

Talent 321

Chapter 321: Dawn-level Swordsmanship Talent, Great Progress in Sword Dao!

Heavenly Sword Secret Realm

Upon entering, Ye Tian immediately felt the air thick with various sword energies. This place seemed like a world of swords! As the martial warriors entered, they each flew towards the center of the Heavenly Sword Secret Realm, and Ye Tian naturally followed.

Apart from the Heavenly Sword Stele, there were no other treasures in the Heavenly Sword Secret Realm. Going elsewhere would be a waste of time. Soon, Ye Tian arrived at the Heavenly Sword Stele.

The Heavenly Sword Stele was enormous, about a kilometer tall, with its base rooted deep into the ground. It seemed to be one with the entire Heavenly Sword Secret Realm and was nearly impossible to move.

This was why it was so difficult to take the Heavenly Sword Stele away. Even if someone could, they wouldn't dare to. The Heavenly Sword Secret Realm didn't limit the strength of warriors. Even beings surpassing True Gods could enter. Who could guarantee that there weren't any beings beyond True Gods within?

Moreover, an existence beyond a True God, even if not in the Heavenly Sword Secret Realm, could easily suppress any theft of the Heavenly Sword Stele with a mere strand of divine consciousness.

As such, no one dared to target the Heavenly Sword Stele, not even the True Gods.

At this time, near the Heavenly Sword Stele, warriors sat cross-legged, starting to comprehend the Sword Dao realm with the help of the stele. However, Ye Tian didn't immediately start comprehending but instead quietly left the area.

He planned to find a place to integrate the two Moonlight-level swordsmanship talents he had just copied, thereby transforming his own swordsmanship talent.

“Integrate!”

The Moonlight-level swordsmanship talents began to merge with Ye Tian’s own Moonlight-level swordsmanship talent. Ten minutes passed, and the integration was successful.

As Ye Tian had expected, merging just one Moonlight-level swordsmanship talent was almost insufficient to elevate his Moonlight-level swordsmanship talent to the Dawn level. But he had copied another Moonlight-level swordsmanship talent.

Continue to integrate!

Boom!!!

As soon as the integration began, the transformation started. Ye Tian endured the pain as time slowly passed.

After a long while, Ye Tian finally completed the transformation.

“Check!”

[Swordsmanship Talent: Dawn]

Having integrated another’s Moonlight-level swordsmanship talent, Ye Tian finally completed the transformation, evolving his Moonlight-level swordsmanship talent into a Dawn-level swordsmanship talent.

After resting for half an hour, Ye Tian hurriedly returned to the Heavenly Sword Stele. His departure and return did not arouse suspicion from others.

To them, Ye Tian was probably just curious about the Heavenly Sword Secret Realm, looking around for other opportunities. Now that he hadn’t found any, he had returned.

But they never imagined that Ye Tian had actually hidden away to integrate talents.

“Begin comprehending!”

Ye Tian found a rock to sit on and started to comprehend the Sword Dao with the help of the Heavenly Sword Stele.

Boom!!!

Countless insights flooded into his mind, and he began to comprehend various aspects of the sword. His Dawn-level swordsmanship talent significantly increased the speed of his comprehension, and this was without even activating his top-level comprehension talent.

“Activate top-level comprehension talent!”

In an instant, Ye Tian’s comprehension ability increased twentyfold, coupled with his inherent comprehension that already surpassed his peers by twice. With the Dawn-level swordsmanship talent, the effect was now incredibly amplified.

But Ye Tian was still not satisfied.

“Activate time talent, ten times time acceleration!”

Ye Tian wrapped the time acceleration ability around himself, making it imperceptible to others. Originally, Ye Tian’s Sword Dao realm had not reached 35%, and it was only because he had learned the space-related Starry Sky Annihilation God-level sword technique that he had managed to learn a God-level sword skill.

After occasional comprehension over these days, his Sword Dao realm had barely stepped into the 31% realm. But now, he felt he could quickly reach the 32% realm. The Heavenly Sword Stele’s help in comprehending the Sword Dao realm was just too significant.

On the second day, Ye Tian successfully comprehended his Sword Dao realm to 32%.

On the third day, he reached 33%.

On the fourth day, 34%.

On the fifth day, 35%.

On the seventh day, 36%.

...

...

Compared to Ye Tian's astonishing comprehension speed, others were much slower, even the Heavenly Prides, as they lacked the advantages Ye Tian had.

On the eighteenth day, Ye Tian's Sword Dao realm leaped forward, entering the 40% realm. At the 35% realm, one could cultivate a God-level sword technique to the entry level, and at 40%, one could cultivate it to the minor completion level.

For Ye Tian, however, it was different. 'Starry Sky Annihilation,' a God-level sword technique that involved space, could be cultivated to the major completion level at the 40% Sword Dao realm. The amplification effect of a major completion-level God-level sword technique was incredibly formidable!

Once 'Starry Sky Annihilation' was cultivated to major completion, Ye Tian's combat power could instantly step into the two-star Heavenly Pride level.

"Continue to comprehend!"

Ye Tian's mind once again immersed in the world of Sword Dao, crazily absorbing various insights. With the help of the Heavenly Sword Stele, top-level comprehension talent, time talent, and Dawn-level swordsmanship talent, comprehending the Sword Dao was almost too easy for Ye Tian.

A month of his cultivation and comprehension might be equivalent to thousands or even tens of thousands of years of continuous comprehension for others.

Ten more days passed, and Ye Tian advanced his Sword Dao realm to 43%. The further he progressed, the more difficult it became to comprehend. Reaching 43% was already quite an achievement.

With only 2 days left and considering his current comprehension speed, it was unlikely for Ye Tian to advance his Sword Dao realm to 44%. Therefore, he gave up on comprehending the Sword Dao realm and instead focused on comprehending the God-level sword technique 'Starry Sky Annihilation.'

Utilizing the Heavenly Sword Stele, one could also comprehend sword techniques, and the effect was equally excellent.

Two days flew by, and Ye Tian comprehended 'Starry Sky Annihilation' to a profoundly deep level. After returning, he only needed to practice it more to advance it to the major completion realm.

"Time is up! Everyone, leave the Heavenly Sword Secret Realm!"

A voice echoed throughout the Heavenly Sword Secret Realm.

Warriors stopped their cultivation, their faces showing reluctance. Everyone wished to continue comprehending the Heavenly Sword Stele in the Secret Realm, but that was clearly not possible.

The one-month limit was set for everyone, with no special permissions granted.

Ye Tian opened his eyes, a look of regret on his face. Given enough time, he could have advanced his Sword Dao realm to 45%, which would have allowed him to comprehend 'Starry Sky Annihilation' to the perfected realm.

However, he also had to leave and could only wait for the next opening of the Heavenly Sword Secret Realm.

Whoosh!

Ye Tian flew away, and after a while, he passed through the bronze gate and returned to the outside world.

At this moment, Thunder Roar Heavenly Pride called out to Ye Tian.

“Heavenly Pride of Ten Thousand Laws, please wait!”

Thunder Roar Heavenly Pride shouted.

“What’s the matter, Thunder Roar Heavenly Pride?” Ye Tian asked, puzzled.

“Heavenly Pride of Ten Thousand Laws, I discovered a ruin in the Milky Way and am preparing to invite a few Heavenly Prides to explore it. It’s said to be the Dao field of an ancient True God, and there might be many treasures. Are you interested in joining?” Thunder Roar Heavenly Pride invited.

“Sorry, I’m not interested!” Ye Tian immediately refused. He wasn’t familiar with Thunder Roar Heavenly Pride, who could trick him. Besides, with just over three years left before returning to Earth, Ye Tian couldn’t afford to roam the universe and risk getting trapped in some ruin, potentially missing the opening of the Earth’s original realm.

“If you change your mind, contact me in the virtual world!”

Thunder Roar Heavenly Pride added.

“Sure,” Ye Tian replied nonchalantly and turned to leave.

Thunder Roar Heavenly Pride watched Ye Tian leave, his gaze slowly turning cold. “Hmph, truly ungrateful!”

Whoosh!

Wind Void Heavenly Pride approached Thunder Roar Heavenly Pride, laughing, “So, you wanted to trick the Heavenly Pride of Ten Thousand Laws? Last time you took three Heavenly Prides, only you returned, and even then, you were severely injured. Still want to go in? We

won't accompany you, so you're coaxing the newcomer. If he finds out, you'll make an enemy!"

"Wind Void Heavenly Pride, if you're not going, then don't cause trouble!" Thunder Roar Heavenly Pride coldly huffed.

He indeed was tricking others, but that ruin was simply too dangerous. Going alone was akin to courting death; having more people could shield him from some dangers. Plus, he had a complete map, while others didn't, significantly increasing their chances of death.

It's quite normal for Heavenly Prides to trick each other. Unfortunately, Ye Tian was too shrewd to fall for it!

However, what Thunder Roar Heavenly Pride didn't know was that after distancing himself, Ye Tian looked back and sneered, "Thunder Roar Heavenly Pride seems to want to trick me. I felt a faint malicious intent from him using my good-evil talent. I wouldn't have gone anyway, but feeling your malice makes it even less likely. I'll stay away from this guy in the future!"

Riding the teleportation array of the Red River Giant City, Ye Tian quickly returned to his home in Qingfeng Giant City.

Chapter 322: Soaring Progress, A Two-Star Heavenly Pride!

Half a month later

Ye Tian, utilizing half a month, completely mastered the God-level sword technique 'Starry Sky Annihilation' to its major realm, significantly stronger than before.

Inexplicably, Ye Tian felt his strength had broken through a limit, almost possessing the power of a two-star Heavenly Pride.

As for whether he had actually reached that level, he planned to enter the Heavenly Pride Tower to verify it.

In the Virtual World of the Heavenly Pride Pavilion

Ye Tian, through the Heavenly Pride Ring, entered and immediately applied to challenge the Heavenly Pride Tower.

The First Layer of Heavenly Pride Tower

Upon arriving, Ye Tian quickly encountered an opponent.

This was a martial warrior clad in golden armor, not a real person but a virtual character. Despite this, his strength was only slightly inferior to a two-star Heavenly Pride. Defeating him meant possessing the strength of a two-star Heavenly Pride.

“Fight!”

An astonishing battle erupted.

Facing the opponent on the first layer of the Heavenly Pride Tower, Ye Tian utilized almost all his combat talents, excluding soul attack and time talents.

He even used his ability to move through space, dodging numerous deadly attacks with this skill.

After a prolonged battle of half an hour, Ye Tian finally overcame his opponent with ‘Starry Sky Annihilation,’ securing victory.

Of course, Ye Tian was also injured multiple times, but he recovered from his wounds thanks to his life and healing talents; otherwise, he might have indeed been defeated.

When the opponent was defeated and Ye Tian passed the first layer, the voice of the Heavenly Pride Tower’s spirit echoed—

“Congratulations, Heavenly Pride of Ten Thousand Laws, on passing the first layer and earning 100 points!”

Passing the first layer of the Heavenly Pride Tower and earning 100 points was a considerable reward. His points, originally only 70, surged to 170, a significant increase.

As Ye Tian passed the first layer of the Heavenly Pride Tower and gained the strength of a two-star Heavenly Pride, his ranking on Silver Universe Star Heavenly Pride List skyrocketed.

[Heavenly Pride of Ten Thousand Laws: Ranked 182nd on the Heavenly Pride List]

Previously ranked 311th, he jumped over 100 ranks to reach 182nd, showing that many Heavenly Prides were only one-star Heavenly Prides.

The advancement in strength for a Heavenly Pride was extremely difficult. Many were unable to progress to two-star Heavenly Prides, ultimately opting to strive for God-level, a fate shared by most Heavenly Prides.

However, the news of Ye Tian swiftly advancing from a one-star to a two-star Heavenly Pride rapidly spread across Silver Universe Star Heavenly Pride circles.

Somewhere in the Tianzhan Continent

Thunder Roar Heavenly Pride received the news from a friend and entered the virtual world of the Heavenly Pride Pavilion, seeing Ye Tian's ranking and finding it unbelievable.

“What? The Heavenly Pride of Ten Thousand Laws has become a two-star Heavenly Pride!”

He was astonished.

“How long has the Heavenly Pride of Ten Thousand Laws been a Heavenly Pride? He was just ranked 311th, and now he suddenly jumped to 182nd. At this rate, won't he soon surpass me?”

“Is his talent really that exceptional?”

Thunder Roar Heavenly Pride was completely envious.

Not only Thunder Roar Heavenly Pride, but many Heavenly Prides who hadn't been able to improve their strength over the years also felt envious.

In Qingfeng Giant City's Lord Mansion

Great God Zilun had been keeping an eye on the situation in the Heavenly Pride Pavilion, especially Ye Tian's progress. After all, Ye Tian's excellence would greatly benefit Qingfeng Giant City.

That day,

News from the upper echelons of Silver Universe Star shocked Great God Zilun.

"What? The Heavenly Pride of Ten Thousand Laws has become a two-star Heavenly Pride and is ranked 182nd on the Heavenly Pride List!!!"

Great God Zilun understood what this meant. It indicated the enormous potential of the Heavenly Pride of Ten Thousand Laws. How many Heavenly Prides could achieve such a leap from one-star to two-star Heavenly Pride in such a short time?

"I had always suspected the Heavenly Pride of Ten Thousand Laws had great potential and high talent. This time, my guess was spot on, haha!!!"

Great God Zilun was ecstatic.

While everyone else was envious, jealous, and astonished, Ye Tian was browsing the points mall, intending to purchase a God-level sword technique.

Although the Starry Sky Annihilation technique was quite remarkable, it shattered the entire sky with a single move, making it inconvenient to target a single individual in a crowd. Therefore, he desired to purchase a single-target sword technique.

The God-level sword techniques at the Heavenly Pride Pavilion were not expensive. After all, they were only a part of a minor inheritance meant to cultivate talents and thus required only a few points.

The price of a God-level sword technique ranged from 10 to 50 points. However, few Heavenly Pride would purchase such techniques, as points were hard to come by, and God-level sword techniques could often be obtained from the backing powers behind them.

Yet, Ye Tian had no such power to rely on. In the short term, to enhance his strength, he could only acquire a God-level sword technique from the Heavenly Pride Pavilion, especially since the points were given by the Pavilion without any cost to him. He was not too concerned about spending them.

Upon opening the points mall, a list of God-level sword techniques appeared before him.

“The Butterfly Sword Technique is too flamboyant. This technique is more suited for women, not for me!”

“Although Thousand Rupture Slash is a single-target God-level sword technique, its emphasis on destruction affects too broad an area, making it unsuitable!”

...

Ye Tian browsed through the introductions of various God-level sword techniques, dissatisfied with each.

Suddenly, the introduction of one God-level sword technique caught his attention.

“The Ghost Sword Technique: A mysterious and unpredictable strike emerges from the void, nearly invisible. Its power is only eighty percent of a normal God-level sword technique, but its speed is double. It requires 50 points for exchange!”

Seeing this technique, Ye Tian was tempted.

Without a doubt, the Ghost Sword was perfect for him.

Moreover, if he were to use it while concealed in the void, it would truly be unpredictably ghostly, greatly aiding his strength.

“This is the one!”

Ye Tian purchased the God-level sword technique — Ghost Sword.

Upon clicking to buy, 50 points were deducted from his account.

However, he still needed to go to the Heavenly Pride Pavilion branch to retrieve the Ghost Sword technique.

Leaving the virtual world, Ye Tian headed to the Heavenly Pride Pavilion branch. Soon, he arrived and took the inheritance orb of the Ghost Sword.

Upon returning, Ye Tian began to practice and comprehend the Ghost Sword.

It must be said, the Ghost Sword was harder to master than an average God-level sword technique.

After seven to eight days, he barely achieved initial mastery in the Ghost Sword technique. This was only possible due to his Dawn-level swordsmanship talent and a twentyfold increase in comprehension ability. A typical Heavenly Pride would take at least half a year to reach this level.

In the virtual world of Heavenly Pride Pavilion,

In a virtual cultivation space,

Ye Tian, facing a mountain, gently swung his sword.

Swish!

In a silent, breathless moment, a towering mountain miles away was sliced in half.

“The speed is incredibly fast, nearly silent. If a nine-star emperor-level opponent faced this move, they might be beheaded without even realizing it. Even just at the initial stage, the Ghost Sword is likely comparable in intimidation to some more advanced God-level sword techniques!” Ye Tian evaluated.

He continued to practice and comprehend the Ghost Sword, focusing almost exclusively on it, thereby making rapid progress.

A month later, Ye Tian had advanced the Ghost Sword to the minor realm of mastery.

At this point, he could no longer continue to practice the technique.

With his current sword realm of 43 percent, he could only cultivate a God-level sword technique to a minor realm, not to a major realm.

As for Starry Sky Annihilation, it was a space-involved God-level sword technique that Ye Tian managed to cultivate to a major realm, surpassing his limits.

The attack power of the minor realm Ghost Sword was indeed not as strong as Starry Sky Annihilation. However, Starry Sky Annihilation was easier to defend against, while the unpredictable Ghost Sword was not. Therefore, enemies feared the Ghost Sword more than Starry Sky Annihilation.

Having trained the Ghost Sword to a minor realm, Ye Tian’s strength was now not too weak among two-star Heavenly Prides.

Additionally, his seven-star defensive secret technique, the Xuanlin Turtle Technique, had also been cultivated to the perfected level. He sought a higher-level defensive secret technique, and the Heavenly Pride Pavilion had such techniques available.

Thus, Ye Tian prepared to purchase a defensive secret technique.

Chapter 323: Capture Mission! Blue River Star!

In the Heavenly Pride Pavilion's point mall, there were numerous defensive secret techniques, including even nine-star Yuan Force defensive secret techniques.

However, Ye Tian shook his head at those nine-star defensive techniques and abandoned the idea of purchasing them.

Each nine-star Yuan Force defensive technique required at least 500 points, and Ye Tian couldn't even afford the least valuable nine-star Yuan Force defensive technique.

His target was the eight-star Yuan Force defensive technique.

Although the eight-star Yuan Force defensive technique was somewhat better than the seven-star version, the difference between seven-star and eight-star was not that significant.

Yet, Ye Tian still intended to buy an eight-star Yuan Force defensive technique, but he was looking for a more special one.

Normal Yuan Force defensive techniques could only defend and protect oneself, attached to one's body, but some special Yuan Force defensive techniques could shelter an entire area, protecting multiple people.

Ye Tian browsed through the Yuan Force defensive techniques and set his sights on an eight-star defensive technique-

"Eightfold Barrier!"

The Eightfold Barrier used Yuan Force as a base to form eight layers of barriers in the external world, stacking into a solid shield with astonishing defensive power. Its optimal defensive range was within a hundred meters radius. If the defensive area was expanded, the defensive strength would weaken.

But it must be said, the Eightfold Barrier was a very useful Yuan Force defensive technique.

Ye Tian purchased the Eightfold Barrier for 60 points, which was more expensive than a Coc-level sword technique. Considering the rarity of such a defensive technique, this was not surprising.

Afterward, Ye Tian went to the Heavenly Pride Pavilion branch to retrieve the Eightfold Barrier inheritance orb and began to cultivate the Eightfold Barrier.

After a month, using his top-tier comprehension talent, Ye Tian successfully cultivated the Eightfold Barrier to a minor realm and temporarily stopped his

cultivation.

Given

Tian's current situation,

break through to the three-star Heavenly Pride level, he must either enhance his cultivation to the sixteenth physical limit or to a higher level of Sword Dao. However, progress in Sword Dao is not something that can be achieved in haste.

Moreover, considering that Heavenly Pride Pavilion had sword techniques surpassing the Cod-level but his points were insufficient to purchase them, it wasn't necessary to consider this.

As for enhancing his Cod-level strength talent, it was also very difficult to improve further.

Since joining the Heavenly Pride Pavilion, he had learned much, including secrets about talents.

Some talents cannot be continuously enhanced or even merged. For instance, the top-level comprehension talent and top-level soul transfer talent were already at their limits.

His Cod-level strength talent was also at its limit, with almost no possibility of further enhancement. The Aurora Talent was roughly the peak of speed

talents.

Only his sword technique talent was far from its limit, and he could infinitely enhance the two supreme talents of space and time.

In short, some talents have great potential while others do not.

Ye Tian's current hope of rapidly enhancing his strength through talents was slim unless he was extremely lucky to encounter a creature with high space and time talents and copied their space and time talents. Otherwise, he should not expect to reach the sky in one step.

"Next, my goal is still to break through the sixteenth physical limit, but resources are hard to come by!" Ye Tian fell into worry.

He not only wanted to obtain resources but also accumulate points to prepare for purchasing sword techniques and claw techniques surpassing the Cod level in the future.

Heavenly Pride Pavilion had many good items, but points were hard to earn.

Ghost Blade cost him 50 points, and the Eightfold Barrier cost him 60 points. From an initial 170 points, he now only had 60 points left, which could only afford him two trips to the Heavenly Sword Secret Realm and not even a decent inheritance.

One day.

Ye Tian arrived at the Heavenly Pride Pavilion branch.

"Spirit Tool!"

Ye Tian called out, and the Spirit Tool appeared.

"Spirit Tool, I want to ask how Heavenly Prides without a power to rely on can quickly accumulate resources," Ye Tian inquired.

The Spirit Tool replied, "Some places of great opportunity produce many resources, but there haven't been any major opportunities recently. I suggest you take on some missions. Some missions can not only earn you a large number of points but also grant you many resources."

"Tasks?"

Ye Tian was aware of this but hadn't paid much attention.

"Spirit Tool, are there any suitable tasks currently available?" Ye Tian asked.

"Take a look at these!"

With a wave of its hand, the Spirit Tool presented a bunch of tasks in a virtual frame in front of Ye Tian.

Ye Tian quickly looked through these tasks.

Most of them were of little use, taking a long time with few opportunities to obtain resources.

However, one task caught Ye Tian's interest

[Capture Mission: Apprehend the Silver Galaxy's Level 6 Fugitive, Black Wind Silver Emperor Chang Feng. Dead or alive. Completing the task will earn 300 points!]

Below this task was a description:

Black Wind Silver Emperor was a nine-star Emperor-level powerhouse, extremely powerful, skilled in disguise, and various escape talents, making him very difficult to capture.

According to the data, Black Wind Silver Emperor was a notorious thief and rapist

Now, he was on a planetary world. Once someone entered that world and found him, he could be captured. But it was difficult to find him due to his exceptional disguise talent and a treasure that could conceal his cultivation, making him seamlessly hidden.

"Black Wind Silver Emperor is a great thief and should have many treasures. If I kill him, I can obtain his property. Completing the mission and gaining a lot of resources, this task is good!" Ye Tian thought.

"Spirit Tool, I want to take on the task of capturing Black Wind Silver Emperor," Ye Tian said, pointing at the task.

Suddenly,

"Why does the Heavenly Pride Pavilion have such a capture mission?"

Ye Tian curiously asked.

The Spirit Tool answered, "The reason the Heavenly Pride Pavilion has this task is that a True Cod issued it and paid a huge price. Not only in Silver Universe Star's Heavenly Pride Pavilion but many major forces in the Galaxy also have this task. However, to date, no one has found him, and he has changed many planets. This time, a Cod-level talent skilled in deduction deduced that he entered Blue River Star and will soon leave. This task is very difficult to complete, and I do not recommend you take it."

"I will take this task!"

Ye Tian was very certain.

Other Heavenly Prides might not take this task, but he was not afraid!

He had the copy talent, and even if someone disguised themselves, they could not escape his investigation. He had a great chance of finding Black Wind Silver Emperor.

"Heavenly Pride of Ten Thousand Laws, are you sure you want to take this task? Once accepted, if you fail, you will not be allowed to take on another task for a year!" the Spirit Tool warned.

"I am sure I want to take this task!"

Ye Tian confirmed.

Then the Spirit Tool began to process the task acceptance procedure for Ye Tian.

After the procedure was completed, Ye Tian left with the task certificate.

Since the task location was not on Silver Universe Star, Ye Tian had to leave Silver Universe Star and enter the Blue River Star in the Nine Wheels Planetary

System.

Blue River Star was where Black Wind Silver Emperor was currently hiding.

Before departing, Ye Tian specially checked the situation of Blue River Star and found that this planet was not simple!

It was a very prosperous planet, even a transit point for many planetary systems.

Blue River Star was not small, comparable in size to Jupiter in the Solar System, and was a high-level planetary world. However, this planet did not flourish in martial arts but in technology. Many of its technologies could even threaten Emperor-level powerhouses.

Ye Tian took the teleportation array from the Sky War Main City directly to Silver Universe Star's spaceport and then set off on a space shuttle.

Five days later,

Ye Tian finally arrived at the Nine Wheels Planetary System!

Chapter 324: Cosmic Pirates, The Spaceship is Robbed!

Nine Wheels Planetary System

After several transfers, Ye Tian took another cosmic spaceship flight towards Blue River Star. The flight he was on was quite ordinary and not very fast, taking about an hour to reach Blue River Star.

The interior of the cosmic spaceship was somewhat similar to the airplanes of his previous life, with numerous seats. Although there were many passengers, the vast space of the spaceship made it feel not crowded.

Due to time constraints, Ye Tian didn't bother to book a private cabin on the cosmic spaceship and directly chose a seat in the hall, one next to the spaceship's window.

Beside him sat a little girl, about ten years old.

Ye Tian used his talent copying ability to assess the girl's talent, finding it impressive – a Dawn level cultivation talent. However, due to her young age, she hadn't started cultivating yet.

“Big brother, are you going to Blue River Star too?”

The little girl suddenly asked.

“Yes!”

Ye Tian replied.

“Big brother, my name is Xiao Meng. I'm also going to Blue River Star. I used to study in another place, but now I'm going to study on Blue River Star. Both of my parents work there!”

The little girl spoke in a very innocent tone.

Ye Tian chatted with the little girl, Xiao Meng, for a while. Although many of her questions were simple and naive, Ye Tian didn't show any impatience, instead finding a sense of childlike innocence.

Sitting on the other side of Xiao Meng was her grandfather, who was also a martial warrior with a strong cultivation at the Saint level.

From their conversation, Ye Tian learned that Xiao Meng was not originally from Blue River Star but was a resident of a planet in the Nine Wheels Planetary System. Her parents, working

for a big company on Blue River Star and owning a property there, decided to have their granddaughter live with them.

Compared to smaller planets, Blue River Star naturally had better development prospects. Residents of smaller planets usually had limited futures, even if they were talented, due to the lack of resources, making it difficult to become a powerful warrior.

For this reason, many residents of smaller planets in the galaxy were eager to move to more powerful planets.

This was similar to people from rural areas in his previous life desperately moving to cities, buying properties, and sending their children to city schools for better education.

The principle was similar, and a large planet like Blue River Star indeed offered better development opportunities.

“My friend, my granddaughter is a bit curious and talks a lot. Please don’t mind!”

Xiao Meng’s grandfather apologized through telepathic communication.

“Your granddaughter is very cute. Why would I be upset?”

Ye Tian smiled slightly, reassuring him.

Xiao Meng’s grandfather was worried because he knew of Ye Tian’s Emperor-level cultivation. Although he wasn’t sure of Ye Tian’s exact strength, an Emperor was definitely not someone they could afford to offend.

Some Emperor-levels were known for their quirky temperaments, and a few simple questions could provoke them. He was afraid of offending Ye Tian with his granddaughter’s chatter.

Now that Ye Tian had responded kindly, he felt relieved that Ye Tian wouldn’t find his granddaughter annoying.

Half an hour later,

The cosmic spaceship arrived under a starry sky, traveling at one-tenth the speed of light.

Since it was an intra-galactic flight and not traveling between galaxies, the spaceship couldn't use space warp for travel. This was one of the traffic rules for cosmic spaceships in the galaxy.

Long-distance routes crossing many galaxies required space warp, but it was not cost-effective for intra-galactic travel because of the high energy consumption, which wouldn't be offset by the ticket price. No cosmic spaceship company would use space warp within a galaxy.

The speed of the cosmic spaceship was actually very fast, much faster than the travel speed of many God level beings.

Suddenly, the normally smooth-sailing spaceship jolted, causing many passengers to lose their balance.

At that moment,

Panic arose among many passengers inside the cosmic spaceship.

"Did we hit a meteorite?"

"Even if we hit a small meteorite, it shouldn't be a problem. The spaceship has defensive formations, and its material is sturdy enough to pulverize small meteorites without damaging the spaceship. Unless it's a large meteorite. But the spaceship has an automatic avoidance program. How could it hit a large meteorite? Could the system have malfunctioned?"

"Why do I feel like the faces of the spaceship staff have changed? Could it be that something has happened?"

Many passengers started to panic.

If it wasn't impossible to disembark in the cosmic starry sky, they would have been clamoring to get off and ask for refunds.

“Grandpa, I’m scared!”

Xiao Meng clung to her grandfather’s clothes, visibly nervous.

Xiao Meng’s grandfather, with a grave expression, knew as a Saint level warrior that the spaceship had not collided with a meteorite, but was under attack.

Boom! Boom! Boom!

The cosmic spaceship was hit again, sustaining damage and slowing down.

Eventually,

the spaceship was forced to halt in the starry sky, unable to move further as the path ahead was completely blocked.

Whoosh! Whoosh! Whoosh!

A swarm of small cosmic ships approached, surrounding the passenger spaceship.

“It’s cosmic pirates!”

Xiao Meng’s grandfather extended his senses and saw the situation outside, his face turning pale. Other martial warriors in the cabin also realized what was happening.

“Grandpa, are the cosmic pirates those man-eating monsters from the stories you told me? I’m really scared!” Xiao Meng’s big eyes were brimming with tears, clearly frightened by the pirates.

“Don’t be afraid, Xiao Meng. This spaceship has a guard squad. They’ll surely deal with these pirates!”

Her grandfather tried to comfort her.

Outside the cosmic spaceship, in the starry sky,

Ten Emperor-level guards and over a hundred Saint level guards emerged, their eyes fixed on the surrounding small ships.

“This is a Qi Long Company spaceship. Please show some respect,”

the head of the guards spoke out.

“What’s Qi Long Company to us? Brothers, kill these guards, but remember not to destroy the spaceship. We can’t rob it then!” a pirate leader commanded.

Boom!

A barrage of attacks covered the starry sky.

“Attack!”

ordered the head of the guards, charging forward.

The battle in the starry space began.

Initially, the Emperor-level guards withstood the small ships’ cannon fire, but suddenly, a column of electricity blasted one of the Emperor-level guards into smithereens.

“Not good, it’s a Star Level Plasma Railgun!”

The other guards were terrified.

This was an attack capable of destroying powerful Emperor-levels, only resistible by Emperor-levels of three stars or higher.

Such powerful technological weapons were not typically possessed by ordinary cosmic pirates.

This time, the attackers were not just any small cosmic pirate group, but a significantly stronger one.

The other guards, fearing attack, started to flee in different directions, but were quickly targeted and obliterated by the Star Level Plasma Railguns.

“Someone blow a hole in this spaceship!”

ordered the pirate leader.

The Star Level Plasma Railgun aimed at the spaceship and fired an electric column.

Just then,

a barrier protected the spaceship.

Boom!

The electric column hit the barrier, leaving the spaceship unscathed.

“Leave and live; otherwise, die!”

A voice permeated the starry sky.

“Hmph, who’s trying to bluff? All Star Level Plasma Railguns, aim at this spaceship. I don’t believe this defense can hold!” the pirate leader shouted angrily.

Boom! Boom! Boom!

Columns of electricity rained down, but just as they were about to hit the spaceship, a wave of spatial fluctuation spread out.

In an instant,

space froze, and the plasma railgun attacks were suspended in the starry sky.

At this moment, everyone was stunned.

Inside the cabin,

Ye Tian rose from his seat, his figure moving swiftly as he left the spaceship's cabin and appeared in the outer starry sky.

“He...”

Xiao Meng's grandfather was astonished.

...

See? This is what I'm talking about!! We need more moments like these.

Chapter 325: The Dignity of a True God, Unyielding!

“Where is Big Brother, Grandpa?”

Little Meng couldn't see Ye Tian without the ability to cultivate, so naturally, she couldn't see what was happening outside.

“Big Brother has something to take care of!”

Little Meng's grandpa replied.

However, at this moment, Little Meng's grandpa was extremely shocked inside.

The attack of so many star-level plasma orbital cannons being frozen must have been Ye Tian's doing.

"He's definitely not just an ordinary Emperor-level!"

Little Meng's grandpa speculated.

But whether Ye Tian could defeat those cosmic pirates, he wasn't sure.

If Ye Tian won, then everyone would be safe.

If Ye Tian lost, they would probably all die at the hands of the cosmic pirates.

These cosmic pirates seemed to only rob, but would they really let them go after the robbery?

No, they definitely wouldn't!

In the starry space,

Ye Tian walked forward with his hands behind his back.

"Freezing space, you actually have spatial talent!"

The leader of the cosmic pirates flew out from the cosmic spaceship, looking at Ye Tian with a solemn gaze.

Emperor-level plus spatial talent, this was enough to prove Ye Tian's great strength; otherwise, he wouldn't have been able to freeze space and stop the attacks of so many plasma orbital cannons in mid-air.

As the space frozen by the plasma orbital cannon attacks quickly dissipated in the starry sky,

"Emperors three stars and above, kill him!"

The leader of the cosmic pirates commanded.

Suddenly, several Emperor-levels flew out from the small cosmic spaceship and surrounded Ye Tian.

The number of these Emperor-levels was about thirty; a pirate group capable of deploying over thirty three-star and above Emperor-levels was not considered weak.

Facing these attacking Emperor-levels, Ye Tian simply waved his hand, and spatial blades appeared, instantly slaughtering over thirty Emperor-levels.

In a breath's time, the starry space was filled with the corpses of Emperors.

“With such little strength, you dare to make a move against me? If this is all you have, you might as well take your own lives!”

Ye Tian said indifferently.

The leader of the cosmic pirates now feared him; his strength was not very strong. Among the group of Emperors just now, there were not only three-star Emperors but also a few four-star Emperors and one five-star Emperor, all of whom were instantly killed.

He was only a seven-star Emperor, but judging from Ye Tian's attack, he was definitely not a match.

Facing such a powerful Ye Tian, even more star-level plasma orbital cannons and an onslaught of Saint-level martial warriors would be futile!

“Dark Demon Lord, please make a move and kill this man!”

The leader of the cosmic pirates knelt in space towards a small cosmic spaceship and begged.

“Damn it, what a bunch of trash!”

A cold voice came.

The next moment,

A very ordinary-looking man appeared, his eyes glaring viciously at Ye Tian as if he wanted to devour him.

“You must be the real mastermind behind this group of cosmic pirates, hiding in the shadows and controlling the pirate group to rob cosmic ships. Your real identity isn’t a pirate, is it?” Ye Tian said with a smile.

“Indeed, I’m not a cosmic pirate, but do you think you can spread the word? I am a first-tier nine-star Emperor, and your strength is at most eight stars!”

The Emperor said coldly.

This showed his great confidence in his strength.

Ye Tian was a bit far from this man, but in the starry space, his copying talent was not suppressed. Now, his copying talent could cover an area of ten thousand miles in the starry space.

Thus, he had already captured this man’s talent situation.

Human: Li Changgeng

Cultivation Talent: Moonlight

Strength Talent: Mystic

Speed Talent: Mystic

Defense Talent: Mystic

Dark Talent: Mystic

Swordsmanship Talent: Moonlight

Judging from his talents, this man indeed had the strength of a first-tier nine-star Emperor. He was not boasting.

A nine-star Emperor, especially a first-tier one, would be very strong in the Milky Way. If he went to Silver Universe Star, he would definitely qualify to be a member of Silver Universe Star.

But this man was secretly controlling a cosmic pirate group to collect resources for him.

His background must not be simple.

“My Lord, this man is the Dark Demon Emperor, the master of the Nine Wheels Planetary System’s Dark Demon Star!”

Someone in the cosmic spaceship said.

At this time, the Dark Demon Emperor laughed loudly: “What does it matter if you know my identity? The signals in this area are all blocked. As long as I kill you, no one will know what I’ve done!”

“Die, dying under my newly comprehended God-level sword technique – Dark Light Sword, you will die a worthy death!”

The Dark Demon Emperor took out a Moonlight-level sword, slashing across the sky.

Whoosh!

A sword light, as if tearing through the starry sky, fiercely slashed towards Ye Tian.

Under this sword, it seemed as if the starry sky itself was about to be cleaved apart.

Inside the cosmic spaceship, many warriors were in utter panic, feeling as if their ship was enveloped in the Dark Demon Emperor's attack, about to be obliterated the next moment.

At that time,

Little Meng's grandpa held her tight and even closed his eyes.

However, facing such an attack, Ye Tian just coldly chuckled.

"Break!"

With a wave of his hand, the ghost blade in his possession instantly shattered the opponent's God-level sword technique, the Dark Light Sword.

"Spatial Disturbance!"

Ye Tian waved his hand, and the space in front of him started to tremble.

The next moment, numerous cosmic pirate ships were shattered by the spatial disturbance, and a great number of cosmic pirates were obliterated.

In a single breath, all the cosmic pirates were annihilated, leaving only the Dark Demon Emperor.

The power of the spatial disturbance was not enough to kill a nine-star Emperor, so the Dark Demon Emperor was unharmed, but his face was extremely grave.

Ye Tian easily broke his attack, indicating that at the very least, he was a first-tier nine-star Emperor!

"Escape!"

The Dark Demon Emperor was frightened.

The pirate ships had been shattered, and the signal-blocking device was gone. The civilian cosmic spaceship could contact the outside world. If he didn't leave now, he wouldn't be able to escape!

“Leave? When I allowed you to go earlier, you didn't leave. Actually, I couldn't be bothered with such trivial matters, but as I said, if I have to kill you, then I will!”

Ye Tian teleported next to the Dark Demon Emperor and slashed with his blade.

Puff!

The Dark Demon Emperor's head was cut off, but his life force did not dissipate.

A golden light appeared on his body, and his head miraculously healed.

“Huh, you actually have a life-saving item!”

Ye Tian was somewhat surprised.

Such a life-saving item was extremely valuable, even he didn't have one.

Just then,

Boom!!!!

A strand of consciousness crossed the galaxies and descended upon the Dark Demon Emperor, taking the form of a phantom.

“Master, save me!”

The Dark Demon Emperor pleaded upon seeing the phantom.

This phantom glanced around and then stared at Ye Tian, “Young friend, I am the Dark Demon Emperor’s master, the True God Qing Mo. In consideration of my face, how about letting him go?”

.....

“True God Qing Mo, your disciple secretly controls cosmic pirates to rob ordinary cosmic ships, and I was on one of those ships. He tried to kill me to silence me. Should I kill him?”

Ye Tian coldly said.

The True God Qing Mo remained silent. For him, this was just a minor matter, and he could just punish his disciple upon returning. However, his true body was in another place, far from here, so it wasn’t wise to provoke Ye Tian.

“Young friend, my disciple indeed has faults, but in consideration of my face, please don’t kill him. I can offer compensation, how about that?” the True God Qing Mo said.

“Not possible!”

Ye Tian flatly refused.

At this, the True God Qing Mo became angry, “A mere Emperor-level dares to be so bold. Do you know I am a True God? Do you dare to defy me?”

“True God? You think I’m afraid of you?”

Ye Tian replied coldly.

He then activated the Heavenly Pride Mark on his forehead, its brilliance dazzling in the starry sky.

“What? You’re a Heavenly Pride!!!”

The True God Qing Mo's expression changed.

The Dark Demon Emperor also changed his expression, filled with fear. He had actually provoked a Heavenly Pride.

But thinking about it, it made sense. How could Ye Tian easily defeat him if he wasn't a Heavenly Pride?

He was too panicked before to consider this.

"True God Qing Mo, do you still want to save your disciple?"

Ye Tian asked again.

"Hmph!"

The phantom of the True God Qing Mo disappeared, evidently giving up on the Dark Demon Emperor.

Since he couldn't protect the Dark Demon Emperor and couldn't retaliate against Ye Tian, he simply vanished.

"Master, Master!!!"

The Dark Demon Emperor shouted, but his master had already abandoned him.

"Your master has given up on you. You can die now!"

Ye Tian's blade fell.

"Don't kill me!"

The Dark Demon Emperor begged for mercy, but the blade still fell, instantly killing him.

The first-tier nine-star Emperor, the Dark Demon Emperor, who was once renowned in the Nine Wheels Planetary System, thus perished here.

Chapter 326: Slaying the Black Wind Silver Emperor!

After killing the Dark Demon Emperor, Ye Tian took his spatial ring, briefly refined it with his divine sense, and smiled slightly upon scanning its contents.

The Dark Demon Emperor's fortune was indeed substantial. The treasures plundered by this cosmic pirate group over the years were likely all on his person, making his wealth richer than that of a typical nine-star emperor.

Ye Tian roughly estimated the Dark Demon Emperor's wealth to be around 3 billion star points.

Originally, Ye Tian's assets were meager, but upon acquiring the Dark Demon Emperor's fortune, his net worth skyrocketed.

"Not bad, a small gain!"

Ye Tian was in a very good mood.

Swish!

He teleported back into the cabin of the cosmic spaceship and sat down in his seat.

"Big brother, where did you just go?"

Xiao Meng asked. From the tear stains on her face, it was evident that she had cried a while ago, but now she had stabilized her emotions and stopped crying.

"Big brother just went to fight the bad guys!"

Ye Tian replied with a smile.

At that moment,

A group of martial warriors, including Xiao Meng's grandfather, bowed and said, "We pay our respects to the Heavenly Pride! Thank you, Heavenly Pride, for saving our lives!"

"We pay our respects to Heavenly Pride!"

"We pay our respects to Heavenly Pride!"

"We pay our respects to Heavenly Pride!"

Inside the cabin of the cosmic spaceship, the scene of everyone bowing in worship was spectacular. Many martial warriors of ordinary cultivation also understood Ye Tian's identity and knew they had escaped danger.

Heavenly Pride!

What a glorious title it was. Even warriors of weaker cultivation but not lacking in knowledge had heard of it. It was a title reserved for the most powerful existences among emperors, those true Heavenly Prides who even Gods dared not provoke.

To sit in the same ordinary cosmic spaceship as a Heavenly Pride was an immense honor.

"Please sit down!"

Ye Tian's voice filled the cabin.

The martial warriors sat down, their gazes still fixed on Ye Tian, all extremely excited.

Having the chance to see a Heavenly Pride up close was an experience worth boasting about for many years.

Tap, tap, tap!

A man in a black robe approached and said, “Lord Heavenly Pride, I am the captain of this cosmic spaceship. We have prepared the VIP guest room for you, please rest there!”

Ye Tian glanced at him and said indifferently, “Never mind, I’ll just sit here. Can the cosmic spaceship still be activated?”

“We’re in the midst of repairs, it should be ready to start again in about ten minutes!”

The captain reported truthfully.

Seeing that Ye Tian had no intention of going to the guest room, he dared not mention it again, lest he irritate Ye Tian and bring trouble upon himself.

Ten minutes later,

The cosmic spaceship was repaired and set off again, heading towards Blue River Star.

“I had planned to keep a low profile, but I didn’t expect to reveal my identity so quickly. However, it doesn’t matter. Even if the Black Wind Silver Emperor knows a Heavenly Pride has come, he probably won’t care. He’s very confident in his ability to disguise himself and wouldn’t run just because a Heavenly Pride is coming!”

Ye Tian thought to himself.

The journey that followed was uneventful and went smoothly.

Half an hour later, the cosmic spaceship successfully arrived at a spaceport on Blue River Star.

Stepping out of the cosmic spaceship, Ye Tian immediately took a teleportation array into Blue River Star, otherwise, many powerful forces of Blue River Star might visit him, causing quite a bit of trouble.

Blue River Star, Xiangyuan City

Standing on the streets of this city, Ye Tian felt its prosperity.

The streets were filled with technological products, and numerous robots maintained traffic order. People's vehicles were either hover cars or personal hover bikes.

Above in the sky were floating cities and fortresses, with star-level weapons placed in planetary orbit to strengthen the planet's security.

The buildings on Blue River Star were full of sci-fi elements, incomparable to those of ordinary planets.

"Truly a technological planet!"

Ye Tian felt the strong sense of technology and exclaimed.

However, such a planet was more suitable for business development than for martial cultivation. A martial warrior living on such a planet could easily get lost in the luxurious life, gradually losing the patience and perseverance needed for cultivation.

Ye Tian wouldn't have come to such a planet if he wasn't here to capture the Black Wind Silver Emperor.

Comfortable living and a luxurious life are nice, but they're not conducive to cultivation. What's the use of coming here?

Considering the drawbacks technology could bring to martial cultivation, Silver Universe Star refused the entry of these technological products, to avoid deviating from its development path.

"It's time to find the Black Wind Silver Emperor!"

Ye Tian muttered to himself.

Boom!!!

His talent-copying ability spread out, covering a radius of ten thousand miles. The talents of all living beings within that range appeared within his vision.

“Filter!”

Ye Tian set a condition based solely on the talent of the Black Wind Silver Emperor.

Since the Black Wind Silver Emperor possessed a disguise talent, Ye Tian only needed to filter for individuals with this talent to find him.

Whoosh!

Whoosh!

In an instant, all talent information disappeared.

Clearly, the Black Wind Silver Emperor was not within this area.

“Let’s go to other cities!”

Ye Tian left.

Searching area by area, with Ye Tian’s speed, it wouldn’t take long to scour the entire Blue River Star.

Blue River Star,

In a high-end villa,

A man lay on a recliner, holding champagne in his hand, drinking and enjoying the massages of two beautiful women beside him.

“Ha ha ha, you think you can find me? Heh, I killed a rich playboy and disguised myself as him. Living in his villa without interacting with others, no one knows my true identity!”

The man thought to himself.

He was the Black Wind Silver Emperor. Since arriving on Blue River Star, he had been living here, enjoying the company of beautiful women every day. He had the money, and the wealthy second generation he was impersonating didn't go out much, instead spending his days in the pleasant company of women.

Thus, no one had found him yet.

At this moment, he even thought about staying here forever.

“Alas, I still haven't found a way to become a Heavenly Pride. If I become a Heavenly Pride, even a True God wouldn't dare to pursue me!” The Black Wind Silver Emperor sighed.

Despite stealing many treasures, killing numerous talents, and amassing vast wealth, becoming a Heavenly Pride was too difficult and he had not yet succeeded.

If he didn't find a way to become a Heavenly Pride soon, he planned to attempt advancing to the God level, no longer willing to stay at the Emperor-level.

At that moment,

A voice arrived.

“Black Wind Silver Emperor, you seem to be enjoying your days quite comfortably!”

Hearing this voice, the Black Wind Silver Emperor's expression changed drastically.

“How could this be? How could my whereabouts be exposed??”

The Black Wind Silver Emperor wished what he had just heard was an illusion, but reason told him it wasn't an illusion; someone had really discovered his identity.

“Escape!”

The Black Wind Silver Emperor attempted to flee.

Boom!!!!

Spatial confinement instantly froze the space around him.

Suddenly,

A hand reached out from the space, wielding a knife.

“Ghost Blade!”

With a swoosh!

The Black Wind Silver Emperor found himself split into two.

But he was still not dead. With his healing talent, given time, such a wound could still heal.

Suddenly,

Whoosh, whoosh!

A spatial orb appeared, enveloping his body.

“Destroy!”

The spatial orb exploded.

Boom!

Inside the spatial orb, space shattered, and the bloodied body of the Black Wind Silver Emperor fell from the broken space, his aura nearly undetectable.

But even so, he was still not dead.

“So many life-saving tricks!” Ye Tian inwardly exclaimed.

A typical nine-star emperor would have died by now, but the Black Wind Silver Emperor was still alive.

“Soul Spike!”

Ye Tian launched a soul talent attack at the Black Wind Silver Emperor.

Puff!

The Soul Spike pierced towards the Black Wind Silver Emperor but was blocked by a soul treasure, only slightly shaking the opponent’s soul.

“Soul treasures. It seems soul attacks won’t work on him. Then let’s continue with the Ghost Blade!”

Ye Tian’s blade moved continuously, slashing at the Black Wind Silver Emperor.

In an instant, the Black Wind Silver Emperor was hit multiple times by Ye Tian, his body chopped into several pieces, his aura completely disappearing, falling dead on the spot.

All this seemed to take a long time, but it was only a matter of seconds.

By the time the women inside the villa came to their senses, the Black Wind Silver Emperor was already dead, reverting to his original appearance.

“Ah ah ah!!!!!”

The women screamed, but Ye Tian couldn't be bothered with such trivial matters.

He collected the corpse of the Black Wind Silver Emperor and teleported away.

Chapter 327: Another Page of the Mira Sutra!

Ye Tian acted swiftly and without affecting the surroundings, thus not attracting much attention.

The women he encountered might have divulged some information, but since he was about to leave Blue River Star, he didn't care much about this minor issue.

Soon,

Ye Tian used a teleportation array to reach a spaceport on Blue River Star.

Afterwards, Ye Tian traveled through various planetary systems on a cosmic spaceship, making several transfers before finally returning to Silver Universe Star.

At the Heavenly Pride Pavilion branch in the Heavenly Battle Continent of Silver Universe Star,

“I'm here to submit my mission!” declared Ye Tian.

He then produced the corpse of the Black Wind Silver Emperor.

The spirit of the device said, “The Heavenly Pride Pavilion has confirmed the completion of your mission. 300 points will be credited to your account soon!”

Whoosh!

A beam of light enveloped the corpse of the Black Wind Silver Emperor, and it disappeared instantly.

“Already confirmed?”

Ye Tian was struck by a realization, understanding the powerful intelligence system of the Heavenly Pride Pavilion. It must have received the news shortly after he killed the Black Wind Silver Emperor.

Even if he hadn’t brought back the corpse of the Black Wind Silver Emperor, the mission would have been considered complete.

With 300 points now in his possession, Ye Tian’s points surged dramatically.

Leaving the Heavenly Pride Pavilion branch, Ye Tian returned to his home in Qingfeng Giant City.

Upon his return, he immediately began to sort through the Black Wind Silver Emperor’s possessions.

The wealth of the Black Wind Silver Emperor was much more substantial than Ye Tian had imagined.

Using his treasure-seeking talent, he noticed that among the treasures emitting golden light, there were also several emitting multicolored light, and many wondrous objects.

The storage equipment of the Black Wind Silver Emperor was not an ordinary spatial ring but a Xumi Storage Ring, which could contain wondrous objects.

“The Black Wind Silver Emperor somehow obtained a Xumi Storage Ring. Fortunately, he had it, otherwise he couldn’t have contained these wondrous objects, and I wouldn’t have had the chance to acquire them,” Ye Tian muttered to himself.

Most of these wondrous objects were of lower grade, but there were a few of higher grade – six-star wondrous objects.

One of them was a stone stele similar to the Enlightenment Stele, and another could enhance the understanding of the Sword Dao, also a six-star wondrous object – invaluable to swordsmen.

Such an object could be greatly beneficial to Empress Yue upon his return.

The Black Wind Silver Emperor also possessed two decent auxiliary weapons: a soul treasure – the Soul River Pearl, which could protect the soul from harm; and a Breath Concealing Ring, a weapon capable of hiding one's aura. Even True God level beings couldn't see through its wearer's cultivation level, and it was by using this ring that the Black Wind Silver Emperor avoided the divine sense detection of True Gods. Otherwise, even with a disguise talent, a True God who gathered all the Emperor-level beings on a planet for a thorough search could have exposed his true identity.

But once the Breath Concealing Ring was used to hide one's aura and disguise the cultivation level as an ordinary Grandmaster, how could a True God detect it?

It was unrealistic for a True God to capture every martial artist on a planet.

Especially since the planets the Black Wind Silver Emperor hid on were bustling, higher-grade worlds. Such worlds were typically stationed by many powerful forces, and the background involved was too extensive for a True God to dare to recklessly destroy such a planet.

Both the Soul River Pearl and the Breath Concealing Ring were of great assistance to Ye Tian, especially the latter, which could be used to evade pursuit by True Gods in the future.

Among all these treasures, what satisfied Ye Tian the most was a piece of a wondrous object – a page of the Mira Sutra.

Previously, Ye Tian had acquired a page of the Mira Sutra on Earth. Although it was broken, it was nurtured into a new wondrous object by the power of the Earth's world, making that page of the Mira Sutra complete.

From that page, he gained the Xumi Storage Realm Technique, which was of great help to him.

And now, he had obtained another page of the Mira Sutra from the collection of the Black Wind Silver Emperor.

Ye Tian meticulously studied this page of the Mira Sutra and soon completely deciphered its use.

“Xumi Palm!”

Ye Tian’s expression changed upon discovering that the page recorded a palm technique – not just a single technique, but a complete set ranging from Black Iron level Xumi Palm to God level Xumi Palm.

In martial arts, any technique above the God level is considered a God-level technique. For instance, a God-level sword technique would be followed by a God-level palm technique.

The Xumi Palm was a technique that could incorporate the Xumi Storage Realm, allowing the practitioner to hold a Xumi Storage Realm within the palm, and then launch powerful attacks with the Xumi Palm, overwhelming other martial arts of the same level.

In essence, the Xumi Palm was a palm technique integrated with spatial power, capable of easily overpowering and capturing enemies, somewhat similar to the ‘Buddha Palm’ in novels.

More importantly, the Xumi Palm legacy included a God-level palm technique, and this was Ye Tian’s first acquisition of such a technique.

Besides,

Ye Tian always felt that the Mira Sutra was extraordinary. The Xumi Storage Realm Art and Xumi Palm seemed like parts of a set. If cultivated together, they might bring great opportunities in the future.

“Currently, I only possess the top-level palm technique talent that I copied earlier. To cultivate the Xumi Palm, I need to copy a higher-level palm technique talent!” Ye Tian pondered.

Palm technique talents were not rare in Silver Universe Star. There were martial artists with high-level palm technique talents, even among the Heavenly Prides.

One such Heavenly Pride was known as the Lifeless Heavenly Pride!

This Lifeless Heavenly Pride was said to be skilled in palm techniques and was extremely powerful, possessing the strength of a four-star Heavenly Pride.

“I’ll copy his palm technique talent when I encounter Lifeless Heavenly Pride!” thought Ye Tian.

After storing away the page of the Xumi Palm from the Mira Sutra, Ye Tian checked the resources for cultivation.

The Black Wind Silver Emperor had collected many resources beneficial for the fifteenth physical limit of Emperor-level, which perfectly met Ye Tian’s needs.

He sorted these resources and eliminated the unnecessary ones, planning to trade them for star points, as keeping them would be a waste.

After spending half a day organizing these gains,

Ye Tian went to the trading tower in Qingfeng Giant City and traded these treasures at a low price to a shop, receiving about 7 billion star points in total.

He could have easily traded for over a hundred billion star points had he not retained many treasures.

Some treasures, like the six-star wondrous objects, the Mira Sutra, and a few rare items, were priceless and couldn’t be measured in star points.

In summary, Ye Tian made a huge profit from this venture.

Meanwhile, the news of Ye Tian, the Heavenly Pride of Ten Thousand Laws, completing the task of capturing the Black Wind Silver Emperor, spread throughout the Heavenly Pride Pavilion.

Heavenly Pride Pavilion Virtual World Public Discussion Area:

“What? The Heavenly Pride of Ten Thousand Laws completed the task of capturing the Black Wind Silver Emperor? How did he do it?”

“I took on this task before but failed. The Black Wind Silver Emperor might not be strong, but with his disguise talent, I couldn’t find him!”

“The Heavenly Pride of Ten Thousand Laws really hit the jackpot this time. Just the task itself is worth 300 points, and the Black Wind Silver Emperor’s wealth must have fallen into his hands!”

“I envy the Heavenly Pride of Ten Thousand Laws. Why couldn’t it be me who completed the task?”

Among the envious, jealous, and resentful Heavenly Prides was Thunder Roar Heavenly Pride.

Thunder Roar Heavenly Pride’s Residence:

He too had learned of Ye Tian, the Heavenly Pride of Ten Thousand Laws, capturing the Black Wind Silver Emperor, and was consumed with jealousy.

“Damn it, it’s bad enough that he’s so talented, but why is his luck so good too??” thundered Thunder Roar Heavenly Pride.

Chapter 328: Secret Technique of Physical Body Cultivation!

Thunder Roar Heavenly Pride and Ye Tian had no significant conflicts; it was merely that Ye Tian had refused Thunder Roar Heavenly Pride’s invitation. This in itself wasn’t a problem.

However, when one person harbored dissatisfaction towards another, and the latter gained many benefits, the former could develop resentment out of jealousy. This was the case with Thunder Roar Heavenly Pride.

Ye Tian was unaware of Thunder Roar Heavenly Pride's resentment towards him, and even if he knew, he wouldn't care much.

It wouldn't be long before Thunder Roar Heavenly Pride would be nothing more than an insignificant figure in his eyes.

At this time,

Ye Tian began his secluded cultivation to strengthen his physical body. With ample resources and having reached the Desolate level in cultivation talent, even if his speed of cultivation wasn't as fast as it was in the Wondrous Object Realm, it wouldn't be much slower.

In the following period, Ye Tian planned to crazily use various resources to cultivate, striving to push his break into the sixteenth limit of his physical body.

Breaking through the sixteenth limit of the physical body was one of his next goals.

As time passed by,

Three months flew in the blink of an eye.

For an Emperor-level cultivator, three months might not be long, but for Ye Tian, three months was not short. He had been cultivating while manipulating time, which made it seem like thirty months, or over two years.

After such a long period of arduous cultivation, most of the resources obtained from the Black Wind Silver Emperor were exhausted. Yet, he had only made some progress in his cultivation, still a bit short from breaking through the sixteenth physical limit.

"I have Desolate level cultivation talent, yet breaking through the sixteenth physical limit is so difficult. No wonder those prodigies from major forces also find it hard to improve their cultivation at the Heavenly Pride level!" thought Ye Tian.

Originally, he wanted to break through the sixteenth physical limit in one go, but now, the resources that could effectively strengthen his body were almost depleted, and other resources were of no use.

Of course,

He could also use ordinary methods to strengthen his body, but the speed was too slow and far less effective than using resources.

One day,

Ye Tian logged into the Heavenly Pride Pavilion virtual world and browsed the public area forum.

He saw many discussions about him, but the recent topic of discussion was something else.

“Ancient God Ruins!”

Ye Tian was slightly interested and clicked to read more, only to find that it referred to ruins located somewhere in the Milky Way.

This ruin was the same one that Thunder Roar Heavenly Pride had invited him to explore. The reason it was mentioned in the forum was that Thunder Roar Heavenly Pride had recently ventured into the relic again.

This time, Thunder Roar Heavenly Pride took two Heavenly Prides and hundreds of Emperor-level cultivators, resulting in their total fall. These two prodigies were not from Silver Universe Star but from one of the Nine Main Planets of the Milky Way, Silver Gold Star.

The three Heavenly Prides entered the center of the relic, triggering a big incident in the Ancient God Ruins. One Heavenly Pride was killed instantly, while Thunder Roar Heavenly Pride and the other Heavenly Pride managed to escape.

Soon after, a Supreme Emperor-level peerless Heavenly Pride entered the Ancient God Ruins and, despite being gravely injured, obtained a legacy. Afterwards, three Supreme Emperor-level peerless Heavenly Prides started hunting down the one who obtained the legacy.

The incident of these four peerless Heavenly Prides getting involved in a fierce battle caught the attention of many other Heavenly Prides, drawing their gaze towards the Ancient God Ruin.

Actually,

The so-called True God Ruins was just a front. The real ruins, the Ancient God Ruins inside, contained great secrets. The reason why the peerless Heavenly Pride was hunted by three others was that he had obtained an astonishing legacy.

At first, others didn't know what this legacy was, but now this secret had been revealed.

“Secret technique of physical body cultivation!”

Ye Tian's pupils contracted at the sight of such a thing, equally shocked.

The secret technique of physical body cultivation was an extremely rare technique. It was of no use to those at the God level because the physical body of a God level cultivator was fixed and couldn't be further improved. Cultivators above the God level could only enhance their divine power and soul.

But for Emperor-level cultivators, a single secret technique of physical body cultivation was extremely significant, even leading to countless powers fighting over it.

What is a secret technique of physical body cultivation?

Emperor-level cultivators need to break through the limits of their bodies to advance in cultivation, and the secret technique of physical body cultivation can assist in breaking these limits, potentially increasing the speed of cultivation by tenfold or even twentyfold. Coupled with the aid of treasures for cultivation, the speed becomes even more astonishing. (Ig Ye Tian will have few hundredfold cultivation speed now lmao)

Before this, Ye Tian had no idea about the secret technique of physical body cultivation. It was only after reading this post and seeing the discussions of other prodigies that he came to know about it.

“So, there are secret techniques to assist Emperor-level cultivators in breaking body limits. It’s just that these techniques are so rare that they remain unknown to most,” Ye Tian realized.

Moreover, according to other prodigies, without the assistance of the secret technique of physical body cultivation, it was very difficult to break through the seventeenth, eighteenth, and nineteenth body limits.

It was said that every Child of the Universe in the cosmos had cultivated a secret technique of physical body cultivation. Without it, even if one’s talent for cultivation was high, the bottlenecks and constraints in later stages were hard to overcome. With the Secret Technique, not only did the speed of cultivation increase significantly, but the utilization of resources and treasures became more efficient, making it easier to break body limits.

“The secret technique of physical body cultivation... I thought that having a Yuan Realm would make me a Child of the Universe. Now I realize how ridiculous that idea was. Although the Yuan Realm is precious, it’s not unique in the universe. If the birth of a Yuan Realm could cultivate a Child of the Universe, wouldn’t every Emperor-level cultivator with Desolate level or higher cultivation talent be able to use the Yuan Realm to become a Child of the Universe?” Ye Tian scoffed.

The birth of a Child of the Universe was far more difficult than he imagined.

Talent, inheritance, and opportunity were indispensable.

Currently, Ye Tian wasn’t lacking in talent. What he lacked was opportunities and inheritances. The damaged Yuan Realm on Earth might not be enough to make him a Child of the Universe, but at least it could help him break through one or two body limits. If he obtained a secret technique of physical body cultivation, he could make even greater use of the Yuan Realm.

Ye Tian became interested in the secret technique of physical body cultivation.

“The forum doesn’t discuss much about that Ancient God Ruin. If I ask other prodigies, they probably won’t reveal the true situation to me,” Ye Tian frowned.

Then, he thought of someone – Great God Zilun.

Given Zilun's status, he should know about the Ancient God Ruin.

Ye Tian had Zilun's contact information and tried to get in touch with him.

Soon, he contacted Great God Zilun and spoke about the Ancient God Ruin.

Great God Zilun asked Ye Tian to come to the Lord's Mansion to discuss the details.

Not long after,

At the Lord's Mansion,

Ye Tian met with Great God Zilun, and they sat in a side hall.

“Do you want to enter the Ancient God Ruin, Heavenly Pride of Ten Thousand Laws?” Great God Zilun asked with some gravity.

“I'm somewhat interested, mainly in the secret technique of physical body cultivation!” Ye Tian replied frankly.

Great God Zilun smiled slightly, “Right, as an Emperor, you would naturally be interested in the secret technique of physical body cultivation. Unfortunately, even our Qin family doesn't possess such a secret technique. It's too precious. Rumor has it that some mysterious families in the Milky Way possess such techniques, but they absolutely wouldn't be shared with outsiders. We can't obtain them either.”

“Great God Zilun, is there really a secret technique of physical body cultivation in that Ancient God Ruin?” Ye Tian asked.

“Yes!” Great God Zilun confirmed, “According to the information I have, a peerless Heavenly Pride obtained a secret technique of physical body cultivation from there and is now being hunted by three other peerless prodigies into another planetary system. Their current

whereabouts are unknown. As for whether the Ancient God Ruins still contains secret technique of physical body cultivation, I'm not sure, but it likely does. This ruin is left by a very powerful ancient God from the ancient era. Back then, the secret technique of physical body cultivation wasn't rare, and many major forces possessed it. However, in this era, it's extremely rare and generally requires specific talents to cultivate, with very stringent conditions! The ruins of that ancient God surely contains more than one secret technique of physical body cultivation, but the Ancient God Ruins is very dangerous. God-levels and above cannot enter, and for Emperor-levels, it's a life-and-death situation!"

"What exactly are the dangers?"

Ye Tian was very curious about this, as no one from the Heavenly Pride Pavilion had revealed what dangers were present.

Chapter 329: Appearance of a Desolate Level Talent Cultivator!

Ye Tian wanted to enter the Ancient God Ruins to seek the secret technique of physical body cultivation, but he wasn't foolish enough to barge in recklessly; that would be courting death!

If the dangers of the Ancient God Ruins exceeded his expectations, he would not consider entering. No opportunity was worth more than his life.

Thus, he needed to understand the situation within the Ancient God Ruins and be aware of the dangers before deciding whether to venture in.

Great God Zilun did not hide anything and revealed, "According to the intelligence, the Ancient God Ruins contain numerous formations. Despite the passage of time, these formations are still incredibly powerful. Moreover, the ruins house various spaces where various alien races are kept. These creatures are bound by restrictions and cannot leave their spaces. However, if martial warriors intrude, they will be attacked by them. That's why the Ancient God Ruins are so perilous. Heavenly Pride of Ten Thousand Laws, your strength is commendable, but I still advise against entering. Many major powers explicitly forbid their prodigies from entering the Ancient God Ruins."

"Formations and alien races!"

Ye Tian had a rough idea now.

“Great God Zilun, are there currently any prodigies entering the Ancient God Ruins?” asked Ye Tian.

“Of course!” Great God Zilun nodded. “The allure of the Ancient God Ruins is immense. Not only have prodigies ventured in, but many at the Emperor-level have also entered. Due to the passage of time, no one knows the exact situation inside.”

Ye Tian inquired about many details concerning the Ancient God Ruins, and Great God Zilun patiently answered each one.

After a long discussion, the two ended their conversation.

“I’m grateful for your explanations, Great God Zilun,” Ye Tian expressed his gratitude before leaving.

Although Great God Zilun’s knowledge was limited, it at least gave Ye Tian a clear understanding of the Ancient God Ruins, preventing him from being completely clueless.

“Remember, Heavenly Pride of Ten Thousand Laws, do not enter the Ancient God Ruins. The secret technique for physical body cultivation is valuable, but life is more important!” Great God Zilun reminded him again.

“I understand, Great God Zilun,” Ye Tian nodded.

However, his inner thoughts remained unknown to Great God Zilun.

Upon returning,

Ye Tian pondered for a long time. He was determined to obtain the secret technique for physical body cultivation, his ultimate goal being the Child of the Universe.

To become the Child of the Universe, one had to possess the combat power of a Supreme Emperor and break through the body’s limits twenty times and gain recognition from the universe.

The secret technique for physical body cultivation was essential for this achievement. Without strong backing, obtaining this technique was extremely difficult, and this opportunity at the Ancient God Ruins was a glimmer of hope. The thought of giving up was unbearable to him.

To go or not to go?

After much deliberation, Ye Tian decided he had to.

However, he didn't plan on entering the ruins with his actual body, as that would be too dangerous.

He mainly relied on two innate talents – soul transference and substitute death.

If he could add another talent, it would be the disguise talent. He needed this to hide his identity. Learning from the fate of the previous peerless Heavenly Pride hunted by three peerless Heavenly Prides, he had to take precautions.

If news of him obtaining the secret technique of physical body cultivation leaked and his identity was exposed, even the Qin family couldn't protect him. He might be forced to wander the universe, potentially endangering Earth.

Therefore, he must conceal his identity.

One day,

Ye Tian traded his resources for a large number of talismans, formation plates, and pills to restore yuan force, among other things.

He also prepared a large amount of ferocious beast blood, which he could use in critical moments to absorb through his bloodthirst talent, replenishing vitality and strength.

After thorough preparations, Ye Tian left Silver Universe Star.

Shortly after his departure, Great God Zilun received news.

“The Heavenly Pride of Ten Thousand Laws still couldn’t resist the temptation of the secret technique of physical body cultivation. Let’s hope he can make it out alive!” Great God Zilun sighed.

He wanted to stop Ye Tian but knew it was impossible.

Once a Heavenly Pride made up their mind, they wouldn’t easily give up.

Moreover, his relationship with Ye Tian was more like a partnership. He had no right to stop him. A well-meant warning was already the limit; any more would be overstepping.

...

The Ancient God Ruins were located in the Tunjiang Planetary System, a small system that previously had two life-bearing planets. However, due to the emergence of the Ancient God Ruins, numerous Emperor-level battles took place there, leading to the destruction of these two planets.

As a result, the Tunjiang Planetary System had become a desolate system, devoid of any vitality.

Yet, the area around the Ancient God Ruins in the Tunjiang Planetary System was bustling with activity. Palaces floated in the vicinity, and many martial warriors, mostly at the Emperor-level, were observing from afar.

One day,

Ye Tian also arrived at the Tunjiang Planetary System. By then, he had used his disguise talent to appear as an ordinary-looking Emperor-level cultivator, inconspicuous enough to avoid attracting attention at the Ancient God Ruins.

Originally located inside a star, the Ancient God Ruins were now exposed due to the star shattering into countless pieces from the battles. The periphery of the Ancient God Ruins was the True God’s ruins.

From a bird's-eye view in space, one could see ancient buildings, and at the center of countless structures was a huge orb. Inside the orb were the Ancient God Ruins.

Whoosh!

Ye Tian approached the ruins, standing in space. His gaze was on the ruins, but his talent-copying ability enveloped the area, scanning the talents of others.

“Nothing worth copying,” Ye Tian shook his head disinterestedly.

He didn't enter the ruins but listened to the conversations of other Emperors, easily learning about the general situation inside the ruins.

In short, it was very dangerous inside, and many Emperors had perished.

Suddenly,

Boom!!!

A powerful aura spread out. In the starry sky, two pseudo-dragons were seen pulling a palace, swiftly arriving at the location.

“It's the Lifeless Heavenly Pride from Silver Universe Star, he's actually come too!” exclaimed an Emperor.

The Lifeless Heavenly Pride was known for traveling in space with two Emperor-level pseudo-dragons pulling his palace, a common sight in the Milky Way, so many Emperors recognized him.

Seeing the pseudo-dragons and the palace, they knew the Lifeless Heavenly Pride had arrived.

“Lifeless Heavenly Pride!”

Ye Tian's heart stirred; he had been looking for the Lifeless Heavenly Pride and unexpectedly found him here.

What luck!

“Haha, Lifeless Heavenly Pride, you're also interested in the Ancient God Ruins, huh!”

Another voice rang out.

A monk, bare-chested and clad in Buddhist robes, was seen stepping through the void.

“Pure Sky Heavenly Pride of the Ten Thousand Buddhas Sect from Silver Buddha Star!” someone else exclaimed.

Soon, numerous prodigies arrived as if they had arranged a meeting.

“Many prodigies from the nine main planets of the Milky Way have come. Didn't they say that major powers prohibit their prodigies from entering? Why have they come?” Ye Tian was somewhat puzzled.

The prodigies who arrived were not like him, without significant backgrounds. They were from major powers, like the Ten Thousand Buddhas Sect, which almost dominated the Silver Buddha Star, far surpassing the Qin family in power.

It was indeed strange that prodigies from such major forces were present.

Were these major powers not afraid of their prodigies falling in the Ancient God Ruins?

Or was there some other change?

Although Ye Tian had many doubts, he didn't ponder deeply. His goal was talents, and for now, copying talents was his priority.

With his talent-copying ability activated, he enveloped everyone within a range of thousands of miles, covering all the prodigies.

Upon scanning, Ye Tian was thrilled.

“There are actually two prodigies with Desolate-level Cultivation Talents!!”

Chapter 330: True God Boundless Space, Sealing Array Divine Formation!

Ye Tian originally only wanted to copy the palm technique talent of the Lifeless Heavenly Pride, but unexpectedly encountered so many other Heavenly Prides and casually checked their talents. To his surprise, he discovered two possessors of the Desolate level cultivation talent.

He had been searching for the Desolate level cultivation talent without success, but now he easily found two possessors.

One of these two Desolate level cultivation talent possessors was the Pure Sky Heavenly Pride, and the other was the Nethersword Heavenly Pride from the Silver Cloud Star.

The future prospects of these two Heavenly Prides, with their Desolate level cultivation talents, were much higher than those of the other Heavenly Prides.

However, such talents were usually kept secret, known only to their backing forces, and other people probably didn't know that these two Heavenly Prides possessed the Desolate level cultivation talent.

“Desolate level cultivation talent, copy!”

“Desolate level cultivation talent, copy!”

After copying two Desolate level cultivation talents in succession, Ye Tian was in a very good mood.

Then, he copied the palm technique talent of Lifeless Heavenly Pride.

Lifeless Heavenly Pride possessed a Moonlight level palm technique talent, which was also quite remarkable, enough for Ye Tian to use for the time being.

“Moonlight level palm technique talent, copy!”

Afterward, Ye Tian observed the talents of other Heavenly Prides but didn’t see any other notable talents and thus did not continue copying.

Due to the abundance of Emperor-levels nearby and the lack of hiding places, Ye Tian chose not to integrate the three talents he had just copied, instead opting to observe.

Nearly thirty Heavenly Prides from the Milky Way’s nine main planets converged, making the scene naturally very lively.

But after these Heavenly Prides arrived, they didn’t enter the relic immediately, instead waiting outside.

As for what they were waiting for, Ye Tian and the others were unclear.

After a few hours passed,

Whoosh whoosh whoosh!!!

One after another, the Heavenly Prides quickly retreated, distancing themselves from the relic.

Ye Tian also sensed something amiss and retreated, distancing himself from the relic as well.

Most of the Emperor-levels retreated, but some did not leave.

Suddenly,

In the starry sky, dazzling stars appeared, not real stars, but stars formed by the power of array formations.

Boom!!!!

An unimaginable grand array covered this part of the starry sky, exerting terrifying power on the relic.

“This is...”

Ye Tian had some understanding.

This was probably a grand array set up by the top forces of the Milky Way, aimed at the relic.

The lights of the various arrays within the relic began to dim.

“This is the Sealing Array Divine Formation. The major forces are really generous!”

A figure appeared in the starry sky, his aura like the boundless space, seemingly endless.

Upon seeing this person, Pure Sky Heavenly Pride and others immediately greeted him respectfully, “Greetings, True God Boundless Space!”

True God!

Many Emperors, hearing this title, also reverently said, “Greetings, True God Boundless Space!”

“No need for formalities, I’m just here to take a look,” said the True God Boundless Space with a faint smile, and then his figure disappeared as if he had never been there.

A long while later,

Lifeless Heavenly Pride curiously asked, “Who is the True God Boundless Space?”

Pure Sky Heavenly Pride explained, “The True God Boundless Space is a Heavenly Pride from ten thousand years ago. Back then, he was a five-star Heavenly Pride, and now he has become a True God. You can imagine how powerful he is!”

“Hiss~~”

Many Emperor-levels gasped in shock.

A True God who was once a five-star Heavenly Pride, such a True God was many times stronger than an ordinary True God, definitely one of the most formidable and unprovokable True Gods.

No wonder these Heavenly Prides were so respectful. After all, in front of the True God Boundless Space, these Heavenly Prides had no reason to be arrogant.

At this moment,

An Emperor boldly asked, “What did the True God Boundless Space mean by the Sealing Array Divine Formation?”

After asking, this Emperor became nervous, fearing that the Heavenly Prides would annihilate him without a second thought.

The other Heavenly Prides ignored this Emperor-level, but Pure Sky Heavenly Pride spoke up, “The Sealing Array Formation is specifically targeted at array formations. It can reduce the power of many powerful formations by seventy to eighty percent. Many killing arrays inside the Ancient God Ruins can slay Heavenly Prides, so the major forces of the Milky Way have spent a great price to set up this Sealing Array Formation to weaken the power of the grand arrays inside the Ancient God Ruin.”

“I see!”

Many Emperor-levels understood and then thought of entering the Ancient God Ruin.

But Pure Sky Heavenly Pride's next words poured cold water on them, "Although the killing arrays inside the Ancient God Ruins have been weakened, for Heavenly Prides and those below Emperor-level to enter the Ancient God Ruin, it's still almost certain death!"

Ye Tian knew that Pure Sky Heavenly Pride's words were not to scare these Emperor-levels but the truth.

The real danger inside the Ancient God Ruins was not just the killing arrays but also the alien species raised in various small spaces, and even the weakened killing arrays were enough to slay nine-star Emperors.

But not all Emperors were afraid, and many were still willing to take the risk.

Pure Sky Heavenly Pride didn't say much more. If someone dared to enter the Ancient God Ruins and died, it was their own fault.

If they were more cautious and only ventured around the outer area of the True God relic, they might gain some benefits and survive.

Boom!!!

The Sealing Array Divine Formation was fully deployed and began to hide itself.

Seeing the timing was right, one by one, the Heavenly Prides flew into the relic. They were not concerned about the treasures of the True God relic but all headed towards the Ancient God Ruin.

The Ancient God Ruins was their real target.

"Charge!"

An Emperor-level shouted and charged into the relic.

Immediately, many Emperor-levels followed suit.

Ye Tian also disguised himself as a reckless Emperor-level and entered the relic.

Although the True God relic had many opportunities, Ye Tian was not interested in them as he too wanted to enter the Ancient God Ruin.

But at the moment, he lacked a clone to use for his soul transfer secret technique.

With so many Emperor-levels here, it seemed a bit excessive to just grab one, especially since they hadn't provoked him.

"I'll deliberately reveal a wondrous object later to attract other Emperors. If an Emperor attacks me, then I'll capture him!"

Ye Tian planned so.

The relic was vast with many buildings.

Soon after, Ye Tian walked out of a temple, holding a package that emitted a faint aura of a wondrous object.

He deliberately acted excited and flew outward.

Nearby, an eight-star Emperor sensed Ye Tian's presence.

Ye Tian used a concealment ring to hide his aura to that of someone who had just broken through the tenth body limit, appearing weak and perhaps injured.

Not far away,

The eight-star Emperor saw Ye Tian and sensed the wondrous object: "A wondrous object, and this Emperor seems injured. He's probably excited about an extraordinary wondrous object!"

"Kill him and the treasure is mine!"

He charged over, launching an attack at Ye Tian.

“Die!”

The eight-star Emperor revealed a cruel smile, as if he had already witnessed Ye Tian’s death.

“Broke through the fifteenth body limit, a good cultivation level. You can fully exert my strength as my clone!”

Ye Tian looked at his opponent and smiled.

His soul transfer talent could only transfer to a martial warrior who had broken through the fifteenth body limit. If the opponent had broken through the sixteenth body limit, he wouldn’t be able to perform soul transfer on him.

This martial warrior was the perfect target, which was why he revealed the wondrous object near him.

If this person hadn’t attacked him, he would have been reluctant to make a move.

But now that the person had attacked, he wouldn’t be polite!

“Spatial Imprisonment!”

Boom!!!

The void froze, and the eight-star Emperor-level seemed to be stuck in a quagmire, struggling to move.

“No good, he’s concealed his cultivation level!”

The eight-star Emperor-level, seeing Ye Tian’s cunning smile, immediately realized he had been tricked.

“Don’t kill me!”

The eight-star Emperor-level begged for mercy, but it was too late.

A Soul Spike penetrated, and his soul was almost completely annihilated.

The next moment,

Ye Tian used his hypnotism talent on him, successfully hypnotizing the opponent.

Immediately, Ye Tian grabbed him and put him into his portable Xumi Storage Realm.

The Xumi Storage Realm could hold living people, so storing an Emperor-level was no problem.

“Leave!”

Ye Tian flew out of the relic and soon left, heading towards an ordinary uninhabited star in the Tunjiang planetary system.

After landing on the uninhabited star, Ye Tian created a temporary cave dwelling and set up some array formations.

Ye Tian didn’t start the soul transfer right away but began to integrate the three talents he had acquired earlier.

Two Desolate level cultivation talents and one Moonlight level palm technique talent.

At this moment, Ye Tian was very curious about what lay beyond the Desolate level cultivation talent.

Eager to find out, he began to integrate the Desolate level cultivation talent first.
