

The Abandoned Husband Dominates –

1161 This Doesn't Make Sense!

Jordan's body slowly landed at the mouth of the volcano. Everyone watched with their eyes wide open.

Rong Bingshao and Lauren, who were far away in the capital, saw that Jordan was jumping down in ordinary clothes without any protective gear. Under such circumstances, it was definitely a suicidal act to withstand the high temperature without protection!

"Grandpa, Dad, I hope you can see this! I've avenged you! The Rong family will always be the greatest!"

Rong Bingshao was so excited that tears welled up in his eyes. He believed that Jordan would definitely not play any tricks this time.

Previously, when Rong Bingshao asked Jordan to jump off the building, he had been stopped by someone. Someone had clearly set everything up in advance to help Jordan.

However, this time, Rong Bingshao chose the volcano. He did not believe that Jordan's subordinates could enter the volcano in advance and set up something for Jordan.

In Rong Bingshao's opinion, a volcano was hell on earth. Whoever went there would die!

Jordan descended calmly. He was not afraid of this hellish scene at all!

As he fell, Jordan could already feel the intense heat scorching his body.

However, Jordan's body had been injected with the serum. Under normal circumstances, he would not die from the cold or the heat. He could still withstand this temperature.

Creating something out of nothing!

The moment Jordan fell into the volcano, a huge ice block was suddenly created where he landed!

A huge piece of ice suddenly appeared in the volcano and instantly turned into gas. It was like a balloon exploding. With a bang, the moment Jordan stepped on the ice, he was pushed back by a powerful gas!

Creating something out of nothing!

It was like this that Jordan used his gold-level ability. A spring appeared under his feet. With the help of this recoil and his top-notch jumping ability, he bounced back!

Jordan's body kept rising into the air. He returned to the plane!

The subordinate, who did not have the time to close the plane door, was just about to watch Jordan turn to ashes when he suddenly saw Jordan return back safe and sound. He was stunned.

“Uh...”

The subordinate didn't know what to say.

Rong Bingshao was so shocked that his mouth fell open.

“What... what... what the hell is this?!”

When Lauren saw this, she heaved a sigh of relief, feeling happy for Jordan.

‘Hubby succeeded! He really obtained a new ability!’

Lauren knew that Jordan would be fine even if he jumped into a volcano. That was not something that could be done with a simple serum and Deity abilities. He definitely had the help of a new ability!

At this moment, Rong Bingshao's phone rang. It was Jordan.

Rong Bingshao answered the call in a daze.

On the other end of the line, Jordan said, “I've fulfilled your request and jumped into a volcano. It's time for you to fulfill your promise.”

Rong Bingshao held his tongue for a long time. “Jor... Jordan! What... what trick did you use? How did you cheat this time?! How did this happen? Why?! Why were you ejected after jumping into the volcano? And you were fine! This doesn't make sense. This doesn't make sense!”

Jordan smiled. “Hehe, you just said that this world has already entered the era of mutants. Mutants are illogical products. Victoria can control other people's minds. Is that scientific? You have lightning speed. Is this science?”

Rong Bingshao said, "We're mutants. We have superpowers, but you don't! You trash only know how to predict! Why are you fine?!"

Jordan said, "Why? Just because I'm the only Deity in the world! I'm a person appointed by God! Even if I fall into a volcano, God won't let me die!"

Rong Bingshao swallowed hard. He was really puzzled. Could it be that God really didn't want him to die?

From the looks of it, this was the only explanation that made sense.

Rong Bingshao said, "No, I don't believe it. This must be a coincidence. I want you to jump again! This time, I want my subordinates to jump with you!"

Hearing this, Jordan was furious. "B*stard! We clearly agreed that you would fight me to the death if I jumped into the volcano. I've already fulfilled your request. Why should I jump now?!"

Rong Bingshao laughed. "Hahaha, Jordan, you don't dare anymore, do you? You know that if you jump again, you will definitely die, right?! I told you to jump into the volcano just now, but I didn't say how many times you have to jump. Now, I'm telling you, you have to jump twice before you can meet me and your wife! Jump quickly!"

Jordan was furious. "Damn it, after I jump a second time, you might make me jump a third and fourth time. I'm a Deity. Do I have to be played by you like this?"

Rong Bingshao said, "Jordan, don't worry. As long as you jump a second time, I will definitely keep my word and arrange a meeting with you immediately. This time, I'll get my subordinates to jump with you. I want to know clearly how you escaped from a dangerous place like the volcano!"

Jordan sneered. Rong Bingshao wanted his subordinates to watch him experience it with him so that they could see through Jordan's methods.

Jordan said, "Alright, I'll believe you one last time. Remember, I'll only jump once more!"

Rong Bingshao called his subordinate.

The subordinate received Rong Bingshao's order. "Master Rong, yes, I am here. What? Jump into the volcano with Jordan? No, no. I don't dare to disobey. Yes! I promise to complete the mission!"

After receiving Rong Bingshao's order, the subordinates became extremely nervous. In a place like a volcano, it would be fine if it was lava that had already turned solid. Stepping on it would be like stepping on a stone.

However, if it was a volcano that was still erupting, one would definitely die if they jumped in!

Seeing how nervous the other party was, Jordan smiled and asked, "Why? Are you afraid? It looks like your master doesn't take you seriously either. He actually asked you to jump into the volcano to die."

The subordinate said, "Hmph, if you can jump back from the volcano, so can I! This time, I'll grab you and jump in together. If you can come back alive, so can I! Moreover, I can tell what trick you used to survive. I'll come back and report to my master and let him know your secret!"

If Rong Bingshao knew in advance that Jordan could create matter out of thin air, he would never have dared to meet Jordan, let alone fight him to the death. However, this subordinate thought too highly of himself. He actually thought that he really had a chance to know Jordan's secret and tell Rong Bingshao about it.

Later, Jordan would jump into the volcano with this subordinate. By then, this subordinate would indeed have a chance to see through Jordan and create a big ice cube.

However, even if he could see it, he would never have the chance to come back alive and tell Rong Bingshao.

Jordan smiled. "You're indeed loyal and unafraid of death. The quality of your master's subordinates is much better than before."

The subordinate was stunned. "What do you mean? You... you know who my master is?"

Anyway, this person was about to die. There was no need for Jordan to continue pretending. "Rong Bingshao!"

The subordinate was shocked. "You... you actually know it's Master Rong!"

Jordan smiled. "I'm a Deity. In addition, I've been talking to Rong Bingshao for so long. How can I not guess from his tone? Alright, cut the crap. Your time in the human world has come. Thank your parents for bringing you to this world. You'll leave this world soon. Remember to be more polite if you encounter a Deity in your next life."

The subordinate was not frightened by Jordan. He stopped the helicopter and grabbed Jordan's hand.

"Come! If you want to die, let's die together! If you want to live, let's live together! If I die, you can forget about living too!"

With that, he pulled Jordan down from the helicopter!

Rong Bingshao and Lauren also saw this scene.

Rong Bingshao was very excited. He didn't know what Jordan's outcome would be this time.

As for Lauren, she was no longer as nervous as before. She knew that her husband's abilities had improved again. Nothing would happen to him if he jumped into a volcano.

In the air, the subordinate grabbed Jordan's hand tightly. He was even hugging Jordan's body, his face filled with fear.

"Disgusting, get lost!"

Jordan pushed him away. Was he worthy of dying with Jordan?

Seeing this, Rong Bingshao was a little worried. "Ah, the two of them have separated, but it doesn't matter. They jumped at the same time and landed at the same place. Their ending should be the same. Either they die in the volcano at the same time, or they rebound at the same time."

However, the truth was not what Rong Bingshao expected.

The two of them jumped up and fell at the same time.

"Ah!"

The subordinate shouted ferociously. He could already feel the suffocating temperature.

However, even under such circumstances, he was still staring at Jordan with his eyes wide open. He realized that Jordan was smiling.

It was a confident smile!

"Haha, I won't die. Jordan must have set up a trap below. I'll be ejected with him. I want to see Jordan's secret carefully before going back to tell Master Rong!"

The subordinate believed that he would not die.

Then, he really saw a very large piece of white ice suddenly appear out of thin air just as Jordan was about to land on the red-orange magma!

"This is..."

Before the subordinate could react, the ice instantly turned into gas.

Bang!

Just like before, Jordan was ejected!

However, the subordinate could only watch helplessly. Nothing appeared under his feet, and he was not shot out by the gas. He could only fall into the lava.

“Ah! No! So this is Jordan’s secret! He has new abilities!”

The subordinate wanted to shout and tell Rong Bingshao what he knew. Unfortunately, he could only shout in his heart. He didn’t even have the ability to shout.

Soon, Rong Bingshao’s subordinate turned to ashes.

Within moments, Jordan was catapulted onto the plane again. He piloted the helicopter and landed in a safe area far away from the volcano.

Rong Bingshao was dumbfounded.

On the other hand, Lauren was overjoyed.

“How... how did this happen...”

Rong Bingshao was shocked again, even more so than last time. This time, his subordinates had jumped into the volcano with Jordan.

However, the two of them had different fates.

“Could it be that... a Deity really won’t die? Will God really help him?”

Rong Bingshao didn’t believe in God in the past, but now, he began to doubt his existence. Otherwise, he wouldn’t be able to explain the situation just now.

At this moment, Jordan had already called.

Jordan said, “Buddy, I’ve already done as you said and jumped again. I hope you won’t go back on your word again. I want to see you and my wife. I don’t want to play these childish games with you anymore!”

Rong Bingshao was a prideful person. He didn’t want to go back on his word again and again. At this moment, he was still in shock and confusion.

“Jordan, how did you do it? What methods did you use?!”

Of course, Jordan would not tell him about his new ability. He smiled. "I told you, I'm a Deity. A Deity is the greatest existence in the world. God created a Deity and won't let a Deity die so easily. It's God who protected me."

Rong Bingshao retorted angrily, "Bullsh*t! Nonsense! I've checked your information. You're not a Christian at all. You don't believe in God at all!"

Jordan immediately took out a cross from his pocket and showed it to Rong Bingshao. "Who said I don't believe in God? Look, I always carry a cross with me!"

Of course, Jordan did not carry a cross with him. He had just used his superpower to conjure it.

Rong Bingshao looked at it through the video and cursed. "That's a f*cking Chrome Hearts Necklace! I have one too!"

Jordan felt a little awkward for a moment. He usually liked the silver ornaments of Chrome Hearts too much, and the symbol of the Chrome Hearts, especially the necklace, was a cross. Therefore, when he wanted to create a cross, he immediately created a pendant from the luxury brand.

Jordan said, "Who cares what brand the cross is from? It's just a cross! You saw it just now. I jumped with your subordinates. I didn't bring anything. We landed at the same place. But in the end, he died, and I was fine. Tell me, if not for God's blessings, how could I be fine? Or do you think I installed something in my volcano? You're not that stupid, are you? It's a thousand degrees there! How can I tamper with it?!"

Rong Bingshao scratched his head in frustration. "Wait a minute. I'll call you later!"

1163 Final Battle!

Rong Bingshao still did not agree to meet Jordan. He was very puzzled by the fact that Jordan had jumped into the volcano and returned without harm.

As the child of one of the most advanced families in the world, he had always respected science very much, even though he had now obtained Lightning Speed.

Even with his lightning speed, Rong Bingshao believed that he did not violate the principles of science. He only violated the limits of the human body.

Rong Bingshao looked at Nick. "Nick, you saw what happened just now. Why do you think Jordan isn't dead, but our subordinate is?"

Nick was very good at combat, but he couldn't figure out this problem. "Master Rong, this is indeed unbelievable, but we still underestimated the power of a Deity! A Deity is really inviolable!"

Rong Bingshao waved his hand. "Bullsh*t! I don't believe in that! If the Deity was really that awesome, would Jordan have let his uncle snatch Victoria away? Would I have almost slept with Victoria? Would his wife still be in my hands? It would be easy for me to kill Lauren now! Moreover, if not for our people, he would have died at the hands of those two mutants!

"Call our family's scientific experts over. Call the physicist, Steve!"

Nick said, "Yes!"

Soon, a well-groomed old man in his 80s walked over. He was the greatest physicist in the world.

"Master Rong."

Steve greeted Rong Bingshao respectfully.

Rong Bingshao nodded. "Steve, take a look at this video first."

Rong Bingshao played all the videos of Jordan jumping into the volcano. Steve was dumbfounded and in disbelief.

"Steve, tell me, why didn't Jordan die after jumping into the volcano? Did he send someone to plant an ejection device or something?"

Steve quickly denied it. "Oh, no, no, Master Rong, that's impossible. The temperature of the lava in the volcano is so high that any device will instantly turn to dust. It's possible if it's a robot, but Jordan is a human, it's impossible for people like us to enter in advance. We'll die if we do. He definitely wouldn't have been able to tamper with it in advance."

Rong Bingshao actually knew that this was unlikely, but he couldn't think of any other reasonable explanation. "Then why did he bounce back?"

Steve watched the video a few more times and said, "Unfortunately, the camera was too far away, so I couldn't see clearly what happened when he jumped into the volcano. However, from a scientific point of view, this is not impossible. Have you watched Ice Age? More than 10 years ago, when Chris was making that animated movie, he consulted me about science."

Rong Bingshao hurriedly said, "Ah, I remember. There was a scene where a mammoth stepped on ice and fell into the magma. It was sprayed up by the rapidly vaporizing steam and was safe and sound. Is it that one?"

Steve nodded.

Rong Bingshao asked curiously, "You're saying that Jordan also brought ice with him when he jumped? But in the video, he didn't bring anything with him when he jumped."

Steve said, "This is also something I don't understand. Not to mention that he didn't bring any ice with him, even if he did, it's actually impossible for him to have that kind of ejection."

"During the descent, the ice will dissipate. It won't reach the bottom at all, so it won't eject him. Moreover, the height of his ejection is also unbelievable. It's really not high or low. He can reach the helicopter. It's really quite amazing!"

Rong Bingshao kept scratching his head. "Even you said that it's impossible for him to complete all of this with ice! Could it be that a large piece of ice will suddenly jump out of the magma?! Ah! Damn you, Jordan! Why are you always so lucky?!"

Steve shook his head. "Deities are indeed different from ordinary people. Master Rong, I think Jordan is far more difficult to deal with than Randall. Why don't we forget our previous grudge and reconcile with him? Let's work together to defeat Randall and split the world equally. That's the best strategy!"

Rong Bingshao was furious. "Steve! You're really muddle-headed! Have you forgotten who killed my grandfather and father?! It's all because of that b*stard Jordan!"

"Of course I have to kill Randall, but Jordan has to die too! This b*stard Deity. Apart from predicting things, he's useless. He must have predicted where he could land in the volcano that could keep him alive. He's just an incompetent piece of trash!"

"Alright, since I can't play you to death, I'll deal with you myself!"

Rong Bingshao picked up the phone again. He was finally going to fight Jordan!

Jordan received a call from Rong Bingshao.

"Hey!"

Jordan was very anxious. He was afraid that Rong Bingshao would go back on his word. Now that Lauren was in his hands, Jordan was in a very passive position.

Rong Bingshao said, "Jordan, Deity Jordan, right? You said that God has been protecting you. You said that you won't be killed, right? Alright, I'll personally test if God will stop me from killing you!"

Jordan immediately smiled. "You're finally willing to see me!"

Rong Bingshao said, "That's right. Do you want to know who I am? Do you want to see your wife again? Come to the Cadillac Center in the capital. I'll wait for you there! Oh, I'll

remind you not to inform Lionel and the others. Also, it's best if you come alone. I'm not afraid of you having more people, but no matter how useless you are, they won't be able to help you."

Jordan smiled. "Don't worry, I'll be there alone. I'll say the same thing. You have to ensure my wife's absolute safety. As long as you don't hurt her, you can do whatever you want when the time comes."

Rong Bingshao agreed. "Alright! See you later!"

Jordan hung up and heaved a sigh of relief. He could finally meet that little b*stard Rong Bingshao

Lightning speed, eh? Hehe, what a powerful ability. It looks like I have to think about how to defeat you."

In fact, Jordan did not completely look down on Rong Bingshao. It would definitely be very troublesome if he used his Lightning Speed well. However, Jordan was confident that Rong Bingshao would not surpass him within a few years.

Even with abilities of the same level, Rong Bingshao could not defeat Jordan, let alone someone of a higher level than him.

"Lauren, wait for me. I'm here to save you!"

Jordan did not waste any more time. He immediately changed planes and rushed to the capital!

In the capital, in the Cadillac Center.

It was originally called the Five Pines Arena and was the basketball venue for the 2008 Olympic Games. It could accommodate nearly 20,000 people.

There were also many singers holding concerts here now. Sometimes, they would also hold ice hockey events.

Rong Bingshao had already arrived with his subordinates and Lauren. He expelled all the other personnel and strengthened the nearby defenses and surveillance to prevent Jordan from barging in to save Lauren.

Jordan had never thought of taking any risks with Lauren's life. He had never even considered arranging for his men to barge in. Rong Bingshao could play with him however he wanted. Anyway, with Jordan's current strength, Rong Bingshao could not defeat him no matter what!

After arriving in the capital, Jordan asked Dragon and Salvatore to camp outside the Cadillac Center and wait for Jordan's orders or signals. He then walked into the Cadillac Center alone.

As soon as he reached the entrance, a subordinate of the Rong family walked over with a laser gun. "Jordan, you're indeed bold. You dare to come alone."

Jordan stopped in his tracks and smiled. "Didn't you ask me to come alone?"

The other party smiled. "Jordan, don't blame me for not reminding you. Today is the day you die. You will soon die at Master Rong's hands!"

Jordan smiled calmly. "Is that so? I'm looking forward to it."

The subordinate snorted. "Arrogant fellow! I have to scan you first before you can enter."

His subordinates checked Jordan's body to confirm that he was not armed before letting him in.

When Jordan walked forward, the subordinate in charge of the physical examination said to another person, "He doesn't have any weapons. He will definitely be played to death by Master Rong. Haha."

Another person said, "That's for sure. Our master has lightning speed now! He can instantly cut his throat! It's useless even if he knows how to predict things. Haha, a Deity is going to fall today!"

Jordan's emotions did not change at all. Now that he had possession of a gold-level ability, he felt like the creator of the world.

When he saw these people again, he felt that they were very insignificant. They were not worthy of Jordan's attention, let alone his emotional fluctuations.

Soon, Jordan arrived at the venue of the Cadillac Center under the lead of another of Rong Huangde's subordinates. The venue was an ice hockey venue. There were nearly 20,000 empty seats.

Rong Bingshao's subordinates were all standing beside him. Jordan saw Nick at a glance.

Although this was the first time Jordan had seen Nick, he could feel the aura of a great general on him. It was obvious that he was Rong Bingshao's right-hand man.

Nick was also staring at Jordan with a fierce and determined gaze.

Meanwhile, Rong Bingshao had his back to Jordan. He stood with his hands behind his back, deliberately not revealing his true appearance.

If Jordan was not wrong, he wanted to wait for a while before suddenly turning around and scaring Jordan. He wanted to ask Jordan if he was surprised to see that he was not dead.

Jordan did not expose him. He stood there and waited for Rong Bingshao to show off.

“Master, Jordan is here,” a subordinate reported.

“Yes.”

Rong Bingshao slowly turned around and looked at Jordan. “Jordan, long time no see. Do you still recognize me? Huh?”

Jordan saw that Rong Bingshao was indeed more mature than before. He had even deliberately grown a beard.

Seeing that Rong Bingshao was enjoying this moment, Jordan played along. He pretended to be surprised. “Rong Bingshao? Aren’t you dead? How can you be alive?”

Rong Bingshao laughed. “Hahahaha, Jordan, you didn’t expect this, did you? I’m not dead! I’m still alive!”

At the side, Nick also said, “Jordan, our Rong family is not as easy to deal with as you think. Master Rong Huangde and Master Bailun have already prepared everything. How can the Rong family fall into your hands just like that?!”

Jordan smiled. “Rong Huangde and Rong Bailun are indeed far-sighted. Bingshao, I’m very happy to see that you’re not dead. Actually, there’s no grudge between us.”

Rong Bingshao said angrily, “Stop pretending! Now you’re afraid and saying that you regret killing me? It’s already too late! I really almost died once, but my grandfather saved me! Jordan, I’m going to take your dog life today to avenge myself and my grandfather!”

Jordan said calmly, “No problem. I’ll give you a chance to take revenge, but I want to see my wife first.”

Rong Bingshao clapped his hands. Two subordinates pushed a chair over. It was Lauren, who was tied up.

“Lauren!”

Jordan became nervous when he saw Lauren. He was very worried about Lauren's safety.

"Hubby!"

Lauren cried happily when she saw Jordan.

Jordan nodded at Lauren and used his eyes to tell her that he had received Lauren's message and obtained a gold-level ability from the Immortal Lake.

"Yes."

Lauren nodded excitedly. She understood what Jordan meant.

Rong Bingshao said, "Jordan, as you can see, not a single strand of your wife's hair is missing. I didn't bully her either. I'm still a man of my word, right?"

Jordan said, "If you didn't keep your word, I would have activated my weather weapon long ago and killed all of you!"

Rong Bingshao said, "I don't want to create a scene in the capital, that's why I asked you to come alone. Don't worry, I won't have so many people fighting you. I can deal with you alone!"

Rong Bingshao was very confident.

Jordan looked at Rong Bingshao. "I didn't expect you to have the qualifications to be a mutant. Moreover, you obtained lightning speed."

Rong Bingshao was very smug. "Hahaha, I didn't expect this either. This is fate. I'm also the chosen one! Today, I'm going to slowly play you to death in this arena!"

Jordan said, "Then quickly get the others to leave. I promise to fight you one-on-one and see who wins!"

Now that Lauren was in their hands, Jordan was not afraid if it was just these small fries. He could save her by force.

However, with Rong Bingshao around, Jordan could not act rashly.

Rong Bingshao was definitely faster than Jordan. He had a chance to kill Lauren before Jordan could save her.

The reason why he asked the others to leave and not let them watch was because once Jordan used his gold-level ability, these subordinates would immediately harm Lauren or bring her away. This would not be beneficial to Jordan's subsequent rescue.

Rong Bingshao was confident that he could kill Jordan alone, so he said confidently, "Alright, everyone, get out. I want to fight Jordan one-on-one! I'm going to kill a Deity here today!"

1165 Humiliating Jordan?

Rong Bingshao was very confident now, but as his head general, Nick couldn't deny that he was a little worried. He did not dare to let Rong Bingshao and Jordan fight one-on-one.

Nick said, "Master Rong, Jordan is alone now, and his wife is also in our hands. You don't need to fight him one-on-one. We can kill him now."

Hearing this, Lauren became nervous. Did they want to win with numbers?

Jordan narrowed his eyes. Even if they wanted to attack together, Jordan was not afraid! However, Lauren's safety was probably not guaranteed.

Swish!

At this moment, Rong Bingshao suddenly appeared beside Jordan. He even slashed Jordan's arm with a dagger!

Soon, a small amount of blood flowed out of Jordan's arm.

Jordan was indeed amazed by Rong Bingshao's speed. He practically appeared in a flash. After injuring Jordan, he instantly returned to his original position.

Everyone praised Rong Bingshao loudly when they saw him injure Jordan, who was a few meters away, in the blink of an eye.

"Lord Rong is mighty! He instantly stabbed a Deity!"

"Master Rong is simply as fast as lightning. Jordan, that piece of trash, couldn't even react in time. Master Rong has already completed his assassination!"

"What bullsh*t Deity? Even ten of him can't compare to Master Rong!"

Rong Bingshao also held his knife proudly and said to Nick, "Nick, you saw how I slashed Jordan just now. He had no chance to react or dodge! If I had stabbed his throat just now, guess what would have happened? Do you still think I can't kill Jordan one-on-one?"

Nick said, "I wouldn't dare. I admire Master Rong's ability very much. I know that you will definitely be able to kill Jordan with your own hands and avenge your previous humiliation! However, in order to prevent any accidents, I'll leave two people here. I won't let them interfere. You will definitely kill Jordan yourself."

Rong Bingshao waved his hand. "Up to you. Just don't interfere in my fight with Jordan. Last time, I died at his hands in a one-on-one fight. This time, I want to take revenge! And I want it to be fair and square!"

Rong Bingshao was young and impetuous. He wanted to avenge himself and his grandfather fair and square.

But in fact, it was also because he had lightning speed and thought that Jordan did not have superpowers.

If Rong Bingshao didn't have lightning speed, he wouldn't have fought Jordan one-on-one.

"Hubby!"

Lauren looked at Jordan nervously. She was very afraid when she saw Jordan being stabbed just now.

Although she knew that Jordan might have obtained a superpower, Jordan's superpower might not be able to surpass Rong Bingshao's speed!

Rong Bingshao's lightning speed was very powerful in a one-on-one battle. In Lauren's opinion, Rong Bingshao's black-level talent was comparable to Victoria's purple-level ability.

Actually, Jordan had already expected Rong Bingshao to come over and stab his arm. He had expected that the other party would only stab his arm for testing, so he did not dodge.

If Rong Bingshao dared to do this again, he would not have hurt Jordan so easily.

Jordan nodded at Lauren. "Honey, don't worry. I'm fine."

Soon, Lauren was brought out by Rong Bingshao's subordinates. Nick and the others also left the venue, leaving only two people sitting in the third row.

The venue then closed, leaving only four people in the huge venue.

Rong Bingshao was not in a hurry to attack Jordan. In his opinion, killing Jordan would only take a second. He was not in a hurry at all.

He asked Jordan, "Do you know what this place used to be called?"

Jordan said, "Of course. It was called Five Pines Arena."

Rong Bingshao said, "Yes, did you know that the first time I went abroad, I came here to watch the Olympic games in 2008? I still remember watching the men's basketball match between China and the US."

Jordan smiled. "You came to the US in 2008? No wonder your English is so good. At that time, you were still wearing diapers, right?"

Rong Bingshao immediately said angrily, "B*stard! I was already five years old at that time. Moreover, Chinese children don't wear diapers at all! Only you Americans wear them! Hehe, I still remember that in that match, our basketball team beat your team by many points. This is the difference between you and us!

"Jordan, you will never be able to defeat the great Rong family!"

Jordan shrugged helplessly. "Rong Bingshao, after you came back from the dead, you still talk so much nonsense. Sure, say whatever you want. If you die later, you won't have the chance to say anything."

Rong Bingshao was furious. "B*stard! Who gave you the courage! You want to kill me? I'm a black-level mutant now. I have the strongest ability among all black-level mutants! Even Lincoln and your sister from the Mutant Tribe are not my match, let alone you. Hehe, don't think I don't know that you lost to your sister previously. You can't even defeat her, yet you still want to defeat me?"

The two subordinates clamored.

"Master Rong, don't waste your breath on him. Kill him!"

"Kill him!"

Rong Bingshao snorted. "It's too easy to kill him. I don't want him to die so quickly. He let me die once and I almost left this beautiful world. I want to play with him and humiliate him to vent my anger!"

With that said, Rong Bingshao took out a tissue from his pocket and spat!

He spat on the tissue paper.

Jordan frowned. 'What kind of trick is this brat playing again? Fighting with children is so troublesome!'

When the other two subordinates saw this, they immediately understood Rong Bingshao's intentions.

"Haha, Master Rong is as fast as lightning. He slashed Jordan just now, but he didn't even react in time. If a piece of paper was stuck to Jordan's face, he definitely wouldn't be able to react in time."

"Hahaha, Master Rong, I have phlegm. Let me spit too!"

Rong Bingshao smiled and activated his lightning speed. He arrived in front of his subordinates at lightning speed. "Alright, spit."

He spat!

His subordinate also spat on the white tissue paper.

Smack!

Rong Bingshao suddenly slapped the other party. "You've f*cking spat on my hand!"

"Sorry, sorry!"

His subordinate hurriedly kowtowed and apologized.

Rong Bingshao held up the disgusting piece of paper towel with his right hand and smiled at Jordan. "Deity Jordan, you must have been so worried about your wife that you haven't been eating or drinking for the past two days. You didn't even wash your face, right? I'll help you wash it, hehe."

1166 Humiliation!

Rong Bingshao wanted to wipe the spit-covered tissue on Jordan's face to humiliate him!

As a Deity, how could he accept such an insult?!

And Rong Bingshao was deliberately humiliating Jordan because he was a Deity. He felt that victory was in his hands and killing Jordan would be easy. Therefore, he was not in a hurry to attack. Instead, he started mocking him.

"Hahaha... that good-for-nothing Deity must have peed his pants in fear. Master Rong has lightning speed. He can't defend himself at all!"

"That's right. Jordan knows what Master Rong wants to do, but there's nothing he can do. Hahaha."

The two subordinates mocked Jordan.

However, Jordan was not angry at all. Instead, he said very calmly to Rong Bingshao, "Oh, you want to help me wipe my face? That will be troublesome."

Rong Bingshao frowned and thought to himself, "Damn Jordan, you're still pretending to be calm. You didn't even react when I slashed you just now. Let's see how you can stop me from covering your face with a piece of tissue paper with your bare hands!"

Rong Bingshao laughed. "Alright, I'll go over then."

At this moment, Rong Bingshao was about 10 meters away from Jordan. He was in the third row of the audience, while Jordan was in the ice hockey arena in the center.

Although it was more than 10 meters and looked like a certain distance, if it were an ordinary person, the opponent would see him and know his next move. Naturally, he would be on guard. In addition, it would take a few seconds to cover this 20-meter distance.

Even without considering the starting point, for example, in terms of human speed, Bolt had run for 9.58 seconds in the 100-meter record, while it only took 1.61 seconds for him to reach the 20-meter mark.

In other words, it would take at least two seconds for an ordinary person to reach Jordan from about 20 meters away.

These two seconds were enough for Jordan to dodge.

However, Rong Bingshao didn't need two seconds. He didn't even need one.

Therefore, Jordan had to do something in advance. Otherwise, he would really be humiliated by Rong Bingshao!

Rong Bingshao looked at Jordan and smiled sinisterly. Suddenly, with a whoosh, he disappeared from the audience!

Whoosh...

A gust of wind blew and Rong Bingshao instantly appeared in front of Jordan!

"Ah!"

Rong Bingshao cried out and fell to the ground in pain. He seemed to have been hit in the face by something.

Rong Bingshao was caught off guard. As he was hit, his right hand that was holding the tissue involuntarily relaxed. The tissue fell from the sky and landed on his face.

“Urgh...”

Rong Bingshao could not help groaning after tasting the three people’s saliva.

“Damn it, which b*stard’s saliva is this? It stinks!”

Rong Bingshao cursed.

“Master Rong!”

The two subordinates quickly jumped down from their seats. They saw Jordan smash something accurately onto Rong Bingshao’s face.

They walked down and saw that it was a durian...

“It’s killing me. What did Jordan throw...”

Rong Bingshao asked as he wiped his face.

His subordinate brought the durian over and said, “It’s a durian.”

Rong Bingshao and the other two looked at Jordan with their mouths agape. Jordan stood there calmly, not moving at all.

He knew that if Rong Bingshao wanted to humiliate him, he would definitely come up to him and cover his face with that disgusting tissue.

Rong Bingshao’s route was confirmed. He would definitely arrive in front of him and not attack from behind.

Actually, with Rong Bingshao’s speed, it would be difficult for Jordan to guard against him if he did not tell him which direction he attacked from.

Since Rong Bingshao had revealed it so arrogantly in advance, why should Jordan be polite?

He could just throw a durian at him in advance.

Rong Bingshao stood up from the ground and questioned, “Jordan, where did you get the durian?!”

Jordan said, “I picked it up from the ground.”

“From the ground? Was there a durian on the ground just now?” Rong Bingshao asked his two subordinates.

The two subordinates looked at each other. They were here to kill someone, not to clean up. There were many miscellaneous items in the venue, so they didn't notice any durians.

“I'm sorry, Master Rong. We don't know either.”

“There seemed to be one.”

Rong Bingshao could only admit his bad luck. “Your Deity ability is still useful. You predicted my route and it just so happens that you had a durian beside you to save you.”

One of his subordinates said, “Master Rong, actually, you don't have to stick it in front of him and wash his face. You can splash it on his face when you're two to three meters away from him.”

Another subordinate said, “That's right. We happened to drink too much water just now and wanted to pee. If Master Rong doesn't mind, you can splash the urine on Jordan's face. Hehe.”

Rong Bingshao smiled. “Alright, you guys pee.”

The two of them immediately took off their pants to take a leak.

However, at this moment, Jordan suddenly threw a dart.

Swish!

“Ah!”

The dart killed two birds with one stone. The two of them became eunuchs at the same time and screamed in pain.

This b*stard. How dare he be so disrespectful to Jordan? How could Jordan tolerate them?

“Damn it, he brought a hidden weapon!”

Seeing this, Rong Bingshao was so frightened that he hurriedly used his lightning speed to leave that spot. He walked back and forth in the arena. As he was too fast, Jordan could not see his exact location. He only saw him appearing here one moment and then there the next. He couldn't figure it out.

Jordan sneered. Rong Bingshao was really afraid of death.

Jordan said, "Stop running. It's making me dizzy. Do you still want these two subordinates? Otherwise, I'll kill them."

Seeing that Rong Bingshao did not respond, Jordan used the dart again and killed the two subordinates within seconds.

"Damn it!"

Rong Bingshao immediately became serious. Since Jordan was armed, he might be injured. Rong Bingshao had to strike first and kill Jordan in the shortest time possible!

"You really came prepared! Alright, I won't waste my breath on you anymore!"

A green light suddenly appeared in Rong Bingshao's swaying figure!

"It's a laser sword!"

Jordan also noticed this. Previously, Rong Bingshao had only taken out a dagger and it was not a big threat to Jordan's life.

However, he was using a laser weapon now. This thing could hurt Jordan. Moreover, if it hurt his head and throat, it might kill him.

Jordan also became serious. The official battle between the gold-level and black-level mutants had finally begun!

1167 You're A Mutant Too!

In the huge arena, Rong Bingshao kept walking quickly. One could only see a figure swaying.

He did this to prevent Jordan from attacking him with a dart.

Rong Bingshao was so fast that Jordan could not do anything to him for the time being.

Jordan couldn't even see Rong Bingshao's sword-wielding posture clearly. He could only see green lights flashing non-stop, like the glow sticks that the audience kept waving during a celebrity concert.

Actually, Rong Bingshao was holding his sword downwards like he was holding a dagger.

"I want to kill Jordan with one strike!"

Rong Bingshao became serious. He was no longer as playful as before. After all, he had died at Jordan's hands once!

He would never allow himself to die twice at Jordan's hands. That would be a waste of his grandfather's efforts to save him.

Therefore, Rong Bingshao's plan was to instantly appear in front of Jordan and slash his laser sword at his neck. This way, even if Jordan did not die, he would be on the verge of death, unable to move or move.

If Rong Bingshao stabbed him a few more times, Jordan would be finished.

Jordan stood rooted to the ground and kept watching. He was also very cautious of this rapidly swaying figure. He knew that the other party had a chance to kill him!

Just as Dragon had said, low-level mutants had a chance to defeat or even kill high-level mutants.

Jordan's gold-level ability was making things out of nothing, but if Rong Bingshao suddenly appeared at lightning speed and attacked Jordan, he would still have a chance to kill him.

"Jordan, die!"

Rong Bingshao found the right time and instantly rushed in front of Jordan, preparing to stab him in the throat!

With lightning speed, Rong Bingshao instantly arrived in front of Jordan from dozens of meters away!

Bang!

"Ah!"

Just as Rong Bingshao was about to rush over, four doors suddenly appeared around Jordan. Each door was made of special materials and looked very hard.

These four doors stood around Jordan, completely surrounding his body, preventing him from being hurt.

As Jordan did not know which way Rong Bingshao would attack him, he conjured four doors.

Rong Bingshao did not know that Jordan had the ability to create something out of nothing. He only cared about charging forward with his lightning speed.

Now that he was in front of Jordan, her head hit his hard head, causing him to feel pain.

Rong Bingshao was shocked. Although his head was about to explode from the impact, he still used his lightning speed to quickly retreat to the top seats, away from Jordan.

Rong Bingshao hid behind a seat and asked, "Ah, it hurts. What the hell is that?!"

Jordan smiled and came out of the door. He explained, "Oh, this is a door. It's made of Vibranium. It's invulnerable and very hard. All the secret families have it. Haven't you seen it before?"

Rong Bingshao's head hurt and became increasingly swollen. He shouted angrily, "Damn it! I know that it was made with Vibranium. The Rong family has more doors than yours! I'm asking why this door suddenly appeared here! How did you get it?!"

"It was a durian just now, and now there are four doors. Don't tell me you picked these four doors up from the ground!"

Rong Bingshao gradually realized that something was wrong. He was already curious as to why Jordan would be ejected after jumping into the volcano.

Now, it seemed that Jordan did have some secrets that Rong Bingshao did not know.

Jordan smiled at Rong Bingshao. "Guess."

Rong Bingshao was a little terrified. "Could it be that you... you also have the ability of a mutant? Could it be that... you went to the Immortal Lake?!"

Rong Bingshao suddenly remembered that when Jordan first arrived in Italy, his plane was suddenly bombed and he disappeared for a period of time.

During this period of time, Rong Bingshao had been sending people to search for Jordan, but it took hours to find him.

Where had Jordan gone during those few hours?

Rong Bingshao broke out in cold sweat.

"Damn it, Italy is very close to Malta where the Time Gate was placed. Could it be..."

Rong Bingshao didn't dare to continue guessing.

Jordan did not deny it. "That's right."

Rong Bingshao swallowed and continued to ask, "Which year did you go to the Immortal Lake? How did you go?! The current Immortal Lake is controlled by your uncle. You can't enter at all!"

Jordan continued to "tell the truth". "Oh, I went to the Immortal Lake 20 years ago and encountered a cute fox. You must have obtained your ability by going to the Immortal Lake at that time, right? Did you meet anyone?"

Jordan knew that Rong Bingshao must have traveled back in time to the Immortal Lake. He had always suspected that someone had peeped on him when he jumped into the Immortal Lake. He wanted to use this opportunity to get some information from Rong Bingshao.

How could Rong Bingshao be in the mood to discuss this with Jordan?

Rong Bingshao said angrily, "You went to the Immortal Lake 20 years ago? How did you go?! Where did you find the Time Gate?! How did you know it was there?!"

Jordan smiled. "I'm a Deity. It's easy for me to find your family's hidden Time Gate. Speaking of which, I have to thank you. If not for your appearance, I wouldn't have known that there was a Time Gate in this world."

Rong Bingshao went crazy. "Ah! Damn it! Damn it! Jordan, you deserve to die! You cunning liar! You deliberately lied to me and made me think that you were being attacked by the Mutant Tribe. But in fact, you went to Malta and used our family's invention to obtain your ability at the Immortal Lake! You're not worthy to use our family's things. You're not worthy!"

Jordan smiled calmly and said, "Don't get too worked up, buddy. At most, I'll give you a time-travel fee. How much do you want? 10 billion or 100 billion?"

Rong Bingshao was furious. He didn't expect Jordan to already have the ability to predict the future and obtain a new ability from the Immortal Lake.

However, Rong Bingshao stabilized his emotions. So what if Jordan obtained his ability?

He might not be as capable as him!

Rong Bingshao still did not know what Jordan's ability was.

Rong Bingshao said, "Your ability should be similar to Lincoln's. You can control objects, right? Hehe, what is your level? Is it silver or black? Oh, I guess you're green because your wife, Victoria, made you a cuckold. Hahaha."

“Congratulations, Jordan. You’ve become a green-level mutant. You can join your uncle’s Mutant Tribe now! When the time comes, you’ll be your uncle and Victoria’s subordinate and work for them with your green-level talent. You’ll watch them love each other every day and watch them have children together too. Hahahaha…”

Rong Bingshao was furious when he found out that Jordan had used his family’s inventions to improve his own abilities. Therefore, he vented all his displeasure on Jordan to mock him.

At this moment, Rong Bingshao had yet to truly realize what Jordan’s ability was. He felt that it was at most black-level, just like his.

However, Rong Bingshao was confident that he was the strongest among all the black-level mutants. He did not care about controlling objects like Lincoln.

So what if he could control objects?

I’ll kill you instantly. Apart from defending yourself, you won’t even have a chance to attack.

Jordan clenched his fists. Rong Bingshao’s words could not affect Jordan’s emotions, but at the mention of Victoria, Jordan couldn’t help being angry!

Swish!

Swish!

Swish!

Jordan threw three darts at Rong Bingshao, but he dodged them easily.

Rong Bingshao smiled smugly. “Hahaha, you want to shoot me with a dart? Come on, if your dart can hit me, I’ll take your last name!”

Rong Bingshao was extremely fast. Even though Jordan’s darts were very fast, they were still inferior to Rong Bingshao’s speed.

Rong Bingshao could easily dodge Jordan’s attacks.

Jordan snorted. “Didn’t you take the last name of the Steele family previously? You even called yourself the Steele family’s dog.”

Rong Bingshao said angrily, “Dogsh*t! What understanding ability do you have? You mean that everyone in the Steele family is a dog, not that I’m your family’s dog!”

Previously, Rong Bingshao wanted to be a Canine Steele to fight Jordan.

Jordan also felt that Rong Bingshao did like to fight him.

“Bingshao, you just insulted our country’s basketball team. Before I kill you, I’ve decided to play a basketball game with you first. I’ll let you know how powerful our country’s basketball is.”

Rong Bingshao instantly appeared in the middle of the ice hockey court, only a few meters away from Jordan. However, he was not afraid of this distance. He could retreat to the audience seats on the top floor at any time.

Rong Bingshao looked at Jordan sarcastically. “Insult? Hehe, do you think I’m insulting you? I don’t think so. I was just stating the truth. The truth is that in 2008, our men’s basketball team did beat you by dozens of points. Moreover, you guys are even worse now. You can’t even enter the Olympics. You’re not even qualified to be our opponent!”

Ever since Yao Ming and Allian retired, the men’s basketball scene had indeed deteriorated greatly.

Jordan felt very embarrassed by Rong Bingshao’s words. “If I let everyone in our men’s basketball team be injected with the Mirakuru serum, do you think we won’t be able to enter the Olympics? Will we still lose to you by dozens of points?”

Rong Bingshao was furious. “B*stard! You can’t do this! The Mirakuru serum is an invention of our eight great families. According to our rules, we can’t give our secret family’s invention to ordinary people!”

Jordan looked at Rong Bingshao. His tone was very similar to his father, Rong Bailun, who used to be in charge of the eight great families.

Jordan said, “There are no longer eight great families in the world. If there are, I’ll be in charge. I can give it to whoever I want! Cut the crap. Do you dare to have a one-on-one basketball match with me?”

“If you lose, I want you to say that you were born to me and Victoria. I’m your father and Victoria is your mother. You’re not allowed to insult your father and mother again. Do you dare?!”

When Rong Bingshao heard this, he laughed out loud. “Jordan, you really have a death wish. You dare to compete with me in basketball? In this world, even Victoria and Randall will definitely lose to me in basketball! I have lightning speed. Do you know what this means? The competition will end instantly before it even started.

“The second I get a basketball, no, it won’t even take a second. I will score with a slam dunk. How are you going to guard against that?”

Jordan smiled. Rong Bingshao's speed was indeed invincible in basketball.

Rong Bingshao fought a life-and-death battle with Lincoln and Park Sora who had black-level abilities. It was unknown who would win, but in terms of basketball, Rong Bingshao would definitely win.

Jordan smiled. "In that case, you agree."

Rong Bingshao smiled. "What a joke. I'll win a hundred times. Why wouldn't I dare to agree? However, although I really want to abuse you on the basketball court, it's a pity that this is an ice hockey arena. If this were a basketball court, it would take at least a few hours. I don't have the patience to wait."

Jordan said indifferently, "Oh, it won't take a few hours. We'll be done soon."

Just as Jordan finished speaking, he suddenly waved his hands. The ice hockey ground under their feet was covered by the wooden floor of the basketball court!

Rong Bingshao was so frightened that he retreated a few meters. He watched in shock as the ice hockey arena in front of him turned into a basketball court in the blink of an eye!

"This... this is..."

Rong Bingshao couldn't believe it.

After the venue changed, Jordan started to create a basketball hoop out of thin air.

Bang.

Bang.

Two basketball hoops were placed on both sides.

Rong Bingshao was dumbfounded again!

At this moment, Jordan said, "Oh, we're still short of one basketball. Do you want to use the ball for the NBA game or the Olympic game? Since it's your first time here joining the Olympics, let's use the international basketball."

Rong Bingshao watched as a basketball suddenly appeared in Jordan's hand!

Rong Bingshao was completely terrified!

"What... what sorcery is this?! How... how did you conjure these things?!"

Only then did Rong Bingshao realize how terrifying Jordan's ability was!

Jordan did not control objects like Lincoln did. Instead, he could create things from nothing!

Holding the basketball, Jordan approached Rong Bingshao step by step. "You know that only God can create all things. You can call me God!"

Rong Bingshao swallowed nervously. "Damn it, your ability can create matter from nothing! Oh, hell, this ability is definitely purple-level or even gold-level! Jordan, what level are you at?!"

Jordan snorted. It was time to let Rong Bingshao know that there was always someone better out there!

Jordan stretched out his arms and clenched his fists tightly. Golden light kept emitting from his body!

Rong Bingshao fell to the ground. "Gold... gold... you're at the strongest level!"

Rong Bingshao never expected Jordan to obtain the highest gold-level mutant ability!

As far as he knew, only Randall had this ability. Moreover, he had never seen him use a gold-level ability.

Therefore, everyone admired gold-level abilities.

Rong Bingshao was very jealous. He pounded the seat in frustration. "Damn it, that's not fair! You're already a Deity. Why do you still have a gold-level ability?! Why did the female guardian let you enter the Immortal Lake? She should have stopped you, b*stard!"

Jordan was stunned. "Immortal Lake female guardian? What Immortal Lake female guardian? Did you meet someone when you traveled back in time to the Immortal Lake? Who was she?!"

Jordan already suspected that someone had been spying on him when he obtained his ability. Now that he heard Rong Bingshao say that there was actually a "female guardian", he was even more certain that his intuition was right!

Could it be that the "female guardian of the Immortal Lake" was secretly watching him?

Jordan really wanted to know the answer!

Jordan wanted to know if the "female guardian" of the Immortal Lake was dead or not!

However, Rong Bingshao was unwilling to reveal this to Jordan. Now that he knew that Jordan had a gold-level ability, he did not dare to fight him one-on-one.

He was worried that Jordan would blast him to death when he attacked!

Actually, Rong Bingshao's worry was unnecessary because Jordan could not conjure a cannon at all.

Although Jordan could create some substances out of thin air, it was not something that could be created casually. He could not conjure huge things like cannons, aircraft carriers and fighter jets.

For the time being, he could only conjure simple and natural things.

"No, Jordan is a gold-level mutant. I can't fight him one-on-one anymore. I have to leave this place as soon as possible!"

After Rong Bingshao learned that Jordan had a gold-level ability, he no longer dared to take the risk of fighting him one-on-one. He had already died once. He could not die a second time.

Rong Bingshao aimed at the exit and ran towards it!

However, Jordan had already expected Rong Bingshao to run. He threw a door over and welded it shut, not letting him out.

It was the same for the other exits.

The four doors that Jordan had just conjured happened to seal all four exits.

"Damn it!"

Rong Bingshao was furious. "Damn you, Jordan. Don't think I'm really afraid. I'll fight you to the death!"

Rong Bingshao picked up his laser sword and slashed at Jordan.

Boom!

Boom!

Boom!

The power of the laser sword was no small matter. Jordan had no choice but to dodge. The laser sword kept smashing the wooden floor that Jordan had just laid down, creating large holes.

“Hahaha... so what if you’re a gold-level mutant? Apart from dodging, what else can you do? Can you catch up to my speed? Hahaha...”

Seeing that Jordan seemed to be helpless against his lightning speed and laser sword, Rong Bingshao continued to attack Jordan crazily.

Boom!

Boom!

Boom!

Outside the venue, the Rong family also heard the commotion inside.

“Haha, this is the sound of Master Rong releasing his laser weapon. Jordan should have been turned into meat paste, right?”

“That’s right. No matter how good his prediction is, he will definitely be slashed. Hahaha, in another two minutes, he will be able to collect Jordan’s corpse.”

The Rong family discussed confidently.

Lauren, who was tied up, was also very worried. She thought to herself, “Hubby, I know you. You must have a way to deal with it. All the best!”

Perhaps because he had a telepathic connection with his wife, Jordan had had enough of this passive situation. As a golden Deity, it was inappropriate for him to be chased by a black-level mutant.

“You’re very good at running, right? Alright, I’ll let you run!”

Jordan waved his hands. Suddenly, a large sea appeared under his feet!

“Not enough, continue!”

Jordan continued to create more water.

“Damn it, this is...”

Rong Bingshao was also standing in the middle of the arena. He realized that there was not a single drop of water on the floor just now. Now, the water reached his knees!

However, Jordan's madness was not over yet. He wanted this water to cover the entire gym!

"Up!"

The height of the water in the gym kept increasing. Soon, it reached 1.9 meters, drowning the two of them!

"Pfft... damn it, you're crazy!"

Rong Bingshao was also shocked. He never expected Jordan to be so cunning. He wanted to turn the entire gym into an open sea!

This was crazy!

"Up!"

The water was silent. The people outside could not hear anything at all. They thought that nothing had happened in the venue, but in fact, there had been a drastic change!

Soon, the seawater created by Jordan filled the entire court!

The huge court was covered in seawater. There was no place for Rong Bingshao to dodge.

This was Jordan's solution!

Rong Bingshao had lightning speed, but it was only black-level. It could only be used on the ground and would definitely be greatly reduced in the water!

Moreover, Rong Bingshao's laser sword would be useless in the water.

"Bingshao, let's see what other abilities you have to deal with me now!"

Jordan swam towards Rong Bingshao.

Rong Bingshao waved his sword at Jordan and realized that it was useless. He immediately panicked.

"Uncle Nick, save me!"

Rong Bingshao wanted to call for help, but the entire stadium was like an ocean. The sound in the water could not be heard outside!

"No, no, I don't want to die. I don't want to die!"

Rong Bingshao tried his best to escape, but his lightning speed was useless in the water.

Although his speed was still a little faster than Jordan's, the difference was not that great.

Jordan soon cornered Rong Bingshao and caught him!

When Jordan attacked him again, Rong Bingshao was so frightened that he wet his pants!

Fortunately, they were in the water and no one could tell. Otherwise, it would be too embarrassing for the head of the Rong family to wet his pants.

"I'm sorry, I'm going to have to kill you a second time!"

Jordan took out a long knife and stabbed Rong Bingshao in the stomach!

...

Meanwhile, outside the venue.

"Strange, why is there suddenly no movement? Has Master Rong already killed Jordan?"

"Oh, hell, why is there so much water overflowing?!"

"Oh, that's right. There's a lot of water. Not only below, there's also water above. Is it raining in the venue?"

Nick glanced at the water flowing out of the arena and had a bad feeling. "Oh no!"

Nick had always been cautious. Previously, when they had a huge advantage, he did not dare to slack off, afraid that something would happen to Rong Bingshao.

Now that he saw the water flowing out of the venue, he immediately sensed that something had happened to Rong Bingshao!

"Open the door immediately!"

His subordinates opened the door. The seawater in the venue instantly surged towards these people and submerged them!

Everyone was shocked by the scene in front of them!

"What the hell!?!"

Nick reached out to touch his wet face, unable to believe what he was seeing.

“Why did the ice hockey arena turn into the sea?! The sea can’t be so much higher than the ground! This is a scene that only happens at the end of the world!”

Everyone was shocked. This was not something that humans and science could do. Only a god could do this, right? And Nick did not intend to figure this out immediately. He was most worried about Rong Bingshao’s safety!

Nick could vaguely see Rong Bingshao and Jordan fighting inside. Moreover, Rong Bingshao was in a passive state.

“Damn it, Master Rong’s lightning speed can’t be used in the water. He’s in a very dangerous situation. Immediately, everyone charge forward and shoot Jordan!”

Nick ordered.

“Yes!”

In an instant, dozens of people wearing special diving suits and holding weapons rushed into the sea to save Rong Bingshao!

At this moment, Rong Bingshao was no longer Jordan’s match.

Previously, Rong Bingshao had deliberately teased Jordan, making him jump off a building and hold his breath in the lake. Jordan wanted to give him a taste of his own medicine!

Slash!

Jordan stabbed Rong Bingshao in the stomach.

“Ah.”

Rong Bingshao cried out in pain, but he quickly cut off Jordan’s long knife with both hands. He then used all his speed to escape again.

“You want to leave?”

How could Jordan let him leave so easily?

Jordan quickly produced a very thick chain and threw it over. This chain locked onto Rong Bingshao’s neck.

Jordan grabbed the chain tightly and threw it out again. The two chains locked onto Rong Bingshao's arm.

Jordan took out two more chains and locked them around Rong Bingshao's legs!

Five chains locked Rong Bingshao tightly.

"Lightning speed? You really want to run? Try running again!"

Jordan grabbed the five chains tightly, not giving Rong Bingshao a chance to escape.

"Ah!"

Rong Bingshao used all his strength, and his neck, arms and calves instantly became swollen.

At this moment, he regretted playing with Jordan like that previously. He shouldn't have even looked for Jordan!

"No, I can't die at Jordan's hands a second time. I can't die!"

Rong Bingshao erupted with a powerful willpower and used his lightning speed to break all five chains!

Even Jordan was shocked. He did not expect Rong Bingshao to have such potential.

However, the moment Rong Bingshao broke free from the chains, his neck, arms and legs were immediately covered in blood.

"Master Rong!"

Seeing Rong Bingshao bleeding from his five orifices and his body falling to the ground, Nick became even more anxious.

"Fire immediately!"

Nick ordered the frogmen he had just sent out.

If he didn't stop him, Jordan would play Rong Bingshao to death!

"A Deity is indeed a Deity. How can Jordan be so powerful?!"

Nick thought that there would be no suspense in this battle. Rong Bingshao would definitely kill Jordan. Who would have thought that it would turn out like this?!

Swish!

Bang!

Jordan was about to continue killing Rong Bingshao and send him to see his father and grandfather when he was suddenly shot in the arm.

“Damn it.”

Jordan glanced at his injured arm and realized that Rong Bingshao’s subordinates were rushing over.

Looking at the wound, Jordan immediately took out a pair of tweezers and removed the bullet.

“These are... supervacuum underwater bullets? Damn it, I didn’t expect the Rong family’s underwater weapons to have been developed to this extent. They’re indeed powerful!”

Jordan knew that ordinary bullets could not hit anyone in the water because the resistance of the water was much greater than air. Ordinary bullets could be shot from hundreds of meters in the air, but in the water, they could not even reach a few meters.

Therefore, in order to be able to attack underwater, many countries were developing new underwater bullets.

As a secret family, the Steele family had also studied this kind of super underwater bullet. However, it was clearly not as good as the Rong family’s research.

“I hit him, Master Nick!”

The subordinate who shot Jordan reported to Nick.

Nick said excitedly, “Continue shooting! We have more people. No matter how strong and good he is at predicting things, he’s just one person. We have to get rid of Jordan as soon as possible!”

Nick didn’t care if it was fair or not. His current manpower was equivalent to the army of a country, but it was only used to kill one person.

However, Jordan did not care about that. The first thing he thought of was his wife, Lauren!

“Very good. Now that Rong Bingshao’s subordinates have rushed in to save their master, there will be fewer guards on Lauren. This is a good opportunity to save her!”

Jordan immediately sent a signal to Dragon. Dragon received the signal and quickly flew towards the Cadillac Center!

As soon as the signal was fired, Jordan saw more than 10 ultra-vacuum underwater bullets shooting at him!

“These b*stards are bullying me with numbers!”

Jordan was furious. Hadn't they agreed to fight one-on-one? Jordan did not bring any subordinates with him. He had only gone alone. But now, so many of them were attacking Jordan!

Although these bullets could not kill Jordan, he would be injured if he was hit. It would be troublesome if he was shot too many times.

Jordan did not want to be covered in bullets, so he immediately put on a top-notch bulletproof vest.

Swish! Swish! Swish!

The bullet made a very soft sound when they hit Jordan's bulletproof vest. The damage to Jordan was almost negligible!

When the frogmen saw this, they immediately reported to Nick, who was at the door. “Master Nick, Jordan has an additional bulletproof vest on him. Our bullets have all hit the vest. I'm afraid no matter how many bullets there are, they won't be able to kill him!”

Nick was stunned. “What the hell? Where did he get the bulletproof vest?!”

The subordinate said, “We're not sure either. I don't think he had it just now.”

Nick really felt like he had seen a ghost. He couldn't have guessed that Jordan was a gold-level mutant who could create many things out of nothing.
