

## Swordsman 3981

### Chapter 3981: Take the Blood Pill

"Your last hope?"

Daoist Xuan God, Temporal Temple Master, and many experts from the Divine Beginning Realm looked at Jian Wushuang.

"Shuang 'er."

Jian Wushuang looked at his wife tenderly and smiled faintly. "I really want to walk with you to the end of time and explore every corner of the universe, but...I'm sorry."

"Husband." Leng Rushuang's eyes immediately became wet. Looking at the blood pill and Jian Wushuang's words, she vaguely guessed something. She smiled faintly. "I've been very satisfied these years. Don't worry about me. If you die, I won't live one day longer than you."

Jian Wushuang was stunned. He took a deep look at his wife. He could see the determination in his eyes.

He nodded and rushed toward the universe void.

In the Divine Beginning Realm camp, many cultivators were almost in despair. Suddenly, they saw the figure flying toward the universe void.

"It's Blood Sword Master!"

"Blood Sword Master, are you going to fight with Star Demon Ancestor?"

For some reason, when they saw Jian Wushuang flying out, the cultivators who had been in despair suddenly had a glimmer of hope in their hearts.

Yes, Jian Wushuang was their only hope.

"Star Demon Ancestor!"

A loud shout exploded in the universe void. Jian Wushuang had already left the Divine Beginning Realm and returned to the universe void.

Previously, because the Devil Cloud Star Army had been defeated and only Star Demon Ancestor was left, everyone thought that Star Demon Ancestor could not really threaten the Divine Beginning Realm by himself. Therefore, Jian Wushuang did not need to take the risk.

But now that he knew that Ruler Star Demon could directly devour the Divine Beginning Realm within ten years, Jian Wushuang had no choice but to fight with Ruler Star Demon.

Buzz, buzz, buzz. The huge black vortex suddenly stopped, and then it disappeared at an amazing speed.

Soon, the black vortex completely disappeared, and Ruler Star Demon's figure slowly emerged.

"Haha, Jian Wushuang, you're finally willing to come out?" Star Demon Ancestor looked at Jian Wushuang with a strange smile on his face.

Jian Wushuang's face was cold and he did not speak. He held the Wuqi Divine Sword in one hand and the blood-red elixir in the other.

The blood-red elixir was his only chance, but he did not intend to swallow it immediately.

"Although Star Demon Ancestor has eaten Shi Hua Divine Emperor, many Rulers, and many Principles Masters, his battle strength has not recovered to its peak." Jian Wushuang stared at Star Demon Ancestor.

He could feel that Star Demon Ancestor's divine body, which originally belonged to Devil Cloud Star Master, had not yet reached its peak state. It was still far from its peak state.

"Let's test his current combat strength first." Jian Wushuang narrowed his eyes and three towering Heaven Suppression Tablets rose into the air. Waves of golden light flashed, and in the blink of an eye, the Divine Devil Heaven Suppressing Formation was formed.

A powerful suppressive force was exerted on Star Demon Ancestor's body, but he still smiled faintly as if he was not affected at all.

"Array formation, exterminate!"

"Sword array, wave light!"

Boom! An endless sea of golden sword intent swept out as it charged at Star Demon Ancestor in a mighty and frenzied manner.

Star Demon Ancestor only casually glanced at the sea of golden sword intent before him as the corners of his mouth revealed a hint of contempt.

"What a joke."

With a casual wave of his hand, a black divine power swept out.

This streak of black divine power was very special. It was completely different from the divine power of ordinary cultivators, and much more powerful.

"It's this power again." Jian Wushuang's pupils constricted.

He remembered clearly that when he was in the Eternal Dark Prison, he had used the token of the Red Cloud Lineage to suppress Star Demon Ancestor. However, Star Demon Ancestor could still mobilize a very special power, which was not only special...it was strange, but also very impressive.

Star Demon Ancestor had also said back then that the Red Cloud Lineage had suppressed him because he had mastered this special power.

And now, with Star Master's divine body, Star Demon Ancestor was once again using this special power. Although Star Master's divine body had yet to recover to its peak, Star Demon Ancestor's strength was not at its peak, however, when the black divine power spread out...

The waves of golden light sword essence were mercilessly crushed. In the end, they even directly shattered the ocean of Golden Light Sword Essence.

With a casual wave of his hand, the wave light sword formation that Jian Wushuang had combined with the Divine Devil Heaven Suppressing Formation was directly destroyed.

Although Jian Wushuang had not used the dragon-exterminating secret skill and could not activate the primordial universe, as long as he used it with the Divine Devil Heaven Suppressing Formation, he would be able to deal with an ordinary fourth-level master, however, Star Demon Ancestor...

“He is very strong. Even though he has not reached the peak of his current state, his battle strength is still much stronger than that of the previous Devil Cloud Star Master. Moreover, after he swallowed the soul of the Devil Cloud Star Master, he has mastered everything about the Devil Cloud Star Master, including the trace of universe principle that the Devil Cloud Star Master has comprehended. However, when Star Demon Ancestor attacked just now, he did not use the universe principle.” Jian Wushuang’s face was extremely gloomy.

After a simple exchange, he understood that he was far from being able to contend with Star Demon Ancestor with his own strength, even if he used the dragon-killing secret skill and the original universe.

He could only place all his hopes on the blood-red elixir in his palm.

“Senior Wind Devil, don’t disappoint me with this elixir!”

Jian Wushuang’s face was completely twisted and became extremely ferocious. He knew that he might die if he swallowed this elixir. At this moment, he was ready to die.

Without hesitation, Jian Wushuang directly swallowed the blood-red elixir in his left hand.

When the elixir entered his body, Jian Wushuang felt his throat dry. At first, there was nothing unusual.

But after he swallowed the blood-red elixir, boom! Boom!

An incredible power suddenly erupted.

This power swept in all directions with an ancient will.

Rumble! The entire universe began to tremble crazily. The vast universe was under the control of the ancient will at this moment.

At the same time, a vast amount of information surged toward Jian Wushuang like a tide.

## **Chapter 3982: Primordial Spirit Treasure Pill**

“This...”

At this moment, Jian Wushuang was in a daze.

He had thought that the blood-red pill was purely a pill that could increase his strength in a short period of time. However, after taking it, he found that it was not the case.

At least the blood-red elixir contained not only the power of the elixir, but also an ancient will power and a vast message.

The vast message was first about the use and origin of the elixir.

“The Primordial Spirit Treasure Elixir!”

Jian Wushuang did not know the real name of the blood-red elixir until now.

However, Jian Wushuang was surprised by the origin and use of the elixir.

The Primordial Spirit Treasure Pill is a top-grade autarch-level pill. Anyone who takes it, be it a Principles Master, a Ruler of chaos, or a Supreme Ruler, will immediately enter a state of ‘epiphany’! Whether it was the speed of training or the speed of comprehension can be directly increased a hundred times!

This elixir was one of the most popular elixirs in the vast universe. Even a Ruler at the Supreme Realm longed for it.

The simple introduction shocked Jian Wushuang. “This elixir is completely different from what senior Wind Devil said.”

When Wind Devil gave him the blood-red elixir in that special space, wind demon clearly said that this elixir could increase his strength in a short period of time, but it had great side effects, once he swallowed it, he might even die.

Jian Wushuang remembered clearly that Wind Devil did say so. Therefore, he had always regarded this elixir as his strongest trump card. Until the last moment, he did not want to swallow the elixir and risk his life.

But now, when he really swallowed the elixir, the information he got was completely different.

The blood-red elixir was called the treasure elixir of the great spirit. It was a elixir that could make people fall into a state of enlightenment in a short period of time. It was purely used to help with cultivation and comprehension. Moreover, it was of a very high level.

If Jian Wushuang had obtained this elixir, he would have been overjoyed.

After all, achieving the state of enlightenment was very rare.

But now...he had swallowed the elixir to fight with Star Demon Ancestor. What was the point of enlightenment at this time?

Jian Wushuang felt bitter. He did not know why Wind Devil made such a big mistake.

But the information that came to his mind made Jian Wushuang completely understand.

Wind Devil left him the following information.

“Jian Wushuang, since you can see this information, you must have swallowed the elixir I gave you. Did you not think of it? Are you dumbfounded?”

“Haha!” Wind Devil obviously did this on purpose, the message was full of ridicule.

“Anyway, let me tell you first. Indeed, I lied to you. The elixir I gave you is not something that can increase your strength in a short period of time, but the price is very high. It can even kill you. I can’t give you such an elixir. After all, you have comprehended a trace of the universe principles at the level of

a Principles Master. Such a super genius is a treasure even for the Lingyun Star lineage. Why would I give you such an elixir?"

"Of course, the main reason I lied to you was to train you. If I told you the real purpose of this elixir, you would have swallowed it earlier and solved the problem with your strength. What's the point of training?"

Jian Wushuang had a strange look on his face.

He now understood that Wind Devil had been lying to him from the beginning. There was such an elixir that could be of great use to him, but he told him that it was used to fight at critical moments.

At that time, he had not thought that Wind Devil would lie to him because of his identity.

Of course, Wind Devil had lied to him for his own good.

Jian Wushuang continued to listen.

"Jian Wushuang, listen carefully. The Primordial Spirit Treasure Pill that you have swallowed is one of the top elixirs in the vast universe. It is coveted by countless supreme-beings and is even coveted by them. Of course, although the pill itself is precious, star master left a trace of will in it. This trace of will is the most precious and most important thing. It is much rarer than the Primordial Spirit Treasure Pill," Wind Devil continued.

"Will?" Jian Wushuang was stunned.

He swallowed the spirit-treasure pill, and an ancient and majestic will instantly rose up and now completely covered the entire universe void.

This ancient will was left behind by Star Master Lingyun?

No wonder it was so strong.

"This pill was originally prepared by the star master for his personal disciple. Unfortunately, the great battle came too suddenly back then, and the star master did not have the time to take in a personal disciple. This pill was kept in that special space-time with us until you passed the test of the eighteen ultimate formation set by the star master. At that time, we thought that you had the qualifications to become the star master's personal disciple, but it was just barely qualified. In addition, you were an Immortal Saint back then, and your strength was too weak. If we had given you this pill back then, it would have been too wasteful. That's why we didn't give it to you directly back then, but let you choose an inner star secret art instead."

"However, when you came to that special space-time, you not only broke through to become a Principles Master, but you also comprehended a trace of the universe principles. Tsk, tsk, a Principles Master comprehended a trace of the universe principles, and you're a perfect life-level cultivator. I'm afraid that there's no one else with such talent in the entire universe. Therefore, at that time, we were sure that you could become the star master's personal disciple. Therefore, when you asked us to save you, I discussed with the other brothers and gave you the Primordial Spirit Treasure Pill."

“Jian Wushuang, I lied to you. I told you to swallow the elixir at the critical moment. You must be in a very dangerous situation. But it doesn’t matter. As long as the star master’s will is awakened, no one can hurt you.”

“The elixir will not only help you enter a state of enlightenment, but more importantly, after the star master’s will is awakened, it will give you a great opportunity. This opportunity is actually the guidance left by the star master. It is his understanding of the principles of heaven and earth, the principles of the universe, weapons refinement, alchemy, formation, and various daos, such as saber principle, sword principle, and spear principle. The star master has lived for countless years and is an invincible supreme. He has unique insights and comprehension in all aspects

“After you consume the Primordial Spirit Treasure Pill, you will be able to come into contact with the star master’s will. The star master’s will will teach you for a hundred years.

“Of course, this is a hundred years in a special state, but in the outside world, it’s only a day!”

### **Chapter 3983: Teaching in Enlightenment**

“100 years? The will of Star Master Lingyun taught me personally for 100 years? And it was in the state of enlightenment after taking the primordial spirit treasure pill...” Jian Wushuang was a little confused.

“Jian Wushuang, although it’s only 100 years, it’s an incredible opportunity for any ruler. You’re only a Principles Master and you got this opportunity in a desperate situation. Your harvest will be even greater. Treasure this once-in-a-lifetime opportunity. Don’t let me down.” The message was completely cut off.

However, Jian Wushuang could no longer calm down.

At this moment, he could clearly sense the existence of the ancient will.

This ancient will was left behind by the invincible supreme-level star Master Lingyun. Even if it was just a trace of the will, it could still make the laws of the universe retreat.

At this moment, this ancient will covered the entire universe void. Star Demon Ancestor, who was standing in front of Jian Wushuang, was full of a mocking smile before, but now he could not laugh at all, because he also felt the will in Jian Wushuang’s body.

This will covered everything in the universe void. He was also covered by this ancient will. At this moment, he felt as if his thoughts were completely frozen.

He stood there with his eyes wide open. He wanted to open his mouth, but he found that he could not move at all.

He could not even move his mouth, let alone attack Jian Wushuang.

“What the hell is this?” Star Demon Ancestor was extremely shocked and furious. He was also screaming crazily in his heart.

He did not know what had happened to Jian Wushuang. He only knew that he could not move under the will.

He stood in front of Jian Wushuang like a statue. At this moment, Jian Wushuang was sitting cross-legged in the universe void. He even closed his eyes.

He had swallowed the Primordial Spirit Treasure Pill. The power of the pill had been exerted, and Jian Wushuang quickly entered a mysterious state. This state was the state of enlightenment that countless cultivators dreamed of!

Under the state of enlightenment, the speed of the cultivator's comprehension would increase exponentially.

At this time, a blurry figure appeared in Jian Wushuang's mind.

This figure was extremely tall and majestic, but at the same time, it gave off an extremely familiar feeling.

Jian Wushuang knew that this blurry figure was the Star Master Lingyun.

Star Master Lingyun's will was present at the moment, and it had seeped into his mind and was directly preaching in his mind.

Star Master Lingyun began preaching.

Because Jian Wushuang was only a Principles Master, and he was good at sword principle and a little bit of universe principle, Star Master Lingyun mostly talked about rules, sword principle, and universe principle.

Jian Wushuang listened carefully. He had a very high comprehension ability, and with the help of the Primordial Spirit Treasure Pill, his comprehension speed was incredible. He understood almost everything Star Master Lingyun talked about.

Jian Wushuang also knew that this was a rare opportunity. He did not waste any of it. He listened attentively, understood, and comprehended.

As for Star Master Lingyun, he was an invincible supreme expert and an overlord in the vast universe. The things he talked about were all useful and helpful to Jian Wushuang.

Time began to pass slowly. Less than an hour had passed in the universe void, but three years had passed in Jian Wushuang's consciousness world.

In just three years, Jian Wushuang had already comprehended the fifth principle, the principle of gold!

Gold was the most masculine and cool!

Previously, Jian Wushuang had tested his affinity with the principles of heaven and earth. The affinity between the principle of gold and his was no less than that of the principle of Earth.

Previously, after he had completely comprehended the principles of earth and fused the four principles, he had already begun to explore the fifth principle, which was the principle of gold.

Before the start of the battle, Jian Wushuang had already gained some understanding of the principle of gold, but the level of understanding was not high.

But now, with the help of the Spirit Treasure Pill, Jian Wushuang listened to Star Master Lingyun talk about the various principles of gold. From shallow to deep, it contained everything about the principle of gold. In just three years, Jian Wushuang had completely comprehended the principle of gold.

And this was just the beginning.

In the 13th year of Enlightenment, he completely comprehended the sixth rule, the rule of darkness.

In the 31st year, Jian Wushuang made great progress in his sword principle and reached the first level of the universe origin of sword principle. Many fourth-level masters who were good at sword principle had not reached this level.

In the 45th year, Jian Wushuang made another breakthrough in sword principle and reached the first level of the universe origin of sword principle. His understanding of sword principle alone was comparable to that of a fifth-level master.

In the 78th year, Jian Wushuang's comprehension of the universe principle improved greatly, from barely grasping a trace to truly stepping into the threshold of the universe principle.

In the 82nd year, Jian Wushuang comprehended the fifth principle, the gold principle, and combined it with the other four principles. Since then, the five principles had been merged.

In the 99th year, Jian Wushuang reached a new level in the Dao of formation. He was already comparable to some masters who were better at formation in the universe, such as Blood Rain Demon Master.

Finally, it was the 100th year, the last year.

In the last year, the effects of the Primordial Spirit Treasure Pill had almost been used up. Jian Wushuang did not make much progress in this year. Instead, he had fully comprehended the comprehension of the previous 99 years.

In the vast universe void.

Buzz buzz buzz the ancient will that had existed for a day and a night finally slowly dissipated.

The vast universe void also regained its calm. As for Star Demon Ancestor, he had finally regained his ability to move.

"Has it finally dissipated?"

Star Demon Ancestor clenched his teeth as his expression turned extremely ugly.

Although it had been an emergency that lasted for a day and a night, he had been filled with pride during that day and night. He had been suppressed by the will and was unable to move at all...he could feel the power and terror of the ancient will at all times.

"The will of a supreme-being is definitely the will of a supreme-being expert, and I'm afraid it's not an ordinary supreme-being."

Star Demon Ancestor had an ordinary background and was quite knowledgeable. Naturally, he could sense the supreme strength of the owner of the will.

Just a trace of the will was powerful enough to intimidate the entire universe void and make the universe principles avoid it. Such an expert must be an overlord even in the deepest part of the universe.

“What did Jian Wushuang do? What happened to the will just now? How many secrets does this kid have?”

Star Demon Ancestor narrowed his eyes and stared at Jian Wushuang.

### **Chapter 3984: The Laws of the Universe, Descended Again!**

Not only Star Demon Ancestor, but also many experts from the Divine Beginning Realm, who were standing close to the edge of the universe void, did not understand what had happened to Jian Wushuang.

They were as confused and confused as Star Demon Ancestor.

“What’s going on with Blood Sword Master?”

“I don’t know, but it seems that he is cultivating?”

“Cultivating? Are you kidding me?”

The experts from the Divine Beginning Realm camp had strange expressions on their faces.

They could not believe that Blood Sword Master was still in the mood to cultivate at this critical moment of life and death?

But looking at him sitting cross-legged in the universe void, there was no doubt that he was cultivating. Moreover, it seemed that Star Demon Ancestor had not disturbed his cultivation.

“Miss Shuang ‘er, you are the wife of my Heavenly Marquis friend. Do you know what this is?” Xuan God Daoist looked at Leng Rushuang.

“I don’t know either.” Leng Rushuang shook her head slightly. “My husband took out a blood-red elixir and said something like that. Based on my understanding of him, he should have wanted to use the blood-red elixir to fight Star Demon Ancestor to the death, but the result...”

Leng Rushuang was also very confused.

In fact, it was not their fault. Even Jian Wushuang himself did not expect such a situation.

Now, a day and a night had passed, and a full 100 years had passed in the consciousness space. Jian Wushuang’s cultivation had finally come to an end.

However, even though he had stopped cultivating, Jian Wushuang still did not open his eyes. Moreover, there was majestic divine power crazily gathering in his body.

Boom!

Suddenly, the entire universe shook. Then, a brand-new divine power aura burst out from Jian Wushuang's body.

"This is...the divine power aura of a Ruler!" Star Demon Ancestor's expression suddenly changed.

"A Ruler's aura!"

Many experts from the Divine Beginning Realm's camp also sensed it at this moment, and they were all shocked.

"Ruler, it can't be wrong. This is indeed the aura of a Ruler. My young friend, have you already broken through to become a Ruler?" Xuan God Daoist stared at Jian Wushuang with wide eyes and a look of disbelief, there was also an unprecedented excitement in the depths of his eyes.

"He made a breakthrough? He just sat in the universe void and cultivated for a while, and then he made a breakthrough?"

Temporal Temple Master, Heaven-cleaving Alliance Master, Heaven Ancestor, Di Shisan, and all the experts in the Divine Beginning Realm were in disbelief.

However, apart from disbelief, there was also an unprecedented excitement and ecstasy!

After all, Jian Wushuang was a perfect life-level cultivator. Once he made a breakthrough to a Ruler, he could easily take over the Divine Beginning Realm again. Naturally, he could turn the situation around in the Divine Beginning Realm.

However, it was too difficult for a perfect life-level cultivator to break through to become a Ruler from a Principles Master. They had asked Jian Wushuang before, and he had said that he was still far from becoming a Ruler, it was impossible for him to break through in a short period of time.

It was because Jian Wushuang could not break through to become a Ruler that they had no choice but to fight with the Devil Cloud Star and lure out Star Demon Patriarch.

But who would have thought that Jian Wushuang would break through at this time?

"Did he really break through, or did he temporarily rise to the Ruler realm because of the blood-red elixir?" Spark Master suddenly asked.

His words made the hearts of the experts from the Divine Beginning Realm tense again, and they immediately looked over.

"He has broken through to the Ruler realm? That's impossible!" Star Demon Patriarch stared at Jian Wushuang in disbelief.

But at this moment...boom!

The universe void suddenly let out a violent rumble.

Star Demon Patriarch and the countless experts from the Divine Beginning Realm camp were startled by this roar. In the next moment, everyone raised their heads at the same time.

They saw that above the void space of the universe at the very top, rumble! That dark and boundless universe space seemed to have been forcefully pierced through by someone. A huge and boundless universe hole appeared out of thin air.

This universe black hole was too big. It occupied almost half of the universe void space.

Following that, from within that universe hole, hua la! A dazzling multicolored light lit up. A supreme principle suddenly descended!

This principle was incomparably transcendent and supreme!

The moment it appeared, the entire void space of the universe instantly froze.

Star Demon Ancestor, who was in this void space of the universe, widened his eyes as he watched this scene.

“This is...the universe principle?”

“The descent of the universe principle?”

Within the Divine Beginning Realm, countless great beings from the Divine Beginning Realm camp were stunned.

“It’s the universal principle. The universal principle has come in person!”

“It’s really the legendary universal principle. What’s going on?”

“The universal principle was attracted by Blood Sword Master?”

Exclamations rang out one after another.

Xuan God Daoist, Temporal Temple Master, Heaven-cleaving Alliance Master, and Divine Ancestor looked at each other. Their eyes were filled with unprecedented shock.

They were not unfamiliar with the arrival of universal principles.

When Jian Wushuang refined the eternal chaotic world into his heaven and earth secret realm in the Divine Beginning Realm, he also attracted the arrival of universal principles.

However, the scale of the arrival was relatively small, and the universal principles came through the Divine Beginning Realm. However, this time, it came directly from the universe void. The descending universal laws were obviously more vast and majestic.

Similarly, the last time the universe law descended, it was because of Jian Wushuang. This time, the universe law descended because of Jian Wushuang!

“It’s my young friend, the Heavenly Marquis. He must have broken through to the Ruler realm, which is why the universe law has personally descended!” Xuan God Daoist suddenly cried out in surprise.

“Has Blood Sword Master really broken through?”

“From the Principles Master to the Ruler realm, the universe laws have come?”

The experts of the Divine Beginning Realm looked at each other in dismay. The shock in their hearts could not be described with words.

In fact, what Xuan God Daoist said was not wrong.

Jian Wushuang had broken through!

Before the start of the battle, he was indeed far from the Ruler realm. After all, he had only just comprehended the fifth rule, and to break through to the Principles Master realm at the perfect life level., even if he integrated the five rules, it might not be enough.

Jian Wushuang had never thought that he could break through to the master level before the battle.

However, the appearance of the Primordial Spirit Treasure Pill completely changed everything.

The Primordial Spirit Treasure Pill allowed him to enter a state of epiphany. During this period, it contained the will of Star Master Lingyun, who had taught him in the space of consciousness for a full 100 years.

During these hundred years, his progress was really, really great.

#### **Chapter 3985: The Laws of the Universe, Descended Again!**

From the moment he started comprehending the fifth principle to the moment he fused the five principles together, he had even comprehended the sixth principle.

As for Sword Dao, he had reached the first level of the sword universe origin, and his comprehension of the universe principles had also greatly increased.

It could be said that the past 100 years had been a qualitative leap for him.

His comprehension of the principles was not enough for him to break through to the Ruler realm, but the key point was that Jian Wushuang's comprehension of the sword principle and the universe principles was too high, which greatly promoted him.

Now, he had finally broken through from the Principles Master to the Ruler realm, and as soon as he broke through, the universe principles immediately came!

Jian Wushuang had encountered the universal principle descending before.

The universal principle descending was not as powerful as this time, but it still gave him an innate divine power and a portion of the power of will.

This time, the universal principle descending did not give Jian Wushuang an innate divine power, but it also gave Jian Wushuang a portion of the power of will.

Moreover, this portion of the power of his will was much more powerful than the first one he had obtained!

When the first universal principle had descended, the portion of the power of his will that had been bestowed upon him could directly double his attack power!

But now, this portion of the power of his will had directly increased his attack power by ten times!

Not only that, Jian Wushuang also faintly sensed that the power of the will that the universal principle had bestowed upon him this time contained some extremely special power that even Jian Wushuang could not touch.

In the universe void, Jian Wushuang was still sitting cross-legged with his eyes slightly closed.

He was feeling the changes in himself.

It was a qualitative change for an ordinary cultivator to break through from a Principles Master to a Ruler, let alone Jian Wushuang.

The moment a perfect life-level cultivator broke through to a Ruler, both his divine body and soul had an unprecedented improvement, and his divine power had also undergone a transformation.

Finally, everything had calmed down.

Jian Wushuang's transformation had been completed, and the descending universal principle had slowly disappeared.

The universe void had returned to its previous darkness and tranquility.

The difference was that Star Demon Ancestor was no longer as casual and calm as before. On the contrary, his expression was extremely grave.

Star Demon Ancestor stared at Jian Wushuang. Although Jian Wushuang was still sitting cross-legged and had no intention of attacking, Star Demon Ancestor could feel a tremendous pressure from Jian Wushuang.

This kind of pressure was unprecedented in the previous battle.

"How could it be?"

"His battle strength was at the peak of the third-level. He could barely fight against a fourth-level Ruler with his sword formation and principle true treasure. He could only threaten an ordinary fourth-level Ruler with his divine power burning secret skill and many trump cards. Now, even if he has reached the Ruler realm, it should only be a change in his divine power and soul. This kind of increase in divine power should be too outrageous for his overall strength. But why is the pressure he is now bringing so great?"

Star Demon Ancestor was puzzled.

He did not know that Jian Wushuang's overall strength did not increase much when he broke through from Principles Master to Ruler. However, he had spent 100 years in the space of consciousness on the day he meditated, he had made great progress in the past 100 years.

Now that he had broken through to Ruler, his divine power had been replenished. His overall strength was completely different from before.

Buzz!

Jian Wushuang, who had been sitting cross-legged in the universe void, suddenly opened his eyes and slowly stood up.

A powerful aura of a Ruler gathered around him, and his mighty divine power swept out.

Divine power was determined by the strength of divine power.

Previously, Jian Wushuang was only a Principles Master. Because of his special life level, his divine power was comparable to an ordinary Ruler, so his divine power was naturally at the same level as an ordinary Ruler.

But now that he had broken through to the Ruler level, he had already fused five principles. Once he broke through, he would become a second-level Ruler. In addition to the special characteristics of a perfect life, his basic divine power was now comparable to a third-level Ruler. Naturally, his divine power was also at the third-level.

But it was only basic divine power!

Jian Wushuang had yet to use many of his secret skills.

“Ruler...”

“After so many years and so much effort, I’ve finally broken through to become a Ruler.” Jian Wushuang clenched his hands, his eyes shining.

In the Divine Beginning Realm, the experts of the Divine Beginning Realm were overjoyed.

“Haha, he really broke through. The Blood Sword Master has really broken through to become a Ruler.”

“He didn’t rely on consuming pills to reach the Ruler level within a short period of time. Instead, he actually broke through to become a Ruler. Looking at his divine might, he is definitely not an ordinary Ruler.”

“Tsk tsk, before master broke through, his battle strength was already comparable to a fourth-level Ruler. Now that he has broken through, how strong is he?”

“The Divine Beginning Realm is saved.”

The experts of the Divine Beginning Realm camp were all very excited.

Especially Xuan Shen Daoist, temporal temple master, and the others. They knew very well how important Jian Wushuang’s breakthrough to a Ruler would be to the entire Divine Beginning Realm.

After all, only after Jian Wushuang had made the breakthrough to a Ruler would he be able to take over the Divine Beginning Realm again. Only then would he be able to truly extricate the Divine Beginning Realm from its crisis. Now, Jian Wushuang had finally done it.

The only problem now was Star Demon Ancestor.

“Star Demon Ancestor.”

Jian Wushuang’s eyes were like lightning, emitting a terrifying light. He stared at Star Demon Ancestor, and there was a shocking killing intent gathering in the depths of his eyes.

“Humph, I won’t go in. You’ve only broken through from the Principles Master to the Ruler realm. How strong can you be?” Star Demon Ancestor snorted coldly.

"I'll let you see it." Jian Wushuang did not waste any time. The Wuqi divine sword appeared in his hand, and then he attacked.

Buzz, buzz, buzz!

A shocking power burst out from the three heaven-suppression tablets, forming a huge divine devil heaven-suppression formation.

The same formation, but with the increase in Jian Wushuang's divine power and his improvement in the universe principles, the power of the Divine Devil heaven-suppression formation was several times or even dozens of times stronger than before!

In the huge heaven-suppression tablet, three towering golden gods were formed. They were obviously more majestic and powerful than before, and the golden light on their bodies was more intense.

### **Chapter 3986: Nirvana**

Boom!

The entire universe, which was covered by the Divine Demon Heaven Suppression Formation, began to tremble violently.

Star Demon Ancestor, who was in the center of the formation, was also the first to feel the suppressive force. His face could not help but darken.

"The same formation, but now its power has increased so much?" Star Demon Ancestor frowned.

Previously, even if Jian Wushuang used the Divine Devil Heaven Suppressing Formation with all his strength, it would not have any effect on him. He could even break into the magic formation quietly and leave it at any time. But now...

Standing in the Divine Devil Heaven Suppressing Formation, Star Demon Ancestor could feel that he was constantly enduring the enormous suppressive force. The suppressive force was so strong that he could not get rid of it, naturally, he could not move freely in this layer of formation.

Jian Wushuang drew his sword.

The sea of sword essence swept up again. The sea of sword essence was covered with a thick layer of golden light, and a terrifying power surged up, the sea of golden light sword essence rolled crazily and formed a layer of earth-shaking waves.

These earth-shaking waves rushed toward Star Demon Ancestor from all directions.

They were also waves of golden light sword essence, but they were much stronger than before.

"Humph!"

Star Demon Ancestor snorted and waved his hand again. The unique black divine power swept out again.

Previously, Jian Wushuang had also used the wave light sword formation with all his strength. In the end, Star Demon Ancestor simply waved his hand and his sword formation collapsed.

But now...

Bang!

The first wave of golden light sword essence collided with the black divine power head-on, creating a violent explosion. Then, the wave of golden light sword essence collapsed, and the black divine power dissipated.

“What?” Star Demon Ancestor was shocked.

He had destroyed Jian Wushuang’s sword formation with the same move, but this time, he had only destroyed the first wave of sword essence in the sea of sword essence?

After all, the sea of sword essence was endless.

Crash!

Golden light and sword essence waves rose up crazily, forming a series of tsunamis.

Star Demon Ancestor’s face changed. He had to take out a black scythe. He waved the black scythe crazily and slashed out numerous pitch-black saber lights, each beam carried a unique black divine power.

Peng! Peng! Peng! Peng! Peng! Peng!

Dense clashing sounds rang out continuously as star fiend brandished his scythe to collide with the waves. However, the waves were endless, one after another, never-ending.

“How is this possible?”

“How did the power of these sword intent waves increase so much all of a sudden?”

“They are too powerful. Any one of these sword intent waves has probably reached the pinnacle of the fourth-level. Even I have to go all out to withstand them.”

Star Demon Ancestor had a look of fear.

After reaching the fourth-level, it was very difficult to increase each level.

Like Devil Cloud Star Master, he had just broken through to the fourth-level not long ago. However, with the help of a law true treasure that was suitable for him to use and the comprehension of a thread of universe principles, he was able to unleash his full power, he was barely able to unleash his peak fourth-level combat power.

However, such an outburst was really very difficult.

As for Star Devil Ancestor, after he had taken everything from Devil Cloud Star Master, he was even stronger than Devil Cloud Star Master. Furthermore, because he had grasped that unique power, his combat power was definitely at the pinnacle of the fourth level, it could even be said that he was at the pinnacle of the fourth level.

But there were two points.

First, Star Demon Ancestor's battle strength had not reached the peak because when he took over the divine body of the star master, the star master was already in a terrible state. Although he had recovered a lot by devouring a large number of cultivators, he had only recovered 70% of his battle strength at most.

Moreover, Jian Wushuang was controlling the three Heaven Suppression Tablets and using the Divine Demon Heaven Suppression Formation to suppress him, which had a shocking effect on his strength.

This meant that he had to use all his strength to withstand the wave of sword essence. Not only did he have to use the special power he had mastered, but he also had to use the universal law to barely withstand it.

However, he could only withstand the wave of sword essence.

Star Demon Ancestor knew very well that the wave of sword essence in Jian Wushuang's sword formation was endless. He could only withstand it for a while, but if it was prolonged, it would be difficult for him to withstand it.

There was another important point, which was that Jian Wushuang had yet to use the secret skill that burned his divine power.

Yes, Jian Wushuang did not use the dragon-exterminating secret skill. He only relied on his divine power, which had greatly increased after he broke through to the ruler realm, and his comprehension of sword principle and universe laws, the combination of the divine demon heaven-suppressing formation and the Wave Light Sword Formation had completely suppressed Star Demon Ancestor.

The waves of sword essence in the sea of sword essence had reached the peak of the fourth level. Although it was just barely reached, it was still ridiculous.

"Just using the Wave Light Sword Formation in a normal way is enough to suppress Star Demon Ancestor?" Jian Wushuang narrowed his eyes and looked at Star Demon Ancestor coldly.

He thought he would have to fight Star Demon Ancestor even if he made a breakthrough, but it seemed that was not the case.

He did not need to use his strongest trump card, the original universe. He did not even need to burn his divine power with the dragon extinguishing secret skill anymore.

Jian Wushuang stared at Star Demon Ancestor coldly and slowly raised the Wuqi divine sword in his hand.

Jian Wushuang had become the absolute focus of the entire universe void.

Everyone was staring at Jian Wushuang, staring at the sword in his hand.

He closed his eyes. He had been in the consciousness space for 100 years, so many insights on sword principle surged into his mind. In an instant, a new sword skill was formed.

"This sword move is named Nirvana!"

"After this sword move, the Divine Beginning Realm will be rid of the crisis and usher in a new rebirth!"

“From now on, the Divine Beginning Realm will have nothing to worry about!”

Jian Wushuang’s eyes suddenly opened, and there seemed to be a flash of lightning in them.

The Wuqi Divine Sword in his hand, which was raised high, fell down coldly!

In an instant, an earth-shaking and terrifying sword light descended.

This sword not only brought Jian Wushuang’s comprehension of sword principle to a hundred years in the space of consciousness, but it also brought with it an extremely rich universe principles.

Most importantly, this sword also contained the brand-new power of will given by the universe principles!

This sword was called Nirvana!

### **Chapter 3987: Had Won!**

Hua!

The heaven-shaking sword beam that was imbued with the rich principles of the universe and the might of a brand new will slashed down.

The moment the sword beam appeared and mercilessly slashed down, even Star Demon Ancestor could not help but shudder.

An unprecedented sense of danger enveloped Star Demon Ancestor’s heart.

Star Demon Ancestor gave it his all. The vast black divine power in his body swept up crazily. He had already exerted the special power he had mastered to the maximum, and he had also exerted his current battle strength to the best of his ability.

Boom! A huge universe black hole appeared out of thin air. The universe black hole occupied half of the battlefield like an open mouth, wanting to swallow the incoming sword light.

In terms of size, the sword light that Jian Wushuang displayed was on a completely different level compared to the universe black hole.

However, the moment the sword light came into contact with the universe black hole, a terrifying power instantly erupted.

Sizzle! Sizzle! Sizzle!

The huge universe black hole was mercilessly slashed, and a large amount of special black divine power frantically retreated in all directions like a tide.

Behind the universe black hole, Star Demon Ancestor’s figure appeared. However, at this moment, his face was full of fear. After the shocking sword light with the power of will cut through the universe black hole, it directly cut into his body.

In an instant, Star Demon Ancestor’s divine body directly collapsed.

Although his divine body collapsed, the most important core of Star Demon Ancestor was his soul, which was his foundation. Logically, after his divine body collapsed, his soul still had a chance to escape.

However, to Star Demon Ancestor's horror, Jian Wushuang's terrifying sword light contained an extremely special power. When the sword light slashed and destroyed his divine body, the sword light also instantly cut through his soul.

"I, I..."

Star Demon Ancestor was completely dumbfounded. He felt that his soul had collapsed, and even his consciousness had begun to blur.

"No, no!"

"I can't die, how can I die!?"

"I can't accept this, I can't accept this!"

"Jian Wushuang, if it weren't for the fact that I haven't recovered to my peak condition and that I lost many of my supreme treasures when I escaped from the eternal dark prison, how could you kill me?!"

"No!"

The divine body of Star Demon Ancestor let out a series of hysterical roars. These roars were filled with unprecedented fear and hatred, but the voice had gradually weakened.

Star Demon Ancestor's entire soul body had been cut in half. It was impossible for him to survive such an injury.

"You're right. If you have recovered to your peak condition, or if you haven't lost all your treasures, with your skills and trump cards, I'm afraid it won't be easy to kill you even if I use all my trump cards. Unfortunately, there is no medicine for regret. You can only blame your bad luck," Jian Wushuang muttered.

He had to admit that Star Demon Ancestor was indeed terrifying.

His methods were too incredible. If he had not lost all his treasures in the space passage in order to escape from the eternal dark prison, with Star Demon Ancestor's battle strength and the many treasures in his hands...Jian Wushuang was not absolutely sure that he could kill him.

Even now, Jian Wushuang was able to kill Star Demon Ancestor so cleanly because of the new power of the will given by the universal principle.

The new power of the will given by the universal principle was completely different from the previous one.

Not only was the power of the will ten times stronger, but the most important thing was that the power of the will contained some special things that could directly attack Star Demon Ancestor's soul through his divine body.

The sword attack just now had destroyed Star Demon Ancestor's divine body and destroyed his soul.

Jian Wushuang estimated that if Star Demon Ancestor's soul was too split, his split soul would also be destroyed.

This special power was like karma.

It could kill Star Demon Ancestor's soul through his divine body, and it could also kill all his split souls through one of his souls.

What Jian Wushuang did not know was that the Star Demon Ancestor did have a split soul body.

The split soul body was deliberately left behind by the Star Demon Ancestor before the outbreak of the war. He had prepared a way out for himself. If something unexpected happened during the war, his plan would fail, on the contrary, if he was killed by the star master or Jian Wushuang, at least he would not die. There was still a split soul body to survive and there was still a chance for him to rise up in the future.

But now, when Jian Wushuang's sword slashed down, the split soul that he had hidden in the universe void was also destroyed.

Star Demon Ancestor was truly dead.

"Although I don't know what the special power contained in the power of the will is, no matter what, Star Demon Ancestor is really dead and the crisis in the Divine Beginning Realm has been resolved."

"Master, I've protected what you asked me to protect."

Jian Wushuang clenched his hands, his eyes shining with a strange light.

Then, Jian Wushuang suddenly smiled. He was very happy and willful.

He was not the only one. The experts of the primordial divine realm were ecstatic and excited.

"He's dead! Star Demon Ancestor is really dead!"

"Even his soul has been destroyed. He couldn't be more dead. Haha, the crisis of our Divine Beginning Realm has finally been resolved!"

"We won! Our Divine Beginning Realm Camp has won this war!"

"We won! Haha!"

The experts who had been invited to the Divine Beginning Realm camp were fine, but the cultivators who had come from the Divine Beginning Realm were overjoyed.

Daoist Xuan God, the Temporal Temple Master, and the others even had misty eyes.

They were so happy that they wept.

There was nothing they could do. Ever since Devil Cloud Star Master had taken over the Divine Beginning Realm, the Divine Beginning Realm had always been on the edge of a cliff. They had also been working hard for the Divine Beginning Realm.

They had once thought that the Divine Beginning Realm would one day resolve its crisis and become like an ordinary astral world. However, this step had always been extremely far away.

Even before the outbreak of the war, although they had made ample preparations, they still did not have much confidence in winning, especially after the appearance of Star Demon Ancestor and his terrifying devouring ability, it made them almost despair.

However, they did not expect that Jian Wushuang would be able to stand up and kill Star Demon Ancestor in such a situation and turn the tide by himself!

### **Chapter 3988: Celebration Feast!**

Victory!

After Jian Wushuang killed Star Demon Ancestor, the Divine Beginning Realm had truly won the battle.

After the battle, Star Demon Ancestor, Star Demon Ancestor, and Star Demon Ancestor had died, and the army of Star Demon Ancestor had been defeated. Now, the Divine Beginning Realm had returned to the control of the will of the Heavenly Dao.

The greatest crisis of the Divine Beginning Realm had been resolved.

The countless cultivators from the Divine Beginning Realm were overjoyed.

They had won, which meant that the Divine Beginning tribulation had been saved. There was no need for them to abandon their hometown and wander in the universe void.

In the universe void, Jian Wushuang took a deep breath. At this moment, he felt that everything around him was very beautiful.

He took a look at the Divine Beginning Realm in front of him and smiled faintly. Then, he walked directly toward the Divine Beginning Realm.

A large number of people from the Divine Beginning Realm's camp immediately moved to welcome him.

"Husband!"

Leng Rushuang's eyes were filled with tears. She was the first to run to Jian Wushuang and directly rushed into his arms.

Jian Wushuang also opened his arms and hugged his wife.

Previously, he was almost determined to die in front of Star Demon Ancestor. He had already said his final farewell to his wife. But now, he survived and came to his wife again, holding his breath, Jian Wushuang could not calm down for a long time.

"My young friend, the Heavenly Marquis."

Xuan God Daoist, Temporal Temple Master, Heaven-cleaving Alliance Master, and the others looked at Jian Wushuang at this moment with complicated emotions in their eyes.

Some of these emotions were excitement, some were admiration, but most of them were gratitude.

They were grateful that Jian Wushuang had killed Star Demon Ancestor and saved the Divine Beginning Realm by himself.

It could be said that Jian Wushuang was the savior of the Divine Beginning Realm. Without him, the Divine Beginning Realm would only end in destruction.

Jian Wushuang glanced at Daoist Xuan God and the others, then grinned and said, "Everyone, the Divine Beginning Realm is safe."

Safe.

These simple words made countless experts in the Divine Beginning Realm smile knowingly.

Half a day later, in the Third Heaven of the Divine Beginning Realm, where the three holy lands used to be, a huge feast was being held here, where the Seven Star Mysterious Sect was located.

Of course, this feast was a celebration feast!

On the vast and vast plaza, there were densely packed cultivators sitting upright. These cultivators were all contributors who had directly participated in this great battle. Not only were there Rulers, but there were also a large number of Principles Masters, they all had a place on this plaza.

And on the high platform in front of the plaza, there were many thrones standing upright. These were the top experts of the Divine Beginning Realm's camp.

One of the thrones was particularly eye-catching.

Not only was it larger than the other thrones, but it was also located in the center and the core.

There were two people sitting on the throne. They were Jian Wushuang and his wife. They were sitting on the throne together, and there was a lot of attention around them.

A person's position depended on his own strength.

In this battle, Jian Wushuang was undoubtedly the first hero. He killed Star Demon Ancestor at the last moment and turned the tide. In terms of strength, he was now the undisputed number one expert in this star area, therefore, he was the absolute protagonist of this celebration banquet.

Daoist Xuan God, Temporal Temple Master, and the others directly promoted Jian Wushuang to the highest position.

Jian Wushuang had refused at first, but Daoist Xuan God and the others had repeatedly requested that Jian Wushuang sit on the largest and most conspicuous throne.

This throne alone proved Jian Wushuang's current supreme position.

Although he still respected the leaders of the Divine Beginning Realm, such as Daoist Xuan God and Temporal Temple Master, they no longer regarded him as a cultivator of the same level.

"Everyone."

Jian Wushuang, who was sitting on the highest throne, suddenly stood up. Leng Rushuang, who was beside him, also stood up at the same time.

The entire banquet quieted down, and countless gazes were fixed on Jian Wushuang.

With a smile on his face, Jian Wushuang held a glass of wine in his hand, he said grandly, "All of you here have contributed greatly to this battle. It is because of everyone's concerted efforts that we in the Divine Beginning Realm can obtain the final victory in this battle. For the sake of this victory, everyone, cheers!"

"Cheers!"

Countless cultivators at the banquet raised their glasses and drank the celebratory wine.

"Haha, wonderful, wonderful!" Daoist Xuan God finished his cup of wine and immediately began to laugh loudly, "It's been a very, very long time since I've had such a wonderful cup of wine. Previously, whenever I encountered something, there would always be a thorn in my heart. It was this thorn that caused me to be unable to eat or sleep. But now, I can finally drink this cup of wine to my heart's content."

"You're right. It's not just you. We're all the same. Previously, when the Divine Beginning Realm was in danger, as the leaders of the Divine Beginning Realm, we didn't dare to relax. But now, this crisis has finally been resolved. Our Divine Beginning Realm has finally settled down. We can sleep now. Seeing the Divine Beginning Realm reach this stage, even if I die now, I can rest in peace." The Temporal Temple Master laughed heartily.

"Haha, it's not easy for the Divine Beginning Realm to settle down. We haven't had a few days of peace yet. You can't just die like this," the Heaven-cleaving Alliance Master joked.

The other top experts of the Divine Beginning Realm also laughed happily.

Even Di Shisan, who was usually extremely cold, frequently smiled at this celebratory feast.

"Master, we congratulate you for breaking through to the Ruler realm and showing off your divine power to kill Star Demon Ancestor."

Many of the slaves Jian Wushuang brought back from eternal prison had been killed by Star Demon Ancestor, but there were still many alive. Now, Demon Dragon Lord led them to toast Jian Wushuang.

"Thank you, everyone." After Jian Wushuang drank the wine, he smiled and replied, "Don't worry, I won't change my promise. I will definitely give you your freedom within 100,000 years. Now that the Divine Beginning Realm has won the war, it won't be long before the Divine Beginning Realm is completely peaceful. I don't think I'll need you, so I might let you go ahead of time."

"Early?" The eyes of Demon Dragon Lord and the others immediately lit up.

Jian Wushuang did not lie. He had enslaved Demon Dragon and the others to prepare for the war with Devil Cloud Star.

Now that the war was over, there should be no more danger in the Divine Beginning Realm. With his current strength, these slaves would not be of much help to him, so even if he gave them their freedom in advance...it would not affect Jian Wushuang.

### **Chapter 3989: Hesitation**

The celebratory feast was filled with cheers and laughter. As the main character of the battle, Jian Wushuang naturally became the center of attention. The top experts of the Divine Beginning Realm toasted Jian Wushuang, but Jian Wushuang did not refuse.

After three rounds of drinking, the celebratory feast was still very lively.

"Husband, I'm afraid you haven't been this happy in a long time." Leng Rushuang looked at Jian Wushuang and smiled.

"Indeed." Jian Wushuang nodded. "Other than the time when you recovered your divine body and reunited with me, it's true that I haven't been this happy for a long time. But it's also normal. Previously, I've been shouldering the heavy burden of saving the Divine Beginning Realm, so I can't relax at all times. Now that the crisis in the Divine Beginning Realm has been resolved, just like Xuan God and the others, I've truly relaxed. Of course, I'm happy to be able to relax like this."

"Husband, when are you going to take over the Divine Beginning Realm?" Leng Rushuang suddenly asked.

"Take over?" Jian Wushuang narrowed his eyes. "Shuang 'er, to be honest, I'm hesitating now."

"Why are you hesitating?" Leng Rushuang was puzzled.

"I'm hesitating. Should I take over the Divine Beginning Realm?" Jian Wushuang said seriously.

If it was before the crisis of the Divine Beginning Realm was resolved, he would definitely take over the Divine Beginning Realm without hesitation. Only then could he protect the Divine Beginning Realm.

But now, it was different.

Devil Cloud Star Master had died, including Star Demon Ancestor. Now, no one could control the power of the Divine Beginning Realm's will of the Heavenly Dao. It operated on its own. Whether or not he took over the Divine Beginning Realm at this time...it did not matter.

Therefore, Jian Wushuang was thinking whether he should not take over the Divine Beginning Realm's will of the Heavenly Dao and let it operate and evolve on its own.

No one interfered and no one controlled the divine will. It was just like a normal astral world.

"Husband, do you want to ask Xuan God and the others about this?" Leng Rushuang asked.

"Yes, let me ask them." Jian wushuang nodded and immediately asked at the banquet.

Of course, although he asked, he blocked the surrounding space and time, so others could not hear his conversation with Xuan God and the others.

“My young friend, are you hesitating to take over the Divine Beginning Realm?”

Xuan God Daoist, Temporal Temple Master, Heaven-cleaving Alliance Master, Divine Ancestor, and the other leaders of the Divine Beginning Realm all looked at Jian Wushuang.

“Yes.” Jian wushuang nodded.

“What do you think?” Xuan God Daoist asked.

“I don’t want to take over.” Jian Wushuang said directly, “The Divine Beginning Realm is a star world born in the vast universe. It should follow the universal principles and should not be controlled or disturbed by any external factors. Before, there was no way. I had to take over to save the Divine Beginning Realm. But now, since it’s no longer necessary, it’s better not to take over.”

Hearing Jian Wushuang’s words, the leaders of the Divine Beginning Realm looked at each other and smiled.

Jian Wushuang was not selfish at all. He did not want to improve his strength by taking over the Divine Beginning Realm. Obviously, he was doing it for the Divine Beginning Realm, Xuan God Daoist and the others were very satisfied and pleased.

“My young friend, the Heavenly Marquis,” Temporal Temple Master said, “You can easily possess the Divine Beginning Realm and get endless benefits, but you don’t have any selfish motives. You want to let the will of the Heavenly Dao in the Divine Beginning Realm evolve and operate on its own. This makes us very happy. However, even though we are happy, you still have to possess it.”

“Why?” Jian Wushuang frowned.

“First of all, for you,” Temporal Temple Master said solemnly, “My young friend, you are talented and have unlimited potential. You are like a hidden dragon, which is bound by the Divine Beginning Realm and even the star field. You should go to the deeper part of the universe, where you should stay. If you possess the Divine Beginning Realm, it will bring you countless benefits, and you will have more room to grow in the future!”

Jian Wushuang’s expression did not change.

Possessing the Divine Beginning Realm was indeed a great opportunity for him, but he did not care.

After all, since he was born, he had obtained more than one or two great opportunities?

Not to mention others, just the Lingyun Star and the Red Cloud lineage were great opportunities.

Perhaps for others, possessing an astral world was definitely a once-in-a-lifetime opportunity, but Jian Wushuang did not care. He believed that even if he did not possess the Divine Beginning Realm, he could still step into the peak of the universe in the future.

“Perhaps you don’t care about this opportunity, but you have sacrificed so much for the Divine Beginning Realm. Of course, we have to think of you. Of course, there are more important reasons.” Temporal Temple master smiled. “My young friend, although the crisis in the Divine Beginning Realm has been resolved, if I’m not wrong, there are still a lot of hidden dangers in the Divine Beginning Realm.”

“Hidden dangers?” Jian Wushuang frowned.

“Yes, the hidden dangers come from the various means that the star master of Devil Cloud Star used to control the three Saint Realms and the Sorcerer God Sect in the Divine Beginning Realm. These methods were used to accelerate the evolution of the Divine Beginning Realm and to maximize the potential of the Divine Beginning Realm. Although these methods seem to have stopped after the three Saint Realms were destroyed, who knows how much the three Saint Realms have squeezed the Divine Beginning Realm?”

“We don’t know what methods they used or whether they will continue to harm the Divine Beginning Realm. We can’t communicate with the heavenly will of the Divine Beginning Realm. Even if the Divine Beginning Realm is still damaged, we don’t know.”

Jian Wushuang was silent.

Indeed, after the battle with Devil Cloud Star Master, the Divine Beginning Realm had been devastated. Although the divine realm was now under the control of the will of the Heavenly Dao, no one knew if there were any major hidden dangers in the Divine Beginning Realm.

After all, they could not communicate with the will of the Heavenly Dao of the Divine Beginning Realm.

“In order to truly eliminate these hidden dangers and ensure that the Divine Beginning Realm is safe and sound, you must possess the Divine Beginning Realm. Only by controlling the will of the Heavenly Dao of the Divine Beginning Realm can you know everything about the Divine Beginning Realm. If there are really many hidden dangers in the Divine Beginning Realm, you can also take action to solve them,” Temporal Temple Master said.

Temporal Temple Master’s words immediately attracted the approval of the surrounding leaders.

Obviously, they also thought that Jian Wushuang should possess the Divine Beginning Realm.

“There’s one more thing,” Temporal Temple Master continued, “Although the Divine Beginning Realm seems safe now, what about the future?”

“My dear Heavenly Marquis, you will definitely go to the depths of the universe in the future. When the Divine Beginning Realm encounters a crisis, even if you know about it, you won’t be able to rush back in time or even help much. But if you possess the Divine Beginning Realm, it will be completely different.”

### **Chapter 3990: The True Method of Protection**

“If you possess the Divine Beginning Realm, then even if your true body is in the deepest part of the universe, you can still block all of my powerful enemies that can threaten my Divine Beginning Realm outside the Divine Beginning Realm!”

“Heavenly Marquis little friend, this is the true method of protecting the Divine Beginning Realm!” Temporal Temple Master sighed.

“Yes, the will of the Heavenly Dao in the Divine Beginning Realm will only operate in accordance with the principles of the universe. If there is a big crisis, the will of the Heavenly Dao in the Divine Beginning

Realm will not be of any use. Only you, Heavenly Marquis, can control the will of the Heavenly Dao and protect the Divine Beginning Realm.” Xuan God Daoist and the others nodded in agreement.

Hearing their words, Jian Wushuang was convinced.

Temporal Temple Master was right.

Whether it was the hidden dangers in the Divine Beginning Realm or the future disasters, he could only solve them by possessing the will of the Heavenly Dao of the Divine Beginning Realm.

“In that case, after the celebration party is over, I’ll go and possess it.” Jian Wushuang’s eyes lit up. He had made up his mind.

Seeing this, Xuan God Daoist, Temporal Temple Master, and the others all laughed.

The celebration banquet continued.

After all, this was a great victory for the entire Divine Beginning Realm. Moreover, this battle had actually begun a long time ago. It was only now that the Divine Beginning Realm had truly won. This was a victory of special significance, the celebration banquet naturally lasted a long time.

The celebratory feast lasted for three days and three nights before it ended.

The experts of the Divine Beginning Realm dispersed one after another. As for the experts who had been invited, they also obtained the supreme treasures they wanted and left the Divine Beginning Realm.

In the highest void, the leaders of the Divine Beginning Realm were gathered here.

“My young friend, Heavenly Marquis, go.” Xuan God Daoist smiled.

Jian Wushuang nodded slightly. Then, under their gazes, he merged into the surrounding void.

Jian Wushuang was a perfect life-level cultivator. After his strength broke through to the Ruler realm, he could clearly sense the existence of the divine will of the Divine Beginning Realm, because of his experience in refining the Eternal Chaotic World, it was very easy for Jian Wushuang to take over the Divine Beginning Realm.

Everything went according to Jian Wushuang’s expectations. After only a dozen attempts, Jian Wushuang had successfully refined the divine will of the Divine Beginning Realm on the 17th try. At this moment, Jian Wushuang had truly grasped the entire Divine Beginning Realm.

After truly grasping the Divine Beginning Realm, Jian Wushuang knew the benefits he could obtain by possessing the Divine Beginning Realm.

There were two kinds of benefits.

One was that the Divine Beginning Realm was a star world born in the universe and had a complete Heavenly Dao cycle. Jian Wushuang could feel the existence of this complete Heavenly Dao cycle through the Heavenly Dao will of the Divine Beginning Realm, this was incredibly helpful to his cultivation.

The other was more useful.

The Heavenly Dao will of the Divine Beginning Realm operated according to the supreme universe principle. After possessing the Divine Beginning Realm, he could communicate with the vast universe through the Heavenly Dao will of the Divine Beginning Realm, he could clearly sense the existence of the universal principle, not only the universal principle, but also the power of the universe and the many things contained in the universe. This was of great help to him.

"I now understand why the Devil Cloud Star Master was not very talented and was forced to wander in the outside world when he was in Devil Cloud Star. But after possessing the Divine Beginning Realm, his strength increased so much in a short period of time, and he even comprehended a trace of the universal principle." Jian Wushuang could not help sighing.

He could feel the complete cycle of the Heavenly Dao at any time, and he could even clearly sense the principles of the universe and even communicate with the vast universe. With such an innate advantage, even if he was an ordinary person...he could greatly improve in a short period of time.

'If I had possessed the Divine Beginning Realm earlier, I wouldn't have had to go to the Dark Magic Region to experience life and death. Finally, I would have relied on the life core fragment of the Immortal Youmo to comprehend a trace of the universe principles. I would have been able to comprehend a trace of the universe principles by myself. I'm afraid I would have been able to easily comprehend a trace of the universe principles,' Jian Wushuang thought to himself.

'Just think about it.' Even Devil Cloud Star Master could comprehend a trace of the universe principle by relying on the divine will of the Divine Beginning Realm. His talent and perception were many times stronger than Devil Cloud Star Master's. To comprehend a trace of the universe principle...naturally, it was extremely easy.

Now that he had already comprehended the universe principle and had truly stepped into the threshold of the universe principle, his speed of communicating with the universe and comprehending the universe principle would naturally be faster, and it would definitely be dozens of times faster, or even hundreds of times faster.

Although Jian Wushuang was quite happy to know the benefits he could get from possessing the Divine Beginning Realm, he was not too excited.

Next, he immediately controlled the will of the Heavenly Dao in the Divine Beginning Realm and began to explore the entire Divine Beginning Realm.

With the help of the will of the Heavenly Dao, Jian Wushuang quickly covered every corner of the Divine Beginning Realm with his consciousness. He was able to see everything in the Divine Beginning Realm. As expected, Jian Wushuang found a few huge hidden dangers in the Divine Beginning Realm.

The hidden dangers were called hidden dangers because Jian Wushuang could clearly sense that they had been causing damage to the Divine Beginning Realm.

There was one place that Jian Wushuang was extremely familiar with.

"Samsara Sect, Samsara Heaven Domain!" Jian Wushuang's eyes were wide open.

In the Divine Beginning Realm, the Samsara Sect was located in the Second Heaven. Jian Wushuang had gone to the Samsara Sect in order to completely comprehend the Samsara principles. In the Samsara Heaven Domain of the Samsara sect, Jian Wushuang had discovered a shocking secret.

At that time, he had discovered that the bottom of the Samsara Heaven region contained a terrifying power of life and death, which had perfectly fused together to form a huge vortex of life and death.

At that time, he had also encountered the consciousness left behind by the Samsara leader, who had told him that the vortex of life and death was a complete samsara!

At that time, Jian Wushuang was really shocked. After all, the Samsara was only a legendary existence.

However, he was too weak to really comprehend the Samsara of life and death, so he had to leave. Later, he did not go there again.

But now, after Jian Wushuang controlled the will of the Heavenly Dao in the Divine Beginning Realm, he found that the vortex of life and death at the bottom of the Samsara Heaven Domain was not a samsara of life and death, but a huge magic formation, it was a formation that could continuously squeeze the potential of the Divine Beginning Realm and have a great impact on it.
