Chapter 4051: Golden Feather Star Lord

“The fourth level?” Golden Feather Star Lord stared.

Originally, in his opinion, it was already incredible that this Blood Sword could pass the third level, and the fourth level was even more shocking.

Such a super genius, if...

At the thought of this, Golden Feather Star Lord shook his hand fiercely, making a decision in his heart.

“You have passed the fourth level of the Principle Sea at the second level. You are really amazing, Blood Sword. Even I admire you.” Golden Feather Star Lord said with a smile. His words were obviously full of flattery.

!!

Jian Wushuang was slightly surprised.

Golden Feather Star Lord had nothing to do with him. Even if his talent was great, he would only praise him a little. How could he praise Him?

Jian Wushuang wondered if the Star Lord had other motives?

“Blood Sword, if you don’t mind, can you come to my Golden Feather star world and have a cup of tea?” The Star Lord said with a smile.

“Tea?” Jian Wushuang looked strange, but he still nodded and said, “Golden Feather Star Lord invited me, so how could I refuse? But forget it. After all, I’m in a hurry, so I’ll stay here.”

“Okay.” Golden Feather Star Lord waved his hand, and a tea table appeared in front of him. There was a pot of tea and several cups on the table.

Golden Feather Star Lord, Jian Wushuang, and the others sat down beside the tea table one after another.

Golden Feather Star Lord poured a cup of tea for Jian Wushuang, and he also poured a cup for Leng Rushuang and Gui Yun. As for Devil Flame, he did not sit down at all.

“Blood Sword, please,” Golden Feather Star Lord said with a smile.

Jian Wushuang picked up the teacup in his hand and put it on the tip of his nose to sniff it. Instantly, he felt his whole soul relaxed.

“This tea is not ordinary.” Jian Wushuang immediately understood.

Without hesitation, he drank a cup of tea with his wife. After drinking the tea, a refreshing feeling entered his stomach, and the effect of the tea immediately came into play.

Jian Wushuang only felt that his soul power was wrapped by an extremely warm power. His entire soul was greatly nourished, and his divine body was also strengthened at this moment, even his body and mind felt relaxed, as if the pressure of hundreds of millions of years had suddenly dissipated.

“What a strange effect.” Jian Wushuang opened his eyes with a hint of surprise.

“Haha, this is ice spirit tea, a rare treasure of the universe boat. This pot is probably worth 50 origin stones. Even if you have origin stones, you might not be able to buy it. I heard that Golden Feather Star Lord spent a lot of effort to get three pots of ice heart tea. Even I can’t bear to drink it. Today, thanks to Blood Sword, I can also drink it.” Gui Yun smiled.

Hearing Gui Yun’s words, Jian Wushuang was shocked.

Such a pot of tea was worth 50 origin stones? Moreover, it was priceless?

However, Jian Wushuang was immediately on guard.

Golden Feather Star Lord first praised him and then brought out such a precious and rare tea. Jian Wushuang would not believe that Golden Feather Star Lord did not have other motives.

“It’s just a pot of tea. To be able to produce a super genius like Blood Sword, what’s the big deal even if you bring out all three pots of iced heart tea?” Golden Feather Star Lord said with a smile.

“Golden Feather Star Lord is really generous.” Gui Yun smiled bitterly but did not say anything more.

“Blood Sword, you said you were in a hurry? What’s going on?” Golden Feather Star Lord asked.

“To tell you the truth, we are not cultivators from the Bone Pupil Star Field, but from other Star Fields. We just happened to pass by this place and knew there was a Principle Sea here, so we came here to try. We planned to leave after we finished the Principle Sea,” Jian Wushuang said.

“Blood Sword, are you in such a hurry to leave?” Golden Feather Star Lord frowned.

“Why? Do you need my help?” Jian Wushuang tried to ask.

“Well...” Golden Feather Star Lord did not know what to say.

At this moment, Gui Yun laughed and said, “Haha, let me be the middleman.”

“Blood Sword, you may not know this, but the situation in the Bone Pupil Galaxy is very delicate. After all, there are two grade one star worlds in this Galaxy. As the saying goes, one mountain can not contain two tigers. Two grade one star worlds are in the same Galaxy, so there will naturally be many fights. Over the years, these two grade one star worlds have been fighting each other, and both sides are like fire and water.

“However, although both sides are in the first-class astral world and their overall strength is about the same, in terms of the strongest experts, the battle strength of the Golden Feather Star Lord is slightly weaker than that of the Green Flame Star Lord.”

“Oh?” Jian Wushuang could not help looking at the Golden Feather Star Lord.

"I'm ashamed. Although they are both Ultimate Rulers, the Green Flame Star Lord is indeed much stronger than me. However, my life-saving ability is not weak. Although I can't defeat him alone, it's very difficult for him to predict me," the Golden Feather Star Lord said.

"In that case, you don't have to be afraid of Green Flame Star Lord, do you?" Jian Wushuang asked.

"He's not afraid," Gui Yun said with a smile. "Over the years, the Golden Feather World and Green Flame Star World have never been at a disadvantage. However, something happened not long ago."

"It's Green Flame Star Lord. He took in a disciple with great talent. He has cultivated for less than two million years. Not only has he reached the fourth-level Ruler level, but he has also comprehended a trace of the universe principle. Not long ago, Green Flame Star Lord's disciple also came to challenge the Principle Sea and passed the second level in one go."

Gui Yun paused at this point.

As for what happened next, although he did not say it, Jian Wushuang could roughly guess it.

Golden Feather Star Lord had always been on par with Green Flame Star Lord, and neither side had an obvious advantage, but now Green Flame Star Lord had an additional disciple who had comprehended a trace of universe principle...this made Golden Feather Star Lord feel threatened.

After all, that disciple of Green Flame Star Lord had only cultivated for less than two million years, and he was able to comprehend a trace of universe principle at the Ruler level. This already showed his talent, and he was definitely the number one genius in the entire Bone Pupil Great Star Field.

Moreover, that disciple was already at the fourth level. As long as he was given enough time, he would definitely be able to reach the fifth level and even the Ultimate Ruler level in time.

One had to know that Golden Feather Star Lord was not as powerful as Green Flame Star Lord. He could only protect himself when facing Green Flame Star Lord one-on-one. However, if Green Flame Star Lord had another Ultimate Ruler who had comprehended a trace of the universe principles by his side...that would definitely not be something Golden Feather Star Lord could contend against.

Chapter 4052: Rejection

"The disciple of Green Flame Star Lord has caused great danger to Golden Feather Star Lord. Thus, from hundreds of thousands of years ago, Golden Feather Star Lord began to think of ways to excavate the geniuses within the Golden Feather star sector, including the geniuses within the entire Bone Pupil major starfield. He longed to nurture a genius who could similarly comprehend a trace of the universe principles at the Ruler level. In the future, he would be able to contend against the disciple of Green Flame Star Lord."

"It's a pity that in the past hundreds of thousands of years, there have been some geniuses born in the Bone Pupil Star Field, but none of them have been able to comprehend a trace of the universe principle at the Ruler level," Gui Yun said with a smile.

Jian Wushuang nodded slightly.

He knew very well that it was extremely difficult for a Ruler to comprehend a trace of the universe principle.

For example, Golden Feather Star Lord and Green Flame Star Lord were both Ultimate Rulers. Neither of them had been able to comprehend a trace of the universe principle, let alone others.

!!

Under normal circumstances, it would be extremely difficult for even a major starfield to give birth to a Ruler who had comprehended a single strand of the principles of the universe. Usually, it would take tens or even hundreds of chaos cycles for one to be born.

The Golden Feather Star Lord had already given birth to one of the Azure Flame Star Lord's disciples. Naturally, it would be even more difficult for the Golden Feather Star Lord to find a second one.

Of course, this was only limited to the bone eye Great Star Field. However, his appearance now clearly gave Golden Feather Star Lord hope.

"Blood Sword, my young friend, since Gui Yun has said so, I won't hide it from you. I do desire you to stay in the bone eye Great Star Field and help me fight against Green Flame Star Field. Of course, I'm also willing to pay a price for this. A low-grade Principle True Treasure armor, a low-grade soul defense Principle True Treasure, and a middle-grade Principle True Treasure weapon!"

"In addition, if you want to cultivate in the Golden Feather Star World in the future, feel free to ask. As long as I can afford it, I won't refuse," Golden Feather Star Lord said solemnly.

Jian Wushuang glanced at Golden Feather Star Lord.

He had to admit that Golden Feather Star Lord was very sincere.

Not to mention the ice spirit tea, just the price that Golden Feather Star Lord was willing to pay now was a low-grade Principle True Treasure armor, a low-grade soul defense Principle True Treasure, and a middle-grade Principle True Treasure magic weapon, these three Principle True Treasures alone were worth more than 5,000 universe origin stones.

It should be known that the most ordinary final-level Rulers were all worth around 10,000 universe origin stones. Although Golden Feather Star Lord was a first-grade astral world Ruler, his wealth was naturally more than that of an ordinary final-level Ruler, however, paying 5,000 universe origin stones at one time was indeed a big deal.

"Golden Feather Star Lord." Jian Wushuang looked at Golden Feather Star Lord and said, "I'm sorry, but I can't agree to your request."

"Blood Sword, my friend." Golden Feather Star Lord was obviously anxious. "If you think I'm paying too little, feel free to ask for more. If you can agree to it, I'll agree to it."

"It's not a matter of whether you have paid enough or not." Jian Wushuang shook his head, "You just said that I'm not a cultivator of the Bone Pupil Galaxy. I just happened to pass by here. To tell you the truth, I left my hometown to explore the universe largely because I wanted to go to the Nine Luminaries Galaxy in a short time."

"I can't stay in a Galaxy for too long, let alone stay in the Bone Pupil Galaxy and join hands with you to fight against the Green Flame Star World."

"So, I can only apologize."

Hearing this, Golden Feather Star Lord could only smile bitterly, although he was still unwilling to accept it, "I also guessed it. You're just a genius Ruler from another Star Field who just passed by. It's really impossible for you to stay."

Golden Feather Star Lord was already mentally prepared when he learned that Jian Wushuang came from another Star Field's sea of consciousness.

It was normal. If Jian Wushuang was a local cultivator from the Bone Pupil Star Field, he was confident that he could make Jian Wushuang stay. But since he came from another Star Field, he was obviously an expert who was adventuring in the universe. It would be unrealistic for him to make Jian Wushuang stay, it was not realistic.

Knowing that it was not realistic, Golden Feather Star Lord tried his best to try, but he was naturally rejected by Jian Wushuang.

"Golden Feather Star Lord, Blood Sword passed the fourth level of the Principle Sea as a second-level Ruler. Such a genius must be the best in the entire vast universe. It's impossible for you to keep him in an ordinary large Star Field," Gui Yun said, pursing his lips, "I know."

"I know." The Golden Feather Star Lord's expression became even more bitter. However, he was still an Ultimate Ruler, after all. Soon, a smile appeared on his face once more. "Forget it. We'll think of another way in the future. However, for us to be able to gain the support of a genius like little friend Blood Sword today, our trip wasn't a wasted one."

"That's more like it." Gui Yun nodded as well.

Right at this moment...two more figures charged over from the void outside the island.

"The Green Flame Star Lord and his disciple are here," Gui Yun said.

"Oh?" Jian Wushuang raised his head.

"Humph." Golden Feather Star Lord snorted.

"Haha, it's quite lively here."

The two figures appeared in front of the Principle Sea as they laughed indifferently.

The one who laughed indifferently was the Green Flame Star Lord.

As for his disciple, the purple-robed evil-looking young man, his sharp, blade-like eyes locked onto Jian Wushuang as soon as he appeared.

"It's him. He has comprehended the universe principle and is only a second-level Ruler, but he has passed the fourth level of the Principle Sea!" The purple-robed evil-looking young man's eyes narrowed.

On the way here, Gui Yun sent another message to Green Flame Star Lord and told him that Jian Wushuang had passed the fourth level. Naturally, Green Flame Star Lord also told him.

“Green Flame Star Lord, you came much later than Golden Feather Star Lord,” Gui Yun said with a smile.

“Golden Feather came here alone as soon as he received your message, but I have to bring my disciple with me. Of course, I came a little slower, but fortunately, I made it in time,” Green Flame Star Lord said with a smile, his eyes swept over Golden Feather Star Lord, and at the same time, he saw the pot of tea on the coffee table.

“Oh, he even took out the ice spirit tea. It seems that Golden Feather has invested a lot. But if I’m not wrong, Blood Sword didn’t agree with him, did he?” Green Flame Star Lord said with a smile.

“Humph, this has nothing to do with you, right?” Golden Feather Star Lord snorted.

“Yes, it doesn’t.” Green Flame Star Lord smiled, but he already had the answer in his heart.

At this time, the purple-robed evil youth had already come to Jian Wushuang and said in a low voice, “My name is Emperor Fire!”

...

Chapter 4053: Di Huo’s Challenge

“Di Huo?” Jian Wushuang looked at the purple-robed young man calmly.

“I heard that you have passed the fourth level of the Principle Sea. I would like to fight with you. Do you dare to accept my challenge?” Di Huo asked directly.

Jian Wushuang raised his eyebrows. When he saw Di Huo’s gaze, he had guessed what Di Huo was trying to do. However, he did not expect Di Huo to challenge him so directly.

Jian Wushuang did not respond immediately, but Golden Feather Star Lord snorted and said, “Di Huo, you are already a fourth-level Ruler, but Blood Sword is only a second-level Ruler. How dare you challenge him?”

“Of course I won’t bully him. When we fight, I will deliberately control the power of my divine power. I will only use the power of the fusion of the five Principles. I will only rely on my comprehension of the universe Principles and the Dao to fight.” Green Flame continued to stare at Jian Wushuang. “Why? Don’t you dare?”

!!

Jian Wushuang had a strange look on his face.

“My young friend Blood Sword.”

Someone spoke again, but at this moment, it was Emperor Flame’s Ruler, Green Flame Star Lord.

“My young friend, can you speak from the side?” Green Flame Star Lord said with a smile.

“Yes.” Jian Wushuang nodded.

Immediately, Green Flame Star Lord and Jian Wushuang came to the side. Moreover, Green Flame Star Lord directly blocked the surrounding space and time, obviously not wanting their conversation to be heard by others.

“Blood Sword, I’m sorry. Although my disciple is talented, he is too arrogant. In addition, he has been recognized as the number one genius in the Bone Pupil Star Field all these years. No one can compare with him, which makes him more arrogant. That’s why he came to challenge you today,” Green Flame Star Lord said.

“I understand.” Jian Wushuang nodded.

It was obvious that Di Huo had always been the number one genius in the Bone Pupil Galaxy. Now that someone with a higher talent and comprehension than him had suddenly appeared, Di Huo was not convinced and wanted to fight.

“Do you want to accept the challenge?” Asked Green Flame Star Lord.

“Green Flame Star Lord, do you want me to accept the challenge or not?” Jian Wushuang asked.

“If you are confident that you can defeat my disciple, I hope you can accept the challenge,” Green Flame Star Lord said.

“Oh, why?” Jian Wushuang was puzzled.

“I just said that my disciple is good at everything, but he is too arrogant and arrogant. This is not a good thing for him. So if possible, I hope you can teach him a lesson and let him know that there is always someone better than him. Of course, I won’t let you do it for nothing. I can give you a Principle Supreme Treasure as a reward,” Green Flame Star Lord said.

After hearing what the Star Lord said, Jian Wushuang’s expression became even more strange.

He did not expect that the Star Lord wanted to ask him to teach his disciple a lesson.

However, it was also true that Di Huo’s arrogant personality was fine in the Bone Pupil Galaxy. However, if he went to the vast universe in the future, he might cause trouble because of his personality.

Teaching him a lesson earlier would be very helpful to Di Huo.

“Green Flame Star Lord, I will agree to fight with him. I will also teach him a lesson according to what you said. As for the reward, there’s no need for it,” Jian Wushuang said.

It was a piece of cake. Jian Wushuang really did not want any reward.

“Thank you, Blood Sword.” A smile appeared on Green Flame Star Lord’s face.

Soon, they returned to Di Huo.

Di Huo looked at his Ruler, Green Flame Star Lord, in confusion, but he found that the latter looked unfathomable. He was also confused and did not know what his Ruler had said to Jian Wushuang.

“Di Huo, I agree to fight with you,” Jian Wushuang said directly.

“Very good, where shall we fight?” Di Huo’s eyes were shining.

“I’m in a hurry, so I don’t need to pick a place to fight. Let’s fight here,” Jian Wushuang said casually.

“Humph, arrogant.” Di Huo was enraged by Jian Wushuang’s attitude.

In the void of the island, Jian Wushuang and Di Huo stood face to face at a certain distance, while Green Flame Star Lord and Golden Feather Star Lord had long retreated to the side.

Leng Rushuang, Devil Flame, and Gui Yun stood together.

“Humph, Emperor Fire just passed the second level of the Principle Sea. Does he think he’s so great? Not to mention that he’s deliberately suppressing the power of his divine power, even if he goes all out, he probably won’t be a match for Ruler.” Devil Flame secretly curled his lips.

In the void, Emperor Fire’s eyes were cold, and a cyan saber appeared in his hand.

The cyan saber was burning with a raging Green Flame, which was enough to make an ordinary Ruler’s heart palpitate.

“Blood Sword, you’re the first person in hundreds of thousands of years that I really want to fight. I hope you won’t disappoint me in this battle.” Di Huo held the Green Flame saber with one hand and stared at Jian Wushuang with a burning gaze.

“I’m in a hurry. Don’t be so long-winded. Hurry up and fight so that I can get rid of you so that I can continue my journey.” Jian Wushuang looked impatient.

“You’re too arrogant.” Di Huo was completely enraged by Jian Wushuang. He did not waste any more words and directly attacked.

Whoosh! Whoosh! Numerous phantoms burst out at the same time.

Di Huo actually conjured nine figures at the same time. Whether it was their appearance, aura, or the movements of their hands, they were all exactly the same, even the soul power of a Ruler could not tell which of the nine figures was his real body.

The nine figures rushed over at the same time. The cyan-colored flame saber in their hands was raised high and ready to cut down.

“Emperor Fire’s comprehension of the universe principles is far inferior to mine. Like me, he also doesn’t know how to better Ruler these universe principles.” Jian Wushuang smiled slightly, but suddenly he moved.

“Swish!”

Jian Wushuang’s entire body turned into a cold sword light and flashed out in an instant.

His speed was too fast.

Before Di Huo could even slash out his saber, the cold sword light that Jian Wushuang transformed into had already struck his many figures.

In that instant, Di Huo's eight figures were directly crushed into pieces. As for his original body, it was also struck by the terrifying sword light, and his entire body was forced back in an extremely sorry state, it was not easy for him to regain his balance.

"You lost."

Jian Wushuang reappeared in the void and looked at Di Huo indifferently.

Di Huo, on the other hand, was completely stunned.

In just a moment —

He was the one who attacked first, but he was defeated before he could swing his saber.

There was no room for struggle.

The gap between the two was just too big!

...

Chapter 4054: Meaning

"How is this possible?" Di Huo's head was buzzing.

He knew that Jian Wushuang had passed the fourth level of the Principle Sea, so his comprehension of the universal principles must be much higher than his.

However, when they fought, even if they had the same divine power and the same degree of fusion of the principles, the outcome could not be decided just by the comprehension of the universal principles.

In Di Huo's opinion, although his comprehension of the universe principles was not as good as Jian Wushuang's, he was very confident in his comprehension of the saber principle, the universe origin, his saber skills, and the secret skills he cultivated.

Under such circumstances, even if his comprehension of the universe principles was weaker, he should be able to defeat Blood Sword.

However, the real fight was not what he had imagined.

He did not even have the chance to show his saber skills and was defeated in an instant.

"What a powerful sword!"

The surrounding spectators, including Green Flame Star Lord, Golden Feather Star Lord, and Gui Yun, were all shocked.

Two of them were Ultimate Rulers, and the other one was also a Ruler at the peak of the fifth level. They all had very high standards, so they could naturally see how powerful Jian Wushuang's sword was.

"It's too fast," Golden Feather Star Lord praised.

"It is very fast. In terms of speed, he is probably the top among the fifth level Rulers. There is no doubt that Blood Sword has a very high comprehension of the universe principles, and his comprehension of the sword principle universe is also ridiculously high. I think he has already surpassed most of the fifth level Rulers," Green Flame Star Lord said.

"In the Principle Sea, we can only see the comprehension of the universal principles, but we can't judge other aspects. But now, it seems that Blood Sword is much stronger than we thought." Gui Yun sighed.

Before, they thought that Jian Wushuang only had a high comprehension of the universal principles. But now, they knew that Jian Wushuang's comprehension of the universe origin of Sword Principle was also ridiculously high, and his swordsmanship.., he was probably stronger than many fifth-level Rulers who were good at sword principle.

Gui Yun and the others did not feel wronged that Di Huo was defeated by him.

At this moment, Jian Wushuang had already flown down from the void, and Di Huo followed behind Jian Wushuang and flew down.

"My young friend Blood Sword, thank you very much." Green Flame Star Lord said with a smile.

"You're welcome." Jian Wushuang just nodded slightly.

"Disciple, are you convinced of this battle?" Green Flame Star Lord looked at Di Huo.

Di Huo moved his lips and wanted to say something, but he held it back in the end. He just lowered his head and looked extremely ugly.

"Humph." Green Flame Star Lord suddenly snorted. "A defeat is a defeat. If you don't even have the courage to face defeat, then you'll disappoint me."

"Ruler." Di Huo raised his head and said in a low voice, "I'm convinced by this battle. Thank you for your guidance, Mr. Blood Sword."

Di Huo had even addressed Jian Wushuang as Mr. Blood Sword. It was obvious that Jian Wushuang's strength had convinced him.

Seeing this, Green Flame Star Lord nodded with satisfaction, he said, "A defeat is not terrible. Moreover, the little friend Blood Sword who defeated you now must be the best and most heaven-defying genius in the entire vast universe. It's not shameful to be defeated by such a genius. What's important is that you must recognize yourself through this battle."

"Although you are a genius and you are number one in terms of talent in the entire Bone Pupil Star Field, you might not be able to rank at the top in the entire vast universe. At the very least, you are still far from the most heaven-defying geniuses."

"What you need to do is to maintain your reverence toward the universe. Keep your temper and slowly grow step by step. Sooner or later, you will have a chance to stabilize your peak. You might even surpass Blood Sword in the future."

"I understand." Di Huo nodded heavily, and his eyes became hot again.

Hearing this, Jian Wushuang also nodded secretly. He could see that the Star Lord of Green Flame was very devoted to his disciple, and he also knew how to teach his disciple.

After teaching Di Huo a lesson with his own hands, Di Huo's temper would definitely be erased, and his achievements in the future would be even greater.

As for whether Di Huo would have a chance to surpass him in the future, Jian Wushuang did not dare to say it.

"Alright, it's time to fight. Disciple, let's go back." Green Flame Star Lord said directly.

"Yes." Di Huo nodded respectfully.

Green Flame Star Lord smiled at Jian Wushuang and then left with Di Huo.

"What a pity." Golden Feather Star Lord looked at Jian Wushuang with emotion.

It was obvious that Jian Wushuang was much more talented than Di Huo and had greater potential. It was a pity that Jian Wushuang did not agree to his invitation.

"Well, Blood Sword, Gui Yun, I'm leaving too." Golden Feather Star Lord left directly.

After the two Star Lords left —

"Blood Sword, I just heard you say that you're going to the Nine Luminaries Galaxy?" Gui Yun looked at him.

"Yes." Jian Wushuang nodded.

"Since you're going to the Nine Luminaries Star Field, then after you leave the Bone Pupil Star Field, your next stop should be the Pillheart Star Field," Gui Yun said.

"That's right." Jian Wushuang looked at Gui Yun with some confusion, not knowing why Gui Yun asked this question.

"That's right. After you passed the fourth level of the Principle Sea, I reported this news to the higher-ups. You should know that the creator of the Principle Sea is a top force in the depths of the universe. This top force created the Principle Sea and spread it across all the major Star Fields in the universe. Moreover, there is a watcher beside the Principle Sea in each major Star Field. Naturally, it has some special purpose."

"The special intention is to find some geniuses. A genius like you, Blood Sword, will certainly attract the attention of the high-level experts of this force. They might even arrange someone to contact you. So I hope you can leave a message token so that I can contact you," Gui Yun said.

"Oh?" Jian Wushuang frowned.

"Haha, don't worry, my friend. It's not a bad thing for you," Gui Yun said with a smile.

Jian Wushuang pondered for a moment and nodded slightly.

Indeed, the forces behind the Nine Emperor Pavilion and the Principle Sea were all Supreme Rulers in the universe. In front of such a Supreme Ruler, even a supreme was nothing, not to mention a genius who had yet to grow up.

If there was no absolute reason, these super forces would certainly not lower themselves to attack a genius. At most, they would try to recruit these geniuses with various conditions or at a price.

For example, the Nine Emperor Pavilion established the special list of the Nine Emperor List.

Even if the super forces behind the Principle Sea really wanted to contact him, they would probably come to recruit him. This was indeed not a bad thing for Jian Wushuang.

...

Chapter 4055: Expensive

Jian Wushuang left his message token and then left.

After leaving the Principle Sea, Jian Wushuang continued to fly toward the Nine Luminaries Star Field. The next Star Field he was going to pass by was the core Star Field.

The Divine Beginning Realm...Jian Wushuang's original body and his wife had been in the universe for more than 20,000 years, but the Divine Beginning Realm was still very peaceful.

Although Jian Wushuang's original body had left, the Divine Beginning Realm had long since stabilized. Xuan God Daoist, Temporal Temple Master, and the others were still there. In addition, Jian Wushuang had control over the divine realm's will of the Heavenly Dao, naturally, no one could act recklessly.

Buzz! In the Star Palace, Jian Wushuang's consciousness avatar appeared in front of Xuan God Daoist.

"Xuan God, find Ruler Chenyun for me. I have something to ask him," Jian Wushuang said.

"Okay, wait a moment." Xuan God Daoist immediately went to make the arrangements.

Jian Wushuang was just a consciousness clone. If he wanted to find Ruler Chenyun, Xuan God Daoist would have to do it.

Soon, Ruler Chenyun appeared in front of Jian Wushuang. Of course, Ruler Chenyun was just a consciousness clone.

"Blood Sword Master, do you still find it interesting to travel in the universe?" Ruler Chenyun looked at Jian Wushuang with a smile.

"Of course, the vast universe is much larger than the Star Field where the Divine Beginning Realm is located." Jian Wushuang also smiled. "Ruler Chenyun, I have something to ask you."

"What is it?" Ruler Chenyun looked over.

"You know that I have comprehended a bit of the universe principles. After all these years, my comprehension of the universe principles has improved a lot. But not long ago, I met an expert who told me that although my comprehension of the universe principles is good, I don't know how to Ruler them

and use them. He also suggested that I buy some secret manuals that combine the universe principles and sword principle.”

“I’m also very curious about this secret manual. There must be one in the Nine Emperor Pavilion, but I wonder how much it’s worth?” Jian Wushuang asked.

He wanted to know how much the secret manual, which could help him better Ruler and use the universe principles and perfectly cooperate with his sword principle, was worth, and whether he could afford it with his own wealth.

“A secret manual that can help me Ruler and use the universe principles, and it has to perfectly coordinate with my swordsmanship?” Ruler Chenyun revealed a strange expression.

After pondering for a moment, Ruler Chenyun spoke again, “Blood Sword Master, the secret manual you mentioned is naturally available in the Nine Emperor Pavilion. However, its value is beyond your imagination.”

“Oh? How much?” Jian Wushuang narrowed his eyes. He was more or less ready.

However, Ruler Chenyun stretched out a finger, “Even if it’s an ordinary technique or secret manual to grasp and use the universe principles, it’s worth 100,000 universe origin stones in the Nine Emperor Pavilion. As for the secret manual that perfectly matches the universe principles and sword principle, it’s even more valuable. It costs hundreds of thousands of universe origin stones.”

“What?”

Even though Jian Wushuang was mentally prepared, he was still shocked when he heard the number.

100,000 universe origin stones, and it was just the most ordinary secret manual for grasping and using the universe principles?

“Why is it so expensive?” Jian Wushuang frowned.

“It’s normal for it to be expensive,” Ruler Chenyun said with a smile. “Blood Sword Master, you should know that only supreme experts are qualified to comprehend the universe principles, and those who comprehend the universe principles at the Ruler level are very few.”

“However, even if a Ruler has comprehended universe principles, most of them can only comprehend a little of them. They don’t need to use them at all. Therefore, under normal circumstances, only Supreme-level experts and Supreme-level experts can afford to buy secret manuals on the use of universe principles.”

“Is that so?” Jian Wushuang understood.

It was true that 100,000 universe origin stones was an astronomical figure for a Ruler, but it was probably nothing for a supreme expert.

The secret manual on the use of universe principles was prepared for supreme experts.

As for Rulers, most of them could not comprehend it at all. Even if they did, they could only comprehend a little of it. There was no need for such a secret manual.

However, Jian Wushuang was different. He had comprehended a trace of universe principle at the level of a Principle Ruler, and he had made great progress over the years. Now, he could pass the fourth level of the Principle Sea and even comprehend the universe principle, he was stronger than the gatekeeper of the fifth level of the Principle Sea, but his ability to use and control the universe principle was much stronger than his.

His comprehension of the principles of the universe was already stronger than that of some of the lowest-level supreme-beings. That was why he needed to use the secret manual of the use of the principles of the universe.

However, the value of the secret manual was so expensive that Jian Wushuang could not accept it.

"I thought I was rich now, but I didn't expect that I could not afford even the most common method of using the principles of the universe." Jian Wushuang smiled bitterly.

"I understand, Ruler Chenyun. Thank you." Jian Wushuang thanked him.

"You're welcome, Blood Sword Master." Ruler Chenyun smiled and then disappeared.

...

In the vast dark void of the universe, the ancient universe boat was still rushing forward.

In the universe boat, Jian Wushuang smiled bitterly.

"Even the most ordinary universe principle application secret manual costs 100,000 universe origin stones. It's really expensive." Jian Wushuang praised.

Hearing this, Leng Rushuang only smiled faintly.

Devil Flame said in a deep voice, "Ruler, I didn't even Ruler a trace of universal principle when I was alive. This secret manual is far away. However, I've heard that anything that involves the comprehension or usage of universal principle is very expensive. After all, only supreme experts are qualified to be involved in those things."

"Well, I've learned something today." Jian Wushuang shrugged.

However, he was not in a hurry. After all, his strength was still too weak. He was only at the second level. There were many ways for him to improve his strength. He could improve his ability to use and control the principles of the universe, it was just one of them.

Even if he could not get such a secret manual now, when his strength improved in the future, he would naturally have other ways to get it.

"Let's continue on our way. It won't be long before we reach the core Star Field. I wonder if the super force behind the Principle Sea will send experts to contact me there," Jian Wushuang muttered.

Chapter 4056: Lord Xiao

While Jian Wushuang was riding on the universe boat, in the depths of the universe, there were four figures gathered in a towering temple.

Although they were just consciousness incarnations, their every move was enough to suffocate an ordinary Ruler.

There was no doubt that these four were all Ruler-level experts.

"This is news from the Bone Pupil Star Field at the edge of the universe not too long ago. Everyone, take a look." A white-robed man waved his hand, sending out a message.

"A second-stage Ruler actually managed to pass the fourth level of the Principle Sea? Very impressive." Someone immediately sighed in praise.

"He isn't bad at all. In addition, his comprehension of the prime essences of the Dao of the sword is extremely high, even surpassing that of most fifth-tier Rulers. A genius of this level is quite rare," a bald, old man said.

"Comprehending the prime essences of the Dao of the sword isn't a big deal. The most important thing is the principles of the universe. After all, comprehending the principles of the universe has a lot to do with one's level of insight. Some Rulers spend countless years trying to come up with countless methods, but they are still unable to comprehend even a sliver of the principles of the universe. However, as long as one reaches the Ruler level, comprehending the principles of the universe will be much easier. In other words, the lower one's level of insight is, the more difficult it will be to comprehend the principles of the universe."

"He's only a second-tier Ruler, yet his comprehension of the universe principles is already so high. If I'm not wrong, he's most likely already comprehended a strand of the universe principles at the level of a principle Ruler. He's one of those supreme geniuses that are rarely seen in trillions of starworlds." The only purple-robed woman amongst the four said solemnly.

"A principle Ruler is able to comprehend a strand of the universe principles? This Blood Sword is so heaven-defying?" The bald old man revealed a look of shock.

"It's very possible," the purple-clothed woman said in a low voice.

"Alright." The white-clothed man who had spoken at the beginning finally spoke, "There is no doubt about the talent of this Blood Sword, but what we need to decide now is whether or not we should make contact with him. If we do, what conditions must we set?"

Hearing this, the supreme beings present were all silent.

Their force was indeed one of the top super forces in the vast universe. It was not inferior to the Nine Emperor Pavilion at all.

Such a super force also attached great importance to some genius experts with great potential.

A genius like Jian Wushuang had clearly reached the qualification that this super force attached importance to.

However, no matter how much they valued him, they would not throw caution to the wind for a genius.

After all, a genius was just a genius, not a super expert who had fully grown up and had great influence in the universe.

“This Blood Sword is so heaven-defying at the level of a second-level Ruler. Most importantly, he comes from the edge of the universe. Not only is his talent and potential terrifying, but he must have also obtained some great opportunities. Maybe he has obtained some ancient inheritances.”

“And many of these ancient legacies involve some of the major powers in the universe. There might even be enemies of our side. Thus, I suggest that we continue to pay attention to him first, and then think of a way to find out more about him. Once we truly find out more about him, it won’t be too late to make a decision.” The bald old man said.

“Mm, that makes sense.” The violet-robed woman nodded.

“I think we can make appropriate contact first, or we can give him some benefits. We can form a good relationship with him first, and we can talk about the rest later.” The last person said.

The four of them were talking.

But at this time...

Weng! A hazy figure suddenly appeared in the center of the Divine Hall.

The four people in the Divine Hall immediately looked at the person. When they saw the person’s appearance clearly, they were all shocked.

“Lord Xiao!”

“Greetings, Lord Xiao!”

The four supreme-being experts, including the white-robed man with a higher status, all bowed respectfully at the same time.

“I heard that you are discussing the Blood Sword?” The azure-robed old man looked at the four people in front of him.

“Yes.” The white-robed man nodded respectfully.

“I know about the Blood Sword.” The azure-robed old man said, “That Principle Sea in the Bone Pupil Great Star Field happens to be guarded by one of my incarnations.”

The four were immediately stunned.

They had just been curious as to why this Lord Xiao would suddenly come here.

One had to know that although this Lord Xiao was also a supreme-being like them, they were both supreme-beings, and the difference in strength between them was abnormally huge.

If the four of them could only be considered to have a firm foothold amongst the supreme-beings, then this Lord Xiao was without a doubt a supreme expert standing at the pinnacle of the supreme-beings.

Such an expert, in the depths of the universe, was able to open up a large god country by himself. That was the true supreme-being expert of the super force they were in.

Under normal circumstances, the so-called geniuses, no matter how heaven-defying, didn't have the qualifications to startle such a supreme being.

But now, this Lord Xiao had come personally.

"So, the Principle Sea that the Blood Sword charged through was guarded by Lord Xiao's incarnation." The four people were secretly surprised.

"You plan to make contact with that little guy?" The green-clothed old man Lord Xiao looked at the four people in front of him.

"No, the result of our discussion just now is that we won't make contact with him for the time being. It's not too late to make contact after we have investigated his background," the white-clothed man said.

"Is that so?" The carefree man narrowed his eyes slightly, he said, "I don't care if you guys come into contact with him or not. But this little guy, I think he's pretty good. He didn't just pass the fourth level of the Principle Sea. In fact, if it wasn't for my incarnation personally overseeing the Principle Sea, he might have already passed the fifth level."

"What?" The white-robed man and the others were all startled.

Pass the fifth level?

The difference between the fourth level and the fifth level of the Principle Sea was enormous.

"If that little fellow only had a simple comprehension of the principles of the universe, he already had the qualifications to pass the fifth level. However, his ability to control the principles of the universe was a bit too crude."

"In the Principle Sea, I once gave him some guidance, but then I remembered that the secret manual of the principles of the universe was a bit too valuable to a Ruler. If this little fellow had a Ruler behind him, that would be fine, but if it was useless, he would have to wait until he broke through to become an great Ruler before he would have a chance to acquire such a manual."

"That's why I came to look for you." Lord Xiao said indifferently.

The white clothed man and the other three looked at each other. They still did not understand why Lord Xiao had come.

"I've chosen a secret manual for this little fellow that is extremely suitable for his universe principles and Sword Dao. When you want to come into contact with him, come look for me and bring that manual to him. Tell him that I gave it to him."

After saying that, Lord Xiao left.

...

Chapter 4057: A Big Favor

Two hundred years after leaving the Bone Pupil Galaxy, Jian Wushuang arrived at the Pillheart Galaxy.

Not long after arriving at the Pillheart Galaxy, Gui Yun contacted him.

In a dark and boundless void, the universe boat was floating there quietly. In the distance, three figures were rushing over.

The leader of the three was a golden-robed man, and the two people beside him were also wearing long robes.

"My Friend Blood Sword is in the universe boat," the golden-robed man came to the front of the universe boat and said.

!!

Jian Wushuang immediately walked out of the universe boat.

"It's me. May I know who you are?" Jian Wushuang asked.

The golden-robed man looked at Jian Wushuang carefully, nodded slightly and said, "My name is three wings. I'm here on behalf of the Divine King Palace."

"Divine King Palace?" Jian Wushuang's expression changed.

He immediately understood that the super force behind the Principle Sea should be the Divine King Palace.

He just did not know who was stronger in the Divine King Palace compared to the Nine Emperor Pavilion.

"My friend Blood Sword, you are very talented. You can pass the fourth level of the Principle Sea at the second level. Some of the higher-ups of the Divine King Palace have already noticed you. They sent me here on behalf of the Divine King Palace to have an official contact with you. Secondly, I also brought you a gift."

With that, the golden-robed man waved his hand and a big silver box appeared in front of Jian Wushuang.

The Three Winged Ruler opened the box and Jian Wushuang immediately saw the square-shaped crystal jades inside.

These crystal jades were neatly arranged. At a glance, there must be dozens of them.

"Three Winged Ruler, these crystal jades are?" Jian Wushuang looked puzzled.

"These crystal jades are used to store secret skills and secret manuals in the depths of the universe. There are a total of 36 pieces of crystal jades in this box. All of them add up to a secret manual that combines the use of universe Principles with sword principle, called the Purple Blood Secret Manual."

"Of course, there are three volumes of the complete Purple Blood Secret Manual. Each volume is divided into three levels. Now, it only gives you the first three levels of the first volume of the Purple Blood Secret Manual," the Three Winged Ruler said with a smile.

“Purple-blood manual? A manual that combines the universal principle and sword principle?” Jian Wushuang stared at him.

Not long ago, he had asked the Devil Cloud Master and learned that the most common manual for the use of the universal principle was worth 100,000 origin stones.

But now, in the blink of an eye, someone from the Divine King Palace had given him the first volume of a manual that combined the universal principle and sword principle.

“Three Winged Ruler, as far as I know, the Secret Manual of the universal principle is usually very expensive. The first volume of the Purple Blood Secret Manual you brought me should be very valuable, right?” Jian Wushuang asked directly.

“Of course.” Three Winged Ruler nodded with a smile. “To tell you the truth, although I am a Ruler of the ultimate level and come from the Divine King Palace, and I have accumulated some wealth over the years, all of my wealth added up is probably only worth a little bit of the first volume of the Purple Blood Secret Manual.”

“Blood Sword, my young friend, you might not know this, but in the universe, even the most ordinary methods of using the universe principles are extremely valuable. It is simply not something an ordinary Ruler can afford. Furthermore, combining the Sword Dao with the secret manual of using the universe principles is even more valuable. And now, I have brought you the violet-blood manual. It is one of the publicly acknowledged three most powerful manuals of the Sword Dao and the use of the universe principles in the vast universe.”

“The creator of the violet-blood manual was a supreme expert who stood at the very top of the universe. His understanding of the Dao of the sword and his understanding of the principles of the universe were both at the peak of perfection. The combination of the two allowed him to rise to the top of the universe. If he had left behind a complete copy of the violet-blood manual, even a Supreme Ruler would have valued it. Now, however, he has only brought you the first volume, which is better.”

“However, even if it’s just the first volume of the Purple Blood Secret Manual, it’s still worth a million universe origin stones.”

Hearing the words of the Three Winged Ruler, Jian Wushuang was a little stunned.

It was worth a million universe origin stones?

A million universe origin stones should be a considerable amount of wealth even for an expert at the supreme-being level.

Some weaker or poorer supreme-beings were only worth about a million universe origin stones.

In other words, the first volume of the Purple Blood Secret Manual was worth more than the wealth of the poorer supreme-beings.

“Three Winged Ruler, the first volume of the Purple Blood Secret Manual is too valuable. I’m afraid I can’t accept it.” Jian Wushuang said seriously.

Although the first volume of the Purple Blood Secret Manual was very useful to him, he did not deny that he was not eager to get it.

However, he also knew that there was no such thing as a free lunch in this world. He had not given anything. He had only shown some talent, so how could he accept such a precious gift?

“Young friend, you don’t accept it, but are you worried that the Divine King Palace will make some requests to you?” The Three Winged Ruler looked at Jian Wushuang with a smile.

Jian Wushuang did not answer, but he tacitly agreed.

“Haha, don’t worry, my friend. To be honest, although your talent is incredible and you have attracted the attention of some high-level experts of my palace, it’s not enough to ask my palace to directly take out a million origin stones worth of the Purple Blood Secret Manual to recruit you. The gift I brought today is actually not directly given by my palace, but a personal gift from a Lord in my palace,” the Three Winged Ruler said with a smile.

“A personal gift? May I know who it is?” Jian Wushuang asked with a frown.

“It’s Lord Xiao. He’s one of the highest-ranking members of the Divine King Palace. His strength is among the top experts in the palace, and his status is much higher than most supreme-beings,” the Three Winged Ruler said.

“Lord Xiao? I’ve never met him, and I don’t think he has any connection with me. Why would he give me the first volume of the Purple Blood Secret Manual?” Jian Wushuang asked.

“My friend, it’s not like you don’t have any connection with him. Have you forgotten that he was the guardian of the Principle Sea in the Bone Pupil Galaxy? That Principle Sea is the guardian of Xiao Yao’s consciousness avatar. I’ve also heard that he has given you some guidance in the Principle Sea,” the Three Winged Ruler said.

“It’s him?” Jian Wushuang was stunned, then he understood.

In the Principle Sea, the cyan-robed elder told him that he was too rough in the use of the universal principles, so he did give him some pointers.

But before, Lord Xiao only gave him some casual pointers, but now, he gave him such a precious gift.

This is a huge favor.

Chapter 4058: The Purple-Blood Secret Manual

“My friend Blood Sword, Lord Xiao asked us to bring the first volume of the Purple Blood Secret Manual to you. He also asked me to tell you that he looks forward to your growth,” the Three Winged Ruler said with a smile.

Hearing this, Jian Wushuang looked strange, but he began to hesitate in his heart.

If the first volume of the Purple Blood Secret Manual was given to him by the Divine King Palace, Jian Wushuang would not accept it.

But now it was a personal gift from Lord Xiao...

It would be fine if he did not have any relationship with Lord Xiao, but in fact, he had already received guidance from Lord Xiao when he was in the Principle Sea. It could be said that he had already received a favor from Lord Xiao.

!!

Now, Lord Xiao had only done him a great favor, and it was obvious that Lord Xiao had given him a gift on a whim. He had not expected Lord Xiao to repay him in the future.

After all, the Three Winged Ruler had said that Lord Xiao was one of the most powerful figures in the divine imperial palace. He was extremely powerful even amongst Rulers, and was very likely a supreme-being.

Although he was talented, he was still very weak. How could a supreme-being like Lord Xiao seek his reward?

"In that case, please thank Lord Xiao for me," Jian Wushuang said.

It was obvious that he had accepted the gift.

"That's more like it," the Three Winged Ruler said with a smile.

Jian Wushuang also smiled faintly, in his heart, he thought, "Anyway, I've already owed Lord Xiao a favor in the Principle Sea. Now, I just owe him an even bigger favor. If I can break through to the supreme-being level and reach the top of the vast universe, I'll find a way to repay it. But if I can't reach that level, then I have no other choice."

"Blood Sword, the first volume of the Purple Blood Secret Manual has been given to you. The three of us will take our leave now," the Three Winged Ruler said.

"Thank you," Jian Wushuang thanked him.

Soon, the Three Winged Ruler left, and Jian Wushuang returned to the universe boat.

As soon as he returned to the universe boat, Leng Rushuang and Devil Flame immediately came up to him.

"Husband, what did the Ruler just say to you?" Leng Rushuang asked.

Jian Wushuang briefly recounted what he had just said to the Three Winged Ruler.

After hearing it, both Leng Rushuang and Devil Flame were a little dumbfounded.

"The Purple Blood Secret Manual, a secret manual calculated by millions of origin stones?" Leng Rushuang was extremely shocked.

"A million universe origin stones, the wealth of an expert at the supreme level, is nothing more than that," Devil Flame added.

"The value is amazing, and it's a personal gift from Lord Xiao. I have no reason to refuse it," Jian Wushuang said.

“Ruler, you don’t have to refuse. There are countless experts in the vast universe, but how many of them haven’t received favors from others during their rise to power? Who Hasn’t received help from others? There are some who have grown up on their own and have no friends, but how many of them have?”

“Besides, Lord Xiao is just looking forward to your growth and helping you. It’s a favor, but if you grow up in the future, you can return it to him,” Devil Flame said.

“I think so too.” Jian Wushuang smiled and said, “Let’s not talk about it. I’ll study the Purple Blood Secret Manual first.”

...

Jian Wushuang sat cross-legged in a secret chamber in the universe boat. In front of him was the big box, in which 36 square crystal jades were placed neatly.

Jian Wushuang picked up the first crystal jade.

As his consciousness sank in, a vast message was transmitted to Jian Wushuang in an instant.

The message of the first crystal jade was not the combination of the universe principle and the sword principle origin, but just some basic use of the universe principle. Even so, Jian Wushuang’s head buzzed, it was as if he had entered a brand new world in an instant.

Indeed, as he received the information of the first crystal jade, a brand new door was placed in front of him.

It should be known that he did not know anything about the use of the universal principle before. He only knew how to integrate the universal principle into his attacks and increase the power of his attacks.

But now, even the most superficial and simple use of the universe principles was enough for Jian Wushuang to gain enlightenment.

Time passed. After a full hour, Jian Wushuang finally received all the information in the first crystal jade.

But after receiving it, his mind became confused.

“This is only the first crystal jade, but I can only understand the information at the beginning. I can’t immediately use the principles after that.” Jian Wushuang shook his head, then he began to receive the second crystal jade’s information.

The second crystal jade contained even more information. It was only at this point that he began to talk about the combination of universal principles and sword principle.

“It’s actually a cover-up?” Jian Wushuang suddenly opened his eyes.

“I always thought that the combination of universal principles and sword principle should have a primary and secondary distinction. If it’s not dominated by the universal principles or sword principle, in fact, the universal principles and sword principle are controlled by one’s own consciousness. The universal principles are profound and unfathomable, and the level of comprehension is like the number

of an army. The same is true for sword principle, but one's own consciousness is definitely the absolute soul and the existence of a general."

"Consciousness dominates the universal principle, and comprehension of sword principle is a perfect combination."

With a smile on his face, Jian Wushuang continued to accept and comprehend.

There were three volumes of the Purple Blood Secret Manual. Each volume had a total of 36 crystal jades, and 12 of them were in the first realm. In other words, the creator of the Purple Blood Secret Manual...the combination of sword principle and universal principle was divided into nine realms. Jian Wushuang needed to completely comprehend the information in the first 12 crystal jades in order to reach the first realm.

But in fact, Jian Wushuang was so confused that he could not comprehend the first piece of crystal jades, let alone the other ones.

However, what surprised Jian Wushuang was that the use of universal principle and sword principle were divided in detail by the pieces of crystal jades in the Purple Blood Secret Manual. It could be said that the whole process of using universal principle and sword principle were combined, it was a complete analysis.

This made it much easier for Jian Wushuang to understand and comprehend.

It was also much easier to get started.

For example, it only took Jian Wushuang 30 years to completely comprehend the first crystal jade.

Then he continued to comprehend the second crystal jade. The second crystal jade took much longer than the first one, but it took less than 200 years.

The third crystal jade took Jian Wushuang 600 years —

In a flash, another 30,000 years passed.

...

Chapter 4059: Slaughter

Long Chenxing River, a Galaxy that was wider than the Purple Micro Galaxy, had more intersecting Star Fields, and was more chaotic.

There were also a large number of space pirates in long Chenxing River, and they were more powerful. There were many fourth-level and fifth-level space pirates. There were even rumors that there were even ultimate level space pirates in long Chenxing River.

In the Galaxy.

"Kill him!"

"It's already good enough that we don't kill a second-level space Ruler. How dare he provoke us?"

!!

“He’s courting death!”

Hundreds of space pirates charged at a black-clothed man in front of the Galaxy like wasps.

The black-clothed man held a sword in one hand, and his figure directly materialized.

He appeared among the space pirates like a ghost.

Chi! Chi! Chi! Chi!

Sword shadows seemed to fly out casually. These sword shadows weren’t very powerful, but they were very mysterious.

The sword shadows easily slashed onto the bodies of the space pirates. The weaker first-level or second-level Rulers could not withstand one sword attack, and they were killed, even the protective armor on the surface of their bodies was torn apart easily.

Even the third-level Ruler’s true treasure armor was torn apart with a single sword attack, and his godly power was instantly annihilated.

Although this black-clothed man was only a second-level Ruler, and the power of his godly power was only at the peak of the second-level, the third-level Rulers could not withstand the sword techniques he displayed.

The slaughter was completely one-sided.

More than a hundred space pirates had been slaughtered in just a few breaths, and only a few of them had fled back when they saw that the situation was not good.

And at this time...

Buzz! Buzz! Buzz! Buzz!

Four strong auras suddenly swept over from the distant void. These four people were three men and one woman, and the auras on their bodies were all at the fourth-level Ruler level.

“Leader!”

“Leader!”

Seeing the appearance of the four people, the space pirates who were lucky enough to survive screamed miserably as if they had seen their savior.

These four people were the leaders of this group of space pirates.

In Chenxing River, even a small space pirate gang had a fourth-level dominator overseeing them. Now, there were four fourth-level Dominators in this space pirate gang.

“A second-level Ruler killed so many of us?”

“He is only a second-level Ruler, and his divine power is only at the second level, but his swordsmanship can’t even stop a third-level Ruler?”

“His divine sword in the water should be a medium-grade principle treasure, and it can even tear the supreme true treasure armor.”

The four leaders stared at Jian Wushuang with cold eyes. Their eyes were filled with killing intent.

“Four fourth-level Rulers? That’s going to take some effort.” Jian Wushuang looked up at the four leaders with a smile on his face.

It was a clear smile.

Suddenly, Jian Wushuang moved and easily appeared in front of the four leaders as if he had teleported.

“Be careful!”

The four leaders were shocked because Jian Wushuang’s speed was very fast.

However, before they could react, Jian Wushuang had already struck.

Whoosh!

It was a very ordinary and casual strike.

In the eyes of the four fourth-level Rulers, this strike was very slow and soft, as if it contained no power at all,

even an ordinary Principle Ruler might be able to dodge such a slow sword move, let alone a Ruler.

However, when the four leaders saw Jian Wushuang’s sword move and were ready to counterattack, they were horrified to find that they could not move.

It was not that they could not move, but that they were too slow,

they were as slow as snails, so slow that they could not dodge or block Jian Wushuang’s sword light.

“It’s not that we are too slow, but his swordsmanship is too fast!” This thought immediately appeared in the minds of the four leaders.

They widened their eyes and watched as the slow and soft sword light slashed at their necks at the same time, the power of the true treasure armor on their bodies had been fully activated, protecting their entire bodies.

However, when the sword light slashed toward them, the supreme-tier true treasure armor on their bodies was torn apart like a piece of paper by the sword light.

The power of the sword light did not decrease, and it continued to slash toward their godly bodies.

Chi! Chi! Chi! Chi!

The sound of the sword cutting into their bodies could be heard, and four huge heads were sent flying at the same time.

The four leaders’ eyes were still filled with fear and disbelief, they did not believe that a second-level Ruler could kill them with only one sword attack. Even their true treasures, armor, and undying bodies were useless against this sword attack.

“The leader is dead?”

“He killed four leaders with one sword strike?”

“Run!”

Those space pirates who were lucky enough to survive were even more terrified. They were scared out of their wits and began to flee frantically.

Jian Wushuang did not chase after them anymore, buzz! The ancient universe boat stopped in the void around Jian Wushuang. Leng Rushuang and Devil Flame walked out of the universe boat.

“Husband, your strength has improved a lot compared to 30,000 years ago,” Leng Rushuang said with a smile.

“You only used the divine power of a second-level Ruler and killed four fourth-level Rulers with one sword attack. Ruler, your strength...” Devil Flame was also amazed.

Jian Wushuang just smiled faintly.

It was not a big deal to kill four fourth-level Rulers with the combat strength of a second-level Ruler. After all, Jian Wushuang already had the combat strength of a fifth-level Ruler since a long time ago in the Purple Micro Galaxy, he had even killed a fifth-level Ruler, Thunder Star Lord.

However, the reason why Jian Wushuang had such battle strength was that his divine power was very strong. It was comparable to the divine power of a third-level Ruler, plus the power of the will given by the universal principles, he also had two secret skills, life divine power and heaven-cleaving skill. This made him as powerful as any fourth-level Ruler.

But this time, whether it was killing the space pirates or killing the four fourth-level Rulers, his divine power was controlled at the second-level, he did not use the power of the will given by the universe principles.

In other words, he killed the four fourth-level Rulers with the power of an ordinary second-level Ruler, relying solely on his swordsmanship and his comprehension and application of the universe principles.

If it had been 30,000 years ago, Jian Wushuang would not have been able to do this. However, over the years, as he comprehended the Purple Blood Secret Manual, his application of the universe principles continued to improve. Combined with his swordsmanship, he was able to display his own swordsmanship, it was several times more exquisite and terrifying than before, or even nearly ten times more.

That was how he was able to do this.

Chapter 4060: Darkness

“Husband, have you completely mastered the first level of the Purple Blood Secret Manual?” Leng Rushuang asked.

“How could it be so easy?” Jian Wushuang shook his head and smiled.

The first level of the first three levels of the first volume of the Purple Blood Secret Manual required him to completely comprehend the first 12 pieces of crystal jade. In the past 30,000 years, Jian Wushuang had already comprehended the first 10 pieces of crystal jade.

He was very close to completely comprehending the 11th piece of crystal jade, but he was still far from comprehending the 12th piece of crystal jade.

“However, this Purple Blood Secret Manual is indeed amazing. I have only comprehended the first 10 pieces of crystal jade, and my application of the universe principles is still at the basic stage. However, the combination of the use of the universe principles and swordsmanship has made my swordsmanship several times or even nearly 10 times more exquisite than before, and the power is much stronger.

!!

“In addition, my application of the universal principles has improved, and my Rulery of the Wuqi Divine Sword has reached a whole new level.” Jian Wushuang’s eyes were shining with a bright light.

The Wuqi Divine Sword was an upper-grade Principle Supreme Treasure, and even a supreme-being would attach great importance to such a Principle Supreme Treasure.

Previously, although Jian Wushuang had comprehended the universal principles, he could only exert a little of the power of the Wuqi Divine Sword. But now, with the improvement of his comprehension of the universal principles...the most important thing was that he could use the universe principles more deeply, so he could exert the power of the Wuqi Divine Sword even more.

Because of this, when he fought with the space pirates, the Wuqi Divine Sword slashed at his opponent’s divine body. The armor on his opponent’s body could not withstand it at all. It either collapsed or was torn apart.

The armor was only at the supreme treasure level, so it could not withstand the attack of an upper-grade principle treasure.

“My use of the universe principle is still very low. When I completely comprehend the first 12 pieces of crystal jade and reach the first stage of the Purple Blood Secret Manual, my strength will probably increase greatly,” Jian Wushuang thought to himself.

Of course, he also knew that he was still a distance away from that step.

“Let’s continue to explore. There are countless space pirates and experts in the Chenxing River. It’s a good opportunity for me to use it as a training ground,” Jian Wushuang said with a smile.

The universe boat continued to fly toward the end of the Galaxy.

There were countless space pirates in long Chenxing River, and Jian Wushuang completely regarded them as his opponents to gain experience.

Every time he encountered a group of space pirates, he would directly kill them and defeat them head-on.

Moreover, when those space pirates fought, Jian Wushuang would not directly reveal his strongest strength. Instead, he would deliberately maintain the power of his divine power and use the strength of

a second-level Ruler, he would rely on his swordsmanship and the use of universal principles to fight the pirates.

Even so, ordinary pirate gangs could not stop Jian Wushuang. He could easily kill a fourth-level Ruler.

Soon, another 200 years passed.

In the Chenxing River, a bald elder stood in front of Jian Wushuang. Around them were a large number of pirate corpses.

These space pirates had just been mercilessly slaughtered by Jian Wushuang.

But because of the slaughter, the bald elder was lured out.

“You are Blood Sword?” The bald elder stared at Jian Wushuang with a cold gaze.

Blood Sword was Jian Wushuang’s name.

In the past few hundred years, Blood Sword’s name had been very well-known in the Chenxing River.

The reason was that Jian Wushuang had killed countless pirates in the last few hundred years, and many pirate forces had also been wiped out by him, moreover, he took the universe boat and took the initiative to kill the pirates time and time again.

The pirates in the Star River were not stupid. Under normal circumstances, they did not dare to provoke the universe boat. As long as the pirates did not take the initiative to provoke them, the experts in the universe boat could not be bothered with these space pirates.

However, this Blood Sword was different. Even if the space pirates did not take the initiative to provoke them, he would still go directly to their door and slaughter them without any reason. This kind of behavior...was obviously treating those space pirates as trial stones.

Most importantly, he himself was only a second-tier Ruler.

It was difficult for him not to attract attention in long Chenxing River.

“Who are you?” Jian Wushuang also looked at the bald elder.

“Elder Mo Hong,” the bald elder said.

“Sorry, I’ve never heard of him,” Jian Wushuang said.

“It’s okay if you’ve never heard of him. You just need to remember this name, because you’ll die at his hands soon,” Elder Mo Hong said.

“Oh? You’re very confident?” Jian Wushuang gave a strange smile.

“Humph.” The bald elder snorted and waved his hand. Hum Hum Hum. Streams of black light rapidly condensed in front of him, and in the blink of an eye, they formed a three-meter-long black magic sword.

As soon as the black magic sword was formed, a vast black power burst out. The entire Galaxy was covered by the dark power, and it became completely dark.

“Sword formation?” Jian Wushuang raised his eyebrows.

“A fifth-level Ruler, seeing me use the sword formation without saying anything, you really think highly of me.” Jian Wushuang smiled lightly, and the Wuqi Divine Sword appeared in his hand, there was also a strong aura rising from his body.

After all, his opponent was a genuine fifth-level Ruler. It was impossible for Jian Wushuang to deliberately hide his strength and preserve the power of his divine power like before. At the beginning, Jian Wushuang planned to attack with all his strength.

However, the moment the black divine sword took shape and shot toward him.

Jian Wushuang’s pupils suddenly constricted.

He stared at the black divine sword that was rushing toward him. The black divine sword contained the most concentrated power of the dark principles. The entire sword formation was dominated by the dark Principles and supplemented by the other principles, they complemented each other.

However, Jian Wushuang saw some very subtle things in the black magic sword.

These things were not eye-catching, but Jian Wushuang noticed them.

In an instant, Jian Wushuang gained some understanding in his mind.

“Is that so?”

“Darkness, essence, details...”

Jian Wushuang’s eyes were filled with ecstasy.

However, even though he was ecstatic, the black divine sword did not show any mercy. The endless darkness brought with it an extremely sharp power that enveloped Jian Wushuang in the blink of an eye.

Boom!

With a violent roar, a large amount of dark air and sword essence scattered crazily.

In the endless darkness, whoosh! A figure rushed out.

This figure was Jian Wushuang, who had been pushed back by the black divine sword. At this moment, although he was in a sorry state, his aura did not weaken at all.

The ecstasy in his eyes did not weaken at all. Instead, it was even more intense!
