

## Talent 201

Chapter 201: My Woman!

Hurricane Cliff.

Ye Tian arrived here, sensing the presence of several wind-attribute Emperor-level ferocious beasts.

After spending some time, he killed these Emperor-level ferocious beasts one by one.

Thus, Hurricane Cliff became entirely his territory.

Rarely did ferocious beasts come to Hurricane Cliff, so Ye Tian was not worried about them disturbing his cultivation.

Atop Hurricane Cliff.

Ye Tian sat cross-legged, gusts of wind blowing towards him like countless knives, shredding his clothes to pieces.

Having no choice, Ye Tian ignored his clothes and continued his cultivation there.

With each breath, countless wind yuan qi, guided by his Mystic-level wind talent, began to temper his body.

“The speed of tempering is so fast, just like when I initially used fire yuan qi to temper my body. It’s difficult to break the third physical limit, but at my rate of progress, it should take at most seven to eight months to break it!” Ye Tian speculated.

He planned to return to Zhonghai Super Base after breaking his third physical limit; he didn’t want Yue’er to wait too long.

Boom boom boom!!!

Countless wind yuan qi tempered Ye Tian's body as time slowly passed.

During this period.

An inattentive ferocious beast that disturbed Ye Tian was killed by a spatial blade.

As time went by, a large number of ferocious beast corpses appeared below Hurricane Cliff, scaring many curious beasts from daring to enter the cliff again.

Eight months later.

Ye Tian reached his third physical limit and, with the help of an immense amount of wind yuan qi, successfully broke through the limit. His physical strength reached 300 Dragon Power, significantly enhancing his strength.

"It's time to go back," Ye Tian murmured.

Whoosh!

With a gust of wind, Ye Tian's figure disappeared.

---

At the spatial rift.

Humanity's new base in the world of ferocious beasts had been completely established and its defenses strengthened. However, they hadn't actively explored the world of ferocious beasts and focused only on defense.

One day.

Empress Yue stood on the top floor of a base tower, gazing into the distance.

“Ye Tian, it’s been more than a year and a half. Where are you?” Empress Yue muttered to herself.

Every few days, she would stand here for a while, waiting for Ye Tian’s return.

But she was disappointed time and again!

For an Emperor-level like her, a year and a half wasn’t much, but it felt extremely long.

This year and a half seemed even longer than the decades that had passed.

Just as she was about to leave, her expression suddenly changed.

“Ferocious beasts!”

In the distance, a black line surged over, clearly a battle line formed by countless ferocious beasts.

After more than a year, the ferocious beasts swept over again, and their attack was much stronger than before.

“The ferocious beasts are coming!” Empress Yue’s voice echoed throughout the base.

Swoosh swoosh swoosh!

One after another, Emperor-level figures appeared, looking solemnly into the distance.

Swoosh!

The Battle Axe Emperor appeared not far from Empress Yue, speaking gravely, “Empress Yue, use your Moon God Mirror to see if the black ferocious beast is there. If it is, we’ll retreat immediately and abandon this base!”

No one wanted to abandon the base if possible.

Abandoning this base meant pushing the battlefield towards Earth.

But if the ferocious beast overlord attacked, they couldn't resist and had to retreat.

If the overlord wasn't there, they wouldn't retreat unless the loss was truly substantial.

Empress Yue nodded and took out the Moon God Mirror.

Powered by Yuan Force, the Moon God Mirror activated.

The scene of countless ferocious beasts appeared in the mirror, each Emperor-level beast looking like a terrifying demon, leading their armies in an assault.

"There's no sign of the black ferocious beast, but several powerful Emperor-level beasts have appeared, including the previous eagle-like beast!" Empress Yue said solemnly.

"Good that there's no black beast. Prepare for battle and repel these beasts completely!"

The Battle Axe Emperor drew his Morning Star-level axe and was the first to leave the base, ready to fight the incoming beasts.

Whoosh whoosh whoosh!!!

One after another, the emperors appeared, followed by a large number of Saint-level powerhouses.

King-level beings were not yet qualified to participate in this grand battle!

Soon, the battle began!

Boom boom boom!!!

Emperors clashed with Emperor-level ferocious beasts, while Saints fought with Saint-level beasts.

Empress Yue engaged three powerful Emperor-level beasts, demonstrating strength not inferior to the Battle Axe Emperor.

Every moment, beasts fell, as did human powerhouses.

“Form the array!”

In the void, a massive killing array emerged.

This was a Morning Star-level killing array set up by the Morning Star array masters and top-tier array masters of Zhonghai Super Base. Without the array’s assistance, humanity would have suffered great losses.

Ferocious beasts didn’t fear losses, for their numbers in their world were vast, but humans at Zhonghai Super Base did.

The loss of even one Saint-level being was painful, let alone an Emperor-level.

Once the killing array was activated, the pressure on humans significantly decreased!

Beast after beast was annihilated by the Morning Star-level killing array, and the ground was littered with their corpses, victory for humanity seemed imminent.

But then.

A gigantic earth dragon beast emerged from underground, its body spanning a thousand meters, far more powerful than the average Emperor-level beast.

“This Emperor-level beast’s strength is comparable to mine!” exclaimed the Battle Axe Emperor.

Already entangled by four Emperor-level beasts, if this new behemoth went on a rampage, the other Emperors and Saints would suffer.

Immediately.

Two ordinary Emperors couldn't dodge in time and were devoured by the earth dragon beast, perishing on the spot.

“Roar!”

The earth dragon beast roared, its large eyes instantly fixing on Empress Yue not far away.

Empress Yue, already engaged with three powerful Emperor-level beasts, was in no immediate danger, but the addition of the even stronger earth dragon beast put her at risk.

Pff!

A spike of earth pierced the void, aiming for Empress Yue, who was battling the three Emperor-level beasts.

The situation became perilous in an instant!

The Battle Axe Emperor couldn't rescue Empress Yue in time, and the other Emperors were no match for the earth dragon beast. Attempting to stop it would be suicidal.

The only Emperors in Zhonghai Super Base capable of stopping this beast were the Battle Axe Emperor, Emperor Qin, and the War Dragon Emperor stationed at the War God Tower.

However, Emperor Qin and the War Dragon Emperor were not present.

Empress Yue, disregarding the earthen spike, seemed determined to withstand the attack.

But taking the hit would result in serious injuries, even if not fatal.

And once injured, the situation would become more dangerous.

Just then, a voice echoed across the battlefield.

“My woman is not someone you can hurt!”

The next instant.

A figure appeared in the void, effortlessly slicing through the earth dragon beast’s spike with a single strike.

“Ye Tian!”

Empress Yue was overjoyed.

The unexpected savior was Ye Tian, unseen for over a year and a half!

“He just said I am his woman!”

Empress Yue was not angry but delighted by such a bold declaration of love.

She felt incredibly sweet inside.

“Yue’er, be careful. I’ll take care of this earth dragon beast,” Ye Tian said with a smile, turning back.

Being addressed so affectionately by Ye Tian in front of so many Emperors and Saints, and recalling his recent declaration, Empress Yue’s face blushed, but she steadied herself and continued battling the three Emperor-level beasts.

Now was not the time to be distracted!

## Chapter 202: Empress Yue and Ye Tian Fell in Love!

“Roar!”

The Earthwalking Dragon Beast glared at Ye Tian with angry eyes, and in beast language said, “Human, I’m going to eat you!”

Ye Tian stared back at the Earthwalking Dragon Beast, his Morning Star-level sword aimed at it: “Today, I will use your life to announce my return!”

“Mystic-level strength talent!”

“Starfall Slash!”

With a swift slash, the sword moved at an extreme speed, its power reaching 1.8 million Dragon Power, far surpassing the attack power of the Battle Axe Emperor.

Moreover, Ye Tian’s sword speed was too fast for the Earthwalking Dragon Beast to evade.

With a splat, the neck of the Earthwalking Dragon Beast was nearly severed.

It was not dead, but severely wounded.

“Not good, this human is too terrifying, I must flee!”

The Earthwalking Dragon Beast prepared to use its Earth Escape talent to leave.

It believed that once it used its Earth Escape talent, that human would definitely not be able to pursue it.

But suddenly,

A terrifying force attacked its soul.

“Soul attack!!!”

The Earthwalking Dragon Beast was terrified, its soul instantly obliterated by half.

Before it could even scream, another blade of light filled its vision.

“My life is over!”

That was the last thought of the Earthwalking Dragon Beast.

Boom!

The huge head of the Earthwalking Dragon Beast flew off, decapitated by Ye Tian’s sword.

If it weren’t for the Soul Spike talent’s strike, the Earthwalking Dragon Beast would have truly escaped underground and left, making chasing it down much more difficult.

Others did not know about Ye Tian’s use of the Soul Spike talent; they only saw him slay the terrifying Earthwalking Dragon Beast with two slashes.

Had they not been on the battlefield, they would have started marveling.

“Yue’er, I’m here to help you!”

Ye Tian arrived beside Empress Yue, assisting her in killing the three Emperor-level ferocious beasts.

With Ye Tian’s help, the three Emperor-level ferocious beasts were quickly slain.

“Yue’er, I can finally start protecting you now!”

Ye Tian, ignoring the situation, took Empress Yue’s hand tenderly.

“Hmm!”

Empress Yue, blushing like a young girl, nodded gently with her head lowered.

At this moment, she felt incredibly sweet!

“Yue’er, let’s first help the other emperors kill off the ferocious beasts!”

Ye Tian released her hand and said.

Immediately, the two took action again.

With Empress Yue and Ye Tian’s intervention, Emperor-level ferocious beasts were slain one after another, the situation on the battlefield greatly improved, with the beasts even trapped in the Morning Star-level formation, unable to escape.

Before long, all the Emperor-level ferocious beasts were annihilated, and the Saint-level ferocious beasts were swiftly killed by the emperors.

After the battle, the ferocious beasts were wiped out, and humanity achieved a complete victory!

“We won!”

“Hahaha, this is the first time we have such a great victory against the ferocious beasts!”

“We must thank Emperor Ye Tian. Without him, we would have suffered heavy losses this time!”

Many eyes turned to Ye Tian, but they soon became envious and jealous.

This is because Ye Tian walked into the base hand in hand with Empress Yue, their hands tightly clasped.

Empress Yue and Ye Tian were together!

Seeing this, many people couldn't believe it.

That was Empress Yue, the legendary Empress Yue known for her cold demeanor, who supposedly disliked men, was now together with Ye Tian.

At that time, they remembered that Empress Yue had set a new rule in the Moon God Sect for Ye Tian, allowing him to enter the Moon God Sect freely, the only man in decades to have this privilege.

Originally,

Many speculated that it was because Ye Tian saved Empress Yue, and out of gratitude, she set this rule.

Now it seems, what gratitude? It was clearly a woman making a backdoor for her boyfriend to visit her easily!

Empress Yue and Ye Tian had been together for a long time, and they just didn't know it!

Not far away,

The Battle Axe Emperor approached and said, "Haha, Young Friend Ye Tian, I truly didn't expect you to win over Empress Yue. It's quite a surprise to us all!"

He was still somewhat baffled!

Empress Yue was the Sect Master of the Moon God Sect, and Ye Tian was just an emerging talent back then. There was a huge disparity in both status and strength between them. How did they end up together?

"Could it be that Empress Yue pursued Ye Tian?" the Battle Axe Emperor wondered.

The more he thought about it, the more likely it seemed!

Originally, Empress Yue had decisively chosen Ye Tian to assist her.

Could it be...

The Battle Axe Emperor didn't ponder too much. With Ye Tian's current strength, he indeed matched well with Empress Yue.

He had no objections to the two of them being together, in fact, he quite approved!

As for the process, that was unimportant!

Humanity had achieved a great victory, defeating the ferocious beasts and slaying numerous Emperor-level ferocious beasts. This news quickly spread back to Zhonghai Super Base.

And the news about Ye Tian and Empress Yue also reached Zhonghai Super Base.

Moon God Sect.

When the news of Empress Yue and Ye Tian's relationship reached the sect, it caused a huge stir.

The first reaction of the disciples of the Moon God Sect was disbelief!

Empress Yue with Ye Tian? That must be a joke!

Absolutely impossible!

But still, many disciples began to doubt. There's no smoke without fire, and who would dare to joke about Empress Yue? Wouldn't that be seeking death?

...

Holy Maiden Xiyue's residence.

The Holy Maiden, Xiyue, also received this intelligence immediately and was stunned.

"Ye Tian is in love with Empress Yue?"

Her first reaction was also disbelief, but when she thought about Empress Yue's recent abnormal behavior, the rule she had set for Ye Tian, and the fact that Ye Tian had spent several hours at Empress Yue's residence, all these circumstances indicated an extraordinary relationship between Ye Tian and Empress Yue.

Perhaps this rumor was true!

At this moment, a maid came in and said, "Holy Maiden, the Sect Master has returned!"

"We shall go to meet the Sect Master!"

The Holy Maiden Xiyue stood up and said.

The maid whispered, "The Sect Master came back with Great Emperor Ye Tian, and they seemed to be holding hands!"

Holy Maiden Xiyue's pupils shrank. The rumor was actually true!

Empress Yue really was in love with Ye Tian!

Swish!

The Holy Maiden Xiyue flew out and soon met Empress Yue.

"Greetings to the Sect Master!"

The Holy Maiden Xiyue and other disciples of the Moon God Sect saw Empress Yue and bowed respectfully.

“You may leave,” Empress Yue waved her hand.

The Holy Maiden Xiyue left, her peripheral vision catching Ye Tian holding hands with Empress Yue, tightly and without any attempt to hide it.

This was an official announcement of their relationship!

Empress Yue was indeed in love with Ye Tian!

...

Moon God Temple.

Ye Tian and Empress Yue walked into the temple together.

“Yue’er, coming back like this, I guess your disciples are all shocked!” Ye Tian laughed.

“Let them be shocked, this Moon God Sect is mine after all. I can do whatever I want!” Empress Yue snuggled in Ye Tian’s arms and said.

Ye Tian just held Empress Yue, enjoying this warm moment.

Suddenly,

Ye Tian spoke, “Yue’er, I have a gift for you!”

“What gift?”

Empress Yue looked up, very curious.

Ye Tian took out a Holy Dragon Fruit, the size of a face, emitting a faint golden glow, and its rich aroma quickly filled the Moon God Temple.

“What is this?”

Empress Yue didn't recognize the Holy Dragon Fruit but felt its extraordinariness.

“It's called Holy Dragon Fruit. It can elevate the bloodline talent of a Moonlight-level ferocious beast to the Dawn-level. I guess it can also elevate a human's cultivation talent to the Dawn-level,” Ye Tian explained.

Chapter 203: Supreme level Cultivation Talent!

“Dawn level!!!”

Empress Yue's beautiful eyes showed excitement.

She knew a thing or two about this level from the Moon Sect's heritage. Dawn level cultivation talents were extremely rare, even in the era of the ancient civilization. Those with this talent were geniuses among geniuses, classified as prodigies worthy of being titled Holy Sons and Holy Daughters.

“Ye Tian, you should eat it. Only when you are strong can you protect me!”

Empress Yue refused to accept the Holy Dragon Fruit.

“Silly girl, my cultivation talent has already reached the Dawn level! Otherwise, why would my cultivation speed be so fast?” Ye Tian gently tweaked Empress Yue's nose, smiling.

“Then I'll eat it!”

Empress Yue hurriedly took the Holy Dragon Fruit, her face full of joy.

If Ye Tian had reached the Dawn level in cultivation, wouldn't she be unable to keep up with him in the future if she didn't?

She wanted to be with Ye Tian forever!

But she was also very aware of the preciousness of the Holy Dragon Fruit and the great price and danger Ye Tian must have faced to obtain it.

Immediately,

Empress Yue swallowed the Holy Dragon Fruit in front of Ye Tian.

Boom!!!!

A massive surge of energy emerged, beginning to transform Empress Yue's cultivation talent.

As time passed, Empress Yue closed her eyes and endured the transformation brought on by the Holy Dragon Fruit.

The energy of the fruit was very gentle, so Empress Yue didn't suffer much pain.

In the blink of an eye, three hours passed.

At that moment, Empress Yue opened her eyes.

"Ye Tian, I really feel my talent has changed!" exclaimed Empress Yue in surprise.

Ye Tian instinctively checked Empress Yue's talent status.

Human: Empress Yue

Cultivation Talent: Dawn

Strength Talent: Mystic

Defense Talent: Mystic

Speed Talent: Pseudo-Mystic (90%)

Moon God Talent: Mystic

Moon Blade Talent: Top

Moon Hand Talent: High

“Indeed, it has become Dawn level in cultivation talent!”

Ye Tian was overjoyed at the improvement of Empress Yue’s cultivation talent, and Empress Yue quickly took out the talent testing bead.

Soon, the test results came out.

“I have Dawn level cultivation talent now!”

Empress Yue was extremely happy, suddenly throwing herself into Ye Tian’s arms, embracing him with joy.

In secret,

“Dawn level cultivation talent, copy!”

Ye Tian copied Empress Yue’s Dawn level cultivation talent.

He had never copied Empress Yue’s cultivation talent before, so he could copy her Dawn level talent. He also planned to give the second Holy Dragon Fruit to his sister.

Once his sister's cultivation talent reached the Dawn level, he could also copy her Dawn level talent.

“If I copy and integrate my sister and Yue's Dawn level cultivation talents, will my cultivation talent jump from the Dawn level to the next level?”

Ye Tian suddenly thought.

This possibility was very high!

Once he truly transformed to the next level of cultivation talent, to what extent would his cultivation speed increase?

Thinking about this, he became secretly excited.

Ye Tian spent a long time with Empress Yue at the Moon God Temple, not leaving until late evening, reluctant to part.

Empress Yue also wanted to try the effects of the Dawn level cultivation talent and began her nightly cultivation.

At home,

Ye Tian returned!

His sister, Ye Yu, seeing Ye Tian, ran over happily.

“Brother, I heard you're in love with Empress Yue. Is she going to be my sister-in-law?”

Ye Yu asked curiously.

“Yes! Empress Yue will be your sister-in-law from now on!” Ye Tian affirmed confidently.

“Wow, brother, you are amazing! Empress Yue is the most powerful woman in Zhonghai Super Base and has always been my idol. And you managed to win her over!” Ye Yu’s eyes sparkled with little stars, full of admiration for her brother.

“Little Yu, I have a gift for you!”

Ye Tian walked into the villa’s living room, taking out a Holy Dragon Fruit and said.

Like Empress Yue, Little Yu was also curious about the Holy Dragon Fruit.

Ye Tian explained it to her.

Instantly, Ye Yu was astonished and insisted that Ye Tian eat it instead, refusing to consume it herself, which moved Ye Tian deeply.

Ye Tian also revealed that his cultivation talent had already reached the Dawn level, and he had already given one to Empress Yue.

Upon hearing this, Little Yu finally ate the Holy Dragon Fruit.

Several hours later,

Ye Yu’s transformation was complete, and her cultivation talent jumped directly from the Morning Star level to the Dawn level, bypassing the Moonlight level.

“Copy!”

Ye Tian immediately copied Ye Yu’s Dawn level cultivation talent.

After Ye Yu went to cultivate, Ye Tian returned to his room to start integrating the Dawn level cultivation talent.

Boom!!!!

The integration began, and the first Dawn level cultivation talent slowly merged with Ye Tian's own Dawn level talent.

Ten minutes later, the integration of the Dawn level talent was successful.

“My cultivation talent is still at the Dawn level. Let's integrate the second Dawn level talent!”

After checking his talent status, Ye Tian thought to himself.

He rested for a while before continuing the integration.

This time, the pain exceeded Ye Tian's expectations, but he endured it.

After an unknown duration, even with Ye Tian's strong spirit, he nearly lost consciousness.

After a long time, the pain in Ye Tian disappeared, and he fully regained consciousness.

“Ah, so comfortable!”

A warm feeling enveloped him, as if he was in a hot spring.

Ye Tian stretched, exhaled a breath of air, and felt incredibly refreshed.

“Let's see if the talent has transformed?”

Ye Tian checked his cultivation talent, and upon seeing it, he was overjoyed.

Cultivation Talent: Supreme

“Supreme level cultivation talent: this is the level above the Dawn level!”

Ye Tian laughed wildly in his heart.

This time, he had made a fortune, not only giving Empress Yue and his sister the Dawn level cultivation talent but also copying and integrating their talents, stepping into the Supreme level in cultivation talent.

Truly a triple joy!

“Let’s try the effects of the Supreme level cultivation talent!”

Ye Tian tested it by cultivating using pure yuan qi.

Boom!!!!

Countless yuan qi surged into Ye Tian’s body as he started to cultivate. This speed was at least five times faster than before!

“Wow, what a terrifying effect! If I’m in a top-level cultivation room, even if the effect of yuan qi cultivation is weak, with my Supreme level cultivation speed and three times time acceleration, I could break another limit in just three short months!”

Ye Tian estimated.

If he found other element-attribute cultivation sites, his cultivation speed would skyrocket again, possibly breaking the fourth body limit in just one or two months.

In the following days, Ye Tian often went to the Moon God Sect to cultivate with Empress Yue. (dual cultivation lmao/jk)

At first, the disciples and elders of the Moon God Sect had some reservations, but they eventually softened under Empress Yue’s firm attitude and later got used to it.

After transforming her cultivation talent to the Dawn level, Empress Yue’s cultivation speed also increased by more than five times. Coupled with her Innate Moon Spirit Body, her cultivation speed was further amplified.

According to her calculations, it would take about 3 years for her to break the fourth body limit, which was already a short time, considering she had always used Moon yuan force to cultivate her body, reducing the effectiveness.

One day,

“Yue’er, I have a way to speed up our cultivation!”

Ye Tian spoke.

Chapter 204: Combat Power of the Twentieth level of the War God Tower!

“What method?”

Empress Yue was quite curious.

Ye Tian no longer concealed it and said, “I possess a basic-level time talent, capable of accelerating time by threefold. Once I activate this triple-time acceleration, our cultivation speed will inevitably surge. However, this means that our lifespan consumption rate will also triple!”

He chose to reveal his time talent because it was impossible to hide.

He would inevitably live alongside Empress Yue in the future, and would certainly use his time acceleration ability during the cultivation process. How long could he keep it a secret?

Instead of hiding it, it was better to reveal it now.

Moreover, he genuinely wanted to enhance Empress Yue’s cultivation speed, helping her break through her fourth physical limit sooner.

“Time acceleration ability!”

Empress Yue’s beautiful eyes widened in surprise!

That was a legendary talent, even rarer than spatial talent.

Ye Tian actually had time talent too!!

However, the better her man's talent, the prouder she naturally felt.

"Thank you for telling me this secret!"

Empress Yue said, deeply moved.

"I should have told you earlier," Ye Tian said with a hint of guilt.

Empress Yue smiled slightly, "You can tell me when you want. If you don't want to, then you must have your reasons. Everyone has secrets, and even I have secrets in my heart!"

"What secrets do you have?"

Ye Tian became curious.

"Hmph, I won't tell you!" Empress Yue blushed and glared at Ye Tian.

After this incident, Ye Tian felt relieved.

Copying talents was his biggest secret, and definitely could not be revealed. As for other talents, he could slightly disclose them in the future.

From today's events, he saw that Empress Yue was very understanding and empathetic, which completely set his mind at ease.

A few days passed.

Empress Yue accompanied Ye Tian to the War God Tower.

“Ye Tian, once you break through the 18th floor of the War God Tower, you can obtain a special permission, allowing you to mobilize the War God Tower’s remote attack, though you can’t use it against others who have the same special permission. Recently, I broke through the eighteenth floor and obtained the special permission. Now, there are four people with the War God Tower’s special permission, adding another ace to Zhonghai Super Base,” Empress Yue explained.

“If I attempt it, then there will be five special permission holders!”

Ye Tian said.

The War God Tower’s remote attack could severely injure ferocious beasts like the Black Dragon Overlord. Even he couldn’t currently achieve such an attack, so he too wanted to obtain this permission.

That was why he came today!

In front of the War God Tower.

Many people saw Ye Tian and Empress Yue and made way for them to enter the War God Tower.

“Emperor Ye Tian and Empress Yue are here, could it be that Emperor Ye Tian is going to challenge the War God Tower?”

“Should be challenging the War God Tower, after all, Emperor Ye Tian is already at the Emperor level. It’s said his strength surpasses even the Battle Axe Emperor, but since he hasn’t challenged the War God Tower, he’s not yet on the Emperor list!”

“Stronger than the Battle Axe Emperor? Really? Could the rumors be wrong?”

“Who knows, but many people say so. Emperor Ye Tian is challenging the War God Tower, right? We’ll soon find out!”

Inside the War God Tower.

Ye Tian said to Empress Yue, “Yue’er, wait here, I’ll challenge the War God Tower!”

“Okay!”

Empress Yue nodded slightly.

Then, Ye Tian entered the virtual world and reached the thirteenth level of the War God Tower.

As soon as the black-clothed martial disciple appeared, he was instantly killed by Ye Tian!

Fourteenth level, instant kill!

Fifteenth level, instant kill!

Sixteenth level, instant kill!

Seventeenth level, instant kill!

Finally, Ye Tian reached the eighteenth level.

The black-clothed martial disciple on the eighteenth level was only slightly weaker than the Battle Axe Emperor, Empress Yue, Emperor Qin, and several other great emperors, but belonged to the same tier.

“Spatial Imprisonment!”

Ye Tian activated this ability, instantly freezing the space around him.

Then, he used his God-level extreme speed talent, moving so quickly that he executed Starfall Slash in an instant.

Pfft!

The black-clothed martial warrior's head was severed by a single stroke and dissipated on the spot.

This indicated that Ye Tian was now capable of instantly killing great emperors like the Battle Axe Emperor.

Of course,

Being able to kill the Battle Axe Emperor didn't mean he could contend with the Black Dragon Overlord.

His spatial imprisonment had little effect on the Black Dragon Overlord, and his attack power was hardly sufficient to truly harm it. At best, he could only survive in a fight against it.

The Nineteenth Level.

Ye Tian faced a new black-clothed martial warrior, and this battle was more challenging.

Using spatial imprisonment and at the cost of sustaining injuries, Ye Tian finally defeated his opponent, successfully clearing the nineteenth level.

The Twentieth Level.

The black-clothed warrior that appeared this time posed a significant challenge to Ye Tian. Even under the effects of Ye Tian's spatial imprisonment, the opponent managed to display terrifying speed, even surpassing Ye Tian's speed enhanced by his God-level talent.

With no other choice, Ye Tian had to teleport repeatedly to combat his opponent.

The opponent's attack power was also extremely frightening. Ye Tian had to transform his Five Elements Transformation talent into the Five Elements Iron Armor talent and combine it with his Mystic-level defense talent and Pseudo-Mystic-level Bone talent to barely withstand the attacks.

After several hours of intense battle, Ye Tian, leveraging the advantage of his time talent and the healing speed of his Pseudo-Mystic Regeneration talent, finally wore down his opponent, successfully clearing the twentieth level.

As for the twenty-first level, Ye Tian gave up.

He had revealed all his cards just to barely defeat the black-clothed warrior of the twentieth level. If he entered the twenty-first level, he would definitely be killed instantly, so there was no point in trying.

“Weapon Spirit, I give up on challenging the twenty-first level!” Ye Tian declared.

Whoosh!

Ye Tian’s soul returned, ending the challenge.

Outside.

Many people were completely stunned.

They saw Ye Tian’s name appear on the Emperor List, rising rapidly, and soon reaching the first place.

“The first place on the Emperor List, Emperor Ye Tian’s strength is indeed as rumored, surpassing the Battle Axe Emperor!”

“The combat power of the nineteenth level of the War God Tower, that’s terrifying. The Battle Axe Emperor is only at the eighteenth level. What a huge gap!”

“No, look, Emperor Ye Tian’s rank is still the first, but the combat power behind his name changed to the twentieth level!”

“Incredible, the combat power of the twentieth level of the War God Tower, his strength must far surpass the Battle Axe Emperor!”

“Ah, I originally envied Ye Tian for winning over Empress Yue, but now it seems I should be envying Empress Yue for finding such an incredible boyfriend!”

Outside the War God Tower, core members of the Battle Axe Mercenary Hall quickly relayed the news of Ye Tian clearing the twentieth level back to the hall.

And the members of the Battle Axe Mercenary Hall also passed the news to the Battle Axe Emperor at the beast world base.

“Ye Tian cleared the twentieth level of the War God Tower? This...”

The Battle Axe Emperor’s eyes widened.

He knew the terror of the black-clothed warrior at the nineteenth level of the War God Tower; he couldn’t withstand even a few moves, yet Ye Tian not only cleared the nineteenth level but even the twentieth.

This meant that Ye Tian had the strength to easily kill him!

“The speed of Ye Tian’s growth is terrifying. I remember when he was at the Saint level, he traded with me for the legendary-level sword technique, Starfall Slash. I didn’t expect him to surpass me so quickly!” the Battle Axe Emperor sighed.

Thinking of Starfall Slash, he remembered Ye Tian’s sword technique when he killed the Emperor-level ferocious beast back then, which was the entry-level Starfall Slash.

Being able to master Starfall Slash showed that Ye Tian’s sword talent surpassed the top level, reaching the Morning Star-level sword talent.

“Truly a guy with terrifying talent!”

The Battle Axe Emperor was thoroughly impressed and dared not compare himself to Ye Tian anymore, as every comparison was a blow to his ego.

I must cultivate hard!

## Chapter 205: The Spatial Mystery

### War God Tower.

Ye Tian had just conquered the twentieth level of the War God Tower. Upon leaving the virtual world, the spirit of the artifact appeared.

“Ye Tian, congratulations on passing the twentieth level of the War God Tower and obtaining core permission!” the artifact spirit congratulated.

“Core permission? What specific permissions does that include?” Ye Tian asked.

The artifact spirit explained: “You can use the War God Tower to launch a remote attack once. Except for not being allowed to attack official members of the War God Tower, you can launch an attack on anyone or any creature. The cooldown period is ten years. Additionally, you obtain a second permission: the War God Tower Phantom Defense, with the same ten-year cooldown.”

“An extra permission!” Ye Tian’s expression changed.

The Battle Axe Emperor and others didn’t have core permissions but special permissions, which allowed them to use the War God Tower for a single remote attack, but not the Phantom Defense.

Evidently, by conquering the twentieth level, Ye Tian had gained an additional permission.

“I wonder what level of treasure the War God Tower is. Its defensive capabilities must be incredible. One use of the War God Tower Phantom Defense is a chance to save my life!” Ye Tian thought to himself.

Of course,

In the end, one’s own strength is what truly matters. If his strength isn’t sufficient, no amount of permissions from the War God Tower would be helpful.

Returning to the main hall of the War God Tower.

“Ye Tian, let’s go comprehend the War God Stele!” Empress Yue suggested, taking Ye Tian’s hand.

“Alright!” Ye Tian nodded.

Their real purpose for coming was to comprehend the War God Stele. Challenging the War God Tower was just a secondary objective.

Soon after, the two entered the War God Stele Space.

The floating stone slab in the War God Stele Space was not small, accommodating two people sitting together for comprehension. Thus, Ye Tian and Empress Yue sat together to study.

Other Emperors, Saints, and Kings saw Ye Tian and Empress Yue always together and thought they were deeply in love. However, the real reason they sat together was the triple time acceleration.

The distance between two floating slabs was a bit far. If Ye Tian activated the triple time acceleration to cover both slabs, anyone passing between them would inevitably discover the secret of the accelerated time.

By sitting together, even if they activated the time acceleration ability, others wouldn’t know.

Triple time acceleration meant that one day of comprehension in the War God Stele Space was equivalent to three days for others.

Points were limited. The ability to gain three times the time was desirable to anyone.

Moreover, Ye Tian’s points weren’t that many.

He had conquered the twentieth level with Emperor-level cultivation, earning only 10 points at the thirteenth level, 20 points at the fourteenth level, and 40 points at the fifteenth level. By conquering the twentieth level in one go, he had amassed a total of 2550 points.

2550 points might seem a lot, but in reality, it was only enough for about seven years of cultivation. Empress Yue's points were even fewer, barely over 600, insufficient for even two years.

After reaching the Emperor level, cultivation comprehension is generally measured in years. Being able to save time and points was indeed advantageous.

In a blink of an eye, a month passed.

Ye Tian finished his comprehension.

"It's too slow. To comprehend Sword Dao from beginner understanding to achieving ten percent mastery might take a year," Ye Tian lamented.

A year was too long. Even with his triple time acceleration, it would still take four months. If he focused entirely on cultivation for those four months, he might even break through the fifth physical limit.

But he couldn't neglect the Sword Dao. It was crucial for cultivating the legendary sword technique, Starfall Slash.

Only when his Sword Dao Realm reached ten percent mastery could he hope to cultivate Starfall Slash to minor completion. Once Starfall Slash reached minor completion, it could amplify his attack power by fifty times.

"If only I could seize the Comprehension Stele," Ye Tian thought, recalling the three-star space rift near Demon Sea Base and the beast world behind it. Within that beast world was the Comprehension Stele, and that beast world seemed relatively weaker, certainly not as strong as the one ruled by the twelve ferocious beast lords.

Unfortunately, the three-star space rift only allowed Kings to enter, not Emperors.

If Ye Tian could enter, he would easily obtain the Comprehension Stele.

“No, there must be a way to cross the space rift; it’s just a matter of how much it costs!” Ye Tian suddenly realized.

Emperor-level ferocious beasts could pass a hand through the space rift, and although it would backlash, it wouldn’t be fatal. If he forced his entire body through the rift, his current spatial talent might allow it, but he would be gravely injured.

But what if...

“What if my spatial talent could reach the Pseudo-Mystic level?” Ye Tian wondered.

He felt that if his spatial talent could reach the Pseudo-Mystic level, he might be able to cross the three-star space rift with a smaller cost.

Space talent is a supreme talent, and comprehending a top-level space talent into the Pseudo-Mystic level would be incredibly difficult. Even the Space Devouring Beast Emperor Ling had not comprehended the spatial mystery.

But Emperor Ling’s talent was only at the Moonlight level, whereas Ye Tian possessed a supreme level cultivation talent.

The higher the cultivation talent, the higher the comprehension of mystery.

Emperor Ling couldn’t comprehend the spatial mystery, but with the help of the War God Steele and supreme level cultivation talent, Ye Tian might be able to do it.

“Let’s not focus on the Sword Dao for now and try to fully comprehend the spatial mystery!” Ye Tian shared this idea with Empress Yue.

Knowing that Ye Tian had a top-level spatial talent, Empress Yue fully supported his decision.

“Spatial Confinement!”

Ye Tian activated the spatial confinement, completely locking down a ten-meter radius around him, and then began to slowly comprehend the spatial mystery from the confined space.

Time passed day by day.

Half a month later, Ye Tian sensed a peculiar fluctuation.

Gradually, a faint spatial fluctuation emerged around him, the oscillation of mystery.

He had successfully comprehended the spatial mystery!

At the same time, Ye Tian's spatial talent also underwent a change.

【Spatial Talent: Pseudo-Mystic】

Merely at the Pseudo-Mystic level, not even having reached ten percent comprehension, Ye Tian was still very satisfied.

At least, he had successfully crossed this threshold.

In the following time, he focused entirely on spatial mystery, spending another month to barely comprehend it to the ten percent realm.

“A ten percent Pseudo-Mystic level spatial talent should be enough. To continue and reach twenty percent would take at least half a year, and the difficulty of comprehending the spatial mystery far surpasses that of other mysteries!”

Ye Tian could not afford to waste all his time on the spatial mystery; it wasn't worth it.

So,

He and Empress Yue left the War God Stele Space.

After returning,

Empress Yue entered the Moon God Temple for cultivation, while Ye Tian left Zhonghai Super Base.

Using yuan qi to refine his body, breaking through the fourth physical limit would be too slow. He wanted to use attributed yuan qi to refine his body, so he could break through the fourth physical limit within a month.

Changling River.

Ye Tian came here again.

“The bottom of Changling River has an incredibly rich concentration of water yuan qi, making it a perfect place for cultivation!” Ye Tian murmured.

Without hesitation, he entered the bottom of the Changling River and began his secluded cultivation.

Chapter 206: Returning to Demon Sea Base!

At the bottom of the Changling River.

Ye Tian sat cross-legged, as the river water flowed over his body, rich in water yuan qi wrapping around him.

Utilizing his God-level Five Elements Water Talent, he attracted countless water yuan qi to temper his body, rapidly strengthening it moment by moment.

“Such a fast tempering speed! One month should be enough!”

Ye Tian said joyfully.

As days passed, many ferocious beasts attacked Ye Tian, but he easily slew them all. Eventually, this area at the riverbed became a death zone for the beasts, with none daring to approach.

And so, a month passed.

That day.

A tremendous tremor occurred at the riverbed, causing giant waves in the miles-long Changling River.

Boom!!!!

With each impact, his fourth bodily limit was broken by the water yuan qi, as countless yuan qi flooded into Ye Tian's body, enhancing his physical strength.

After a long time, Ye Tian's realm stabilized.

At this moment.

His physical strength had reached 400 Dragon Power, significantly stronger than before.

Having broken through, Ye Tian felt good and flew out from the riverbed.

Immediately, he went to the Moon God Sect to share the good news with Empress Yue.

In the Moon God Temple.

"My dear, I've broken through the fourth bodily limit!"

Ye Tian excitedly shared the news with Empress Yue.

"That's wonderful!"

Empress Yue looked at her man with admiration.

"Who else could compare to my Ye Tian in breaking the fourth bodily limit so quickly?"

Not to mention combat power, just in terms of cultivation, my Ye Tian is already the first in Zhonghai Super Base.

As Ye Tian's woman, she felt overjoyed, as if she had broken the limit herself.

"My dear, I plan to make a trip to Demon Sea Base."

Ye Tian mentioned the matter of the three-star space rift and the Enlightenment Stele.

"Will it be dangerous?"

Empress Yue was somewhat worried.

She didn't want Ye Tian to take risks, but who would easily let go of such an opportunity?

Moreover, it was the Enlightenment Stele, even more precious than the War God Stele. If it were her, she wouldn't want to give up the chance if she had the ability to seize it.

Emotionally and logically, she shouldn't stop Ye Tian, but she still felt very worried.

"Don't worry, it'll be fine. With my strength, plus the Pseudo-Mystic level space talent, even if there's backlash, the cost will be minimal. Plus, the world of ferocious beasts is not strong, none of them are a match for me! Space rifts are terrifying, but when one's strength reaches a certain level, one can tear space apart without needing a space rift. My strength is not yet at the level of tearing space, but survival is not an issue." Ye Tian said so.

"Alright then!"

Empress Yue greatly trusted Ye Tian's words. Having received the inheritance of the Moon Sect, she naturally had some understanding of terrifyingly powerful beings. Tearing space apart was not an exaggeration.

Ye Tian's strength was not weak either, having comprehended the Space Dao, the danger was indeed minimal.

“Then I’ll accompany you to Demon Sea Base!”

Empress Yue made this request.

“Alright, even if you didn’t say it, I was planning to take you back with me!”

Ye Tian held Empress Yue’s hand, saying.

.....

At Demon Sea Base.

Since the space rift incident, although Demon Sea Base had lost many King-level warriors, it also underwent a period of rapid development. With no more threats from the space rift beasts, new King-level warriors emerged in the base.

That day.

In Demon Sea Base, the strongest warrior, Yun Mengli, was holding a meeting with the leaders of various major forces to discuss their development and the order of the base. Since his failed attempt to reach the Saint level a year ago, Yun Mengli had focused on developing Demon Sea Base, no longer returning to Zhonghai Super Base. Without family in Zhonghai and having lost hope after his failure, staying there was meaningless.

Yun Mengli had devoted all his hopes to the development of Demon Sea Base and the training of the younger generation. During the meeting, he received a message on his communicator: “Lord Ye Tian has returned!” This surprised Yun Mengli, who had maintained Ye Tian’s residence and had it cleaned regularly in case he returned.

A King-level warrior at the meeting expressed his shock, recalling how he had witnessed a Emperor-level beast impale Ye Tian with a spear, apparently killing him. He even saw Ye Tian’s body and wondered how Ye Tian could be alive. Yun Mengli clarified that the body was a fake, and Ye Tian had evaded the spear, feigning death to deceive the beast.

The revelation shocked many King-level warriors, including Yue Ling from the Yue family. She had been saddened by Ye Tian's apparent death years ago but had since advanced to the pinnacle of the Grandmaster level and became the new head of the Yue family. Utilizing a fragment of an Enlightenment Stele and a treasure that opened acupoints, she had fortuitously advanced to the King level and was attending the meeting.

Yun Mengli suggested they welcome Ye Tian, emphasizing Demon Sea Base's debt to him. The King-level warriors agreed and headed to Ye Tian's villa.

At the villa, Ye Tian was showing Empress Yue his old residence, noting its cleanliness and deducing that it was likely Yun Mengli who had kept it maintained. Empress Yue noticed a group of King-level warriors approaching and identified Yun Mengli among them, assuming they were there to welcome them.

Upon arrival, Yun Mengli and the others bowed and greeted Ye Tian. As the villa's barrier opened, a voice invited them in. Entering the villa, Yun Mengli was startled to see Empress Yue and respectfully greeted her.

## Chapter 207: The Kings' Shock!

"Empress Yue!"

Hearing this title, the King-level figures trembled.

"Emperor" was not an ordinary title. Even saints were not qualified to use it. In this era, only those at the level of a Great Emperor could bear such a title.

Could it be that this woman, looking like a fairy, was a Great Emperor?

"Do you recognize me?"

Empress Yue turned towards Yun Mengli.

"I once saw Empress Yue from a distance at Zhonghai Super Base!"

Yun Mengli exclaimed excitedly.

This was a Great Emperor! To speak with a Great Emperor was an immense honor, and Empress Yue was not only the founder of the Moon God Sect but also one of the foremost Great Emperors at Zhonghai Super Base, one of the Thirty-Six Emperors, far beyond common emperor-level experts.

At this moment.

The other King-levels were stunned, staring at Yun Mengli. His expression was overly exaggerated, placing himself in a very low and humble position, even referring to himself as a lowly person!

They couldn't fathom the power and status of Empress Yue, and thus couldn't relate to Yun Mengli's feelings.

But the next moment, Ye Tian's words not only shocked Yun Mengli but also left all the King-levels dumbfounded.

"Yue'er, stay here for a while, I'll go and catch up with them."

Ye Tian said with a smile.

"I can stay aside and won't disturb you!"

Empress Yue walked to Ye Tian's side, holding his hand.

"Alright then!"

Ye Tian agreed.

Yun Mengli's pupils contracted in disbelief.

Initially, he thought Empress Yue was here with Ye Tian merely as a companion, like a superior accompanying a subordinate.

But now, Ye Tian was calling Empress Yue ‘Yue’er’, and she was even holding his hand.

Heavens!

Empress Yue, known for her cold disposition and disinterest in men, was actually won over by Ye Tian?

And she was a Great Emperor!

Yue Ling was also shocked. She guessed the identity of Empress Yue, who must be a Great Emperor, far surpassing saints in power. Yet this powerful Empress had become Ye Tian’s woman.

Ye Tian’s villa wasn’t big, and it was somewhat crowded with so many King-level figures.

Therefore, Yun Mengli led Ye Tian and Empress Yue to the largest pavilion.

Atop the pavilion,

Ye Tian and Empress Yue sat above, while Yun Mengli and others sat below.

“Yun Mengli, has there been any trouble at Demon Sea Super Base in the last two years?”

Ye Tian asked.

Yun Mengli stood up and replied, “Lord Ye Tian, since the space rift incident, Demon Sea Super Base has been very quiet, without any issues. Although many ferocious beasts emerged from the space rift, they were all easily suppressed.”

Ye Tian inquired about a few more matters, and Yun Mengli recounted them one by one.

Suddenly.

Ye Tian said gravely, “Yun Mengli, there’s something I need to tell you. I plan to enter the beast world opposite the three-star rift and hope that Demon Sea Super Base will temporarily shut down its top array. I could ignore the array, but breaking and rebuilding it would be a considerable loss for Demon Sea Super Base.”

Upon hearing this, Yun Mengli was alarmed and said, “Lord Ye Tian, beings saint level and above cannot pass through a three-star space rift without backlash!”

Ye Tian waved his hand and said solemnly, “I’m aware of that, but I’m confident I won’t suffer much backlash. I just ask that the array masters of Demon Sea Super Base shut down the array at that time. Otherwise, if I forcefully tear through the space rift, the top-level array definitely won’t hold. I’m informing you, not asking for permission. Do you understand?”

Yun Mengli panicked, realizing that the Ye Tian before him was no ordinary person. A few years ago, his power had already reached the saint level, far exceeding ordinary saints, and even emperor-level beings from another realm couldn’t kill him.

And now, Ye Tian’s power might have grown even further, much stronger than before.

Moreover, Ye Tian had a woman whose strength was among the top in Zhonghai Super Base — Empress Yue!

If he dared to contradict Ye Tian, it would be suicidal!

“Lord Ye Tian, I understand!”

Yun Mengli bowed his head.

“Alright, then it’s settled. I will go to the space rift in a few days and will inform you then!”

Ye Tian decided the matter with these words.

Soon after, Ye Tian and Empress Yue left.

Shortly after their departure, a King-level figure eagerly asked, “King Yun Mengli, who is Empress Yue, and why do you show such respect to her?”

Yun Mengli solemnly explained, “You should already know about saints who are above King-levels, right? In Zhonghai Super Base, saints are categorized as ordinary saints, minor saints, great saints, and saint-kings in terms of power. Above saints are emperors, who are divided into ordinary emperors and the Thirty-Six Emperors. The Thirty-Six Emperors are the most powerful among emperors, each capable of easily annihilating a group of great emperors. Empress Yue is ranked among the top few emperors and is the first-ranked female emperor of Zhonghai Super Base, having established a top-tier power sect.”

“Hss!”

The King-levels gasped in astonishment.

The identity of Empress Yue was too powerful; compared to her, they were mere ants!

“Lord Ye Tian actually won over Empress Yue? Unbelievable!” many King-levels exclaimed.

“Yes, I’m also very shocked!” Yun Mengli said, “When I was at Zhonghai Super Base, I heard that within ten meters of Empress Yue, no man is allowed, even great emperors of the same level dare not approach her within ten meters. It’s said that Empress Yue likes men. The sect she established is also all-female, and yet she is now with Lord Ye Tian, and she doesn’t seem to be domineering at all, which is really strange!”

“Maybe this is the power of love!”

A King-level figure commented.

Because of love!

That was the only explanation they could think of.

In the following days, Ye Tian and Empress Yue visited Demon Sea Super Base and even returned to Linhai Base to see Ye Tian’s original home.

However, they didn't notify the martial warriors of Linhai Base and left in a hurry after a brief visit.

One day.

Ye Tian informed Yun Mengli and the others that he was about to go to the three-star space rift 557 and asked them to be prepared.

---

At the three-star space rift.

Inside the top array.

A group of array masters were already prepared.

Whoosh!

Two figures arrived, Ye Tian and Empress Yue.

"Greetings to Lord Ye Tian, greetings to Empress Yue!"

The Kings and array masters welcomed them.

Yun Mengli also came to observe, curious about Ye Tian's venture into the space rift.

Of course.

He believed the real force would be Empress Yue; Ye Tian probably didn't have the capability, but he dared not voice this thought.

"Take down the array!"

Ye Tian commanded.

“Yes!”

The array masters began dismantling some of the array platforms to prevent them from being shattered later, as rebuilding them would require a lot of materials and time.

Soon, the top array was dismantled.

Crack!

The three-star space rift, no longer suppressed by the array, slowly began to revert to its original state, quickly restoring to the level of a three-star space rift.

“Ye Tian, be careful!”

Empress Yue held Ye Tian’s hand, advising him.

“Don’t worry!”

Ye Tian patted the back of Empress Yue’s hand, smiling slightly.

The King-levels and array masters retreated, while Ye Tian stepped closer to the space rift.

Chapter 208: The Enlightenment Stele Has Disappeared!

“Shouldn’t it be Empress Yue who would tear through the spatial rift?”

Yun Mengli’s pupils contracted slightly, finding it hard to believe.

Empress Yue had also stepped aside, leaving only Ye Tian to approach the spatial rift alone, ready to enter it himself!

“Even the Emperor-level ferocious beast from before suffered backlash, could it be that Lord Ye Tian is even more powerful than that Emperor-level ferocious beast?”

This thought startled Yun Mengli.

If true, Ye Tian’s rate of growth was astonishing!

In front of the spatial rift.

Ye Tian activated his spatial talent, manipulating spatial abilities to furiously compress the rift in front of him.

“Break!”

Under the pressure of Ye Tian’s spatial power, the rift began to further collapse, rapidly expanding.

At that moment.

Ye Tian took out a Morning Star-level sword and activated his Mystic-level strength talent, unleashing Starfall Slash.

“Slash!”

The dazzling sword light, capable of shattering stars, was visible from tens of thousands of miles away, showcasing Ye Tian’s incredible sword aura.

At this moment.

Yun Mengli and others were stunned!

What kind of power was this, like an attack from a deity!

With a thunderous boom!

Starfall Slash sword light cut into the spatial rift, piercing through it and extending to the other side, as Ye Tian swiftly stepped into the rift.

Thus, he could use the power of Starfall Slash to weaken the backlash.

At the same time, Ye Tian also mobilized spatial power to protect himself, using spatial mysteries to resist the power of the rift, and even invoked the power of time to accelerate his progress.

On the other side of the three-star spatial rift.

An astonishing sword light slashed through, creating a ten-thousand-mile-long sword mark in the void, left in the sky, while the forest below was shattered by the sword's power, turning countless trees and beasts into ashes.

Then.

A figure emerged from the spatial rift, covered in blood.

It was Ye Tian!

Forcing his way across two worlds, even with strength surpassing thirty-six Emperors and a Pseudo-Mystic-level spatial talent, Ye Tian still sustained serious injuries, mostly superficial wounds caused by spatial forces.

But the backlash was minimal!

Whoosh!

Ye Tian stepped into the world of ferocious beasts, his wounds healing at an unbelievable rate.

With his Pseudo-Mystic-level healing talent, Ye Tian was not concerned about these injuries and would recover quickly.

His first task in this world was to notify Empress Yue.

Turning around, Ye Tian looked towards the spatial rift.

“Yue’er, I’ve safely arrived!” he transmitted his voice using his spatial talent.

On Earth, Empress Yue received Ye Tian’s voice and breathed a sigh of relief.

“For the next while, I’ll be in seclusion here for cultivation. You all don’t mind, right?”

Empress Yue regained her cold gaze, looking towards Yun Mengli and others.

In front of Ye Tian, she was just a woman, but in front of others, she was an Emperor!

At this moment, she truly embodied Empress Yue!

An Emperor-level pressure spread, causing everyone to tremble.

“Of course Empress Yue can cultivate here!”

Yun Mengli nodded in response, not daring to oppose Empress Yue.

In the world of the Ape Dragon ferocious beasts.

“It’s time to leave, entering here has probably already attracted the attention of the Emperor-level ferocious beasts!”

Ye Tian immediately activated his invisibility talent and left alone.

Shortly after Ye Tian's departure, a giant ape arrived.

This ape was the Emperor-level ferocious beast King Kong, the one who had attacked Ye Tian from another realm.

Upon seeing the healing three-star spatial rift, King Kong was puzzled: "How did this spatial rift heal again?"

It casually grabbed a King Beast to inquire about the situation and quickly learned the reason.

"What, an Emperor-level human came from the other side of the spatial rift? How is that possible!!!"

King Kong, the ape, was stunned.

If it were a King-level being, it would indeed be possible to cross a three-star spatial rift, but for those above the Saint level, crossing such a rift was impossible. If it were feasible, King Kong would have crossed it long ago.

But now, this King Beast was saying that an Emperor-level human had come through!

Could this be possible?

"Perhaps a human Emperor really did come through, likely by some special means. Even if they did, they must have suffered significant backlash. Maybe they are gravely injured right now!"

King Kong thought.

Thus, it issued an order to its subordinates to search for this Emperor-level human and also informed its Emperor-level friends in nearby areas, alerting them that an Emperor-level human had entered the Ape Dragon ferocious beast world.

In a distant deep mountain, Ye Tian arrived there to recover from his injuries.

His external injuries had completely healed, but the backlash had caused cellular atrophy and a significant loss of vitality. For a regular Emperor-level being, such injuries would be devastating.

But for Ye Tian, these injuries were minor.

He took out a large amount of Emperor-level ferocious beast blood from his space and activated his Blood Devouring talent to absorb this blood, drawing vitality from the Emperor-level ferocious beast blood to replenish himself.

The most important aspect of the Blood Devouring talent was to draw vitality to replenish oneself, with recovery power being secondary.

Half a day later.

Ye Tian's vitality was restored, completely compensating for the injuries caused by the backlash, and his condition returned to its peak.

"It's time to go to the Sacred Beast Mountain of the Tianlin Beast Clan!"

Ye Tian looked towards the distance, murmuring to himself.

His primary objective in entering the Ape Dragon ferocious beast world was the Enlightenment Stele. Once he obtained the Enlightenment Stele, he would leave this beast world.

Swoosh!

Ye Tian flew rapidly, crossing tens of thousands of miles in no time, and soon arrived at Sacred Beast Mountain.

At this moment, Sacred Beast Mountain was not open and was covered by a large formation.

"Such a rudimentary formation!"

Ye Tian scorned.

But the ferocious beast clan was not adept at forming arrays, so it was already a feat for the Tianlin Beast Clan to have set up such a formation.

However, when Ye Tian looked inside the formation, he was dumbfounded.

The Enlightenment Stele was gone!

The place where the Enlightenment Stele used to be was now empty, with only some Tianlin beasts constructing a nest there, cultivating in this place.

Clearly, the Tianlin Beast Clan had lost the Enlightenment Stele, and this place had been transformed into a branch of their clan.

“Disguise!”

Using his Disguise talent, Ye Tian transformed into a giant ape and stepped into Sacred Beast Mountain.

Boom!!!

An Emperor-level pressure spread, causing many Tianlin beasts to become fearful.

“Greetings to the Emperor Beast!”

A King-level Tianlin beast flew over, extremely fearful.

There weren’t many Emperor Beasts in the Tianlin Beast Clan, so the sudden arrival of one at Sacred Beast Mountain naturally frightened these beasts.

“Where is the Enlightenment Stele of your Tianlin Beast Clan? Why is it gone?”

Ye Tian asked.

“Lord, we don’t know!”

The King-level Tianlin beast hesitated but still insisted they didn’t know.

“I’ll give you one more chance, speak or not!”

Ye Tian said coldly.

He had no good tone for these ferocious beasts that invaded the human world.

“We really don’t know!”

The King-level Tianlin beast repeated.

“Then I’ll ask in another way!” Ye Tian said indifferently: “Hypnosis!”

Buzz!!!

Under the Hypnosis talent, the King-level ferocious beast couldn’t resist at all and was instantly hypnotized.

“Where is the Enlightenment Stele?”

Ye Tian asked again.

This time, the King-level ferocious beast spilled everything.

Chapter 209: Fallen Dragon Mountain, Dragon Corpse!

Upon hearing the narrative of the King-level Tianlin Beast, Ye Tian frowned.

“So it was like this!”

It turned out that a few years ago, the Three-Eyed Divine Monkey that Ye Tian encountered came to snatch the Enlightenment Stele. Just as it was about to succeed, an Emperor-level Tianlin Beast arrived.

The Three-Eyed Divine Monkey was only at the Saint level, but its high-level spatial talent made it comparable to an average Emperor level. However, the Emperor-level Tianlin Beast of the Tianlin clan was very powerful. In the ensuing battle, the Three-Eyed Divine Monkey was indeed no match.

At that time, the top-tier ferocious Tianlin Beast that Ye Tian occupied was killed by the residual impacts of the battle between the Three-Eyed Divine Monkey and the Emperor-level Tianlin Beast, and he was unable to learn what happened afterwards.

However, in reality, although the Three-Eyed Divine Monkey lost, it managed to escape using its spatial talent. The Emperor-level Tianlin Beast that chased after the Three-Eyed Divine Monkey was outsmarted by another Three-Eyed Divine Monkey, which stole the Enlightenment Stele.

That time, two Three-Eyed Divine Monkeys took action.

One was in the open, and the other hidden. The Tianlin clan was completely unprepared and was successfully robbed of the Enlightenment Stele by the Three-Eyed Divine Monkeys.

Afterwards.

The Tianlin clan and the Three-Eyed Divine Monkeys engaged in a fierce battle, fighting for several years, resulting in many casualties among the Saint-level ferocious beasts and several Emperor-level beasts.

The Tianlin clan, with their numerous members, was fearless, while the Three-Eyed Divine Monkey clan, being far fewer in number, was no match for the Tianlin clan.

Recently.

The Three-Eyed Divine Monkey clan sought refuge with the Space Devouring Beast Emperor Ling.

Emperor Ling of the Space Devouring Beasts possessed top-tier spatial talent, and the Three-Eyed Divine Monkeys, also having spatial talent, offered their allegiance, which Emperor Ling gladly accepted.

Moreover, the Space Devouring Beast was also very interested in the Enlightenment Stele. Previously, it was reluctant to snatch the treasure of the Tianlin clan, but with the Three-Eyed Divine Monkeys bringing it to them, it would be foolish not to accept.

Thus.

Space Devouring Beast Emperor Ling took possession of the Enlightenment Stele.

Of course, as the Tianlin Beasts were a top-tier clan in the brutal world of simian and dragon beasts, they would not easily submit. Thus, the ancestor of the Tianlin clan awoke from its slumber to challenge Emperor Ling of the Space Devouring Beasts, setting the battle for next month.

If the Tianlin ancestor won, Emperor Ling must hand over the Enlightenment Stele and the Three-Eyed Divine Monkey clan. If Emperor Ling won, the Tianlin clan would completely give up on the Enlightenment Stele.

And the location of the battle was set at Fallen Dragon Mountain!

Since the theft of the Enlightenment Stele was not a good thing, the Tianlin clan did not publicize it, and the Three-Eyed Divine Monkeys, fearing other Emperor-level ferocious beasts might also try to snatch it, kept it a secret as well.

Thus, very few Emperor-level ferocious beasts knew about this matter.

“Not good, he realised we deceived him!”

Some of the Tianlin Beasts noticed the problem and immediately tried to flee.

At that moment.

Space shook and became completely frozen.

All the Tianlin Beasts were unable to move, their eyes filled with terror.

“Annihilate!”

Space blades pierced through the bodies of the Tianlin Beasts.

In an instant, all the Tianlin Beasts present were wiped out.

“To Fallen Dragon Mountain!”

Ye Tian’s figure disappeared.

...

Fallen Dragon Mountain.

It was rumored that tens of thousands of years ago, a dragon fell here, and over thousands of years, it transformed into a mountain, which was named Fallen Dragon Mountain by later generations of ferocious beasts.

To this day, a faint dragon’s aura still existed on Fallen Dragon Mountain.

On this day.

A figure appeared on Fallen Dragon Mountain, it was Ye Tian.

“A dragon’s corpse, huh?”

Ye Tian looked at Fallen Dragon Mountain and murmured.

His Copying Talent enveloped Fallen Dragon Mountain, yet he couldn't detect any talent there.

Clearly, after tens of thousands of years, the corpse that had become a mountain range couldn't be probed for talent. Otherwise, the Copying Talent would be too overpowered.

“This world isn't very powerful, but there are many rumors about dragons, and even many relics left by them. For instance, the Water Dragon Pearl I obtained earlier is the essence of a water dragon. This Fallen Dragon Mountain is also the corpse of a dragon. Along with other dragon legends, and the many ferocious beasts' talents I've examined on my journey, many possess dragon bloodlines!”

Ye Tian believed this world was definitely related to dragons, and it was possible that Xiao Xue came from this world of simian-dragon ferocious beasts.

Xiao Xue was a dragon he had acquired at an auction at Demon Sea Base. He later learned that the person who consigned the dragon egg was a Grandmaster, who had found the egg inside a top-tier ferocious beast's stomach. Unable to hatch it, the Grandmaster had put it up for auction!

“According to the timeline, perhaps right after the birth of the three-star space rift, a top-tier ferocious beast swallowed the dragon egg and then passed through the rift to Earth, where it was killed by a Grandmaster! That Grandmaster consigned the War Blood Sky Dragon egg, which I eventually obtained,” Ye Tian speculated.

Various dragon legends, the War Blood Sky Dragon egg, Fallen Dragon Mountain, Water Dragon Pearl.

All signs indicated that this world was extraordinary, potentially concealing great secrets.

Ye Tian didn't know where Emperor Ling of the Space Devouring Beasts was, so he decided to wait at Fallen Dragon Mountain.

Speaking of which, he had a significant connection with Emperor Ling. His top-tier spatial talent was copied from Emperor Ling, but he didn't have a good impression of him.

If it weren't for his Life-Substitute Talent, he would have truly died at the hands of Emperor Ling last time.

Ye Tian dug a hole in Fallen Dragon Mountain and began to cultivate.

As soon as he started, he felt a rich Earth yuan qi.

"Huh? Such rich earth yuan qi is unusual. Could it be that an Earth Dragon died here?" Ye Tian guessed.

"This place is perfect for tempering my body. I have the Five Elements Transformation Talent, which can transform into the Five Elements Earth Spikes Talent. Any place with five elements attributes is suitable for my cultivation. So, I'll use the Earth yuan qi here to temper my body!" Ye Tian decided to use his Earth Spikes Talent to guide the Earth yuan qi to temper his body. The effect was much better than he had anticipated.

"In three months, I can break through the fifth limit. With triple time acceleration, I can do it in one month!" Ye Tian was astonished by this speed.

He guessed that the Earth yuan qi here was related to the dragon corpse, hence the extraordinary effect on body tempering.

So,

Ye Tian began to cultivate diligently in a triple-time-accelerated environment, tempering his body day by day.

Like this, half a month passed.

The strong members of the Tianlin Beast clan arrived first, and Ye Tian immediately sensed their presence and entered a stealth state.

“Seven Emperor-level ferocious beasts. From their talents, five are just below the Thirty-Six Emperors, one is comparable to the Thirty-Six Emperors, and one is on par with the Battle Axe Emperor!” Ye Tian assessed.

According to the intelligence he gathered through hypnotism, the Tianlin Beast comparable to the Battle Axe Emperor must be the ancestor of the Tianlin clan!

Considering the strength level of this simian-dragon ferocious beast world, the Tianlin clan’s strength was indeed formidable. Emperor Ling of the Space Devouring Beasts, if not for his top-tier spatial talent, would have been easily crushed by the Tianlin ancestor.

“It’s interesting. If the Tianlin ancestor clashes with Emperor Ling, Emperor Ling probably won’t be able to handle the ancestor, but the ancestor can’t do much to Emperor Ling either!” Ye Tian speculated.

Since the Tianlin Beasts had arrived, Ye Tian also stopped his cultivation. After all, he wasn’t in a hurry for these few days.

A few more days passed.

Emperor Ling of the Space Devouring Beasts and a group of Three-Eyed Divine Monkeys also arrived!

Chapter 210: I’ll Take This Enlightenment Stele!

Atop the Fallen Dragon Mountain.

The Space Devouring Beast Emperor Ling confronts the ancient ancestor of the Tianlin Beasts.

“Emperor Ling, you, a junior who has undergone bloodline transformations only twice, dare to covet our clan’s supreme treasure!”

The ancient ancestor of the Tianlin Beasts spoke coldly.

“Tianlin Ancestor, stop with the nonsense. The powerful are right.” Emperor Ling clearly didn’t want to waste words.

“Then let’s fight!”

The Tianlin Beast ancestor said coldly.

The other Tianlin Beasts and the Three-Eyed Divine Monkeys quickly retreated to avoid getting caught in their battle.

The fight began swiftly.

Facing the Tianlin Beast ancestor, Emperor Ling did not dare to underestimate him and went all out from the start.

“Teleportation!”

“Spatial Imprisonment!”

“Spatial Blade!”

Emperor Ling exerted his top-tier spatial talent to the fullest, but the Tianlin Beast ancestor was too powerful. In terms of defense, speed, and strength, he far surpassed Emperor Ling, especially in defense and strength, reaching the level of Mystic talent.

Emperor Ling dared not let the Tianlin Beast ancestor strike him, as it would surely result in severe injury.

The Tianlin Beast ancestor was also wary of Emperor Ling’s Spatial Blade, constantly on guard.

Boom, boom, boom!

Attacks bombarded the Fallen Dragon Mountain, shattering only some rocks without damaging the mountain itself.

The rocks and soil of Fallen Dragon Mountain, transformed from a dragon corpse, were not ordinary and thus hard to destroy.

Even Ye Tian had to exert some effort to carve out a small cave for seclusion.

“The Tianlin ancestor, a beast with four bloodline transformations at the Emperor level and possessing Mystic talent, stands in stark contrast to Emperor Ling, an Emperor-level beast with only two bloodline transformations and relying solely on a top-tier spatial talent. He can’t sustain a prolonged battle. He must either flee or admit defeat!”

Ye Tian silently assessed.

Suddenly.

Ye Tian’s Eye of Insight spotted a Ming Illusion Beast.

Species: Ming Illusion Beast

Bloodline Talent: Morning Star

Camouflage Talent: Top-Tier

Invisibility Talent: Top-Tier

Soul Spear Talent: High-level

“It’s a Ming Illusion Beast!”

Ye Tian was somewhat surprised.

It was by killing a Ming Illusion Beast that he had previously provoked several Emperor-level ferocious beasts, including the Space Devouring Beast Emperor Ling.

“Could this Ming Illusion Beast be a senior of that one?”

Ye Tian speculated.

This was highly likely, given the rarity of Ming Illusion Beasts, ferocious beasts with both camouflage and invisibility talents. If they were not rare, the entire world of ferocious beasts would revere them.

Moreover.

This Ming Illusion Beast definitely knew Emperor Ling and had a deep relationship with him.

“This Ming Illusion Beast must have been invited by Emperor Ling to help. Using its invisibility talent to hide nearby, is it planning to attack the Tianlin ancestor with its Soul Spear talent?”

Ye Tian speculated.

Despite being only high-level, the Soul Spear talent of the Ming Illusion Beast could still inflict damage on the Tianlin Beast ancestor.

A surprise attack with the Soul Spear could stun the Tianlin ancestor, and if Emperor Ling took the opportunity to strike with his Spatial Blade, the Tianlin ancestor would surely be severely wounded.

The Tianlin Beasts relied on their ancestor; if he fell, they could no longer withstand Emperor Ling.

“Interesting, interesting, even ferocious beasts employ cunning schemes!”

Ye Tian chuckled to himself.

“First, I’ll copy the Soul Spear talent. After all, it’s a soul talent, and copying more of it is definitely beneficial. Perhaps in the future, I can enhance these two soul attack talents to Mystic level and fuse them into a God-level talent!”

With this plan, Ye Tian copied the high-level Soul Spear talent of the Ming Illusion Beast.

Unfortunately, he couldn't copy the top-tier talents, as they couldn't be fused into Pseudo-Mystic talents. Mystic talents can't be created out of nothing; no amount of top-tier talents can be combined into a Pseudo-Mystic talent.

If Ye Tian wanted a Pseudo-Mystic level camouflage talent and invisibility talent, he would either have to copy someone else's Pseudo-Mystic talents or comprehend the Mysteries of Camouflage and Invisibility himself.

Ye Tian didn't intervene in the Ming Illusion Beast's sneak attack on the Tianlin ancestor.

He had no need to interfere; after all, they were all ferocious beasts, and he wouldn't bat an eyelid if the Tianlin ancestor was killed.

Soon, the Ming Illusion Beast made its move!

Swoosh!

An invisible Soul Spear pierced through the void, instantly penetrating the head of the Tianlin Beast ancestor.

The Ming Illusion Beast, which unleashed the Soul Spear talent, was discovered, inciting the anger of the other Tianlin Beasts.

"Ming Kong, you're seeking your own death!"

An Emperor-level Tianlin Beast roared, clearly recognizing Ming Kong.

Boom!

Several Emperor-level beings joined the battlefield, ready to rescue the Tianlin Beast ancestor.

But it was too late!

Emperor Ling seized this opportunity. As the Tianlin Beast ancestor was dazed from the soul damage, Emperor Ling launched a Spatial Blade at the precise moment.

With a slicing sound, the Spatial Blade struck the heart of the Tianlin Beast ancestor.

Instantly, the scales at the heart of the Tianlin Beast ancestor shattered, and a strand of spatial power pierced through his heart, severely injuring him.

“Roar, roar, roar!”

The Tianlin Beast ancestor regained consciousness, roaring in anger, but with a hint of fear in his heart.

“Attack!”

The Three-Eyed Divine Monkeys also made their move.

A grand battle commenced.

Ye Tian hid in the shadows, observing the fierce battle between the two sides.

Half an hour later.

The Tianlin Beast clan fled in defeat. Five Emperor-level Tianlin Beasts perished, and a pile of Saint-level Emperor Ling beasts died, while the severely injured Tianlin Beast ancestor was rescued by the last remaining Emperor-level Tianlin Beast, his whereabouts unknown.

Naturally.

Space Devouring Beast Emperor Ling was also seriously injured, and many Three-Eyed Divine Monkeys perished, leaving only a few survivors.

This battle was a pyrrhic victory for both sides!

Whoosh!

Ming Kong emerged from his state of invisibility, also injured, obviously caught in the fray. Otherwise, he wouldn't have been easily injured while invisible.

"Emperor Ling, I helped you this time, you owe me a favor!"

Ming Kong spoke.

"Don't worry, if you're ever in trouble, I will definitely help!"

Emperor Ling promised.

"There's another request. I want to use the Enlightenment Stele to comprehend my bloodline, break the shackles of my bloodline, and undergo a metamorphosis to ascend to the rank of an Emperor-level ferocious beast. You promised me this."

Ming Kong's emotions fluctuated as he spoke hurriedly.

"Rest assured, I won't go back on my word. Although the Tianlin Beast ancestor escaped, he won't live long, and the Tianlin Beast clan is not a threat. Let's go, I'll take you to the Enlightenment Stele!"

Emperor Ling said.

"Great!"

Ming Kong responded excitedly.

Swish, swish, swish!

Space Devouring Beast Emperor Ling, Ming Kong, and a few Three-Eyed Divine Monkeys flew away, followed by a person — Ye Tian.

Ye Tian, in a state of invisibility and using his extreme speed talent, flew without any yuan qi fluctuations. They didn't use their divine sense to check behind them, naturally unable to detect Ye Tian.

After flying for several hours, Space Devouring Beast Emperor Ling arrived at a mountain peak.

There was a Water Curtain Cave within the mountain, and Space Devouring Beast Emperor Ling resided in this cave.

“This mountain is nice, somewhat resembling Mount Huaguo, but it's not the real Mount Huaguo, and there's no Sun Wukong here!”

Ye Tian mused to himself.

The Water Curtain Cave was deep. Emperor Ling entered the depths of the cave, where there was a huge space with a massive Enlightenment Stele placed inside.

“The Enlightenment Stele, it's rumored that the Tianlin Beasts became a top-tier ferocious beast clan relying on it. Other ferocious beasts didn't dare to covet it due to the Tianlin Beast ancestor, but I never expected it to fall into Brother Emperor Ling's hands today!” Ming Kong touched the Enlightenment Stele, his voice filled with excitement.

“Brother Ming Kong, let's comprehend it together. I hope you can break the shackles of your bloodline with the Enlightenment Stele and step into the realm of Emperor-level ferocious beasts. And I can hopefully comprehend the Space Mystery and become an even stronger Emperor-level ferocious beast!”

Space Devouring Beast Emperor Ling expressed his hopes.

At that moment.

A voice descended: “Sorry, but your wishes cannot be fulfilled, because this Enlightenment Stele...”

“I’m taking it!”

Those three words echoed loudly, resonating throughout the Water Curtain Cave.
