

Taking Alpha's Twins Away After Divorce

Chapter 481

She noticed him get into the driver's seat. "Are we going somewhere? We have to go to the pack house. We have to get there before him," she said, glancing at his brown eyes. He listened to her but did not respond.

He appeared to be in a rage.

After shifting gears, he slammed on the accelerator and started the car.

The car got out of the area of his house in a few seconds.

Natalia's heartbeat started to race as she watched how fast the landscape moved before her eyes.

"Drive slowly," she uttered.

He paid no attention to what she had to say and continued driving in the opposite direction.

She frowned when she noticed it and said,

"That's not the way of going to the pack house. Where are you going?"

He drove the car while remaining silent. A furrow appeared to form between his brows as if he was becoming irritated by her question.

She shut her mouth and decided to silently watch him driving the car. She was eager to find out where he was going to take her.

It was his clean forehead that caught her attention. How was it that this man was able to heal a burn scar? Wasn't it a strike by some witch or wizard?

As she came to the realization that only a witch could heal it, her calmness slowly disappeared, and her face became pale.

'Did Hazel go to him and heal it herself?'

Anger rose in her heart. She did not like the thought and tried to push it away from her mind.

Adrian had already told her that he did not like Hazel. So she should not think much.

After a few minutes, Adrian pressed the accelerator hard.

Natalia's eyes grew wider.

"W-What are you doing?"

Unknowingly, her hand reached for her belly and held it protectively.

In front of her sight, there were so many cars. She was afraid their car would crash into them. "Adrian, be careful."

He did not listen to her as he turned

the car to overtake a few cars. The

car was moving at such a rapid pace that it caused Natalia's heart to

pound faster.

"Adrian, watch out!"

When Natalia saw a bus approaching in their direction, she yelled,

The bus was full of school students. Natalia's eyes widened as she wondered if the students

able to survive if the

with the bus.

Adrian did not seem to have any intention to move his car to the left or right. His car was heading.

straight toward the bus. Cover

She turned her head to look at him and asked,

"What exactly are you doing?"

His jaw was clenched. The veins in his hands and forehead bulged out, as if about to explode.

He looked scary. Natalia's heart was trembling.

She glanced at the bus once again. It was now very close to their car.

She could not help but let out a scream in fear.

"ADRIAN!"

Chapter 482

The fear that she felt was the same fear that she had felt when she returned to this pack a year ago. It was Lynda who made up that car accident. The person who saved her from that accident was Adrian. She remembered how he put his own life in danger to save her. Then how could he not be able to control himself at this moment and drive the car in such a way that resulted in an accident?

Fearing that she would die, she closed her eyes. In the middle of the street, the car was whirling around. Her body pressed against the door and her head began to spin around.

On the other hand, everything came to a halt in an instant as her body jerked on the seat.

She heard a loud noise in her head, like a siren ringing around the walls of her mind.

The car hit on something and Natalia felt that she would fall from the car.

After what seemed like an eternity, Natalia tried to feel any pain. Her hand was clutching her stomach.

She opened her eyes to check if she was still alive.

She blinked, but everything appeared blurry.

She turned her head to look behind the car. With her blurry eyes, she noticed the bus was fine as it came to a stop nearby. No one got hurt.

She breathed a sigh of relief. Her gaze slowly shifted to the man sitting next to her.

He had his eyes closed and his head was bleeding.

The car was unmoved as well as Natalia's emotions.

Everything was silent around them.

"Ad-Adrian."

She reached out her hand to touch him. Her palm became bloodied as she touched his face.

Natalia wanted to scream, but her mouth had become numb. She wanted to save the love of her life. However, her head was spinning, and she was seeing black all around her.

When Natalia opened her eyes,

She was in a private cabin at the pack hospital. She blinked her eyes and looked around in the room.

Suddenly she recalled something. Her hands quickly moved to touch her belly.

She sat up and looked at her abdomen.

"Is my baby all right?" she mumbled, getting emotional.

She remembered that she and Adrian had an accident before she became unconscious. Was it an accident? Or Adrian did it on purpose? She was astounded by why he did that.

Her eyes widened as she

remembered his situation inside the car. She shook her, thinking that something happened to Adrian.

She hurriedly got down from the bed.

"Adrian!"

She yelled out as she dashed to the door to go out of the room. At that time, someone opened the door from outside. Her body collided with the man. She was about to fall to the ground when he grabbed her wrist.

Natalia glanced at the man and spoke out.

"Benjamin!"

QUMS

Benjamin observed her mental state. He helped her stand up straight. He looked at the hospital bed and

eli

noticed she had yanked the V before leaving.

"Natalia"

"Benjamin, take me to your Alpha," she said as she approached the door once more.

Gamma Benjamin gripped her wrist and pulled her back.

"Natalia."

"Benjamin, what's wrong? Where is he?"

Benjamin remained silent, making her heart race. He took a deep breath while saying,

"He is...."

#Chapter 483

Chapter 483

"He is what?" Natalia asked.

She could wait a thousand years to find out where her husband is. She needed to meet him, she wanted to see him. She wanted to know if he was alright. She kept trying to get through the door with her exhausted body. "He is fine, Luna."

Natalia paused her movements and turned to look at Benjamin.

She looked at him carefully to see if he was telling the truth or just keeping her calm. His eyes were clear, indicating that he was not lying.

"Where is he?" she inquired.

"He left the hospital about an hour ago."

Natalia was stunned. She blinked, trying to remember whether what she had seen in the car was real or an illusion.

"Was he okay? How were his wounds?"

"He got a wound on his head. But aside from that, he is fine."

Natalia did not ask why Adrian had not come to see her or waited for her to wake up.

Benjamin helped her in reaching the bed by holding her hand and guiding her forward. He sat her down and poured a glass of water. After handing the glass to her, he said,

"Drink it first. Take a deep breath then I will answer your other questions."

Natalia chugged down the whole glass of water. Her hand caressed her belly.

With a look of shock on her face, she turned to him and asked,

"What about my baby?"

Benjamin cast a quick glance at her stomach and murmured,

"Your baby has a thick bloodline. Just like the father."

A sigh of relief broke out from Natalia's mouth. He clutched her dress as she closed her eyes.

A doctor came to examine Natalia. After injecting her, he said,

"You got into an accident.

Surprisingly you didn't get any wounds. It looks like Alpha saved you. His hand is injured because he held your forehead when the car collided with a stone. You are a lucky woman."

Natalia gazed at the doctor and asked,

"What about his health?"

"He is okay. His injuries healed very quickly. Of course, he is capable; after all, he is Alpha Adrian."

The doctor thought about something and then muttered,

"But his forehead... there was a burning scar on it. I wonder how Alpha got that. He received a new wound today, which was on top of the scar."

Natalia was taken aback. "Burning scar?" she mumbled.

She remembered that his scar had healed. So how did it return? What was going on?

Today, she noticed Adrian acting strangely as if he were not himself.

"Don't worry. As his private physician, I would try my best to remove all of his scars."

Natalia gave the doctor a nod. After instructing Benjamin on some medication, the doctor left.

Natalia lay on the bed, reflecting on how things had ended up this way. She asked for her phone, which Benjamin handed to her.

She was eager to speak with her

twins. It nearly slipped her mind that she wanted to visit someone

was coming to the pack house.

swng

The door flung open and a man entered the cabin. Benjamin noticed him and gave him a slight bow.

"Alpha Jason!"

Chapter 484

Natalia turned her head only to see her brother rushing over her.

"Natalia! What happened to you!"

Natalia put the phone on the bed, not getting the chance to talk to her children. She tried to sit up. Jason held her waist, helping her to sit properly. He put a pillow behind her, and she rested her back on it. After taking a look at the brother and sister, Benjamin then said,

"I am going out for a while."

Although Natalia gave a slight nod, Jason frowned and turned his attention to him.

"Where the fuck is the Miller family? My sister is in the hospital bed. Why is it that none of them are here?"

Benjamin lowered his head and replied,

"They are quite busy today. Tonight, there will be a few guests coming to pay a visit to the pack."

Natalia was confused upon hearing him. "Guests? Who?"

Benjamin glanced at Natalia and then shifted his gaze to Jason. The expression on Natalia's face changed as Benjamin's mind connected with her and said, "Let's talk about it later."

Natalia came to the conclusion that he did not wish to engage in conversation at this time because in front of Jason, there must be something that he did not wish to say. "Okay," she replied in the mind link.

She turned to Jason and held his hand. "Brother, how are you?"

Benjamin exited the room, leaving them alone.

Jason sat at the edge of the bed. He put his hand on her head and stroked her hair.

"My baby, what has happened to you? You look pale. You did not look like this the last time I saw you."

She smiled at him while holding his wrist in her hand.

"Brother, I am totally fine. I have something to tell you."

She contemplated telling her brother

the good news about her child.

vene

However, her smile faded when she remembered that she could not speak to Adrian today.

She should break the news to him first.

"What?"

"I will tell you later. You were going to the pack house. Did you... go there?" she asked carefully.

Jason shook his head. "I was stuck at work in the middle. I needed to go meet a few men. When I was ready to head back to the pack house, called you but heard from someone that you were in the hospital hurriedly came to see you."

"Who received you?" she asked in confusion.

"Maybe the hospital stuff."

"Oh," she mumbled.

Jason was there with Natalia for an hour. The doctor came back to check on her and told her she could go home because her condition was not serious enough to require hospitalization.

Natalia expressed her gratitude, "Thank you, Doctor."

"By the way, take good care of your baby. I couldn't say that to Alpha since he was in a hurry to leave the hospital."

Jason was stunned after hearing the doctor. He looked at Natalia and asked,

"Are you pregnant?"

Chapter 485

The blush spread across Natalia's face as she nodded her head. "Yeah, brother."

The confirmation of the news caused Jason's eyes to sparkle. His hand reached into his pocket, and he took out his phone. "What are you doing?"

"I am calling Mom and Dad. They will be very pleased."

She quickly shook her head and said,

"Don't."

Jason frowned at her and removed his phone from his ear. "But why?"

She lowered her head, rubbing her palm with her fingers. She was entirely at a loss for words when it came to explaining anything to her brother.

"Adrian doesn't know about it yet."

It seemed as though Jason was taken aback. "What?"

"Yes, brother."

"But he should have known before anyone else. He is your mate. He can sense that."

Natalia had no idea why Adrian did not know this by himself. She was in a daze. Her brother gently patted her on the shoulder.

"It's okay. Tell him today. Let's go to the pack house to let others know."

Natalia thought silently for a long time. In the end, she came to the conclusion that she could not possibly refuse Jason's offer. The thought of Hazel crossed her mind. Given that Adrian was present at the house, she presumed that Hazel would not communicate with her brother or tell him anything about her baby. Adrian would handle every situation.

"Okay."

Jason filled out and signed the discharge paperwork. Natalia looked for Benjamin, but he was nowhere to be seen. She considered calling him, but then assumed that the hospital staff would inform him of their departure. Then they left the hospital and headed to the pack house.

Natalia was nervous the whole time. She gulped, thinking about Adrian's reaction to learning of her pregnancy. She smiled a little when she thought about Aria and Noah.

They would be thrilled to have a new sibling.

She felt Jason's hand grip hers. She cast a glance at his hand. Jason rubbed her hand and said,

"I am happy for you."

"Thank you, brother," she replied, resting her head on his shoulder.

If there was anyone in this world that Jason loved more than himself, it would be certainly his own sister. He had always wanted to keep her safe.

Natalia suddenly stumbled upon something.

"Brother."

"Hmm?"

"Why do you back the Black Hawk Pack?"

His muscles stiffened slightly, and she lifted her head to gaze into his face. Although he was composed, she could see a slight movement in his eyes.

"Why did you ask that?" he questioned.

She straightened up and uttered,

"That pack and this pack do not get along, brother."

Looking directly into her eyes, he inquired,

"Does my sister wish to cease lending them support?"

Natalia nodded her head right away, insisting that her brother do so.

"Yes."

After giving her a long look, Jason turned away. "Let me see what I can do about this."

Natalia was pleased to hear that. She hugged her brother and rested her head against her chest. Her brother always spoiled her,

swnovel

regardless of how old they were. He never refused to grant her wish.

In front of the pack house, the car reached a stop.

Natalia and Jason both got out of the car. When the guards noticed Luna and Alpha Jason, they quickly opened the front gate for them.

They entered the pack house together. Natalia observed that Adrian's parents were seated on the couch in the living room.

Jason greeted them and sat down on a couch. They looked somehow nervous in front of him.

Natalia assured them with a nod. They became relaxed.

Immediately after Natalia took a seat next to Jason, they heard glass shattering behind the couch.

Natalia looked around, wondering what had happened.

When she noticed Hazel standing in a corner, she scowled.

Hazel's eyes widened as she stared at someone.

Natalia's eyes followed her gaze and realized she was staring at Jason.

Jason looked surprised as he rose from the couch and pointed his finger at Hazel.

"You!"

Chapter 486

Hazel's green eyes, which glowed for a brief moment, left Natalia bewildered as she observed them. She then turned to her brother, who appeared to be in a state of shock upon seeing Hazel. After rising from the couch, Natalia turned her attention to her brother.

"Brother, do you know her?"

Jason's eyes were fixed on Hazel. His lips parted as if he was going to reply.

At that moment, Hazel cleared her throat and looked away from Jason.

"N-No. We don't know each other."

There was a frown on Natalia's face. Why did she reply? Did she ask her or her brother?

Jason's finger turned into a fist, moving down to his side. His confused-looking face turned calm as he muttered,

"Isn't she the princess of the Black Hawk Pack?"

Hazel's gaze returned to him. They looked at each other. Natalia's confusion got even worse. Nevertheless, she recalled that her brother had been providing support for Hazel's pack for some time, which made it possible that he was familiar with Hazel. "S-She..."

Grace Miller got up to speak but paused when two children's voices echoed in the living room.

"UNCLE!"

Jason's eyes blinked as he shifted his gaze to the stairs.

When Aria and Noah saw that their Uncle Jason had arrived at their house, they hurriedly made their way downstairs quickly. They hugged his legs and said, "We missed you, Uncle."

Jason lowered his head to look at

them. He looked puzzled for something, But he was able to gather himself together in a matter of seconds. He placed his hands on their heads and bent down to come to their eye level.

Aria hugged his neck.

"Uncle Jason, it's good you are here. Here, we are by ourselves. Mommy is always away from us, and Dad doesn't come home."

The lines between Jason's brows deepened. He turned his gaze to Adrian's mother and father.

They did not meet his gaze, which caused him to suspect them. His gaze moved toward Natalia, who was giving him a small smile while saying, "Actually, Adrian is busy nowadays."

"Hazel, we have a guest. What's wrong with you?" Grace asked.

Hazel turned her head to look at her and then shook her head. "Sorry. I-I..."

She paused as if she was collecting words to make an excuse. The facial expressions on her face made it abundantly clear that she was not in a good mood.

Her face turned pale, all the color drained. She kept changing her expression as if she was pretending.

"Go back to your room," Adrian's father, Lucas Miller said.

Jason gave him a stern look. "Her room? Did she come here to visit the pack for a while?"

Adrian's parents turned to face Jason. Lucas gulped, feeling nervous. Natalia could see that they did not want to tell Jason about Hazel's pregnancy. "Y-Yes, brother. She came here to visit our pack. She will go back very so—"

Natalia could not finish her sentence. It was not because someone else entered the room and interrupted her. His deep voice and cool tone were enough to catch everyone's attention. However, his words shocked everyone.

QUMS

"No, she is not leaving the pack. She is going to stay here forever."

Chapter 487

Everyone turned their heads to see Adrian in the left corner.

"Dad"

Aria and Noah mumbled. Adrian looked at them. When Adrian's eyes met theirs, they hid behind Jason.

"Go back to your room," Adrian said to them.

They let go of Jason and dashed up the stairs to obey his command.

Natalia was so focused on him that she missed her children's expressions. He was dressed in a gray suit. A bandage was wrapped around his forehead. He looked good with his bangs falling on his forehead and hiding the bandage. He rarely covered his forehead with hair. This was a new look that suited him perfectly.

Nevertheless, Natalia could not ignore his words over his looks. She was worried for him; at the same time, she was perplexed.

The accident injured him. Her gaze moved to his hands. She could see that his right sleeves were slightly bulged in the arm area. She was certain there was a bandage. His fingers looked fine, but there were a few scratches. "What do you mean she is going to stay here forever?"

Natalia's gaze was drawn back to Adrian's face when she heard Jason speak. Her gaze locked on his dark black orbs. Surprisingly, she felt no emotions inside. It brought back memories of the accident.

He saved her the time, but why did he do it in the first place?

Adrian's gaze shifted from Natalia to his brother.

"Alpha Jason is here to see his sister. I hope he can devote time to her without thinking about other matters in this pack."

Jason was taken by surprise. Adrian's tone and the way he spoke changed.

Jason turned to Natalia, giving him a confused look.

Natalia, on the other hand, was also surprised by Adrian's behavior.

Wasn't everything settled between the two men?

What went wrong with Adrian? He should have considered behaving calmly with her brother to make him understand the whole situation. "Adrian," Hazel said, catching their attention.

Everyone turned their attention to Hazel. She lowered her head, staring at the broken glasses.

"I am sorry. I disturbed your guest."

After saying that, she lowered herself and began to touch the broken glass pieces.

Adrian walked over to Hazel and held her arm.

"Why are you doing this? Do I not pay my maids to do these things?"

Natalia blinked her eyes. She looked at Adrian's hand, which was holding Hazel's arm. She then looked at his face, trying to figure out if he was planning to scold Hazel since he claimed to dislike Hazel completely.

Hazel stood straight, looking at him. She was nervous around him. Her cheeks became flushed. Natalia clenched her jaw because her inner Alpha did not want her mate touching another woman.

But Adrian did not stop there. He surprised her even more by letting go of Hazel's arm and wrapping his arm around her shoulder.

Hazel glanced at his hand and then looked at him with surprise. It was as if she had not expected this from him.

Jason stood there silently watching everything that was going on in front of him. No one noticed the darkness in his eyes when Adrian touched

Hazel. ouch

Adrian turned to Jason and said,

"Meet her. She is Hazel Leighton, Alpha Adrian's mistress."

Chapter 488

As if the sky had fallen over Natalia, she felt a sharp pain in her heart. The shock caused her eyes to widen.

What was he saying?

She tried to comprehend what she was experiencing on the inside by blinking her eyes back and forth. It was almost impossible to bear the pain of the heartache. "What are you saying?" she mumbled.

Jason was just as surprised as everyone else when he heard Adrian.

But the next moment he rushed up to Adrian and punched his cheek.

"You fucker! Do you have any idea what you are saying?" Jason let out a roar.

The punch caused Adrian's face to turn. A gush of blood started to come out of the left corner of his lips. He touched his lips with his thumb and looked at it.

His eyes turned brown for a moment, which Jason did not notice. Because he was so enraged, he had every intention of punching him once more.

"Adrian!"

Grace Miller screamed in fear when Jason was about to punch her son again.

However, Adrian grabbed his wrist and glared at him.

"Don't forget you are not in the Blue Blood Pack."

It was a sharp warning from Adrian to Jason. Jason was not in his own pack, where he was the leader of the pack and had complete control over everything that he did from that position. "How dare you even say that!" Jason yelled at him.

Adrian pushed his wrist away and fixed his suit jacket. After wiping the corner of his lips, which was healing quickly, he glared at Jason in return.

"I am the head Alpha of this pack. Here, I am free to do whatever I please."

Jason grabbed Adrian's collar, scowling at him.

"I will kill you if you cheat my sister. How dare you even entertain such a thought! My sister is a beautiful and dignified woman. After all the sufferings she had to feel for you, you still have the audacity to play these tricks?"

Andrian's father shook his head as he said to Jason.

"Leave my son. You can't react like this."

In response, Jason turned his attention to Alpha Lucas. "What did you say? I can't react like this? Your son is taking another woman when he has my sister, and I have no right to react against it?" FindNovel

Grace Miller patted Jason's shoulder. "Leave him. If you have any problem, you can speak with your mouth. You can't hurt him."

Natalia was staring at Adrian. She was too shocked to react or say anything.

Adrian looked at her and said to Jason.

"Your sister is aware of everything that is going on."

Jason's hand froze. He turned to look at his sister.

"What is he saying?"

Natalia retreated a few steps while shaking her head in disapproval.

"I am aware of nothing, brother. Only the fact that this woman is carrying his child is something I am aware of. I thought that was a lie. But now I realize that this man has made a fool of me again." FindNovel

Chapter 489

Jason's eyes were filled with rage, which caused him to growl so loudly that Grace Miller was forced to cover her ears. After all among the four werewolves, she was the only person who was not an Alpha. Hazel was the exception, she was a witch. He turned around and looked directly at Hazel. She was trying to avoid his gaze.

"Are you pregnant with his child?"

He asked her the question because he did not believe in it. Hearing about the mistress seemed less shocking than hearing this news.

His teeth clenched as he stared at Hazel.

Hazel stepped aside, appearing frightened, and stood behind Adrian. But there was no mercy in Jason's eyes. His eyes followed her every step. He noticed that she was firmly gripping Adrian's suit sleeve. "Stop scaring her. She is pregnant. I don't want my unborn child hurt by anything."

Natalia jerked up when she heard Adrian's words. She clutched her dress around her stomach with her hand.

'His unborn child? Isn't his unborn child in my womb? Why is he acknowledging Hazel's child? Didn't he take a swear before claiming it was not his child?' she thought.

She laughed at herself in her head. What did she think about before coming here? She considered telling him about her pregnancy. But what happened here?

Indeed, life was unpredictable. No one was trustworthy in her eyes. A man could not be trusted.

Jason was infuriated.

"Unborn child? Are you taking care of this woman and her child? Do you even know your own wife—"

"Brother."

Natalia intervened and stopped Jason.

Adrian's parents cast a glance at Natalia. Natalia was unsure why they were supporting their son. She would never forget that they had said it was Adrian's decision to make Hazel his mistress.

How could she share her husband with another woman? How would she make up her mind again? If it was true, why had Adrian given her false hope?

Jason stepped back and approached Natalia. He held her hand and said,

"This guy does not deserve you. I had no idea this was all going on here. Now that I am here, I can not let you stay any longer."

Natalia looked into Adrian's eyes,

hoping to see emotion. He always told her not to tell anything to her brother because he was afraid of losing her. So she hoped he would stop her and explain to her brother that what he had said was a lie.

Jason started dragging Natalia towards the door.

Natalia's legs moved, but her gaze was fixed on Adrian. He was indifferent as if he did not care if she left.

Her blood ran hot when she saw his unaffected expression. Her legs came to a halt as her eyes turned a deep blue.

Jason turned his head to look at her.

His grip paused as he remembered

who she was. An Alpha healer who did not need any safety or protection. She was capable enough to protect herself and the people around her.

He could see her claws slowly emerging. Then he heard her broken yet chilly voice as she spoke in her Alpha tone, causing everyone, except her mate and brother, to shake from within.

"I won't leave this pack. This pack is my children's pack. If anyone gets in my way, I will kill them to clear my path. I will not spare them, whether it is their father, his parents, or another woman." en FindNovel

490

Natalia's eyes turned a glowing dark blue. With her teeth gritted, she shot her gaze at Adrian.

His parents were taken aback by her words. It was disrespectful to them. Natalia had never dared to do that before. She was always courteous and respectful towards them. "Natalia!"

Grace reacted angrily. Her eyes narrowed as she spoke,

"We have been showing you care all these years. But by saying that you can kill us, you have just shown what our place is in your eyes."

Grace looked at her husband, Lucas Miller, as she held his arm.

"Your father-in-law adores you and has always wanted you to be his daughter-in-law. He never accepted Lynda, and he never mentioned liking Hazel. But today, you disrespected this old man."

Natalia turned a blind eye to all the things Grace Miller was saying. The moment Adrian announced that he was going to take Hazel as his mistress, she had completely lost her mind, and his parents did not even object to the idea.

Upon seeing Adrian's expression of indifference, Natalia's blood began to boil immediately. It was a look that challenged her, implying,

'Do whatever you want; I don't care.'

In a matter of seconds, Natalia yanked her hand away from her brother's grip and rushed toward Adrian.

Her claws emerged, and she grabbed his neck.

"ADRIAN!"

Grace screamed out in fear. Hazel quickly held Adrian's arm, trying to pull him away from Natalia.

Angry gleams emanated from Natalia's eyes as she shifted her gaze to Hazel and glared at her.

"Should I switch my target and kill you instead?"

As she gradually released her grip on his arm and took hold of her stomach, Hazel's hand began to shake. "P-Please don't kill me."

Natalia laughed disdainfully at her.

She believed this woman was capable of defending herself, but she was pretending to be innocent in front of Adrian and his parents.

en FindNovel

On the other hand,

Adrian did not move, nor did he try to break her grip away from his neck.

The calmness in his eyes was only slightly altered by the passing of the seconds. Natalia looked into his eyes, trying to read them. But something was strange about him.

To her surprise, she could not feel his scent either. Although she had gotten very close to him, she was still unable to detect his scent. This realization caught her completely off guard.

en FindNovel

"What's wrong with your wolf? Hide inside when the real Alpha tries to attack?" She gave him a mocking glare.

A smirk spread on his lips as he spoke,

"You and your wolf are free to do whatever you please. Try to kill me? Do you believe that these claws have the ability to kill me?"

Natalia was not in her right mind to think his nonsense. His provoking words only made her mad at him. Her hold became more firm, which resulted in blood oozing out of his neck.

en FindNovel

Grace yelled out to Natalia, "Please let my son go."

"Natalia, don't be foolish, my child. Leave him," Lucas Miller tried to persuade her even after she had disrespected him.

"You want to take her as your mistress? Sure, you can do that. But never..."

As she moved closer to his face, she murmured,

"Never think about getting close to me again. For me, my husband died today. I will rule this pack on my own."
