Chapter 4111 Looking Forward to It

"Well, I've told you everything I need to tell you. As for the rest, you can feel it out yourself. I'll take my leave now," Blood Wave said.

"Thank you, Senior Blood Wave," Jian Wushuang quickly thanked him.

Blood Wave waved his hand and left.

"Husband, the Life Palace is really powerful." Leng Rushuang could not help sighing as she watched Blood Wave disappear.

"The base camp of countless special life forms in the entire universe is certainly powerful." Jian Wushuang nodded and looked at his wife. "Shuang 'er, I'm afraid we'll have to spend a long time here."

"As long as you're by my side, you can be anywhere." Leng Rushuang smiled. "Unfortunately, Qing 'er and Xuan 'Er are both in the Divine Beginning Realm. It would be perfect if they were here."

"Qing 'er and Xuan 'Er are too weak. They haven't broken through to become Rulers yet. They don't have the ability to establish a foothold in the universe. Let's wait for a while. When they break through to become Rulers and I have a firm foothold in the depths of the universe, I'll think of a way to bring them over. By then, our family will be reunited," Jian Wushuang said.

"Well, I believe that it won't be too far away." Leng Rushuang nodded.

In the following time, Jian Wushuang began to familiarize himself with the environment of the Life Palace.

Soon, the news of a perfect life in the Life Palace spread throughout the entire Life Palace.

It was also in a group of exquisite pavilions in the sixth mountain range.

"Ruler, Ruler."

A black-robed elder hurriedly walked up to the top floor of a pavilion.

There, a white-haired youth was leisurely drinking the wine in his bowl.

This white-haired youth's face was as warm as jade. He was extremely beautiful and bewitching. He was even more beautiful than many women. This was especially so for the white-haired youth's eyes. They were like gemstones, emitting a special light that was incomparably eye-catching.

"Yi Nu, what's so urgent?" The white-haired youth was still drinking wine as he casually glanced at the black-robed old man.

Yi Nu was what the black-robed old man called him.

The black-robed old man was one of the white-haired youth's slaves. Because he was highly regarded by the white-haired youth, he was ranked first among all the slaves.

“Ruler, I just received news that a sky full of red light has appeared in the life testing divine palace. A new perfect life has arrived in the Life Palace,” Yi Nu said.

“Oh? A new perfect life?” The white-haired young man’s expression changed, and he put down the wine bowl in his hand. “After so many years, has the palace finally welcomed a new perfect life?”

“Yi Nu, have you found out everything?” The white-haired young man asked.

“I’ve found out everything. His name is Jian Wushuang, and he was personally brought back by Ruler Blood Wave from the outside world. I heard that Jian Wushuang has cultivated for less than 300,000 years, but he has already reached the level of a third-level Ruler and has comprehended a trace of universe principle,” Yi Nu said.

“He has comprehended a trace of the universe principle?” The white-haired young man could not help narrowing his eyes.

He did not care that Jian Wushuang had cultivated for 300,000 years and reached the third-level Ruler level.

After all, there were all kinds of opportunities to improve one’s realm. There was not much difference between cultivating for 300,000 years and cultivating for three million years.

However, it was unusual for a third-level Ruler to be able to comprehend a trace of the universe principle.

It must be understood that perfect life-forms were extremely rare, and to be able to comprehend a hint of the principles of the universe at the third-tier Ruler level meant that he was definitely one of the most incredible geniuses in the universe.

His potential was simply immeasurable.

“He’s a perfect life-form, and he has a hint of the principles of the universe at the third-tier Ruler level. No Wonder Ruler Blood Wave was able to personally lead him.” The white-haired youth smiled calmly.

“Not only that, after Jian Wushuang tested his life-form, Supreme Giant Axe also rushed there personally and gave Jian Wushuang a middle-grade principle divine fruit. Ruler Blood Wave also ordered Supreme Gu Yi, who manages the Life Nirvana Pool, to open it in 20 years.” Yi Nu added.

“A middle-grade principle divine fruit?” The white-haired youth’s expression finally changed. “Humph, even when I entered the Life Palace, I was only given a low-grade spirit-enlightening divine fruit, which was worth less than 100,000 origin stones. However, Jian Wushuang was given a middle-grade principle divine fruit by Supreme Giant Axe. It seems that the old men in the palace are more optimistic about Jian Wushuang than I am.”

“Exactly.” Yi Nu nodded. “The news about Jian Wushuang has spread throughout the entire Life Palace. In the sixth mountain range alone, many servants and maids are secretly discussing that the higher-ups of the Life Palace are too biased and are fighting for you, Ruler.”

“Biased?”

"There's no such thing as bias. In the Life Palace, any resources have to be fought for based on one's own strength. Since those old guys think that Jian Wushuang has more potential than me, I just have to prove that Jian Wushuang is not as good as me." The white-haired youth smiled faintly. "Yi Nu, do you know where Jian Wushuang lives?"

"Just like us, in the sixth mountain range. Ruler, are you going to find trouble with Jian Wushuang now?" Yi Nu looked at him.

"Stupid," the white-haired youth scolded, he said, "Jian Wushuang just came to the Life Palace and hasn't even been to the Life Nirvana Pool. If I go to find him now, even if I defeat him, there is nothing to be proud of. If I want to fight with him and prove that he is far inferior to me, he has to go through the baptism of life, develop his innate advantage to the extreme, and walk out of the Life Nirvana Pool. It's not too late."

"Ruler is right." Yi Nu smiled bitterly.

"Just wait. In another twenty years, he will go to the Life Nirvana Pool. At that time, we can see how much benefits he can get in the Life Nirvana Pool. How much of his innate advantage can he develop?" The white-haired youth smiled.

"When Ruler went to the Life Nirvana Pool for the first time, he used the life divine power to develop 70% of his innate advantage. Later, he got some special opportunities to develop his innate advantage again. Now, he has developed 80%. For a perfect life, it is already very impressive to develop 80% of his innate advantage. As for Jian Wushuang, he has only cultivated for more than 300,000 years. He is definitely not as good as you, Ruler. I estimate that it is already good enough for him to develop 60% of his innate advantage in the Life Nirvana Pool," Yi Nu said.

"Then wait and see." The white-haired youth heart also has a glimmer of expectation.

Chapter 4112 Competition

The Life Palace, as a transcendent force that had dominated the universe for countless years, was also the base camp of countless special life forms in the universe. Its lair had always been peaceful.

Over the long years, there had been countless forces that fought against the Life Palace. Powerful forces like the Cosmos Temple were even more incompatible with the Life Palace. However, no matter how fierce the battle was...the Cosmos Temple could not pose a threat to the Life Palace's lair.

Since the Life Palace was established, no force or expert had dared to attack the Life Palace's lair. Those who dared to do so were already dead.

Jian Wushuang stayed in the Life Palace, so he naturally did not have to worry about encountering any danger.

In the blink of an eye, 20 years had passed.

"Jian Wushuang."

A loud voice resounded in the air above the manor where Jian Wushuang lived.

Jian Wushuang and Leng Rushuang immediately flew out of the manor and into the void.

“Who are you?” Jian Wushuang looked at the man and woman in front of him.

Both of them were Rulers, and they were at the Ultimate level.

In the nest of the Life Palace, it was very easy to see even Supreme experts. As for Ultimate Rulers, there were even more of them.

“We are the Rulers under Lord Gu Yi. Under his orders, we will take you to the Life Nirvana Pool,” the red-clothed woman said with a smile.

“Is that so?” Jian Wushuang understood. Then he glanced at Leng rushuang and said, “Shuang ‘er, I’ll go first.”

“Okay.” Leng Rushuang nodded.

Jian Wushuang immediately followed the man and the woman to the Life Nirvana Pool.

On the way...

“You said that you are the Rulers under Supreme Gu Yi. What do you mean?” Jian Wushuang was puzzled.

Because they were both cultivators of the Life Palace, the two Ultimate Rulers would not use the word ‘subordinates’ if they were only assisting Supreme Gu Yi in managing the Life Nirvana Pool.

‘Subordinate’ usually referred to themselves as ‘subordinate’ because they were loyal to the other party.

Hearing Jian Wushuang’s question, the man and woman looked at each other, then the purple-haired man chuckled and said, “Jian Wushuang, you just came to the Life Palace, so you don’t know many things. There are many experts in the Life Palace, but the resources are still limited. In order to get these resources, there is a great competition in the Life Palace.”

“Perfect life-forms like you, or most of the creation-level life-forms, because of their high life-level and high treatment in the Life Palace, naturally don’t have to worry about not getting resources. However, the more ordinary creation-level life-forms, or universe-level and initial-level life-forms, can get fewer resources. In addition, many senior and weak people have fewer opportunities to get resources. Therefore, at this time, the best way to get more resources is to find a real expert and rely on him.”

“The two of us are only ordinary universe-level beings. When we first arrived at the Life Palace, we were not Ultimate Rulers. In addition, we did not have many advantages in developing the Life Nirvana Pool, so our potential was limited. Therefore, we could not get too many resources. However, the two of us were smart enough to work under Supreme Gu Yi. Supreme Gu Yi manages the Life Nirvana Pool and has some power and status in the palace. Naturally, the two of us received a lot of benefits. Now, we have reached the level of Ultimate Rulers.”

“I see.” Jian Wushuang understood.

Indeed, there was competition wherever they went.

It was the same even for the Life Palace.

"In fact, these things have been made public in the Life Palace for a long time. With more and more competition, there are more and more factions in the Life Palace. The competition between these factions is fiercer, but they are all Supreme-beings and have nothing to do with us Rulers," the purple-haired man said, he took a look at Jian Wushuang.

"Jian Wushuang, in fact, people like you are the most comfortable. With a perfect life level, you can get all the resources you want when you come to the Life Palace. Even Supreme Giant Axe gave you a medium-grade principle divine kingdom as a welcome gift. Few people in the Life Palace have received such treatment. There's no need for you to rely on other experts, because Ruler Blood Wave and Supreme Giant Axe both have high hopes for you. You can be considered as one of their factions. Naturally, no one dares to neglect you in the palace."

Hearing this, Jian Wushuang smacked his lips.

He did not know about these things before, but now it seemed that Ruler Blood Wave and Supreme Giant Axe should be from the same faction.

For a faction to have two Supreme-beings, it must be very powerful in the Life Palace.

"Thank you for telling me." Jian Wushuang thanked them.

Their conversation gave Jian Wushuang a new understanding of the Life Palace.

Soon, they led Jian Wushuang to a vast open space.

There were already many people waiting there.

"Well?"

Jian Wushuang looked at the people on the open space. There were hundreds of them, and most of them were Supreme-beings, but there was no Supreme-being.

Most of them were at the third or fourth level, but very few were at the fifth or Ultimate level.

"Like you, these people have just arrived at the Life Palace. This time, they will enter the Life Nirvana Pool and experience the baptism with you," the purple-haired man said.

"Are they all newcomers?" Jian Wushuang looked around and found that most of their eyes were fixed on him.

"Is he Jian Wushuang?"

"Yes, he is the only perfect life-form among us!"

"Perfect life-form. It is said that there are less than five perfect life-forms alive in the entire Life Palace. No wonder the Life Palace places so much importance on him. We came to the Life Nirvana Pool on our own, but he was led here by two Ultimate Rulers. This treatment is really extraordinary."

"It's not a big deal. Even if it's a perfect life form, it might not be able to become a top-tier warrior in the future. And we are only at the initial and universe levels. It's not like we don't have the possibility of becoming a top-tier warrior in the future. Everything depends on our future efforts and opportunities."

“That’s right. In the next Life Baptism, those of us with lower life levels will find it easier to develop our innate advantages. And since he’s a perfect life form, the difficulty of developing our innate advantages is much harder than ours. In the Life Nirvana Pool, with the help of life techniques, it’s not difficult for us to develop 70% to 80% of our innate advantages. It’s probably even difficult to develop 60%.”

A lot of new people are talking about it.

Chapter 4113 Nirvana Pool of Life

The higher the level of life, the more difficult it was to develop one’s innate advantage, which had long been recognized.

These newcomers thought that Jian Wushuang’s development of his innate advantage was not as good as theirs, which was reasonable. However, they forgot that Jian Wushuang was a perfect life. Even if he only developed 50-60% of his innate advantage, he was still much more powerful than these initial, universe, or even creation-level life-forms who exploited 100% of their innate advantage.

Whoosh!

A figure suddenly appeared in the open space. It was none other than Supreme Gu Yi, who was in charge of managing the Life Nirvana Pool.

After Supreme Gu Yi arrived, he first glanced at Jian Wushuang with a smile in his eyes before looking around.

“Is everyone here?” Supreme Gu Yi asked.

“My Lord, all the special life forms who have joined the Life Palace during this period of time are here. There are 438 of them, including one in the perfect life level, four in the creation level, 161 in the universe level, and 272 in the initial level,” said the man and woman who had led Jian Wushuang here, the red-clothed woman said.

“Yes.” Supreme Gu Yi nodded and waved his hand. Immediately, a spatial passage appeared in the empty space in front of him.

“Remember, after you enter the Life Nirvana Pool, your body will begin to transform. This transformation will take a long time. You can cultivate your life divine power while transforming and develop your innate advantages as much as possible. As long as your transformation ends, you can come out of the Life Nirvana Pool. Since the transformation has stopped, no matter how hard you try, you can’t improve at all,” Supreme Gu Yi instructed.

“Yes.” The rookies on the open ground, including Jian Wushuang, nodded in unison.

“Alright, let’s go in.” Supreme Gu Yi said.

Immediately, the rookies on the open ground rushed toward the universe passage, and Jian Wushuang stepped into the universe passage.

Soon, all the rookies on the open ground had entered the Life Nirvana Pool.

As soon as they entered, whoosh. A figure suddenly appeared beside Supreme Gu Yi.

“Ruler Blood Wave.” Supreme Gu Yi looked at the newcomer and bowed slightly.

“Gu Yi, those little guys have already entered?” Ruler Blood Wave looked over.

“Yes, including the little guy named Jian Wushuang, who you think highly of. He has also entered the Life Nirvana Pool. This little guy has only cultivated for 300,000 years and reached his current level. He has even comprehended a trace of the universe principle and is extremely talented. If nothing goes wrong, he can at least develop 70% of his innate advantage in the Life Nirvana Pool.” Supreme Gu Yi said with a smile.

“Seventy percent?” Ruler Blood Wave narrowed his eyes slightly, then asked with a smile, “How much of the lifeforce in the Nirvana Pool is left?”

“It wasn’t too long ago that the lifeforce was put into the Nirvana pool. Although we went through more than ten baptisms, we should still have about a quarter of it left,” Ruler Gu Yi said.

“A quarter?” Ruler Blood Wave frowned. “That’s too little. Let’s get a new lifesource.”

“A quarter is too little?” Ruler Gu Yi was startled.

The lifesource was the most important treasure used to form the Nirvana Lake.

The enormous Nirvana Lake was able to help special lifeforms develop their innate advantages. The lifesource was the main reason why it was so useful.

And the source of life was extremely precious in the universe.

Under normal circumstances, a complete source of life could allow the Life Nirvana Pool to undergo dozens of baptisms.

For example, the recent baptism of life was more than ten times. Because there were more blessed-level life forms coming for the baptism, there were even a few peak blessed-level life forms, so the cost was much more. However, after more than ten baptisms...only three-quarters of it had been used up.

There was still a quarter of the lifeforce left. Logically speaking, it should be able to support several more baptisms of life.

“Don’t forget, this time, there is a perfect lifeform coming for the baptism of life, and this little fellow has great potential. Who knows how much lifeforce he can absorb in the nirvana lifepool, so there is no harm in making more preparations. In any case, if this lifeforce is put into the nirvana lifepool in advance, its effects won’t be weakened.” Ruler Blood Wave said.

“That makes sense. Alright, I will add a new life source into the Life Nirvana Pool.” Ruler Gu Yi waved his hand and tore through space, entering the Life Nirvana Pool.

The Life Nirvana Pool was called a pool, but it was actually a vast green sea.

The newcomers who entered the Life Nirvana Pool entered the green sea and immediately entered the endless green sea.

They all knew that the most important thing in the Life Nirvana Pool was the cyan sea water. The cyan sea water contained an extremely unique medicinal power, which was formed by the Life Palace at a great cost.

Jian Wushuang did not hesitate and directly rushed into the cyan sea. The moment his body flew into the sea, he immediately felt waves of scalding strange power surging toward his body.

“So hot.”

Jian Wushuang raised his eyebrows and felt his whole body suddenly become hot. The waves of hot strange power flowed through his pores and his whole body was instantly stimulated by the strange power, the hidden power in his body also began to be gradually stimulated.

What was stimulated was Jian Wushuang’s innate advantage.

The innate advantage of a perfect life was far beyond the imagination of ordinary cultivators. However, the power had been hidden in his body for a long time, so he could not activate it, he could not use it.

The purpose of the green seawater in the Life Nirvana Pool was to fully activate the hidden power.

“What a special feeling.”

Jian Wushuang had already felt that as the hidden power in his body was gradually being developed, the process of development was very comfortable, and his body was also undergoing a transformation during the process of development.

“The function of the pool of life has begun to show. I can’t waste time and begin to cultivate the second volume of the Divine Power of life.” Jian Wushuang’s heart moved, and he immediately began to cultivate the second volume of the Divine Power of life.

He had already cultivated the first volume of the Divine Power of life a long time ago and had the experience of cultivating the first volume. Now, he was very familiar with cultivating the second volume.

In less than half a day, he had already cultivated the second volume of the Divine Power of life. As soon as he finished cultivating the second volume of the Divine Power of life, Jian Wushuang’s body trembled. The hidden power in his body...had also been greatly developed at this moment.

Chapter 4114 The Divine Body Expanded Rapidly

After the second volume, the third and the fourth volume...

In the Life Nirvana Pool, everyone was immersed in the transformation of their bodies and the development of their innate advantages.

Under normal circumstances, only by Ruling all six volumes of the life divine ability could their innate advantages be developed to more than 60%. However, when the life divine ability was combined with the green seawater in the Life Nirvana Pool...it was very easy to develop one’s innate advantage to 60% or even 70%.

After Jian Wushuang mastered the fourth volume of the Life Divine Power, his Divine Body finally underwent a greater transformation.

Rumble! Jian Wushuang's Divine Body trembled crazily. At this moment, he was like a huge black hole that was devouring the endless green seawater around him with an incredible devouring power.

"Has my Divine Body finally begun to expand?" Jian Wushuang's eyes had long opened, and his hands were tightly clenched. His eyes were emitting an unprecedented fierce light.

After staying in the Life Palace for 20 years, he had long learned that special life forms, especially those above the creation level, had a high chance of expanding their divine bodies as long as they developed more than 70 percent of their innate advantages.

Such an increase in Divine Body could make his Divine Body grow many times larger. With such a huge Divine Body, the divine power he could store would become even more vast and boundless.

For example, Flame Mountain, the Guardian Jian Wushuang had met when he first entered the Life Palace, had a huge and boundless Divine Body. It was 60,000 feet tall and 8,000 miles long. It was incredible.

Because of his enormous Divine Body, Flame Mountain was not afraid of Supreme-beings at all. Even Supreme-beings who stood at the peak of the universe and were invincible among Supreme-beings could not do anything to him, there was nothing they could do to him.

Such a vast and majestic Divine Body was the envy of countless cultivators.

However, Flame Mountain was only at the peak of the creation level, while Jian Wushuang was at the perfect life level.

In terms of potential, he was much greater than Flame Mountain. Even though he was a human cultivator in terms of size, it was not necessarily impossible for him to surpass Flame Mountain.

Now, Jian Wushuang had the opportunity to expand his Divine Body.

"The opportunity is right in front of me. Let's see how much I can expand my Divine Body." Jian Wushuang clenched his hands and crazily swallowed the endless green seawater around him.

The cyan sea water contained a unique power. After being swallowed by him, most of it was directly refined into his divine power. As he refined it, his Divine Body grew rapidly.

In the blink of an eye, it had grown to a height of 300 meters, but this was just the beginning.

Rumble! Jian Wushuang's Divine Body shook violently. As the endless cyan sea water entered his body, his Divine Body grew rapidly like a giant standing up.

300 meters tall, 30,000 meters tall, and 30,000 meters tall!

It was still expanding crazily.

In the Life Nirvana Pool, there were 437 other special life forms besides Jian Wushuang.

They were also cultivating life divine power and trying to exploit their innate advantages.

However, at this moment, they could feel the vibration of the Life Nirvana Pool. Immediately, they all looked toward the source of the vibration.

“What’s that?”

“It’s so big. It must be hundreds of thousands of feet tall.”

“It’s a Divine Body. It’s said that it has developed 70% of its innate advantage and has a chance to expand its Divine Body. However, this Divine Body is too big.”

“The appearance of this Divine Body is Jian Wushuang!”

“It’s him? He’s a perfect life form. How could he develop 70% of his innate advantage so quickly?”

The Life Nirvana Pool was in a state of shock.

Many special life-forms who had also developed their innate advantages in the Life Nirvana Pool thought that Jian Wushuang was a perfect life-form when they entered the Life Nirvana Pool, it should be extremely difficult to develop their innate advantages.

However, it had only been a short time since they entered the Life Nirvana Pool, and Jian Wushuang had already developed 70% of his innate advantages. Moreover, his Divine Body had begun to grow rapidly.

“His Divine Body is still growing. It seems that he is already more than a hundred miles tall.”

The many special creatures in the pool of life were shocked.

Indeed, Jian Wushuang’s Divine Body was still growing rapidly, and now it was more than a hundred miles tall.

At this point, Jian Wushuang gradually felt the pain coming from his Divine Body. As his Divine Body continued to grow rapidly, the pain gradually increased.

“Sure enough, when my Divine Body expands to a certain extent, there is a risk of collapse. The pain I’m feeling has just begun, which means that I haven’t reached the limit of collapse yet. I can still continue to improve.” Jian Wushuang narrowed his eyes.

It was like eating too much, and one’s stomach would burst.

Jian Wushuang was a perfect life. He had developed his innate advantage to more than 70%. He could indeed increase his Divine Body to a whole new level by devouring divine power, but the increase was not endless, there was still a limit. What Jian Wushuang needed to do now was to find that limit, but he had to hold on for as long as possible so that his Divine Body could expand to the maximum.

The pain from his Divine Body alone could be ignored by him. Obviously, he was still far from reaching the limit of his Divine Body.

Jian Wushuang continued to crazily devour the endless green seawater around him. As his Divine Body grew larger, the devouring power became more and more terrifying. Before long, his Divine Body was more than 3,000 miles tall.

At this moment, he stood in the middle of the Life Nirvana Pool. He was like a giant, and his every move was enough to cause the entire Life Nirvana Pool to move.

As his Divine Body grew to such an extent, the speed at which he absorbed the green seawater around him became faster and more astonishing.

The entire Life Nirvana Pool was crazily swirling under his devouring. Endless seawater surged toward him from all directions. He had completely become the absolute core of the Life Nirvana Pool.

As for the other special creatures in the pool, they could only protect the green seawater around them and use it to transform their bodies.

“He’s over 3,000 miles tall, but he’s still growing!”

“A Divine Body that’s 3,000 miles tall, my God!”

“I remember that protector Flame Mountain, whom we met when we first entered the Life Palace, is only 6,000 miles long. Is it possible that Jian Wushuang’s size can surpass Flame Mountain’s?”

Chapter 4115 68,000 Miles

Everyone in the Life Nirvana Pool was paying attention to the changes in Jian Wushuang’s Divine Body.

Jian Wushuang’s Divine Body grew from 3,000 miles to 5,000 miles, and then to 10,000 miles in just a moment!

10,000 miles of Divine Body was even larger than that of the guardian, Flame Mountain, but Jian Wushuang’s Divine Body was still growing rapidly.

10,000 miles, 15,000 miles, 20,000 miles, 30,000 miles...

When his Divine Body grew to a height of 30,000 miles, the pain in his Divine Body and consciousness intensified, and Jian Wushuang’s expression began to change slightly.

“I’m almost at my limit.” Jian Wushuang’s expression was solemn, but his Divine Body was still growing rapidly.

40,000 miles, 50,000 miles, until it grew to 55,000 miles, the pain in his Divine Body and consciousness had reached its limit.

“I feel that I’ve almost reached my limit. But as long as my Divine Body doesn’t collapse, my divine power can continue to change, and I can continue to increase my strength.” Jian Wushuang bit his lips. The pain he was experiencing right now...was enough to make his consciousness collapse.

But he still stubbornly held on.

He had greatly slowed down the speed of devouring the surrounding green seawater, but the green seawater was still being devoured by him.

As time went by, Jian Wushuang kept his Divine Body in a state of near collapse. After another hour, his Divine Body had improved from 55,000 miles to 68,000 miles.

At this point, Jian Wushuang had finally reached his limit.

At this moment, his Divine Body was completely saturated. He even felt that if he swallowed even a little bit more of the cyan seawater, his Divine Body would collapse and burst.

“That’s it.” Jian Wushuang exhaled lightly, and then his Divine Body began to shrink at a speed visible to the naked eye.

Divine power compression...

The reason why Flame Mountain’s original body could only stay in the Life Palace for a long time was that his Divine Body was too big and he could not compress his divine power, so he could only stay there.

However, Jian Wushuang’s Divine Body was much bigger than Flame Mountain’s, but he could compress his divine power.

Under the compression of the divine power, his Divine Body quickly returned to its original appearance.

Although his body was restored, in fact, the divine power in Jian Wushuang’s body was far from what it had been before.

“My Divine Body has grown to the extreme. I can’t absorb the surrounding green sea water anymore, but the transformation of my Divine Body is still not over. I haven’t reached the limit of my innate advantage,” Jian Wushuang said with a smile, then he slowly closed his eyes.

He had not completely mastered the fifth volume of the Divine Life Palace, so he was still far from the perfect development of his innate advantage.

In the following time, Jian Wushuang began to cultivate the fifth volume of the Divine Power of life.

In every corner of the Nirvana of life, the beings who were also trying to develop their innate advantage heaved a sigh of relief when they saw Jian Wushuang shrink.

In one of the void, Supreme Gu Yi was standing there. He was looking in the direction of Jian Wushuang.

“That Divine Body should be almost 70,000 miles away, right?” Supreme Gu Yi was also shocked, “Nearly 70,000 miles of Divine Body. Tsk, tsk. I’ve been managing this pool of life for so many years. During that time, I’ve seen many beings above the creation level who have developed more than 70% of their innate advantages in the pool. Their divine bodies have soared, but their divine bodies have soared to a height of nearly 70,000 miles. This is the first time I’ve seen Jian Wushuang...isn’t he too heaven-defying!”

Ruler Gu Yi secretly praised him, but he quickly regained his senses and began to inspect the entire pool of life.

This inspection caused Ruler Gu Yi’s eyes to instantly widen.

“How is this possible?” Ruler Gu Yi was completely stunned.

“The portion of Life Source I just placed in is actually, actually less than half?” Ruler Gu Yi was truly stunned.

One had to know that there was originally only a quarter of the life essence left in this Nirvana Pond.

According to what Ruler Gu Yi said, that quarter of the life essence could support several baptisms of life.

But later on, he listened to Ruler Blood Wave's suggestion and considered that among the many lifeforms that entered the nirvana pond this time, there was a perfect lifeform, so he put in a new portion of the life essence.

Now, however, not only had one-quarter of the original source of life been used up, but more than half of the new source of life had been used up, and it was obvious that less than half was left.

In total, almost one complete source of life had been used up.

This was only one Life Baptism, and it was not over yet?

"Jian Wushuang, that Jian Wushuang." Supreme Gu Yi's eyes shone with a strange light, "Before his Divine Body expanded, I checked carefully and found that there was still a lot of one-fourth of his life source left. But after his Divine Body expanded, not only did he lose one-fourth of his life source, but he also used up more than half of his new life source..."

"I'm sure that all the other little guys combined didn't even use one-tenth of the life source. But this time, Jian Wushuang must have absorbed almost all of it!"

"No wonder!"

"No wonder his Divine Body has grown so much!"

"He has a Divine Body of nearly 70,000 miles. If he becomes a Supreme-being in the future, who can do anything to him with such a Divine Body?"

Supreme Gu Yi sighed in his heart.

He did not feel sorry for the consumption of the source of life.

After all, the source of life was designed to allow the special creatures under the Life Palace to develop their innate advantages to the best of their abilities. Jian Wushuang, a perfect life with such great potential, was the perfect life form, it was exactly what they wanted to see that they could benefit greatly and transform with the help of the source of life.

"I'm really curious about how much this little guy will change after walking out of the pool of life." Supreme Gu Yi had a trace of anticipation in his heart. He did not stay in the pool of life anymore, instead, he left directly.

After all, the process of the Divine Body that consumed the source of life the most had already ended. The remaining source of life should be enough for Jian Wushuang and the others to use, so he did not have to worry anymore.

Not long after Supreme Gu Yi left the Life Nirvana Pool, Jian Wushuang had completed the fifth volume of the Life Divine Power. His innate advantage had been further developed.

With this development, Jian Wushuang instantly awakened his innate divine power!

Chapter 4116 The Baptism Was Over

"Hmm, I've awakened two innate divine abilities at the same time?" Jian Wushuang was surprised.

When he had finished the fifth volume of the life divine ability and his innate advantage was further developed, he had awakened his own innate divine ability, but what he did not expect was that...he had awakened two innate divine powers at the same time.

These two innate divine powers were life deterrence and divine power decomposition.

Jian Wushuang immediately received all the information about these two innate divine powers.

Life deterrence relied on one's life level to cause a momentary suppression and shock to life below one's level, causing the opponent to fall into a short period of shock.

Jian Wushuang was not unfamiliar with this innate skill.

Back when he was still weak, he had received the heaven-cleaving skill from his Ruler Xuan Yi. The heaven-cleaving skill could also exert a part of his innate advantage, and at the same time, it could also cause a shock to the opponent's life level, the effect was just average.

However, now that his innate skill had been awakened, no matter who he met in the future, as long as the opponent's life level was lower than his, his innate skill would instantly cause a shock to life even to an expert at the Supreme level, the only difference was the strength of the effect.

This move could undoubtedly be his trump card in the future.

As for the second innate divine power, divine power decomposition, it was an innate divine power used for life-saving purposes. It was also very impressive.

"I actually awakened two innate divine powers at the same time. Moreover, I was previously recognized by the universal principles, which also granted me an innate divine power in the original universe. In other words, I now have three innate divine powers at the same time?" Jian Wushuang was shocked.

Innate divine abilities alone could not be awakened by ordinary people or living beings.

Under normal circumstances, living beings above the creation level would only have a certain chance to awaken their innate divine abilities after they had developed 70% to 80% of their innate advantage. However, the probability was not high.

And even if they had awakened their innate divine abilities, it was only one type.

But now, Jian Wushuang had awakened two innate divine abilities at the same time. With the help of the universal principle, he had a total of three innate divine abilities. He was simply a freak.

"Although I don't know what's going on, the more innate divine abilities I awaken, the better it will be for me." Jian Wushuang was pleasantly surprised. Then, he closed his eyes again.

His Divine Body and divine power were still transforming in his body.

Outside the Life Nirvana Pool, in the vast open space.

Ruler Blood Wave was still waiting there quietly.

Whoosh!

Supreme Gu Yi walked out of the Life Nirvana Pool and came to Ruler Blood Wave's side.

“Gu Yi, how is it?” Blood Wave asked.

“Monster, Ruler Blood Wave, the little guy called Jian Wushuang that you brought is a monster.” Supreme Gu Yi sighed.

“Oh?” Blood Wave raised his eyebrows. “What do you mean?”

“He didn’t stay in the pool for long, but he had already developed more than 70% of his innate advantage. He had a chance to expand his Divine Body, but he suddenly expanded his Divine Body to nearly 70,000 miles high. Not only did he use up the remaining one-quarter of the source of life in the pool, but he also used up more than half of the source of life that I just put in. In other words, he absorbed almost a complete source of life when his Divine Body expanded. It’s incredible.” Gu Yi was shocked.

“Close to seventy thousand miles of Divine Body? He absorbed close to a complete source of life?” Blood Wave’s eyes lit up. “Haha, looks like this little guy’s gains in the Life Nirvana Pool are not small. A Divine Body that is close to seventy thousand miles tall, tsk tsk, is much bigger than Flame Mountain.”

“That’s right, I don’t know if he has awakened his innate ability. If he awakens his innate ability, then his gains this time will be really big.” Gu Yi said.

“This is purely dependent on luck. After all, even if he is at the perfect life level and has already developed his innate advantage to over seventy percent, it is still hard to say if he can awaken his innate ability.” Blood Wave smiled.

“The awakening of an innate ability was indeed purely dependent on luck.

“If you were lucky, you could awaken it, but if you were unlucky, it would be useless even if you had developed your innate advantage to ninety percent.

“Of course, if you could perfectly develop your innate advantages, you could definitely awaken your innate abilities.

“Just wait. When this little guy comes out of the Life Nirvana Pool, we will ask him.” Blood Wave smiled and continued to wait.

Time passed. In the blink of an eye, more than half a month had passed.

In the Life Nirvana Pool, many people had stopped the transformation of their divine bodies and divine powers. They also came out of the Life Nirvana Pool one after another.

In this half a month’s time, these special life forms who entered the Life Nirvana Pool had more or less gained a lot. Their innate advantages were generally exploited to more than 60%.

After all, those with a lower life level could easily exploit their innate advantages. With the life divine ability and the Life Nirvana Pool, they could easily exploit their innate advantages to 60-70%, even if they could develop it to 80-90%, it would still be very easy.

Unfortunately, although some of these people had developed their innate advantage to 80-90%, because their life level was too low, they did not have the chance to grow their divine bodies. Similarly, they did not have the chance to awaken their innate ability.

As for the few destiny level creatures that entered the Life Nirvana Pool this time, only one of them was lucky enough to develop his innate advantage to 70%. He also had the chance to grow his Divine Body, unfortunately, his Divine Body only grew to 3000 feet before it stopped.

A 3000-foot-tall Divine Body was considered huge compared to ordinary cultivators. However, compared to Jian Wushuang and Flame Mountain, he was just a little guy. Moreover, he had not awakened his innate divine power.

Another five days passed. Almost all the special beings who entered the pool had come out. The only one who had not come out was Jian Wushuang.

"Only the little guy is left," Supreme Gu Yi said.

"After all, the little guy is at the perfect life level, so it's normal for his Divine Body to transform for a long time. However, since the others have already come out of the pool, his Divine Body transformation should have ended by now," Blood Wave said.

"Let's wait a little longer," Supreme Gu Yi said.

After waiting for another three days, there was finally some movement in the space passage ahead.

Whoosh!

With a flash of light, Jian Wushuang walked out of the space passage.

"Huh?"

After walking out of the space passage, Jian Wushuang immediately saw the people in the open space in front of him.

Not only were there two Supreme beings like Blood Wave and Gu Yi, but also the many special beings who had entered the Life Nirvana Pool with him were also waiting quietly.

Chapter 4117 Strength of Divine Power

When they were in the Life Nirvana Pool, they had seen Jian Wushuang's Divine Body grow to a height of nearly 70,000 miles with their own eyes. They were extremely shocked. They could have left directly after coming out of the pool, however, none of them left. They chose to wait here to see how much Jian Wushuang, the perfect life, had benefited from the Life Nirvana Pool.

"Jian Wushuang, come here quickly." Ruler Blood Wave waved at Jian Wushuang.

"Senior Blood Wave, Supreme Gu Yi." Jian Wushuang immediately stepped forward and bowed respectfully.

"I heard from Gu that you've gained a lot in the Life Nirvana Pool. Your Divine Body alone has grown to 70,000 miles tall?" Ruler Blood Wave looked at Jian Wushuang.

"Less than 70,000 miles, only about 68,000 miles," Jian Wushuang replied.

"That's impressive." Ruler Blood Wave smiled, but then he asked seriously, "Little guy, let me ask you, have you awakened your innate divine power in the Life Nirvana Pool?"

Beside him, Ruler Gu Yi looked at Jian Wushuang with anticipation.

As for the special creatures around them, they were also looking at him with eager eyes.

Upon hearing Ruler Blood Wave's question, Jian Wushuang did not answer. He just smiled meaningfully and blinked at the same time.

Ruler Blood Wave immediately understood.

"Haha!" Ruler Blood Wave laughed.

Supreme Gu Yi, who was beside him, also smiled. "Indeed, he has awakened his innate divine ability. I'm really envious of him."

Ruler Blood Wave and Supreme Gu Yi only knew that Jian Wushuang had awakened his innate divine ability. They subconsciously thought that Jian Wushuang had only awakened one, but in fact, Jian Wushuang had awakened two innate divine abilities at the same time, of course, since Ruler Blood Wave did not ask, Jian Wushuang would not take the initiative to talk about it.

"Your Divine Body has skyrocketed to 68,000 years, and your innate divine power has also been awakened. The only problem now is how much of your innate advantage you have developed and how much of your divine power has changed," Ruler Blood Wave said.

"How much of your divine power has changed?" Jian Wushuang's expression changed.

"Under normal circumstances, the strength of a special life-form's divine power will increase greatly with the development of its innate advantage. This increase is related to the level of life-form and the degree of its innate advantage. For example, an ordinary initial stage life-form's divine power will be 100 times stronger than an ordinary cultivator's once it has developed its innate advantage to the extreme," Ruler Blood Wave said.

"100 times?" Jian Wushuang's heart skipped a beat.

The strength of divine power was 100 times stronger than that of an ordinary cultivator?

Take an ordinary Ruler for example. An ordinary cultivator's divine power was, of course, the strength of an ordinary Ruler, but the strength of a special life form at the same level was 100 times stronger than that of an ordinary Ruler! And this was only an initial level life form?

"What about higher universe-level and creation-level life forms?" Jian Wushuang asked.

"Universe-level life forms can have divine power 500 times stronger than ordinary cultivators when their innate advantages are fully developed, while creation-level life forms can have divine power about 2,000 times stronger than ordinary cultivators when their innate advantages are fully developed!" Ruler Blood Wave said.

"2,000 times?" Jian Wushuang was stunned.

"This is a creation-level life-form, and perfect-level life-forms that are above creation-level life-forms are rare in the entire universe. It's extremely difficult to form such a life-form, and their innate advantage is much greater than that of a creation-level life-form. Under normal circumstances, if perfect-level life-

forms develop their innate advantage to the extreme, their divine power will be 10,000 times stronger than that of an ordinary cultivator! 10,000 times!" Ruler Blood Wave said.

Jian Wushuang was a little confused.

10,000 times?

What did that mean?

"Of course, as a perfect level life form, it's very difficult to develop one's innate advantage to the extreme. It's also very difficult for one's natural divine power to be 10,000 times stronger than that of an ordinary cultivator. However, even if one only develops 60% to 70% of one's innate advantage, the strength of one's divine power is still 6,000 times or 7,000 times stronger than that of an ordinary cultivator. It's still very heaven-defying," Ruler Blood Wave said.

"Little guy, you have a chance to expand your Divine Body in the Life Nirvana Pool, and you can also awaken your innate divine power. That means you have developed at least 70% of your innate advantage, maybe even more. However, we still have to make a judgment based on the strength of your divine power."

"How do I test the strength of your Divine Power?" Jian Wushuang asked.

"That's easy. There's a place in my Life Palace that tests the strength of your divine power. It can accurately test how much stronger your divine power is compared to other cultivators of the same level. I'll take you there," Ruler Blood Wave said.

"Okay." Jian Wushuang nodded.

"Come with me." Ruler Blood Wave led Jian Wushuang to the void nearby.

As for Ruler Gu Yi, he did not follow them. Instead, he looked around at the people around him and said in a deep voice, "Well, the baptism of life is over. You can all go back now."

With that, Ruler Gu Yi turned and left.

On the open ground, those who had walked out of the Life Nirvana Pool looked at each other with complicated expressions.

"That Jian Wushuang is a perfect life. Not only did he receive a great increase in his Divine Body, but he also awakened his innate divine power. He is really lucky."

"Indeed, his luck is too good."

"His huge Divine Body is already heaven-defying. Moreover, he has awakened his innate divine power. This Jian Wushuang really has unlimited potential!"

"He has developed at least 70% of his innate advantages, which means that his divine power is at least 7,000 times stronger than ordinary cultivators. In the future, he will have a huge advantage in the universe. If he can break through to the Supreme-being level one day, he will probably reach the Supreme-being level."

The people present sighed in admiration.

The baptism had shown them how powerful Jian Wushuang was. At the same time, they also understood how much potential he had in the future.

They had no desire to compete with such a monster. Unless they could break through to the Supreme realm in the future, they would have to look up to him.

While Ruler Blood Wave was taking Jian Wushuang to test his divine power, in the exquisite pavilion complex in the sixth mountain range, the white-haired young man stood in front of the white-haired young man.

"Ruler, the news from the Life Nirvana Pool has arrived." Yi Nu, the black-clothed elder, stood respectfully in front of the white-haired youth.

"What's the result?" The white-haired youth asked casually.

"Jian Wushuang has at least developed 70% of his innate advantage in the Life Nirvana Pool, and his Divine Body has soared to a height of 68,000 miles. In addition, he has also awakened his innate divine power," Yi Nu said solemnly.

Chapter 4118 Danger

The white-haired youth, who was originally very casual, immediately changed his expression when he heard the words of the black-robed elder Yi Nu.

"68,000 miles of Divine Body? How is this possible?" The white-haired youth's face was filled with disbelief.

One had to know that when he first entered the Life Nirvana Pool, he also received the opportunity for his Divine Body to expand explosively. At that time, his Divine Body had expanded to a height of 9,000 miles. This was already terrifying enough.

After all, Flame Mountain's huge Divine Body, which was 6,000 miles long, had already attracted the envy of countless cultivators and special beings.

His 9,000-mile-tall Divine Body was even bigger than Flame Mountain's, which was already very shocking.

However, compared to his 68,000-mile-tall Divine Body, his 9,000-mile-tall Divine Body was completely different.

"How is this possible? How could Jian Wushuang have such an incredible Divine Body?" The white-haired youth was extremely shocked.

"Although it's incredible, many people have witnessed the process of Jian Wushuang's Divine Body growing rapidly in the Life Nirvana Pool. It Can't be faked. His Divine Body is indeed 68,000 miles tall. Moreover, he has also awakened his own innate divine power. This has made Ruler Blood Wave, who had been optimistic about him, even more fond of him."

"Now, Ruler Blood Wave has personally brought Jian Wushuang to test the strength of his divine power. Ruler, the result of your Divine Power Test was 7,600 times that of an ordinary cultivator. It's very

heaven-defying. However, based on Jian Wushuang's performance in the Life Nirvana Pool, it's possible that his innate advantage will be further developed."

"If Jian Wushuang's divine power is stronger than yours, then Jian Wushuang's basic potential will completely surpass yours. In the future, Ruler's position in the Life Palace will also be greatly reduced," Yi Nu said solemnly.

Hearing Yi Nu's words, the white-haired youth's face turned completely gloomy.

He was a perfect life form that was rare in the entire universe. He had grown up from the beginning of cultivation and was extremely talented and dazzling. As soon as he broke through to become a principle Ruler, he was taken to the Life Palace, after he arrived at the Life Palace, he was also valued and looked forward to by many higher-ups.

He had been far too dazzling, and his journey had been far too smooth. This had caused him to feel incomparably arrogant and even a bit conceited.

There were countless special lifeforms in the Life Palace, but not many of them were worthy of his attention.

However, perhaps it was because his path of growth had been far too smooth that when he reached the level of an omega Ruler, he had encountered his greatest bottleneck.

He had tried all sorts of methods and methods to reach the Omega Ruler level. He had tried everything he could, but he had been unable to break through to become an Ruler.

He was not the only one. The Life Palace had worked very hard to help him break through. They had given him all sorts of resources and treasures for free, in fact, the Life Palace had even sent the two perfect Rulers over to give him some personal guidance, all in the hopes that he would break through to become an Ruler as soon as possible.

However, despite the countless resources and treasures he had accumulated, he still showed no signs of breaking through at all.

Dozens of chaos cycles had passed, and he was still an omega Ruler. There was not even a hint of hope for him to make a breakthrough.

Because of this, the higher-ups of the Life Palace no longer held much hope for him to make a breakthrough. The Rulers who had been looking forward to his breakthrough had long since grown disappointed in him.

His status within the Life Palace was no longer as high as it had been before.

However, in the past, he had been the only perfect being amongst the Rulers of the Life Palace. Even if his chances of breaking through to become an Ruler in the future were slim, his status would not be any lower than before.

Over the years, the white-haired youth's strength had not improved much, but the life sacred palace had always given him the resources he deserved.

The white-haired youth was unwilling to accept this situation, but he could still accept it.

But now, with Jian Wushuang's arrival, everything was different.

Previously, he was the only perfect life-form in the Ruler-level of the Life Sacred Palace. For this reason, he was treated well.

However, now that Jian Wushuang had arrived, the white-haired young man was no longer the only one. Many of the higher-ups of the Life Palace were completely attracted to Jian Wushuang.

This made the white-haired young man feel a great crisis in his heart.

"I have already been disliked by the higher-ups in the Life Palace, and now Jian Wushuang has appeared. If the higher-ups of the Life Palace think that Jian Wushuang's potential is much greater than mine, they will do their best to cultivate Jian Wushuang. I'm afraid that even the treatment that originally belonged to me will be omitted, not to mention fighting for more resources." The white-haired young man clenched his hands, his eyes were extremely cold.

His Divine Body was 68,000 miles tall, and he had awakened his own innate divine power. If his divine power was stronger than his, then Jian Wushuang would be above him in all aspects.

The senior officials of the Life Palace would certainly not focus on him, a perfect life with little hope of making a breakthrough. Instead, they would focus all their attention on Jian Wushuang.

At that time, he would never be treated like this in the Life Palace. At most, he would be treated like a creation level life form, which was unacceptable to the white-haired young man.

"No matter what, I can't lose what belongs to me. Jian Wushuang, you're just a new kid. You want to challenge my status and treatment? Dream on!"

"I'll prove it to those old guys. I'll let them know that Jian Wushuang is just a kid. I'm the one who has the best chance of becoming the next Supreme-level perfect life-form in the Life Palace!"

The white-haired young man's eyes shone with a fierce light.

"Yi Nu, let's go and find him!"

The white-haired young man took Yi Nu, the black-clothed elder, and flew directly toward the place where Jian Wushuang was testing his divine power.

...

Jian Wushuang was led by Ruler Blood Wave to a temple.

The inside of the temple was actually a huge independent space. The entire independent space was a martial arts practice field, where there were all kinds of tools for cultivation.

In one corner of the martial arts practice field, there was a special magic array with puppet fighters standing inside.

Ruler Blood Wave brought Jian Wushuang to the magic array.

Chapter 4119 Divine Power Test

"Is this magic formation used to test the strength of divine power?" Jian Wushuang looked at the magic formation and asked, "Senior Blood Wave, what should I do?"

"It's very simple. After you enter the magic formation, don't use any secret skills. Just rely on your own divine power and fight with the puppet fighters in the magic formation. The magic formation can naturally determine the strength of your divine power," Ruler Blood Wave said.

"Understood." Jian Wushuang nodded and stepped into the formation without hesitation.

Inside the formation, Jian Wushuang did not use any secret skills or even the principles of the universe. He quickly fought with the puppet fighters with his own brute strength.

It was a fight, but in fact, it was just a simple collision with the puppet fighters. After only a few collisions, the puppet fighters stopped.

Jian Wushuang also walked out of the formation.

"Is it over?" Jian Wushuang looked a little strange.

"It's done. As for the result, look here." Ruler Blood Wave pointed at a transparent crystal standing next to the formation.

Although the transparent crystal was next to the formation, Jian Wushuang could clearly sense that it was the core of the formation.

"There are scales on this crystal. In a while, you will see the scales and colors on this crystal. A golden scale represents 1,000 times divine power, a silver scale represents 100 times divine power, and the lowest white scale represents 10 times divine power. You are a third-level Ruler, and the strength of your divine power will be many times stronger than an ordinary third-level Ruler. It will soon appear on the scale of this crystal," said Ruler Blood Wave.

Jian Wushuang watched with anticipation.

"Don't be so nervous. Since you've awakened your innate ability, you must have developed more than 70% of your innate advantage. In other words, your basic divine power is at least 7,000 times that of an ordinary cultivator. If I'm not mistaken, there will be at least seven golden scales on the transparent crystal later," Ruler Blood Wave said with a smile.

"I know, but I have a feeling that my basic divine power is more than 7,000 times that of an ordinary cultivator," Jian Wushuang said seriously.

"More than 7,000 times?" Ruler Blood Wave's expression changed, and then he smiled and said, "Can it be 8,000 times?"

"Maybe more," Jian Wushuang said again.

"Oh?" Ruler Blood Wave looked at Jian Wushuang in surprise, but he found that Jian Wushuang's eyes were burning with excitement.

At this moment, Jian Wushuang was indeed very excited.

The Life Baptism in the Life Nirvana Pool had greatly transformed his body, and the strength of his divine power was much stronger than before.

Now, he only felt that his entire body was filled with power. Jian Wushuang did not know how strong this power was.

But he felt that his current basic divine power should be more than 7,000 times that of an ordinary cultivator.

It was even more than that...

"It's coming," Blood Wave suddenly said.

Jian Wushuang immediately went too far.

Sure enough, a light began to shine on the transparent crystal.

And the first light that lit up was the golden light that represented 1,000 times divine power.

The dazzling golden light filled the entire transparent crystal and instantly occupied the first few scales of the transparent crystal.

In just an instant, the five scales were filled with a rich golden light.

This meant that Jian Wushuang's basic divine power was already 5,000 times that of an ordinary cultivator.

But this was obviously just the beginning. The golden light continued to spread, and then it occupied the sixth and seventh scales, and then it completely occupied the Eighth.

"It's 8,000 times." Ruler Blood Wave's eyes focused. "But the golden light continues to extend. Well, it's 9,000 times, and it hasn't stopped!"

"Could it be..." Ruler Blood Wave suddenly thought of something, and a look of shock appeared on his face.

As expected, after the golden light filled up the ninth tick on the translucent crystal, it immediately filled up the tenth tick. A short moment later, it filled up the tenth tick as well.

The first ten tick on the translucent crystal were completely filled up by the dazzling golden light.

"10,000 times!"

"10,000 times what? To fully develop the innate advantage?"

Ruler Blood Wave was shocked.

He had told Jian Wushuang before that it was too difficult for special creatures to perfectly develop their innate advantage.

Since the creation of the Life Palace, there had only been less than 10 people, and most of them had lower life levels, so it was easier to develop them.

As for the perfect life level, it had never been fully exploited since the creation of the Life Palace.

Because of this, Ruler Blood Wave had told Jian Wushuang not to expect him to exploit his innate advantage perfectly, but in the end...

The scene before him was a slap to Ruler Blood Wave's face.

It was equivalent to a divine power foundation 10,000 times that of an ordinary cultivator. Was this not something that could only be achieved by a perfect life form that had developed its innate superiority to the extreme?

"No, that's not right!"

Ruler Blood Wave's body shook violently, and his eyes were fixed on the transparent crystal in front of him.

When he saw that the first ten scales of the transparent crystal were filled with golden light and that the golden light continued to spread toward the eleventh scale, even with Ruler Blood Wave's knowledge, he could not help but widen his eyes at this moment, an extremely exaggerated expression appeared on his face.

"Impossible!"

Ruler Blood Wave stared at the transparent crystal in front of him. He could already see that the eleventh scale on the transparent crystal had also been filled with dazzling golden light.

However, this was not the end. The golden light continued to spread out, and in the blink of an eye, the twelfth and thirteenth scale had been filled.

After the thirteenth scale was completely filled up, the rich golden light began to slowly calm down. But even though the golden light had calmed down, a rich silver light immediately rose up.

The silver light represented a hundred times divine power.

The silver light rose crazily, and in the blink of an eye, it filled up five scale points in succession, and then immediately dimmed.

At this point, the crystal finally calmed down and no other light appeared.

Ruler Blood Wave and Jian Wushuang stared at the scales filled with light on the crystal.

13 scales filled with golden light.

Five scales filled with silver light.

The golden light represented 1,000 times divine power, and 13 represented 13,000 times.

Together with the five silver scales representing 100 times divine power, Jian Wushuang's basic divine power was 13,500 times that of an ordinary cultivator!

It was an exaggerated number that even exceeded Ruler Blood Wave's imagination.

Judging from Ruler Blood Wave's expression, he was obviously stunned.

Chapter 4120 13,500 Times

“13,500 times?”

“How is this possible?”

Even Ruler Blood Wave, who was a superior Supreme-being, could not help but feel a surge of emotions when he saw the scale displayed on the crystal.

13,500 times of basic divine power was completely impossible in Ruler Blood Wave’s eyes.

After all, even a perfect life-form’s divine power was only 10,000 times stronger than that of an ordinary cultivator. Jian Wushuang’s divine power was obviously stronger than that.

“Jian Wushuang, let me ask you, when you fought those puppet fighters in the Magic Formation, did you really not use any other tricks?” Ruler Blood Wave stared at Jian Wushuang with a burning gaze.

“I fought with them with my own divine power according to your instructions, Senior Blood Wave,” Jian Wushuang said.

Ruler Blood Wave nodded. In fact, he knew that if Jian Wushuang had used some secret skills or other means to increase the strength of his divine power in the magic formation, the test result would not be shown on the crystal.

Since the test result was shown, it was Jian Wushuang’s normal divine power strength.

However, it was 13,500 times stronger than that of an ordinary cultivator. Even Ruler Blood Wave had never heard of it.

“Impossible. Even if it’s the most extreme development of a perfect life, the strength of divine power should only be 10,000 times stronger?” Ruler Blood Wave frowned, but at this moment, he suddenly remembered, he had just arrived at the Life Palace and carried out the life-level test in the Purple Temple.

During the life-level test, Jian Wushuang had not only triggered a sky full of red light, but there was also a burst of dazzling golden light behind the red light.

The sudden golden light confused everyone. Even Ruler Blood Wave and Supreme Giant Axe did not know what was going on with the Golden Light.

However, they did not delve into the issue. They only thought that there had been some changes in the life-level test. Now that Jian Wushuang had undergone the divine power strength test...when they thought of the golden light that burst out from the life-level test, Ruler Blood Wave’s expression immediately became solemn.

“When it comes to the life test, I’ve never heard of anyone testing out a large amount of golden light. I’ve also never heard of anyone testing out the strength of his divine power, which is more than 10,000 times stronger than that of an ordinary cultivator.”

“But both of those things happened to the same person. Could it be...?”

Ruler Blood Wave’s eyes were filled with a hint of shock. He had already come up with a possibility.

However, this possibility caused his hair to stand on end.

The most heaven-defying life-forms in the vast universe were those at the perfect level.

The birth of a perfect life-form was extremely difficult. Not even the entire vast universe or an entire era would be able to produce a perfect life-form.

After a long period of time, a perfect life-form was recognized as the pinnacle of life-forms.

However, was a perfect life-form really the pinnacle of life-forms in the Universe?

In the past, Ruler Blood Wave would have answered yes to this question, but now, he did not dare to think so.

After all, in his eyes, Jian Wushuang had completely exceeded the scope of a perfect life-form.

Perhaps Jian Wushuang was still a perfect life, but it was definitely different from the perfect life he had encountered before.

“Jian Wushuang.” Ruler Blood Wave looked at Jian Wushuang again with a solemn expression, “Listen carefully. What happened here today, including the specific strength of your life, must not be known by anyone else, including your wife. Do you understand?”

“I understand.” Jian Wushuang nodded.

He could see how serious Ruler Blood Wave was. He could also guess that in the vast universe, it had always been recognized that even if one was at the perfect level of life, one could develop one’s innate advantage to the extreme, the strength of his divine power was only 10,000 times that of an ordinary cultivator, but he had reached 13,500 times. This was clearly beyond the scope of a perfect life.

If this matter were to spread, he did not know how big of a storm it would cause in the universe. However, in the Life Palace, there would definitely be a huge commotion. Although he was highly regarded by Ruler Blood Wave and Supreme Giant Axe, his own strength was too weak. He might not be able to withstand a storm.

“Oh, Senior Blood Wave, there’s something,” Jian Wushuang suddenly said.

“What is it?” Ruler Blood Wave looked at him.

“Although the strength of my divine power is 13,500 times stronger than that of an ordinary perfect life, I still feel that I haven’t reached the limit of my innate advantage. In fact, I’m still far from it,” Jian Wushuang said.

“What?” Ruler Blood Wave looked at Jian Wushuang in astonishment.

The strength of his divine power was 13,500 times stronger than before, but Jian Wushuang’s innate advantage had not been fully developed yet?

In other words, there was a possibility that he could develop his divine power again.

“Are you sure?” Ruler Blood Wave asked seriously.

“Yes.” Jian Wushuang nodded. “I can feel that there are still a lot of hidden powers in my body that I haven’t used yet. Moreover, I’ve only cultivated to the fifth volume of the six volumes of life divine

power. I feel that as long as I Ruler the sixth volume, my innate advantage will be further developed. Of course, after I Ruler the sixth volume, I'm also not sure if my innate advantage will be developed to the extreme."

"It seems your level of life really isn't as simple as an ordinary perfect life-form," Ruler Blood Wave said with a sigh. He had long ago been shaken to the core, but he was still a Supreme Ruler after all, he quickly calmed down.

"You've already experienced the baptism of the pool of life. There's no point in going in for a second baptism. In the future, if you wish to continue developing your innate advantages, you'll have to either Ruler the sixth volume of the life divine ability or acquire some heaven-defying true treasures to further develop them."

"However, no matter how well you develop your innate advantage, I will only announce to the public that you have developed 80% of your innate advantage and your divine power is only about 8,000 times stronger than that of an ordinary cultivator. As for how you will hide this secret from now on, it's up to you," Ruler Blood Wave said.

"I understand." Jian Wushuang nodded slightly.

He knew that this matter was extraordinary, so he had decided that from now on, he would only use about 8,000 times the divine power of an ordinary cultivator in a battle unless it was a life-or-death situation.
