

Chapter 0180

It was Thea's first time running as a wolf and knowing who she was. She remembered the sadness she had before at not having a wolf. How she thought she would never be able to do this. The feel of the wind in her fur was exhilarating. Everything about it was perfect.

The triplets could hear her thoughts and feel her emotions. They were so happy for her.

Eventually, they reached a secluded area by the river and came to a stop. They circled each other and rubbed up against each other, mixing their scents and breathing each other in.

Thea shifted back to her human form. The triplets shifted and encircled her. Thea wrapped her hands around Alaric's neck and started kissing him. Alaric slid his hands around her back and pulled her against him. Kai and Conri pressed against Thea from behind. Their hands roamed her body, sending sparks everywhere. They both latched onto their marks on her shoulders, sending pleasure shooting through her.

Thea tugged on Alaric. "Lay down," she said in mind link. Alaric got on his back, and Thea straddled his

waist. As she lowered herself onto his hard length, Alaric's eyes went wide, and he lifted her by the hips.

"We don't have a condom," Alaric said out loud.

"It's okay, Ric," Thea said.

"The doctor hasn't given us the okay," he said.

"We don't need it," Thea said.

A growl sounded from Kai. Thea turned to him, and his eyes were black. Damon was growling.

"It's okay, Damon," Thea said. She reached over and pulled him, so their foreheads were touching. "I can sense these things now. Maybe I just needed the healing of my wolf, or maybe the moon goddess did something when she brought me back. I don't know, but I can feel it, and it feels good. It feels perfect."

Damon's eyes softened. "We can have pups?" he thought to her.

"Yes," Thea said. "We can have pups."

Damon kissed her, hugged her, smelled her neck, nibbled his mark on her shoulder, then he let Kai have control again.

"Do you mean it?" Kai said out loud.

“Yeah. When I put my attention in here,” Thea held her belly down low. “It feels perfect. Whole. Ready.”

Kai smiled, kissed her, then sat back.

Thea looked over at Conri. Tears were streaming down his face. She pulled him in, hugged him, and kissed him.

“I love you,” Thea thought to him.

“I love you more,” Conri thought back.

She let go, and Conri sat back.

Thea looked at Alaric. “Are you okay not using a condom?” she said in mind link.

“Are you okay with possibly getting pregnant right now?” Alaric said in mind link so everyone could hear.

“Yes,” Kai and Conri replied.

Her heart soared, and they felt it.

“After thinking I wouldn’t be able to have your pups, I don’t want to wait,” Thea said. “If I’ve learned anything the past few months, it’s that the future is uncertain. I don’t want to take the ability for granted while we have it. What about you, Ric?”

“I’ve wanted to put a pup in you for as long as I can

remember,” Alaric said as he lowered Thea onto him.

Thea smiled. She leaned down and kissed him.

Conri got behind her and started massaging her backside. She was already dripping wet with plenty of juices to spread, and he easily slid into her. She sat up and reached for Kai. Kai stood and came closer. Thea guided him into her mouth, humming around his thickness, savoring everything. This was the first time since shifting and getting her memory back that they were being intimate. The tingles she felt before shifting were nothing compared to the sparks that erupted now.

“Kai, fuck my mouth,” Thea thought as she looked up at him.

She could feel his reaction to her words. It turned him on when she told him what to do. It also turned him on when she talked dirty. He’d always do what she told him to do. He wanted her to tell him what she wanted. He craved it. She understood that now.

Kai held her head and thrust into her mouth. She relaxed her throat and took him deep. Sparks filled her. Kai could be submissive, he could be tender, but he could also be dirty and rough. Thea wanted it all. She swallowed his cum greedily when he came,

enhancing her own climax.

He pulled out of her mouth. He bent down and kissed her deeply. Then he took a breast in his mouth and sucked on her nipple as his hand slid down to her clit. He sat back, pulling on her nipple until it popped out of his mouth and back in place. He kept his fingers on her clit, massaging the sensitive area.

“Go on,” Kai thought. “Mark Alaric.”
