

## Talent 271

### Chapter 271: Breaking the Tenth Body Limit, The Great Transformation Completed!

Breaking the body's limits for the tenth time is not something even the top cultivation chambers, gathering yuan qi, can suffice. The speed at which these chambers gather yuan qi is limited, and breaking through the tenth limit requires absorbing a massive amount of yuan qi in a short time, which top cultivation chambers simply cannot fulfill.

Recall that, in the world of ferocious beasts, the beast overlords hunted numerous ferocious beasts to complete their bloodline transformation, solely for energy.

Now, Ye Tian, aiming to break his body's tenth limit, naturally needed to prepare a vast amount of resources.

Therefore, he placed a huge amount of Emperor-level ferocious beast blood collected earlier in the cultivation chamber, forming a blood pool, and also placed about a million yuan qi stones around it.

Such preparations were necessary to ensure there was no lack of energy for the ascension; otherwise, insufficient energy could lead to significant aftereffects, damaging the foundation.

“Begin the breakthrough!”

Ye Tian sat cross-legged, mobilizing yuan qi to assault the tenth body limit.

His cultivation talent was supreme, making breaking the body limit not too difficult. A few hours later.

Crack, crack, crack!

Sounds of shattering echoed from within Ye Tian's body, signifying the breaking of invisible shackles.

Boom!

The yuan qi in the cultivation chamber was absorbed in a breath, depleting it. The top cultivation chamber's yuan qi gathering array began frantically drawing in external yuan qi, but this process was significantly slower.

“Yuan Qi stones, consume!”

A large number of yuan qi stones transformed into a vast amount of yuan qi, which Ye Tian absorbed into his body, helping him stabilize the great transformation after breaking the tenth body limit.

The great transformation required an enormous amount of yuan qi to consume. A million yuan qi stones were absorbed, yet the transformation was not complete.

Then, Ye Tian devoured the vast amount of Emperor-level ferocious beast blood.

Soon, the massive quantity of Emperor-level ferocious beast blood was also fully absorbed.

“Just a bit more!”

Reluctantly, Ye Tian took out another three hundred thousand yuan qi stones to satisfy the energy needed for the great transformation.

A single great transformation nearly depleted all of Ye Tian's yuan qi stones. After all, he didn't usually collect yuan qi stones, and the ones he had were mostly plundered from those he defeated.

However, even with the depletion of yuan qi stones, completing the great transformation left Ye Tian highly satisfied.

After a few more hours, Ye Tian completely stabilized the realm of the tenth body limit.

Ye Tian moved his body and clenched his fists, causing a slight tremor in space.

“Indeed, my body strength has reached 10,000 Dragon Power, while the ninth body limit was only 900 Dragon Power. Normally, breaking the tenth body limit would only yield 1,000 Dragon Power, but with the great transformation, my physical quality has increased tenfold, achieving 10,000 Dragon Power!” (bro wtf is this exponential growth XD)

Ye Tian muttered.

Breaking the tenth body limit and completing the great transformation, his strength as an Emperor-level entity was more than ten times that of the ninth body limit.

Thus, after breaking the tenth body limit, an Emperor’s strength would skyrocket.

Now, Ye Tian’s power had reached an unbelievable level, far beyond what an ordinary Emperor-level could imagine.

With a body strength of 10,000 Dragon Power, after amplifying with yuan force, it could reach 20,000 Dragon Power. With his God-level strength talent, it could amplify 300 times, and his perfect legendary claw and sword techniques could amplify 100 times. He had also learned a God-level sword technique; though he was only at the beginner level, its power was incomparable to perfect level techniques, amplifying over 200 times.

Thus, his strongest attack power reached 1.2 billion Dragon Power!

Such a terrifying force could shatter ten thousand li of rivers and mountains in a single strike. On the previous Earth, he could have exploded the planet with one hit.

Even a weak God-level entity could not match Ye Tian’s attack power.

But attack power is just one aspect of strength. Speed and defense are also crucial parts.

“Having broken the tenth body limit, my attack power, speed, and defense have far surpassed before. In terms of combat power, I should be comparable to the strongest fighters below eight-star Emperor-level, not weaker than the Golden War Emperor, and perhaps even stronger!” Ye Tian estimated.

However, he was not arrogant enough to disregard everything.

For instance, among the external forces, there were nine-star Emperor-level entities, and their planets even housed God-level powerhouses.

Thus, Ye Tian's current strength could only dominate Earth, but was not yet invincible.

At this moment, near Zhonghai Super Base, the world of ferocious beasts was undergoing some changes.

In the Dragon Palace, the teleportation array flickered with light.

Several dragonkin emerged, led by a few humanoid divine dragons, followed by more than a dozen untransformed dragonkin.

These humanoid dragonkin were of God-level cultivation, while the untransformed ones were at the Emperor level.

Among these dragonkin were black dragons, red dragons, and white dragons.

After their arrival, they flew out of the Dragon Palace towards the temporary base in Zhonghai.

As they neared the Zhonghai temporary base, they stopped.

At that moment.

A God-level dragonkin spoke, "This time, we plan to send an Emperor-level dragonkin to Earth to gather intelligence. Who is willing to go?"

The dozen or so Emperor-level dragonkin glanced at each other, and finally, one said, "Lord Long Ao, I am willing!" (Long means dragon btw)

"Long Feng, you have some understanding of humans, so it's suitable for you to go. ... Remember, do not reveal your identity and be careful."

Long Ao instructed.

“Yes!”

Long Feng responded.

He then asked, “Lord Long Ao, how should I infiltrate? As you mentioned, humans have set up arrays in the spatial rifts, making it difficult for me to sneak in.”

“Don’t worry, I will capture an Emperor-level human, then let Long Teng use his hypnotic talent on them. You can change your form and disguise as an Emperor-level dragon beast following them. This way, other humans will just think that the Emperor-level human has acquired a dragon beast pet and won’t suspect your identity,” Long Ao explained.

“If Lord Long Teng is willing to act, then it will be foolproof!”

Long Feng knew how terrifying Lord Long Teng’s hypnotic talent was. Long Teng himself was a God-level dragonkin with a high-level hypnotic ability. Without a soul treasure, an Emperor-level soul could hardly resist Long Teng’s hypnotic talent.

If it weren’t for the significant suppression and mysterious sense of crisis that God-level entities faced on Earth, the dragon race wouldn’t have sent their Emperor-level members there.

“60 million kilometers away, there is a human Emperor-level hunting ferocious beasts. Long Teng, you need to act this time!”

Long Ao looked towards another humanoid dragonkin.

“Don’t worry, consider it a small favor!”

Long Teng quickly flew towards the location of that human Emperor-level.

The speed of a God-level entity was terrifyingly fast, almost instantly reaching the Emperor-level’s side.

.....

Emperor Kurong had just hunted a ferocious beast and was about to collect its blood when suddenly, a figure appeared before him. (changed kurou to kurong)

At first, he thought it was a human, but the sight of horns on the figure's forehead changed his expression.

“Dragon horns!”

Horns of a dragon... this was no human!

Even if not a humanoid dragonkin, it was certainly another race.

Moreover, the speed of the figure was too fast. He hadn't sensed its approach at all.

A great terror enveloped him!

“Escape!”

This thought arose in Emperor Kurong's mind.

But suddenly, his consciousness began to sink.

He had been hypnotized by Long Teng!

Chapter 272: Hypnotizing an Emperor Level, Dragon Clan's Infiltration!

“Emperors are so easy to hypnotize!”

Long Teng looked at the human Emperor in front of him and said indifferently.

If Emperor Kurong knew he was being looked down upon by a dragon, he would probably want to cry but have no tears.

He was just an Emperor after all, how could he withstand the hypnosis of a God level?

“Follow me!”

Long Teng commanded Emperor Kurong.

Whoosh whoosh!!

A man and a dragon flew back, quickly meeting up with Long Ao and the others.

“Human, from now on, Long Feng will be your beast pet, but you must listen to everything this beast pet says, and you must not reveal Long Feng’s command. After entering Earth, besides following Long Feng’s orders, everything else should be as usual, understand?”

Long Teng gave an order to Emperor Kurong.

“Yes!” Emperor Kurong responded.

Beside him, Long Ao asked, “Long Teng, there should be no problem with the hypnotic talent, right? How long can it last?”

“This Emperor’s soul is very weak. I’ve placed him under deep hypnosis, which should last about a month. A month is completely enough for Long Feng to uncover many things. We are only confirming the basic situation of Earth for now, and how to confirm it, Long Feng is clear about, the task is not difficult,” Long Teng explained.

“Hmm!” Long Ao nodded.

“I’ll interrogate this human Emperor a bit more!” Long Teng said and began to ask Emperor Kurong various questions.

Soon, he understood the general situation of Earth.

“Just revived for over a hundred years, Earth’s potential is still great,” Long Teng was slightly surprised, then learned about the strength of Zhonghai Super Base, knowing that there were no very strong Emperors in Zhonghai Super Base, only a ‘Heavenly Emperor of Ten Thousand Laws’, who was a six-star Emperor.

While a six-star Emperor is indeed very strong among Emperors, Long Feng was also a six-star Emperor, so even if they encountered the Heavenly Emperor of Ten Thousand Laws, they would not be afraid.

Long Teng was slightly relieved that Earth did not have any God levels, at least not in the memory of Emperor Kurong.

This made things easier!

If Earth had God levels, the Dragon Clan’s plans would have to be much more cautious, as native God levels can stay on Earth without facing much suppression, whereas Earth would suppress foreign God levels.

After extracting some basic information, Long Teng and Long Ao let Emperor Kurong take Long Feng, who had just transformed into a dragon beast using the Dragon Clan’s secret technique, and leave.

The other members of the Dragon Clan waited in this ferocious beast world, awaiting Long Feng’s news.

After a while, Emperor Kurong and Long Feng arrived at the Zhonghai temporary base.

The Emperors and Saints of the Zhonghai temporary base greeted Emperor Kurong, saying, “Emperor Kurong, you are back!”

Emperor Kurong was one of the thirty-six Emperors, and due to the fall of many Emperors previously, his rank among the thirty-six Emperors was not bad, ranked in the teens. Thus, he was also a top power in Zhonghai Super Base.

Therefore, the other Emperors and Saints naturally respected Emperor Kurong.

Suddenly.

An Emperor looked at Long Feng in surprise and asked, “This dragon beast has an extraordinary aura, Emperor Kurong, is this a new beast pet you’ve captured?”

“Yes, it’s a beast pet I captured recently!”

Emperor Kurong answered.

His words were few, even a bit rigid.

This was also a flaw of the hypnotic talent, leading to many emotions not being displayed, after all, being under hypnosis, if he acted like a normal person, that would be abnormal.

Although others felt Emperor Kurong was a bit strange, they dared not question an Emperor.

An Emperor-level dragon beast pet was very valuable, so many martial artists envied Emperor Kurong.

Under the gaze of others, Emperor Kurong took Long Feng through the spatial rift and many arrays, returning to Earth.

As soon as he entered Earth, Long Feng sensed the different world rules from the ferocious beast world.

Long Feng and Emperor Kurong flew for a while and landed on a deserted mountain peak.

“Emperor Kurong, go on guard, don’t let anyone approach!”

Long Feng commanded.

“Yes!”

Emperor Kurong obeyed.

Seeing Emperor Kurong patrolling around, Long Feng took out a spherical orb and began to activate it, sensing the world force of this world.

Each world has its world force, the fundamental force of the world. The stronger the world, the richer its world force.

Boom!!!!

The orb burst into dazzling golden light, extremely rich in color.

Seeing this, Long Teng was astonished.

“How can it be so rich???”

He originally guessed that Earth’s world force would be rich, but he didn’t expect it to be this dense, and the appearance of golden light indicated that Earth’s world force was of high quality, belonging to a high-level planetary world.

A high-level planetary world could give birth to many God levels at the same time. In the universe, there are not many high-level planetary worlds, and each one is occupied by powerful forces.

Unexpectedly, Earth, which had only revived for a hundred years, turned out to be a high-level planetary world!

“Previously, Lord Long Ao sensed that Earth was very extraordinary and of high value, probably nurturing many rare wondrous objects, which is why we were sent here. Now it seems that Earth is a high-level planetary world with a rich world force. It probably gave birth to many rare wondrous objects, even to those above five stars.”

Thinking of this, Long Feng's breathing became rapid.

Such a planetary world was too valuable!

Moreover, Earth's location was on the edge of the human star domain, not very far from the Dragon Clan's territory. Otherwise, the spatial rift would not have connected to the ferocious beast planetary world under the Dragon Clan's control.

If they occupied Earth, the Dragon Clan would make a fortune!

"We must plan for the long term. Our Dragon Clan's God levels can't come to Earth. If it's a high-level planetary world, foreign God levels that descend will definitely be suppressed by the world force. Only native ascended God levels can stay on Earth. My current task is to understand more about Earth and to investigate whether this planet has been discovered by human forces in the starry sky," Long Feng muttered to himself.

Putting away the orb used to probe the world force, Long Feng called out to Emperor Kurong.

"Emperor Kurong, take me to Zhonghai Super Base. I want to see the situation of humans!"

Long Feng ordered.

"Yes!"

Emperor Kurong obediently complied.

A man and a dragon flew towards Zhonghai Super Base, and soon they arrived!

As soon as they entered Zhonghai Super Base, Long Feng's expression changed.

"The aura of pure-blooded Dragon Clan member!"

Long Feng was sure his sense was correct. In a certain place in Zhonghai Super Base, there was indeed a pure-blooded Dragon Clan member, but the aura was relatively weak, likely a Saint-level pure-blooded dragon.

“How could Earth give birth to a pure-blooded dragon? Could it be that a young pure-blooded dragon came to the ferocious beast world for fun, and then was captured by a human Emperor, becoming that human Emperor’s beast pet?”

Thinking of this, Long Feng became angry.

Although the Dragon Clan was very powerful in the universe, a top-tier clan, there were still some powerful humans who liked to capture dragons as beast pets. For example, in the central region of the human star domain, some powers even used dragons as carriage-pulling tools.

Therefore, the Dragon Clan was intolerant to enslavement, and any human seen capturing dragons as beast pets would be killed without mercy.

“Damn it, once a dragon is enslaved as a beast pet, it becomes very loyal to humans. We must kill that human to liberate the dragon. Let’s go and see!”

Long Feng immediately had Emperor Kurong take him to the location of the Saint-level dragon.

Meanwhile, in the Tian Pavilion, Xiao Xue, who was just comprehending, suddenly sensed a familiar aura.

“Eh, the Dragon Clan? Dragons have come!”

Xiao Xue’s expression changed, and he quickly informed Ye Tian of this news.

Long Feng definitely didn’t expect that the very Xiao Xue he wanted to rescue had just informed the humans of its arrival. If he knew...

Chapter 273: Long Feng Suffers, Kurong Awakens!

Tian Pavilion.

Ye Tian received a message from Xiao Xue—

“Master, a member of the Dragon Clan has come!”

Ye Tian was immediately taken aback.

The Dragon Clan?

He teleported next to Xiao Xue and asked, “Xiao Xue, did you just say a member of the Dragon Clan has arrived?”

“Yes, Master!” Xiao Xue proudly reported, “I just sensed the presence of the Dragon Clan, a pureblood, but not from the War Blood Dragon Clan. Its aura is far stronger than mine, probably an Emperor-level Dragon!”

“An Emperor-level Dragon! And it entered Zhonghai Super Base?”

Ye Tian immediately realized the gravity of the situation.

He didn’t believe that someone had captured a pureblood Emperor-level Dragon. Such coincidences were rare, and the Dragon Clan was extremely powerful. The sudden appearance of a pureblood dragon was suspicious if there wasn’t something fishy going on.

“Copy Talent!”

Ye Tian’s Copy Talent enveloped an area of a hundred thousand meters, selectively scanning for talents at the Dawn level and above.

In an instant.

Only the talents of himself, Xiao Xue, Yue’er, Ye Yu, and another creature were displayed on his retina.

Ye Tian focused on the talent of that creature.

Species: Black Dragon

Bloodline Talent: Dawn

Strength Talent: Mystic

Speed Talent: Pseudo-Mystic (80%)

Defense Talent: Mystic

Claw Technique Talent: Top

.....

A series of talents appeared before Ye Tian, around ten in total.

The other talents were average, but the Mystic level strength talent and the top-level claw technique talent were enough to prove the power of this Emperor-level Dragon.

Immediately, Ye Tian activated his Invisibility Talent and approached.

Soon, he saw the Emperor-level Dragon.

“An Emperor-level Dragon who has undergone ten bloodline transformations with Emperor Kurong!”

Seeing this, Ye Tian instantly knew something was amiss.

Having undergone ten bloodline transformations and possessing top-level claw technique talent, this Emperor-level Dragon must have the strength of a six-star Emperor and was not weak among six-star Emperors.

How could such an Emperor-level Dragon be captured by Emperor Kurong as a beast pet?

Gazing at Emperor Kurong, Ye Tian discerned the reason from Kurong's slightly dull gaze and faint hypnotic aura.

“It's Hypnosis Talent!”

Ye Tian himself possessed top-level Hypnosis Talent and immediately recognized that Emperor Kurong was under deep hypnosis.

“To put Emperor Kurong under deep hypnosis and still allow independent movement, the other party's hypnotic talent is very strong, much stronger than mine!” Ye Tian speculated.

Of course, this didn't mean the other party's Hypnosis Talent was higher than top-level. Talent was related to cultivation. If the other party's cultivation was high enough, even a basic Hypnosis Talent could hypnotize an Emperor.

Ye Tian didn't act immediately, as they were on a busy street. Acting rashly could easily involve the pedestrians.

So, he secretly followed.

Long Feng, lacking any insight-type talents, failed to detect Ye Tian.

Soon, Long Feng and Emperor Kurong arrived in front of the Tian Pavilion.

“It's inside!”

Long Feng sensed and confirmed.

“Emperor Kurong, what is this place?” Long Feng communicated telepathically with Emperor Kurong.

Emperor Kurong truthfully replied, “It’s the Tian Pavilion of the Heavenly Emperor of Ten Thousand Laws, where the Heavenly Emperor of Ten Thousand Laws resides.”

“Oh, so the Heavenly Emperor of Ten Thousand Laws is here. That complicates things!”

Long Feng felt that his strength might not necessarily be weaker than the Heavenly Emperor of Ten Thousand Laws, but his current mission was to investigate Earth, not to fight with humans, so he couldn’t draw the attention of powerful humans.

“Emperor Kurong, does the Heavenly Emperor of Ten Thousand Laws have a beast pet that looks similar to me?”

Long Feng asked.

“Yes, it’s said to be a dragon beast, but not very strong!”

Emperor Kurong replied.

“A dragon beast? Heh!”

Long Feng wanted to scorn Emperor Kurong for not recognizing a pureblood dragon.

It was not some dragon beast, but a real pureblooded dragon, whose status and potential were many times stronger than any dragon beast.

“Hmph, ignorant humans!”

Long Feng thought to himself.

Originally, Long Feng intended to kill the human master of the pureblood dragon and liberate it, but now he had to change his plan.

The master was the Heavenly Emperor of Ten Thousand Laws, whose strength was not inferior to his, and Long Feng was not sure he could kill him.

Suddenly.

His expression changed.

“Not good, I can sense the presence of the pureblood dragon, and it can sense me too. What if...”

Worried about being exposed, he said, “Emperor Kurong, let’s leave Zhonghai Super Base immediately and go somewhere else!”

“Okay!”

Emperor Kurong nodded in agreement.

Instantly, the two of them started to leave Zhonghai Super Base.

Ye Tian followed them quietly.

After a while, they left the Super Base and arrived in the wilderness.

After flying for a while, Long Feng finally relaxed and stopped.

Just then.

A force of spatial power descended, instantly freezing the space around them.

Long Feng, sensing the surrounding space power, turned pale.

“Not good!”

He knew someone had made a move against him, and the assailant was terrifyingly powerful!

At the moment of the attack, Ye Tian's figure appeared in the distance.

“Roar!!!!”

Long Feng transformed into his original form, a gigantic thousand-meter dragon body, violently stirring the space around.

Suddenly.

Ye Tian's hand reached out.

“Great Heavenly Dragon Claw!”

Boom!!!!

The enormous dragon claw ferociously struck, amplified by the God-level strength talent. The legendary-level Sword Technique, Great Heavenly Dragon Claw, was terrifyingly powerful, definitely an attack of an eight-star Emperor level.

Feeling the terrifying aura of the Great Heavenly Dragon Claw, Long Feng despaired.

“Dragon Claw Technique—Great Heavenly Dragon Claw! How can this human...?”

“And his strength is at the eight-star Emperor level!!!!!”

Long Feng guessed Ye Tian's identity; it must be the Heavenly Emperor of Ten Thousand Laws. He must have been exposed and betrayed by the pureblood dragon, and the Heavenly Emperor of Ten Thousand Laws followed him.

But he never expected Ye Tian's strength to be not the rumored six-star Emperor level, but an eight-star Emperor level.

“Damn Emperor Kurong, not even knowing the strongest person in his own base! He tricked us into thinking the Heavenly Emperor of Ten Thousand Laws was only at the six-star Emperor level, to hell with that!!!”

Long Feng was extremely irritated.

But at this moment, it was too late, and he had no chance to kill Emperor Kurong.

Boom!!!

The Great Heavenly Dragon Claw smashed Long Feng into the earth, creating a trench thousands of meters long, but Long Feng was not dead, as Ye Tian withdrew his power in time.

He didn’t want to kill Long Feng yet.

Thud, thud, thud!!!

Ye Tian walked step by step in the air, quickly reaching Long Feng and Emperor Kurong.

Then, Ye Tian pointed at Emperor Kurong’s forehead, using his top-level Hypnosis Talent to forcefully help Kurong break the hypnotic state.

If the person who used the Hypnosis Talent was present, Ye Tian wouldn’t have been able to break Emperor Kurong’s hypnosis, but since they weren’t, and only left a trace of hypnotic power in Kurong’s soul, it was easier to dispel.

After a while, Emperor Kurong’s hypnotic state was lifted.

Emperor Kurong, who just woke up, saw Ye Tian and was momentarily puzzled, “Eh, the Heavenly Emperor of Ten Thousand Laws, why are you here?”

“Emperor Kurong, take a closer look, where are we?”

Ye Tian said with a smile.

Emperor Kurong looked around and finally realized their location, “This isn’t the Beast World anymore. How did I get back to Earth? Why don’t I remember anything?”

“Think carefully, what powerful being did you encounter before?”

Ye Tian asked.

Emperor Kurong recalled and suddenly exclaimed in fear, “A powerful being with dragon horns on his head, I saw him and lost consciousness!”

“Head with dual horns, humanoid dragon clan, could it be...” Ye Tian thought of a possibility.

Emperor Kurong might have encountered a God-level Dragon Clan expert and was hypnotized by them.

“Come out!”

Ye Tian pulled Long Feng out of the trench and smashed his gigantic dragon body onto the ground.

Chapter 274: Interrogating the Dragon Clan!

Emperor Kurong naturally noticed Long Feng, but dared not ask.

He vaguely felt that this matter was related to him, and perhaps he had caused trouble, so he didn’t dare to inquire.

“Human, you cannot kill me, or Lord Long Teng and Lord Long Ao will not let you off!”

Long Feng threatened.

Ye Tian was too lazy to talk nonsense with Long Feng and directly initiated his hypnotic talent.

“This is...”

Long Feng’s consciousness began to sink, immediately realizing what was happening.

Ye Tian could actually hypnotize!

“I can’t be hypnotized!”

Long Feng bit his tongue, trying to use pain to resist the hypnosis. Although it had some effect, it wasn’t very helpful.

Soon, Long Feng was unable to resist the hypnosis.

Seeing Long Feng completely hypnotized, Ye Tian began to inquire: “What is your name?”

“Long Feng!”

Long Feng replied.

“What is your origin and purpose?”

Ye Tian continued to ask.

Long Feng said: “Lord Long Teng and Lord Long Ao sent me to investigate Earth, to explore the situation here. They believe Earth has high value, not just an ordinary place. According to my detection, Earth should be a high-grade planetary world. Having revived over a hundred years ago, it likely has bred many wondrous objects. Our Dragon Clan values the absorption and collection of such wondrous objects, so we have set our sights on Earth, intending to invade it!”

“Invade Earth?”

Upon hearing this, Emperor Kurong's face changed drastically.

It was terrifying to think that the Dragon Clan mentioned was planning to invade Earth!

The Dragon Clan, being among the most elite of ferocious beasts and also known as the Divine Dragon Clan!

Such a top-tier clan actually targeting Earth!

Ye Tian, however, was not panicked and calmly continued to ask: "Who are Long Teng and Long Ao?"

"Lord Long Teng and Lord Long Ao are both God-level beings of our clan!" Long Feng answered.

"How many of your clansmen have come?"

Ye Tian asked the question he wanted to know.

Long Feng also answered: "A total of three God-level dragons and fifteen Emperor-level dragons! I am one of the Emperor-level dragons."

"Three God-levels!"

Ye Tian pondered for a moment.

In terms of strength, he estimated he was no match for those three God-levels. If it was a God without any powerful talent, it might not be as strong as him, but the Gods of the Dragon Clan couldn't be weak.

Unless he now attempted to break through to God-level, he wouldn't be a match for those three God-level dragons.

“Why didn’t those three God-level dragons come to Earth and sent you instead?” Ye Tian curiously asked.

“Because Lord Long Teng and Lord Long Ao dare not enter Earth!” Long Feng replied: “Earth is special, different from ordinary planetary worlds. Earth strongly repels external God-level beings. Once a God enters Earth, they will be suppressed by the will of the Earth’s world, and as Earth is a high-grade planetary world, even Gods cannot resist the suppression of a high-grade planetary world. That’s why they dare not come. Only Gods native to Earth can stay here.”

“God-level beings cannot come to Earth?”

This was the first time Ye Tian learned this secret.

Now, he finally understood why those external forces didn’t have God-level beings; they probably dared not come.

He was certain that those external forces must have God-level beings, even more than one!

Additionally, those external forces must have other motives, but he currently didn’t know them. After all, it was rumored that they were behind Earth’s revival, and their schemes must be grand.

Of course, all this was now of no concern to him.

Knowing that external Gods couldn’t enter Earth, he had no worries.

In terms of strength, he possessed the combat power of an eight-star Emperor-level, second only to a nine-star Emperor-level, and he had many life-saving techniques. Even if he encountered a nine-star Emperor-level, he had ways to survive.

What else should he fear?

Next, Ye Tian also extracted many details and secrets from Long Feng, including some information about the Dragon Clan’s strength.

However, Long Feng's status was not very high, he was even unclear about the extent of the Dragon Clan's territory. But he did reveal an important piece of information to Ye Tian: even the God-level beings Long Teng and Long Ao did not hold high positions in the Dragon Clan. They were just minor higher-ups on a Dragon Clan planet, assigned to manage this ferocious beast world, and thus had the opportunity to execute this mission.

Just a single Dragon Clan planet possessed dozens of God-level beings and even existences above the God-level.

The glimpse of the Dragon Clan's strength revealed by Long Feng astonished Ye Tian. However, he also learned from Long Feng that humanity's overall strength was much stronger than the Dragon Clan's, given the vast territories of the human race. Even if individuals lack innate talent, the sheer numbers and human intelligence have led to a very strong development, boasting many God-level beings.

The God-level is just the starting stage of dominating the galaxy, and anything below God-level can only play within planetary worlds.

"Emperor Kurong, you may leave first. I will handle this Dragon Clan member!"

Ye Tian commanded in a firm tone, staring at Emperor Kurong.

"Yes!"

Emperor Kurong hastily left.

He knew he couldn't contribute to this matter. It involved God-level dragons, and he was far from qualified to participate, even this Emperor-level dragon was many times stronger than him.

After Emperor Kurong left, Ye Tian started thinking about how to deal with this Dragon Clan member.

Kill him?

But wouldn't that attract the enemy's attention? What if they retaliate against humanity?

Even if he managed to withdraw humanity from the ferocious beast world in time, with the Dragon Clan's strength, mobilizing a large number of seven or eight-star Emperors to attack Earth was not difficult.

With the current state of Zhonghai Super Base, it simply couldn't withstand such an onslaught, not even him.

So, Long Feng must not be killed!

But he didn't want to just let him go either!

"Right, if I release the news of those external forces entering Earth, wouldn't it deter the Dragon Clan? Once the Dragon Clan is wary, they wouldn't dare to invade Earth recklessly. Additionally, I can sell the information about the Dragon Clan to the Glory Pavilion. Maybe they will intervene."

Ye Tian thought.

This way, he might also discern the motives of those external forces, killing two birds with one stone!

Just when he was preparing his plan, he suddenly remembered Xiao Xue (Little Blood).

So, he asked: "Do you know about the War Blood Dragon Clan?"

"The War Blood Dragon Clan??? I know!" Long Feng began to speak: "The War Blood Dragon Clan was once a very powerful clan among dragons. However, this clan defied the natural order, capable of absorbing the blood of other dragons to grow rapidly. Therefore, some dragon clans deemed them a threat. Ten thousand years ago, several major dragon clans attacked and exterminated the War Blood Dragon Clan."

"The War Blood Dragon Clan was exterminated by the Dragon Clans???"

Ye Tian's eyes widened in shock.

He had thought the War Blood Dragon Clan held a high position within the dragons, but it turned out to be this.

“If that black dragon had seen Xiao Xue just now, it really would have been troublesome. Had I revealed Xiao Xue's identity, I would have had to kill it!” Ye Tian said, relieved.

At the same time, he also sighed in relief.

With such a poor relationship between the War Blood Dragon Clan and the Dragon Clan, Xiao Xue, as a lone survivor, naturally became an enemy of the Dragon Clan, and he had no psychological burden in dealing with the Dragon Clan.

“Sleep!”

Ye Tian hypnotized.

Boom!!!

Long Feng fell down, soundly asleep.

Immediately after, Ye Tian placed Long Feng nearby and returned alone to Zhonghai Super Base.

He did not rush to a meeting but contacted Void Breaker Sword Emperor instead.

He wanted to use the Void Breaker Sword Emperor to contact the Emperors behind the Glory Temple, to inform them about the Dragon Clan.

Chapter 275: Qualification for an Equal Dialogue!

Ye Tian wasn't sure whether the Void Breaker Sword Emperor was currently on Earth, in the Beast World, or in the Earth Immortal Realm.

But he still tried to contact him in the virtual world first.

Soon, the Void Breaker Sword Emperor responded.

“What is it that you need from me, Heavenly Emperor of Ten Thousand Laws?” asked the Void Breaker Sword Emperor.

“Let’s meet in Glory City!”

The Glory City that Ye Tian mentioned was naturally the one in the virtual world, the only place where they could meet and chat.

Whoosh!

Ye Tian arrived at Glory City and arranged to meet the Void Breaker Sword Emperor at a tavern.

Soon, the two met.

“What urgent matter do you have, Heavenly Emperor of Ten Thousand Laws?” inquired the Void Breaker Sword Emperor.

“I wish to meet with the Emperor-level figures of the Glory Pavilion. Is it possible?” Ye Tian asked directly.

“Meet the Emperor-level figures of the Glory Pavilion?” The Void Breaker Sword Emperor was puzzled and then said, “Ye Tian, the Emperor-level figures of the Glory Pavilion are shrouded in mystery. They sometimes stay in the Earth Immortal Realm and sometimes leave. There are not many who truly guard the Glory Pavilion. And unless there’s a transaction, it’s hard for me to meet them. Tell me what it’s about, and I might find a way.”

“If a non-human external force has entered Earth, would that catch the attention of the Glory Pavilion?” Ye Tian asked with a smile.

“What?!” The Void Breaker Sword Emperor was shocked.

A non-human external force!

He knew that Ye Tian was not talking about ferocious beasts. If it were those beasts, there would be no need to mention it, as Earth was full of beasts from other planets.

A non-human external force that could be referred to in this way must be a power comparable to, or even surpassing, forces like the Glory Pavilion.

“Heavenly Emperor of Ten Thousand Laws, could you clarify a bit more? Otherwise, I can’t report it. But if what you say is true, it will definitely catch the attention of the Glory Pavilion,” said the Void Breaker Sword Emperor.

“Alright, I’ll be more specific!” Ye Tian revealed a bit more, “Recently, I captured a pure-blooded Black Dragon of Emperor level. It was a true member of the Dragon Clan, not a sub-dragon or dragon-beast. From this dragon, I learned that in the Beast World near Zhonghai Super Base, three God-level and over a dozen Emperor-level members of the Dragon Clan have arrived. Each Emperor-level dragon possesses the strength of a Six-Star Emperor. The key point is those three God-level members of the Dragon Clan. Their strength is incredibly formidable, being God-level members of the Dragon Clan, they are no ordinary gods. And the Dragon Clan’s goal is simple – they have set their sights on our Earth!”

“Dragons!!!” The Void Breaker Sword Emperor’s face changed.

He actually knew a bit more about the Dragon Clan than Ye Tian did because the Glory Temple, a subordinate force of the Glory Pavilion, was very familiar with the Beast Clan. Naturally, he understood very well the Dragon Clan, the top clan among the beasts.

Because he understood, he was afraid.

The Dragon Clan setting its sights on Earth was a big deal!

“Heavenly Emperor of Ten Thousand Laws, I will report this immediately!” The Void Breaker Sword Emperor said urgently.

“Good!” Ye Tian responded.

The two logged off, and the Void Breaker Sword Emperor immediately entered the Earth Immortal Realm and contacted several Seven-Star Emperor-level powerhouses of the Glory Temple.

Not long after, the Glory Pavilion became aware of the Dragon Clan matter.

In the Earth Immortal Realm.

At the headquarters of the Glory Pavilion.

In a rather dimly lit room, several Emperor-level figures of the Glory Pavilion were discussing the Dragon Clan matter.

“Let’s hear some opinions. News from Earth says that the Dragon Clan has discovered Earth and seems to have set their sights on it.”

“The Dragon Clan, huh? A troublesome race indeed. We can’t control the spatial rifts. The spatial rifts connected to Earth lead to the Beast Planets under the Dragon Clan. We thought it wouldn’t attract the Dragon Clan’s attention, but unexpectedly, they have come!”

“What if the news is false?”

“Why would the Heavenly Emperor of Ten Thousand Laws spread false news? What benefit does it bring him? We just need to investigate a bit to clarify the truth. There’s no need to fuss over its authenticity. The issue we need to discuss is, if the Dragon Clan really has its eyes on Earth, what should we do? Our Glory Pavilion’s strength compared to the Dragon Clan is insignificant; we definitely can’t overpower them!”

“Indeed, we can’t overpower the Dragon Clan, but what we’re facing isn’t the entire Dragon Clan, just as the Dragon Clan isn’t facing the entire human race. I suspect we’ll only be dealing with the dragons from one of their planets. With our dozen or so forces combined, we might be able to hold our own, perhaps even defeat the Dragon Clan. So, there’s no need to be too fearful.”

“Should we enter Earth to investigate? Gods can’t enter Earth, but we, the Emperors, can. However, our dozen or so forces have an agreement not to enter Earth at will. Our Glory Pavilion can’t break this rule.”

“We should discuss with the other forces. Given the special circumstances, we should send someone to Earth to investigate.”

“Then let’s discuss with the other forces,” they decided.

The dim room was once again enveloped in silence as the figures of several Emperors vanished.

Not long after.

Other external forces also received notifications from the Glory Pavilion, and each dispatched an Emperor-level representative to discuss the situation at the Glory Pavilion.

In the end.

The consensus among the dozen or so forces was to send Emperor-level figures to investigate, but not too many from each force. Each force would dispatch one Emperor, preferably those strong in self-preservation and investigative skills, to successfully complete this mission.

Moreover, this mission was strictly limited to investigation; no other actions were permitted, and they must not violate any other rules of the major forces.

Within half a day, the list of Emperors entering Earth’s main world was confirmed.

Zhonghai Super Base.

Ye Tian was silently waiting when he suddenly sensed the powerful aura of several Emperors.

These Emperors had all emerged from the teleportation array, each having broken through their body’s limits more than ten times, with some even surpassing the eleventh breakthrough and one having achieved a thirteenth breakthrough.

Whoosh!

Ye Tian immediately used his copy talent to investigate their talents and quickly assessed their combat strength.

“They are all Seven-Star Emperors or higher!” Ye Tian was somewhat surprised, noticing that among them was an Eight-Star Emperor.

Needless to say, these individuals were not native Emperors of Earth but came from external forces.

The arrival of so many Emperors at Zhonghai Super Base caught the attention of many local Emperors.

Whoosh, whoosh, whoosh!

The spiritual senses of numerous Emperors probed out, seemingly seeking to understand the situation.

Ye Tian dispersed his own spiritual sense and informed the other Emperors, “My friends have arrived, no need to worry. Disperse, everyone!”

Following Ye Tian’s words, the other Emperors immediately withdrew their spiritual senses.

“Everyone, please come to the Tian Pavilion for a discussion,” Ye Tian’s spiritual sense reached the transfer hall, conversing with the Emperors.

The dozen or so Emperors exchanged glances and then descended as streaks of light into the Tian Pavilion.

.....

In the guest hall of the Tian Pavilion.

Ye Tian met with the dozen or so Emperors.

“So you are the Heavenly Emperor of Ten Thousand Laws. We heard you captured a pure-blooded member of the Dragon Clan. Where is it?” asked one of the Emperors.

“Outside the base,” Ye Tian replied calmly.

“Take us there!” commanded another Emperor in a deep voice.

Ye Tian smiled slightly, still sitting there, his demeanor calm, and said lightly, “Gentlemen, you seem to have forgotten something. This is my territory. Don’t you think you should be a bit more polite? Moreover, you are the ones in a hurry, not me. That means you need my help, not the other way around.”

“Hmph, not strong in strength, yet so bold in words. If we don’t help you, can your Zhonghai Super Base withstand the God-level Dragon Clan?” retorted an Emperor.

“Gods cannot enter Earth,” Ye Tian replied with a smile.

The Emperors’ expressions changed. They had never revealed this secret, but Ye Tian knew it.

Clearly, Ye Tian had learned this from the pure-blooded Dragon Clan member.

“You’re a Six-Star Emperor! Even if Gods can’t enter Earth, just one Seven-Star Emperor from the Dragon Clan would be too much for you to handle!” another Emperor spoke.

“Really?” Ye Tian smiled, “It seems your information is a bit inaccurate. When I reached the Six-Star Emperor level, I had only broken through the ninth bodily limit!”

As soon as these words were spoken, the dozen Emperors stood up.

They all clearly saw Ye Tian’s current realm, which indeed had broken through the tenth body limit, a major transformation.

In other words, Ye Tian's strength far exceeded what it was before.

Ye Tian, at the very least, was a Seven-Star Emperor!

"Alright, you have the qualifications for an equal dialogue. I apologize for my earlier arrogance. My name is Yuan Gang, also known as the Diamond Dharma Emperor, affiliated with the Glory Pavilion," one Emperor said, putting away his disdain and speaking earnestly.

## Chapter 276: The Exposure of External Forces!

Other Emperor-level beings no longer dared to underestimate Ye Tian. His seven-star Emperor-level combat power was enough to earn their respect, as most of them were also at the seven-star Emperor level. What right did they have to look down on others?

Seeing the improved attitude of these Emperor-level beings, Ye Tian smiled faintly.

His previous words were out of annoyance. How dare a few seven-star Emperors be disrespectful to him? If it weren't for his concern about the forces behind these Emperors and his reluctance to reveal his true strength, he would have taught them a lesson already.

"Esteemed Emperors, let me make this clear in advance. Although I have captured that Emperor-level dragon, I will not hand it over for you to deal with. I'm only sharing this intelligence with you, as I have no enmity with the Dragon Race. There's no need to kill a dragon and offend the entire race," Ye Tian stated upfront.

"No problem!" the Emperors unanimously agreed.

They also did not wish to offend the Dragon Race unduly. Even if they were to confront the Dragon Race in the future, that would be a matter for another time. If they were to kill a Dragon Race scout now, provoking their wrath, that was not the outcome they desired.

"Come with me," said Ye Tian, standing up and leading the group of Emperors away from Zhonghai Super Base.

In the wilderness, at a certain location.

Ye Tian deactivated a array, pulling out the slumbering Long Feng.

Boom!

The massive dragon body appeared before the eyes of the Emperors, causing their pupils to constrict.

As Emperor-level beings from external forces, they had naturally seen images of the Dragon Race. The ferocious beast before them was a true Black Dragon, with an extremely pure bloodline, not a dragon beast or a sub-dragon.

“Heavenly Emperor of Ten Thousand Laws, what is the status of this dragon? It seems there’s something off about it,” asked the Diamond Dharma Emperor.

“It’s in a hypnotic sleep state. I have hypnosis talent, so I hypnotized it,” Ye Tian replied openly, not wishing to conceal this fact. After all, there were many among humans with the talent for hypnosis, though most of them were not of high cultivation.

“Hypnosis talent, no wonder!”

These Emperors finally understood how Ye Tian had obtained his information. Merely interrogating would not have yielded much, but under hypnosis, they could get whatever answers they wanted, unless the hypnotized subject truly did not know.

“Heavenly Emperor of Ten Thousand Laws, can you hypnotize this dragon again? We have some questions to ask,” Diamond Dharma Emperor requested.

“Sure,” nodded Ye Tian. He then woke Long Feng and hypnotized him again.

Under the hypnotic state, Long Feng answered all questions from the Emperors, which were similar to those previously asked by Ye Tian.

After their questioning, the Emperors confirmed that the Dragon Race was indeed targeting Earth, causing them to frown.

“Send a Saint-level martyr to investigate,” they decided after a discussion.

They wanted to verify the truth for themselves. Unless they saw the Dragon Race with their own eyes, they would not believe it. They could not fully trust the words of a dragon captive, especially since it was Ye Tian who had hypnotized it, not them. There was a chance Ye Tian might be deceiving them, and they would be unable to detect it.

Thus, further verification was necessary.

Next, the Emperors approached a five-star spatial rift.

One of them activated an Earth Immortal Ring and returned to the Earth Immortal Realm, soon coming back with a Saint-level figure shrouded in black.

This Saint-level figure was a martyr they had trained, prepared to be sacrificed.

“Go to this location and check for the presence of the Dragon Race. This is a communicator; report back immediately upon sighting,” ordered the Emperors.

“Yes!” the Saint-level martyr replied, showing no fear, only boundless loyalty.

Swoosh!

The martyr entered the five-star spatial rift, followed by several Emperors who also entered the rift but did not venture deep, staying on the sidelines, ready to retreat back to Earth at any moment.

After all, they too feared the God-level dragons of the Dragon Race. If they encountered one, they would not be able to save their own lives.

Seeing this, Ye Tian chuckled secretly.

This time, he had successfully dragged the major external forces into the water.

Because these major forces had no idea that there was a God-level dragon with the ability to hypnotize. If the martyr went to investigate, he would likely be hypnotized first, then the Dragon Race would learn about the affairs of the major external forces.

Thus, the major external forces were exposed.

“Unfortunately, you didn’t ask if the Dragon Race has anyone with the talent for hypnosis. I only knew about the hypnotic talent within the Dragon Race because Kurong Emperor was hypnotized,” Ye Tian thought to himself.

Of course, he wouldn’t share this information with the major forces. It was better for the Dragon Race to discover the presence of the external forces on their own. This approach was more convincing and even better than his original plan.

In the world of ferocious beasts.

The Saint-level martyr kept flying, quickly reaching the area mentioned by Long Feng and started searching for traces of the Dragon Race.

“A Saint-level being has arrived and is searching around in this area. Have we been discovered?” Long Ao frowned.

“I’ll go and hypnotize him to find out,” said Long Teng.

Swoosh!

Long Teng flew over and instantly reached the side of the Saint-level martyr.

The moment the martyr saw Long Teng, he immediately recognized his identity and activated the communicator.

Just as he sent out the pre-set message, his consciousness began to sink.

“What is your identity, and what are you doing here?” Long Teng asked.

“I am a martyr of the Glory Pavilion, here to investigate the traces of the Dragon Race,” the Saint-level martyr reported.

“What is the Glory Pavilion?” Long Teng inquired.

“The Glory Pavilion is a five-star force on Tianqi Star in the Milky Way galaxy,” the martyr replied.

“Milky Way, Tianqi Star, you’re not from Earth?” Long Teng was shocked.

This meant that Earth had caught the attention of human forces within the galaxy, but when he had previously interrogated an Emperor-level being, there was no mention of external forces!

“Could it be that the Emperor-level being I interrogated was too low in rank, and the external forces were hidden, not revealing their tracks, so the average Emperor-level being wouldn’t know about their existence?” Long Teng speculated.

“What is the purpose of the Glory Pavilion?” he asked again.

“The purpose of the Glory Pavilion is...”

Before he could finish, the Saint-level martyr’s soul dissipated into nothingness under the operation of cosmic rules.

The martyr perished, his body and soul destroyed!

“Dead?” Long Teng frowned. Clearly, the martyr died due to a vow. Once he touched upon deep secrets, he would trigger the vow and die.

Failing to learn about the Glory Pavilion was disappointing for him.

But it wasn’t entirely fruitless!

At least, he knew that Earth had attracted the attention of human forces within the galaxy, but he wasn't too worried, considering that the Glory Pavilion was only a five-star force.

From his understanding of humans, a five-star force wasn't very powerful. Any force with a god-level existence could be called a five-star force, and only those with a true god-level existence beyond god-level qualified as a six-star force.

Since the Glory Pavilion was only a five-star force without a true god, it was less of a concern.

Moreover,

God-level beings couldn't enter Earth. Just as the Dragon Race's god-level couldn't, neither could the Glory Pavilion's god-level beings.

If the two sides were to compete for Earth, it would be a battle of Emperor-level strength!

"Compete at the Emperor level? Haha, our Dragon Race commands countless loyal species. How many powerful Emperors could a mere five-star force have? If a six-star Emperor-level force targeted Earth, we might have some fear, but a mere five-star force is not enough to concern our Dragon Race," Long Teng scoffed.

At that moment, his interest in Earth grew. The fact that a five-star force was covertly hiding, without revealing itself, indicated Earth's uniqueness. Otherwise, for an ordinary planetary world, the Glory Pavilion would have already taken over and wouldn't be hiding.

Immediately,

Long Teng returned and shared the information he had just gathered with Long Ao and the others.

Then, Long Ao suggested, "Let's send a clansman back to report this to our clan and hope the clan can send a large number of five-star or higher Emperor-level ferocious beasts. As for how to deal with that five-star human force, at least wait until we have enough strength to negotiate. Otherwise, just us Dragon Race members alone might not be taken seriously."

“Agreed!”

Long Teng and another god-level Dragon Race member nodded in agreement.

Chapter 277: Stirring the Waters!

Near a five-star level spatial rift.

An Emperor-level individual’s expression changed as he just received a message from a Saint-level death soldier.

“There are indeed dragons, humanoid dragons at that, likely one of the God-level dragon clan’s powerhouses!”

The Emperor-level individual spoke.

“What about the Saint-level death soldier?”

Another Emperor-level asked.

The first Emperor-level individual took out a soul plaque, the control plaque for the Saint-level death soldier, but at this moment, the plaque was shattered.

“He’s dead!”

The shattered soul plaque indicated complete annihilation of body and spirit – an irreversible death.

“This is bad, we must leave quickly!”

Diamond Dharma Emperor hastily spoke.

The other Emperors realized the crisis; if a God-level dragon were to come, their chances of escape were slim.

Swoosh, swoosh, swoosh!

One after another, the Emperor-level individuals returned to Earth, feeling much relieved.

The news was confirmed – dragons from the ferocious beast world had indeed arrived.

This was not good news for them!

“Heavenly Emperor of Ten Thousand Laws, we must return now. If anything happens at Zhonghai Super Base, please inform us.”

Diamond Dharma Emperor said.

“Definitely!”

Ye Tian responded.

One by one, the Emperor-level individuals activated their Earth Immortal Rings and returned to the Earth Immortal Realm.

In the blink of an eye, all Emperor-level individuals from external forces had left.

Seeing them leave, Ye Tian muttered to himself, “It seems these external forces are getting anxious. This is even better!”

He turned and left for the place where Long Feng was kept.

At that moment,

He released Long Feng from his hypnotic state.

As the hypnotic state lifted, Long Feng's consciousness returned, and he opened his eyes to see Ye Tian.

"Did you... use a hypnotic talent on me just now?"

Long Feng asked in fear.

"Correct!"

Ye Tian nodded.

"What did you ask me?" Long Feng asked fearfully.

"Everything!"

Ye Tian replied with a slight smile.

"..."

Long Feng was extremely terrified, fearing that if he had revealed anything about the dragon clan, he would be doomed upon returning. Lord Long Teng and Lord Long Ao would surely punish him severely!

"Do you want to die?"

Ye Tian suddenly asked.

"I don't want to die!"

Long Feng answered very straightforwardly.

How could he wish for death? He was of Dawn-level bloodline talent, a pureblood dragon. He was destined to reach God-level in the future, potentially becoming a God-level powerhouse like Long Teng and Long Ao!

However, the dragon clan's growth period was long, so it would take time to reach God-level.

But no matter how long it took, with his Dawn-level bloodline talent, he was destined to become a God-level entity.

Being a pureblood dragon with such potential, he naturally didn't want to die due to his long future!

"If you don't want to die, it's simple. You must promise me not to kill people, and also persuade the dragon clan not to kill humans. As for your desire to occupy Earth, forget about it. Earth is actually already controlled by a group of external forces in secret, who have been plotting for a long time. What secrets do you think they have? Do you think they would allow your dragon clan to disrupt their plans? Better forget about it. Just a few God-level beings, and not even able to enter Earth. With your strength, even a few dozen more like you would be useless!"

Ye Tian said sarcastically.

"What, Earth is controlled by a group of external forces, and there's a secret plan?"

Long Feng's eyes widened in shock, seemingly uncovering a tremendous secret, but he didn't dare to speak out, fearing that Ye Tian would change his mind and kill him.

However, what he didn't know was that Ye Tian was deliberately stirring the waters, creating chaos for his own benefit.

Ye Tian said a lot, and Long Feng just nodded along.

"Transform into a dragon beast and follow me!"

Ye Tian commanded.

Long Feng didn't dare to hesitate and quickly transformed into a dragon beast, following behind Ye Tian.

Ye Tian, accompanied by Long Feng, quickly arrived at the five-star level spatial rift and immediately passed through it into the ferocious beast world.

“Go, and don't come back!”

Ye Tian waved his hand, saying,

At this moment, Long Feng suddenly felt a sense of gratitude, thinking Ye Tian was indeed a good person.

If a human had infiltrated the dragon clan and harbored ill intentions, Long Feng would not have spared them. But Ye Tian had let him go.

Although moved, Long Feng did not slow down in his escape.

Whoosh!

In an instant, he flew a million miles away and soon disappeared from sight.

...

“Long Feng has returned!”

Long Ao, Long Teng, and other God-level powerhouses sensed Long Feng's presence.

Shortly after, Long Feng appeared before many of his dragon kin.

“Lord Long Ao!”

“Lord Long Teng!”

“Lord Long Mang!”

Long Feng greeted each of the three God-level dragon powerhouses.

“How did things go?”

Long Teng asked.

“I... I messed up!”

Long Feng trembled slightly.

“It was you who leaked our whereabouts, no wonder humans came looking for us!” Long Teng said angrily, exerting a God-level pressure on Long Feng, causing him immense pain.

Already severely injured, Long Feng’s condition worsened.

“Long Teng, he’s already injured. Ease your pressure. Although he failed, he did have some merits,” Long Ao spoke.

“Lords, I may have failed, but I did learn some information about Earth and uncovered an astonishing secret!” Long Feng hurriedly said.

“Speak!”

Long Teng eased his pressure, looking at Long Feng.

Long Feng began, “From my observations, Earth is a high-level planetary world, controlled by a group of external human forces in secret. They seem to be plotting something and have been doing so for a long time. In short, Earth holds a great secret!”

“How do you know this?”

Long Teng asked.

Then, Long Feng reluctantly recounted being hypnotized by Ye Tian, as well as everything Ye Tian had told him.

“You were hypnotized by someone!!!” Long Teng was somewhat annoyed, but realized it wasn’t Long Feng’s fault. Overpowered and hypnotized by the enemy, it was a normal occurrence. It was his oversight that led to this negligence.

“That human actually let you go, implying they don’t want to offend our dragon clan. That human’s words might be true. The Glory Pavilion and other human forces are probably plotting something on Earth. The resurgence of yuan qi in the galaxy is rare, especially to this extent in just a hundred years. The secret of Earth is worth our dragon clan’s pursuit!” Long Ao expressed with some excitement.

“Hmm, but if we can avoid conflict, we should. After all, it’s human territory, and attracting the attention of stronger forces might lead us into trouble, even if we gain some advantages,” Long Teng suggested.

“Let’s wait for our ferocious beast army to arrive. With them, we will have the standing to negotiate with humans!” Long Ao said.

“Lord Long Ao is right!”

A group of Emperor-level dragon clan members quickly agreed.

---

Although Ye Tian was unclear about the dragon clan’s next move, he had many warriors return to Zhonghai Super Base, leaving only a few at the ferocious beast world.

As for the Emperor-level individuals in Zhonghai Super Base, he did not inform them, as they wouldn’t be of much help and might cause chaos.

He also warned Kuruo Emperor not to spread any rumors to avoid unnecessary trouble.

However, he did not keep anything from his wife, Empress Yue, and told her everything.

In Tian Pavilion,

After hearing Ye Tian's story, Empress Yue's expression turned grave, "Husband, will those external forces clash with the dragon clan? This could affect Zhonghai Super Base, right?"

Ye Tian smiled slightly, "I actually hope they fight. If they do, we can just relocate Zhonghai Super Base. But more likely, they will start with negotiations, and if they fail, the top powerhouses will clash a few times. If the dragon clan is assertive, those external forces might give in. In any case, it's all beneficial for us!"

"Beneficial? How so?"

Empress Yue was puzzled.

"Even those external forces value this secret and have been plotting for so long. If we can gain some advantage from it, wouldn't it be a windfall? And now that my strength is at eight-star Emperor level, I will soon ascend to nine-star Emperor level, and have a stake in their profits!" Ye Tian confidently stated.

"Having heard that, it does seem beneficial for us!" Empress Yue agreed.

Chapter 278: The Dragon Clan's Great Army, His Highness Long Tianlin!

"Yue'er, strength is the most important thing. Although you have already broken through your seventh bodily limit, you still need to continue working hard."

Ye Tian said.

"My husband, I will strive to cultivate diligently!"

Empress Yue clenched her fists and declared.

In the days that followed, Ye Tian and Empress Yue cultivated together.

After breaking through the tenth physical limit, Ye Tian also aimed to surpass the eleventh limit. Moreover, his mastery in both Claw Dao Realm and Sword Dao Realm was only about thirty percent, and he needed to continue his comprehension.

Days passed.

Ye Tian was busy with cultivation, while the major foreign powers of the Earth Immortal Realm held numerous meetings, troubled by the issue of the Dragon Clan numerous times, but ultimately, they couldn't come up with a complete response plan.

However, everyone was very clear that the Dragon Clan would not leave easily this time.

In the blink of an eye, half a month had passed.

On this day.

In the world of ferocious beasts.

From the Dragon Palace's teleportation array, numerous ferocious beasts and Dragon Clan Emperor-level powerhouses were transported.

"Our clan's great army has arrived!"

Long Ao sensed the presence of many clan members and joyfully announced.

Swoosh, swoosh!

Three God-level members of the Dragon Clan swiftly flew towards the Dragon Palace and soon saw Emperor-level ferocious beasts and Dragon Clan members flying out.

Boom, boom, boom!

The sky was filled with the silhouettes of Emperor-level ferocious beasts, almost covering up the sky and blocking out the sun. Their formidable aura stirred together, causing the ocean within a million miles to churn into towering waves.

Suddenly.

A humanoid dragon with golden scales emerged.

Upon seeing this dragon, Long Ao, Long Teng, and Long Mang, the three God-level dragons, lowered their proud heads and greeted respectfully, "Greetings, His Highness Tianlin!"

They were shocked that the noble Long Tianlin himself had come.

This prince was not at the God level. He had transformed early due to consuming a Shape-shifting Herb.

However, even as a mere Emperor-level, Long Tianlin's strength was extremely terrifying. He had already reached the nine-star Emperor level. If not for his aim to break through to the Sovereign Emperor level, he would have entered the God level long ago!

Of course.

If he was just a nine-star Emperor, it wouldn't warrant such respect.

The three of them had also ascended from the seven-star Emperor level to God level, and their strength was now far beyond that of a nine-star Emperor. The reason they respected Long Tianlin so much was because of his identity.

Long Tianlin was the grandson of a true god and possessed Supreme Talent. In the future, he was destined to become a true god-level powerhouse.

Such a prodigy of the Dragon Clan was not to be neglected.

“Please, there’s no need to be so formal,” Long Tianlin said, waving his hand.

Before long.

The Dragon Clan’s great army had mostly arrived, including five nine-star Emperors, about thirty eight-star Emperors, and over a thousand six and seven-star Emperors.

Of course, among so many Emperor-level powerhouses, pure-blooded dragons constituted only a small part. The majority were sub-dragons, dragon beasts, and other ferocious beasts – all under the command of the pure-blooded dragons.

And all these Emperor-level powerhouses obeyed Long Tianlin’s orders.

“What’s the situation now? Tell me about it,” Long Tianlin inquired.

Long Ao quickly reported everything he knew.

After listening, Long Tianlin’s expression changed slightly, “Interesting. It seems that Earth, this higher-level planetary world, is indeed extraordinary. Perhaps it holds opportunities that could help me step into the Sovereign Emperor realm!”

Indeed, he had come in search of opportunities.

In his home planet of the Dragon Clan, it was very difficult for him to ascend to the Sovereign Emperor realm.

Even with a true god-level grandfather, it was an insurmountable challenge.

Therefore, he had to try his luck in other places. Hearing about Earth, he volunteered to come.

If he could find a great opportunity to step into the Sovereign Emperor realm, it would be fortunate.

If not, but he could help the Dragon Clan gain benefits, that would also be good.

“What should we do now, Your Highness Tianlin?” Long Ao asked in a low voice.

“First, we’ll subjugate the beasts of this planet. Although their strength is weak, they are useful for many things. A great army can’t be entirely composed of powerful Emperor-level beings. Saint-level, King-level, and even Top-level ferocious beasts must also gather in large numbers. Otherwise, without a sufficiently formidable presence, how can we shock the human race?” Long Tianlin declared.

“Yes, we will follow His Highness Tianlin’s method and subjugate the beasts first!”

Long Ao nodded in agreement.

Following this.

One after another, Emperor-level beings went to subjugate countless ferocious beasts.

Each of these Emperor-level beings was at the six-star level, making them the supreme rulers of the beasts on this planet.

Over a thousand beast great Emperors represented a terrifyingly powerful force.

In a short time, countless ferocious beasts were subdued by the Dragon Clan.

Millions!

Tens of millions!

Over a hundred million ferocious beasts gathered together, forming a terrifyingly massive wave of beasts.

And to subdue so many beasts, it took them just half a month.

Half a month later.

Long Tianlin, the three God-level dragons, and other Emperor-level ferocious beast powerhouses led the hundreds of millions of beasts majestically towards the spatial rift.

Along the way.

A human Saint-level being searched for a long time but couldn't find any powerful beasts, feeling very curious.

“Strange, where have all the beasts gone? Could it be that they have all migrated away?”

The Saint-level being thought.

Suddenly.

He felt a slight tremor on the ground and immediately looked towards the distance.

What he saw left him stunned.

In the distant horizon, a massive, dark wave of countless beasts was approaching.

“A beast tide!!!”

He was terrified and hurriedly fled towards the temporary base.

On the beast side, the God-level beings of the Dragon Clan naturally detected the Saint-level human but did not attack.

It was better if someone reported it.

They wanted to attract the attention of humans to facilitate their next move.

---

At the temporary base in Zhonghai.

A Saint-level being returned and yelled, “It’s bad, a beast tide is coming! An endless tide of beasts, including many, many Emperor-level ferocious beasts. There are so many, they stretch beyond sight!”

The Emperor-level being guarding the base immediately realized the danger. Previously, they were instructed to be alert to any unusual activity in the world of beasts and to evacuate immediately if any special situation or crisis occurred, without lingering!

“Evacuate quickly!”

The Emperor-level being ordered.

Swoosh, swoosh, swoosh!

One after another, warriors flew towards the spatial rift, and soon the base was left empty.

This news reached Ye Tian’s ears.

At Zhonghai Super Base.

After receiving the news, Ye Tian frowned immediately, “An endless tide of beasts... it seems the Dragon Clan has made a move! The warriors based in Zhonghai Super Base definitely won’t be able to hold them off!”

Therefore, he first entered the Earth Immortal Realm, and then used a communicator to notify Diamond Dharma Emperor.

Last time, Diamond Dharma Emperor left a communication number, so Ye Tian could contact him directly.

Before long, Diamond Dharma Emperor used the Earth Immortal Ring to teleport near Zhonghai Super Base.

And this time, it wasn't just Diamond Dharma Emperor who came; numerous Emperor-level beings arrived as well.

In reality,

These major powers had also secretly dispatched warriors to watch over the area, so they too received the news, just a bit later than Ye Tian.

Boom, boom, boom!

One after another, Emperor-level beings arrived, and Ye Tian even saw many eight-star Emperors.

These Emperor-level beings hurriedly went to the five-star level spatial rift, dropping various array platforms. In a short time, they constructed astonishingly powerful arrays covering an area of several hundred thousand miles.

The warriors of Zhonghai Super Base then retreated one by one.

This place was not for them to participate in, but a battlefield for Emperor-level beings.

“What’s happening, Heavenly Emperor of Ten Thousand Laws?”

Battle Axe Emperor flew to Ye Tian’s side, looking completely confused and asked.

Chapter 279: The Appearance of Nine-Star Emperor Level!

Not only was the Battle Axe Emperor puzzled, but other Emperors at Zhonghai Super Base were also filled with doubt.

The Emperors who had just arrived were clearly not from Zhonghai Super Base, yet Ye Tian instructed them not to hinder these Emperors' actions.

Moreover,

The cultivation levels of these Emperors far surpassed theirs, each having broken through the tenth physical limit, achieving a great transformation.

Such Emperors were definitely extremely powerful!

The Battle Axe Emperor knew he was no match for these Emperors, as any one of them had the power to instantly defeat him.

Ye Tian, seeing the curiosity of the crowd, explained, "The origins of these Emperors are somewhat mysterious. All I can tell you is that even the Tianfu Super Base would not dare to offend them. Don't worry, they are not here to confront us, but to welcome the arrival of the Dragon Race, setting up these great arrays merely to prevent the outbreak of battle."

"The Dragon Race???"

The Battle Axe Emperor grew even more puzzled.

Among the Emperors present, only Emperor Kurong had some understanding.

This was because Emperor Kurong had encountered the Dragon Race before, even having been hypnotized by a God-level dragon.

"Heavenly Emperor of Ten Thousand Laws, is the Dragon Race planning to invade Earth?"

Emperor Kurong cautiously asked.

"I'm not sure," Ye Tian shook his head, "but certainly many powerful beings from the Dragon Race have arrived. The beast tide from the Beast World must have been stirred by the Dragon Race. Prepare to evacuate at any time; if a battle really breaks out, you Emperors should try to envelop and evacuate ordinary people."

Those above the Grandmaster level could leave through teleportation arrays, but ordinary people couldn't use them. With the sheer number of ordinary people and martial disciples below the Grandmaster level, even if they could use teleportation arrays, the cost would be too great for Zhonghai Super Base to bear.

However, if the Emperors intervened, they could easily take tens of thousands of humans and fly away.

Thus, evacuating the population of a super base was not a difficult task.

That was why Ye Tian had not informed the people of Zhonghai Super Base in advance, to avoid causing chaos.

"Heavenly Emperor of Ten Thousand Laws, what exactly is going on? I'm a bit confused," frowned the Battle Axe Emperor, then turned to Emperor Kurong, "Kuruong Emperor, do you know something?"

Emperor Kurong looked at Ye Tian, seemingly asking whether he should speak.

"Kuruong Emperor, go ahead. Tell them what you know."

Ye Tian said.

With Ye Tian's permission, Emperor Kurong quickly shared what he knew.

It was then that the other Emperors understood that the Dragon Race was targeting Earth, intending to occupy it, and even the God-level dragons of the Dragon Race had been mobilized.

Just thinking about the Beast World's several God-level dragons, and many Emperor-level dragons of six stars and above, they shivered uncontrollably.

Moreover, this was just the vanguard of the Dragon Race; the main force arriving now was probably the Dragon Race's grand army!

The thought of the sky-covering beast army, led by numerous Emperor-level dragons and God-level dragons, sent chills down their spines even without witnessing it.

“Kuruong Emperor, you don’t know the identity of those Emperors either?”

The Battle Axe Emperor asked Emperor Kurong.

“I don’t know!” Emperor Kurong shook his head.

The Battle Axe Emperor glanced at Ye Tian, seeing that he really had no intention of revealing more, and dared not ask further.

Clearly, the identities of those people were very mysterious, not known to ordinary people, and even regular Emperors were not qualified to know.

“It’s still about power. If I had the strength of the Heavenly Emperor of Ten Thousand Laws, perhaps I would be qualified to know more secrets,” the Battle Axe Emperor thought to himself.

.....

At the spatial rift.

The martial artists of Zhonghai Super Base had already evacuated, leaving only the Emperors from the external forces.

One of the Emperors had entered the Beast World, using a treasure to observe the distant scene.

Boom!!!!

The distant scene was displayed before the numerous Emperors through the spatial rift.

In the scene, hundreds of millions of beasts covered a million miles of land, with three God-level dragons protecting Long Tianlin.

Below them, rows of Emperor-level dragons roared into the void, their terrifying pressure permeating the area.

In addition to these pure-blooded dragons, there were also numerous Emperor-level sub-dragons, Emperor-level dragons, and powerful Emperor-level beasts.

Seeing so many Emperor-level beasts, the human force Emperors' expressions changed.

“Star Sword Emperor, the enemy seems well-prepared this time. With such a force, our hundred-plus Emperors probably won't be able to hold them off, right?” the Diamond Dharma Emperor said to a young man carrying a silver long sword.

This young man with the silver long sword was the famous Star Sword Emperor from the external forces. He was an eight-star Emperor, second only to the Nine-Star Emperors.

At the same time, he was one of the few eight-star extreme Emperors present!

“Indeed, we can't hold them off. There are probably Nine-Star Emperors among these dragons. I have already notified the Nine-Star Emperors, and they will arrive soon!” Star Sword Emperor said solemnly.

Nine-Star Emperors!!!

Many Emperors, upon hearing this level, were terrified.

Facing Nine-Star Emperors, these ordinary seven and eight-star Emperors had no chance. A single Nine-Star Emperor could easily sweep through a large number of seven and eight-star Emperors.

Only Nine-Star Emperors could contend with Nine-Star Emperors. Even someone as powerful as the Star Sword Emperor, though touted as a peak eight-star Emperor, was incapable of standing against a Nine-Star Emperor.

Seeing many Emperors anxious, Star Sword Emperor said, “Don’t worry, the Dragon Race probably doesn’t want to start a war yet. Otherwise, given their speed, they would have already arrived. They are likely just trying to intimidate us.”

Many Emperors nodded in agreement. If the Nine-Star Emperors really wanted to make a move, they would have already attacked. But now, they were slowly flying over with the army, obviously not showing their true might.

Boom, boom, boom!!!!

The void trembled, and one after another, Nine-Star Emperor powerhouses arrived from the Earth Immortal Realm.

“Greetings to the Great Myriad Fire Emperor!”

“Greetings to the Great Shadowless Emperor!”

“Greetings to Great Emperor Apos!”

“Greetings to the Great Cold Snow Emperor!”

“Greetings to the Great Polon Emperor!”

...

Star Sword Emperor and other Emperors respectfully greeted each one.

In the distance,

Ye Tian, observing the sudden appearance of these seven Emperors, realized their extraordinary status.

“Since other Emperors are so respectful, these must be Nine-Star Emperors!”

Becoming a Nine-Star Emperor was incredibly difficult. One must possess God-level strength talent, Morning Star-level weapon mastery, talents like claw or fist techniques, and break through the fifteenth physical limit. Additionally, possessing powerful weapons and having no flaws in speed or defense were also necessary to hope to step into the Nine-Star Emperor level.

Like the Golden War Emperor, with Mystic-level strength talent, Morning Star-level spear talent, and top-tier Golden Battle Body talent, as well as breaking through the fifteenth physical limit, his combat strength barely reached eight-star Emperor level.

It was imaginable, then, that these Nine-Star Emperors must be exceptionally gifted in some aspect and without any major flaws to have stepped into the Nine-Star Emperor level.

“If I get close to those Nine-Star Emperors and observe their talents, I can surely copy some excellent ones!”

Ye Tian thought.

But he didn’t want to get involved in this battle yet. If he exposed his strength, it would bring no small trouble.

After all, these Nine-Star Emperors weren’t leaving anytime soon. He could copy their talents when he encountered them later.

There was no rush!

Before long, the Dragon Race’s beast army from the Beast World had already arrived below the five-star-level spatial rift, with Emperors from both sides almost staring across realms, their gazes seemingly unobstructed by the void.

In the Beast World,

Long Tianlin spoke, “Human strength is not weak. Who wants to challenge their Nine-Star Emperors? Let’s have a friendly contest.”

Long Ao and Long Teng exchanged glances, understanding Prince Long Tianlin's intention. It was like initiating a pre-war skirmish, pitting generals against each other. Defeating the human Nine-Star Emperors would be like crushing their morale and seizing the initiative.

Otherwise, the Earth being the human battlefield, they would be at a disadvantage in morale if they invaded.

"Prince Long Tianlin, I'll go!"

A member of the Dragon Race spoke.

Long Tianlin looked over, seeing that the speaker was one of the Nine-Star Emperors who had come this time—Red Dragon Long Chichi!

"Long Chichi, your strength is indeed quite good among Nine-Star Emperors. You may represent us in the contest. Don't tarnish the prestige of our Dragon Race!" Long Tianlin said indifferently.

"Yes, Prince Long Tianlin!"

Long Chichi replied confidently.

Chapter 280: The Nine-Star Battle, The Descent of the True God's Grandson!

Boom!!!

Long Chichi, in his dragon form, crossed a five-star level spatial rift and arrived on Earth.

On the Earth side.

When an Emperor-level dragon emerged, all the Emperor-level beings changed their expressions. They even wanted to take action, but were stopped by several nine-star Emperor-level powerhouses.

Just one Emperor-level dragon coming over wasn't enough for them to immediately take action.

“Human beings, I, Long Chichi of the Red Dragon clan, wish to understand the methods of human Emperor-level powerhouses. I wonder which human Emperor-level would like to enlighten me?”

Long Chichi spoke in the human tongue and manner.

Provocation!

Many human Emperor-level beings became angry. Just one Emperor-level dragon daring to provoke them was too arrogant.

But they couldn't gang up on Long Chichi; otherwise, it would look bad on their part. Wouldn't that make humans seem weak, only daring to win by outnumbering?

“I'll do it!”

Star Sword Emperor, a fighter with eight-star limit Emperor-level strength, stepped forward.

Star Sword Emperor didn't know Long Chichi's strength, but it certainly wouldn't be good to start with a nine-star Emperor-level. So, it made sense for him, an eight-star pinnacle Emperor-level, to test the waters.

Although he wasn't a match for a nine-star Emperor-level, he wouldn't be instantly killed and could at least block a move or two.

“Alright, Star Sword Emperor, you go and test him out.”

The few nine-star Emperor-level beings agreed.

Whirr!!!

One by one, the Emperor-level beings retreated, activating a spatial grand array, creating an array space that expanded many times, forming an excellent battlefield.

“Star Sword Emperor!”

“Long Chichi!”

After both parties introduced themselves, the sparring began.

Boom!!!

Long Chichi lashed out with a claw, unleashing the power of a nine-star Emperor-level being.

This claw seemed capable of grabbing a star, its power terrifying to the extreme.

“Oh no, he’s a nine-star Emperor-level dragon!”

Star Sword Emperor was shocked and pale.

Moreover, he could feel that the opponent was not a weak nine-star Emperor-level but a very powerful one.

Facing such a nine-star Emperor-level, he only had the strength to resist one move.

“Star Sword Protection!”

“Mystic-level Defense Talent!”

“Stellar Armor!”

“Sword Escape Secret Technique!”

...

Star Sword Emperor used every technique he had, retreating at high speed.

With a loud boom!

Long Chichi's claw shattered Star Sword Emperor's Star Sword Bodyguard and defense talent, even breaking his weapon, and struck Star Sword Emperor's Stellar Armor.

Fortunately, at the critical moment, Star Sword Emperor's Sword Escape Secret Technique worked, his body turning into sword lights scattering in all directions, with one sword light evading the attack and flying far away, revealing Star Sword Emperor's figure.

At this time, Star Sword Emperor was pale and severely injured!

But he survived the attack of a nine-star Emperor-level being. If it were another eight-star Emperor-level, they would probably have been instantly killed, even other nine-star Emperors wouldn't have had time to help.

In the distance.

Battle Axe Emperor and others were also watching the battle, trembling at that terrifying strike.

Such power seemed capable of killing them countless times. Just a bit of its aftermath could annihilate them.

"What kind of power is that, so terrifying?"

Battle Axe Emperor murmured.

"That is the power of a nine-star Emperor, and that Star Sword Emperor is an eight-star Emperor, and a very terrifying one at that. Yet he's still not a match for a nine-star Emperor-level dragon!" Ye Tian explained.

“Eight-star Emperor-level, Nine-star Emperor-level!”

Many Emperor-level beings at Zhonghai Super Base looked at each other. Most of them weren’t even at one-star Emperor-level. The eight and nine-star Emperor-level were too far beyond their reach!

While other Emperors were amazed, Ye Tian was also deeply contemplating how he would have defended against Long Chichi’s attack.

“With my defense, it’s hard to withstand, but by using spatial and temporal talents, I can barely dodge!”

Ye Tian calculated.

According to his calculations, he couldn’t face a nine-star Emperor-level head-on; he could only dodge. But if the nine-star Emperor-level used an area attack, he could only quickly flee.

If he wanted to escape, even a nine-star Emperor-level would find it difficult to kill him!

With that thought, he was no longer so fearful of the nine-star Emperor-level.

Of course, this calculation was based on Long Chichi’s attack. If he encountered those truly heaven-defying nine-star Emperors, these calculations might not hold.

In any case, facing a nine-star Emperor-level, he wouldn’t recklessly engage in a fight. Knowing he couldn’t win, he would naturally run at the first opportunity.

---

“Long Chichi, you are a nine-star Emperor-level, bullying an eight-star Emperor-level seems a bit excessive!” said the Shadowless Emperor, one of the human nine-star Emperors.

Long Chichi sarcastically replied, “I thought that human was a nine-star Emperor-level. Turns out he’s just an eight-star Emperor-level. Sorry, I went a bit too hard. I didn’t expect you to send such a weak Emperor-level!”

“You...”

Star Sword Emperor was furious.

He, a pinnacle eight-star Emperor-level, was being called a weak Emperor-level by Long Chichi!

The Shadowless Emperor then coldly said, “Words are useless. You are a nine-star Emperor-level, and I, the Shadowless Emperor, am also a nine-star Emperor-level. How about a match between you and me?”

“Okay!” agreed Long Chichi.

Facing the Shadowless Emperor, Long Chichi was somewhat solemn. He didn’t know the Shadowless Emperor’s strength and had to go all out.

In the next instant, the two nine-star Emperors clashed!!!

In a moment, they exchanged countless blows, almost shattering the space around them.

After a while.

They broke the spatial grand array and charged directly into the sky, fighting above the firmament.

Their battle almost shattered the sky, tearing millions of miles of clouds into nothingness.

Boom, boom, boom!!!

Above the sky, it seemed like there were two suns colliding non-stop, their sounds echoing for millions of miles.

At Zhonghai Super Base, countless humans looked up at the sky, curious about what the two suns were.

Unfortunately, no one answered them.

Suddenly.

The sky dimmed, all sunlight obscured.

An Emperor-level exclaimed, “That’s the Shadowless Emperor’s Mystic-level No-Light Talent, capable of blocking the enemy’s vision, hearing, and even suppressing their divine sense, reducing the enemy’s state to a certain level.”

With no sunlight above and the sound of the battle sealed off, no one knew what was happening.

.....

Ye Tian activated his Insight Eye, even seeing through the No Light Talent, clearly witnessing the battle between the two nine-star Emperors.

Abruptly.

Long Chichi’s dragon body was hit by the Shadowless Emperor’s palm, shattering countless dragon scales, and Long Chichi’s body fell. However, as Long Chichi was struck down, the Shadowless Emperor was also penetrated through the chest by one of Long Chichi’s claw techniques, sending the Shadowless Emperor flying.

One human, one dragon, both heavily injured!

Just as Long Chichi and the Shadowless Emperor were about to continue their fight, a voice rang out—

“How about we call this a draw?”

Boom!!!!

Long Tianlin tore through a spatial rift and, with hands behind his back, walked over step by step.

“Prince Tianlin!”

Long Chichi, somewhat dejected, lowered his massive dragon head.

“You did well, go rest now!”

Long Tianlin didn’t scold Long Chichi, recognizing that the Shadowless Emperor’s strength was indeed not weaker than Long Chichi’s, so he couldn’t blame Long Chichi for being outmatched.

“And who are you?”

A nine-star Emperor-level, Abos Emperor, asked.

“Let me introduce myself. I am the grandson of a true god, a dragon of the Dragon Clan, Long Tianlin!” Long Tianlin said proudly.

“A grandson of a true god!!!”

The Emperor-level beings present were all shocked.

The Earth’s Emperor-level beings might not know about true gods, but they did!

A true god is a realm above the God-level, with terrifying strength. For a dragon clan member to reach the realm of a true god, how terrifying that must be!

A true god was definitely one of the high ranking members of the dragon clan!

And a true god, if willing to pay some price, could even destroy a high-level planetary world.

The arrival of a grandson of a true god, especially from the dragon clan, was naturally a cause for nervousness.

...

So what if you're the grandson of a True God?? Can you withstand our Ye Tian's golden finger – the copy talent? He doesn't even have the time to face slap young masters, going directly to their ancestor's faces!!
