

Swordsman 861

Chapter 861: Setting out

It was still in midair in the untouched rift.

Jian Wushuang, dressed in a black robe, stood there indifferently. There were dozens of Blood-sky Swords densely suspended in front of him.

“Combine.”

With Jian Wushuang’s roar, the dozens of Blood-sky Swords immediately combined at an astonishing speed to form a scarlet longsword as long as six meters.

Hum~~~

The scarlet longsword was surrounded by an air current, giving off an astonishing air of violence.

“Go.”

Controlled by Jian Wushuang’s thoughts, the scarlet longsword flitted.

Swish!

A Blood Shadow flashed by, but left no trace in the air.

The next moment, a slight swish came from a high mountain hundreds of meters away. Then the top half of the mountain was lifted and dropped sideways. In the middle of the mountain was an extremely smooth and neat cut made by a sharp blade.

This giant mountain was split into two halves by one single slash.

Hum!

The sword rung, and the six-meter-long scarlet longsword appeared again beside Jian Wushuang.

Jian Wushuang’s eyes flashed brightly as he saw the extremely neat cut in the center of the mountain ahead.

“This is dreadful! It turns out to be strongest sword formation created by Sunrise Sword Emperor and Dao Master Spirit. This Ninth-heaven Sword Formation really is terrifying!”

“The first sword formation alone is scary enough.”

“Too fast! Its speed is too fast and its power is even more amazing.”

In Jian Wushuang’s eyes was a maniacal gaze.

“With my current ability, if I deploy the first sword formation with all my strength, there’ll probably be few Eternal Realm cultivators who could parry it.”

“It’s definitely a great killer!”

“It’ll be my strongest Killing Move.”

Jian Wushuang had lots of skills, like Boundless Heaven Sword Art and Three Fingers of the Ancient God. They were all awesome.

However, the Boundless Heaven Sword Art was far weaker than the Ninth-heaven Sword Formation.

The Three Fingers of the Ancient God was the supreme unique skill of the Ancient God Clan, but with his weak strength, Jian Wushuang couldn’t give full play to the real power of the unique skill at all. Therefore, Jian Wushuang’s current strongest move was the first sword formation of the Ninth-heaven Sword Formation.

“It’s lucky that I can master such a great Killing Move before entering the Stellar Fog Sea. In fact, I should also really thank my First Senior Brother.” Jian Wushuang smiled faintly, but his expression soon turned serious.

“I’ve mastered the first sword formation and I have prepared everything else I need to prepare. Now, it’s time to begin.”

He lifted his head and looked up at the sky for a second, and then went straight back.

After all, it had been a year. His time was up.

Jian Wushuang would go into the Stellar Fog Sea together with Jiu Zui, Ling Long and Shui Jin. But before they set out, Jian Wushuang would first go to the palace.

With his status as a Three-clawed Blood Eagle Guard, it wasn’t difficult for him to enter the palace. Soon, he met Leng Rushuang again.

Jian Wushuang only had a quick cup of tea in the courtyard of Leng Rushuang’s residence before leaving again.

“Wait for me! I’ll bring the Yin-Yang Dragon-phoenix Fruit back for you, for sure!” Jian Wushuang thought to himself.

At no point did Leng Rushuang ever know that Jian Wushuang was about to go to the Stellar Fog Sea to find her the Yin-Yang Dragon-phoenix Fruit.

It was in the magnificent scarlet temple, the lair of the Blood Eagle Guards.

Jiu Zui, Ling Long and Shui Jin all arrived, and Commander Hong sat there on the throne at the front of the temple.

Soon, Jian Wushuang had also arrived.

“Well, now that everyone is here, let’s set out now. I will take you to a branch of the Void Temple first. The Void Temple will have the fastest wormholes to the Stellar Fog Sea.”

Jian Wushuang and the other three had long been ready. They all nodded slightly and followed Commander Hong.

They entered the branch of the Void Temple, and Commander Hong paid the transmission fee for the four. They went through the transmission channel and soon arrived at the Stellar Fog Sea.

Jian Wushuang, Jiu Zui, Ling Long and Shui Jin stood side by side above the void. They stared at the territory ahead of them, completely shrouded in gray fog. They couldn't see anything inside with the naked eye.

The entire territory was deathly quiet.

"That... is the legendary Stellar Fog Sea?" Jiu Zui looked a little solemn.

"I heard about the Stellar Fog Sea long ago, but I didn't expect I would ever actually go inside and explore it one day," Ling Long said in a deep voice.

"We have with us the restriction personally set by Empress Leng. Even if we know it is almost certain death, we must still enter it."

They were all completely prepared, but as they were about to enter the Stellar Fog Sea, their hearts inevitably sank.

Jian Wushuang marveled to himself. "Empress Leng is really brilliant! Her restriction actually forces me to bring both of my Original Bodies into the Stellar Fog Sea. It's impossible to leave one of them behind!"

Jian Wushuang had two Original Bodies, and each of which had their own consciousness. When either one was destroyed, the other one would be restored.

This was a big advantage for Jian Wushuang.

Originally, Jian Wushuang had planned to bring the World Body and leave the Slaughter Body behind when he went to the Stellar Fog Sea with his skills and trump cards, so that even if he was in danger and his body died, he would only lose his World Body and the treasure brought by it, and he could still save his life.

If the treasure was lost, he could still find a way to get it back, but if he died, he would have nothing.

Jian Wushuang had good intentions, but unfortunately, Empress Leng seemed to have anticipated that someone would come who knew the Doppelganger Secret Skill. So her restriction confined Jian Wushuang's two Original Bodies.

If one of his Original Bodies was left behind, Empress Leng's restriction would instantly activate and kill him.

"Folks, we're about to enter the Stellar Fog Sea. No one has any idea what kind of danger really lurks within up to now. When we get there, we only have a fighting chance of surviving if the four of us work together. So before we go in, everyone will say which method they will use so that we can coordinate with each other," Jiu Zui suggested.

Jian Wushuang, Ling Long and Shui Jin all nodded in agreement.

In places like the Stellar Fog Sea, not working together was courting death.

Knowing each person's method would indeed be of great use to their cooperative effort.

Chapter 862: In the Fog Sea

"Let me say first." Jiu Zui was the first to speak.

"I am good at attacking and killing, and most of my spearmanship involves combining strength and then detonating it, so my explosive power is very strong. My offensive power alone should be far above the top level of Step Six. My strongest shot can even kill the cultivators at peak Step Six."

Jiu Zui spoke with complete confidence.

Obviously, he must have once killed an expert at peak Step Six.

Because of this, he had been ranked first among so many Three-clawed Blood Eagle Guards.

"Jiu Zui, Shui Jin and I have seen how awesome your strongest shot is, which is indeed able to kill the top experts at Step Six. Of all of us, your offensive power is definitely the strongest."

Ling Long laughed. "What I am best at is fighting with people. Even if I meet someone stronger than me, I can entangle him for a long time. And this year I used up all the points I had obtained from the tasks I completed and spent them on improving my life-saving ability, so now my life-saving ability is extremely strong."

"Shui Jin, it's your turn."

"As for me, I am pretty balanced in all aspects. The only thing that is particularly strong is my body, which should be much stronger than anybody else's. And with the Xue Ying Leather Armor, I can withstand anybody's attack for a long time, even if they are stronger than me."

"In addition, I have a Secret Skill that can generate two doppelgangers in a short time, but these two doppelgangers contain less than 30% of the strength of the Original Body," Shui Jin said.

Before they entered the Stellar Fog Sea, they hid little of their own abilities, except for those secrets that were the most important to them.

"Blood Mountain, what about you?" Jiu Zui and the other two all looked at Jian Wushuang.

"As for me..." Jian Wushuang mused for a moment before he spoke. "I'm good at swordsmanship. My ability to fight closely is very strong and my body speed is not bad. Besides, I have the consciousness attack method. Even the experts at the peak Step Six will have a temporary confusion of consciousness if I use the method suddenly."

"Besides, I learned a new Killing Move this year. This Killing Move is very powerful and I believe few Eternal Realm experts can parry it."

"Oh?" Jiu Zui and the others could not help but be surprised.

They all knew Jian Wushuang was still at the Divine Realm.

They already felt it was incredible that a Divine Realm expert could be so powerful, but now Jian Wushuang actually had a formidable Killing Move?

What was more, few Eternal Realm experts could parry it?

"I wonder which one is stronger, your Killing Move or my strongest attack?" Jiu Zui laughed.

Jian Wushuang also laughed, saying nothing. Both of them were absolutely confident in their own Killing Moves, and neither thought their own was weaker.

However, they had not tested it out.

"OK, we all have a rough knowledge of our abilities. Now we should set off," Jiu Zui said.

"Uh-huh." Jian Wushuang, Ling Long and Shui Jin all nodded in agreement.

Then without hesitation, the four strode straight toward the boundless Stellar Fog Sea.

A moment later, they had entered the confines of the sea.

As soon as they entered it, a large gray fog enshrouded them, and it was all they could see.

"The fog of this Stellar Fog Sea is quite weird. It can actually obscure my view. I can only see for a few kilometers," Jiu Zui said in a deep voice.

Jian Wushuang, Ling Long and Shui Jin also were aware of this.

It should be known that they were all experts at peak Step Six with awesome strength, so they had very good eyesight.

But they could only see things within one kilometer, which obviously meant they were being greatly restricted.

"This Stellar Fog Sea is incomparably mysterious. We don't know what's in it. Everyone must be very careful," Ling Long said.

"Okay." Jian Wushuang nodded, his eyes fixed on his surroundings.

No one knew what was in the Stellar Fog Sea at all because no one had ever really come out from it.

Like the Dao Master experts, they could only ever go around the perimeter.

The same was true for some of those who had mastered the Doppelganger Secret Skill. They wanted to send their doppelgangers in to investigate the Stellar Fog Sea, but they could only circle the perimeter and could not enter the core, just like those Dao Master experts.

Jian Wushuang and the others walked slowly and cautiously in the Stellar Fog Sea, not daring to go too quickly.

They walked on for several days, and did not encounter any danger or any living creatures.

The entire Stellar Fog Sea was deathly silent.

It was so silent that it was terrifying.

After they walked on for a few days, they reached a place where the fog around them was significantly thicker than before.

It was at least several times thicker.

“We must have entered the interior of the Stellar Fog Sea by now, right?”

“Good lord, the fog here is actually much thicker. With my eyesight, before, I could see things clearly for more or less about one kilometer, but now I can see only for about a hundred meters.”

“Me too.”

Their hearts grew heavy.

One hundred meters?

It was too short.

With such little visibility, if there was any danger ahead, they would not know before it was too late.

If they encountered a sudden attack, they would probably be dead before they saw its shadow.

“Jiu Zui, you come to the rear and I’ll go to the front,” Jian Wushuang said suddenly.

“You?” Jiu Zui gave Jian Wushuang a surprised look, but did not refuse.

Jian Wushuang walked at the front of the four-person squad, but did not rush. He took a deep breath, and the next moment, the scarlet mark between his eyebrows abruptly split open, and a very weird, upside-down bloody eye suddenly opened.

One of the three Ancient God Secret Skills, the Scarlet Eye!

The Scarlet Eye Secret Skill was the most unique of the three Ancient God Secret Skills.

Its effect was to see reality and illusion clearly. It could also penetrate the fog.

Jian Wushuang activated his Secret Skill. Now the Scarlet Eye was opened, he could see clearly for more than a kilometer.

“Follow me,” Jian Wushuang said.

The group was astonished to see the weird blood-red eye between Jian Wushuang’s eyebrows, but they didn’t ask about it. Following Jian Wushuang, they slowly marched on.

Only moments later, Jian Wushuang suddenly stopped.

“There’s someone here.”

Jian Wushuang spoke slowly and his gaze intensified.

Chapter 863: Humanoid Weapons!

“Someone here?”

Jiu Zui, Ling Long and Shui Jin all looked ahead.

However, they could only see for a hundred meters, and did not see the 'someone' that Jian Wushuang was referring to.

"He's walking toward us."

Jian Wushuang looked serious, as he could see with his Scarlet Eye a burly figure slowly approaching the four of them.

In any other place, he would not be so vigilant when encountering somebody.

But this was the Stellar Fog Sea.

To encounter a human being in the Stellar Fog Sea?

Could it be an expert who had entered, but was trapped and could not get out?

This is what they all thought.

Moments later, this burly figure could also be seen by the other three.

The burly figure seemed to be a middle-aged man more than two meters tall. He was extremely sturdy, and carried a wide, thick broadsword. He looked like any other ordinary human warrior.

However, when they really saw this figure clearly, their pupils all constricted in fear.

They actually could not feel the slightest aura from the man.

He had no Spiritual Power aura or life aura. It felt more or less like a Puppet Fighter.

But then again, he was very different from a Puppet Fighter.

"What the hell is he?" Jian Wushuang frowned tightly, keeping alert.

Jiu Zui, Ling Long and Shui Jin stood side by side with Jian Wushuang. They all took out their magic weapons, ready to fight at any time.

At that moment, the burly man suddenly looked up.

As he looked up, he revealed a pair of scarlet expressionless eyes with nothing but endless murderous intent.

"Intruder, kill!"

The burly man uttered two simple words. The next moment, thundering, he charged straight for them.

"Humph."

Standing beside Jian Wushuang, Jiu Zui grunted. Then a vast Emperor Weapon aura burst out from his black sword as he charged toward the burly man.

"Magic Dragon Kill!"

With Jiu Zui's deep roar, a mighty power burst out from the black long spear as he slashed with it. This slashing produced strong wind, pushing back the gray fog permeating the air.

The terrifying strong power was enough to astound any expert at peak Step Six.

Although this was not Jiu Zui's strongest attack, he was still very confident in its power and believed that it would be difficult for a normal cultivator at peak Eternal Realm level to fight against.

The burly man flitted quickly as he pulled out the wide, thick broadsword on his back and slashed directly at Jiu Zui with no finesse.

It was a mediocre slash, but it made a lot of fog around dissipate, and the void burst open abruptly.

Clang!

With a loud clashing sound, two formidable powers collided head-on and the winner emerged in an instant.

"What?"

Jiu Zui let out a muffled groan, blood gushing from the corners of his mouth. He looked up in shock and staggered quickly backward.

"This..."

Jian Wushuang, Ling Long and Shui Jin all stood behind and had not joined the attack. They were astounded at the scene before them.

Jiu Zui ranked first among so many Three-clawed Blood Eagle Guards.

Additionally, he was best at attacking. His offensive power was definitely the strongest among the four, except for Jian Wushuang with the strongest Killing Move.

Nevertheless, he was actually repelled by this burly man with only one move.

"Die!"

After Jiu Zui retreated, the burly man did not stop. He immediately appeared in front of the other three and was slashing at them with his wide, thick broadsword.

"So fast."

Jian Wushuang looked astonished.

This burly figure moved with explosive speed, and it was much faster than Jian Wushuang.

"His offensive power extremely strong, and he is also very quick." Jian Wushuang tried hard to suppress the terror inside him, and he retreated immediately.

He was still only in a normal human state, and he had not yet become a Gold-armored Ancient God, so he could not fight head-to-head with this burly man.

When he retreated, Ling Long and Shui Jin immediately dashed toward the man.

Shui Jin was extremely confident in his strength, he wielded the saber and went to fight head-on with the burly man.

Two of them broke out their Saber Techniques at the same time.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

The blade lights streaked ruthlessly across the Void, splitting it open effortlessly with every slash.

Shui Jin's Saber Technique was extremely potent while the burly man's Saber Technique was extremely fierce. Every slash was faster than the previous one.

"Too fast, his sword is too fast."

Shui Jin was astonished. Fighting with this burly man, he found that his Saber Technique was clearly stronger than his own.

Whoosh! Whoosh! Whoosh!

A strange, black shadow rushed forward. The viper-like, black shadow was endless and extremely quick. It was a long whip that Ling Long brandished.

She moved her unusually cunning, fierce long whip, cracking it right in the space between where the burly man and Shui Jin were fighting.

The angle was so cunning that the burly man could not dodge in time.

Crack!

The long whip hit the burly man, making a clear sound. But this whip only stopped him for a second, and the next moment, he was slashing violently again with his wide, thick broadsword.

"It's impossible." A sense of shock surged through Ling Long.

Jian Wushuang, a Gold-armored Ancient God, saw clearly from one side what had happened, and he was terrified. "His offensive power is strong enough to repel Jiu Zui in one move, and his speed is so fast that it's even hard for Shui Jin to withstand. But even his body is that strong?"

Ling Long's offensive power was not strong enough, but a strike of her whip could cause some harm, even to a peak Step Six expert.

But this burly man continued attacking as if nothing had happened to him.

His attack, speed, and defense were abnormal, and he had almost no weaknesses.

Was he really human?

"What the hell is this guy? Is he a human being, or a weapon?" Jian Wushuang's eyes turned cold.

"Blood Mountain, don't just stand there! Let's go! You need to create an opportunity. There's no way my strongest attack can't kill him." There was madness in Jiu Zui's eyes when he went back in. He gave Jian Wushuang a look and immediately rushed to fight.

“Create an opportunity?” Jian Wushuang nodded. The Blood Mountain Sword in his hand exploded with horrifying power, and he charged out with his huge body.

The four fought together in fierce battle against the humanoid weapon!

Chapter 864: Kill

Under the cover of the endless gray fog, an intense battle was ensuing.

Jian Wushuang, Jiu Zui, Ling Long and Shui Jin worked together and made an all-out effort to attack.

Jian Wushuang drove the Blood Mountain Sword with all his strength, and from it, an extremely strong power burst out. His swordsmanship had been brought into full play, and it was either swift and violent or strange and cunning. He also tried to deploy his Mind-controlling Secret Skill, but it apparently had no effect on this burly man.

By virtue of the power of the Emperor Weapon, Jiu Zui fiercely slashed at the burly man’s weak points again and again with the long spear.

Ling Long brandished the Long Whip like a ferocious, vicious python, which greatly limited the burly man’s actions.

As for Shui Jin, he had deployed his Secret Skill which could quickly merge two doppelgangers, and he also spared no effort in the attack.

However, the four of them still couldn’t defeat the burly man in the least.

“His offensive power, speed, defense, and Saber Technique are all formidable. This guy is so fearsome!”

“I have never seen such a terrifying Eternal Realm expert.”

During the fighting, the four were all astonished by the strength that the burly man had shown.

They had long discovered that this burly man had not reached the level of Dao Master, but was merely at the Eternal Realm.

They, too, were all at the Eternal Realm. But this burly man was definitely the most terrifying because he was much stronger than any Eternal Realm expert they had seen.

“Ling Long, tie him up,” Jiu Zui suddenly roared.

“OK.” Ling Long nodded solemnly and a long whip appeared in her hand.

As Ling Long’s waved her hands, the two long whips violently bit at the burly man like two pythons.

Swish... the two pythons were restless and they seemed to want to entwine the burly man’s whole body. But he sensed it and a vast power suddenly burst out from his wide, thick broadsword, pushing the two long whips straight to the sides.

As the burly man parried Ling Long’s two long whips, Jiu Zui seized the opportunity to make his move.

A terrifying power gathered in his hands, and his eyes glistened with fury. His figure shook and he immediately appeared in front of the burly man, and the long spear in his hand slashed straight at him like lightning.

“Blood Shadow Heavenly Dragon, Kill!”

Jiu Zui roared.

This awesome shot was his strongest, and he had the utmost confidence in it.

Boom!

The void was slashed, forming a huge hole, and an invisible airstream filled the surroundings. Around the spear formed a huge corkscrew tunnel, and in the center of this tunnel burst out an extremely terrifying strong power.

“This is Jiu Zui’s strongest attack?” Jian Wushuang stared at it, and his eyes flashed with a hint of shock.

This attack was indeed powerful.

Even if Jian Wushuang had never personally experienced this power, he could easily guess its strength when he saw Jiu Zui slash.

“I don’t think you can still parry this shot.” Jiu Zui’s cold eyes locked tightly on the burly man in front of him.

The burly man reacted the moment Jiu Zui deployed his attack, and furiously slashed at Jiu Zui with his wide, thick broadsword.

The simple, straight slashing had such a strong power. It was easily able to split a mountain.

Bang!

A huge crash.

Jiu Zui’s body shook and he staggered backward for several steps.

The burly man was also forced to take several steps backward.

“How is it possible?” Jiu Zui was completely dumbstruck.

“This...” Ling Long and Shui Jin looking on also felt it was incredible.

Ling Long and Shui Jin knew very exactly how powerful Jiu Zui’s strongest attack was.

At the very least, the two of them didn’t dare to face this shot head-on.

Jiu Zui had used his strongest shot when he clashed with this burly man head-on, but... they actually came out even?

“He was only casually attacking?!” Ling Long marveled.

Was the burly man was actually this strong?

“Get out of the way!”

A cold roar suddenly resounded.

Jiu Zui, Ling Long and Shui Jin all looked to their side.

The black-robed Jian Wushuang was standing in mid-air with cold eyes as dozens of longswords appeared beside him.

There were 36 longswords in total and each of them had an extremely strong aura. They did not reach the Emperor Weapon level, but they all were top Eternal Weapons.

Besides, these long swords were exactly the same in both shape and size.

“Merge!”

To the astonishment of the three people watching, the 36 longswords merged straight together at an amazing speed.

Instantly, a twenty-meter sharp scarlet longsword appeared in the fog sea.

As soon as the scarlet longsword appeared, a terrifying power was immediately emitted and ripples danced in the surrounding void.

“Go!”

Jian Wushuang’s eyes flashed fiercely, and instantly the twenty-meter scarlet longsword flitted.

The scarlet longsword was too fast, so fast that, with their eyesight, Jiu Zui and the other two could barely see the blood shadow streak across the void.

The burly man also discovered this move that Jian Wushuang deployed, and naturally wanted to parry it the first time.

But the blood shadow was too fast!

A terrifying speed! It was fast to the extreme!

The burly man was still carefully trying to make out the trajectory of the blood shadow when, with a swish, his head flew straight off.

He was killed before he could offer any resistance.

This was the Ninth-heaven Sword Formation, known as the strongest in the Eternal World.

The Traceless Sword Formation, the first sword formation of the Ninth-heaven Sword Formation, had a good speed.

The sword formation was so swift that none could catch a trace of it. It killed the opponent in the blink of an eye.

The burly man’s head flew off, and at long last, the void in the endless fog sea calmed down completely.

Jian Wushuang summoned the 36 Blood-sky Swords back and then appeared beside the burly man.

Jiu Zui, Ling Long and Shui Jin all came up to the man. There was still a hint of amazement in their eyes as they stared down at the decapitated corpse.

"Is he dead?" Ling Long was the first to speak.

"He should be."

Jian Wushuang nodded slightly. "When I chopped off his head, I planned to smash the Life Core in his body while I was at it. But I found there was no Life Core in his body. It seems he isn't a normal Eternal Realm Human Warrior."

Chapter 865: The Encounter

Eternal Realm cultivators, known as eternal existences, had endless lives, and the cores inside their bodies were Life Cores.

As long as their Life Cores weren't broken, they weren't dead.

This burly man did not have a life core, so naturally, he could not have been an Eternal Realm human warrior.

Besides, the burly man had nothing with him except a broad thick broadsword, not even an Interspatial Ring.

It seemed that he was very similar to the Puppet Fighters in the Eternal World, but they were merely similar and were quite different in some respects.

"I don't know what kind of monster he is, but his strength is really terrifying. I have lived for a long time. I have seen countless Eternal Realm experts, including experts at peak Eternal Realm who are stronger than me. But none of them could do anything but escape if they met this guy." Jiu Zui marveled.

"Eternal Realm cultivators with such terrifying offensive power, speed, defense, and Saber Techniques, are absolute nightmares to deal with." Shui Jin nodded. "Thanks to Blood Mountain's Killing Move, we could just about kill him."

As Jian Wushuang spoke, Jiu Zui, Ling Long and Shui Jin all looked at him with weird expressions.

They had fought to the best of their abilities, and they couldn't harm the burly man in the slightest. But Jian Wushuang killed him easily with a Killing Move.

"The Blood Shadow just now..." They could not help but recall the Killing Move Jian Wushuang had just displayed.

The Blood Shadow was so fast that it was a blur to them.

Its power was extremely formidable.

Jiu Zui's strongest shot merely had extremely strong power, but Jian Wushuang's Killing Move was a combination of speed and power.

Additionally, its strongest point was its speed.

It was because its speed was so fast that the burly man could not parry it in time, and Jian Wushuang could kill him at one fell swoop.

"Blood Mountain, I really didn't expect that you, a Divine Realm expert, could actually possess such a terrifying Killing Move." Jiu Zui stared at Jian Wushuang.

Just now, he had still had absolute confidence in his strongest shot. Although he knew Jian Wushuang had a Killing Move, he thought his Killing Move must not have been as terrifying as his strongest shot.

But it was proven, Jian Wushuang's Killing Move was definitely several times more formidable than his strongest shot.

Take the burly man just now for an example: Jiu Zui had displayed his strongest move, but he could not gain the upper hand. But Jian Wushuang's Killing Move killed the burly man in seconds.

"No wonder you dared to say that few Eternal Realm experts could block your Killing Move. It's indeed very formidable, as it could even kill such an appalling human-shaped monster. I wonder who among the Eternal Realm cultivators in the Eternal World could survive your Killing Move?"

"If there really is someone who can, perhaps it's the first so-called Master Mubai of the Xia Clan of the Eternal Realm in the Eternal World." Shui Jin marveled.

"Okay, let's forget about him for a moment," Jian Wushuang said, changing the subject. "We had barely entered this Stellar Fog Sea when we met that human-shaped monster. I really have no idea what will happen next. We had better be as careful as we can."

"Yes, you're right. We met such a horrifying humanoid monster at the beginning, maybe we'll encounter even greater trouble." Jiu Zui nodded solemnly.

"Go, let's keep going."

The group did not linger for too long, but continued straight ahead.

...

There was a vast lake in the depths of the Stellar Fog Sea.

The lake was also filled with vast gray fog, and there were all kinds of lotus leaves in the lake. Unlike in the outside world, the lotus leaves here were very huge, and each of them was like a ship, big enough for dozens of people to stand on.

There was an enchanting woman in red sitting cross-legged in the middle of one of the lotus leaves.

The enchanting woman had been sitting on the lotus leaf for a long time, but she suddenly opened her eyes when Jian Wushuang deployed the first sword formation of the Ninth-heaven Sword Formation and killed the burly man.

Her eyes were beautiful and bright like jewels.

At that moment, a small, strange smile slowly crept across her mouth.

"He actually killed a Blood Demon?"

“Because of the special restriction, cultivators above Dao Master can’t enter this Stellar Fog Sea. Only those young men in the Eternal Realm can enter it. The Blood Demon is the nightmare of Eternal Realm cultivators, and even if many top Eternal Realm cultivators teamed up, logically speaking, only he could kill them. But now, he has actually been destroyed?”

“Interesting, it seems that before long there will be another interesting young man on Star Island,” the enchanting woman in red muttered.

She then closed her eyes again.

After killing the Blood Demon, a humanoid monster, the group forged ahead, and they grew significantly more cautious.

They also slowed down.

Three days later, the four met their second creature in the Stellar Fog Sea.

Unlike the humanoid monster before, the second creature they met was actually a one-eyed giant with a height of about one hundred meters.

The one-eyed giant held a mace with tremendous murderous intent. When he saw the group, he did not speak as the human-shaped monster did, he immediately rushed toward them.

The four of them were very vigilant at first, and they fought with the giant very cautiously, but soon they found the One-eyed Giant was clearly weaker than the human-shaped monster Jian Wushuang had killed.

All four of them were strong enough to fight head-on with the One-eyed Giant and could outclass him.

As a result, they worked together and easily killed the One-eyed Giant.

They continued on their adventure and met many living beings.

From the humanoid monster and the One-eyed Giant at the beginning to the various strange forms of Exotic Beasts, the group had never seen these before in the Eternal World. They were unique to this Stellar Fog Sea. They were extremely strong, and many of them had the strength of peak Step Six of the Eternal Realm. However, they were far weaker than the human-shaped monster they had met at the beginning.

These Exotic Beasts immediately attacked the group when they saw them, so the group had to constantly find new ways to deal with them.

The Stellar Fog Sea was boundless, and the fog was spread throughout. The four people could not clearly make out which way to go, so they had to continually walk forward and explore.

Chapter 866: The Dramatic Change

Before they knew it, the group had been in the Stellar Fog Sea for one year.

Under the cover of lots of gray fog, swish! A cold sword shadow burst swiftly out and instantly slashed a purple Exotic Beast ten meters in height. The purple beast let out a desperate scream and was viciously killed.

Seeing Jian Wushuang kill the purple Exotic Beast, Jiu Zui, Ling Long and Shui Jin all went up to it.

"Blood Mountain, it seems your swordsmanship is better than before." Jiu Zui looked at Jian Wushuang, a little solemnly.

Ling Long and Shui Jin both nodded. They saw it, too.

"Yes, a little." Jian Wushuang smiled and did not deny it.

During the year, the four of them had been roving around in the Stellar Fog Sea. They bumped into thousands of Exotic Beasts. Some of these Exotic Beasts appeared alone, and some gathered together in twos and threes.

Once the four met these Exotic Beasts, a fierce battle would break right out.

Jian Wushuang considered these Exotic Beasts his enhancement objects. As he fought fiercely with these Exotic Beasts, he was constantly honing his swordsmanship and improving his strength.

After one year, he had not made too much progress, but his swordsmanship had improved.

"Among the four of us, you are already the strongest, but you are still making continued progress." Jiu Zui smiled bitterly because he himself was indeed very strong, but he barely had any confidence in competing with Jian Wushuang.

Jian Wushuang had fully proved his strength in several fierce battles this year.

Notably, they had encountered danger several times during the year.

In this critical moment, Jian Wushuang would come forward and use his almost invincible Killing Move, and he could not be resisted at all.

Now even Jiu Zui had to admit that Jian Wushuang was stronger than him, and he was absolutely the strongest of them all.

"Blood Mountain, I really envy you. Obviously, you are strong enough, but you still have a lot of room for improvement," said Jiu Zui.

"As for us, we have reached peak Eternal Realm and almost have no room to improve our strength. It would be impossible to improve greatly unless we break through and reach the Dao Master realm. But it's too hard and we probably couldn't make it even if we struggled for a lifetime."

"But you, tsk..."

Hearing this, Ling Long and Shui Jin both nodded.

They had reached the peak of the Eternal Realm and had little room for improvement.

But Jian Wushuang?

He was merely a Divine Realm expert.

He still had huge room for growth. He would surely make a leap in strength in the future when he broke through and reached the Eternal Realm.

“By the way, when will you break through and reach the Eternal Realm?” Ling Long looked at Jian Wushuang.

The Stellar Fog Sea was extremely dangerous. Naturally, while they wondered around here, the stronger they were, the better. In the current realm, Jian Wushuang already had exceptional strength. Once he broke through to the Eternal Realm, his battle strength would increase and he could be of even greater help to them.

“Break through to the Eternal Realm? Soon, I guess.” Jian Wushuang smiled.

He was not lying, as indeed he would break through soon.

Back in the Firmament Territory, his Third Senior Brother Bai Hu gave him a Seven-colored Dao Fruit which was of great help to his comprehension of the Dao.

Later, he meditated in the Divine Sea twice, which substantially improved his comprehension of the Dao. He hadn’t completely mastered the ninth Occult in both the World Dao and Slaughter Dao, but it was only a step away and he felt it would not be long before he could break through.

The four were talking and laughing casually, when...

Boom! The whole world began shaking.

As it shook, heavy voices suddenly came from the nearby void.

“What’s happening?”

The group looked serious. Jian Wushuang deployed the Scarlet Eye immediately to see ahead.

“What is it? Do you see something?” Ling Long asked.

“Not yet.”

Jian Wushuang shook his head. With gray fog covering the Stellar Fog Sea, with his Scarlet Eye, he could only see clearly for a hundred meters, and those heavy voices obviously came from farther away.

It seemed something was approaching quickly, as those heavy voices were getting louder and louder.

“Are they Exotic Beasts?” Jiu Zui’s asked with a grave expression.

As they wandered around in the Stellar Fog Sea, they mostly met Exotic Beasts.

“Wait a second, I’m about to see it.” Jian Wushuang used the Scarlet Eye Secret Skill the best he could and stared ahead. The next moment, huge Exotic Beasts appeared for him to see.

Too many, there were too many Exotic Beasts.

Just a moment later, there were at least hundreds of Exotic Beasts in his sight.

“This, this is actually an Exotic Beast rampage!” There was a hint of fright in Jian Wushuang’s eyes, and he immediately screamed. “Run! Hurry up!”

As he shouted, Jian Wushuang turned straight around and ran.

Jiu Zui, Ling Long and Shui Jin couldn’t see the thousands of Exotic Beasts charging, but they all believed Jian Wushuang’s Scarlet Eye Secret Skill. After all, with its help, Jian Wushuang was always the first to discover Exotic Beasts in the past year.

Now Jian Wushuang panicked, which meant he had seen something terrifying.

Without hesitation, Jiu Zui, Ling Long and Shui Jin immediately turned and ran like crazy.

Shortly after the three of them turned and fled, they could see the Exotic Beast rampage.

“Oh my God!”

“This... this!”

“Why are there so many?”

Jiu Zui, Ling Long and Shui Jin were all dumbstruck.

They all saw the countless Exotic Beasts behind them.

There were a large number of Exotic Beasts in formidable formation. They saw no less than a hundred, and there were even more tall figures that were too hazy to see in the fog.

There were many kinds of Exotic Beasts, many of which they had met in the past year, like huge One-eyed Giants, evil Exotic Beasts with black scales all over them, and Exotic Beasts spreading out their wings like Winged Dragons, incredibly skilled in speed.

Before, they had only come across the occasional Exotic Beast. At worst only a few of them had gathered together, which they could still manage. But they had never seen such a terrifying rampage with so many Exotic Beasts.

Who could stop this overwhelming amount of Exotic Beasts?

The four of them were far from being able to fight so many.

So, they could only escape!

Run like crazy!

Chapter 867: Trying Their Best

The group fled like crazy, and the Exotic Beasts were charging quickly behind them. They had already discovered them.

Many of the Exotic Beasts in the rampage hissed, and all of them were extremely excited.

Many Exotic Beasts began to chase straight after them, and the particularly quick ones had bursts of astonishing speed.

There were many kinds of Exotic Beasts in the Stellar Fog Sea. There were a few clumsy Exotic Beasts such as One-eyed Giants, and other kinds of Exotic Beasts with astonishing speed.

When the four fled, they were very aware that the Exotic Beasts behind them were getting closer and closer.

"These Exotic Beasts are so fast!" Jian Wushuang said with a grave expression.

"They're going to catch up soon! What should we do?" Ling Long was very worried.

"Folks, you must have prepared some life-saving skills or trump cards when you knew you would go to explore the Stellar Fog Sea, right?" Jian Wushuang looked around.

"Yes." Ling Long nodded.

"Yes, we have some life-saving skills." Jiu Zui and Shui Jin nodded.

"Now, if the four of us continue running away together, we will be bound to die together, so we must scatter. Whether we can survive or not can only depend on our own abilities." Jian Wushuang licked his lips, his eyes serious.

"Scatter?" Jiu Zui, Ling Long and Shui Jin looked at each other with pained expressions.

This Stellar Fog Sea was full of fog, and it was a huge maze.

Besides, when they entered the Stellar Fog Sea, their Message Token was restricted and couldn't be used. Once the four of them separated, it would be impossible for them to get back together again. Worse still, the Stellar Fog Sea was so dangerous, that if they wandered around alone, except for Jian Wushuang, the chances of them surviving were probably not high.

They would not scatter unless it was absolutely necessary.

However, Jian Wushuang was right. Right now, if they did not scatter, all of them would die together.

After they scattered, each one would depend on their own life-saving abilities, and perhaps one or two could successfully escape.

"Okay, let's scatter!" Jiu Zui simply nodded.

"That's the only way we have now." Ling Long nodded.

"Folks, I wish you all good luck," said Shui Jin solemnly.

"Good luck," Jian Wushuang said likewise.

After that, they scattered in four directions and fled.

The Exotic Beast rampage immediately divided itself into four groups, each group chasing each person.

Jian Wushuang was followed by a large number of Exotic Beasts, but he was looking to the side.

He was looking in Ling Long's direction. Ling Long was running like crazy, but the Exotic Beasts behind her were getting closer and closer.

"I'm finished, finished!" Ling Long's face turned pale and she was desperate.

Seeing this, Jian Wushuang narrowed his eyes. "Ling Long's life-saving ability is not bad, and she is fast. But the Exotic Beasts chasing her are similar to Winged Dragons and are extremely fast. I've experienced this before."

As the group wandered around in the Stellar Fog Sea, they had come across this kind of Exotic Beast. They were similar to Winged Dragons, and the speed they showed was quite surprising.

If there was only one such Exotic Beast, it wouldn't be terrifying. But there were nearly 100 Exotic Beasts chasing Ling Long, including dozens of Exotic Beasts similar to Winged Dragons.

At the thought of this, Jian Wushuang's eyes grew serious. He rummaged and took out a token.

This token was the one that Xuan Yi had given to him for saving his life.

The token contained the Sunrise Sword Emperor's three Sword Essences. He had used his first Sword Essence when he killed Xia Yan, but now he began to guide the second one.

Buzz!!!

Under Jian Wushuang's guidance, a terrifying Sword Essence suddenly appeared in the void.

All of a sudden, the world changed.

The second Sword Essence was several times stronger than the first one.

Even if you were a genuine Dao Master expert, you would very likely be terrified if you saw this Sword Essence.

Hardly had the Sword Essence emerged, Jian Wushuang directly guided it to fly in Ling Long's direction to attack.

The tremendous Sword Essence pierced through the void and appeared behind Ling Long in a moment before it ruthlessly glided across the Exotic Beasts' bodies with overwhelming power.

The Sword Essence was powerful, and the Exotic Beasts were only at the Eternal Realm. Therefore, it was really very easy to kill them.

With Jian Wushuang's guidance, the Sword Essence glanced across all the Exotic Beasts, before its power finally dissipated completely.

They were decapitated and crashed down like raindrops. Blood filled the void, turning the gray fog into a bloody red.

"This is..."

Seeing what was happening behind her, Ling Long opened her eyes wide and then looked at Jian Wushuang.

"Thank you." Ling Long uttered the two words soundlessly, but Jian Wushuang knew what she said.

Jian Wushuang nodded slightly and looked in the directions of Jiu Zui and Shui Jin.

He could no longer see Jiu Zui, but Shui Jin...

"What?" Jian Wushuang's looked shocked.

He could see that many of the beasts had caught up with Shui Jin and were surrounding Shui Jin. Although he fought desperately, he could not withstand the attack of so many Exotic Beasts at the same time.

Just a moment later, Shui Jin was crushed by the beasts.

Shui Jin is dead!

Jian Wushuang was shocked, but he could do nothing but shake his head.

"I have done my best to help them. I can't do anything else. Whether each can escape this disaster and leave the Stellar Fog Sea alive depends on their luck." Jian Wushuang sighed lightly.

The four of them had come together to the Stellar Fog Sea and took an adventure in the Impasse for a year, so of course, they had formed a connection.

If possible, Jian Wushuang would go to save them without hesitation. Even if it might cost him some trump cards, he would not regret it.

However, in this predicament, he could do nothing.

Just as he had said before, in this kind of situation they could only rely on their own life-saving abilities.

He thought no more of it. After all, the Exotic Beasts behind him had already caught up with him. He immediately took a deep breath and deployed his Dragon Blood Secret Skill.

When Jian Wushuang deployed the second level of Dragon Blood Secret Skill, the Spiritual Power in his entire body began to burn wildly. His speed suddenly increased a hundredfold, and soon he disappeared and the Exotic Beasts could no longer see him.

Chapter 868: A Newcomer?

It was in the depths of the Stellar Fog Sea.

Woosh!

A stream of light passed through the fog, and before long, it stopped in the void.

Jian Wushuang heaved a sigh of relief when he saw that the Exotic Beasts were gone, and put away his Dragon Blood Secret Skill.

The Dragon Blood Secret Skill increased his speed by burning his Spiritual Power, which would cost a lot. Although he had only used it for a short time, it already consumed nearly half of his Spiritual Power. But at least he got rid of those Exotic Beasts.

"The Dragon Blood Secret Skill that the Master gave me is very unique. It saved my life at a critical moment. It's really great!"?Jian Wushuang thought.

In fact, Jiu Zui, Ling Long and Shui Jin all had life-saving means, but unfortunately, they were not very useful in the crisis they had just had.

"I didn't expect that there would be such a terrifying Exotic Beast rampage in this Stellar Fog Sea!" There was a hint of terror in Jian Wushuang's eyes.

No one except a Dao Master expert could fight against so many strong Exotic Beasts working together.

Although Jian Wushuang was strong, he could only run for his life in the face of this kind of Exotic Beast rampage.

"Shui Jin is dead, and I don't know whether Jiu Zui and Ling Long can escape. I hope they will be lucky."?Jian Wushuang sighed to himself.

He lingered there for the time being. He began to take an elixir to restore his health and Spiritual Power.

One day later, he had returned to his peak.

"From today, I can only rely on myself in the Stellar Fog Sea."

Looking around at the vast void enshrouded in a mass of gray fog, Jian Wushuang clenched his fists and set off to wander around alone.

There was trouble everywhere in the Stellar Fog Sea.

The chance of an Eternal Realm expert being killed was too high if he wandered around alone in the Stellar Fog Sea.

If he came across some vicious Exotic Beasts, he might not be able to get away.

Jiu Zui and Ling Long had good strength, but the chances of them surviving were extremely low if they wandered around alone in the Stellar Fog Sea.

But Jian Wushuang was different.

He was the strongest among the four of them, and he could easily kill a common Exotic Beast. Even if he came across a few Exotic Beasts at the same time, he could kill them by virtue of his Ninth-heaven Sword Formation.

If he bumped into another rampage, he could also escape with his Dragon Blood Secret Skill.

He was extremely capable of surviving in the Stellar Fog Sea.

He was still wandering around the boundless Stellar Fog Sea. If he ran into an Exotic Beast, he would make his move and use it to hone his swordsmanship.

He had no idea when he could reach the end or walk out of this Stellar Fog Sea, he only knew that the stronger he was, the higher his chance of surviving was.

Two years flew by.

Adding together these two years and the year he wandered around with the other three, Jian Wushuang had been in the Stellar Fog Sea for three years.

Jian Wushuang was wearing a scarlet robe which was his blood-eagle armor, and carrying a longsword on his back as he walked slowly through the foggy void.

“Huh?” Jian Wushuang stopped abruptly and looked straight ahead with the blood-red eye between his eyebrows.

An island was in sight, floating in the void.

The island was so huge that he could not see all of it with his naked eye.

He felt the island had a strong and magnificent aura.

He was very familiar with these auras. They were not the violent auras of those Exotic Beasts, but the Spiritual Power auras of human experts.

“There are people?”

Jian Wushuang was delighted, and he darted straight towards the floating island.

The edge of the island was completely paved with jade, and on it lay a chubby, bald teenager, half drunk, with a jug in his hand, his eyes blurred and his face flushed.

Woosh!

A scarlet-robed figure suddenly appeared beside him.

The bald teenager noticed and looked up to cast a glance at the figure, but what he saw was a very strange face.

At the sight of this strange face, the bald, blurry-eyed teenager suddenly became sober. His body shook, and the smell of wine vanished in a moment as he quickly got up.

“You are a newcomer? Haha!” The bald teenager looked at Jian Wushuang with burning eyes.

“Newcomer?” Jian Wushuang frowned, but did not answer.

But the bald teenager had apparently already decided Jian Wushuang was a ‘newcomer’. He shouted, “Quick, come quick, there is a newcomer.”

The bald teenager had a loud, sonorous voice, ringing throughout almost half of the island.

Hearing the shouting, this island that had been floating in quiet for many years was instantly in a state of commotion.

“Haha, there is a newcomer?”

“How long has it been? Three thousand years? There is a newcomer at long last.”

“The last newcomer who came here seemed to be called ‘Hei Qi,’ and he had good strength. But he was too stubborn to believe that people can’t leave the Stellar Fog Sea. He left us soon after he came to the island, and he has probably been killed by those Exotic Beasts by now.”

“Haha, it’s a rare newcomer. We should take good care of this young man.”

A lot of voices sounded from all directions and a lot of people were quickly rushing over. Just moments later, hundreds of people had appeared around Jian Wushuang.

They surrounded him, and he was in the center. They all looked at him with burning eyes.

“These people?” Jian Wushuang looked at these Human Warriors with a frown.

He could feel that the auras of these people were particularly strong. They were all in the Eternal Realm, and most of them were at peak Eternal Realm.

But what concerned him most was the way these people looked at him.

Their eyes were burning.

They were like beggars who had been hungry for several days and had just seen a delicious chicken leg.

Such hot gaze made Jian Wushuang extremely uncomfortable.

“Hey, this kid looks really handsome.”

Among the crowd, a burly man stuck his tongue out, licked his lips, and stared at Jian Wushuang with hot eyes. “Let’s follow the old rules. I’m first,” the burly man said to the others.

He then stood up.

“Brat, fight with me. If you win, no one on the island will make things hard for you. But if you lose, haha, then you have to hand over all of your treasures. In addition, you will have to make tea, beat our legs and serve us for the next thousand years.” The burly man wore a grim smile.

Chapter 869: Star Island

“Serve you?” Jian Wushuang’s eyes grew serious.

He could feel the filthy meaning hidden in the burly man’s eyes when he said those words.

“This guy...” Resentment suddenly surged in Jian Wushuang’s heart.

“Haha, let’s get started,” the burly man said.

He immediately took out a pair of gloves and put them on.

All the people nearby sensibly retreated.

The burly man stared at Jian Wushuang and suddenly grinned before he charged like a matchless, fierce beast.

Woosh!

He instantly appeared in front of Jian Wushuang. With his fist, surrounded by a faint flame, he struck him.

Jian Wushuang looked serious and did not dare to do anything careless. He turned into a Gold-armored Ancient God instantly and the Blood Mountain Sword appeared in his hand.

Bursts of power emanated from the Blood Mountain Sword. Jian Wushuang violently hacked at his opponent, and his sword collided head-on with the burly man's fist.

Bang!

With a bang, Jian Wushuang was forced to take a few steps back.

"He's so strong!" Jian Wushuang was shocked.

The burly man's strength was indeed remarkable.

During these two years in the Stellar Fog Sea, Jian Wushuang had bumped into many Exotic Beasts. Some of them had strength as their best skills, but they were still a little weaker than this burly man.

This burly man was not only strong, but he also had a highly accomplished fighting technique.

One punch after another, he violently attacked Jian Wushuang, and his essence kept changing.

Sometimes his fist was as swift as thunder, sometimes it was as hot as fire, and sometimes it came down like a mountain.

Jian Wushuang deployed his full swordsmanship, and it burst out as he spared no effort to fight against the burly man. But because of his inferior strength, he was forced to continue retreating backward.

"Haha, boy, is this all the strength you have?" The burly man looked ferocious.

"Humph." Jian Wushuang grunted. The next moment, sword shadows floated out of his Interspatial Ring. There were 36 longswords.

"What is this?" The burly man looked confused.

"Merge." Jian Wushuang controlled the swords.

In a second, the 36 Blood-sky Swords formed a twenty-meter long scarlet longsword from which amazing strong power burst out. The power was so strong that all the experts were amazed as they watched the battle.

"Go!" Jian Wushuang roared.

This scarlet longsword instantly flitted, attacking.

It was so fast as it streaked across the void.

"What's this?"

The burly man was still in a daze, but the scarlet sword had already passed through his neck.

Haha!

The burly man's head flew off and the power bursting out from the longsword went into his body and shattered his Life Core.

Jian Wushuang showed no mercy to such filthy people like the burly man.

He deployed his Ninth-heaven Sword Formation and killed the man, which greatly stunned the surrounding experts.

“So strong!”

“What was that? Was it a sword formation?”

“The sword formation was so formidable that even Shi Mo couldn’t withstand it, and he was instantly killed.”

“This newcomer is very strong.”

The experts looked at Jian Wushuang with a hint of terror.

In this world, no matter where you were, experts were always respected. So it was on the island.

Just then, the burly man’s corpse began to move. Only a moment later, his head rejoined his body.

“Damn it, is this brat so strong?” The burly man stared at Jian Wushuang as he roared.

“How is it possible?” Jian Wushuang looked shocked.

He had clearly killed this burly man and even crushed his life core, but he did not die?

“Newcomer, since you are so strong, you don’t need to serve us. Do whatever you want to do.” The burly man snorted before he turned and left.

The experts who had been staring at Jian Wushuang with burning eyes all grew serious and turned to leave one by one.

They were still talking as they left.

“This newcomer has a really awesome strength. He actually defeated Shi Mo.”

“In my opinion, with his strength, he should be able to pass the first test.”

“The first test? It’s very likely. It seems that we will soon have the thirteenth Heavenly King on our Star Island.”

“I thought he would be a plaything. Who knew he would be as tough as iron.”

People scattered as they whispered, leaving only Jian Wushuang and the bald teenager who had found Jian Wushuang in the first place and asked people to come.

“Newcomer, I thought that you would be very unlucky, and I did not expect you to be so strong. You even killed Shi Mo.” The bald teenager looked at Jian Wushuang with a smile.

“What the hell is going on? And where am I?” asked Jian Wushuang with a frown.

“Don’t worry, let’s get to know each other first. I’m Qian Yu, and you?” asked the bald teenager.

“Blood Mountain.” Jian Wushuang simply said his alias as usual.

"Blood Mountain?" Qian Yu nodded slightly, and then said, "Let me tell you something. The place where you are now is called Star Island. It is the core of the Stellar Fog Sea."

"Star Island?" Jian Wushuang frowned.

The core of the Stellar Fog Sea was actually a huge floating island?

"Of course, it cannot be said to be an island here as much as a large prison," said Qian Yu.

"Prison?" Jian Wushuang was in a daze.

"Yes, prison."

"Stellar Fog Sea is the second Impasse recognized by the Eternal World, but it isn't naturally formed. It's... artificially created!" said Qian Yu.

"Artificially created?" Jian Wushuang was shocked.

This vast and mysterious Stellar Fog Sea had existed in the Eternal World for countless years. The second Impasse, which so many top-class experts had no way of spying on, was artificially created?

"How could it be possible!"

"Who has such great ability to create this Stellar Fog Sea?" Jian Wushuang kept shaking his head.

"I was just as shocked as you when I first came to this Star Island and learned the secret of the Stellar Fog Sea." Qian Yu saw the shock on Jian Wushuang's face and was not surprised. He continued, "But it is true that the Stellar Fog Sea was created by a genuine almighty."

"The whole Stellar Fog Sea is, in fact, a huge Spell Formation. This Spell Formation hinders all the experts above Dao Master, as well as some doppelgangers. In addition, it also makes it impossible for thousands of Eternal Realm experts to leave the Stellar Fog Sea."

"And the core of the Spell Formation is Star Island."

Chapter 870: The Prison

Jian Wushuang was stupefied by what Qian Yu had said.

Which almighty power had such earthshaking skills that he could create such a huge Stellar Fog Sea and limit the entry of so many experts of the Eternal World above Dao Master level?

"The Stellar Fog Sea is full of Exotic Beasts and various dangers, but the core, Star Island, is the only safe place in the entire fog sea. If the experts who enter the sea and wander around are lucky enough, they will arrive at this Star Island."

"There were 636 people on Star Island. With you, the number is 667 now," said Qian Yu.

"636? Such a large number?" Jian Wushuang was surprised.

"Is it?" Qian Yu laughed. "Blood Mountain, do you know how long ago the Stellar Fog Sea was created?"

Jian Wushuang shook his head without thinking.

"It must have been there for at least millions of years, I dare not say any more. And during this long period, some experts took the initiative to enter the Stellar Fog Sea to look for opportunities, and some were driven to the wall by their enemies and could only escape into the Stellar Fog Sea to try their luck. How many people do you think that would be in total?" Qian Yu grinned.

"That number would be terrifying!"

"But once they enter the Stellar Fog Sea, they will only have two possible endings."

"One ending is for those with bad luck. They will wander around the Stellar Fog Sea, and be killed when they run into Exotic Beasts or some other trouble.

"The other ending is for those with good luck like us, who come to this Star Island and live here for good after a long period of wandering."

"Since ancient times, so many experts have entered the Stellar Fog Sea. But only six hundred people were lucky enough to reach Star Island. Is that a large number? It's in fact very, very small. The vast majority of people have been killed by the Exotic Beasts while wandering in the Stellar Fog Sea."

Hearing this, Jian Wushuang nodded to himself.

Indeed, if these people on Star Island were all the experts who had survived in the Stellar Fog Sea for thousands of years, then just over 600 people was indeed a pitifully small number.

"We were lucky enough to get to Star Island and survive, but in fact, it is better to die than to live here," said Qian Yu.

"It is better to die than to live?" Jian Wushuang was in a daze.

"Blood Mountain, I just said that Star Island is a huge prison. Although it can guarantee our lives as long as we stay here, it is perpetually enshrouded in darkness, and we have little to no chance of leaving," Qian Yu explained.

"The long years are so boring, dull and dark. This kind of day is basically torture to human beings!"

"Many people can't stand this kind of boring life. They would rather leave Star Island to wander in the fog sea and die at last than stay here."

"Besides, there are some people who have been trapped on Star Island for millions of years and their minds have long been completely warped. They become crazy, so most people on the island are maniacs!"

"Like Shi Mo with whom you just fought. I heard that when he entered Star Island, he was quite a decent man. After being trapped for a million years on this island, he has become crazy and evil. Whenever a newcomer arrives, he will come out. If the newcomer is strong, nothing bad will happen. If not, he will be tortured and even ravaged."

"After all, Star Island is very special. On this island, people can't die. No matter how a person is tortured, he will not die."

"Can't die?" Jian Wushuang was in a daze. "I have just..."

He had clearly crushed Shi Mo's life core, but he did not die.

"Yes, you couldn't kill Shi Mo, not because of his special skill but because of the peculiarity of Star Island. There is a special restriction here. Once someone's life is in danger, the restriction will be activated to protect his life," said Qian Yu.

"Oh?" Jian Wushuang nodded slightly as the questions on his mind were finally answered.

"Blood Mountain, you have just arrived at Star Island, so this place is still new to you. And there are some pretty good opportunities here. So you will not find it dull for a hundred thousand years, but after a few million years, you will be just like us." Qian Yu's face was full of confusion and despair.

Seeing this, Jian Wushuang's eyes shrank and he asked, "Is there really no possibility of leaving this Stellar Fog Sea?"

"Not exactly."

"If there weren't any possibility, the people on the island would have died in the fog sea long ago. Who would want to stay here and live this dull miserable life?" Qian Yu smiled faintly.

"However, the possibility is too low. It's negligible."

"Since the Stellar Fog Sea was created so many people have come to Star Island. But only one person has ever left alive."

"Someone left alive?" Jian Wushuang's eyes became bright and he quickly asked, "Who was it?"

"He was called Star King. He left four million years ago."

"Star King?" Jian Wushuang frowned.

He had never heard of an expert in the Eternal World named Star King.

Besides, he had never heard of someone leaving the Stellar Fog Sea alive.

But what had happened to Star King?

"Qian Yu, how can we leave here?" Jian Wushuang continued to ask.

"There are two ways to leave here. The first one is to pass the tests set by Lord Spirit Sound."

"Lord Spirit Sound?" Jian Wushuang was curious.

"Lord Spirit Sound is the servant of the almighty who created the Stellar Fog Sea. She controls Star Island. There's a Black Tower on the island and there are three tests to pass there. If you can pass these three tests, Lord Spirit Sound will let you go," said Qian Yu.

"It's that simple?" Jian Wushuang was astonished.

"Simple?" Qian Yu sneered. "Blood Mountain, you have never experienced the three difficult tests. There are so many experts on the island and most of them are at the peak of the Eternal Realm. But do you know how many experts have passed the first test?"

“How many?” Jian Wushuang looked at Qian Yu.

“Twelve, only twelve!”

Qian Yu said in a solemn voice, “These twelve people are called the Twelve Heavenly Kings. All of them are top geniuses. Eleven of them could only pass the first test, and there was only one who could pass the second test!”

“And the reason why this one could pass the second test is that after he passed the first test he had the opportunity to cultivate his Secret Skill on Star Island and greatly improve his strength.”

“As for the third test, no one has passed it but Star King four million years ago.”
