

Talent 341

Chapter 341: Three Great God-Level Powerhouses!

The headquarters of the Heavenly Pride Pavilion was located in the Silver Universe Main City on the Silver Universe Continent. The only teleportation array from Tianzhan Continent to the Silver Universe Continent was in Tianzhan Main City. Therefore, Ye Tian first went to Tianzhan Main City and then applied to use one of Tianzhan Continents teleportation arrays to teleport to the Silver Universe Main City on the Silver Universe Continent.

Silver Universe Main City, the headquarters of the Heavenly Pride Pavilion.

Upon arriving, as Ye Tian stepped into the headquarters of the Heavenly Pride Pavilion, he saw various Heavenly Prides, some of whom he had met before, but most were strangers to him.

The number of Heavenly Prides that came here was not large. Although there were more than three hundred Heavenly Prides in Silver Universe Star, only a few could gather 500 points.

At this time, including Ye Tian, there were only 32 Heavenly Prides at the headquarters.

Ye Tians arrival aroused some hostility among the Heavenly Prides.

Under the influence of his good-evil talent, Ye Tian could clearly sense the hostility from some Heavenly Prides, with one in particular having the most intense hostility towards him, as if they were sworn enemies.

Thunder Roar Heavenly Pride!

Ye Tian discreetly glanced at the most hostile Heavenly Pride, recognized his identity, and frowned slightly.

He did not believe he had any feud with Thunder Roar Heavenly Pride, yet the hostility was palpable.

He was well aware that such hostility meant that given the chance, Thunder Roar Heavenly Pride would definitely make a move against him.

Hmph, if you dare to make a move against me, you will surely be the one to die! Ye Tian thought to himself.

As for the subtle hostility from other Heavenly Prides, he knew the reason might be due to his refusal to lend points to them, but this was trivial. Their hostility was very weak, at most a bit of displeasure.

After waiting for another half hour, ten more Heavenly Prides arrived.

Thus, the number of Heavenly Prides reached 42.

Among these 42 Heavenly Prides, Thunder Ling Heavenly Pride was the strongest, being the only six-star peerless Sovereign Emperor-level Heavenly Pride in Silver Universe Star. He was ranked first on Silver Universe Star Heavenly Pride list.

Having the opportunity to closely observe a peerless Heavenly Pride for the first time, Ye Tian naturally wanted to see his talents.

Although the Heavenly Pride Pavilion headquarters suppressed his copy talent, Ye Tians range could still reach 200 meters, so he only needed to get within 200 meters of the target.

Soon, Ye Tian checked the other partys talents.

Human: Zhao Ling

Cultivation Talent: Supreme

Strength Talent: God Level

Light Speed Talent: God Level

Defense Talent: God Level

Light Armor Talent: Mystic

Spear Technique Talent: Dawn

Super Weight Talent: God Level

Healing Talent: Mystic

A series of talents surprised Ye Tian. Compared to ordinary Heavenly Prides, this peerless Heavenly Prides talents were indeed very strong.

Several talents piqued Ye Tians interest, such as the Light Armor Talent, which used light to form a set of armor to enhance defense, which was excellent.

The God-Level Super Weight Talent was almost an advanced version of gravity talent, capable of creating an incredibly formidable gravity field, very useful for suppressing the enemys strength. Even Ye Tians current spatial confinement wasnt as powerful as the God-Level Super Weight Talent, given that this peerless Heavenly Pride had already broken through the seventeenth body limit, making the power of his talent naturally very strong.

There was also the Mystic-Level Healing Talent, which Ye Tian needed. His current healing talent was only at the Pseudo-Mystic level, and now he could copy the others Mystic-Level Healing Talent to elevate his healing talent to the Mystic level.

Without hesitation.

Ye Tian immediately copied Thunder Ling Heavenly Prides Mystic-Level Light Armor Talent, God-Level Super Weight Talent, and Mystic-Level Healing Talent, enhancing his own talent foundation.

Time passed by, and after another two hours, a voice announced: Everyone, proceed through the Heavenly Pride Pavilions second-floor teleportation array to the No. 5 Space Fortress!

As the voice faded, the Heavenly Prides entered a huge teleportation array on the second floor of the headquarters.

In one go, all the Heavenly Prides were teleported away.

The next moment

All the Heavenly Prides arrived at the No. 5 Space Fortress. Outside Silver Universe Star, on the vast space plaza of the No. 5 Space Fortress, a colossal cosmic warship was docked. This warship was far superior to ordinary spaceships; each piece of metal on it was not ordinary but a highly precious cosmic alloy capable of withstanding God-level attacks. Moreover, the warship was engraved with countless law patterns, making it likely impervious to damage even from True God-level powerhouses.

Boom! A series of figures suddenly appeared in mid-air, looking down at the Heavenly Prides below.

True Gods! Ye Tians gaze sharpened as he recognized their identities all were True God-level powerhouses, probably not ordinary ones. A total of eighteen True Gods had descended.

Suddenly, three towering figures also appeared, and the True Gods bowed to them in respect. Clearly, these three were even more powerful beings.

They must be on the same level as the lord of Qingfeng Giant City, perhaps even stronger! Ye Tian speculated.

Lets go inside! One of the three leaders, a middle-aged man, spoke.

The doors of the cosmic warship opened, and the Heavenly Prides flew inside, followed by the True Gods.

Inside the ship, in a large hall, the Heavenly Prides gathered and discussed among themselves. Their conversation turned to the three leaders.

Who do you think those three were?

They must be Great God-level powerhouses. Perhaps they're among the most formidable in their rank!

Heh, I recognize one of them; he's the third city lord of the Silver Universe Main City on the Silver Universe Continent, a senior in the Heavenly Pride Pavilion. He is indeed a Great God, but he's said to be terrifying even among Great Gods, having slain more than a dozen Great God-level powerhouses!

So, it's his truly fearsome being. The other two must be no less formidable. It's incredible that three such Great God-level powerhouses were mobilized this time!

Many Heavenly Prides marveled at the strength of the three Great Gods. Ye Tian listened and understood the rough identities and strengths of the three.

Great God was a level above True God. Dawn-level cultivators could only become Gods, Supreme-level could only become True Gods, and Desolate-level cultivators could become Great God-level powerhouses. Ye Tian, currently a Hong-level cultivator, could potentially reach beyond Great God-level with continuous cultivation, but that required time. Ascending from Emperor-level cultivation to God-level was not easy, involving countless resources and hardships.

Many martial warriors had sufficient talent, but very few truly grew to such heights, making each Great God worthy of respect and awe from countless Emperors and Gods. The lord of Qingfeng Giant City was also a Great God, but probably much weaker compared to these three Great Gods, especially since one of them was the third city lord of the Silver Universe Main City, a much higher status than the lord of a Giant City.

The presence of three Great Gods and eighteen True Gods indicated the importance Silver Universe Star places on the opportunity of the planet's birth.

The doors closed, and the cosmic warship took off, quickly leaving Silver Universe Star and traversing the cosmos, crossing galaxy after galaxy at a speed far surpassing ordinary spaceships.

Half an hour later, a True God's voice announced, All Heavenly Prides, please note, the spaceship will soon enter the spatial turbulence between the Milky Way Galaxy and the Mota Galaxy. Since the technological level of the Milky Way is insufficient for inter-galactic travel, we can only slowly pass through the spatial turbulence. It is estimated to take about a month to

cross, and during this time, significant pressure will penetrate the cosmic warship, so please be aware.

Spatial turbulence? Ye Tian knew the term but hadn't expected inter-system barriers like spatial turbulence, explaining the rarity of interstellar travel between systems. With a loud rumble, the warship shook violently, marking its entry into the spatial turbulence. The next moment, a powerful pressure swept through, causing discomfort among the many Heavenly Prides.

Chapter 342: Above Great God!

Although the pressure was formidable, it was nothing to the Heavenly Prides, but an average Emperor level might not be able to withstand such pressure. This shows that without significant strength, one couldn't even leave the galaxy.

A month's time is neither long nor short.

Naturally, these Heavenly Prides couldn't spend a whole month just chatting. Soon, they each left the hall, found a battleship cabin for themselves, and began their closed-door cultivation.

Ye Tian also found a cabin, set up a simple soundproof and warning array, and started his closed-door cultivation.

First, I'll integrate the three talents I copied earlier!

An hour later.

Ye Tian integrated the God-level Light Armor talent, God-level Super Weight talent, and Mystic-level Healing talent.

In the following time, Ye Tian pondered the mysteries of space every day. Perhaps because he was in the midst of spatial turbulence, with the help of space divine metal, his understanding speed was much faster than before.

However, even so, Ye Tian did not expect himself to be able to improve his understanding of spatial mysteries from forty percent to fifty percent. He was just trying to gain a deeper understanding of his spatial abilities to make them more handy.

Additionally,

Ye Tian often pondered over palm techniques and claw techniques.

Just like this, a month quickly passed by.

In this month, Ye Tian made slight progress in spatial compression, spatial disturbance, spatial orbs, and spatial phasing, but the most significant improvement was in his palm techniques and palm methods.

Now, his mastery of palm techniques had grown to twenty-three percent, and he had cultivated the Legendary-level Mirage Palm to the major realm.

One day,

Suddenly, the cosmic battleship shook again, and then the oppressive force in the void disappeared, making all the Heavenly Prides feel relieved.

Everyone knew that the cosmic battleship had flown out of the spatial turbulence and entered the Mota Galaxy.

The Mota Galaxy was a newly born galaxy at the edge of the universe, much smaller than the Milky Way, but its resources were very abundant. Moreover, this time a new life-bearing planet was born, an opportunity that the Milky Way didn't have.

Although the Milky Way was also near the edge of the universe, it was a relatively complete galaxy, and it was almost impossible for new planets to be born.

After entering the Mota Galaxy, the cosmic battleship continued to shuttle, heading to a galaxy occupied by the Milky Way.

About ten minutes later, the cosmic battleship reached its destination.

Destination reached, all Heavenly Prides, descend!

The voice of a True God came.

With a click!

The door of the cosmic battleship opened, and the Heavenly Prides flew out, landing in the starry sky.

At this moment,

Everyone was near a sun, and not far from the sun, there was a huge vortex, within which was unimaginable yuan qi.

And in the vortex, a planet was being nurtured. At this moment, the outline of the planet could already be seen, and the materials on the planet were about to be born.

Clearly, this planet was about to be born.

Witnessing the birth of a planet, many Heavenly Prides were stunned, staring at the vortex.

Just then,

The third city lord of Silver Universe City spoke, It will be about ten days before this planet is born. You all wait here!

Yes!

The Heavenly Prides responded.

Originally, Ye Tian and the others thought that the opportunity of this planets birth was an opportunity exclusively for Silver Universe Star, and only the Heavenly Prides of Silver Universe Star would come. However, they soon realized they were wrong.

On the third day,

Boom!

The distant starry sky shook, and a golden battleship emerged from space.

Then, two Great Gods appeared, bringing two peerless Heavenly Prides.

Qing Zhan Heavenly Pride!!!

Lifeless Heavenly Pride showed a look of hatred, staring intently at one of the two Heavenly Prides.

From the whispers of the other Heavenly Prides, Ye Tian learned the origins of the two Heavenly Prides, who were Qing Zhan Heavenly Pride and Ming Kong Heavenly Pride.

These two Heavenly Prides were not from Silver Universe Star, yet they had come here, clearly indicating that the major forces behind them had made a deal with Silver Universe Star, likely at a great cost.

Not long after, Heavenly Prides from the other eight major planet descended one by one. The number was not large, with one or two Heavenly Prides from each major planet, but those who came were mostly peerless Heavenly Prides or five-star Heavenly Prides.

On these Heavenly Prides, Ye Tian observed a Dawn-level Palm Technique talent and a Dawn-level Sword Technique talent, and he copied these two talents.

Ye Tian was very interested in the Dawn-level Sword Technique talent. If he could copy another Dawn-level Sword Technique talent, his sword technique talent could undergo another transformation.

Unfortunately, after searching everywhere, he didnt find a second Dawn-level Sword Dao talent.

As the Heavenly Prides from the nine major stars had almost all arrived, Ye Tian and the others thought no one else would come.

But at that moment,

A loud laugh echoed.

I hope I'm not too late? said the voice.

As the voice faded, an old man accompanied by a young girl approached.

The young girl's cultivation was not high, merely having just stepped into the Emperor level, but no one dared to underestimate her, simply because the old man escorting her was no ordinary individual.

Greetings to Elder Yun! one Great God after another bowed respectfully.

Who is this person? many Heavenly Prides secretly marveled, growing curious about the old man's identity.

These were no ordinary Great Gods; even the third city lord of Silver Universe City on Silver Universe Star showed great respect to him, treating him as if he were a junior.

In the strength-oriented Milky Way, the respect from these powerful beings was certainly not due to the old man's age but rather his strength.

This implied that the old man might be a being even beyond the Great Gods.

And a girl personally escorted by such a being, naturally, had an extraordinary status, possibly being his disciple or descendant.

As the elderly figure drew closer, Ye Tian became excited.

Here in the cosmic space, his talent-copying ability was not suppressed and could cover a range of tens of thousands of miles.

Once the old man entered his range, he could check his talents and perhaps copy some extraordinary ones.

Closer and closer!

Finally, the elder stepped into Ye Tians range.

Check!

Ye Tian activated his talent-copying ability to inspect the elders talents.

Human: Yun Chen

Cultivation Talent: Hong level

Strength Talent: God level

Defense Talent: God level

Speed Talent: God level

Spear Talent: Dawn level

Destruction Eye Talent: Mystic

With a Hong-level cultivation talent, he can definitely cultivate beyond the Great God level given his talents. And considering his old appearance and likely advanced age, he probably doesnt have much lifespan left, indicating he has most likely cultivated beyond the Great God level!

Without a second thought, Ye Tian immediately copied the elders Hong-level cultivation talent, and also his Destruction Eye Talent.

Although the Destruction Eye Talent might not be of much help to him, following the principle of not wasting, he copied it anyway.

As for the girl accompanying Elder Yun, Ye Tian also checked her talents.

Human: Yun Xi

Cultivation Talent: Desolate level

Strength Talent: Mystic

Defense Talent: Mystic

Speed Talent: Mystic

Sword Talent: Dawn level

From the talents, this girl named Yun Xi also had impressive potential. The absence of God-level talents was probably due to her short cultivation period. With the help of this planet's birth legacy, she might develop one or two God-level talents.

Yun Xi, Yun Chen, both surnamed Yun. She must be the elders descendant! Ye Tian thought to himself.

A newly advanced Emperor-level girl obtaining the chance to comprehend this planet's birth was somewhat frowned upon by many Heavenly Prides, but they said nothing.

With the elder being so revered by the Great Gods, they dared not speak carelessly, fearing to provoke his anger, as no one could save them then.

Time slowly passed, and two days went by.

Boom!

The vortex began to shake, and the planet fiercely absorbed countless yuan qi and cosmic particles, accelerating the planets birth.

Everyone, pay attention. This life-bearing planet is about to be born! the voices of Great God-level powerhouses echoed through the cosmos.

Chapter 343: Sixty Percent Mastery of Spatial Mystery!

The planet is about to be born!

Ye Tians gaze was fixed on the vortex, witnessing this scene.

The vortex began to retract wildly, with shockwaves radiating outwards. These shockwaves werent particularly strong; the Heavenly Prides could easily block them with just their physical bodies.

Suddenly.

The vortex completely vanished, leaving a star quietly situated in the cosmos.

At this moment, the planet was incredibly serene, almost devoid of life, yet teeming with vitality.

Importantly, it was abundant in water resources, the air was exceptionally fresh, and the concentration of yuan qi was notably high.

In such an environment, it wouldnt be long before some weaker life forms emerged, gradually evolving.

However, the birth of intelligent life on this planet would likely take eons.

Ye Tian and the others werent concerned with this; their focus was on the opportunity at hand.

The Universes gift is about to emerge!

A Great God spoke up.

As his voice fell, a beam of light appeared out of the void, enveloping the entire planetary world.

The planet was wrapped in a layer of light, with various laws coming into existence one after another, as the rules of the world were being shaped.

In other words, the Universe was remodelling this life-bearing planet.

Its time to let them enter the planets interior!

A Great God suggested.

Agreed!

The other Great Gods nodded in unison.

At this moment, one of the Great Gods turned to Elder Yun: Elder Yun, as previously agreed, this time you will personally act, bearing fifty percent of the Universes backlash, in exchange for a spot!

Rest assured, I wont go back on my word! Elder Yun stated.

Woosh woosh woosh!

One by one, the Great Gods appeared outside the planet, with Elder Yun standing at the forefront.

Destroying a planet was simple for a Great God-level powerhouse, but this time, they had to tear through the protective barrier under the Universes watch. This act went against the Universes laws, naturally incurring its backlash.

Without the Universes backlash, any Great God could easily tear through a planets light screen. Even the Emperor-level Heavenly Prides could achieve this.

Boom boom boom!

Elder Yun and the many Great Gods made their move.

Instantly, the cosmos changed color.

With a hiss, the planets light screen was torn apart, and the Universes laws began to assault the Great Gods and Elder Yun.

Elder Yun bore fifty percent of the backlash force by himself, while the other Great Gods, despite only suffering a minor part of the backlash, turned pale.

The Universes backlash was not something just anyone could endure; True Gods couldnt withstand it at all, even a slight touch of the backlash force would lead to their demise. Only Great God-level beings were qualified to bear the Universes backlash.

Send them in!

The Great Gods declared.

Before Ye Tian and the others could inquire further, one after another, the True Gods activated their divine powers, hurling the Heavenly Prides into the planets interior.

By the time Ye Tian realized what was happening, he was already standing in the skies within the planet.

At that moment.

He saw lines of laws above the sky, the Universes laws fully revealed atop this planet.

Ye Tian closed his eyes, deeply sensing the various forces of laws. If he were to comprehend the various mysteries in such an environment, his speed would be unimaginably faster.

Time power!

Space power!

Ye Tian was overjoyed.

Among these many Universal laws, he sensed the powers of time and space, and they were incredibly distinct.

Swoosh swoosh swoosh!

One after another, the Heavenly Prides flew towards various parts of the planet, establishing their own caves, ready to enter seclusion and cultivate.

Ye Tian too flew onto a mountain peak, casually establishing a cave abode for himself.

Ye Tian didnt immediately start comprehending the mysteries; instead, he integrated the talents he had copied earlier.

Hong-level cultivation talent, successfully integrated!

Dawn-level swordsmanship talent, successfully integrated!

Dawn-level palm technique talent, successfully integrated!

After integrating these talents, Ye Tian began his comprehension.

While others might comprehend the mysteries of speed, fire, wind, or thunder, Ye Tian chose not to delve into these but instead focused on the spatial mystery.

As for the temporal mystery, he hadn't grasped it yet and couldn't commence its comprehension because only those with top-tier temporal talents are qualified to understand the temporal mystery. His temporal talent was still at a high-tier level.

Therefore, he could only comprehend the spatial mystery at the moment.

Temporal talent activated, tenfold time acceleration!

Top-tier comprehension talent, twentyfold comprehension enhancement activated!

With the assistance of both the temporal talent and top-tier comprehension talent, coupled with the aid of spatial divine metal, and being in the midst of the planet's birth opportunity while feeling the Universe's gift, Ye Tian's speed in comprehending the spatial mystery was unimaginably fast.

Days passed, and Ye Tian's understanding of space deepened.

Previously, the difficulty in comprehending the spatial mystery was not only due to intelligence and time but more importantly, the lack of a reference point, not knowing how to proceed further, which made comprehension challenging.

But now, with the cosmic spatial laws manifesting, he had a reference point, making the comprehension naturally effortless.

A month later, Ye Tian's spatial mystery progressed by ten percent, from forty percent to fifty percent mastery of the spatial mystery.

Subsequently, Ye Tian developed a new ability for his fifty percent Pseudo-Mystic spatial talent.

In just five days, Ye Tian successfully developed a new technique for the fifty percent Pseudo-Mystic spatial talent Spatial Barrier!

The Spatial Barrier is a defensive measure that can block enemy attacks and can be deployed over a large area.

Developing this new technique greatly enhanced Ye Tians survival capability. Since his spatial talent reached fifty percent Pseudo-Mystic level, his spatial abilities greatly improved, thus significantly boosting his strength.

According to Ye Tians estimation, he had barely stepped into the five-star Heavenly Pride level.

Then, Ye Tian continued to comprehend the spatial mystery.

Outside the planet.

The Great Gods and Elder Yun were recovering from the injuries caused by the backlash, chatting while healing.

Elder Yun, how long do you think this Universes gift will last?

A Great God asked.

Elder Yun quietly deduced for a moment and said, According to my estimate, it should last about a year. This life-bearing planet is currently only a mid-tier life-bearing planet. The Universes gift cannot possibly last more than a year and a half. This time, we sent quite a few Emperor-level beings in, which affected the Universes gift, so I estimate the duration will be reduced to a year!

The other Great Gods nodded in agreement; this duration was close to their own estimates.

A years time is a significant opportunity for these Heavenly Prides. With some luck, its enough to give birth to one or two God-level talents. Some peerless Heavenly Prides who came specifically to cultivate martial techniques could bring a God-level martial technique to a perfected level, and even have a chance to cultivate a Super God-level martial technique.

In short, all these Heavenly Prides could make significant progress.

What these Great Gods looked forward to the most was the advancement of six-star Heavenly Prides to seven-star Heavenly Prides and five-star Heavenly Prides to six-star peerless Heavenly Prides.

In a flash.

Half a year had passed.

By this time, Ye Tian had comprehended the spatial mystery to sixty percent mastery and developed another spatial technique Spatial Collapse!

He could use his spatial talent to cause a spatial collapse in a specific area, where those not strong enough would be sucked into the spatial turbulence and die instantly.

This ability was terrifying; even those stronger than Ye Tian, once caught in a spatial collapse and sucked into the spatial turbulence, might not be able to escape, leading to their death in the spatial turbulence.

With the spatial mystery reaching sixty percent mastery, Ye Tians strength was at the peak five-star Heavenly Pride level, not far from the peerless Heavenly Pride level.

However, Ye Tian decided not to continue comprehending the spatial mystery because he felt that continuing to do so, by the time the Universes gift ended, he probably wouldnt be able to elevate his spatial talent to seventy percent Pseudo-Mystic level.

Therefore, he prepared to comprehend the Dao of the Sword, the Dao of the Claw, and the Dao of the Palm.

Chapter 344: The Completion of the Super God-Level Xumi Palm, Peerless Heavenly Pride!

Currently, Ye Tians mastery in the Dao of the Sword is at forty-five percent, the Dao of the Claw at thirty-six percent, and the Dao of the Palm at twenty-three percent.

His highest proficiency is in the Dao of the Sword. Once he elevates his swordsmanship to fifty percent, he will be able to perfect his Ghost Sword technique. Surpassing fifty percent would allow him to attempt cultivating Super God-Level sword techniques.

Although Ye Tian currently lacks Super God-Level sword techniques, acquiring them is not impossible, so the cultivation of swordsmanship must not be abandoned.

Next in importance is the Dao of the Palm, which has a legacy that leads directly to Super God-Level palm techniques, making it more crucial than the Dao of the Claw. Ye Tian would rather forsake the cultivation of the Claw Dao than give up on the Palm Dao.

The question is whether to cultivate the Palm Dao or the Sword Dao first.

Ye Tian found himself in a dilemma.

Minutes later, he decided, Lets start with the Palm Dao and see if it can be cultivated beyond fifty percent.

He chose the Palm Dao because it offers a path to Super God-Level palm techniques. Once he cultivates the Palm Dao to fifty percent, he can immediately start cultivating the Super God-Level Xumi Palm.

Even if he were to cultivate the Sword Dao beyond fifty percent, without a Super God-Level sword technique at hand, it wouldnt significantly enhance his strength in the short term.

Cultivate the Palm Dao! Ye Tian began his arduous training.

In the environment bestowed by the universe, his cultivation speed was incredibly fast. Each day, his mastery in the Palm Dao improved.

Twenty-four percent!

Twenty-five percent!

Twenty-six percent!

The speed of this progress was unimaginable before, but within the opportunity presented by the birth of a planet, Ye Tian truly experienced what insane advancement felt like.

Of course, this was thanks to Ye Tians tenfold time talent, top-tier comprehension talent, and the assistance of some wondrous objects that enhance comprehension. Others might possess treasures that improve comprehension, but none as outrageously effective as his.

A month passed, and Ye Tians Palm Dao reached forty percent.

Two months passed, and it reached forty-five percent.

Three months passed, and it reached forty-nine percent.

After three and a half months, it reached fifty percent.

Reaching fifty percent in the Palm Dao meant Ye Tian could perfect the God-Level Xumi Palm.

Yet, Ye Tian wasnt satisfied with just fifty percent. With his Dawn-level talent in palm techniques, he could push his Palm Dao to fifty-one percent. Once there, he could start cultivating the Super God-Level Xumi Palm.

In fact, mastering a Super God-Level palm technique usually requires at least fifty-five percent mastery, but since the Xumi Palm involves spatial techniques, reaching fifty-one percent would allow Ye Tian to start cultivating it, even if only to the initial stages.

After another half-month, Ye Tian finally elevated his Palm Dao to fifty-one percent.

Lets not rush into cultivating the Super God-Level Xumi Palm. Focus on the Sword Dao now! He still aimed to elevate his Sword Dao beyond fifty percent, so not a moment could be wasted.

As for the Super God-Level palm technique, theres no hurry. He could start cultivating it once he returns to the Silver Universe Star.

Ye Tian activated his Dawn-level talent in sword techniques and began to delve into the Sword Dao.

Perhaps due to the integration of another Dawn-level sword technique talent, Ye Tians talent in swordsmanship had significantly improved, naturally speeding up his comprehension of the Sword Dao.

Forty-six percent in the Sword Dao!

Forty-seven percent!

Forty-eight percent!

Ye Tian devoted himself to comprehending the Sword Dao, aiming to reach or exceed fifty percent.

A month passed, and his mastery in the Sword Dao reached forty-nine percent, not far from fifty percent.

He continued to delve deeper!

However, he sensed that the universes blessing was about to end, adding urgency to his efforts.

Ten days passed!

Eleven days!

On the thirteenth day, Ye Tian finally elevated his Sword Dao to fifty percent.

Originally, Ye Tian wanted to further elevate his Sword Dao by another ten percent, but after just two days of cultivation, the planetary rules began to fade, and the planet gradually returned to normalcy.

Simultaneously,

Sighs, curses, and shouts of anger echoed across the planet.

I was about to integrate a God-level talent, and the universes blessing ends now? I cant accept this!

Ah, my spear technique was on the verge of reaching forty percent. Why couldnt they give me a bit more time?

Damn it, couldnt the universes blessing last a little longer? If I knew we had so little time, I would have focused on something else!

Most of the heavenly prides were complaining, but a few reached their goals and were visibly pleased, showing no signs of disappointment, at most just a hint of regret.

Ye Tian was also very satisfied with this opportunity.

His Sword Dao reached fifty percent, and his Palm Dao reached fifty-one percent. Who else could achieve such progress?

No one!

Once I go back and master the Super God-Level Xumi Palm and perfect the divine-level Ghost Sword technique, my strength should be enough to step into the Supreme Emperor level and become a peerless heavenly pride!

The thought of having the power of an Emperor level and the title of a peerless heavenly pride filled Ye Tian with anticipation.

Swish, swish, swish!

One after another, the heavenly prides flew out of the planet. Without the universes blessing, the planet was just an ordinary life-bearing planet, incapable of holding back the multitude of heavenly prides.

In an instant, they all flew into the starry sky.

Ye Tian, using his talent copying ability, quickly noticed that some heavenly prides had developed new God-level talents that they didn't possess before.

However, the one who made the most significant progress was undoubtedly Yun Xi. Previously, Yun Xi had no God-level talents, but now she suddenly had three, which was truly astonishing.

It seems that Yun Xi has a treasure that can rapidly enhance her comprehension. Otherwise, it would have been impossible to develop three God-level talents from this opportunity. She will definitely become a heavenly pride in the future, Ye Tian thought to himself.

The heavenly prides flew into the starry sky and dispersed, returning to their respective groups.

Elder Yun took Yun Xi and left, quickly disappearing, and other great gods also took their peerless heavenly prides or heavenly prides and departed.

Board the warship, let's go back!

At the command of the third city master of Silver Universes main city, the heavenly prides boarded the cosmic warship.

Soon after, the cosmic warship activated and flew away.

As for the newly born life-bearing planet, it was left uncared for.

Its true value lasted only for that one year. After a year, it wasn't worth much, not even attracting the attention of any heavenly prides, let alone the True Gods and Great Gods.

More than a month later, the cosmic warship returned to the Silver Galaxy's Silver Universe Star.

One by one, the heavenly prides disembarked from the cosmic warship, used the teleportation array to return to Silver Universe City, and then went their separate ways.

Not long after, Ye Tian also returned to Qingfeng Giant City and immediately went into seclusion.

This time, he intended to start cultivating the divine-level Ghost Sword technique and the Super God-Level Xumi Palm.

In the blink of an eye, ten days passed.

On this day, Ye Tian entered the independent cultivation area of the Heavenly Pride Pavilion virtual world.

In the starry sky cultivation area, Ye Tian stood in front of an ordinary planet. This was not a life-bearing planet but one of the most common uninhabited planets in the universe.

He took out a sword.

Ghost Sword!

Silently, a beam of light swept across the star.

In an instant, the planet was split in two and then exploded.

The Ghost Sword is perfected!

Ye Tian smiled slightly.

However, he still felt a slight gap from the Emperor level, needing just a little more progress to step into it.

Lets start cultivating the Super God-Level Xumi Palm!

Ye Tian muttered to himself.

For the next month, Ye Tian devoted himself to cultivating the Xumi Palm, perfecting the Legendary and Divine-Level Xumi Palm, solidifying the foundation of the Xumi Palm legacy before starting on the Super God-Level Xumi Palm.

Because his mastery in the Palm Dao was slightly low, at only fifty-one percent, even though he could cultivate the Super God-Level Xumi Palm, his progress wasn't very fast.

After spending two full months, Ye Tian finally managed to cultivate the Super God-Level Xumi Palm to the initial level.

And at the moment he mastered the Super God-Level Xumi Palm, he broke through his bottleneck and stepped into the level of a peerless heavenly pride at the Emperor level.

Chapter 345: The Divine Artisan Lan Ruo!

Six-star peerless Heavenly Pride: with this strength, I should be able to rank among the top in the Milky Ways Heavenly Prides, right?

Ye Tian murmured to himself.

Based on his understanding of the Milky Way, the peerless Heavenly Prides of the galaxy seemed to be only at the six-star level. He had not heard of any Heavenly Pride reaching the seven-star level.

This time, with the opportunity presented by the birth of a planet, although there were six-star peerless Heavenly Prides participating, it seemed unrealistic to expect a breakthrough to the seven-star level in one go.

To become a six-star peerless Heavenly Pride, one must have reached the limit in all aspects, having gone through countless opportunities. It would be difficult to make a significant breakthrough in any single aspect.

Within this planetary birth opportunity, these six-star peerless Heavenly Prides might improve in certain aspects, but at most, they could only enhance some of their strength. It would still be very difficult to step into the seven-star peerless Heavenly Pride level.

With more than two years left before returning to Earth, by that time, he should be able to break through the seventeenth physical limit. Coupled with progress in other areas, his strength might even have the hope of reaching the seven-star peerless Heavenly Pride level.

Its time to refine the spatial divine metal into a spatial divine artifact!

Ye Tian suddenly thought of this.

Once he possessed a spatial divine artifact, his strength could increase significantly.

In the following days, Ye Tian began to inquire about divine artifact smiths and learned that almost all divine artifact smiths of Silver Universe Star came from the Divine Artifact Sect, a major sect.

The Divine Artifact Sect recruited countless refining talents from the Milky Way and, with a complete inheritance, gave birth to one divine artifact smith after another.

Divine Artifact Sect!

Ye Tian decided to visit the Divine Artifact Sect to find a divine artifact smith to forge a spatial divine artifact.

However, the Divine Artifact Sect was one of the top powers on Silver Universe Star. Even Great God-level experts dared not offend it, and the status of its divine artifact smiths was comparable to that of a True God.

There were countless martial warriors who wished to have a divine artifact smith craft artifacts for them, and ordinary people couldnt even secure an appointment.

Ye Tian was a Heavenly Pride, but just being a Heavenly Pride was not enough to qualify him to have a divine artifact smith from the Divine Artifact Sect craft an artifact for him.

One day.

Ye Tian visited the God Zilun.

In the city lords mansion.

God Zilun, I wish to have a divine artifact smith from the Divine Artifact Sect craft a divine artifact. Do you know how I might persuade a divine artifact smith from the sect? Ye Tian asked for advice.

You wish to craft a spatial divine artifact, right?

God Zilun asked.

Yes!

Ye Tian nodded.

God Zilun pondered and said, An ordinary divine artifact smith might not be able to successfully craft a spatial divine artifact. Only one of the more skilled among the divine artifact smiths can be confident. I do know a divine artifact smith who is capable of crafting spatial divine artifacts, but he is somewhat eccentric and often makes certain demands. Maybe, for my sake, he will craft a spatial divine artifact for you. But, he will definitely make some demands. Try your best to meet his demands!

Thank you, God Zilun!

Ye Tian expressed his gratitude.

Swish, swish, swish!

God Zilun took out a scroll, sealed his words inside, and handed it to Ye Tian: Heavenly Pride of Ten Thousand Laws, when you meet that divine artifact smith, give this to him as a credential.

Okay!

Ye Tian accepted the scroll.

God Zilun also told Ye Tian the residence of the divine artifact smith and gave him a few words of advice.

After memorizing the information, Ye Tian took his leave.

Silver Universe Star, Absolute Martial Continent.

The Absolute Martial Continent was one of the super continents of Silver Universe Star, and the Divine Artifact Sect was located on the Absolute Martial Continent.

Within the territory of the Divine Artifact Sect, there was a Gourd God Mountain where a God-level expert resided.

This God-level expert was named Lan Ruo, a divine artifact smith of the Divine Artifact Sect, and not just any divine artifact smith. His status within the sect was also quite high.

One day.

At the foot of the Gourd God Mountain, many martial warriors were waiting.

Most of these warriors were at the emperor level, but there were also some at the God level. They were all there to request divine artisan Lan Ruo to craft weapons for them, with some having waited for several years.

Suddenly.

A young man flew in from afar, landing at the foot of the mountain, and then walked towards the mountain.

This young man was Ye Tian.

As Ye Tian was walking towards the Gourd God Mountain, a God-level expert spoke up: Young fellow, don't go up there. Divine artisan Lan Ruo only crafts one weapon a month. He crafted a weapon just a few days ago, so the next crafting session won't be for another twenty

or so days. Going up now is pointless. Moreover, to request Lan Ruo to craft a weapon, you need to make an appointment and wait in line. Going up like this will definitely get you chased down by Lan Ruos guards!

Thank you for the warning, senior!

Ye Tian bowed his hands in thanks but still proceeded up the mountain.

The God-level warrior did not stop him, thinking that Ye Tian would soon be thrown down the mountain anyway.

Ye Tian walked slowly, deliberately not using instant teleportation to ascend, as that would be disrespectful to divine artisan Lan Ruo, and might even provoke his hostility.

Halfway up the mountain, two God-level warriors blocked Ye Tians path.

These two were guards of divine artisan Lan Ruo. Their strength was not formidable, far inferior to Ye Tians.

But Ye Tian did not dare to disregard them.

Stop right there. To request our master to forge something, you must wait at the bottom of the mountain! one of the God-level guards spoke up.

I have something here I wish you to pass on to divine artisan Lan Ruo!

Ye Tian took out the scroll given to him by God Zilun.

What is this?

The God-level guard frowned.

A letter. If Lan Ruo sees it, he will definitely allow me up the mountain!

Ye Tian explained.

A letter? The two God-level guards looked at each other, and then one of them said, Wait here, Ill take it to the master!

Swish!

One of the God-level guards went up the mountain and returned about half a minute later.

Come with me!

The God-level guard said.

Ye Tian smiled slightly and followed the God-level guard up the mountain.

At the foot of the mountain.

Many warriors widened their eyes in disbelief, especially the God-level warrior who had just spoken with Ye Tian, who could hardly believe his eyes.

He was stunned and said, He actually went up the mountain. What kind of background does he have? Could it be that he used connections to get through the back door?

He dared not question Lan Ruos guards and could only envy Ye Tian.

Gourd God Mountain.

Inside a divine forging temple, Ye Tian met divine artisan Lan Ruo.

Lan Ruo was a middle-aged man with a small mustache, looking somewhat weary, obviously from frequent forging which had taken a toll on his spirits.

Divine artisan Lan Ruo, hello!

Ye Tian greeted.

Are you the Heavenly Pride of Ten Thousand Laws?

Lan Ruo gave Ye Tian a deep look.

Yes! Ye Tian nodded in response.

Lan Ruo said indifferently, I dont care what kind of Heavenly Pride you are. Normally, I treat everyone equally, but since you were introduced by God Zilun, I will forge a weapon for you. However, let me make it clear, I dont need payment; I only need you to do one thing for me.

What is it?

Ye Tian was curious.

Lan Ruo spoke gravely, You should know that forging, like alchemy, requires flames, and theres a place on the Absolute Martial Continent called the Divine Flame Secret Realm. Somewhere in the Divine Flame Secret Realm, theres a unique flame that had not yet formed when I was at the emperor level. Considering the time, it should have formed by now. Im now at the God level, and the Divine Flame Secret Realm allows only those at the emperor level to enter, so I cant go in. For ordinary emperors, entering the Divine Flame Secret Realm is almost certain death. You are a Heavenly Pride, with strength far surpassing that of a nine-star emperor. This task might be dangerous for you, but it should be achievable. If you can bring that unique flame from the Divine Flame Secret Realm, I will forge a spatial divine artifact for you free of charge. How about it?

No problem!

Ye Tian agreed without hesitation.

As for the so-called danger, he was not worried at all.

He was a peerless Heavenly Pride, and if he was still afraid of a Divine Flame Secret Realm that only emperors could enter, it would be too cowardly.

Are you really agreeing? Think carefully. There are beings in the Divine Flame Secret Realm comparable to Heavenly Prides: fiery spirits. If you encounter danger inside, I won't be able to save you! Lan Ruo warned.

Lan Ruo, rest assured, I can bring back that unique flame!

Ye Tian confidently said.

Well then, this is the information about the Divine Flame Secret Realm and the location of that unique flame. Go ahead!

After Lan Ruo handed over the information, he said.

Ye Tian took the information and left.

Chapter 346: The Flame Demon Heavenly Pride, Captured!

The Divine Flame Secret Realm was located somewhere on the Absolute Martial Continent and is not an open secret realm. One could enter the Divine Flame Secret Realm with a Divine Fire Token, which Lan Ruo had provided to Ye Tian.

After leaving the Gourd God Mountain, Ye Tian arrived at a nearby giant city and, after several teleports, finally reached the Divine Fire City.

The Divine Flame Secret Realm was located 3 million miles west of Divine Fire City.

Before long, Ye Tian arrived at the area of the Divine Flame Secret Realm.

He saw a sea of fire here, and above the sea of fire was a huge volcano. Behind this gate of fire lies the Divine Flame Secret Realm, which requires a Divine Fire Token to pass through.

Around the area, there were many God-level and True God-level guardians. Without a Divine Fire Token, one could not enter the Divine Flame Secret Realm.

Swish!

Ye Tian, holding the Divine Fire Token, passed through the gate of fire and successfully entered the Divine Flame Secret Realm.

Upon entering the Divine Flame Secret Realm, Ye Tian felt the fire attribute yuan qi permeating the air.

If an Emperor with fire attribute talent were to cultivate here in the Divine Flame Secret Realm, their cultivation speed would be incredibly fast! Ye Tian exclaimed.

Although the fire attribute yuan qi in the Divine Flame Secret Realm was rich, the realm wasn't entirely made of flames. It was similar to a typical secret realm but with more fire attribute treasures and volcanoes. Other aspects were not particularly special.

Ye Tian took out a map with the location of a strange fire marked on it.

According to Lan Ruo, the location of this strange fire was quite remote, and there had been no news of its appearance on Silver Universe Star, so it likely hadn't been taken and should still be at that location.

Ye Tian determined his bearings and flew towards it.

Not long after, a huge firebird flew towards him.

Species: Fire Spirit Bird

Spirit Vein Talent: Moonlight

Speed Talent: Mystic

Flame Talent: God-level

Defense Talent: Top-level

Claw Talent: Moonlight

This Fire Spirit Bird was one of the more common fire spirits in the Divine Flame Secret Realm. Fire spirits could be considered a special type of ferocious beast, but they had no flesh and blood, thus lacking cultivation and bloodline talents, possessing only spirit vein talents.

The body of a fire spirit was entirely composed of fire spirit power. Once they left the Divine Flame Secret Realm, their bodies would disperse, so they could only stay in the Divine Flame Secret Realm for life.

Seeing the Fire Spirit Bird attacking, Ye Tian crushed it with a palm.

Xumi Palm!

Boom!

A giant hand appeared in the void, killing the Fire Spirit Bird with a slap.

Ye Tian used the legendary-level Xumi Palm, but even so, the Fire Spirit Bird couldn't withstand it and was instantly obliterated.

Along the way, many fire spirits attacked Ye Tian, some of which were comparable to nine-star Emperor-level fire spirits, but all were unable to withstand a single move from him and were instantly killed.

Before long.

Ye Tian arrived at a mountain range of volcanoes, with tens of thousands of large and small volcanoes stretching for millions of miles, showcasing the grandeur of the volcano mountain range.

The strange fire that Lan Ruo sought was inside one of these tens of thousands of small volcanoes, quite inconspicuous.

For this reason, the strange fire was not easily taken by others.

Its a bit troublesome; Id have to search one by one!

Ye Tian frowned.

Although he knew the approximate location, Lan Ruo couldnt provide an exact position, only a rough description of the small volcanos location and shape.

Therefore, Ye Tian would have had to search personally to confirm.

Of course.

It wasnt very difficult for Ye Tian to find the strange fire because he had a treasure-hunting talent. strange fires were considered fire-related treasures and couldnt hide from the treasure-hunting talent. He just needed to use his treasure-hunting talent to pass by each volcano to determine if there were treasures inside. If there were, he would enter the volcano to check for the strange fire, making the search faster.

Soon.

Ye Tian flew over each volcano, searching at a good pace.

At this rate, he would soon find the volcano with the strange fire.

Suddenly.

A figure appeared not far from Ye Tian.

Heavenly Pride of Ten Thousand Laws, this is my cultivation spot. Please leave!

You are

Ye Tian looked over and immediately recognized the person, Flame Demon Heavenly Pride!

The Flame Demon Heavenly Pride was a five-star Heavenly Pride with immense strength, ranked seventh on Silver Universe Stars Heavenly Pride List, although he didn't have a chance for a planetary birth opportunity last time.

This was Ye Tian's first encounter with the Flame Demon Heavenly Pride, but as a fellow Heavenly Pride, he naturally knew about the three to four hundred Heavenly Prides on Silver Universe Star and could not mistake the Flame Demon Heavenly Pride.

Heavenly Pride of Ten Thousand Laws, leave. This is my place of cultivation, and I do not wish to be disturbed!

The Flame Demon Heavenly Pride commanded.

Ye Tian did not leave; instead, he found the Flame Demon Heavenly Pride's attitude somewhat odd. Wasn't the stance a bit too forceful?

Moreover, cultivating in the Divine Flame Secret Realm?

What was this situation?

Although the Divine Flame Secret Realm was not bad, the Flame Demon Heavenly Pride was a disciple of the Flame Sect from Silver Universe Stars top forces. The cultivation environment of the Flame Sect was far superior to that of the Divine Flame Secret Realm.

It was unlikely for the Flame Demon Heavenly Pride to choose the Divine Flame Secret Realm for secluded cultivation!

Could it be that he discovered the strange fire, but the strange fire has not yet truly emerged, so he was waiting?

Ye Tian speculated.

But he had a vague feeling that something was amiss; the truth was definitely not so simple.

Thus, Ye Tian said, Flame Demon Heavenly Pride, Im sorry, but Im here to look for something, so its impossible for me to leave!

What, you also received news about the Fire God Crystal? the Flame Demon Heavenly Pride exclaimed in shock. Impossible, how could you know? I discovered this not long ago and havent informed anyone; you couldnt possibly know!

Fire God Crystal?

Ye Tian frowned.

Things were not as he had expected. The other party was not here for the strange fire but for something called the Fire God Crystal

Seeing Ye Tian frown, the Flame Demon Heavenly Pride realized his mistake; the other was not here for the Fire God Crystal, he had thought wrong.

Heavenly Pride of Ten Thousand Laws, I was going to let you leave, but since you heard about the Fire God Crystal, Im sorry, but you must die here today!

A thick killing intent burst forth from the Flame Demon Heavenly Pride.

He was fully confident in killing Ye Tian because he was a Five-Star Heavenly Pride, ranked seventh on Silver Universe Stars Heavenly Pride List, while Ye Tian was only a Three-Star Heavenly Pride, ranked ninety-eighth.

For a Five-Star Heavenly Pride to kill a Three-Star was not difficult, so he was not worried about failing to kill Ye Tian.

Kill!

The Flame Demon Heavenly Pride transformed into a fire God, wielding a long sword and slashing down, the sword of flames burning the void, showcasing the terrifying power of a Five-Star Heavenly Pride.

However, at that moment, Ye Tian utilized his spatial talent to freeze space.

Spatial Collapse!

With a thought, Ye Tian controlled the space around the Flame Demon Heavenly Pride, causing a spatial collapse.

In an instant, a large area of space collapsed, trapping the Flame Demon Heavenly Pride within the collapsed space.

Suddenly, a streak of golden light appeared, wrapping around the Flame Demon Heavenly Pride and rushing out from the collapsed space, but the Flame Demon Heavenly Pride was also covered in blood.

However, before the Flame Demon Heavenly Pride could catch his breath, a blade slashed towards him.

With a splattering sound, the Flame Demon Heavenly Prides arm flew off, and his body was severely injured.

You are not a Three-Star Heavenly Pride!

The Flame Demon Heavenly Pride was shocked.

The power Ye Tian displayed at that moment was not that of a Three-Star Heavenly Pride; he had severely injured him in an instant. Such strength was clearly that of a peerless Heavenly Pride!

Heavenly Pride of Ten Thousand Laws was actually a Six-Star peerless Heavenly Pride, not a mere Three-Star.

This level of power hiding was simply too much; even if other Heavenly Prides hid their strength, they would only slightly conceal it, at most hiding one level of combat power. But Ye Tian, with the strength of a Six-Star peerless Heavenly Pride, had hidden himself as a Three-Star.

Escape!

The Flame Demon Heavenly Pride turned into a beam of light and flew away.

But before he could get far, a ghostly blade slashed from the void, cutting off one of the Flame Demon Heavenly Prides legs.

The next moment, a large hand covered everything.

Super God-Level Xumi Palm!

Facing the Xumi Palm, the Flame Demon Heavenly Pride endured terrifying pressure, unable to escape. The entire void seemed to freeze and solidify under this palm, far stronger than mere spatial confinement.

With a swoosh, the interior of the Xumi Palm completely enveloped the Flame Demon Heavenly Pride.

Trapped within the Xumi Realm, the Flame Demon Heavenly Pride was suppressed by the power of the palm, unable to escape.

Heavenly Pride of Ten Thousand Laws, please spare me!

The Flame Demon Heavenly Pride pleaded desperately within the Void Maha Realm inside the Xumi Palm.

Chapter 347: The Secret of Divine Abilities! Seizing Talents!

Whoosh!

A thread of Ye Tians consciousness entered the Xumi Storage Realm, confronting the Flame Demon Heavenly Pride.

Flame Demon Heavenly Pride, you actually want to kill me over the Fire God Crystal. What exactly is it?

Ye Tian asked with great curiosity.

You dont know? The Flame Demon Heavenly Pride was taken aback, then realized Ye Tians background and thought it normal for him not to know, If I tell you, will you let me go?

No!

Ye Tian shook his head.

Then I cant possibly tell you! The Flame Demon Heavenly Pride said coldly.

Just then, the crushing power of the Xumi Palm came bearing down on the Flame Demon Heavenly Pride.

Boom, boom, boom!!!

The Flame Demon Heavenly Pride endured successive attacks from the Super God-level Xumi Palm, his body cracking and injuries worsening.

Once the Flame Demon Heavenly Prides injuries reached a certain degree, Ye Tian released him from the Xumi Storage Realm.

Hypnosis!

Ye Tian activated his Hypnosis Talent, and the power of hypnosis invaded the soul of the Flame Demon Heavenly Pride.

The Flame Demon Heavenly Pride had soul defense treasures, but his injuries were severe, and he couldn't fully activate the soul defense treasures. Under Ye Tian's repeated invasions, he eventually couldn't hold out any longer.

Boom!

The hypnosis was successful!

Looking at the dazed Flame Demon Heavenly Pride, Ye Tian interrogated, Tell me, what is the Fire God Crystal?

The Flame Demon Heavenly Pride said, The Fire God Crystal is a treasure containing the essence of laws, which is rare in the world. It is an auxiliary material for cultivating a certain fire-related divine ability, such as the fire-related divine ability Great Flame Extinguishing Hand, for which the Fire God Crystal is one of the auxiliary materials.

Fire-related divine ability? What is that?

Ye Tian frowned. As a Heavenly Pride, he had never heard of fire-related divine abilities.

The Flame Demon Heavenly Pride explained, Fire-related divine abilities are very rare techniques that involve using God-level fire talents combined with several fire-related law treasures to create a technique, known as a fire-related divine ability. Long ago, there were no divine abilities, but a genius discovered that sword techniques, fist techniques, and the like could be combined with strength talents, which seemed unfair to elemental talents. So, that genius spent countless years studying and eventually developed divine abilities, which combine God-level elemental talents with treasures containing the essence of laws through a certain cultivation method. The strength of a divine ability lies not in the power it wields but in its ability to harness the power of laws for attacks, which are not inferior to the combined attacks of power talents and sword techniques.

So that's how it is!

Ye Tian exclaimed.

He had always thought that the most powerful attacks were those that combined sword techniques or other skills with strength talents, but now he understood the concept of divine abilities.

Why has no one mentioned divine abilities before?

Ye Tian asked.

The Flame Demon Heavenly Pride said, The reason divine abilities are not widely known is that only the top forces of Silver Universe Star possess the methods to cultivate divine abilities. Our Flame Sect possesses the method to cultivate the fire-related divine ability Great Flame Extinguishing Hand, but only a few people within the entire sect have managed to cultivate it. To cultivate the Great Flame Extinguishing Hand, one must gather four auxiliary items: the Fire God Crystal, the Fire Dragon God Stone, the Million-Year Fire Spirit Essence, and a seventh-grade or higher strange fire. Currently, I have already collected the seventh-grade or higher strange fire and the Million-Year Fire Spirit Essence, only lacking the Fire God Crystal and the Fire Dragon God Stone.

You just mentioned the Fire God Crystal, could it be that there's one here?

Ye Tian asked again.

Yes! The Flame Demon Heavenly Pride replied, A Fire God Crystal was born in this mountain range, but it was taken by a Fire Spirit. The creature can move underground, making it hard to find. I've been searching for it.

Ye Tian asked many questions and also learned some top-secret information from the Flame Demon Heavenly Pride.

For instance, many powerful beings in the Milky Way have cultivated divine abilities, including several of the Milky Ways peerless Heavenly Prides. Those peerless Heavenly Prides have ascended to their positions through the use of divine abilities.

The Flame Demon Heavenly Pride was only one step away from the position of a peerless Heavenly Pride. In search of a breakthrough, he pinned his hopes on the fire-related divine ability. If he could cultivate the Great Flame Extinguishing Hand, he would have a seventy to eighty percent chance of ascending to the ranks of the peerless Heavenly Prides.

Unfortunately, he ran into Ye Tian.

Speak the contents of the fire-related divine ability, the Great Flame Extinguishing Hand.

Ye Tian demanded.

As a Heavenly Pride, the Flame Sect didnt require the Flame Demon Heavenly Pride to swear an oath of death if he taught the Great Flame Extinguishing Hand, even though teaching the fire-related divine ability would come at a great cost. But Ye Tian didnt care.

Under the power of the Hypnosis Talent, the Flame Demon Heavenly Pride revealed the method of cultivating the Great Flame Extinguishing Hand one by one.

As soon as the Flame Demon Heavenly Pride spoke, he spat out blood, suffering from severe backlash.

After the Flame Demon Heavenly Pride finished speaking, his breath had become extremely weak.

Ye Tian had no intention of letting the Flame Demon Heavenly Pride go, but he valued the Flame Demons Desolate-level cultivation talent.

The Flame Demon Heavenly Pride possessed a Desolate-level cultivation talent, which was highly esteemed. Ye Tian planned to forcibly seize the Flame Demon Heavenly Prides Desolate-level cultivation talent and bestow it upon his wife, Empress Yue, upon his return to Earth.

Seizure!

Ye Tian activated the seizure ability of his Copying Talent.

In the next moment, the Flame Demon Heavenly Prides Desolate-level cultivation talent was seized by Ye Tian and stored within the Copying Talent.

After all was done, Die!

Ye Tian instantly crushed the Flame Demon Heavenly Prides head, killing him.

After killing the Flame Demon Heavenly Pride, Ye Tian looted his spatial ring, finding a bottle of Million-Year Fire Spirit Essence and a seventh-grade strange fireBuddha Lotus Golden Flamesealed within a jade box.

Now that Ive obtained the Great Flame Extinguishing Hand and two auxiliary items, if I can also obtain the Fire God Crystal, that would mean Ive gathered three of them, leaving only the Fire Dragon God Stone to find! Ye Tian thought.

Immediately, Ye Tian began searching for the Fire Spirit and the Fire God Crystal.

Before long, Ye Tian found the Fire Spirit and the Fire God Crystal in a small volcano, along with a strange fire.

Sixth-grade strange firePurple Flame. Isnt this the strange fire that Lan Ruo asked me to find? What a coincidence to find both the strange fire and the Fire God Crystal at the same time! Ye Tian exclaimed in surprise.

At this moment, he roughly understood that the Fire Spirit that stole the Fire God Crystal was actually the guardian Fire Spirit of the Purple Flame.

Immediately, Ye Tian phased into space, quietly approaching the strange fire and the Fire Spirit.

The Fire Spirit was strong, comparable to an average Heavenly Pride, and could escape through magma, making it very difficult to capture.

After approaching the Fire Spirit, Ye Tian reached out from the space.

Super God-level Xumi Palm!

Ye Tian grabbed the Fire Spirit, pulling it into the Xumi Storage Realm within the Xumi Palm, instantly capturing the Fire Spirit.

With the Fire Spirit captured, Ye Tian easily collected the sixth-grade strange firePurple Flameand sealed it within a jade box.

Having obtained the strange fire, Ye Tian then dealt with the Fire Spirit.

The Fire Spirit resembled a pangolin, with the Fire God Crystal inside its stomach.

Without a word, Ye Tian killed the Fire Spirit and took out the Fire God Crystal.

The Fire God Crystal was a dodecahedron, each face revealing a different world of flames, showcasing the marvel of the Fire God Crystal.

After examining the Fire God Crystal without discovering anything significant, Ye Tian stored away the Fire God Crystal.

The only thing left is the Fire Dragon God Stone. According to the Flame Demon Heavenly Pride, the Fire Dragon God Stone is a treasure of the dragon race, not very rare in dragon territories but almost impossible to find in human areas. Even the Flame Sect doesnt have a Fire Dragon God Stone!

Ye Tian figured that to find the Fire Dragon God Stone, he must start with the dragon race, and there happens to be a dragon tribe on Earth.

Perhaps when he returns, he could extort some Fire Dragon God Stones from those dragons, though it was unclear if they possess any.

Its time to leave!

Ye Tian teleported away.

Before long, he had left the Divine Flame Secret Realm.

Meanwhile, the Flame Sect had already learned of the Flame Demon Heavenly Prides death, causing an uproar among the higher-ups.

This generation, the Flame Sect had only one Heavenly Pride, and the Flame Demon Heavenly Pride was a five-star Heavenly Pride, with a chance to become a peerless Heavenly Pride. Among the Heavenly Prides of past generations, the Flame Demon Heavenly Pride was also considered very powerful. With his Desolate-level cultivation talent, he was bound to become a great deity with immense potential.

But now that the Flame Demon Heavenly Pride was dead, the Flame Sect had suffered a great loss!

Search! I want to know who killed the Flame Demon Heavenly Pride!

The Sect Master of the Flame Sect, a Great God-level figure, ordered.

Chapter 348: Netherkill Heavenly Pride, A Silent Assassination!

While the Flame Sect was conducting its investigation, Ye Tian had already returned to the Gourd God Mountain.

Inside the Artifact Refining Temple of Gourd God Mountain, Ye Tian met once again with the Artifact God Lan Ruo.

Lan Ruo, here is the sixth-grade strange fire you requested the Purple Flame! Ye Tian handed over the jade box containing the sealed Purple Flame to the Artifact God Lan Ruo.

After Lan Ruo opened the jade box and confirmed its contents, he nodded and said, Good, I will keep my promise to forge a weapon for you. Bring out your Spatial Divine Metal.

Ye Tian took out a palm-sized piece of Spatial Divine Metal and handed it to Lan Ruo.

The quantity is sufficient, but do you wish to forge a support-type Spatial Artifact or an attack-type one? If you opt for an attack-type Spatial Artifact, I can craft a Spatial Blade for you, enhancing your lethality. If you prefer a support-type, I can forge a Dimensional Cube Artifact, which can amplify the abilities of your spatial talent. Which one do you choose? Lan Ruo inquired.

I choose the Dimensional Cube Artifact! Ye Tian replied without hesitation.

Although the Spatial Blade seemed impressive, it was incompatible with his swordsmanship. In contrast, using the Dimensional Cube Artifact would enhance his spatial abilities without hindering his sword skills.

Thus, the Dimensional Cube Artifact was more suitable for him!

Alright, I will forge a Dimensional Cube Artifact for you. Crafting a Spatial Artifact takes quite some time. Come back in two months! Lan Ruo said.

Ye Tian decided to wait on Gourd God Mountain for two months and asked, Would it be convenient for you, Lan Ruo?

As long as you dont enter my main peak, youre free to stay anywhere else! Lan Ruo had a peculiar habit; he preferred to be alone while crafting artifacts, insisting even his guards stay away.

After leaving, Ye Tian found a spot halfway up Gourd God Mountain, deployed a small palace, and rested there, cultivating while waiting for the two months to pass.

This time, the guards did not come to chase Ye Tian away.

As Lan Ruo began forging the Spatial Artifact for Ye Tian, he did not waste any time and started his cultivation.

The Flame Sect was incredibly powerful and had no difficulty investigating where the Flame Demon Heavenly Pride had traveled.

Soon, they discovered that the last place the Flame Demon Heavenly Pride visited was the Divine Flame Secret Realm.

The Divine Flame Secret Realm was a place only accessible to martial warriors below the God level, and a Five-Star Heavenly Pride like the Flame Demon Heavenly Pride wouldnt be killed by the fire spirits there. Hence, it must have been another Heavenly Pride who killed him.

Initially, they suspected the only Six-Star Peerless Heavenly Pride of Silver Universe StarThunder Ling Heavenly Pridebut soon dismissed this theory. According to their investigation, Thunder Ling had been in seclusion ever since returning from the Mota Galaxy and hadnt visited the Divine Flame Secret Realm, which was easy to verify.

After ruling out Thunder Ling as a suspect, they turned their attention to other Heavenly Prides, mobilizing a large number of people to investigate which Heavenly Prides had visited the Divine Flame Secret Realm during that period.

Since Ye Tian hadnt anticipated encountering the Flame Demon Heavenly Pride in the Divine Flame Secret Realm and consequently hadnt disguised himself, he entered the realm in his true form.

Therefore, it was discovered that Ye Tian had entered the Divine Flame Secret Realm.

At the Flame Sect.

A report lay in front of the Sect Master, detailing information about Ye Tian, while a True God reported, Sect Master, according to our investigation, the only Heavenly Pride who entered the Divine Flame Secret Realm during this period was the Heavenly Pride of Ten Thousand Laws. He entered the realm, and shortly after the death of our sects Flame Demon Heavenly Pride, he emerged, making him the prime suspect!

The Sect Master, frowning as he picked up Ye Tians file, said, The Heavenly Pride of Ten Thousand Laws only had the strength of a Three-Star Heavenly Pride. Even though he gained some opportunities in the Mota Galaxy, boosting his strength significantly, he could at most be a Four-Star Heavenly Pride. How could he have killed the Flame Demon Heavenly Pride?

Perhaps it was some sort of one-time-use powerful weapon! the True God speculated.

Thats a possibility. From the current evidence, the Heavenly Pride of Ten Thousand Laws indeed seems the most likely suspect. If he were only at the Emperor level, any True God could eliminate him easily. But since hes a Heavenly Pride, those above the God level cant act

against him, and yet, none of our sects Emperors are a match for the Heavenly Pride of Ten Thousand Laws, the Sect Master said, finding himself in a difficult position.

The True God suggested, Only a Heavenly Pride can deal with another Heavenly Pride. The Sect Master could ask a Heavenly Pride to take action; surely there are Heavenly Prides willing to do so.

Whom should we ask? Our sects Flame Demon Heavenly Prides fall cannot be hidden, and Four- or Five-Star Heavenly Prides definitely wouldnt dare to make a move. Moreover, theres only one Six-Star Heavenly Pride in Silver Universe Star, and given Thunder Lings temperament, hes unlikely to act, the Sect Master said, shaking his head.

Sect Master, youve forgotten one person. If we invite that Heavenly Pride, killing the Heavenly Emperor of Ten Thousand Laws would be effortless! a True God said.

Are you talking about The Sect Master of the Flame Sect realized who it was.

One of the six-star peerless Heavenly Prides Netherkill Heavenly Pride, an expert in assassination who had once killed three five-star Heavenly Prides and a newly advanced six-star peerless Heavenly Pride, earning the title of the terminator of Heavenly Prides.

This six-star peerless Heavenly Pride was neither a Heavenly Pride of Silver Universe Star nor one of the nine major stars. He belonged to a notorious force in the Milky Way God Slayer Temple.

The God Slayer Temple, always suppressed by the nine major stars of the Milky Way, dared not send assassins into the major stars and kept a low profile in recent years. However, one person was exceptionally high-profile: Netherkill Heavenly Pride.

As a peerless Heavenly Pride, even if he appeared openly on Silver Universe Star, no being above the God level dared to attack him. This was the protection afforded to Heavenly Prides by the human race.

But who among the Heavenly Prides would dare to attack Netherkill Heavenly Pride?

Even Thunder Ling Heavenly Pride wouldnt dare, as he wouldnt want to be constantly targeted by an assassin Heavenly Pride, living in fear for his entire life!

But the cost of employing Netherkill Heavenly Pride was not small.

After much deliberation, the Sect Master of the Flame Sect finally made up his mind.

The Heavenly Emperor of Ten Thousand Laws is definitely involved in this matter, and he doesn't have any significant backing. Killing him won't be a big deal. Hmph, no matter what, this matter must be settled for the sake of the Flame Sect.

The Sect Master of the Flame Sect decided to enlist Netherkill Heavenly Pride, regardless of the cost.

In the blink of an eye, half a month passed.

The news of Flame Demon Heavenly Prides death had already spread throughout the Heavenly Pride Pavilion, shocking many Heavenly Prides.

There were even rumors that the Heavenly Emperor of Ten Thousand Laws had killed Flame Demon Heavenly Pride, but very few believed it.

Upon hearing this news, Thunder Roar Heavenly Pride sneered, The Heavenly Emperor of Ten Thousand Laws killing Flame Demon Heavenly Pride? Ridiculous! He thinks he's a peerless Heavenly Pride? I don't know who's spreading such nonsense!

Thunder Roar Heavenly Pride didn't take the news seriously, treating it as a joke.

One day, Ye Tian was cultivating when he suddenly sensed a strong hostility approaching.

Is someone targeting me?

Ye Tian exited his cultivation state, stood up, and expanded his spatial awareness to survey his surroundings.

Whoosh!

Ye Tian flew out and stood in mid-air.

No one?

Ye Tian murmured to himself.

Eye of Insight!

Ye Tian activated this innate ability.

Instantly, a young man in a black robe wielding a black blade, who was hiding in the distance, slowly approached him.

As soon as Ye Tians gaze turned his way, the young man immediately knew he was exposed.

Heavenly Emperor of Ten Thousand Laws, youve actually discovered me. It seems you possess a talent for seeing through invisibility! the young man said, stepping out of his invisible state without any disappointment.

In fact, he knew that even if his invisibility could fool Ye Tian, it wouldnt fool the God-level beings on the Gourd God Mountain.

If he really tried to sneak into the mid-mountain area, those God-level beings would definitely stop him.

If assassination is not possible, then Ill just have to kill forcefully! the young man thought to himself.

But this was Gourd God Mountain, with many God-level beings present, including divine artisan Lan Ruo.

He couldnt make a move here and had to leave Gourd God Mountain.

Who are you? I can feel that you want to kill me, Ye Tian challenged.

Indeed, I want to kill you. Dare you leave Gourd God Mountain? the young man laughed.

What if I do? Ye Tian teleported out, leaving the vicinity of Gourd God Mountain.

Chapter 349: The Battle of the Peerless Heavenly Prides!

Thats the Netherkill Heavenly Pride!

Some God-level powerhouses on the Gourd God Mountain were utterly shocked.

They had already noticed someone was concealing their presence, but since it didnt concern them, they naturally didnt intervene.

Now that Netherkill Heavenly Pride had truly revealed himself, his appearance clear for all to see, they naturally recognized him.

What? This person is Netherkill Heavenly Pride, a six-star Supreme Emperor-level peerless Heavenly Pride. Its rumored that he has assassinated several five-star Heavenly Prides and even stealthily killed a newly promoted six-star peerless Heavenly Pride. How dare he come to Silver Universe Star?

Why wouldnt Netherkill Heavenly Pride dare to come? As a six-star peerless Heavenly Pride, he is virtually invincible on Silver Universe Star, where God-level beings dare not act against him!

Thats right, a six-star peerless Heavenly Pride. God-level beings dare not act, and the strongest Heavenly Pride on Silver Universe Star is only a six-star, who may not even be able to defeat Netherkill Heavenly Pride.

What is Netherkill Heavenly Pride here for? Could it be for that Emperor-level individual? Could he also be a Heavenly Pride?

I remember now, he is the Heavenly Emperor of Ten Thousand Laws!

The Heavenly Emperor of Ten Thousand Laws, that three-star Heavenly Pride? How could he possibly stand against Netherkill Heavenly Pride? Being targeted by Netherkill, hes really unlucky!

Heh, you might not know, but its rumored that the Flame Demon Heavenly Pride died at the hands of the Heavenly Emperor of Ten Thousand Laws. Now that Netherkill Heavenly Pride has come to assassinate the Heavenly Emperor of Ten Thousand Laws, its quite clear!

The Heavenly Emperor of Ten Thousand Laws killed the Flame Demon Heavenly Pride? Is that true? If so, then the Heavenly Emperor of Ten Thousand Laws must at least be a five-star Heavenly Pride, but even a five-star is no match for Netherkill Heavenly Pride.

If the Heavenly Emperor of Ten Thousand Laws stays on Gourd God Mountain, Netherkill Heavenly Pride wouldnt dare to ascend, but now that the Heavenly Emperor of Ten Thousand Laws has come out, hes probably doomed!

No one was optimistic about Ye Tian, as Netherkill Heavenly Prides track record was too terrifying, while Ye Tians achievements were few and far between, with the only notable achievement being the killing of the Flame Demon Heavenly Pride, which was still under suspicion and not fully recognized by others.

Thus, Ye Tian was simply no match for Netherkill Heavenly Pride.

At that moment, Netherkill Heavenly Pride made his move!

Blood Shadow Blade!

A blood shadow flashed by, striking at Ye Tian with incredible speed.

Such blade speed was difficult even for a five-star Heavenly Pride to avoid, but it was no problem for Ye Tian.

Even without activating his time talent, Ye Tian could easily dodge Netherkill Heavenly Prides attack, but he chose not to. Instead, he wielded a Dawn-level sword and executed the Ghost Blade technique.

The perfected Ghost Blade collided with Netherkill Heavenly Prides Blood Shadow Blade.

Boom!

After one move, the two were evenly matched.

And Ye Tian took this opportunity to assess Netherkill Heavenly Prides talents.

Human: Netherkill

Cultivation Talent: Supreme

Strength Talent: God level

Defense Talent: God level

Speed Talent: God level

Swordsmanship Talent: Dawn level

Stealth Talent: Top level

Tracking Talent: Top level

Dark Poison Fog Talent: God level

Dawn-level swordsmanship talent, not bad. I had previously merged a Dawn-level swordsmanship talent, and I just need one more to evolve my Dawn-level swordsmanship talent.

Copy!

In an instant, Ye Tian copied Netherkill Heavenly Prides Dawn-level swordsmanship talent.

Netherkill made his move, and Ye Tian no longer hesitated.

He also struck!

Spatial Collapse!

With a slight wave of his hand, the area where Netherkill Heavenly Pride stood collapsed, but Netherkill Heavenly Prides strength was indeed formidable. He burst out without any injuries.

Super God-Level Xumi Palm!

Ye Tian launched a palm strike, and its terrifying power spread out.

Super God-Level palm technique!

Netherkill Heavenly Prides expression changed, but he was not frightened.

He held his blade in both hands and slashed down, his cross-shaped blade light clashing with Ye Tians Super God-Level Void Palm.

This slash was also a Super God-Level blade technique!

Swoosh, swoosh, swoosh, swoosh!

Ye Tian clashed with Netherkill Heavenly Pride, neither able to best the other.

Suddenly,

A stream of black gas transformed into a small black bird, charging towards Ye Tian. Although Ye Tian slashed it with a single stroke of his blade, a small portion of the black gas landed on his arm, instantly annihilating a portion of his flesh and blood.

Fortunately, Ye Tian possessed the talents of life and healing, along with the talent of immortality, which allowed him to recover quickly.

However, this stream of black gas took Ye Tian by surprise.

Darkness-based divine ability!

Ye Tian confirmed.

From the perspective of talents, Netherkill Heavenly Pride possessed a God-level darkness-based talent Dark Poison Fog. However, the utility of God-level Dark Poison Fog was limited; while it could enhance Heavenly Prides strength, the enhancement wasnt significant, making it difficult to inflict the same damage on other Heavenly Prides.

Yet, the attack just now truly injured Ye Tian, something beyond the capability of a God-level talent, indicating it must be a divine ability.

Netherkill Heavenly Pride possesses a Dawn-level talent in swordsmanship and has cultivated a Super God-level sword technique, which can be combined with his strength talent. Along with a darkness-based divine ability, his strength is considerable among six-star peerless Heavenly Prides!

Ye Tian thought to himself.

Whoosh!

Ye Tian phased into space, vanishing from sight.

Invisibility? No, its phasing into space!

Netherkill Heavenly Prides expression changed.

Suddenly,

A blade emerged from the space, attacking silently like a ghostly blade.

With a pfft sound,

Netherkill Heavenly Prides chest was sliced open, leaving a cut. Fortunately, he dodged in time, preventing the wound from being more severe.

Above the sky,

Ye Tian and Netherkill Heavenly Pride fought for a long time without a clear winner, astonishing many emperors and Gods below.

Good heavens, the Heavenly Emperor of Ten Thousand Laws is able to fight Netherkill Heavenly Pride to a standstill. He is a six-star peerless Heavenly Pride; this hidden depth is too profound!

Now, I finally believe that the Heavenly Emperor of Ten Thousand Laws could kill the Flame Demon Heavenly Pride. For a six-star peerless Heavenly Pride to kill a five-star Heavenly Pride is not difficult; it seems Flame Demon Heavenly Pride was indeed killed by Ye Tian!

Its harder for a six-star peerless Heavenly Pride to kill another six-star peerless Heavenly Pride. Initially, Netherkill Heavenly Pride could assassinate a newly promoted six-star peerless Heavenly Pride because the latter was weaker, being the weakest among six-star peerless Heavenly Prides, and Netherkill Heavenly Prides talents countered the others, who also lacked powerful life-saving methods. However, the Heavenly Emperor of Ten Thousand Laws has spatial talents and numerous life-saving methods, making it impossible for Netherkill Heavenly Pride to kill him!

As these martial warriors discussed, it became clear that Netherkill Heavenly Pride couldnt kill Ye Tian, and similarly, Ye Tian found it difficult to kill Netherkill Heavenly Pride.

After another exchange, Netherkill Heavenly Pride retreated far away, shouting, Heavenly Emperor of Ten Thousand Laws, I give up on assassinating you. Can we cease hostilities?

Unable to kill Ye Tian, he naturally wouldnt persist.

Moreover, he couldn't stay on Silver Universe Star for too long, or else he would be in trouble.

He had offended too many powers, and those powers, upon receiving his information, probably had already dispatched several peerless Heavenly Prides. If those peerless Heavenly Prides brought some powerful weapons and trapping artifacts, they might indeed be able to keep him on Silver Universe Star and completely annihilate him.

Therefore, he had to leave!

Tell me, who sent you to kill me? Otherwise, with my spatial talents, it will be difficult for you to leave! Ye Tian said coldly.

Netherkill Heavenly Pride transmitted his message telepathically: Flame Sect!

After saying that, Netherkill Heavenly Pride flew away, and Ye Tian did not pursue.

As expected, it's Flame Sect!

Ye Tian had already suspected this, and now with Netherkill Heavenly Prides words, he was absolutely certain it was Flame Sects doing.

He had killed the only five-star Heavenly Pride of Flame Sects generation, and Flame Sect was bound to be furious. If not for the protection accorded to Heavenly Prides, the high-ranking members of Flame Sect wouldn't dare to act. Otherwise, they would indeed send a True God to kill him.

Hmph, Flame Sect, I will settle this with you later!

Ye Tian snorted coldly.

Whoosh!

He returned to the Gourd God Mountain to continue his cultivation.

The news of the great battle between Ye Tian and Netherkill Heavenly Pride spread at an unbelievable speed, spreading across all continents of Silver Universe Star and becoming known to countless powers, and even gradually spreading throughout the Milky Way.

For a time, the fame of the Heavenly Emperor of Ten Thousand Laws resounded throughout the Milky Way!

Chapter 350: Time to Return to Earth!

In the Flame Sect.

The Sect Master of the Flame Sect received the news of the failure to assassinate the Heavenly Pride of Ten Thousand Laws immediately and was furious.

What a waste, the assassin sent to kill the Heavenly Pride of Ten Thousand Laws boasted so confidently before, yet he couldnt even inflict a serious injury!

A True God below said, Sect Master, the Heavenly Pride of Ten Thousand Laws is a peerless Heavenly Pride. It was unexpected for all of us, and the assassin, being just a six-star Heavenly Pride, naturally couldnt kill him.

What should we do now? the Sect Master of the Flame Sect demanded, glaring at the True Gods below.

One of the True Gods suggested, Sect Master, the Heavenly Pride of Ten Thousand Laws is nearly invincible at the Emperor level. The best among the geniuses we found are at most six-star peerless Heavenly Prides, who stand no chance against him. Why not wait until the Heavenly Pride of Ten Thousand Laws ascends to the God level? By then, any True God could easily eliminate him!

Another True God added, Indeed, Sect Master, its not advisable to take action against the Heavenly Pride of Ten Thousand Laws now. If he were to retaliate against our Flame Sects Emperor level forces, it would be a great loss of face for our sect!

Damn it! The Sect Master of the Flame Sect was seething with rage but eventually calmed down.

Fine, let's abandon the plan to assassinate the Heavenly Pride of Ten Thousand Laws. The moment he steps into the God level, he is doomed! the Sect Master of the Flame Sect coldly declared.

At this moment.

Many Heavenly Prides on Silver Universe Star also received the news of the battle between Ye Tian and the assassin sent against the Heavenly Pride of Ten Thousand Laws.

Many were initially skeptical and even questioned the source of the news, but after repeated verifications, they had to believe it.

Silver Universe Star witnessed the rise of a second peerless Heavenly Pride, who matched the assassin without defeat, leaving all the Heavenly Prides utterly astonished.

Especially Thunder Roar Heavenly Pride, who, upon learning that Ye Tian had become a peerless Heavenly Pride, shelved his jealousy and any plans against Ye Tian.

Being merely a three-star Heavenly Pride, how could he dare to confront a six-star peerless Heavenly Pride? That would be tantamount to suicide.

In Qingfeng Giant City.

God Zilun was shocked beyond words upon receiving the report about Ye Tian.

The Heavenly Pride of Ten Thousand Laws is a peerless genius!!

He had always thought the Heavenly Pride of Ten Thousand Laws was just a three-star Heavenly Pride, which was already impressively fast! After all, it hadn't been long since he became a Heavenly Pride, but in such a short time, he had become a six-star peerless Heavenly Pride, surpassing all expectations.

Then, he burst into laughter.

The Heavenly Pride of Ten Thousand Laws hailed from Qingfeng Giant City, signifying the emergence of a peerless Heavenly Pride from the city, an unprecedented event.

Hahaha, with this, our Qingfeng Giant City will gain even greater fame among the many giant cities of Silver Universe Star, and we should receive more resources and better treatment! God Zilun said with a laugh.

Unaware of the various discussions outside, Ye Tian was quietly cultivating in the Gourd God Mountain, waiting for the birth of the spatial artifact.

Another half month passed in the blink of an eye.

One day.

A powerful spatial aura fluctuated throughout the Gourd God Mountain.

The spatial artifact, the Dimensional Cube, is born! Ye Tian speculated as he opened his eyes.

As expected.

Soon after, a God-level guard arrived at Ye Tians residence, announcing, Lord Ye Tian, the Dimensional Cube has been forged by Master Lan Ruo, please come over!

Ye Tian stood up, packed up the small palace, and headed towards the Gourd God Mountains forging temple.

Before long, Ye Tian arrived and saw Master Lan Ruo again.

Master Lan Ruo appeared somewhat exhausted, indicating the difficulty of forging the spatial artifact.

Heavenly Pride of Ten Thousand Laws, the spatial artifact, the Dimensional Cube, has been forged! Master Lan Ruo waved his hand, and a cube-shaped spatial artifact floated in the air, emitting strong spatial fluctuations.

This spatial artifact is a lower-grade divine artifact, but its among the top in its class! Divine artisan Lan Ruo explained.

Ye Tian took the Dimensional Cube, storing it away, and thanked him with a bow: Thank you, Master Lan Ruo!

Alright, you can leave now. I need to rest, Lan Ruo waved his hand and said.

Ye Tian nodded slightly and then left the Gourd God Mountain.

Not long after, the Gourd God Mountain announced a three-year closure, during which divine artisan Lan Ruo would not forge any divine artifacts.

Many martial warriors waiting at the foot of Gourd God Mountain to have their artifacts forged were left wanting to cry but found no tears. They had waited for a long time, hoping to commission divine artisan Lan Ruo to forge divine artifacts. Now that Lan Ruo had closed the mountain, they naturally lost any chance of it happening.

Qingfeng Giant City.

Ye Tian returned but also caused quite a stir. Many major forces sent representatives to congratulate him and sought to befriend him, but Ye Tian did not meet a single one of them and immediately went into closed-door cultivation.

As time passed, no one else came, and Ye Tian enjoyed the peace.

Time flew, and in the blink of an eye, a year and a half had passed.

Ye Tian had been in closed-door cultivation for a year and a half without stepping outside.

On this day, in the cultivation chamber, Ye Tian was attempting to break through a very important barrier the seventeenth limit of his physical body.

At that moment, he was fully activating an unnamed body cultivation secret technique and using a significant amount of resources and treasures to repeatedly challenge the bottleneck of the seventeenth physical limit.

In the past, breaking through physical limits was not difficult for him, but the seventeenth physical limit was not an ordinary one. Even though he possessed a vast cultivation talent and the unnamed body cultivation secret technique, it was still slightly challenging.

After about half an hour of attempting, suddenly, a cracking sound was heard.

Boom! The bottleneck was shattered, and streams of power surged into the depths of Ye Tians body, enhancing his physical strength.

He had successfully broken through the seventeenth physical limit.

At this point, his physical strength had tripled, and both his speed and defense had significantly increased.

Resource after resource was consumed by him, replenishing his bodys needs. A few days later, Ye Tians realm had completely stabilized.

Phew, I finally broke through the seventeenth physical limit, but it seems I still havent reached the level of a seven-star peerless Heavenly Pride, Ye Tian frowned slightly.

He had thought that breaking through the seventeenth physical limit would allow him to reach the level of a seven-star peerless Heavenly Pride. Now, he realized it was naive to think so. Unless he made breakthroughs in other areas, such as sword techniques, palm techniques, and spatial or temporal talents, it would be difficult to reach the seven-star Heavenly Pride level.

If entering the ranks of seven-star Heavenly Prides were so easy, the Milky Way would not have been without mention of their existence until now.

Of course, there might be seven-star Heavenly Prides in the Milky Way, but they had mostly ventured into stronger galaxies. Those who remained in the Milky Way were mostly six-star Heavenly Prides and other Heavenly Prides.

Although he had not reached the level of a seven-star peerless Heavenly Pride, Ye Tians current strength was definitely among the top of the six-star Heavenly Prides. If Netherkill Heavenly Pride were to attempt an assassination again, he was 70% confident he could kill him.

Its time to return to Earth, Ye Tian suddenly felt sentimental.

He had been on Silver Universe Star for over four years, and although there was still some time left before the five-year deadline, considering the current situation, less than a year was not enough for further improvement. It was wiser to return to Earth earlier.

Moreover, he wasnt very clear about the specifics of the Origin Realms emergence, and powers like the Glory Pavilion had only made rough estimates. Therefore, it was wise to return earlier.

And, he truly missed his wife and sister.

Lets go back! After deciding, Ye Tian began to make large purchases on Silver Universe Star.

This time, he intended to buy more treasures and resources from Silver Universe Star, as even a small amount of resources from here would be considered valuable at Zhonghai Super Base on Earth.

Earth was lacking in resources, but here, resources were abundant, so naturally, he wanted to buy more.

Three days later, after purchasing a vast amount of resources, Ye Tian finally set off from Silver Universe Star.

When Ye Tian left Silver Universe Star, many forces were aware, but after his departure, he disguised himself, and afterwards, no one knew of his whereabouts.

He did not want others to know his destination, as it could attract many powerful beings, and if it led to the exposure of the Origin Realm, the regret would be beyond measure!
