

Swordsman 3831

Chapter 3831: Did He Come Out Alive?

“Devil Flame, you said that it’s a luxury for me to absorb these two Life Core Fragments?” Jian Wushuang asked with a strange expression.

“Yes.” Devil Flame nodded. “In the vast universe, it’s an extremely wasteful thing to absorb the power of the universe to comprehend the principles of the universe. Master hasn’t comprehended the laws of the universe before, so it’s fine if you’re so extravagant. But now that you’ve comprehended a trace of the principles of the universe, it’s a bit irrational to be so extravagant.”

“But what’s the use of this Life Core Fragment other than absorbing the power of the universe?” Jian Wushuang frowned.

“For you, master, the only use is to absorb the power of the universe by force. But for many cultivators in the vast universe, it’s completely different,” Devil Flame said seriously, “I told you before that the Immortal Ghost’s entire body is a treasure, and the most important thing is its life core. That’s what countless Supreme Beings are fighting for. Although what you have now is only a Life Core Fragment, its value is still extraordinary.”

“Let’s not talk about Supremes, let’s talk about Rulers. In the vast universe, countless Rulers yearn for universe principles. Unfortunately, there are very few who can comprehend a trace of universe principles at the Ruler level. Even when I was at my peak, I wasn’t able to comprehend a trace of universe principles.

“Master, the Life Core Fragment in your hand can allow you, a Principles Master, to comprehend a trace of universe principles, let alone a Ruler. I’m sure that any Ruler who has reached the ultimate level can easily comprehend a trace of universe principles if he can obtain a Life Core Fragment like this. So, Ruler, can you imagine what will happen if those Rulers know about this Life Core Fragment?”

Jian Wushuang was shocked.

Devil Flame had only said half of his words, but Jian Wushuang had already understood.

The life core of the Immortal Spirit Demon was priceless. Even if it was just a Life Core Fragment, it was enough to make many Supreme Beings covetous and countless final-level Rulers go crazy.

Such a treasure was not very useful in his current strength. Even if he forcefully absorbed it, it would at most improve his universe principle a little. It would not increase his strength much, however, if he were to venture into the depths of the universe in the future, these two Life Core Fragments would be of great use.

At that time, he only needed to casually spread the news that he wanted to sell the Life Core Fragments of Immortal Demon. He believed that countless Rulers would come looking for him, and they would pay any price to buy the Life Core Fragments from him, at that time, he could use these two Life Core Fragments to exchange for enormous benefits, or he could simply exchange them for a large amount of

wealth. It would be much better than forcefully absorbing the power of the universe during this period, it was much better to slightly improve on the universe principles.

“You’re right. These two pieces of Life Core Fragments are not very useful to me now, but they are much more useful to others. I don’t need to forcibly absorb the power of these two pieces of Life Core Fragments to improve a small part of my strength. I’d better keep them for now. When I need them in the future, I’ll take them out.” Jian Wushuang smiled.

After putting the two Life Core Fragments back into his interspatial ring, Jian Wushuang set off and headed out of the Dark Magic Region.

.....

After several days, Jian Wushuang finally walked out of the Dark Magic Region.

“I’m out.”

After leaving the Dark Magic Region, Jian Wushuang could not help but glance at the dark red forest behind him, which was emitting a cold and gloomy aura. He sighed in his heart, ‘The Dark Magic Region is definitely a forbidden place in the eyes of countless cultivators. In the history of this star area, there were only three top Rulers who survived the Dark Magic Region. However, from today onwards, there are four.’

“I, Jian Wushuang, have also survived.”

Jian Wushuang smiled faintly.

His trip to the Dark Magic Region had brought him great gains, which had completely met his expectations.

He was very satisfied with himself.

In the future, he might come to the Dark Magic Region again to explore the deepest secrets of the Dark Magic Region, but it would definitely not be in the near future.

“Xuan God, Temporal, Heaven-cleaving, and Divine Ancestor, I have come out of the Dark Magic Region.” Jian Wushuang immediately sent a message to his four good friends.

These four people knew that he had gone to the Dark Magic Region.

As for his family and friends in the Divine Beginning Realm, they only knew that he had gone to the battlefield outside the Divine Beginning Realm, but they did not know what kind of dangerous place he had gone to. After Jian Wushuang came out of the Dark Magic Region, he also greeted them.

In Star Palace.

After learning that Jian Wushuang had come out of the Dark Magic Region alive, Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, Divine Ancestor were all very excited.

“Haha, he has come out. My young friend, the Heavenly Marquis, has really walked out of the Dark Magic Region alive. That’s great!” Daoist Xuan God laughed heartily.

“Tut, tut, it’s good that he has come out. I was worried that he would die in there,” Heaven-cleaving Alliance Master said with a sigh.

“Yes, the Dark Magic Region is such a dangerous place that even a Superior Ruler would have a slim chance of survival. In the history of our Star Field, only three Superior Rulers have walked out alive. Who wouldn’t be worried about such a dangerous place?

“Fortunately, our young friend, the Heavenly Marquis, has survived. From now on, there are already four people who have survived the Dark Magic Region. Moreover, our young friend, the Heavenly Marquis, is only a Principles Master.” Temporal Temple Master was also full of smiles.

“Our young friend, the Heavenly Marquis, is indeed amazing.” The Divine Ancestor said these words heavily.

The four of them were shocked when they heard that Jian Wushuang was going to the Dark Magic Region. They tried many times to get rid of the idea, but they could not stop him.

After Jian Wushuang entered the Dark Magic Region, the four of them were afraid that Jian Wushuang would die there.

After all, Jian Wushuang was too important to them and the entire Divine Beginning Realm.

That was their only chance.

Fortunately, Jian Wushuang had come out alive, so they were relieved.

“Xuan God, ask him quickly. Did he gain anything in the Dark Magic Region?” Temporal Temple Master asked.

“I’m already asking.” Daoist Xuan God smiled and soon got an answer, “My young friend, the Heavenly Marquis, said that he did gain something in the Dark Magic Region, and it’s not small. At least it has reached his expectations. But he didn’t say what exactly he gained, and I didn’t ask.”

“It’s fine as long as he has met his expectations. We do not care about anything else.” The Temporal Temple Master smiled. “Right, since he has already left the Dark Demon Region, he should return to the Star Palace right away, right?”

Chapter 3832: Enter the Red Cloud World

“Let me ask.” Daoist Xuan God smiled as he continued to send messages.

However, after asking, a strange look appeared on Daoist Xuan God’s face.

“What is it?” The other three immediately looked over.

“The young Heavenly Marquis said that he won’t go straight back to the Star Palace. Instead, he’s going to make a trip to the Red Cloud World,” Daoist Xuan God said.

“The Red Cloud World?” The masters present all exchanged glances.

“The few of us, including the many experts of this Star Field, often wait for the Red Cloud World to open once more. The Heavenly Sword Marquis, on the other hand, doesn’t even need to wait for the Red Cloud World to open before entering it?” The leader of the Heaven-cleaving Alliance pursed his lips.

“Why? Are you jealous? If you had the ability to pass the trial of Heaven-Treading Mountain, perhaps you would have received the same treatment as my young friend, the Heavenly Marquis,” the Divine Ancestor teased.

“Heaven-Treading Mountain?” The Heaven-cleaving Alliance Master smiled bitterly.

“Well, don’t spread the news that the Heavenly Marquis can enter the Red Cloud World directly. He must have something important to do in the Red Cloud World. We don’t need to ask anymore. That’s it.” Daoist Xuan God waved his hand.

...

Jian Wushuang, who had walked out of the Dark Magic Region in the depths of Devil Smoke Valley, did not plan to return to Star Palace. Instead, he wanted to go to the Red Cloud World first.

The test of the Second Heaven of Red Cloud World was there. Before, he had not comprehended a trace of the universe principle, so he could not pass the test.

But now, he had this ability.

As long as he could pass the test of the Second Heaven of Red Cloud World, he could choose three treasures from the many treasures in Red Cloud World.

It must be known that Patriarch Red Cloud had personally left them in Red Cloud World. Any one of them was a treasure. Even in the vast universe, it was enough to cause a storm. There were even some principles supreme treasures.

Of course, the most important thing was that among the many treasures in the Red Cloud World, there was an astral heart.

That was the treasure that Jian Wushuang valued the most and needed the most.

His wife, Leng Rushuang, needed the astral heart to condense a new divine body and reunite with him.

He had to get the astral heart no matter what.

He could not get it before, but now that he had the strength, he could not wait.

Jian Wushuang moved quickly from the depths of Devil Smoke Valley and did not hide himself. On the way, he naturally met some Principles Masters who were wandering in the depths of Devil Smoke Valley.

These Principles Masters were shocked when they saw Jian Wushuang.

People had seen Jian Wushuang enter the Dark Magic Region with their own eyes, and the news had spread throughout the entire Star Field.

Many experts in the Star Field were secretly discussing Jian Wushuang. Some thought he was brave and admired him.

But others said he was stupid and arrogant. He had endless potential, but he chose to go to the Dark Magic Region to die.

Some people thought that Jian Wushuang would never come out of the Dark Magic Region again.

In short, this matter had caused a great sensation in the Star Field. Almost 99% of people thought that Jian Wushuang would never come out of the Dark Magic Region alive.

But now?

Jian Wushuang had obviously come out of the Dark Magic Region.

“He’s out? Blood Sword Master has walked out of the Dark Magic Region alive?”

“How is that possible? In the Dark Magic Region, even a Superior Ruler had a slim chance of survival. Blood Sword Master was only a Principles Master. Although he was powerful and comparable to an ordinary Superior Ruler, he should be at the bottom among the Superior Rulers. How could he walk out of the Dark Magic Region alive?”

“Not necessarily. Although the Dark Demon Region is dangerous, as far as I know, most top-tier masters are still able to venture into the outermost regions. It is just that they are unable to obtain any fortuitous encounters. After all, the secrets and fortuitous encounters of the Dark Demon Region are located deep within the region. The deeper regions are much more dangerous. Master of blood sword might have relied on his strength to match that of a top-tier master to casually wander around the outermost regions of the Dark Demon Region before coming out.”

“Yes, it’s very likely. He’s a Principles Master. If he went to the depths of the Dark Magic Region, I don’t believe he would be able to come out alive.”

The news that Jian Wushuang had come out alive from the Dark Magic Region spread.

Countless experts were discussing this matter and had their own opinions.

However, Jian Wushuang could not be bothered with these things. He walked out from the depths of Devil Smoke Valley and soon left. Then, he rushed to Crimson Stone Mountain as fast as he could.

After arriving at Crimson Stone Mountain, Jian Wushuang took out the token given to him by Lord Wu. With the guide of the token, Jian Wushuang easily found the entrance to the Red Cloud World and entered it.

Jian Wushuang had just left the Red Cloud World more than 20 years ago, but now he was back here again.

Jian Wushuang first arrived at the First Heaven of the Red Cloud World.

He had just arrived here...

“Little guy, just come up from Heaven-Treading Mountain. You can fly straight up without being hindered.” Lord Wu’s voice had already sounded in Jian Wushuang’s mind.

Without hesitation, Jian Wushuang immediately rushed to Heaven-Treading Mountain at the fastest speed. Then he ignored the layers of restrictions on Heaven-Treading Mountain and directly flew to the top of Heaven-Treading Mountain.

Lord Wu was already standing there waiting.

“Jian Wushuang, it’s only been more than 20 years, and you’re already here?” Lord Wu looked at Jian Wushuang with a strange expression.

“Lord Wu, I’m here to challenge the Second Heaven Test,” Jian Wushuang said directly.

“Oh?” Lord Wu narrowed his eyes slightly. “I told you before that you have to comprehend a trace of universe principle to pass the Second Heaven Test. Have you already comprehended a trace of universe principle? It’s only been more than 20 years, it’s impossible.”

Even with Lord Wu’s knowledge, he did not believe that Jian Wushuang had comprehended a trace of the universe principle in just 20 years.

“You’ll know whether you’ve comprehended it or not after you try it,” Jian Wushuang said with a smile.

“You’re very confident? It seems that you’ve really comprehended it.” Lord Wu smiled faintly. Then he waved his hand, and a space passage appeared out of thin air. “Follow me.”

Jian Wushuang immediately followed Lord Wu into the Second Heaven of the Red Cloud World, which was the island that contained many opportunities.

“The test of the Second Heaven is in the towering palace in the center of the island. You can go.” Lord Wu pointed in the direction of the palace.

Jian Wushuang nodded and quickly arrived in front of the towering palace.

The ancient and Grand Palace was emitting a special aura.

Jian Wushuang did not stay in front of the palace any longer and directly entered the palace.

...

Chapter 3833: The Test of the Second Heaven

Inside the palace, there was a different world.

It was a huge and boundless ancient martial arts field. There was nothing on the martial arts field. When Jian Wushuang appeared on the ancient martial arts field, whoosh! A figure also descended from the sky.

He was wearing pitch-black armor, boots, and a pitch-black puppet fighter on his head. His entire body was extremely strong and huge, looking like a black hill, the man who fell from the sky gave people a feeling of indomitable strength.

“Haha! It’s been so many years. Finally, someone is here.”

The indomitable man in black armor let out a low roar. His eyes, which were like black gems, were completely locked on Jian Wushuang.

“Do I need to defeat my opponent in the first step of the trial on Heaven-Treading Mountain?” Jian Wushuang also stared at the indomitable man.

His intuition told him that the tough man was very strong.

But he did not care. First of all, the trial in the Red Cloud World did not contain a life-and-death crisis.

Secondly, Lord Wu had said that as long as one had comprehended a trace of the universe principle, he could pass the trial, so the trial would not be difficult for him.

“Boy, since you are the first to come to me in so many years, I will play with you. I Won’t defeat you with all my strength next time,” the tough man said with a hideous smile.

“Then I advise you to use all your strength at the beginning. Otherwise, you won’t have the chance,” Jian Wushuang said with a chuckle.

“Haha, what a carefree boy. Look at the saber.”

The tough man used a weapon and a three-meter-long saber. The saber was extremely domineering, and his attack methods were very simple and crude.

Swoosh!

With a brutal swing of the broadsword, Jian Wushuang instantly felt the existence of six laws of heaven and earth, which were perfectly fused together.

At the same time, the broadsword contained an extremely dense origin of the saber principle universe, which caused the layers of void to produce phantoms.

“What an exquisite saber technique.” Jian Wushuang could not help but exclaim.

Although he was not good at saber principle, there were many similarities between sword principle and saber principle, and his comprehension of the sword principle universe origin was extremely high.

Now, he could tell at a glance that the saber principle universe origin contained in this tough man’s saber technique was extremely dense. His comprehension of the saber principle universe origin was at least not lower than his comprehension of the sword principle universe origin, it was even possible that he was even stronger.

Jian Wushuang immediately made his move.

He waved the Netherworld Divine Sword, which also contained the rich sword principle universe origin.

In the blink of an eye, the two collided in the void, creating fierce sparks.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

Jian Wushuang’s speed completely burst out. He moved close to the fierce man again and again, trying to gain an advantage in the fierce battle by relying on his movement skills.

However, the burly man also burst out streams of black light like black ghosts. In terms of speed, he was slightly faster than Jian Wushuang. In terms of weirdness, he was even faster than Jian Wushuang's movement skills.

As for the power of divine power, the two were completely equal.

Clang! Clang! Clang! Clang!

On the ancient martial arts field, Jian Wushuang and the burly man engaged in fierce battle again and again. The battle was extremely fierce.

The tough man was slightly stronger than Jian Wushuang in saber principle and saber technique. However, the gap was very small. Jian Wushuang could still fight him head-on. In a short time...it was difficult for the tough man to gain the upper hand.

"Haha, not bad, not bad. You can last so long in my hands without being at a disadvantage. Your talent is stronger than the outer disciples under the king, and even some of the inner disciples. Unfortunately, the king later set this test for me. The difficulty is much higher. With your current strength, you can't pass this test."

The burly man laughed. Suddenly, he stretched out his hand and a three-meter-long saber appeared in his other empty palm.

"What?" Jian Wushuang was shocked.

Just by waving the saber, the burly man's strength was slightly stronger than his. How could the burly man hold two sabers at the same time?

As the fierce man swung two sabers at the same time, Jian Wushuang could see that he used two sabers. When the two sabers were used together, his saber skills were much stronger than before.

Against the fierce man who only used one saber, Jian Wushuang could still fight head-on without being at a disadvantage.

But now, against two sabers at the same time, Jian Wushuang could only passively resist. After a while, Jian Wushuang was completely at a disadvantage.

Bang!

With a dull sound, Jian Wushuang suddenly retreated and put some distance between him and the tough man.

"Haha, boy, you are no match for me. You'd better leave first and come back again next time." The tough man looked at Jian Wushuang with a faint smile.

Jian Wushuang also smiled.

"No wonder Lord Wu said that only those who have mastered a trace of the universe principle can pass the test of the Second Heaven. This guy is really powerful." Jian Wushuang praised.

After entering the palace, he found that his divine power was limited. He could only use the power of an ordinary Primary Ruler. He could not use any other secret skills to improve his divine power, the power of the fierce man was also at the level of a Primary Ruler, just like him.

His divine power was equal, so it was naturally a contest of understanding of Dao, swordsmanship and saber skills.

However, whether it was the understanding of the Saber Dao or the level of the saber techniques, the intrepid man was extremely high. He had already fused six types of principles of heaven and earth, and the saber techniques contained the power of the fusion of six types of principles.

In every aspect, he was stronger than himself.

Especially when he used two large sabers, he was completely not a match for the intrepid man. Under such circumstances, even if he had a greater improvement in his comprehension of the Sword Dao or his swordsmanship, he probably would not be able to truly defeat the intrepid man. Thus...there was only one possibility for him to defeat the tough man.

To comprehend a trace of cosmic principles.

“Boy, why, are you still unwilling to give up?” The tough man looked at Jian Wushuang with interest.

“Give up? You’re thinking too much.” Jian Wushuang smiled faintly and then attacked again.

He also attacked and fought in close combat with the tough man, even using the same swordsmanship. However, this time, when Jian Wushuang used his swordsmanship, there was a special power contained in his swordsmanship.

This special power was the trace of universe principle that he had comprehended.

With the integration of this trace of universe principle, the swordsmanship that Jian Wushuang displayed was completely different.

Chapter 3834: 104 Items

“Yu, universe principle?”

The burly man instantly noticed the changes in Jian Wushuang’s swordsmanship, and his eyes widened.

“He, he is a Principles Master, but he has really comprehended a trace of universe principle?” The burly man’s face was full of disbelief.

He had stayed in the Red Cloud World for countless years. He was very clear about the significance of this test. If a Principles Master wanted to pass his test, he had to comprehend a trace of the universe principle, that was because Patriarch Red Cloud had specially increased the difficulty of the test in order to take in a true disciple.

Ever since the Red Cloud lineage was destroyed, this tough man had thought that no one would be able to meet such a requirement.

But now...there was actually someone who had met it.

“A genius, a super genius that is hard to come by in billions of Star Worlds! I’ve met one today.” The intrepid man could not help but be excited.

There was no other way, he could not help but be excited.

A Principles Masters was able to comprehend a sliver of the universe principles. Such a super genius was absolutely rare even in the vast universe.

Any one of them, even if placed in the deepest part of the universe, would be treated as a treasure by those top powers. Countless Supreme Beings at the top level were eager to take such a genius as their disciple.

For example, back then, although Patriarch Red Cloud had many inner disciples under his command, and there were even true disciples, Patriarch Red Cloud was not very satisfied with these disciples. That was why he specially increased the difficulty of the second stage of the Red Cloud World Trial, his goal was to take in such a disciple and carefully nurture him.

But who would have thought that before such a disciple could be found, Patriarch Red Cloud himself would die. Even the Red Cloud lineage would be directly destroyed, and his divine kingdom would collapse.

Patriarch Red Cloud was a peak paragon. Even he did not have the chance to take in such a disciple. One could imagine how dazzling and eye-catching a super genius at this level was in the universe. There was no doubt about it, as long as such a genius did not die halfway, he would definitely be a top-tier existence in the future. He would definitely be a big shot.

Even when he was at his strongest, this tough man was only at the ultimate Ruler level. It was natural for him to be excited and even honored to meet such a Super Genius.

As for the next test —

The moment Jian Wushuang used the universe principle, the tough man knew that he could not stop Jian Wushuang.

Because once he used the universe principle, Jian Wushuang’s swordsmanship was far more powerful and exquisite than before. Even if he brandished his two broadswords at the same time and showed more strength, he would still be crushed by Jian Wushuang.

As expected, the final result was that Jian Wushuang won easily.

Jian Wushuang had passed the test of the Second Heaven of the Red Cloud World.

Outside the palace, Lord Wu stood there. He had already received the news that Jian Wushuang had passed the trial of the Second Heaven, but his eyes could not help but become moist.

“How many years has it been? Our Red Cloud lineage has finally produced a super genius rarely seen in the trillions of Star Worlds. Finally, someone has met master’s requirements, but his master has already...sigh!

"If this little guy had been born dozens of chaos cycles earlier, he would have come to the Red Cloud World and been met by master. How wonderful would that be?" Lord Wu sighed softly, however, there was a trace of sadness in his heart.

The palace door opened, and Jian Wushuang, who had passed the test, slowly walked out.

"Lord Wu, I'm lucky to have lived up to your expectations." Jian Wushuang came to Lord Wu and smiled slightly.

"Well, you're very good." Lord Wu nodded in praise.

He had to praise him.

Jian Wushuang was a super genius rarely seen in the billions of Star Worlds, and he was an even rarer perfect life form. When the two were combined, Jian Wushuang's potential in the future was immeasurable. Such a super genius...if his master, Patriarch Red Cloud, was alive, he would definitely fight for it like crazy. Of course, he could only praise Jian Wushuang's excellence.

"Come, follow me to the Third Heaven." Lord Wu waved his hand, and immediately, another space passage appeared in front of Jian Wushuang.

The Third Heaven of the Red Cloud World was on an ancient altar, which covered an area of more than 10,000 miles. It was empty and there was nothing else.

Jian Wushuang and Lord Wu stood on the altar face to face.

"Little guy, you have passed the test of the Second Heaven of the Red Cloud World. From now on, you are an inner disciple of the Red Cloud Branch," Lord Wu said.

Jian Wushuang nodded slightly, but his expression did not change.

"Of course, the identity of an inner disciple of the Red Cloud branch might have some weight in the past, but now, not many people know about it. Even if they know, many of them are enemies of the Red Cloud Branch. So, if you go to the depths of the universe in the future, it's better not to expose your identity easily," Lord Wu said.

"Yes." Jian Wushuang nodded again.

Patriarch Red Cloud had once been a supreme-being of the Red Cloud lineage. He had even opened up a huge divine kingdom. At that time, the Red Cloud lineage could be said to be extremely powerful, but at the same time, it was also very powerful, the Red Cloud lineage definitely had many enemies. Whether it was those who fought with them on the surface, or those who chose to endure in the dark because they were not strong enough, there must be many of them.

Now that the Red Cloud faction had been destroyed, if he continued to flaunt his identity as an inner disciple of the Red Cloud faction in the depths of the universe, it would be very likely that he would attract some powerful warriors who had once had enmity with the Red Cloud faction to come and kill him.

“According to the rules set by master back then, you can now freely choose three of the many treasures that you have in the Red Cloud World as your reward.” After Lord Wu finished speaking, he suddenly waved his hand, instantly, treasures appeared in the surrounding void one after another.

There were all kinds of treasures, and they all emitted a unique aura.

“The treasures are all here. You can choose by yourself. If you don’t understand, you can ask me,” Lord Wu said.

Jian Wushuang’s eyes emitted a special light as he looked around at the treasures that appeared in front of him.

These treasures floated there one by one. Jian Wushuang felt that any one of them was extraordinary, and there were more than 100 of them altogether.

“104!”

Jian Wushuang already knew the exact number of these treasures.

A total of 104 treasures were left behind by Patriarch Red Cloud, and any one of these 104 treasures was enough to make many Rulers envious and even crazy.

“Where is the heart of the Astral World?” Jian Wushuang asked.

“The heart of the Astral World?”

Lord Wu’s expression changed. He waved his hand slightly and a milky-white ball of light floated toward him among the 104 treasures.

...

Chapter 3835: Divine Sword Wu Qi

“This is the heart of the Astral World?”

Looking at the milky-white light ball in front of him, Jian Wushuang was extremely excited.

The heart of the Astral World was the essence of an Astral World that had been accumulated over countless years. It was extremely useful.

With this heart of the Astral World, a new divine body could be created. This divine body would have enormous advantages and excellent talent and potential. It was much stronger than the glazed body that Jian Wushuang had thought of using the Ice Heart Glazed Jade, it was much, much stronger.

“Lord Wu, I’ll choose the stellar heart for the first treasure.” Jian Wushuang did not hesitate.

Of the Three Treasures, the first was definitely the stellar heart.

With the stellar heart, he could truly reunite with his wife.

“Yes.” Lord Wu nodded slightly. He was not surprised by Jian Wushuang’s choice.

“You are going to use the astral heart to restore your wife’s divine body, but you’d better choose the remaining two treasures that you can use,” Lord Wu said.

“Of course.” Jian Wushuang smiled and began to carefully choose among the remaining 103 treasures.

Jian Wushuang had to choose a rule supreme treasure that was suitable for him to use and a Divine Sword that was suitable for him to use.

Therefore, Jian Wushuang first looked at the rule supreme treasures.

Among the 103 treasures, the rule supreme treasure accounted for a lot of them, almost half of them. Among the many rule supreme treasures, there were only two rule supreme treasures like Divine Swords.

Jian Wushuang’s eyes locked onto one of the Divine Swords.

It was a Black Divine Sword that was emitting a faint light.

The Black Divine Sword gradually floated in the air. There was nothing unusual about it, but Jian Wushuang’s comprehension of the universe origin of sword principle was very high. The moment he saw the Black Divine Sword, his pupils shrank.

Under the calm surface of the Black Divine Sword, there was an unprecedented coldness and darkness!

Most importantly, the Black Divine Sword had an incredible sharpness. It seemed to be able to tear apart everything in the world. The moment Jian Wushuang stared at the Black Divine Sword, the sharpness in the Black Divine Sword...seemed to tear his soul in half.

It was terrifying and terrifying!

“What a terrifying Divine Sword!” Jian Wushuang was excited.

Among all the Divine Swords he had seen, the Black Divine Sword was undoubtedly the most terrifying.

Even the most powerful supreme treasure, the underworld Divine Sword, was nothing compared to the Black Divine Sword.

“Lord Wu, what is the name of this Divine Sword?” Jian Wushuang asked.

“It’s the Divine Sword Wu Qi,” Lord Wu answered.

There were countless universe supreme treasures in the Red Cloud World, including the most powerful ones. Lord Wu did not bother to remember their names, but the 104 treasures left by Patriarch Red Cloud...he remembered every single one of them clearly. Not only their names, but also their levels and uses.

“Wu Qi?” Jian Wushuang was stunned. “This name is so weird.”

“It’s weird, but it’s not weak. Why do you want this Divine Sword?” Lord Wu looked over.

Jian Wushuang looked at the other rule treasures and then nodded. “The second treasure, I want this Wu Qi Divine Sword.”

Although there was another Divine Sword among the rule treasures, it was a long sword with a wide blade. It should be focused on power, which Jian Wushuang did not like, after all, the Divine Swords Jian Wushuang had been using were extremely thin and sharp.

The Divine Sword Wu Qi was an extremely sharp Divine Sword.

“Well, you have a good eye.” Lord Wu nodded with a smile. “Nomological treasures are divided into upper, middle, and lower grades. Even low-grade ones are usually only qualified to be owned by masters of the fourth or fifth grade. Medium-grade ones are usually used by masters of the final grade and a few weaker ones.

“The Wu Qi Divine Sword you have chosen is an upper-grade rule supreme treasure. This is the magic weapon most Supreme Beings use.”

“Upper-grade rule Supreme Treasure? Most Supreme Beings use magic weapons at this level?” Jian Wushuang’s eyes lit up.

He did not expect that the Divine Sword he had chosen was not only a rule supreme treasure, but also an upper-grade one. Its value was obviously much higher than ordinary low-grade or middle-grade rule supreme treasures.

Suddenly —

“Most Supreme Beings only use magic weapons at this level, but there are some Supreme Beings who are extremely powerful and have reached the top level. For example, what level of rule Supreme Treasure does Patriarch Red Cloud use?” Jian Wushuang could not help but ask.

“When they reach the level of their master, they are extremely powerful. The magic weapons and treasures they use have long surpassed the rule supreme treasure and reached a new level. Of course, that level is still far from you. It’s still too early for you to unleash the full power of the Wu Qi Divine Sword,” Lord Wu said.

Jian Wushuang could not help but smile.

It was true that a nomological supreme treasure usually needed to comprehend a trace of the universe’s principles to be able to exert its power.

It was only able to exert a trace of its power, but not its full power.

Jian Wushuang was afraid that he could barely grasp and use a low-grade nomological supreme treasure, let alone an upper-grade one.

“You’ve already chosen two treasures. You have one last chance, so you have to treasure it,” Lord Wu said.

“Okay.” Jian Wushuang nodded heavily.

He also knew that this was a rare opportunity.

The remaining 102 treasures were all extremely valuable, and many of them were very useful to Jian Wushuang. He only had one last chance, so he had to consider it carefully.

The first thing that Jian Wushuang considered was the rule supreme treasure!

After all, he only had Wu Xie, an offensive magic weapon. Even if he returned to the Divine Beginning Realm and refined the Heaven Suppression Tablet, it would only be a suppression type rule supreme treasure. Moreover, the Heaven Suppression Tablet was very special, as for the supreme treasure armor, domain type, and flying type rule supreme treasures, he did not have any.

If he could obtain a true treasure armor type law true treasure, it would be enough to greatly increase his ability to protect his body.

As for the domain type or flying type, it could also greatly increase his power.

As for the other types of treasures, they might be incomparably precious, but those that could truly increase his power weren't many.

He currently had an extremely heavy burden on his shoulders. The life and death of the entire Divine Beginning Realm depended on him. Thus, increasing his power was the most urgent matter at hand.

Chapter 3836: Triple Dao Realm

Jian Wushuang carefully looked at the rule supreme treasures, and at the same time, he could get some basic information from them.

"Yin poison ring, a low-grade domain type rule supreme treasure. When activated, the ring can form the yin poison domain and suppress the opponent."

"The Yin poison domain has five different levels of power."

"The first level of power is filled with the yin poison power. Once a cultivator is trapped in the domain, he or she will die if he or she is not a superior master of the first level. Even a superior master of the first level can suppress 90% of his or her strength, a master of the second level can suppress 40% of his or her strength, and a master of the third level will have his or her speed affected."

"The second level of power, a master below the second level will die if he or she is trapped in the domain, and a master of the third level..."

"The third level of power..."

Jian Wushuang could not help but take a deep breath when he read the message from the sinister ring.

"It's so terrifying!"

It was indeed terrifying.

Once the realm was formed, the sinister power filled every part of the realm. Any cultivator within the scope of the realm would be eroded by the sinister power. The first level of power alone was enough to wipe out all the cultivators below the peak master level.

In other words, if he obtained the Yin poison ring and displayed the first level of power of the Yin Poison Ring realm, he would be able to easily kill more than half of the 100,000 monsters that had surrounded

and killed him in the Dark Magic Region, if he combined it with the Mystic Light Realm and the Nine Dragon Heaven Killing Formation and used it with greater power, even an elementary master of the second level would not be able to survive in the Yin poison realm.

And that was only the first level of power.

"It's indeed a rule supreme treasure, although it's only a low-grade one." Jian Wushuang sighed and then looked at the other rule supreme treasures.

"Mad Demon Armor, a middle-grade rule supreme treasure armor, is divided into four levels of power."

"The first level of power can stimulate the power of a thousand times that of a basic Ruler!"

"The second level of power can stimulate the power of a 10,000 times that of a basic Ruler."

"The third level of power..."

Jian Wushuang was dazzled by the information sent by the law true treasures. At the same time, he was secretly shocked.

The principles true treasures were indeed far from being comparable to ordinary universe true treasures.

Even the most powerful universe true treasures, even the top-grade ones, needed dozens of them to exchange for a principles true treasure of the lowest level.

The reason for this was that the power of these supreme treasures was far inferior.

Each of the dozens of principles supreme treasures in front of him had earth-shaking power.

However, when Jian Wushuang looked at the principles supreme treasures one by one, he frowned.

"Although these principles supreme treasures are extremely powerful and valuable, the key is that I'm too weak, and I've only just comprehended a trace of universe principle. With my current strength, I'm afraid that most of the principles supreme treasures can only unleash the first level of power. Some of them have a lower threshold and can barely unleash the second level of power, but the first and second levels of power are not of much help to me," Jian Wushuang thought.

It was a very simple reason.

The supreme true treasures in his hands now, after he had grasped a trace of the universe principles, were mostly able to unleash the power of these true treasures. For example, he could already unleash the third level of power of the Dark Gold Devil Dragon Armor, with 60 percent of the power of Devil Dragon in his hands, it could be considered quite a huge increase in his power.

If he were to use the mad demon armor, which was a medium-grade law-type true treasure, he would only be able to exert the first level of power, which was 1,000 times the power of a basic Ruler.

Although it was 1,000 times the power of a basic Ruler, it was only 1,000 times the power of a second-level Advanced Ruler. Although it was a great improvement for him, however, this improvement did not really surprise Jian Wushuang.

Most of the other rule supreme treasures were the same.

Only the Wu Qi Divine Sword, as an offensive magic weapon, could greatly increase Jian Wushuang's offensive power, which was of great use to him.

"I only have one last chance. The treasures I have to choose will be of great use to me. They can either help me increase my strength or help me fight against Devil Cloud Star in the Divine Beginning Realm. As for the other rule supreme treasures, they may be of greater use to me when I go to the universe battlefield in the future, but they are of limited use to me at this stage." Jian Wushuang frowned, he continued to look at the other rule supreme treasures.

One rule supreme treasure after another floated in front of Jian Wushuang's eyes. Jian Wushuang was not very satisfied.

But at this moment, a mini tower that emitted black, white, and purple colors suddenly appeared in front of Jian Wushuang.

Jian Wushuang looked at the three-colored tower and immediately got the information of this tower.

"Three-layered Dao Realm, a low-grade law supreme treasure."

It was a simple information.

There was only the name and level of the supreme treasure, but nothing else. It did not even say what type of principles Supreme Treasure it was.

This made Jian Wushuang feel strange.

"Lord Wu, what is this three-colored tower?" Jian Wushuang asked.

"Tricolor tower?" Lord Wu glanced at the tricolor tower and then smiled. "It's a Three-layered Dao Realm. It's a special rule Supreme Treasure."

"Special? How special?" Jian Wushuang asked.

"A Three-layered Dao Realm is a domain-type rule supreme treasure. After all, it contains three realms and is quite powerful. It's much stronger than the Triple Magic Light mirror you took with you when you left. However, it's far inferior to other domain-type rule supreme treasures," Lord Wu said with a smile.

"It's much weaker than other domain-type law treasures?" Jian Wushuang was stunned.

"Although it's not as powerful as other domain-type law treasures, the real function of the Three-layered Dao Realm is not the domain, but the three-layered world contained in the Three-layered Dao Realm. The three-layered world is a cultivation world," Lord Wu said.

"What do you mean?" Jian Wushuang was interested.

"The three-layered cultivation world, as its name implies, is used to help cultivators cultivate," Lord Wu began to explain.

"The first-layered cultivation world, which is the black world emitted by the tower, contains all kinds of natural principles, including some unique cultivation environments. It is mainly targeted at cultivators at

the Saint Realm. Some cultivators at the top of the Saint Realm can enter the First-layered Dao Realm and use those special cultivation environments to gradually comprehend a natural principles, so as to meet the requirements of breaking through the Principles Master.”

...

Chapter 3837: Extremely Useful

“In other words, the First-layered Dao Realm can help the Immortal Saint break through to become a Principles Master!” Jian Wushuang’s expression changed.

“Of course, it’s very effective. Under normal circumstances, after ten top-level saints enter the First-layered Dao Realm and spend some time cultivating and comprehending, there should be seven or eight who will directly break through to become a Principles Master. As for the rest who haven’t broken through, if they can’t break through to become a Principles Master in the First-layered Dao Realm, then unless they encounter a great opportunity in the future, they won’t be able to break through again for the rest of their lives,” Lord Wu said.

Jian Wushuang’s eyes lit up.

Seven or even eight of the ten Immortal Saints could directly become Principles Masters after entering the First-layered Dao Realm?

It was useless to him, but it was very useful to the many cultivators in the Divine Beginning Realm.

After all, how many Immortal Saints were there in the Divine Beginning Realm? There were also many who stood at the peak of the Saint Realm.

For example, when the Blood Wave Realm was opened, in order to fight for the chance to break through to the Principles Masters, more than 100,000 Peak Saints had entered. This was under the premise that the various forces had agreed to limit the number of people.

If there were no restrictions, then the number of Saints who would enter the Blood Wave Realm would be even more.

The cultivation environment in the First-layered Dao Realm might not be as good as the opportunity in the Blood Wave Realm, but the difference was not too great.

The difference was that the Blood Wave Realm could only allow ten people to obtain that opportunity at a time. At most, ten people could break through to become Principles Masters. However, the First-layered Dao Realm did not have such a restriction, as long as it was a Peak Saint who entered the First-layered Dao Realm, they could try to break through in the cultivation environment in the First-layered Dao Realm.

In other words, he had completely relied on the First-layered Dao Realm to create a large batch of Principles Masters in the Divine Beginning Realm.

The Divine Beginning Realm and Devil Cloud Planet would fight a great battle sooner or later. Although the main force participating in the battle would definitely be the Rulers, and if there were only hundreds

or thousands of Principles Masters, it would definitely not affect the battle situation. However, if there were tens of thousands of them...or even hundreds of thousands of Principles Masters, it would have a great impact on the war situation.

“By the way, there are three stages of the three stages of the Dao Realm. The first stage is aimed at the Immortal Saint. What about the second stage?” Jian Wushuang asked immediately.

“The second stage, of course, is aimed at the Principles Masters.” Lord Wu smiled. “The Second Dao Realm also contains a large amount of natural principles, and they are incomparably dense and profound. It is enough to make it easier for the Principles Masters to grasp other natural principles, as well as the process of fusing them together. It can be said that the second Dao Realm allows the weakest Principles Masters to cultivate step by step to the peak of the Principles Masters. If one is lucky, they can even cultivate all the way to the Ruler-level.”

“Of course, the probability of a Principles Master breaking through to the Ruler realm is not as high as in the First-layered Dao Realm. Under normal circumstances, two or three out of 100 Principles Masters who have reached the top level will be able to break through to the Ruler Realm after cultivating in the Second Dao Realm for a period of time.”

Lord Wu spoke casually, but Jian Wushuang was a little confused.

There were 100 Principles Masters at the top level. After washing their faces in the second Dao Realm for a while, two or three of them could break through to become Rulers?

The probability was...not high?

After all, there were countless Principles Masters in this Star Field. There were countless Principles Masters at the top level, but what about Rulers?

There were less than 100 Rulers in the entire Star Field. In the Divine Beginning Realm, there were less than five surviving Rulers.

How difficult was it to become a Ruler?

In this Star Field, countless Principles Masters dreamed of becoming a Ruler, but they did not have the ability or the opportunity. After all, it was almost impossible for most Principles Masters to merge four principles.

And now, two or three of the 100 Principles Masters could make a breakthrough. This was definitely a great opportunity for many top Principles Masters.

Jian Wushuang could imagine that if he spread the news, the entire Star Field would be shocked. Countless Principles Masters would go crazy and enter the Second Dao Realm, they could even pay a great price because the probability of breaking through to become a Ruler was so high that it was worth it.

“The First-layered Dao Realm is aimed at the Immortal Saint, and the Second Dao Realm is aimed at the Principles Master. Then the Three-layered Dao Realm...” Jian Wushuang could not help looking at Lord Wu.

“You guessed right. The Three-layered Dao Realm is aimed at the Ruler. Of course, the Ruler is also a figure in the universe. The Three-layered Dao Realm is only a low-grade law supreme treasure. Although there are things in the Three-layered Dao Realm that can help the Ruler’s cultivation, they are only useful to the first-level Ruler. At the second-level Ruler level, it’s very difficult to rely on the Three-layered Dao Realm to continue to improve his strength,” Lord Wu said.

“It’s good enough to help the first-level Ruler.” Jian Wushuang was very excited.

First-level Ruler —

99% of the Rulers in this Star Field were only first-level Rulers. Xuan God and the others, who were on the same side as him, were only first-level Rulers. They had not even reached the peak of the first-level, the third layer of the Dao Realm was of great use to these people.

“These three layers of the Dao Realm might not be of much use to me, but it will be of great use to the entire Divine Beginning Realm.

“If I bring these three layers of the Dao Realm back to the Divine Beginning Realm and let the many Immortal Saints and Principles Masters of the Divine Beginning Realm enter it to cultivate unconditionally, then in a short period of time, the combat power of the upper echelons of our Divine Beginning Realm will definitely increase by tenfold or a hundredfold. As long as we give our Divine Beginning Realm enough time, then our Divine Beginning Realm will be able to create a large batch of Rulers and countless Principles Masters.

“By then, even if the army of Devil Cloud Star arrives, we will be able to fight them head-on with our strength.”

Jian Wushuang clenched his hands, his eyes shining brightly.

Indeed, the Three-layered Dao Realm was an incredible opportunity for countless cultivators in the Divine Beginning Realm.

The Divine Beginning Realm could also rely on the Three-layered Dao Realm to increase its strength in a short period of time.

Jian Wushuang had worked so hard to increase his strength in order to help the Divine Beginning Realm out of danger. The Three-layered Dao Realm would be more helpful to the Divine Beginning Realm than his own strength.

“Lord Wu, I’ve decided that I’ll choose the Three-layered Dao Realm for the last treasure.”

Jian Wushuang did not even need to think about it.

Chapter 3838: Absorbing the Heart of the Astral World

“No regrets?” Lord Wu looked at Jian Wushuang.

In fact, in his opinion, this was such a rare opportunity that Jian Wushuang should choose some treasures that would be of great help to him in the future.

However, among the three treasures that Jian Wushuang chose, only the Wu Qi Divine Sword was for his own use. The other two were obviously prepared for others.

"No regrets." Jian Wushuang nodded solemnly.

"Okay, I respect your choice." Lord Wu smiled faintly and waved his hand. Except for the three treasures that Jian Wushuang had chosen, the other treasures disappeared in front of Jian Wushuang.

!!

"The three treasures are here. You can do as you see fit," Lord Wu said.

Jian Wushuang looked at the three treasures floating in front of him.

He was delighted to see the milky-white light, the Black Divine Sword, and the three-colored tower.

He ignored the Black Divine Sword and the three-colored tower and looked directly at the milky-white light.

"Lord Wu, how should I use the Star World Heart?" Jian Wushuang asked.

"Aren't you going to restore your wife's divine body? Where is her soul?" Lord Wu asked.

"Here." Jian Wushuang waved his hand and took out the 100 million-year-old Star Moon Agarwood.

His wife, Leng Rushuang's soul, was attached to the Star Moon Agarwood.

"Oh?" Lord Wu glanced at the Star Moon Agarwood. With his ability, he could naturally sense the soul inside the Star Moon Agarwood. However, Lord Wu shook his head and smiled. "Your Star Field is so remote. There really is nothing good here. You use such garbage to preserve a soul."

"Garbage?" Jian Wushuang was stunned.

The Star Moon Agarwood was a hundred million years old. It was not bad, right?

"Little guy, you look like you haven't seen much of the world. Right, how many good things can you see in this remote Star Field?"

"This hundred million year Star Moon Agarwood is probably the only thing you can use to preserve your soul." Lord Wu sneered.

"But I want to tell you that this hundred million year Star Moon Agarwood can indeed preserve your wife's soul. But as time passes, the quality of this Star Moon Agarwood will become lower and lower, and the effect will naturally become worse and worse. And if I'm not wrong, your wife's soul has been attached to this hundred million year Star Moon Agarwood for hundreds of thousands of years!"

"After such a long time, the effect of the Star Moon Agarwood has been reduced from a hundred million years old to tens of millions of years old. The soul body of your aura is attached to this level of Star Moon Agarwood, and it has suffered some damage."

"What?" Jian Wushuang was shocked.

His wife's soul body had suffered some damage?

How could this be?

"Little guy, I heard from you that you plan to find a piece of Ice Heart Glazed Jade to help your wife create a glazed body, right?" Lord Wu looked at Jian Wushuang with a smile.

"Yes." Jian Wushuang nodded.

If he did not know the existence of the astral heart, he would have to find a piece of Ice Heart Glazed Jade to help his wife create a divine body.

"Haha, I can tell you that if you use the Ice Heart Glazed Jade to restore your divine body after your wife's soul has been slightly damaged, your wife's soul will be more than half damaged. At that time, your wife will not be your wife," Lord Wu said with a smile.

"Is there such a thing?" Jian Wushuang's expression was unsightly.

"Actually, it's not your fault. After all, you don't know much. Even if your wife's soul was damaged, you didn't notice it when she was attached to the Star Moon Agarwood, so you didn't take any other measures. You thought that the Ice Heart Glazed Jade could help your wife recover her divine body," Lord Wu continued to laugh.

"But you're lucky to be here. You passed the test of the Second Heaven of the Red Cloud World, and master left a piece of the stellar heart here."

"Lord Wu, do you mean that the divine body created by the stellar heart won't make my wife lose her soul?" Jian Wushuang asked.

"Of course." Lord Wu smiled and said, "The stellar heart is such a precious treasure. Even an ultimate Ruler's entire fortune might not be as valuable as a piece of the stellar heart. Even a supreme expert would attach great importance to the stellar heart. How could a divine body restored by such a treasure have a soul defect?"

"Let me tell you, if you use the astral heart to restore your wife's divine body, not only will her soul recover completely, but she will also be nourished by the astral heart and become much stronger than before. In the future, her potential will also be enormous. Becoming a Ruler is a piece of cake. Even if she becomes a Ruler, she has a high chance of becoming one."

Hearing this, Jian Wushuang heaved a sigh of relief.

Then Jian Wushuang raised his head and asked, "Lord Wu, what should I do now?"

"It's simple. The core of the Star Moon Agarwood is not material, but some extremely special energy. You just need to guide the special energy from the Star Moon Agarwood into it, and your wife's soul will naturally absorb it. After absorbing it, her soul will undergo a transformation, and then she will create her own divine body. This process will take some time, but it won't take too long. It'll probably take three to four thousand years," Lord Wu said.

"So long?" Jian Wushuang frowned.

He could not wait to see his wife.

“It takes a long time for your wife to transform after absorbing the Astral World. As for the divine body, it doesn’t take too long,” Lord Wu said.

“Well, I’ve waited for so many years. It doesn’t matter if I wait another 3,000 or 4,000 years.” Jian Wushuang suppressed his anxiety.

Then, under the guidance of Lord Wu, Jian Wushuang began to guide the special energy in the Star Moon Agarwood.

The special energy in the Star Moon Agarwood was the essence of heaven and earth that had been accumulated in the Star Moon Agarwood for a whole chaos era. It had the effect of seizing the heaven and earth.

If it was in the hands of the top experts, this energy would have a greater effect. Jian Wushuang was using it for his wife’s soul to absorb. It was actually a waste of talent. However, to Jian Wushuang, no matter how precious the treasure was, it could not be compared to his reunion with his wife.

Soon, the special energy in the Star Moon Agarwood was guided by Jian Wushuang.

Jian Wushuang could also sense that the special energy had been absorbed by his wife’s soul. Then, his wife’s soul slowly began to transform.

However, even during the process of soul transformation, his wife’s consciousness was still in a deep sleep and had not woken up. Jian Wushuang had no choice but to wait patiently.

Chapter 3839: See You

On the ancient altar in the Third Heaven of the Red Cloud World, the 100 million-year-old Star Moon Agarwood was floating, with a layer of milky-white light on its surface.

Inside the Star Moon Agarwood, Leng Rushuang’s soul was undergoing an unprecedented transformation.

The process of transformation took a long time. Jian Wushuang did not wait by the side. Instead, he went to the Second Heaven.

In the Second Heaven, there were all kinds of opportunities on the island. Jian Wushuang had stayed on the island for 10,000 years, and his sword principle, swordsmanship, and other aspects had been greatly improved. However, Jian Wushuang knew very well that...he could only see the opportunities on the island, but he could not touch them.

But now, it was different.

!!

After comprehending a trace of the universe principle, many opportunities on the island began to be of great use to him.

Many of the opportunities on the island had deepened his understanding of the universe principle. He had not comprehended it before, so how could he deepen it? But now he could.

In addition, after comprehending a trace of the universe principle, Jian Wushuang could also study more advanced swordsmanship with the universe principle.

In this way, Jian Wushuang used the opportunity to improve his strength in the Second Heaven while waiting for his soul, which was as cold as frost, to complete its transformation.

Time passed slowly.

In a flash, 3,300 years had passed.

In a corner of the island, there were 11 huge sword stones floating quietly. Jian Wushuang was standing under one of them.

With his eyes slightly closed, he was constantly feeling the essence of the sword skill in the sword stone. The Netherworld Divine Sword in his hand also moved naturally.

Whoosh! Whoosh! The sword essence swept out like waves.

In an instant, the void in front of him seemed to have sunk into a continuous sea. Countless waves spread out in layers, never ending.

Sometimes the waves were violent and violent, rolling up huge waves.

Sometimes they were gentle, like a spring breeze.

Sometimes they were vast and mighty, like thousands of soldiers and horses galloping out.

Jian Wushuang simply did not have any enemies in the void in front of him. Otherwise, if he was swept by the endless waves, he might not be able to escape even if he used all his skills.

Finally, Jian Wushuang stopped what he was doing.

The endless waves finally stopped, and the void in front of him became calm again.

Jian Wushuang opened his eyes with a trace of a smile.

“After studying the sword skill for 800 years under the sword stone, I finally figured out the move ‘Wave Light’. This move combines several concepts and the universe principle. It’s endless and endless. Although it’s not powerful and can’t be compared to my improved hazy sword skill, it’s better if it’s used to trap or tangle with people,” Jian Wushuang said with a smile.

The sword skill, wave light, was different from the obscure sword skill he had created before.

The obscure sword skill was used to kill enemies, and its power was extremely powerful. After Jian Wushuang comprehended a trace of the universe principle and studied it for 3,300 years in the Second Heaven, the obscure sword skill was further improved, its power was much stronger than before.

The sword skill, wave light, was used to trap and entangle enemies. Once the sword skill was used, the sword essence was endless. Unless the opponent was much stronger than him, he could break the sword force by force, otherwise, even if the opponent had a better understanding of the Dao than him, he would still be sucked into the endless waves and would not be able to escape.

This move was bound to become one of Jian Wushuang’s strongest sword moves.

“From now on, I have already created three strongest sword moves. My swordsmanship system can be considered to have some skills.” Jian Wushuang smiled.

The three strongest sword moves he had created.

The offensive killer move, hazy!

The body-protecting swordsmanship, Earth Protection!

And the newly created swordsmanship, Wave Light.

The three sword moves, hazy mainly focused on killing, earth protection focused on protecting the body, and wave light focused on trapping the enemy.

The three sword moves complemented each other, so they could be considered a swordsmanship system. Of course, the swordsmanship system was not complete yet, and there was still a lot of room for improvement.

“Jian Wushuang!”

Lord Wu’s voice suddenly sounded in Jian Wushuang’s mind.

Jian Wushuang had stayed in the Red Cloud World for so long that Lord Wu already knew his real name. However, Lord Wu usually did not call him by his name. Instead, he called him ‘little guy’.

Indeed, in front of Lord Wu, who had lived for God knows how many years, Jian Wushuang could only be considered a little guy.

“Lord Wu.” Jian Wushuang raised his head.

“Your wife’s soul is about to complete the transformation,” Lord Wu continued.

“It’s about to be completed?” Jian Wushuang was overjoyed.

It had been 3,300 years. He had been waiting here for 3,300 years. Although most of the time he had been thinking of ways to improve his strength, he had been thinking of Leng Rushuang, he had been looking forward to meeting Leng Rushuang.

But now, it was finally time.

Without hesitation, Jian Wushuang immediately set off for the Third Heaven.

The Star Moon Agarwood on the ancient altar had long disappeared.

During the process of Leng Rushuang’s soul transformation, the Star Moon Agarwood had been continuously worn down, and now it had been completely worn down.

There was only a milky-white light floating in the air, and it was extremely dazzling.

“I can feel that my wife’s soul is now extremely strong and pure.” Jian Wushuang clenched his hands in excitement.

He could see that Leng Rushuang’s soul transformation had been completed.

Next, it was time to create her divine body.

“Lord Wu, the soul transformation has been completed. Has my wife’s soul awakened?” Jian Wushuang could not help but ask. He tried to check, but he was blocked and could not find anything.

“She should have woken up, but I don’t know if she has noticed anything in the outside world.” Lord Wu stroked his beard and said indifferently.

Jian Wushuang had no choice but to continue waiting.

Buzz! Buzz! A milky-white light suddenly began to surge, and a large amount of light began to gather in the void.

It condensed into a brand-new body.

Jian Wushuang stared at the body without blinking. Gradually, the body was fully formed, and its appearance appeared in front of Jian Wushuang.

It was beautiful, so beautiful that it was suffocating.

It was a prosperous appearance. It was the appearance of his wife, Leng Rushuang, in her previous life. It was exactly the same, and it even added a bit to her temperament. Her figure could only be described as perfect.

Finally, the new body was completely formed.

Then, a pair of extremely attractive eyes opened and looked directly at Jian Wushuang.

Jian Wushuang also looked at her.

Their eyes met.

Suddenly, the air was completely frozen.

...

Chapter 3840: Lovers Finally Get Married

On the ancient altar in the Third Heaven of the Red Cloud World, a couple finally met after many years.

“You, you are...” Leng Rushuang stared at Jian Wushuang, her body trembling. Countless memories immediately emerged in her mind.

These memories were with Jian Wushuang.

Jian Wushuang’s eyes were a little moist.

He had not known what tears were for many years.

!!

His current mood was even more complicated. He had finally restored his wife’s body after much difficulty. He had waited for countless years to finally meet his wife.

Before meeting her, he had thought of many things to say to his wife. But now that they had really met, he did not know what to say.

“Shuang ‘er, are you okay?” Jian Wushuang finally spoke, his voice a little hoarse.

“Husband!” Leng Rushuang finally shouted, and her figure flashed toward Jian Wushuang.

Jian Wushuang opened his arms, and Leng Rushuang threw herself into his arms.

They hugged each other.

There was no sound, no words. They just felt each other’s heartbeat.

Lord Wu, who was standing at the side, shook his head when he saw this scene. Then, he tactfully left. Only Jian Wushuang and Leng Rushuang were left on the altar. They hugged each other and did not let go for a long time.

A moment later.

Jian Wushuang sat down on the altar while Leng Rushuang snuggled in his arms.

“Husband, what’s going on? Didn’t I leave the Eternal Chaotic World with her? And where are we now?” Leng Rushuang had many questions at the moment.

It could not be helped. Her current memory was still in the Green Fire World, in the Tang Dynasty, on the wedding night with Jian Wushuang.

That day, she married Jian Wushuang. After that, her soul slept and Leng Ruxue took control of his body. It had been so many years.

“The Eternal Chaotic World?” Jian Wushuang touched his nose.

The Eternal Chaotic World was a distant thing to him.

However, his wife wanted to know, so Jian Wushuang began to tell her slowly.

He told her about how he ventured into the Eternal Chaotic World alone in order to find Leng Ruxue, and how he reached the peak of the Eternal Chaotic World step by step.

Later, when he met Leng Ruxue, he tried everything to capture her alive, but he failed in the end.

Then, he was about to enter the Eternal Chaotic World, where he was in a crisis. Finally, his master used a shocking method to reverse time and space, sending him and Leng Rushuang’s souls into the reincarnation and the Divine Beginning Realm.

Then, Jian Wushuang talked about his second life and many things that had happened...

It had been too long, and the process was very rich. Jian Wushuang did not tell them all in detail, and he did not even mention some of his adventures.

Leng Rushuang had been listening quietly. From time to time, she tugged at Jian Wushuang’s clothes. It was obvious that she was worried about Jian Wushuang after hearing some dangerous things about him.

She told him the whole story after half a day.

“Just like that, I passed the test of the Second Heaven of the Red Cloud World and got the heart of the Astral World, which completely awakened your soul and created a new body. Then we met.” Jian Wushuang smiled and said.

“200,000 years!”

“I didn’t expect that we would part ways. It’s been nearly 200,000 years!”

After hearing this, Leng Rushuang could not calm down for a long time.

Counting the time, it had indeed been nearly 200,000 years since he left the Eternal Chaotic World. It might even be more than 200,000 years altogether. Jian Wushuang could not remember it clearly.

“So many things have happened in the past 200,000 years, from the Eternal Chaotic World, to the Eternal Chaotic World, to the Divine Beginning Realm, and now to the cosmic battlefield...” Leng Rushuang suddenly stopped, she looked at Jian Wushuang with deep affection and said softly, “You’re so silly.”

“I am silly, but it’s all worth it. At least now we meet. And from today on, no one can take you away from me.” Jian Wushuang kissed Leng Rushuang’s forehead and said with a smile.

“I will never leave you again in my life,” Leng Rushuang said.

“Of course, we will never be separated in this life. Not only the two of us, but also our future children,” Jian Wushuang said with a smile.

Leng Rushuang could not help feeling shy.

The couple, who had been separated for nearly 200,000 years, seemed to have finished their conversation when they met. They cuddled together and talked for a whole day and night, but it was not over yet.

It was not until Lord Wu could not stand it anymore that he showed up and interrupted them.

“Jian Wushuang.” Lord Wu glanced at Jian Wushuang and Leng Rushuang and said in a low voice, “Your wife’s divine body has recovered, and you two are reunited. What are your plans next?”

“Shuang ‘er has left her hometown for too long, and she hasn’t seen her father for a long time. So I plan to take her away and go back to her hometown,” Jian Wushuang said.

“Do you want to leave?” Lord Wu frowned.

“Why? Is there a problem?” Jian Wushuang asked.

“No, but if possible, I suggest you two stay in the Red Cloud World for a while,” Lord Wu said.

“Why?” Jian Wushuang was puzzled.

“It’s like this. Your wife has absorbed the heart of the Astral World and her soul has transformed. She is qualified to become a top expert. However, the resources in your Star Field are too scarce and your vision is generally very low. Even if you put a piece of unpolished jade there now, you can’t really Polish it into a weapon. If your wife goes back with you now, she can easily become a Ruler in the future by

relying on her innate advantage. However, it will be difficult for her to achieve greater achievements,” Lord Wu said.

“Oh?” Jian Wushuang frowned.

“So I have an idea. You two stay in the Red Cloud World for a period of time. During this time, I will give your wife some guidance. In addition, I have a few unique secret skills that are very suitable for her to cultivate. With my guidance and these secret skills, your wife will definitely have more room to grow in the future,” Lord Wu said.

Hearing Lord Wu’s words, Jian Wushuang’s expression became strange.

“Lord Wu, do you have the intention to let my wife inherit your legacy?” Jian Wushuang asked curiously.

“Yes, I do.” Lord Wu nodded and admitted generously.

This made Jian Wushuang even more surprised.

“Why? Do you think I don’t have the ability to guide your wife?” Lord Wu sneered. “Little guy, do you really think that I’m just a butler in the Red Cloud World?”

Jian Wushuang could not help being startled.
