## **#Chapter 661 - Read Immortality Cultivation: I Farm in the System Space Chapter 661**

Chapter 661: Chapter 284 Ye Yun Undergoes Tribulation Chapter 661: Chapter 284 Ye Yun Undergoes Tribulation After setting up the formation, Lin Jing and Zhang Jian then returned to Li Yan Island.

Once back on Li Yan Island, Lin Jing checked Ye Yun's aura once more and found it to be even more robust than before.

Since Ye Yun was cultivating the Overlord Divine Physique passed down from Lin Jing, Lin Jing could distinctly feel the state Ye Yun was in at the moment.

Gauging by Ye Yun's condition at present, it should take less than a day for Ye Yun to adjust himself to his peak, after which he would be ready to face the Tribulation.

Just as everyone was waiting, a new arrival came to Li Yan Island at this time.

This newcomer was none other than Yan Ming.

Upon arrival and seeing the situation, Yan Ming was also taken aback:

"This aura...

...

Is someone preparing to undergo Tribulation?"

Lin Jing nodded:

"My disciple, Ye Yun."

"His cultivation has reached the required stage, and he plans to face the Tribulation."

Having said that, Lin Jing then said to Yan Ming:

"Brother Yan!"

"You are here because you've prepared the alchemy ingredients, right?"

Yan Ming nodded in affirmation:

“That’s right.”

“I had prepared all the alchemy ingredients a few days ago and was planning to ask Brother Lin to help with alchemy.”

“However, now that Ye Yun is preparing for the Tribulation, that takes precedence.”

“As for alchemy, we can talk about it after Ye Yun has undergone his Tribulation.”

“It turns out my timing is just right; I can also lend a hand and act as a protector for Ye Yun.”

Lin Jing then cupped his fists in thanks: “Then I’m very grateful to you, Brother Yan.”

Yan Ming waved his hand:

“Brother Lin, you’re being too formal.”

.....

After the arrival of Yan Ming, several people waited for several more hours.

Finally, on the next day, Ye Yun finished meditating.

After finishing meditation, Ye Yun walked out from the place of seclusion and arrived at Li Yan City.

“Master!”

“I’m ready,” Ye Yun said to Lin Jing.

Lin Jing nodded and then spoke:

“Everything else has been arranged; we can set off now and head to the place of Tribulation.”

With that,

Lin Jing instructed Li Qingqing and the others who were staying behind to guard Li Yan Island.

Novgo.co

Afterward, he, along with Yan Ming and Zhang Jian, escorted Ye Yun toward the designated Tribulation site.

Only a few of them went for Ye Yun's Tribulation.

The others, including Li Qingqing and Lin Jue, were not allowed to join.

The Nascent Soul Heavenly Tribulation that Ye Yun was about to face was no ordinary event; with their insufficient cultivation levels, should any mishap occur, their presence would complicate matters.

Moreover,

Ye Yun was a Body Refinement Cultivator, and his method of undergoing Tribulation differed from other cultivators.

Even if they were to attend, it would be difficult for them to extract any lessons from this particular Tribulation.

For this reason, Lin Jing had not allowed them to accompany the group.

.....

The journey from Li Yan Island to the Tribulation Island was without any unexpected events, and they arrived on the island smoothly.

Upon arrival, Zhang Jian immediately sprang into action, removing the concealed formation that covered the Tribulation array.

The well-prepared array instantly revealed itself.

Thereafter, Lin Jing handed the pre-prepared Elixir Medicine to Ye Yun.

"Master, I'm heading over!"

Ye Yun said before sitting down cross-legged in the center of the island's formation.

At this moment, Ye Yun's aura had reached its peak.

However,

even at this level, it was still not sufficient.

The current Ye Yun was only a fraction away from initiating the descent of the Heavenly Tribulation.

Having sat down cross-legged, Ye Yun promptly took out the Nirvana Elixir that Lin Jing had prepared for him and swallowed it in one gulp.

After swallowing the Nirvana Elixir, Ye Yun then began meditating with closed eyes.

Ye Yun had started preparing to face the Tribulation.

Meanwhile, Lin Jing, Yan Ming, and Zhang Jian each took up positions at a distance, protecting Ye Yun.

...

...

Time passed quickly, and four hours had elapsed since Ye Yun had taken the Nirvana Elixir.

The sky, which had been clear for miles, had begun to change a quarter of an hour ago, filling with dense clouds.

The dark clouds gathered from all directions, concentrating above Ye Yun and even enveloping the entire island.

The island and the surrounding sea became pitch black as though night had fallen again.

A terrifying pressure emanated from the clouds above, and even Lin Jing and the others protecting Ye Yun below could distinctly feel the overwhelming oppressive aura.

At this time, Ye Yun remained seated in meditation on the island.

With the arrival of the Tribulation clouds, Ye Yun's aura grew increasingly powerful, quickly surpassing the limits of the Golden Core Stage.

And at that moment, streaks of lightning began to flash within the assembled Tribulation clouds in the sky.

At first, they were hardly noticeable, but soon the arcs of lightning became more numerous.

Rolls of thunder could be heard rumbling from within the clouds.

At this moment, the first bolt of Tribulation Lightning was brewing, likely to strike down soon.

To prevent any interference with Ye Yun's Tribulation, upon seeing this, Lin Jing and the others involuntarily retreated even further back.

Once Lin Jing and the others had moved away,

Ye Yun finally made his move.

He stood up,

and with a determined gaze, he looked up at the tumultuous Tribulation clouds in the sky.

At this time, a faint golden radiance already enveloped Lin Jue's body,

caused by the activation of the Overlord Divine Physique.

Faced with the terrifying Heavenly Tribulation, Ye Yun did not call forth any Magical Treasure.

Apparently, he intended to withstand the first wave of Tribulation using only his physical body.

For a Body Refinement Cultivator, the Tribulation was an invaluable opportunity to temper the body.

This, Lin Jing had told Ye Yun before, and Ye Yun was very clear about it.

Therefore, Ye Yun did not plan to use his magical treasure for the first few Heavenly Tribulations, instead choosing to rely on his physical body to resist.

The Heavenly Tribulation was fierce, but the power of the first few bolts of Tribulation Lightning was not that strong.

Plus, with the weakening effect of the great formation, Ye Yun's current state was more than capable of withstanding the strikes without issue.

Very soon.

"Boom!"

The first bolt of Tribulation Lightning struck down, creating a pillar of light a zhang wide.

The Tribulation Lightning was very fast, and in an instant, it engulfed Ye Yun completely.

Seeing the falling Tribulation Lightning, Lin Jing was not at all panicked.

He was very clear that given the power of this bolt of lightning, it simply could not harm Ye Yun.

Three breaths later, the energy of the lightning dissipated, vanishing into the air.

And below, Ye Yun reappeared.

Just as Lin Jing expected, this first bolt of lightning was just an appetizer; it struck Ye Yun without even injuring him.

Without much respite, the tribulation clouds in the sky once again condensed, increasing the size of the cloud by a fraction.

In the midst of the tribulation clouds, the thunderous rumbling became even more frequent.

“Crack!”

The second bolt of Tribulation Lightning struck down.

It was not only more urgent than the first bolt but also significantly thicker.

Seeing the second bolt of lightning fall, the golden light reflecting off Ye Yun's body became even brighter.

Just like the first bolt, the second bolt struck down, submerging Ye Yun entirely within it.

Within the tribulation clouds, the sky was filled with the shadows of lightning, and a lightning pillar several zhang wide stood tall like a pillar connecting heaven and earth.

This spectacular sight was in fact extremely dangerous.

In the midst of this pillar was Ye Yun, the one who had attracted this bolt of lightning.

Similarly, three breaths passed, and the pillar faded to reveal Ye Yun inside.

This time, the lightning had injured Ye Yun.

Lin Jing looked closely and saw that although Ye Yun's wounds were evident, they were not serious.

Ye Yun had been injured by this second bolt of lightning.

Just like during Lin Jing's tribulation, after being struck, arcs of lightning rampaged across Ye Yun's wounds.

After the lightning passed, Ye Yun immediately sat down cross-legged to recover.

Among the elixir medicines Lin Jing provided Ye Yun, there was the Rejuvenation Pill for healing wounds and the Yellow Dragon Elixir for recovering spiritual power.

However, Ye Yun did not take any elixir medicines at this time.

Clearly, he planned to withstand the first three bolts of Tribulation Lightning with his own body.

As Ye Yun sat in meditation, his wounds slowly began to heal.

The arcs of lightning also gradually disappeared as he healed.

...

...

The third bolt of Tribulation Lightning was slower to arrive, taking substantially longer to condense than the first two.

By this time, Ye Yun's injuries had almost healed, and he was about to conclude his meditation.

He was now looking up at the tribulation clouds in the sky, waiting for the third bolt of lightning to descend.

"Rumble rumble..."

"Rumble rumble..."

Within the tribulation clouds, lightning flashed continuously, and the color began to shift, displaying hints of blue.

The muffled thunder rolled ceaselessly within the clouds, yet it did not fall.

Lin Jing watched the tribulation lightning in the sky with slightly furrowed brows.

Judging by this, the power of the third bolt of Tribulation Lightning should be considerable.

Just as Lin Jing was furrowing his brows at the tribulation clouds, considering whether he should advise Ye Yun to take additional precautions,

Suddenly...

Ye Yun sensed a violent aura coming from the northwest direction.

The aura was strong, seeming to approach this way.

Lin Jing abruptly looked up toward the northwest direction, and without hesitation, he released his Divine Sense.

The range of Lin Jing's Divine Sense was quite extensive.

After extending his Divine Sense, the sensation became even clearer.

Towards the northwest, there was a wild aura bursting forth, resembling not cultivators but rather Demonic Beasts in battle.

And the aura was extraordinary.

Clearly, the rank of this Demonic Beast was not low.

At this moment, Ye Yun was undergoing his tribulation, and it was a critical juncture; he couldn't afford to be disturbed.

Therefore.

Lin Jing directly spoke to Yan Ming and Zhang Jian:

"Brother Yan, Brother Zhang!"

"Stay here and watch over him.

There seems to be some disturbance to the northwest; I'll go take a look."

Only then did the two of them look toward the northwest direction with blank expressions, unaware of anything amiss.

At this moment, Lin Jing then said to Ye Yun:

"This third bolt of lightning is extraordinary; it's time to take the elixir medicine."

Ye Yun turned his head to look at Lin Jing.

He then nodded.

He had already sensed the unusual nature of this third bolt of lightning.

Having had no such experience before, Ye Yun hesitated whether to prepare the elixir medicine in advance.

Lest the third bolt be too fierce and cause him serious injury,

If he were to sustain serious injuries under this third bolt, the next few bolts of lightning he would face would become even more challenging.

But if this third bolt wasn't that strong, and he took the elixir medicine too early, then the effect of his Body Refinement would be lessened.

Hence, Ye Yun hesitated.

He indeed wanted to improve himself, but this improvement wasn't worth risking his life for.

Now that Lin Jing had spoken, Ye Yun understood that this third bolt of lightning exceeded his ability to endure.

If he did not take the elixir medicine in advance, once the bolt struck, he would certainly be gravely injured.

And if he were severely hurt, facing the next several bolts would be all the more difficult.

Ye Yun did not dare to take a chance any longer and hastily took out the prepared elixir medicines from his Space Ring, then placed them into his mouth.

Seeing Ye Yun take the elixir medicine, Lin Jing finally felt relieved.

Then.

Lin Jing stepped forward, flying toward the northwest direction, the source of the fluctuations...

Chapter 662: Chapter 285: Encounter with the Divine Toad Sage Again Chapter 662: Chapter 285: Encounter with the Divine Toad Sage Again Not long after Lin Jing left, as he was halfway on his journey, he felt the third strike of Tribulation Lightning descend.

However.

Lin Jing no longer had the energy to pay attention to the Tribulation Lightning.

Although the Tribulation Lightning was strong, Lin Jing knew that since Ye Yun had taken the Elixir Medicine, even if he was injured, it wouldn't be a big problem.

Additionally.

As Lin Jing got closer, he felt an increasingly intense and violent aura.

It was only as Lin Jing continued to approach that he distinctly noticed.

...

The aura ahead wasn't solitary; there was another one.

This second aura belonged to a cultivator.

However, the cultivator was intentionally controlling his own aura, not allowing it to spread too far.

It was only because Lin Jing had gotten close that he felt this second aura.

And whether it was the cultivator or the Demonic Beasts.

At this distance, they were very dangerous for Ye Yun, who was undergoing Tribulation.

At the moment, they were still moving towards Lin Jing,

although their speed of movement had slowed down significantly.

But if this continued, they might very likely intrude into Ye Yun's Tribulation area, and even if they avoided it in advance, the aura they emitted could potentially disturb Ye Yun, who was undergoing Tribulation.

Therefore, Lin Jing had to stop them beforehand.

.....

As Lin Jing drew closer, his perception of the two auras also became clearer and clearer.

After clearly sensing these auras, Lin Jing unexpectedly felt that the cultivator's aura had a familiar scent to it.

However, because they were too far apart and the Demonic Beast's aura was too wild and chaotic, Lin Jing was unable to distinguish, for the moment, whom the familiar aura belonged to.

Lin Jing couldn't help but wonder,

"Could it be that this cultivator is someone I know?"

After all, the aura emanating from the Demonic Beast was very distinct to Lin Jing; it was a Demonic Beast at the initial stage of Divinity Transformation.

And the cultivator who could fight with a Divinity Transformation Stage Demonic Beast was obviously not an ordinary person, at least a Divine Transformation Cultivator.

“So who is this Divine Transformation Cultivator?”

With such doubts in mind, Lin Jing continued to fly toward the northwest.

At the same time, he was also on guard.

After all, the other party was at the Divinity Transformation Stage, who knew if they might have other ideas.

Just like that...

In less than the time it takes to drink a cup of tea, Lin Jing finally arrived at the site of the incident.

At this moment.

In front of Lin Jing, a hunchbacked cultivator was fighting with a Flood Dragon.

The cultivator seemed very relaxed, continuously releasing purple mist that wrapped around the Flood Dragon, seemingly intending to exhaust the Flood Dragon's strength.

The Flood Dragon was over a thousand meters long and incredibly thick, its body covered in a layer of shiny black scales that shimmered with light, looking extremely imposing.

Nevertheless.

It was this very imposing Flood Dragon that was currently struggling with all its might, desperately resisting and constantly roaring to shake off the purple mist entangled around it.

Whenever the purple mist drew near, a blue light would flare up on the Flood Dragon, forcing the mist back a little.

As the Flood Dragon continued to resist, the violent aura also kept dissipating outwards.

That was the wild aura Lin Jing had felt earlier.

And the cultivator, Lin Jing knew him.

It was the friend of the Yan Family ancestor whom he had met earlier at the Bihai City Trade Fair, the Divine Toad Sage.

Seeing that the other party was an acquaintance, Lin Jing also breathed a sigh of relief.

Upon Lin Jing's arrival, the Divine Toad Sage was clearly surprised.

“Eh?”

“It’s you!”

“How come you are here?”

Facing the Divine Toad Sage’s puzzlement, Lin Jing hurriedly explained,

“Divine Toad Senior!”

“My disciple is undergoing Tribulation up ahead.”

“I felt the aura from this direction, so I came to have a look.”

“Undergoing Tribulation?” After the Divine Toad Sage spoke, he immediately extended his Divine Sense.

The Divine Toad Sage’s cultivation was much higher than Lin Jing’s.

The range his Divine Sense could probe was naturally also broader than Lin Jing’s.

It was only because he had been entangled with the Flood Dragon that he hadn’t fully expanded his Divine Sense.

As soon as he did, he also noticed the aura of the Heavenly Tribulation coming from the southeast direction.

“I see...”

“It seems I’ve inadvertently disturbed you.”

“Don’t worry, I’ll be finished here shortly.”

“I’ll capture this ‘long insect’ in a moment.”

Having said that, the Divine Toad Sage also exerted more force, and several strands of purple mist reached out again.

Several strands of purple mist reached out in succession, entwining towards the Flood Dragon.

And Lin Jing, at that moment, gave a bow,

“Thank you, Senior.”

However, the Divine Toad Sage was already preparing to go all out against the Flood Dragon, no longer able to pay attention to Lin Jing.

Seeing this, Lin Jing quickly retreated a good distance.

To avoid disturbing the Divine Toad Sage.

As the Divine Toad Sage exerted force, the Flood Dragon seemed to sense the crisis.

It struggled even more fiercely.

Just as the several strands of purple mist had not yet wrapped around, the Flood Dragon no longer avoided the purple mist wrapped around it.

“Roar!”

With a roar, the Flood Dragon broke free of the mist and surged out.

As it broke free, the mist was directly stirred up, sticking to its body.

Along with a “zzzz” sound and the stench that followed, the situation was set in motion.

The Flood Dragon’s body instantly corroded, leaving several large holes.

The mist appeared to carry a violent corrosive poison, and inside the eroded openings, the flesh and blood of the Flood Dragon were entirely dyed black.

Moreover, the purple mist seemed impossible to disperse.

Although blue light flickered on the Flood Dragon’s body and the wound was filled with blue light, the Flood Dragon tried to mobilize its own spiritual power to prevent the blue light’s corrosion.

But it seemed to have no effect whatsoever.

By now, the eyes of the Flood Dragon were filled with terror as it saw several more streams of purple mist attacking from behind.

With another roar, the Flood Dragon charged forward recklessly, attempting to get away from the Divine Toad Master.

And the direction it broke out towards was to the southeast.

That was the direction where Ye Yun was undergoing his tribulation.

Seeing the Flood Dragon break out, Lin Jing sensed something bad.

Just as he was about to make a move to intercept the Flood Dragon,  
he heard the Divine Toad Master saying,

“You needn’t worry, it won’t get away.”

No sooner had he spoken than the aura around the Divine Toad Master changed drastically.

Another stronger presence emerged from the Divine Toad Master.

Then, the Divine Toad Master opened his mouth and declared,

“Divine Skills—Myriad Poison Domain!”

As the Divine Toad Master’s voice fell, in front of the Flood Dragon, a drop of incredibly magnificent purple liquid condensed out of thin air.

As soon as the water droplet formed, it fell from the sky with a “plop,” like an overripe fruit.

The droplet didn’t fall, but instead sent ripples through the air.

These ripples were originally transparent, but as they spread out, they turned the entire space ahead into a purple pond.

This area of purple pond was incredibly vibrant, even enticing, like a pool of ambrosia.

However, in Lin Jing’s eyes, this purple pond was extremely dangerous.

Not to mention the Flood Dragon that had just tried to escape.

Because the purple pond fell right in front of it, forcing it to stop in its tracks.

The Flood Dragon, sensing the danger of the purple pond ahead, quickly changed direction, trying to bypass it.

But the droplet that fell and formed the purple pond was still churning out ripples.

And those ripples just kept growing.

In the brief moment that the Flood Dragon was blocked, the purple pond changed again, the entire pond began to mist up, turning into poison fog.

The Flood Dragon, which had intended to take a detour, was forced to retreat once more.

Not to mention the Flood Dragon, even Lin Jing,  
rushed to put a lot of distance between himself and the fog.

He had already experienced the potency of that poison fog, which was extremely formidable.

Moreover, the Divine Toad Master had already spoken.

Lin Jing knew, this pool,  
was the Divine Skill, the Myriad Poison Domain, of the Divine Toad Master.

To think there was such a divine skill—today, Lin Jing's horizons had truly been broadened.

Generally, divine arts are about refining the soul spirit and harnessing the power of heaven and earth to forge even more powerful spells.

But these divine arts are far stronger than ordinary spells.

They can be several times, if not dozens of times, more powerful than regular spells.

Lin Jing had previously wondered if he should also refine such spells for himself.

But the Five Elements Divine Art that Lin Jing practiced was extremely special, and furthermore, the Five Elements Divine Art wasn't known for its aggressive capabilities.

With multiple functions, the Five Elements Divine Art excels more in control and permeation.

As for power,  
it certainly could be explosive.

But using that as the direction to refine a divine skill clearly didn't suit him well.

Lin Jing had been, in fact, hesitating all along about the direction his divine skills should take if he were to comprehend them.

Now, having seen the Divine Toad Master at work, Lin Jing couldn't help but feel tempted to give it a try in the field of domains...

...

...

While Lin Jing was deep in thought, the Divine Toad Master had already approached the Flood Dragon.

Seeing there was no hope of escape, the Flood Dragon turned around and charged at the Divine Toad Master once more.

Upon seeing this, the Divine Toad Master showed a horrifying smile:

“Just waiting for you to turn back!”

As his voice fell, in the hands of the Divine Toad Master, a purple dragon bone about a zhang long appeared.

Then,

the Divine Toad Master hurled the dragon bone from his hand, and it whooshed out.

At the sight of this dragon bone, the Flood Dragon visibly froze for a moment.

Then its eyes filled with terror, and it hastily retreated, trying to run away.

However, the Divine Toad Master didn't give it the chance.

The dragon bone, once released, flew towards the Flood Dragon's head with incredible speed.

The Flood Dragon tried to dodge by shaking its huge head, but it was to no avail.

Under the Divine Toad Master's control, the dragon bone suddenly accelerated and shot into the Flood Dragon's mouth.

As the dragon bone rushed into the Flood Dragon's mouth, it let out a roar of agony.

It seemed to be in immense pain.

After that, the Flood Dragon, which was thousands of meters long, plunged directly from the sky into the sea below with a “splash.”

Seeing this, the Divine Toad Master said to Lin Jing,

“Just wait a moment...”

“I'll take care of that Flood Dragon, then I'll join you to see how your disciple is doing with his tribulation.”

Without waiting for Lin Jing's response,

the Divine Toad Master leaped down and plunged into the sea as well.

It looked like,

today, the Divine Toad Master was determined to capture the Flood Dragon at all costs...

Chapter 663: Chapter 286: Divine Toad Elder Presents a Gift Chapter 663: Chapter 286: Divine Toad Elder Presents a Gift Lin Jing didn't have to wait too long before the Divine Toad emerged.

When the Divine Toad first came out of the sea, there were still traces of blood on his body.

It was clear that he had dealt with the Flood Dragon just a moment ago.

After he emerged, he simply swept his hand over his body, and the bloodstains vanished without a trace.

Then, the Divine Toad approached Lin Jing and said,

"Let's go."

"I'll go see how your disciple is doing."

Lin Jing nodded and then gestured with his hand,

"Senior, please..."

Afterward.

The Divine Toad and Lin Jing flew towards the island where Ye Yun was undergoing his Tribulation.

Before long, the two returned to the island.

...

Lin Jing had sensed a presence and left directly before.

Although Yan Ming and Zhang Jian were somewhat puzzled, they did not ask further questions.

When Lin Jing returned, both of them quickly detected Lin Jing's approach.

And.

Another cultivator accompanied Lin Jing.

Both were curious and turned their heads to look at Lin Jing and the other cultivator.

When they saw that it was the Divine Toad with Lin Jing,

Yan Ming was startled and then hurriedly made his way around the perimeter of the Heavenly Tribulation to the Divine Toad.

Not just Yan Ming, Zhang Jian followed along as well.

“Senior!”

Yan Ming bowed with his hands clasped and addressed the Divine Toad.

“I’ve seen the senior!” Zhang Jian also clasped his hands in greeting.

The Divine Toad looked at Zhang Jian and nodded.

Then, seeing Yan Ming, he also revealed a smile.

Only, due to his features shaped by his Cultivation Method, that smile was rather unsightly.

It was the kind of smile that could stop a baby’s crying at the sight.

“Ming lad, you’re here too,” said the Divine Toad with a chuckle.

Yan Ming nodded and said respectfully,

“I initially invited Brother Lin to Spirit Rock Island for Alchemy, but as it happened, Brother Lin’s disciple was undergoing Tribulation here, so I offered to act as a protector.”

“Where is your family’s ancestor now?

Is he on Spirit Rock Island?”

“I was planning to go to Spirit Rock Island to find him after dealing with this matter,” said the Divine Toad.

Yan Ming replied,

“The family’s ancestor is currently on Spirit Rock Island.”

“Good...

good...”

“Once this matter here is resolved, I’ll head straight to Spirit Rock Island.”

Having said this, the Divine Toad turned his gaze toward Ye Yun in the center of the island.

Lin Jing also looked towards Ye Yun at this moment, and the area around Ye Yun was now completely bare.

Even the Formation set up by Zhang Jian had collapsed, and traces of its existence were still visible nearby.

The ground where Ye Yun had been before had turned into a deep pit.

At this moment, Ye Yun was sitting at the edge of the pit with wounds crisscrossing his body, deep enough to reveal bone.

Clearly, he was severely injured.

Near him, a magical treasure resembling a broken plank lay at his side.

This relic of a magical treasure was what Ye Yun had prepared for the Tribulation.

It hadn’t always looked like this; it had taken on this form only after enduring the wash of the Tribulation Lightning.

However.

Although Ye Yun’s injuries were severe, a layer of golden light still covered him, indeed showing signs of transition towards something more potent.

At this time, Ye Yun’s wounds were healing at an astonishingly fast pace, clearly the effect of taking Elixir Medicine.

Above Ye Yun’s head, the Tribulation Clouds grew even more ominous, with constant rumbling inside, and occasional flashes of red lightning on its surface.

The Red Tribulation Lightning, although not as formidable as the Black Tribulation Lightning Lin Jing had faced, was still terrifyingly powerful.

Lin Jing hastily asked Yan Ming,

“Which round of Tribulation Lightning is it now?”

Yan Ming spoke,

“The eighth has passed; now only the final round of Tribulation Lightning remains.”

The final round of Tribulation Lightning was the most formidable.

Looking at Ye Yun’s current state and sensing the aura around him,

Ye Yun should face no issues with this last round of Tribulation Lightning.

But this was the Heavenly Tribulation, and Lin Jing could not guarantee that Ye Yun would be unharmed.

At this moment, Lin Jing still felt a bit anxious.

Just then, the Divine Toad spoke up,

“Is your disciple practicing Body Refining Techniques?”

Lin Jing nodded and said,

“Yes, Senior.”

“Body Refinement Cultivators, it’s been a long time since I’ve seen one.” The Divine Toad mumbled to himself as he watched Ye Yun.

While everyone was talking, the clouds in the sky started to churn violently, with the roar within the clouds intensifying.

Clearly, the last round of Tribulation Lightning was about to descend once more.

And Ye Yun too stood up at that moment, with determination in his eyes, looking towards the threatening clouds above.

“Boom!”

It seemed as though the Tribulation Clouds sensed Ye Yun’s indomitable will, intent on erasing it as the lightning roared down from within.

Ye Yun deployed the magical treasure and charged boldly towards the descending lightning.

The first to come into contact with the lightning was the plank-like magical treasure, which resisted for only a moment before shattering under the final blast of the Tribulation.

Without the protection of the magical treasure, Ye Yun faced the lightning head-on, and in an instant, he was engulfed.

This round of Tribulation Lightning, far thicker than the first, surrounded by purple arcs of lightning, made the entire display appear quite beautiful.

But the more beautiful it was, the more dangerous it became.

The dreadful pressure that the Tribulation Lightning carried made one's blood run cold, giving a sensation of defying the heavens and earth itself, leaving one feeling utterly powerless.

...

Within the Tribulation Lightning, Ye Yun struggled to endure.

"The first moment..."

"The second moment..."

"The third moment..."

...

...

Apart from the single moment of resistance by the magical treasure, the subsequent moments, although seemingly swift, were also agonizingly long.

This lengthiness was in the perception of Ye Yun.

And it was the same for Lin Jing.

Lin Jing stood outside the range of the Heavenly Tribulation, watching Ye Yun within the lightning, as new wounds appeared on his body.

Chapter 664: Chapter 286: Divine Toad Gives a Gift\_2 Chapter 664: Chapter 286: Divine Toad Gives a Gift\_2 In the relentless bombardment of Tribulation Lightning, those wounds had no chance to heal and were torn even wider by the strikes.

Eventually, even chunks of Ye Yun's flesh were being ripped apart...

Under such continuous onslaught of Tribulation Lightning, even the most potent healing Elixir Medicines became a joke.

Finally.

Nine breaths of time passed, and the Tribulation Lightning dissipated.

Ye Yun, however, stood motionless, appearing as if dead.

Only the occasional heartbeat let everyone understand that he had succeeded, passing the Nascent Soul Heavenly Tribulation.

...

The Heavenly Tribulation had passed, but now Ye Yun's body was completely wrecked, barely able to stand.

Although the last bolt of lightning had struck, the tribulation clouds hadn't yet cleared, and Lin Jing and the others naturally didn't dare to enter the range of the clouds at this time.

Ye Yun first moved his fingers.

NovG0.co

Then he sat down right there, cross-legged, and began to meditate for recovery.

After Ye Yun began his meditation recovery, the thunder in the tribulation clouds gradually ceased, and the horrifying pressure from heaven and earth also began to recede.

Not until the thunder stopped and the pressure from heaven and earth completely dissipated did the tribulation clouds slowly scatter.

In less than half an incense stick of time, the tribulation clouds above Ye Yun's head had completely dispersed, revealing the clear and bright sky.

By then, the Heavenly Tribulation had just passed.

In the nearby sea area, the Demonic Beasts and seabirds, which had been frightened away by the celestial might, still didn't dare to approach.

Today, there were neither wind nor waves, and the sea welcomed a rare moment of complete tranquility.

It was at this time that Lin Jing and the others came to the island.

Having just crossed the tribulation, the presence of the Nascent Soul Stage already emanated from Ye Yun.

However, his aura was still unstable, and he needed to continue meditating to stabilize it.

Seeing Ye Yun safe and sound, Yan Ming smiled and spoke, congratulating him:

“Brother Lin, congratulations.”

“Ye Yun has successfully crossed the tribulation and advanced to the Nascent Soul.

This adds another Nascent Soul Cultivator to Li Yan Island, truly a joyous occasion.”

“Thank you as well, Brother Yan, for your protection.” Lin Jing said, clasping his hands.

After speaking, Lin Jing continued:

“Now that Ye Yun has successfully crossed the tribulation, as soon as Ye Yun stabilizes his cultivation, I will head to Spirit Rock Island with Brother Yan.”

“You’re not heading back to Li Yan Island next?” Yan Ming asked.

Lin Jing nodded, “Not for now, I’ll head back after helping you with the Alchemy.”

The Divine Toad Sage then spoke up:

“In that case, we might as well go together.”

Yan Ming looked at the Divine Toad Sage, asking with some confusion:

“Elder Divine Toad, your Divine Toad Island is quite far away, how come you’re here?”

Everyone had been captivated by Ye Yun’s tribulation a moment ago, and Yan Ming hadn’t had the chance to ask.

“There was an Evil Jiao appearing near the Divine Toad Island, causing trouble in my absence, and I’m here to capture it.”

“I see...” Yan Ming realized.

...

It didn’t take long, just half a day, for Ye Yun to stabilize his own cultivation and finish meditating.

At this moment, the terrifying aura of the Nascent Soul Stage radiated from Ye Yun, covering the entire island.

After standing up, Ye Yun felt his own cultivation and immediately showed a face full of joy.

Then.

Ye Yun concealed his aura, and then approached Lin Jing.

“Master, I have successfully advanced.”

Lin Jing, seeing the excitement on Ye Yun’s face, couldn’t help but smile knowingly.

“Zhang Jian and you should head back first after this, I’m going to Spirit Rock Island.”

“Once you’re back, remember to immediately enter closed-door cultivation until you completely stabilize and familiarize yourself with your cultivation.

Then you can come out.” Lin Jing spoke earnestly.

Ye Yun nodded, saying:

“Yes, Master.”

Then, Lin Jing informed Zhang Jian, and was about to leave with the Divine Toad Sage and Yan Ming.

But just then, the Divine Toad Sage stopped the two.

“Wait a moment.”

Lin Jing and Yan Ming immediately halted and then looked questioningly towards the Divine Toad Sage.

The Divine Toad Sage then took a Jade Vial from his person and tossed it directly to Ye Yun.

The Jade Vial traced an arc through the air, falling straight into Ye Yun’s hands, who instinctively caught it.

Ye Yun, holding the Jade Vial, looked puzzledly at the Divine Toad Sage.

“Elder...”

Before Ye Yun could say more, the Divine Toad Sage interrupted him.

“This is Demonic Beast essence blood I have collected earlier.

This essence blood is very useful for Body Refinement Cultivators who have just entered the Nascent Soul Stage, especially those like you who have crossed the Heavenly Tribulation.”

“After taking it, it significantly enhances one’s physical strength.”

“I find favor in you, so I’ll just give you this Demonic Beast’s essence blood.”

Divine Toad spoke in a calm tone, yet his decisiveness left no room for refusal.

Although Divine Toad said this, Ye Yun hesitated.

After all, it was his first time meeting Divine Toad, and he hadn’t expected to receive such a grand gift right away.

This left Ye Yun somewhat unsure of how to respond.

Lin Jing, seeing this, wanted to say something.

However, Yan Ming beat him to it.

Yan Ming spoke right away:

“Divine Toad has always been a man of his word, and it’s rare for him to take such a liking to someone.

Since Divine Toad is giving it to you, just accept it.”

As he spoke, Yan Ming also secretly gave Lin Jing a meaningful look.

Lin Jing instantly understood and then said to Ye Yun:

“Ye Yun, aren’t you going to thank Divine Toad?”

Ye Yun looked at Lin Jing and then nodded.

“Thank you, Divine Toad.”

Divine Toad nodded slightly and then turned to address Lin Jing and Yan Ming:

“Let’s go then.”

“Alright!”

“Alright!”

The two agreed, and then the three of them left the place together.

...

Traveling from Tribulation Island to Spirit Rock Island was no short journey.

Even though the trio traveled by Flying Boat, it still took nearly a day.

When the three arrived at Spirit Rock Island, the Yan Family's patriarch had already sensed their approach and was waiting for them before they even landed on the island.

As the Flying Boat descended, Divine Toad stepped out, and the Yan Family's patriarch was surprised but then greeted him with a smile:

"Old Toad, I knew you would come."

"I just didn't expect you to come along with young friend Lin."

"What?"

"Did you visit his Li Yan Island?"

Divine Toad curled his lip and said:

"Do you think I'm as idle as you?"

"We just happened to meet."

At this moment, Lin Jing and Yan Ming, too, exited the Flying Boat and stepped forward, addressing the Yan Family's patriarch:

"Elder Yan!"

"Grandpa!"

The Yan Family's patriarch nodded and then spoke:

"Ming, I need to discuss some things with Old Toad, and we're not in a hurry about the Alchemy matter.

You and young friend Lin go have some tea and relax first; we can talk after we're done."

"Alright, Grandpa!"

Having said this, Yan Ming led Lin Jing towards the inside of the island.

After they had walked quite a distance, Yan Ming said to Lin Jing:

“Earlier, on the way here, with Divine Toad present, it wasn’t appropriate to speak openly.”

“Do you know why, when Divine Toad gave Ye Yun the item, I immediately insisted that Ye Yun accept it?”

Lin Jing shook his head, “I don’t know...”

“I hope you can enlighten me, Brother Yan.”

Yan Ming then spoke:

“Divine Toad giving that item to Ye Yun was actually also to establish a good relationship with you.”

Lin Jing looked puzzled and utterly confused.

“To establish a good relationship with me?

Why?”

Divine Toad was a Divinity Transformation Cultivator, while Lin Jing had only ever shown the Cultivation of the Nascent Soul Stage.

With such a vast gap between them, how could Divine Toad be so inclined?

Yan Ming smiled and said:

“Actually, Divine Toad is quite a decent person.

His actions are just part of his character.”

“Divine Toad doesn’t like to be indebted to anyone.

He gave Ye Yun something in advance as a gesture of goodwill to you and also, probably because he wants you to help him with Alchemy.”

“Though, for Alchemy, there really was no need to go to such lengths,” Lin Jing said.

“It must be because the Elixir Medicine is somewhat tricky to concoct.

I’ve only heard Grandpa mention it briefly before, but I’m not quite clear on the specifics.”

Chapter 665: Chapter 287: System New Feature: Mastery of Pill Dao Chapter 665: Chapter 287: System New Feature: Mastery of Pill Dao Alchemy was indeed a trivial matter for Lin Jing.

Even if the Divine Toad had not done so, Lin Jing would have been happy to help.

However, given that things had come to this point, it was just the nature of the Divine Toad, and if he really sought Lin Jing's help in alchemy, Lin Jing would certainly not refuse.

...

After Lin Jing and Yan Ming returned, Yan Ming brewed some Spiritual Tea unique to Spirit Rock Island, and the two chatted while drinking.

As a full hour passed, Lin Jing, who was chatting leisurely with Yan Ming, suddenly heard a system prompt in his mind.

"Ding!"

"System prompt: The System's Alchemy Room has completed its upgrade and new functions have been unlocked.

...

Please check promptly, Host."

System Space had completed its upgrade.

However,

now was not the suitable time to enter the System Space, so Lin Jing just paused for a moment before continuing his chat with Yan Ming.

Just like that,

another hour passed, and only then did the Yan Family ancestor and the Divine Toad finish their conversation and came over to where Yan Ming was.

Upon their arrival, the Yan Family ancestor took the lead and approached Lin Jing with a smile, saying,

"Young friend Lin!"

"We have some matters we would like to discuss with you.

What do you think?"

Lin Jing knew that if he wasn't mistaken, the matter the Yan Family ancestor wanted to discuss next was probably the same matter Yan Ming had mentioned earlier.

Hearing this, Lin Jing did not hesitate and directly responded,

"Please speak, senior..."

The Yan Family ancestor looked towards the Divine Toad, who stepped forward and said,

"It's like this..."

"I would like you to help me refine a certain Elixir Medicine."

"Don't worry, I won't have you refine it for nothing.

As long as you can successfully make this Elixir, just tell me what you need, and as long as it's not too excessive, I can agree to it."

The Divine Toad was serious when he said this.

Lin Jing quickly replied,

"The matter of refining is but a simple effort for me; I am truly flattered by your consideration, Divine Toad senior."

"There's really no need for such courtesy, senior."

Hearing this, the Divine Toad immediately said,

"This Elixir Medicine is quite special and rather troublesome to refine, and the key aspect is that I must be present during the process to help consolidate the final auxiliary ingredient for the Elixir."

"Without this last auxiliary ingredient, the Elixir will undoubtedly fail."

After saying this, the Divine Toad added,

"I know many Alchemists prefer to work alone and dislike others being present, let alone my involvement in the process, which might inconvenience you."

Upon hearing this, Lin Jing's brow furrowed slightly, and he couldn't help but feel curious,

“What kind of Elixir Medicine is this, to be so troubling?”

The Divine Toad responded,

“This Elixir is known as the Poison-Absorbing Pill and is not an ordinary Elixir.

It is specifically designed to complement the Poison Art I am cultivating.”

“The Poison-Absorbing Pill is different from other Elixirs.

It is formed by merging venomous insects, poisonous herbs, and various rare toxins.

Once refined and consumed, it will be of considerable assistance to my cultivation.”

At this moment, the Yan Family ancestor also chimed in to explain,

“Originally, Old Toad had arranged with an old friend from Changyun Pill Pavilion to assist in the refinement.”

“But it seems there was an incident in the Changyun Clan, and his old friend had to return in a rush and won’t be back for a while.”

“If we were to find someone else, we wouldn’t feel as assured.

Seeing as your alchemy skills are quite good, I recommended you to Old Toad, thinking we might try seeking your help.”

“Rest assured, if you help Old Toad refine this pill, he will certainly not let your efforts go unrewarded.”

Hearing this, Lin Jing looked towards the Divine Toad and then asked,

“Divine Toad senior, may I first take a look at the Elixir Recipe?”

The Divine Toad nodded without hesitation, immediately took out a scroll made of animal hide, and handed it to Lin Jing.

Lin Jing accepted the Elixir Recipe and opened it in front of everyone to examine it.

The recipe listed all kinds of rare venomous insects and poisonous herbs, as well as some special Spiritual Objects that Lin Jing had never even heard of.

And the records on the recipe were exceptionally detailed,

including the processing of various toxins and the methods of their integration, all noted down.

As such, he read until the end,

and Lin Jing finally understood why the Divine Toad had to be involved in the refinement of this Elixir Medicine.

The refinement process was designed to complement the Poison Art that the Divine Toad practiced.

And during the key moment of merging the Elixir, the Divine Toad's assistance was required, using his Poison Art as a catalyst to ensure successful refinement.

As for the refining techniques themselves, that was secondary.

Speaking of which, this Elixir was in fact equivalent to a somewhat more special Fifth Grade Elixir, but the time it took to refine was much shorter than that of a regular Fifth Grade Elixir.

Had it been an ordinary Fifth Grade Alchemist, accidents might occur.

But with Lin Jing refining it, and with the bonus from System Space, the chances of failing the refinement were almost none.

It merely required cooperation from the Divine Toad, which meant that Lin Jing couldn't conduct the refinement within the System Space; he would need to activate Bonus Attachment.

Lin Jing's Space had just been upgraded.

There were no spare Harvest Points available at the moment.

After examining the Elixir Recipe, Lin Jing then spoke up directly,

"No problem, I can refine this Elixir."

"But it will take some time; I need to familiarize myself with the refinement process of this Elixir first, and I also need to refine some other Elixir Medicines to adjust my condition."

Two people did not doubt Lin Jing's words.

Chapter 666: Chapter 287: System New Feature: Mastery of Pill Dao\_2 Chapter 666: Chapter 287: System New Feature: Mastery of Pill Dao\_2 The Yan Family's patriarch then spoke with a smile,

"Of course,"

“For alchemy, naturally one must first study the elixir recipe, and get familiar with the alchemy process.”

“And as for the alchemy, we’re not having you start crafting right now.

We already have some leads on the poisons required by the recipe, but we haven’t gotten them in hand yet.”

“Only when we have gathered all the poisons needed for this elixir recipe, can we begin.”

At this time, the Divine Toad also spoke,

“Old Yan and I are preparing to leave for a while to search for the missing Spiritual Object.

Once we find it and return, you can start crafting.”

Having said that, the Divine Toad looked at Lin Jing,

“Since you have agreed to help me with alchemy, I will not go back on my word; I shall definitely reciprocate.”

The Yan Family’s patriarch spoke with a chuckle,

“Ha ha...”

“Lin lad, you’ve really got yourself involved now.”

“The old toad is always true to his word; if there is anything you desire, just ask, and don’t be polite with him.”

Hearing this, Lin Jing pondered for a moment before speaking,

“Divine Toad senior, when I saw you employ Divine Skills previously, I was greatly shaken.

If possible, I wish to have you explain to me about domain-type Divine Skills.”

“You want to cultivate domain-type Divine Arts?” The Yan Family’s patriarch looked at Lin Jing, showing a hint of surprise.

Lin Jing nodded and said,

“I have such thoughts.”

“The cultivation technique I practice is not suitable for offensive-type Divine Skills.

It was not until recently, seeing Divine Toad senior use his Divine Skills, that I felt inspired to understand and try them.”

“No wonder...”

The Yan Family’s patriarch nodded,

“In that case, it is indeed possible to get an early understanding.”

“This way, once you enter the Divinity Transformation Stage, you can quickly comprehend your own Divine Arts.”

The Divine Toad also nodded,

“Given your current cultivation, you can indeed start to ponder Divine Arts in advance.”

“Since you wish to comprehend domain-type Divine Skills, I shall definitely explain them to you clearly.”

“Then, I thank Divine Toad senior,” Lin Jing said as he clasped his hands in gratitude.

The Divine Toad waved his hand and then continued,

“Just Divine Arts?

...

Don’t you need anything else, like a Magical Treasure, perhaps?”

Lin Jing looked at the Divine Toad and said,

“This is already enough; I don’t need anything else.”

The relationship between Lin Jing and the Divine Toad was actually built on the face of the Yan Family’s patriarch.

Currently, it was just about crafting a single elixir.

For such a matter, the Divine Toad had already gifted Ye Yun a vial of Demonic Beast essence blood and promised to explain to Lin Jing those domain-type Divine Skills.

This was sufficient; to be too greedy might not be appropriate.

With the matter settled, all were pleased.

The group then discussed the upcoming matters for a while.

Next, the Yan Family's patriarch and the Divine Toad planned to leave Spirit Rock Island to find the last missing poison.

Meanwhile, Lin Jing and Yan Ming would remain on the island.

By taking advantage of this time, Lin Jing would also craft all the elixirs he had promised to make for the Yan Family.

As for explaining the domain-type Divine Skills to Lin Jing, that would happen after Lin Jing had finished crafting elixirs for the Divine Toad.

There was no rush for these things; the two wouldn't be gone long, at most two months, and they would be back.

Even if things went smoothly, they might return in less than a month.

As for Yan Ming, he was tasked by the Yan Family's patriarch to help Lin Jing prepare all the alchemy ingredients he would need.

Once their discussion was complete, the Yan Family's patriarch and the Divine Toad wasted no further time and departed from Spirit Rock Island directly.

...

After the two had left Spirit Rock Island, Yan Ming then arranged accommodations for Lin Jing.

Originally, it was suggested that Lin Jing rest for a while, without rushing into alchemy.

But at Lin Jing's request, Yan Ming still arranged an Alchemy Room for him.

Furthermore, when Yan Ming learned that Lin Jing wanted to prepare and adjust his condition first,

he immediately prepared several batches of ingredients for crafting elixir medicines.

These ingredients were all Third-Rank.

Outside, Third-Rank elixir ingredients might be quite valuable.

But on Spirit Rock Island, they could be taken out at will.

After accepting those ingredients, Yan Ming left, and Lin Jing headed straight to the Alchemy Room.

On Spirit Rock Island, the Alchemy Rooms are protected by formations, isolating the entire room.

The purpose is to prevent disturbances during the alchemy process.

Of course, it also helps to prevent the noise from alchemy from disturbing other people on the island.

And.

The formation protecting this Alchemy Room is of a pretty high rank, such that even the Divine Sense of a Nascent Soul Cultivator cannot penetrate into it.

After Lin Jing arrived at the Alchemy Room, he didn't linger inside for long.

Instead, he directly called out the System and entered the System Space.

The first thing Lin Jing did after entering the System Space was to adjust the alert range.

He was not on his own Li Yan Island now, and though the chances of being disturbed on Spirit Rock Island were slim, Lin Jing still had to be cautious.

After all, better safe than sorry.

If someone were to suddenly interrupt, it would be troublesome.

After adjusting the alert range, Lin Jing went straight to the Alchemy Room within the System Space.

Upon entering the Alchemy Room, Lin Jing couldn't wait and immediately opened its panel.

The Alchemy Room had been successfully upgraded and a new function had appeared, which Lin Jing had not yet reviewed.

Opening the System panel, the message was strikingly displayed:

Alchemy Room: Level 7

Increase in Divine Sense Strength: 70%

Increase in Alchemy Success Rate: (Seventh Rank 10%)(Sixth Rank 20%), (Fifth Rank 30%), (Fourth Rank 40%), (Third Rank and below...

50% full)

Improvement in Elixir Medicine Quality: (Seventh Rank 10%), (Sixth Rank 20%)...

Chance of Producing Pure Elixir: (Seventh Rank 10%), (Sixth Rank 20%)...

Required for Upgrade: (0/1000000 Harvest Points)

New Function Unlocked:

Mastery of Pill Dao: When performing Alchemy, the acquisition of proficiency is no longer limited, and alchemy proficiency gained is doubled.

...

...

It seemed to know Lin Jing's dilemma.

This new function was actually related to Alchemy Proficiency.

The acquisition of proficiency during Alchemy was no longer limited, which meant that Lin Jing could gain proficiency by concocting Elixir Medicines of any rank.

No longer was it like before, where he could only gain proficiency by concocting Fifth-Rank Elixir Medicines and above.

Fifth-Rank Spirit Plants are so hard to find.

With Lin Jing's current level of Cultivation, he might not be able to successfully gather a complete set of Fifth-Rank Alchemy Ingredients even in several years.

Without ingredients, naturally, there would be no Elixirs to concoct.

Without Elixirs to concoct, naturally, there would be no way to gain proficiency and continue to upgrade one's Pill Master rank.

This new function really served to eliminate Lin Jing's troubles perfectly.

Moreover.

Besides, there was a doubling of Alchemy Proficiency.

From now on, his Alchemy would yield double the Alchemy Proficiency.

Although the higher the Pill Master rank, the more Alchemy Proficiency was required for promotion,

the speed at which Lin Jing's Pill Master rank advanced would not slow down much.

This indeed was a wonderful feature.

After reviewing the new System functions, Lin Jing then looked at the Harvest Points required for the upgrade, a total of one million.

The upgrades for the Alchemy Room required the same number of Harvest Points as the upgrades for the space itself, both needing this much.

One million Harvest Points, that would take Lin Jing quite a while to accumulate.

What's more, Lin Jing also had Spirit Fields to open up and Spirit Plant growth to accelerate and such.

It was estimated that some Harvest Points would be consumed for these purposes as well.

If counted like this, the time Lin Jing would need became even greater.

After taking a look, Lin Jing then closed the panel.

After that, Lin Jing took out the Cloud Pattern Purple Gold Furnace.

Planning to concoct a batch of Elixir Medicine to test.

After taking out the Pill Furnace, Lin Jing also brought out the Alchemy Ingredients that Yan Ming had prepared for him.

Then he started to get busy...

...

...

Four hours later, a System alert sounded:

"Ding!"

"System Alert: Congratulations to the host for successfully concocting Pure Elixir Medicine, award received: 30 Harvest Points."

"Elixir Medicine concoction successful, Alchemy Proficiency +188."

This first batch of Elixir Medicine resulted in the creation of Pure Elixir, and Alchemy Proficiency saw a substantial increase.

Lin Jing was inevitably filled with joy.

Afterwards.

Lin Jing opened the Elixir Furnace and took out all the Elixir Medicines within.

The quality of this batch of Elixir Medicine was quite good, with one Pure Elixir, two Supreme Grade, and then Medium Grade and Low Grade Elixir Medicines.

Just these few Third-Rank Elixir Medicines alone added 188 Proficiency.

This new System function indeed performed well.

After storing the Elixir Medicines, Lin Jing then made preparations once again, intending to start concocting the second batch of Elixir Medicine.

Now, while he had the time, Lin Jing naturally wanted to concoct several more batches...

Chapter 667 - 288: The Elixir is Refined, The Change of the Divine Toad Sage

"The latest time agreed upon was two months, but perhaps due to urgency, the ancestor of the Yan Family and the Divine Toad, took only a month to hurry back ahead of schedule."

"When the two returned, all the materials previously accumulated by the Yan Family had already been turned into elixir medicine."

"Upon their return, when they saw the elixir medicine, there was an instant burst of exclamations."

"It was for no other reason than that the quality of the elixir medicines refined by Lin Jing exceeded their expectations by a lot."

"The quality of these elixir medicines was not low at all."

"Most crucially, among these elixir medicines, there was actually a Flawless Elixir."

"Upon seeing the Flawless Elixir, the ancestor of the Yan Family immediately became so excited that he could not contain himself."

"Divine Toad as well, upon seeing these elixir medicines, was equally thrilled, for Lin Jing's level of alchemy was even higher than he had imagined."

"Among the materials from the Yan Family, Lin Jing had refined five Flawless Elixirs in addition to other varying qualities of elixir medicines."

"However."

"Out of these five Flawless Elixirs, Lin Jing only left one for the Yan Family, taking the rest for himself."

"Other qualities of elixir medicine were one thing, but having too many Flawless Elixirs would be somewhat difficult to explain."

"For these twenty-some batches of elixir medicine, being able to refine one Flawless Elixir was already extremely lucky; if there were too many, it really would be inexplicable."

"After all."

"Lin Jing was able to refine these Flawless Elixirs thanks to the bonuses from System Space."

"Moreover, the talent for alchemy he had consistently shown was beyond ordinary people's, capable of refining a Flawless Elixir."

"It was quite reasonable."

"After the two returned and their excitement had eased, they did not forget about the task at hand."

"They quickly had Lin Jing adjust his condition, preparing to refine the Detoxifying Elixirs because the last type of poison they had acquired was quite special."

"Even though it was sealed, its toxicity was still continuously leaking out and could not be delayed for too long."

"Lin Jing also understood the importance of this batch of Elixir Furnace Medicine, so without a second word, he immediately sat down to meditate and adjust his condition."

"While Lin Jing was adjusting his condition, Divine Toad began to refine some of the poisons."

"And naturally, it was most appropriate for Divine Toad, who practiced the Poison Art, to refine these poisons."

"In this batch of Elixir Furnace Medicine, some poisons did not need to be refined in advance and could be integrated directly, while others required prior refinement."

"Otherwise, they could not be incorporated into the elixir."

"And naturally, it was most appropriate for Divine Toad, who practiced the Poison Art, to refine these poisons."

"Once Lin Jing had finished adjusting his condition, Divine Toad had also completed refining those poisons."

"After that, alchemy began."

"The two came to the Alchemy Room on Spirit Rock Island together, Lin Jing took out the Pill Furnace and placed it in the center of the Alchemy Room."

"Divine Toad stepped forward at this time, handed over all the prepared poisons to Lin Jing."

"As for himself, he temporarily stepped back."

"This alchemy required the assistance of Divine Toad."

"However, this assistance was not needed throughout the entire process."

"Only during the crucial moment of collecting the elixir would Divine Toad's intervention be required."

"Therefore, at this moment, Divine Toad simply stepped aside, ensuring he did not disturb Lin Jing's work."

"Accompanying Divine Toad were the ancestor of the Yan Family and Yan Ming."

"Since the alchemy was to be made public anyway, having the two of them watch made no difference."

"Besides, since Lin Jing's previous alchemy had not been public, both were very curious."

"Lin Jing was indifferent to being watched."

"However, for this alchemy session, he did not plan to use the alchemy methods of the Lin Family."

"Lest they identify something peculiar."

"Lin Jing had previously learned the Ning Family's alchemy method and was also very familiar with the alchemy technique Ji Xiyue obtained while repairing the Elixir Scripture."

"Any of these alchemy techniques could be used."

"After taking out the Pill Furnace, Lin Jing then activated the Divine Fire Triple Realm; a ball of purple flame suddenly rose up in front of him."

"Upon seeing this flame, Yan Ming seemed to think of something; gazing at the purple flame in front of Lin Jing, he became contemplative..."

"At that moment, Lin Jing had already controlled the flame to the bottom of the Pill Furnace."

"The intense heat of the flame caused the Pill Furnace to react instantly; the cloud pattern on it began to move."

"Subsequently, Lin Jing took out the various poisons and cast them into the Pill Furnace."

"These poisons had already been classified by Divine Toad beforehand, even arranged in the proper sequence; Lin Jing just needed to follow the order to add them."

"This saved Lin Jing a lot of trouble."

"It was then that Yan Ming suddenly realized."

"'Divine Fire Triple Realm!' An exclamation escaped from Yan Ming's mouth."

"Perhaps influenced by the current atmosphere, Yan Ming's voice wasn't loud and it did not affect Lin Jing."

"However, it attracted the sidelong glances from Divine Toad and the ancestor of the Yan Family."

"Seeing both looking over, Yan Ming quickly activated his cultivation technique, gathering Spiritual Power to form a protective shield, enshrouding the three of them."

"After enshrouding the three, Yan Ming then spoke up:"

"'Ancestor!'"

"'The Cultivation Technique used by Brother Lin is none other than the Divine Fire Triple Realm.'"

"The ancestor of the Yan Family looked at Yan Ming and said:"

"'I noticed that a long time ago.'"

"Yan Ming then spoke again:"

"I remember you once mentioned..."

"Advancing in the Divine Fire Triple Realm is difficult, especially the third level of the Divine Fire Triple Realm, which requires an extremely rare natural spiritual object for one to advance."

"Yes, that's correct,' the ancestor of the Yan Family nodded."

"Yan Ming continued:"

"Didn't you tell me that you knew where to find such a spiritual object?"

"Upon hearing this, the ancestor of the Yan Family sighed softly and said:"

"Sigh!"

"I understand what you mean."

"To advance to the third level of the Divine Fire Triple Realm, one needs Blazing Marrow Spirit, but this Blazing Marrow Spirit is incredibly hard to find."

"I had heard from someone before that wherever the Blazing Marrow Spirit appears, it must be a place with a strong fire attribute."

Chapter 668: Chapter 288: The Elixir Medicine is Refined, Changes in the Divine Toad Elder\_2 Chapter 668: Chapter 288: The Elixir Medicine is Refined, Changes in the Divine Toad Elder\_2 "The legendary Five Elements Ruins, encompassing all five forms, must have a place with an extremely concentrated Fire Attribute, and it is likely that Blazing Marrow Spirit exists there,"

"However, this information is just hearsay, and whether it is true or false is beyond my knowledge."

"Moreover,"

"even if it were true, it would not be easy to enter the Five Elements Ruins."

After finishing, the Yan Family's ancestor turned to Yan Ming and said,

"Just listen to this matter and don't take it too seriously."

"So that's how it is..." Yan Ming, having learned the truth, seemed clearly disappointed.

The Divine Toad initially showed some interest and listened carefully to their conversation, but after hearing this truth, he suddenly lost all interest.

After all, even if the matter was true, they were unable to enter the Five Elements Ruins to verify it.

Besides, the matter might not even be true.

While they were chatting, Lin Jing had already thrown all the prepared poisons into the Pill Furnace and sealed it.

Amidst it, Lin Jing even glanced at the three people, noticing that they had shrouded themselves with Spiritual Power.

And appeared to be talking about something.

...

Presumably, they were afraid of disturbing him.

Lin Jing couldn't hear them and thus didn't pay it any more mind.

Subsequently,

during their chat, Lin Jing activated the Bonus Attachment feature.

This time, the purpose of the attachment was not to enhance his Divine Sense, but for alchemy.

Originally, to avoid suspicion, he had ceased using the Lin Family's Alchemy Dao methods.

Had he not used the System bonuses from System Space, the Elixir Furnace Medicine would likely prove difficult to concoct.

The Elixir Recipe for this Poison Absorbing Pill had been studied by Lin Jing for quite some time, and he knew it was not easy to make.

It was after studying the Elixir Recipe that Lin Jing decided to use the Bonus Attachment.

Although Lin Jing used the Bonus Attachment, to Yan Ming and the other two, Lin Jing appeared unchanged.

At this time, Lin Jing adeptly controlled the furnace flames, while his Divine Sense entered the Pill Furnace to carefully observe the interior circumstances.

Yan Ming and the others, on the other side of the Alchemy Room, watched intently.

As such, time trickled away bit by bit.

Soon, over an hour had passed.

The Elixir Medicine within the Pill Furnace gradually solidified under Lin Jing's concoction.

However,

these various poisons were only transformed into liquid and were continuously repelling each other, never truly solidifying into one mass.

At this point, they reached the last moment of Solidifying Pill.

Lin Jing, carefully controlling the merging Medicinal Liquid, looked towards the Divine Toad.

"Elder, it's your turn now,"

Lin Jing said.

The Divine Toad promptly came forward.

After the Divine Toad arrived, his aura surged, and countless purple and green mists emerged from his body.

At this moment, he extended both hands, the purple and green mists dispersing, and then condensed a purple and a green droplet in each palm respectively.

Once the droplets formed, the Divine Toad spoke,

"Open the Pill Furnace."

Lin Jing, already prepared, didn't hesitate and immediately opened the Pill Furnace.

After the Pill Furnace was opened, the Divine Toad swiftly directed the two droplets into the Pill Furnace, approaching the cluster of various poisoned Medicinal Liquid in the middle.

As the droplets drew near, initially, the Medicinal Liquid seemed very repellent.

As the droplets approached, the Medicinal Liquid seemed to come alive, pulling away.

But since there were two droplets, coming from different directions, the Medicinal Liquid eventually had no escape and was absorbed into the droplets...

At this moment, the Divine Toad took over, controlling the merged Medicinal Liquid to spin continuously.

As the Medicinal Liquid spun, the entire mass steadily shrank.

Only when the Medicinal Liquid had reduced to the size of a normal Elixir Pill did the Divine Toad release control of the Medicinal Liquid, handing it over to Lin Jing.

At this moment, when the Medicinal Liquid returned to Lin Jing, the liquid that had been smelted from various poisons had become unified, indistinguishable from each other.

The Elixir Pill was nearly formed at this point.

Lin Jing then controlled the unified Medicinal Liquid, putting it back into the Pill Furnace.

Afterward, with a thought, he sealed the Pill Furnace again.

Then, Lin Jing intensified the flames under the furnace, causing the temperature inside the Pill Furnace to continue to rise.

He began to solidify the Medicinal Liquid inside the Pill Furnace into the final Elixir Pill.

Until about half an hour later, the Elixir Pill was finally concocted.

Lin Jing opened the Pill Furnace, and a deep purple Elixir Pill emerged and flew right out from the furnace.

When Divine Toad saw the elixir medicine, his eyes instantly lit up.

Afterward,

Just as Lin Jing realized what was happening, Divine Toad reached out and directly grabbed the elixir medicine.

“It’s done!”

“This elixir medicine is of quite good quality.”

Looking at the elixir medicine in his hand, Divine Toad was very excited.

This Poison Devouring Pill, unlike other elixir medicines, had only one pill upon pill formation.

And its quality was determined by the shade of its color.

This pill was deep purple, so naturally, the quality was not bad.

At this time, Yan Family's ancestor approached Divine Toad and said,

"Old Toad, it seems you're quite lucky."

Divine Toad was clearly very pleased as well and directly addressed Lin Jing,

"It's Lin, young friend, who is skilled at alchemy.

I thought, if it turned out to be light purple, it would have been very impressive already."

"But it turned out to be deep purple."

After speaking, Divine Toad continued to Lin Jing,

"Lin, young friend."

"This Poison Devouring Pill must be consumed immediately after its refinement; otherwise, the medicinal effect will dissipate quickly."

"I will go take this pill first.

Once I have refined it, I will then help you understand the Domain Divine Arts."

"Refining the pill is most important; explaining the Domain Divine Arts can wait, you go ahead, Senior Divine Toad."

Having looked over the elixir recipe, Lin Jing naturally knew the characteristics of this Poison Devouring Pill and knew that it could not be stored but had to be consumed immediately.

As for the Domain Divine Arts, it wasn't that urgent.

Divine Toad then addressed Yan Family's ancestor,

"Old Yan!"

"I'll go refine the Poison Devouring Pill first.

Keep Lin, young friend, well-entertained until I return."

After hearing this, Yan Family's ancestor curled his lip,

"As if I needed you to say that..."

However, he did not continue with his words.

Because Divine Toad, after saying that, had already left the Alchemy Room, and his figure could no longer be seen.

Clearly, Divine Toad did not want to delay for even a moment.

...

It took Divine Toad three days to refine this elixir medicine.

Three days might not be long, but when Divine Toad reappeared before them, he was completely transformed.

Now, Divine Toad had turned into a black-haired elderly man, and the various bumps on his face had also disappeared.

His face, while still showing some signs of aging, had become much smoother, and most crucially, his previously hunched back had miraculously disappeared.

Novgo.co

The current Divine Toad even looked much younger than Yan Family's ancestor.

Seeing Divine Toad completely transformed, naturally, the most surprised was Yan Family's ancestor.

Yan Family's ancestor had known Divine Toad for a thousand years, ever since the first time they met, he was already in his previous appearance.

With a face full of frightful bumps and his hunched back, Yan Family's ancestor had long gotten used to it.

Now that he looked like this, it was quite unaccustomed for the Yan Family's ancestor.

Yan Family's ancestor walked around Divine Toad twice, suspiciously looking at the figure before him:

"Are you really Old Toad?"

"This change is too drastic."

Divine Toad curled his lips, then responded:

"Old Yan!"

"Don't make me say it, you really think I was born like that?"

“It was practicing the Poison Art that caused me to look that way.”

“Tsk tsk...” Yan Family’s ancestor looked at Divine Toad, clicking his tongue twice.

“You look much more pleasant to the eyes now, and your voice has also changed back.”

“Remembering back to our first encounter, you frightened Xing’er and Yue’er into crying for half a day; no amount of consoling worked.”

“Your current look should really be seen by those two girls.”

“Naturally.” Divine Toad said.

“However...”

“I should first explain the Domain Divine Arts to Lin, young friend.”

Chapter 669: Chapter 289: Comprehending Divine Skills: Five Elements Domain  
Chapter 669: Chapter 289: Comprehending Divine Skills: Five Elements Domain Near Spirit Rock Island, there was a small area, yet it was an island towering above the sea surface.

Rather than an island, it actually resembled more like the peak of a mountain, except this peak rose from the seabed and soared above the sea surface, standing majestically.

Moreover,

this mountain peak was completely bare, with not a single tree or plant in sight.

NovGo.co

It was on this mountain peak that there were currently two figures.

If one got closer, one would notice,

that these two figures were none other than Lin Jing and Divine Toad.

At this moment, Lin Jing and Divine Toad were sitting facing each other, and Divine Toad was patiently explaining:

“Cultivators below the Divinity Transformation Stage, when casting spells, absorb beneficial Spiritual Energy from the outside world through cultivation, transform it into their own Spiritual Power, and then unleash it through various types of spells, thereby severely damaging their enemies.”

“The essence of spell casting is one’s own Spiritual Power.”

“The stronger the spiritual power oneself has, the more powerful the spells naturally become.”

At this point, Divine Toad quickly added:

“Of course.”

“There are some exceptions.”

“There are also some extremely powerful and exceptionally intelligent cultivators who create special spells, which, due to their unique spell techniques, can maximize the power of a spell, and their power should not be underestimated.”

...

...

...

“But even if these spells are strong, they still have limits.”

“Because a cultivator’s own Spiritual Power is always limited, no matter how powerful the spells he casts are, they cannot exceed the upper limit of Spiritual Power that he can contain.”

“However, Divine Arts are different...”

“The cultivation of Divine Arts begins with merging the Soul Spirit, then using the Soul Spirit to communicate with the Spiritual Energy between heaven and earth, and using the power of the Soul Spirit to control the Spiritual Energy for one’s use, thereby casting powerful spells that far exceed one’s own Spiritual Power.”

“This is the essence of Divine Arts.”

Divine Toad spoke earnestly and Lin Jing listened intently.

At this point, Divine Toad paused for a moment, then looked at Lin Jing and continued:

“Moreover...”

”

“When using Divine Arts, it is greatly related to one’s own Soul Spirit.”

“Therefore,”

“when Divine Transformation Cultivators are in battle, that which is most susceptible to damage is the Soul Spirit.”

“In the Divinity Transformation Stage, even if the body is severely injured, it can quickly recover, but if the Soul Spirit is damaged, it is extremely difficult to heal.”

Hearing this, Lin Jing nodded and said,

“I have also heard about this...”

Divine Toad nodded slightly, then continued:

“Precisely because of this, Divine Transformation Cultivators, unless there is some deep hatred or the dispute is over some especially rare Spirit Plant treasure, generally do not use Divine Arts.”

“And once Divine Arts are used, it is truly a battle of life and death.”

“After all, when both parties use Divine Arts against each other, it is equivalent to a direct collision between Soul Spirits, which is very likely to injure the Soul Spirit, and in severe cases, it may even lead to direct demise.”

“Apart from this...”

“There is also another reason, that is, using Divine Arts consumes a huge amount of energy, and it is generally not used unless it is a critical moment.”

Upon hearing this, Lin Jing nodded lightly.

Lin Jing was aware that Divine Arts were not to be used lightly.

For instance, during his time in the Nanming Domain, the ancestor of the Nanming Immortal Sect only used Divine Arts at the last moment to deal with him.

Then,

Divine Toad continued:

“Coming back to Divine Arts...”

“There are also quite a few types of Divine Arts, among which the most common are those very similar to attack-oriented spells.”

“These types of Divine Arts are relatively simple to cultivate, although simple, their power is also formidable, and even some Divine Arts come with additional special effects.”

“And among them, the most common is binding.”

“Binding involves using the power of the Soul Spirit in the execution of Divine Arts to condense the space around the target enemy, thus creating a compressive effect that makes it unavoidable for the enemy.”

Upon hearing this, Lin Jing instantly recalled that when the ancestor of the Nanming Immortal Sect used Divine Arts, there was also a strange power that bound him.

It seems that was the special effect mentioned by Divine Toad.

Without stopping, Divine Toad continued:

“This binding force is extremely formidable against cultivators below the Divinity Transformation Stage, but if it is used against another Divine Transformation Cultivator, it is not very useful.”

“As long as the gap between them is not very large, cultivators of the same level can easily break free from the binding, thus escaping.”

“However, escaping from the binding does not necessarily mean one can evade the Divine Arts, as the range of Divine Arts is usually very large, and if the opponent’s Divine Arts have already formed, even a small amount of binding force can be enough to prevent escape.”

After hearing this, Lin Jing nodded, indicating that he had taken note.

Divine Toad nodded, then continued:

“The Domain Divine Art I cultivate is somewhat different from other Divine Arts.”

“Domain Divine Art requires higher demands on the Soul Spirit, and its effect is more about control, controlling the Divine Arts within one’s own domain.”

“Previously when I deployed Divine Arts, as you must have seen, I can condense poison art to form a Poison Mist Space within a certain area, where any living being entering the space, I can ensure his safety or let him be instantly corroded by the poison mist.”

After saying this, Divine Toad directly stretched out his hand, condensing a drop of purple liquid in it.

This drop of purple liquid was very similar to that used by him during the deployment of Divine Arts before.

“Try feeling this...”

As Divine Toad finished speaking, the drop of purple liquid suddenly disappeared, and when it reappeared, it was already in front of Lin Jing.

Chapter 670: Chapter 289: Comprehending Divine Skills: Five Elements Domain\_2  
Chapter 670: Chapter 289: Comprehending Divine Skills: Five Elements Domain\_2  
After that, the drop of purple liquid exploded.

In an instant, it transformed into a purple poison fog and enveloped Lin Jing.

This purple liquid, both when it suddenly appeared and when it exploded, was at least a hundred times faster than the last time he faced the Flood Dragon.

Shrouded in poison, Lin Jing immediately felt surrounded by the poison fog, and breathing became somewhat difficult.

However, although he was within the range of the poison, the toxic fog swirling around his body did not enter his system at all.

He did not show the slightest sign of being poisoned.

This must be the control that the Divine Toad mentor mentioned earlier.

...

It was then that Lin Jing heard the Divine Toad mentor say:

“When facing that Flood Dragon before, I was simply trying to force it to turn back, so I didn’t use my full strength.

Actually, I can control the speed of this Divine Skill’s eruption.”

“You must have felt it just now.”

Lin Jing nodded and said,

“I felt it.

The speed of the poison fog’s eruption just now was indeed very fast, making it hard for one to react in time.”

After a moment, the poisonous substances around Lin Jing all dispersed, and the surroundings became clear again.

The Divine Toad mentor then continued:

“The speed at which different Divine Arts are unleashed can actually vary.”

“Some Divine Arts require a buildup of momentum, which is why they incorporate binding effects.”

“Others, however, do not need this at all, and thus their release is considerably faster.”

“In fact, no matter the Divine Art, the longer one comprehends it, the more proficient one becomes at casting it.

The speed of deployment also becomes faster, and if it’s a Divine Art that one has comprehended oneself, it can be continuously improved, making it stronger and stronger.”

Lin Jing nodded, then asked the Divine Toad mentor again,

“Senior, do domain-type Divine Skills require some form of medium?

Like the drop of purple liquid you used.”

The Divine Toad mentor shook his head and said,

“I need a medium because my Cultivation Technique is special; I practice the Poison Art, which aids me in using Divine Arts.”

“However, if one cultivates other Cultivation Techniques associated with the Five Elements properties, one can directly condense the Divine Skill and then invoke the Five Elements Spiritual Force from the outside world, using it directly to cast Divine Arts without needing a medium.”

“Moreover...”

“What I just demonstrated is just one of the ways to use the domain-type Divine Skills.”

“In fact, there is another way to use domain-type Divine Skills, which is to use oneself as a medium, expanding the domain outward from oneself.”

“However, fights among Cultivators nowadays usually involve Magical Treasures and various Spells.

Thus, if one centers themselves, the scope of their domain is limited, making it difficult to harm the enemy.”

“Furthermore, because domain-type Divine Skills are related to the strength of the Soul Spirit as well as the domain’s range, if the domain is expanded too large, then the power of the domain’s Divine Skill naturally decreases significantly.”

“In that case, it would not only fail to threaten the enemy but also put oneself in great danger.”

At this point, the Divine Toad mentor paused, then spoke again:

“Unless, you yourself are a Body Refinement Cultivator...”

After saying this, the Divine Toad mentor suddenly looked at Lin Jing and said,

“Right...”

“I seem to remember Old Yan saying you’ve practiced some Body Refining Techniques, haven’t you?”

Lin Jing nodded:

“Yes, senior.”

“I have practiced some.”

Lin Jing had never concealed the fact that he practiced Body Refining Techniques.

Yan Ming knew, so naturally, the Yan Family patriarch did too.

“Body Refining Techniques...” the Divine Toad mentor stroked his chin, lost in thought for a while.

After pondering for a moment, the Divine Toad mentor continued,

“If you can raise your Body Refinement Cultivation to the Divine Transformation Realm and step into the Martial Dao, and if you can further comprehend a domain-type Divine Skill,”

“then, I fear that within the Divine Transformation Realm, there will be very few who dare to make enemies with you.”

“Cultivators who have entered the Martial Dao are already very formidable.

If one adds a domain-type Divine Skill to that, it’s unimaginable how terrifying that would be.”

Having said that, the Divine Toad mentor sighed and then said,

“Alas...”

“It’s just a pity that for a Body Refinement Cultivator to enter the Martial Dao, it is much more difficult than for a Cultivator to enter the Divine Transformation Realm.”

“As for you, you could actually abandon the Body Refining Techniques by now.”

“After all, it’s extremely difficult to break through to the Divine Transformation Realm, and if you also divide your attention to practice Body Refining Techniques, it will become even more difficult.”

After hearing this, Lin Jing said,

“Thank you for the reminder, senior.

I’ll consider it...”

Lin Jing had now entered the Divine Transformation Realm, and even his Martial Dao Cultivation was at the Divine Transformation level.

He simply didn’t want to reveal it yet, which is why he was concealing it.

Facing the kind advice of the Divine Toad mentor, Lin Jing could only reply in this manner.

...

Afterwards.

The Divine Toad mentor told Lin Jing many things.

It wasn’t until a day later that the Divine Toad mentor imparted all his understanding and insights on domain-type Divine Skills to Lin Jing.

Novg0.c0

Furthermore,

he also demonstrated his Divine Skills for Lin Jing several times, each experience bringing different sensations to Lin Jing.

After patient explanations from the Divine Toad mentor, Lin Jing also gained some insights into domain-type Divine Skills.

After the discussion, the two returned to Spirit Rock Island.

Not having stayed long on Spirit Rock Island, Lin Jing bid farewell to several people and returned to Li Yan Island.

As soon as he got back to Li Yan Island, Ye Yun, having heard of Lin Jing's return, hurriedly sought him out.

It turned out that the vial of Demonic Beasts' blood essence the Divine Toad mentor had given to Ye Yun hadn't been used.

Instead, Ye Yun had been waiting for Lin Jing to come back, intending to offer it to Lin Jing.

The blood essence was a gift from the Divine Toad mentor to Ye Yun.

Besides, with Lin Jing's current Cultivation level, even if he used the Demonic Beasts' blood essence, the improvement would be insignificant.

Ye Yun had recently advanced to the next stage, so the blood essence was particularly suitable for his use, and it would bring him the greatest enhancement.
