

Swordsman 4091

Chapter 4091: The Great Escape

Jian Wushuang was fleeing rapidly in the dark universe void. Behind him, there were seven Ultimate Rulers who were pursuing him relentlessly!

Jian Wushuang had stopped burning his divine power. After all, there was not much divine power left. Even so, the distance between him and the seven Ultimate Rulers was not shortened.

“A mere third-level Ruler is not much slower than us?”

“We are all Ultimate Rulers, how can we not catch up with him?”

The seven Ultimate Rulers who were chasing him were secretly speechless.

This was one of the benefits that Jian Wushuang gained after reaching the first stage of the Purple Blood Secret Manual and greatly improving his use of the universal principles.

Previously, Jian Wushuang’s use of the universal principles could only be used in his own attacks, but he did not know the various wonderful uses of the universal principles.

But now, Jian Wushuang was surrounded by the universal principles, and his speed was no less than that of an Ultimate Ruler.

The seven Ultimate Rulers were already a certain distance away from Jian Wushuang. After a turn, Jian Wushuang was still quite far away from them.

“We can’t keep chasing like this. Let’s use the universe boat.”

One of the Ultimate Rulers said.

As soon as he finished speaking, a universe boat emitting a faint bronze light appeared in front of him. The level of this universe boat was not very high, but it was much higher than the universe boat that Jian Wushuang had taken before.

Most importantly, this was the dark void of the universe. The speed of the universe boat traveling through the dark void of the universe was much faster than the speed of a cultivator.

In an instant, the Seven Ultimate Rulers entered the universe boat. The universe boat, which was emitting a bronze light, immediately burst out with amazing speed and chased after Jian Wushuang.

The speed of the universe boat was much faster than Jian Wushuang’s fleeing speed. In an instant, the distance between Jian Wushuang and them was shortened.

But suddenly...

Jian Wushuang, who had been fleeing in a straight line, suddenly turned around and changed his direction to rush toward the Void to the side.

“He changed his direction. Quick, let’s change our direction too.”

On the universe boat, the Ultimate Ruler who controlled the universe boat also immediately controlled the universe boat to turn around.

However, the universe boat was indeed fast in a straight line in the dark void of the universe, but it did not mean that the universe boat could change its direction so quickly.

It was easy to imagine that it would be much more difficult for a universe boat with such a huge body to change its direction than for a cultivator.

When universe boat finished changing its direction, Jian Wushuang had already continued to move forward for some distance. When universe boat was ready to continue chasing after him, Jian Wushuang, who was fleeing in front, immediately began to change his direction.

“This kid...is really cunning!”

“There’s no other way. Universe boat is fast, but it’s much more difficult to change direction while flying. This kid knows this, which is why he did this.”

“This is troublesome. If he continues to change direction like this, even if we take universe boat, it will be difficult to catch up with him.”

The seven Ultimate Rulers in the universe boat looked gloomy.

They had already felt that Jian Wushuang, a third-level Ruler, was too difficult to deal with.

But they did not give up.

“Let’s give up the universe boat and chase after him with our own speed. Although his speed is not much slower than ours, don’t forget that he has been severely injured by Lord Devour. He probably has less than 20% of his divine power left. Now, it’s obvious that he relies on the universe principles to be able to burst out with such amazing speed. However, using the universe principles all the time consumes a lot of his divine power. How long can he last with that little divine power?”

“When his divine power is almost used up, his speed will naturally increase. Then we’ll chase after him and capture him.”

One of the Ultimate Rulers spoke, instantly gaining the approval of the others.

Immediately, the seven Ultimate Rulers put away the universe boat and began to chase after Jian Wushuang again with their own speed.

Seeing this, Jian Wushuang did not need to continue changing directions. Instead, he maintained this distance and continued to flee forward.

While fleeing, Jian Wushuang looked back at the Ultimate Rulers who were chasing him from time to time, sneering in his heart, “Knowing that I was severely injured by the previous supreme-being and that I don’t have much divine power left, and that I’m only a third-level Ruler, you want to waste your time with me and kill me after I run out of divine power?”

“Humph, your plan is good, but I’m afraid you’ll disappoint them.”

Jian Wushuang could see the thoughts of the Ultimate Rulers behind him, but he was not anxious.

Yes, he was severely injured, and he did not have 20% of his divine power left.

But don't forget, he was a perfect life. How vast was his divine power?

Even if he had less than 20% of his divine power left, it was still much more vast than ordinary Rulers. At least, the seven Ultimate Rulers were chasing him, even if their divine power was at its peak, however, Jian Wushuang did not think that he had less divine power left than them.

As for the consumption of divine power by using the universal principles...it was indeed a consumption. However, the seven Ultimate Rulers were also chasing him with all their strength, so did they also have to consume divine power?

It could be said that he was not at a disadvantage in the consumption of divine power.

Now, the competition was about whose divine power was more vast.

Even if Jian Wushuang had less than 20% of his divine power left, it was not a waste of his divine power.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

In the void of the dark universe, a figure quickly across, the speed is incredible.

The seven Ultimate Rulers had been chasing Jian Wushuang for almost an hour. They thought that Jian Wushuang's divine power would be used up, but it turned out that Jian Wushuang was still so fast, has not weakened in the slightest.

"How is it possible? It has been nearly an hour since he escaped using the principles of the universe. His remaining divine power should have been used up long ago."

"Even the few of us have used up quite a bit of our own divine power after chasing after him at all costs. I reckon that we've already used up more than ten percent of our divine power. However, this kid clearly doesn't have much divine power, yet he hasn't shown any signs of weakness at all."

"What's going on?"

The seven Ultimate Rulers were confused.

They had been staring at Jian Wushuang, who looked extremely weak. However, no matter how weak he was, his speed did not slow down.

At this moment...

"Huh?"

The seven Ultimate Rulers who were chasing Jian Wushuang with all their strength had a change in expression. Some of them immediately turned gloomy.

Chapter 4092: Escape

"So soon?" One of the Rulers said in a low voice.

"There's nothing we can do. This is their territory, after all," another Ruler said.

“His lordship gave the order for us to immediately leave. It seems we need to leave as soon as possible. Unfortunately, we weren’t able to catch that kid up ahead,” the third Ruler said.

These Ultimate Rulers all came from the same force, and they absolutely followed the orders of the higher-ups.

Now that they had received the order to leave immediately, they naturally would not stay any longer.

“Let’s go!”

With a sigh, the seven Ultimate Rulers immediately turned around and left in the direction they had come from.

Jian Wushuang, who had been observing the scene behind him, felt relieved when he saw the seven Ultimate Rulers turn around and leave.

“They finally left?” Jian Wushuang was still afraid.

Although the seven Ultimate Rulers had indeed disappeared from his sight, Jian Wushuang did not dare to stop. He continued to flee as fast as he could.

In the void of the universe where the Dusty Rain Star World was located, the huge human face had become even bigger and more ferocious than before.

Boom! Boom! Boom! Boom!

A series of earth-shaking and terrifying explosions kept ringing out from the center of the human face.

Each of the explosions seemed to be earth-shattering.

Each collision of divine power contained a terrifying strength that could destroy the world.

If the Dusty Rain Star World had still existed, it would have been destroyed countless times by the shockwaves.

The battle between Rulers could only be described as shocking.

This battle did not last for long.

Buzz...a figure suddenly appeared around the battlefield.

“Devour, stop,” the Golden War God, who was bathed in golden light, said in a sonorous voice.

In the middle of the huge human face, the cold man retreated and came to the Golden War God’s side.

“Their people have arrived. We have to leave immediately,” the Golden War God said.

“Hehe, they are really fast.” The cold man smiled. “Unfortunately, they are too late. This Star Field has been almost destroyed. The only regret is that the little guy escaped.”

“It doesn’t matter if he escaped. After all, he is only a third-level Ruler. Even if he really is that person’s disciple, he probably doesn’t know much.” The Golden War God said, then, he waved his hand. “Let’s go.”

The two immediately left.

As they left, the Golden War God coldly glanced at the enormous human face behind them. This glance caused the owner of the human face to be secretly shocked.

Hu! The huge human face vanished into thin air. At the center of the human face, an elderly figure slowly appeared.

It was a white-haired elder with a child's face. He was standing on a purple beast that was over a hundred feet tall. Not only was the beast huge, but it also looked exceptionally ferocious. Its aura was also extremely terrifying.

"It's actually a supreme-being!"

The old man with a child's face and white hair looked in the direction where the two people had left. There was still a hint of shock in his eyes.

He was the owner of that human face. He was also the supreme-being who had been hiding in the Nine Luminaries Galaxy. His strength could also be considered quite strong among the supreme-beings.

The cold-looking man who had just exchanged blows with him had fought him in a fierce battle. The two of them were evenly matched. Clearly, their strength was not weaker than his.

He could still deal with this cold-looking man, but the Golden War God who had just arrived and told the cold-looking man to leave had given him a great deal of pressure.

Especially the cold glance that the Golden War God had given him when he had left. That glance had made the white-haired elder confirm that the other party had the strength of a supreme-being.

"A supreme-being. Even in the depths of the universe, he is a supreme being who can open up a divine kingdom alone. How could such a supreme being come here? And even start a massacre in this Star Field?"

"Who are they? And what is their purpose?"

The white-haired elder frowned and kept thinking in his heart.

...

In the Nine Luminaries Galaxy, Jian Wushuang fled to the dark void near the edge of the Star Field and finally stopped.

With a wave of his hand, Leng Rushuang and the Devil Flame immediately appeared in the surrounding void.

"Darling, are you okay?" Leng Rushuang looked at Jian Wushuang with a worried face.

Although she had been staying in the independent space of the Heaven Suppression Tablet, she could clearly see what had happened in the outside world.

She knew very well what kind of danger her husband had just experienced.

"Fortunately, although I used 90% of my divine power, I still saved my life." Jian Wushuang exhaled lightly, but a relieved smile appeared on his face. "I almost died. I almost died."

"Why are you laughing when you know you almost died?" Leng Rushuang rolled her eyes at Jian Wushuang.

"Hahaha!" Jian Wushuang laughed even more heartily, "This is what an adventure is like. This is what it's like to travel in the universe. I haven't felt like I'm on the brink of death for many years."

Jian Wushuang sighed from the bottom of his heart.

Indeed, when he was in the Divine Beginning Realm, although he had potential enemies and met with danger, he was able to survive because his life-saving ability was too heaven-defying.

Even though some of the crises were dangerous, Jian Wushuang still had great confidence. He knew that he would not die so easily.

But the scene just now was completely different.

Even he himself did not have any confidence that he could survive the situation just now.

He could only try his best to live as long as possible.

Yes, when he was being chased by that supreme expert, he indeed thought that he could live as long as he could.

Because he really did not have any ability to resist the supreme expert. In the end, if the mysterious supreme expert who had been hiding in the Nine Luminaries Galaxy had not attacked him, he would have definitely died, at the very least, he would've been captured alive.

"This is the universe."

Demonic Flame's voice suddenly rang out, "Ruler, the universe is filled with danger. All sorts of dangers can be found in the universe. Cultivators who wander the universe often have their heads on their belts. It's possible that a sudden crisis can cause them to die."

"Just like this time, the crisis also came out of nowhere. Ruler, you were lucky enough to survive. However, the countless living beings and cultivators in this Star Field were killed without any preparation."

"The slaughter in the universe is so ordinary and so sudden."

Chapter 4093: Someone Came

Hearing Devil Flame's words, Jian Wushuang could not help but fall silent.

Indeed, although this encounter was extremely dangerous for him, he still survived in the end. But what about the other cultivators in the Nine Luminaries Galaxy?

Previously, when Supervisor Feixue sent him a message, she told him that these people had started a massacre in the Nine Luminaries Galaxy to completely destroy it.

With their strength, would it not be easy for them to destroy a great Star Field?

Although the Nine Luminaries Galaxy had many Star Worlds and countless living beings, after this battle, how many Star Worlds could be preserved and how many living beings could survive?

Compared to the countless living beings and cultivators killed in this disaster, he was indeed extremely lucky.

“This is the universe!” Jian Wushuang sighed.

Although he had been wandering in the universe for more than 100,000 years, it was not until today that he truly understood the cruelty of the universe.

Compared to the Divine Beginning Realm, the universe boat’s slaughter was crazier, more sudden, and more bottomless.

For some experts in the universe, destroying a large Star Field and killing billions of creatures was like crushing an ant. It was very common.

However, Jian Wushuang had never seen these things with his own eyes.

“Hu!”

Taking a deep breath, Jian Wushuang took out a communication token.

“Supervisor Feixue.” Jian Wushuang sent a message to Supervisor Feixue.

“My friend Blood Sword, you survived?” Supervisor Feixue replied quickly.

“Thank you for sending the message in time so that I can be prepared. Otherwise...” Jian Wushuang thanked Supervisor Feixue.

Indeed, if Supervisor Feixue had sent him a message in advance, he would have been alert. Otherwise, he might not have been able to escape from that Ruler.

And even if he could escape, his wife and Devil Flame might not have been so lucky.

After all, it was precisely because he had received a message from Supervisor Feixue that he had immediately sent his wife, Devil Flame, and that Eighth into the universe boat so that he could carry them with him.

If they had not entered the universe boat earlier and that Ruler had attacked, the Dusty Rain Star World would have instantly collapsed. He might not have had the time to protect Leng Rushuang.

“Little friend, you are too polite. You are a friend of my Nine Emperor Pavilion. As the supervisor of the Nine Emperor Pavilion in the nine effulgent great star region, it is only right for me to give you a warning beforehand.” Supervisor Feixue laughed, then he asked, “Blood Sword, have you left the Nine Luminaries Galaxy?”

“Not yet, but I’m at the edge of it,” Jian Wushuang said.

“Then there’s no need for you to run now, my friend. The experts sent by some big forces in the depths of the universe have arrived. Those who killed in the Nine Luminaries Galaxy can only run for their lives now,” Supervisor Feixue said.

“Have the experts from the depths of the universe arrived?” Jian Wushuang narrowed his eyes, but he was not surprised.

Although the Nine Luminaries Galaxy was not located in the depths of the universe, it was very close. Moreover, the Nine Luminaries Galaxy had existed for a very long time. It was an extremely ancient Star Field, and there were many experts born in history, there were probably many Supreme experts.

Such a great galaxy must have many connections in the depths of the universe. How could some of the top experts or forces in the universe allow the Nine Luminaries Galaxy to be destroyed so easily?

It was certain that some experts would arrive.

However, Jian Wushuang did not expect that these experts would be so fast.

It would take tens of thousands of years, or even hundreds of thousands of years, or even longer, to travel from the depths of the universe to the Nine Luminaries Galaxy slowly with the help of the universe boat.

However, not long after that group of people had rampaged in the Nine Luminaries Galaxy, the experts from the depths of the universe had arrived. It was obvious that they had used some of the universe passages that led directly to the Nine Luminaries Galaxy.

The cost of opening such passages was extremely shocking.

“Supervisor Feixue, can you tell me which forces have sent experts from the depths of the universe this time?” Jian Wushuang asked casually.

“It’s not a secret, so it’s okay to tell you.” Supervisor Feixue smiled. “This time, the Nine Luminaries Galaxy has encountered a great disaster, and five forces in the depths of the universe have been alarmed. Among the five forces, three of them are under the command of experts. Some of them are related to the Nine Luminaries Galaxy, and another one belongs to a special camp which contains a mission. And the last one is the Nine Emperor Pavilion!”

“The reason why the experts of the Nine Emperor Pavilion came here is because the branch of the Nine Emperor Pavilion was destroyed by those people.”

Jian Wushuang nodded secretly.

“Blood Sword, since the experts from the depths of the universe have arrived, there will be no more trouble in the Nine Luminaries Great Star Field. You Don’t have to leave in a hurry. You can come to the Nine Emperor Pavilion again when you have time. The position of the Lord sent by the Nine Emperor Pavilion is extraordinary. If you come to the Nine Emperor Pavilion, maybe I can introduce you,” said Supervisor Feixue.

“Thank you, Supervisor Feixue.” Jian Wushuang smiled.

Soon, he cut off the communication with Supervisor Feixue.

At this moment, in the dark void in the center of the Nine Luminaries Great Star Field.

Rumble! A terrifying pressure gathered and formed a huge storm.

In this storm, towering figures stood there casually. No matter how strong the storm was, it could not move these figures at all.

There were a total of six people standing in the storm.

These six people were all Supreme-beings.

And one of them was a white-haired elder with a child's face. He was the Supreme-being who had been hiding in the Nine Luminaries Great Star Field.

However, this white-haired elder was clearly inferior when facing the other five people.

"Five people, this is all I know. As for the origins of those people, I don't know anything about their goals," said the white-haired elder with a child's face.

After hearing the white-haired elder's explanation, the five people in the storm frowned.

"You're saying that there's a Supreme-being amongst them?" An arrogant man with eagle-like eyes asked. His voice was filled with a metallic pressure.

"That's right. Although he didn't really make a move and merely glanced at me, I could sense the pressure he was giving me. The pressure he was giving me was definitely on the level of a Supreme-being," the white-haired elder said.

"This is going to be interesting." The wild man grinned. "How many Supreme Ruler-level experts are there in the entire universe? It's fine if you can't recognize them, but when you saw us rush over, you immediately left without saying a word..."

"..."

Chapter 4094: Sensing

"Although the Nine Luminaries Great Star Field does have quite a few connections with the experts of some of the major powers in the depths of the universe, the side that attacked this time was able to send out a Supreme-being. Naturally, their strength wouldn't be too far off. At the very least, they should be one of the top powers in the universe. Logically speaking, there shouldn't be any need for such a top-tier power to hide. It's just a grand celestial domain. If it wasn't destroyed, it would've been destroyed. There shouldn't be a need for us to escape in advance," A gentle female voice said from within the storm.

"It's strange indeed. The people who attacked us were extremely fast. However, when they sensed that we had arrived, they immediately left without leaving any traces behind. This way of doing things doesn't seem to be the work of those big forces in the universe. Instead, it seems to be the work of those people." An aged voice sounded.

"Those people?"

The super existences in the storm instantly became solemn.

"If those people really did it, then there must be a big secret hidden in the Nine Luminaries Great Star Field. The reason why they want to wipe out the Nine Luminaries Great Star Field is probably to cover up that secret," said the arrogant man.

The people around also nodded in unison.

They were all top existences in the universe, and each of them had an extraordinary background. Naturally, they knew more about the secrets of the universe.

And the style of the group of experts who attacked the Nine Luminaries Great Star Field this time did indeed remind them of a mysterious organization.

If it really was that group of experts who attacked, then this Nine Luminaries Great Star Field was definitely not ordinary.

"Unfortunately, we came a little late. This Nine Luminaries Great Star Field has been almost destroyed. Those people have also escaped long ago, leaving no trace behind. If we want to find that secret, I'm afraid it won't be that easy," said the ancient voice.

"Even if we can not find it, we must find it. We can not come here in vain." A gentle female voice sounded.

While these few Rulers were conversing within the storm.

The expression of one of the human figures, the wild and arrogant man whose eyes were as sharp as an eagle, changed at this moment.

"Huh?"

"This kind of sensing, could it be..."

A trace of surprise flashed across the wild and arrogant man's eyes. "There is clearly a great distance from me, yet this sensing is still so intense?"

"This is interesting."

The untamed man gave a strange smile and looked around at the people around him. "Everyone, it wasn't easy for me to make this trip. I don't intend to return just like this. I'll just wander around the Nine Luminaries Great Star Field. If there's anything, just send me a message."

After the untamed man finished speaking, he directly turned around and left.

Most of the other Rulers in the storm didn't feel anything wrong when they saw the arrogant man leave. However, one of the Rulers, a yellow-robed old man, cast a glance in the direction the arrogant man had left.

"This guy is usually very lazy. This time, he probably came to the Nine Luminaries Great Star Field because he received orders from the higher-ups. Given his personality, if those people had already left, he wouldn't have bothered to look for them. Instead, he would have returned. However, why does he have so much free time today to wander around this great star area?" The yellow-robed old man narrowed his eyes.

Soon, the yellow-robed elder left in the same direction as the arrogant man.

...

In the dark, cold void of the universe.

Jian Wushuang sat cross-legged, recovering his divine power.

As for Leng Rushuang, Devil Flame, and Eighth, they stood in the surrounding void and did not disturb him.

Jian Wushuang had lost too much divine power in this crisis, so it would take a long time for him to recover.

Even if he recovered his divine power, Jian Wushuang did not dare to enter some Star Worlds. Although there were still many Star Worlds left in the Nine Luminaries Galaxy, because of the frenzied slaughter of those people, Jian Wushuang still felt that it was safer to recover his divine power in the dark void of the universe.

However, what Jian Wushuang did not expect was that even though he was in the dark void of the universe, someone still found him.

Whoosh!

A stream of light suddenly flashed in the surrounding void and disappeared. A figure slowly appeared in front of Jian Wushuang and the others.

The figure was not very tall and looked very ordinary. However, the most noticeable thing was that he had a pair of eagle-like sharp eyes. After he came to this void, his sharp eyes spread out, his eyebrows were full of arrogance.

"Is it you?" The arrogant man asked, but his eyes were completely fixed on Jian Wushuang.

"Who is it?"

Devil Flame, who had been protecting Jian Wushuang, rushed over at the first moment and stared at the arrogant man with vigilance.

At the peak of Devil Flame, he was an Ultimate Ruler and had traveled in the depths of the universe. Naturally, he had a broad vision. Although he could not see the specific strength of the arrogant man in front of him, he knew intuitively that...this unruly man was not someone to be trifled with.

"I'm looking for him, not you. It's best for you to leave," the unruly man said with a faint smile. He did not even make a move, but as soon as he finished speaking, a powerful pressure pressed down on him.

Under this pressure, Devil Flame's body suddenly trembled, and he immediately fell to his knees. No matter how hard he struggled, he was unable to stand up.

"Supreme expert!" Devil Flame's eyes were full of fear.

Leng Rushuang and Eighth, who were in the void, were also shocked.

In the void in front of them, Jian Wushuang, who had been concentrating on recovering his divine power, also sensed the movement and opened his eyes immediately.

“Another Supreme expert?”

Jian Wushuang raised his head and looked at the arrogant man with an extremely ugly expression.

Supreme-being was the pinnacle expert in the universe.

Even in the depths of the universe, where experts were as numerous as clouds, Supreme-being experts were Supreme existences. It was usually very difficult to meet them, let alone at the edge of the universe.

But today, in the Nine Luminaries Galaxy, in just half a day, he had met a total of three Supreme-beings!

The first one was the one who had crushed the Dusty Rain Star Field and almost killed him.

The second one was the Ruler of the giant face who had saved him at the critical moment. He was the Supreme-being expert hiding in the Nine Luminaries Galaxy.

And the arrogant man in front of him was the third one!

In half a day, he had met three Supreme-beings. Since when did a Supreme-being expert become so worthless?

“My Lord, are you looking for me?”

Although he was a little nervous, Jian Wushuang still asked calmly.

“Yes, I’m looking for you.” The arrogant man smiled, but then he extended his right hand and pointed at Jian Wushuang.

Chapter 4095: Ruler Heart Slayer

It was a casual finger. It looked as if it contained no power at all.

However, Jian Wushuang’s expression changed drastically when he saw it.

It should be known that not long ago, the Supreme who had chased him outside the Dusty Rain Star World had also casually pointed out a finger. He had used all his strength and all his trump cards, but he had failed to resist that finger, he had almost died in that finger.

But now, he had only recovered less than 20% of his divine power. How could he resist the finger of the Supreme-being again?

Boom!

The terrifying power instantly acted on Jian Wushuang’s body. Indeed, Jian Wushuang did not have any room to struggle and resist.

The remaining divine power in his body was almost completely annihilated in an instant.

Fortunately, the arrogant man did not seem to have any intention of killing him directly and left him with a breath of life.

Jian Wushuang was still standing in the dark void. His divine power was almost exhausted, and he was completely exhausted.

In the surrounding void, Leng Rushuang was about to come over when she saw the arrogant man attack Jian Wushuang. However, she was sent flying far away with a casual wave of the arrogant man's hand.

The arrogant man looked at Jian Wushuang with a look of ecstasy on his face.

boxn ovel. c0m

"Haha, what a surprise! What a surprise!"

"I thought I wouldn't get anything from this mission, but I didn't expect to meet a special life form, a perfect level special life form!"

"Haha, my luck is really good."

The arrogant man laughed and looked at Jian Wushuang with a burning gaze, as if he was a hungry beast staring at its prey.

A pitch-black spear had appeared in the arrogant man's hand.

The pitch-black spear was extremely cold and emitted a unique aura.

This aura made Jian Wushuang's body and mind tremble.

"This aura, and this spear..." Jian Wushuang looked at the spear in the arrogant man's hand in surprise.

He knew this spear and was very familiar with it.

When he fought with Devil Cloud Star Ruler in the absolute beginning divine world, Devil Cloud Star Ruler had a black spear like this in his hand and the aura it emitted was exactly the same. However, the spear that the arrogant man took out now...had an even stronger and more shocking aura.

After Devil Cloud Star Lord died, the black spear had fallen into his hand and was now in his interspatial ring.

He had studied this black spear before and knew that it had a great restraining effect on special life forms. However, he did not know why it was so restraining.

Right now, this Supreme-being before him had taken out a spear with an even stronger aura...

"Keke, since I got this spear, I have killed many special lives, including some of the higher-level special lives. However, I have never killed a perfect-level special life. Today, God has given me a chance. As long as I kill you, my spear will probably undergo a qualitative change." The arrogant man's eyes were burning.

"Little guy, you can die in peace."

The arrogant man smiled coldly and prepared to stab Jian Wushuang with his pitch-black spear.

Jian Wushuang was close to despair.

He knew very well that with the strength of this arrogant man, even at his peak, he would not be able to resist him. Moreover, his divine power was almost exhausted and he was at the end of his rope.

But right at this moment...

"Blackhawk, you are an exalted Ruler, after all. You actually dared to attack a third-tier kid? Aren't you being a bit too careless with your status?" A deep voice suddenly rang out through the void.

The unruly man had already raised his spear, but it suddenly came to a halt.

The unruly man turned to look in a certain direction. A yellow-robed old man slowly appeared.

The yellow-robed elder was one of the few Supreme-beings in the storm and the only one who could tell that the arrogant man was acting strangely.

"I was wondering who it was. So it's Ruler Heart Slayer." The arrogant man looked at Jian Wushuang, but his expression did not change. "What a coincidence, you're here too?"

"Humph, I saw that you were acting strangely, so I followed you. I didn't expect to run into this." The yellow-robed Elder, Heart Slayer, glanced at Jian Wushuang with displeasure in his eyes. "This little guy is only a third-level Ruler. How could he let you come all the way here and even lower your status? He must be a special life-form with a high life-level."

"Heart Slayer, you know where I come from. Since I met a higher-level special life-form on the way, I will naturally take action. Why? Is the Nine Emperor Pavilion going to interfere with my killing of a Ruler-level special life-form?" The arrogant man's voice was a little cold.

Ruler Heart Slayer was named after Heart Slayer, and his name was based purely on bloody slaughter. He was definitely one of the most powerful Rulers in the world, and he was very close to becoming a Supreme Ruler.

However, even though Ruler Heart Slayer was very powerful, the unruly man had an extraordinary background as an Ruler. Naturally, he was not afraid of the other party.

"I don't want to get involved in this matter. I just happened to see it, so I'll remind you to pay more attention to your own identity," said Heart Slayer.

"Haha, thank you for reminding me, Heart Slayer. If there's nothing else, you can leave," said the proud man with a smile.

Heart Slayer narrowed his eyes and hesitated for a moment. He decided not to get involved in this matter and turned to leave.

But at this moment...

"Are you from the Nine Emperor Pavilion, sir?" Jian Wushuang suddenly asked.

"Hmm?" Supreme Heart Slayer turned around and glanced at Jian Wushuang. "So what if I am?"

Jian Wushuang was delighted and said, "My name is Blood Sword, sir. My name is listed on the Nine Emperor List."

"The Nine Emperor List?" Supreme Heart Slayer was stunned.

The smile on the arrogant man's face suddenly froze, and he cursed in his heart.

"Are you a genius expert on the Nine Emperor List?" Ruler Heart Slayer looked at Jian Wushuang in surprise.

"Yes, I entered the Nine Emperor List more than 100,000 years ago. This time, the nine effulgent Star Field is in great trouble, and one of the directors of the Nine Emperor Pavilion, Supervisor Feixue, sent me a message in advance to let me escape. I just talked to Supervisor Feixue. Supervisor Feixue said that the Nine Emperor Pavilion has sent a very powerful Supreme expert here. If there's an opportunity, he will recommend me. If you don't believe me, you can ask Supervisor Feixue now," Jian Wushuang said.

Chapter 4096: Saved

"Supervisor Feixue?" Ruler Heart Slayer's expression changed, "After I came to this Star World, there was indeed a supervisor who contacted me, but I don't know his name. Let me ask him."

Ruler Heart Slayer immediately took out his communication talisman and began asking questions.

The arrogant man beside him had a gloomy expression.

A moment later, Ruler Heart Slayer finished asking.

!!

"You are Blood Sword?" Ruler Heart Slayer stared at Jian Wushuang with a strange light in his eyes.

He had indeed asked Supervisor Feixue about Jian Wushuang just now, and he had gotten the answer he wanted.

"A third-level Ruler whose combat strength is comparable to an Ultimate Ruler?"

"A Supreme genius who has comprehended a trace of universe principle at the level of a principle Ruler, a rare sight even in billions of Star Worlds!"

Even Ruler Heart Slayer could not help exclaiming in his heart after learning about Jian Wushuang.

In the next moment, he had made up his mind.

"Blackhawk, you can leave now," Ruler Heart Slayer said casually.

"What did you say?" The untamed man frowned. "Ruler Heart Slayer, what do you mean?"

"Don't you understand? I said you can leave now." Ruler Heart Slayer smiled faintly. "This kid named Blood Sword is a genius on the Nine Emperor List. He's also highly regarded by the upper echelons of the Nine Emperor Pavilion. Naturally, I won't let you kill him."

"Heart Slayer!" The arrogant man's voice turned cold, there was still a trace of anger on his face, but it was quickly suppressed by him. The arrogant man's expression eased up again, he chuckled and said, "Ruler Heart Slayer, even if this kid is on the Nine Emperor List, it has nothing to do with you. Why Don't you do me a favor? How about this? As long as you leave now, I'm willing to pay three portions of the Heaven Lake Divine Fruit. How about it?"

The arrogant man was indeed eager to kill Jian Wushuang.

After all, killing a perfect life meant a lot to him, and he would be able to get more.

“Three portions of the Heaven Lake Divine Fruit?” Ruler Heart Slayer raised his eyebrows. “Blackhawk, you’re really generous. I’m really tempted.”

“Heart Slayer, think carefully. Even if you protect him now, what will you get?”

“Even if the top management of the Nine Emperor Pavilion knew about this, they would only praise you a little. But these three Heaven Lake Divine Fruits, even for you, it’s not easy to get them, right?” The arrogant man continued to seduce him.

On the other hand, Ruler Heart Slayer had a faint smile on his face, as if he was hesitating.

In the void beside him, Jian Wushuang was very anxious, but he did not dare to speak. He knew very well that his life and death depended on the will of this Ruler Heart Slayer.

“Blackhawk, you’re really generous. Unfortunately, you’re going to be disappointed,” said Ruler Heart Slayer.

The smile on the arrogant man’s face suddenly froze. He quickly said, “Heart Slayer, are you really not giving me face at all?”

“What a joke. How much is your face worth?” Ruler Heart Slayer was disdainful, “I can only tell you that you have found the wrong person. If it were some other Supreme-being from the Nine Emperor Pavilion, perhaps they would have given you face because of the three Heaven Lake Divine Fruits. It’s a pity that you have met me. I sincerely work for the Nine Emperor Pavilion. I don’t have much selfishness. Not to mention that this little fellow is highly valued by the higher-ups of the Nine Emperor Pavilion. Even if he is not highly valued, as long as he is a person on the Nine Emperor List, I will not let you kill him right under my nose.”

“You should have heard my words clearly. I won’t repeat them again. Blackhawk, leave.”

“Heart Slayer!” The untamed man was finally completely enraged. A berserk killing intent rose from his body as well.

“What? Do you still want to fight me?” Heart Slayer smiled coldly. “It’s not that I’m underestimating you. Even if two or Three Rulers of your level came at the same time, they wouldn’t be enough to defeat me. Scram!”

“If you don’t scam, I’m going to teach you a lesson.”

The wild-looking man gritted his teeth in anger as he stared fixedly at Ruler Heart Slayer. He felt as though there was a wormhole in his heart that he wanted to fight to the death with Ruler Heart Slayer.

However, this was indeed just a wormhole.

Ruler Heart Slayer was far more famous in the depths of the universe than he was, Ruler Blackhawk. In terms of power, Ruler Heart Slayer had risen to prominence through slaughter, and he was terrifyingly powerful.

Although he was also a Supreme and was not weak among Supreme-beings, he was still far inferior to an expert like Ruler Heart Slayer.

“Hmph, you win!”

The arrogant man snorted angrily. He glanced at Jian Wushuang unwillingly, then turned and left.

Seeing the arrogant man leave, Jian Wushuang finally let out a long sigh.

Leng Rushuang and Devil Flame, who were behind him, also felt relieved.

Whoosh!

The yellow-robed elder, Ruler Heart Slayer expert, floated toward Jian Wushuang.

“Blood Sword, thank you for saving me, sir.” Jian Wushuang immediately bowed with gratitude in his heart.

Indeed, if this Ruler Heart Slayer expert had not noticed the strange behavior of the arrogant man and followed him, he would have died at the hands of the arrogant man.

It was true that he had saved his life this time. Jian Wushuang had to remember this favor.

“You’re welcome, young man.” He waved his hand. “You’re on the Nine Emperor List. As a Supreme of the Nine Emperor Pavilion, I won’t let the Blackhawk kill you.

“However, you’re really lucky this time. If I hadn’t noticed the strange behavior of the Blackhawk and followed him, you would have been dead.”

“Yes.” Jian Wushuang nodded, but then he looked puzzled. “Sir, I haven’t met Ruler, nor have I had any communication or contact with him. How could he kill me for no reason? And how could he find my location?”

Jian Wushuang was sure that the arrogant man had come to find him.

However, he was in the dark void of the universe, which was vast and boundless. How could the arrogant man find him directly?

“Haha, little guy, I can tell that you haven’t been to the universe for long. If I’m not mistaken, you haven’t been to the depths of the universe, have you?” Ruler Heart Slayer looked at Jian Wushuang with interest.

“Yes.” Jian Wushuang nodded.

He was very eager to go to the depths of the universe, but he would not go until the matter of the Nine Luminaries Galaxy was completely settled. However, the matter of the Nine Luminaries Galaxy had not yet been truly settled.

“Little guy, you heard the conversation between me and the Blackhawk just now. The Blackhawk killed you because you are a special life form,” Ruler Heart Slayer said.

“He wants to kill me because I’m a special life form?” Jian Wushuang frowned.

Chapter 4097: Cosmos Temple

He wanted to kill him just because he was a special life-form?

This puzzled Jian Wushuang.

After all, how many special life-forms were there in the vast universe?

A single Star World could give birth to all kinds of special life-forms. For example, Jian Wushuang had encountered special life-forms in the Divine Beginning Realm.

In other words, there could be two or three special life forms in an Star World and an era. How many special life forms could there be in the entire vast universe?

!!

There were countless of them, right?

If they had to be killed because they were special life forms, how many would they have to kill?

Moreover, since the vast universe gave birth to all kinds of special life forms, these special life forms naturally had their own meaning and reasons. They would not affect the balance of the universe, so why would they have to be killed?

“Little guy, don’t misunderstand.” Ruler Heart Slayer waved his hand, he said, “Since the vast universe has given birth to so many special life forms, these special life forms should naturally exist. However, because of the uniqueness of their life levels, they are naturally very different from other cultivators

“For example, special life forms have huge innate advantages that many ordinary cultivators do not have. However, as long as one is strong enough, even ordinary cultivators can think of ways to take away the innate advantages of these special life forms.”

“Take away?” Jian Wushuang was stunned.

“Yes, in the depths of the universe, there are many experts. In order to increase their strength, they will constantly study the blood essence, hair, and so on of the special life forms to find ways to improve their life level,” Ruler Heart Slayer explained.

“To give a simple example, the power of the divine power of an ordinary life form is only at the most basic level. However, if he absorbs and refines some of the core things of the special life forms in various ways to improve his life level, his divine power will increase by ten times or a hundred times from its original level!”

Jian Wushuang was stunned.

He was a special life-form and a perfect life-form. Naturally, he knew that there was a huge gap between a perfect life-form and an ordinary cultivator.

First of all, the power of his divine power was much, much stronger.

For example, he was only a third-level Ruler, but because of his perfect life-form, his basic divine power was slightly stronger than an ordinary fourth-level Ruler. There was a whole realm between them, the difference was hundreds of times, or even more.

And the power of divine power was only one of them. In terms of divine power, he was far more vast and majestic than Rulers of the same level.

These were the innate advantages given to him by the perfect special life-forms. Moreover, this was only a part of his innate advantage. He had more innate advantages, and he had not fully utilized them.

All in all, the innate advantages of the special life forms compared to ordinary cultivators were simply too great.

And if an ordinary cultivator could raise his level of life through all sorts of research, or by absorbing the blood essence of the special life forms or some other things...he believed that many experts in the universe would be willing to do so.

"It is precisely because the innate advantages of the special life forms are too great that many experts yearn to raise their level of life. And to do so, they have to act against the special life forms. Therefore, in the depths of the universe, experts often act against the special life forms. Moreover, the higher the level of life, the more people yearn for it."

After a pause... "Of course, there are only a few of them. Even special life forms have to grow to a certain level before their blood essence and life level can slowly take effect. However, many special life forms that have yet to grow and become Rulers are useless even if they are caught."

"Is that why Ruler wanted to kill me?" Jian Wushuang frowned and looked at Ruler Heart Slayer.

"No, he didn't kill you to get your blood essence and improve his life level. He killed you because of his faction," Ruler Heart Slayer said.

"Faction?" Jian Wushuang narrowed his eyes.

"Little guy, you haven't been in the universe for long. I'm afraid you haven't heard of the Cosmos Temple," Ruler Heart Slayer asked with a smile.

"The Cosmos Temple?" Jian Wushuang was surprised.

He had heard of the Cosmos Temple.

Back in the Divine Beginning Realm, during the decisive battle with Devil Cloud Star, Devil Cloud Star Ruler had taken out that special spear. At that time, Devil Cloud Star Ruler had said that the spear came from the Cosmos Temple.

And Blackhawk, who had just tried to kill him, had taken out the same spear!

"It seems that you've heard of the Cosmos Temple?" Ruler Heart Slayer looked at Jian Wushuang in surprise, then he smiled and said, "The Cosmos Temple is a top force in the universe. To be exact, it's a loose alliance at the top level. The purpose of this alliance is to hunt and kill special life forms. No one knows why."

“There are many experts under the Cosmos Temple. These experts do not need to follow the orders of the Cosmos Temple. They only need to kill special life forms when they see them. Moreover, killing a special life form will be rewarded according to its level of life and strength.”

“For example, when Ruler was about to kill you, he took out that special spear. It is the Cosmos Temple’s unique star-exterminating spear. This star-exterminating spear has a great restraining effect on special life forms. Anyone from the Cosmos Temple will have one. In the beginning, this star-exterminating spear was of a lower level. However, as you kill more and more special life forms, this star-exterminating spear will become higher and higher, and its power will become more and more tyrannical.”

“As long as a special life is killed by the star-exterminating spear, it will be recorded on the spear. You can take the spear to the Cosmos Temple to collect the reward.”

“Ruler is a member of the Cosmos Temple. He wants to kill you to improve the power of the star-exterminating spear. On the other hand, he can get a great reward from the Cosmos Temple if he kills you. That’s why he’s willing to give me three Heaven Lake Divine Fruits and ask me to leave.”

Jian Wushuang immediately understood.

Ruler could have killed him at the beginning, but he did not kill him right away. Instead, he took out the spear and prepared to kill him with it the second time.

It turned out that Ruler could only get what he wanted by killing him with the spear.

It was estimated that the first time Ruler made a move, it was only to determine his level of life. The second time was when he intended to truly kill him. Unfortunately, by the time he made his second move, Ruler Heart Slayer had already arrived.

...

Chapter 4098: Comparable to a Supreme-Being?

“Of course, Blackhawk is a Supreme-being. He shouldn’t have bothered to fight against a weak and low-level special life-form. But today, he attacked you and was willing to take out three Heaven Lake Divine Fruits to ask me to leave...after all, the Heaven Lake Divine Fruits are extremely valuable. A single one is enough to make a Supreme-being envious, but he was willing to take out three of them. It seems that your life-level is very high.”

“My lord, to tell you the truth, I am a perfect life-level cultivator,” Jian Wushuang said.

“A perfect life-level cultivator?” Ruler Heart Slayer’s eyes lit up. “Haha, I Knew It. I was wondering how Blackhawk could be so generous. It turns out that he has his eyes on a perfect life-level cultivator. There are countless special life-forms in the vast universe, but only a handful of them can reach the perfect life-level. In the current universe alone, there are no more than five living perfect life-forms!”

“Although Blackhawk is a Supreme-being, he has never met a perfect life-form. If he can kill you, he will be rewarded handsomely from the Cosmos Temple. In comparison, three Heaven Lake Divine Fruits are nothing.”

!!

Heart Slayer understood why Blackhawk was willing to take out three Heaven Lake Divine Fruits and ask him to leave.

If it were him, he would be willing to give him five or ten portions of the Heaven Lake Divine Fruits as long as he could kill Jian Wushuang, not to mention three portions of the Heaven Lake Divine Fruits.

Killing a perfect life in the Cosmos Temple was definitely a great merit.

“Little guy, you are actually a cultivator at the level of a perfect life?” Ruler Heart Slayer looked at Jian Wushuang with a fiery gaze.

He had learned about Jian Wushuang from Supervisor Feixue. He knew that Jian Wushuang had comprehended a trace of the universe principle at the level of a principle Ruler. He was already a super genius rarely seen in billions of Star Worlds, there were probably no more than ten such super geniuses in an era of the universe.

Such a genius was already amazing enough. In addition to his even rarer status of a perfect life-level, how great was Jian Wushuang’s potential?

Although Ruler Heart Slayer was very knowledgeable, he could not predict Jian Wushuang’s future achievements.

Because in his eyes, Jian Wushuang had a bright future. As long as he did not die halfway, it was possible for him to reach any level in the future.

What he could guess now was Jian Wushuang’s lowest achievement.

“Little guy, with your potential, as long as you don’t die halfway, you will definitely become an Ultimate Ruler. And if nothing goes wrong, when you become an Ultimate Ruler, you should be comparable to an ordinary Supreme-being,” Ruler Heart Slayer said with a smile.

“Comparable to a Supreme-being?” Jian Wushuang was stunned.

How powerful was a Supreme-being?

Jian Wushuang had not known about it before the fight, but after the fight, he realized that there was a huge gap between a Supreme-being and a Ruler that could not be bridged.

Before he met the Supreme-being who had killed him, he had fought with an Ultimate Ruler, or even a top-tier Ultimate Ruler. With his powerful body-protection techniques, Thunder God Palace Master had used all his skills, but he could not do anything to him.

Logically speaking, Jian Wushuang was strong enough. But when he met the Supreme-being, he realized how ridiculous his strength and body-protection technique were in front of the Supreme-being.

The Supreme-being who had chased him in the Dusty Rain Star World had just casually attacked him, but he had been severely injured and almost died. The difference in strength was like heaven and earth.

It was because the difference was too great that Jian Wushuang was not sure whether he could match an ordinary Supreme-being after becoming an Ultimate Ruler.

“Little guy, I know you’re only a third-level Ruler, but your battle strength is barely comparable to an Ultimate Ruler?” Heart Slayer looked over.

“I guess so, but I also used some special methods,” Jian Wushuang said.

“No matter what method you use, it’s a fact that you have such battle strength.” Ruler Heart Slayer smiled, “If you can reach this level in the third level, then when you break through to the fourth level, your battle strength should be comparable to that of a superior Ultimate dominator. When you reach the fifth level...I’m afraid that few Ultimate Dominators will be your match. Once you break through to the Ultimate dominator level, your strength will undergo a qualitative change again. When that time comes, it’s not an extravagant hope to be comparable to a Supreme.”

Jian Wushuang nodded secretly.

Indeed, he already had such battle strength at the third level, and he still had three major realms, the fourth level, the fifth level, and the Ultimate Ruler level. If he could surpass all three major realms...especially when he broke through from the fifth level to the Ultimate Ruler level, it would be a huge transformation.

By that time, his strength would definitely soar to a whole new level. He might even be comparable to or even stronger than an ordinary Supreme-being!

“My lord, is there an Ultimate Ruler in the universe who is comparable to an ordinary Supreme-being?” Jian Wushuang asked.

“Well...yes, but very rarely. Under normal circumstances, every 10,000 chaos cycles or so, there will be a super genius who is comparable to an Ruler at the level of an Ultimate Ruler. There are even super geniuses who can kill an Ruler in a head-on fight at the level of an Ultimate Ruler. For example, 100,000 chaos cycles ago, a super genius named Jie Dong was a Ruler who had reached the Ultimate level. He was not a special life form and was merely an ordinary cultivator. However, his comprehension of the principles of the universe was frighteningly high, even higher than that of an ordinary top-tier Ruler. Coupled with some special encounters, his strength was incomparably terrifying.”

“In his era, he was recognized as the number one Ruler in the vast universe. He was so strong that he had killed an Ruler in a head-on fight!” Said Heart Slayer.

Hearing this, Jian Wushuang could not help but take a deep breath.

An Ultimate Ruler who had achieved the status of an ordinary life-form had killed an Ruler in a head-on fight?

This Ultimate Ruler named Jie Dong was so terrifying!

“Unfortunately, it was because this Supreme genius named Eastworld was simply too heaven-defying that all of his enemies were terrified of him. As a result, his enemies paid an enormous price and even lost the lives of several Rulers to kill this genius named Eastworld. If Eastworld hadn’t died, he would’ve long ago become an Ruler by now. Given his talent, he would’ve long ago surpassed Supreme Rulers and reached the virtually invincible level.” Ruler Heart Slayer sighed softly.

Chapter 4099: Mortal Enemy

"He's dead?" Jian Wushuang sighed inwardly.

How terrifying and heaven-defying was it for an Ultimate Ruler to kill an Ruler directly?

It was a pity that such a super genius had died a long time ago.

"Young man, in terms of innate advantage and potential, you're stronger than Jie Dong. My guess is that as long as you become an Ultimate Ruler, your strength will not be any weaker than Jie Dong's. If you improve faster in the universe principles, your strength might be even stronger than Jie Dong's!

!!

"In the future, if you can break through to become an Ruler, then you will truly soar. With your innate advantage, as long as you become an Ruler, you will definitely be a top-notch Ruler," Heart Slayer said with a faint smile, but then he changed the topic. "However, because of your life level, you will have more potential enemies. The appearance of the Cosmos Temple is one of them. In the future, if you travel in the depths of the universe, you have to be careful. After all, the universe is dangerous. If you are not careful, you might directly die. By then, no matter how much talent and potential you have, it will be useless."

Jian Wushuang nodded heavily.

He also knew that a genius was only a genius.

Before he really grew up, he just had more talent than others.

Only when he really grew up and reached the top level could he be qualified to be called a real expert.

But now, he was still far from being one of the top experts in the universe.

"By the way, Ruler Heart Slayer, even if Ruler wants to kill me, how could he find my location so accurately?" Jian Wushuang asked.

He had always been puzzled by this question.

Previously, he had been chased to this universe void, and the universe dark void was vast and boundless. It was too difficult to find a person here. That was why he had stayed here to recover his divine power.

However, he did not expect that Ruler would actually directly find him.

"Haha, this problem is actually very simple. That Ruler is not only a powerhouse of the Grand Cosmos Temple. Moreover, his status in the Grand Cosmos Temple is very high. If I'm not wrong, he should have a unique treasure bestowed by the Grand Cosmos Temple that can sense special life forms. This unique treasure can have a certain sense of those special life forms. Moreover, the higher the level of the life form, the stronger the sense will be." Ruler Heart Slayer smiled.

"I guess Ruler didn't know about your existence before, but when he arrived in this Star Field, the treasure on his body sensed you, which attracted his attention. Then he followed the direction of the treasure and found your location."

"Is that so?" Jian Wushuang raised his eyebrows.

A treasure that could sense the existence of special life forms?

Jian Wushuang could understand this kind of sensing ability.

After all, the universe was vast and there were countless kinds of life forms. In addition to the birth of countless experts, they had created all kinds of treasures. It was normal for some treasures to have special senses toward certain things.

Not to mention treasures, even life forms also had these special senses.

Devil Flame, for example, was from the gold-devouring clan. He was born with a strong sense for all kinds of special crystals. The higher the level of the special crystals, the stronger his sense would be.

“If the experts of the Cosmos Temple all have these special treasures, won’t it be dangerous for me to travel in the universe in the future?” Jian Wushuang frowned.

He was now in the Nine Luminaries Galaxy and not in the depths of the universe. He had met an expert of the Cosmos Temple, a Supreme-being, and almost died.

But if he went to the depths of the universe in the future, there would be experts everywhere, and there would be many experts from the Cosmos Temple. If all the experts of the Cosmos Temple had these treasures, which could sense special life forms, wouldn’t that mean that powerful beings would come looking for him at any time? This time, it would be a Supreme-being. However, in the depths of the universe, it was possible that a group of Supreme-beings or even top-tier Supreme-beings would make a move.

Even Ruler Heart Slayer had said that killing a perfect life-form was a very generous reward from the Cosmos Temple. It was enough to tempt any Supreme-being. It was reasonable for a top-tier Supreme-being to kill him for the reward from the Cosmos Temple.

“Kid, you don’t have to worry too much. The Cosmos Temple is very powerful, and they do have many experts under their command. Their power extends to every corner of the universe. However, the experts of the Cosmos Temple aren’t able to kill those special lifeforms without fear. They also have many restrictions,” Ruler Heart Slayer explained with a smile.

“First of all, those special life-forms have enormous innate advantages. Anyone who grows up and dares to venture into the depths of the universe is quite powerful. Many special life-forms, in particular, have even more heaven-defying life-saving methods. Even if an Ruler were to personally attack them, they wouldn’t be absolutely confident in being able to kill them.

“Secondly, those special life-forms aren’t stupid. They know that they are weak on their own, which is why when they venture into the depths of the universe, they often find a good backer. For example, if they join a top-tier power or become a subordinate of an expert, the experts under the command of the Grand Cosmos Temple wouldn’t dare to provoke them.

“After all, the Cosmos Temple is just a loose alliance. They can’t completely gather their power together. The experts under the Cosmos Temple don’t dare to rashly provoke the major powers in the depths of the universe. Take Ruler Blackhawk, for example, for example. He came here today to kill you.

"It's true that Ruler is a Supreme. He dared to kill you because you're a solitary expert with no background. The only thing he has is a status on the Nine Emperor List. However, he's only a friend of the Nine Emperor Pavilion. After all, he's not a core expert on the Nine Emperor List. However, if you're determined to join the Nine Emperor Pavilion and become a core expert under the Nine Emperor Pavilion, I can guarantee that Ruler won't dare to kill you."

Hearing this, Jian Wushuang was quite shocked.

"Yes, the experts under the Cosmos Temple are all individuals. They don't dare to provoke the big forces in the depths of the universe." Jian Wushuang nodded secretly.

"In addition to these two points, the most important point is that the special life forms also know how to work together. In the depths of the universe, there is an extremely powerful top force, the Life Palace!" Heart Slayer's voice suddenly became solemn.

"The Life Palace can accommodate all the special lifeforms in the universe. It is the home of all the special lifeforms in the vast universe, and the Life Palace and the Cosmos Temple are arch-enemies. They have been fighting nonstop for countless years!"

...

Chapter 4100: Not Reconciled

"The Life Palace." Jian Wushuang was shocked.

He was a member of the Life Palace. A long time ago, in the Blood Wave Realm, under the guidance of the Ruler of the Blood Wave Realm, he joined the Life Palace and cultivated the life abhijna.

Now that he was adventuring in the universe, the Life Palace was also his home.

"The Life Palace can compete with the Cosmos Temple?" Jian Wushuang looked at Ruler Heart Slayer.

!!

"On the surface, it can." Ruler Heart Slayer nodded. "Of course, the Cosmos Temple is stronger overall. However, the Cosmos Temple is very loose and its experts are not united. Most of them join the Cosmos Temple for the reward of the Cosmos Temple. As for those who sincerely serve the Cosmos Temple, very few of them do.

"But the Life Palace is a group formed by many special lives. For their own safety and for their own interests, the strength of the Life Palace is closely related to their own strength. Naturally, the overall strength of the Life Palace is stronger.

"Little guy, you are a perfect life. The Life Palace should really hope that you can integrate with them. When you reach the depths of the universe, you can find an opportunity or a channel to contact the divine power of life and ask the experts of the Life Palace to come and receive you. With the help of the experts of the Life Palace, you don't have to worry about being targeted by the experts of the Cosmos Temple in the depths of the universe."

"Oh?" Jian Wushuang was puzzled.

“Haha, it’s actually very simple. The Life Palace is very powerful and can refine special treasures that can sense the presence of special life forms. However, there are also Supreme experts in the Life Palace who have created some special skills that can hide their life level. If you go to the Life Palace, you can cultivate that skill. Once you cultivate it, although there is no guarantee that experts from the Life Palace will not find you, in the depths of the universe, even if they have that special treasure behind them, they will have to be very close to you in order to barely sense your location.”

“I see.” Jian Wushuang’s eyes lit up.

He had been worried that his perfect life level would be too eye-catching and bring him endless trouble when he entered the depths of the universe. But now it seemed that there was a solution in the Life Palace.

“I have the message token left by the Ruler of the Blood Wave Realm. He told me that I could use this token to send a message to him when I enter the depths of the universe. He would come to receive me personally.” Jian Wushuang clenched his hands. “I’m still at the edge of the universe. I’ll send a message to him directly when I reach the depths of the universe or when I’m close to the depths of the universe.”

The depths of the universe were too dangerous, especially because he was a perfect life form, which attracted even more attention.

It was certainly the best choice to enter the Life Palace when he did not have enough strength to stand firm in the depths of the universe.

“Little guy, you should be preparing to venture into the depths of the universe, right?” Ruler Heart Slayer looked at him.

“Yes.” Jian Wushuang nodded.

“Although this Star Field is not the depths of the universe, it is close enough. From here to the depths of the universe, you will arrive at the first divine kingdom. If you take an ordinary-level universe boat, you will only have about 10,000 years left. You are planning to go into the depths of the universe by yourself, right?” Ruler Heart Slayer asked.

“I thought so before, but now...” Jian Wushuang frowned.

“Are you worried about Blackhawk?” Ruler Heart Slayer asked with interest.

“Yes.” Jian Wushuang nodded. “According to you, if you kill me, Ruler will receive a huge reward. This time, because of you, he can’t do it. But I’m sure he won’t let it go. I even think that he hasn’t gone far. He might be hiding in the nearby void. As soon as you leave, he will immediately kill me. Under such circumstances, I won’t even be able to go to the depths of the universe. Even a simple operation would be very difficult.”

“Haha, you know what to do.” Supreme Heart Slayer laughed, “Don’t worry, I’ll be a good person to the end. Since I’ve already saved you, I won’t only save half of you. Just stay by my side for the time being. It Won’t be long before the matter in the Nine Luminaries Great Star Field is settled. Then, you’ll take your wife and leave for the depths of the universe,” Supreme Heart Slayer said.

“Thank you, my Lord!” Jian Wushuang was overjoyed.

“You’re welcome.” Supreme Heart Slayer waved his hand, he smiled and said, “You have so much potential. Maybe you can break through to become a Supreme, or even the top existence in the universe. When that time comes, I might ask you for help.”

“If that time comes, I will help you with all my strength,” Jian Wushuang said solemnly.

This time, it was indeed Ruler Heart Slayer who had saved his life. This was a great favor, much more than the favor given to him by Lord Xiao, who had given him the Purple Blood Secret Manual.

When he grew up in the future, he would certainly repay this great favor.

“Haha, then I’m really looking forward to that time. Well, bring your wife and guards. Let’s go,” Ruler Heart Slayer said with a smile. With a wave of his hand, a silver universe boat appeared in the void in front of him.

Jian Wushuang immediately took Leng Rushuang, Devil Flame, and Eighth with him and boarded the universe boat. Soon, the universe boat flew forward and disappeared into the void space in the blink of an eye.

Not long after the silver universe boat left, sou!

A figure suddenly appeared in the dark void space. It was none other than the unruly man, Blackhawk, who had left earlier.

The Ruler looked in the direction of the silver universe boat with a gloomy expression.

Jian Wushuang was right. He was unwilling to let the meat that was right in front of his mouth fly away. He was also unwilling to waste such a great opportunity to kill a perfect life form. Therefore, he seemed to have left directly, in fact, he had just left when he stopped and hid in the void to observe the situation.

He did want to kill Jian Wushuang as soon as Ruler Heart Slayer left.

But in the end, Ruler Heart Slayer left with Jian Wushuang and the others. Jian Wushuang had been following Ruler Heart Slayer, so he could not find a chance to kill him.

“Heart Slayer, damn Heart Slayer!”

Ruler gritted his teeth and cursed. He was full of resentment toward Ruler Heart Slayer.

“Hmph. It seems you’ve guessed that I’m nearby. But it doesn’t matter. I don’t believe that you’ll keep him with you. As long as you leave that kid’s side, I’ll immediately kill him.” Blackhawk’s gaze was cold, he then continued to fly in the direction of silver universe boat.
