

THREE KINGDOMS: I HAVE A JOB TRANSFER PALACE

Chapter 7

In order to increase the chance, Liu Feng gave all five horses left by the Wuhuan cavalry to Zhao Ergou for training.

Of the one hundred Wuhuan cavalry, only five horses were left, and the rest were all beaten to death by Liu Feng.

Now that I think about it, it's a pity.

Now he still has to worry about the mount after the Overlord Iron Cavalry changes its profession.

It would have been nice if there were more Wuhuan war horses left at that time.

Half an hour later, Zhao Ergou finished training the five war horses.

What makes people happy is that there is actually a war horse that has increased its load by 10 times.

Since then, Liu Feng no longer needs to use his legs to run.

He got on his horse and picked up the black jade spear stuck on the ground.

The total weight is more than 1,000 kilograms, but it does not put too much pressure on this war horse.

"Master, the Overlord Cavalry has completed its job transfer and has gone down the mountain."

At this moment, the voice of the transfer elf suddenly sounded in his mind.

Liu Feng turned over and dismounted, looking towards the back mountain.

Boom!

There was a slight vibration on the ground.

And it continued to increase.

"What happened? Are there another alien cavalry coming?"

The villagers came out of their houses one after another, their faces full of nervousness.

"No, this vibration came from the back mountain.

The back mountain can only be accessed from our village, and it is impossible to enter it from other places."

The villagers felt the direction from which the vibration came, and their faces were filled with doubts.

Under everyone's nervous and curious gazes, thirty cavalymen wearing pitch black armor, with only their eyes exposed.

Holding pitch black spears, they rode on horseback wrapped in pitch black armor. The war horses came galloping from behind the village.

Because the open space in the village was narrow, the two of them walked side by side.

"What a scary cavalry"

"Much more powerful than the Wuhuan cavalry"

"How did they enter the village?"

"Can Xiaofeng stop them?"

The villagers were talking a lot, with various emotions such as shock, horror, and uneasiness alternating.

Under the gaze of everyone, thirty cavalymen galloped towards them, but they did not make any move against them. They did not stop suddenly until they reached Liu Feng in front of the village. Next.

Their movements are uniform, as if they have been training day and night for decades.

"See Lord."

They turned over and dismounted, and all knelt down on one knee to Liu Feng, respectfully saluting.

Lord?

Are they Xiao Feng's guards?

The villagers looked puzzled.

Could it be that Xiao Feng was a general before?

He just encountered an enemy attack and fled to Da. The mountain village happened to be saved by the old village chief.

Now, his army has come?

It has to be said that the villagers' imagination is still very rich.

"Get up, everyone. Liu

Feng said calmly.

"Yes, my lord."

The thirty teenagers who successfully transferred to Overlord's Cavalry stood up one after another and stood quietly beside their respective war horses. Unexpectedly, the Overlord's Cavalry directly gave away equipment and mounts after the successful transfer.

This saved a lot of trouble.

After all, war horses have always been They are all strategic materials, which are difficult for ordinary people to buy.

Originally, Liu Feng was still thinking about where to get war horses for them, but now, he doesn't have to worry about anything.

Weapons, armor, mounts, everything.

This military class transfer order is really good , it's a pity that it can only be obtained from the gift pack.

The arms that change jobs using job transfer points do not have such treatment.

Moreover, the arms that change jobs at job transfer points, like other professions, start from the first level, and slowly Promotion.

Liu Feng summoned the villagers together again and said in a deep voice:"Dear fellow villagers, foreigners are plundering and massacring wantonly in our Han territory.

As a Han Chinese, can you bear it?"

"I can't bear it!"

Everyone shouted in unison.

They just suffered from lack of ability and could not resist in the face of the alien butcher knife.

If they had the ability, they would never tolerate the aliens being so rampant.

"Yes, it must not be tolerated. Liu

Feng nodded, raised the black jade gun in his hand, and shouted:"It's time for us to show our weapons to the aliens."

If the official uniform does not send troops, then we will do it ourselves.

I will never let the aliens massacre my Han people again.

Anyone who bullies our Han people will be repaid a hundredfold"

"Return it a hundredfold! Return it a hundredfold!

The villagers were furious and their blood boiled.

Liu Feng pointed at the thirty Overlord cavalry and said:"They used to be young men in my mountain village, but from now on they are the nightmare of foreign races.""

Are they the thirty mountain village teenagers trained by Liu Feng?

In just two hours, they turned from some mountain village teenagers into well-equipped cavalry?

The villagers were shocked and confused.

But more of them were excited.

This is the cavalry that belongs to Dashan Village.

It will also be the glory of Dashan Village

"I will take them to intercept the Wuhuan cavalry in An County. If there is an alien attack, Lao Chen and others will take you to the back mountain immediately. Liu

Feng said again,"There is a temple there. As long as you enter it, you will be safe.""

"Everyone listens to Xiaofeng"

"Yes, we all listen to the village chief."

The villagers responded one after another. After arranging everything, Liu Feng mounted his horse and waved his black jade spear:"Let's go!"

Thirty overlord cavalry galloped away behind Liu Feng.
