

Immortality Cultivation: I Farm in the System Space

#Chapter 751 - Read Immortality Cultivation: I Farm in the System Space Chapter 751

Chapter 751: Chapter 332: The Fury of the Dragon Taoist Chapter 751: Chapter 332: The Fury of the Dragon Taoist Lin Jing nodded after hearing this.

Indeed.

If it were only the Dragon Taoist alone, that would be one thing, but the Dragon Taoist had formed an alliance with Li Mingwu, and the two of them were definitely together.

If the two of them took action together, then the matter would be difficult to handle.

Therefore.

Lin Jing asked the Yan Family's ancient master, "Senior, do you have any solutions?"

Upon hearing this, the Yan Family's ancient master first pondered for a moment before speaking, "I might have a method..."

As he said this, the Yan Family's ancient master paused, seeming hesitant.

Lin Jing also noticed the ancient master's hesitation and directly said, "What method, senior?"

...

Just speak."

The Yan Family's ancient master hesitated for a moment and then said, "When I was adventuring in the Inner Sea before, I came across a set of Formation Flags."

"Once these Formation Flags are deployed, they will form an extremely powerful trapping Formation.

Once the trap is set, even a Solidifying Body-stage Cultivator would need to spend some time to break through it."

"But this set of Formation Flags has a flaw, which is that when they are being deployed, it's best not to be disturbed by others."

“Otherwise, there is a high likelihood of failing to set up the Formation, and the Formation Flags might even be destroyed.”

“What I mean is, we should act quickly.

I plan to use this set of trapping Formation to control the guardian beast in the central area of the Fire Realm, and then take the opportunity to snatch the Fire Attribute Five Elements essence from within it.”

“As for the time when I am setting up the Formation, I need you to keep watch over our surroundings for me.”

“If Dragon Taoist and Li Mingwu come, it will be up to you to stop them.

If they don’t come, then we’ll directly take the Fire Attribute Five Elements essence and leave immediately.”

“What do you think?”

If he had to delay Li Mingwu and Dragon Taoist by himself, with Lin Jing’s current cultivation, it would still be possible if it wasn’t for a long time.

But if it took too long, it probably wouldn’t be feasible.

After thinking for a moment, Lin Jing then asked, “Senior, how long does it take to set up the Formation?”

The Yan Family’s ancient master then said, “Setting up this Formation will take a little over an hour.”

“And there will be a critical period during which, for about half an hour, I cannot leave the Formation at all.”

“The main concern is during that time.

I’m worried about them causing trouble, so I need you to block them for me during that period.”

“Of course...”

“If they are not around and everything goes smoothly, you won’t need to make a move, and I can handle everything myself.”

“The reason I say this is more as a precaution, in case of unforeseen circumstances.”

“Do you understand?”

Lin Jing nodded and said, "Understood!"

After speaking, Lin Jing directly stated, "No problem, leave it to me."

"If they truly show up, I will help you stop them."

...

...

After discussing everything.

The three of them then proceeded together towards the central area of the Fire Realm of the Five Elements.

In this way, Lin Jing and his group traveled for two more days and finally arrived at the central area of the Fire Realm of the Five Elements.

The central area of the Fire Realm of the Five Elements is a vast Lava Marsh.

Even the air in the central area is hot, with black, hardened rock in some areas, and numerous bubbling lava pits that emit plumes of steam.

It's similar to a Lava Marsh.

Within these lava pits, creatures resembling multi-legged serpents sometimes slither out, lunging at the group.

Since these lava pits themselves are very hot and filled with molten red magma, the multi-legged serpentine beasts' attacks are secretive and much harder to anticipate than in the open.

However.

Fortunately, the cultivation of Lin Jing and his companions was not low, so they would immediately notice the serpentine beasts as soon as they made a move.

Therefore, on their way, the group was unharmed.

After entering the central Lava Marsh area, they traveled for another two days and saw a tall volcano ahead.

This was already the most central area of the Fire Realm of the Five Elements.

Inside this volcano was where the Fire Attribute Five Elements essence resided.

This volcano also had its guardian beast.

Subsequently.

The Yan Family's ancient master started to make arrangements.

Changyun Yuanlei, due to his low cultivation, could not operate with them.

So.

Changyun Yuanlei was arranged in a relatively safe place to hide first.

After arranging for Changyun Yuanlei, only Lin Jing and the Yan Family's ancient master were left.

Then.

The Yan Family's ancient master and Lin Jing scouted the vicinity, and after checking, found no abnormalities.

Then the Yan Family's ancient master continued to climb the volcano.

The Yan Family's ancient master needed to enter the crater to set up the Formation.

While Lin Jing, who had to stay vigilant of the surrounding situation, did not need to do so.

After the Yan Family's ancient master climbed to the crater and could not see Lin Jing's figure due to the crater's edge blocking the view, Lin Jing, seeing that there was nobody around, found a hidden spot and entered the System Space.

Since he needed to be on guard for any sabotage by Li Mingwu and Dragon Taoist, he had to observe carefully, and the Observation Mode in the System Space was perfectly suited for this task.

After entering the System Space, Lin Jing directly activated the Observation Mode.

Upon entering Observation Mode, Lin Jing's viewpoint immediately shifted to above the volcano.

Suddenly, the entire landscape near the volcano was brought into Lin Jing's perspective.

The surroundings were quiet, with no disturbances, and Li Mingwu and Dragon Taoist were nowhere to be seen.

Seeing no abnormalities around, Lin Jing then controlled the observation viewpoint to move to the crater.

N0vgo.co

At this moment, the Yan Family's ancient master was inserting pole after pole of Formation Flags into the crater.

Chapter 752: Chapter 332: The Fury of the Dragon Taoist_2 Chapter 752: Chapter 332: The Fury of the Dragon Taoist_2 Lin Jing watched for a while, then controlled the perspective to look down from the volcanic vent.

The walls of the volcano, like a steep cliff.

Following the steep descent, the interior was a glowing red, forming an entire lake of magma, and at the center of this magma lake, lay a molten python completely red in color.

This giant python was at least a hundred yards long, its body covered in red scales, and it was currently soaking in the magma.

Moreover, its eyes were shut tight; with each breath, large amounts of white vapor rose from its nostrils.

Given the python's state, it seemed to be deep in slumber, showing no signs of waking up despite the Yan Family Patriarch setting up a formation at the entrance of the volcano.

If not for the continuous plumes of white vapor from its nostrils, Lin Jing might have even doubted if it was dead.

...

This molten python was likely the guardian beast of the Fire Attribute True Spirit.

Though the python was asleep, the Yan Family Patriarch was still incredibly cautious, wary of waking it up.

After all, the molten python looked to possess at least the cultivation of the Solidifying Body stage; without proper preparation, they would only have the option to flee.

As time slowly passed, the Yan Family Patriarch also gradually made a round around the mouth of the volcano.

Just when the last formation flag was about to be placed, there was a sudden disturbance at a protruding part of the steep cliff below the volcanic vent.

Initially, there was a blur within the vent, and then a figure appeared.

Lin Jing fixed his gaze on it.

This figure was none other than Long Daoren...

Long Daoren had arrived at some unknown time and had been hiding inside the volcanic vent.

But clearly,

Long Daoren had come here earlier than them; otherwise, he couldn't have appeared here so silently.

Long Daoren was very patient and had not made a move until then.

Just as the Yan Family Patriarch was about to place that last formation flag, Long Daoren suddenly made his move.

He swiftly formed a spell, creating a black and white dragon that roared and struck at the molten python inside the vent.

With Long Daoren being too close, the Yan Family Patriarch was unable to stop him in time.

He could only watch helplessly as the spell struck the molten python.

"Roar..."

The molten python, in pain, could not help but roar out and immediately opened its eyes, waking up.

Seeing his plan succeed, Long Daoren immediately produced a talisman which then emitted a dazzling white light, enveloping him within.

The next moment,

just as the molten python, with angry eyes, had set its sight on him, Long Daoren suddenly disappeared from the spot, wrapped in the white light of the talisman.

He had used a teleportation talisman.

Within the Five Elements Ruins, ordinary teleportation talismans generally did not work, and only a particular type of teleportation talisman was effective here.

This was what the Yan Family Patriarch had told Lin Jing.

And even though this special type of teleportation talisman could teleport, the distance was not very far.

Hence, the moment Long Daoren used the talisman, Lin Jing immediately elevated his viewing perspective to search for Long Daoren's trail.

As expected,

outside the volcanic vent, Lin Jing saw Long Daoren who had just teleported out, now fleeing.

At this moment,

with Long Daoren having awakened the molten python and having fled using the talisman,

the molten python's target would undoubtedly shift to the Yan Family Patriarch.

And indeed, as soon as Long Daoren left, the molten python immediately switched its target and charged at the Yan Family Patriarch, raising its body.

As the Yan Family Patriarch's formation was not yet fully set up, the sudden incident left him no choice but to desperately wield his magical treasure to contend with the molten python.

Watching Long Daoren leave,

Lin Jing, without hesitation, left System Space immediately to pursue Long Daoren.

At that time, as the Yan Family Patriarch was contending with the molten python, Lin Jing had to seize this chance to catch up to Long Daoren.

As for Li Mingwu, Lin Jing had not yet discovered his whereabouts until now.

He definitely had to be cautious.

For this reason, Lin Jing had already prepared the Great Dream Ancient Mirror, ready to use it the moment Li Mingwu appeared.

With Lin Jing's cultivation level and the Daoist Treasure, the Great Dream Ancient Mirror, even if facing an attack by both Long Daoren and Li Mingwu, Lin Jing could still hold his own against them.

Long Daoren fled ahead, his speed was not slow.

However, Lin Jing, who was behind him, immediately burst into extreme speed and soon caught up.

After fleeing for a while, the dragon daoist sensed something was amiss behind him and quickly noticed Lin Jing catching up.

Upon seeing Lin Jing chasing him, he initially increased his speed.

But after a while, the dragon daoist realized that it was only Lin Jing who was following him.

So he relaxed.

Then he turned around, stood his ground, and stopped running; instead, he waited for Lin Jing to arrive.

After the dragon daoist stood still, Lin Jing caught up.

Then, Lin Jing and the dragon daoist faced each other.

The dragon daoist looked at Lin Jing, sized him up carefully, and then spoke,

“It’s just you alone daring to chase me?”

Meanwhile, Lin Jing looked at the dragon daoist while cautiously keeping an eye on his surroundings, his brow furrowing simultaneously,

“Why is it only you alone?”

Not seeing Li Mingwu appear, Lin Jing always felt somewhat uneasy.

Hearing Lin Jing’s words, the dragon daoist looked at Lin Jing while his thoughts raced:

Originally...

Back in the Water Element Realm, he had a good discussion with Li Mingwu.

The two planned to enter the Fire Element Realm together, with Li Mingwu helping him to seize the Fire Attribute True Spirit.

But Li Mingwu was eager to find Bai Yi’s trail and asked him to go ahead to the vicinity of Soul Tomb and wait there.

The dragon daoist and Li Mingwu had just entered the Water Element Realm and had already learned the situation clearly.

They knew about the Yan Family ancestor and Bai Yi being exposed.

They also knew they had a magical treasure capable of detecting the aura of the Five Elements Command Tokens.

Therefore, before going to the Soul Tomb, the dragon daoist had already made preparations and concealed the aura of his Five Elements Command Token.

When he went there, he was prepared and wasn't detected by the two Seaheart Island cultivators in the Solidifying Body stage.

Moreover,

When he arrived at the entrance of the Soul Tomb, Lin Jing and the Yan Family ancestor had already entered the tomb.

Therefore, it was very safe when the dragon daoist went there.

He just needed to wait there for Li Mingwu to arrive, and the two could venture into the Soul Tomb together.

But the trouble arose when Lin Jing and his two companions successfully entered the center of the Soul Tomb and activated the teleportation array.

Who knew that the activation of the teleportation array would accidentally expose his own Five Elements Command Token.

This also allowed the two Seaheart Island cultivators in the Solidifying Body stage to discover his identity.

To avoid the attacks of these two Seaheart Island cultivators, the dragon daoist had to enter the Soul Tomb ahead of time.

And because of this,

He missed Li Mingwu.

After entering the Soul Tomb, the dragon daoist didn't rush to take action but planned to continue waiting for Li Mingwu.

However, after waiting for several days, he still did not find Li Mingwu returning.

Until the end, when the Soul Tomb became illusory and was about to hide again, the dragon daoist had to enter the tomb, used the teleportation array, and arrived in the Fire Element Realm.

Li Mingwu, however, was left behind in the Water Element Realm.

This infuriated the dragon daoist.

Having made plans that Li Mingwu would ultimately disregard their agreement and leave him behind in the Water Element Realm alone.

Actually,

The dragon daoist had some guesses as to why Li Mingwu was left behind in the Water Element Realm.

It was rumored that Bai Yi once obtained a Metallic Attribute True Spirit and refined it, which Li Mingwu was missing.

Initially,

During their time in the Metal Realm, the two had well discussed seizing that Metallic Attribute True Spirit.

But unexpectedly, after much effort, they failed to find the Metallic Attribute True Spirit in the Metal Realm.

Even experiencing a dangerous incident in the middle that nearly cost them their lives.

Lacking the Metallic Attribute True Spirit, Li Mingwu then turned his attention to Bai Yi.

Novgo.co

Attempting to forcibly seize a refined True Spirit has less than a one percent chance of success.

Yet, for the True Spirit within Bai Yi, Li Mingwu had gone to such lengths, which made the dragon daoist overthink...

Chapter 753: Chapter 333: Dragon Flame Chapter 753: Chapter 333: Dragon Flame
Had Li Mingwu spoken the truth?

Long ago in the Metal Realm of the Five Elements, before they had encountered the Metallic Attribute Elemental Spirit, Li Mingwu had told them that within the deepest layer of the Five Elements Ruins, there still were Elemental Spirits of the Five Elements.

Li Mingwu had spoken convincingly, and the Daoist Dragon truly believed him to be true.

However, Li Mingwu's current actions made him now doubt.

If the last layer of the Five Elements Ruins indeed still held Elemental Spirits of the Five Elements, Li Mingwu certainly would not be so urgent.

He was even reckless in his search for Bai Yi.

Other than wanting to seize the Metallic Attribute Elemental Spirit already refined in Bai Yi, the Daoist Dragon could think of no other reason why Li Mingwu would expend such a great cost to find Bai Yi.

...

That's right...

Elemental Spirits can be seized, even if they have already been refined.

However, the conditions to seize a refined Elemental Spirit are extremely harsh.

Firstly...

To seize an already refined Elemental Spirit, the target must not have reached the Solidifying Body stage, and the Elemental Spirit in their possession must be one acquired from the external environment.

Elemental Spirits cultivated from one's own Spiritual Root cannot be seized.

And once the cultivation reaches the Solidifying Body stage, and the Five Elements are unified with the cultivation of the Elemental Spirit successful, it likewise cannot be seized.

Secondly...

To seize an already refined Elemental Spirit, it must be stripped from the body of the person from whom it is taken.

During the stripping process, the one being stripped must endure great pain.

Moreover, the success rate of this process is extremely low.

In nearly a hundred cases, it is rare for even one to be successful.

If by chance it is successful, and the already refined Elemental Spirit is stripped from the person,

the next step would be to fuse the Elemental Spirit into oneself.

Because the Elemental Spirit has already undergone one refinement, integrating it into oneself also requires enduring tremendous pain.

This pain is almost no less than the pain suffered by the person being stripped during the stripping.

And this fusion process will not go smoothly either.

The success rate of fusion of an already refined Elemental Spirit is not high, and in the process of fusion, there are significant risks involved.

A slight mishap could lead to grave injuries, and in severe cases, one might even face death.

If the deepest layer of the Five Elements Ruins indeed held true Elemental Spirits of the Five Elements, then Li Mingwu certainly would not take such risks.

NovGo.co

Unless.

The last layer of the Five Elements Ruins simply had no Elemental Spirits of the Five Elements.

Otherwise, Li Mingwu would definitely not risk doing what he did, perhaps rushing over as soon as the Soul Tomb opened.

...

Li Mingwu stayed behind in the Water Element Realm.

The Daoist Dragon alone, if he wished to seize the Fire Attribute Elemental Spirit, would have to face both Lin Jing and the Senior Ancestor of the Yan Family.

Therefore,

right after entering, the Daoist Dragon immediately rushed to the central area of the Fire Realm, intending to prevent the Senior Ancestor of the Yan Family from seizing the Fire Attribute Elemental Spirit.

However,

when the Daoist Dragon arrived near the volcano, to his surprise, he found that the two had not yet reached this place.

This elated the Daoist Dragon unexpectedly.

Following this, he immediately began to prepare, planning to seize the Fire Attribute Elemental Spirit and leave as soon as possible.

Unfortunately, just as he finished preparing and before he could act, both the Senior Ancestor of the Yan Family and Lin Jing had already arrived.

Left with no choice,

the Daoist Dragon had to first conceal himself and wait for an opportunity to move.

Only when the Senior Ancestor of the Yan Family began setting up the formation did the Daoist Dragon suddenly feel a sense of urgency, as allowing the Senior Ancestor to complete the Formation would mean he could no longer take advantage of the situation.

Therefore, the Daoist Dragon chose precisely that moment to sabotage the formation, aiming to keep the Senior Ancestor of the Yan Family preoccupied with the Molten Python.

As for Lin Jing...

Although Lin Jing had indeed shown the cultivation level of the seventh layer of Divinity Transformation before,

being a veteran of several centuries in the Divinity Transformation Stage, the Daoist Dragon did not believe Lin Jing was a match for him...

Moreover, given what Lin Jing had just said,

he likely did not know that Li Mingwu was left in the Water Element Realm.

Though Li Mingwu was not present, the Daoist Dragon still had to play his part.

The Daoist Dragon suddenly smiled and then said to Lin Jing,

"I really don't know why you would dare to come here alone, do you really think that by yourself, you could be our match?"

The Daoist Dragon did not specify clearly.

But a single "we" was enough to make Lin Jing speculate.

After hearing the Daoist Dragon's words, Lin Jing also could not help but frown and carefully searched his surroundings,

trying to discover any trace of Li Mingwu,

Seeing Lin Jing's appearance, the Daoist Dragon's mouth curved into a smirk, revealing a mysterious smile.

His goal was achieved as long as Li Mingwu did not appear; Lin Jing would have to be constantly on guard.

In such a case, if a fight broke out between the two later, Lin Jing inevitably could not fully focus.

Then, it would be his opportunity.

An opportunity to defeat Lin Jing effortlessly.

Even though he was confident he could beat Lin Jing, why not take advantage of restricting the opponent's full potential beforehand?

This way, he could dispose of Lin Jing quicker and then figure out how to deal with the Senior Ancestor of the Yan Family, Yan Yujiang.

...

Li Mingwu did not appear, and Lin Jing, looking around, also failed to detect any trace of him,

Even using his Divine Sense to scan the area, there was still no discovery.

Chapter 754: Chapter 333: Dragon Flame_2 Chapter 754: Chapter 333: Dragon Flame_2 Meanwhile, Dragon Daoist on the opposite side exhibited a confident demeanor, causing Lin Jing to frown and ponder.

"If Li Mingwu is indeed nearby, then surely I won't be a match for the two of them,"

"But there is no trace of him in the vicinity, so even if Li Mingwu is around, he must be at some distance,"

"Can I strike now while I have the chance, and eliminate Dragon Daoist first..."

...

...

As Lin Jing was contemplating,

Dragon Daoist, at that moment, suddenly unleashed a Bagua Mirror Magical Treasure.

As soon as the Bagua Mirror was revealed, it shot out a black and a white energy attacking Lin Jing.

Although Lin Jing appeared lost in thought and seemingly unguarded,

He had been stealthily monitoring every move of Dragon Daoist.

As soon as Dragon Daoist made a move, Lin Jing also reacted immediately.

...

Then,

Without a word, Lin Jing immediately took out the Great Dream Ancient Mirror he had prepared beforehand, then channeling his Spiritual Power, he activated the Great Dream Ancient Mirror and shone it towards Dragon Daoist...

The swiftness of Lin Jing's response startled Dragon Daoist.

Seeing that Lin Jing had also summoned a Magical Treasure, though he was unclear about its grade,

He felt a sense of danger.

Hence, Dragon Daoist had no choice but to quickly dodge the light emitted by the Great Dream Ancient Mirror while trying to direct the black and white energies towards Lin Jing.

Seeing the black and white energies approaching, Lin Jing's response was naturally quick; he burst out at extreme speed.

In an instant, Lin Jing disappeared from his spot.

The next moment, Lin Jing's figure appeared, unexpectedly right in front of Dragon Daoist.

Lin Jing charging forward was indeed beyond Dragon Daoist's expectations.

Dragon Daoist wanted to evade, but it was too late.

Because Lin Jing's Great Dream Ancient Mirror had already enveloped Dragon Daoist.

Encased by the Great Dream Ancient Mirror, Dragon Daoist's entire demeanor relaxed, and a struggle flashed through his eyes at first.

However, this struggle did not last long “ not even a breath “ before Dragon Daoist’s eyes began to look bemused.

Meanwhile, the Bagua Mirror Magical Treasure he had employed also ceased its attack, merely floating quietly there.

The Great Dream Ancient Mirror truly lived up to its name of a Daoist Treasure-standard Magical Treasure; even someone as strong as Dragon Daoist was now compelled into a dream state.

Although Dragon Daoist had fallen into a dream, Lin Jing dared not let his guard down,

Knowing that Dragon Daoist would likely awaken soon,

Thus, after forcing Dragon Daoist into a forceful dream,

The next moment, Lin Jing immediately activated his Soul Spirit power, simultaneously collating the Five Elements Power, and then formed a Domain around his body.

Divine Arts, Five Elements Domain.

In order to resolve Dragon Daoist quickly, Lin Jing went all out, not only using the Great Dream Ancient Mirror but also employing the Five Elements Domain.

As the Five Elements Domain expanded, it swiftly spread around Lin Jing and soon enveloped Dragon Daoist as well.

It was at this moment that Dragon Daoist suddenly awoke.

Upon waking, Dragon Daoist immediately realized that he had been bound by the surrounding Spiritual Power,

Even the attempt to mobilize his own Spiritual Power became extremely difficult.

Startled, Dragon Daoist quickly looked around and upon understanding the scene before him, he burst out in a cold sweat and exclaimed,

“This is...”

“A Domain-type Divine Art!”

Realizing what was happening, Dragon Daoist quickly tried to consolidate his internal Spiritual Power to counter the Domain formed by Lin Jing.

However,

Within Lin Jing's Domain, the resistance offered by Dragon Daoist was severely limited.

Moreover, since Lin Jing had already successfully bound him, he did not hold back any mercy.

Next,

Lin Jing immediately amassed several streams of Five-Colored Aurora, attacking Dragon Daoist.

Simultaneously, Lin Jing moved directly in front of Dragon Daoist and then threw a punch...

"Boom!"

Lin Jing's punch burst forth.

Dragon Daoist, despite being on guard, could not mobilize his internal Spiritual Power due to the Domain and the restraint from the Five-Colored Aurora.

Just like that, Lin Jing's punch landed squarely on Dragon Daoist's Dantian.

Suddenly, an immense force of the Five Elements surged through Lin Jing's fist into Dragon Daoist's body, which couldn't withstand and shattered instantly.

Even though the body of a Divinity Transformation Cultivator could be destroyed, as long as the Soul Spirit remained uninjured, there wouldn't be a problem.

Simultaneously, feeling the crisis himself, Dragon Daoist also realized his predicament; within Lin Jing's Domain, trying to use Spells became exceedingly difficult.

Trying to defeat Lin Jing using Spells was undoubtedly a fool's dream.

Thus, without any hesitation, Dragon Daoist immediately gathered his Soul Spirit Power and surged towards Lin Jing's sea of consciousness.

He tried to use his Soul Spirit Power to attack Lin Jing's Soul Spirit directly.

However,

Dragon Daoist did not know that Lin Jing had consumed a large amount of Jade Soul Algae and had also cultivated in the Dao Transformation Divinity Technique.

His Soul Spirit was incredibly formidable, even comparable to the Divinity Transformation Peak.

When Dragon Daoist's Soul Spirit Power struck Lin Jing's sea of consciousness, he immediately sensed something was wrong.

Logically speaking, Lin Jing needed to utilize his Soul Spirit Power to maintain his domain.

Thus, at this time, his sea of consciousness' Soul Spirit Power should certainly have been extremely fragile.

Unexpectedly, the Soul Spirit Power within Lin Jing's sea of consciousness was even more formidable than his own.

novG0.c0

At that moment, Dragon Daoist felt an ominous premonition.

He immediately tried to control his Soul Spirit Power to escape.

Unexpectedly, Lin Jing's Soul Spirit directly pounced on him.

His body already destroyed, and with Lin Jing's Divine Sense Power also extremely formidable, Dragon Daoist was thoroughly panicked at this time.

"Don't...

don't kill me..."

Dragon Daoist attempted to communicate with Lin Jing.

However, Lin Jing turned a deaf ear and continued to stimulate his Soul Power, trying to erase Dragon Daoist's Soul Spirit.

Dragon Daoist quickly spoke,

"Li Mingwu is not here, if you do not kill me, I will tell you Li Mingwu's real purpose."

Upon hearing this, Lin Jing not only didn't stop but accelerated the erasing speed.

Until the end, seeing that Lin Jing was unmoved, Dragon Daoist knew his own demise was certain and no longer spoke.

All the way until his Soul Spirit was immensely weak and became extremely faint, as if it could dissipate at any moment.

It was only then that Lin Jing finally stopped.

Afterward, Lin Jing finally asked Dragon Daoist,

“Speak, you can now talk about Li Mingwu’s matter.”

However,

At this time, Dragon Daoist was immensely weak, seeming as if a gust of wind could disperse him, his Soul Spirit so weakened that even if Lin Jing did not actively kill him, he would not live much longer.

The Spiritual Body formed from his Soul Spirit suddenly seemed to have a revelation as he looked at Lin Jing and slowly spoke:

“My name is Long Yan...”

“Right from birth, I encountered a great Divine Art practitioner who helped deduce my destiny, and I found out that in this life, I was destined to be overcome by fire and would not end well.”

“In order to change my own fate, I hesitated not to come to True Dragon Island and sealed my name as Dragon Daoist, all to change my destiny.”

“Originally, I thought I could avoid it.”

“But unexpectedly, it still came to pass in the end.”

After hearing this, Lin Jing fell silent, and didn’t speak.

Meanwhile, the Spiritual Body formed from Dragon Daoist’s Soul Spirit, looking at Lin Jing, continued:

“Even if you kill me, it won’t help.”

“Li Mingwu did not come to this Fire Element Realm, he stayed in the Water Element Realm.”

“I think the next time he appears, he should be at the Solidifying Body Realm.”

“By then, neither you nor Yan Yujiang will be his match.”

Hearing this, Lin Jing frowned,

“He doesn’t have the Metallic Attribute Five Elements True Spirit, so how could he advance to the Solidifying Body Realm?”

Upon hearing this, Dragon Daoist suddenly realized something and turned to look at Lin Jing, saying,

“Was it you who took away the Metallic Attribute Five Elements True Spirit in the Metal Realm?”

Dragon Daoist, now posing no threat, Lin Jing nodded and said:

“Correct!”

“It was indeed I who took it.”

“No wonder, we thought it was swallowed by the Golden Turtle...”

“I didn’t expect it to be you.”

“It seems we have always underestimated you; you had planned so deeply.”

“I was merely protecting myself,” Lin Jing said.

Dragon Daoist fell silent, and then looking at Lin Jing, he continued:

“Li Mingwu stayed in the Water Element Realm for Bai Yi; he wants to snatch the Metallic Attribute Five Elements True Spirit from Bai Yi.”

“If he does so, he certainly has great confidence.”

“When he advances to the Solidifying Body Realm, just in time for the next appearance of Soul Tomb, he will definitely make a comeback, and by then, nobody can stop Li Mingwu at the Solidifying Body Realm...”

Chapter 755: Chapter 334: Obtaining the Blazing Marrow Spirit, Entering the Earth Realm of the Five Elements Chapter 755: Chapter 334: Obtaining the Blazing Marrow Spirit, Entering the Earth Realm of the Five Elements Dragon Daoist had died.

After speaking with Lin Jing, his already fragile Soul Spirit could no longer hold on and directly dissipated in the Fire Element Realm.

At the last moment before his dissipation, he harbored no resentment towards Lin Jing.

He simply said that it was his destiny.

After the Dragon Daoist had dissipated, Lin Jing collected the Magical Treasure and Space Ring left by him and then left the area.

After leaving, Lin Jing quickly flew towards the direction of the volcano.

However, just as Lin Jing had approached near the volcano, he spotted the Yan Family's ancestor rapidly flying towards him.

...

Behind the Yan Family's ancestor, the Molten Python roared, continuously spewing molten lava towards the Yan Family's ancestor.

Simultaneously, it slithered like a snake, snaking its way across the ground and rapidly closing the distance to the Yan Family's ancestor; it seemed to be chasing him.

Seeing Lin Jing, the Yan Family's ancestor was surprised at first, then quickly said to Lin Jing,

"Run with me, don't worry about that big fellow."

The aura from the Molten Python behind them was extremely frantic; even though they were still a good distance away, Lin Jing could feel the terrifying aura.

If they were to fight with the python in its enraged state now, they would not stand a good chance.

Lin Jing didn't know what had provoked the python, causing such rage.

Although confused, Lin Jing understood what was important.

So,

as soon as the Yan Family's ancestor finished speaking, Lin Jing immediately turned around and fled with the Yan Family's ancestor.

"Senior..."

"What's going on?"

The Yan Family's ancestor replied,

"I managed to obtain the Fire Attribute Spirit, that's why that big fellow is relentlessly pursuing me."

Hearing that the Fire Attribute Spirit had been obtained, Lin Jing couldn't help but be surprised.

Dragon Daoist had acted earlier, breaking the Formation, and Lin Jing had thought this attempt might fail.

But unexpectedly, the Yan Family's ancestor had succeeded.

The Yan Family's ancestor seemed to notice Lin Jing's confusion and quickly said,

"Now is not the time to talk.

After we shake off that big guy, I'll explain to you."

Lin Jing nodded his head.

Then, both of them continued to flee together.

...

...

This chase continued for two days until, finally, the two burst into speed and temporarily shook off the Molten Python.

Only then did they find the chance to conceal their forms and evade the python's pursuit.

Although the Molten Python was of a high rank,

it was not particularly fast, otherwise, Lin Jing and the Yan Family's ancestor would have had to confront it directly.

After the two hid, the Molten Python, having lost their trail, searched the vicinity back and forth for a long time.

The Fire Attribute Spirit was almost considered its own possession, but it had not expected anyone to dare to target it.

Naturally unwilling to give up, the Molten Python searched for quite a while more.

Until much later, it completely failed to sense Lin Jing and the Yan Family's ancestor's aura and reluctantly returned.

After the Molten Python had left, the two breathed a sigh of relief and then came out from the rocks where they were hiding.

Upon emerging, the Yan Family's ancestor took out a fiery red and transparent crystal from his Space Ring and handed it to Lin Jing.

The crystal was transparent, but inside it was a fiery red flame.

Although the flame was within the crystal, Lin Jing could feel the terrifying temperature emanating from it.

Novgo.co

As he handed it over, the Yan Family's ancestor said directly,

"Here!"

"You're cultivating the Divine Fire Triple Realm; this item will help you upgrade the Divine Fire Triple Realm."

Looking at the crystal from the Yan Family's ancestor and recalling what he had just said, Lin Jing couldn't help but think of a unique and extremely rare type of crystal, then he couldn't help but ask,

"Is this the Blazing Marrow Spirit?"

The Yan Family's ancestor nodded and said,

"Yes!"

"This is the Blazing Marrow Spirit."

"I found it beneath the Fire Attribute Spirit when I was taking it."

"Seeing that you're cultivating the Divine Fire Triple Realm, this Blazing Marrow Spirit is the perfect gift for you, to help you cultivate the third stage of the Divine Fire Triple Realm."

On hearing this, Lin Jing was also delighted.

He had previously only heard of the Blazing Marrow Spirit.

Knowing that it was incredibly difficult to find, otherwise, with so many cultivators practicing the Divine Fire Triple Realm in the Demonic Monster Sea, someone would have already reached the third stage.

Now that he had encountered it here, one couldn't but say his luck was truly good.

Lin Jing didn't hold back and promptly took the Blazing Marrow Spirit and stored it away.

Now that he had the Blazing Marrow Spirit, once he had the time, he could refine it to raise his Divine Fire Triple Realm to the third stage.

Lin Jing had heard that the third stage of the Divine Fire Triple Realm was extremely powerful.

But due to the rarity of the Blazing Marrow Spirit, it had been over a thousand years since anyone had cultivated to this stage of the Divine Fire Triple Realm.

Now that he had obtained the Blazing Marrow Spirit, Lin Jing was determined to cultivate it and see,

just how powerful the third stage of the Divine Fire Triple Realm could be...

...

After storing away the Blazing Marrow Spirit, Lin Jing then started to converse with the Yan Family's ancestor.

Lin Jing first mentioned the matter regarding Dragon Daoist, and then, he also relayed some information about Li Mingwu that Dragon Daoist had mentioned to the Yan Family's ancestor.

After listening, aside from being a bit surprised by Lin Jing's strength,

the Yan Family's ancestor did not seem to care much about Li Mingwu, and even offered some words of comfort to Lin Jing.

Currently, Li Mingwu was trapped in the Water Element Realm and couldn't come out immediately.

Having obtained the Fire Attribute Spirit, the Yan Family's ancestor, after its refinement, would also soon reach the Solidifying Body stage.

Chapter 756: Chapter 334: Obtaining the Blazing Marrow Spirit, Entering the Earth Realm of the Five Elements_2 Chapter 756: Chapter 334: Obtaining the Blazing Marrow Spirit, Entering the Earth Realm of the Five Elements_2 By that time, as a cultivator who had achieved Solidifying Body, the ancestor of the Yan Family was not afraid of Li Mingwu, and as for the words said by Dragon Daoist earlier, it was best to ignore them.

After their conversation, they went to search for the Changyun Yuanlei together.

Previously, for the safety of the Changyun Yuanlei, they had not brought him along for this mission but had placed him in a safe location.

Now, the Fire Attribute Five Elements True Spirit was already in hand.

And they also got Lin Jing a piece of Blazing Marrow Spirit, which could definitely be described as a huge harvest.

Now that there was nothing left in the Five Elements Fire Realm worth waiting for, it was naturally time to leave.

Careful not to disturb that Molten Python, Lin Jing and the Yan Family ancestor were very cautious when they returned to the central area of the Fire Realm.

...

After crossing the center of the Fire Realm and arriving at the southern edge of the Fire Realm, the two finally met up with Changyun Yuanlei.

The exit of the Five Elements Fire Realm was at the very south.

After the three of them met up, they immediately flew southward.

...

As they were bringing Changyun Yuanlei with them, their pace was somewhat slower.

It took more than half a month for them to fly to the extreme southern part of the Fire Realm.

The Five Elements Fire Realm was not like the Water Realm, where fog was everywhere; without the obstruction of fog, their vision was not affected.

Upon reaching the southernmost part of the Fire Realm, the three of them saw the five differently colored, sky-reaching beams of the Teleportation Array.

Afterward.

The three immediately accelerated and flew towards the direction of the light beams.

Soon after, they arrived near the light beams, and then they descended from the sky, landing right beside the light beams.

Standing before the light beams, Lin Jing couldn't help but feel a wave of emotion.

This journey through the Five Elements Ruins was finally reaching a critical moment.

The last of the Five Elements Earth Realm not only had the exit to leave the Five Elements Ruins, but the entrance to the ultimate Five Elements Territory was also within this Earth Realm.

Lin Jing's most important goal for this trip was to enter the ultimate Five Elements Territory and obtain the subsequent Cultivation Technique of the Immortal Five Elements Technique.

As for Changyun Yuanlei, they had already agreed that the first thing upon entering the Five Elements Earth Realm would be to help Changyun Yuanlei leave.

After all, with Changyun Yuanlei's level of cultivation, it was still too dangerous for him here.

After his reflection, Lin Jing turned and said to Changyun Yuanlei:

"Inside the Five Elements Earth Realm, there is a Teleportation Array that can lead directly out of the Five Elements Ruins.

Once we get to the Earth Realm and meet up, we'll help you leave first."

Excited at the prospect of finally being able to leave, Changyun Yuanlei nodded again and again:

"Thank you, Brother!"

"If it hadn't been for you and the elder of the Yan Family, I would probably have spent my whole life trapped in the Sea of Strange."

Lin Jing waved his hand, indicating that it was unnecessary.

At this time, the Yan Family ancestor also directly spoke to Lin Jing:

"After entering this final Five Elements Earth Realm, I don't intend to explore any further."

"Now that I have obtained the Fire Attribute Five Elements True Spirit, I plan to refine this Five Elements True Spirit and then make a push for Solidifying Body."

"As for that final Five Elements Territory, it is the place where the legacy of your Five Elements Cultivation Technique lies, so you may go on your own."

After saying this, the Yan Family ancestor continued:

"But don't worry, I won't leave for the time being."

"After you finish receiving the legacy in the final Five Elements Territory, I will leave with you."

"Alright..." Lin Jing nodded.

Afterward.

Without too much delay, after their talk, they arrived at the Teleportation Array corresponding to their Tokens.

Upon entering the Teleportation Array, it immediately responded to the Tokens in their hands.

The light beam of the Teleportation Array then emitted a dazzling light.

Suddenly, the Teleportation Array began to operate, and directly transported Lin Jing and the others away.

...

...

The Five Elements Earth Realm was a desert filled with yellow sand that stretched to the horizon; other than the golden sand strewn across the land, only the raging winds filled the sky.

As soon as Lin Jing was teleported in, he landed in the scorching desert with the sun blazing down, and the sand that had been scorched by the sun was extremely hot to the touch.

Standing atop one of the sand dunes, Lin Jing looked out into the distance; the horizon was endless, making it impossible to discern his position.

After observing for a while, Lin Jing rose into the air and flew forward.

The first primary task upon arriving in the Five Elements Earth Realm, naturally, was also to determine his position.

However, within this endless desert, with no landmarks to reference, distinguishing directions became exceptionally difficult.

Fortunately, although there were no landmarks on the ground, that scorching sun in the sky could still serve as a guidepost to direct their way.

This Earth Realm of the Five Elements was different from other places.

The teleportation point here was located at the center of the Earth Realm, and naturally, that was also their destination.

There should be a powerful mythical beast in that location, just like in the other realms.

Therefore, teleporting within the Earth Realm was likely to be the most dangerous.

Even if they wanted to teleport away, they would first need to find a way to lure the beast away.

Fortunately, they already had experience dealing with mythical beasts, so this was not a concern.

Luring the mythical beast away so that Changyun Yuanlei could teleport out was something they were still capable of doing.

...

Within the Earth Realm of the Five Elements, Lin Jing flew in one direction for several consecutive days.

After flying for five or six days, Lin Jing finally noticed some slight changes in the surrounding environment.

Although it was still a desert, the temperature here seemed much lower than before, and the Earth Attribute Spiritual Energy was also somewhat more sparse.

Beyond that...

Lin Jing also discovered some strangely-shaped rocks that had been weathered by the wind, in addition to the desert.

Seeing these, Lin Jing immediately understood.

He seemed to be getting further and further away from the core area of the Earth Realm.

As a result,

Lin Jing immediately changed direction and flew towards the way he had come.

This time, after flying through the desert for nearly a month, he finally arrived at the central area of the Earth Realm of the Five Elements.

The winds and sands were still fierce here, and the Earth Attribute Spiritual Energy was much richer.

After arriving, Lin Jing took out the Jade Token given to him by the elder of the Yan Family and then channeled his Spiritual Power into it.

The Jade Token flickered with light before extinguishing.

A moment later, the light of the Jade Token flickered again.

Clearly, the elder of the Yan Family had received Lin Jing's message.

Upon seeing the message, Lin Jing felt at ease.

Then he continued to fly towards the central area of the Earth Realm.

The journey was entirely calm.

Since entering the Earth Realm of the Five Elements, Lin Jing had not yet been attacked by any mythical beast.

Of course, occasional sandstorms that blotted out the sky would arise, but even those were hardly a danger to Lin Jing.

This made Lin Jing wonder if there really were no other mythical beasts in the Earth Realm of the Five Elements.

Even though he had not encountered any attacks, Lin Jing remained vigilant.

In this manner, he moved cautiously while observing, heading towards the core area of the Earth Realm of the Five Elements.

Soon,

another day went by.

Lin Jing was nearing the core area of the Earth Realm and had still not encountered any attacks by mythical beasts.

He even used Observation Mode to closely scrutinize the area but did not spot any mythical beasts.

With no mythical beasts in sight, Lin Jing was somewhat relieved and continued onward.

This time, in just half a day,

Lin Jing met up again with the elder of the Yan Family and Changyun Yuanlei.

The Yan Family elder had found Changyun Yuanlei first, then came here to join Lin Jing.

After the three of them united, Lin Jing asked about their situations.

After inquiring, he learned that neither of them had encountered any mythical beasts either.

No mythical beasts, not even any other danger.

This only increased Lin Jing's puzzlement about the Earth Realm of the Five Elements.

Could it be that there really were no dangers in this realm?

Because of this, Lin Jing and the Yan Family elder discussed the situation further.

However, despite their discussion, they could not come to any conclusive results.

After discussing, the three of them continued forward.

Only this time, both of them were very cautious.

novGo.co

After all, the more abnormal the situation, the more they could not afford to be careless.

After another full day, the three of them finally arrived in the very center of the Earth Realm, the core area.

And those several light pillars then entered the trio's vision...

Chapter 757: Chapter 335 Five Elements Territory Chapter 757: Chapter 335 Five Elements Territory Upon seeing the teleportation light pillar, the three of them exchanged glances before continuing to walk toward the direction of the teleportation light pillar.

Just like that.

The three of them arrived at the teleportation light pillar without any incident.

At this time, before their eyes, five Teleportation Formations were laid out in the shape of a pentagram, each at the corners.

In the middle, there was another massive Formation emitting multicolored light.

The surrounding five differently colored Formations were the teleportation arrays for leaving the Five Elements Ruins.

Similar to the Formations in other realms, one could leave the Five Elements Ruins by using the Five Elements Command Token.

...

The one in the middle emitting multicolored light was the Formation that led to the last layer of the Five Elements Ruins, the Five Elements Territory.

This last layer's Formation also required the Five Elements Command Token to activate.

Looking at the Formations in front of him, Lin Jing couldn't help but wonder,

"We came here without encountering any danger, which is really strange and unusual."

The Yan Family ancestor looked around and nodded in agreement.

"Indeed, something doesn't quite feel right!"

Changyun Yuanlei then spoke:

"Elder, Brother..."

"I also feel that something is amiss here, as if there's a particularly terrifying danger nearby."

After speaking, Changyun Yuanlei turned to Lin Jing and said:

"My supernatural perception is different from ordinary people, as I have mentioned before, and you, Brother, should also be aware of it."

"I feel that the danger is nearby."

Lin Jing nodded upon hearing this.

Changyun Yuanlei had indeed said that his perception was different from ordinary people, often allowing him to sense danger in advance.

This was also one of the reasons why he had never faced any disasters in the Water Element Realm.

Otherwise, with his inherently unlucky constitution, he would have likely died at the hands of or fins of Sea Beasts or other Cultivators long ago.

Lin Jing wanted to say something else after listening,

but just then, he heard the crazy alerts of the System:

"Warning!"

&"Someone extremely dangerous has entered the alert range and is rapidly approaching, please prepare the host for timely response."

...

"Warning!"

"Someone extremely dangerous has entered the alert range and is rapidly approaching, please prepare the host for timely response."

...

"Warning!"

"Someone extremely dangerous has entered the alert range and is rapidly approaching, please prepare the host for timely response."

...

...

The sudden alerts from the System shocked Lin Jing.

He then hurriedly scanned his surroundings, but found nothing.

However, just at that moment,

the ground under their feet suddenly started making a thunderous rumble, followed by endless gravel beginning to bounce incessantly.

At this point, not just Lin Jing, the other two also sensed the anomaly.

The Yan Family ancestor immediately activated his Spiritual Power in preparation.

The System's alerts had never been this frantic, clearly indicating that the danger was beyond their capability.

Lin Jing quickly said to the Yan Family ancestor:

"Elder, quickly..."

"Start the teleportation array, we must leave now."

No sooner had Lin Jing spoken than a terrifyingly formidable aura arrived.

It was then that Lin Jing looked towards the distance and saw the originally flat desert around them begin to rise.

He then looked around again and noticed it was not just in front of them.

Even the dunes behind and on either side were also continuously rising.

It seemed as though the whole sandy realm of the Five Elements Earth Realm was piling up like ocean waves about to engulf the three of them.

Only the ground near the three of them remained still.

Seeing this, even the Yan Family ancestor couldn't stay calm anymore.

"Quick..."

"We need to leave now."

Although the danger had not yet manifested, the terrifying aura emanating from it let them know.

It was definitely beyond their capability to handle.

The three of them then hurriedly approached the teleportation array, with the Yan Family ancestor and Changyun Yuanlei directly entering the teleportation array corresponding to their respective command tokens.

Lin Jing entered the middle array, emitting multicolored light.

As the three of them entered the teleportation array, the rising sand dune walls around them grew taller and even began to obscure the sky.

The sand from those dunes also continuously poured down towards their location.

However,

the location where they had just been, that sand unexpectedly continued to sink.

Despite the countless sand pouring around, the sand still did not submerge Lin Jing and the others.

It seemed as if there was a bottomless pit under their feet.

Simultaneously, the three felt the terrifying aura growing increasingly stronger.

They did not hesitate and activated the teleportation array at once.

Upon activation, the three teleportation arrays instantly emitted a dazzling light, which enveloped the three of them and then lifted them up with the teleportation light.

During the time they were rising with the teleportation array, the sand forming the high walls continued to pour, and slowly the contents inside began to reveal itself.

After the falling sand, a 'wall' appeared.

This wall was covered with huge spikes, densely packed, too numerous to count.

NovGo.co

And, this wasn't just one side of the wall.

But rather, it was cylindrical, encasing Lin Jing and the others entirely.

Just as Lin Jing was puzzled about why this wall had suddenly appeared, suddenly below their original location, that endless sand also fell through.

Below, still were those dense, numerous spikes.

Further down was the endless dark abyss.

As Lin Jing gazed down into the abyss, suddenly, a strange beast flew out from the dark depths below.

This strange beast, several zhang long, resembled a worm, and although it had no wings, it could navigate through the void.

Chapter 758: Chapter 335 Five Elements Territory_2 Chapter 758: Chapter 335 Five Elements Territory_2 “

Soon.

The Worm Beast arrived next to Lin Jing.

Upon its arrival, without uttering a word, it charged directly at the teleportation light column where Lin Jing was located.

However.

The Teleportation Array had been activated, and the entire light column was protected by a Formation.

No matter how fiercely the Worm Beast collided with it, it could not disturb the teleportation light column.

Seeing that it could not affect the light column, the Worm Beast became very angry.

...

It opened its huge mouth and let out a shrill, piercing screech.

It was at this moment, Lin Jing noticed.

The creature's mouth was lined with rows of spikes, extending deep into its body.

Witnessing this scene, Lin Jing immediately understood.

And then, with disbelief, he watched as high walls, covered in spikes and bursting forth from the sand, started closing in from all sides.

The spikes on these high walls were identical to those Lin Jing had seen within the maw of the Worm Beast.

This meant that they were, at that moment, inside the mouth of a monstrosity.

How long the beast was, Lin Jing did not know.

But its mouth was vast enough to swallow a large Immortal City.

From this, it was apparent that the creature was at least hundreds of thousands of zhang in length.

Such a massive beast must surely possess an outrageously high level of cultivation.

No wonder, the System had been frantically alerting them earlier.

At that time.

Lin Jing and the others were in the Teleportation Array, and now, the surrounding sand had all fallen into the giant maw of the beast.

Revealing below, a gigantic white boulder.

And the Teleportation Array where they stood was right on top of this boulder.

Lin Jing had never seen such a white boulder before, but although it was unsupported by the sand beneath, it still hovered in the beast's mouth, clearly no ordinary rock.

Then, the teleportation light column shone ever brighter, and the spiky walls around them began to rapidly close in.

Certainly, the beast seemed unwilling to let Lin Jing and his companions escape and was preparing to crush them.

Although the Teleportation Array could withstand the smaller Worm Beast, Lin Jing was not sure it could withstand the swallowing might of a beast large enough to consume an Immortal City.

Soon.

The sky above them began to darken.

The gargantuan jaws of the beast closed, and Lin Jing and his companions were fully engulfed within.

And at that very moment, the teleportation light column became even more luminous as the teleportation force was fully activated.

Knowing he was about to be separated from Lin Jing, Changyun Yuanlei hurriedly spoke to Lin Jing,

“Big brother...”

“If one day, you go to the Inner Sea, you must come find me...”

But before Changyun Yuanlei could finish, the teleportation power was triggered.

Subsequently, Lin Jing and the others were teleported away.

...

After parting from the Yan Family patriarch and Changyun Yuanlei, Lin Jing was transported to a valley.

Upon entering, he immediately felt exhilarated, surrounded by an extremely dense Five Elements Power.

Such rich Five Elements Power, perfectly compatible with his cultivation of the Immortal Five Elements Technique, made Lin Jing feel very comfortable and pleased in this Five Elements Territory.

Afterwards.

Lin Jing surveyed his surroundings and saw the situation clearly.

Having been teleported in, he found himself right above a Teleportation Array, which was situated right at the very center of the valley.

The valley was enclosed by towering mountains, behind which was mist emitting rainbow-colored light, concealing whatever lay beyond.

Above the valley floated colorful clouds of Spiritual Energy in the sky.

The only anomaly was a gigantic statue of the Five Elements Ancestor in front of Lin Jing.

This statue was identical to the one he had encountered in the main hall of the Five Elements Cave Mansion.

However, this statue was an enlarged version of the one in the Five Elements main hall.

Sitting atop the mountain range in front of Lin Jing, it soared nearly ten thousand zhang high, its head almost piercing the colorful clouds in the sky.

Seeing such an immense statue, Lin Jing immediately realized that this must be the destination of his journey.

Then.

Without further delay, Lin Jing began walking towards the statue.

In this valley, Lin Jing sensed no danger; therefore, his pace was naturally quite swift.

“”

Although the valley was not small, Lin Jing traversed it swiftly and arrived at the base of the statue.

Approaching the statue, Lin Jing felt an incredibly rich five elements power above his head.

Lin Jing looked up, gazing above.

That place was right where the statue's overlapping hands were.

Previously in the Five-Element Divine Temple, it was in the hands of the statue that Lin Jing had obtained a Five Elements Treasure Orb.

And that Five Elements Treasure Orb was still inside Lin Jing's Space Ring.

Thinking of this, Lin Jing stepped directly into the void and then flew towards the statue's overlapping hands.

Soon.

Lin Jing arrived beside the statue's hands.

Standing there, Lin Jing looked inside.

He saw the palm covered by a WÇ" CÇŽi light barrier, which Lin Jing found extremely familiar.

N0vGo.co

It was identical to the light barrier that enveloped the high platform in the Five-Element Divine Temple before.

However, apart from the familiar WÇ" CÇŽi light barrier, there was another formation that concealed everything tightly inside.

Lin Jing couldn't even see what was inside this light barrier.

To be on the safe side, Lin Jing decided to try to open the light barrier first.

Afterward.

Lin Jing stepped forward, reaching out to touch the light barrier while channeling the Five Elements Power.

Once he confirmed that the light barrier was identical to the one in the Five-Element Divine Temple, Lin Jing then took out the Five Elements Treasure Orb from the Space Ring.

Then, he held the Five Elements Treasure Orb in front of him and channeled the Immortal Five Elements Technique, concentrating the Five Elements Power and transmitting it through the orb onto the light barrier.

To break the light barrier, there was only this one way.

The statue was immensely huge, and its palms were also quite large.

Accordingly, the light barrier covering the area was much larger, and to open this light barrier required a lot more effort.

This time, Lin Jing spent two days and eventually thinned the WÇ" CÇŽi light barrier until it was about to give way.

Seeing the timing was ripe, Lin Jing then took a couple of steps back.

He then gathered the Five Elements Power again, channeling it through the orb into the light barrier before him.

Just like the last straw that broke the camel's back, the final bit of spiritual power that entered caused the entire light barrier to collapse.

As the light barrier fell apart, the formation that had been concealing it also seemed to lose its effect, starting to disintegrate.

Within less than half an hour, the entire light barrier completely dissipated, and the formation, apparently due to the loss of support from the light barrier, dissipated on its own.

After the formation faded, Lin Jing finally saw the scene inside.

A small courtyard, a big tree, and a thatched hut, plus the Spirit Fields that were partially concealed by the formation outside.

That was all within the palm.

The courtyard was enclosed by bamboo fences, surrounded by long-abandoned Spirit Fields.

However, one of the Spirit Fields was covered by a formation, hiding any view of the inside.

Inside the courtyard was a large tree and a thatched hut.

The thatched hut wasn't anything special; it resembled the one Lin Jing had lived in when he worked as a Spirit Farmer for the Qingyuan Sword Sect.

It even looked more dilapidated compared to that thatched hut.

Only the big tree next to the hut made Lin Jing pause in awe.

Because that big tree was a Five Elements Spirit Tree.

It was the very Five Elements Spirit Tree Lin Jing had seen on Immortal Crossing Island.

This Five Elements Spirit Tree was now lush and thriving, although the Five-Star Spirit Fruits had yet to appear on it.

Seeing this Five Elements Spirit Tree, Lin Jing knew this place was no ordinary location.

Now that the WÇ” CÇŽi light barrier had been opened, and the aura of the Five Elements Spirit Tree had escaped from inside,

But Lin Jing still did not act recklessly.

Instead, he extended his Divine Sense directly into the area to explore.

After probing with Divine Sense, Lin Jing thoroughly surveyed the place.

Apart from the inside of the thatched hut and the Spirit Field concealed by the formation, Lin Jing couldn't detect anything else.

The other areas were laid bare under the investigation of Lin Jing's Divine Sense.

No danger was found.

Seeing no immediate danger, Lin Jing steadied his mind, looked towards the thatched hut in front, and then walked towards it.

All the way there, he made his way unhurriedly through the long-abandoned Spirit Fields to the small courtyard in front.

But just as Lin Jing stepped into the courtyard, a voice came:

“You've finally arrived.

I've been waiting for you for a long time.”

Chapter 759: Chapter 336: The Legacy of the Five Elements Ancestor Chapter 759: Chapter 336: The Legacy of the Five Elements Ancestor Hearing this voice, Lin Jing was at first stunned.

Then he stood directly at the entrance to the yard, no longer moving forward, all the while remaining cautiously alert.

No matter what, he hadn't expected that there would still be someone in this small courtyard.

As Lin Jing remained on guard, that voice came again:

“You needn't be afraid, I am merely a Divine Sense left behind, specially meant to assist you in obtaining the legacy of the Five Elements Ancestor, and I will not harm you.”

“Besides, I am just a Divine Sense, without any power, I can't even open this door, let alone harm you.”

Hearing these words, Lin Jing stared intently at the thatched cottage before him.

The cottage could not be probed with Divine Sense, so Lin Jing naturally could not inspect the specific situation inside.

After pondering for a moment, Lin Jing decided to go forward and try.

At the same time, he was prepared.

...

If he found anything amiss, he would immediately enter the Dao System Space.

After thinking it over, Lin Jing stepped forward slowly, walking toward the thatched hut in the courtyard.

Upon reaching the front of the hut, Lin Jing paused for a moment, then reached out and placed his hand on the door of the hut.

“Creak...”

With just a gentle push, the door opened in response.

As the door to the hut opened, the inside looked like a completely ordinary room with nothing out of the ordinary.

novGo.co

Lin Jing also saw inside the smiling elder sitting at the table facing him.

This elder, he was identical to the statue.

But he was not a solid entity, rather he was in a state of phantasm.

Seeing the elder, Lin Jing couldn't help but be slightly stunned.

“You...”

“Could it be that you are the Five Elements Ancestor?”

After regaining his composure, Lin Jing spoke and asked the elder.

The elder gave a slight smile and then spoke:

“You could say that, and yet not...”

"I am just a Divine Sense he left behind, merely to help you undergo the test to see if you qualify to obtain the entire legacy of the Five Elements Ancestor."

Upon hearing this, Lin Jing was taken aback.

Then he asked the embodiment of the Five Elements Ancestor:

"To obtain the latter half of the Immortal Five Elements Technique, are qualifications needed as well?"

The embodiment of the Five Elements Ancestor nodded:

"Yes, qualifications are needed, but now..."

As he said this, the Five Elements Ancestor looked at his own body and then let out a sigh:

"Alas..."

"Now, whether these qualifications are needed or not is meaningless."

Lin Jing, puzzled, then bowed and asked the Five Elements Ancestor:

"Senior."

"I am still somewhat confused, would the senior please elaborate."

The Five Elements Ancestor nodded and continued:

"Actually, it is like this..."

"Anyone who enters the Five Elements Territory and cultivates the Immortal Five Elements Technique has the opportunity to receive the legacy left by the Five Elements Ancestor."

"However, to receive the entire legacy, certain conditions are required."

"If the conditions are not met, then one can only obtain the latter half of the Immortal Five Elements Technique and cannot inherit the entire legacy."

Upon hearing this, Lin Jing suddenly understood and then bowed to ask:

"Senior."

"If one wishes to obtain the entire legacy, may I know what conditions are required?"

The Divine Sense of the Five Elements Ancestor then said:

“To receive the entire legacy of the Five Elements Ancestor, one’s Spirit Root Aptitude must reach the level of the Five Elements Heavenly Spirit Root.”

“Five Elements Heavenly Spirit Root!”

Lin Jing couldn’t help but take a sharp intake of breath.

“Is there such a Spirit Root in the world?”

As everyone knows, the Heavenly Spirit Root is the pinnacle of a cultivator’s Spiritual Root, and only mono-elemental Spiritual Roots can reach the level of a Heavenly Spirit Root.

The thought of possessing a Spiritual Root that contained all five elements and simultaneously achieving the terrifying level of a Heavenly Spirit Root was unthinkable.

Lin Jing had indeed never heard of such a person existing.

The Five Elements Ancestor nodded and said:

“Yes!”

“He was born with the Five Elements Heavenly Spirit Root.”

Upon finishing, the Divine Sense of the Five Elements Ancestor looked towards Lin Jing and then said:

“I see that your Spiritual Root has already reached the level of a True Five Elements Spirit Root, right?”

Lin Jing replied:

“I don’t mean to conceal it from the senior...”

“The reason I have attained my current level is actually because I have consumed Elixir Medicine that enhances one’s aptitude.”

The Five Elements Ancestor heard that and nodding slightly:

“That is inevitable.”

“Actually, if one could enhance one’s own Spirit Root Aptitude to the level of the Five Elements Heavenly Spirit Root through other means, that would also be acceptable.”

“After all, such an exceptional aptitude like his is rare, with no one before and likely no one after.”

“Of course, I’m also not sure if, after him, there has been anyone else with such exceptional aptitude.”

“None!”

“A naturally born Five Elements Heavenly Spirit Root Aptitude, I have never heard of it.”

Lin Jing stated emphatically.

After speaking, Lin Jing couldn’t help but look at the Divine Sense of the Five Elements Ancestor and then said:

“Senior.”

“If that’s the case, with my aptitude, I am unable to inherit your entire legacy.”

The Five Elements Ancestor looked toward Lin Jing, then helplessly shook his head:

“Actually...”

“You should have been the most suitable for inheriting his legacy.”

“It’s just a pity that you have arrived far too late.”

Upon hearing this, Lin Jing looked at the Divine Sense of the Five Elements Ancestor, puzzled, and asked:

“What does the senior mean by this?”

The Divine Sense of the Five Elements Ancestor gazed at Lin Jing and explained:

“His legacy is divided into three parts.”

“First, the latter part of the Immortal Five Elements Technique.”

“This latter part was formulated from combining his own Cultivation Technique, with boundless effort, just before his final ascension to immortality.”

“If cultivated to the zenith, one can ascend directly to immortality.”

“Second...”

“Is a Five Elements Golden Core, containing a portion of his own cultivation.

If you refine it, your cultivation can be greatly improved.”

“Especially for you who also cultivate the Immortal Five Elements Technique, refining the Five Elements Golden Core can not only enhance your cultivation but may even increase your understanding of the Five Elements Power.”

Chapter 760: Chapter 336 Legacy of the Five Elements Ancestor_2 Chapter 760: Chapter 336 Legacy of the Five Elements Ancestor_2 “

“This third one...”

“It is a Life-Defying Fruit tree that can enhance one’s Spirit Root Aptitude.”

“That Life-Defying Fruit Tree is in the Spirit Field outside, enveloped by the Formation.”

Lin Jing, upon hearing this, hurriedly turned around to look at the Spirit Field outside.

“Who would have thought, inside that Spirit Field, there’s actually a Life-Defying Fruit Tree growing.”

At this moment, the spiritual thought of the Five Elements Ancestor also looked towards the outside Spirit Field and then spoke:

“Actually, with your current Spirit Root Aptitude, just by consuming one Life-Defying Fruit, you could reach the level of a Five Elements Heavenly Spirit Root.”

“It’s just a pity...”

“Even if I wanted to give you that Life-Defying Fruit, with my current power, I can no longer help you open that Formation.”

“If only you could have come here a hundred thousand years earlier...”

After hearing this, Lin Jing’s face grew more puzzled.

However, before he could ask again, the spiritual thought of the Five Elements Ancestor spoke again, explaining to Lin Jing:

“The inheritance I’ve left here totals three items.”

“Apart from the successive Cultivation Techniques of the Immortal Five Elements Technique, the other two items require opening the Formation to be retrieved.”

“I am but a spiritual thought, yet my power also comes from the main body; the stronger the main body, the stronger my power.”

“Although I haven’t seen him since he ascended to immortality, there has always been a connection between me and the main body.”

“Roughly hundreds of thousands of years ago, I noticed that the main body’s power seemed to be weakening, and correspondingly, my power began to decline as well.”

“Had you arrived a hundred thousand years earlier, with my power, I could have helped you gain all three items of the inheritance.”

“But you have come too late...”

“With my current power, at most I can help you obtain the Five Elements Golden Core, but as for the Life-Defying Fruit, with the remaining strength I have now, I cannot help you get it.”

Lin Jing, taken aback after hearing this, then looked at the spiritual thought of the Five Elements Ancestor with a touch of astonishment and said:

“Elder, do you mean that you want to help me get the inheritance without any qualifications or tests required?”

The spiritual thought of the Five Elements Ancestor slightly nodded:

“Yes!”

“I can feel that something unexpected seems to have happened to the main body; his power is declining continuously.

With the rate of this decline, I fear I won’t last until the next person arrives.”

“So...”

“I plan to pass on all of the inheritances left by the main body to you.”

“After all, you are also a person of the main body’s inheritance, and you have the right to inherit these legacies.

To entrust these to you is also to fulfill my mission.”

Lin Jing, upon hearing these words, fell silent.

The spiritual thought of the Five Elements Ancestor continued:

“I only hope that once you’ve received the inheritance, you will quickly improve your Cultivation after leaving and ascend to the Immortal Realm to find out what has happened to the main body.”

“If possible, please try to help the main body.”

“But if it is unfeasible, then so be it...”

“After all, with your strength, even if you truly ascend to the Immortal Realm, you likely won’t be able to do much.”

“Sigh...”

Having said that, the spiritual thought of the Five Elements Ancestor sighed again.

Although this spiritual thought appeared as a phantom and its body was semi-transparent, Lin Jing could still see the decline in his eyes.

...

N0vGo.co

Looking at the spiritual thought of the Five Elements Ancestor, Lin Jing felt a sense of solemnity, and then he spoke directly:

“Elder, rest assured...”

“If I am fortunate enough to ascend to the Immortal Realm, I will certainly seek out the Elder’s main body and try to help it through this calamity.”

After hearing this, the spiritual thought of the Five Elements Ancestor looked at Lin Jing and nodded with a flicker of relief in his gaze:

“You have my gratitude.”

After he finished speaking, the spiritual thought of the Five Elements Ancestor’s eyes gradually firmed, and then, pointing to a side room of the house, he said to Lin Jing:

“Go inside and bring out the box that’s placed there.”

Lin Jing, hearing this, turned to look towards the side room and then walked towards it.

Upon entering the side room, Lin Jing immediately saw the box of unknown material placed on the table.

The box wasn’t big, but it was enveloped by a layer of WÇ” CÇŽi luminescence.

Then,

Lin Jing directly picked up the box, and the moment he touched the box, the WÇ” CÇŽi luminescence on it flowed, forming a layer of protective power that blocked out Lin Jing’s Spiritual Power from the outside.

Just from this surge of power, Lin Jing knew, despite it being a mere box, the luminescence on the box was something he currently was unable to unravel.

“

Afterward,

Lin Jing, holding the box, came before the Five Elements Ancestor’s divine consciousness.

It wasn’t until Lin Jing returned that the Five Elements Ancestor’s divine consciousness opened its mouth and said,

“Originally, this trivial matter wouldn’t have required your intervention.”

“However, influenced by my physical form, my power has dwindled substantially, and I have begun to fade.

Now, I can’t even lift this box.”

Having finished speaking, the Five Elements Ancestor’s divine consciousness directly addressed Lin Jing,

“Come, watch me...”

Upon hearing this, Lin Jing turned his gaze toward the Five Elements Ancestor’s divine consciousness.

But in the next moment, a five-colored light flickered in the eyes of the Five Elements Ancestor’s divine consciousness, and Lin Jing, who was looking into its eyes, suddenly felt an influx of countless pieces of information pouring into his sea of awareness.

Faced with this vast trove of information, Lin Jing didn’t dare to neglect it and quickly began to absorb it.

As this information flowed in, a voice also entered Lin Jing’s sea of awareness,

“This is the latter half of the Immortal Five Elements Technique.

I am transmitting it into your sea of awareness.

Don’t be distracted, and understand it well.”

“Next...”

“I will help you open that box containing the Five Elements Golden Pill.”

“After the box is opened, my task will also be considered complete, and the remaining power I possess will be utterly exhausted.

At that time, I will dissipate, and you needn't worry, this is my mission...”

“Additionally...”

“Once you awaken, you can directly consume the Five Elements Golden Pill, which will assist you in rapidly advancing your cultivation.”

“Given your current level of cultivation, consuming the Five Elements Golden Pill should bring you within reach of the Dao Integration Stage, if not reaching it entirely.”

“While cultivating, you can do so under the Five Elements Spirit Tree, which will enable you to enter the Solidifying Body stage more quickly.”

“Furthermore, you can also absorb the various Five Elements Spiritual Forces within the entire valley to integrate into your body...”

“After I dissipate, there will no longer be another successor coming to this place.

Everything within this valley will belong to you, and you needn't have any concerns about taking it...”

...

...

The Five Elements Ancestor's divine consciousness kept speaking to Lin Jing, as if making final arrangements.

And although Lin Jing received this information, his sea of awareness was currently completely occupied by a large amount of the Immortal Five Elements Technique.

Lin Jing tried to respond but was unable to do so.

It wasn't until the Five Elements Ancestor had finished making all arrangements that he finally uttered faintly,

“What a pity...”

“If you had arrived a hundred thousand years earlier, I could have helped you obtain the Life-Defying Fruit.”

“Now, even I cannot open the formation that protects the Life-Defying Fruit, and in the future, no one else will come here, nor will anyone be able to take it away...”

“If you had consumed the Life-Defying Fruit first and then the Five Elements Golden Pill, that advancement...”

“Alas...!”

...

...

After absorbing the entire Immortal Five Elements Technique, Lin Jing awoke three days later.

Upon awakening, Lin Jing's first action was to open his eyes and look around in search of the Five Elements Ancestor's divine consciousness.

However,

Lin Jing looked around but did not find the Five Elements Ancestor's divine consciousness; indeed, it had disappeared.

Moreover, on the table, there remained the box that had already been opened.

Inside the box was an elixir emitting a five-colored radiance.

Looking at the brilliantly glowing elixir before him, Lin Jing couldn't help but fall silent.

For opening the box containing the Five Elements Golden Pill, the Five Elements Ancestor's divine consciousness had given its all and ultimately faded away.

Although aware that it was merely divine consciousness left by the Five Elements Ancestor, Lin Jing still couldn't help feeling a sense of loss knowing it had completely dissipated.

After a moment of silence, Lin Jing then got up, picked up the box that contained the Five Elements Golden Pill.

The box, made of some unknown material, had lost its outer light curtain and had become an ordinary-looking box that elicited no reaction from Lin Jing as he held it in his hands.

Afterward,

Lin Jing didn't immediately consume the Five Elements Golden Pill but instead closed the box and stored the pill away.

He clearly remembered the Five Elements Ancestor's divine consciousness's last words.

Now,

His first priority was naturally to take a look at the Life-Defying Fruit.
