3 - 38 Crescent Moon

Soon everyone—Alpha Ulric, Beta Walter, the triplets, Delta team, Xavier, Thea, and all the other Alphas—was on their way to meet up with Alpha Sharpe’s warriors outside Crescent Moon. [4](#)

Thea was in an SUV in the middle of the convoy with Owen, Liam as the driver, Xavier, and Alpha Knight—Thea made sure he was in her vehicle so he could spend time with his son. They had decided to have only one Alpha per vehicle.

When they got to Crescent Moon’s gates, Thea put the guards to sleep so they could drive in unannounced. They picked up the guards’ sleeping bodies and put them in the SUV. The convoy pulled up to the pack house and parked in a formation to take cover if they were attacked.

Everyone except Thea and Xavier got out of the vehicles in front of Crescent Moon’s pack house. Thea and Xavier would come out when it was time for Thea to use her gift.

People from Crescent Moon started coming out of the pack house and woods and gathering.

Alpha Sharpe threw Alpha Jett’s body to the ground.

“Your Alpha is dead,” Alpha Sharpe called out. “He invited my ally, New Dawn, to a summit and tried to kill them. It didn’t go the way he thought it would. He declared war and

lost. We've decided Crescent Moon cannot be allowed to continue being ruled by evil cowards. I am Alpha Sharpe of Blood Moon, your neighbor. I will take over leadership of this land and pack. You will become part of Blood Moon, subject to its laws and ethics. There will be no slaves, no omegas, and no abuse. Everyone is treated with respect in Blood Moon. Warriors will have to pledge their allegiance to Blood Moon and its values and pledge to protect, not to harm. Anyone with any problems should speak now."

Some of the Crescent Moon members whispered to each other.

"Alpha Jett's son, John Jett, is our Alpha now," someone from Crescent Moon called out.

"Bring him out," Alpha Sharpe said.

John walked out. He was a small twenty-three-year-old. Thea felt the darkness in him.

"Do you want to fight this out?" Alpha Sharpe said.

"Are you challenging me?" John said. His voice didn't carry like the other Alphas.

"I'm taking your pack," Alpha Sharpe said. "You can give it to me, or I'll take it from you."

"You must fight him," one of Crescent moon's warriors said to John.

Thea remembered the Jett family would have contingencies

because they knew they weren't Alphas. She felt into John. She didn't sense anything out of the ordinary. She tried to read his mind.

"I'll fight for my pack," John said.

That's when Thea felt it. "He has the same poison his father had," Thea said in mind link and out loud. "We need to do something."

Alaric whispered to one of Blood Moon's warriors, told him to mind link Alpha Sharpe and tell him about the poison.

"What do you suggest he do?" the warrior whispered back to Alaric. Thea heard it through Alaric's thoughts.

"Tell Alpha Sharpe to use his Alpha tone on John. Command him to stay still, then pat him down for the poison," Thea said in mind link.

Alaric told the warrior, and he relayed the message. A moment later, Alpha Sharpe commanded John to be still. Alpha Sharpe went to John, patted him down, and took the poison out of his pocket.

"What is this? Tell the truth," Alpha Sharpe said in his Alpha tone.

"Poison," John said.

"Ask him how he got it," Thea said in mind link. Alaric and the warrior relayed the message.

"How did you get it, John?" Alpha Sharpe said, making a point not to call him an Alpha.

"My father sacrificed my sister during a spell to make it," John said. 1

Crescent Moon pack members gasped in horror.

Alpha Sharpe put the poison in John's mouth.

"Eat it," he commanded.

John swallowed it and fell to the ground, dead. Xavier immediately soaked up the energy it released. Thea didn't feel anything. 1

Thea felt the power and magic of the Alpha position transfer to Alpha Sharpe.

"He can mind link Crescent Moon members now," Thea said in mind link.

"Everyone who wants to be part of Blood Moon, gather on this side," Alpha Sharpe called out, pointing to one side. "Anyone who doesn't, on the other side." He said it in mind link too.

People started moving. Most people went to the side that wanted to be in Blood Moon. Markus, the kid who assaulted Thea, went to the Blood Moon side. He had been trying to fit in with his pack back when he assaulted her. Now that there was a choice, he chose good. Pack members came out of

hiding and joined the Blood Moon side.

Thea felt into the group that didn't want to be in Blood Moon. They were all dark and intended to fight. Some thought they could become Alpha. One of them stepped forward and spoke.

"You can't do this," he said. "I challenge you for the pack." 1

Alpha Sharpe rolled his eyes.

"You really want to keep abusing wolves weaker than you, huh?" Alpha Sharpe said.

"I will fight for our way of life," the warrior said. 3

"Alright," Alpha Sharpe said. "Let's get on with this."
