

## Swordsman 3951

### Chapter 3951: Arrival

The vast and boundless universe void space was pitch black, and no light could be seen.

An ancient and huge universe boat was shuttling through the dark void space. This universe boat was incredibly fast. It was obviously huge and heavy, but it could fly through the dark void space of the universe, it was like a fish shuttling through water.

Within the universe boat, there were many powerful and majestic energies. Whether it was the cabin or the deck, there were many great beings standing there. Most of them were Principles Masters, but there were also many Rulers.

And at the core of this universe boat, there was clearly a golden and resplendent palace.

In the center of the palace, two figures were sitting on towering thrones, with fine wine and delicacies placed in front of them.

“In a few days, I will be able to resist that Star Field. Tsk tsk, speaking of which, I have taken over a Star Field in this Star Field. However, my true body spends most of its time in the Devil Cloud Star. As for this Star Field, I seldom come here. I remember that the last time I came to this Star Field was a very, very long time ago.” A loose green robe was placed on the middle-aged man’s back, a middle-aged man with short hair held a bowl of wine and sighed. He had a unique smile on his face.

At first glance, this green-robed middle-aged man gave people a gentle and refined feeling. However, his eyes were strangely golden, which made him even more bewitching.

And his identity was the Star Devil Cloud Star Master.

He was also the source of this catastrophe in the Divine Beginning Realm.

Countless years ago, if Devil Cloud Star Master had not come to this star area and accidentally found the embryonic stage of the Divine Beginning Realm and seized it, many things would not have happened, the Divine Beginning Realm would also be very stable.

Unfortunately, because of this Devil Cloud Star Master, everything changed.

Right now, the entire Divine Beginning Realm was in a crisis because of this Devil Cloud Star Master. Once they failed to survive, countless creatures in the Divine Beginning Realm would lose their lives.

“Devil Cloud, we agreed that when we get to that heavenly realm, you have to let me take a good look at the heavenly realm that you’ve taken over. It would be best if you let me enter that heavenly realm to take a stroll.” Said a man in purple armor who was sitting opposite Devil Cloud Star Master. “Let’s go,” Said a man in purple battle armor.

This man in purple battle armor had a burly figure. At first glance, he looked like a huge mountain. He was sitting opposite the Devil Cloud Star Master, and his words and actions did not carry any hint of reverence. Moreover, the Devil Cloud Star Master had clearly interacted with him on an equal level.

“Shi Hua, don’t worry. You can forget about just taking a look at my astral world. Even if you want to stay there for a long time, you can do so as long as you want,” said the Devil Cloud Star Master with a smile.

“I don’t plan on staying in your astral world for long. I’m just curious and want to take a look. Although it’s only a Grade 3 astral world, it’s after all a self-nurtured place in the vast universe. To be able to possess such an astral world, tsk tsk, it’s really enviable.” The purple armored man praised, but at the same time, he did not hide his envy.

“Haha, I was just lucky. Back then, when I was forced into a corner in Devil Cloud Star, I came to other territories to try my luck. In the end, I really hit the jackpot.” Devil Cloud Star Master laughed.

you are reading on our content copy site. Please copy and search this link " <https://bom.so/sBJMla> " to support us

“Of course I was lucky. However, you didn’t die when you took over a star world. Instead, you succeeded in taking over. Your ability isn’t weak either.” The purple-armored man praised.

He was very clear that even if it was an embryonic astral world, it would still be extremely difficult for him to take over it.

The reason why the Devil Cloud Star Master was able to succeed was because of his own experiences. He was forced into a corner by others. It was not easy for him to find a great opportunity. Naturally, he gambled everything. He did not leave any way out for himself before he succeeded in taking over it.

Devil Cloud Star Master and the purple-armored man were casually chatting and laughing.

Suddenly...

“Huh?” Devil Cloud Star Master’s expression changed. He had already sensed the two people waiting in the void space in front of the universe boat.

“Let the two people in front come up.”

Devil Cloud Star Master sent a message to the great beings on the universe boat.

Soon, the universe boat stopped in the dark void space in front of them. The two human figures who had been waiting there for a long time arrived on the universe boat, and they soon appeared in front of Devil Cloud Star Master.

“Greetings, Devil Cloud Star Master.”

The two people who arrived bowed slightly to Devil Cloud Star Master with a hint of humility.

“Star Luo, Sorcerer God, you two are hiding here?” Devil Cloud Star Master looked at the two people in front of him with interest.

They were Master Star Luo and Sorcerer God.

Master Star Luo was Leng Ruxue’s master. Although she was not an expert under Devil Cloud Star Master, she had worked with him before. Previously, Jian Wushuang had tried to help his wife, Leng

Rushuang, recover her divine body, he had also tried to find Master Star Luo, but unfortunately, he had not been able to find her.

As for the Sorcerer God, he had once controlled the Sorcerer God sect in the Divine Beginning Realm and stood on the same side as the three Saint Realms. He had also attacked Jian Wushuang.

Later, after Jian Wushuang had destroyed the three Saint Realms, he had also tried to find and kill the Sorcerer God. However, the Sorcerer God seemed to have vanished without a trace.

Now, the two people Jian Wushuang was looking for had appeared here.

“It can’t be helped. The Star Palace has complete control over the Star Field. Their forces are everywhere in the Star Field, including the three Universe Battlefields. The Star Palace and Jian Wushuang have been looking for us. If we were still in the Star Field, they would have found us long ago. We can only stay at the edge of the Star Field and wait for your arrival, Devil Cloud Star Master,” the Sorcerer God said with a dry smile.

“Sorcerer God, do you remember our agreement?” Devil Cloud Star Master stared at the Sorcerer God.

“Of course I do. But since the three saint realms were uprooted by Jian Wushuang, all my plans have stopped. I can’t do anything about it,” the Sorcerer God said.

“That’s not a problem. After I flatten this Star Field and kill Jian Wushuang and his people, you can do it again,” said Devil Cloud Star Master.

“That’s true. However, the power of Jian Wushuang and the Divine Beginning Realm is no longer the same as before. I’m afraid it won’t be easy to completely uproot the resistance of the Divine Beginning Realm,” said the Sorcerer God.

“Oh?” The Star Master raised his eyebrows. “Then tell me, how strong has the resistance of the Divine Beginning Realm become over the years?”

“Devil Cloud Star Master, as far as I know, because of that Blood Sword Master, the Divine Beginning Realm has obtained a large number of resources and treasures. At the same time, they’ve also gathered a large number of experts. Especially in recent years, they’ve gathered nearly 70% of the upper echelons of this Star Field...” Sorcerer God began to narrate.

## **Chapter 3952: Life and Death**

After listening to the Sorcerer God’s explanation, the look on the Star Master’s face did not change at all.

“Almost 70% of the upper-level battle strength in the entire Star Field?” The Star Master sneered, “They are just ants at the level of Principles Masters. No matter how many there are, they are still ants. They are not worth mentioning in front of my army.”

“In addition, I heard that Jian Wushuang brought back a group of experts from somewhere not long ago. There are about 30 to 40 of them. They seem to be quite strong,” the Sorcerer God added.

Jian Wushuang brought back a group of experts from the Eternal Dark Prison. This matter was still considered a secret in this Star Field. Even in the Star Palace, not many people knew about it, however, the Sorcerer God, who had been hiding at the edge of this Star Field, actually knew about it?

“A group of experts? How strong can they be?” Devil Cloud Star Master looked down.

“They should all be Rulers. As for their specific battle strength, I’m not sure,” Sorcerer God said.

“Haha, Rulers? The Rulers of this Star Field were only at the first level. At most, there would be one or two second level Rulers. In front of me, how could they be considered experts? Ridiculous.” Devil Cloud Star Master laughed, he still did not care.

Hearing this, Sorcerer God gave Devil Cloud Star Master a meaningful glance, but did not say anything else.

“Alright, if there’s nothing else, you can leave first.” Devil Cloud Star Master waved his hand.

“Yes.” Sorcerer God nodded, bowed, and left.

After Sorcerer God Left, Devil Cloud Star Master’s expression was still calm, but the purple-armored man sitting next to him frowned.

“Devil Cloud, who was that person just now?” The purple-armored man asked.

“It was a sovereign who had submitted to me not long ago. When he found out that I had taken over an astral world, he took the initiative to look for me and work for me. Although I had taken over that astral world previously, I did not know how to make the most of it. It was the Sorcerer God who told me how to make use of it. He was the one who came up with the plan,” the Star Lord said.

“Is that so?” The violet-armored man nodded slightly, however, he continued, “I just met this person. Although he appears to be at the level of an ordinary Ruler, he still gives me a feeling that I am unable to completely see through him. Devil Cloud, when you are facing him, have you ever felt this way?”

“Now that you mention it, there is indeed a bit of truth to it. Perhaps there are some secrets hidden within him, but no matter what, he is just an ordinary first level Ruler. You and I can casually kill him with a single slap. We don’t have to worry about him stirring up any trouble.” Devil Cloud Star Master said.

“That’s true.” The violet-armored man nodded slightly.

Next, Devil Cloud Star Master turned to look at Ruler Star Luo.

Dear readers! you are reading on our content copy site. Please copy and search this link "<https://bom.so/sBJM1a>" to support us

“Star Luo, take out my treasure.” Devil Cloud Star Master said.

Ruler Star Luo immediately waved his hand. Instantly, a pitch-black spear that emanated an endless aura of destruction appeared in the void space of the palace.

This black spear did not just exude an incredibly dense aura of destruction. More importantly, it was emanating a unique power that even the purple-armored man was surprised by.

“Devil Cloud, what’s going on with this spear? It’s clearly not a principle true treasure, but why does it give me such a unique feeling?” The purple-armored man asked.

“Haha, of course it’s special. This spear comes from the Great Universe Godly Palace, and it has a trace of special power. Because of this trace of special power, this spear is much more valuable than ordinary supreme true treasures. It’s not much weaker than a principle true treasure,” said Devil Cloud Star Master.

“A treasure from the Great Universe Godly Palace? No wonder.” The purple-armored man looked surprised, and then he felt relieved.

“Star Luo, thank you for taking back the Spear for me. I owe you one. After this incident, I will completely wipe out this Star Field. I will give you the thing you need,” said Devil Cloud Star Master.

“Then I’ll wait for your good news, Devil Cloud Star Master.” After saying that, Master Star Luo turned around and left.

In the temple, Devil Cloud Star Master and the purple-armored man continued to talk. The speed of universe boat did not slow down at all. Soon, it had passed through the vast dark void and officially entered the Star Field.

...

In the Divine Beginning Realm, the eternal sacred world.

After receiving the message from the Chenyun Ruler, Jian Wushuang returned with his family and friends.

“Father, mother, and everyone, are you sure you don’t want to leave the Divine Beginning Realm?” Jian Wushuang looked solemnly at his two-time parents and his family and friends.

With the war coming, he planned to take his family and friends out of the Divine Beginning Realm first.

With his current strength and means, he could find a place for them to live in this Star Field, such as in other star worlds, so that he could at least ensure the safety of his family members.

Unfortunately, when he brought this up, none of his family members were willing to leave.

They did not have any intention of leaving. Instead, they wanted to stay in the Divine Beginning Realm.

“Shuang ‘er, you don’t have to say anymore. We’ve already thought about it clearly. We’ll stay in the Divine Beginning Realm and live and die with it,” said Jian Nantian.

“Right. The Divine Beginning Realm gave birth to us. It’s our hometown. Our hometown has suffered a great calamity. Although we can’t help much, we won’t abandon it and run away alone. Moreover, we’ve already lived long enough. Even if the Divine Beginning Realm collapses in the next moment and we all die, I don’t have anything to regret,” Zhuo Yunfeng also smiled.

“We tried to escape once when you met a great enemy. We don’t plan to experience that again,” Luo Xinqin added.

Not only Jian Wushuang's parents, but also Wang Yuan, Yang Zaixuan, Su Rou, and others were unyielding.

No one chose to abandon the Divine Beginning Realm and escape alone.

They all intended to share life and death with the Divine Beginning Realm.

Jian Wushuang was helpless about this, and he could not force them.

After all, he was also a member of the Divine Beginning Realm. In this difficult time, he had to shoulder the burden for the Divine Beginning Realm. He also decided to share life and death with the Divine Beginning Realm.

If he was like this, how could he restrain or force the people around him?

"If that's the case, then we will be with the Divine Beginning Realm in life and death." Jian Wushuang clenched his hands.

Many of his closest relatives and friends in front of him also smiled, and their eyes were filled with determination.

### **Chapter 3953: He Must Win**

Looking at the determination in the eyes of his close friends and relatives, Jian Wushuang's heart was in turmoil.

He knew that he had no way to retreat in the following battle.

Once he was defeated, he could not bear the consequences.

Therefore, he must win this battle no matter how much he had to pay!

"Everyone, I'll go first," Jian Wushuang said in a deep voice.

"I'll go with you." Leng Rushuang walked over and held Jian Wushuang's hand.

"Yes, we'll go together." Jian Wushuang nodded.

Immediately, the husband and wife set off at the same time and headed toward the gathering place of experts from the Divine Beginning Realm.

Jian Nantian, Ji Wumeng, Zhuo Yunfeng, Luo Xinqin, Wang Yuan, Yang Zaixuan, Su Rou...Jian Wushuang's closest relatives and life and death brothers all watched Jian Wushuang and his wife leave.

There was not only determination in their eyes, but also anticipation.

They were also roaring crazily in their hearts.

"We must win!"

"We must win!"

...

Outside the Divine Beginning Realm, in the void near the edge of the universe, countless experts were gathered here at this moment.

These experts were from the Divine Beginning Realm, a large number of experts who had been promoted in the shortest time by relying on the Triple Dao world, and many Principles Masters who already existed in the Divine Beginning Realm, there were a total of 140,000 Principles Masters.

There were also countless great beings recruited by Star Palace who had relied on a large number of top-tier true treasures and pinnacle true treasures over the years. In addition to the Great Beings who were already under them, the number was even more exaggerated. There were a total of 560,000 of them!

Dear readers! you are reading on our content copy site. Please copy and search this link "<https://bom.so/sBJMla>" to support us

The 560,000 Principles Masters from Star Palace, together with the 140,000 Principles Masters from the Divine Beginning Realm, made up a total of 700,000!

There were 700,000 Principles Masters in the army. Although the strength levels of these Principles Masters were different, many of them were only in the second or third void realm, there were many experts in the fourth, fifth, sixth, and even the ultimate six void realms in the army.

Moreover, the 700,000 Principles Masters had another characteristic, which was that each of them had a supreme true treasure at the very least. As for those who were slightly stronger, they used a pinnacle true treasure.

Of course, with Star Palace's original resources, even with the 100,000 pinnacle true treasures that Jian Wushuang had brought back previously, it was still impossible for the 700,000 Principles Masters to have a pinnacle true treasure or a pinnacle true treasure, the reason why it could be completed now was that Jian Wushuang had gone to the Red Cloud World personally not long ago.

He had found Lord Wu in the Red Cloud World, and Lord Wu had promised to give him another batch of true treasures.

This batch of true treasures contained a total of one million top-tier true treasures and 300,000 pinnacle true treasures.

With the addition of this batch of true treasures, the true treasures in Star Palace would naturally be incomparably abundant. Even if the army of 700,000 Principles Masters was given a top-tier or even pinnacle true treasure, there would still be a large amount of surplus in Star Palace.

This army of 700,000 Principles Masters, who each had a top-tier or even pinnacle true treasure, under the command of Ruler Spark, formed a total of seven huge battle formations. Each battle had 100,000 people, which was equivalent to seven legions, any legion could unleash terrifying power with the help of a battle formation.

If the seven legions were divided, each 10,000 people could form a battle formation of 10,000 people, and the power they could unleash was not weak either.

When the battle formation of 10,000 people was divided again, it was a battle formation of 1,000 people...

In short, in less than 1,000 years, under the control of an array master like Ruler Spark, the power of this army of Principles Masters had increased by many times.

This was only at the level of Principles Masters. As for Rulers, in the past 1,000 years, Star Palace had recruited many Rulers with supreme true treasures. In total, there were more than 30 of them, and all of them had supreme true treasures, some of them had two or three supreme true treasures, so their battle strength was not low.

These were the battle strength that had been shown on the surface. As for the other battle strength, such as Jian Wushuang's servants, they had not shown up except for the Ruler Star Fire.

Whoosh! Whoosh! Whoosh!

Three figures suddenly appeared in the camp of the Divine Beginning Realm.

Among the three figures, Jian Wushuang and Leng Rushuang were walking in front, while a man in golden armor followed behind them with a cold expression.

The man in golden armor was burly like an iron tower, guarding Jian Wushuang's side.

He had been staying in the blood-red gourd, and had also submitted to the Devil Flame under Jian Wushuang's command.

Over the years, the Devil Flame had absorbed the gold-devouring divine body formed by the Gold-Fire Magic Stone, Ice Essence Crystal, and Blood-Dragon Crystal. It had already recovered 20% of its original state, after that, the soul of the Devil Flame guided the gold-devouring divine body out of the blood-red gourd and turned into a burly man in gold armor, following Jian Wushuang.

"Stone Fire." Jian Wushuang sent a message.

Soon, the Starlord, Daoist Xuan God, and Temporal Temple Master arrived in front of Jian Wushuang.

"Master." The Starlord bowed respectfully to Jian Wushuang.

"My young friend, you're here." Daoist Xuan God and the others simply greeted him.

"Stone Fire, I asked you to cultivate the battle formation for these Principles Masters and my servants. How are they doing now?" Jian Wushuang asked.

"Don't worry, master. The Army of Principles Masters has been cultivating the battle formation in my way for years. Although there are many experts in their battle formation, the battle formation itself is not very complicated. They are all Principles Masters, so they can easily master the battle formation. Now that they have basically mastered it, they can fully unleash the power of the battle formation."

"As for your slaves, they have been cultivating in the Temporal Tower and have almost mastered the Immortal Dipper Battle Formation through the flow of time. They have been practicing it secretly for more than 300 years. Now, once the Immortal Dipper Battle Formation is used, its power will be extremely powerful."

“However, the Immortal Dipper Battle Formation is a trump card, including the strength of your slaves. The Devil Cloud Star has not received any news about it, so I asked them to hide for the time being and wait for a critical moment to attack,” said the Ruler Spark.

“Well, you did a good job.” Jian Wushuang nodded. He was very satisfied with what the Ruler Spark had done over the years.

“Xuan God, I don’t understand. Why did you choose to fight with Devil Cloud Star in the universe void closest to the Divine Beginning Realm?” Jian Wushuang asked in puzzlement.

Although they were already in the universe void, the Divine Beginning Realm was behind them. The distance was too close. Once the battle broke out, if the power of both sides was slightly out of control...the power of the attack could very possibly affect the Divine Beginning Realm. It would also bring a lot of damage to the Divine Beginning Realm.

### **Chapter 3954: On the Eve of the Great Battle (First Part)**

“Heavenly Marquis, you don’t know this, but we have no choice but to choose this place. After all, we have to leave a way out for ourselves and countless experts in the Divine Beginning Realm,” Daoist Xuan God said.

“A way out?” Jian Wushuang frowned, still puzzled.

Daoist Xuan God explained, “Devil Cloud Star is a second-grade star world after all. No one knows how strong Devil Cloud Star Master is. Although we have gathered about 70% of the upper echelons of the Star Field and the experts you brought back, no one knows whether they can defeat the Devil Cloud Star Army.”

“It would be good if we won in the end, but if we lost, then we would have to make plans for the countless cultivators in the Divine Beginning Realm. That’s why we chose this place as the battlefield.”

“This place is the universe void. It can allow the great beings of both sides to display their strongest combat power. It can completely allow both sides to fight to the death. If our side has the advantage then, we can naturally exterminate the Devil Cloud Star Army in one go. And even if we lose, the Great Beings of our Divine Beginning Realm can immediately choose to flee back to the Divine Beginning Realm.”

“After all, the Divine Beginning Realm is only a third-grade astral world, and it repels foreign experts, especially cultivators above the Ruler realm. They simply can not display much combat power in the Divine Beginning Realm. Even though that Devil Cloud Star Master has possessed the Divine Beginning Realm and is the Heavenly Dao will of the Divine Beginning Realm, he still has to follow the principles of the universe. Even if his true body enters the Divine Beginning Realm, he will not be able to display his peak strength. At that time, our camp can continue to fight with Devil Cloud Star in the Divine Beginning Realm!”

“Of course, if we fight in the Divine Beginning Realm, it will be very passive for our camp. Master Devil Cloud can completely ignore us and continue to think of ways to accelerate the evolution of the Divine Beginning Realm. However, without the existence of forces like the three Saint Realms, our camp can

constantly interfere with the experts under his command. This will more or less affect his plans and buy more time for the Divine Beginning Realm.”

Hearing this, Jian Wushuang could not help but fall silent.

He understood what Xuan God meant.

In fact, there were only three outcomes in the following battle.

The first outcome, which was what they desired the most, was to kill Devil Cloud Star Master.

As long as Devil Cloud Star Master died, all the dangers could be resolved without the power of his will of Heavenly Dao, which dominated the Divine Beginning Realm.

The second outcome was to settle for the second-best outcome. If he could not kill Devil Cloud Star Master, he had to completely defeat the Devil Cloud Star Army so that the forces under his command could not infiltrate the Divine Beginning Realm.

In that case, even if Devil Cloud Star Master was still alive and still dominated the will of the Heavenly Dao in the Divine Beginning Realm, if he did not have any help in the Divine Beginning Realm, it would speed up the evolution process of the divine realm, his plan to improve his strength would certainly be greatly affected. Even if he did not stop moving forward, his speed would be greatly reduced. This would buy Jian Wushuang a lot of time to break through to the Ruler realm.

The Divine Beginning Realm could accept either of these two results.

However, if neither of these two results could be achieved, there would only be one final result left.

This kind of result was something that countless great beings of the Divine Beginning Realm were not willing to see. It was that the Divine Beginning Realm’s camp had been defeated by the Devil Cloud Star Army, and countless great beings of the Divine Beginning Realm could only flee back to the Divine Beginning Realm, relying on the Divine Beginning Realm’s rejection of the Great Beings of the outside world, they continued to tangle and fight with the Devil Cloud Star Army.

Dear readers! you are reading on our content copy site. Please copy and search this link "<https://bom.so/sBJM1a>" to support us

However, this kind of result was too passive. Moreover, that Devil Cloud Star Master probably would not give them any more chances.

Just like that time...long years ago, during the Battle of the Seven Star Mysterious Sect.

At that time, the Divine Beginning Realm didn’t have the ability to contend with Devil Cloud Star. Therefore, at that time, the Seven Star Mysterious Sect didn’t dare to run to the void outside the universe to fight with Devil Cloud Star. They could only passively stay in the Divine Beginning Realm, they thought of a way to tangle with Devil Cloud Star Master, but in the end, they were still disintegrated by devil cloud star from the inside. The three great holy regions directly led the forces of the Divine Beginning Realm, and some Rulers of the Devil Cloud Star from the outside world assisted in destroying the Seven Star Mysterious Sect.

The gap between the two sides was too big. The forces of the Divine Beginning Realm basically had no room to struggle. The top forces of the Divine Beginning Realm also knew this, so they compromised.

However, it was different now. The Divine Beginning Realm had the ability to fight with Devil Cloud Star, so they chose to fight head-on with Devil Cloud Star Master in the universe void at the edge of the Divine Beginning Realm.

“I understand. Let’s go and have a look around.” Jian Wushuang held Leng Rushuang’s hand and the couple walked in the middle of the void.

Daoist Xuan God, Ruler Spark, and the others followed him.

Jian Wushuang’s soul power had already covered the void, so he could sense the aura of countless Principles Masters.

He knew some of these Principles Masters, such as Temple Master Bai Xing, Ba Cang, spirit ancestor, serene ancestor, and the others from the Temporal Temple, and the Heaven Ancestor Daoist sect, there were also many Principles Masters from the nine-tailed clan...the aura of these experts he was familiar with was obviously much stronger than before. Apparently, they had been cultivating in the Three-layered Dao Realm over the years, although they had not broken through to become Rulers, they had made great progress.

“Eh?”

Jian Wushuang’s expression changed, but he suddenly looked in a direction.

In that direction, there were dozens of auras of Principles Masters gathered, most of which were women.

“Are they from the Supreme Emotion-forgetting Valley?” Jian Wushuang narrowed his eyes slightly and glanced at Leng Rushuang beside him. “Shuang ‘er, accompany me to meet some acquaintances.”

“Yes.” Leng Rushuang nodded.

As Jian Wushuang moved, he soon arrived at the void where the experts of the Supreme Emotion-forgetting Valley were.

“How are you all from the Supreme Emotion-forgetting Valley?” Jian Wushuang’s voice was a little cold. His eyes swept across the experts of the Supreme Emotion-forgetting Valley.

The Supreme Emotion-forgetting Valley was indeed a big force in the Divine Beginning Realm, but it was not the top force. The number of Principles Masters was not too many, but now there were more than 30 Principles Masters gathered here, apparently, because of the Triple Dao world, many Immortal Saints in the Supreme Emotion-forgetting Valley had broken through to become Principles Masters.

“Heavenly Sword Marquis?”

The people of the Supreme Emotion-forgetting Valley immediately recognized Jian Wushuang and were shocked.

After all, the current Heavenly Sword Marquis was vastly different from before in terms of strength and status.

### **Chapter 3955: The Eve of the Great Battle (Part Two)**

“Mai Yi, greetings, Blood Sword Master.” The gray-haired old woman standing at the front of the experts of Supreme Emotion-forgetting Valley saluted respectfully and shouted.

“The old valley master of Supreme Emotion-forgetting Valley?” Jian Wushuang narrowed his eyes slightly.

He had met the old valley master several times before, and it was because of the old valley master that he had to compromise and take Leng Rushuang’s soul body away, after that, he had finally awakened his wife’s soul body and rebuilt her divine body.

Looking at the old valley master in front of him, Jian Wushuang’s eyes were slightly cold.

Leng Rushuang, who was standing beside him, fixed her beautiful eyes on a beautiful figure behind the old valley master.

Jian Wushuang also looked at the beautiful figure.

It was indeed a stunning woman, and her appearance and temperament were very similar to Leng Rushuang’s.

However, because Leng Rushuang had reconstructed her divine body with the heart of the astral world, her divine body was more perfect than the woman in front of her.

“Husband, who is that woman?” Leng Rushuang asked with confusion.

“She is your second life. You are one with her, but now she is her and you are you,” Jian Wushuang said.

“Is that so?” Leng Rushuang nodded slightly, but she looked at him with more curiosity.

Jian Wushuang looked at the woman and noticed that her aura was very strong. She had reached the pinnacle of the six void realms, and the most important thing was that her aura was too cold, it was so cold and perfect that there seemed to be no emotion on her face. Although she stood there, her expression did not change at all, whether Jian Wushuang came or looked into Leng Rushuang’s eyes.

She was a real, emotionless person.

Just like the principle of the Supreme Emotion-forgetting Valley, she forgot all feelings. Apparently, she had also cultivated the unique divine skill of the Supreme Emotion-forgetting Valley. Compared to the old valley master, she was more perfect and had a higher level of cultivation. Now, she...she was truly like a fairy, unworldly.

“She no longer has any emotions. What’s the difference between such a person and a walking corpse?” Jian Wushuang shook his head secretly.

The unique divine skill of the Supreme Emotion-forgetting Valley was very powerful, but the price was unacceptable to Jian Wushuang.

“Blood Sword Master, the person beside you should be your wife, right?” The old valley master, Mai Yi, looked over with a smile on her face. “It seems that you’ve found the ice heart glazed jade, Blood Sword Master.”

Dear readers! you are reading on our content copy site. Please copy and search this link "<https://bom.so/sBJMla>" to support us

“Ice-heart glazed jade?” Jian Wushuang’s eyes turned cold. “I’m still very angry about the ice-heart glazed jade. Mai Yi, how dare you lie to me?”

“Lie? Blood Sword Master, how can you say that?” Mai Yi asked in surprise.

“Humph, you said that my wife’s soul was attached to the star-moon agarwood for hundreds of millions of years. It was safe. At most, it would take hundreds or thousands of years for my wife’s soul to wake up. However, after tens of thousands of years or even 100,000 years, my wife’s soul did not wake up until I met an expert who told me that the star-moon agarwood could not maintain my wife’s soul forever!”

“My wife’s soul has been attached to the star-moon agarwood. Her soul has been damaged, and the ice-heart glazed jade can’t restore her divine body. If I didn’t get a higher-level treasure by chance, I might never see my wife again.” Jian Wushuang’s voice was extremely cold.

“What?” Mai Yi was shocked. “How, how could it be?”

“The hundred-million-year star-moon agarwood should be able to preserve your wife’s soul. No, no, Blood Sword Master, forgive my ignorance. I did think that your wife’s soul would be protected by the hundred-million-year star-moon agarwood. I didn’t expect it to be like this...”

Mai Yi was also anxious.

She knew how important Leng Rushuang was to Jian Wushuang. Otherwise, Jian Wushuang would not have been so crazy for her.

With Jian Wushuang’s current strength and status, if he really wanted to pursue the previous matter, she could not bear the slightest bit of anger.

Jian Wushuang coldly glanced at Mai Yi, and the anger in his heart gradually subsided.

He could see that Mai Yi was not lying. At least, she did not deliberately deceive him. She thought that the star-moon agarwood was enough to protect his wife.

“Well, now that I have reunited with my wife, I can’t be bothered to punish you. The battle with Devil Cloud Star is coming soon. You, the people of the supreme emotion-forgetting valley, should do your best in this battle.” Jian Wushuang snorted coldly, then he turned around and left.

Leng Rushuang took a deep look at the woman who looked like her and left.

Seeing Jian Wushuang leave, the people of the Supreme Emotion-forgetting Valley heaved a sigh of relief.

...

After walking around the area where many Principles Masters gathered, Jian Wushuang came to the place where many Rulers gathered.

Because of the Triple Dao world, there were many new Rulers in the Divine Beginning Realm. Jian Wushuang was very familiar with some of them.

“Haha, Chenhuo, congratulations on becoming a Ruler.”

Jian Wushuang went directly to Demon Master Chenhuo.

Demon Master Chenhuo had reached the pinnacle of the six void realms when he was in the Divine Beginning Realm. With the help of the Triple Dao world, he had broken through to the Ruler level, he could be said to be the first Ruler created by the Triple Dao world.

As for Di Shisan, who had broken through earlier than him, he had broken through by relying on his own strength. It had nothing to do with the Triple Dao world.

“Heavenly Sword Marquis, no, I should call you Blood Sword Master now. It’s rare that you can still remember me with your current status and identity.” Demon Master Chenhuo smiled.

“You’ve been by my side for so many years. How could I forget your kindness?” Jian Wushuang smiled.

When he was weak, he did not have many good friends in the Divine Beginning Realm, and Demon Master Chenhuo was definitely one of them.

And Demon Master Chenhuo had indeed helped him a lot.

Now that Demon Master Chenhuo had broken through to the Ruler realm, because of Jian Wushuang, he was immediately bestowed with several supreme true treasures. Not only did he have a supreme true treasure magic weapon, but he also had a supreme true treasure armor, he also had a domain type supreme true treasure and a flying type supreme true treasure.

With these supreme true treasures, Demon Master Chenhuo’s life-saving ability would be greatly improved in the upcoming battle with Devil Cloud Star.

### **Chapter 3956: Had Arrived**

Jian Wushuang and Demon Master Chenhuo exchanged casual greetings, but at this moment, he noticed two figures next to him.

“Elder Dark Bone, Ming Yun?” Jian Wushuang’s expression changed as he walked forward.

“Blood Sword Master.” Both Elder Dark Bone and Ming Yun were extremely humble.

“You two are here too. Dark Bone, have you also broken through to become a Ruler?” Jian Wushuang looked at Elder Dark Bone and could sense the aura of a Ruler emanating from him.

“To tell you the truth, I have already become a Ruler a long time ago,” Dark Bone said.

“Oh?” Jian Wushuang was stunned.

“My Dear Heavenly Marquis, Dark Bone has been on my side for a long time. It’s just that no one knows about it,” Daoist Xuan God said.

“Is that so?” Jian Wushuang understood.

No wonder Dark Bone had been helping him in the past. It turned out that he was on his side from the beginning.

“After all, the Divine Beginning Realm is our hometown. Although I, Dark Bone, am not very capable, I will not turn a blind eye to the desperate situation of my hometown.” Elder Dark Bone laughed, “As for Ming Yun, he and I are good friends. He came with me this time. Although we can not help much in this battle, we can at least contribute.”

Jian Wushuang nodded.

The great battle was about to begin. The experts of the Divine Beginning Realm were united.

Only in this way could they have a chance of winning the battle with Devil Cloud Star.

At this moment, Ruler Chenyun suddenly sent a message.

“Blood Sword Master, I have bad news.” Ruler Chenyun’s voice was a little low.

“Bad news?” Jian Wushuang frowned. “What happened?”

“Blood Sword Master, when I sent you a message, I told you that the universe boat on Devil Cloud Star stopped for a while when it passed by a Star Field. Before, the Nine Emperor Pavilion did not know why the universe boat stopped there, but now, we have figured it out.” Ruler Chenyun paused, he continued, “Devil Cloud Star’s universe boat stopped in that Star Field because of an expert from that Star Field, Shi Hua Divine Emperor.”

“Shi Hua Divine Emperor?” Jian Wushuang remembered the name.

“That Shi Hua Divine Emperor is a fourth-level Ruler. Although he is only at the elementary level of the fourth-level, he is very famous in many Star Fields nearby. Moreover, he is very familiar with Devil Cloud Star Master and they seem to be on good terms. This time, when Devil Cloud Star passed by the Sea of consciousness of that Star Field, he was invited to come to this Star Field with him,” Ruler Chenyun said.

“What did you say?” Jian Wushuang’s expression immediately changed. “Are you saying that in the universe boat that Devil Cloud Star is currently on, besides Devil Cloud Star Master, there is also a fourth-level Ruler, Shi Hua Divine Emperor?”

“That’s right.” Ruler Chenyun nodded slightly.

“Damn it!” Jian Wushuang clenched his hands, but he could not help cursing in his heart.

Devil Cloud Star Master alone was already very difficult to deal with.

Although he had prepared many methods over the years, which gave him some confidence to face Devil Cloud Star Master, he was still not absolutely sure that he could win this battle.

But now, in addition to Devil Cloud Star Master, there was also an Shi Hua Divine Emperor?

They were both fourth-level Rulers. If Shi Hua Divine Emperor made a move, his battle strength could completely influence or even change the entire battle situation.

“Ruler Chenyun, can you confirm the relationship between Devil Cloud Star Master and Shi Hua Divine Emperor? If it comes to a critical moment, will he definitely make a move?” Jian Wushuang asked immediately.

“Of course, I can confirm the relationship between them. They are indeed good friends. Some experts in the surrounding Star Fields have heard about this, but I can’t guarantee that Shi Hua Divine Emperor will not make a move when the battle begins,” said Ruler Chenyun.

Jian Wushuang’s eyes narrowed.

Shi Hua Divine Emperor and Devil Cloud Star Master were good friends. Now that they were on the universe boat in Devil Cloud Star, Shi Hua Divine Emperor would most likely attack when the war began if Devil Cloud Star’s side was defeated. In other words, in this war...they had another enemy who had reached the level of a fourth-level master.

It was indeed bad news.

“Fortunately, although Shi Hua is also a fourth-level master, he is not very strong. The three most powerful experts of our camp should be able to fight him easily. The real threat to our camp is Devil Cloud Star Master,” Jian Wushuang muttered.

Shi Hua’s arrival was beyond Jian Wushuang’s expectations and brought him some pressure, but it was still within his range.

“Blood Sword Master, the universe boat that Devil Cloud Star is on has arrived in this Star Field. It’s rushing to the Divine Beginning Realm as fast as it can. I think it’ll take at most half a day,” Ruler Chenyun said.

“Half a day?” Jian Wushuang’s expression was cold. “All the experts in the Divine Beginning Realm are ready and are ready to die. Now, we’re just waiting for them to arrive!”

In the void where countless experts gathered, a solemn atmosphere had already gathered.

As the news of the arrival of the Devil Cloud Star army spread, a large number of experts in the void were ready. Countless Principles Masters rose up, they had already formed one huge battle formation after another.

The numerous Principles Masters within the battle formation were also gathering their strength and waiting for the next big battle.

Half a day later, under the gaze of hundreds of thousands of great beings from the Divine Beginning Realm camp, an ancient and incomparably huge universe boat slowly sailed over from the universe void space at the very front.

This universe boat was too big. It was at least ten times bigger than the universe boat that Stone Ruler Spark had obtained back then.

On this ancient universe boat stood countless great beings. In the depths of the universe boat, there was a powerful and even terrifying aura circling.

“The Devil Cloud Star Army has arrived.”

In a nearby universe void space, three figures stood there calmly.

These three figures were the three Pavilion Masters from Nine Emperor Pavilion, and the leader was dark cloud Ruler.

When the three of them saw the enormous universe boat descend and appear in the void space, they were secretly amazed.

“Devil Cloud Star is a level two star world after all. It has countless experts under its command, and there are close to a hundred Rulers. Devil Cloud Star Master previously took over a star world, and now, he has broken through to the level four realm. In addition, he has an existence called Shi Hua Divine Emperor with him. I wonder if the Divine Beginning Realm will be able to withstand such a lineup...”

### **Chapter 3957: Confrontation**

“It would be fine if we could block it, but if we can’t, the death of the Divine Beginning Realm is still a small matter. The key is that Blood Sword Master might also die,” another Pavilion Master said with a frown.

To the Nine Emperor Pavilion, they did not care about the life and death of the Divine Beginning Realm.

The only thing they cared about was Jian Wushuang’s life or death.

After all, Jian Wushuang was a real super genius, and his name was already on the Nine Emperor List. If he could grow up in the future, it would be beneficial to the Nine Emperor Pavilion.

“Unfortunately, the Nine Emperor Pavilion does not compete for Ruler and does not participate in the fights between the various forces. Although the Blood Sword Master is on the Nine Emperor List, the Nine Emperor Pavilion will only provide him with some basic help, but we will not help him out of the crisis. Whether he lives or dies in this battle depends on himself.” Ruler Chenyun shook his head secretly.

The Nine Emperor Pavilion would not care about the experts on the nine-emperor list.

Especially the young experts who had not yet grown up.

For example, although the Nine Emperor Pavilion valued geniuses like him, they would not help Jian Wushuang much. Even if Jian Wushuang was in a desperate situation, the Nine Emperor Pavilion would

not help him, this was the iron principle of the Nine Emperor Pavilion. After all, there were so many geniuses on the Nine Emperor List. If the Nine Emperor Pavilion helped anyone who was threatened, the Nine Emperor Pavilion would pay too much and would not be able to handle it.

Moreover, the path of cultivation could not be smooth sailing. Anyone who wanted to become a top expert had to go through trials and tribulations.

The Nine Emperor Pavilion was willing to see the genius experts on the Nine Emperor List meet with danger, because in the eyes of the Nine Emperor Pavilion, these dangers were just some tempering.

Only experts who could truly grow through the tempering and reach the top level of the universe were qualified to ask the Nine Emperor Pavilion to help them.

The current Jian Wushuang was still far from that level.

"I hope Blood Sword Master can survive this time," Ruler Chenyun thought.

The ancient and huge universe boat appeared in the void at the edge of the Divine Beginning Realm. Hundreds of thousands of cultivators in the Divine Beginning Realm looked at the ancient universe boat with serious expressions.

"Finally, it's here."

Jian Wushuang narrowed his eyes, and there was a fierce gleam in the depths of his eyes.

His wife, Leng Rushuang, stood beside him. Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and the Heaven Ancestor stood beside Jian Wushuang as well. There were many high-level experts in the Divine Beginning Realm, looking at the ancient universe boat in front of them, their expressions were solemn, and their hearts were slightly trembling.

Dear readers! you are reading on our content copy site. Please copy and search this link "<https://bom.so/sBJMla>" to support us

Buzz, buzz, buzz. The ancient universe boat finally came to a complete stop in the dark void. Then, countless figures rushed out of the universe boat like wasps.

These people were the great beings under the command of Devil Cloud Star, and they were all Principles Masters. As for the number, it was much less than the Divine Beginning Realm's camp, which only had 100,000 people.

However, although the Principles Masters in the Devil Cloud Star Army could not be compared with the Divine Beginning Realm's camp in terms of numbers, these Principles Masters of Devil Cloud Star were all wearing the same black armor, and even the godly weapons in their hands...they were all the same standard divine weapons, and their auras were all magnificent and tyrannical.

100,000 Principles Masters were at least at the peak of the void fifth level, and more than half of them were at the void sixth level.

In terms of quality, these Principles Masters in the Devil Cloud Star Army were much stronger than the Principles Masters in the Divine Beginning Realm.

Although the Divine Beginning Realm had an army of 700,000 Principles Masters, forming an army formation of seven people with 100,000 people, the strength of these 700,000 people was uneven. Even though there were quite a number of void sixth level Principles Masters among them...in terms of numbers, however, they were not as many as Devil Cloud Star's side.

This was merely a simple comparison of numbers and quality. However, in a real battle, the coordination of the army, the degree of tacit understanding, and all sorts of methods were the key to victory.

Although the Divine Beginning Realm's side had an army of 700,000 people, if they really wanted to fight against the army of 100,000 Principles Masters from Devil Cloud Star, they might not have the confidence to win completely.

Suddenly...

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

More than 100 streams of light rushed out of the ancient universe boat and appeared at the front of the army of 100,000 Principles Masters.

These streams of light were the Ruler-level experts of the Devil Cloud Star Camp. There were more than 100 of them, led by Devil Cloud Star Master and Shi Hua Divine Emperor.

"Is he Devil Cloud Star Master?" Jian Wushuang stared at the most conspicuous person in the crowd.

It was a middle-aged man who looked extremely elegant. He stood at the front of the army with his hands behind his back. There was a smile on his face, and a faint golden light appeared in his eyes, he gave off an extremely demonic feeling.

The root of the war was Devil Cloud Master, and also the true source of the disaster in the Divine Beginning Realm.

"Devil Cloud Master looks very ordinary. He doesn't look very scary. I can't sense his aura." Jian Wushuang narrowed his eyes slightly.

He knew that the more ordinary Devil Cloud Star Master looked, the more extraordinary he was.

"The man in purple armor next to him should be Shi Hua Divine Emperor?" Jian Wushuang looked at Shi Hua Divine Emperor again.

They were both fourth-level Rulers, so Jian Wushuang did not dare to underestimate Shi Hua Divine Emperor.

"Eh?" Jian Wushuang's expression suddenly changed, and his eyes immediately locked onto a Ruler behind Devil Cloud Star Master.

"Ruler Starfall." Jian Wushuang's pupils constricted, and a trace of sharpness flashed in his eyes.

He knew Ruler Starfall, but he had never seen the Sorcerer God's real body, so he could not recognize him. However, Daoist Xuan God and the others immediately recognized him.

"It's the Sorcerer God?"

“The Sorcerer God is very cunning. When the three Saint Realms were destroyed, the three masters of the Saint Realm were killed, but the Sorcerer God fled far away. We have been looking for him all these years, but we haven’t been able to find him. We really don’t know where he has been hiding all these years.”

Daoist Xuan God, Temporal Temple Master, and the others looked at the Sorcerer God with killing intent in their eyes.

“Haha! I didn’t expect you to reach such a level in such a short time. Jian Wushuang, you really surprised me.” A hearty laughter suddenly sounded.

The faint golden light in the eyes of the Devil Cloud Star Master suddenly became more dazzling, making him look even more evil.

“Devil Cloud Master, this should be the first time I’ve seen your real body. Moreover, I’ve been waiting for this day for a long time,” Jian Wushuang said in a cold voice.

“I’ve been looking forward to meeting you, Jian Wushuang. After all, you’re the most powerful genius I’ve ever met in my cultivation. Even your master, Xuan Yi, can’t compare to you in terms of talent and potential,” Devil Cloud Master sneered.

#### **Chapter 3958: Fourth Divine General**

“Master?” Jian Wushuang’s eyes turned cold.

The simple conversation had already caused Jian Wushuang to be filled with a shocking killing intent.

After all, his master, Xuan Yi, had died at the hands of the Star Master.

“Jian Wushuang, I heard that you are now the publicly acknowledged number one expert in this Star Field. I’m very curious about your current strength.” The Star Master smiled and suddenly waved his hand, a towering throne materialized behind him. He sat on the throne and looked down at everything.

“Tao Shi,” Devil Cloud Star Master said.

“Star Master.” A man over two meters tall and as strong as a brown bear walked out.

“Go up and test this little guy’s strength. Remember, don’t kill him at the beginning, or it will be boring.” Devil Cloud Star Master said playfully.

“Yes.” The burly man, who looked like a brown bear, immediately stepped forward.

“Which one is Jian Wushuang? Come up and die.” The burly man, who looked like a brown bear, stood in front of the hundreds of thousands of soldiers in the Divine Beginning Realm and shouted loudly. His voice shook the sky and was very arrogant.

However, Jian Wushuang frowned. “What does Devil Cloud Master want to do? Fight in front? Is it necessary?”

Jian Wushuang was puzzled, but he immediately noticed the special gazes around him.

These gazes came from the experts of the Divine Beginning Realm. At this moment, hundreds of thousands of experts were staring at him.

These gazes were filled with anticipation and fanaticism.

Just as Devil Cloud Star Master had said, Jian Wushuang was now the undisputed strongest expert in this Star Field, and one of the biggest supporters of the Divine Beginning Realm's camp in this battle, countless cultivators in the Divine Beginning Realm undoubtedly regarded him as their backbone. If Jian Wushuang won this battle, it would be fine, but if he lost, it would be a huge blow to his own camp, it would definitely be a huge blow.

One had to know that Devil Cloud Master's subordinate was the only one who had come to challenge him. If he could not even defeat his subordinate, then there was no need to fight anymore.

"It seems that Devil Cloud Master wants to win this battle more easily." Jian Wushuang's face was cold. He noticed that many people around him were looking at him expectantly. He knew that he could not back down from this battle, he had to accept the challenge and defeat or even kill his opponent cleanly.

Only then would their morale not be affected.

Taking a deep breath, Jian Wushuang stepped forward and stopped in front of the burly man.

"You are Jian Wushuang? A Principles Master?" The burly man glanced at Jian Wushuang with disdain.

A Principles Master was just an ant. He did not know why his star master wanted him to deal with an ant?

Although he did not understand...the burly man said in a deep voice, "I'm Tao Shi, the fourth divine general under the Star Master. The star master told me not to kill you at the beginning, so don't worry. I won't let you die so quickly. But if you're too weak and can't even take my simplest attack, then you can't blame me if you die."

"If you don't kill me first, I'll kill you first," Jian Wushuang said coldly.

"Haha, you're so arrogant." Tao Shi laughed coldly, but a fierce aura rose from his body. This aura was earth-shaking, many cultivators in the Divine Beginning Realm were shocked at once.

It could not be helped. The strength of the cultivators in this Star Field was too low.

Before, the strongest had only reached the second level. Now, Tao Shi's aura was clearly at the third level.

The cultivators in this Star Field had never seen a Ruler at the third level. Now that they felt this aura, they were naturally terrified.

However, after Jian Wushuang sensed this aura, his expression remained calm.

"This aura is only at the third-level primary Ruler level, and it's very ordinary among the third-level primary Rulers. Any third-level Ruler in the Eternal Dark Prison would probably be stronger than him. With such strength...there's no need to waste time. Just kill him!"

Jian Wushuang did not care about Tao Shi at all.

With a flip of his right hand, Wu weeping divine sword appeared in his hand. As the aura of the principle true treasure spread out, the eyes of many Rulers in the Devil Cloud Star, including the star master and Shi Hua Divine Emperor, lit up.

Jian Wushuang had already made his move.

Buzz buzz buzz!

A hazy fog, like a domain, swept out majestically.

In the blink of an eye, the entire world was covered by this mist.

Within the area covered by the hazy mist, a sword formation had already taken shape.

Tao Shi stood on the spot, unable to block the spread of the mist at all. He was already at the center of this hazy mist, and at the same time, he sensed the special power contained within the mist.

“Is this...a formation?” Tao Shi frowned, and a huge axe appeared in his hand.

Suddenly, a cold light lit up.

A huge sword shadow came slashing down from the fog.

It was so fast that it was incredible. It appeared directly from the fog. Tao Shi did not see how Jian Wushuang attacked. By the time he reacted...the huge sword shadow had already appeared in front of him. He did not even have time to swing his giant axe to block the Sword Shadow.

Bang!

The Sword Shadow did not suffer any obstruction as it struck Tao Shi's divine body. Tao Shi's divine body shook violently as he spat out a huge mouthful of blood. The Aura on his body was directly weakened by more than 20% at this moment.

“How is this possible?” Tao Shi's eyes widened.

As the fourth divine general under the Devil Cloud Star Master, he clearly had monstrous strength. Moreover, the huge axe was already in his hand, but he did not have the time to make a move. His divine power had already been annihilated by more than 20%.

Hua!

Another giant sword shadow came, followed by the third, the fourth, and the fifth!

“No!”

Tao Shi let out a shrill scream. He crazily waved the giant axe in his hand, trying to block it!

However, he only managed to block one of the five sword shadows. The other four hit his divine body directly. All of Tao Shi's divine power was destroyed.

Buzz!

The hazy fog in the sky dissipated, and the world returned to peace.

Jian Wushuang had already put away his Wu Qi divine sword. He stood quietly in the universe void, and under his feet was Tao Shi's cold corpse.

It only took a moment for the fog to dissipate, but Tao Shi, the fourth divine general under the command of Devil Cloud Star Master, still died on the spot!

### **Chapter 3959: The Great Battle Had Finally Erupted!**

"He's dead! That Taoshi is dead!"

"In just a split second, I didn't even have time to react. This so-called fourth divine general has already been killed?"

"Did you see that? This is Blood Sword Master, the number one expert in our Star Field!"

"He's too strong. Blood Sword Master is too strong. With Blood Sword Master around, that Devil Cloud Star Master is nothing."

The countless cultivators from the Divine Beginning Realm camp were completely shocked.

Because the battle just now was too fast. They only saw the fog spread out. As for what happened in the fog, they did not even have time to see it clearly before the fog spread out again. and the fourth divine general Tao Shi who had been shouting just now...the fourth divine general Tao Shi, who had burst out with a monstrous aura, had died.

In just a moment, Jian Wushuang had completely conquered them with his absolute strength.

The result of this battle immediately boosted the morale of the cultivators from the Divine Beginning Realm Camp!

They had been a little apprehensive about the result of this battle, but now, because of Jian Wushuang, they were full of confidence and almost thought that they could win this battle.

"We won this battle beautifully!"

"The Heavenly Marquis is too powerful."

"I can feel that Tao Shi's aura is much stronger than ours, but he was killed in front of the Heavenly Marquis."

The Rulers of the Divine Beginning Realm camp were also pleasantly surprised and excited. They all knew that Jian Wushuang had easily won and killed his opponent, which had a great impact on the battle.

"Master's strength has increased again."

Among Jian Wushuang's many slaves, only Ruler Spark was standing among the experts of the Divine Beginning Realm camp. The others had hidden themselves.

Ruler Spark was also secretly surprised at this moment.

He knew Jian Wushuang's strength. A thousand years ago, in the Eternal Dark Prison, although Jian Wushuang's strength was strong enough, he could only use the wave light sword formation to trap and slowly kill his opponent.

However, in the past thousand years, Jian Wushuang had been cultivating in the Temporal Tower, and his strength had obviously increased a lot, especially in the sword formation.

Both the Wave Light Sword Formation and the Earth Protection Sword Formation had been greatly improved.

Of course, the divine body, which had cultivated the third level of the supreme immortal celestial body and was comparable to the most powerful supreme treasure, gave Jian Wushuang a stronger divine power.

What Jian Wushuang had just displayed was the hazy sword formation derived from the obscure sword skill.

This sword formation was an absolute killing sword formation. It was also extremely powerful when displayed by Jian Wushuang.

At present, Jian Wushuang could easily kill an ordinary third-level Ruler without using any trump cards and relying solely on the obscure sword formation.

The entire universe void was in a state of chaos and madness because of the result of the battle between Jian Wushuang and Tao Shi.

The cultivators in the Divine Beginning Realm were all pleasantly surprised and excited, while those on the Devil Cloud Star were the exact opposite. When they saw that their fourth divine general had been killed so easily, they were all shocked.

They knew how powerful this fourth divine general, Tao Shi, was.

The six great divine generals under the command of the Devil Cloud Star Master were all similar in strength. Even the first divine general was not much stronger than the sixth divine general, it could be said that these six great divine generals were the strongest warriors under the command of the Devil Cloud Star Master.

Of course, the Devil Cloud Star Master himself was far above these six great divine generals.

But now, the fourth divine general was killed so easily. In the entire Devil Cloud Star Camp, only their star Master could contend with the other party?

"I originally wanted to slightly suppress the other party's morale, but I didn't expect it to be a trap for myself." Devil Cloud Master also frowned. Jian Wushuang had killed Tao Shi so cleanly, this was clearly beyond his expectations.

"However, Jian Wushuang's increase in strength is indeed beyond my expectations," Devil Cloud Star Master thought to himself.

“A mere Principles Master was able to kill a third-level Ruler in an instant. This Principles Master is very powerful. I’ve cultivated for almost a chaos cycle and have seen many genius experts, but I’ve never seen such a heaven-defying Principles Master.” Shi Hua Divine Emperor was also amazed.

“No matter how heaven-defying he is, he will still die if he dares to block my path.” Devil Cloud Star Master erupted with a shocking killing intent. “There’s no need to waste any more time. Just attack. Kill him.”

Devil Cloud Star Master sat on his throne and casually waved his hand.

However, the moment he waved his hand, the densely packed army of 100,000 Principles Masters behind him instantly moved.

“Kill!”

A shocking battle cry suddenly sounded.

The 100,000 people spoke at the same time, but the sound they made was as if it was made by one person. Moreover, this voice was filled with a shocking killing intent. For a moment, the entire universe void trembled.

The army of 100,000 Principles Masters was like a huge war machine that directly operated. Countless human figures rushed out at the same time. Even though they rushed out at the same time, this army was orderly and orderly, there was no disorder.

A terrifying killing intent filled the world.

The moment the army of 100,000 Principles Masters started to operate, the eyes of countless cultivators in the camp of the Divine Beginning Realm turned red, and they even became crazy.

These cultivators all took out their true treasures one by one. The lowest one was top-tier, and even top-tier true treasures appeared in their hands. The godly power of countless Principles Masters rushed into the sky.

“Fight!”

With a roar, the desire to fight soared into the sky.

In the next moment, an army of 700,000 Principles Masters formed seven huge battle formations. Like seven war beasts, they charged out.

Compared to the entire army of 100,000 Principles Masters on Devil Cloud Star, the seven war beasts on the side of the Divine Beginning Realm were not as perfect, but their momentum was not weak at all, the most important thing was the numbers. After all, it was seven against one.

Even if the quality of the Principles Masters on Devil Cloud Star’s army was higher than the Divine Beginning Realm’s side, the Divine Beginning Realm’s side was not afraid at all.

In the blink of an eye, the two armies clashed head-on.

This ultimate war that had begun a long time ago and determined the life and death of countless creatures in the Divine Beginning Realm had finally erupted from this moment!

The great battle had begun, and heaven and earth were enraged!

### **Chapter 3960: Armies Colliding**

Peng! Peng! Peng!

A series of earth-shattering and terrifying rumbles suddenly rang out.

The two armies formed a battle formation, combining the powers of all the Principles Masters together. At the first moment, they carried out a terrifying collision attack. That shock wave was shocking to the world, causing the surrounding universe void space to tremble crazily, black holes even appeared out of thin air.

In the first collision alone, of the seven war beasts on the side of Divine Beginning Realm, two were directly pushed back. The entire war beast was trembling madly and almost collapsed.

The battle formation was also formed by 100,000 Principles Masters. A single war beast was not a match for the Devil Cloud Star Army, even if there were two or more 'War Behemoths', they might not be able to contend against the Devil Cloud Star Army. However, the Divine Beginning Realm still had 700,000 Principles Masters, forming a total of seven 'War Behemoths'.

Although one of these seven 'War Behemoths' was not a match for the Devil Cloud Star Army, the seven of them swarmed forward. Even though the battle formation of Devil Cloud Star's army repelled two of them at the first moment, the remaining five frantically pounced forward and unleashed terrifying attacks, they charged straight at Devil Cloud Star's army.

The battle formation of Devil Cloud Star's army was like a single entity. The 100,000 Principles Masters within had obviously been working together for a long time, and they were extremely well-coordinated. Even if they were to face seven War Behemoths attacking from all directions at the same time, they would still be able to withstand the attacks, at the same time, they would also be able to carry out repeated clashes and counterattacks.

The 100,000 Principles Masters at the very least were at the peak of the fifth level of the void. Once they formed a battle formation and executed it perfectly, the power of a casual attack would already surpass that of an ordinary Ruler.

In terms of pure power, even a Ruler at the third or even fourth level could not compare to them.

The battle formation formed by the Devil Cloud Star Army clashed against the seven War Behemoths of the Divine Beginning Realm. They did not fall into a disadvantage for a short period of time.

In the surrounding void, many Rulers of the Divine Beginning Realm camp stood there and looked at the battlefield in front of them. They were all extremely shocked.

"Hundreds of thousands of Principles Masters forming a battle formation to fight and collide again and again. This is the first time I've seen such a scene."

"It's not just you. We're all the same."

“Tsk tsk, hundreds of thousands of Principles Masters madly fighting each other. Just thinking about it is inconceivable.”

The Rulers were all secretly praising.

Although there were quite a number of Principles Masters in this Star Field, hundreds of thousands of Principles Masters was still a huge number.

Usually, when the two large factions fought, the number of Principles Masters participating in the battle would be more than 10,000. This was considered an extremely large scene.

However, this scene paled in comparison to the battle before them.

“As expected of Devil Cloud Star. Although there are only 100,000 Principles Masters in the Devil Cloud Star Army, their quality, proficiency in battle formations, and coordination are much better than the Principles Masters in the Divine Beginning Realm. Fortunately, the number is seven to one. Otherwise, the Divine Beginning Realm would not be a match for Devil Cloud Star. Even now, the Divine Beginning Realm would only have a slight advantage,” Daoist Xuan God said solemnly.

Jian Wushuang nodded slightly.

He could also see that the Principles Masters of the Devil Cloud Army cooperated very well. Moreover, their mastery and proficiency in battle formations were far beyond that of the Principles Masters of the Divine Beginning Realm.

Although there were 700,000 Principles Masters in the Divine Beginning Realm, most of them had been invited over during the past 1,000 years. Moreover, they had not arrived at once, but had arrived one after another over the past 1,000 years.

Although these Principles Masters had started to familiarize themselves with the battle formation as soon as they arrived, time was limited after all. Moreover, there were simply too many of them. Even if Ruler Spark had used all his skills, in such a short period of time...it was impossible for every Principles Master to have a high degree of control over the battle formation.

In other words, out of the 700,000 Principles Masters in the Divine Beginning Realm, most of them had barely grasped the control of the battle formation. There were also many who did not even have the time to grasp the battle formation and had only followed the others...they could barely form the battle formation.

Under such conditions, the Principles Masters in the Divine Beginning Realm could only exert 20-30% of their true power.

This resulted in the seven War Behemoths joining hands, but in a short time, they could only compete with the Devil Cloud Star Army. At most, they could only have a slight advantage.

“Master, it’s because of me that I’ve disappointed you,” Ruler Spark said beside Jian Wushuang.

“You can’t be blamed for this.” Jian Wushuang waved his hand.

He knew very well that it was already very good for Ruler Spark to have the 700,000 Principles Masters form a battle formation in such a short period of time.

“In the army of Principles Masters, although we don’t have much of an advantage in the Divine Beginning Realm, we still have the upper hand. Next, it’s up to the battle between the higher-ups.” Jian Wushuang narrowed his eyes slightly, his gaze pierced through the void and looked toward the far end of his line of sight, which was Devil Cloud Star Master.

Devil Cloud Star Master was still sitting on the lofty throne lazily, looking at the battlefield from time to time.

When he saw that Devil Cloud Star’s army was at a slight disadvantage in the battle with the Divine Beginning Realm, he was surprised.

“Battle Formation? And the level of this battle formation doesn’t seem to be low?”

Devil Cloud Star Master had such an eye for things. He could see that the seven ‘War Behemoths’ formed by the 700,000 Principles Masters of the Divine Beginning Realm were very impressive. It was just that those Principles Masters had a very low degree of control over the battle formation, that was why they were unable to fully unleash the power of the battle formation.

“This Divine Beginning Realm only began to produce a large number of Principles Masters within these few thousand years. Their army should have only been formed within these few thousand years. However, the army that was formed within such a short period of time can actually unleash such battle prowess?”

“It seems that the Divine Beginning Realm has an expert skilled in arrays.” Devil Cloud Lord thought to himself.

The expert he spoke of who was skilled in arrays was naturally Ruler Spark.

“It is very difficult to determine the victor just by relying on the army under me. Let’s look at the battle prowess of the higher-ups.” Devil Cloud Master said as he slowly raised his right hand.

Behind him, the eyes of over a hundred Rulers from Devil Cloud Star instantly focused on Devil Cloud Star Master’s right hand.

As the Devil Cloud Star Master waved his right hand, numerous Ruler-level auras instantly erupted.

The hundreds of Rulers under the command of Devil Cloud Star, including many second-tier and even third-tier Rulers, all moved at this moment.
