

Talent 301

Chapter 301: God-Level Defense Talent!

“Having broken through my body’s limits for the twelfth time, my strength has significantly increased. Among the Nine-Star Emperors, I should now be ranked in the third tier!”

Ye Tian estimated.

Previously, he was considered a fourth-tier Nine-Star Emperor, just slightly stronger than those in the fifth tier. But now, having stepped into the third tier of Nine-Star Emperors, if he were to face Liu Qingyi again, he definitely wouldn’t struggle as much to defeat his opponent; it would be comparatively easier.

He checked the Fivefold Weak Water, noticing only a slight depletion, but the Breath Soil had been completely exhausted.

Based on the consumption of the Fivefold Weak Water, he estimated it would only support him through his thirteenth body limit break. After that, he would need to prepare more resources or he couldn’t continue his rapid cultivation.

At present,

His only quick way to earn money was through challenges in the virtual world. However, he couldn’t always win. He might beat his current opponents, but if he continued his streak of 21 consecutive victories, the virtual world would surely arrange Nine-Star Emperor-level opponents for later matches. If he encountered a first or second-tier Nine-Star Emperor, he estimated he would lose, and that would cost him a lot of money.

Therefore,

He had to be cautious with each challenge.

“Just broke through my cultivation, let’s start with the 21 consecutive victories challenge to stabilize my realm!”

Ye Tian decided.

Thus, he entered the virtual world and undertook the 21st consecutive victory challenge.

This time, the virtual world didn't advertise for him. Still, from his last challenge, although he attracted many haters, he also gained some fans.

So, when he undertook the 21st match, quite a few viewers started buying tickets to watch Ye Tian. The number of spectators was significantly less than before.

With tens of thousands watching, the ticket sales amounted to over a million, which was better than nothing.

However, this time Ye Tian set the wager at 50 million. It was uncertain if anyone would agree to it.

One after another, Martial Warriors refused the virtual world's random matching, because Ye Tian had gained some notoriety. Those Emperor-level fighters naturally investigated Ye Tian first. Seeing that their strength was inferior to his, they definitely wouldn't accept the challenge!

Their money wasn't easily earned, so why would they just hand it over to Ye Tian?

Half a day later an Emperor-level warrior finally accepted Ye Tian's challenge.

【Character: Black Bear King, Record: 10934 wins, 321 losses】

From the record, this was an Emperor-level fighter with extensive combat experience, having spent a long time in the virtual world.

Though he had 321 losses, Ye Tian wouldn't underestimate his opponent.

As his record grew, most of the Black Bear King's opponents were Nine-Star Emperors, and the chance of encountering first or second-tier Nine-Star Emperors wasn't small, so it was quite normal to lose that many matches.

This person daring to accept Ye Tian's challenge clearly had strong confidence in his abilities.

Moreover, he completely agreed to the 50 million star point wager.

The next day, the match between Ye Tian and the Black Bear King began.

Among the tens of thousands who came to watch, two spectators drew a lot of attention.

Liu Qingyi and Qin Zixuan, too, came to watch Ye Tian's fight.

In the spectator's seat,

Liu Qingyi and Qin Zixuan were chatting.

"Qingyi, who do you think will win between Ye Tian and the Giant Bear Emperor?" Qin Zixuan asked.

The Giant Bear Emperor was the real title of the Black Bear King, who also had a certain reputation in Qingfeng Giant City.

"If Ye Tian only has his previous strength, then the Giant Bear Emperor has a 70% chance of winning. After all, Ye Tian's tactics are exposed, and the Giant Bear Emperor won't be easily fooled. The Giant Bear Emperor is infinitely close to the third tier of Nine-Star Emperors, and his defense is extremely strong. Ye Tian's chance of winning is very small!" Liu Qingyi said.

"Yes, the Giant Bear Emperor's defense is indeed freakish. It's said he possesses a God-level defensive talent and also mastered a rare Yuan force defense secret technique. Even Emperors of the same level have difficulty breaking his defense!" Qin Zixuan agreed with Liu Qingyi's view and nodded.

"Did you investigate Ye Tian? Any findings?" Liu Qingyi asked.

"I did, but there wasn't much to find. He wasn't originally from Silver Universe Star but came from elsewhere and only recently joined Silver Universe Star. The universe is vast; our Qin

family might dominate in Qingfeng Giant City, but that means nothing in the whole Silver Universe Star, let alone the entire Milky Way. How could we investigate?” Qin Zixuan said, feeling helpless.

“So, he is indeed a warrior from outside the Silver Universe Star!”

Liu Qingyi had suspected this, but foreign warriors were rare, and those assigned to Qingfeng Giant City were even rarer.

Soon,

The battle began!

Boom!!!

The Giant Bear Emperor charged forward, not only activating his God-level defensive talent but also deploying a Yuan force defensive secret technique.

His Yuan force transformed into strands of bear hair, covering his body and making him resemble a white bear.

It was this Yuan force defensive secret technique that earned him the title of Giant Bear Emperor!

At this moment, the Giant Bear Emperor completely ignored Ye Tian’s attacks.

“Starry Sky Annihilation!”

Ye Tian launched his God-level Sword Dao technique, Starry Sky Annihilation, shattering the space around them.

Countless space fragments bombarded the Giant Bear Emperor, shattering his Yuan force defensive technique and breaking through his God-level defensive talent.

Even so, the Giant Bear Emperor was only lightly injured!

“What terrifying defensive capabilities!”

Ye Tian exclaimed in admiration.

Yuan force defensive secret techniques were extremely rare and precious. Such techniques were nonexistent on Earth, and even in the Silver Universe Star, they were scarce. Most Emperor-level fighters didn’t possess such techniques, only a few Emperors and some disciples of major forces had access to ordinary Yuan force defensive techniques...

The Yuan force defensive techniques of Liu Qingyi and the Giant Bear Emperor were undoubtedly top-tier. Otherwise, they wouldn’t have such an effect.

But a mere Yuan force defensive technique was not enough to stop Ye Tian’s attacks. He was curious about the level of the Giant Bear Emperor’s defensive talent.

Swoosh!

Ye Tian instantly moved beside the Giant Bear Emperor and attacked with the Great Tearing Divine Claw.

At the same time, he used his copy talent to check the Giant Bear Emperor’s talent situation.

Human: Lin Chong

Cultivation Talent: Dawn Level

Strength Talent: Mystic

Speed Talent: Mystic

Defense Talent: God-Level

Palm Technique Talent: Moonlight

...

“God-level defense talent! No wonder I’m still struggling to break his defense even after greatly increasing my strength. He possesses a God-level defense talent!” Ye Tian realized.

At the same time, he felt secretly elated, as he had copied the Giant Bear Emperor’s God-level defensive talent.

With this, his own defensive capabilities had greatly increased, enhancing his survival techniques!

Boom, boom, boom!!!

Ye Tian attacked the Giant Bear Emperor repeatedly. Having broken through his body’s limits for the twelfth time, his speed and strength had greatly increased, and his spatial confinement ability had also become much stronger, completely overpowering the Giant Bear Emperor.

In no time, the Giant Bear Emperor showed signs of fatigue, and his injuries grew more severe!

In the spectator’s seat,

Qin Zixuan and Liu Qingyi’s mouths fell open in shock.

They had thought the Giant Bear Emperor had over a 70% chance of winning, but he was being completely dominated. This was not a 70% chance of winning, but rather a 0% chance!

“Qingyi, has this guy’s strength increased a lot, or was he hiding his true skills before?”

Qin Zixuan wondered.

“He must have broken through 15 body limits, which is why his strength has increased so significantly!”

Liu Qingyi speculated.

Unfortunately, in the virtual world, they couldn’t determine Ye Tian’s cultivation level, otherwise, they would have been able to figure out how many times he had broken through his body limits.

Five minutes passed.

The Giant Bear Emperor was beaten to the point of being unrecognizable, and before Ye Tian could finish him, the Giant Bear Emperor promptly admitted defeat.

“I concede!”

As soon as he spoke, the Giant Bear Emperor was teleported away.

Ye Tian achieved 21 consecutive victories!

“Good fortune, I gained another 50 million star points! And I also obtained a God-level defensive talent!”

Ye Tian was overjoyed inwardly, very satisfied with this challenge.

After logging off, Ye Tian began to integrate the God-level defensive talent he had just copied.

Soon, his defensive talent upgraded from Mystic to God-Level.

By connecting with the talent imprint, he learned that the God-level defensive talent increased his defensive capabilities by 300 times, three times stronger than the Mystic-level defensive talent.

Chapter 302: The Two Women Seek Allies!

“With a God-level defensive talent combined with the God-level Iron Armor talent from the Five Elements Transformation talents, and the addition of the Mystic-level Diamond Bone talent, my defensive ability is simply off the charts. However, the Diamond Bone talent is not purely a defensive talent, and considering my cultivation is somewhat lower, my defense is only comparable to that of the Bear Emperor.”

Ye Tian thought to himself.

He aimed to far surpass the defense of the Bear Emperor, as that would greatly increase his combat ability.

However, it seemed difficult to further enhance his defensive talent.

Yet, he could improve his defense in other ways, such as Yuan force defense techniques.

Unfortunately, Yuan force defense techniques were extremely rare and expensive, and Ye Tian was not interested in ordinary ones.

Those top-tier Yuan force defense techniques were out of his reach for now.

“Forget it, I’ll acquire a top-tier defense technique when I get the chance!”

Ye Tian resolved.

He then resumed his secluded cultivation.

In Qingfeng Giant City, within a fragrant pavilion in the City Lord’s Mansion.

Liu Qingyi came to meet Qin Zixuan, and they started talking.

“Qingyi, you rarely visit me. It’s always me who comes to see you. Is there something important this time?”

Qin Zixuan asked curiously.

Liu Qingyi replied somewhat awkwardly, “That’s right, I’m out of money and don’t want to compromise with grandpa, so I’m looking for ways to make money. There are many ways to make small amounts, but I need more than just a little. After searching for a long time, I finally found a suitable way. If this deal works out, I could make over one billion!”

“One billion? What kind of method can make one billion at once???”

Qin Zixuan was astonished.

She was also tempted, having just lost ten billion, exhausting her savings, and borrowing a lot from her cousins, she was in distress.

“Have you heard of the Black Gold Kirin Beast?”

Liu Qingyi asked.

“The Black Gold Kirin Beast? The one with spatial talent and God-level lightspeed talent?”
Qin Zixuan was surprised.

This ferocious beast was famous in the beast realm, not only for its spatial talent but also for its God-level lightspeed talent, moving like a black light piercing through space, incredibly fast.

The combination of spatial talent and God-level lightspeed talent made the Black Gold Kirin Beast formidable among ferocious beasts.

More importantly, the Black Gold Kirin Beast had high bloodline talent, usually at the Dawn level, becoming incredibly powerful once it reached the God level.

Moreover, its flight was extremely stable, unaffected by high speeds, making it one of the best mounts.

Many True Gods desired a Black Gold Kirin Beast mount, but they were rare and hard to capture.

“That’s right!” Liu Qingyi confirmed, “I know the location of a Black Gold Kirin Beast. If we capture it and sell it to any True God in our families, selling it for several billion Star Points should be easy, right?”

“Are you sure we can capture a Black Gold Kirin Beast???”

Qin Zixuan doubted.

“Don’t worry, it’s an Emperor-level Black Gold Kirin Beast, not a God-level one. If it were God-level, selling it for tens of billion Star Points wouldn’t be an exaggeration. According to my information, its strength is around the Nine-Star Emperor-level. Of course, we can’t capture a Black Gold Kirin Beast with spatial talent and God-level lightspeed talent, but we can find allies!” Liu Qingyi suggested.

“Find allies? Who? If we find a powerful God-level, they might take all the benefits, right?”

Qin Zixuan frowned.

“We won’t find a God-level, but an Emperor-level ally!” Liu Qingyi said.

“Emperor-level? The Black Gold Kirin Beast’s spatial talent is almost at the Pseudo-Mystic level. How can an ordinary Nine-Star Emperor deal with it, unable to counter its Pseudo-Spatial Mystic, and capture it?” Qin Zixuan said helplessly.

Liu Qingyi smiled, “You forgot, there’s an Emperor-level with Pseudo-Mystic level spatial talent who can slightly contend with the Black Gold Kirin Beast’s spatial talent. Combined with our trump cards, we should be able to capture that Black Gold Kirin Beast!”

“You mean...” Qin Zixuan thought of a detestable Emperor-level – the Heavenly Emperor of Ten Thousand Laws, “You want to cooperate with the Heavenly Emperor of Ten Thousand Laws? No way, he’s tricked me badly!”

“If you don’t want to, I’ll find someone else!”

Liu Qingyi said.

“Don’t...” Qin Zixuan quickly stopped Liu Qingyi, “Qingyi, I was just joking. Let’s seek his help, but will he agree?”

“Don’t worry, he will agree! I have a way!”

Liu Qingyi was full of confidence.

“Qingyi, where exactly is this Black Gold Kirin Beast?” Qin Zixuan asked.

“In the Eternal Abyss!”

Liu Qingyi replied.

“What, there? You’re really bold!” Qin Zixuan exclaimed, her eyes widening.

The Eternal Abyss was no ordinary place. It was said to be a fissure created by a powerful being in ancient times on Silver Universe Star, extending deep into the earth.

Over countless years, the Eternal Abyss had become a paradise for ferocious beasts.

Perhaps due to a change in rules, the Eternal Abyss strongly repelled God-level beings. God-level beings entering the Abyss would suffer a great reduction in strength and easily attract the attention of God-level ferocious beasts within.

For this reason, beings of the God-level dared not enter the Eternal Abyss.

Of course.

There were many existences capable of sweeping through the Eternal Abyss on Silver Universe Star, but they hadn’t destroyed it, as it was also a good training ground for Emperor-level powerhouses.

Many treasures had been nurtured inside the Eternal Abyss, and many Emperor-level beings risked entering in search of opportunities.

However, very few Emperors who ventured inside came out alive; most perished in the Eternal Abyss.

Qin Zixuan had never entered the Eternal Abyss and thus harbored some fear towards it.

“We won’t venture deep into the Eternal Abyss, just operate around its periphery. The Emperor-levels find it difficult to capture the Black Gold Kirin Beast because it’s in the Eternal Abyss. Sending a large number of Emperors might attract the attention of powerful God-level ferocious beasts. It’s safest to act with three or four Emperors. I learned about this from an elder in my family, and no one else knows yet,” Liu Qingyi explained.

Qin Zixuan pondered for a moment before saying, “Alright, I agree. We both have life-saving methods, so we have a good chance of surviving. A Black Gold Kirin Beast is worth the risk. We can’t always rely on our families; we need to make our own money!”

“Okay, let’s go find the Heavenly Emperor of Ten Thousand Laws then!” Liu Qingyi urged.

“Alright!”

Qin Zixuan nodded in agreement.

They already knew where Ye Tian lived.

Given their status in Qingfeng Giant City, finding the residence of an Emperor-level was easy.

Soon, they arrived outside Ye Tian’s villa.

“Heavenly Emperor of Ten Thousand Laws, are you home?”

Qin Zixuan’s voice entered.

Ye Tian was in secluded cultivation, with a soundproofing formation activated. Although he couldn't hear Qin Zixuan's voice, a sensing formation alerted him to people outside.

Immediately.

He deactivated the soundproofing and other formations, extending his divine sense to investigate.

"Qin Zixuan, Liu Qingyi? Why have they come? Could it be they're here to settle scores?"

Ye Tian thought to himself.

However, he quickly shook his head.

He didn't sense any malice from them, rather a bit of goodwill.

Clearly, the two women weren't here to cause trouble. Besides, there was no conflict between them, except for the fact that he had defeated them both, causing them to lose money.

But he couldn't be blamed for that; he couldn't just lose on purpose.

"Come in!"

Ye Tian's voice sounded.

The door opened, and Qin Zixuan and Liu Qingyi entered Ye Tian's villa.

In the living room.

Ye Tian and the two women sat down.

"What brings you here?"

Ye Tian asked directly.

Chapter 303: Three Great Benefits, Ye Tian is Tempted!

Qin Zixuan glanced at Liu Qingyi, signaling her to speak.

Liu Qingyi immediately said, “Heavenly Emperor of Ten Thousand Laws, we want to capture a ferocious beast and need an additional teammate, so we are seeking your help.”

“No way!”

Ye Tian instantly refused.

His time was so precious, he barely found enough for his daily cultivation, let alone hunting ferocious beasts!

Seeing how quickly Ye Tian refused, Liu Qingyi hastily added, “Heavenly Emperor of Ten Thousand Laws, at least hear us out, or listen to our offer, before you decide!”

“Alright, go ahead!”

Ye Tian became interested in Liu Qingyi’s offer, initially thinking she just wanted him to join their team and split the earnings, which wasn’t very appealing to him.

But since Liu Qingyi mentioned an offer, that was something worth discussing!

He was somewhat intrigued.

Liu Qingyi smiled slightly, saying, “Heavenly Emperor of Ten Thousand Laws, I’ve fought with you and also seen your battle with the Giant Bear Emperor. From these fights, it seems you don’t have any yuan force defense techniques, right? Fortunately, I once acquired a teachable yuan force defense technique, a seven-star yuan force defense technique, which is among the top-tier yuan force techniques. If you’re willing to help us capture the ferocious beast, I can share this seven-star yuan force defense technique with you!”

“Seven-star yuan force defense technique!!!”

Ye Tian was genuinely tempted.

He had previously researched yuan force defense techniques and was aware of their levels. The ones sold in the market were mostly one or two-star techniques, each worth millions, even tens of millions of star points.

One could imagine how precious a seven-star yuan force defense technique was!

A seven-star yuan force defense technique was a top-tier defense technique, not allowed for trade in Silver Universe Star.

“You’re really willing to offer a seven-star yuan force defense technique?” Ye Tian asked, somewhat incredulously.

“Of course!” Liu Qingyi nodded, “But there’s one condition. You must not reveal the origin of the seven-star yuan force defense technique, even if asked about it in the future, you cannot disclose that it came from us.”

“Why, is there some problem with that defense technique?”

Ye Tian frowned.

If there was an issue with the defense technique, he wouldn’t dare accept it, not knowing what kind of trouble it might bring!

“No problem at all!” Liu Qingyi quickly explained, “It’s because the higher-ups of Qingfeng Giant City and many important figures in Silver Universe Star strictly control the circulation of certain treasures, including high-level yuan force defense techniques. The technique I accidentally acquired can be contributed to my family. If sold or traded, it would inevitably break these rules.”

“I see!”

Understanding the situation, Ye Tian promised, “If I agree to your invitation and truly help you complete the capture mission, obtaining that defense technique, I definitely won’t leak the secret. But the current issue is, you must disclose the details of the mission. Otherwise, I wouldn’t dare to blindly accept your task. If it’s too dangerous, I won’t do it.”

He wasn’t foolish. Such a generous reward implied a tremendously difficult task.

If it were just a regular capture mission, with their backgrounds, they could easily mobilize numerous emperors, even nine-star emperors, without needing to offer any reward. Why seek him out?

There must be a reason, and without understanding it clearly, he wouldn’t be swayed by the seven-star yuan force defense technique.

Liu Qingyi explained, “Heavenly Emperor of Ten Thousand Laws, the ferocious beast we want to capture is the Black Gold Kirin Beast, a creature with pseudo-mystic level spatial talent and God-level lightspeed talent. Its combat power should be around nine-star Emperor-level, and it resides in the Eternal Abyss!”

Liu Qingyi and Qin Zixuan knew Ye Tian was new and probably didn’t know what the Eternal Abyss was, so they explained in detail, even including the origins of the Black Gold Kirin Beast.

After listening, Ye Tian fully understood!

“So that’s why!”

Ye Tian finally knew why these two women sought him to capture the Black Gold Kirin Beast. It was because of his pseudo-mystic level spatial talent, which could counter the Black Gold Kirin Beast’s similar talent.

And in capturing the Black Gold Kirin Beast, having more people was useless. Instead, it would only attract the attention of the powerful beasts in the Eternal Abyss. The fewer, the better.

For this very reason, the two women sought him out.

Upon hearing about the Black Gold Kirin Beast's origins, Ye Tian had already made his decision—

He would go to capture the Black Gold Kirin Beast!

Not for anything else but for the beast's two talents—the pseudo-mystic level spatial talent and the God-level lightspeed talent.

The God-level lightspeed talent must be a divine talent formed by the fusion of mystic-level light and speed talents. Such a talent might fuse with Ye Tian's extreme speed talent to form an even higher-level God-level talent.

Once he attained the God-level extreme speed talent, copying more mystic-level speed talents would be futile. Only by copying higher-level God-speed talents could he possibly enhance his own speed talent.

And the God-level speed talent might just be what he needed to transform and evolve his God-level extreme speed talent.

But what truly excited Ye Tian was the Black Gold Kirin Beast's pseudo-mystic level spatial talent—that was the talent he truly cared about and desired!

Spatial talents were incredibly difficult to enhance. Until today, he had only managed to comprehend two-tenths of the spatial mystery. As for reaching three-tenths, he had no idea when that would be possible.

However, one way to rapidly advance the pseudo-mystic spatial talent was by fusing it with other pseudo-mystic level spatial talents.

Unfortunately, humans or beasts with spatial talents were exceedingly rare, let alone those with pseudo-mystic level spatial talents.

He had not found even one until now.

But now, the Black Gold Kirin Beast appeared, possessing the very pseudo-mystic level spatial talent he sought. If he could copy and fuse the beast's talent, his spatial talent would surely skyrocket, becoming far more powerful and formidable than before.

“A seven-star yuan force defense technique, a pseudo-mystic level spatial talent, and a God-level lightspeed talent—three great benefits! Not accepting would be foolish!” Ye Tian thought to himself.

However, outwardly he couldn't show too much excitement. Instead, he put on a look of struggle and difficulty.

After pondering for a long while, Ye Tian finally gritted his teeth and said, “Alright, I agree. When do we depart?”

“As soon as possible. Delay could lead to complications!” Liu Qingyi replied.

After discussing, the three decided to depart the next day.

Ye Tian had nothing to prepare and rested well that night.

The next day,

Liu Qingyi and Qin Zixuan came to Ye Tian again, and the three left together.

The Eternal Abyss was far, very far from Qingfeng Giant City. Flying there, considering the suppression of martial warriors in Silver Universe Star, would take several days.

So, the trio left via a teleportation formation.

After several teleports, they arrived at a large city—Wanxue City!

Wanxue City, second only to the giant cities in scale but still of major city status, was one of the countless large cities on the Tianzhan Continent. Its fame was not inferior to that of the typical giant cities.

Because Wanxue City was built near the Eternal Abyss, only a million li apart.

Ye Tian and the two women went straight from Wanxue City to the Eternal Abyss.

In no time, they arrived at the Eternal Abyss.

Outside the Eternal Abyss,

The trio stood and looked out, feeling as if the Eternal Abyss was a giant devourer. It was pitch-black inside; nothing could be seen from the outside, except for the feeling of countless ferocious beasts' auras emanating from within.

“Be careful, keep your auras concealed. There could be all kinds of ferocious beasts in here!”

Liu Qingyi warned Ye Tian.

Ye Tian nodded lightly, concealed his aura, and then entered the Eternal Abyss with Liu Qingyi and Qin Zixuan.

Chapter 304: Thirty Percent Pseudo-Mystic Space Talent, Spatial Orb!

Ye Tian possessed the talent for invisibility, which would have made it very safe to enter the Eternal Abyss if he could turn invisible.

However, he didn't want to reveal his invisibility talent, and to turn invisible with others, he had to touch their skin. He thought that neither Liu Qingyi nor Qin Zixuan would agree to this.

So, he never mentioned his invisibility talent.

Upon entering the Eternal Abyss, streams of black energy surged into Ye Tian's body.

Without a dark affinity talent, it would be difficult to absorb the dark yuan qi. Being enveloped in dark yuan qi is very uncomfortable, but Ye Tian, having copied many types of talents, naturally possessed a dark affinity talent.

Thus, the dark yuan qi was no different to Ye Tian than ordinary yuan qi.

Liu Qingyi and Qin Zixuan had treasures that could isolate them from the dark yuan qi, so they also didn't feel uncomfortable.

Liu Qingyi, holding a map, identified the direction and led the way, with Ye Tian and Qin Zixuan following behind.

“Remember, until we find our target, try not to fight the beasts of the Eternal Abyss. Otherwise, if we attract the attention of a God-level beast, we'll be in trouble!” Liu Qingyi reminded.

Ye Tian and Qin Zixuan nodded in agreement.

The trio flew at a steady pace, continuously descending.

The Eternal Abyss was incredibly deep, and its exact depth was unknown. Many floating continents drifted within, and most of the beasts lived on these floating lands.

Ye Tian and his companions didn't approach these floating continents, choosing to fly through the dark void.

Even so, they soon encountered a group of beasts.

This group belonged to the same species, about ten meters long and resembling bats in appearance, their bodies a dark red hue.

“They're Dark Blood Bats!” Qin Zixuan frowned.

Dark Blood Bats, although only at the saint level and not particularly strong, were completely controlled by the Blood Bat King. Any Dark Blood Bat could communicate with their king.

The sheer number of Dark Blood Bats was terrifying; even killing a small group could quickly attract countless others.

If they did kill the Dark Blood Bats, it would draw the attention of other powerful beasts nearby.

“What should we do, Qingyi? Should we flee?” Qin Zixuan asked.

“The Eternal Abyss is complex, with different beasts in each area. The map I have is drawn by our Liu family and shows the safest route to that place. If we detour, we don’t know what lies in other directions. If we accidentally enter the territory of a powerful God-level beast, we’re doomed!” Liu Qingyi said, indicating her decision—

Not to flee, but to kill this group of Dark Blood Bats. However, how to kill them was a problem.

“Heavenly Emperor of Ten Thousand Laws, do you have any way to kill these Dark Blood Bats without alerting the Blood Bat King? We have spotted the Dark Blood Bats, but they haven’t noticed us yet. If we encounter them, we’ll have to fight! If you have any good ideas, speak up quickly!” Liu Qingyi asked.

“Use an illusion!” Ye Tian suggested.

“Illusion?” Liu Qingyi’s expression changed. “Do you have the talent for illusion?”

Illusion talent was extremely rare. Neither she nor Qin Zixuan possessed it. If used, it could indeed easily bypass this group of Dark Blood Bats.

“Yes, I have a top-level illusion talent!” Ye Tian admitted.

“That’s great!” Qin Zixuan exclaimed excitedly on the side. “It was indeed the wisest decision to find you. Heavenly Emperor of Ten Thousand Laws, we’ll rely on you this time!”

“Alright, wait here!” Ye Tian instantly teleported over.

As he approached the Dark Blood Bat group, he immediately deployed his illusion talent.

Boom!

His illusion talent instantly enveloped the group of Dark Blood Bats, creating an illusion where they encountered another group of beasts and began to fight.

“Liu Qingyi, Qin Zixuan, hurry over!” Ye Tian transmitted his voice.

Swoosh, swoosh!

Liu Qingyi and Qin Zixuan passed through the Dark Blood Bat group, which didn’t notice their presence at all, allowing them to pass through.

After Liu Qingyi and Qin Zixuan had flown a considerable distance, Ye Tian teleported away and soon disappeared.

Once Ye Tian left, the group of Dark Blood Bats recovered from the illusion.

At that moment, the Dark Blood Bats only saw the corpses of their comrades but not those of their enemies, leaving them baffled.

So, they quickly contacted their king.

Soon after, the Blood Bat King arrived with countless Dark Blood Bats, but after a long investigation, they couldn’t find any issues.

...

The trio flew carefully for half a day and finally arrived at a floating continent.

“The Black Gold Kirin Beast is in a valley on this floating continent. Your task, Heavenly Emperor of Ten Thousand Laws, is to restrain the Black Gold Kirin Beast and make sure it doesn’t escape. The capture will be handled by me and Zixuan. We need to fight quickly and decisively; we absolutely can’t stay here for too long, or we’ll be in trouble!” Liu Qingyi laid out the battle plan.

“Understood!” Ye Tian responded.

Swoosh, swoosh, swoosh!!!

The three flew into the floating continent and quickly reached a huge valley as directed by the map.

The valley was a pleasant environment with birds singing, flowers fragrant, and a river running through it.

In a place like the Eternal Abyss, such a valley was undoubtedly a paradise-like haven.

Ye Tian spread his divine consciousness and soon noticed a beast resembling a kirin.

This beast was pitch-black like thick ink, with blood-red eyes, and emitted a very powerful aura.

Ye Tian, Liu Qingyi, and Qin Zixuan spotted the Black Gold Kirin Beast, and naturally, it also noticed them.

“Attack!” Liu Qingyi commanded.

Boom, boom, boom!!!

The three attacked together, instantly shattering the valley and exposing the Black Gold Kirin Beast hidden within.

At that moment, the force of space pervaded the area, instantly freezing the space.

“At least thirty percent Pseudo-Mystic Space Talent!” Ye Tian was both excited and slightly solemn.

Such a space talent was much stronger than his; against the Black Gold Kirin Beast, his space talent was definitely at a disadvantage.

But his task wasn't to suppress the Black Gold Kirin Beast, but to restrain it.

“Spatial Imprisonment!”

Ye Tian also used Spatial Imprisonment to counter the Black Gold Kirin Beast's Spatial Imprisonment.

The two space talents clashed in the void, causing the space to shake violently.

Suddenly,

A multitude of space blades slashed towards them. The Black Gold Kirin Beast intended to use space blades to kill Ye Tian and his companions.

Ye Tian waved his hand, sending a multitude of space blades in retaliation.

Bang, bang, bang!!!

The space blades collided, and Ye Tian's space blades were instantly shattered, unable to withstand the opponent's space blades. However, after being struck by Ye Tian's space blades, their power significantly decreased, unable to harm Ye Tian and his companions.

At that moment,

The Black Gold Kirin Beast launched a spatial shockwave. Layers of spatial shockwaves came, and if not for the trio's strong defenses, they would have been injured by the spatial shockwaves.

Meanwhile, the Black Gold Kirin Beast also used spatial compression to squeeze Ye Tian and the others, but it was partially neutralized by Ye Tian's spatial compression, so it couldn't harm them.

Seeing that it couldn't injure Ye Tian and his companions, the Black Gold Kirin Beast roared in anger and then opened its mouth to spit out a colorless sphere. This five-colored sphere instantly collided towards Ye Tian, enveloping him.

"Not good!"

Ye Tian realized the danger; this was definitely a space talent technique that he hadn't comprehended, so he wasn't clear about its capabilities.

"It's a Spatial Orb!" Liu Qingyi's face changed, and she immediately used a black arrow, throwing it fiercely.

Pfft!

The black arrow pierced through the Spatial Orb, causing it to explode.

Boom!!!

The space inside the Spatial Orb shattered into nothingness, and the space in front of them collapsed.

At this moment, Ye Tian finally understood the use of the Spatial Orb—it was to pulverize space...

Chapter 305: Successful Capture, A God-level Arrival!

Ye Tian's God-level Sword Dao technique, Starry Sky Annihilation, could smash space itself, while the spatial orb was capable of pulverizing space.

Of course, this didn't mean the spatial orb's attack was stronger than Starry Sky Annihilation, but the spatial orb was notoriously difficult to resist. Once enveloped by it, one would undoubtedly face immense trouble.

If a lower-defense Emperor-level entity were to be enveloped by the spatial orb, even with healing talents, survival was impossible. The entire body would be instantaneously obliterated along with the space.

Such a terrifying space talent was truly formidable!

What piqued Ye Tian's curiosity, however, was that Liu Qingyi's black arrow could destroy the spatial orb, marking it as an extraordinary treasure.

Whoosh!

The black arrow flew back, landing in Liu Qingyi's hand, though its glow had somewhat dimmed.

"Ten Thousand Laws Heavenly Emperor, the Black Gold Kirin Beast might try to escape. Use all your strength to stop it. Zixuan is activating a treasure, and success is imminent!" Liu Qingyi transmitted her message.

"Alright!"

Ye Tian responded.

He noticed Qin Zixuan's actions. She had taken out a net and was infusing it with Yuan Force, but the net seemed to be of a high grade, and her cultivation level made it somewhat strenuous to activate, taking more time than expected.

Not far away, the Black Gold Kirin Beast grew fearful. None of its attacks could harm the human before it, and even its spatial orb was destroyed by the opponent.

If this continued, it would be in danger.

"Escape!"

The Black Gold Kirin Beast had this thought.

Swoosh!

It activated its God-level lightspeed, attempting to flee.

At that moment.

Ye Tian's Spatial Confinement powerfully suppressed it, slowing its speed.

Ye Tian used his space talent to suppress it, and it used its space talent to suppress Ye Tian.

Yet, even so, the Black Gold Kirin Beast's speed was not significantly reduced.

Whoosh, whoosh, whoosh!!!

The Black Gold Kirin Beast fled, pursued by the three.

Soon, Ye Tian chased the Black Gold Kirin Beast into the dark void outside the continent.

The Black Gold Kirin Beast was about to escape the range of the Spatial Restraint, and Qin Zixuan's net was not yet fully activated. If they waited any longer, once the Black Gold Kirin Beast left the Spatial Restraint's range, it would easily escape and become untraceable.

"Soul Spike!"

Ye Tian prepared to expose this soul talent, the only kind of soul attack talent that could harm the Black Gold Kirin Beast, slowing its speed.

Pfft!

His soul force transformed into a spike, piercing through.

The next instant, the Black Gold Kirin Beast screamed in agony, its speed faltering, while Ye Tian instantly teleported over, engaging the beast in close combat.

Simultaneously.

Ye Tian also assessed the Black Gold Kirin Beast's talents.

Species: Black Gold Kirin Beast

Bloodline Talent: Dawn

Strength Talent: Mystic

Defense Talent: Mystic

Lightspeed Talent: God-level

Space Talent: Pseudo-Mystic (30%)

...

"God-level lightspeed talent, copy!"

"Pseudo-mystic-level space talent, copy!"

With a single thought, he copied two talents, filling Ye Tian with exhilaration.

Of course.

He didn't forget his mission to stop the Black Gold Kirin Beast.

The Black Gold Kirin Beast, having suffered a soul attack from Ye Tian, was in pain but not seriously injured. However, it was extremely furious at Ye Tian, attacking him frenziedly.

At that time, it even forgot to flee, only wishing to fiercely beat Ye Tian.

But its strength was still slightly inferior to Ye Tian. If it had chosen to flee, Ye Tian would indeed have had difficulty catching up with its speed.

However, now that it chose to attack Ye Tian, it truly severed any hope of escape.

Suddenly.

A voice transmitted: “Ten Thousand Laws Heavenly Emperor, move aside!”

Hearing this transmission, Ye Tian teleported away.

Whoosh!

A large net descended from the sky, covering that space, enveloping the Black Gold Kirin Beast.

Initially, the Black Gold Kirin Beast was disdainful of the net, sending spatial blades slicing towards it.

But the next moment, it was stunned.

The spatial blades hit the net but didn’t cause any damage.

The net fell, completely wrapping the Black Gold Kirin Beast.

No matter how much the Black Gold Kirin Beast struggled, it couldn’t break free from the large net.

As the Black Gold Kirin Beast struggled more fiercely, the net tightened even more. Soon, the beast fell into a dazed unconsciousness.

“This is...”

Ye Tian was extremely surprised.

Liu Qingyi explained, “This net is a wondrous object—the Locking God Net. It can not only restrain a creature’s body but also its soul. Right now, the Black Gold Kirin Beast’s soul is restrained by the Locking God Net, which is why it seems to be in a coma.”

“What a powerful treasure!”

Ye Tian realized he had underestimated Qin Zixuan and Liu Qingyi.

In the virtual world, he could easily defeat them both, but in the real world, with their various treasures and trump cards, it was uncertain who would win or lose!

“Let’s go quickly. The recent battle must have attracted the attention of other powerful beasts, and there might be elder Black Gold Kirin Beasts nearby. We must retreat immediately!”

Liu Qingyi said gravely.

Immediately, the three flew upwards rapidly.

Fast! Faster! Fastest!

The trio accelerated, encountering and swiftly defeating numerous ferocious beasts along the way.

They sensed an impending danger, feeling that if they were a step slower, they might not escape.

“Humans, you are very bold!”

From a great distance, a voice pierced through space.

“Not good, it’s a God-level ferocious beast!”

Liu Qingyi exclaimed in shock.

Moreover, it was likely a God-level Black Gold Kirin Beast. If they encountered it, the three of them would stand no chance and could be annihilated in an instant.

“Do you two have any way to escape? If you do, go first. I have a way to save myself!”

Ye Tian asked.

“We do!”

Liu Qingyi and Qin Zixuan immediately responded.

Both women, due to their extraordinary identities, possessed life-saving items from their families. Even when facing a powerful God-level ferocious beast, they had means to escape.

Almost in the next instant, a colossal Black Gold Kirin Beast appeared, treading upon the void. Its blood-red eyes fixed on Ye Tian and the others, freezing the space with a mere glance.

“Go quickly!”

Ye Tian transmitted.

Then, he charged towards the God-level Black Gold Kirin Beast.

Numerous spatial blades shot out, and slashes of sword light followed.

“Soul Spike!”

“Soul Spear!”

.....

“Spatial Disturbance!”

“Spatial Compression!”

.....

Various techniques were unleashed in an instant, all targeting the God-level Black Gold Kirin Beast.

“Huh!”

The God-level Black Gold Kirin Beast was somewhat surprised by Ye Tian’s strength, which was indeed formidable, even more powerful than many weaker God-level ferocious beasts. However, to it, Ye Tian was as weak as an ant.

This tiny ant, instead of fleeing upon encountering it, dared to attack?

Meanwhile,

Qin Zixuan, seeing Ye Tian charging towards the God-level Black Gold Kirin Beast like a suicide mission, felt touched, thinking Ye Tian was deceiving them about having a way to save himself but was actually buying time for them.

Without further thought, the two women activated their trump cards.

Qin Zixuan took out a token, crushed it, and a terrifying power burst forth, enveloping her and instantly breaking through the void, disappearing from sight.

Liu Qingyi took out a cyan bead, activated its power, and formed a teleportation array, escaping from the location.

The God-level Black Gold Kirin Beast was completely distracted by Ye Tian, thus neglecting Qin Zixuan and Liu Qingyi. It thought the two disciples couldn't possibly escape, but to its surprise, in the blink of an eye, the two women had fled!

Not only had the two human women escaped, but they also took its offspring!

"Humans, you are seeking death!"

The God-level Black Gold Kirin Beast roared in anger.

Then, a terrifying spatial blade instantly broke through all of Ye Tian's defenses, piercing his body.

Just like that, Ye Tian's body turned to ashes.

Yet, even after killing Ye Tian, its anger was not quelled. Its divine consciousness ceaselessly swept the surroundings, searching for Liu Qingyi and Qin Zixuan's traces, but to no avail.

Clearly, the two human women had already left the Eternal Abyss.

Outside the Eternal Abyss,

On a vast land, a figure emerged from underground.

This figure was none other than Ye Tian!

Chapter 306: The Secret Xuanlin Turtle Technique!

"Luckily, I brought along a life-substitution decoy!"

Ye Tian stood on the ground and sighed in relief.

He felt that entering the Eternal Abyss this time was extremely dangerous, possibly a life-and-death situation, but he couldn't bear to give up the three great benefits. So, he brought a life-saving decoy and, while Liu Qingyi and Qin Zixuan were not paying attention, threw the decoy into the ground.

It was just a precaution, but it turned out to be really useful.

The God-level Black Gold Kirin Beast only killed Ye Tian's life-saving decoy. Ye Tian had already used his life-saving talent to instantly teleport away, even the God-level Black Gold Kirin Beast couldn't detect it.

"Let's go back!"

Ye Tian returned to Wanxue City and then used a communication device to contact Liu Qingyi and Qin Zixuan, as he had their contact information.

The communication device connected quickly!

"The Heavenly Emperor of Ten Thousand Laws??"

A doubtful voice came from the other end.

"Liu Qingyi, it's me. I'm now in Wanxue City. Where are you?"

Ye Tian asked.

"We're also there. Where are you? We'll come find you!" Liu Qingyi said with shock and joy.

Ye Tian reported his location, and soon, Liu Qingyi and Qin Zixuan arrived.

"The Heavenly Emperor of Ten Thousand Laws, you're actually not dead?"

Qin Zixuan stared at Ye Tian with an incredulous look.

How did Ye Tian survive under those circumstances? Even if he had life-saving items, there wouldn't have been enough time to use them, right?

Her and Liu Qingyi's life-saving items also needed some time to activate. If it weren't for Ye Tian drawing the attention of the God-level Black Gold Kirin Beast, they probably wouldn't have had the time to activate their life-saving items.

But what was Ye Tian's situation?

"Of course, I'm not dead. Do you wish I were dead and then not pay me?" Ye Tian joked.

"How could I think that!" Qin Zixuan glared at Ye Tian.

"Let's go back first!" Liu Qingyi said.

As for how Ye Tian survived, that was his secret, and naturally, they shouldn't keep asking.

In any case, they had captured the Black Gold Kirin Beast, achieving their goal!

The only pity was that they had used their life-saving items, resulting in a considerable loss. After calculating, they only made a small profit.

Ye Tian, Liu Qingyi, and Qin Zixuan went back together, and after several teleports, finally returned to Qingfeng Giant City.

As soon as they arrived back, Liu Qingyi handed a heritage orb to Ye Tian.

"The Heavenly Emperor of Ten Thousand Laws, this heritage orb contains a seven-star Yuan Force Defense Technique. You can only learn it yourself and cannot pass it to others. I have set a restriction, so only you can study it!" Liu Qingyi said.

"Alright!"

Ye Tian nodded and took the heritage orb.

“We’ll take our leave first!”

Liu Qingyi and Qin Zixuan left, and Ye Tian also returned to his residence.

After coming back,

Ye Tian didn’t immediately deal with the heritage orb but started to integrate and copy the talents he had obtained.

“First, copy the God-level lightspeed talent!”

With a thought, Ye Tian began the integration.

Ten minutes later, the integration of the God-level lightspeed talent was successful. Along with his previous God-level extreme speed talent, he now had two speed-type God-level talents.

[Extreme Speed Talent: God-level]

[Lightspeed Talent: God-level]

And just as Ye Tian expected, there was a button to integrate the extreme speed talent and lightspeed talent, indicating that these two talents could be merged.

“Merge!”

Ye Tian confirmed.

The next moment, unimaginable agony hit him, as if his entire body was ravaged by a terrifying force.

Sweat poured out endlessly, and his body temperature rose rapidly.

After a long time, Ye Tian finally felt the pain dissipate, and a wave of refreshing sensation surged through him.

“Check!”

Ye Tian looked at his talent situation and saw that the extreme speed talent and lightspeed talent had disappeared, but a new talent had emerged—

[Aurora Talent: God-level]

Although it was also a God-level talent, Ye Tian immediately realized the power of the God-level Aurora Talent upon making contact with it.

“500 times speed increase!”

Ye Tian was very satisfied.

Compared to his previous God-level extreme speed talent and God-level lightspeed talent, the aurora talent was undoubtedly more powerful.

After resting for half a day, Ye Tian then prepared to integrate the pseudo-mystic level space talent.

“Integrate pseudo-mystic-level space talent!”

The integration began.

Ye Tian silently endured the pain brought by the integration of the pseudo-mystic space talent, and before long, the integration was finally complete.

At this point, Ye Tian’s pseudo-mystic space talent underwent some changes.

[Space Talent: Pseudo-Mystic (40%)]

Originally just twenty percent, the pseudo-mystic space talent had now become forty percent, greatly increasing its power.

Even a cursory study and understanding of the Pseudo-Mystic-level Space Talent allowed Ye Tian to display spatial abilities like the spatial orb.

“I’ve made a big profit this time!”

Ye Tian laughed wildly inside his house.

He then picked up the heritage orb and began to read the content of the seven-star Yuan Force Defense Technique.

After making a vow not to leak the information, Ye Tian read the content of the seven-star Yuan Force Defense Technique.

Boom!!!

A massive amount of information emerged.

After a while, Ye Tian had fully digested the seven-star Yuan Force Defense Technique.

“The Xuanlin Turtle Technique!”

This was the name of the seven-star Yuan Force Defense Technique. It utilized Yuan Force to form a layer of xuanlin turtle shell on the body surface to block enemy attacks. Once practiced to the perfected realm, it could increase defense by 14 times...

In normal circumstances, forming a Yuan Force shield could only increase defense by one time, which was almost useless.

This illustrated the power of the seven-star Yuan Force Defense Technique.

The Yuan Force Defense Technique did not require any specific talent and could be practiced by anyone, unlike sword or fist techniques, which required corresponding talents. Thus, the Yuan Force Defense Technique was suitable for everyone.

However, mastering the Yuan Force Defense Technique was not easy. Many Emperors spent a long time just to reach the introductory level of a seven-star Defense Technique, and to reach the perfected level would require a long time and great cost.

But Ye Tian, with his top-tier comprehension talent, which could enhance comprehension by twenty times, naturally found it not difficult to master the Xuanlin Turtle Technique.

Practice!

Practice!

Continue practicing!

Ye Tian entered a state of diligent cultivation, spending most of his time tempering his body and improving his cultivation, only dedicating a little time to ponder the Xuanlin Turtle Technique.

Even so, half a month later, Ye Tian had mastered the Xuanlin Turtle Technique to the introductory level, which could increase defense by three times, adding another defensive method.

Time passed bit by bit.

In the blink of an eye, Ye Tian had been in hard cultivation for three months, nearly consuming ninety percent of the Fivefold Weak Water.

On this day,

Ye Tian finally sensed the thirteenth limit of his body.

After preparations, Ye Tian began the breakthrough.

Boom, boom, boom!!!

After several attempts, Ye Tian finally broke through the thirteenth limit of his body.

“Swallow the Fivefold Weak Water!”

Ye Tian swallowed the Fivefold Weak Water, voraciously absorbing the Yuan Qi of water contained within it to replenish the energy needed for his body’s transformation.

After a long time, the Fivefold Weak Water was exhausted, and Ye Tian had successfully broken through and stabilized his foundation.

“Breaking through the thirteenth limit of my body, my strength has increased a lot!”

Ye Tian was in a very good mood.

Moreover, his Xuanlin Turtle Technique had also reached the major realm, not far from the perfected realm. This was thanks to the ten times time acceleration and twenty times comprehension enhancement.

Otherwise, it would have been impossible for him to reach the major realm of the Xuanlin Turtle Technique in such a short time.

With his cultivation breakthrough and the Xuanlin Turtle Technique reaching the major realm, and his Space Talent also upgraded to forty percent of the Pseudo-Mystic level, Ye Tian’s strength had increased significantly.

According to the classification of the nine-star Emperor-level, his combat power should now be at the second tier, just below the first tier of the nine-star Ultimate Emperor-level.

Chapter 307: Two Women Give A Chance, The Wondrous Object Realm!

At the nine-star Emperor-level, the second-tier was already immensely powerful, while the first-tier, the pinnacle of the nine-star Emperors, were extremely rare and difficult to encounter.

Those in the first tier of the nine-star Emperor-level either sought opportunities to challenge the Sovereign Emperor-level, or give up on that and start aiming for the God level.

However, once a nine-star Emperor embarks on the path to Godhood, they are no longer considered at the Emperor-level but are referred to as Demigods.

Therefore, under normal circumstances, the strongest Emperors people encountered were usually of the second-tier nine-star Emperor-level, with first-tier nine-star Emperors being a rare sight.

Ye Tian was currently at the second-tier of the nine-star Emperor-level.

“My strength can still increase further. My space talent has already reached forty percent of the Pseudo-Mystic level. If I comprehend the spatial orb and other techniques, my strength will surely increase again!” Ye Tian pondered.

Presently, it was quite difficult for his cultivation to reach the fourteenth physical limit in a short time, mainly due to a lack of resources. Even if he challenges randomly in the virtual world, he wouldn't earn much money.

After all, once his strength was revealed, how many fools would accept his challenge?

Therefore, earning through the combat power tower challenges in the virtual world was only profitable initially; it becomes difficult to earn more later on.

If he were to lower the stakes significantly, then many would be willing to spar with him, but this undoubtedly wastes time.

What he lacked most now was time!

“Let's go comprehend the abilities of my space talent!”

Ye Tian began to delve into comprehension.

His tenfold time talent and twentyfold comprehension amplification were activated.

Having seen the technique of the spatial orb, he had a direction for his comprehension. In just ten days, he successfully comprehended the spatial orb skill.

Inside the room,

Ye Tian activated his space talent and displayed the ability of the spatial orb.

Whoosh!

An invisible spatial orb appeared in front of him, completely under Ye Tian's control.

The spatial orb can increase or decrease in size; if it enlarges, the power of the spatial orb weakens slightly, but if it reduces, its power becomes very formidable.

Under Ye Tian's control, the spatial orb became the size of a person.

“Annihilation!”

With a single thought from Ye Tian, the space inside the spatial orb collapsed, forming a space akin to a small black hole.

After a while, the space returned to normal.

“What tremendous power. If a nine-star Emperor gets enveloped by the spatial orb, even the defensively weaker second-tier nine-star Emperors could potentially perish!” Ye Tian estimated.

But the likelihood of a second-tier nine-star Emperor having weak defensive capabilities was slim.

After all, at this level, naturally, they would find ways to strengthen themselves in all aspects, leaving no flaws.

After comprehending the spatial orb, Ye Tian continued to comprehend the abilities of space, trying to grasp another skill.

In the meantime,

Ye Tian also re-entered the virtual world to challenge the Combat Power Tower.

22 consecutive victories!

23 consecutive victories!

24 consecutive victories!

25 consecutive victories!

Unfortunately, the subsequent victories came from Ye Tian using lower stakes, as no one would bet so much money with him.

With more victories, Ye Tian's fame grew, and the later victories were solely dependent on ticket sales, earning millions of star points each time.

But after 26 consecutive victories, no one accepted Ye Tian's challenges anymore.

In fact, there were first-tier nine-star Emperors in Qingfeng Giant City, but those Emperors were either in seclusion or have left Qingfeng Giant City. The virtual world held no meaning for them, and they might not enter it for years.

After 26 consecutive victories, Ye Tian's assets accumulated to over a hundred million, and after buying some Wind Crystals, he almost exhausted his funds.

Wind Crystals, which contain wind attribute yuan force, are very beneficial for Emperors with Mystic level wind talents, as they assist in tempering the body. Hence, Ye Tian bought some.

But just these Wind Crystals were still insufficient to support him in breaking through the fourteenth physical limit. However, he couldn't stop his tempering due to insufficient resources. Naturally, he'd first buy some resources, temper for a while, and then see what happens next.

During his tempering period, Ye Tian also occasionally inquired about opportunities near Qingfeng Giant City. Staying in seclusion for tempering meant missing out on chances that might arise.

That day,

Ye Tian, while tempering at home, received a visit from Liu Qingyi and Qin Zixuan.

Ending his seclusion, Ye Tian welcomed the two women.

"Do you two need my help with a mission?" Ye Tian curiously asked.

Qin Zixuan quickly replied, "No, we're not here for help, but to offer you an opportunity. It's up to you whether you want it or not!"

"An opportunity?"

Ye Tian's interest was piqued.

"What kind of opportunity?"

He eagerly inquired.

Liu Qingyi explained, "Qingfeng Giant City has a very peculiar secret realm called the Wondrous Object Realm! This realm contains many wondrous treasures, especially various attribute treasures like weak water, exotic fires, wind crystals, and breath soil. Many attribute treasures are found in the Wondrous Object Realm, but the strange thing is that these objects

cannot be taken out of the realm. Once removed, they slowly turn into ordinary objects. Therefore, martial warriors who enter the Wondrous Object Realm refine these treasures there to enhance their cultivation and strength.”

“There’s such a secret realm!”

Ye Tian was amazed and immediately became interested.

The Wondrous Object Realm was exactly what he needed. If he could enter it, he could quickly enhance his cultivation without worrying about resources for tempering.

“But how can I enter the Wondrous Object Realm?”

Ye Tian asked.

“We have extra slots and can give you one!” Qin Zixuan generously offered, “After all, you helped us last time. It’s only right to give you a slot. But…”

“But what?”

Ye Tian sensed that Qin Zixuan wouldn’t just give him a slot without asking for something in return.

Finally, Qin Zixuan said, “There’s a place in the Wondrous Object Realm with something very important to Qingyi and me. We’d like to ask for your help in obtaining the treasure there. We can split the treasure. How does that sound?”

“Don’t your families have powerful nine-star Emperor-level warriors? Why not ask them?”

Ye Tian wondered.

“There’s competition within the family too. If we ask them, they’ll take all the benefits for themselves. Do you think they would leave anything for us? Even if they do, it would only be a token gesture. So why bother asking them?” Qin Zixuan explained.

“I see!”

Ye Tian began to understand.

After some discussion, he finally learned what Qin Zixuan and Liu Qingyi wanted to compete for in the Wondrous Object Realm.

The Soul Wondrous Object – Dark Soul Star Grass!

The Dark Soul Star Grass was a three-star wondrous object with effects unmatched by other wondrous objects. It could permanently increase one’s comprehension.

A single Dark Soul Star Grass could increase an Emperor-level warrior’s comprehension by more than double. Comprehension was extremely difficult to enhance, and a permanent increase was even more valuable, highlighting the preciousness of this object.

Every time the Wondrous Object Realm opened, a few Dark Soul Star Grasses were born, always in the same place.

Therefore, many Emperor-level warriors would compete for the Dark Soul Star Grass when the realm opens.

However, one could only consume Dark Soul Star Grass once in their lifetime; consuming more had no effect.

According to the rules of Qingfeng Giant City, those who have consumed Dark Soul Star Grass before were not eligible to compete for it again.

The three peak nine-star Emperors of Qingfeng Giant City had obtained Dark Soul Star Grass during the last opening of the realm.

Thus, they were ineligible to compete for it this time.

Therefore, the strongest competitors for Liu Qingyi and Qin Zixuan were the second-tier nine-star Emperor-level warriors.

However, their strength was still slightly lacking, which is why they thought of Ye Tian.

Ye Tian's strength had been rapidly increasing, and he had recently defeated a third-tier nine-star Emperor in the virtual world, gaining a significant reputation in Qingfeng Giant City.

With Ye Tian's strength and space talent, combined with their trump cards, the chances of obtaining the Dark Soul Star Grass were high.

Understanding the situation, Ye Tian immediately agreed, "Okay, I accept!"

Chapter 308: A True God Intervention!

Ye Tian was also very interested in the Dark Soul Star Grass. If he could consume a Dark Soul Star Grass, it would permanently double his comprehension ability. Coupled with a top-level talent for comprehension, which amplified comprehension by twenty times, his own comprehension would effectively increase by forty times!

Of course.

Liu Qingyi and Qin Zixuan would be given priority to use the Dark Soul Star Grass. Only if there were any leftovers would Ye Tian receive a share.

If there was not enough Dark Soul Star Grass, although Ye Tian would not get any, he would receive a greater share of other treasures obtained from that place, ensuring that he would not be at a loss.

In fact, no matter how it was calculated, Ye Tian was in for a gain!

Without the quotas given by Liu Qingyi and Qin Zixuan, he would not be able to enter the Wondrous Object Realm at all, missing out on any benefits. Now that he could enter, it was already a tremendous advantage.

The Wondrous Object Realm would open in fifteen days and remain accessible for a year. The next opening would not occur for another hundred years.

Many Emperors of Silver Universe Star had forged perfect foundations, thus living up to 3000 years. A mere hundred years was insignificant to them. If willing to wait, an Emperor could enter the Wondrous Object Realm multiple times.

Liu Qingyi and Qin Zixuan informed Ye Tian about the situation in the Wondrous Object Realm and then left, agreeing to meet again in half a month.

Meanwhile, Ye Tian continued his closed-door cultivation.

In just fifteen days, it was nearly impossible to greatly increase one's strength, but Ye Tian still hoped to comprehend another spatial technique. However, by the end of the fifteen days, he had not succeeded.

He was not the least bit disappointed, though. If spatial techniques were so easily comprehensible, the spatial talent would not be considered one of the two supreme talents.

One day.

Liu Qingyi and Qin Zixuan notified Ye Tian to meet at the Qingfeng Tavern.

Soon, Ye Tian arrived and saw Liu Qingyi and Qin Zixuan.

"Heavenly Emperor of Ten Thousand Laws, this is the token to enter the Wondrous Object Realm, for you!"

Qin Zixuan took out a golden token and handed it to Ye Tian.

After receiving the token, Ye Tian quickly refined it.

"Let's go!" urged Liu Qingyi.

The three of them moved together, heading outside Qingfeng Giant City.

Once outside the city, the trio flew swiftly.

The Wondrous Object Realm was about 5 million kilometers from Qingfeng Giant City. With their speed, it did not take too long, and they soon arrived over a lake.

By then, many Emperors had already gathered there, all top-tier Emperors from Qingfeng Giant City. None were below the level of an eight-star Emperor, and most were nine-star Emperors.

Ye Tian recognized a few of the nine-star Emperors as he had sparred with them, including the Giant Bear Emperor.

The arrival of Liu Qingyi, Qin Zixuan, and Ye Tian attracted the attention of many Emperors, who turned to look at them.

At that moment.

A somewhat sinister-looking man flew over.

“Cousin Qingyi, the competition in the Wondrous Object Realm will be fierce. Why don’t we team up? We are relatives, after all, and should cooperate~!” said the sinister man.

“Scram!” Liu Qingyi said coldly.

Qin Zixuan added, “Emperor Jinyang, we dare not team up with you. Who knows when you might betray us.”

Emperor Jinyang, the sinister man, glanced at Ye Tian and said sternly, “You two are giving precious quotas to an outsider, and this outsider is stronger than both of you. Aren’t you afraid he will betray you?”

“That’s none of your concern!” said Liu Qingyi indifferently.

“Hmph!” Emperor Jinyang snorted coldly and then turned to leave.

“Who is that person?” asked Ye Tian.

Qin Zixuan replied, “He is Emperor Jinyang, probably considered a third-tier nine-star Emperor. However, he is cunning and deceitful, and many Emperors have suffered at his hands. Although he is Qingyi’s relative, their relationship is very strained. Even Jinyang’s own clan members dare not team up with him, so how could we possibly?”

After waiting a while.

Suddenly.

From afar, an Emperor-level figure approached, causing a sensation.

“It’s the Peerless Sword Emperor!”

“Indeed, he wouldn’t miss the opportunity in the Wondrous Object Realm. With his arrival, the other two pinnacle nine-star Emperors will probably come too!”

“There are countless opportunities in the Wondrous Object Realm, and nobody knows what fortunes they might encounter. The Peerless Sword Emperor is just one step away from becoming a Heavenly Pride. Perhaps he’ll encounter a great opportunity in the realm and break through his bottleneck, becoming a Sovereign Emperor!”

As the Emperors discussed, Ye Tian learned about the origins of this Emperor.

He was one of the three great pinnacle nine-star Emperors of Qingfeng Giant City and the eldest son of the prominent Zheng family in the city.

It was rumored that he had already broken through the sixteenth physical limit and was still attempting to breach the seventeenth.

“Heavenly Emperor of Ten Thousand Laws, be cautious of the Peerless Sword Emperor. His sword is incredibly fast, capable of breaking through spatial confinements. He has even mastered a sword-escape technique, allowing him to merge with his sword and traverse space.

Even your spatial talent might not be able to stop him from escaping!” Liu Qingyi warned Ye Tian through telepathic transmission.

Ye Tian nodded but did not argue.

In terms of strength, he indeed was not a match for the Peerless Sword Emperor. However, he disagreed with the notion that he couldn’t prevent the other from escaping.

Liu Qingyi thought his spatial talent was still at 20% of Pseudo-Mystic. But now, having merged with the Black Gold Qilin Beast’s spatial talent, his spatial ability had risen to 40% Pseudo-Mystic level.

Additionally, having broken through the thirteenth physical limit, his spatial talent had become significantly stronger.

Previously, he hadn’t revealed his true strength in the virtual world challenges. Outsiders only thought he had barely entered the second-tier nine-star Emperor-level, but in reality, he was very close to the first-tier.

Soon, the other two first-tier nine-star Emperors of Qingfeng Giant City arrived – the Hate Mad Emperor, Qin Ge, and the Overlord Emperor, Li Changhe.

Among them, Hate Mad Emperor Qin Ge was a member of the Qin family and, in terms of seniority, should be considered Qin Zixuan’s uncle.

However, the Qin family was large and numerous. The Hate Mad Emperor was part of a branch, while Qin Zixuan was a direct descendant from the main family, the granddaughter of the lord of Qingfeng Giant City, and held a much higher status than Qin Ge.

But in terms of strength, she was far from Qin Ge.

Above the lake, more and more Emperors gathered, soon reaching nearly a thousand.

Suddenly.

A pair of colossal hands appeared in the void, resembling starry palms tearing through space, ripping open a rift. It was the entrance to the Wondrous Object Realm.

“The entrance to the Wondrous Object Realm is open. Martial warriors with the wondrous object token may enter!”

A voice echoed through the void.

“That is...”

Ye Tian looked solemn.

“That’s a powerful True God level existence!” Liu Qingyi said.

“Indeed!” Ye Tian realized.

When these mysterious hands descended, he felt that their owner was not just a God. A God level being didn’t possess such power; even the God level Black Gold Qilin Beast seemed like an ant in front of these hands.

Only a True God level powerhouse could have such terrifying strength!

Perhaps the owner was still in Qingfeng Giant City, reaching out across space to tear open the entrance to the Wondrous Object Realm.

If this was merely a True God level, how powerful must the lord of Qingfeng Giant City be, who was even above the True God level?

And considering the lord of Qingfeng Giant City was probably not a significant figure in the entire Silver Universe Star, which was only one of the nine main planets of the Milky Way Galaxy, Ye Tian felt immense pressure.

The universe was vast, and he was still very weak!

But one day, the owner of these giant hands would be like an ant in his eyes.

“Let’s go in,” Liu Qingyi said.

Swish, swish, swish!

The three of them flew towards the entrance to the Wondrous Object Realm.

The entrance was faintly surrounded by a formation’s fluctuation, only allowing entry to those holding the wondrous object tokens. Without them, it was impossible to enter the realm.

Chapter 309: Treasure-Hunting Talent, Successive Finds!

Boom!!!

Ye Tian, along with Liu Qingyi and Qin Zixuan, passed through the entrance and entered the Wondrous Object Realm.

The Wondrous Object Realm didn’t randomly teleport people to various locations; after entering, everyone appeared in the same place.

“Hurry, Heavenly Emperor of Ten Thousand Laws!”

Liu Qingyi hastily reminded.

Ye Tian understood what Liu Qingyi meant – it was naturally to rush over to compete for the Dark Soul Star Grass.

At this moment, the faster one’s speed, the greater their advantage.

“Don’t resist!”

Ye Tian grabbed the arms of Liu Qingyi and Qin Zixuan and said.

Although Liu Qingyi and Qin Zixuan felt somewhat awkward being grabbed by Ye Tian in this manner, they didn't resist. Compared to the Dark Soul Star Grass, a moment's embarrassment was nothing.

"Let's go!"

Ye Tian activated his God-level Aurora Talent, transforming into a beam of light, instantly traversing the void with an unbelievable speed.

For short distances, teleportation was undoubtedly the fastest method, but there was a slight interval between each teleportation. If one teleported repeatedly, their speed might not match that of the Aurora Talent.

Thus, Ye Tian used his Aurora Talent for faster flight.

"What incredible speed!"

Liu Qingyi and Qin Zixuan were astonished.

Ye Tian's speed was unbelievably fast, much faster than theirs.

They had always thought Ye Tian's speed was average, relying solely on his spatial talent. Now they realized their mistake.

With such speed, few among the nine-star Emperors could match him!

However, Ye Tian's speed was not the fastest; ahead of him, an Emperor-level practitioner was flying even faster.

Clearly, the other's speed talent was also of God-level, and their cultivation level was higher than Ye Tian's, which made them slightly faster.

If they continued flying like this, it would take roughly ten minutes to reach their destination. However, the Wondrous Object Realm was not without danger, as it was home to many ferocious beasts.

Where there were beasts, there were also flying beasts.

Soon, a group of flying beasts blocked the path in the sky.

The Emperors, who were flying rapidly, had to stop and either fight the beasts or take a detour.

In front of Ye Tian, a group of flying beasts appeared, but he didn't stop. Instead, he used his spatial confinement and compression abilities.

Boom, boom, boom!!!!

Countless flying beasts in the sky were crushed into corpses by the spatial compression, falling from the sky, while Ye Tian continued to teleport, avoiding the attacks of some flying beasts. He successfully evaded these creatures without greatly affecting his speed.

Continue flying!

Ten minutes later,

Ye Tian successfully broke through the attacks of the flying beasts and arrived at his destination.

The Dark Soul Star Grass grew in Star Sea Lake. The lake water was not ordinary but a very heavy water known as Triple Heavy Water.

Triple Heavy Water and Weak Water were two types of water with opposing properties, both considered treasures.

A lake of Triple Heavy Water, if placed in the outside world, would be unimaginably valuable, even the top powers of Silver Universe Star wouldn't dare ignore its value.

Unfortunately, Triple Heavy Water couldn't be taken out; if it was, it would turn into ordinary water. How much Triple Heavy Water could one absorb while cultivating in Star Sea Lake?

Hardly any, so no Emperor-level would waste time cultivating there.

The treasure of Star Sea Lake was not the Triple Heavy Water, but the Dark Soul Star Grass at the bottom of the lake.

The lakebed had many grasses, with the Dark Soul Star Grass looking similar to ordinary grass, only with faint silver patterns.

But with too many ordinary water grasses in Star Sea Lake, and Emperor-level practitioners enduring great pressure at the bottom of the lake with their spiritual sense suppressed, finding the Dark Soul Star Grass was not an easy task.

But the Emperors who arrived first naturally had enough time to search for the Dark Soul Star Grass, increasing their chances of finding it.

“Go in!”

Liu Qingyi said.

Whoosh, whoosh, whoosh!!!

Ye Tian, along with Liu Qingyi and Qin Zixuan, flew into Star Sea Lake.

“I have the Water Escape Talent, I'll take you down!”

Ye Tian, holding Liu Qingyi and Qin Zixuan, quickly dived to the bottom of the lake with incredible speed.

In the blink of an eye, Ye Tian, Liu Qingyi, and Qin Zixuan dived to the bottom of the lake.

“Let's split up and look for the Dark Soul Star Grass!”

Ye Tian said.

Whoosh, whoosh, whoosh!!!

The three of them split up to search for the Dark Soul Star Grass.

At this time, Ye Tian activated his long-unused treasure-hunting talent.

“Top-tier Treasure-Hunting Talent activated!”

Instantly, beams of treasure light filled the entire bottom of Star Sea Lake.

White light, yellow light, red light, purple light.

Various lights caught Ye Tian’s eye.

Suddenly,

A flash of gold light appeared, incredibly dazzling, as if suppressing all other lights.

“Could it be...”

Ye Tian’s heart stirred, and he immediately flew towards it.

Swoosh!

He arrived at the treasure emitting the golden light.

“Dark Soul Star Grass!”

Ye Tian was overjoyed.

The grass before his eyes, with faint silver patterns, was indeed the Dark Soul Star Grass.

“Lucky!”

Ye Tian grabbed the Dark Soul Star Grass and harvested it, storing it in his portable Xumi Storage Realm.

This scene went unnoticed by others.

Having been in Qingfeng Giant City for so long, he never discovered anything like the Xumi Storage Realm. Clearly, it was a high-grade spatial treasure, unknown even to Emperors.

The Dark Soul Star Grass, a three-star wondrous object, couldn't be stored in ordinary storage equipment, making it even more competitive. Even if one found the Dark Soul Star Grass, without sufficient strength, other Emperors could snatch it away.

“Haha, with the portable Xumi Storage Realm, I have too much of an advantage. Even if I find more wondrous objects, others won't be able to detect them!”

Ye Tian thought excitedly.

Treasure-Hunting Talent, continue searching!

While other Emperors would use their spiritual sense to meticulously scan and identify each grass, a slow process, Ye Tian's Treasure-Hunting Talent covered a large area at once, recognizing just the color of the light.

Thus, Ye Tian's treasure hunting was incredibly fast.

Also possessing the Water Escape Talent, Ye Tian moved swiftly at the bottom of Star Sea Lake, quickly scouring a large area.

Suddenly,

Ye Tian found another Dark Soul Star Grass and stealthily stored it in his Xumi Storage Realm.

Time passed, and more Emperors arrived at the bottom of Star Sea Lake. The sounds of battle were heard occasionally, mostly not for the Dark Soul Star Grass but for other treasures.

Star Sea Lake's bottom held more than just Dark Soul Star Grass. Ye Tian found some treasures emitting golden light, not Dark Soul Star Grass, but he harvested them all, storing them in his Xumi Storage Realm to identify later.

Ten minutes passed,

Ye Tian found a total of four Dark Soul Star Grass, all stored in his portable space. Just as he was about to continue searching, Liu Qingyi sent a message: "Heavenly Emperor of Ten Thousand Laws, I found a Dark Soul Star Grass and am being attacked. Hurry over!"

Immediately, Ye Tian used Water Escape to reach her!

In no time, he saw seven or eight Emperors attacking Liu Qingyi and Qin Zixuan.

"Empress Qingyi, Empress Zixuan, we don't want to be your enemies. You have powerful families backing you and aren't lacking resources. How about giving us this Dark Soul Star Grass? Otherwise, you might suffer!"

The leading Emperor threatened.

Sensing Ye Tian's arrival, Liu Qingyi smiled and said, "You think you can snatch the Dark Soul Star Grass from us? My companion has arrived, and if you don't leave now, you might not be able to!"

Boom!!!!!!

Spatial confinement descended, freezing the Triple Heavy Water at the bottom of Star Sea Lake.

Already enduring the pressure of Star Sea Lake's Triple Heavy Water, they suddenly faced 40% of a Pseudo-Mystic level spatial talent's binding and found themselves unable to move.

“Scram!”

Blades of light slashed over.

Puff, puff, puff!!!!!!

The bodies of several Emperors were pierced, severely injured.

Splash!

A figure appeared in front of Liu Qingyi and Qin Zixuan – it was Ye Tian who had just arrived.

“Go!”

The remaining Emperors trembled in fear, glanced at Ye Tian, and hastily fled.

Chapter 310: The Power of the Spatial Orb!

“Are you guys alright?”

Ye Tian asked.

“We’re fine!” Liu Qingyi let out a sigh of relief and then glanced at the Dark Soul Star Grass in her hand, saying, “If we keep holding onto the Dark Soul Star Grass to fight for it, there will inevitably be many Emperor-level adversaries. I suggest one of us refine it!”

Once the Dark Soul Star Grass is refined, others cannot snatch it away.

However, this means that one person must guard while another searches for more Dark Soul Star Grass.

“Qingyi, you refine the Dark Soul Star Grass,” Qin Zixuan proposed.

Hearing both of them say so, Liu Qingyi no longer declined and immediately began refining the Dark Soul Star Grass.

“Zixuan, you guard Qingyi here. I’ll go look for more Dark Soul Star Grass. If anyone attacks, notify me immediately!”

Ye Tian didn’t allow Qin Zixuan to refuse and swiftly left using his Water Escape ability.

Qin Zixuan initially planned to search for the Dark Soul Star Grass herself and have Ye Tian guard Liu Qingyi. But now that Ye Tian had left, she had no choice but to take up the guard duty.

In the distance,

Ye Tian’s figure emerged.

“Liu Qingyi has obtained a Dark Soul Star Grass. Later, I’ll give Qin Zixuan one as well. This way, both of them will have obtained a Dark Soul Star Grass, and I would have done right by them,” Ye Tian thought.

As for the other Dark Soul Star Grass, he had no intention of revealing them.

Even if he did, it would be pointless since a person can only use one.

The only regret was that it was impossible to bring treasures out of the Wondrous Object Realm; otherwise, he would have liked to take the Dark Soul Star Grass back for his wife and sister.

“Let’s continue searching. Perhaps we can still find another Dark Soul Star Grass! Even if we can’t take it out, trading it with other Emperors could yield a lot of treasures!”

Ye Tian hoped so.

With his Treasure-Seeking Talent activated, Ye Tian started searching extensively, picking everything that glowed with a purple light and storing it in his portable Xumi Storage Realm.

After all, he was going to cultivate in the Wondrous Object Realm for a year, so gathering more treasures wouldn't be a waste.

Time passed, and half an hour flew by.

By this time, the bottom of the Star Sea Lake had already been thoroughly searched by many Emperors, making it nearly impossible to find another Dark Soul Star Grass.

In the end, Ye Tian only had four Dark Soul Star Grasses.

"It's time to go back," he thought, taking out a Dark Soul Star Grass and using his Water Escape Talent to return to where Liu Qingyi and Qin Zixuan were.

However, a group of Emperors soon surrounded him.

They sensed the aura of the Dark Soul Star Grass on Ye Tian. The aura of an unharvested Dark Soul Star Grass isn't very noticeable and is similar to other grasses, but once plucked, its distinct wondrous object aura spreads, making it difficult to conceal.

"Hand over the Dark Soul Star Grass!"

"Is that the Heavenly Emperor of Ten Thousand Laws? He's very strong. We must join forces to have a chance to snatch the Dark Soul Star Grass!"

"How does it matter if he is the Heavenly Emperor of Ten Thousand Laws? With so many of us Emperors here, can't we defeat him?"

One Emperor after another made their move, and attacks stirred the waters of the Star Sea Lake.

Boom!!!!

Terrifying attacks came, causing Ye Tian to frown slightly.

Most of these Emperors were nine-star Emperors, and although most were of the fourth and fifth tiers, their combined strength was not weak.

“Space Annihilation!”

Ye Tian struck with full force, and his terrifying power erupted.

Boom!!!!!!

Space shattered inch by inch, enveloping numerous Emperors with countless space fragments.

In an instant, many Emperors were critically injured and dying.

This was Ye Tian showing mercy; otherwise, none of these Emperors would have survived.

He didn’t want to kill these Emperors, as there were many in the Star Sea Lake, and killing them would surely not go unnoticed.

Their origins were not simple, and being new to Qingfeng Giant City, he naturally didn’t want to provoke so many top forces unnecessarily.

Injuring them was enough; there was no need to deliberately kill them, as it would not only bring him no benefits but also attract significant trouble.

At this moment,

Liu Qingyi had already refined the Dark Soul Star Grass, and Qin Zixuan and Liu Qingyi stood together, looking over.

“Let’s go quickly!”

Ye Tian urged.

With that,

He grabbed Qin Zixuan and Liu Qingyi and left using his Water Escape ability.

Not long after, they left the Star Sea Lake and flew towards the distance.

But someone didn’t want Ye Tian to leave.

“Heavenly Emperor of Ten Thousand Laws, hand over the Dark Soul Star Grass!”

Boom!!!

A Great Emperor blocked Ye Tian’s path, astonishingly Liu Qingyi’s cousin, Emperor Jinyang.

“Emperor Jinyang, do you really think you can stop me?” Ye Tian sneered.

Emperor Jinyang admitted, “Indeed, I’m no match for you and can’t stop you, but there are those who can!”

As soon as he finished speaking,

Three nine-star Emperors of the second tier appeared, surrounding Ye Tian from three directions.

“Emperor Youxue!”

“Emperor Changling!”

“Emperor Wanyun!”

These three Emperors, all being nine-star Emperors of the second tier, were not weaker than Ye Tian.

Seeing these three Emperors, Liu Qingyi and Qin Zixuan’s expressions changed.

Although Ye Tian was also a nine-star Emperor of the second tier, he was alone, whereas the opponents had three.

“Even if you three manage to snatch the Dark Soul Star Grass, there’s only one. How will you divide it among yourselves? Why not give up and consider it a favor for me?” Qin Zixuan spoke.

Emperor Wanyun responded, “Empress Zixuan, as the granddaughter of the city lord, we should indeed give you face. However, the Dark Soul Star Grass is too precious, and your influence is not enough for us to give it up.”

“Let’s all make our move together and not waste any more time!” urged Emperor Jinyang.

“Alright, let’s do it!”

Emperor Youxue, Emperor Changling, and Emperor Wanyun didn’t hesitate and attacked.

Their target was Ye Tian; if they could deal with him, Liu Qingyi and Qin Zixuan would not be a problem.

“You all seem to think I’m an easy target,” Ye Tian said, his aura unfolding coldly.

Boom!!!!!!

He unleashed Spatial Confinement at full strength, far more terrifying than before. The Spatial Confinement instantly froze space as the terrifying power of space spread.

“Spatial Orbs!”

Four spatial orbs appeared, rushing towards the four Great Emperors.

Seeing the spatial orbs, Emperor Jinyang’s face drastically changed.

“Not good, spatial orbs!”

Whoosh!

He fled!

He had nothing to stop the spatial orbs and dared not be enveloped by them, as that would mean certain death!

Sadly, his speed was no match for the spatial orbs.

The other three Emperors also recognized the spatial orbs and knew of their terror.

They attacked the spatial orbs, but their attacks went right through them, unable to detonate the Orbs.

Swoosh, swoosh, swoosh!!!

The spatial orbs descended, enveloping their bodies.

Ye Tian clenched his right hand in the void, “Explode!”

“Leave Emperor Jinyang alive, Heavenly Emperor of Ten Thousand Laws!” Liu Qingyi requested.

Ye Tian glanced at Liu Qingyi and silently nodded.

Boom!!!!

Three spatial orbs exploded, but the one around Emperor Jinyang did not.

The three Emperors, bloodied and injured, emerged from the spatial orbs, casting a wary look at Ye Tian before fleeing.

Ye Tian didn't pursue. Although these Emperors seemed disheveled, they weren't seriously injured.

After all, they were all nine-star Emperors of the second tier, and killing three at the same combat tier as him wasn't easy. Their defenses were strong, so they withstood the explosion of the spatial orbs with only minor injuries.

But Emperor Jinyang couldn't do the same; his strength was weaker, and he wouldn't have survived the explosion.

"Cousin Qingyi, please don't kill me... I only wanted to rob you of your treasures, I never intended to harm you!" Emperor Jinyang begged for mercy.

Liu Qingyi looked at Ye Tian, leaving the decision to him.

Ye Tian fixed his gaze on Emperor Jinyang, "Hand over all the treasures you have, and I'll see if they're worth sparing your life."

"I will, right away!" Emperor Jinyang hastily took out a pile of treasures from his spatial ring and handed them to Ye Tian.

But when Emperor Jinyang produced several grey stones, Liu Qingyi exclaimed in shock, "Boundary Stones! You actually have such treasures!!!"
