

Swordsman 3821

Chapter 3821: Just a Little Bit More!

“Devil Flame, what should I do now?” Jian Wushuang asked.

“Master, you should be able to sense the special power contained in this life core fragment, right?” Devil Flame said.

“Yes.” Jian Wushuang nodded. “This power contains very rich universe principles.”

“Of course, it’s the power of the universe, and it’s a unique symbol of the Immortal Ghost. As long as the Immortal Ghost grows to the peak, he can reach the supreme-being level because his life core contains the power of the universe. By relying on the power of the universe, he can easily comprehend the universe principles.” Devil Flame smiled.

“However, the Immortal Ghost has already died and his life core has already been shattered. The life core fragment you have now should contain very little power of the universe, but it’s still very useful to you. You can choose to directly absorb the power of the universe from the life core fragment.”

“Directly absorb?” Jian Wushuang was stunned and immediately said, “That’s the power of the universe. I’m just a Principles Master. If I absorb the power of the universe, wouldn’t I be courting death?”

“Don’t worry, master. The power of the universe is indeed incredible. Even an expert at the supreme-level can’t withstand it. Perhaps those universe overlords who are already invincible among the supreme-level are qualified to think about the power of the universe. Of course, you can’t withstand the power of the universe, but you won’t,” Devil Flame said.

“What do you mean?” Jian Wushuang frowned.

“In fact, it’s very simple. The cycle of the universe has its own principles. It’s impossible for people to easily master such incredible power as the power of the universe. So, master, you absorb the power of the universe in the life core. As a result, although the power of the universe is absorbed, it will immediately dissipate in your body.”

“However, the dissipation process of the power of the universe is completed in your body. Although most of the universe principles contained in it will also gradually dissipate, you can completely grasp a trace of the universe principles during this process. Master, do you understand what I mean?” Devil Flame said with a smile.

Jian Wushuang raised his eyebrows. He already understood what Devil Flame meant.

It was true that the power of the universe was the ultimate power of the vast universe. It was even more sublime than the universe principles, and even supreme experts could not touch it.

But what he wanted to master was not the power of the universe, but the trace of the universe principles contained in the power of the universe.

Just like an ordinary person, it would be impossible for him to fight against an invincible army.

However, if he was asked to fight against an ordinary soldier in the army, he would have a great chance.

That was the reason.

“Yes, what I want to comprehend is just a trace of the universe principles. As for the power of the universe, it has nothing to do with me.” Jian Wushuang smiled and felt relieved.

“Master, you try it first,” Devil Flame said.

“Okay.” Jian Wushuang nodded.

He could not completely trust Devil Flame.

Although Devil Flame said that there would be no danger in absorbing the power of the universe, Jian Wushuang felt that it made sense and was willing to try. However, he was very careful in the process of trying. If there was even the slightest error...he would immediately stop.

However, it was obvious that Jian Wushuang was overthinking.

The process of absorbing the power of the universe was very smooth and did not encounter any danger.

Moreover, after the power of the universe entered his body, as Devil Flame had said, it immediately began to dissipate. The process of dissipating did not cause him any harm.

This made Jian Wushuang slowly let down his guard, and then he began to carefully meditate.

The universe was vast and unpredictable.

The power of the universe was even more supreme. It could not even be compared to the universe principles.

The Immortal Ghost possessed some universal power in his life core because he was blessed. Jian Wushuang had only obtained a small fragment of his life core, which contained only a trace of universal power, however, this trace contained a lot of universe principles.

During the process of the universal power dissipating, a large number of universe principles contained in the universal power gradually dissipated.

Jian Wushuang could feel this process very clearly.

At this moment, he was the closest to the universe principles.

Although the level of the universe principles had descended, it was only on the surface of his body. Moreover, when the universe principles descended, he could only sense the power of the universe principles.

However, this time, the universe principles dissipated from his body. Although it was said to be dissipating, it was actually breaking down and transforming into something else.

This process and the feeling at such a close distance helped him a lot.

“The universe principles, this is the universe principles?”

At this moment, Jian Wushuang directly saw the essence of the universe principles and knew how the universe principles were formed.

His understanding and understanding of the universe principles became higher and higher, and he was getting closer and closer to comprehending it.

“Soon, I will be able to comprehend it.”

Jian Wushuang was overjoyed. He could feel that he had made great progress in the universe principles.

But suddenly...buzz!

The life core fragment, which was emitting a dazzling light, shook slightly, and the light immediately dimmed. Then, with a bang, the fragment completely exploded.

The power of the universe absorbed by Jian Wushuang was immediately cut off.

Without the power of the universe, naturally, there would be no dissipation of the universe principles.

Jian Wushuang’s body completely calmed down.

“No!”

Jian Wushuang suddenly opened his eyes and let out a roar. There was a deep sense of unwillingness in his eyes.

However, Jian Wushuang was extremely unwilling.

The latest_epi_sodes are on_the LIBREAD.COM. website.

He clearly felt that he was about to comprehend the universe principles. It could even be said that he had already stepped into the threshold of the universe principles.

But in the end, at the most critical moment, the power of the universe in the life core fragment was exhausted.

His comprehension immediately stopped.

He was stuck there. He was infinitely close to comprehending the universe principles, but in the end, he was still a little bit off.

Yes, just a little bit away, a very, very small distance.

But without the power of the universe, this little bit was also a heaven and earth slave.

“How could this be? I’m about to comprehend it, but I’m just a little bit away.”

Jian Wushuang clenched his hands and roared crazily. He was also extremely shocked and angry.

It was as if the heavens were playing a joke on him. He was about to comprehend the universe principles, but once he did, he would be able to reach the sky in one step. Not only would his strength increase dramatically, but he would also be able to pass the test of the second heaven of the Red Cloud World, he would also be able to grasp the Heaven Suppressing Tablet.

However, at the last moment, he suddenly stopped.

...

Chapter 3822: One More Time?

The Life Core Fragment had completely shattered and dimmed. This opportunity had indeed ended.

However, Jian Wushuang's comprehension of the universe magic formation was still a little bit lacking.

Perhaps Jian Wushuang would spend some time in the future to comprehend this little bit, but it was also possible that he would still be stuck at this step.

"What should I do? Do I have to snatch another Life Core Fragment?" Jian Wushuang asked in a low voice.

Although he did not encounter too much danger during the process of snatching a Life Core Fragment, it was also quite difficult.

It should be known that the reason why he succeeded this time was that the monsters did not have much protection. But after this, he was sure that the protection of the Life Core Fragments by the monsters would be much stronger than before, in addition, he had obtained the nearest and easiest Life Core Fragments on the Blood Stone, but the other three Life Core Fragments were not so easy to obtain.

Under such circumstances, the risk of Jian Wushuang snatching them was much greater than before.

However, under such circumstances, the only way for him to comprehend a trace of the universe principle as soon as possible was to seize the Life Core Fragments.

"I have to risk it, no matter how big the risk is!"

"Moreover, I came to the Dark Magic Region to take risks and find the feeling of being on the verge of death. Now that such a great opportunity is in front of me, how can I retreat? I must find a way to get the second Life Core Fragment."

Jian Wushuang clenched his hands and made up his mind.

However, although he had made up his mind, he did not act immediately.

After all, he had just obtained the first Life Core Fragment, which had caused a huge commotion in the Dark Magic Region and alarmed a large number of monsters.

Now that the Dark Magic Region had not completely calmed down, and the countless monsters were still frantically searching for him, it was naturally not a good time for him to continue taking risks.

He had to wait for a while until the Dark Magic Region gradually calmed down and the monsters stopped frantically searching for him. Only then would he be able to move.

Behind the boulder, Jian Wushuang concealed his aura and carefully hid himself.

During this period, many monsters passed by him, but they did not discover his existence.

He hid himself for an entire year.

After a year, Jian Wushuang's soul perception found that there were almost no monster swarms in a radius of thousands of miles around him.

Obviously, the previous storm had gradually quieted down.

The Dark Magic Region also returned to its previous calm.

Jian Wushuang, who had been in hiding for a whole year, also set off again.

He had been running for a long time, so he was quite far away from the Blood Stone with the Life Core Fragment. However, he had remembered his escape route, therefore, he could still find the Blood Stone.

However, he had been running at his fastest speed, so it took him only a short time to reach this area.

But now, he had to be careful and avoid the monsters around him. His speed was much slower. It took him several days to get back to the surroundings of the Blood Stone.

When he came back here, Jian Wushuang was stunned when he saw the scene in front of him clearly.

In his soul perception, the remaining three Life Core Fragments on the Blood Stone were still intact and floating on it. But around the Blood Stone, there were countless dark red monsters, in terms of numbers, there were many more dark red monsters than before.

When Jian Wushuang came to snatch the Life Core Fragments a year ago, there were only about 1,000 monsters around the Blood Stone.

But now, there were about 6,000 to 7,000 dark red monsters around the Blood Stone. In terms of quality, there were more than 200 elite level monsters.

Most importantly, Jian Wushuang sensed two extremely violent and terrifying auras among the 6,000 or 7,000 monsters.

"Those two monsters..."

Jian Wushuang immediately locked onto the two monsters.

They looked like normal dark red monsters, but they were obviously larger than the other monsters. Moreover, their eyes were dark red and cold.

"They are stronger than those elite monsters!" Jian Wushuang's face was ugly. "We are in big trouble!"

They were indeed in big trouble.

Although he had guessed that with the previous robbery, these monsters would be more vigilant and protect the Life Core Fragments more strictly, Jian Wushuang thought that at most there would be more monsters around.

He did not expect that there would be 6,000 to 7,000 more.

The latest_episodes are on the LIBREAD.COM website.

Most importantly, there were two monsters with even more terrifying auras inside.

Those two monsters were obviously not comparable to those monsters at the elite level, it should be known that the battle strength of monsters at the elite level was comparable to that of a human Superior Ruler. And now, these stronger monsters might have reached the level of a second-level Ruler, when Jian Wushuang sensed the two monsters, he also sensed a very dangerous aura from them.

Obviously, these two monsters could pose a threat to him.

“If I don’t use my trump card, my strength will explode to the maximum. With my comprehension of the sword principle origin, my battle strength is also at the level of a second-level Ruler. I can even defeat a first-level master like Master Kun Yu with my swordsmanship. However, the two larger monsters in the monster horde are slightly stronger than Master Kun Yu in terms of battle strength.”

“There are two of them and six to seven thousand other monsters around. It’s too difficult for me to break in and take the Life Core Fragment and escape unscathed.” Jian Wushuang frowned.

Obviously, it was ten times more difficult than the first time he took the Life Core Fragment.

“I thought the most powerful monsters in the Dark Magic Region were those at the elite level, but it seems that’s not the case. The two bigger monsters I saw now should be called ‘general-level’ monsters.” Jian Wushuang had given the two bigger monsters a title.

A general-level monster’s battle strength was comparable to a second-level Ruler.

“Fortunately, although these two monsters are stronger, their perceptive ability is not much stronger than an elite-level monster. I hide in this void and hide my aura, so these two monsters won’t be able to find me.” Jian Wushuang narrowed his eyes. “No rush. I’ll wait here and see if the two general-level monsters will leave this place.”

...

Chapter 3823: General-Level Monsters

Jian Wushuang did not choose to attack immediately.

He knew very well that the two general-level monsters were not around when he came here to snatch the life-seizing core fragment.

Not only were they not guarding the Blood Stone, but they were also not in this area.

Otherwise, why did he not see such a general-level monster when he made such a ruckus and was surrounded by countless monsters.

Obviously, these two monsters came from other areas in the Dark Magic Region, such as...deeper.

Since they were not in this area, and they knew that the Life Core Fragment had been snatched, they would probably leave after the area gradually calmed down, they would return to where they had been.

If the two general-level monsters left, it would be much easier for Jian Wushuang to snatch the Life Core Fragment.

Therefore, he had to wait.

However, Jian Wushuang did not expect that after waiting around for three years, the two general-level monsters had no intention of leaving.

"It's been three years and there has been no movement. It seems that the two general-level monsters do not intend to leave." Jian Wushuang's face was a little ugly.

The Dark Magic Region had been peaceful on three sides, but the two general-level monsters had no intention of leaving. This meant that the two general-level monsters would probably be waiting here in the future.

This also proved that these monsters really valued the Life Core Fragment very much.

Perhaps one day, the two general-level monsters would leave, but who knew how long it would take.

.....

Jian Wushuang could not wait.

He did not plan to wait any longer.

"I have no choice but to fight." Jian Wushuang's eyes flashed with a cold light, and he began to plan in his heart.

The fight this time was much more difficult than the last time. Last time, he had confidence in his own strength, so he did not have a detailed plan and directly charged in.

But this time was different.

After a while, Jian Wushuang set off.

Just like the last time, Jian Wushuang tried to get as close to the Blood Stone as possible, but because of the heightened vigilance of the surrounding monsters and the presence of the two general-level monsters, Jian Wushuang did not get too close, he was discovered.

"Roar!"

A roar filled with shocking anger suddenly echoed in the world.

The Dark Magic Region, which had been silent for four years, began to tremble again.

There were about 6,000 or 7,000 monsters guarding around the Blood Stone, and they immediately reacted when they heard the roar.

An overwhelming killing intent instantly swept up.

"Intruder!"

"It's him, it's him again!"

"Die, die, kill him!"

These monsters almost instantly locked onto Jian Wushuang. At the same time, they saw Jian Wushuang's figure and could not help but become even angrier.

Although they were not very intelligent, they were very vengeful.

Four years ago, this human cultivator suddenly barged in here, stole one of their holy objects, killed many of their companions, and left.

These monsters were already extremely angry and hated this human cultivator.

But now, this human cultivator had actually returned. It seemed that his goal was the same as before, to snatch their holy objects!

How could they let this human succeed in snatching them twice in a row?

Countless monsters soared into the sky.

This time, it was obvious that Jian Wushuang was slower. Before he could step on the Blood Stone, there were already close to 1,000 monsters blocking in front of him, it was one of the two general-level monsters.

The two general-level monsters did not stay together, but they were separated by a distance. When Jian Wushuang suddenly attacked, although the two general-level monsters reacted, one of them was close to Jian Wushuang, naturally, they blocked in front of him at the first moment, but the other one was on the other side, but it had already begun to rush over.

"Human cultivator!"

The dark red eyes of the general-level monster in front of Jian Wushuang were emitting a heart-palpating light.

"It's you! You robbed our clan's holy item? Now you dare to rob it again?" This general-level monster was obviously more intelligent than the other monsters, but it was not much more intelligent.

"Die!"

With a loud roar, the general-level monster and the thousands of ordinary and elite-level monsters behind it crazily attacked Jian Wushuang like a tide.

"Not good."

Jian Wushuang's face slightly changed.

He found that the general-level monster was much faster than ordinary elite-level monsters. In almost an instant, the general-level monster appeared in front of him, and its two arms, which were like battle sabers, had been raised high.

Whoosh!

Two cold saber lights, with a shocking chill, crossed and directly chopped down.

The space was mercilessly torn apart by the two saber lights.

In terms of the power of the saber lights and the exquisiteness of the saber skills, the general-level monster was far more powerful than an elite-level monster.

Facing the two saber lights, Jian Wushuang did not dare to be careless. He immediately unleashed his power and waved the Netherworld Divine Sword in his hand.

The same tyrannical sword light slashed out and collided head-on with the two saber lights.

Clang!

A crisp collision sound rang out, and the faint red fog that had been lingering in the Void was dispersed by the impact of the power.

Jian Wushuang's body trembled slightly, and he actually retreated several steps in a row.

The general-level monster only leaned back slightly, and then took large strides and continued to attack Jian Wushuang.

"So powerful!"

A trace of shock flashed in Jian Wushuang's eyes.

He had already unleashed his power to the limit with that sword move. Combined with his swordsmanship, he could easily crush an ordinary Superior Ruler. However, he was clearly at an absolute disadvantage in a head-on collision with this general-level monster.

In terms of power alone, this general-level monster had at least reached the limit of a second-level Primary Ruler, and its saber skill was also very impressive.

"This general-level monster is much more difficult to deal with than those elite-level monsters. Let's go!"

After fighting with the general-level monster for a moment, Jian Wushuang turned around and fled without hesitation. He stretched out his Celestial Light Wings and burst out his speed.

What was interesting was that although Jian Wushuang seemed to be fleeing, he did not burst out his fastest speed in an instant.

Instead, he maintained his speed to a certain extent so that at least a large number of monsters behind him could feel that they had a chance to chase after him.

As expected, as soon as Jian Wushuang fled, these crazy monsters, led by the two general-level monsters, directly chased after Jian Wushuang.

At the same time, a series of earth-shaking roars sounded continuously. They were also constantly summoning their companions around them.

Jian Wushuang turned his head to look at the void behind him. He found that more than half of the 6,000 or 7,000 monsters guarding the Blood Stone had caught up with him, especially the two general-level monsters, Jian Wushuang's eyes lit up.

...

Chapter 3824: Slaughter Crazy (Part One)

“Come and kill me.”

With a wicked smile, Jian Wushuang spread his Celestial Light Wings and fled in front of him.

Behind him, more than 4,000 monsters, led by the two general-level monsters, were madly chasing after him.

At the same time, the monsters along the way were roaring and calling the nearby monsters to surround and intercept him.

Jian Wushuang had fled for hundreds of thousands of miles, while the monsters were still far behind him.

“It’s almost time.” Jian Wushuang narrowed his eyes and immediately changed his direction, so did the monsters.

Then, Jian Wushuang made another turn on the way, and then he went in the direction he had just fled in, which was the Blood Stone where the three Life Core Fragments were.

It was equivalent to Jian Wushuang taking a detour on the way back.

The difference was that he was now going back the same way, but the thousands of monsters were still following behind him.

“I took these monsters in such a big circle in order to bring them behind me. Now, there are at most 2,000 monsters guarding the three Life Core Fragments. Most importantly, without the presence of the two general-level monsters, the resistance of only 2,000 monsters is much easier than the previous 6,000 to 7,000 monsters and the two general-level monsters. I have a chance to break in and take the Life Core Fragments.”

There was a cold smile on Jian Wushuang’s face.

Luring the tiger away from the mountain was Jian Wushuang’s plan this time.

He used himself as bait to lure out most of the monsters that were guarding around the Blood Stone and then took them around in a big circle. Although they had returned, these monsters were behind Jian Wushuang, they were not in front of him.

.....

This gave Jian Wushuang the opportunity to snatch the Life Core Fragment.

“Speed up.”

Jian Wushuang’s eyes flashed with a sharp light. He no longer hid his speed. He directly rushed toward the Blood Stone at his fastest speed.

The large number of monsters behind him could follow Jian Wushuang at first, but that was because Jian Wushuang was deliberately controlling his speed. Now that Jian Wushuang was at full speed, it was

difficult for them to keep up, only the two general-level monsters could barely keep up, but the distance between them and Jian Wushuang was still slowly increasing.

“Haha, these monsters are really stupid. They don’t even know that I fooled them.”

Jian Wushuang grinned. Under his full speed, he quickly returned to the area where the Blood Stone was.

The three Life Core Fragments were still intact floating on the Blood Stone.

When Jian Wushuang approached the area again, more than 2,000 monsters who were guarding around the Blood Stone were awakened because of his unrestrained speed.

When Jian Wushuang arrived at the area and saw the Life Core Fragments on the Blood Stone, the 2,000 monsters had already gathered together and locked onto Jian Wushuang.

The 2,000 monsters were standing in front of Jian Wushuang.

Although most of the 2,000 monsters were at the ordinary level and a few were at the elite level, they were still there.

If it were not for the Life Core Fragment, Jian Wushuang would have turned around and left without hesitation if he saw so many monsters in front of him.

But now, he had no choice.

“Charge!”

Jian Wushuang’s eyes flashed with a terrifying killing intent. The Netherworld Divine Sword in his hand emitted a cold light, and a surge of sword essence soared into the sky.

Buzz, buzz, buzz. A large amount of black magic light swept out in a mighty manner.

The Triple Magic Light Domain, combined with the Mystic Light Realm, had been used.

This domain temporarily suppressed the surrounding area for thousands of miles, and it suppressed the more than 2,000 monsters in front of him.

Then, Jian Wushuang’s figure approached the monsters in front of him at an astonishing speed.

The 2,000 monsters were also filled with killing intent, and they rushed toward Jian Wushuang like wasps.

At first glance, it seemed as if an ant had entered a hornet’s nest.

But in fact, this ‘ant’ had an incredible destructive ability.

Ordinary wasps could not stop this ‘ant’ at all.

“Hua! Hua! Hua! Hua! Hua! Hua! Hua! Hua!”

Numerous saber lights came at Jian Wushuang from all directions.

There were so many saber lights coming at him from all directions. No matter how powerful and strange Jian Wushuang's body movements were, he could not dodge these overwhelming saber lights.

He simply did not bother to possess them and directly used the earth protection sword skill. The 32 Earth Sword Realms burst out with extremely tough power and blocked all the saber lights, but only weakened himself by 20 or so layers.

Then, Jian Wushuang came into close contact with these monsters.

His sword skill also exploded in an instant.

Buzz, buzz, buzz!

The hazy fog rushed out like a tide.

The strongest sword skill...hazy!

Facing the resistance of more than 2,000 monsters, Jian Wushuang did not care about the consumption of divine power.

Now, he had to rush through these monsters as fast as possible, rush to the Blood Stone, and get the Life Core Fragment.

The Life Core Fragment was his ultimate goal.

As long as he could get the Life Core Fragment, he would pay any price.

The hazy fog swept out and killed dozens of monsters in an instant. Jian Wushuang also used his Mystic Light Phantom movement technique to the extreme. His movement technique was unpredictable and he dodged time and time again, most of the monsters surrounding him could not catch his figure.

He used his swordsmanship to kill his enemies while relying on his movement skills to get as close to the Blood Stone as possible.

Although there were many of these stupid monsters who did not know how to cooperate, they were unable to stop Jian Wushuang's advance.

However, Jian Wushuang did not dare to delay. After all, he was using his domain, movement skills, and his strongest swordsmanship at full strength. Facing the attacks of so many monsters, the consumption of his divine power was too great. Even if he had a perfect life and vast divine power...however, he did not dare to be careless when it was consumed like this.

After all, there were still a large number of monsters coming from the rear, especially the two general-level monsters. Jian Wushuang's soul power had already sensed their existence. These two general-level monsters would soon arrive on the battlefield.

"Die!"

Jian Wushuang's eyes were scarlet. He had gone completely mad with killing.

He did not care about the consumption of his divine power. He killed the monsters in front of him in a frenzy and cut a bloody path through the obstacles of the 2,000 monsters as fast as he could.

He did it.

Although he had killed only 300 of the 2,000 monsters, he had already passed through the obstacles with his movement skills. Then he appeared on the Blood Stone.

Chapter 3825: Slaughter Crazy (Part Two)

“Life Core Fragment!”

Jian Wushuang immediately locked onto the remaining three Life Core Fragments on the Blood Stone.

He did not hesitate to put the nearest Life Core Fragment into his interspatial ring, but he could not collect the remaining two Life Core Fragments.

Because the monsters had surrounded him.

Not only the 2,000 monsters that had blocked him, but also the two general-level monsters and the monsters that had been summoned by him.

Now, there were more than 10,000 monsters gathered around Jian Wushuang!

He was surrounded by more than 10,000 monsters. Jian Wushuang only felt that he was surrounded by monsters. These monsters even blocked his vision, making it impossible for him to get close to the other two Life Core Fragments.

“I absorbed the power of the universe from one Life Core Fragment, so I’m just a Little Bit away from comprehending the universe principle. One Life Core Fragment is enough. I don’t care if I can’t get the other two Life Core Fragments.” Jian Wushuang did not care about the two Life Core Fragments.

The most important thing for him now was to escape from the encirclement of tens of thousands of monsters.

“I have to fight with my life.”

Looking at the countless dark red monsters around him, Jian Wushuang’s heart was extremely heavy.

The monsters around him were completely furious when they saw Jian Wushuang take away the second Life Core Fragment.

The Life Core Fragment was their holy item. Previously, the human had taken one away from them, but now he had taken the second one away in front of them.

.....

They could not tolerate this!

They could not tolerate this human trampling on their race.

They had to kill this human.

No matter what price they had to pay, even if they all died here, they would not allow this human to escape.

“Kill, kill him!”

“Kill the human!”

“He deserves to die!”

A series of earth-shaking roars sounded one after another, and countless ordinary and elite level monsters rushed toward Jian Wushuang from all directions.

The two general-level monsters were also the first to charge in front of Jian Wushuang.

A trace of madness flashed in Jian Wushuang’s eyes. “Then let’s kill!”

Boom!

Jian Wushuang’s body suddenly shook, and his body also felt a burst of heat. Then, the divine power in his body, like dry wood encountering a raging fire, immediately began to burn crazily.

Dragon Killing Secret Skill, Divine Power Burning.

Jian Wushuang had already used his trump card. The pain of burning divine power made Jian Wushuang’s expression a little ferocious, and his eyes were scarlet.

However, as his divine power burned, his strength also increased dramatically.

“Human, die!”

The two commander-level monsters roared and appeared in front of Jian Wushuang first, one on the left and one on the right.

They were much larger than the other monsters, and their two saber-like arms were longer and sharper.

The sound of space being cut was heard.

The two general-level monsters waved their arms at the same time, and dazzling saber lights descended. The two saber lights were different, but they carried a shocking violent aura, as if they could split the heaven and earth.

“Get lost!”

Jian Wushuang just glanced at the two commander-level monsters coldly, and then he swept the Netherworld Divine Sword in his hand.

The shocking power, along with the rich universe origin of sword principle, swept across. In the void, one could vaguely see waves of sword essence spread out. It was the power of sword essence that had reached a certain level, it was the wave of sword essence that could be formed just now.

The two general-level monsters did not feel the slightest fear when they saw the sword essence fluctuation.

It was because one of them had fought with Jian Wushuang before. It was also a head-on collision. In that collision, Jian Wushuang was at an absolute disadvantage.

In a one-on-one fight, this human was not their opponent, not to mention that they were fighting against one at the same time.

In their eyes, the human was doomed.

In fact, when Jian Wushuang's terrifying sword light, which contained sword essence waves, hit their arms, the two commander-level monsters immediately felt an unprecedented power coming from their arms, this power was almost enough to cut off their arms.

It was too strong.

The sharp power that could cut through everything was ridiculously strong.

The two general-level monsters opened their eyes and let out a low roar at the same time. Then, their huge bodies flew backward like two mountains and hit many ordinary and elite level monsters along the way.

With a casual sword strike, they defeated the two general-level monsters easily.

This was the astonishing strength that Jian Wushuang possessed after using the Dragon Killing Secret Skill.

"When I use the Dragon Killing Secret Skill, my power is much stronger than the advanced Ruler of the second level. My understanding of sword principle is at the third level. These two general-level monsters are only at the Primary Ruler of the second level, and their saber skills are far inferior to mine. Do you want to fight me in a two-on-one fight?" A trace of disdain flashed across the corner of Jian Wushuang's mouth.

Without using the Dragon Killing Secret Skill, these two general-level monsters were qualified to threaten him. However, once he used the Dragon Killing Secret Skill, he would definitely be able to defeat these general-level monsters.

"Kill my way out."

After defeating the two general-level monsters, Jian Wushuang did not stop at all.

The violent sword essence surged crazily, and Jian Wushuang seemed to have turned into the core of a storm.

The terrifying sword essence storm swept across the entire battlefield. He waved the Netherworld Divine Sword one after another. With his current power, his casual sword move was stronger than the hazy swordsmanship that he had used with all his strength, one sword move could easily kill dozens or even hundreds of monsters. Each sword move was unstoppable.

Countless monsters were swept by the swordsmanship, and in an instant, they were torn into pieces. Even their life cores were shattered on the spot.

Jian Wushuang was now a killing machine, killing crazily.

He killed all the monsters in front of him.

Even the two strongest general-level monsters were easily defeated by Jian Wushuang. These tens of thousands of monsters did not know how to cooperate with each other, so who among them could stop Jian Wushuang?

The answer was no.

Jian Wushuang was completely mad.

It was a one-sided slaughter.

These monsters, whose battle strength was comparable to an advanced Ruler and a Superior Ruler, were as weak as ants in his hands.

Except for the two general-level monsters, no other monsters on the battlefield could withstand his sword.

In a short while, Jian Wushuang had killed thousands of monsters.

However, by burning his divine power with the Dragon Killing Secret Skill, Jian Wushuang consumed his divine power much faster than before.

Chapter 3826: There Was Nowhere to Run

After getting the Life Core Fragment from the Blood Stone, Jian Wushuang saw that he was completely surrounded by tens of thousands of monsters. He immediately used the Dragon Killing Secret Skill, it had only been a short while, but he had used up 40% of his divine power. Including the previous consumption, he had less than 50% of his divine power left.

However, Jian Wushuang finally opened a crack in the encirclement of thousands of monsters.

The crack was very small, and the monsters coming from other directions could easily fill it up again. However, Jian Wushuang still seized the opportunity.

Jian Wushuang spread his Celestial Light Wings crazily. He tried his best to activate the power of his Celestial Light Wings, and then he used the shadow movement technique to move crazily among the monsters.

In the blink of an eye, he had already rushed to the edge of the battlefield.

“Kill!”

He swept his sword essence, and in an instant, countless tiny sword shadows burst out.

These tiny sword shadows scattered on the monsters in front of him like drops of rain.

Suddenly, one monster after another was pierced through the abdomen, and a large number of monster corpses fell at the same time.

Sword Rain —

The group attack swordsmanship created by Jian Wushuang.

The power of this swordsmanship was not very strong. After all, it was scattered too much and could only be used to kill some weaklings.

However, after using the Dragon Killing Secret Skill, his battle strength was extremely strong. He was probably close to a Ruler at the peak of the second level. In the face of such strong battle strength, these monsters, which only had the advanced level of the first level and the peak of the Ruler level, were weaklings.

.....

As the Sword Rain covered the area, the sword shadows, which were like raindrops, could easily kill one monster after another.

Another group of monster corpses fell down. At this moment, there were less than 100 monsters blocking Jian Wushuang's way.

Jian Wushuang's speed reached its peak. He killed and rushed at his fastest speed. Finally, he broke out of the encirclement of more than 10,000 monsters.

"I'm out, I'm finally out!"

Jian Wushuang was overjoyed.

He had broken out of the encirclement of more than 10,000 monsters. Although he would be chased and blocked by a large number of monsters, he had a lot of leeway to fight back.

"Run, run as fast as you can!" Jian Wushuang did not dare to stop and ran forward.

His speed was already extremely fast. After using the Dragon Killing Secret Skill, his speed had increased greatly. It was far from what the monsters behind him could compare to. Even the two general-level monsters...were also much slower than Jian Wushuang.

Jian Wushuang could easily shake off the monsters behind him.

However...

While Jian Wushuang was being surrounded by tens of thousands of monsters, a large number of monsters had rushed over. Now, there were a large number of monsters around Jian Wushuang.

Without hesitation, Jian Wushuang directly released the Triple Magic Light Domain to its maximum, covering an area of a million miles. His soul power was covered within the Magic Light Domain, he immediately sensed the existence of many monsters within a million miles of him.

"Oh my God."

After seeing the scene within a million miles of him, Jian Wushuang was a little dumbfounded.

There were too many, too many.

Perhaps it was because of the previous robbery that these monsters were on guard. Now, there were far more monsters gathered around the Life Core Fragment than when he first snatched it, Jian Wushuang

only felt that the area within his domain was filled with the aura of monsters. Almost all of them were hundreds or thousands of monsters gathered together.

At a glance, there were definitely more than 100,000 monsters rushing over from all directions within a million miles!

100,000 monsters!

This number was too terrifying.

Although he had just escaped from the encirclement of more than 10,000 monsters, only he knew how much divine power he had consumed in that short period of time. In that encirclement...he could not last long, so he had to kill his way out as quickly as possible.

However, with his remaining divine power, if he was surrounded by more than 10,000 monsters, he was not confident that he could kill his way out again.

Not to mention, there were more than 10,000 monsters surrounding him.

The thought of being surrounded by 100,000 monsters made Jian Wushuang's scalp tingle.

"I have to escape. I have to think of a way to escape. I can't be surrounded by these monsters." Jian Wushuang was a little frightened.

As for the Dragon Killing Secret Skill, he immediately stopped using it after he had shaken off the 10,000 monsters.

After all, this secret skill consumed too much divine power. In just a short while, he had less than 50% of his divine power. If he continued to burn it, his divine power would soon be exhausted, at that time, he would not need the monsters to attack. He would die because his divine power was exhausted and his divine body would lose its vitality.

Jian Wushuang fled while thinking of a way.

His soul power could clearly see the number and location of all the monsters within a million miles.

"There are too many monsters surrounding me this time. I can't break through the obstacles like last time and find a place without monsters to hide. I even feel that I can't break through this blockade." Jian Wushuang's face was unsightly.

Yes, he found that although those monsters were less intelligent, they still had some basic common sense. Moreover, the two general-level monsters were obviously more intelligent.

The two general-level monsters knew that they were surrounded by them. They could even find Jian Wushuang's location through their domains. The most important thing was that there were too many monsters. There were so many monsters...the two general-level monsters could order them to form a huge encirclement net without leaving any gaps, making it almost impossible for them to escape from their encirclement.

The monsters could still do such a simple encirclement under the command of the general-level monsters.

“Now that I’m in their encirclement, they only need to slowly approach me. When the encirclement shrinks, they will naturally be able to find me easily. My best way now is to find the weakest place to rush out before their encirclement shrinks completely, but...” Jian Wushuang frowned deeply.

He wanted to think of a way to break out of the encirclement now.

However, he discovered that even the weakest part of the encirclement could easily gather up to 10,000 monsters in a short period of time.

In other words, if he wanted to break out of the encirclement, he would at least have to face a huge obstacle of gathering up to 10,000 monsters.

Chapter 3827: The Only Chance of Survival

“Should I go through the 10,000 monsters head-on?” Jian Wushuang smiled bitterly.

He had used the Dragon Killing Secret Skill to slaughter his way out of the encirclement of the 10,000 monsters.

Even so, he had used up a lot of divine power, which was less than 50% of his current strength.

However, if he were to go through the tens of thousands of monsters head-on, it would be twice as difficult as being surrounded by tens of thousands of monsters.

With his current condition, it was almost impossible for him to go through the tens of thousands of monsters openly.

In other words, he could not break out of this encirclement.

He had nowhere to run!

“Over 100,000 monsters have formed a huge encirclement under the leadership of the two general-level monsters. I have completely lost the possibility of escaping. These monsters only need to step forward and wait for the encirclement to become smaller and smaller. In the end, they can gather the number of 100,000 monsters to kill me together.”

Jian Wushuang’s face was ashen.

The encirclement of 100,000 monsters was undoubtedly a huge crisis for him.

However, the more critical the crisis was, the calmer Jian Wushuang became.

“At this point, there is only one way for me to survive the encirclement of more than 100,000 monsters.” Jian Wushuang narrowed his eyes.

He had thought of countless possibilities, but there was only one possibility for him to survive the encirclement of more than 100,000 monsters.

.....

“I have no choice but to gamble.”

Jian Wushuang clenched his teeth and immediately stopped, falling to the ground.

Jian Wushuang landed on the top of a big tree and sat down cross-legged. With a thought, the Life Core Fragment appeared in front of him.

“Life Core Fragment, my only chance is you.” Jian Wushuang’s eyes flashed with a strange light.

Although he was now surrounded by more than 100,000 monsters, the monsters would not appear in front of him in such a large encirclement.

This left him with a little time.

Of course, this time would not be too long. At most, it would only take a moment.

However, Jian Wushuang would not be disturbed in this short time. He could completely absorb the power of the universe from the second Life Core Fragment.

By absorbing the power of the universe, he could make up for the slight difference in the universe principles and truly comprehend a trace of the universe principles.

At that time, he would have a chance to turn the tables!

“Begin!”

Jian Wushuang did not dare to waste time. After taking out the Life Core Fragment, he began to absorb it directly.

With the previous experience, this time, Jian Wushuang absorbed the power of the universe more smoothly.

As soon as the power of the universe entered his body, it immediately began to dissipate, and at the same time, the vast universe principles also dissipated.

Jian Wushuang was quietly meditating and experiencing the process of the universe principles.

During the previous meditation, his understanding of the essence of the universe principles was already very clear. He was only missing a little bit. Now that he was experiencing the state where the universe principles continued to flow, the last little bit...was gradually being made up for.

Finally, Jian Wushuang took the last small step.

He had finally comprehended the universe principle.

“The universe principle, this is the universe principle?”

Jian Wushuang opened his eyes and waved his hand slightly. A strange power faintly condensed in his hand.

This power was the supreme power in the vast universe, but at the same time, it was also the universe origin, the purest power.

This power was very powerful!

Even though Jian Wushuang had only comprehended a little of it, he could still feel the infinite possibilities contained in this power.

Generally, only experts at the supreme level were qualified to comprehend the universe principles.

Rulers needed to reach a certain level, or they needed to be talented to comprehend some of it.

As for Principles Masters, under normal circumstances, it was impossible for them to comprehend a trace of the universe principle, which was also a power that Principles Masters could not touch.

However, the universe was so big that there were always some super monsters.

Such monsters could comprehend a trace of the universe principle at the level of Principles Masters. They were also known as the rare Super Geniuses in the trillions of Astral Worlds.

Jian Wushuang had just reached this step.

Buzz! The power of the universe was completely absorbed by Jian Wushuang.

The Life Core Fragment also lost its original light and dimmed.

However, Jian Wushuang did not care about the Life Core Fragment anymore.

"I have already comprehended a trace of the universe principle. Now, it's time to try that move." Jian Wushuang smiled and then closed his eyes again.

Time passed.

Jian Wushuang was completely immersed in his comprehension and study. He seemed to have completely forgotten about the impending danger.

But whether he had forgotten or not, what was coming was coming.

Under the leadership of the two general-level monsters, the hundreds of thousands of dark red monsters formed a huge encirclement. Step by step, they narrowed the area until they were less than five kilometers away from Jian Wushuang, these monsters could clearly see Jian Wushuang's existence.

"Roar!" "Roar!"

Two earth-shaking roars came from the mouths of the two general-level monsters.

The two general-level monsters stared at Jian Wushuang with a strange glint in their silver eyes. They were obviously proud of themselves.

Obviously, they were proud that they had caught Jian Wushuang this time, so he could not escape from their encirclement.

Because in their opinion, since the human could not break out of their encirclement, he could not survive.

After all, there were more than 100,000 monsters gathered around.

With so many monsters here, even a human cultivator who had reached the third or even the fourth level, a master, would die without a doubt.

After all, the divine power of human cultivators was not infinite.

100,000 monsters could exhaust the opponent to death.

When the 100,000 monsters appeared around him, Jian Wushuang slowly opened his eyes.

“The timing is just right.” Jian Wushuang smiled. He was no longer as nervous and frightened as before.

Even though there were more than 100,000 monsters around him, he no longer had any fear in his heart.

He slowly stood up and patted the dust off his clothes. Then he looked at the countless dark red monsters around him.

“Monsters, are you ready?” Jian Wushuang suddenly asked.

His words stunned all the monsters present, not knowing what he was going to do.

At this time, Jian Wushuang slowly waved his hand, and a golden light suddenly shot out.

Chapter 3828: The Great Killing Weapon

This golden light was one of Jian Wushuang’s most powerful treasures, the Mountain River Map!

The Mountain River Map was the most powerful Suppression Type Treasure, and it was at the ‘top-grade’ level. Its power was extremely powerful, especially the Nine Dragon Heaven Killing Formation.

However, the Mountain River Map had been in Jian Wushuang’s hands for the longest time, but he had never been able to truly display the true power of this treasure.

But now, it was different.

“Only after I have comprehended a trace of the universe principle can I truly master the Mountain River Map.” Jian Wushuang smiled and said, “Now, let me see the true power of this treasure.”

After saying that, Jian Wushuang pointed at the void above, and the golden light instantly merged into the void above.

Boom! Boom!

The world suddenly shook, and then an ancient and majestic aura slowly descended.

The dark sky above suddenly split open, and a new world slowly appeared in front of the world.

This world was beautiful and magnificent, like a fairyland in a painting.

In fact, this world was a scroll world.

“Mountain River Map...Nine Dragons Heaven Killing Formation, open!”

Boom!

.....

The heaven and earth suddenly trembled. In the painting scroll world above, the nine huge continents in the painting scroll world suddenly erupted with dazzling golden light!

A total of nine dragon spirit golden lights burst out from the nine regions, shooting toward nine different directions in the void below.

In the blink of an eye, a huge golden dragon spirit magic array had been formed.

This huge Golden Dragon Spirit magic array covered an area of one million miles, and naturally, it also covered the more than 100,000 monsters below.

The formation of the Nine Dragon Heaven Killing Formation was just the first step for Jian Wushuang.

Splash!

A large amount of black magic light swept out like a sea wave.

The Magic Light Domain, combined with the Mystic Light Realm, was also used, covering the whole area and covering all the 100,000 monsters.

However, although the Magic Light Domain covered the monsters, Jian Wushuang did not immediately use it to suppress them.

He was still using other methods.

“Dragon Killing Secret Skill.”

Jian Wushuang thought to himself.

Immediately, less than 50% of the divine power in his body burned crazily again.

The burning of the divine power gave Jian Wushuang more power.

Then, Jian Wushuang flashed again.

Buzz!

The void shook slightly.

A large amount of black airflow suddenly swept up and covered the surrounding void in the blink of an eye.

The sky became dark.

Without the light, the whole world fell into absolute darkness.

Silence!

The whole world was silent.

The primordial universe!

The most powerful innate divine power that was bestowed upon Jian Wushuang by the principles of the universe, as well as his strongest trump card, was directly displayed at this moment.

With the Divine Power Burning of the Dragon Killing Secret Skill and the blessing of the primordial universe, Jian Wushuang's power had reached a whole new level.

According to Jian Wushuang's estimation, this level should have reached the peak of the second-level Ruler!

The strongest domain, Dragon Killing Secret Skill, and the strongest trump card of the original universe formed by the Nine Dragon Heaven Killing Formation, Triple Magic Light, and the Mystic Light Realm!

At this moment, Jian Wushuang had already used all his trump cards.

At the same time, his strength was also unprecedentedly powerful.

"I have used all my power to the fullest!"

"This is my limit. I can't improve at all!"

"This next move will be the most terrifying killing move I can use!"

"After this move is used, I won't have much divine power left. In other words, if they don't die, I'll die!"

Jian Wushuang's eyes faintly revealed an unprecedented madness.

"Demonic Light Domain, absolute annihilation!"

"Nine Dragons Heaven Killing, annihilation!"

Rumble!

The world shook violently, and Jian Wushuang's remaining nearly 50% of his divine power was almost exhausted at this moment.

However, under this crazy consumption of divine power, the Demonic Light Domain, which covered the surrounding void, erupted with extremely terrifying power.

The Golden Dragon Spirit Formation that covered the surrounding void emitted waves of dragon cries. Soon after, a dazzling golden light scattered down.

Over a hundred thousand monsters in this area were bathed in this golden light.

Triple Magic Light Mirror, the strongest third tier power, domain strangle!

This strangle used a powerful domain power to kill all living beings within the domain's coverage.

It was an extremely terrifying killing move, but because it covered a wide area, it was the most powerful area-of-effect attack. Therefore, it could only be used when one's strength far exceeded the opponent's, only by using this strangle could one easily kill the opponent.

For example, a powerful Ruler could easily kill a group of Principles Masters by using this domain.

The Nine Dragon Heaven Killing Formation, golden light annihilation!

After Jian Wushuang had comprehended a trace of universe principle, his mastery of the Mountain River Map had reached a higher level, so he could use this more powerful method.

This method was very similar to the realm annihilation of the Triple Magic Light Mirror, which was to kill the opponent on a large scale. The difference was that the Nine Dragon Heaven Killing Formation was a huge suppression and annihilation formation. This formation's annihilation ability...it required Jian Wushuang to master a trace of the universe principle before he could use it. One could imagine how high the threshold was?

The domain strangulation of the Triple Magic Light Mirror could be used even if he did not master the universe principle.

Therefore, the golden light annihilation of the Nine Dragon Heaven Killing Formation was even stronger than the domain strangulation of the Triple Magic Light Realm, and it was much stronger!

With the amplification of the dragon annihilation secret skill and the support of the original universe, both the domain strangulation of the triple magic light realm and the golden light annihilation of the Nine Dragon Heaven Killing Formation exploded with unprecedented power, moreover, Jian Wushuang was the only one who had performed both of them.

In an instant, the two skills were combined and complemented each other.

Therefore, a terrifying strangle annihilation power burst out.

This was the most terrifying move that Jian Wushuang could perform at this stage.

It was also the only way that he could change the situation in front of him and escape from ascension.

This move was his ultimate killing weapon.

He had been preparing this move since he was surrounded by more than 100,000 monsters and could not escape. It was only now that he finally used it.

This move was bound to turn the tide.

If it could not be turned, he would definitely die. There was no possibility.

But if the situation was turned around, then everything would be clear.

"Everything depends on god's will."

Jian Wushuang actually revealed a smile.

Chapter 3829: Disaster

Golden Light Annihilation!

Domain strangulation!

The combination of the two formed a terrifying power of annihilation and strangulation, which directly swept out.

The 100,000 monsters surrounding Jian Wushuang were angry, but at the same time, they were also pleasantly surprised.

Apparently, they thought that the human could not escape from them.

They could finally kill the human.

Even after seeing Jian Wushuang use some tricks, the monsters were not in a hurry.

They did not think that the human could make any more waves.

However...when the terrifying power of annihilation swept over, the 100,000 monsters actually let out an angry and shrill roar.

The Roar turned into a wail in the blink of an eye!

The terrifying power that these monsters could not imagine swept over every monster on the scene.

This power was too strong.

This was Jian Wushuang's strongest trump card, the golden light annihilation and domain annihilation.

.....

The Nine Dragon Heaven Killing Formation, golden light annihilation, was one of the most terrifying killing moves of the Nine Dragon Heaven Killing Formation. It was extremely powerful. When combined with the Magic Light Domain, the power of annihilation swept out on a large scale, even a peak Ruler would not be able to withstand it.

As for the monsters present, other than the two general-level monsters, most of the other monsters were only normal-level, with a small number of elite-level monsters. Moreover, these monsters did not have an immortal body at all...faced with this terrifying power of annihilation, how could they withstand it?

Disaster had arrived!

To the many monsters present, this was a disaster, a resistance that they could not withstand at all.

One after another, hysterical wails resounded throughout the world. Under the terrifying destructive power, the bodies of the monsters were crushed into powder, and even their life cores were destroyed.

In the blink of an eye, out of the 100,000 monsters, those that were only at the normal level were all killed.

As for the elite level monsters, they could only hold on for a little longer, but they were also annihilated.

A disaster!

A nightmare!

This scene would probably become a dream demon in the hearts of countless monsters in the Dark Magic Region in the future.

Silence!

The entire world was silent.

The hysterical roars and wails that had been emitted earlier had completely stopped.

And in this void, the numerous dark red monsters that had gathered together had disappeared.

The entire void and the entire world was empty.

After ten breaths, Jian Wushuang's original power of the primitive universe had disappeared, the golden light in the sky had disappeared, and the burning of his divine power had stopped.

All the tricks had stopped. Jian Wushuang raised his head and looked at the empty void around him. He could not help but smile.

"I won!"

"I won the bet!"

Yes, Jian Wushuang won the bet!

He put everything on that move just now.

He relied on that move to turn the situation around.

If he could not turn the situation around, he would die without a doubt. There was no chance for him to struggle.

But in the end, he won!

More than 100,000 monsters were annihilated by the golden light annihilation and the realm strangle in a short while.

Only the two general-level monsters survived by relying on their stronger strength.

However, these two general-level monsters could no longer pose a threat to Jian Wushuang.

"Hahaha! I knew that I, Jian Wushuang, would not lose my life so easily." Jian Wushuang raised his head and laughed. His laughter was unrestrained and had an unspeakable joy.

In contrast to Jian Wushuang's ring, the two surviving general-level monsters.

"Roar!" "Roar!"

The dark red eyes of the two general-level monsters were like lanterns. There was unprecedented fear and horror in the depths of their eyes.

Their hearts were trembling and trembling!

More than 100,000 blood-colored specters. They had tangled with more than 100,000 blood-colored specters in order to kill the human in front of them.

But now, this human had used an incredible method to kill more than 100,000 of their companions in one go, exterminating them!

How could they accept this result?

"The companions you summoned have all been exterminated. You two, go with your companions."

Jian Wushuang's cold laughter reverberated in the air. He moved his body and charged toward the two commander-level monsters.

Although he had used up a lot of his divine power and his body was almost exhausted, Jian Wushuang still had another skill, which was the Emperor's Life Avatar.

The Emperor's Life Avatar was a secret skill left to him by Master Xue Bei, which had helped him a lot.

However, as Jian Wushuang became stronger and stronger, especially after he broke through to become a Principles Master, this secret skill became useless.

After all, the purpose of the Emperor's Life Avatar was not to fight, but to store divine power. Previously, Jian Wushuang had refined an Emperor's Life Avatar, but the Emperor's Life Avatar was made from the corpse of a Principles Master, the amount of pure divine power it could store was about the same as that of an ordinary Principles Master.

When Jian Wushuang was only a saint, the Emperor's Life Avatar was very useful to him. However, after he became a Principles Master, his divine power was as vast as the sea. The amount of divine power that an Emperor's Life Avatar could store...it was nothing to him.

But now that Jian Wushuang's divine power was almost exhausted, the divine power provided by the Emperor's order doppelganger was of great use to Jian Wushuang.

At least this part of the divine power, enough to let him in front of these two general level monsters to kill.

"Die!"

The killing intent in Jian Wushuang's eyes condensed, and the Netherworld Divine Sword immediately turned into two phantoms and rushed out.

The void was cut open, and the two terrifying phantoms contained traces of the power of the universe principles.

It was these traces of the universe principles that made the power of the two phantoms reach a whole new level.

It was too fast.

With the help of the universe principles, the two phantoms were so fast that the two general-level monsters, who were still in fear, could not resist at all.

The two phantoms passed through the bodies of the two general-level monsters. The two general-level monsters did not even have a chance to struggle before their life cores were shattered and they died.

Looking at the corpses of the two general-level monsters under his feet, Jian Wushuang nodded with satisfaction. "This general-level monster is very powerful. Its combat strength is definitely the best among the second-level Primary Rulers. Before, I was at a disadvantage when I fought one of them head-on without using the Dragon Killing Secret Skill. But now...I also did not use the Dragon Killing Secret Skill. But with the blessing of the universe principle, it is easy to kill them."

Chapter 3830: It Was Time to Return

The principles of the universe were the supreme power of the vast universe. Only supreme beings were truly qualified to comprehend and master such power.

For example, Devil Flame had been an ultimate Ruler, and his power was definitely at the very top amongst Rulers. Even if he encountered other ultimate Rulers, he wouldn't be the slightest bit afraid, however, he had encountered a master who had comprehended a trace of the universe principle, and only his soul was left.

Comprehending a trace of the universe principle had greatly improved a master, let alone a Principles Masters.

Now that Jian Wushuang had comprehended a trace of the universe principle, with the support of this trace of the universe principle, his strength had greatly increased compared to before.

Even if he did not use the Dragon Killing Secret Skill, it would be easy for him to kill this general-level monster.

"I have comprehended the universe principle, and the crisis has been resolved. There is no need for me to stay in the Dark Magic Region anymore." Jian Wushuang smiled.

He came to the Dark Magic Region to experience life and death, so that he could make a breakthrough and grasp a trace of the universe principle.

He had just experienced life and death, so he felt the unique feeling again. Most importantly, he had comprehended a trace of the universe principles. It could be said that his purpose of coming to the Dark Magic Region was...he had completely achieved it, so there was no need for him to continue to explore.

In addition, the Dark Magic Region was indeed too dangerous.

There were so many monsters in every corner. Jian Wushuang had killed more than 100,000 monsters in one breath, but he knew that the number of monsters he had killed...was probably less than one-tenth of the total number of monsters in the Dark Magic Region.

Moreover, the Dark Magic Region was not as simple as it looked on the surface. Jian Wushuang had a hunch that there must be something else hidden in the depths of the Dark Magic Region.

For example, Jian Wushuang did not encounter the two general-level monsters when he first seized the Life Core Fragment. It was only later that he discovered that the two general-level monsters came from the deeper parts of the Dark Magic Region, in other words, there was a greater danger in the deeper parts of the Dark Magic Region.

"If I had not comprehended a trace of the universe principle, perhaps I would have gone to the deeper parts of the Dark Magic Region to fight for it. But now, there's no need for that." Jian Wushuang smiled faintly.

.....

There was no need for him to continue wandering here. He could just leave.

Of course, his divine power was almost exhausted. The most important thing now was to recover some divine power before moving.

Not only that, but there were also two other Life Core Fragments on the Blood Stone, although he had comprehended a trace of the universe principle and did not have the same desire for the two Life Core Fragments as before, it would be best if he could get them.

Jian Wushuang found a place nearby and began to slowly recover his divine power.

Jian Wushuang was a perfect life, so his divine power was too vast. It took him more time to recover. It took him four months, he had also absorbed a large number of elixirs and treasures to recover his divine power. Only then did his divine power recover.

Once his divine power was restored, Jian Wushuang's battle strength was at its peak again. He immediately set off toward the Blood Stone.

This was the third time Jian Wushuang had come near the Blood Stone.

The first time, there were only thousands of monsters guarding the Blood Stone, and the strongest ones were only at the elite level. There were more than 10,000 monsters guarding the Blood Stone, and two extremely powerful general-level monsters.

Now, Jian Wushuang came here for the third time, but he was surprised to find that there were only 200 to 300 monsters guarding the Blood Stone.

Apparently, Jian Wushuang had killed too many monsters in one go and almost killed all the monsters in this area. Now, after less than four months, there were not enough monsters from other places, it was not enough.

Although there were fewer monsters than before, the remaining two Life Core Fragments were still intact and floating on the Blood Stone.

"These monsters are really..." Jian Wushuang could not help but sigh.

Those monsters clearly knew that they were going for the Life Core Fragments, and they had already done it twice, but they still did not know how to put the two Life Core Fragments away or hide them.

If they hid it, Jian Wushuang would not be able to do anything about it. However, it was obvious that the monsters did not do so.

"Maybe the Life Core Fragment is too sacred to these monsters, so they don't dare to touch it." Jian Wushuang could only think about it.

With less than 300 monsters guarding him, it was impossible for them to stop Jian Wushuang.

Jian Wushuang did not need any plan this time. He rushed straight toward the Blood Stone and killed all the monsters in front of him. He easily stepped on the Blood Stone and destroyed the remaining two Life Core Fragments, also put into the interspatial ring, and then straight away.

Although the monsters were shocked and angry, they tried to chase after Jian Wushuang. However, with his current strength, even if he was surrounded by more than 100,000 monsters, he could still rely on the strangling power of the combination of the Nine Dragon Heaven Killing Formation and the Magic Light Domain, we can still get out of this with ease.

Not to mention that there were not many monsters in this area, so Jian Wushuang could get rid of them easily.

Another two pieces of Life Core Fragments in his hands. Jian Wushuang was very happy.

“These two Life Core Fragments are quite big and contain more power of the universe than the previous two pieces. If I absorb the power of the universe from these two Life Core Fragments, will my comprehension of the universe principles be slightly improved?” Jian Wushuang could not help thinking.

“Master, I advise you not to absorb these two Life Core Fragments.” Devil Flame’s voice suddenly sounded.

“Why?” Jian Wushuang frowned.

The power of the universe contained in the Life Core Fragments was very helpful to him.

Even if he had comprehended a trace of the universe principles, absorbing the power of the two Life Core Fragments would improve his comprehension of the universe principles to a certain extent. This would also be very helpful to his strength?

“Master, you can directly absorb the power of the universe from the two Life Core Fragments. This can indeed improve your comprehension of the universe principle, but the improvement is very limited. More than 99% of the power of the universe will be wasted in the process of your absorption. This is too extravagant,” Devil Flame said.

“Extravagant?” Jian Wushuang was stunned.

He just wanted to improve his strength as much as possible. There was no concept of luxury in his mind.
