

Talent 331

Chapter 331: The Moro Tribe, Immortality Talent!

“Desolate-level Cultivation Talent Fusion!”

Ye Tian’s Desolate-level Cultivation Talent began to merge with the copied Desolate-level Cultivation Talent, bringing intense pain and transformation.

Ten minutes passed, Ye Tian was drenched in sweat, but his face showed no signs of fatigue.

After resting for just a few minutes, he started the fusion again, preparing to integrate the second Desolate-level Cultivation Talent into his own, to completely transform his Cultivation Talent.

Boom!!!

The transformation began!

In unimaginable agony, Ye Tian nearly fainted, and after a long time, the fusion ended.

Ye Tian lay on the ground, gasping for air.

“Check!”

Under the Copied Talent, Ye Tian’s Cultivation Talent was revealed.

[Cultivation Talent: Hong-level Cultivation Talent]

Hong?

Ye Tian was curious about this classification. Hong combined with Huang could form Honghuang (primordial chaos).

Universal Primordial Chaos!!!

This term seemed powerfully ancient. Could it be that above the Hong-level Cultivation Talent was the Universe level?

Ye Tian was unclear and didn't give it much thought.

The Cultivation Talent transformed into the Hong-level, a complete metamorphosis that surpassed those so-called Heavenly Prides.

Later, Ye Tian rested for several hours until he fully recovered, and then started soul transfer within his cave.

Whoosh!

He transferred out an eight-star Emperor-level individual from his personal Xumi Storage Realm.

"Soul Transfer Talent, activate!"

In an instant,

The Soul Transfer Talent was successfully used, and Ye Tian's original body entered a dormant state as his soul moved into the body of the eight-star Emperor, erasing the latter's soul and occupying the body.

"The plan is complete. It's time to enter the Ancient God Ruins. This time, I refuse to believe that with my many talents, I won't obtain a physical Cultivation secret technique!"

Ye Tian murmured with the body of the eight-star Emperor.

His original body on this nameless planet was almost completely safe, so there was no need to worry.

Immediately,

Ye Tian left the planet with this avatar and headed for the ruins.

Before long, he arrived at the ruins and then flew towards the Ancient God Ruins.

Originally, the True God Ruins were also very dangerous, but because the peerless Heavenly Prides made a move, they almost created a pathway through the True God Ruins. Following this path, there was no danger in entering the Ancient God Ruins.

Otherwise, the Heavenly Prides would have had to exert some effort to enter the Ancient God Ruins.

“Here we are!”

Ye Tian stood before the light sphere of the Ancient God Ruins and, without hesitation, passed through it into the Ancient God Ruins.

As soon as he crossed the light sphere, Ye Tian found himself on an ancient stone staircase. Looking into the distance, he saw a majestic temple standing on the mountain top – the true Ancient God Ruins.

Ye Tian could even see the phantom of an ancient God enveloping the sky, overlooking all living beings, with eyes that seemed to penetrate time and space, staring at his future self.

“So powerful!”

Ye Tian exclaimed.

Even a powerful True God like Boundless Space was far inferior to this ancient God.

Walking up this staircase led directly to the temple, but it was not an easy path.

“Array Talent!”

Ye Tian activated his Moonlight-level Array Talent, and his eyes saw a different world.

Numerous killing arrays spread across the void, and there were many alternate spaces where evasion was impossible. One had to forcibly pass through to reach the Ancient God Temple.

Stepping forward, Ye Tian immediately felt a pulling force.

In an instant, he found himself trapped in a killing array.

Boom, boom, boom!!!

Wind blades emerged from the void, slashing towards Ye Tian.

These wind blades contained terrifying power, each capable of severely injuring a nine-star Emperor.

It would be certain death for nine-star Emperors who came here.

“This killing array has been weakened by the Sealing Array Divine Formation; otherwise, even a One-Star Heavenly Pride would undoubtedly die here!” Ye Tian thought.

“God-level Defense Talent!”

“God-level Iron Armor Talent!”

“Xuanlin Turtle Defense Secret Technique!”

Ye Tian activated these two great defensive talents and a defensive secret technique, withstanding the attack of these wind blades.

A minute passed,

Suddenly, Ye Tian found himself out of the large array.

The killing array seemed like a test; enduring one minute of attack was enough to pass through.

Ye Tian continued forward, encountering and forcefully traversing through one killing array after another, relying on his strong defense and other talent abilities.

Suddenly,

A gust of wind struck, and Ye Tian instantly felt the force of space.

Before he could react, he found himself transferred into an alternate space.

Standing on a grassy plain, Ye Tian sensed the peculiarity of this space.

There was no sun, and the air contained a faint black aura.

“Eliminate ten Moro Tribe Emperors or stay for ten days to leave!”

A mechanical-like voice echoed in Ye Tian’s ears.

“An assessment!”

Ye Tian’s expression turned grave.

Unlike the killing arrays, which had been weakened, this alternate space’s assessment had not been reduced in intensity.

Previously, several Heavenly Prides had fallen in the Ancient God Ruins, and not just one or two.

Eliminating ten Moro Tribe Emperors was the requirement to pass the assessment, but this task was definitely not simple.

Immediately,

Ye Tian buried a decoy avatar underground and then quickly teleported away.

After moving some distance, he used his Invisibility Talent to become invisible.

Soon after Ye Tian became invisible, black silhouettes appeared in the sky. These black figures were different from the black people on Earth; they had a peculiar black color, mysterious patterns on their bodies, purple pupils, and a single horn on their foreheads...

The Moro Tribe!

This was the term used in the Ancient God Ruins for these beings, clearly a different race.

Ye Tian had limited knowledge about other races, only familiar with the Beast Tribe and Dragon Tribe.

“They are all Saint-level Moro Tribesmen!”

Ye Tian surveyed the area and thought to himself.

However, there must be Emperor-level Moro Tribesmen nearby, and they were definitely searching for him.

After a while, these Saint-level Moro Tribesmen moved to other areas, and Ye Tian flew in another direction.

Soon,

He arrived at a Moro Tribe village.

Though it was just a village, Ye Tian was surprised to find that apart from children, every adult had the strength of at least a Grandmaster.

In secret,

Ye Tian used his Copy Talent to cover several Moro Tribe King-level individuals and checked their talents.

Moro Tribe: Hade Man

Cultivation Talent: Morning Star

Strength Talent: Intermediate

Defense Talent: High

Speed Talent: Top

Spear Technique Talent: Top

Immortality Talent: Weak

“Immortality Talent???”

Ye Tian was surprised.

What kind of talent was this, claiming to be immortal?

Soon, Ye Tian was even more astonished to find that almost all Moro Tribesmen possessed the Immortality Talent, with varying levels.

“Too bad I was too far from those Saint-level Moro Tribesmen earlier to check their talents!”

Ye Tian sighed inwardly.

The Immortality Talent of the Moro Tribesmen in this village was relatively weak, and he didn't want to copy it to avoid wasting his limited copying ability, as he could only copy five talents per day.

Knowing about the Moro Tribe's Immortality Talent, he naturally planned to make good use of it.

Swoosh!

Ye Tian left and continued searching for Moro Tribe settlements.

This alternate space was vast, and there were numerous Moro Tribe villages scattered across the land.

During this time, Ye Tian interrogated some Moro Tribesmen and learned their language, a task quickly accomplished in just a few minutes for an Emperor-level individual like him.

Over an hour later, Ye Tian arrived in a city.

He entered the city while invisible and used his Copy Talent to assess the talents of the Moro Tribesmen there.

Due to the suppression of his Copy Talent in the Ancient God Ruins, he could only examine talents within a 500-meter range, so he could only check a few Moro Tribesmen's talents at a time.

“Ah, a high-level Immortality Talent, not bad. Copy!”

Ye Tian focused on the talent information of a middle-aged Moro Tribesman and copied his high-level Immortality Talent with a thought.

Chapter 332: Ten God-level Moro Tribesmen!

This city of the Moro tribe was not very large. Not only was it smaller compared to the super bases of Silver Universe Star, but it also paled in comparison to Earth's super bases. However, this was quite normal as this alternate space was essentially a prison. The people of the Moro tribe couldn't leave, and the resources here were inevitably limited, preventing them from reproducing in large numbers. If there were too many Moro tribespeople, it would lead to a significant consumption of resources, making it difficult for the top-tier Moro tribespeople to improve their cultivation and strength.

Ye Tian spent half a day exploring the entire city and only found one high-level Immortality Talent. In a certain part of the city, Ye Tian hid in an unoccupied room and began to integrate the Immortality Talent. Ten minutes later, the integration of the Immortality Talent was completed. It was only then that he finally understood the ability of this Immortality Talent.

“Actually, it's Immortal Vitality!”

Ye Tian was shocked.

Normally, if a person's vital parts were hit, like having their head chopped off, they were almost certainly dead as their vitality would dissipate quickly. However, a person with the Immortality Talent was different. Even if their head was severed, they wouldn't die immediately; their vitality would just slowly ebb away. As long as the head was reattached in time and the loss of vitality stopped, they could recover.

To kill someone with the Immortality Talent, striking their vital parts was useless. The only way was to continuously obliterate their vitality. Only after completely extinguishing their vitality could one truly kill them. In short, this talent was incredibly heaven-defying.

“The Immortality Talent pairs very well with the Bloodthirsty Talent. The Bloodthirsty Talent can absorb the blood of other beings to replenish vitality, and the Immortality Talent consumes vitality. If there's enough blood to replenish, I am essentially immortal!” Ye Tian thought to himself.

Of course, if he encountered an enemy far stronger than him, even the amazing Immortality Talent would be useless. The enemy could obliterate all his vitality in one move, completely annihilating his body.

But against opponents of the same level, the Immortality Talent was amazing!

“The Moro tribe’s Emperor-level probably possesses a higher Immortality Talent. If there were a nine-star Emperor-level Moro tribesman, even I would not be able to kill him in one move. It would take some effort!” Ye Tian thought to himself. But considering the resource issues in this alternate space, it would be very difficult for the Moro tribe to produce a nine-star Emperor-level.

Leaving the city, Ye Tian continued to fly.

“There’s an Emperor-level Moro tribesman ahead!”

Ye Tian’s heart stirred as he gradually approached. Soon, he neared the Emperor-level Moro tribesman. This Moro tribesman was cultivating on a cliff, using the dense Wind Yuan Qi there to temper his body.

Ye Tian checked the tribesman’s talents and shook his head. This Moro tribesman at the Emperor-level only had an intermediate Immortality Talent. Besides a Mystic-level Wind Blade Talent, his other talents were quite ordinary, lacking even those that stacked with Strength Talent. In terms of strength, he wasn’t even at one-star Emperor-level.

“This Moro tribesman is an Emperor-level after all; he should know many secrets. I’ll hypnotize him for interrogation!” Ye Tian appeared in front of him and immobilized him with his Space Talent.

“Who are you?” The Moro tribesman was somewhat panicked. Although Ye Tian was disguised as a Moro tribesman under his Disguise Talent, he was an unfamiliar face, making the Emperor-level Moro tribesman very suspicious.

Emperor-level Moro tribesmen were not common, and the sudden appearance of a strange Emperor-level would alarm anyone. Especially since Ye Tian had immobilized him with his Space Talent, he became extremely fearful.

“Hypnotize!” Ye Tian activated his top-level Hypnosis Talent and easily hypnotized the Moro tribesman.

“Tell me about this space and its origins!” Ye Tian asked.

Soon, the Moro tribesman revealed a lot of information. Regarding the origins of the space, the Moro tribesman was not very clear. He only knew that in a very distant era, their Moro tribe was captured by a powerful being. Some of their people were imprisoned in this space, and every once in a while, trial-takers would enter this space to kill their tribespeople.

However, whenever they killed the trial-takers, they would receive some rewards.

After a long time, no more trial-takers came to this space, but the Moro tribe could not leave either, forever trapped in this space. Ye Tian also learned another piece of information: in the center of this space, there was a divine mountain with a grand temple on top. Extremely powerful Emperor-level warriors could enter the hall and gain some benefits.

Every so often, the Moro tribe would produce an extremely terrifying Emperor-level being who would break into the hall and bring out some treasures. These treasures then became the foundation for the Moro tribe to produce strong warriors in the future. This cycle continued generation after generation.

“Grand temple, treasures!” Ye Tian’s interest was piqued.

He had previously heard that a peerless Heavenly Pride had brought out a secret technique for physical body cultivation, which might not necessarily have come from the ancient God temple, but rather from an alternate space.

Entering the ancient God temple required passing through various killing formations and alternate spaces, and even a peerless Heavenly Pride might not be able to break into the ancient God temple. The only place to gain benefits might be these alternate spaces.

The ancient God had captured many different races and imprisoned them in these alternate spaces, allowing later generations to enter and undergo trials. These alternate spaces also offered opportunities, and even the imprisoned races could obtain treasures, maintaining their strength without weakening. If these races could get treasures, then trial-takers like him certainly could too. Thinking this, Ye Tian felt a surge of excitement.

“How many strong warriors are there in your Moro tribe?” Ye Tian asked.

“10 at the God level, and about 100 at the Emperor-level!” the Moro tribe Emperor-level replied.

“10 at the God level!!!” Ye Tian’s pupils constricted.

He finally understood why the Heavenly Prides had perished. It was unlikely for the Moro tribe to produce Heavenly Prides due to insufficient resources and a small population. But why would Heavenly Prides still fall?

Because of Gods!

The God-level Moro tribesmen did not care about the so-called rule of ‘Heavenly Prides must not be insulted’. Once a Heavenly Pride was discovered by a God-level Moro tribesman, they were in danger.

Indeed, a Heavenly Pride could kill weaker God-level beings, but the Moro tribe certainly had powerful God-level beings. A God-level being who ascended from a six or seven-star Emperor-level was enough to kill a weaker Heavenly Pride. If it was a God-level being who ascended from the eight-star Emperor-level, they could even kill a five-star Heavenly Pride. Only a six-star peerless Heavenly Pride could match a God-level warrior who ascended from the nine-star Emperor-level.

God-level warriors could also cultivate their bodies, not remaining at the level they initially broke through. After cultivating for a period, their strength would become even more terrifying, capable of killing a peerless Heavenly Pride.

For instance, the Moro tribe’s 10 God-level beings were certainly not newly ascended. Some had cultivated for a long time and were far more terrifying than a peerless Heavenly Pride. A Heavenly Pride entering here, without the talents of invisibility and disguise, would almost certainly be doomed if discovered by a God-level Moro tribesman.

“No wonder Heavenly Prides have perished. Without invisibility and disguise talents, they would have been discovered by the Moro tribesmen and then reported to their God-level warriors,” Ye Tian frowned. Invisibility was not invincible, a fact he already knew. Even top-level invisibility talent could not fool God-level warriors, whose divine consciousness underwent a transformation, allowing them to see through invisibility.

Currently, the only way for Ye Tian to hide from God-level warriors was his Space Talent's ability to enter space. Once in space, unless using some special methods, his existence could not be detected. And who would bother to constantly check the situation within space? Entering space was basically undetectable.

"Are there strong warriors guarding that grand temple?" Ye Tian asked his final question.

The Moro tribe Emperor-level answered, "One of our God-level warriors is always stationed there!"

"A God-level guardian?" Ye Tian felt it would be somewhat difficult to enter the grand temple. He would need to think this through carefully.

"Soul Spike!" Ye Tian instantly killed the Moro tribe Emperor-level with his soul attack talent. He had no mercy in killing beings from different races. After killing this Moro tribe Emperor, Ye Tian turned and left.

Chapter 333: Infiltrating the Divine Temple, The Corpse Puppets within the Temple!

In this unique dimensional space, the Moro tribe created soul lamps for each important clansman. The moment an important clansman perishes, it's immediately discovered.

When an Emperor-level guardian of the soul lamps in the Moro tribe's temple noticed the extinguishment of a Emperor clansman's soul lamp, his face drastically changed.

Although the Moro tribe is imprisoned in this unique dimensional space, they have no natural enemies. Even the ferocious beasts of this space are their food. An Emperor-level individual is rarely killed unless it's due to old age.

Should there be fratricide among the clansmen, they would face extremely severe punishment.

Now that an Emperor-level clansman is dead, it's a big issue!

The Emperor guarding the soul lamps promptly contacted the higher-ups of the Moro tribe, and in a short time, all ten God level powerhouses of the Moro tribe were informed.

Inside a grand temple,

Five God level beings were discussing.

“Previously, our space shook a bit, and then a voice warned us that an outsider had entered our space. It seems that Bach’s death was caused by that outsider!”

“Hmm, perhaps Bach discovered the outsider, which led to this calamity. Those damned humans captured our great Moro tribe many years ago and used us as trial subjects, binding us forever. Sadly, our tribe lacks resources and couldn’t cultivate a True God, otherwise, we would definitely be able to break out of this unique dimensional space!”

“A human Emperor came here before and was killed by us. The human who has entered now must also be an Emperor.”

“It must be an Emperor. According to ancient records, in ancient times, this space was used for the trials of human Emperor Heavenly Prides. Gods couldn’t enter unless it was the ancient God himself who captured our tribe. But after such a long time, that ancient God is probably long gone.”

“Even a strong Emperor is no match for us. Find him and kill him!”

The Moro tribe had a total of ten God level beings. This time, five of them started searching the entire dimensional space for Ye Tian’s presence.

Although Ye Tian was unaware that he had been exposed, upon learning that there were ten God level beings in this dimensional space, he no longer remained invisible but disguised himself as a Saint level Moro tribe member. He used a stealth ring to hide his aura, undetectable even to Gods.

Over a vast land, Ye Tian flew low towards the central divine temple of the dimensional space.

He was very clear that he couldn’t reach the ancient divine temple. Not even the unparalleled prodigies could, and he didn’t overestimate his strength, so his target was the divine temples of this dimensional space.

Regardless, he had to enter these divine temples to see if he could acquire a secret technique of physical cultivation.

As for how to enter, he already had a rough plan.

Suddenly,

A powerful divine sense swept over, scanning the entire area where he was.

“A God’s divine sense~~!”

Ye Tian thought to himself.

He was extremely grateful for his decision. Had he remained invisible, even disguised as a Moro tribe member, it would have aroused the suspicion of the God level Moro tribesmen.

After all, invisibility talents were extremely rare. And wasn’t it strange to move around while invisible?

If there was a thorough investigation, his disguise would definitely be exposed after a little scrutiny.

That would be troublesome.

Though he had the death substitution talent, it would be impossible to complete his mission.

Soon,

The God level Moro tribe member disappeared, and the divine sense no longer swept over the area. Ye Tian’s identity was not exposed.

After all, a mere Saint level being would not attract the attention of a God level.

Flying at the speed of a Saint, after more than an hour, Ye Tian also arrived near the divine temple.

At that moment,

Ye Tian used his space talent to enter the space and head towards the nearby divine temple.

The divine temple only allowed Emperors to enter; God levels cannot. He was not afraid of the Moro tribe's Emperors.

As long as he entered the divine temple, even if the God level Moro tribesmen discovered him, it wouldn't matter.

If the Gods block him when he exits the divine temple, he could just use his death-substitution talent to escape death once. It was not easy for a God level to kill him.

“Phase!”

Ye Tian entered the space, his gaze towards the outside world, continuously moving towards the direction of the divine temple.

Near the divine temple, there were many buildings, almost developed into a base.

Clearly, this place was guarded not only by Gods but also some Emperors and Saints.

Ye Tian, having entered the space, was almost undetectable to the Moro tribesmen, and he gradually approached the divine temple.

At the entrance of the divine temple,

Ye Tian wanted to phase into the inner space of the divine temple, but a force prevented him.

“As expected, I can't phase in!”

Ye Tian thought to himself,

“A large formation outside the temple is suppressing the space. It’s impossible to enter the temple through spatial phasing. One can only enter through the temple’s entrance.”

And entering through the entrance would undoubtedly lead to being discovered.

Ye Tian had anticipated all of this, so he was not at all flustered.

Whoosh!

Ye Tian emerged from the space and swiftly entered the temple.

This action was noticed by many of the Moro tribesmen guarding the temple.

“A clansman has entered the temple!”

The commotion attracted the God level beings guarding the area.

Boom!!!!

As the God level beings descended, the Moro tribesmen knelt to the ground: “Lord Mo Ang!”

“What has happened?” Mo Ang asked in a deep voice.

A Saint level clansman replied, “Lord Mo Ang, just now, a clansman suddenly appeared and rushed into the temple without any permission!”

“A clansman entered the temple??” Mo Ang’s face darkened.

Normally, no clansman would dare to do this!

“Do you know which clansman it was?” Mo Ang inquired.

“Don’t recognize him, very unfamiliar!”

The Moro tribesmen present shook their heads.

“This person won’t last many days in the temple. I’ll wait here. I’m curious to see which clansman is so bold. If he perishes in the temple, so be it. But if he comes out alive, I certainly won’t let him off easily!” Mo Ang said coldly.

Inside the temple,

After entering, Ye Tian walked down a corridor and soon came across several light doors.

“So many light doors?”

Ye Tian was unsure which light door to enter.

Immediately,

He touched one of the light doors with his consciousness and quickly read the information.

“Formation Heritage Light Door!”

Then he touched another light door.

“Sword Technique Heritage Light Door!”

Soon, Ye Tian understood.

Each light door represented a different heritage. To obtain a certain type of heritage, one must enter the corresponding light door.

Among them, one light door was the Treasure Light Door, where successful assessment would yield a plethora of treasures.

The Moro tribe, when entering the temple, probably chose the Treasure Light Door, hence why they brought out so many treasures.

But Ye Tian's goal this time wasn't resources or treasures but a secret technique of physical body cultivation.

"There must be a heritage for physical cultivation techniques!"

Ye Tian hoped silently.

As he checked each light door and confirmed they were not related to physical cultivation techniques, his disappointment grew.

Eventually, only three light doors were left.

Touching the third-to-last light door, a wave of information came to him, and Ye Tian was overjoyed.

"Secret technique of physical body cultivation!"

This light door corresponded to the heritage of physical cultivation techniques. Entering it and passing the assessment would grant him the secret technique of physical body cultivation.

"Enter!"

Ye Tian walked in and soon arrived in a dark, gloomy space.

Clang clang!!!

The sound of chains colliding echoed, making the dark space eerily sinister.

“Another little one has come!”

A voice came.

Ye Tian looked towards the source of the sound and saw a human approaching.

He was bound in chains, his aura extremely weak, devoid of even a trace of vitality, as if he was not a living person.

“A Corpse Puppet!”

Ye Tian’s expression changed.

Although the figure was quite far from him, he could discern its identity.

But this Corpse Puppet was no ordinary one. It even possessed consciousness, something far beyond the Corpse Puppets he encountered on Earth.

Chapter 334: The Soul Flaw of the Corpse Puppet!

“Who are you?”

Ye Tian tentatively asked.

“Who am I?” The corpse puppet chuckled coldly. “I too wish to know who I am. Every awakening is triggered by someone’s arrival in this space. Countless years have passed, and I do not know how many times I have awoken. But you... you should die!!! Why am I imprisoned here, to be your grinding chain object time and again? Why can you come and go as you please, while I cannot!”

“I will kill you all!!!”

The corpse puppet fell into a state of frenzy, its mental state extremely abnormal.

Swoosh!

The corpse puppet moved, charging at Ye Tian with chains in tow.

The chains were not a restraint but one of its weapons.

Whoosh!

The chains enlarged crazily, covering the entire area.

At the same time,

Boom!!!!

It threw a punch, the void trembled, and the terrifying power was almost comparable to the attack of a three-star Heavenly Pride.

“Heavenly Pride!”

Ye Tian’s expression changed; the opponent’s cultivation was clearly not at the God level, but at the Emperor-level. To possess such strength, he must be nothing more than a prodigy.

This ancient God had actually captured a Heavenly Pride and refined it into a corpse puppet!

The soul of this corpse puppet hadn’t perished, likely because it was almost always in slumber, but even so, the corpse puppet’s spirit was very abnormal.

Such a corpse puppet could no longer be considered alive, even though it could survive the long years.

“Spatial Imprisonment!”

“Teleportation!”

“Time Talent!”

“Soul Spikes!”

Ye Tian unleashed one talent after another, not daring to take it lightly.

The opponent’s strength was, after all, that of a three-star heavenly pride, not an ordinary one. With Ye Tian’s current strength, he was no match and should not confront it head-on.

Moreover, that chain was not an ordinary weapon; once trapped by the chains, it might be impossible to break free.

With the help of time and space talents, Ye Tian successfully avoided the opponent’s attack and chains, but the fist technique’s spatial tremors still injured him.

However, Ye Tian quickly recovered from this minor injury.

And Ye Tian’s Soul Spike wounded the opponent.

“Ahhh!!!”

The corpse puppet screamed in agony. Due to the passage of endless years, no matter how profound the ancient God’s methods were, it was impossible to keep its soul intact and unharmed.

Thus, the only flaw of the corpse puppet was its soul!

Ye Tian, with his soul talent, was simply the nemesis of the corpse puppet!

Meanwhile, Ye Tian also assessed the opponent’s talents.

Corpse Puppet: Sky-Flying Corpse

Cultivation Talent: Supreme Level

Strength Talent: God Level

Defense Talent: Mystic

Wind Speed Talent: God Level

Fist Technique Talent: Moonlight

...

Looking at the talents of this corpse puppet, there was nothing particularly astonishing, but its cultivation was very high.

According to Ye Tian's judgment, the opponent had at least broken the seventeenth physical limit and might have cultivated a secret technique of physical body cultivation.

However, after the long years, the soul of this corpse puppet had weakened significantly, and its body had gradually decayed, so its strength could not reach its peak.

If at its peak, the Sky-Flying Corpse Puppet's combat power would probably reach that of a four or five-star prodigy, even comparable to a peerless Heavenly Pride.

Facing a corpse puppet with the strength of a three-star Heavenly Pride, Ye Tian kept evading. With his high-level Immortality talent, along with life and healing talents, he would not die.

But the Sky-Flying Corpse Puppet was in trouble. It had a significant flaw – the soul!

The ancient God did not equip it with soul-protecting treasures, so its weak soul couldn't withstand Ye Tian's soul attacks and was pierced through time and again.

As the soul grew weaker, the strength of the Sky-Flying Corpse Puppet also diminished.

Finally, the Sky-Flying Corpse Puppet fell, turning into a real corpse.

“Successfully passed the first challenge, begin the lottery draw!”

A voice echoed through the void.

The next moment,

Boom!!!!

A huge roulette wheel appeared in the void, divided into two parts. The first part was very small, occupying only one percent of the area, labeled “Secret Technique of Physical Body Cultivation”; the second part was a blank area, occupying ninety-nine percent of the area.

The wheel also had a pointer. Such a wheel was obviously a very simple lottery wheel, and the chance of drawing the Secret Technique of Physical Body Cultivation was one percent.

“One percent chance, isn’t this probability too low?!”

Ye Tian felt rather helpless.

But having a chance, even a small one, was much better than none.

“Let’s draw!” Ye Tian said.

Whoosh!

The needle moved, spinning rapidly, its speed surpassing Ye Tian’s judgment.

“Stop!” Ye Tian shouted.

Swoosh!

The needle instantly stopped, pointing to the blank area, failing to draw the secret technique of physical body cultivation.

“Failed!” Ye Tian felt extremely disappointed. He had gone through the ordeal only to end up empty-handed.

“Do you wish to continue the assessment?”

A mechanical voice sounded.

“Yes!” Ye Tian said.

If he gave up the assessment, he would gain nothing, and that was not the outcome he wanted.

Therefore, he had to continue the assessment no matter what.

Suddenly,

A force of attraction came, and Ye Tian was again transported to a dark space.

The second assessment began!

Before Ye Tian could regain his senses, a claw struck at him, its speed so fast that he didn’t even have time to react.

Puchi!

Ye Tian’s heart was pierced by the opponent.

If it were an ordinary emperor-level fighter, this strike would have been fatal, but Ye Tian didn't die. His Immortality talent saved his life, and his life and healing talents quickly healed his wounds.

Swoosh!

The mysterious creature attacked again, but this time Ye Tian reacted in time as he activated his time talent, accelerating himself tenfold, making his thoughts effectively ten times faster than others.

He also used his copying talent to capture this mysterious creature.

Corpse Puppet: Netherworld Spirit Cat

Bloodline Talent: Supreme Level

Strength Talent: Mystic

Defense Talent: Mystic

Speed Talent: God Level

Claw Technique Talent: Dawn

...

"Dawn-level claw technique talent!" Ye Tian was overjoyed.

Such a rare claw technique talent was worth copying. Once copied, his claw technique talent could be elevated from Moonlight to Dawn level.

Without hesitation, Ye Tian copied it on the spot.

This Netherworld Spirit Cat, with its Dawn-level claw technique talent, was terrifyingly powerful, likely reaching the level of a four-star Heavenly Pride. Ye Tian, only a two-star Heavenly Pride, was far from its match.

If not for his Immortality talent, he would have been gravely injured just now.

Even among four-star extremes, this Netherworld Spirit Cat corpse puppet was undoubtedly one of the most formidable.

Whoosh, whoosh, whoosh!!!

The Netherworld Spirit Cat attacked Ye Tian with its claw technique. Its speed was so fast that Ye Tian could only occasionally dodge, and sometimes he couldn't avoid it and was hit by the corpse puppet, whose claws contained terrifying poison.

Ye Tian resisted the poison with his healing and life talents.

This corpse puppet was truly formidable!

“Spatial Phasing!”

Ye Tian stepped into space and disappeared.

Then, Ye Tian used his Ghost Blade to attack the Netherworld Spirit Cat, but its speed was so fast that his Ghost Blade couldn't hit it. Even when it did, the corpse puppet's body endured it.

“I have to use soul attack talent!”

Ye Tian emerged from the space and launched a Soul Spike talent at the Netherworld Spirit Cat corpse puppet.

Puff!

The Soul Spike talent struck the Netherworld Spirit Cat corpse puppet.

The creature screamed in agony, showing the effectiveness of the soul attack talent.

“It seems the soul is a flaw of corpse puppets, one even ancient Gods can’t change!” Ye Tian thought to himself.

With repeated soul attacks, the Netherworld Spirit Cat corpse puppet’s soul was heavily damaged, and its strength diminished.

Finally, the Netherworld Spirit Cat corpse puppet fell.

Ye Tian once again completed the assessment!

Boom!!!!

The lottery wheel appeared once again!

Chapter 335: The Nameless Secret Technique of Physical Body Cultivation!

This time,

The draw wheel still had two areas: one for the secret technique of physical body cultivation and a blank area.

But the probability of drawing the secret technique of physical body cultivation was no longer one percent, but ten percent, increasing the odds of drawing it by tenfold.

“I must draw it!”

Ye Tian thought to himself.

“Draw!”

The needle on the wheel started spinning.

“Stop!”

As soon as Ye Tian’s words fell, the needle stopped, surprisingly pointing at the secret technique of physical body cultivation.

At this moment, Ye Tian was extremely excited.

He had drawn the ten percent chance, a truly extraordinary stroke of luck.

If he hadn’t drawn it, he estimated that he would have to undergo a third assessment, facing even stronger opponents, possibly of the peerless Heavenly Pride caliber.

Facing a peerless Heavenly Pride, with his current strength, he probably wouldn’t be able to complete the challenge, and might even lose his life.

Although the Corpse Puppets indeed had soul flaws, could he withstand the attacks of a peerless Heavenly Pride?

No way!

Not a single move!

Moreover, if a peerless Heavenly Pride-level powerhouse could attack him even in the spatial void, he would be killed instantly, and not even his Immortality talent could save his life.

Therefore,

This time, Ye Tian was incredibly lucky, otherwise, he really wouldn’t have been able to obtain the secret technique of physical body cultivation.

In fact, even if a peerless Heavenly Pride entered this alternate space, it would be difficult to obtain the secret technique of physical body cultivation. Though a peerless Heavenly Pride

wouldn't have to take ordinary God-level powerhouses seriously, what if they encountered a powerful God-level powerhouse?

The God-level powerhouses of the Moro race had cultivated for countless years, far more powerful than newly ascended God-level powerhouses, definitely possessing the strength to kill six-star peerless Heavenly Prides.

If an arrogant peerless Heavenly Pride with bad luck entered, they might die under the siege of God-level powerhouses without even seeing the door of the temple in the alternate space.

It must be said that the peerless Heavenly Pride who obtained the secret technique of physical body cultivation from the Ancient God Ruins in the past was very lucky. Unfortunately, the news of obtaining the secret technique was leaked, leading to the pursuit and killing by three other peerless Heavenly Prides.

Boom!!!!

In the void, orbs of light appeared in front of Ye Tian.

Each orb represented a lineage of the secret technique of physical body cultivation. Ye Tian naturally wanted to take them all, but he knew he couldn't.

This ancient God, whose strength was unknown, had left behind means that even the major forces of the Milky Way couldn't deal with. They could only set up sealing arrays to disrupt the power of the arrays.

But the major forces of the Milky Way could only do so much. If their power far surpassed that of this ancient God, they wouldn't have to go through so much trouble and could directly send a great powerhouse to destroy the ruins of the ancient God and take away these treasures and inheritances.

But they couldn't do it because their strength wasn't enough!

This also proved how terrifying this ancient God was, and Ye Tian dared not take shortcuts.

His consciousness touched each orb, and the introductions of the secret techniques of physical body cultivation appeared in his mind.

“The Fireflame Physical Body Cultivation Technique can increase the cultivation speed by up to ten times at the Emperor-level, requiring the condensation of an innate fire spirit body.”

“The Xuan Turtle Physical Body Cultivation Technique can increase the cultivation speed by up to twelve times, only suitable for the turtle race or those with Xuan Turtle bloodline!”

“The Purple Blood Physical Body Cultivation Technique can increase the cultivation speed by up to thirteen times, only cultivable by those with a Purple Blood Saint Body!”

...

Introductions of various physical body cultivation techniques appeared in Ye Tian’s consciousness.

Almost all physical body cultivation techniques had strict cultivation requirements, some of which even Ye Tian couldn’t cultivate because certain techniques required special physiques and bloodlines.

While Ye Tian could copy talents, he couldn’t copy bloodlines.

He was of the human race; once his bloodline changed, it might initially increase the cultivation speed, but it definitely wouldn’t be a good thing. For example, a human with a Xuan Turtle bloodline would probably only be able to follow the path of the Xuan Turtle lineage, which was not suitable for Ye Tian.

Therefore, Ye Tian had no interest in those physical body cultivation techniques that required special physiques and bloodlines.

He passed up orb after orb until one particular technique within an orb caught his attention.

“Nameless Physical Body Secret Technique, specific cultivation effect unknown. The more Mystic-level attribute/elemental talents, the more elemental energy absorbed, the better the

cultivation effect! For every additional elemental Mystic talent, the Nameless Physical Body Secret Technique can double the cultivation speed!”

“This physical body technique... it’s as if it was made for me!”

Ye Tian exclaimed excitedly.

Other geniuses, if in his place, would definitely abandon this Nameless Physical Body Secret Technique, as those geniuses hardly had a few elemental Mystic talents, and some didn’t have any at all. Choosing this technique would be a waste for them!

But Ye Tian was different. He possessed many Mystic-level elemental talents. If he cultivated the Nameless Physical Body Secret Technique, his cultivation speed would reach a terrifying level.

What Fireflame, Xuan Turtle, Purple Blood Physical Body Cultivation Techniques? In front of this Nameless Physical Body Secret Technique, they are all insignificant!

Ye Tian didn’t hesitate to choose this Nameless Physical Body Secret Technique and grabbed an inheritance bead from within the orb.

The next moment,

He was transported away and returned to the main hall of the temple.

At this time,

In a starry sky far away from the relic,

An old man with white hair held a tortoise shell in his hands, his eyes closed as if calculating something.

Suddenly,

The white-haired old man opened his eyes, his expression slightly changing.

Another person beside him spoke, “Has Elder Li figured it out?”

“Dongshun, I’ve figured it out. Someone has obtained the physical body cultivation technique, but I can’t calculate who it is. The only people who can elude my calculations are Heavenly Prides. Heavenly Prides are protected by the universe, and no one can calculate information about them,” Elder Li said.

“No matter what, the physical body cultivation technique is extremely precious. Each one is an inheritance, an extra trump card!” the person named Dongshun said gravely.

Elder Li pondered, “Let Qing Zhan take action. That genius who got the physical body cultivation technique will surely leave the Ancient God Ruin. Have Qing Zhan hide among them. If any genius comes out, capture them immediately for interrogation.”

“Won’t this offend too many forces?” Dongshun frowned.

“Offended? So be it. For a physical body cultivation technique, our major forces are willing to hunt down a peerless Heavenly Pride. What’s the harm in making a move against some Heavenly Prides? Heavenly Prides should not be insulted? Haha, that’s just flattering them. How many of these Heavenly Prides can truly grow up? The universe’s protection for them only lasts until the Emperor-level. Once they reach the God level, some Heavenly Prides with low cultivation talents might remain at the God level for their entire lives. To us, they are but ants!” Elder Li said with a cold laugh.

“Elder Li, then I’ll make the arrangements,”

Dongshun said.

The Qing Zhan they mentioned was a well-known name in the Milky Way Galaxy – Qing Zhan Emperor, also known as Qing Zhan Heavenly Pride, a Supreme Emperor-level peerless Heavenly Pride.

There are not many peerless Heavenly Prides in the Milky Way, and most of them are elusive and hard to contact. Deploying a peerless Heavenly Pride is not an easy task.

...

Ancient God Ruin, Moro Race's Alternate Space,

Ye Tian was in the temple but hadn't gone out and couldn't stay there forever.

A voice from the temple told him he could only stay for a maximum of five days. Once five days passed, he would be moved out.

"Let's wait for five days to end. I must stay in the alternate space for a full ten days or kill ten Moro race emperors, but so far, I've only killed one Moro race emperor. There are God-level Moro race powerhouses outside, and I don't think I can defeat them, let alone kill nine more emperors. Once I go out, I'll probably have to use my death substitution talent. It's safer to stay here for five days, plus the almost one day I've already spent. Then, I only need to stay for four more days outside before I can leave. This is safer!"

Ye Tian estimated.

During these five days, he didn't plan to just cultivate there but to also integrate the Dawn-level claw technique talent he had just copied.

Chapter 336: Secret Technique Aura!

After spending some time, Ye Tian successfully integrated the Dawn-level claw technique talent, elevating his own claw technique talent to the Dawn level.

In the remaining time, Ye Tian planned to study the Nameless Physical Body Secret Technique.

Ye Tian took out the inheritance bead and entered the consciousness of the Nameless Physical Body Secret Technique inheritance bead. He was surprised to find that there were no restrictions on the Nameless Physical Body Secret Technique.

This meant that Ye Tian could not only cultivate it himself but also pass it on to others.

The value of such a physical body cultivation secret technique was immense, enough to become the inheritance of a top-tier power, or even to establish a top-tier power himself.

However, Ye Tian dared not carelessly share the unnamed physical body secret technique with others, nor leak even the slightest information about it, otherwise, the trouble would be immeasurable.

A day later,

Ye Tian had basically figured out the general cultivation method of the Nameless Physical Body Secret Technique. No matter what physical body cultivation secret technique, one must condense a secret technique aura within the body.

The secret technique aura is a special kind of aura. For example, the Purple Blood physical body cultivation secret technique can condense a Purple Blood aura. Martial warriors with the Purple Blood Saint body can use the Purple Blood aura to accelerate the cultivation of the Purple Blood Saint body, thus achieving a faster cultivation speed.

The Flame physical body cultivation secret technique can condense a Flame aura, which can absorb fire yuan qi energy to accelerate cultivation.

Ye Tian's Nameless Physical Body Secret Technique also needed to condense an aura, but this aura could absorb various types of mystic attributes to form an aura. The more mystic attributes, the stronger the aura, naturally enhancing the cultivation effect.

Ye Tian currently possessed several mystic attribute talents, such as metal, wood, water, fire, earth, wind, darkness, and light, with the light attribute coming from the Moon God talent, which belonged to a kind of dark light, a branch of light.

All these eight talents had reached the mystic level, and Ye Tian could replicate even more mystic attribute talents, enough to bring the unnamed physical body cultivation talent to an incredible level.

Of course, there was a limit to the auxiliary effect of the Nameless Physical Body Secret Technique. It couldn't keep strengthening indefinitely, but compared to other physical body cultivation secret techniques, the Nameless one was undoubtedly extraordinary!

After understanding the cultivation method of the Nameless Physical Body Secret Technique, Ye Tian began to try condensing the secret technique aura.

Although this clone would be discarded, trying it out wouldn't affect anything. After all, cultivating the Nameless Physical Body Secret Technique didn't require any cost.

Boom!!!

Ye Tian activated the Nameless Physical Body Secret Technique, and a dim aura phantom began to condense in the dantian. He then started to mobilize the Iron Armor talent, infusing the metal mystic attribute into the aura.

The wood mystic attribute!

The water mystic attribute!

The fire mystic attribute!

The earth mystic attribute!

The wind mystic attribute!

The darkness mystic attribute!

The light mystic attribute!

One by one, the mystic attributes merged into the secret technique aura. As the aura absorbed numerous mystic attributes, its light grew more and more intense, illuminating the entire dantian space.

The unnamed secret technique aura, formed by the eight great mystic attributes, could increase the cultivation speed by up to 16 times. This was much stronger than any Purple Blood, Xuan Turtle, or Fireflame physical body cultivation secret techniques.

By the time Ye Tian had mastered the Nameless Physical Body Secret Technique, three days had passed, and only one day remained.

In one day, there wasn't much that could be done, so Ye Tian continued to try cultivating the Nameless Physical Body Secret Technique.

He activated the secret technique aura and began to absorb the yuan qi from the air!

Boom!!!!

Streams of yuan qi were absorbed by the secret technique aura, transforming into even purer power that spread throughout his body, tempering it. This tempering was more thorough, and even the ordinary yuan qi, which had almost no effect before, now had some tempering effect.

This showed the incredible effectiveness of the Nameless Physical Body Secret Technique.

One day finally passed.

At this moment, Ye Tian felt the repulsion from the temple.

Whoosh!

The world shifted!

Ye Tian saw the light before his eyes and found himself outside the temple gate.

Swoosh swoosh swoosh!!!

The eyes of numerous members of the Moro race turned towards him, and the God-level powerhouse Mo Ang, who had been guarding the temple gate, also discovered Ye Tian immediately.

Although Ye Tian was disguised as an emperor-level Moro, none of the Moro present recognized him.

“Who are you? Why have I never seen you? Moreover, you dared to break into the temple without permission, which is a serious crime. Take him away and imprison him!” ordered the God-level powerhouse Mo Ang.

He was confident that under his command, an emperor-level tribesman would definitely not dare to defy him, otherwise, it would be a death sentence!

Throughout, he didn't realize there was anything wrong with Ye Tian's identity, which really showed how powerful the disguise talent was. It was very difficult to see through unless one possessed some special talent.

Mo Ang and the other Moro tribesmen might not have seen through his identity, but Ye Tian knew that his identity could not withstand scrutiny.

At this moment,

Two emperor-level Moro tribesmen came over, preparing to escort Ye Tian into the prison.

Ye Tian was very clear that he had to make a move now. He wanted to see if he had a chance to kill ten emperor-level warriors. If he could, he would immediately leave this alternate space, and there would be no need to use the death substitution talent.

He charged into the crowd.

“Starry Sky Annihilation!”

With a sword in hand, Ye Tian fiercely struck towards the location of those emperor-level Moro tribesmen, and his soul talent was also activated, sending a Soul Spike piercing towards one of the Moro emperor-levels.

In an instant, the Moro emperor-level who was attacked by Ye Tian's soul fell dead on the spot.

At the same time, Ye Tian's replication talent enveloped the area, using his talent selection to search for a high-level Immortality talent...

And Ye Tian was in luck; there was a high-level Immortality talent nearby.

"High-level Immortality Talent Replication!"

Ye Tian successfully replicated it and was overjoyed in his heart.

Starry Sky Annihilation shattered the space, and many Moro tribesmen were on the verge of death.

At this moment!

The God-level powerhouse Mo Ang took out a small bell, stabilizing the shattered space and greatly reducing the power of Starry Sky Annihilation.

"You're seeking death!"

Mo Ang was filled with killing intent.

There were very little Moro tribesmen, yet Ye Tian dared to kill Moro emperor-levels and release such a terrifying sword technique to kill tribesmen.

No matter who Ye Tian was, he must die!

Mo Ang threw a punch that covered the sky, his divine power enveloping his fist. Even Ye Tian's spatial confinement couldn't stop this punch.

From Mo Ang's dense divine power, it was evident that he had been cultivating at the God-level for a long time. His divine power was much stronger than those who had just ascended to God-level.

Moreover, Mo Ang's talents were also very strong, so his combat power as a God-level Mo Ang was many times stronger than Ye Tian's.

Ye Tian couldn't catch this punch!

Just as Mo Ang was about to reach Ye Tian, Ye Tian used his replication talent to instantly check the opponent's talents.

Moro Clan: Mo Ang

Cultivation Talent: Dawn

Strength Talent: Mystic

Defense Talent: Mystic

Speed Talent: Mystic

Fist Technique Talent: Morning Star

Immortality Talent: High-level

"High-level Immortality Talent!"

Another high-level Immortality Talent!

Ye Tian excitedly replicated the opponent's high-level Immortality talent and immediately activated the death substitution talent.

The death substitution talent began. Ye Tian's substitute body, which had been placed underground in an alternate space, instantly swapped places with his current body.

The death substitution talent was successfully executed, and the substitute body appeared at Ye Tian's current location, while Mo Ang's punch went straight through the chest of Ye Tian's substitute body.

Boom!

The substitute body exploded, turning into a mist of blood.

“???”

Mo Ang was somewhat puzzled. This person seemed to have decent strength, so how could he be so fragile that he burst with one punch?

“No!”

Mo Ang didn't see Moro tribe blood in this blood mist, but rather human blood.

“Damn it, this person is a human, an outsider!!!!”

Mo Ang was furious.

“What, the person just now was an outsider? No wonder we had never seen him before, and he even broke into the temple uninvited! Fortunately, Lord Mo Ang killed him, otherwise, disguised as one of our clan, he might have killed many of our tribesmen!”

The other Moro tribesmen were shocked.

What Mo Ang didn't mention was that Ye Tian wasn't dead!

Chapter 337: The Top-tier Immortality Talent!

The fact that an outsider trialist had infiltrated the alternate space was not a secret. But if Ye Tian was the trialist, killing him would result in a reward.

This was a rule set by an ancient deity!

However, Mo Ang had not heard any announcement of a reward, which indicated that the trialist was not dead.

Did this mean he had failed to kill Ye Tian?

“A clone, perhaps?” Mo Ang speculated.

There were countless talents in the world, and it was possible that the body he encountered was just a clone of the trialist, who was still alive.

If that were the case, he couldn't accept it!

Just now, another Emperor-level being died, adding to the previous loss. The Moro tribe had lost two Emperor-level beings, a major setback for them.

If they had killed the trialist and obtained the reward, such a loss would be insignificant. But the trialist was still alive and well, causing a significant blow to the Moro tribe's reputation.

Immediately,

Mo Ang contacted other God-level beings to report the situation.

Consequently,

The Moro tribe issued an order for all their Emperor-level beings outside to return for inspection.

Ye Tian's disguise talent was exposed, but the Moro tribe had its own methods. Once they recalled their Emperor-level clansmen, even if Ye Tian disguised himself as an Emperor-level Moro, he wouldn't be able to escape their scrutiny.

However, the Moro tribe never anticipated that Ye Tian also possessed the Stealth Ring, which could conceal his cultivation level. He could easily disguise himself not just as an Emperor-level Moro, but also as a Grandmaster-level, King-level, or Saint-level Moro.

Therefore, it was not easy for the Moro tribe to locate Ye Tian.

...

Somewhere in the Moro tribe's alternate space,

Ye Tian emerged from the ground and checked his body, sighing in relief.

He had successfully used his death substitution talent to escape, but this did not mean he was out of danger.

"My identity must have been exposed. They definitely know I'm not a true Moro. But if the news that I didn't die gets out, the Moro tribe will still search for me!" Ye Tian thought.

He didn't dare to take the risk. If he guessed wrong, his body would truly fall here.

So, Ye Tian disguised himself as a King-level Moro and flew in a certain direction.

Soon, he found a small city, entered it, and then settled into an uninhabited house.

This way, even if the God-level Moro went on an exhaustive search, they wouldn't be able to find him.

He just needed to stay quiet for four days before he could leave this alternate space.

"First, I'll integrate the two high-level Immortality Talents I just copied!" Ye Tian decided.

Half an hour later, he successfully integrated the two high-level Immortality Talents, causing a transformation in his Immortality Talent.

[Immortality Talent: Top-tier]

The top-tier Immortality Talent greatly increased Ye Tian's survival abilities. Even if he encountered a four-star genius, he had a chance to survive.

This venture into the ancient deity's ruins had brought unimaginable gains for Ye Tian!

A physical cultivation secret technique, a top-tier Immortality Talent, and a Dawn-level Claw Talent.

Just one alternate space brought such rewards to Ye Tian. If he ventured into more, wouldn't the gains be even greater?

But Ye Tian suppressed this thought and decided to give up moving forward.

Greed is one of the roots of disaster.

With his current strength, he couldn't even defeat three or four-star geniuses. If the subsequent alternate spaces were easy to traverse and the physical cultivation secret techniques were easy to obtain, then the geniuses from all major powers would have swarmed over.

Even peerless Heavenly Prides couldn't be sure of obtaining a physical cultivation secret technique. The fact that he had obtained one was already against all odds.

Such luck couldn't be repeated. If he continued to be greedy and ventured into other alternate spaces, the likelihood of his demise was very high.

In the following days, Ye Tian even gave up cultivating, simply wandering around the city.

During this time, the divine consciousness of God-level beings enveloped the entire area, causing quite a commotion.

Other Moro tribesmen were unaware of what was happening, but Ye Tian knew very well that these God-level beings were searching for him.

But they were doomed to fail!

Four days passed quickly, and with a fluctuation of spatial power, Ye Tian was transferred out, leaving the alternate space of the ancient deity's ruins.

Ancient God Ruins

Ye Tian appeared on a stone staircase here. He looked ahead at the distant path and shook his head.

“Let's go!”

Ye Tian turned and left. As he departed, he had to endure several killing formations, but he easily passed through them and finally left the Ancient God Ruins.

At this time,

He had already reverted to his human appearance but was still disguised as a common Emperor-level being.

Ye Tian chose not to fly out of the ruins but instead planned to venture through the True God Ruins. After all, despite obtaining the physical cultivation secret technique, he was still in need of resources.

The True God Ruins should contain plenty of valuable items, which he intended to explore.

So, for the next period, Ye Tian wandered through various parts of the True God Ruins, adventuring and entering various buildings in search of useful resources.

One day,

A genius, carrying injuries, emerged from the Ancient God Ruins. He was the Lifeless Heavenly Pride of Silver Universe Star.

“Damn it, I didn’t gain anything and nearly lost my life, sacrificing several life-saving items in the process!” The Lifeless Heavenly Pride was extremely frustrated.

But now, with his life-saving items depleted, he dared not continue, as it would surely lead to his death.

Swoosh, swoosh, swoosh!!!

The Lifeless Heavenly Pride passed through the True God Ruins and soon entered the starry sky.

He planned not to return, completely giving up on the Ancient God Ruins.

Suddenly,

A figure appeared in front of him.

The person was dressed in a blue robe, with long hair and blue eyes.

Seeing this person, the Lifeless Heavenly Pride’s face changed dramatically: “Qing Zhan, Peerless Heavenly Pride, why are you blocking my way?”

He was somewhat afraid!

The person before him was not just any Heavenly Pride but a Peerless Heavenly Pride, capable of instantly killing him.

“I received a message that a Heaven’s Pride obtained the physical cultivation secret technique, and I suspect it’s you!” Qing Zhan Peerless Heavenly Pride, said coldly to the Lifeless Heavenly Pride.

“What, someone else got the physical cultivation secret technique???” The Lifeless Heavenly Pride was shocked, his eyes widening with envy.

Why wasn't it him who obtained the physical cultivation secret technique?

If he had obtained the technique, he would have been...

"Wait, Qing Zhan Peerless Heavenly Pride blocking me, could it be he thinks I..."

Quickly realizing the implication, the Lifeless Heavenly Pride hastily explained: "Qing Zhan Peerless Heavenly Pride, I did not obtain the physical cultivation secret technique. Do you think someone with my strength could obtain it?"

"It's hard to say!" Qing Zhan Peerless Heavenly Pride, sneered. "Hypnosis!"

The power of the Hypnosis Talent surged, and the Lifeless Heavenly Pride's face changed as he quickly activated his soul treasure to resist the hypnosis power.

"Qing Zhan Peerless Heavenly Pride, you want to hypnotize me? Although you are a Peerless Heavenly Pride, you are only nearly invincible at the Emperor-level. Do you really want to contend with our Eternal Pavilion?" The Lifeless Heavenly Pride exclaimed.

"Let me hypnotize you voluntarily, or you will die today!" Qing Zhan Peerless Heavenly Pride, enveloped the Lifeless Heavenly Pride with his murderous intent, ready to act if he refused.

Feeling the full extent of Qing Zhan's murderous intent, the Lifeless Heavenly Pride conceded.

"I'll let you hypnotize me!"

The Lifeless Heavenly Pride lowered his head, stopped activating his soul treasure, and allowed Qing Zhan to hypnotize him.

Soon, the Lifeless Heavenly Pride was completely hypnotized.

After a round of questioning, Qing Zhan frowned: "It's not the Lifeless Heavenly Pride!"

He released the hypnosis, and the Lifeless Heavenly Pride woke up.

“Get lost!”

Qing Zhan snorted coldly, showing no respect for the Lifeless Heavenly Pride.

The Lifeless Heavenly Pride, filled with anger but mindful of their power gap, could only endure and turned to leave.

As days passed, twenty-some days flew by in a blink of an eye.

This day,

Ye Tian was ready to leave the True God Ruins!

Chapter 338: Rapid Progress, Four-Star Heavenly Pride!

Over the past twenty or so days, Ye Tian ventured through numerous areas within the True God Ruins, encountering danger several times. However, relying on his immortality talent and the ability to phase into space, he managed to evade several crises.

As for the gains, Ye Tian indeed reaped a rich harvest, acquiring numerous cultivation resources, ensuring he wouldn't need to worry about resources for a short period.

In reality, too many Emperor-level cultivators had flooded into the True God Ruins, with most areas being visited by them. Ye Tian had ventured into extremely perilous regions to obtain these resources.

Now, the resources within the True God Ruins were nearly depleted. Even if his soul transfer talent could continue to sustain him, he wouldn't stay there any longer.

Staying further would undoubtedly be a waste of time.

In a small attic within the True God Ruins, Ye Tian deactivated his soul transfer talent.

Instantly, his soul returned to his original body, which then reverted to its original state and collapsed into a corpse.

Even if someone were to come here later, they would only assume that this Emperor-level cultivator had encountered danger and perished here, without suspecting Ye Tian.

In the Tunjiang Planetary System, on an uninhabited planet.

Inside a temporary underground cave dwelling, Ye Tian awakened.

He moved his body, which hadn't moved for a month, and it creaked and groaned.

Nothing beats one's own body!

Ye Tian stretched for a while to acclimate to the reintegration of his soul and body.

He decided not to re-enter the ruins but instead left the Tunjiang Planetary System, temporarily distancing himself from this whirlpool.

After all, he had already obtained the secret technique of physical body cultivation he desired most and naturally didn't want to put himself in danger again.

After several transfers, Ye Tian finally returned to Silver Universe Star.

Upon his return, he first entered the virtual world of the Heavenly Pride Pavilion and quickly saw some surprising news in the discussion area.

He browsed through a few posts and was instantly shocked.

I've obtained the secret technique of physical body cultivation, and someone knows about it. However, they don't know it's me, just that a Heavenly Pride has acquired the secret technique of physical body cultivation! Ye Tian thought to himself.

What shocked him even more was that Heavenly Prides like Lifeless Heavenly Pride had been forcefully hypnotized by Qing Zhan Heavenly Pride for questioning. It seemed that all Heavenly Prides emerging from the Ancient God Ruins were captured by Qing Zhan Heavenly Pride, forcefully hypnotized, and if they resisted, they were killed outright.

Several Heavenly Prides, due to their pride, refused to be cultivated by Qing Zhan Heavenly Pride and were killed by him.

Because of this, a peerless Heavenly Pride couldnt stand by and engaged in a fierce battle with Qing Zhan Heavenly Pride, resulting in a major conflict.

In the end, both parties retreated with injuries.

In any case, no one knew Ye Tian had obtained the secret technique of physical body cultivation.

Fortunately, I possess the talent for disguise and soul transfer, or else I would have been exposed!

Ye Tian felt extremely fortunate.

After getting a basic understanding of the situation, Ye Tian no longer paid attention to it. No matter what impact the Ancient God Ruins might have, he couldnt be bothered anymore.

Now, he lacked neither resources nor the secret technique of physical body cultivation. His cultivation talent had reached the vast level, so he wasnt concerned about cultivation talent.

Thus, he just wanted to cultivate and quickly break through the sixteenth physical limit.

On the second day after his return, Ye Tian began to cultivate the Nameless Physical Body Secret Technique, easily condensing the secret techniques aura, mastering the Nameless Physical Body Secret Technique, and commenced his cultivation.

Of course, Ye Tian didnt spend all his time cultivating; he occasionally visited various giant cities to look for Mystic-level attribute talents. Mystic-level attribute talents werent hard to find; it was just that Ye Tian hadnt deliberately searched for them before.

Now, Ye Tian specifically sought out Mystic-level attribute talents and easily found them.

Besides the various attribute talents he already possessed, he also copied the Mystic-level Thunder Spear talent and the Mystic-level Ice talent.

As for other Mystic-level attribute talents, he copied some, but ultimately they were all of one attribute. For example, the Mystic-level Fireball talent and the Mystic-level Fire Dragon talent both belonged to Mystic-level Fire attribute talents. Although they could be fused into God-level talents, Ye Tian didn't lack Five Elements God-level talents.

In the universe, there were a few basic elements: metal, wood, water, fire, earth, wind, thunder, ice, light, and darkness. If time and space were included, but it was exceedingly difficult to elevate these two attributes to the Mystic level.

Ye Tian integrated the talents of all ten Mystic attributes into his secret technique aura, boosting the amplification effect of his physical cultivation secret technique to 20 times. Such a physical cultivation secret technique was extremely rare.

With this physical cultivation secret technique, Ye Tian's utilization rate of various resources reached an unbelievable level.

Furthermore, Ye Tian's cultivation talent was elevated to the Desolate level, coupled with a tenfold increase in time. As a result, Ye Tian's cultivation speed was many times faster than before.

Day by day, Ye Tian's progress was astoundingly fast!

Half a month later, Ye Tian successfully broke through the sixteenth limit of his body, achieving another breakthrough in strength. He did not go to the Heavenly Pride Tower to test his combat power, but he estimated that his strength had already entered the three-star Heavenly Pride level and was only one step away from the four-star level.

Such combat power would definitely rank at the forefront among the Heavenly Prides of Silver Universe Star, and even a three-star Heavenly Pride like Thunderous might not be his match.

With Ye Tians current combat power, if he were to return to Earth, even the demiGods among the powers of the Hall of Glory would not be his match.

Moreover, as the master of the Solar System, forces like the Dragon Clan and the Hall of Glory would be considered invaders, and he could expel these forces at any time. If they refused to leave, they would be violating the laws of the Milky Way, and he could apply for sanctions from the Solar Empire, or appeal to Silver Universe Star if the Solar Empire couldnt resolve the issue.

In short, he was no longer worried about those forces on Earth.

However, to ensure the secret of the Yuan Realm wasnt leaked, he couldnt return just yet. Otherwise, if those forces learned they were no match for him and leaked this secret, it would be disastrous for him!

Even a Yuan Realm drained of its potential would be highly coveted by the top powers of the Milky Way. If a host of beings stronger than True Gods descended on Earth, Ye Tian, as a mere Heavenly Pride, would not be able to compete with those major forces.

In the time to come, Ill focus on diligent cultivation. If I can break through another bodily limit before returning to Earth, that would be perfect! Ye Tian hoped.

Unfortunately, breaking through the seventeenth bodily limit was ten times harder than the sixteenth, requiring much more time. Even with ample resources, Ye Tians current talent meant that breaking through the seventeenth limit would take at least a year or two.

And he couldnt spend all this time on body cultivation; he also needed to cultivate other aspects, like the Sword Dao and Claw Dao.

In the blink of an eye, three months passed.

One day, Ye Tian made a breakthrough in the Sword Dao, elevating his mastery to 45%.

This was a significant breakthrough! At 45% mastery of the Sword Dao, Ye Tian could bring a God-level sword technique, the Ghost Blade, to the major realm and elevate the Starry Sky Annihilation to the perfected realm.

Once the Ghost Blade reached the major realm and Starry Sky Annihilation was perfected, Ye Tians strength would definitely reach the four-star Heavenly Pride level, and he wouldnt be far from the five-star level.

In the following half-month, Ye Tian rigorously cultivated the Ghost Blade and Starry Sky Annihilation, two God-level sword techniques.

With his top-tier talent for understanding and Dawn-level Sword Dao talent, he easily brought the Ghost Blade to the major realm and Starry Sky Annihilation to the perfected realm.

As expected, Ye Tians combat power underwent a transformation, reaching the four-star Heavenly Pride level, and he wasnt far from the five-star level.

Returning from the Ancient God Ruins in just a few months, Ye Tian had advanced from a two-star to a four-star Heavenly Pride, a rate of progress unimaginable to other Heavenly Prides.

But Ye Tian was not the least bit proud; his strength was still weak, far from a match for the peerless Heavenly Prides.

The peerless Heavenly Prides, huh? It wont be long before I reach that level too! Ye Tian murmured to himself.

Chapter 339: The Opportunity of a Planet's Birth!

His combat power had risen to the level of a four-star Heavenly Pride, making it quite difficult to make significant progress in the short term. Thus, Ye Tian decided to focus on improving his palm technique! He had copied the Moonlight-level palm technique talent from Lifeless Heavenly Pride and also acquired the Xumi Palm inheritance from the Mira Sutra, which provided a complete set of palm techniques ranging from Black Iron level to beyond God level. Ye Tian always felt that the Mira Sutra contained some secret, and by a stroke of luck, he obtained two pages from it, indicating that this wondrous object was fated to be with him! Hence, he aimed to master the Xumi Palm.

The Black Iron, Bronze, Silver, and Gold levels of the Xumi Palm were all relatively simple. With Ye Tians top-tier comprehension and the Moonlight-level palm technique talent, he quickly progressed through the ranks, reaching the Legendary level of the Xumi Palm in just

half a month and mastering the basics of the Legendary level. However, as comprehending the essence of palm techniques took time, his progress in palm techniques slowed down.

One day, Ye Tian entered the virtual world of the Heavenly Pride Pavilion, where all the Heavenly Prides were discussing something fervently. It was the opportunity of a planets birth! Ye Tian immediately went to the points store and saw the top opportunity listed on the first page the chance to witness the birth of a planet.

The Opportunity of a Planets Birth, requires 500 points to purchase!

500 points! Ye Tian was astounded. An opportunity like the Heavenly Blade Secret Realm only required 30 points, yet this opportunity of a planets birth demanded 500 points. What did this imply? The required points were excessively high for such an opportunity.

Soon, Ye Tian learned what the opportunity of a planets birth entailed. The universe was constantly expanding, gradually giving birth to galaxies, planetary systems, and planets, though this process was exceedingly slow. Located at the edge of the universe, was a new galaxy, next to the Milky Way. Humanity had occupied a portion of it, with Silver Universe Star claiming several smaller planetary systems.

Now, a new planet was about to be born within one of these smaller planetary systems, and it was a life-bearing planet. The birth of a life-bearing planet was a gift from the universe. During its birth, the fundamental rules of the universe would descend, allowing those who cultivated within the planet to easily comprehend various great Dao. In such circumstances, understanding the mysteries of swordsmanship, the Dao of the Sword, and other techniques could be significantly accelerated. For instance, a nine-star Emperor level individual wishing to fuse God-level talents could accomplish this on a newly born life-bearing planet.

Therefore, the birth of each life-bearing planet represented a significant opportunity. However, as life-bearing planets were newly born, they were under the universes protection, which did not allow too many beings to enter. In order to let Heavenly Prides enter, Silver Universe Star had to pay a great price: backlash from the universe. This required beings above the level of True God to withstand. The more martial warriors entered, the greater the backlash.

Hence, even the Heavenly Pride Pavilion could not allow too many Heavenly Prides to enter, making each spot incredibly precious. I need 500 points to purchase this opportunity, and I currently have only 360 points, lacking 140 points! Ye Tian calculated.

Earning 140 points was not difficult for him, as he had yet to challenge the second floor of the Heavenly Pride Tower. If he could clear the second floor, he would earn a reward of 200 points. With his four-star Heavenly Pride strength, even passing the third floor was within his capabilities.

Lets challenge the Heavenly Pride Tower first! Ye Tian could no longer wait.

With a whoosh, Ye Tian arrived at the second floor of the Heavenly Pride Tower and swiftly defeated his opponent. Not only did he achieve a three-star Heavenly Pride combat power rating, but he also earned a 200-point reward. By clearing the second floor of the Heavenly Pride Tower, Ye Tians rank on the Heavenly Pride Leaderboard leaped from 182nd to 98th.

This change in rank quickly caught the attention of many Heavenly Prides.

Heavenly Emperor of Ten Thousand Laws has risen to the 98th position on the Heavenly Pride Leaderboard. His strength has quickly reached the three-star Heavenly Pride level!

Heavenly Emperor of Ten Thousand Laws must have just cleared the second floor of the Heavenly Pride Tower, earning a 200-point reward. He couldnt possibly have gathered 500 points to purchase the opportunity of a planets birth, could he?

Its not just possible, its certain! Remember, Heavenly Emperor of Ten Thousand Laws had completed the mission of capturing the Black Wind Silver Emperor, which was worth 300 points. With just these two rewards, he has more than enough for 500 points!

In an instant, Ye Tian became the object of envy among the Heavenly Prides. After clearing the Heavenly Pride Tower, Ye Tian immediately purchased the opportunity of a planets birth in the points store, to avoid any unforeseen circumstances that could result in losing the chance, which would be a regret too late to amend.

After he clicked to confirm his purchase, he finally breathed a sigh of relief.

Having spent 500 points, Ye Tian now had only 60 points left.

Ding ding ding A series of messages came through.

Is someone looking for me? Ye Tian opened the messages to find that most of them were from people looking to borrow points.

Heavenly Pride of Ten Thousand Laws, Im just a few points short. You must have plenty of points. Can you lend me 80 points? Ill return 100 points to you later!

Heavenly Pride of Ten Thousand Laws, could you lend me 150 points? If you do, well be brothers from now on. If anyone troubles you in the future, I, Purple Thunder Heavenly Pride, will surely help you at the first instance!

Heavenly Pride of Ten Thousand Laws, can you lend me 70 points? I just need that much right now!

Theyre treating me like a fat sheep! Ye Tian frowned.

Points were extremely precious, and here they were, shamelessly asking to borrow them! Although he had an extra 60 points, who knows when they might come in handy? For instance, had he not had enough points this time, wouldnt he have missed this opportunity with the birth of a new planet? Similarly, if a great opportunity arose in the future and he was short by just 60 points, wouldnt he regret lending them out today? Moreover, once points were lent out, getting them back was another matter.

No loans!

It was impossible for Ye Tian to lend them, but he couldnt just refuse bluntly. So, he replied to each one:

I dont have 500 points either. Ive spent all my previous points on some sword techniques and treasures. Im actually short a few dozen points myself. If you have any extra points after a while, could you lend me some?

His response was the same to all the Heavenly Prides. Whether they believed it or not was another story. Soon, these Heavenly Prides received Ye Tians replies, and their expressions turned sour.

At the residence of Thunder Roar Heavenly Pride, he too saw Ye Tians reply and was infuriated:

Damn Heavenly Pride of Ten Thousand Laws, you've earned so many points, how could you be short of them? I only asked to borrow a few dozen points, and you wouldn't even lend them to me!

Thunder Roar Heavenly Pride didn't consider whether he would lend points to others if he had extra. It was impossible!

Being inherently selfish, he would never lend points to other Heavenly Prides unless they offered him a very satisfying price. Now, with over two months left until the birth of the planet and only one month before they had to set off, the Heavenly Prides had only one month left. There weren't many tasks they could complete in a month, but with the full support of various forces, they could still complete some.

Whether they could gather 500 points in time depended on the circumstances. Half a month passed in a flash.

One day, Great God Zilun paid a visit to Ye Tian, personally coming to his residence.

Ye Tian received Great God Zilun.

Great God Zilun, you must have something important to discuss, right? Ye Tian asked.

Great God Zilun showed a bit of embarrassment and said, Heavenly Pride of Ten Thousand Laws, I wanted to ask how many points you have left from the Heavenly Pride Pavilion, if it's not too inconvenient to answer?

Suddenly, Ye Tian's expression changed slightly, and he said sternly, Great God Zilun, you're not acting as a go-between for the other Heavenly Prides, trying to get me to lend them points, are you?

Great God Zilun hurriedly explained, It's not about borrowing points, but a trade. Unfortunately, a powerful figure approached us at the Qingfeng Giant City Lords Mansion, and my father couldn't refuse, which is why I came to you. But rest assured, the other party has a vast influence. If there's anything you need, you could use this opportunity to trade.

A trade? Ye Tian pondered. If the other party could offer something

Chapter 340: Trading for Spatial Divine Metal!

Trading is also an option, but I really don't have many points on hand, just 60 points!

Ye Tian confessed.

He did not hide anything from Great God Zilun, nor did he need to, especially since he truly had the intention to trade, so he couldn't just report his points arbitrarily.

60 points, that's enough!

Great God Zilun nodded slightly, then added, Heavenly Pride of Ten Thousand Laws, if you wish to trade, just mention what you want to trade for. I will negotiate with that force to see if they agree. In my opinion, even if your demands are a bit excessive, they should still agree.

Let me think!

Ye Tian began to ponder.

Ordinary treasures did not interest him; he had to trade for something he truly desired, or else he wouldn't trade his points away.

But what treasure should he trade for?

He didn't need weapons.

He wasn't lacking in cultivation resources for the time being.

He also wasn't lacking in sword techniques or claw techniques, and even less so in palm techniques.

As for secret techniques for physical cultivation, he had them, and even if he had more points, others wouldn't trade their physical cultivation secret techniques unless they were foolish.

Seeing Ye Tian silent for a long time, Great God Zilun knew that Ye Tian was caught in a dilemma, unsure of what to choose, so he suggested, Heavenly Pride of Ten Thousand Laws, if you are unsure what to trade for, I suggest you trade for Spatial Divine Metal!

Spatial Divine Metal?

Ye Tian heard this term for the first time and was somewhat puzzled.

Great God Zilun explained, Spatial Divine Metal is a special kind of metal, extremely tough and containing spatial power. The key is that it can aid those with spatial talents in comprehending the power of space, and it can also be used to forge spatial divine artifacts. Divine artifacts are above Dawn-level weapons, with spatial divine artifacts being even more powerful! Heavenly Pride of Ten Thousand Laws, with your Pseudo-Mystic level spatial talent, a spatial divine artifact would be of great help to you. Therefore, I recommend you choose Spatial Divine Metal!

Great God Zilun, Im not very familiar with the value of Spatial Divine Metal. How much do you think I should trade for? Ye Tian asked.

Great God Zilun silently calculated for a moment, then said, Spatial Divine Metal is extremely precious. Some major forces, when refining fortresses or temples, would add a bit of Spatial Divine Metal to create vast spaces within the temples. Such a treasure is immensely valuable. You only have 60 points, and even if that force is in dire need of points, they wouldnt ask for too much. In my opinion, you could ask for 1 jin (0.5 kg) of Spatial Divine Metal!

1 jin, that little?

Ye Tian frowned.

Not little at all! Great God Zilun explained, Spatial Divine Metal is inherently light, 1 jin of Spatial Divine Metal is roughly the size of half a palm. Even we in Qingfeng cannot produce so much Spatial Divine Metal; only that vast force would have such a foundation.

Alright, then Ill trade 60 points for 1 jin of Spatial Divine Metal!

Ye Tian proposed.

Good, Ill communicate with that force right away!

Great God Zilun left.

Afterward, Ye Tian entered the Heavenly Pride Pavilion virtual world and used the virtual network to look up Spatial Divine Metal.

Just as Great God Zilun said, this metal was extremely precious, not available for trade in the outside world, and not even the Heavenly Pride Pavilions points mall had such a treasure for sale.

Under normal circumstances, his 60 points wouldnt even be enough to trade for a couple of ounces of Spatial Divine Metal.

This time, due to the birth of a planets opportunity, many Heavenly Prides needed points, making points so precious; otherwise, he wouldnt have had the chance to trade for Spatial Divine Metal.

Once he obtained the Spatial Divine Metal, he could not only use it to comprehend spatial mysteries faster but also forge a spatial divine artifact. With such an artifact, his spatial abilities would be greatly enhanced, significantly boosting his combat power and overall strength.

Time passed by little by little.

On the third day, Great God Zilun returned!

Heavenly Pride of Ten Thousand Laws, that force has agreed! Great God Zilun announced upon arrival.

They agreed!!!

Ye Tian felt relieved and eagerly asked, How will we trade?

Great God Zilun replied, The trade will be conducted face-to-face at the Heavenly Pride Pavilion branch on Tianzhan Continent!

With whom will I be trading?

Ye Tian asked further.

After pondering for a moment, Great God Zilun decided to say, With the Lifeless Heavenly Pride!

Its him!

Ye Tian was somewhat surprised.

He had copied the Moonlight-level palm technique talent from Lifeless Heavenly Pride, and now he was about to trade with him again. However, he had heard that Lifeless Heavenly Pride had lost face at the Ancient God Ruins, failing to gain any advantage and even being hypnotically interrogated by Qing Zhan Heavenly Pride, which was a significant loss of face! Of course, he wouldnt deliberately bring up this matter with Lifeless Heavenly Pride. This time, the discussion would solely focus on the trade, nothing else.

Lifeless Heavenly Pride belonged to the Eternal Hall, one of the top forces in Silver Universe Star. They controlled a main city, while the Qin family only controlled a giant city, a significant gap from a power like the Eternal Hall. It wasnt surprising that the Eternal Hall possessed Spatial Divine Metal; with the support of the Eternal Hall, Lifeless Heavenly Pride naturally didnt need to worry about points. This is the advantage of being a Heavenly Pride from a great force!

Yet, Ye Tian felt no envy. Everyone had their own fate, and his was undoubtedly many times better than that of Lifeless Heavenly Pride. If others knew of his talent-copying ability, they would probably die of jealousy!

After Great God Zilun left, Ye Tian also set off for the Heavenly Pride Pavilion branch.

Before long, he arrived at the Heavenly Pride Pavilion branch in the main city of Tianzhan. Upon entering, he immediately saw Lifeless Heavenly Pride.

Lifeless Heavenly Pride!

Heavenly Pride of Ten Thousand Laws!

Ye Tian and Lifeless Heavenly Pride greeted each other simultaneously, without further ado, they began the trade.

This is Spatial Divine Metal! Lifeless Heavenly Pride opened a box containing a piece of Spatial Divine Metal, Transfer 60 points to me, and this piece of Spatial Divine Metal is yours!

Ye Tian examined it and used his treasure-hunting talent to confirm it was genuine Spatial Divine Metal, then immediately said, Okay, Ill transfer 60 points to you right away!

A trace of Ye Tians consciousness entered the virtual world and transferred 60 points to Lifeless Heavenly Pride. The points were quickly credited.

After receiving the 60 points, Lifeless Heavenly Pride immediately handed over the Spatial Divine Metal to Ye Tian, Heavenly Pride of Ten Thousand Laws, its a pleasure doing business with you!

Pleasure doing business! Ye Tian also smiled slightly.

Without much further conversation, they parted ways.

Returning to Qingfeng Giant City, Ye Tian couldnt wait to study the Spatial Divine Metal.

In the cultivation room.

Holding the Spatial Divine Metal, Ye Tian sensed the spatial aura emanating from it.

Indeed, its the power of space; the entire piece of Spatial Divine Metal is composed of spatial power, yet it contains the characteristics of metal. What a miraculous treasure! Ye Tian exclaimed.

He then used the Spatial Divine Metal to comprehend the mysteries of space.

Half an hour later, Ye Tian finished his comprehension.

It can almost double the comprehension effect, which is quite good considering the spatial mysteries are very difficult to understand. The true use of Spatial Divine Metal is to forge spatial divine artifacts! Ye Tian murmured to himself.

Forging a spatial divine artifact was extremely difficult; he wasnt capable of doing so. Even if he copied someone elses artifact-refining talent, mastering artifact-refining wasnt instantaneous; it required a lot of practice to improve.

And he couldnt afford to waste too much time learning to refine artifacts; he could only wait to find a God-level artifact refiner in the future to help him forge a spatial divine artifact.

But God-level artifact refiners were rare, and even if he found one, he wouldnt be comfortable entrusting them with the Spatial Divine Metal, nor would they necessarily accept his commission.

The time for the planets birth opportunity is approaching; Ill look for someone to refine the spatial divine artifact after I return! Ye Tian thought to himself.

In a blink of an eye, another ten or so days passed.

That day.

The Heavenly Pride Pavilion sent a notification that the Heavenly Prides who had purchased the planets birth opportunity were to gather at the headquarters.

They were about to depart!
