

Swordsman 4041

Chapter 4041: Thunder Star War God

"No matter who you are or what reason you have, you should be punished for ruining the genius feast." Thunder Star Lord stared at Jian Wushuang coldly.

"Thunder Star Lord, I don't want to cause any trouble. Besides, I'm done with my business, and I don't intend to stay in your Thunder Star World. If you let me leave now, nothing will happen. But if you continue to pester me, I can't guarantee what will happen later." Jian Wushuang was very calm.

"A mere second-level Ruler is really arrogant." Thunder Star Lord laughed, "Forget it, I won't kill you. I've built a thunder prison in the Thunder Star World to punish those who disrespect me. I'll lock you up in the Thunder Prison and keep you there for 100 million years."

As soon as he finished his words, Thunder Star Lord attacked.

Green thunderbolts flashed crazily on his body. As he stretched out his hand, a huge palm made entirely of thunderbolts grabbed toward Jian Wushuang.

The thunder palm contained a violent and suffocating power. In front of this thunder palm, an ordinary fourth-level Ruler would probably lose the ability to resist.

The many experts on the training field were all terrified the moment they saw the Thunder Star Lord make his move.

One had to know that this was the Thunder Star Lord, the publicly acknowledged number one expert of the entire Thunder Star World. Over the long years, he had always been a man of his word in the Thunder Star World. No one dared to disobey his orders, but it was precisely because he was too aloof...that was why very few people in the Thunder Star World had actually seen him make his move.

But now, Thunder Star Lord had directly attacked in front of everyone, and he was only dealing with a second-level Ruler.

"As expected of a fifth-level Ruler. His casual attack is so powerful." Jian Wushuang just smiled faintly, and then he directly slashed with one hand.

In an instant, an invisible sword shadow rushed out and directly cut through the Thunder Hand. The huge thunder hand was directly cut into two by the sword shadow, and a large amount of thunder power crazily spread out in the surrounding void, crackling sounds were heard in the void.

"Huh?" Thunder Star Lord was surprised.

Although he had just casually attacked, an ordinary fourth-level Ruler could not withstand it. However, this second-level Ruler had actually blocked it, and he had also easily blocked it.

"Star Lord, although this person is only a second-level Ruler, his real strength is very impressive. Even I am not his match," the Sect Master of the Universal Poison Demon Sect, who was beside Thunder Star Lord, said.

Thunder Lord narrowed his eyes. He had heard the Sect Master of the Universal Poison Demon Sect say that Jian Wushuang was powerful, but he did not take it seriously. But now, it seemed that this second-level Ruler was indeed extraordinary.

“Thunder Lord, I have already said that it’s better for you to let me go. Otherwise, you, the Ruler of the astral world, will probably fall today and lose face in front of the experts of the Thunder Star World,” Jian Wushuang said with a faint smile.

“You’re boasting shamelessly.” Thunder Star Lord sneered. He flipped his palm and a cyan spear appeared in his hand. As the spear appeared, a large amount of cyan thunder power surged out from Thunder Star Lord’s body, the green thunder power was completely connected to the spear. At that moment, Thunder Star Lord also transformed into a Thunder War God with a green aura.

“You can say that again after you receive three moves from me.” Thunder Star Lord shouted in a low voice, but his body moved instantly.

“Three moves? Let’s try it first.” Jian Wushuang also smiled, and the Wuqi Divine Sword appeared in his hand. His divine power surged and directly faced Thunder Star Lord.

“The first move!”

Thunder Star Lord held the spear with one hand. Endless green thunderbolt power gathered on the spear, and in the blink of an eye, it turned into a huge green thunderbolt snake.

As Thunder Star Lord’s long spear stabbed out, the green thunderbolt snake tore at Jian Wushuang at a rapid speed.

The space was shattered by the endless thunderbolt power on the thunderbolt snake.

Jian Wushuang smiled faintly. He held the Wuqi Divine Sword with both hands and activated the mysterious universe origin of sword principle. The moment the Wuqi Divine Sword slashed down, the power of the universe principle instantly merged into his swordsmanship.

Without using the universe principle, Jian Wushuang’s swordsmanship could only be considered the most powerful in the fourth level. However, once he used the universe principle, the power of his swordsmanship could instantly rise to the fifth level.

Bang!

With a crisp explosion, the shining green thunder snake came into contact with the sword light. It was immediately dimmed by the power contained in the sword light. The entire thunder snake became weak and flew backward.

“Hmm, fifth-level battle strength?” Thunder Star Lord stared at Jian Wushuang in surprise, but then his eyes turned cold. “Even if you are really a fifth-level Ruler, you can’t be presumptuous in the Thunder Star World!”

Chi!

The green thunder power surged crazily. The entire void was completely covered by the cyan thunder power, forming a huge thunder sea.

In the sea of thunderbolts, the green Thunder War God, which was formed by Thunder Star Lord, was even more powerful. The power of the spear in his hand increased dramatically

One after another, the thundersnakes with terrifying power burst out at the same time.

At this moment, at least more than a hundred thundersnakes surged out.

Jian Wushuang waved his hand, and a terrifying sword essence condensed in front of him. In the blink of an eye, many sword rays condensed, each of which contained a rich power of the universe's principles.

Under Jian Wushuang's guidance, the sword rays rushed out at the same time and collided with the incoming thunder snakes.

A dense explosion sound was heard, and the hundreds of thunder snakes were all defeated by the sword rays.

"Haha, Thunder Ruler, you can use such a method to deal with an ordinary fourth-level Ruler, but it's far from enough to deal with me." Jian Wushuang's laughter resounded throughout the entire martial arts practice field.

"Boy, don't be so arrogant. Take my third move first." Thunder Star Lord shouted, his eyes flashing with terrifying thunder.

A large number of thunder snakes surged out from the endless thunder sea. In the blink of an eye, nearly 1,000 thunder snakes appeared.

However, this time, the 1,000 thunder snakes did not scatter and attack Jian Wushuang. Instead, they gathered together at a terrifying speed in the shortest time.

The power of a single lightning snake was powerful enough. The 1,000 lightning snakes gathered together and turned into a huge lightning dragon in the blink of an eye.

This lightning dragon emitted a destructive power.

Chapter 4042: Could No Longer Be Resolved

Previously, it was Thunder Dragon. Now, it was a Thunder Dragon that was hundreds or thousands of times bigger than before. In terms of power, they were not on the same level.

Even Jian Wushuang's pupils could not help shrinking when he saw the huge Thunder Dragon coming at him.

Jian Wushuang drew his sword and did not hold back his strength anymore.

One sword move, split the heaven!

Boom!

!!

The heaven and earth were completely split apart.

This sword move seemed to come from beyond the nine heavens and wanted to split the entire firmament universe.

The first move of splitting the heaven was the strongest sword move in terms of attack, apart from the three sword formations that Jian Wushuang had created.

The shocking sword shadow directly struck the Thunder Dragon.

“Roar!”

The Thunder Dragon’s roar faintly sounded in the world. In fact, the roar was a burst of thunder. The Thunder Dragon rolled and exploded with terrifying power. Even Jian Wushuang’s first move of splitting heaven could not completely cut the Thunder Dragon, however, it still sharply reduced the Thunder Dragon’s power.

After being hit by the sword light, the Thunder Dragon’s volume was much larger than before. However, it still rushed toward Jian Wushuang like a madman.

Rumble! The Thunder Dragon hit Jian Wushuang’s divine body. Jian Wushuang felt as if he was hit by a huge star. At the same time, a large amount of thunder power crazily entered his body, trying to destroy his divine body.

However, he had cultivated the third level of supreme indestructibility. The strength of his divine body was comparable to the strongest universe supreme treasure, so the impact of the thunder power did not affect him much.

In the void, Jian Wushuang regained his balance after being defeated by the Thunder Dragon for a distance. Then, he raised his head and smiled. “Thunder Star Lord, your moves are quite fancy, but the power is a little weak. Your Thunder Dragon only scratched my divine body.”

Thunder Star Lord’s expression finally darkened.

The countless experts watching the battle were all extremely shocked.

“This person actually received the Star Lord’s attack?”

“If it was the previous two attacks, it would have been fine. But that last move, the Star Lord clearly used all of his strength, and in the end, he still wasn’t able to injure him?”

“This man is only a second-level Ruler, but his battle strength has reached the fifth level?”

“Where did this monster come from? It’s so terrifying.”

The experts of Thunder Star Lord were secretly amazed.

The experts of the Universal Poison Demon Sect did not dare to make a sound at this moment.

The Sect Master of the Universal Poison Demon Sect had wanted Thunder Star Lord to kill Jian Wushuang, but now he was shocked by Jian Wushuang’s strength.

Obviously, Jian Wushuang’s battle strength was at the fifth level. He could not afford to offend such an expert. Even the Star Lord would not want to offend such an expert?

“Humph, no wonder you’re so arrogant. You’re quite capable.” Thunder Star Lord snorted, his eyes still fixed on Jian Wushuang. “Since you are not weak, take out 500 universe origin stones as an apology and let this matter go.”

“500 universe origin stones?” Jian Wushuang sneered, “Thunder Ruler, you are really asking for too much.”

Indeed, it was asking for too much because the price of an attack Principle treasure was only about 200 universe origin stones.

500 universe origin stones. Many fifth-level Rulers did not have that much.

Thunder Star Lord must have seen the extraordinary Wuqi Divine Sword in his hand, and he was only a second-level Ruler, yet he could unleash the power of a fifth-level Ruler. He must have been a fifth-level Ruler during the great era, so he dared to say this.

“You don’t want to hand it over? Then you’ll die!” Thunder Star Lord’s eyes suddenly turned cold, at this moment, the power of the Thunder Star Lord, which was originally filled with a large amount of green thunder, began to surge crazily. Then, under the watchful eyes of countless experts, the green thunder began to undergo a qualitative change, the thick green thunder began to undergo a qualitative change.

In the blink of an eye, the power of the green thunder had completely turned into a faint purple thunder.

The Thunder Star Lord had also turned back into a purple thunderbolt war god.

“Purple thunderbolt?” Jian Wushuang’s expression changed. He carefully felt the power of the purple thunderbolt. Without a doubt, after the power of the Thunderbolt turned from green to purple, its power was obviously a level higher than before.

“This kid is indeed not weak. If it was before, I wouldn’t have been able to do anything to him. But now that I have refined the purple thunderbolt scroll, my strength has greatly increased, so I can make an example of him.” A trace of killing intent flashed in the eyes of the Thunder Star Lord.

Originally, he did not want to kill Jian Wushuang. He just wanted to send Jian Wushuang to thunder hell to be suppressed as a punishment.

But after the fight, he realized that Jian Wushuang was so strong, so he changed his mind.

It was normal for a second-level Ruler to have such great battle strength. He must have gotten a great opportunity, so he might have a treasure on him.

It was for this reason that Thunder Ruler wanted to kill Jian Wushuang.

“Crash!”

Endless purple thunderbolts flashed crazily, followed by purple lightning pillars descending from the sky above.

“Blood thunder sea, destroy!”

Thunder Ruler shouted, and the purple lightning pillars instantly gathered together and rushed toward Jian Wushuang.

Jian Wushuang narrowed his eyes and moved quickly, leaving afterimages in the void. However, the purple lightning pillars seemed to have locked onto him. Where did he go, the purple lightning pillars rushed toward him.

In the end, he had no choice but to meet them.

“Earth Guardian Sword Formation!”

Jian Wushuang finally used the sword formation. Earth sword domains rose up, carrying the power of the formation. In the blink of an eye, they formed a huge guardian sword formation.

The protective sword formation covered Jian Wushuang’s entire body. The vast purple lightning pillars rushed at the Earth Sword Formation, but they only partially destroyed it, but they could not completely destroy the sword formation.

Whoosh!

Jian Wushuang retreated quickly. At the same time, a cold voice suddenly sounded, “Thunder Ruler, are you really not going to be kind today?”

“Nice? What a joke!” Thunder Ruler smiled coldly, but the purple thunderbolts around him became even more intense.

“Very good. In that case, let’s see who will kill who!” Jian Wushuang’s eyes also emitted a shocking killing intent.

He did not want to tangle with Thunder Ruler. After all, there was no conflict of interest between the two parties. However, he did not expect that the other party would not stop. Moreover, that move just now was clearly intended to kill him.

Did this Thunder Star Lord really think that he had a good temper?

Chapter 4043: Death

Buzz!

The hazy fog swept away, and Jian Wushuang finally displayed his killer move.

“What is this? A sword formation?” Thunder Ruler frowned as he looked at the fog in front of him. He could feel the power of the formation contained in the fog, but then he snorted coldly and said, “It’s just a small trick.”

The purple thunderbolt power surrounding Thunder Ruler, which was already extremely majestic, suddenly surged once again.

The mighty purple thunderbolt sea swept toward the fog in all directions, intending to disperse the fog directly.

!!

However, the fog that was swept out by the obscure sword formation was not solid at all. Although the purple thunderbolt power attacked, the fog did not have much of an impact on the battlefield.

The fog still filled the entire battlefield, and Jian Wushuang had already disappeared in front of Thunder Ruler.

Thunder Ruler looked around coldly, trying to find Jian Wushuang. However, he could not see Jian Wushuang because of the layers of gray fog, he could only sense Jian Wushuang's approximate position with his soul perception.

Whoosh!

Without any warning, an ice-cold sword light cut through the void from the side.

"So fast, and so sudden!" Thunder Star Lord was shocked, but he did not panic. He saw a large amount of purple thunderbolt power surge and instantly gathered to form a complete purple thunderbolt armor on his body.

The thunderbolt armor covered Thunder Star Lord's entire body. The sword light cut down on the purple thunderbolt armor, but it only scattered a part of the purple thunderbolt. In the next moment, the purple thunderbolt armor returned to normal.

"Humph, this is the Thunder God battle armor that I formed after refining the Purple Thunder Scroll. This battle armor can not only increase my offensive power, but also my defensive ability to the extreme. With both offense and defense, my overall strength can be doubled." The Thunder Star Lord sneered.

The secret technique that he cultivated was extremely powerful. The first scroll of the green thunder scroll had already increased his strength by a lot. Not long ago, he had refined the purple thunder scroll, and his overall strength had increased again.

The purple Thunder God armor was especially powerful, which was the reason why he was so confident.

Jian Wushuang used the sword skill of the obscure sword formation to strike the Purple Thunder God armor, but it did not cause much damage.

However, Jian Wushuang was not in a hurry. In the hazy fog, sword lights lit up again.

Thunder Star Lord was prepared for these sword lights. He easily attacked. Purple lightning pillars descended out of thin air. Most of the sword lights were directly scattered by the lightning pillars. Even if some of them were not destroyed...they could not cause any damage to his purple Thunder God armor.

"Haha, kid, this is your trump card. You're just scratching my itch." Thunder Star Lord laughed loudly.

"Really?" Jian Wushuang's cold voice suddenly sounded behind Thunder Ruler.

"What?" Thunder Ruler was stunned. His soul power had been sensing Jian Wushuang's approximate position, but he did not sense when Jian Wushuang had appeared behind him.

Moreover, Jian Wushuang had already stabbed out with the Wuqi Divine Sword.

The sword was so fast that Thunder Star Lord did not have time to defend himself.

“Humph, so what if I am stabbed by you? With your level of attack, you can’t break my Thunder God armor.” Thunder Star Lord snorted in his heart. He had absolute confidence in the purple thunder armor on his body.

In fact, unless Jian Wushuang used the dragon-killing secret skill, which could increase his strength in a short period of time, he could not break the Thunder God armor with normal sword skills.

However, Thunder Star Lord did not know that Jian Wushuang had activated the drop of scarlet venom hidden in the Wuqi Divine Sword the moment he stabbed out!

This drop of venom was personally refined by an ultimate level Ruler Poison Ruler!

Just one drop was worth 1,000 universe origin stones!

Chi!

The cold sword light stabbed into the purple thunder armor on Thunder Star Lord’s body, and a sound of divine power melting was heard.

The smile on Thunder Star Lord’s face froze and turned into shock.

Wherever the sword light touched, the purple thunder that formed the Purple Thunder armor started to melt rapidly.

It was like a bowl of hot water sprinkled on the snow in winter.

The purple thunder melted too quickly.

There was nothing they could do. Once the drop of venom contained in the Wuqi Divine Sword exploded, the terrifying corrosive power might not even be able to resist the divine body of an Ultimate Ruler, and this purple thunder was only formed by Thunder Star Lord’s own divine power, how could he withstand the corrosion of the venom.

In an instant, a hole the size of a bowl appeared in the center of the Purple Thunderbolt armor. The Wuqi Divine Sword continued to extend and stab at the divine body of Thunder Star Lord.

There was a protective armor on the surface of the main body of thunder star. Although it was not a Principle Supreme Treasure, it was still the most powerful supreme treasure. Logically, it should be able to withstand all attacks, although Jian Wushuang’s Wuqi Divine Sword was an upper-grade Principle-based supreme treasure, he could not fully pierce through it because he could not unleash its true power.

However, Jian Wushuang did not need to pierce through it. He just needed to let the tip of the sword touch the Supreme Treasure armor. The moment the tip of the sword touched the supreme treasure armor...the drop of Venom from the Wuqi Divine Sword instantly rushed toward the supreme true treasure armor.

The supreme true treasure armor at the supreme grade was corroded and collapsed at this moment. The venom continued to corrode, and in the next moment, it finally entered Thunder Star Lord's divine body.

Thunder Star Lord's eyes were wide open.

"No!"

With a hysterical roar, Thunder Star Lord did not even have time to struggle before his divine body collapsed. His divine power was completely corroded, and the sound was completely cut off.

The purple thunderbolts in the sky dissipated, and Thunder Star Lord died!

Whoosh!

Jian Wushuang appeared in the void where Thunder Star Lord died. He looked down at the treasure left behind by Thunder Star Lord and was shocked.

"It's too terrifying. Although I had guessed that the poison was very terrifying, I didn't expect it to be so terrifying. Thunder Star Lord is a fifth-level Ruler, and he is very powerful. However, in just a moment, he died. Even the supreme treasure armor on his body was corroded." Jian Wushuang sighed.

Even he was like this, and the experts watching the battle around the drill ground were even more shocked beyond words.

Chapter 4044: Thunder Star Lord's Wealth

"The Star Lord is dead?"

"How is that possible? The Star Lord is a fifth-level Ruler. How could he die at the hands of a second-level Ruler?"

"Impossible, this is impossible!"

The experts of Thunder Star Lord felt like they were going crazy.

Over the long years, the Thunder Star Lord had always been an invincible existence in the Thunder Star Lord's place. Even in the entire Purple Micro Galaxy, he was still an expert who stood at the top of the pyramid.

!!

Such an expert was already invincible in a medium-sized Star Field.

Even the Thunder Star Lord himself had once said that he was fearless in the Purple Micro Galaxy. From this, one could see his strength.

And that was indeed the case. Over the long years, the Thunder Star Lord had always given people the feeling of invincibility. Whether it was in the Thunder Star Field or in the battles with the other experts of the Star Field, the Thunder Star Lord had always been incomparably powerful.

It was precisely because of this that in the hearts of these experts of the Thunder Star Field, they had long been almost blindly worshipping the Thunder Star Lord. But today, they had never imagined that the Thunder Star Lord would actually die.

He was killed by a second-level Ruler in front of everyone.

Shock, fear, and disbelief appeared in everyone's minds,

Jian Wushuang had already waved his hand and put the treasures left by the Thunder Star Lord into his interspatial ring. Then, he looked at the Sect Master of the Universal Poison Demon Sect with interest.

"Not good." The Sect Master of the Universal Poison Demon Sect was like a frightened bird. As soon as he sensed Jian Wushuang's gaze, he immediately retreated without hesitation, desperately trying to distance himself from Jian Wushuang.

He knew very well that it was Thunder Lord who had begged him to deal with Jian Wushuang. He wanted to use Thunder Lord to kill Jian Wushuang. Even if he could not kill Jian Wushuang, he had to punish him properly.

Who would have thought that not only did Thunder Star Lord fail to kill Jian Wushuang, but he was killed instead.

So now, could Jian Wushuang spare him?

"Shuang 'er, let's go."

Unexpectedly, Jian Wushuang did not attack the Sect Master of the Universal Poison Demon Sect. Instead, he called his wife and Devil Flame and left the Universal Poison Demon Sect.

To Jian Wushuang, the Sect Master of the Universal Poison Demon Sect was nothing in his eyes. It did not matter whether he killed him or not. However, because Leng Rushuang had already said that the enmity between him and Leng Ruxue was over...Jian Wushuang did not intend to have any contact with Leng Ruxue in the future, and Leng Ruxue was from the Universal Poison Demon Sect. Therefore, Jian Wushuang spared her life.

Under the gaze of countless experts, Jian Wushuang and the other two left the Universal Poison Demon Sect and soon disappeared into the horizon.

The martial arts practice field was already in an uproar.

In the camp of the Universal Poison Demon Sect, the experts of the Universal Poison Demon Sect were all shocked. Among the crowd, Leng Ruxue gritted her teeth and looked in the direction where Jian Wushuang and the other two had left.

"Jian Wushuang, I didn't expect you to be so strong after so many years. You even killed Star Lord!"

"And that bitch, she has been sleeping for so many years, but her strength is even stronger than mine!"

Leng Ruxue clenched her hands and her eyes were cold.

"Just you wait. You are stronger than me now, but it won't be long before I surpass you. I will!"

Leng Ruxue had already regarded Leng Rushuang and Jian Wushuang as her targets.

However, what Leng Ruxue did not know was that both Jian Wushuang and Leng Rushuang had a much greater innate advantage than him.

Needless to say, Jian Wushuang was not only at the perfect life level, but also possessed an astral world. He had unlimited potential.

Leng Rushuang had also fused with the heart of the astral world. Her innate advantage was definitely greater than her body of woe poison.

Just now, Leng Ruxue was already inferior to the two of them. In the future, the gap would only be greater.

Moreover, they probably would not have the chance to meet again in the future.

...

After leaving the Universal Poison Demon Sect, Jian Wushuang and the others had finished their business in the Purple Micro Galaxy. Naturally, they did not stay any longer and quickly left the Thunder Star World.

In the universe void of the Purple Micro Star Road, the ancient universe boat slowly moved forward.

In the universe boat, Jian Wushuang was examining the treasures and interspatial rings left behind by the Thunder Star Lord after his death.

"He is indeed a second-class astral world Ruler of a medium-sized Star Field. His wealth is much more than that of the Devil Cloud Star Lord. Even compared to Nine Whiskers, the Ascetic Cultivator we met in the Purple Micro Star River, Nine Whiskers's wealth is far inferior to that of the Thunder Star Lord if it were not for the venom," Jian Wushuang said with a smile.

Nine Whiskers was an Ascetic Cultivator, and he had been to many territories and killed many great beings. He had even killed a fifth-level Ruler, so he had an extraordinary family background. Of course, the most precious thing was the venom that he had gotten back then.

Putting aside the venom, Nine Whiskers's total was probably less than 4,000 universe primitives.

However, Thunder Star Lord had almost 4,000 origin stones in his universe ring.

In addition to all kinds of valuable resources and the green spear used by Thunder Star Lord himself, the Green Spear should be a mid-grade Principle True Treasure, and its value was also very high.

All of these added up, Thunder Star Lord's total wealth should be close to 8,000 universe origin stones.

His wealth was already close to that of an ultimate level Ruler.

"It's already impressive for an ordinary fifth-level Ruler to be worth 1,000 to 2,000 universe origin stones. However, Thunder Star Lord is a Ruler of a second-level astral world and has been staying in the Purple Micro Galaxy for a long time. He's at the top, so it's easy for him to plunder treasures. It's normal for him to be so rich," Devil Flame said with a sigh.

Jian Wushuang also nodded slightly. As a fifth-level Ruler and a second-level star world Ruler in a medium-sized Star Field, if he was good at collecting money, he could indeed accumulate a lot of universe origin stones over a long period of time.

If it were other fifth-level Rulers, they definitely would not have such wealth.

Of course, no matter how good he was at collecting money, he could not be compared with an ultimate level Ruler.

Jian Wushuang had heard from Devil Flame that an Ultimate Ruler, even if he was relatively poor, would have tens of thousands of universe origin stones, and the stronger ones would have hundreds of thousands of universe origin stones, as for the Ultimate Ruler, he could easily get more than one million universe origin stones.

Compared to those Ultimate Rulers, the amount of universe origin stones Jian Wushuang got was just a drop in the bucket.

"I got a lot of source stones when I killed Nine Whiskers. Now that I killed Thunder Star Lord, I got more. I don't need these source stones for now, but I can buy you a suitable nomological true treasure armor," Jian Wushuang said with a smile.

Chapter 4045: The Price

"The Principle True Treasure armor?" Leng Rushuang was shocked, but then she shook her head. "Husband, you still don't have the Principle True Treasure armor..."

Before Leng Rushuang could finish her words,.

"I'm different from you," Jian Wushuang interrupted her. "I'm a perfect life-level cultivator with boundless divine power. I've also cultivated the supreme eternal celestial body. Although it's only the third level, my divine body is still comparable to the supreme true treasure armor. Once I cultivate to the fourth level, my divine body will be comparable to an ordinary low-grade Principle True Treasure armor. Therefore, ordinary Principle True Treasure armor is useless to me."

"But you are different. Although your current battle strength is not bad, your life-saving ability is not very strong. The universe is too dangerous. Although I will always be by your side, if there is a sudden danger, I may not be able to protect you in time. Therefore, you must find a way to improve your life-saving ability."

Jian Wushuang said solemnly.

!!

It was true. He and his wife were adventuring in the universe. He was not worried if they encountered danger, but he was only worried about his wife.

After all, Leng Rushuang's life-saving ability was not as heaven-defying as his.

"I understand." Leng Rushuang nodded and stopped insisting. "In fact, Ruler taught me a life-saving secret skill. It's just that it's very difficult to cultivate it. I'm only barely at the beginning. As for my body-protection ability, I'm indeed a little lacking."

"That's good. I'll go to the Nine Emperor Pavilion again and choose a suitable principle-type supreme treasure armor for you." Jian Wushuang smiled.

Immediately, the three went to the Nine Emperor Pavilion again, and Chief Ballmer received them.

"Chief Ballmer, I need a low-grade principle-type supreme treasure armor," Jian Wushuang said.

"No problem. This is the principle-type supreme treasure armor that the Nine Emperor Pavilion can take out immediately. They're all low-grade. You can take a look." Ballmer immediately took out a list.

Although it was a list, in fact, there were only four Principle True Treasure armors on it.

This was normal. The Purple Micro Galaxy was only a medium-sized Star Field, and the strongest person in it was only a fifth-level Ruler. An ordinary fifth-level Ruler could hardly afford a Principle True Treasure armor.

"The price is really expensive." Jian Wushuang looked at the price of the four Principle True Treasure armors on the list.

Even the cheapest of the four principle-type supreme treasure armors was worth more than 1,200 universe origin stones, and the most expensive sword was worth 1,800 origin stones.

After all, Jian Wushuang estimated that the soul-defense type supreme treasure he obtained after killing Nine Whiskers would not be worth more than 2,000 origin stones.

In terms of type, this principle-type supreme treasure armor was slightly inferior to a soul-defense type supreme treasure.

"The price of a Principle Supreme Treasure armor is much more valuable than an attack supreme treasure. Under normal circumstances, it's usually ten times more expensive. Some lower-grade Principle Supreme Treasure armors with stronger protective effects are even as valuable as an ordinary middle-grade attack supreme treasure," Ballmer said.

"If you want to buy it, then buy the best one. I'll take this Heart Jade Emperor Blood Armor," Jian Wushuang said directly.

"Husband." Leng Rushuang glanced at Jian Wushuang.

The Heart Jade Emperor Blood Armor was the most expensive one on the list of supreme treasures. It was worth 1,800 origin stones.

"This is an origin stone." Jian Wushuang took out an interspatial ring. There were exactly 1,800 origin stones in it.

After taking it, Ballmer briefly scanned it with his consciousness. He nodded and said, "Wait a moment, I'll send someone to deliver this armor right away."

Jian Wushuang was not in a hurry and just waited. Halfway through, Jian Wushuang suddenly asked, "Chief Ballmer, there's something I want to ask you."

"Blood Sword, please go ahead." Ballmer was still as enthusiastic as ever.

"I know that the Nine Emperor Pavilion has influence in every corner of the universe. The universe passage in the Nine Emperor Pavilion should be very comprehensive, right?" Jian Wushuang asked.

"Universe passage?" Ballmer raised his eyebrows and then smiled. "Yes, it's very comprehensive. If the Nine Emperor Pavilion wants to, we can easily reach the core territory of the universe from the edge of the universe. However, it will cost a lot of money to travel such a long distance. For an ordinary Ruler, it's definitely an astronomical figure."

"I don't want to go directly to the core of the universe from here. I just want to go to the Nine Luminaries Galaxy. I wonder if the Nine Emperor Pavilion has a direct access to the universe?" Jian Wushuang asked.

"Nine Luminaries Galaxy?" The star map of the Nine Luminaries Galaxy immediately appeared in Ballmer's mind, but then he smiled. "The Nine Luminaries Galaxy is indeed not the core of the universe. It's not too far from the Purple Micro Galaxy where we are now. Of course, the Nine Emperor Pavilion has a direct access to the Nine Luminaries Galaxy, but I'm afraid you can't use it, Blood Sword."

"Why?" Jian Wushuang looked at him with a frown.

"Blood Sword, there's something you may not know. Although the universe passage of the Nine Emperor Pavilion covers every corner of the universe, it's not open to the public."

"Not open to the public?" Jian Wushuang was stunned.

"Yes, even I, a subordinate of the Nine Emperor Pavilion and a supervisor of the Purple Micro Galaxy, have some authority, let alone you. In fact, even the lords with one or two levels higher authority than me in the Nine Emperor Pavilion are not qualified to use the long-distance universe passages of the Nine Emperor Pavilion. Only some of the core experts in the Nine Emperor Pavilion are qualified to use these universe passages, and almost all of them are supreme experts," Ballmer said.

Hearing this, Jian Wushuang immediately understood.

Even Ballmer and the experts from the Nine Emperor Pavilion, who were one or two levels higher than him, were not qualified to use those long-distance universe passageways, so what right did he have?

"Blood Sword, you are a genius expert on the Nine Emperor List and a friend of the Nine Emperor Pavilion. If you really need it, you can use those universe passageways, but the price to pay is very high," Ballmer said.

"How much do I have to pay to go directly from the Purple Micro Galaxy to the Nine Luminaries Great Star Field?" Jian Wushuang asked immediately.

"I don't know the exact number, but I estimate it to be at least millions of universe origin stones," Ballmer said.

Hearing this number, Jian Wushuang rolled his eyes, but he no longer had the idea of using the universe passage.

Millions of universe origin stones?

What a joke!

All of his assets added up, he could only break 10,000 universe origin stones, which was only a few hundredths.

"It seems that it's impossible to go directly to the Nine Luminaries Great Star Field. I can only take the universe boat and travel slowly." Jian Wushuang was also full of helplessness.

Chapter 4046: 18,000 Years

In a short while, someone from the Nine Emperor Pavilion brought the Heart Jade Emperor Blood armor over.

The blood-red armor was crystal clear and looked like a layer of glass.

"Shuang 'er, try refining it," Jian Wushuang said.

"Okay." Leng Rushuang nodded and immediately began refining the Heart Jade Emperor Blood Armor.

The requirements for refining a low-grade principle treasure were also quite harsh. Leng Rushuang was not weak at the moment. Although she had spent some time, she had successfully refined the armor.

!!

After refining it, the Heart Jade Emperor's blood armor turned into a layer of blood-red green robe and draped over Leng Rushuang's body. It made the already cold and arrogant Leng Rushuang look even more gorgeous.

"How do you feel?" Jian Wushuang asked.

"Very good. The armor's protective ability is very good. It's much stronger than ordinary supreme treasures. However, the most powerful thing is the four levels of power contained in the armor. The first level of power alone is enough to greatly increase my strength. Moreover, with my current strength, I can activate the first level of power," Leng Rushuang said.

"Oh?" Jian Wushuang's eyes lit up.

Generally, the Supreme Treasure armor did have its own power, but it was not easy to activate it.

In Jian Wushuang's opinion, the power of the principle Supreme Treasure Armor could only be activated by comprehending a trace of the universe principle, but now it seemed that it was not so.

"The four levels of power in the armor require a high level of comprehension of the universe principle. However, the first level only requires a certain level of contact with the universe principle and a relatively simple use of the power of the principles contained in it. Although I have not comprehended the universe principle, I have been following you around all the time. I often see you comprehending the

universe principle, so I naturally have some contact with it. Therefore, I just happened to reach the threshold of activating the first level of power,” Leng Rushuang said with a smile.

“That’s good.” A smile appeared on Jian Wushuang’s face.

Soon, the three of them continued their journey.

They left the Purple Micro Galaxy in the universe boat and entered the vast universe void.

Time flowed like water. In the blink of an eye, 18,000 years had passed.

During these 18,000 years, Jian Wushuang spent most of his time in the vast universe void. Occasionally, when he passed by some Star Fields, he would stay in those Star Fields for a while, he would taste the delicacies and specialties of these Star Fields.

It had to be said that Jian Wushuang’s knowledge had improved a lot after passing through these Star Fields.

In the universe boat, Jian Wushuang and Leng Rushuang casually sat there. On the table, there were some brightly colored fruits.

These fruits were all obtained from the small Star Field that they had just passed by.

“Husband, the people from the Thunder Dragon Star Field were really enthusiastic. They gave us so many fruits before they left. These fruits are enough for us to eat for tens of thousands of years,” Leng Rushuang said with a smile.

“Enthusiastic?” Jian Wushuang touched his nose. He knew very well that apart from their enthusiasm, it was mainly because their strength was so strong that they were in awe of them. That was why they would try their best to please them.

After all, the strongest Ruler in a small Star Field was only a fourth-level Ruler. When Jian Wushuang arrived in that area, he had a dispute with a fourth-level Ruler and defeated him with one move, after that, the fourth-level Ruler was in awe of them.

The fourth-level Ruler ordered people to prepare the fruits.

“Although the universe is vast, strength is always the most important thing. As long as you are strong enough, you can easily suppress many Star Fields. The cultivators in those Star Fields are naturally terrified and can only try to curry favor with you.” Jian Wushuang shook his head and smiled.

Although his current strength was nothing in the vast universe, he was definitely a top expert in small or medium-sized Star Fields. He was definitely worthy of respect.

“Unfortunately, in the past 18,000 years, I have made great progress in the universal principle and the sword principle. However, I still haven’t integrated the sixth principle in the principle of heaven and earth.” Jian Wushuang sighed, feeling helpless.

Back when he was in the Divine Beginning Realm, the sixth principle he had comprehended, the dark principle, was already just one step away from fusing with the other five principles. However, all these years, up until now, so much time had passed, there were still no signs of complete fusion.

After all, he had not abandoned his cultivation in these years. Moreover, because he had grasped the Divine Beginning Realm's will of Heavenly Dao, he was able to comprehend and fuse the Principles very quickly.

For example, in these 18,000 years, he had completely comprehended the seventh Principle, but he still could not completely fuse the sixth Principle.

"I can't help it. It's easy to comprehend the universe Principle, but it becomes more and more difficult to fuse it. It's because I have mastered the Heavenly Dao will of the Divine Beginning Realm that I can comprehend the Principle so quickly, but it still takes a long time to fuse it," Jian Wushuang thought to himself.

For example, Devil Cloud Ruler's strength increased dramatically after he took over the Divine Beginning Realm, but his progress stopped for a long time after he reached the third-level Ruler, in the end, he finally broke through to the fourth-level Ruler.

In terms of talent and comprehension, Jian Wushuang was definitely stronger than Devil Cloud Star Lord. However, he had only cultivated for a short period of time.

"Husband, don't worry. Although your realm hasn't improved, your strength has been improving. If you go all out now, you'll be close to the peak of the fifth-level Ruler, right?" Leng Rushuang looked at him.

Seeing Leng Rushuang, Jian Wushuang smiled bitterly.

In the past 18,000 years, he had not integrated the sixth Principle, but Leng Rushuang was one step ahead of him. Now that she had integrated the six Principles and become a third-level Ruler, she was completely ahead of him in terms of realm.

"The integration of Principles, especially at my current level, can only wait and rely on opportunities." Jian Wushuang smiled. "But you're right. Although I can't fuse Principles, my strength has been improving, especially in the universe Principles. I've been improving all these years, and now I don't even know what level my comprehension of the universe Principles has reached."

"Devil Flame, you're very knowledgeable. Can you tell me if there's a way to let me know the specific level of my comprehension of the universe Principles? At the very least, I need something to refer to," Jian Wushuang said.

He really did not know what level his understanding of the universal principles had reached. All he knew was that he was much stronger than before.

...

Chapter 4047: The Principle Sea

18,000 years later, Devil Flame had already refined and absorbed all the special crystals he had obtained, and his divine body had recovered to about 40%.

With about 40% of his divine body, Devil Flame's realm had recovered to the peak of the fourth-level Ruler, which was infinitely close to the fifth-level. His battle strength was undoubtedly at the fifth-level, even among the fifth-level Rulers, he was extremely strong.

Upon hearing Jian Wushuang's question, Devil Flame hurriedly said, "Ruler, there are many ways to judge the comprehension of universal principles in the vast universe, but the most convincing one is the Principle Sea."

"Principle Sea? What is that, the universal Principle Sea?" Jian Wushuang asked in puzzlement.

"No." Devil Flame shook his head. "Principle Sea is actually a test for the comprehension of universe principles. There are 33 levels of Principle Sea, corresponding to 33 different levels of the comprehension of universe principles."

!!

"The Principle Sea was created by an Ruler force at the core of the universe. It was later widely used in the universe. Most of the top experts in the universe, like those supreme experts, use the Principle Sea as a standard to judge their comprehension of the universe's principles. The first level of the Principle Sea requires one to Ruler a trace of the universe's principles to pass it. As for the highest level, the 33rd level, it is said to be the limit of the universe's principles. It means that one has completely mastered the entire universe's principles. However, there are only a handful of such supreme experts in the entire universe."

Upon hearing this, Jian Wushuang was noncommittal.

The universe principle was the supreme principle of the vast universe. Even supreme experts could barely enter it. The 33rd level of the Principle Sea represented the complete Rulery of the universe principle, naturally, it was not something that an ordinary person could pass.

Perhaps even a top-tier supreme expert, or even an invincible supreme expert like Planet Ruler Lingyun, would not be able to pass it.

"My comprehension of the universe's principles is no longer the same as before. If I go to the Principle Sea, I should be able to pass more than the first level. However, I still have to try how many levels I can pass," Jian Wushuang thought to himself, then he raised his head and said, "Devil Flame, you just said that the Principle Sea has been widely used in the vast universe. There should be many places where I can pass the Principle Sea, right?"

"Not many places have it." Devil Flame said seriously, "After all, the universe principle is too high-end. Only supreme experts are qualified to comprehend it. Only a few talented Rulers are qualified to comprehend it. However, because the level is too high, ordinary small and medium-sized Star Fields don't need the Principle Sea. Therefore, this Principle Sea can only be found in large Star Fields."

"A large-scale Star Field?" Jian Wushuang was stunned.

A large-scale Star Field had a first-class Star Field, and it definitely had an ultimate level Ruler. Some of the stronger large-scale Star Fields even had supreme-beings.

However, the vast universe mostly had small-scale Star Fields and medium-scale Star Fields. As for large-scale Star Fields, they were only common in the depths of the universe. As for the edge of the universe, although there were some, there were very few.

Jian Wushuang and the others had passed by many Star Fields along the way, but none of them had passed by large Star Fields.

“Husband, if I remember correctly, let’s continue forward. After passing through two small Star Fields, we will arrive at a large Star Field, the Bone Pupil Star Field,” Leng Rushuang said.

Jian Wushuang waved his hand, and a huge star map immediately appeared in the void in front of him.

On the star map, Jian Wushuang soon saw the location of the Bone Pupil Star Field.

“Yes, the Bone Pupil Star Field is the only path we have to take, and it’s not far from where we are now. If we take the universe boat without any delay, we can arrive there in a few hundred years.” Jian Wushuang smiled.

The star map had an introduction about the Bone Pupil Star Field.

The Bone Pupil Star Field was indeed a large Star Field. There were not only level one Star Fields, but also two. There were even more level two and level three Star Fields.

“There are even two level one Star Fields in the Bone Pupil Star Field. There must be a Principle Sea in there. Let’s go to the Bone Pupil Star Field first,” Jian Wushuang said with a smile.

The universe boat flew through the universe void at the fastest speed. After only 300 years, they arrived in the Bone Pupil Star Field.

In the core area of the Bone Pupil Star Field, an island was floating in the void space. The island was quiet.

Normally, since this island was in the core area of the Bone Pupil Star Field, there should be many great beings passing by. However, in fact, this island was almost uninhabited in the Bone Pupil Star Field.

Although the great beings of the Bone Pupil Star Field knew about the existence of this island, they almost did not come here.

On the island, there was an endless sea. At the edge of the sea, a brown-haired old man sat there with his eyes closed. He did not move at all.

The brown-haired old man had been sitting on the island in the same position for hundreds of thousands of years.

He had not moved for hundreds of thousands of years. If people did not know that, they would think that he had died a long time ago.

But suddenly...

“Eh?” The brown-haired elder suddenly opened his eyes, revealing his slightly turbid pupils. “Someone is coming?”

Sure enough, three figures rushed over from not far away and soon arrived at the edge of the ocean.

“Halt,” the brown-haired elder said slowly.

Jian Wushuang and the other two stopped.

“Ruler, the Principle Sea is ahead. Although it looks like an ordinary ocean, in fact, you will find this Principle Sea after you walk along it. It has a different world,” Devil Flame said.

“Okay.” Jian Wushuang nodded slightly and looked at the brown-haired elder who was sitting casually below.

“Whoosh!”

Jian Wushuang and the other two flew down and arrived in front of the brown-haired elder.

“I’m Xue Jian. My wife and one of my guards are beside me. We passed by and heard that there is a Principle Sea here that can determine the level of comprehension of the universe’s principles. We came here to have a look,” Jian Wushuang said with a smile.

“The Principle Sea is not something that just anyone can see. It requires a certain level of comprehension of the universe’s principles. However, among the three of you, the strongest one is only a fourth-level Ruler. I wonder which one of you has comprehended a trace of the universe’s principles?” The brown-haired elder looked over with a light gaze.

“It’s me,” Jian Wushuang said.

“Oh?” The brown-haired elder looked at Jian Wushuang with a hint of surprise in his heart.

He could tell at a glance that Jian Wushuang was only a second-level Ruler.

It was rare for a second-level Ruler to be able to comprehend a trace of the principles of the universe.

...

Chapter 4048: Challenge!

“I am Gui Yun, the guardian of the Principle Sea,” the brown-haired elder said.

“Guardian?” Jian Wushuang was puzzled.

“Ruler, every Principle Sea in the universe has a guardian. As for the purpose of this Guardian’s existence, I don’t know. However, it should be related to the top force behind the creation of the Principle Sea,” Devil Flame said softly.

Jian Wushuang understood that the top force in the depths of the universe created the Principle Sea and spread it throughout the universe. It was impossible for the geniuses of the universe to enter it without a purpose.

“If you want to enter the Principle Sea, you must first show whether you have really comprehended a trace of the universe’s principles. After all...seeing is believing,” said the Guardian, Gui Yun.

“Okay.” Jian Wushuang nodded and then waved his hand. A trace of the power of the universe principle instantly condensed in his palm.

Gui Yun’s eyes immediately lit up. “It really is the universe principle. It’s amazing that a second-level Ruler can comprehend a trace of the universe principle. Although the Bone Pupil Star Field is a large starfield and there are many Rulers, only one has really comprehended a trace of the universe principle. Moreover, that one has only comprehended a trace of the universe principle at the fourth-level Ruler level.”

Jian Wushuang listened calmly, but he found it funny.

After all, he had comprehended a trace of universe principle at the level of Principle Ruler, not the second-level Ruler.

“Well, it proves that you have comprehended a trace of universe principle, so you can go to the Principle Sea.” Gui Yun smiled and waved at the endless sea in front of him.

“Splash!” The endless sea rolled crazily, and the power of the formation rose in the sea.

“Go,” Gui Yun said.

Jian Wushuang nodded and rushed to the Principle Sea without hesitation.

As soon as he entered the Principle Sea, Jian Wushuang disappeared in front of Leng Rushuang and the others. Apparently, Jian Wushuang had begun the test of the first level of the Principle Sea.

“Devil Flame, you know more about the Principle Sea. How many levels do you think you can pass with your husband’s comprehension of the universe principles?” Leng Rushuang asked.

“Madam, although I used to be an Ultimate Ruler, I haven’t comprehended any of the universe principles. I haven’t really tried the Principle Sea, but I’ve heard that there are 33 levels in the Principle Sea, and each level has a step. Ruler’s comprehension of the universe principles has improved greatly over the years, so it shouldn’t be difficult to pass the first three levels. As for whether I can pass the fourth level, I don’t know,” Devil Flame said.

“Passing the first three levels isn’t difficult?”

When Gui Yun heard Devil Flame’s words, he started laughing, “You’re underestimating this Principle Sea a little too much. Although the Principle Sea has 33 levels, and indeed every three levels has a step, the gap between each level is still very big. Under normal circumstances, as long as one grasps a trace of the universe principles, they can pass the first level. However, the second level requires a certain level of comprehension toward the universe principles, and the third level requires one to truly step into the threshold of the universe principles.”

“Your Ruler is only a second-level Ruler, so he must have just been exposed to the universe principles. It’s no problem for him to pass the first level, but I’m afraid the second level will be difficult. I think he can only pass the second level.”

“Not necessarily.” Devil Flame glanced at Gui Yun.

Leng Rushuang just smiled faintly.

Gui Yun did not know Jian Wushuang very well.

Moreover, when Jian Wushuang displayed the universal principle, he did only show a trace of the universal principle. This made Gui Yun think that Jian Wushuang's comprehension of the universal principle was not high, so he said so.

However, Leng Rushuang and Devil Flame had a certain understanding of Jian Wushuang. They knew that Jian Wushuang had already grasped a trace of the universal principle at the level of Principle Ruler, and because he had mastered the divine will of the Divine Beginning Realm over the years, his progress in the universe principle was even more rapid.

They all knew that Jian Wushuang had entered the threshold of the universe principle a long time ago.

"Eh?" Gui Yun's expression changed. "He has passed the first level and is heading to the second level."

Gui Yun was not surprised that Jian Wushuang had passed the first level.

However, not long after Jian Wushuang passed the first level, Gui Yun sensed that Jian Wushuang had passed the second level again.

"He passed the second level?" Gui Yun was surprised.

"My Ruler is much more powerful than I thought." Devil Flame glanced at Gui Yun and said with a faint smile.

"Maybe, but he shouldn't be able to pass the third level." Gui Yun still insisted on his judgment.

The power of the magic formation surged crazily in the Principle Sea. Unfortunately, they could not see Jian Wushuang pass the Principle Sea.

After Jian Wushuang passed the second level, Gui Yun knew that Jian Wushuang had passed the third level.

"He really passed the third level?" Gui Yun was really shocked.

One had to know that the third level required the comprehension of the universe principles to truly cross the threshold. It was extremely difficult to reach this step.

Many Rulers who had just broken through would take an extremely long period of time to truly reach the threshold of the principles of the universe.

For a second-tier Ruler to be able to pass the third level of the Principle Sea meant that he had to be one of the most supreme geniuses in the entire universe.

"Tsk, tsk. This is going to be interesting. A second-tier Ruler who is able to pass the first three levels of the Principle Sea...those two should be very interested, right?" A strange smile appeared on Gui Yun's face, following that, he took out two command talismans and sent two messages over.

The Bone Pupil Star Field had two first level starfields, the Golden Feather Starfield and the Blue Flame Starfield. The Star Lords of these two first level Starfields were both final level Rulers, and they were both extremely powerful.

As the saying goes, one mountain can not contain two tigers. There were two first level Starfields in a starfield, and they were the only two final Rulers. Naturally, the battles between these two starfields were very intense.

But today, both Golden Feather Star Lord and Green Flame Star Lord received a message from Gui Yun, the protector of the Principle Sea.

“A second-class Ruler is challenging the Principle Sea, and he has already passed the first three levels.”

Upon receiving this message, the two Star Lords were immediately alarmed.

“The third level of the Principle Sea?”

“That is the threshold of the principles of the universe. Many Rulers who have just broken through are only at this level of comprehension of the principles of the universe, right?”

“If such a super genius can become a disciple of my Golden Feather star sector, then why should I be afraid of that disciple of Green Flame?”

Golden Feather Star Lord’s eyes shone with an unprecedented brilliance. The next moment, he rode the universe passageway within Golden Feather star sector and rushed toward the island where Principle Sea was located at the fastest speed possible.

...

Chapter 4049: The Fifth Level of the Principle Sea

Azure Flame Astral World.

Under the jade blue sky, it was a purgatory.

The entire boundless land was being crazily burned by a blazing fire. This blazing fire had a strange purplish-black color. It had been burning on this land for countless years, yet it had never been extinguished.

The cultivators of the Green Flame Star World, not to mention the Rulers of principles, even some extremely powerful Rulers did not dare to easily set foot on this land. After all, if a Ruler stayed on this land for a slightly longer period of time...it was possible for them to be burned to ashes by the blazing flames of this land.

However, under this vile illusion, a devilish purple-clothed youth was located at the very center of the blazing flames of this land. Endless purplish-black flames were wildly burning. To this devilish purple-clothed youth...it was like nourishment for him.

He was training on this land, just like a fish in water, incomparably comfortable.

Right at this moment...

Sou!

A human figure suddenly descended.

“Disciple.” The Green Flame Star Lord appeared in front of the violet-robed devilish youth.

“Ruler, why are you here?” The violet-robed devilish youth raised his head in surprise.

“Something has happened. Disciple, come with me.” The Green Flame Star Lord spoke.

“Oh?” The violet-robed devilish youth could not help but stand up, asking in puzzlement, “What is it?”

“Gui Yun, who is guarding the Principle Sea, just sent me a message saying that a second level Ruler is currently challenging the Principle Sea, and has already passed the first three levels.” The Green Flame Star Lord said.

“What?” The violet-robed, devilish-looking youth was shocked, but then his expression turned extremely grave.

He now knew why his Ruler, the Green Flame Star Lord, had come looking for him.

This was because he was the only person in the entire Bone Pupil Star Field who had comprehended the principles of the universe. He was also known as the publicly acknowledged number one genius of this starfield, however, he had only comprehended a sliver of the principles of the universe at the fourth-level Ruler level. Up until now, he was still only at the fourth-level Ruler level. However, in terms of the principles of the universe, he had been able to pass the second level of the Principle Sea not long ago.

However, the difference between the second and third levels of the Principle Sea was already enormous. Furthermore, the other party was only a second-level Ruler.

“Let’s go to the Principle Sea.”

Green Flame Star Lord waved his hand and immediately rushed toward the Principle Sea with his disciple, the evil purple-clothed youth.

At the edge of the Principle Sea, the look of shock on the Watchman Gui Yun’s face had disappeared and was replaced by a faint smile.

He was also quite happy.

It was known that the reason why he, the watchman, existed was to dig out some super geniuses hidden in the universe.

Jian Wushuang, who could pass the third level of the Principle Sea as a second-level Ruler, must be one of the top geniuses.

“A second-level Ruler can pass the third level of the Principle Sea. He is qualified for me to report it. Well, don’t worry, let’s wait for him to finish,” Gui Yun said with a smile.

Suddenly...Gui Yun opened his eyes wide.

“The, the fourth level?”

He was completely stunned.

It was already incredible for a second-level Ruler to pass the third level of the Principle Sea. However, he had just learned that Jian Wushuang had passed the fourth level of the Principle Sea!

After all, there were three steps in the Principle Sea, from the third level to the fourth level. It was a huge leap, but Jian Wushuang had also passed it?

“He has already entered the fifth level. Could it be that he can still pass the fifth level?” Gui Yun gulped, his eyes shining brightly. He was already looking forward to it.

The fifth level of the Principle Sea!

Jian Wushuang was still standing on the vast ocean, and in front of him was a cyan-robed elder.

Jian Wushuang was no stranger to this cyan-robed elder, because he had met him on the previous four levels. However, the strength he displayed was different on different levels.

“You have a bright future as a second-level Ruler.” The cyan-robed elder looked at Jian Wushuang with a hint of admiration in his eyes.

“Please give me some guidance, senior.” Jian Wushuang was quite humble.

“Just like the first four levels, if you defeat me, you will be able to enter the sixth level.” The cyan-robed elder smiled slightly and then directly attacked.

Boom!

The ocean below suddenly surged up. The cyan-robed elder held a pitch-black long staff in his hand. The long staff was like the waves in the ocean, crushing toward Jian Wushuang in a mighty manner.

It was not very powerful, and the universe origin of the staff principle was not very strong. However, the long staff contained an extremely rich power of the universe principles.

Jian Wushuang immediately moved. He held the Wuqi Divine Sword in one hand, and a large amount of the power of the universe principles swept up and met it directly.

Clang! Clang! Clang! Clang!

The two crazily collided on the surface of the ocean. They constantly competed in speed and power. In the blink of an eye, they had met hundreds of times.

Suddenly, the cyan-robed elder twisted his wrist casually, and the black longstaff suddenly split into two in the void. The two black longstaff smashed toward Jian Wushuang almost at the same time.

“What?” Jian Wushuang was shocked. “It’s the same attack. I can’t tell which one is real and which one is fake. What’s going on?”

Jian Wushuang was confused.

The cyan-robed elder did not use a special movement technique or secret skill. Instead, he relied on his comprehension of the power of principles to change his attack from one to two, and they were exactly the same, Jian Wushuang could not see any flaws at all.

Boom!

Jian Wushuang urged his comprehension of the principles of the universe and tried his best to use his swordsmanship to block the two stick shadows.

However, in the Principle Sea, with the same divine power, the same comprehension of the dao, and even the same speed, he could not block the two stick shadows at the same time.

Jian Wushuang tried his best to block one of the stick shadows, but the stick shadow turned into an illusion, and the other stick shadow hit Jian Wushuang's divine body without any resistance.

Jian Wushuang immediately retreated. It took him a while to regain his balance on the surface of the sea, and the crazy sea finally calmed down.

"Little guy, you lost." The cyan-robed elder looked at Jian Wushuang calmly.

"How could this be?" Jian Wushuang frowned.

He did not expect that he would lose like this?

Most importantly, when he fought with the cyan-robed old man, he clearly sensed that the cyan-robed old man's comprehension of the universe principles was worse than his.

Yes, he did not know how high the cyan-robed old man's comprehension of the universe principles was. However, in the fifth level of the Principle Sea, his comprehension of the universe principles was indeed inferior to his.

However, when the two of them fought, he lost.

Chapter 4050: Guidance

"Little guy, do you find it incredible?" The green-robed elder looked over at Jian Wushuang.

"Yes." Jian Wushuang nodded. "I can feel that your comprehension of the universal principles is slightly worse than mine, but you easily defeated me on the premise that everything else is the same."

"Haha! This is actually very easy to understand. The same comprehension of the power of the universal principles, but in the hands of different people, the strength displayed is not much. In the end, it is in the grasp and application of the universal principles." The green-clothed elder laughed.

"Grasp and application of the universal principles?" Jian Wushuang was stunned.

"Just like the principles of heaven and earth, the universal principles are an extremely transcendental and powerful force. It is naturally important to grasp this kind of power. Just like a peerless sword, in the hands of an ordinary person and in the hands of a peerless swordsman, the power displayed is completely different." The green-clothed elder laughed.

"Your comprehension of the principles of the universe is already considered quite high. At least, it's higher than the comprehension of the principles of the universe that I can display at the fifth level of the Principle Sea. Unfortunately, your grasp and application of the principles of the universe are too crude. You only know how to fuse the power of the principles into your sword techniques and into your own attacks. Naturally, the effect of the power of the principles that you can display isn't much stronger."

"Although my power of principles is lower than yours, I can Ruler and use them well, but my battle strength is stronger than yours."

After saying that, the green-robed elder looked at Jian Wushuang again, "Little guy, you are good at sword principle. If you have a Ruler behind you, you can ask your Ruler to find a secret manual for the use of the universe principles that is compatible with your swordsmanship. Learn more about the basic application and control of the universe principles. This will greatly increase your strength."

"I understand. Thank you for your guidance, senior," Jian Wushuang quickly thanked him.

"Okay, go." The green-clothed elder waved his hand. Jian Wushuang immediately found that he could not control his body and flew backward. Soon, he flew out of the Principle Sea and came to the outside of the Principle Sea.

Leng Rushuang and Devil Flame immediately came up to him.

"Husband, how do you feel?" Leng Rushuang asked.

"I've gained a lot," Jian Wushuang said with a smile.

He had gained a lot from this trip to the Principle Sea.

First of all, he knew that his current comprehension of the universe principles was at the fourth level of the Principle Sea, which was still far from the fifth level.

Of course, this matter was secondary to Jian Wushuang. The real gain was that in the fifth level of the Principle Sea, the cyan-robed elder's guidance made him realize that his application and grasp of the universe principles were too rough, it was too crude.

As the cyan-robed old man had said, although his understanding of the universal principles was not low, he only knew how to apply the universal principles to his swordsmanship and attack power.

But in fact, the magical use of the universal principles was far more than that.

It was just that no one had taught him, and there were no secret manuals for him to control and cultivate the use of the universal principles. He himself did not realize this.

But now, he finally realized it.

"Haha, my young friend Blood Sword, you are very capable." A hearty laughter rang out. The watchman, Gui Yun, looked at Jian Wushuang with a strange glint in his eyes.

At the same time, Gui Yun finally revealed his divine power aura. He was a fifth-level Ruler, and his aura was obviously much stronger than the one Jian Wushuang had met in the Purple Micro Galaxy, Thunder.

"The peak of the fifth-level?" Jian Wushuang was secretly surprised.

He was only a guardian of the Principle Sea, but he was also so strong. No Wonder Gui Yun called him little friend now.

"Little friend Blood Sword, if I'm not wrong, you're not a native cultivator of the Bone Pupil Star Field, right?" Gui Yun asked.

"Yes, we're from another Star Field. We just happened to pass by this place and knew there was a Principle Sea here, so we came here to explore. We'll leave soon," Jian Wushuang replied.

"No wonder. If you are a cultivator from the Bone Pupil Star Field, you must be very famous in the Bone Pupil Star Field." Gui Yun smiled and said, "You will leave soon?"

"Yes." Jian Wushuang nodded.

"Well, it's a pity. If the Golden Feather Star Lord knew about this, he would be very disappointed." Gui Yun sighed.

"Golden Feather Star Lord?" Jian Wushuang's expression changed. He naturally knew that Golden Feather Star Lord was an Ultimate Ruler of the two first-class star worlds in the Bone Pupil Star Field.

"Blood Sword, to tell you the truth, when you passed the third level of the Principle Sea, I sent a message to Golden Feather Star Lord and Green Flame Star Lord respectively. If nothing unexpected happens, they should be here soon," Gui Yun said.

"Mr. Gui Yun." Jian Wushuang frowned, feeling a bit dissatisfied.

He came to the Principle Sea just to have a try and know his comprehension of the universe principles. He did not want to interact with people from the Bone Pupil Star Field, not to mention the two Ultimate Rulers in the Bone Pupil Star Field.

However, Gui Yun's message immediately attracted the attention of the two Ultimate Rulers.

"Haha, Blood Sword, don't worry. Golden Feather Star Lord and Green Flame Star Lord have arrived, but they won't harm you. After all, you don't have any grudges with them. They might even be good for you," Gui Yun said with a smile.

"Oh?" Jian Wushuang glanced at Gui Yun and relaxed his eyebrows.

Indeed, he had just arrived in the Bone Pupil Galaxy and had no contact with the two Ultimate Rulers. It was impossible for them to find trouble with him for no reason.

As for the benefits, Jian Wushuang did not think about it.

"Oh, the Golden Feather Star Lord has arrived," Gui Yun suddenly said.

Jian Wushuang also looked up at the direction outside the island. Sure enough, a figure bathed in golden light was rushing over and soon appeared in front of Jian Wushuang and the others.

"Gui Yun."

Golden Feather Star Lord spoke in a clear voice. He first greeted Gui Yun, then looked at Jian Wushuang and the other two.

With his strength, he could naturally see the realm of Jian Wushuang and the other two at a glance. Then, his eyes immediately fixed on Jian Wushuang.

After all, Jian Wushuang was the second-level Ruler among the three of them. Naturally, he was the one who had passed the third level of the Principle Sea.

"This should be the Blood Sword young friend who passed the third level of the Principle Sea, right?" Golden Feather Star Lord came to Jian Wushuang with a smile.

“Golden Feather Star Lord, it’s true that he is Blood Sword young friend, but you’re wrong about one thing. Not only did he pass the third level of the Principle Sea, but he also passed the fourth level just now,” Gui Yun said with a smile.
