

## THREE KINGDOMS: I HAVE A JOB TRANSFER PALACE

### Chapter 10

"Thirty cavalry appeared in Dashan Village and hundreds of Wuhuan cavalry were killed? real or fake?"

"Of course it is true. I saw them driving hundreds of horses back to the mountain village.

Moreover, each war horse is tied with a Wuhuan head."

"That must be true"

"Great, someone finally stood up to deal with these damn aliens"

"Yes, it would be best if all those beasts were dead"

"Dashan Village has such strength, why don't we go and join Dashan Village?"

"Yes, yes, seek refuge in Dashan Village."

The news spread, and the Han people in An County rejoiced.

And those survivors who had their villages wiped out went to Dashan Village in groups.

Their homes were gone and they had nowhere to go.

Now there are killings in Dashan Village The strength of hundreds of Wuhuan cavalry was their best hope for revenge and survival.

Of course, Liu Feng didn't know all this. At this time, he was inspecting the city wall.

With the help of the Overlord's cavalry, the construction speed of the city wall was greatly increased.

It was completed in one day.

The city wall stretched across the open space in front of the village, ten feet long and two feet high.

A horse surface with a width of ten feet was built every one foot.

The so-called horse surface means that every other section of the city wall protrudes. It is a rectangular pier.

Because it looks like a horse's face from a distance, it is commonly known as a horse's face. The horse's face appears to interact with the city wall, eliminate blind spots under the city, and attack the enemy from three sides from top to bottom.

Its general width is three feet to six feet, protruding from the outer surface of the wall by more than two feet to more than three feet.

The distance is from six feet to 75 feet, usually about 21 feet.

But Dashan Village is too small, and this section of the city wall is only ten feet long in total.

Therefore, the distance is One foot, the width of the horse's face is also one foot, and it protrudes two feet from the outer surface of the wall.

Outside the city wall, there are heads hanging.

Those are the heads of the Wuhuan cavalry. He wants the foreigners to know the consequences of bullying the Han people.

More We must let the Han people in Anxian and even Liaodong know that there are warriors who dare to kill foreigners in Anxian, Liaodong.

"Lao Fang, the city wall is well built!"

Liu Feng is quite satisfied with the design of this section of the city wall.

Standing on the city wall and looking into the distance, he suddenly felt a sense of heroism.

"Lord, this section of the city wall also has weak attack properties."

Lao Fang, the construction engineer standing next to him, said respectfully.

Liu Feng smiled and said, "Tell me carefully."

He could see Lao Fang's job transfer skill.

But the job transfer skill only said that it could randomly add attributes to the city wall.

As for the specific attributes that could be added, only Lao Fang, who built it, knew best.

Lao Fang straightened up, He said with high spirits: "My lord, as long as we fight within ten feet of this city wall, the enemy army will be weakened by 50% of the attack."

Weaken the attack by 50%?

Liu Feng's eyes lit up. This attribute is really good.

In this way, it is extremely difficult to break through Dashan Village.

Dashan Village is surrounded by mountains on three sides. If you want to attack Dashan Village, you must break through the city. Gate.

If you want to attack the city, you will definitely be attacked by 50% weakened.

The enemy has already lost more than half of the battle before it begins.

"Good, good, very good."

Liu Feng did not hesitate to praise

Lao Fang quickly and respectfully said:"It all depends on the master's cultivation, otherwise I will just be a person waiting to die."

Liu Feng patted Lao Fang on the shoulder and said:"In the future, you will be remembered by the world. You should be remembered again. Build some buildings and you will be able to change jobs for the second time. Come on, try to become a second-level architect as soon as possible."

He checked Lao Fang's attribute panel before and found that after building the city wall, Lao Fang's level had been raised to level 1-6. 50%.

A few more buildings should be built and it's almost ready for upgrades.

Lao Fang is also full of expectations, wondering what kind of surprises the second-generation architect will have.

Liu Feng thought for a while and said:"It's not a problem that the hundreds of war horses brought back before have been kept in the mountains. You take people to build a stable on the edge of Big Bear Mountain on the left.

By the way, build another one that can lead to the village. the way"

"promise!"

When he heard that there was a mission, Lao Fang was immediately overjoyed.

Naturally, the more such missions, the better, so that he could change his job for the second time as soon as possible.

After receiving the order, he ran down the city wall as fast as he could, taking his few An architect apprentice went up the mountain.

Liu Feng shook his head and smiled, and was about to go down the mountain when his eyes suddenly focused.

In front of the mountain village, a group of black figures were approaching.

"Close the city gates and be on alert."

I don't know if the visitor is an enemy or a friend, so it's better to be careful.

After receiving Liu Feng's order, the six overlord cavalymen responsible for guarding the city gate immediately closed the city gate and waited for the order.

Liu Feng stood on the city wall holding a black jade spear, His expression was solemn.

When the black shadow approached, he was surprised to find that it was a group of refugees in ragged clothes and tired looks.

However, he did not relax his vigilance.

He could not rule out whether this was the enemy's plan.

The refugees slowly approached the mountain village. When they saw After the brand new city wall, everyone was stunned.

When did the city wall appear in Dashan Village?
