581 Crossing The Sea With Deception

Crossing the sea with deception

“Guan Yao ...”

A black-robed man stopped in front of Lin Mo and looked at him coldly.

Lin Mo was taken aback when he saw the man. Shouldn't he have left? why was he here?

“Who are you?” When Guan Yao saw Lin Mo, he was shocked.

However, after sensing that Lin Mo was only at the second level of the first level of immortal-Foundation, he laughed coldly.

he's only a half-step Almighty. How dare he come and steal the Jade talismans? he must be tired of living.

“Swish!”

A black shadow appeared, and the space cracked open. A figure appeared in front of Lin Mo. He was wearing a black robe, and his eyes were empty.

His palm was as thin as a stick, as if it was skin and bones, without any vitality.

“Is it awkward?”

Lin Mo's interest was piqued. It was said that the combat power of puppets was extremely strong and their bodies were invincible. However, he did not know if that was true.

Back in the eastern continent, the ghost king had turned Tian Sha and the others into puppets at the last moment, and they had once displayed powerful combat strength.

At that time, Lin Mo was already unrivaled in the eastern Peninsula. Experts of the same level posed no threat to him.

“I’m very curious, what do you mean by not following Wu mo and staying here?” Lin Mo smiled. Guan Yao would not appear here for no reason.

Maybe he had a jade talisman in his hand at this time. He would ask Wu mo to lead the crowd away while he quietly took it away ...

“The dead will not be curious.”

Guan Yao laughed coldly and ordered the puppet to attack Lin Mo, killing him with every attack.

At the same time, he attacked Lin Mo as well. He wanted to kill Lin Mo in the shortest time possible.

“Ah, my cultivation level is. little low ...”

Lin Mo sighed. He was able to handle the puppet with ease. After all, the puppet could not use spirit Qi or martial arts.

However, when Guan Yao joined the battle, the situation was reversed.

He was only in the second heaven, while Guan Yao was already in the ninth heaven. He was very strong, and it was hard for him to fight back.

“Now you know your realm is low?” Guan Yao smiled sarcastically.

In his eyes, the person in front of him was just a person who was blinded by profit. He had some ability, but he didn’t know the immensity of heaven and earth.

“It is indeed. little difficult to deal with you ...”

Lin Mo shook his head. His cultivation level was too low, and this place was not suitable for fighting. If he caused too much of a commotion, he would attract others.

At that time, it would be difficult for him to hide from everyone.

“Let’s end the battle quickly ...”

Lin Mo gritted his teeth and activated the heaven-and-Earth Transformation. The spirit devouring mantra circulated his spirit Qi to form a defense in his body.

At the same time, a wisp of purple light flickered under his feet, but it was well hidden.

“Ruthless!”

A bird’s cry resounded as Lin Mo’s body burst into flames. In the blink of an eye, a Vermilion Bird appeared behind him.

“The Vermilion bird’s cloud-piercing four destruction spell?”

Guan Yao was shocked. Just as he was about to control the puppet to return, it was swallowed by the fire.

The puppet was a cold Yin object. Unless it was made of special materials, it would be difficult to withstand the Vermilion bird’s flames.

In an instant, flames soared into the sky, and the Vermilion bird’s cry could be heard for hundreds of miles.

Guan Yao used his martial arts, and his body was surrounded by a deathly aura. Although he was restrained, he was of a higher level than Lin Mo.

The two offset each other, and Guan Yao managed to block the Vermilion bird’s flames with great difficulty.

However, in the next moment, before he could even breathe a sigh of relief, he saw that Lin Mo had already appeared in front of him.

At that moment, Lin Mo spread his kun Peng wings, a Qilin pattern appeared under his feet, and he held the space-splitting divine sword in his hand.

The sword Qi cut through the void and the kun Peng wings brought about extreme speed. It was as if he was teleporting and Guan Yao could not react in time.

By the time he wanted to block, the space-splitting divine sword had already cut off his head.

Lin Mo's foot stomped on his chest, and the Qilin tattoo exploded. The terrifying power spread and shattered his body.

However, just as he was about to kill Guan Yao, a golden light appeared between his eyebrows.

He could feel that Guan Yao's soul had disappeared. Only his head was left, and his life force was gone.

"He escaped?"

Lin Mo was shocked. Guan Yao knew so many of his trump cards, but he escaped?

what technique is that? it can actually allow one's soul to escape into the void instantly and travel a thousand miles in an instant ...

He was shocked. He didn't get anything in this battle and even exposed his trump card. It would be difficult to deal with the following.

"Eh?"

The sea of fire spread, and within the flames, the pieces of Guan Yao's body were burned. Lin Mo could feel the aura of metal ores from within.

"Not a living being?"

After the flames dissipated, Lin Mo stepped forward to take a look. He realized that even the remaining head did not have any signs of life.

Or it could be said that the vitality that he had displayed before was brought by his soul. Now that his soul had escaped, all that was left was a useless shell ...

they say that the art of puppets is ever-changing. There's also a saying about the death substitution technique. It seems that Guan Yao has mastered the corresponding technique.

Sensing carefully, Lin Mo suddenly realized that Guan Yao's soul had escaped in the direction of Languang city. Even though his aura had disappeared very quickly, Lin Mo could still sense it.

“Deceive the heavens and cross the sea?”

He was shocked. If Guan Yao’s real body was still in Languang city, did that mean that Wu mo was also there?

‘He knows the death substitution technique. Does that mean that Wu mo also knows a similar technique to insert his soul into the puppet and create the illusion that he has left ...’

Didn’t that mean that the real jade talisman was still in Languang city?

“What a deep scheme. If I had not met him by chance, I would have really been deceived ...”

Lin Mo smiled. After some consideration, he turned around and returned to Languang city.

As for the traces of the battle there, he didn’t have time to hide it. If it was exposed, so be it.

Back here, he realized that Guan Yao’s aura had passed through here and left through another gate of Languang city.

“You’re good at deceiving the heavens and the sea,”

Lin Mo exclaimed in admiration and quietly gave chase. He did not alert anyone and simply followed quietly all the way.

Outside Languang city, a group of people quietly passed by. Under the cover of the night, they passed by without any movement.

They walked all the way to a Valley before stopping.

This place was extremely well hidden. They stopped here and took out formation flags, planning to set up a formation.

Suddenly, the skinny figure at the back of the group stopped.

He raised his head, his eyes were empty, and he slowly turned his head to look behind him.

“Young master Wumo, Lord Guan Yao ...”

When the people who were with him saw him like this, they quickly reported the situation.

However, in the next moment, a golden light flashed across the valley, and he instantly woke up from his dull eyes.

“Bastard ...”

As soon as he woke up, he let out a furious roar, and his body couldn't help but tremble.

The powerful pressure on his body made the people around him not dare to get close, and they were all trembling.

“Brother Guan, what's wrong?”

Wu mo hurried over, surprised. According to the plan, shouldn't guan Yao be following those pursuers?

Why did his soul return directly now? could it be that he had been discovered?

“Hurry up and activate the teleportation formation, or it'll be too late.”

Guan Yao quickly ordered. He didn't have the time to explain. He personally went down and built the teleportation formation with Wu mo.

That person would soon follow the Traces of the Soul and come here. If he did not leave now, he would not be able to leave ...

“Unfortunately, it's too late!”

582 Jade Talisman In Hand

A few rays of sword qi appeared and broke the formation flags that had just been set up. A crack appeared in the space and Lin Mo walked out.

He looked at these people with a smile. They were good at deceiving the world and secretly doing things, but unfortunately, they were one step behind...

“Who are you?” Guan Yao said coldly.

They didn't know this man at all. They had never heard of him before. His cultivation was also very low, but he had a terrifying and unimaginable combat power.

"A dead man will not be curious."

Lin Mo laughed and returned Guan Yao's words to him.

He pointed the space splitting divine sword forward. If he delayed any longer, things might change. He had to end the battle quickly to prevent others from following him.

"Let's go together and attack with all our strength."

Guan Yao shouted and summoned three puppets. He joined forces with Wu Mo and fought Lin Mo together.

As for the others, they continued to refine the formation flags and set up the teleportation formation.

They couldn't stay here for long. It wouldn't be long before the majority of their forces were annihilated. At that time, if they didn't find the jade talismans, they would definitely return.

"He's merely at the second heavenly layer of the first step of immortal-foundation, yet the power he erupted forth with is actually so terrifying."

Wu Mo was shocked. This person was definitely a genius that could rival Gongsun Wenhao.

This made him recall the thunder heart grass and the heavenly tribulation even earlier.

Could he be the person who had fought the true dragon to a draw?

His appearance was ordinary, and there was nothing outstanding about him. It was very easy for people to ignore him. This should not be his original appearance.

Wu Mo guessed in his heart. Although there was no evidence, this subconscious awareness made him convinced that he had guessed correctly.

“This jade talisman is to be offered to Gongsun Wenhao. You dared to snatch it, but don’t you dare to leave your identity behind?”

Wu Mo shouted coldly. He was afraid that he couldn’t keep the jade talisman today. No matter what, he had to find out the other party’s identity. Otherwise, he wouldn’t be able to give an explanation.

“Hand over the jade talismans and I’ll tell you.”

Lin Mo smiled and extended his hand to ask for the jade talisman. He was worried that if he forced the other party into a corner, it would cause unnecessary losses in a life-and-death struggle.

“I’ll give it to you,”

To his surprise, Wu Mo actually threw out the jade talisman without any hesitation.

Guan Yao was unwilling, but he had no choice but to leave. He stood in front of the teleportation formation that was almost ready.

“He really gave it to me. Could it be fake?” Lin Mo was a little taken aback. Since when did the two of them become so forthright?

He took the rune and observed it carefully. In the end, he realized that it was real...

“You can tell me who you are now.”

Wu Mo said coldly. The jade talisman had been stolen, so the task that Gongsun Wenhao had given him could be considered a failure. *innread.com*

If he could bring back a name, he could be considered to be taking the blame...

Furthermore, he suspected that the person in front of him was the one who had gone through the tribulation. Gongsun Wenhao had met him before and was very interested in him.

Bringing his name and identity back should be able to calm his anger.

“My identity is, of course, your old acquaintance.”

Lin Mo smiled and did not hesitate. He dispelled the great art of earthshaking and returned to his original appearance.

“Lin Mo...”

“Why are you here?”

The two of them turned pale with fright. How could this person, who was originally just a minor character in their eyes, be so powerful?

“Were you the one who went through the tribulation that day?”

Wu Mo roared. If that was the case, then the thunderheart grass was also a product of his tribulation.

This made him feel a lingering fear.

He had actually provoked such a terrifying existence. If Lin Mo really wanted to make a move, he would not be able to live for long.

He didn't doubt that he could match Gongsun Wenhao's combat power.

Even if there was a difference in their cultivation levels, it would not be difficult for Lin Mo to kill him.

Just like now, when he joined forces with Guan Yao, he was suppressed by Lin Mo and could not fight back.

“Alright, I've told you what you should know. Now, you can go.”

Lin Mo sneered. The space-severing divine sword cut open the void, and the Kun Peng Wings on his back spread open.

“Block...”

Guan Yao shouted. The teleportation formation was behind them, it was their last hope of survival. It couldn't be destroyed.

However, when faced with Lin Mo's full strength, their combat strength seemed to be somewhat weak.

In just a few dozen moves, the defense line had crumbled, and the teleportation formation that had just been set up behind them was destroyed once again.

“This time, you don’t have the death substitution technique, right?”

Lin Mo slashed his sword at Wu Mo, forcing him to defend with all his might.

Then, he used his left hand as a sword and stabbed towards Guan Yao’s forehead. It was so fast that he could not dodge.

“Clash!”

The sound of metal clashing could be heard. A puppet appeared in front of Guan Yao and blocked the sword finger.

However, the terrifying sword qi had also caused the puppet to explode into pieces. metal fragments, corpses, and bones flew all over the sky.

“Pfft...”

After the puppet was killed, Guan Yao spat out a mouthful of blood. As he staggered back, his sword-fingers struck out with a thunderous momentum.

“Don’t...”

Guan Yao wanted to summon his puppet to block the attack but it was too late.

The sword finger pierced through Guan Yao’s forehead and lightning spread out. His soul was severely injured and was on the verge of collapsing.

“What?”

The moment it pierced through Guan Yao’s forehead, he felt a terrifying aura in his soul.

Not far away, in Languang city, which was less than a hundred miles away.

“This is bad...”

Lin Mo was shocked. He could not delay any longer. He quickly took off Guan Yao's storage bag and attacked Wu Mo at the same time.

"Let's go..."

The illusory Vermilion Bird appeared, and the valley instantly turned into a sea of fire. Meanwhile, Wu Mo's head was split open by Lin Mo's space severing divine sword.

He dispersed his soul and took the interspatial ring.

The time between killing Guan Yao and Wu Mo was only two or three seconds.

Lin Mo swung his sword again and killed all of their subordinates, leaving no one alive.

After doing this, he slashed open the void with his sword.

The Kun Peng Wings on his back spread open, and with a flap, he instantly brought him a hundred miles away.

The next moment, a tide of spiritual qi appeared where he had been. The space was sealed, and a terrifying pressure spread.

He didn't dare to stay any longer. He fled quickly and used the extreme speed of the kun peng to reach his maximum speed. He burrowed into the boundless mountain range and disappeared...

"Bastard, you actually tried to kill me in a fight between the younger generation. You're really courting death."

A white-robed old man flew out of Languang city. His face was full of wrinkles, but at this moment, his expression was terrifyingly gloomy.

Just now, Wu mo and Guan Yao's soul lamps were extinguished and they were killed.

He immediately sealed the void and chased after the murderer, but it was too late. The murderer had already escaped and was controlling the kun peng wings to move at an extreme speed. The possibility of him catching up was very small...

Languang city was in an uproar. Some people knew that they had been tricked and had returned.

When they heard the old man's angry roar, they looked at each other and revealed helpless expressions.

Two women appeared in the air, attracting the attention of countless people.

They were Mu Yuzhu and her servant. At this moment, the spiritual aura fluctuations on their bodies were very large. It was obvious that they had also experienced a great battle.

After giving chase, an earth-shattering battle erupted there. Even if Mu Yuzhu had made a move, she had also exhausted a lot of her energy.

However, when she suppressed the entire scene and forced Li Yu and the other experts to retreat, she discovered that the so-called Wu Mo was just a puppet stained with his blood essence.

"I was tricked. However, Wu Mo and Guan Yao seem to be dead..."

### 583 A Battle Between Geniuses

"Young lady, we have worked for nothing. These people are really cunning..."

The maidservant pulled a long face. After all, the jade talisman was supposed to be snatched for her. She had clearly won, but the result was like this...

hehe, I should say that he's smart. A cunning rabbit has three burrows. I'm actually very interested in the person who stole the jade talisman.

Mu Yuzhu wasn't annoyed. She chuckled and left. There was no longer any value in staying here.

Moreover, Wu Mo and Guan Yao were dead, so the corpse puppet sect and the Wu family would probably not let this matter rest.

She was the extraordinary lady of the Mu clan, the number one heaven's favorite of the zhu state.

The people from the other forces couldn't wait for her to die early, so she couldn't stay outside for long.

“Are you going back? However, this battle was tacitly approved by many forces, so the Wu family and corpse puppet sect can’t pursue it.” The maid, Xiaoqing, was a little reluctant.

It wasn’t easy for her to come out and she didn’t want to go back.

“No matter what, you have to be careful of a life and death struggle.”

Mu Yuzhu chuckled. She didn’t try to hide her voice, so many people heard her.

This made many of the guards in Languang city dissatisfied. They felt that Mu Yuzhu was too arrogant, daring to say such words...

However, they didn’t dare to say anything in the end. The Mu clan wasn’t to be trifled with, and Mu Yuzhu was the hope of the Zhu state.

Unless he had no other choice, he must not touch her...

“BOOM!”

A terrifying explosion rang out as the Kun Peng Wings on Lin Mo’s back flapped and carried him away.

The one chasing him was a king. He raised his hand and the space around him collapsed. Even the Kun Peng’s speed was useless.

If he did not have the space-severing divine sword, he might have really been caught.

“Phew, I’ve finally escaped.”

Lin Mo laughed heartily. In a single day, he had fled for nearly 100000 miles, shuttling through the boundless mountain range.

Guan Yao and Wu Mo’s collection was also very rich. Lin Mo threw away some of the treasures that symbolized his status.

He kept the rest. He used the spirit stones for cultivation and kept the treasures for auction.

He cultivated in the mountains and traveled alone, fighting demonic beasts and picking spiritual herbs.

He even went deep into a dangerous area alone to pick a golden sunflower.

It was a tier 9 earth grade spirit herb. He had paid a great price to pick it, and it took him three days to recover.

“I’ll be able to get a heaven grade divine flower after the auction...”

Lin Mo grinned. The northern lands were indeed a heaven for cultivators. The mountains were vast and boundless.

He got a map from Wu Mo’s interspatial ring. It was a map of Yun State, and it was drawn very carefully.

The map was three meters wide, and it recorded in detail where the special cultivation places were. There might be spiritual herbs above tier 5 earth grade growing there.

He was still in the territory of the Wu family. The nameless mountain was too big. He had been flying for more than ten days and still hadn’t left.

The Northern Continent was too big to be measured, and the cloud plane was the same. It would take him more than a month to cross a mountain range.

Even if he ran at full speed and was not stopped along the way, it would probably take him more than ten days to leave.

He was helpless. He was far away in the Northern Continent, but Jiang Xiyue was in the southern land. How could they meet?

If they really wanted to meet, they could only use the teleportation array. Otherwise, with the infinite distance, it would be difficult for them to meet in this lifetime...

Another half a month passed. He was training in the mountains and met countless demonic beasts.

There were also many mutated beasts with terrifying bloodlines and monstrous battle prowess that caused him quite a bit of trouble.

On this day, Lin Mo finally walked out of the mountain range and changed his appearance with the heaven-and-Earth Transformation spell.

This was the nearest city to Languang city, and also the Wu family's territory.

However, there was no martial law. Apparently, they also thought that the person who could kill Wu Mo must be a genius disciple of that big family.

After obtaining the jade talisman, he might have already set up his own teleportation formation and left.

Every time the teleportation formation in the city was activated, it would consume a huge amount of energy, and it required countless natural treasures to use.

Lin Mo paid 200000 upper spiritual stones and received a token. When it was time to open, he could take the battleship to the teleportation formation.

They had to wait until there were enough people and they had received enough rewards before they could open it.

Since Lin Mo had nothing to do, he took out some of the treasures he had obtained during this period of time and sent them to the auction house for auction.

As for himself, he went to the city's trading area, hoping to find some treasures there.

congratulations to the host for successfully auctioning the earth grade rank 1 Xi Ling fruit.

[ Successfully triggered 3000-fold auction interest return ]

[ Congratulations to the host for obtaining a Rank 2 earth realm light wing fruit ]

When he arrived at the trading area, the auction for the item that Lin Mo had placed for auction had already started. He had already received a return-profit treasure.

“Yes, the good things in this place are not inferior to the auction house...”

Lin Mo was slightly shocked. He could already see a lot of good treasures with his naked eyes.

However, these peddlers were all very shrewd, and the prices they called were generally very high, basically equal to the value of the treasures.

This also caused their business to not be very good. There was nothing cheap, and very few people were willing to get involved...

“Hmm, there’s still half a year before the hidden Dragon Pavilion opens the ancient battlefield...”

On the way, Lin Mo heard more news, and the venue was quite far away.

The only stronghold of the hidden Dragon Pavilion was located in the central area of the Northern Continent, the Dragon state. It was also the place where jade talismans were made.

“In that case, that mysterious girl escaped from the Dragon State...”

Lin Mo exclaimed in his heart. The distance between the Dragon state and the Cloud state was more than ten states. This young girl could really run...

“Friend, I want to ask you something. Do you know who won the battle between u Yuzhu and Gongsun Wenhao?”

At this moment, there were people around Lin Mo asking about the battle between the two geniuses.

“What battle? Mu Yuzhu and Gongsun Wenhao fought?” Some people were puzzled. Their city wasn’t considered closed off, so why hadn’t there been any news before?

I know about this. It’s because of a young genius named Lin Mo. He killed Gongsun Wenhao’s subordinates, Wu Mo and Guan Yao. Someone said, telling others about what had happened in Languang city a month ago.

Even Lin Mo was listening attentively. He wanted to know what had happened in Languang city during the month he had been in the mountains.

It turned out that after Wu mo and Guan Yao died, Gongsun Wenhao came through the teleportation formation the next day.

After an investigation, Gongsun Wenhao suspected that Mu Yuzhu was the murderer, and he attacked her.

The two of them started a huge battle, and the battle shocked the world. The news spread like crazy, because these two were both geniuses on the Hidden Dragon Ranking.

Mu Yuzhu, in particular, was ranked ninth, and was one of the top ten.

The battle lasted for six hours. In the end, it was the Mu family elder who appeared and stopped the battle.

This was because someone from the Gongsun family had secretly set up a formation in an attempt to trap and kill Mu Yuzhu.

In the end, the battle was over. After some investigation, they found out that a man named Lin Mo had killed Wu Mo and Guan Yao.

The news of this battle spread quickly. Many people were concerned about the situation before the elders of both sides interfered.

“Mu Yuzhu naturally had the upper hand in the previous battle.” That person laughed.

He was very lucky to have been there to watch a great battle between peerless geniuses.

#### 584 Zhuyan Body-tempering Technique

It was said that the two of them had fought for 3000 rounds, and in the early stages, Mu Yuzhu had basically suppressed Gongsun Wenhao.

However, after the two of them got serious, the difference between the upper and lower levels of the battle could no longer be seen, because they were starting to get serious.

However, one thing was certain. The elder of the Gongsun family had attacked because he had seen that Gongsun Wenhao was about to be exhausted.

On the other hand, mu Yuzhu still had the strength to resist the killing formation after repelling Gongsun Wenhao.

“She’s that powerful...”

Lin Mo was shocked. As expected of the number one genius of the bamboo state. His combat strength was hard to imagine.

It was no wonder that after breaking through to immortal-foundation, she was able to sweep aside all the geniuses in the continent and finally step into the ninth place on the Hidden Dragon Rankings.

“However, even with her combat strength, she can only be ranked ninth. Then, how strong are the top five, top three, and number one?”

Lin Mo was looking forward to it. He yearned to fight with these geniuses.

However, before that, he still had to improve his cultivation level. Even if he could not catch up with them, he could not fall too far behind...

“Hey, How long have you been standing here? Are you buying or not? if you’re not, then get lost.”

A rough voice rang in Lin Mo’s ears, breaking his train of thought.

He saw a middle-aged brawny man with fire in his eyes, staring at him.

It was only then that Lin Mo realized that he had come here to look for treasure...

“Ahem, sorry, I was too absorbed in it. I’ll buy it, of course I’ll buy it.”

Lin Mo took out the spiritual stone with a smile. He was interested in a thunder stone. It was a tier 3 earth grade stone and contained a strong thunder element power.

congratulations to the host for auctioning the tier 6 earth grade skill, breath control scroll.

At this moment, the system's voice rang in his mind, reminding him of the treasures he would be getting from the auction.

"Breath freezing scroll... I remember that this is the finale. Has the auction ended..."

Lin Mo took the thunder stones and headed to the auction house, no longer in the mood to stroll around the trade fair.

The manager welcomed him warmly and told him that there would be an auction in three days. The final treasure would be delivered soon, and he invited Lin Mo to participate.

"Sure, as long as you don't delay me from using the teleportation array to leave."

Since he had nothing to do, Lin Mo naturally would not refuse. He might even be able to get some treasures at the auction...

"Oh right, help me auction these off."

After receiving the treasures for today's auction from the manager, Lin Mo took out some of them. The amount was much more than before.

Cultivation methods, martial arts techniques, pill recipes, secret techniques, and so on were all found in Guan Yao and Wu Mo's collections.

These items were useless to Lin Mo, and they would only take up space if he kept them. Therefore, he decided to auction them off and earn some spirit stones.

"Thank you, my guest. You are my lucky star."

The manager was all smiles. In his eyes, Lin Mo must be a rich young master from some family. He must have many treasures on him...

"Let's continue training..."

Lin Mo sat cross-legged in the residence arranged by the auction house. He took out some spirit stones and some treasures he had won from the auction.

The soul-devouring technique circulated silently. A terrifying suction force erupted and began to devour the surrounding spiritual qi.

At the same time, Lin Mo was also studying the world-changing spell and was more familiar with the runes.

The cultivation continued, and the world-changing spell became purer and purer. Lin Mo also looked at the other two scrolls.

After thinking for a while, he opened the first form of the zhuyan body tempering technique.

This was not a cultivation method. To be precise, this could be considered the secret cultivation method of the zhuyan.

The physical body of the zhuyan tribe was extremely strong and was known as the indestructible body of Vajra. It was comparable to the strongest Dharmakaya of Buddhism, the sixteen-foot golden body.

Among the demonic beasts, only the true dragon, the chaotic world demonic ape, and other terrifying existences could match the zhuyan's physical body.

One could only imagine how terrifying the physical body of the zhuyan was.

"It's said that countless years ago, there was a chaotic demonic ape that unified the demonic beast world and called itself the beast God."

"Their race's great emperor's ancient scripture was left behind by that existence."

Lin Mo muttered to himself. That was the impression he had of the chaotic world demonic ape.

The zhuyan ape was a branch of its descendants, who had perfectly inherited the terrifying body of the chaotic world demonic ape. *innread.com*

He observed the body refining technique. Although it was only one move, he was still shocked to see the cultivation method and results.

"Can a normal person's body really withstand it?"

Lin Mo thought to himself. The zhuyan's cultivation method was so violent that it required the consumption of endless natural treasures.

The consumption of spirit herbs, ores, precious materials, and so on was too great.

"There are only two moves in total. The first move has already stumped countless people..." He shook his head bitterly.

Even he was stumped, because this was a terrifying consumption.

The cultivation method recorded in one form could only be cultivated by those below the king tier.

It required the innate qi essence of countless spirit herbs to forcibly absorb it into the body and seal it with precious materials.

Finally, he ignited the Dao fire and completely ignited this innate energy essence.

Not using spiritual energy to resist and using pure physical strength to resist was no different from suicide in the eyes of ordinary people.

However, this was the key to the Zhu Yan's powerful physical body.

The Dao fire would fuse these connate energy essences into the body and make it stronger as one cultivated.

This benefit was permanent, but the death rate was also surprisingly high.

"Moreover, it will not be easy to obtain the blood essence of the zhuyan..." Lin Mo was in a difficult position.

If he wanted to cultivate, he could slowly gather the materials. It was only a matter of time before he gathered all of them.

Most importantly, he didn't have the blood essence of zhuyan. It was used to extinguish the fire of Dao and heal the body at the last moment of cultivation.

He was not from the Zhu Yan race, where he needed the blood essence of the Zhu Yan race to cultivate. Otherwise, he would die even if he had the God Devourer body.

Soon, three days were up and Lin Mo stopped cultivating.

At this time, his realm had increased a little, and he was close to the third heaven of the first step.

After gathering the materials and going into seclusion, he would be able to complete his breakthrough...

“Guest, you’re making things difficult for me.”

In the auction hall, Lin Mo sat in the VIP seat that had been arranged for him and sipped his tea in a relaxed manner.

The manager had a bitter expression on his face. Every time Lin Mo looked for him, it was always a big business deal.

He would either be buying medicinal herbs or auctioning off a large number of treasures. He could make a profit from either of them.

However, this time, Lin Mo’s appetite was unusually big.

“The auction house can’t be closed after all, we have to auction every day. If you take away all the earth grade and above elixirs in one go, then I won’t be able to do business for the next month.”

The manager shook his head quickly. The auction house had its own mercenary group and they often went out to pick herbs.

Basically, he would come back once a month or two, and for longer periods of time, it might even take about a year.

During this period, they had been relying on their inventory to support themselves.

If Lin Mo were to take away all the earth rank spirit herbs at once, he would have to close his shop.

However, when he thought of the cultivation techniques and martial arts that Lin Mo had promised him, his heart ached and he was reluctant to part with them.

That was a rank 7 or rank 8 Earth Class martial skill. Who would be willing to auction it?

In the end, the steward hesitated and made a concession. He raised his head and said, "I can only sell you one-third at most..."

585 The Map Of the Cloud Mist Island

The map of the cloud Mist Island

One-third was already the biggest concession he could make.

This way, he could also tell the regular customers that he had consumed the warehouse for these few martial arts and cultivation methods.

"No problem. This soul nurturing mind concentrating scroll and this fire Luo palm are for you. Let's have a pleasant cooperation."

Lin Mo was very straightforward. He took out two Scriptures on the spot, both of which were given by the system.

If he wanted to practice the zhuyan body refining technique, he would need a lot of spiritual herbs. He would need hundreds of spiritual herbs above rank 5 Earth Class.

Moreover, the most important thing was to prepare three heaven-grade divine herbs in addition to the blood essence of zhuyan.

Two of them were used for cultivation, and one was used to save his life in case of emergency.

this is too extravagant. If only I was in the Bai family now ...

Lin Mo sighed. The Bai family would definitely be able to come up with these resources, but he did not know if they would provide him with them.

Bai Luo would definitely enjoy it first, followed by Jiang xiyue, who they had high hopes for ...

'There's also Xiao die. My God Devourer body is not favored because it consumes too many resources ...'

“Forget it, I don’t want to think too much ...”

Lin Mo retracted his thoughts and began to watch the auction seriously.

The manager had said that the finale of this auction was an extraordinary treasure.

He just didn’t know what the treasure he was talking about was, because there were too few people attending the auction today.

“The first item, Earth Class rank 3 Thunder Stone.”

this item contains a large amount of lightning element. If any of the friends here have lightning-attribute cultivators, they must not miss this opportunity.

“The starting price is 5000 upper spiritual stones.” *innread.com*

The auctioneer was the manager. After he instructed someone to help Lin Mo collect the materials, he went up to host the auction.

5100 upper spiritual stones.

“Five thousand two hundred ...”

The attack power of the lightning attribute was very strong, not inferior to that of the fire attribute. Thus, many people chose this path.

As a result, Thunder stones were extremely popular. Four people started bidding the moment they appeared.

After a round of bidding, the manager finally slammed the hammer down and made three bids. A middle-aged man bid 8100 upper spiritual stones for the item.

[congratulations, host, you have successfully auctioned off a level 3 earth realm Thunder Stone.]

[successfully triggered 6000 times auction return interest]

[congratulations to the host for obtaining a rank 5 earth realm sacred Thunder Stone]

Lin Mo was overjoyed when he heard the system's voice.

The sacred Thunderstone was a precious spirit stone that was recorded in the zhuyan body tempering technique.

People with specific attributes would need corresponding Saint stones for cultivation. He had both lightning and fire attributes, so he needed a Saint Fire Stone.

it's alright. Anyone below King tier can cultivate it. I'm not in a hurry.

Lin Mo was not in a hurry. On the path of cultivation, one had to cultivate one's body and mind. If one was too persistent in pursuing something, it would be counterproductive.

The joy in his heart gradually subsided. Lin Mo raised his head and looked at the auction on the stage.

Occasionally, there would be medicinal herbs recorded in the zhuyan body tempering technique, and he would buy them all. This trip could be considered a rich harvest.

The treasures he had put up for auction had sold for a lot of spirit stones, almost reaching two million. He had also found three stalks of spirit herbs he needed.

When the second last item was won by Lin Mo, the atmosphere in the auction house reached its peak.

Looking at the enthusiastic crowd, Lin Mo's interest was piqued. He wanted to know what kind of treasure it was.

"Everyone, the anticipated treasure has arrived. Prepare to bid."

The manager chuckled and ordered the maidservant to bring out a silver plate. Under the red cloth was today's finale treasure.

"Everyone here is from the cloud plane. I'm sure you all know that a secret realm unique to the cloud plane is about to open."

He lifted the red cloth, and on the silver plate was a yellowed sheepskin scroll.

There were some crooked routes recorded in it. It looked like a map, but it didn't look like it.

This ancient and simple aura spread out, and people knew that this sheepskin scroll must have a long history ...

“Manager, What is this? the secret realm of the cloud plane should be referring to the cloud Mist Island, but what does it have to do with this?”

Someone asked. They didn't understand how this sheepskin scroll had anything to do with the cloud Mist Island.

Moreover, for the steward to use it as the finale, could it be that this map recorded the hiding place of some rare treasure?

“This ... To be honest, I don't know either. I only know that it came from the cloud Mist Island.” The manager scratched his head awkwardly.

This sheepskin scroll had been taken out for tens of thousands of years, and after going around in circles, it finally fell into his hands.

If not for the fact that Lin Mo was a young master from a big family and should know what was good, he would not have taken it out.

“I don't know. If you don't know, why did you use it as the finale?” Someone said angrily. They had waited for so long, and in the end, it was just a broken map.

More importantly, he still had to go to the cloud Mist Island to confirm whether this sheepskin scroll was a map or not ...

this sheepskin scroll must have existed for tens of thousands of years. I can go to the cloud Mist Island to take a look ...

Lin Mo's mind was active. Although he might be discovered by the Gongsun family, he had to cultivate the zhuyan body-tempering technique now.

What he lacked the most was resources. If he could go to cloud Mist Island, he might be able to gain something.

“Manager, can you let me take a closer look at this map?” Lin Mo opened his mouth, wanting to take a look.

“Of course. Men, come.”

When the manager heard Lin Mo’s voice, he was overjoyed. This person had finally spoken. He was going to sell the map to Lin Mo.

Soon, a maid came in with a silver plate.

Lin Mo held the sheepskin scroll in his hand and observed it carefully. He realized that the patterns on it had already faded.

It was only because there was an unusual aura that made people feel that the sheepskin scroll was hiding something ...

“Oh,”

His palm glowed, and the light enveloped the sheepskin scroll, blocking the maid’s vision.

In the system space, a sheepskin scroll appeared.

Lin Mo could not tell what it was, so he kept it and waited for the system’s answer.

[ an ancient sheepskin scroll. There are special runes inside that can open the special space of Cloud Mist Island. ]

Soon, the system’s voice sounded in his mind, telling him the answer.

It could be said that it was a key that could open up a space, but whether there were treasures in this space was another matter ...

“Swish!”

He took out the goatskin scroll and placed it on a silver plate for it to take back.

When the manager saw the maidservant walk out, he also knocked on the auction hammer and said, ” “Because I don’t know the value of this map, so the base price is 500000. Is there anyone willing to bid?”

500,000 upper spiritual stones was enough to buy a rank 7 Earth Class magic tool.

If he didn't die on a trip to Cloud Mist Island, this would be his normal harvest.

No one would think that they had too many spirit stones and would be willing to take the risk.

Lin Mo was also thinking about it. He was close to the third heaven of the first stage. With this harvest, breaking through would not be a problem.

However, if he spent 500000 upper spiritual stones here, he might not have enough spiritual energy during the breakthrough ...

well, it's a big bet. Do you want to give it a try? " Lin Mo frowned. He was itching to bid ...

"Sigh, forget it, let's bet then!"

Lin Mo gritted his teeth and stood up when he saw that the manager was about to announce that the auction was canceled.

"I'll pay 500000."

586 Cloud Mist City

"There's really someone who wants to buy it..."

"The person in the No. 1 vip room bought it. He sounds young. Which rich young master is he?"

Lin Mo felt a little helpless as he heard the whispers.

500,000 Yuan! If that space was broken by force, or it had already been opened.

That would be a huge loss for him. Other things aside, he was already regretting it a little now.

If anyone were to raise the bid, he would not hesitate to do so. He would definitely not be a spendthrift.

"500000 going once, is there anyone else willing to bid?"

The manager said expectantly from the stage, hoping that someone would be interested and raise the price.

Unfortunately, although there were many people who had spent 500000 upper spiritual stones, they were not here.

“Five hundred thousand twice!”

When the manager struck the gavel for the second time, he waited for a while. Seeing that the auction hall was still deserted, he sighed helplessly.

“Five hundred thousand going thrice, sold!”

The hammer fell three times, and the auction was closed. Even if he wanted to go back on his word, he couldn't.

“Cloud Mist Island? That's my next stop.”

Lin Mo walked out of the private room with a bamboo hat on his head. In order to avoid unnecessary trouble, he decided to keep a low profile.

Walking to the backstage, the manager came over with a space ring with a smile.

“Sir, the spirit herbs you wanted and the earnings from this auction are all here.”

He rubbed his hands together, feeling a little reluctant to let Lin Mo leave.

However, he had no choice. Now that he had obtained the sheepskin map, Lin Mo would probably have to go to Yunwu Island.

“I've just left my family to train. I've heard of the Cloud Mist Island, but I've never been there. What news do you have? can you tell me?”

Lin Mo said after he took it and checked it.

He immediately took out the huge map from his space ring and spread it open.

The manager was slightly shocked and was even more certain of Lin Mo's identity.

To be able to produce such a detailed map, he must be the young master of that big family who came out to gain experience.

After leaving the auction house, Lin Mo was a little disappointed as he did not manage to obtain any useful information.

This steward had stayed here for most of his life and had not left, so he naturally did not know anything about the Cloud Mist Island.

That day, there were enough people who wanted to use the teleportation array. Lin Mo arrived at the teleportation array in the evening.

There were already thousands of people waiting here, and a total of 100 warships were parked in the square.

The people cheered as Lin Mo followed the crowd and boarded the warship.

This teleportation formation was not controlled by the Gongsun family, but by the Wu family. This was obviously not an important city, but the teleportation formation was still in operation.

A single teleportation would consume a huge amount of materials, but it could transport 10000 people.

This was a huge sum of money. The person who controlled this kind of teleportation formation must have accumulated a shocking amount of wealth.

The runes around the square began to glow, and an altar also lit up.

This place was enveloped by a layer of pitch-black energy, and spatial fluctuations could be felt. There were people continuously pouring spirit stones in from the outside.

As soon as these spirit stones entered, they turned into wisps of energy and fused into the formation.

According to his initial estimation, it would cost him three million upper-grade spirit stones to activate the teleportation formation. With such huge consumption, a force without strong foundation would not be able to control the teleportation formation.

“Get ready to go. Our destination is Cloud Mist Island.”

Someone on the ship shouted. Most of the people on the ship were aiming for the cloud Mist Island.

Many of them wanted to explore the cloud Mist Island in search of treasures.

There were also elders from large factions who wanted to bring their disciples to the cloud Mist Island for training.

There were resting rooms on the battleship. Lin Mo chose one and started cultivating.

He refined some spirit stones and treasures that he had no use for.

At the same time, he was also studying the heaven-and-Earth Transformation technique. He wanted to completely control it and reach the stage where he could do as he pleased.

“BOOM!”

The warship flew in the space tunnel for a day. Lin Mo, who was cultivating, was awakened by a loud noise.

In front of the battleship, a black hole appeared. After passing through it, their teleportation was over.

Lin Mo walked out of his room and arrived at an unfamiliar city.

“Another group of people has arrived. It’s a pity that the last group that entered the cloud Mist Island has already died...”

Outside the altar in the square, some people were whispering. Every time Yunwu Island opened, the city would be quite lively.

It was a pity that there were endless dangers following the opportunity. If one wanted the treasure, it would depend on one’s life and strength, and whether they were strong enough...

“That’s right. There were about 30000 people who went in last time, but they all died. Not a single one came out alive...” An old man sighed, not optimistic about this group of people in front of him.

Lin Mo walked in the city and found out that this was Cloud Mist island after asking around. The city was built on the edge of the island.

This place was relatively safe. It was opened up by the Gongsun family to explore Yunwu Island.

However, after some investigation, they didn't have much gains. As time passed, they didn't pay much attention to it.

"Hehe, this young master's journey of experience will begin from here. I'll go deep into the Misty Island and leave my name on The Prodigy roll."

Some of them were in high spirits and wanted to travel alone. They left through the city's back door and began to venture deep into the Cloud Mist Island.

Lin Mo was not in a hurry. He first found the auction and planned to order a batch of spirit herbs.

"Oh, young man, the spirit herbs you want are a little expensive. Can you afford that many spirit stones?" The person in charge of receiving Lin Mo at the auction house said with a look of disdain.

"You just need to tell me if you have any." Lin Mo waved his hand, feeling even more disdainful of this man's condescending attitude.

"You want five blood oxypetalum, but we only have three here. There's also a fist-sized flowing light stone, but that'll cost three million or more spiritual stones.

"As for the others, I don't have any at the moment." The person in charge said with a fake smile.

Especially when he saw Lin Mo's frown, he did not hide the disdain in his eyes.

"I have a cultivation technique here. You can auction it for me. Also, prepare the 'materials I want and send them over.'"

Lin Mo hesitated for a moment, but he did not want to let it go.

He searched in the system space and finally found an exquisite scroll that had been sealed for a long time.

As soon as the scroll appeared, some people nearby were shocked because they felt an extraordinary aura.

“Young friend, what cultivation technique is this?”

As soon as the scroll appeared, it alarmed a few elders of the auction house.

They were from the Gongsun family and were in charge of Cloud Mist City. At the same time, they were also monitoring the place to see if anyone could bring out the treasure.

“Tank 9 Earth Class attribute-less martial skill, great space spirit-nurturing art. Every time the spirit Qi goes through one cycle in the body, it can increase the soul power by a little bit.”

Lin Mo wasn't afraid that the Gongsun family would go back on their word, so he handed the scroll to the elders.

After they took it and read it carefully, they were shocked to find that this cultivation technique was even better than the one they had cultivated...

“You're looking down on us, you almost offended our distinguished guest.” One of the elders reprimanded the person in charge.

Soon, Lin Mo was invited into a private room, which was quite close to the front.

587 The Kun Peng Bone

“The Flowing Brightness Stone is being auctioned. Has the name list been sent out?” Lin Mo frowned.

This was a divine stone that was the most precious treasure for body refinement. Once it appeared, it would be fought over by people.

The flowing light stone that was auctioned last time was sold for a sky-high price of 3000000 upper spiritual stones.

Now was the time for the opening of the Cloud Mist Island, and many people came, including those with great financial resources.

“The list hasn’t been released yet. I can sell it to you in private. An elder said, fondling the great universe spirit raising art.”

“And the blood vessel flower. How many spirit stones?” Lin Mo’s eyes lit up. It would be best if he could sell it to him privately.

“Three blood vessel flowers and a flowing brightness stone. In addition, there are many precious spiritual herbs on the list...”

An elder looked at Lin Mo with a face full of curiosity. Who exactly was this young man?

Most of the spirit herbs he purchased were body refining spirit herbs with strong medicinal properties.

Could he be a body cultivator? but it didn’t seem like it. He didn’t have the aura that a body cultivator should have.

I’m afraid that you’ll have to pay ten million upper spiritual stones to take this batch of spiritual herbs away... The elder said with a smile.

Hearing the number, even though Lin Mo had been mentally prepared, he was still shocked.

10 million was a huge sum. If he didn’t auction the ‘great universe spirit raising art’, he wouldn’t be able to take it out...

“Then what’s your price for this cultivation method?” Lin Mo asked.

“It’s like this, we plan to buy it in private. We’re willing to offer 10 million. Are you willing to do it, young friend?” The few elders discussed and came up with a price.

This was equivalent to a trade. Lin Mo used the great universe spirit-nurturing art to trade for the precious materials he needed.

After thinking for a moment, Lin Mo nodded happily.

“Sure, but seniors, please swear that you won’t teach it to anyone else. I plan to sell more than one technique, and I’ll auction it again in the future,” Lin Mo laughed.

He wouldn’t give up on the auction. After all, he was still waiting for the return-profit treasure.

“Haha, let’s do as you said. You can watch the auction first. We’ll go and prepare the spirit herbs for you.”

After the elders left, a young girl was called in. She carried a wine pot and poured him wine.

Lin Mo then sat in the private room and watched the ongoing auction.

It didn’t take long for him to lose the mood to drink. Instead, his eyes were fixed on a piece of black bone Gu on the auction stage.

Upon closer inspection, Lin Mo’s heart was filled with shock. Then, his heart started beating wildly, but he managed to suppress it with great difficulty.

“The Kun Peng Bone...”

His eyes widened as he stared at that piece of bone banner. It was too similar. There was a layer of faint symbols on it. They were very weak, and only those who had cultivated the Kun Peng’s Magic techniques could see it.

However, the runes on the bone were about to dissipate. Perhaps in a few hundred years, it would become ordinary bone armor.

“Everyone, this is the bone of a divine bird. According to my guess, it should be the bone of a Kun Peng. It might even be the legendary Golden-winged Great Peng.” The auctioneer on the stage laughed.

“What? the Golden-winged bird” The crowd was excited.

Even in the private rooms, there were people who opened the curtains and carefully looked at the bone armor. Their eyes were like lightning, wanting to see through it completely.

“If it’s really the Golden-winged bird, then are the symbols on this bone the inherited technique of the Golden-winged bird?” Someone mumbled. [innread.com](http://www.innread.com)

However, this was only a guess, and it was most likely false.

Because the Gongsun family would not auction the real one. They would send it back to the family and let the most powerful expert study it...

“I don’t care anymore. I’ll take a gamble. If it really is the bone of the Golden-winged bird, I’ll get it no matter what.” A man stood up and was ready to bid.

At this time, an auctioneer on the stage shook his head, indicating for the crowd to be quiet.

“According to the aura, this is indeed the bone of the Golden-winged great Peng, but it’s very incomplete. The symbols inside are very faint, or even almost non-existent.”

“But one thing is for sure. This bone is very hard. Even a quasi-saint elder from my race couldn’t hurt it at all.”

Hearing this, the noisy hall quieted down. The people in the private room were also disappointed that they did not get the answer they wanted.

“I see. Without runes, everything is just empty talk. What’s the use of a piece of bone...”

“That’s right. It’s all for nothing. But then again, if it’s true, why would the Gongsun family auction it?”

Lin Mo heaved a sigh of relief when he heard the crowd’s words. No one had recognized the Kun Peng Bone.

“It’s so hard. If it’s smelted into a magic tool, it might be useful. I’ll take it. Name your price,” Lin Mo pretended to be unconcerned and let the auctioneer bid.

“The starting price is 100000 upper spiritual stones.”

The auctioneer stated the price. It wasn’t very expensive, because it was just a piece of hard bone.

Perhaps the only effect was what Lin Mo had said about smelting it into a magic weapon.

“Then I’ll pay a hundred thousand.”

There were many people who were interested, but 100000 was not a small amount, so they did not bid.

However, just as Lin Mo thought that he would be able to get it, someone in the private room next to his made a bid.

I’ll offer 110000. “Hehe, this fellow Daoist is right. If we melt it into a magic artifact, it might have a miraculous effect.”

No one knew whether he was telling the truth or not, but it was an auction, and there were many rich people.

Perhaps, in the eyes of the crowd, Lin Mo and the bidder were the elite disciples of some major power or the young masters of a major family.

“One hundred and twenty thousand.”

“One hundred and thirty thousand.”

The person seemed to be at odds with Lin Mo and kept raising the price. The two of them raised the price all the way to 250000.

“How annoying...”

Lin Mo frowned. If this continued, the others would become suspicious. How could a hard bone be worth so much?

The people present were not fools. Some of them were already suspicious.

Seeing this, Lin Mo hesitated for a long time before deciding to give up. There was no need for him to become the target of public criticism for a piece of Kun Peng Bone armor.

“I give up, you can take it.”

He said, letting the auctioneer announce the result. He had no intention of competing anymore.

“Then, congratulations to the guest in private Room No. 8 for successfully winning the bid for this bone.”

The auctioneer’s hammer fell, and the maidservant carried the silver plate to the private room under everyone’s puzzled eyes.

“Hehe, he gave up the Kun Peng bone just like that. Did that person really not know?” In the so-called private Room No. 8, a few men were sitting opposite each other.

They had doubts in their eyes and released their soul power to check on Lin Mo’s behavior in the private room.

However, he was stopped. An even stronger soul power came from the private room.

I’ve been discovered. His soul power is very strong, and he can definitely be ranked in the Hidden Dragon List...

A middle-aged man raised his head, his eyes shining.

His aura was extremely powerful. Earlier, when he retracted his soul energy, he displayed a powerful might. This was a second-level immortal-Foundation expert.

“Get someone to keep an eye on it. This person must know that this is a Kun Peng bone. He must have cultivated a Kun Peng technique on his body.”

Another person raised his head. There were too many implications in this matter. It was better to kill the wrong person than to let the wrong person go.

“I know.” The rest of them agreed and suppressed their urge to check on Lin Mo.

Now was not a good time to make a move. He could not beat the grass and alert the snake.

588 Top-grade Spirit Stone Embryo

“Am I mistaken? I keep feeling like. I’m being watched...”

At that moment, in Lin Mo's private room, he was frowning as he looked to the other side.

That soul energy earlier was extremely powerful. It must have been from a second-level immortal-Foundation expert.

However, he did not feel anything out of the ordinary. It was as if the person was not hostile, but he could not help but shudder...

!!

"I'll change my identity after the auction..."

After making up his mind, he didn't think too much about it and started to focus on the auction.

At this moment, the next auction item had already been brought up. It was a spirit pill that could nourish the body and soul. It was of a very high grade.

However, knowing the zhuyan body tempering technique, he was disdainful of this kind of spiritual pill.

When the materials were all gathered, he would be able to temper his body smoothly. At that time, his body would definitely be able to transform perfectly.

"For the next item, the seller doesn't want spirit stones. He wants to barter."

On the auction stage, a maidservant walked up with a silver plate. The red cloth was lifted, and a bloodied bone lay on it.

"This is the skull of a demonic blood ape. It was already a King when it was alive, so its skull is well-preserved and is the best material for making magic tools."

The skull of the demonic blood ape exuded a strong and ferocious aura.

The silver plate that carried it was also a spatial magical treasure. The real skull should be two to three meters wide.

Moreover, if it wasn't for the restrictions of the magic tool, many people present would not be able to withstand this fiendish Qi.

After all, most of the people here were still at the ninth heaven of the Nirvana stage...

In the eastern continent, immortal-Foundations were like heaven's slumber, but in this place, it was also a huge threshold. It was not easy to cross over.

The blood demon ape's blood essence has the effect of tempering the body and soul. This blood essence is also recorded in the zhuyan body-refining technique.

Lin Mo was overjoyed. The blood essence on the skull was enough for him to use.

However, this was a true treasure, and was even more precious than the Kun Peng Bone without any symbols.

Of course, this was under the premise that they did not realize that it was actually a Kun Peng Bone.

If they knew about it, it would cause a lot of fighting. After all, it was the bone of an ancient divine beast, which was already extinct...

"That's great, I'm still lacking the necessary main materials to refine magic tools, so I've made it just in time."

Some people were extremely excited and planned to bid.

However, the seller intended to barter and choose a suitable treasure from the many bids.

"Treasure... I don't have anything of value on me..."

In the private room, Lin Mo was also in a difficult position. It was not easy for him to obtain a treasure, so he did not plan to give it up just like that.

"How much can this item be sold for if we use spirit stones to bid?" Lin Mo asked the young girl behind him.

The young girl was stunned for a moment before she replied, "According to the price of spirit stones, 1.5 million upper spiritual stones is the final price."

The auction house had auctioned similar treasures in the past. She had seen the records and the last time, it was sold for 1.5 million.

“Go and call those elders over. I want to buy some of the treasures in your treasury for the auction.” Lin Mo laughed.

These elders had just gained a huge advantage, so they shouldn't reject him.

“Please wait a moment.”

The young girl left in a hurry because there were already people bidding. If she didn't make it in time, she would be punished.

“I'll exchange it with a tier 8 earth grade weapon.”

I'll give you a spiritual pill. tier 8 earth grade. I'm only one step away from tier 9 earth grade.

“I'll offer a piece of glacial Jade.”

“...”

There were many people bidding, and their prices were all very high, but none of them satisfied the seller.

Lin Mo heaved a sigh of relief. It was good that he was not satisfied. He would be able to make a bid later.

In fact, he had a few treasures on him that he could use to exchange for it.

However, he felt that this was a bit of a loss. It would be too much of a loss to trade just like that.

When he was traveling in the mountains earlier, he had once entered a Tiger's Den and almost lost his life in order to pick a golden sunflower.

It was a rank 9 Earth Class spirit herb, and it was about to reach the sky Class.

As long as it was auctioned, it would definitely be a heaven grade divine flower. When cultivating the zhuyan body-refining technique, this was a life-saving trump card.

“Why is he still not here...”

Lin Mo was a little anxious because the treasures that many people took out were becoming more and more precious.

Someone even took out a tier 7 earth grade martial art. The seller was already very tempted, but he still planned to wait.

“I’ll offer a piece of void Mystic iron, the size of a fingernail.”

A young girl’s voice rang out in the hall, causing Lin Mo to be slightly shocked.

This was the young girl who had poured wine for him before. She was an employee of the auction house.

“He’s directly bidding for me...”

Lin Mo was taken aback. This was good as well. He did not want to be targeted for the treasure he had won and get into trouble.

“Isn’t that the auction house’s maid? Why is she bidding?”

“Are you stupid? If she bids, doesn’t that mean that the auction house will buy it...”

Someone said. At the same time, he felt helpless. The people from the auction house had made their move. Who could win this?

“The seller has sent a message. He said he wants the void black iron. The deal is complete.”

The auctioneer knocked on the auction hammer and said that the seller was tempted. The void dark Iron was in exchange for the skull of the demonic blood ape.

Not long after, the young girl who had just left pushed open the door and walked in. She took out a silver plate from the space ring on her hand.

“Sir, the elder said that even though the void black iron is more valuable, he will still sell it to you for 1.5 million upper spiritual stones. Take it as a friend.”

The young lady put down the silver plate. Lin Mo carefully sensed it and instantly felt that it contained a thick blood aura.

“If that’s the case, then I’ll be impolite to refuse.”

Void black iron was very rare. If it attracted a lot of people, it could be sold for at least two million upper spiritual stones.

These elders of the Gongsun family were really generous to give him a discount of 500000 Yuan.

“What a pity. I’ve killed a general under your young master, so we’ve already formed a grudge...”

Lin Mo thought to himself, ‘I can’t be friends anymore. I hope that Gongsun Wenhao doesn’t provoke me. Otherwise, I’ll make a huge enemy out of him.’

“The next item is a complete top-grade spirit stone embryo.”

“Everyone should know that all spirit mines basically produce upper-grade spirit stones, while the border areas produce middle-grade spirit stones.”

“The most precious supreme-grade spirit stones are definitely rare.”

The auctioneer introduced with a smile. At this moment, a maidservant had already come up with a silver plate. Under the red cloth, there was a spirit stone the size of a longan.

The spiritual stone was golden in color and contained an extremely abundant amount of spiritual qi.

A complete top-grade spirit stone embryo? what was that? what was the connection between it and top-grade spirit stones?

Lin Mo’s interest was piqued. The concentration of spirit qi here was much denser than in the eastern continent. It would not be an exaggeration to say that it could breed supreme-grade spirit stones.

He had thought that supreme-grade spirit stones were nurtured in some super-large spirit mines, but it didn’t seem like it.

“I’m sure some of you are unfamiliar with this and don’t understand the use of a top-grade spirit stone embryo.”

“As long as this embryo is placed in the mine, it will produce supreme-grade spirit stones,” The auctioneer said with a smile.

If the environment was good enough, it could even be turned into a supreme-grade spirit stone mine...

Upon hearing this, Lin Mo suddenly realized that this was how wupreme-grade spirit stones were born.

### 589 Being Followed

No wonder he had never heard of a supreme grade spirit stone ever since he came here. It turned out that this was the condition for its creation...

This item was very valuable. The moment it appeared, it attracted people to fight for it. They were all disciples from large families from all over the world.

If they could bring back a top-grade spirit stone embryo, it would be a great achievement for them.

“Young master, are you not willing to bid?” The young girl poured Lin Mo a cup of wine and asked tentatively.

This was a great achievement, and he would definitely be rewarded when he returned. Why did Lin Mo not have any intention of bidding?

“There’s no need for that. This kind of achievement is nothing compared to the battle on Cloud Mist Island.”

Lin Mo sat on the sofa and drank as he watched them compete.

This piqued the young girl’s curiosity, and the elders had asked her to test Lin Mo’s background.

However, she didn’t know how to test him. However, from the confidence revealed between his brows, he should be a genius on the prodigy roll...

In the end, this embryo was taken by a genius. When he walked out of the private room, everyone was shocked.

This was actually a genius in the top hundred of the prodigy roll.

“Even such a person has come to the Cloud Mist Island. I wonder how deep he can go.”

People were whispering to each other, while Lin Mo had a carefree expression on his face. He was drinking wine and eating fruits on the table.

As the auction continued, treasures were presented one after another.

Some of them even surprised Lin Mo. There were treasures that were half a step to heaven rank.

However, it also caused a lot of people to bid for it, and the final price reached more than 15 million.

“There are indeed many treasures. Are there any heaven-grade ones?” Lin Mo asked. The finale had not appeared yet.

If the final item was a sky rank spirit herb, then should he fight for it?

“Young master, you’re being too serious. Although there are treasures everywhere on Cloud Mist Island, heaven-grade treasures are still very rare.”

The girl shook her head. She had revealed that the final treasure would be a tier 9 earth grade manual and a set of martial arts.

Many of the people present had rushed over to the auction after hearing the news.

Hearing this, Lin Mo shook his head. Although he was tempted by a tier 9 earth grade skill and martial arts, he would not pay such a high price for it.

“Then it seems like there’s nothing else that can move my heart.”

Lin Mo drank the wine in his cup. At this time, the auction had also reached its climax.

As the second last auction item was won, there was finally some movement in the private room at the front.

They pulled down the curtains, ready to bid at any time.

“Young master, the spirit herbs you asked for are ready. The elders are in seclusion, so it’s not convenient for them to entertain you.”

The door of the private room was pushed open, and another young girl walked in.

She respectfully handed a ring to Lin Mo. As for what the elders had gone to do, there was no need to say.

Lin Mo received it with a smile. After counting it, he confirmed that there were no mistakes.

He handed over 1.5 million upper grade spiritual stones to the two girls and got up to leave.

As for the finale auction, he had no interest in participating.

Besides, he didn’t have that many spiritual stones, unless he sold the spiritual herbs he had just obtained...

“There’s no need to send me off, we’ll meet again.”

Lin Mo waved his hand to stop the two girls. He walked out of the auction house, put on his bamboo hat and straw Cape.

At this moment, he looked like a loner, walking in the world without any purpose.

However, under the bamboo hat, Lin Mo’s eyes were slightly cold.

From the moment he left the auction house, he felt like he was being watched.

Someone was following him, and an even more powerful soul power was locking onto him to prevent him from disappearing into the crowd.

“It shouldn’t be someone from the auction house.” Lin Mo thought to himself.

The Gongsun family didn’t need to do this, and he had to show them that he had a high status.

Moreover, even if he had no background, the Gongsun family had no reason to touch him. *innread.com*

There was no need to ruin his own reputation for a small figure...

“So, it’s those people?”

Lin Mo suddenly recalled that when they were fighting for the Kun Peng Bone, there was a powerful soul power that wanted to probe him.

If it was them, then everything would make sense. Because of that bone, he was being targeted.

“This is really troublesome...”

Lin Mo had no choice but to walk through the crowd. He did not know when he had suddenly turned and walked into an empty alley.

His figure disappeared, as if he had merged into space.

After a short while, an ordinary-looking man followed them and looked around in confusion.

“Have I lost him...” The man muttered.

The next moment, he turned around and saw a sharp blade approaching his neck.

He made a prompt decision and retreated quickly, pulling away at the first moment.

However, he had underestimated Lin Mo’s speed. The space-severing divine sword slashed out from the void and cut through Lin Mo’s throat.

This person’s soul still wanted to escape, but how could Lin Mo let him do so?

Searing flames filled the air, and after taking him down, his soul was directly burned to ashes.

After that, he used the space-severing divine sword to split open the space and disappeared.

The flames that were left behind burned everything, including the man’s body and blood.

Furthermore, this was Lin Mo's dao fire, so it would not leave any traces.

Only someone with extraordinary strength who could sever karma would be able to find clues and trace Lin Mo.

"The person we sent out is dead..."

At this moment, a few middle-aged men walked out of the Gongsun family's auction house. One of them frowned.

They had once sent their men to keep an eye on Lin Mo, but they had died not long after...

"Can you confirm that person's identity?" One of them asked.

"No, the auction house didn't say anything and kept it a secret. It seems like this person's identity is not simple..."

"To be able to see through the kun peng bone, he is naturally not a simple person. He must be here to enter yunwu Island."

"The souls of the people he killed have my remnant soul in them. If I meet them, I will be able to sense it. It will depend on luck..."

A middle-aged man shook his head. Lin Mo had been very decisive and had not left any traces behind.

Such a ruthless method made it impossible for them to follow him.

Meanwhile, Lin Mo, who had no idea that he was being watched, had already arrived at the back gate of Cloud Mist City.

There was only one way out, and that was to go deep into the Cloud Mist Island.

"They say that this place is full of opportunities, and they hope that I can pick enough spirit herbs."

Lin Mo muttered to himself as he continued walking forward.

There were many other travelers, and most of them were in groups of three to five. It was rare to see a lone wolf like Lin Mo.

Along the way, Lin Mo saw a familiar face. It was the genius who had managed to get the best-grade spirit stone embryo at the auction.

This person's aura was not ordinary. It was like a lurking dragon that could easily burst out with a powerful force.

"As expected of an existence in the top hundred of The Prodigy roll..." Lin Mo exclaimed in his heart. There were 3000 States in the Northern Land. A mere cloud state had many hidden dragons and crouching tigers...

He just did not know how cruel the competition for the hidden Dragon rank would be.

"Haha, Yu Chen, I heard that you managed to get a top-grade spirit stone embryo. You can't control that treasure, so leave it to me."

A blue-robed young man caught up from behind and caught up with Lin Mo in the blink of an eye.

590 Golden Divine Fruit

"BOOM!"

He immediately prepared his martial arts and attacked the person in front of him. The two of them seemed to have a long-standing grudge, and the first move they made was to kill.

Many people had yet to react and were sent flying by the shockwaves of the battle. They were shocked and angry as they watched the two fight.

"What are you looking at? If you're not convinced, then come over and fight me."

The blue-robed young man said coldly as he fought with the man named Yu Chen. Both of their moves were ruthless and blocked the way of the crowd.

"That's Zhuang Zhenghao, ranked 98th on The Prodigy Roll. He's from a Holy Land."

"The other is called Yu Chen, ranked ninety on The Prodigy Roll. The Yu clan is one of the eight Guardian clans under the Gongsun clan."

“None of them are to be trifled with...”

People exclaimed. Many people couldn't help but step back. They had no way to fight against such a genius battle.

Yu Chen and Zhuang Zhenghao's battle continued for a while, but the two of them should not be in the mood to fight to the death.

The battle lasted for more than ten minutes before the two left.

The battlefield that was left behind had long been reduced to a Wolf's Lair. The earth was full of scars and potholes.

“Is this the battle prowess of a genius on The Prodigy roll...”

Everyone was shocked. Only Lin Mo was watching with great interest. At the same time, he also received some news.

Although there were rankings on The Prodigy Roll, the difference between each rank was very small.

Perhaps only the top 30 geniuses could pose a threat to him.

This was under the condition that his realm had not caught up.

Once he caught up with his cultivation level, the only ones who could be a threat to him would be those on the Hidden Dragon Rankings.

“Forget it, I don't want to think too much. Let's hurry up and go in.”

Lin Mo raised his head and realized that many people had already gone in. Some were planning to follow Yu Chen and Zhuang Zhenghao's footsteps.

He felt that it would be safer to follow these two geniuses.

After venturing deeper, Lin Mo chose another path, which led to an old mine.

It used to be a mine, but a great war broke out later on, and many treasures were buried underground.

Every time Cloud Mist Island opened, there would be a large number of people coming in to mine.

However, this place was under the control of the Gongsun family, and they had only opened it to the public due to pressure. Even so, half of the treasures mined would have to be given to the Gongsun family.

Lin Mo came here to look for some ores. Among the ores recorded in the zhuyan body tempering technique, there were more than a dozen that could neutralize medicinal properties. They could not be missing or replaced.

When he arrived, he found that there were many guards in charge of guarding the ancient mine.

They were all from the Gongsun family, and they were guarding this place to prevent anyone from digging up treasures and not handing them over.

For this, someone had once paid the price in blood. It also made people understand who was the boss in Yunzhou.

“If you want to buy ores from us, sure, but the price won’t be cheap.”

A guard said. Every time the Cloud Mist Island was opened, many people would enter.

Some of them came from the Chamber of Commerce and would come to the ancient mine to buy some rare ores.

“Dragon blood ore, sacred fire Stone, cloud copper, Dao Comprehension stone...”

Lin Mo listed out the names of more than ten types of ores, causing the guard’s eyes to widen.

Each of these ores was a precious material of tier 7 earth grade or above.

Even if the ancient mineshaft was rich in treasures, it would be difficult to gather all of them.

“Young master, do you really want to buy these? The price is not cheap...”

The guard was shocked. Was this a big business deal? which merchant group was this?

“Is there really such a thing?” It was Lin Mo’s turn to be shocked.

At first, he thought that he wouldn't be able to gather all of them, and was even prepared to only have one or two.

However, the result made him happy. Looking at the Guard's appearance, it seemed that he could really gather all of them...

"As for the enlightenment stone, I have a fist-sized one at rank 8 earth realm, five pieces of cloud pattern copper, and more than a dozen sacred fire stones."

"As for the Dragonblood stone, no one has found it yet. You'll have to wait."

The guard personally went to check the name list, and the final result made Lin Mo very satisfied.

There was indeed no dragon Bloodstone. There was also the yin-yang stone. There was no news of the chaos stone.

The rest were in stock, and there were quite a lot of them.

"Young master, how much do you want?" The guard said respectfully. Being able to complete such a large transaction, he would also be able to obtain many benefits.

"Give me three of each. Calculate how many upper spiritual stones it is. Also, if there are any dragon blood stones, chaos stones, or Yin Yang stones, remember to keep them for me."

Lin Mo warned as he took a jade talisman from the guard. It could be used to transmit messages.

After doing all this, he came to a gathering place under the guidance of the guard.

This place was built near the Kuangqu and formed a trading field. Every time Cloud Mist Island was opened, most of the people who dug up treasures here would trade with others here.

When he arrived, Lin Mo found a stall and placed two treasures there.

A scroll and a tier 9 earth grade golden sunflower.

“Little brother, how much are you selling this golden sunflower for?”

“Little fellow daoist, sell it to me. I can give you a satisfactory price.”

The golden sunflower was a tier 9 earth grade elixir, and it was very close to the heaven grade. It caused a sensation as soon as it appeared.

“It’s simple. Auction. The one with the highest price will get it.” Lin Mo chuckled.

“Of course, if you have enough dragon blood stones, chaos stones, and yin yang stones, I’ll accept bartering,” he added.

These three materials were essential. If he could not find them, he would not be able to temper his body.

When the crowd heard that it was an auction, their expressions immediately turned ugly.

Especially after hearing Lin Mo’s terms of exchange, he was even more dissatisfied.

“If it’s an auction, I’ll buy it for 4000000 upper spiritual stones.” An old man opened his mouth. He didn’t ask for the base price and directly bid.

“Can you buy a golden sunflower with four million? I’ll pay five million...”

Someone else made a bid. Although he didn’t like the way the auction was being held, the treasures here would still go to the highest bidder.

Lin Mo’s actions were common and not surprising.

There were many bidders. Three minutes later, an old woman bought the golden sunflower for 7.3 million.

“This young friend, since your scroll can be placed together with the golden sunflower, it must not be an ordinary item, right?”

The old lady who had just accepted the golden sunflower looked at the scroll on the other side and asked curiously.

However, Lin Mo was still waiting for the system's return to him and did not reply.

[Congratulations, you have successfully auctioned off a tier 9 earth rank golden sunflower.]

[Successfully triggered 7000-fold auction interest return]

[Congratulations to the host for obtaining a heaven-class rank 1 golden divine fruit.]

The golden sunflowers fell and bore fruit. After countless years, the final form was the Golden divine fruit.

It contained enough life force. Even if one was seriously injured, one could recover in an instant with a bite.

"I've finally obtained it..."

Lin Mo was overjoyed. At the same time, he was filled with regret. Back in the eastern continent, he had once auctioned off a thousand spirit fruit with return-interest.

It was also a tier 1 heaven grade, but he had used it as nourishment and devoured it.

Now that he thought about it, that was really a waste of a heavenly treasure and a waste of a divine fruit.
