

Taking Alpha's Twins Away After Divorce

Chapter 491

The color of Adrian's eyes faded from black to brown. He frowned at her upon hearing her statement. He grabbed her wrist and questioned with a raspy voice,

"Rule this pack on your own? You mean you want to rule my pack alone?"

All of a sudden, she experienced a burning sensation in her wrist. The fact that his hand could cause her to experience such a burning sensation in her head was a mystery to her. Her grip loosened in shock.

He was able to successfully get her to move away from him. It caused her to retreat a few steps back. As she was perplexed, her legs became unbalanced.

Jason noticed his sister was about to fall. He hurried over to her and prevented her from falling by holding her.

His head turned to Adrian, and he let out a low growl. He was filled with rage, and he had a strong desire to kill this man right at this moment.

"How dare you push her?"

He was concerned that this man would cause harm to Natalia's child. Yeah, it was Natalia's child only. The idea of her living with this man was inconceivable to him. He could not allow it. So the child was solely his sisters, and not Adrian's. He did not deserve to become a father like this. Adrian sneered at him in response.

"Your sister seems to have lost her senses. She is too greedy to consider having my pack rule alone."

Natalia was holding her wrist until she heard him. She slowly looked at Adrian and asked,

"How did you forget that I helped you save this pack? Who saved your life?"

Adrian's eyes locked with hers. He gave her a confused and angry expression.

"What are you talking about?"

Natalia was dumbfounded.

How could he not admit that she had helped him? Did he forget everything?

She tried to look at him closely, paying her attention to him carefully.

To her, he looked completely fine. Why was he speaking so strangely?

She

returned to black, assuming t

accident had hit his head and that the

caused him to forget things.

"Did that accident make you forget your past and my struggles?" she asked out of the blue.

Adrian raised an eyebrow. "There is nothing much to remember."

His reply caused her to take a step back. Jason balled his fists tightly.

"Natalia, I am still telling you. Let's leave."

She shook her head while staring at Adrian.

"I don't want to brother. This is my pack now. My children... this man will not let them have what they deserve. Even if I did not have a better life here, I can not expect my children to live the same way + won't let them live without their pack and family like me."

With a broken heart, she thought back to her early years. When she came to the realization that she had spent her entire life giving everything to the wrong people, her heart broke. Ultimately, she was betrayed by everyone.

Adrian's wound on his neck, which Natalia had recently given him, healed quickly.

It surprised both his parents and Hazel. However, they remained silent.

At that time, a few guards rushed inside and bowed to Adrian.

"Alpha, the guests... the Leighton family is here."

Chapter 492

At the moment of hearing that, Natalia and Jason both appeared surprised. The Leighton family?

Natalia almost forgot that she had heard Gamma Benjamin telling her that some guests were coming to the pack house. He did not say who the guests were, so she was unaware of their identities. Hearing that it was the Leighton family, Natalia felt a shift in her heart.

Did they learn that Adrian agreed to accept Hazel and her child? Was it the reason for their arrival?

Right after the guards, three people came to the site. They entered the pack house with their green eyes observing the surroundings around them.

Natalia examined the three people.

They looked powerful-really powerful.

There was just one woman among the two men. The woman was young, but she could be two or three years older than Natalia.

While the two men have different ages. One was a young man with a calm face, while the other appeared to be the family's main character.

It was an elderly gentleman with emerald eyes. A power emanating from him curled Natalia's wolf within. Despite appearing to be in his late seventies, that man was strong. His wrinkles were fresh, and he had pure white skin with many red moles on his cheeks, making him appear very sensitive.

Only powerful ranks, such as Alphas, could feel the power of this ancient wizard. He was not an ordinary man; he was the Black Hawk Pack's head wizard.

Natalia heard a voice that was shaking from behind her.

"Grandpa!"

Natalia turned around and looked at the expressions on the faces of the other people. Hazel seemed... scared? Why, though? Shouldn't she be happy that her grandfather was here? It was not like she was not

aware of his arrival.

Hazel approached and came to a stop. She then dropped to her knees. She lowered her gaze and bowed to the old man, pressing her head against the floor. Natalia was shocked.

Why was she doing that? She held the title of Black Hawk Pack princess. All these times she heard that the Leighton family doted on their princess a lot. So why did she kneel down to them as if she were servant approaching her master?

"Oh! My darling! You don't need to do that. Grandpa is not mad at you anymore," the young woman said, reaching out to grab Hazel's arms.

Natalia assumed Hazel did this because the old man was upset with her after she left her pack with Adrian.

The Leighton family's eyes shifted to Adrian.

Adrian's eyes locked with the old man. He immediately said,

"Welcome to the Crystal Blood Pack, Old Leighton."

The old man grinned and turned his gaze to Jason.

"Oh, Alpha Jason is also here. What a pleasant surprise!"

Jason averted his gaze but made sure to greet him.

"Nice to see you again, Old Leighton."

The old man, along with the two young people, moved toward

Adrian's parents. The old man came

to a stop near Adrian's father and stared at him intently.

"What a luck, Lucas Miller! You might have thought that we would never come across each other again."

Chapter 493

Natalia scrutinized the three people who did not greet her and instead went to take seats on the couches. Adrian did not even bother introducing her to them. She felt like an outsider. For once, she wanted to leave them for now.

However, her brother held her hand and shook his head, indicating that she should not leave at this time.

"I hope we will not bring up the past. Our children made some mistakes; we will try to solve this," Lucas Miller said with a soft tone.

Natalia remained composed, trying to concentrate on their conversation.

The young woman had not yet sat down on the couch. She walked up to Adrian and stood beside him.

"Refreshing to see you again, Alpha Adrian."

She was grinning charmingly, and as she gazed at him, her eyes glistened.

She raised her hand and gently laid it on his shoulder before brushing something out of its way. As she slowly ran her fingernails over his shirt sleeve, she spoke again while gazing at the bandage around his forehead. "You shouldn't have left the pack like that. So powerful to heal the wounds as well? You never stopped amazing me."

Adrian turned his head toward her, his eyes glowing brown, which caused the woman to smile brighter.

Her eyes glowed green as she stared deep into his.

"I see that you are doing well. I am looking forward to seeing what Alpha Adrian does next."

Adrian did not let out a single thing. The only thing he was doing was looking directly into her eyes. He did not even blink, giving the impression that he was either lost in her eyes or that she was controlling his movements. From a little far away, Natalia was watching everything.

When she saw that Adrian had

changed, her heart sank to the bottom of her chest. He now fancied other women. That woman was from Hazel's family; he had just said that he was taking Hazel as his mistress, yet he was looking into one of Hazel's family member's eyes.

What was wrong with him?

The way that woman was touching Adrian, it really made Natalia angry.

Hazel cleared her throat and said,

"Sister-in-law, take a seat next to brother."

Natalia was taken aback.

That woman was Hazel's

sister-in-law? In front of her

another man and talk like thi

husband, how could she get close to

FOUMS

Once again, the eyes of the old man drew to Jason. With a polite tone, he requested,

"It would be a pleasure to have Alpha Jason join us. We are here as guests. Please don't deny us."

It looked like Jason had a great

impression in the Black Hawk Pack. Perhaps he was the only one who supported them in business, which explains their respectful behavior.

Jason walked up to them, holding Natalia's hand.

He had already calmed down, not wanting to cause a scene in front of the guests.

"Meet my sister. A powerful Alpha in rank and a formidable healer."

His introduction was far more powerful, prompting the three people to turn to look at Natalia.

But when Jason said the next sentence, the colors on their faces faded away.

"She is the Luna of this pack."

Chapter 494

In the silent living room

Everyone's attention was on Natalia. The three new people scrutinized her with their predatory eyes.

The pair of emerald eyes, which had been experienced by seeing many things, keened by focusing on her.

"How can you refer to her as this pack's Luna when there hasn't been a crown ceremony yet?"

Hearing the strong voice, which did not shake a bit even though the owner was old, took Natalia aback.

She turned her head to look at the old man. She felt awkward inside after meeting his gaze.

It appeared that he possessed far more power than she had expected. The power of the wizarding world was something she was not unaware of.

The words that he spoke pierced her heart and brought her to the realization of something that she had neglected to remember.

'Crown Ceremony!' she thought, averting her gaze from the old man.

She came to the realization that she had not yet earned the title of Luna of this pack. The reflection of the night the Crown Ceremony flashed on her head. That day, Adrian went missing. Because of this, the ceremony had to be canceled.

She thought deeper as she wondered,

'If a fire had not broken out in one of our villages that night, Adrian would not have gone there. He would not have met Hazel and...'

As soon as she caught a glimpse of something fishy, her eyes widened in shock.

She cast a quick glance in the direction of the couple who were smirking at her. She was able to comprehend the reason behind their smirk. It was because they were trying to signal that Hazel still had a chance to take the position from her.

Thinking, Natalia blinked her eyes and thought,

'So everything was pre-planned by the Leighton family. They were the ones who planned the fire and set up everything to take Adrian away from this pack.'

She could not help but gape, thinking of the possibility of the Leightons conspiracy.

Her heart clenched inside as her gaze shifted away from the couple and toward the man sitting calmly.

Everything would have been different if he had stood by her side. But he changed his heart when he found another woman.

Just looking at Adrian, she felt rage inside her. In fact, her wolf was also mad at him.

"Old Leighton, you must be in the mood for joking!"

Jason spoke up as he took a seat on a couch. He looked at Natalia to take a seat next to him. Natalia turned away from Adrian and sat down

V

beside her brother.

No matter how much she wanted to leave this place, she would have to be part of this discussion. She could not leave her position like that. "Alpha Jason may have forgotten that a pack is always bound by culture and rules. His sister is only the Alpha's wife without the Crown Ceremony." Jason tightened his fists as he directly looked into Old Leighton's eyes. Something flashed inside the eyes, causing Jason to look away immediately. "Brother, are you okay?" Natalia asked, holding his arm.

"He is the chief wizard of the Black Haw Pack, so try not to stare into his eyes too much. He can compel anyone to freeze and hurt them as he wants."

Jason patted her hand and whispered,

Chapter 495

Natalia was surprised to hear her brother. She glanced at the old man once again.

Was what her brother said right?

Her eyes quickly swept over Adrian's bandaged forehead. Before he could catch her eyes, she averted her gaze off of him.

She pondered, 'Was it Old Leighton who was responsible for the burn on his forehead?'

By telling herself that she did not care about Adrian anymore, she attempted to calm her heart.

Through a hushed voice, she responded to her brother, "Okay."

Jason shrugged his shoulders and said to the old man with a grin.

"You are talking about culture and rules? In spite of the restrictions that my pack imposed, have you forgotten how I managed to make it to your pack? You are aware of the reason why I went there, right?" The expression on the old man's face changed. His thick brows furrowed, but then he let out a chuckle.

"I see I have offended Alpha Jason. Don't mind my words. I was only talking about terms. If that offends Alpha Jason, I apologize."

Natalia was stunned. The old man was actually apologizing to her brother!

"I hope Old Leighton won't forget the past accounts between the Blood Moon Pack and the Black Hawk Pack."

Hazel's sister-in-law let out a laugh as she looked at Jason and replied to his remarks,

"Of course not. We owe you one."

Jason scoffed when he heard the woman. His eyes shifted to the woman's husband.

"Mr. Leighton, why are you so quiet? I have heard that your sister will become a mistress; are you aware of this?"

After meeting his gaze, the man quickly turned his attention away from him as soon as he could. "Alpha Jason, we came here to talk about this."

"What exactly is up for discussion? Your sister is carrying a man's-."

He paused, moving his gaze to Adrian, who was still quiet. His gaze appeared to be fixed on the ground as if he were attentively listening to everyone in silence. It was more than surprising how a man like him. could keep quiet.

"My sister's husband's child," Jason completed his sentence with a cold voice.

He would not let anyone spare tonight as if there was a blaze that was fuming him inside. He wanted to kit everyone with his sharp tongue and ruthless mock

Hazel's sister-in-law patted her husband's hand, indicating that she could respond on behalf of him. With a grin on her face, she said to Jason,

"What can we do about this? Our kid made a mistake. Wait, can we call it a mistake? Possibly not. Because they were adults and in their full senses. It is possible that they fell in love right away when they first met. Now that there is a child between them, how can they live apart? Alpha Adrian may have thought not to accept her at first, but the moment he realized his feelings toward her, he changed his mind and wanted to give her a name. Now that your sister is between them, he has to take Hazel as a mistress instead of his Luna."

Natalia could not stop her mouth anymore as she glared at the woman in anger and retorted back.

"Each time I saw Hazel, I wondered how a woman could be so shameless. But after meeting you, I realized I had not seen the biggest one yet."

Chapter 496

Hazel's sister-in-law, Ansel Leighton, was shocked. She did not expect Natalia to respond like that. Her eyes widened and glowed with anger. "Did you just-"

Lucas Miller, Adrian's father, stopped her from speaking when he noticed the atmosphere growing heated.

"Please don't take her words to heart."

Natalia looked at Lucas to see why he had stopped Ansel. She wanted to hear her out before responding with what she deserved.

A shameless family like Leighton deserved to be insulted rather than respected.

"My sister is very blunt. "She never considers who is in front of her; she always stands for the truth," Jason stated proudly.

Ansel raised an eyebrow and said, "Then she should stand the truth this time as well. The truth is that someone else is carrying her husband's children. How can she not show her support for the woman? Can't she support the feelings of these two people and make her own decision?" Natalia clenched her jaw. How did she know what she and Adrian had talked about before they came to the pack house? The argument only happened, and by this woman's words, it was clear that she was aware of all the conversations... How?

The suspicion inside Natalia's mind grew.

After a moment of silence, Grace Miller started to speak up. She inquired as to whether the Leightons had encountered any difficulties on their way there.

Natalia was only watching her interact so nicely with Hazel's family. Both Hazel and Adrian were quiet from the start.

She took a close look at Adrian. He did not even move, as if someone had frozen him there.

If anyone looked closer, they would notice he was not blinking. It was as if he were a lifeless body, sitting therewith no soul. But Natalia failed to notice it.

She only noticed how calmly he was enjoying the conversations without objecting to anything.

As she looked away from him, she felt a dark gaze coming from across She realized the old man

her.

to make a sound so no one would

She reached out her hand and touched the back of her neck. She felt a burning sensation on her 'healer mark'.

Her inner wolf glowed as she pointed her gaze toward the old man.

"I heard my brother supported your pack. Without him, your pack was on the verge of falling."

The old man's brows moved slightly as he observed her boldness in gazing at him and engaging in such conversation.

Ansel saw his angry reaction and quickly spoke out,

"We are so lucky to have him by our side. As I said before, we owe him a lot."

With a question in her mind, Ansel turned her head to Jason.

"Alpha Jason, I wish we could give you anything you want."

Jason shifted his gaze towards Hazel and muttered to her sister-in-law,

"There is nothing you can offer me, Mrs. Leighton. Because what I desired turned out to be rotten."

Chapter 497

With a frown on her face, Natalia turned to face her brother. What was it that he desired that made him to assist the family, such as the Leightons? It was not unfamiliar how these people were. They were notorious and vicious people who could only cause harm to others. She noticed that he was looking in a certain direction. Before her eyes could follow his gaze, Hazel got up from the couch.

So why did he help them in the first place?

"Excuse me. I am coming back in a few minutes," she said in a low tone.

After that, Hazel walked past everyone.

Natalia followed her movements until she left the living room. When she noticed that Hazel was sweating as if she had been startled, she was perplexed.

Wasn't her family there for her to set up things for herself? Then why did she look so afraid?

Natalia suspected that Hazel had begun to behave strangely since her family arrived.

But why?

As other people resumed their conversations, the living room started to emit a reverberation of voices.

After a while, Jason asked her for the washroom. Natalia wanted to take him there. However, Jason instructed her that he could go there by himself and that she should remain in the living room in order to listen to what the Leightons had to say to the Millers. On the other hand,

Hazel came to the washroom after leaving the living room. She rinsed her face with cold water for a while until she felt numb on her face.

She looked at the mirror to see her face. Her eyes were red, and she had a sullen mood.

She put a towel over her face and wiped it. She did not leave the washroom as if something was going on in her mind.

She gently stroked her stomach with

her hand for a moment. She

mumbled something as she looked mirror

at her stomach in bad ne

"I am sorry, my baby. I am really sorry."

swnov

She turned around and opened the door. She exited the washroom and made her way out of the corridor.

In front of her, the corridor was empty. She was unsure whether she should return to the living room or not.

In the end, she made the decision to return to her room and thought to tell others that she was feeling unwell.

But suddenly, a hand grabbed her wrist and pulled her to the left side. She let out a gasp of shock and made an attempt to look at the person who was holding her hand.

Before she could turn her head, her back was already pressed against a pillar.

Her eyes were filled with more shock as she looked at the man who was standing in front of her. She did not expect him to come there and catch her.

The man's eyes glowed with rage as he glared at her with a hostile expression.

Her lips quivered as she stuttered.

"J-Jason!!"
