armor had been added to his body.

“Intruders, die!”

The monsters in front of Jian Wushuang all waved their arms. The two arms, which were like battle sabers, chopped down, and in an instant, a dense amount of saber light rushed toward Jian Wushuang, it was like a long river rushing toward Jian Wushuang.

Jian Wushuang pushed the mystic light phantom movement technique to the extreme. One after another, strange phantom lights flashed, and his figure easily passed through the gaps of the saber lights. Then, a dazzling sword light lit up.

“Get lost!”

With a low roar, a huge sword shadow descended like a waterfall from the nine heavens.

The sword light was cold and carried a terrifying power. It covered the bodies of more than a dozen monsters in front of them almost at the same time.

These monsters gathered their Qi to block with their arms, but in the end, more than a dozen figures were sent flying at the same time, including two monsters that had reached the elite level.

Jian Wushuang’s figure was not hindered at all. He rushed forward again, and at the same time, a cold sword light lit up.

An elite-level monster was still red-eyed and looked mad and angry. However, its body had been cut into two pieces by the Sword Light, and its life core was shattered on the spot.

An elite-level monster was comparable to a Superior Ruler among cultivators. However, under Jian Wushuang’s full power, it was killed in an instant.

It was slow to say, but in fact, from Jian Wushuang’s sudden attack into the monster crowd, to his brutal attack to repelling dozens of monsters in front of him, and then killing the elite-level monster, it was all done in an instant, in this short moment, the monsters behind Jian Wushuang and the monsters on both sides did not have time to get close to him.

However, Jian Wushuang had already defeated all the obstacles in front of him, and he had stepped on the blood stone.

As soon as he stepped on the blood stone, Jian Wushuang’s eyes immediately locked on the life core fragment closest to him.

Without hesitation, Jian Wushuang waved his hand, and the life core fragment was directly put into his interspatial ring.

"I got the first life core fragment." Jian Wushuang was pleasantly surprised, but when he raised his head to collect the second life core fragment, his expression suddenly changed.

"Oh no!"

Jian Wushuang looked in front of him. There were already more than a hundred monsters blocking his way, and a large number of monsters were crazily attacking him from both sides and behind him.

And they were very close to him.

In this situation, he had no time to collect the second life core fragment.

"Run!"

Jian Wushuang made a prompt decision and immediately turned around, wanting to escape.

But it was easy to rush in, but it was extremely difficult to escape from the monsters.

After all, there were no less than 100 monsters blocking his way in any direction.

Jian Wushuang instantly locked onto the direction in which he had broken in, and an overwhelming chill instantly spread out.

...

Chapter 3818: Hazy

"Hundreds of monsters?" Jian Wushuang's eyes were cold.

"So what? Those who block me will die!"

A sharp whistle came out of Jian Wushuang's mouth, and his eyes shone with a dazzling light.

Endless divine power swept out crazily.

At this moment, he had already brought out his strongest battle strength, except for the two trump cards, Devil Flame body and dragon-killing secret skill.

Buzz, buzz, buzz!

A strange sound suddenly sounded.

It seemed to be weird's voice, simple and low.

A gorgeous sword shadow spread out. The sword shadow was hazy and turned into a cloud of fog that spread out.

More than half of the hundreds of monsters in front of Jian Wushuang were covered by this cloud of fog.

These monsters, who had low intelligence and only knew how to kill Jian Wushuang at all costs, did not realize that this fog was extraordinary.

However, in just a moment, an extremely dazzling light flashed in the fog.

It was as if a sun had appeared out of thin air, but this 'sun' was extremely cold.

Sizzle sizzle sizzle!

The sound of wheat being cut sounded one after another. Under the dazzling light, the monsters were mercilessly cut open, and even the life core in their abdomen was shattered.

In just a moment, more than half of the hundreds of monsters in front of Jian Wushuang, including six that had reached the elite level, were covered in fog, their bodies all falling down.

With just one sword strike, more than 60 monsters of the ordinary level and six monsters of the elite level were killed.

The power of this strike was shocking!

"After cultivating for 10,000 years in the Second Heaven of the Red Cloud World, my understanding of sword principle has reached a whole new level. My understanding of the universe origin of sword principle is even comparable to that of a third-level Ruler. In the past 10,000 years, I created the strongest sword skill, hazy. Under the burst of my strongest power, even a second-level Ruler, Kun Yu, would be severely injured. These monsters, who don't even have an immortal body and are extremely stupid, could not survive my strike."

Jian Wushuang's eyes were cold. He was not surprised by the result of his sword attack.

After cultivating for ten thousand years in the Second Heaven of the Red Cloud World, he had greatly improved his sword principle and swordsmanship.

The strongest swordsmanship, hazy, contained profound universe origin of sword principle. It was indeed very easy to kill these low-intelligence monsters.

However, when Jian Wushuang used the most powerful sword skill, hazy, to kill the monsters in front of him, the monsters that came from all directions did not stay idle. Instead, they directly attacked him, although they were separated by a certain distance, there were still many densely packed saber lights coming toward Jian Wushuang.

The saber lights that came from all directions were extremely sharp and powerful.

The key was that the saber lights covered a wide area and Jian Wushuang could not dodge them.

"Earth Guard, come out!"

Jian Wushuang directly used his most powerful protective sword skill.

Buzz, buzz, a large amount of sword essence, together with a large amount of earthy yellow energy, instantly rose up and formed layers of earthy yellow Earth Sword Domain!

In the blink of an eye, Jian Wushuang had condensed a total of 32 Earth Sword Domains in front of him.

It must be known that when Jian Wushuang was challenging the peak of Heaven-Treading Mountain in the Red Cloud World, he was attacked by the Snow-White Ape-Man, the Three-Eyed Demon Woman, and the Stone Man. The Earth Sword Domain he used was only at the 13th level, but even if it was at the 13th level...his body-protection ability was also extremely powerful. An ordinary Superior Ruler would not be able to break it.

But now, 10,000 years later, when he used Earth Guard, he instantly condensed a total of 32 levels of the Earth Sword Domain!

From the 13th level to the 32nd level?

The improvement was too great.

And the Earth Guard was stronger and stronger.

In terms of body-protection power, the 32nd level of the Earth Guard Sword realm was definitely 10 times stronger than the previous 13 levels of the Earth Sword Domain.

The 32 levels of the earth-guarding sword domain covered Jian Wushuang's entire body, and the saber lights that came from all directions bombarded the earth-guarding sword domain like raindrops.

However, after a round of attacks, the 32 levels of the earth-guarding sword domain were only defeated by 16 levels, and only half of them were defeated.

"So weak?" Jian Wushuang could not help being surprised, but he quickly understood.

Although there were many monsters attacking him, and there were many saber lights that hit the Earth Guard Sword Domain in an instant, first of all, these saber lights were performed by the monsters from a long distance, the power of the saber lights would naturally be weakened while they were moving. Secondly, the monsters were attacking separately.

Their attacks were very single and did not gather together, so the impact on the Earth Guard sword domain was naturally not too big.

Such an attack could not threaten Jian Wushuang at all.

"Let's go!"

Jian Wushuang did not want to stay any longer.

He killed more than 70 monsters in front of him in one breath. There was already a gap in the monster horde in front of him, and his speed immediately reached its peak. With the help of the Mystic Light Phantom movement technique, he rushed out of the gap almost in an instant, he rushed out of the gap.

"I'm out." Jian Wushuang's eyes lit up, but before he had time to be pleasantly surprised, he found that the numerous monsters behind him were charging toward him like wasps.

On the way, the monsters hissed one after another. These hisses shook the sky, obviously calling for their companions.

"It seems that they have their eyes on me and vowed to kill me." Jian Wushuang frowned, but he was mentally prepared.

He knew very well that once he made a move, he would definitely be surrounded and killed by these monsters.

Moreover, not only the thousands of monsters guarding the life core fragment, but also a large number of monsters scattered in the Dark Magic Region would come.

What he needed to do now was to escape from the hands of these monsters.

“There are too many monsters. When they hear the call for help, a large number of monsters gathered in the Dark Magic Region will probably rush toward me. I don’t know how many monsters will gather here in a short time.” Jian Wushuang narrowed his eyes slightly.

“I don’t care. Since I’ve caused such a big commotion, I don’t care if it’s bigger.”

Jian Wushuang’s divine power surged. The Mystic Light Realm, which was originally combined with the Mystic Light Realm but only spread for thousands of miles around, suddenly became more powerful under Jian Wushuang’s control. The area it covered...also expanded at a terrifying speed.

In the blink of an eye, it spread for millions of miles from the first thousands of miles.

Suddenly, the deep void in the dark magic field was covered by dark magic light and completely fell into the Mystic Light Realm.

The large number of dark red monsters in the depth of this million miles were naturally alarmed.

Chapter 3819: Triple Obstacles

“There are so many monsters?”

Jian Wushuang used all his strength to activate the Mystic Light Realm, and at the same time, he covered the flowing lights with his soul power, so he could clearly sense the scene within a range of one million kilometers.

But when he saw it, he was completely stunned.

He had not used the Mystic Light Realm before, so he could only use his soul power to sense the area within a range of thousands of kilometers.

There was a huge difference between a radius of thousands of miles and a radius of a million miles.

There were too many monsters in this area.

There were at least tens of thousands of them.

“Intruder!”

“Kill, kill him!”

“Roar! Roar!”

Many monsters in this area were awakened by Jian Wushuang’s Mystic Light Realm.

A large number of monsters, some dozens of them gathered together, and some hundreds of them gathered together and rushed at Jian Wushuang from all directions.

Jian Wushuang was already in the center of these monsters.

"If so many monsters gathered together, even if I'm ten times stronger, I won't be able to resist them." Jian Wushuang's eyes widened.

Tens of thousands of monsters with the lowest strength could be comparable to an advanced Ruler? It would not be a problem for him to sweep across this Star Field. Jian Wushuang was strong, but he also had no room to fight against so many monsters.

"Run. I have to escape from the sight of these monsters. At least I can't let these monsters surround me. Otherwise, I'll be dead for sure."

Jian Wushuang's face was solemn. With the help of the Mystic Light Realm, he could easily sense the positions of the monsters within a million miles. Then, he burst out with his fastest speed.

With the help of the Celestial Light Wings, his speed was much faster than that of a superior Ruler. However, the monsters in the Dark Magic Region were not good at speed, even those at the elite level, were far slower than him.

He immediately ran as fast as he could. At least, the thousands of monsters chasing after him would not be able to catch up.

What he needed to do now was to try his best to avoid those monsters.

"There are about 40 monsters 3,000 miles ahead. Elite monsters and two monsters, quickly avoid them."

"There are more than 300 monsters in this direction. Let's escape!"

"We can't pass here. Let's go around them first."

Jian Wushuang relied on his ability to sense the positions of the monsters. He kept changing his direction within a million miles to avoid the groups of monsters that were attacking him.

However, after a while, Jian Wushuang frowned again.

"No, I can't continue like this." Jian Wushuang's face was cold.

"Although I can sense their position in advance and try to avoid them, my Mystic Light Realm is too 'dazzling'. Although these monsters are stupid, they can still sense the existence of this domain. Since there is a domain, they know that I am still in this area. Then, they will rush to the center of the domain and won't retreat. If this continues, when the surrounding area slowly shrinks, I won't be able to avoid it even if I want to."

Although the Mystic Light Realm could allow him to sense the monsters' location in advance, thus avoiding them.

At the same time, the Mystic Light Realm also allowed him to become a 'light' in the Dark Magic Region, exposing his location. The monsters could know that he was still in this region based on the domain, and he was definitely in the center of the domain, so they would naturally continue to attack him.

Maybe he could fight with these monsters for a while, but as time passed, more and more monsters gathered around him and the encirclement became more and more tight, he could not avoid them.

“At this point, there is only one way to get out of this predicament. It is to find an area within a million miles of the Mystic Light Realm where there are no monsters or fewer monsters and Rush there as fast as possible. Then, I will restrain the domain and hide myself,” Jian Wushuang thought.

It was easy for him to say, but in fact, he knew very well that although there were a few areas within a million miles where there were monsters fighting or where there were no monsters, the reason why the monsters in that area were fighting...was because the monsters that were originally gathered there were frantically rushing toward his location.

In other words, if he wanted to go there, he had to break through the obstacles of the large number of monsters in front of him. After careful calculation, Jian Wushuang found that it was almost impossible to avoid those monsters.

“There are four areas within a million miles that can allow me to hide safely. If I want to go to any of these four areas, I have to encounter a large number of monsters. I can’t avoid them, but in comparison, there is one area where I encounter fewer monsters along the way.” Jian Wushuang’s eyes were like lightning.

He relied on the Mystic Light Realm to control everything within a radius of one million miles, so he naturally knew the number of monsters in those areas.

There were many monsters in three of the four feasible areas. Jian Wushuang had to break through at least five to six obstacles and encounter many monsters in each of them.

In the last area, there were fewer monsters, but if he wanted to reach there, even if he tried to avoid them, he would at least encounter three monsters.

Jian Wushuang carefully studied the three layers of monsters. Fortunately, there were only about 100 monsters in the first layer, and less than 10 of them had reached the elite level, so they could not cause him too much trouble.

After all, with his hazy sword, he could completely defeat these 100 monsters head-on.

Although the number of monsters in the third layer was slightly more than that of the first layer, there were about 300 of them, but not many of them had reached the elite level. Jian Wushuang was confident that he could break through the obstacles of these monsters.

On the other hand, there were more than 700 monsters in the second level. Among them, there were no less than 40 elite level monsters. The obstacles of these monsters were much more difficult than the first level and the third level, it was much more difficult.

However, although it was difficult, it was much more difficult than the other areas.

In the other areas, there were even thousands of monsters.

“I have no choice but to break through!”

Jian Wushuang clenched his hands and his eyes flashed with a fierce light. He spread his wings and rushed toward the area where there were three layers of monsters.

On the way, he tried to avoid other monsters, but there was no way to avoid the three layers of monsters.

Soon, Jian Wushuang encountered the first layer of monsters.

...

## Chapter 3820: Escape

The first obstacle was the one with the least number of monsters and the easiest to break through.

Looking at the hundreds of monsters swarming in front of him, Jian Wushuang's eyes flashed with killing intent.

"Kill, kill it."

"Intruders, damn it, damn it!"

"Roar!"

The hundreds of monsters were crazy and violent. They did not know how to cooperate at all. The hundreds of monsters swarmed toward Jian Wushuang.

Buzz, buzz, buzz!

Clouds of fog surrounded them and spread rapidly.

Combined with the suppression effect of the Mystic Light Realm, more than half of the monsters were covered in an instant.

Then, a dazzling and chilling light suddenly lit up.

The strongest swordsmanship — hazy!

Almost instantly, more than half of the monsters were cut open by the dazzling sword light, and a large number of monster corpses fell down.

The first layer of monster obstacles collapsed in an instant.

Although there were still a small number of monsters that rushed up, Jian Wushuang could easily deal with them.

However, in a flash, Jian Wushuang had passed through this layer of monster obstacles.

However, Jian Wushuang was not happy at all. After all, among the three layers of obstacles, the first one was the easiest, so it was easy for him to pass through.

However, the second obstacle that he was about to encounter was his problem.

“There are almost 800 monsters in the second obstacle, and there are about 50 ‘elites’ who are comparable to a superior Ruler. It’s impossible for me to kill all of them. I can only rely on my speed to pass through them in the fastest time.” Jian Wushuang licked his lips.

In terms of strength, he was much stronger than these monsters.

And in terms of speed and movement, these monsters were far inferior to him.

Therefore, even if he faced 800 of these monsters head-on, he still had a chance to break through.

Very soon, Jian Wushuang encountered the 800 monsters in the second obstacle.

The 800 monsters gathered together and blotted out the sky and the Earth, rushing toward Jian Wushuang like a tidal wave.

As soon as they saw Jian Wushuang, the monsters attacked him from afar.

Jian Wushuang was not afraid at all. With the Earth Protection Sword Skill, he could easily block the saber lights with 32 earth sword domains.

This was why these monsters were inferior to human cultivators.

If Jian Wushuang were facing human Rulers instead of these stupid monsters, he would not dare to pass through them.

The human Rulers could cooperate with each other even though they were not familiar with each other.

Even without the support of the magic formation, the power of the 800 Rulers could be as powerful as a third-level Ruler, even with the protective sword skill, Earth Guard, Jian Wushuang could not resist the power of a third-level Ruler.

However, these monsters were far inferior to the human Ruler.

They did not know how to cooperate at all. They did not even know how to stack the simplest power. They could only stupidly attack on their own. Although there were many attacks, the power did not stack together, they could not pose much of a threat to Jian Wushuang.

Jian Wushuang withstood the attacks of these monsters and directly charged into the group of monsters.

Then, with the suppression of the realm, Jian Wushuang’s speed and the Strange Mystic Light Phantom movement technique burst out completely.

A strange figure flashed and changed unscrupulously in the group of monsters, easily passing through one monster after another. Even if Jian Wushuang blocked the way, he would directly attack and easily kill the other party.

However, the monsters could hardly catch Jian Wushuang’s shadow, not to mention that even if they did, they could not keep up with his speed. Moreover, they could not blindly attack him, after all, there were a lot of their companions around where Jian Wushuang was.

Therefore, Jian Wushuang did not encounter much resistance in the monster circle.

In just a moment, Jian Wushuang broke through the encirclement.

“It’s much easier than I expected.”

Jian Wushuang smiled faintly as he looked at the numerous monsters behind him who were still madly chasing after him.

The second obstacle was the most difficult of the three obstacles. Jian Wushuang thought that he would have to spend more effort to break through it, but he did not expect it to be so easy, although there were many monsters, they did not give him much pressure.

“Stupid!”

“Not only stupid, but there isn’t even a commander among these monsters.” Jian Wushuang sneered.

These 800 monsters were fighting on their own and acted according to their own consciousness.

If one of them was stronger, even if it was just the most basic commander, he would not have been able to break through it so easily.

“I passed through the second obstacle so easily. As for the third obstacle, it’s even easier.” Jian Wushuang smiled lightly.

Sure enough, it did not take long for him to encounter the third obstacle.

This time, there were only 300 monsters in front of him, so he passed through it easily.

Since then, he had completely passed through the three obstacles in front of him. The road in front of him was unimpeded. Jian Wushuang arrived at the area he had chosen with relative ease. Then, he immediately withdrew his domain, his aura was immediately concealed.

Without his domain, Jian Wushuang could no longer sense the monsters within a radius of one million miles. However, these monsters had also completely lost track of Jian Wushuang.

The latest\_epi\_sodes are on\_the [LIBREAD.COM](http://LIBREAD.COM). website.

A large number of monsters continued to frantically search for Jian Wushuang in the area. However, Jian Wushuang had already found a place to hide. These monsters did not even have the basic soul perception ability, they were like blind people, so of course, they could not find Jian Wushuang.

Behind a giant rock, Jian Wushuang was hiding here.

At this moment, he was sitting cross-legged in front of him. In front of him, there was a life core fragment that was emitting light.

“This life core fragment, what a strange feeling.”

Jian Wushuang just stared at the life core fragment in front of him.

Although he had obtained this life core fragment from the boulder, he had been running all the way and had no time to check it out.

Only now was he able to observe the life core fragment up close.

This life core fragment was actually a small, white, elite-sized piece. However, within this small white piece, there was an extremely unique aura.

Jian Wushuang had already sensed the extremely rich universe laws contained in the white piece!

Obviously, he had told Devil Flame that the life core fragment could indeed help him to comprehend the universe principles.
