

The Abandoned Husband Dominates

1431 Reunion

Salvatore continued to pretend to be a scientist and fool everyone. “Brothers, you all know that I have fourth-tier talent. The teachers of the Cloud Sect even begged me to become their disciple to learn and cultivate. I directly rejected them!

“Why? Because we don’t see eye to eye! They only focus on cultivation and forget that the foundation of their cultivation comes from the technology of our Celestial King Planet! Therefore, I took the initiative to give up cultivation and join you. Studying science with you is what I want the most!”

Everyone applauded.

The leader also applauded. “Salvatore is really a role model for the new generation of cultivators! However, in this world, most people are stubborn. We need to curb their growth trend. Recently, I heard that a tier ten genius has appeared. Her name is Dawn. This girl’s talent is very outstanding. She has only cultivated for half a month, but today, in the annual competition, she took first place in the apprentice group and disciple group!

“Many people say that she is the hope of the entire cultivation world. In the future, she will lead the Celestial King Planet to another level! Everyone, we definitely won’t allow her to continue growing. Otherwise, once she becomes the idol of the new generation of young people, everyone will cultivate like her, and no one will value science.

“So, I have a suggestion. Get rid of her before she levels up. What does everyone think?”

Everyone raised their arms and shouted.

“Kill her! Kill her!”

Salvatore also raised his arm.

Seeing Salvatore raise his hand, the man walked over excitedly. “Salvatore, you agree with us killing Dawn, right?”

Salvatore said, “Of course. I am one with my brothers. I’ll do whatever you want. There’s no need to ask, Big Brother.”

The man said happily, “Alright, Salvatore. Since you agree, I’ll leave the mission of assassinating Dawn to you!”

Hearing this, Salvatore was dumbfounded. He had only agreed to it. He was just eating and drinking here to earn some money to pay for his tuition fees. How could he really carry out a mission?

Salvatore was naturally in danger. He hurriedly said, “Big Brother, I’m a dignified man. How can I kill a girl? Besides, I’m a scientist. I don’t like fighting and killing...”

The man said, “Salvatore, I’ve long seen that you’re definitely not an ordinary person. Moreover, you have a fourth-tier talent. Even if you fall into the hands of the Cloud Sect, they won’t kill you on account of your cultivation talent. We can’t do it. If we’re captured, we’ll only die.”

Salvatore hesitated. “Well...”

Still, Salvatore did not want to accept this mission.

The man became serious. “If you’re unwilling to accept this mission, then we can only bear the pain and ask you to leave this place!”

Salvatore was unfamiliar with the Celestial King Planet. It was not easy for him to find a place to eat and drink. He did not want to leave so easily.

The man continued to persuade him. “Salvatore, we will provide you with the most advanced battle armor. Wear it and go. Dawn has just stepped into the level of a disciple and will definitely not be able to hurt you. After you kill her, sneak out quietly and no one will know.”

Salvatore thought to himself, 'Your armor is so powerful? Why don't you go yourself and not let me take this risk! Although Dawn has just become a disciple, she has taken first place in the disciple group. She must be a monster. However, if I don't go, they will definitely chase me away. Why don't we do this? I'll go and fight with her and shoot her twice. Then, I'll pretend that I can't beat her and slip away. That way, they won't criticize me.'

If he did not accept the mission at all, he would be evicted. Salvatore would have to accept the mission first.

"Alright, since my brothers trust me so much, I'll accept this mission! Big Brother, when are you going to take action?"

The man said, "Now."

Salvatore was speechless. "You f*cking..."

They did not give Salvatore any time to prepare at all. They immediately gave Salvatore armor and asked him to perform the assassination now.

The few of them quietly arrived a hundred meters away from the Cloud Sect. The man whispered, "We have brothers in the Cloud Sect. I've already sent away the guards at this gate. After you enter this door, walk around the flower pond. Then, look at the marks on the pillars. When you reach Dawn's room, just attack directly!"

Salvatore also waved his hand. "Big Brother, leave it to me!"

Salvatore wore his armor and flew straight into the Cloud Sect. As soon as he entered, he cursed, "Those bastards didn't even let me drink water but already want me to come here to kill people. What if she's still awake at this time! We're a bunch of scientists. It's unprofessional to kill people! Anyway, I didn't really plan to kill that woman. I just wanted to put on an act."

Salvatore followed the marks and arrived at Dawn's room. He did not push the door open quietly. Instead, he pushed it open with great force to wake the people inside.

Jordan was not sleeping at all. When he heard the commotion, he looked over immediately and saw a person in armor opposite him. His face could not be seen clearly.

“You’re that Heavenly Beauty, Dawn, right? I’m here to kill you under Tech Planet’s Kevin’s orders. Die!”

Jordan was stunned when he heard the voice. Why did it sound like a watermelon!

Before Jordan could speak, Salvatore immediately activated the armor’s cannon and blasted at Jordan.

BOOM!

BOOM!

Jordan dodged immediately.

Surprisingly, Salvatore seemed to want to hit the wrong side. Every time he attacked, it was eighty feet away from Jordan.

After symbolically firing two shots, Salvatore shouted, “Damn it, as expected of a tenth-tier genius. She’s actually so powerful! I’m not your match. After I leave, my brothers will come looking for you in the future. Be careful!”

With that, Salvatore was about to activate flight mode and prepare to escape. However, at that moment, Jordan immediately chased after him. Just as Salvatore was about to fly out, he shouted, “Salvatore!”

Salvatore had already flown up. When he heard the sound, he was stunned.

“What’s going on? How does she know my name is Salvatore!”

Salvatore turned back immediately and opened the mask of the armor, revealing its true appearance. He stared at Jordan carefully, “You... You are?”

Jordan smiled when he saw that it was indeed Salvatore himself. “Salvatore, I’ve been looking for you for a long time. We finally meet again!”

Salvatore was still in disbelief. “You... you’re... Mr. Jordan?”

Salvatore suddenly understood something.

Jordan nodded.

Salvatore knelt in front of Jordan on the spot and cried bitterly, “Mr. Jordan, my master, I’ve finally found you! Who turned you into a woman? Which bastard did such a cruel thing to you? I’ll skin him alive!”

“Screw you. You’re the woman. I only had half of my face changed. After all, Gerald has seen me before. Let me ask you, do you have any news about Dragon and Jamie?”

1432 Meeting Victoria Again

With that, Jordan brought Salvatore into the room. Although the last time they met was not too long ago, they had been transported to a new planet and had endless things to talk about.

Salvatore said, “I came to this planet and can barely survive. How would I have the ability to find someone so quickly?”

Jordan also knew the difficulty Salvatore faced. When he first came to the Celestial King Planet, it was difficult for him to move but a single cent would not stump a hero.

“I’ve already met Emily, Rong Bingshao, and Victoria.”

Salvatore was shocked. “What? You’ve seen so many people! How are they now?”

Jordan said, “Emily is cultivating in the Fairy Academy like me. Rong Bingshao and Victoria are cultivating in the Howard family with Levana. They’re doing very well.”

When Salvatore heard that Emily and Jordan were both in the Fairy Academy, he started to feel a sense of yearning. “Mr. Jordan, can I borrow some money from you? I’ve tested my talent and I have fourth-tier talent. However, I don’t have any purple gold coins now. I can’t study without tuition fees.”

Jordan nodded. “No problem. I just got first place in the apprentice group and disciple group for the Fairy Academy. There’s a bonus to begin with. Even if it’s not enough, they’ll definitely give me some money if I ask them for it.”

Jordan was now the treasure of the Fairy Academy. Money was just a worldly possession. No matter how much Jordan asked for, the Fairy Academy would give it to him without hesitation.

Salvatore was overjoyed. “That’s great! Thank you, Mr. Jordan! I’ll go for plastic surgery and become a woman like you. Then, I’ll go to the Fairy Academy with you and Ms. Emily. Hahahaha, we can have fun together again!”

Salvatore was very happy. He had the chance to work with Jordan and Emily again. Moreover, there were many beauties in the Fairy Academy. Which man would not yearn to cultivate in such an environment?

However, Jordan rejected him immediately. “No, you can’t go to the Fairy Academy. Emily doesn’t know my identity, so don’t go over and cause trouble. I have an important mission for you.

“The guy who came to Earth to kill me is called Gerald. He took in two disciples from the Cloud Sect and has just been cultivating in the Cloud Sect. I’ll arrange for you to be in the Cloud Sect. You can be classmates with them and get closer to them. Find an opportunity to get them to recommend you to be Gerald’s subordinate.”

When Salvatore heard this, he immediately understood. “Mr. Jordan wants me to be a spy and follow that bastard Gerald so that I can take revenge at any time!”

Jordan said, "I don't need you to take revenge. You're not his match. You just need to help me keep an eye on him and remember his habits. Also, figure out his strength and what realm he's at. When I'm stronger than him, I'll go to him immediately and take his sorry life!"

Salvatore hurriedly said, "Yes, Mr. Jordan! Mr. Jordan, I have something to report to you. It's about Tech Planet..."

Salvatore told Jordan about the group of scientists. Subsequently, with Jordan's permission, Salvatore returned and blew up their nest. It did not hurt their lives.

Jordan gave Salvatore a sum of money and asked him to become a disciple of Cloud Sect.

...

Just like that, another two months passed.

Jordan was cultivating in the forest when he suddenly received a message on his bracelet. It was from Salvatore, who was cultivating in the Cloud Sect. At this moment, Salvatore had already been promoted to a disciple.

Moreover, Salvatore completed Jordan's mission very well. As he used to be a boss on Earth and had a group of brothers, he quickly became familiar with Gerald's two subordinates.

"Mr. Jordan, Max and Keith are preparing to bring me to meet Gerald! After I meet that bastard, I'll report the situation to you! Don't worry, I'll definitely tell you what he's capable of!"

Jordan was instantly excited as well. He replied immediately, "Salvatore, don't be rash. You have to pay attention and hide well. Don't let him suspect you. Otherwise, your life will be in danger!"

Salvatore replied. "Don't worry, Boss. I know what to do. Wait for my good news!"

After knowing that Salvatore could finally approach Gerald, Jordan's heart began to beat non-stop. He could not calm down no matter what.

"Gerald, I must kill you..."

Just as Jordan's heart was in turmoil, Emily walked over and asked, "Dawn, what's wrong? You seem to be in a daze. Is there something on your mind?"

Jordan smiled and said, "I'm fine. Don't worry about me. It's been so long and you haven't been promoted to a disciple. You have to hurry up, understand?"

Emily smiled foolishly. "I don't have any talent to begin with. I'm already very satisfied to be an apprentice! By the way, Dawn, my sister is here to see you."

Jordan was stunned. Only then did he realize that Victoria was already standing not far away.

Victoria was wearing a red dress with a hood. Although she had the aura of someone from Earth, she was still very unique in the Fairy Academy. Especially her cold face and beautiful eyes that seemed to have experienced the vicissitudes of life.

She slowly walked over and politely said, "Hello, Miss Dawn, we meet again."

Jordan nodded slightly.

Victoria replied. "Emily told me that it's all thanks to you taking care of her here. I'm also here to thank you."

Emily held Jordan's arm and said, "My sister knows how to cook. Let's go eat together!"

At that moment, Jordan was a little greedy. He wanted to eat Victoria's cooking. He remembered that he often ate it back in New York.

“Thank you for your kindness, Miss Victoria. I still have to cultivate. The two of you should go and eat. I won’t disturb you as an outsider.”

Emily said coquettishly, “Well, you’re not an outsider. We sleep together every day. I’ve long treated you as one of us, hehe.”

Seeing this, Victoria quickly said, “Emily, don’t be rude to Miss Dawn. Miss Dawn is heaven’s favored daughter, you must keep your distance.”

Emily let go. “Oh.”

Victoria smiled. “Miss Dawn, I didn’t expect someone as talented as you to be so easy to get along with. You can even tolerate this mischievous sister of mine for so long. Today, I have a small request. I wonder if you can agree to it?”

Jordan said, “Miss Victoria, please go ahead.”

Victoria replied. “I heard that two months ago, Miss Dawn became the top disciple of several great academies. Coincidentally, I am also a disciple. I wonder if I have a chance to learn from you?”

It turned out that Victoria was here to challenge Jordan.

Victoria came to the Celestial King Planet earlier than Jordan and cultivated earlier than him. Based on Jordan’s current strength, Victoria should be near her peak as a disciple.

In reality, Jordan was also at his peak as a disciple. He could break through at any time.

Jordan said, “Sure, I want to see how the Howard family’s teaching is compared to the Fairy Academy’s. Miss Victoria, please make a move!”

1433 Competition with Victoria

Jordan and Victoria began the competition on the Celestial King Planet.

Victoria did not know that the person in front of her was the man she once loved deeply, Jordan. Her expression was normal as she immediately waved her hands to control the leaves on the ground.

Victoria's control of spiritual energy was clearly very mature. The leaves gathered very quickly and turned into the shape of a sword. With a wave of her right hand, the sword stabbed toward Jordan.

Initially, Jordan's attention was focused on the incoming leaf sword. Unexpectedly, Victoria's figure suddenly moved quickly. It was as if she was pulled away by the leaf sword. She arrived behind the sword in a flash.

BOOM!

The leaf sword was shattered by Jordan's palm. However, Victoria immediately attacked Jordan.

Almost immediately, Jordan assumed a defensive state and blocked Victoria's palm. However, he could not help but take a few steps back.

On Earth, it was impossible for Victoria to defeat Jordan. There was already a difference in strength between men and women. Furthermore, Jordan had been injected with the serum and had a golden talent.

However, in the Celestial King Planet, the difference between the bodies of men and women was no longer that important to cultivators.

Now, both of them were disciples, so their strengths were about the same.

Victoria was surprised. "Indeed you're worthy of being a top talent. Your reaction is so fast, and your defense is also very strong."

Victoria had fought against other disciples before, but they couldn't react in time and fell to the ground.

However, Jordan only took a few steps back.

Jordan said, "It's a coincidence. Miss Victoria and I actually cultivate the Howard family's basic mental cultivation method, so I could barely withstand your attack. However, you were really fast just now. I almost couldn't react."

The reason why Jordan could block it in time was because he knew Victoria too well. When he saw Victoria's gaze just now, he knew that something was wrong. He felt that Victoria definitely had a backup plan.

"Since you're so strong, I'll do my best. Miss Victoria, please take this!"

Jordan wanted to see Victoria's true strength. He did not want to defeat her. He just wanted to know her true level. That way, Jordan would know how she was doing. In the future, when Victoria encountered any situation, Jordan would know if she could handle it and if there would be any danger.

Although the two of them were strangers, they were in love once after all. As such, Jordan could not ignore her completely.

Jordan fought Victoria at close range, giving her a lot of pressure.

Sure enough, Victoria couldn't handle it. After exchanging blows, she lamented in her heart. "This Dawn is really fierce. She doesn't look like a woman at all. She's more like a man!"

Jordan was pushing Victoria's limits.

"Be careful, I'm going to attack!"

Jordan seized the opportunity and wanted to deal a heavy blow to Victoria. Unexpectedly, Victoria used her ghostly figure again. With a whoosh, she retreated more than ten meters, causing Jordan's foot to miss!

"This speed..."

Jordan stood where he was, a little stunned. He felt Victoria's incredible speed again.

That was because even Jordan did not have such speed.

Both of them were disciples. Logically speaking, their abilities should be about the same. However, why was Victoria faster than Jordan?

Jordan looked at Victoria and asked, “Miss Victoria, did you cultivate speed? Did the Howard family teach you that?”

Victoria replied. “That’s right, it’s my master’s ultimate technique. I like it very much, so I started learning from the disciple realm. I’m sure my speed will be even faster after becoming a Scholar.”

“Your master’s ultimate skill...”

Jordan immediately remembered that one of Levana’s trump cards was the lightning speed that Rong Bingshao had on Earth!

After coming to the Celestial King Planet, Rong Bingshao didn’t have the qualifications to continue cultivating with Levana. To think that this ability was actually learned by Victoria.

Levana’s ability that Victoria had on Earth was mind control. Based on Jordan’s understanding of Victoria, she would never give up on this ability. She would definitely want to regain this ability.

Jordan also wished that he could obtain the power of creating something out of nothing. It was an ability that he had once possessed. If he lost it, he would definitely want to obtain it again.

“Your specialty is not only speed, right? Is there something else?”

Victoria was stunned. She did not expect Jordan to see through this. However, she denied it with a smile, “I don’t have the energy to cultivate so many things at the same time. Thank you for your guidance today. I know that I still need to improve. If my teacher wasn’t Levana, I would have lost to you today.

“By the way, before I came, Lord Howard instructed me to invite you to the Howard family as a guest. Do you have time?”

Jordan said, "I'm busy cultivating for the time being. Help me pass the message to Lord Howard. I'll visit him later."

"Alright."

Seeing that Victoria was about to leave, Jordan quickly said, "Miss Victoria, can I ask you something personal? Your teacher, Miss Levana..."

Victoria didn't mind. After all, Levana was the most mysterious person in the entire continent. "Okay, ask away."

Jordan said, "As you know, ever since I obtained a tenth-tier talent and got first place in the apprentice and disciple group, I've attracted a lot of attention in the cultivation world. Many people compare me to Levana. It's also because of this that I know more about Levana. I heard that she's getting married. Is that true? Or... is she already married?"

Jordan's reasoning was very good and did not arouse Victoria's suspicion. In fact, even Levana herself knew that many people now compared Levana with Dawn.

However, Levana said that before Dawn reached the Grandmaster Realm, Levana would not treat her as an opponent.

Victoria replied. "My teacher does have a fiance. When she first came back, she agreed to marry him, but now, she has been hiding and refusing to see him."

"She's been avoiding him?"

Victoria nodded. "Yes, we're all women. You should be able to guess that my teacher doesn't like that man, but she can't go against the marriage agreement. She can only drag it out for as long as possible."

Jordan continued to ask, "Isn't that man angry that Miss Howard is dragging it out? Will he force Miss Howard one day?"

Victoria replied. "I heard that my teacher's fiance has been quite busy recently, so he shouldn't have the time to make things difficult for her. However, who can be sure about this? Sigh, to be honest, I don't want my teacher to get married either. If she gets married, it will be hard to know the fate of us students.

"By the way, I have a senior brother who wants to compete with you. When you're free to go to the Howard family, you can come and spar with us. I'll introduce you to my teacher and my senior brother."

1434 Choosing A Weapon

Victoria's senior brother?

Victoria, Moon Maiden, and Mike Baylor were brought to the Celestial King Planet by Levana and became her disciples. That meant the senior brother of Victoria was naturally Mike Baylor, who could summon mutated beasts on Earth!

Jordan was also very curious about the Moon Maiden and Mike Baylor's recent situation. He asked, "Are you the strongest among your fellow disciples?"

Victoria smiled and shook her head. "Of course not. My other two fellow disciples are stronger than me. We learned from Levana at the same time, but now, I am already a fair distance behind them."

As expected, Moon Maiden and Mike Baylor, as golden talents and the strongest experts on Earth, were also genius-like existences when they came here!

Jordan was even more motivated now. "Alright, I'll meet them when I'm free!"

Jordan no longer had any grudges with the Moon Maiden and Mike Baylor. Now, he treated these people from Earth as his compatriots.

After Victoria left, Jordan received a call from Salvatore after a while.

“Mr. Jordan, I’ve investigated thoroughly. That bastard Gerald is now a Scholar, and has been a Scholar for five years. I reckon that he’s in the middle to late stages!”

As a part of his mission, Jordan told Salvatore to figure out Gerald’s true level and he finally made some progress.

When he found out that Gerald was only a scholar, Jordan heaved a sigh of relief. Jordan was now a disciple and was only one step away from becoming a Scholar.

In other words, it would not take long for Jordan to take revenge and kill Gerald.

“Very good. Looks like I’ll be able to take revenge soon!”

Salvatore knew that Jordan was eager for revenge. He reminded him, “Boss, I think you shouldn’t be too anxious. I just asked him if he has a chance of winning if he fights a newly advanced scholar. He said in disdain that it was impossible. He also said that there was a huge difference in the realm of the scholars. To advance from the early scholar realm to later stages was no different from killing disciples or apprentices.

“He also said that he’s already considered a very strong cultivator at the Scholar level. If one doesn’t stay at the Scholar level for five years, he won’t be qualified to challenge him!

“Mr. Jordan, I think you’re more talented than him. You definitely won’t need five years, but it’ll take at least three years. Why don’t you lay low for three years before we take revenge on him? At that time, I should be able to become a scholar! I can help you! The current me is like an ant in front of Gerald. If you want to kill him, I can’t help at all.”

Salvatore suggested that Jordan cultivate for three years first. How could Jordan wait for three years?

“If it takes three years to kill Gerald, wouldn’t it take thirty years for the master who killed Gerald, the bastard who wants to marry Levana? I’m

not even thirty yet. How can I wait that long?! One year. After one year, I'll find an opportunity to kill him. Keep an eye on him for me. That's all."

Salvatore said, "Hey... Mr. Jordan..."

Jordan did not listen to Salvatore's advice anymore and hung up. Subsequently, Jordan's heart surged. He had a goal: become a scholar!

At this stage, Jordan could defeat anyone at the same level as him!

Jordan asked the mysterious man, "Senior, do you think I can challenge Gerald after I become a Scholar?"

The mysterious man smiled and said, "Your strength is definitely inferior. However, you guys are in a life-and-death situation. It's a battle of life and death so you need to choose a weapon for yourself."

Jordan nodded. "Yes, it's time to have a weapon."

Subsequently, Jordan went to the Fairy Academy's armory to choose a weapon. However, when he entered, he was stopped by Vice Dean Evelyn.

"According to the rules of the Fairy Academy, only those who have reached the Advanced Scholar level can choose a weapon. Dawn, you're only a disciple. What's the hurry?"

Jordan said, "I'm a tenth-tier talent. Don't I have this privilege?"

Evelyn said, "These weapons contain a huge amount of spiritual power. It can greatly increase a person's combat strength, but it will also make the cultivator ignore basic cultivation and focus on increasing damage. The more talented you are, the more you have to build a good foundation. You can advance from a disciple to a Scholar, but it will be very difficult for you to retract from a Scholar to a disciple."

After being stopped by Evelyn, Jordan went to look for the dean again, but he still did not get permission.

Jordan had no choice but to break through his realm first. He would think about it after he became a Scholar.

The cultivation level of the Celestial King Planet was different from the cultivation level in immortal hero novels. In immortal heroes novels, there were obvious physical changes and level standards for Foundation Establishment, Golden Core, Nascent Soul, and so on.

However, the Celestial King Planet didn't have any of this. His level completely depended on the strength of all the cultivators on the Celestial King Planet.

For example, Jordan might successfully become a scholar on the Celestial King Planet today. However, in the future, when there were more cultivators on the Celestial King Planet and his cultivation base depreciated, Jordan would become a disciple again.

Just like that, Jordan stayed in the Fairy Academy and worked hard to increase his strength every day. He used a small technique to increase his strength in all aspects. He even increased some of his strength in ways that he did not really need. This way, he could advance faster.

After a year, Jordan was finally recognized by the spiritual power of heaven and earth on the Celestial King Planet and ascended to the elementary scholar realm!

That day, the Fairy Academy held a concert. The pink light on Jordan's body made the entire academy excited!

"Too fast, too fast. I've never seen anyone advance from a disciple to a Scholar in one year!"

"Dawn's strength is already enough to be our school's deputy dean!"

Vice Dean Evelyn sought Jordan personally as well. She could not help but say, "You... are indeed a genius!"

Jordan smiled. "Vice Dean, I'm already a scholar now. Can you let me enter the armory and choose a weapon?"

Although Evelyn was reluctant, she said, "Come with me."

Evelyn brought Jordan to the armory. As it was nighttime, there was no one there.

Looking at the dazzling array of weapons, Jordan did not know how to choose. He asked the mysterious man, "Senior, help me choose a weapon. You've been through this before. You must know which weapon is good and suitable for me. You should be willing to help me with this small favor, right?"

The mysterious man replied lazily, "They're all scrap metal. Why do you want them? If you really need advice, let me tell you. It's best to choose a weapon that can be used all the time. The trash in front of you can only be used until the Advanced Scholar Realm. It's very difficult to use them when you reach the Grandmaster Realm. At the Unparalleled Realm and above, you can't cut anyone at all. It's embarrassing to even take them out!"

Jordan did not want to keep changing weapons, so he said to Evelyn, "Vice Dean Evelyn, do you have any more powerful weapons?"

1435 Unsealing the Divine Artifact

It was clear that Evelyn was unhappy at his request.

"There are so many weapons, but you don't like them? You've just entered the Scholar level. These weapons are definitely enough for you. All the weapons are just transitional. When you reach a higher level, you can just change to another one."

Jordan smiled. Evelyn was only at the Grandmaster Realm. Her thoughts were far inferior to the mysterious senior who was the Demon King.

Jordan said, "I am a person who gets attached. I think weapons can accompany me forever, so I want to choose a good one from the beginning."

Evelyn was in a difficult position. "Alright, I'll bring you inside to take a look. It's filled with collections that our academy has obtained through various methods over the years. If not for the fact that you're the future of our academy, I wouldn't have opened it to you."

It turned out that there was a secret room in the armory. After opening the secret room, Jordan followed Evelyn into a slightly gray space.

These weapons all emitted different colors of light. It was obvious that they were not ordinary weapons.

Evelyn explained, "If the weapons outside are just ordinary weapons, the ones inside can be considered high-level spiritual weapons. Some were obtained on the battlefield, some were obtained in very mysterious places, and there are also some spoils of war. In short, the original owners of these spirit weapons all have powerful backgrounds. You can choose any of the spirit weapons here. However, don't be happy too early. Even if you like them, you might not be able to use them."

Jordan was excited too. He checked them one by one. Even the mysterious man, who had been listless, became energetic. "Wow, I didn't expect a small Fairy Academy to have such capabilities. There are indeed a few good ones here."

Jordan was happy too. "Senior, which one should I choose?"

The mysterious man said, "Don't be anxious. Take a look at them all before I choose for you."

Jordan replied, "Yes."

Jordan walked around. When he came to a corner where there was a broken sword that had no luster, the mysterious man suddenly shouted.

"This broken sword!"

Jordan stopped immediately and looked at the broken sword in front of him. Compared to other spiritual weapons, this broken sword was dull and looked rather mediocre. It was like an ordinary sword, and there was only half of it.

If Jordan were to choose, he would definitely not choose this.

Jordan asked immediately, "Senior, what's wrong with this broken sword? Is it from somewhere? Is its original owner very powerful?"

The mysterious man laughed and said, "The owner of this broken sword is me!"

Jordan was shocked. "What? This is your spiritual weapon?"

The mysterious man said, "That's right. This sword is my Spiritual Item at the peak of my Glory. At that time, a few people had already entered the Half Immortal Realm before me. I was very anxious and wanted to succeed. During that period of time, in order to increase my strength, I cultivated until I went crazy. When I went berserk, I split the sword in half and the other half flew out from the top of the mountain. After that, I fell asleep for ten days. When I woke up, I had a new epiphany. I didn't look for this broken sword and left.

"I didn't expect someone to pick up this broken sword and keep it."

At that moment, Evelyn saw that Jordan had been staring at the broken sword. She walked over and said, "You like this broken sword? I have to remind you that although this broken sword is extraordinary, it has been sealed by someone. If the seal is not undone, it will be an extremely ordinary sword. Moreover, it's very heavy. If you don't believe me, you can take it and see if you can move it."

When Jordan heard that, he reached out to carry it. However, he realized that it was quite difficult for him to carry this broken sword with his elementary scholar-level ability.

It was already so tiring to hold it, so it was even more impossible to use it in a duel.

Jordan asked immediately, "Senior, how did this happen? Who sealed it?"

The mysterious man smiled and said, "It's me. Hehe, when I was young, I didn't know how to cherish it and often lost things. Some of these things were picked up by later generations that did some very bad things. After I found out, I used the Heaven and Earth Dharma Technique to seal everything related to me."

Jordan broke out in cold sweat when he heard that. The mysterious man could actually do this!

How powerful was he!

Jordan asked, "Then, can you help me undo the seal? I want to choose this spiritual weapon."

The mysterious man thought for a moment. "Alright, consider yourself lucky to have encountered my spiritual weapon. I can unseal it for you, but this sword is already a broken sword and can't unleash its original power. At this stage, you might as well choose something else for your revenge."

Jordan said, "Combat strength is not the biggest factor in my consideration. Although other spiritual weapons can help me temporarily, my goal is not just Gerald. Senior, one day, I'll find the other half of this sword and restore its glory!"

Subsequently, Jordan said to Evelyn, "Vice Dean, I want this sword!"

Evelyn frowned. "Are you sure? You can only choose one, and you're not allowed to change it for a year."

Jordan said, "That's it."

Seeing how determined Jordan was, Evelyn did not say anything else. She let Jordan carry the broken sword and leave.

When Jordan returned to the dormitory room, Emily asked curiously when she saw Jordan enter, "Dawn, you have a spiritual weapon! Is this sword so heavy? You're sweating!"

Emily also tried, but she couldn't move it at all.

After all, she was still an apprentice.

Jordan said, "Emily, go look for the dean and get some medicine to help you break through. I'll try to deal with this new guy first."

Emily was also very tactful. She knew that Jordan needed some time alone, so she left first.

After Emily left, Jordan said, "Senior, sorry to trouble you! Please help me undo the seal!"

The mysterious man said, "No, I can't undo it for you."

Jordan panicked immediately. "You lied to me!"

The mysterious man said, "I'm just a remnant soul, I can't use spiritual energy, but I can tell you the method. Press your hands on my sword for a full hour. During this hour, don't let go. After an hour, the sword will send a dream to your brain through your hand. You just need to pass the test in the dream"

"Pass a test in a dream? Is it difficult?"

The mysterious man said, "Well, it's just a very low-level Classic Link game. What's so difficult about it?"

Jordan could not help but laugh when he heard that. "Classic Link game? Hahahaha, that thing is too easy for me. I didn't expect an expert like you to be so childish. The clearing setting is actually a small game."

However, after thinking about it carefully, no one would know that something would appear after pressing both hands on the sword for an hour. Therefore, although the game was simple, not everyone could unseal it.

Jordan thought to himself, 'These people from the Fairy Academy would never have thought that I could unseal this spiritual weapon with just a Classic Link game!'
