

Swordsman 4061

Chapter 4061: The Third Level

"I see. What I was missing was just a trace of the essence of the principle of darkness." Jian Wushuang was very excited.

"Principle of darkness, merge!"

A large amount of principle power rose from Jian Wushuang's body, which contained a strong principle of darkness. In the blink of an eye, the Principle power merged perfectly.

At this moment, Jian Wushuang's body trembled, and his divine body and divine power began to transform.

"Huh?"

!!

Elder Mo Hong stood in the void in front of Jian Wushuang. The black divine sword was still hovering in front of him with a shocking aura. However, Elder Mo Hong frowned at this moment.

"My attack just now didn't hurt him, and his aura..." Elder Mo Hong was a fifth-level Ruler, so his perception was very sharp, he could tell at a glance that Jian Wushuang was different from before.

The divine power aura he emitted was much stronger than before.

"Has he made a breakthrough?" Elder Mo Hong asked in a low voice.

Indeed, Jian Wushuang's aura had reached the third-level Ruler level.

After comprehending the divine will of the Divine Beginning Realm for tens of thousands of years, Jian Wushuang had finally fused the sixth Principle of darkness perfectly, and his realm had also risen to the third-level smoothly.

"Husband!"

"Ruler!"

In the universe boat not far away in the void, Leng Rushuang and Devil Flame, who had been watching the scene, also noticed the changes in Jian Wushuang and could not help but be overjoyed.

"Elder Mo Hong, I have to thank you. If it weren't for the Dark Sword Formation you just displayed, it would have taken me a lot of time to fuse the sixth principle." Jian Wushuang looked at Elder Mo Hong with a smile.

"Humph, so what if you've made a breakthrough? You'll still die!" Elder Mo Hong snorted. The black magic sword that was floating quietly in front of him once again appeared in front of Jian Wushuang like a phantom.

An extremely powerful and sharp aura was transmitted over. The power of the black magic sword was obviously stronger than before.

Jian Wushuang smiled. He had already made a breakthrough, so he did not want to waste any more time with Elder Mo Hong.

He raised the Wuqi Divine Sword in his hand and poured a vast amount of divine power into the divine sword.

Although he was a third-level Ruler, his divine power was already at the fourth-level because of his perfect life level. In addition to the power of his will, which was given by the universal principle, as well as his life divine power and heaven-cleaving skill, Jian Wushuang's sword was no weaker than any fifth-level Ruler in terms of divine power.

In other words, Jian Wushuang was also using the divine power of a fifth-level Ruler to perform this sword.

However, Jian Wushuang had comprehended the universal principle and could even combine it with his own swordsmanship, which was unimaginable for a fifth-level Ruler.

Therefore, a funny scene appeared.

Jian Wushuang raised the longsword in his hand and simply swung it. He did not display any extraordinary swordsmanship, but just casually swung the sword and hacked.

It felt like an adult was teaching his child a lesson. It was very simple.

"Arrogant!" Even Elder Mo Hong could not help but feel shocked and angry.

However, when the Wuqi Divine Sword struck the black divine sword, a terrifying power burst out.

The Black Divine Sword Formation, which was controlled by Elder Mo Hong, the fifth-level Ruler, collapsed immediately and turned into a black light.

Jian Wushuang's sword continued to strike Elder Mo Hong.

"How is this possible?" Elder Mo Hong stared at Jian Wushuang, but the sword light had already struck him.

Elder Mo Hong's body was also protected by the Supreme Treasure armor. However, after the sword light struck him, his supreme treasure armor shook slightly and did not show any damage, however, most of the power of the sword light passed through the armor and directly reached Elder Mo Hong's divine body.

The power was ridiculously strong, and Elder Mo Hong's own divine body was not very strong, which caused his divine body to be smashed into a bloody mist at this moment.

Buzz!

In just a moment, Elder Mo Hong's divine body was reassembled again.

However, after reassembling, he did not even look at Jian Wushuang. Instead, a large amount of black light immediately emerged from his body. He turned into a black graceful and fled frantically toward the void behind him at an astonishing speed.

Elder Mo Hong had escaped!

He had no choice but to flee.

The terrifying strength Jian Wushuang displayed with just one strike had completely frightened him.

“70%!”

“70% of my divine power has been destroyed in an instant!”

Elder Mo Hong’s body and mind were trembling as he fled.

Jian Wushuang’s simple and crude strike, which looked like an adult bullying a child, not only destroyed his sword formation in an instant, but also hit his divine body, causing it to explode, it also destroyed 70% of his divine power.

How powerful was this sword attack? Mo Hong did not know, but he knew that if he used that sword attack again, he would definitely die.

Therefore, he could only flee frantically.

Seeing him flee, Jian Wushuang did not chase after him.

“Since you helped me break through, I’ll spare your life.” Jian Wushuang’s voice sounded in Mo Hong’s ear.

Elder Mo Hong heaved a sigh of relief, but he still fled the void as fast as he could and soon disappeared in front of Jian Wushuang.

“Buzz!” The ancient universe boat arrived in front of Jian Wushuang. Jian Wushuang rushed into the universe boat.

“Husband, congratulations,” Leng Rushuang said with a smile.

“Master, congratulations,” Devil Flame said.

“Haha!” Jian Wushuang laughed heartily. He was also very happy.

It was a huge leap for him to become a third-level Ruler after integrating the sixth principle.

His strength would naturally undergo an earth-shaking change.

His divine power alone had improved a lot. As his realm became higher and higher, his speed of comprehending sword principle and universe principles would be much faster.

“Ruler, you were able to kill a fifth-level Ruler at the second level. Now that you have not only obtained the first volume of the Purple Blood Secret Manual, but also reached the third level, you should be invincible among the fifth-level Rulers, right?” Devil Flame looked at him.

"I don't know if there are any invincible among the fifth-level Rulers. But I dare say that in the entire universe, only a few fifth-level Rulers are stronger than me, except for those who have a huge innate advantage like me or have heaven-defying opportunities," Jian Wushuang said confidently.

Chapter 4062: Arrived in the Nine Luminaries Galaxy

"In the entire vast universe, except for those who have a huge innate advantage like me or have heaven-defying opportunities, there should be very few fifth-level Rulers who are stronger than me."

Under normal circumstances, this sentence from a third-level Ruler was enough to cause countless cultivators to despise and snort in disdain.

However, Jian Wushuang was indeed confident.

Now that he had broken through to the third-level Ruler, his divine power was no weaker than an ordinary fifth-level Ruler because of the power of his will.

In other words, he was on par with a fifth-level Ruler in terms of basic level. The only difference was that he did not fuse so many principles of heaven and earth.

!!

However, Jian Wushuang's advantage in the universe principles was too great!

The universe principles were unattainable among the countless Rulers in the vast universe.

There were countless Rulers in the vast universe, but those who could truly comprehend the universe principles at the Ruler level were as rare as Phoenix feathers and unicorn horns. "..."

Once a Ruler comprehended the universe principles, he would have a much greater advantage compared to other Rulers.

However, Jian Wushuang had not only comprehended a trace of the universe principles, but his comprehension of the universe principles had also reached a certain level. When he was in the Bone Pupil Star Field, he was already able to pass the first four levels of the Principle Sea, later, he obtained the Purple Blood Secret Manual, which greatly improved his use of the universe principles and combined it with sword principle. He definitely had the strength to pass the fifth level of the Principle Sea.

His comprehension of the universe principles at this level was no less than that of an ordinary supreme-being.

Under such circumstances, he could naturally crush many fifth-level Rulers with the help of the universe principles.

For example, the Star Lord Devil Cloud who controlled the dark divine sword formation was very powerful. He was not the weakest among the fifth-level Rulers, but was extremely powerful. However, against such a Ruler...Jian Wushuang had indeed destroyed him with a casual sword attack. He did not even use his swordsmanship.

His strength had far surpassed that of a fifth-level Ruler. In addition, he had many trump cards. If he used all his strength, he was confident that he could fight against even an ultimate level Ruler.

Because of this, Jian Wushuang dared to say that there were not many fifth-level Rulers in the vast universe who were stronger than him.

Of course, those who had great innate advantages or had great backgrounds and had obtained heaven-defying opportunities were exceptions.

"After reaching the third-level Ruler level, whether I'm comprehending the Purple Blood Secret Manual, the principles of the universe, or the sword principle, I've improved a lot compared to before. I'm confident that I can reach the first level of the Purple Blood Secret Manual within 20,000 years. By then, my strength will improve a lot. I don't need to continue killing in the Chenxing River anymore. I'd better hurry to the Nine Luminaries Galaxy," Jian Wushuang said.

He passed by the Chenxing River. The reason why he took the initiative to find trouble with the space pirates and kill them in the Chenxing River was to hone his swordsmanship and use of the universal principles, he wanted to comprehend the first 12 crystals of the Purple Blood Secret Manual and reach the first realm of the Purple Blood Secret Manual before he arrived in the Nine Luminaries Galaxy.

After all, his Ruler, Xuan Yi, was put on a bounty in the Nine Luminaries Galaxy by a big force with an Ultimate Ruler behind him.

If Jian Wushuang wanted to help his Ruler, he naturally needed enough strength. He did not have enough strength, so he did not hesitate to spend more time on the way to find ways to improve his strength. But now that he had made a breakthrough in his realm...and he was confident that he could reach the first stage of the Purple Blood Secret Manual before reaching the Nine Luminaries Star Field, there was no need to waste time on the way.

In the long Chenxing River, the universe boat began to travel at a faster speed.

Traveling in the dark void of the universe was extremely long and boring.

But experts had to endure loneliness.

Jian Wushuang had his wife accompanying him, so he was in a better mood.

In a flash, another 74,000 years had passed!

Including the time that Jian Wushuang had traveled, he had traveled for nearly 100,000 years!

During this time, Jian Wushuang had passed through countless Star Fields, including four galaxies in the universe. Now, he had finally arrived at the Nine Luminaries Great Star Field!

On the way here, Jian Wushuang had already understood a lot of information about the Nine Luminaries Great Star Field.

Although the Nine Luminaries Great Star Field was also a Great Star Field, it was much more powerful than the Bone Pupil Great Star Field that he had stayed in before.

The Bone Pupil Grand Starfield only had two grade one starfields, and the strongest were only two ultimate level Rulers. As for the Nine Luminaries Grand Starfield, because it was closer to the depths of the universe, it had a total of eight grade one starfields!

In addition, the Nine Luminaries Grand Starfield had existed for an extremely long time, at least much older than the Bone Pupil Grand Starfield.

For example, the Bone Pupil Great Star Field had two level one star worlds that were born from the universe. Before these two level one star worlds were born, no other level one star worlds had appeared in the Bone Pupil Great Star Field, although the true experts were the Golden Feather Star Lord and the Green Flame Star Lord.

However, although the Nine Luminaries Great Star Field only had eight level one star worlds, before these eight level one star worlds, there were already quite a number of level one star worlds that had reached the end of their lifespans and had collapsed on their own. Moreover, there were quite a number of them.

Although the astral worlds had been destroyed, the experts who stood at the peak of the astral worlds were able to survive. Some of those experts had gone into the depths of the universe to explore, while others had continued to stay, this had resulted in an extremely large number of experts in the Nine Luminaries Great Starfield.

For example, there were more than twenty ultimate level Rulers in the entire Nine Luminaries Great Starfield. There were even rumors that there were supreme experts hidden within the Nine Luminaries Great Starfield.

Of course, very few people knew whether or not there were supreme-beings hidden within the Nine Luminaries Great Starfield. After all, it had been many years since a supreme-being had appeared in the Nine Luminaries Great Starfield.

And the Nine Luminaries Great Starfield was publicly acknowledged to be the strongest not because of the eight first-class starfields, but because of the four most powerful forces.

For example, the Thunder God Palace, which had placed a bounty on his Ruler, Xuan Yi, was one of the four most powerful forces. It had a deep foundation, and its overall strength was extremely tyrannical. For example, there were three known Supreme-level Rulers in the Thunder God Palace!

One of them, the current Palace Ruler of the palace, was said to be at the top even among ultimate level Rulers.

In such a large Star Field with many experts, even though Jian Wushuang's strength had improved a lot, he had completely comprehended the first 12 pieces of the Purple Blood Secret Manual and reached the first stage of the Purple Blood Secret Manual, however, Jian Wushuang still felt tremendous pressure in the face of the Thunder God Palace.

...

Chapter 4063: The Bounty Was Gone

In the Nine Emperor Pavilion in the Nine Luminaries Galaxy.

“Hello, Blood Sword. I’m Feixue, one of the supervisors of the Nine Emperor Pavilion in the Nine Luminaries Galaxy.” A graceful and beautiful woman stood in front of Jian Wushuang with a gentle smile.

Although Jian Wushuang was only a third-level Ruler, he was ranked on the Nine Emperor List. No matter which Galaxy he went to, the supervisor would receive him personally.

“Supervisor Feixue, I need the treasures on this list.” Jian Wushuang took out the list of treasures he had prepared a long time ago.

This list of treasures was naturally the list of treasures needed to cultivate the fourth level of the Supreme-level undying celestial body.

!!

The beautiful woman Feixue took the list and glanced at it briefly, she nodded slightly. “Blood Sword, my friend, the treasures you want are all available in the Nine Luminaries Star Field. If you need them now, I can try my best to send them all to you within ten days. However, the treasures on this list are extraordinary. I estimated that they are about 8,300 universe origin stones. But you are a friend of the Nine Emperor Pavilion, so you only need 8,000 universe origin stones.”

“Within ten days?” Jian Wushuang nodded slightly.

In the past, the Purple Micro Galaxy was only a medium-sized Star Field. It would take the manager of the Purple Micro Galaxy, Ballmer, thousands of years to collect all these treasures. However, in the Nine Luminaries Great Star Field, it only took ten days to collect them.

From this, it could be seen that there was a huge gap between a large Star Field and a medium-sized Star Field.

“This is 8,000 universe origin stones.” Jian Wushuang took out an interspatial ring.

There were indeed 8,000 universe origin stones in the interspatial ring. They were accumulated by Jian Wushuang after killing Thunder Star Lord in the Purple Micro Galaxy and countless star pirate experts in the past 100,000 years.

In terms of wealth, Jian Wushuang’s current wealth was not inferior to those of ordinary Ultimate Rulers. Even if he took out 8,000 universe origin stones now, he still had all kinds of treasures worth thousands of universe origin stones, this did not include the 1,000 universe origin stones and a drop of special venom that he got from Nine Whiskers.

“Don’t worry, Blood Sword. I will personally deliver the treasures on this list to you within ten days,” Feixue said with a smile.

“Supervisor Feixue, apart from these treasures, I also want to ask you about something,” Jian Wushuang said.

“You are on the Nine Emperor List, so you are qualified to receive the information in the Nine Emperor Pavilion. As long as it’s within my jurisdiction, I can answer whatever you ask,” Feixue said with a smile.

"I want to ask about the bounty issued by the Thunder God Palace more than 100,000 years ago," Jian Wushuang said.

"Bounty?" Feixue was stunned, but she immediately reacted. "You mean the Thunder God Palace paid a great price to reward Xuan Yi?"

"Yes." Jian Wushuang nodded, "I want to know what's going on with this bounty."

"Blood Sword, I know about this bounty. After all, when the Thunder God Palace issued this bounty, because the price was very high, just by providing the information and location of the other party, you could get a reward of 100 origin stones. If you captured or killed the other party, you could get a middle-grade principle treasure and 500 universe origin stones. Such a high bounty caused a great sensation in the Nine Luminaries Great Star Field. Many fourth-level and fifth-level Rulers were moved by it."

"But as far as I know, although this bounty has caused a lot of commotion and many experts have paid attention to it, I haven't heard of anyone who has received the bounty on this bounty," Feixue said.

"No one has received the bounty?" Jian Wushuang raised his eyebrows.

No one had received the bounty, which meant that no one had found the location of his Ruler.

"In other words, the person on the bounty should still be alive," Jian Wushuang said.

"Not necessarily." Feixue shook her head and said, "Blood Sword, I'm afraid you don't know that more than 3,000 years ago, the Thunder God Palace suddenly revoked the bounty."

"Revoked?" Jian Wushuang was stunned. "Why did they revoke it?"

"Well..." Feixue paused for a moment, then she continued, "Under normal circumstances, an Ruler force like Thunder God Palace in the Nine Luminaries Galaxy would not give up so easily since they had decided to reward the other party. But now, they suddenly revoked the bounty. There are only two possibilities."

"One is that they knew that the other party had long fled outside the Nine Luminaries Galaxy, or even fled to a territory far away from it. Thunder God Palace is the absolute Ruler in the Nine Luminaries Galaxy, but its force can not touch some distant territories. Naturally, they could not do anything to the other party, so they withdrew the bounty."

"The other possibility is that the person has been found by the people of the Thunder God Palace and killed. Since he is dead, there is no need for the bounty to exist."

Jian Wushuang's face turned ugly when he heard Feixue's words.

He knew that Feixue was telling the truth. There were only two possibilities for the Thunder God Palace to suddenly revoke the bounty.

It would have been fine if it was the first, but if it was the second...Jian Wushuang clenched his hands tightly, his eyes turning extremely cold.

"The intelligence ability of the Nine Emperor Pavilion is amazing. Is there any way to confirm which one it is for me?" Jian Wushuang looked at Feixue and asked.

"I'm afraid it won't be easy." Feixue shook her head. "Blood Sword, as far as I know, the conflict between Xuan Yi and the Thunder God Palace is very intense. It can be said that the entire Thunder God Palace is furious. Otherwise, they wouldn't have made such a big fuss. At first, it was very big, but later, when the Thunder God Palace withdrew the bounty, they kept a very low profile. It didn't even cause much of a stir in the Nine Luminaries Star Field. The Thunder God Palace never mentioned the bounty to the outside world again."

"The Nine Emperor Pavilion knows that you take this bounty very seriously. We've asked around, but we haven't received any reply. If I'm not wrong, the highest level of the Thunder God Palace must have issued a gag order."

"Gag order?" Jian Wushuang frowned.

Even the Nine Emperor Pavilion, which was so influential, could not get any information from the Thunder God Palace. It seemed that only the experts at the highest level of the Thunder God Palace knew the final result of the bounty, even many experts at the highest level might not know about it.

"Little friend Blood Sword, if you really want to understand the result of this matter, you can only personally look for those experts at the highest level of the Thunder God Palace. My Nine Emperor Pavilion can provide you with a list of the experts at the highest level of the Thunder God Palace. As for who little friend will look for, it will be up to you to decide." Feixue smiled.

Chapter 4064: Intelligence

"In addition to the list of the top experts of the Nine Emperor Pavilion, I also need to know all the information about Xuan Yi, who is on the bounty of the Thunder God Palace, as well as the specific conflicts between him and the Thunder God Palace, and what he did," Jian Wushuang said.

"No problem." Feixue nodded with a smile.

Soon, Feixue handed two complete pieces of information to Jian Wushuang.

One was about the top experts of the Thunder God Palace, and the other was about Xuan Yi.

Jian Wushuang first looked at the information about Xuan Yi.

!!

However, after reading the information, Jian Wushuang frowned even more.

It was mentioned that Xuan Yi was an expert born in the Demonic Luo Star World, a second-class star world in the Nine Luminaries superstarfield.

His birth, his gradual growth, and his rise were all mentioned in great detail. Every step of his growth could be witnessed with certainty.

Although this process was not very exciting, it was still a bumpy process. When Xuan Yi rose in the Demonic Luo Star World, he was not a dazzling super genius. He was relatively mediocre, it felt like he was a very ordinary one.

From the beginning, he did not have much fame on his path of cultivation to the Principles Master. It was only until he reached the Ruler level that he gradually gained a certain level of fame. Moreover, his fame was not because of his strength, it was because he had all kinds of endless methods.

He had studied various fields, such as alchemy, weapon refining, array formation, and soul. He had dabbled in some of them, and he had a certain level of achievements.

Some of his methods were even more troublesome for those who were obviously stronger than him.

Although his methods were impressive, they were limited to the Demonic Luo Star World. However, the one that truly made his name in the entire Nine Luminaries Great Star area was the collision with the Thunder God Palace more than 100,000 years ago.

That collision was Xuan Yi's battle to become famous.

He had gone from an ordinary Ruler who only had a certain level of fame in the Demonic Luo Star World to a famous figure in the entire Nine Luminaries Great Star area. He had become well-known.

During that battle, Xuan Yi had used his third-level Ruler combat strength to not only kill several fourth-level Rulers of the Thunder God Palace, but most importantly, he had also killed a super genius of the Thunder God Palace, Lei Yi!

At that time, Lei Yi was publicly acknowledged as the number one genius of the Thunder God Palace and the entire Nine Luminaries Great Star area. Although he was only a third-level Ruler, he had already comprehended a trace of the universe principles, in addition, he was one of the personal disciples of the Thunder God Palace Ruler. With a large amount of resources to nurture him, his potential was limitless.

However, in that battle 100,000 years ago, Lei Yi was killed by Xuan Yi.

Perhaps Lei Yi himself did not expect that he, who was also a third-level Ruler and was publicly acknowledged as the number one genius of the entire star area, would actually die in the hands of Xuan Yi.

It was because of Lei Yi's death that the Thunder God Palace was completely enraged. That was why there was a reward that caused a sensation in the entire Nine Luminaries Great Star Field.

"He killed the number one genius of the Thunder God Palace and was also the personal disciple of the palace Ruler of the Thunder God Palace. No wonder the Thunder God Palace was enraged." Jian Wushuang nodded secretly.

After all, Lei Yi had comprehended a trace of the universe principle.

Even in the Great Star Field, it was extremely difficult for a Ruler to comprehend a trace of universe principle.

For example, in the Bone Pupil Great Star Field, it was not easy for an emperor fire to comprehend a trace of universe principle and was immediately accepted as a personal disciple by the Green Flame Star Lord. The rival Golden Feather Star Lord was willing to pay a great price, however, there was still no second Ruler who had comprehended a trace of universe principle.

Although Lei Yi came from the Thunder God Palace and had been nurtured by the palace with many resources, it was already amazing that he could comprehend a trace of universe principle at the third-level Ruler level.

Such a genius would definitely be regarded as a treasure by the Thunder God Palace, but it was a pity that this treasure was killed by Xuan Yi.

As for the reason why Xuan Yi killed him..

“It was for a woman?” Jian Wushuang was surprised.

Because in his impression, his Ruler was basically a man who had no desires. He had been in contact with his Ruler for so many years, but he had never heard of any relationship between his Ruler and a woman.

But now, his Ruler, Xuan Yi, actually killed someone for a woman, and it was a super genius of the Thunder God Palace.

“This woman named eight must have an unusual relationship with my Ruler.” Jian Wushuang looked at the woman named eight mentioned in the report.

After his Ruler Xuan Yi killed Lei Yi, he disappeared with the woman. Even the Nine Emperor Pavilion could not find their location.

This was all the information about his Ruler Xuan Yi in the Nine Luminaries Star Field and the conflict between him and the Thunder God Palace.

However, what puzzled Jian Wushuang was that his Ruler’s rise in the Nine Luminaries Star Field was so clear. The whole process was verified, and he had lived for a very long time, it was as if he was indeed born in the Nine Luminaries Star Field and had lived in the Nine Luminaries Star Field.

But if he was really born in the Nine Luminaries Star Field and had stayed in the Nine Luminaries Star Field, then what was Xuan Yi in the Divine Beginning Realm?

“Xuan Yi, who was put on the bounty by the Thunder God Palace in the Nine Luminaries Galaxy, has the same appearance and temperament as Ruler. There is no doubt that he is Ruler, but he has been staying in the Nine Luminaries Galaxy. It is obvious that he has never left. What is going on?” Jian Wushuang frowned.

“Could it be a clone?” Jian Wushuang could not help thinking.

But he soon shook his head.

His Ruler, Xuan Yi, had always been enigmatic and mysterious. All kinds of methods made Jian Wushuang feel incredible.

Even though he now had the battle strength of an Ultimate Ruler, his Ruler was still a huge mystery in his heart.

The more he came into contact with this mystery, the more confused he became. To really solve this mystery, perhaps he had to see Xuan Yi again in person.

However, he did not know if his Ruler was still in the Nine Luminaries Galaxy. As for whether he had been found and killed by the people of the Thunder God Palace, Jian Wushuang did not believe it.

He believed that his Ruler was very powerful. Although the Thunder God Palace was very powerful, it was not enough to kill his Ruler.

However, even if his Ruler was still alive, he did not know where he was. The only people who might know his Ruler's whereabouts were the top officials of the Thunder God Palace.

Thinking of this, Jian Wushuang immediately looked at the second report in front of him, which was about the top experts of the Thunder God Palace.

Immediately, Jian Wushuang began to browse through the information of the top experts of the Thunder God Palace.

Chapter 4065: Target, Emperor Rain!

As one of the four most powerful forces in the Nine Luminaries Star Field, the Thunder God Palace had many experts under its command. There were hundreds of experts at the fourth level and above.

However, among these experts, there were probably only a dozen or so who were qualified to be called the highest level.

Jian Wushuang was now looking at the information of these ten or so people.

Among these ten or so people, the strongest ones were the three ultimate level Rulers of the Thunder God Palace. Jian Wushuang directly ignored them.

After all, although his battle strength was very strong and he could fight the ultimate level Rulers head-on, he could only fight them head-on. He could not take them down or kill them, naturally, he could not get the information he wanted from the other party.

!!

Therefore, Jian Wushuang could only choose the remaining experts who were at the peak of the fifth level.

"Eh?" Jian Wushuang quickly found a suitable target.

"The first principle enforcement elder of Thunder God Palace, Emperor Rain!"

Jian Wushuang looked at the information in front of him.

Thunder God Palace was one of the most powerful forces in the Nine Luminaries Great Star Field. Not only did it have many experts, but it also controlled many territories.

For example, Thunder God Palace occupied two of the eight level one star worlds in the Nine Luminaries Great Star Field that were still in operation, in addition, Thunder God Palace also controlled a large number of level two and level three star worlds in the Nine Luminaries Great Star Field.

Since the Thunder God Palace controlled such a huge territory, it was natural that they had to deal with the emergencies in those territories. Therefore, there was a principle enforcement temple in the Thunder God Palace.

There were many deacons and a few principle enforcement elders in the principle enforcement temple. All of them were powerful experts.

If anything happened in the territory under the Thunder God Palace, if it couldn't be solved, the experts of the principle enforcement temple would appear. And if something important happened, the principle enforcement elders would personally take action.

It should be known that the principle enforcement elders in the principle enforcement temple were all level five Rulers.

As the first principle enforcement elder of the principle enforcement temple and the temple Ruler of the entire principle enforcement temple, Emperor Rain was naturally one of the highest-ranking members of the Thunder God Palace. Moreover, his battle strength had reached the pinnacle of level five, in terms of battle strength, he was ranked fifth in the Thunder God Palace.

"With Emperor Rain's status in the Thunder God Palace, he is only second to the three ultimate level Rulers. He must be the one who knows the result of the bounty." Jian Wushuang's eyes flashed with a strange light.

In fact, among the experts on the list given to him by Feixue, there were a few who were qualified to know the result of the bounty. The reason why Jian Wushuang chose Emperor Rain was mainly because of his position, he was the first principle enforcement elder of Thunder God Palace.

Since he was the principle enforcement elder, he must be out on a mission.

Like the other top experts on the list, most of them were in the lair of Thunder God Palace or in some important places. It was not so easy for Jian Wushuang to kill them.

Only Emperor Rain was easier to kill. As long as Jian Wushuang used some means, he could lure him out and bring him to him.

"Although Emperor Rain has the battle strength at the peak of the fifth level, it shouldn't be difficult for me to take him down with my current strength." Jian Wushuang narrowed his eyes and made his decision.

However, Jian Wushuang did not move directly. Instead, he waited in the Nine Emperor Pavilion for ten days.

Ten days later, Feixue personally delivered the many treasures needed to cultivate the fourth level of the supreme eternal celestial body to Jian Wushuang. In addition, she also brought Jian Wushuang a low-grade Principle Supreme Treasure armor.

Jian Wushuang had spent nearly 2,000 universe origin stones to buy this principle Supreme Treasure Armor. Previously, he had also bought one for his wife, Leng Rushuang.

Although he had already obtained a treasure to cultivate the supreme eternal celestial body, he only needed to spend some time and energy to cultivate the fourth level of the supreme eternal celestial

body, by then, his divine body would be comparable to an ordinary low-grade principle supreme treasure. However, having a protective armor at the level of a principle supreme treasure would still greatly improve his protective ability, most importantly, he could activate the power of the armor, which would also help his strength to a certain extent.

After getting what he wanted, Jian Wushuang left the Nine Emperor Pavilion.

“Husband, should we directly deal with Emperor Rain or find a place for you to cultivate the fourth level of the supreme eternal celestial body?” Leng Rushuang asked.

“Let’s deal with Emperor Rain first. As for the fourth level of the supreme eternal celestial body, although I have obtained a treasure to help me cultivate it, it will take me at least one to two thousand years to Ruler it. I can’t wait that long,” Jian Wushuang said.

“One to two thousand?” Leng Rushuang was stunned.

In his opinion, with his husband’s talent and perception, and with the help of a cultivation treasure, it should be easy for him to Ruler the secret skill. He didn’t expect it to take so long.

“It’s normal. I’ve been cultivating the second and third levels for more than 10,000 years in the space-time tower, which is 1,000 times faster than time. The fourth level is more difficult than the first three levels. Although it’s easier for me to comprehend it now that I’ve made a breakthrough, it still takes time,” Jian Wushuang said.

“In that case, let’s deal with Emperor Rain first. Husband, how do you plan to lure him out?” Leng Rushuang asked.

“That’s easy. I’ve read the intelligence on Emperor Rain and know that he has a disciple guarding a second-class astral world under the command of Thunder God Palace. Although he has many disciples, this one is definitely one of the more outstanding ones among his disciples. If we kill his disciple directly, he will come out and kill us in anger. Then, we will take him down,” Jian Wushuang said with a smile.

“Good idea.” Leng Rushuang nodded with a smile.

Immediately, the three of them set off.

There were countless star worlds in the Nine Luminaries Great Star Field, including many second-class Star Worlds.

In one of the ordinary second-class star worlds, there was a group of towering buildings at the top of a high mountain. The buildings were extremely magnificent, especially one of the ancient purple towers, which directly pierced into the clouds above, it was like a heavenly palace, guarding everything in this astral world.

In the void outside the mountain, Jian Wushuang and Leng Rushuang stood side by side, while Devil Flame stood behind Jian Wushuang.

“Devil Flame, when we were on our way, I swallowed many special crystals for you. Your cultivation has recovered to the fifth-level, and your battle strength should be among the top of the fifth-level. It’s most suitable for you to deal with the disciple of Emperor Rain. Go,” Jian Wushuang instructed.

“Yes.” Devil Flame nodded, and then immediately moved toward the towering buildings on the mountain.

Chapter 4066: The Furious Emperor Rain Ruler

After a short moment.

Boom!

A terrifying boom, accompanied by the shaking of heaven and earth, resounded through the void.

The towering buildings on the peak of the mountain turned into ruins in the blink of an eye. Countless figures rushed out from the ruins in a sorry state.

“Blood Thunder Cliff, you didn’t think that my Devil Flame could come back alive, did you?”

“A billion years ago, you destroyed my sect and killed my parents. Today, I will make you pay with blood!”

“All of you must die!”

A cold voice filled with endless killing intent spread out from the black-clothed tall man in the void above.

This tall black-robed man’s aura towered into the sky. He was like a black demonic god, suppressing everything below.

The countless cultivators who had come out of the buildings in a sorry state saw this tall black-robed man and their expressions changed drastically.

“He’s too powerful. He destroyed my Blood Thunder Cliff’s defensive formation with just one move. This strength must be that of a fifth-level Ruler. Moreover, he’s probably one of the extremely powerful ones among fifth-level Rulers!”

“This expert is obviously here for revenge. We’re finished!”

“Run, run quickly!”

Terrified voices rang out one after another, and countless cultivators of the Blood Thunder Cliff began to flee frantically.

The Blood Thunder Cliff was actually a branch of the Thunder God Palace in this second-level astral world. It was in charge of everything in this second-level astral world for the Thunder God Palace.

However, if such a force wanted to completely Principle the entire second-level astral world, it was inevitable that it would destroy many rival forces and sects. Over the long years, the Blood Thunder Cliff had destroyed countless forces and sects, their enemies were even more numerous.

However, because the Blood Thunder Cliff was already extremely powerful, it had two grade-4 Rulers. The Thunder God Palace had even sent one over, a total of three grade-4 Rulers, in a grade-2 astral world, they could absolutely be the king and the Ruler.

Thus, over the course of many years, none of the enemies of the Blood Thunder Cliff dared to come knocking on their doors.

It was precisely because of this that the Devil Flame, as the enemy of the Blood Thunder Cliff, came knocking on their doors. This also lowered the defenses of the Thunder God Palace.

Boom!

The black-robed demonic god, who was located at the highest point of the void, attacked directly. He moved like lightning and easily killed all the escaping experts one by one.

At the same time he killed these experts, his gaze had long been fixed on a person.

It was a cold-looking man in silver armor. This cold-looking man was also running away. Moreover, he had deliberately concealed his aura. His method of concealing his aura was quite brilliant.

If it was not for Devil Flame knowing his appearance and the fact that he had already set his eyes on him, he might have taken the opportunity to escape.

Hu!

Devil Flame appeared directly in front of the cold-looking man in silver armor as if he had teleported. His ice-cold killing intent instantly covered the cold-looking man.

“Not good!” The cold-looking man’s expression changed drastically. Seeing Devil Flame in front of him, he was ready to attack. He immediately shouted, “Stop, I’m from the Thunder God Palace. My Ruler is the number one principle enforcement elder of the Thunder God Palace, Emperor Rain Ruler!”

“If you dare to kill me, my Ruler will definitely not let you off!”

“Thunder God Palace? Emperor Rain Ruler?” Devil Flame frowned, but he was secretly laughing in his heart.

This cold-looking man actually brought out the Thunder God Palace and Emperor Rain Ruler to threaten him at the critical moment. This was what Devil Flame wanted.

“Humph, what Thunder God Palace, What Emperor Rain Ruler? I’ve never heard of it. You’d better die.” Devil Flame attacked without hesitation.

“No!”

The cold-looking man let out a miserable cry. Under the absolute suppression of his strength, he couldn’t even last two moves before he was killed by Devil Flame on the spot.

After killing the cold-looking man in front of him, the Devil Flame pretended to continue chasing after the fleeing experts from the Blood Thunder Cliff. It only stopped after all the cultivators from the Blood Thunder Cliff had fled.

“Ruler, I’ve killed Emperor Rain’s disciple according to your instructions. What should I do next?” The Devil Flame sent a message to Jian Wushuang.

“Don’t worry. Just stay in the Blood Thunder Cliff and pretend that you’re looting the treasures accumulated in the Blood Thunder Cliff. If everything goes well, Emperor Rain will get the news soon and come here as soon as possible. Then I’ll take him down,” Jian Wushuang said.

“Yes.” Devil Flame nodded.

He immediately began looting the Blood Thunder Cliff according to Jian Wushuang’s instructions.

As Jian Wushuang had expected, Emperor Rain, who was far away in the Thunder God Palace’s lair, immediately received the news shortly after the cold-faced man’s death.

In the principle enforcement temple of Thunder God Palace.

“Bastard!”

A low shout suddenly exploded in the void, and then an extremely violent aura suddenly rose.

“Third Elder, Eighth Elder, follow me!” The voice ordered.

Soon, three figures rushed out from the principle enforcement temple. The other two were fine, but the leader had a shocking killing intent.

Wherever he passed, the surrounding experts of Thunder God Palace could feel his unconcealable killing intent.

“What’s going on?”

“Emperor Rain Ruler, What’s going on?”

“Who knows, something might have happened.”

Many cultivators in Thunder God Palace were discussing.

And at this moment...

“Emperor Rain!” An aged voice suddenly sounded.

The three figures immediately stopped. The eyes of the golden-haired burly man in the lead were filled with an unconcealable fierceness, but when he saw the aged figure in front of him...the ferocity in his eyes also slightly receded.

“Grand Elder.” The two principle enforcement elders behind the Emperor Rain Ruler immediately bowed respectfully.

“Emperor Rain, what happened?” The old figure asked.

“It’s Zhenfu. He was killed.” The Emperor Rain Ruler said in a low voice.

“Zhenfu? That little fellow died?” The old figure frowned slightly. He could understand why the Emperor Rain Ruler was so furious.

Emperor Rain Ruler did have many disciples, but those who had made some achievements could be counted on one hand. Zhenfu was undoubtedly the most outstanding disciple under Emperor Rain Ruler.

He was now a fourth-level Ruler, in the future, he had a chance to reach the fifth-level. He could even take his place and become the new first principle-enforcing elder of the principle-enforcing temple.

Emperor Rain Ruler placed great importance on this disciple of his.

“Who killed that little fellow?” The old figure asked.

“It was a fifth-tier Ruler who appeared out of nowhere. He seems to have a deep grudge with a branch faction under the Thunder God Palace. Previously, he had been escaping. Now that his strength has broken through, he ran back to take revenge. As for Zhenfu, he happened to be stationed there all these years, so he met with misfortune.” Emperor Rain Ruler gnashed his teeth.

“Is that so?” The old figure understood.

“First Elder, I won’t talk to you anymore. If we delay any longer, that fellow will escape.”

Emperor Rain Ruler was extremely anxious. He brought the two principle enforcement elders under his command and immediately headed toward the second-grade astral world.

After Emperor Rain Ruler left, that old figure frowned and seemed to be deep in thought.

...

Chapter 4067: The Ruler Behind Them

On the top of the mountain, the Blood Thunder Cliff had completely turned into ruins. Only the Devil Flame was still plundering treasures in the ruins.

However, not long after the Devil Flame destroyed the Blood Thunder Cliff, three figures with powerful auras arrived.

“They arrived so quickly?” Devil Flame raised his head and looked at the three people who had just arrived.

These three people were all fifth-level Rulers, and the person in the lead had reached the peak of the fifth-level. After this person arrived, an extremely violent aura immediately rose into the air, the gaze he used to look at Devil Flame was filled with hatred and anger.

“Who are you?” Although Devil Flame already knew in his heart, he still asked despite knowing the answer.

“You killed so many people under the command of my Thunder God Palace, and most importantly, you killed my disciple. You actually don’t know who I am?” Emperor Rain Ruler stared at Devil Flame, and his eyes seemed like they were about to spurt out sparks.

“You are Emperor Rain Ruler?” Devil Flame revealed a shocked expression.

“Since you know, then hurry up and take your life. Let’s attack together and kill him.”

As the number one principle enforcement elder of Thunder God Palace, Emperor Rain was always swift and decisive. He did not waste any time with Devil Flame and directly attacked.

Not only Emperor Rain, but the other two principle enforcement elders also attacked Devil Flame at the same time.

The three fifth-level Rulers were all peak existences among the fifth-level Rulers, especially Emperor Rain Ruler, who had reached the pinnacle of the fifth-level Rulers. The three of them making their moves at the same time was simply too powerful.

Devil Flame's gaze was cold, and he wasn't afraid at all. He directly went up and fought with the three Rulers.

Boom! Boom! Boom! Boom!

A series of earth-shaking explosions sounded one after another. The Blood Thunder Cliff, which had been turned into ruins, suffered unprecedented destruction and became even more miserable.

In the void not far away from the Blood Thunder Cliff, Jian Wushuang and Leng Rushuang stood side by side. They could directly see the battlefield in front of them.

"They are at least three Rulers at the peak of the fifth level, and Emperor Rain is only second to the Ultimate Ruler. He won't be able to resist the Devil Flame if they join hands," Leng Rushuang said.

"Yes." Jian Wushuang nodded slightly. "After all, Devil Flame's divine body has just recovered to 50%, and his cultivation has barely reached the fifth level. Although he has the memory and skills of an Ultimate Ruler and has the combat strength at the peak of the fifth level, he is at best on par with Emperor Rain. Now, he is at a disadvantage against three Rulers."

"Shuang 'er, wait here. I'll go help Devil Flame," Jian Wushuang ordered.

"Okay." Leng Rushuang nodded.

Whoosh!

Jian Wushuang dashed forward.

In an instant, Jian Wushuang appeared on the battlefield. As soon as he appeared, Devil Flame, who had been fighting with the three principle enforcement elders, immediately stopped and came behind him.

"Master," Devil Flame called out respectfully.

"Thank you for your hard work," Jian Wushuang said.

The simple exchange was heard by Emperor Rain and the other two.

"Master?"

Emperor Rain could not help being stunned.

"This mysterious expert who single-handedly destroyed Blood Thunder Cliff and killed my disciple, whose battle strength is no less than mine, actually called this third-level Ruler as his master?" Emperor Rain felt a little incredulous.

The two principle enforcement elders beside him also felt the same way.

“Emperor Rain, I’ve been waiting for you here for a long time,” Jian Wushuang said with a smile.

“Waiting for me for a long time?” Emperor Rain’s expression changed, but his pupils immediately shrank. “The person who really has a grudge against Blood Thunder Cliff is you? Did you ask your servant to kill my disciple?”

“I did ask him to kill your disciple. As for me and Blood Thunder Cliff, we don’t have any grudges. The reason I asked him to do this was to lure you here,” Jian Wushuang said with a smile.

Emperor Rain’s expression suddenly changed.

He was not a fool. He immediately reacted after hearing Jian Wushuang’s words.

The mysterious cultivator in front of him, who was unknown but had a superior Ruler of the fifth level as his servant, did not really want Blood Thunder Cliff, but for him!

He had destroyed the Blood Thunder Cliff and killed his disciple just to lure him here from the Thunder God Palace.

“You dare to scheme against me after killing my disciples? Brat, you are really courting death!”

Emperor Rain Ruler was completely enraged.

He was originally a violent person, which was why he was the number one principle-enforcing elder of the Thunder God Palace and was responsible for enforcing the principle.

Now that he knew that he had been tricked by a third-level Ruler, he was naturally very angry.

Boom!

Emperor Rain attacked again, and the other two principle enforcement elders beside him also attacked at the same time.

Their eyes were filled with killing intent as they focused on Jian Wushuang. However, although they were eager to kill Jian Wushuang, they focused most of their energy on the Devil Flame behind Jian Wushuang.

They did not care about Jian Wushuang because he was only a third-level Ruler. On the contrary, they knew that his servant Devil Flame was also very powerful.

However, at this moment, the third-level Ruler, Jian Wushuang, who they did not care about, moved.

He took out the Wuqi Divine Sword and suddenly moved.

Swish! Swish! Swish! Swish! Swish! Swish!

The vast void was filled with thousands of afterimages of Jian Wushuang.

Jian Wushuang crossed the distance directly, and the Wuqi Divine Sword in his hand also flew out.

Emperor Rain and the two principle enforcement elders’ eyes instantly fixed on the sword that Jian Wushuang swung out.

The sword attack gave them a very strange feeling.

It was slow and soft, as if it felt a bit of power. However, this sword attack made the three of them shiver.

Chi! Chi! Chi!

The cold sword edge directly cut through their divine bodies.

In an instant, the Supreme Treasure armor on two of their bodies was torn apart. The terrifying power of the sword shadow destroyed their divine bodies on the spot and madly destroyed their divine power.

Under the impact of the Sword Shadow, more than 70% of the divine power of the two principle enforcement elders was destroyed.

As for Emperor Rain, as a member of the highest level of the Thunder God Palace, not only was his strength much stronger, but he also had an inferior-grade principle supreme treasure armor protecting his body, although Jian Wushuang could now use part of the power of the Wuqi Divine Sword and easily tear apart ordinary supreme treasure armor, he could not directly tear apart the principle supreme treasure armor, therefore, although this sword attack had severely injured Emperor Rain, it did not cause him to lose more than 70% of his divine body.

However, this sword attack had completely stunned the three of them!

Chapter 4068: Suppression

“How is this possible?”

“A third-level Ruler can destroy 70% of our divine power with one strike? This is impossible!”

The two principle enforcement elders were terrified and stared at Jian Wushuang with wide eyes.

“How can he be so strong? and his swordsmanship is so fast that even I am not qualified to resist it. How can a third-level Ruler be so terrifying?” Emperor Rain looked at Jian Wushuang in disbelief.

He did not know that Jian Wushuang had killed a fifth-level Ruler when he was a second-level Ruler.

After he broke through to the third-level Ruler, his divine power was no weaker than that of a fifth-level Ruler. With his great advantage in the principles, he could easily kill a fifth-level Ruler like an adult bullying a child, he could easily kill a fifth-level Ruler.

Apart from that, he also obtained the violet-blood secret manual, which gave him a certain level of control over the principles of the universe. He was even able to perfectly combine the principles of the universe with his own Sword Dao, reaching the first realm mentioned in the violet-blood secret manual.

Once he reached this first realm, his overall strength once again soared. Right now, in terms of combat power, he had long surpassed a fifth-level Ruler. Even compared to an Ultimate Ruler, he was still infinitely inferior.

Moreover, because of the perfect combination of the universe principle and his sword principle, his swordsmanship was extremely exquisite. Perhaps even the Ultimate Rulers who were good at sword principle were far inferior to him in swordsmanship.

Naturally, he could easily kill these fifth-level Rulers.

Even the top-level Rulers of the fifth-level could only take one or two sword strikes from Jian Wushuang.

“The three of you are already very powerful among the Rulers of the fifth-level, but one strike is not enough. What about another one?” Jian Wushuang smiled, he raised the Wuqi Divine Sword in his hand again.

“Oh no!” The faces of Emperor Rain and the other two changed drastically.

“Run, run!” Emperor Rain shouted in a low voice.

At this moment, Emperor Rain Ruler no longer wanted to take revenge for his disciple.

He was very clear that the other party’s strength was so tyrannical, and it was obvious that they were here for him. Naturally, he was prepared.

If he was not careful in today’s matter, he, Emperor Rain Ruler, would very likely die here, not to mention the two principle enforcement elders beside him who were not even as strong as him.

Following Emperor Rain’s shout, the three figures fled at the same time.

But just as Emperor Rain had said, since Jian Wushuang had lured him here on purpose, he was prepared. How could he give them a chance to escape?

With a thought, the three towering golden stone tablets immediately rose up.

The three Heaven Suppression Tablets appeared from three different voids around the Blood Thunder Cliff. Obviously, Jian Wushuang had placed the three stone tablets there and activated them as soon as Emperor Rain and the others fell into the trap.

As expected, as soon as Jian Wushuang activated the three Heaven Suppression Tablets, the Divine Devil Heaven Suppressing Formation was activated and covered the vast void. Naturally, it also completely covered Emperor Rain and the others.

The terrifying suppressive force directly affected Emperor Rain and the others.

As soon as the Divine Devil Heaven Suppressing Formation was formed, it completely blocked the escape route of the three people.

“Oh no, it’s a suppression formation. I was prepared for it.” Emperor Rain’s expression was extremely ugly.

He immediately recognized that the three golden stone tablets were suppression-type supreme treasures.

The suppression formation activated by the three suppression-type supreme treasures was so powerful that the three fifth-level Rulers could not break it?

The terrifying suppression force that came directly at them made Emperor Rain and the others feel despair.

At this moment, Jian Wushuang had caught up with them.

Without the suppression of the Divine Devil Heaven Suppressing Formation, the three of them could not resist Jian Wushuang's swordsmanship at all.

However, under the Divine Devil Heaven Suppressing Formation, their strength was greatly suppressed, and Jian Wushuang's strength had increased again. Now, he was displaying his swordsmanship.

Chi! Chi! Chi!

Before the two ordinary principle enforcement elders could even let out a scream, their divine bodies collapsed again. This time, they had no chance to regenerate their divine bodies and were directly killed.

As for Emperor Rain, his endurance was indeed much stronger than the two principle enforcement elders. However, after two consecutive strikes, his divine power had been reduced by nearly 50%. If Jian Wushuang continued to attack, he would definitely die!

Emperor Rain could no longer see any hope of escaping, but his eyes were still cold and filled with violence as he stared at Jian Wushuang, he said sternly, "Boy, what is the grudge between you and me? Why are you scheming against me? Even if I die, you have to let me die with closure."

"Grudge?"

"No, there was no grudge between us before. The reason why I came to deal with you this time is because you are the first principle enforcement elder of the Thunder God Palace and one of the highest-ranking officials of the palace." Jian Wushuang said with a smile.

"What?" Emperor Rain narrowed his eyes. "You have enmity with the Thunder God Palace?"

"No, I just want to know something from you. I'll ask you now. If your answer satisfies me, maybe I'll let you live," Jian Wushuang said with a smile.

Emperor Rain stared at Jian Wushuang. He wanted to see if Jian Wushuang was lying, but it was obvious that Jian Wushuang was not lying.

"What do you want to know?" Emperor Rain asked in a deep voice.

"More than 100,000 years ago, Lei Yi, the number one genius of your Thunder God Palace, was killed. After that, your Thunder God Palace issued a bounty, causing a great sensation in the entire Nine Luminaries Galaxy. However, not long ago, your Thunder God Palace kept a low profile and removed the reward. Why?"

"And the person on the bounty, how is he now?" Jian Wushuang looked at Emperor Rain.

"Bounty?" Emperor Rain looked at Jian Wushuang in surprise. "You're here for the person on the Bounty?"

"Yes." Jian Wushuang did not deny it.

"Haha, I see. I'm surprised that the Thunder God Palace has an enemy that is an absolute Ruler in the Nine Luminaries Galaxy. Although we have enemies, there are only a few who can really threaten us. However, your strength must be the strongest among the many potential enemies of the Thunder God Palace. However, the Thunder God Palace did not receive any information before, which is obviously

illogical. Now it seems that you're not a cultivator from the Nine Luminaries Galaxy, but from another Galaxy. Moreover, your relationship with Xuan Yi must be extraordinary." Emperor Rain laughed.

"I'm asking you, what's the whereabouts of the person on the bounty?" Jian Wushuang's eyes were cold.

...

Chapter 4069: First Elder of the Thunder God Palace

"Boy, do you think I will answer your question honestly? Who do you think you are, a Supreme Elder?" Emperor Rain mocked.

"It's okay if you don't say it now. After I suppress you, I will have time to ask you slowly." Jian Wushuang did not waste time with Emperor Rain. He waved his hand, instantly, the three Heaven Suppression Tablets in the surrounding void burst out with dazzling golden light.

On the Heaven Suppression Tablet, the three enormous golden divine devil phantoms condensed, and the already powerful suppressive force rose again.

"A suppression-type principle treasure?" Emperor Rain's pupils constricted.

The suppressive force of a suppression-type Principle treasure was already very powerful. He still had more than half of it left and could barely resist the suppressive force. However, once he was seriously injured and fell into a weakened state...Jian Wushuang could control the principle-type supreme treasure and completely suppress him. His life and death would be controlled by his opponent.

"You want to suppress me? In your dreams!" Emperor Rain roared and struggled desperately in the Divine Devil Heaven Suppressing Formation.

However, the Divine Devil Heaven Suppressing Formation was a powerful Suppressive Formation performed by three Heaven Suppression Tablets at the same time. If Jian Wushuang were to perform it personally, Emperor Rain would not be able to escape the Suppressive Power of the Divine Devil Heaven Suppressing Formation.

At the same time, Jian Wushuang also made a decisive move.

Whoosh! Whoosh! Whoosh!

One after another, mysterious sword lights slashed toward Emperor Rain.

These sword lights were imbued with a rich universal principle. They were unfathomable and incredibly fast. Emperor Rain could barely withstand one or two of them, but the remaining ones were still standing on his divine body.

One sword, two swords. After just a few swords, more than 80% of Emperor Rain's divine power had been destroyed. His aura had become extremely weak.

At this point, it would be extremely difficult for him to block the suppressive force of the Heaven Suppression Array.

But at this moment, a change occurred!

Boom!

A pale palm appeared out of thin air. This palm expanded infinitely in the air and in an instant, it forcefully tore open a hole in the heaven suppression array. It then grabbed Emperor Rain.

The entire Divine Devil Heaven Suppressing Formation shook violently. The three Golden Divine Devil Phantoms on the Heaven Suppression Tablet dimmed slightly, and the entire formation almost collapsed.

“Eh?” Jian Wushuang frowned.

With his current strength, the Divine Devil Heaven Suppressing Formation cast by the three Heaven Suppression Tablets was forcefully torn apart and almost collapsed?

His opponent’s strength was extraordinary.

Buzz! An old figure appeared in the magic formation and stood beside Emperor Rain.

“First Elder!”

Seeing the arrival, Emperor Rain, who was already extremely weak and almost despaired, was overjoyed. His eyes shone with a dazzling light again.

“First Elder?” Jian Wushuang narrowed his eyes.

He knew all the information about the top officials of the Thunder God Palace. Among them, the three ultimate level Rulers were the strongest and most respected.

The First Elder of the Thunder God Palace was one of the three ultimate level Rulers.

“Ultimate level Rulers?” Jian Wushuang took a deep breath, but he was very surprised, “When I attacked, I had already completely sealed off the surrounding space and time. Although Emperor Rain was in a desperate situation, he shouldn’t have been able to send a message for help. Even if he could, the senior experts of the Thunder God Palace shouldn’t have been able to arrive so quickly. But this great elder...

“How did he know that Emperor Rain was in danger and how did he arrive here in time?” Jian Wushuang was very confused.

But in fact, not only him, but also Emperor Rain was very surprised.

“First Elder, why are you here?” Emperor Rain asked immediately.

“When I saw you in the palace, I already knew something was wrong,” the old figure said, “our Thunder God Palace has stood in the Nine Luminaries Galaxy for a long time, and we have many enemies. However, only a handful of them can reach the fifth level. Moreover, under the strong influence of our Thunder God Palace, these enemies usually hide. It’s already good enough that our Thunder God Palace doesn’t actively pursue them. Who has the courage to directly take revenge on our Thunder God Palace?”

“And this time, it was an unknown powerhouse who suddenly destroyed the Blood Thunder Cliff. Your disciple Zhenhuang happened to be there as well. This is too much of a coincidence.

“So, when you rushed out to avenge your disciple, I followed you secretly just in case. Unfortunately, I was a little slow and could only save you in time. I couldn’t save the two principle-enforcing elders as well.” The First Elder of Thunder God Palace sighed.

Whether it was Emperor Rain and the other two or the First Elder of Thunder God Palace, they all arrived at the second-grade astral world through the universe passage.

However, after the same universe passage was activated once, it would take a while for it to be activated a second time. It was during this time that the First Elder of Thunder God Palace was delayed a little.

In addition, Jian Wushuang was too strong and too fast. When the First Elder of Thunder God Palace arrived, the two principle enforcement elders were already dead, but Emperor Rain was still alive and had not been completely suppressed.

“First Elder, this is the person who killed Zhenhuang and the third and eighth principle enforcement elders. If you hadn’t arrived in time, I’m afraid I would have died in his hands and at the very least, I would have been suppressed.” Emperor Rain stared at Jian Wushuang, he gnashed his teeth and said.

The First Elder of Thunder God Palace also fixed his eyes on Jian Wushuang.

“A third-level Ruler?” The First Elder of Thunder God Palace narrowed his turbid eyes slightly.

“First Elder, although he is only a third-level Ruler, his strength is very terrifying. He killed the third and eighth enforcement elders with only two strikes. His battle strength is definitely at the pinnacle of the fifth-level. He is even stronger than me,” Emperor Rain said immediately.

“I can see that if he doesn’t have enough strength, he won’t dare to plot against the first principle enforcement elder of the Thunder God Palace.” The voice of the First Elder of the Thunder God Palace became cold, “I don’t know who you are, but since you dare to plot against the Thunder God Palace, you shall die today.”

“Oh, you are very confident?” Jian Wushuang’s lips curled up.

Boom!

The First Elder of Thunder God Palace made a move directly. He did not move much and simply flipped his hand.

In an instant, a large amount of divine power, accompanied by endless power of Principles, rapidly gathered in the void. In the blink of an eye, it formed a giant jade-like hand.

The giant hand occupied more than half of the sky, and Jian Wushuang was under the cover of the giant hand. He looked up and could clearly sense the destructive aura contained in the giant hand.

Chapter 4070: Ultimate Ruler

“This is the strength of an Ultimate Ruler?” Jian Wushuang was surprised.

He had come into contact with an Ultimate Ruler before.

Like Devil Flame, he had been an Ultimate Ruler at his peak.

In the Bone Pupil Galaxy, the Golden Feather Star Lord and Green Flame Star Lord he had met were also Ultimate Rulers.

However, even though he had come into contact with them, he had never really fought with a final realm Ruler. It could even be said that he had never seen a final realm Ruler fight up close.

This caused his judgment of the final realm Ruler’s strength to be slightly off.

He had originally thought that the final realm Ruler and the fifth realm Ruler only had a difference in the power of their divine power and that they had fused an additional principle.

The difference between the two was almost the same as the difference between a fourth-level Ruler and a fifth-level Ruler.

However, now that Jian Wushuang saw an Ultimate Ruler making a move, he instantly understood that it was not the case.

An Ultimate Ruler was much more powerful than a fifth-level Ruler.

Not to mention the power of divine power, just the principles of heaven and earth alone...

A fifth level Ruler needed to fuse eight principles, and an Ultimate Ruler needed to fuse nine principles.

But one had to know that nine was the heaven and earth level.

Fusing nine principles was the pinnacle of all cultivators in the universe.

Once nine principles were fused, it meant that he had reached the highest level in the principles of heaven and earth and had no chance of further improvement. After reaching this level in the same principles, a cultivator’s strength would undergo a qualitative transformation.

This change included all kinds of aspects, but the power of the fusion of the nine Principles alone was ridiculously strong.

For example, the seemingly casual palm of the First Elder of the Thunder God Palace had brought Jian Wushuang endless pressure.

“Humph!”

Jian Wushuang snorted coldly, and the Wuqi Divine Sword in his hand burst out with majestic power.

An extremely violent aura condensed in his hand. It seemed to be able to cut through the sky and cut open the vast universe.

Whoosh!

The huge sword light directly slashed out, carrying Jian Wushuang's highest understanding of the universe origin of sword principle, his comprehension of the universe principles, and most importantly, the two were perfectly combined.

Jian Wushuang had used the universe principles in the past years and combined them with sword principle to the extreme.

His strength had also reached the extreme and he had just displayed his strongest sword move.

This sword move was the first move of splitting heaven!

The same sword skill had been perfected over tens of thousands of years and was no longer the same as before.

Boom!

The world suddenly shook and the surrounding void seemed unable to withstand the impact of the two terrifying forces and began to shake.

In the blink of an eye, more than half of the mountain where the Blood Thunder Cliff was located disappeared. Previously, when the Blood Thunder Cliff was destroyed by the Devil Flame, there was at least a piece of debris left, but now there was no debris, only the bare mountain wall was left.

Under the impact of the two supreme forces, the giant crystal hand that covered more than half of the Void was broken in the middle. The entire palm was split in half, obviously forcefully split in half by someone.

Whoosh!

Jian Wushuang appeared beside Devil Flame.

"Let's go," Jian Wushuang said and then rushed toward the surrounding void with Devil Flame.

After a long while, the void slowly calmed down and the overwhelming power dissipated. The old figure, the First Elder of the Thunder God Palace, was still standing in the highest void with a calm expression, as for Emperor Rain King, who was beside him, he was extremely anxious.

"First Elder, that brat has escaped. Aren't you going to chase after him?" Emperor Rain King asked in a low voice.

"Do you think that this old man doesn't want to kill him?" The First Elder of the Thunder God Palace coldly glanced at Emperor Rain King.

Emperor Rain King was startled. When he sensed the cold eyes of the First Elder of the Thunder God Palace, his heart could not help but shudder.

Only then did he remember that although he was also one of the highest-ranking members of the Thunder God Palace and held an important position in the palace, compared to the First Elder in front of him, the difference was still like heaven and earth.

The First Elder of the Thunder God Palace, the Ultimate Ruler, was one of the most powerful forces of the Thunder God Palace.

After all, the Ultimate Ruler was the most powerful force in the entire Nine Luminaries Great Star area. There were only about twenty of them in the entire Nine Luminaries Great Star area, while the Thunder God Palace only had three.

Any one of these three ultimate Dominators was the true pillar of the Thunder God Palace, and they could not fall.

But like Emperor Rain, although he was the temple Ruler of the principle enforcement temple and the number one principle enforcement elder, if he died, the Thunder God Palace could easily find someone to replace him.

But the First Elder could not be replaced.

And how could he teach the First Elder how to do things?

“Grand Elder, could it be that even you can’t kill him?” Emperor Rain Ruler became extremely obedient this time and even addressed him as ‘you’ in a humble tone.

“Hmph, although I don’t know where this kid came from, his strength is indeed very strong. Although he is only a third-level Ruler, his divine power isn’t any weaker than a fifth-level Ruler. Most importantly, he has comprehended the principles of the universe, and his comprehension of the principles of the universe has reached an extremely high level, far exceeding our imaginations. Just by relying on his comprehension of the principles of the universe, he can already be considered invincible among fifth-level Rulers. Even compared to an Ultimate Ruler, he isn’t much weaker.”

“Didn’t you see that my palm was cut in half by his sword?”

“Although I didn’t use my full strength, I’m sure that I can’t kill him even if I use my full strength. If I want to kill him, I need two or even three Ultimate Rulers to do it at the same time,” the First Elder said in a deep voice.

“That kid is so powerful?” Emperor Rain was shocked.

He did not expect that the First Elder would have such a high opinion of Jian Wushuang.

Moreover, Jian Wushuang was able to cut the First Elder’s giant crystal hand in half with a single strike. His strength was really impressive.

“Let’s go back first. When we get back, you can tell me what happened. I want to know why this person set you up,” the First Elder said.

“Yes.” Emperor Rain nodded respectfully.

Soon, the First Elder and Emperor Rain returned to the Thunder God Palace.

In the vast void, a universe boat stopped quietly. Jian Wushuang and Leng Rushuang sat together in the universe boat, while Devil Flame stood beside them.

“It failed.”

“I didn’t expect that Emperor Rain would be trapped in a well-designed trap. We were able to completely suppress him, but in the end, he still escaped.”

Jian Wushuang clenched his hands, a trace of unwillingness in his eyes.
