

Talent 351

Chapter 351: The Transformation of Empress Yue's Talent

After leaving Silver Universe Star, Ye Tian utilized the teleportation arrays of various planets to make his successive departures.

By opting for teleportation arrays, which did not require identity verification, over cosmic spacecraft that necessitated purchasing tickets with an ID, he avoided the risk of exposing his identity.

Through multiple teleportations, Ye Tian finally arrived at the 26th planet in the Centauri planetary system, a hub that allowed access back to the Moon in the Solar System via its teleportation array combined with the Moons coordinates.

Without lingering on the 26th planet, Ye Tian directly teleported back to the Moon.

On the Moon, stepping out from its interior, Ye Tians gaze turned towards Earth.

With a swift teleportation, he moved from the Moon to just outside Earths atmosphere.

He sliced a small opening in the atmospheric membrane and slipped into Earth.

Upon entering, Ye Tian immediately noticed the extraordinary nature of Earth.

The yuan qi here is even denser than before!

He estimated that Earths yuan qi density had more than doubled since his last visit, highlighting significant changes on the planet in the interim.

Sensing Xiao Xues presence ensured Ye Tian of her safety and that Zhonghai Super Base remained unharmed.

Soon after, Ye Tian returned to Zhonghai Super Base.

At the Moon God Sect, Empress Yue was in the midst of cultivation when she suddenly heard a voice.

Yueer, Im back!

Hearing this familiar voice, tears of excitement welled up in Empress Yues eyes.

My husband!

She hastily concluded her cultivation session and exited the cultivation chamber.

There, she saw Ye Tian appearing in her Moon God Palace.

Yueer, Ive returned!

Embracing Empress Yue tightly, Ye Tian conveyed his joy.

My husband, its good that youre back!

The couple held each other tightly for a long time before finally letting go.

Empress Yue then sat on Ye Tians lap, leaning into his embrace, as he recounted his adventures in the Milky Way.

His tales of Heavenly Prides, peerless Heavenly Prides, God levels, True Gods, and Great Gods left her astounded.

Compared to the Milky Way, Earth seemed minuscule.

Learning that the Solar System had become Ye Tians territory thrilled Empress Yue beyond words.

The Solar System? Such a vast domain is now under my husbands control, making it mine as well! Does that mean Earth is mine too?

Yueer, I have a gift for you!

Ye Tian presented a white fruit to Empress Yue.

Eat this, Yueer, he urged.

Okay!

Empress Yue obediently consumed the fruit, unaware of its ordinariness aside from its peculiar taste.

Unbeknownst to her, Ye Tian activated his talent copying ability.

Bestow the Desolate-level cultivation talent!

Ye Tian granted Empress Yue the Desolate-level cultivation talent he had stripped from a Heavenly Pride and stored within his talent copying ability. With this, Empress Yue gained a Desolate-level cultivation talent.

As Ye Tian activated the ability and bestowed the talent upon her, her existing Dawn-level cultivation talent was overshadowed by the Desolate-level one.

The transformation began with a surge of formidable power infiltrating Empress Yues soul, altering her cultivation talent.

Empress Yue, mistaking the effect for the white fruits power, was unaware that the fruit was merely an ordinary spiritual fruit used by Ye Tian as a diversion.

Revealing the truth about stripping a Heavenly Prides Desolate-level cultivation talent to bestow it upon her could expose his talent copying ability and cause significant upheaval.

To keep this secret and protect her, Ye Tian resorted to deceiving his wife with an ordinary spiritual fruit.

As time passed, Empress Yue endured the pain and eventually fell exhausted into Ye Tians arms, drifting into a deep sleep.

Half a day later, she awoke.

Yueer, youre awake. Try cultivating!

Ye Tian eagerly suggested.

Okay, Ill cultivate!

Empress Yue followed Ye Tians suggestion and began to absorb the surrounding yuan qi, refining her body.

This cultivation session brought a massive influx of yuan qi, refining her body at a rate many times faster than before.

Whats happening? Empress Yue was astonished.

Her current cultivation speed was significantly faster than before, a clear indication of an enhanced talent. Yueer, you now possess a Desolate-level cultivation talent! Ye Tian explained.

Desolate-level cultivation talent? Empress Yue, unfamiliar with this level of talent, was utterly baffled.

Ye Tian then elaborated, Previously, you had a Dawn-level cultivation talent, which could only advance to the God level. Above the Dawn-level is the Supreme-level, allowing cultivation up to the True God level. And above the Supreme-level is the Desolate-level, which enables one to reach the Great God level.

So, above the Dawn-level is the Supreme-level, and above that is the Desolate-level. And I now have a Desolate-level cultivation talent? Empress Yue was still dazed, overwhelmed by the sudden upgrade.

It was like a poor person suddenly inheriting a fortune, leaving them stunned.

After some time, Empress Yue regained her composure.

My husband, to give me such a precious fruit I'm so moved.

Don't be silly. Of course, I'd give the best to you. Don't worry about my talents; they're beyond just Desolate-level. And remember, you must keep the fruit a secret from everyone. Ye Tian cautioned.

Empress Yue nodded repeatedly in agreement.

Then, Ye Tian presented her with various treasures he had acquired from Silver Universe Star, all rare and precious on Earth.

Empress Yue was astounded by the sheer volume of resources, enough to last her many years.

Empress Yue, this is a Six-Star Wondrous Object, similar to the Dao Enlightenment Stele but for sword cultivation. Since you have a talent for swordsmanship, I'm giving this Sword Dao Stele to you, Ye Tian said, handing her the stele from his personal spatial realm.

Thank you, my husband! Empress Yue kissed Ye Tian joyfully.

Yueer, let's visit the Tian Pavilion together, Ye Tian suggested, holding her hand.

Alright! Empress Yue agreed.

Their return to the Tian Pavilion caused a huge stir. Ye Tian had been in seclusion for over four years, and there had been endless speculation about his presence in the base, with some even fearing he had fallen. However, Empress Yue's presence and the strength of the Tian Pavilion had kept things in order.

Now, Ye Tians appearance dispelled all rumors.

At the Tian Pavilion, Ye Yu was thrilled to see Ye Tian. Knowing he had left Earth, she hadnt seen him in over four years and was excited for their reunion.

Little Yu, well done. Youve reached the Emperor level! Ye Tian praised.

Brother, Ive been working hard while you were away. Sister-in-law knows! Ye Yu said proudly, clearly proud of her progress.

Master, Xiao Xue has also reached the Emperor level! A massive dragon head emerged, speaking to Ye Tian.

Xiao Xue, you werent discovered by the Dragon Clan, were you? Ye Tian asked, patting Xiao Xues head.

No, after you told me about the Battle Blood Dragon Clan, I used a secret technique from my inheritance to seal off the dragon clans aura fluctuations. Unless a dragon clan member comes within a hundred meters of me, they cant detect my dragon aura, Xiao Xue explained.

Good job. Heres a gift for you, Ye Tian said, handing over treasures suitable for ferocious beast growth to Xiao Xue.

Wow, thank you, Master! Xiao Xue eagerly stored the treasures in his spatial bag and ran off to his cultivation chamber, obviously excited to examine them.

Watching this, Ye Tian smiled. Silver Universe Star might be wonderful, but it couldnt compare to the warmth of home.

Chapter 352: The Yuan Realm in Kunlun Mountains

After Xiao Xue left, Ye Tian took out many treasures and handed them to his sister, Ye Yu, saying, Sister, these are some gifts Ive brought for you.

A pile of treasures appeared before his sister, who was stunned at the sight. Most of these treasures were extremely precious, including some wondrous objects.

It could be said that the resources accumulated by the Tian Pavilion over the years couldn't even compare to 1% of these treasures.

Brother, where did you get all these treasures from? Ye Yu asked, full of curiosity.

Ye Tian then briefly shared his experiences over the years. After hearing his story, Ye Yu understood that during these years, Ye Tian had been to Silver Universe Star, where these treasures were merely common resources.

Ye Yu then stored the treasures away, planning to place them in the Tian Pavilions treasury later.

In the following days, Ye Tian talked about many things with his wife, Empress Yue, and his sister, Ye Yu. He also learned about the current situation on Earth from Empress Yue.

After Ye Tian left, many events had unfolded on Earth, with wondrous objects appearing frequently, leading to battles among various emperors. Many native emperors of Earth had died, and there were constant fights between the emperors of foreign forces and the Dragon Clan, with seven or eight Star Emperors falling.

However, there had been no news about the Yuan Realm.

Empress Yue remembered Ye Tian's instructions and had not inquired about the Yuan Realm.

After staying in Zhonghai Super Base for seven or eight days, Ye Tian decided to inquire about the Yuan Realm. The foreign forces, naturally more knowledgeable about the Yuan Realm, were his target. He planned to approach an eight or nine-star Emperor from the foreign forces to learn more.

One night, Ye Tian tore through the spatial barrier between the Earth Immortal Realm and Earth, entering the Earth Immortal Realm. Such an act would be impossible in Silver Universe Star, where the barriers between small worlds and the main world were much stronger. However, the barriers around Earth were relatively weaker, allowing him with his strength to easily tear through and enter the Earth Immortal Realm.

Upon entering the Earth Immortal Realm, Ye Tian quickly located the headquarters of the Glory Pavilion.

The headquarters of the Glory Pavilion were located in Glory City, a massive city built underground by the Pavilion. Glory City was bustling with martial warriors and numerous emperors, and even demi-gods were stationed at the Pavilions headquarters.

Furthermore, the Pavilion was protected by numerous formations and defensive arrays.

It was said that even a nine-star entity would not dare to intrude into the headquarters of the Glory Pavilion recklessly, as it could provoke the Pavilions wrath and result in immediate annihilation.

As a six-star peerless Heavenly Pride, Ye Tian certainly did not fear a mere Glory Pavilion. Using his invisibility talent, he entered Glory City.

Soon, he found an eight-star Emperor and located him within a temple in Glory City, where the Emperor usually cultivated and seldom left.

This eight-star Emperor, known as the Dawn Emperor, was one of the few eight-star Emperors in the Glory Pavilion within the Earth Immortal Realm.

In the temple, as the Dawn Emperor was cultivating, he suddenly sensed an impending danger.

Feeling someone approaching, his body tensed, and he stood up.

Whos there? the Dawn Emperor shouted.

Suddenly, a figure appeared before himYe Tian.

The Dawn Emperor was terrified. Despite the many arrays set up, ordinary people couldnt enter, and Ye Tian had not only entered but had also done so without triggering any alarms. His ghostly entrance deeply alarmed the Dawn Emperor.

The Dawn Emperor, having arrived on Earth from another planet within the last two years to deal with affairs there, was not familiar with Ye Tian, especially since the Yuan Realm was about to open.

Who are you? How did you get in here? the Dawn Emperor demanded.

I just walked in! Ye Tian said with a slight smile.

In fact, Ye Tian used spatial phasing, entering the space where the temple was located.

This was why Ye Tian did not trigger the temples formations and was able to enter silently.

Sensing the danger from Ye Tian, the Dawn Emperor did not make a move but instead said, Please leave!

I came to find out some information from you, Ye Tian spoke.

At this moment, the Dawn Emperor felt a significant threat.

Suddenly, a spatial fluctuation froze the surrounding space.

I cant move! The Dawn Emperor was terrified.

It was clear that the opponents strength far exceeded his own; otherwise, the opponent wouldnt have been able to immobilize him with just spatial talent.

Such strength even far surpassed that of a typical nine-star Emperor.

A first-tier nine-star Emperor, or perhaps The Dawn Emperor dared not continue his thought. To exceed the first tier of nine-star Emperors meant possessing the strength of a Heavenly Pride, a terrifyingly talented individual even in the entire Milky Way.

Hypnosis. Ye Tian activated his hypnosis talent, intending to hypnotize the Dawn Emperor.

He didn't want to waste time talking and aimed to directly extract some secrets from the Dawn Emperor through hypnosis.

When will the Yuan Realm open? Ye Tian asked directly.

According to our calculations, the Yuan Realm will open in about five months, the Dawn Emperor replied.

What's the situation with the Dragon Clan? Do they know the secrets of the Yuan Realm? Ye Tian continued.

The Dragon Clan also knows about the Yuan Realm's secrets. They captured one of our eight-star Emperors and extracted information about the Yuan Realm from him. As a result, a major battle erupted between us and the Dragon Clan, with both sides suffering heavy losses, ultimately allowing the Dragon Clan to be involved in the Yuan Realm, the Dawn Emperor explained.

So, the Dragon Clan knows as well, Ye Tian frowned slightly.

If the Dragon Clan didn't know, he would only need to deal with the foreign forces. But now that the Dragon Clan was also aware of the Yuan Realm, things became slightly more complicated.

He was concerned that the Dragon Clan might have informed their higher-ups about the Yuan Realm's secrets. If that were the case, the Dragon Clan's Heavenly Prides and peerless Heavenly Prides would also enter Earth, intensifying the competition.

However, this possibility should be very slim, as the Dragon Clan, like humans, was likely selfish. With limited spots available and a Yuan Realm that could deplete one's potential, it was improbable that these secrets would be shared with higher echelons, as it would reduce their chances of entering the Yuan Realm.

Where exactly is the Yuan Realm? Ye Tian could find the Yuan Realm himself, but Earth was too vast, and searching alone would take a long time.

Thus, directly asking the Dawn Emperor was more convenient, eliminating the need to search for the Yuan Realm's location.

Under hypnosis, the Dawn Emperor honestly answered, The Yuan Realm is inside Mount Kunlun. Theres an entry node there, but weve sealed it jointly!

In Mount Kunlun? Ye Tian was somewhat surprised. Mount Kunlun was a famous mountain range in Huaxia, and he hadnt expected the Yuan Realm to be located there.

After asking the Dawn Emperor a few more questions and understanding the basic situation, Ye Tian killed him with a single strike.

The Dawn Emperor could not be left alive, as it would be too easy for him to expose Ye Tian.

Hypnosis could control others but couldnt alter their memories. Once the hypnosis ended, the Dawn Emperor would definitely remember his visit, leading to complications.

Therefore, Ye Tian decided to kill the Dawn Emperor. After all, for the people of Earth, these foreign forces were invaders, and killing them was no big deal.

Chapter 353: The Yuan Realm is About to Open

After killing the Dawn Emperor, Ye Tian left the realm of Earth Immortals.

The Dawn Emperor was an eight-star emperor of the Glory Pavilion, and naturally, he had a soul lamp within the pavilion. When the Dawn Emperor perished, his soul lamp shattered, and the Glory Pavilion was immediately aware of his demise.

Soon, the emperors of the Glory Pavilion rushed to the Dawn Emperors temple.

When they broke into the temple and reached its interior, they finally found the body of the Dawn Emperor.

The Dawn Emperor is dead.

At this moment, all the emperors of the Glory Pavilion were filled with rage.

The Dawn Emperor was a crucial eight-star emperor within the Glory Pavilion, and one of the few at that tier.

His fall was a significant loss for the Glory Pavilion.

More importantly, the fact that the Dawn Emperor was killed within his own temple was a severe blow to the Glory Pavilions pride.

Investigate!

The emperors began to investigate the matter, but after a long inquiry, they found no evidence of anyone entering the temple.

Ultimately, they shifted the blame to the Dragon Race, believing that only a powerful member of the Dragon Race would have the motive to kill one of their own.

The relationship between the external forces and the Dragon Race became increasingly tense.

Meanwhile, Ye Tian had arrived at the Kunlun Mountain Range.

He came invisibly to the Kunlun Mountain Range, as he did not wish to reveal his identity just yet.

Upon arriving, he discovered that many emperors from external forces were hidden around the Kunlun Mountain Range, and he even sensed the presence of a few demi-gods.

Clearly, the external forces placed great importance on the Kunlun Mountain Range, constantly guarding the entrance to the Yuan Realm.

Ye Tian did not enter the Kunlun Mountain Range directly; after all, the Yuan Realm had not opened yet, and he could not enter it. He was merely there to check the situation.

After confirming that the Yuan Realm was indeed within the Kunlun Mountain Range, Ye Tian turned and left.

He then returned to Zhonghai Super Base.

In the following days, Ye Tian spent his time with his wife, Empress Yue. His actions against the Dawn Emperor had drawn the attention of the external forces.

During this time, he needed to keep a low profile to avoid inciting fear among the external forces, which could lead to the secrets of the Yuan Realm being leaked.

Although he had the strength and ability to drive the Dragon Race and external forces off Earth, doing so would likely result in these factions revealing the secrets of the Yuan Realm to the broader galaxy.

This was not the outcome Ye Tian desired, so he refrained from taking action against the Dragon Race and the external forces for the time being.

Once the Yuan Realm opened, he would take decisive action. By then, even if the secrets of the Yuan Realm were leaked, the external forces would not have enough time to respond.

After all, the Yuan Realm was a place that could only be entered once, and once the quota was filled, no one else could enter.

At that point, Ye Tian would have no more concerns.

Thanks to the vast resources Ye Tian brought to the Tian Pavilion, a continuous stream of Saint and Emperor level warriors were born within the pavilion.

In just three months, the Tian Pavilion saw the emergence of six emperors.

His sister, Ye Yu, broke through her second physical limit, while his wife, Empress Yue, who had already broken through her ninth physical limit, saw her cultivation talent transform into a desolate level cultivation talent. With the abundant resources provided by Ye Tian, she was close to breaking through her tenth physical limit.

As for Ye Tian himself, there was no significant progress, as his strength had already reached the peak of a six-star peerless Heavenly Pride. Advancing further was not going to be easy.

He could only hope to break through several physical limits within the Yuan Realm, potentially ascending to the level of a seven-star or even an eight-star peerless Heavenly Pride.

Time passed, and the day when the Yuan Realm would open was drawing nearer.

One day, Ye Tian distinctly felt the yuan qi on Earth beginning to diminish, causing many martial warriors to become anxious.

Yuan qi was an essential element for their cultivation, and a decrease in the natural yuan qi would significantly slow their cultivation progress.

If the decrease in yuan qi was slight, they would not be too concerned, but the speed at which the yuan qi was diminishing was accelerating.

In just ten days, the yuan qi in the atmosphere had reduced by threefold.

Many martial warriors even speculated whether the era of decline was approaching again. If it were indeed the onset of such an era, it would spell doom for martial warriors.

Without yuan qi, how could martial warriors continue to progress and cultivate? The Tian Pavilion faced a looming crisis.

Ye Yu came looking for Ye Tian.

Brother, the yuan qi in the air has decreased a lot recently. Whats going on?

Ye Yu knew her brother was very powerful, so she asked him, hoping Ye Tian might know the reason.

Ye Tian reassured Ye Yu, Dont worry, Little Yu. I know why the yuan qi is disappearing. Its only temporary and will recover later!

Ye Tian was well aware that the significant disappearance of yuan qi signified the impending opening of the Yuan Realm.

For the Yuan Realm to fully mature and open, it needs to reclaim a vast amount of yuan qi from Earth.

If it were a naturally evolving Yuan Realm, it would absorb all the yuan qi from a planet at the moment of its maturation.

Fortunately, this Yuan Realm was artificially induced and lacked the potential to absorb all the yuan qi from Earth.

Otherwise, Earth would truly enter a dark age.

This situation was actually somewhat favorable for martial warriors, as they didn't need to worry about Earth's inability to recover.

Since this type of Yuan Realm could only exist for a short period, once the Yuan Realm collapsed, the yuan qi would return to Earth, and the concentration of yuan qi would rise again.

What exactly is happening, brother? Ye Yu asked curiously.

Ye Tian decided not to hide it anymore and explained, The main reason for the massive disappearance of yuan qi on Earth is the Yuan Realm.

The Yuan Realm?

Ye Yu was unfamiliar with the concept of a Yuan Realm and had never heard of it before, which made her very puzzled.

Ye Tian quickly briefed Ye Yu on the basic information about the Yuan Realm, and she understood after hearing it.

So, Earth contained such a huge secret, no wonder the Dragon Race and external forces had come to Earth.

She had always thought that the real aim of the external forces was the wondrous objects on Earth, but now she realized that those were just a distraction; their real target was the Yuan Realm.

Brother, are you planning to compete for the Yuan Realm?

Ye Yu inquired.

Yes, the Yuan Realm represents a tremendous opportunity, so I must enter it! Ye Tian confirmed.

Brother, if youre going into the Yuan Realm, wont you have to compete with the Dragon Race and the external forces? Isnt that very dangerous?

Ye Yu immediately became worried.

The external forces and the Dragon Race were incredibly powerful, with many eight-star and nine-star emperors, and even some very powerful demi-gods.

Ye Tian was alone; how could he possibly stand against the external forces and the Dragon Race? What Ye Yu didnt know was that Ye Tians strength far exceeded her imagination. Even the nine-star emperors and demi-gods achieved at that level were no match for him.

However, Ye Tian had never revealed his true strength to Ye Yu, who assumed his level was only at that of a nine-star emperor.

Dont worry, Little Yu. Your brothers strength is very formidable. The Dragon Race and the external forces are nothing in my eyes! Ye Tian said with a smile.

Ye Yu trusted Ye Tian deeply, and his words significantly eased her worries.

Later, Ye Tian went to see Empress Yue.

Yueer, Im planning to go to the Kunlun Mountain Range, Ye Tian told Empress Yue.

Are you going to take action against the Dragon Race and the external forces? Empress Yue asked.

Ye Tian nodded, Im ready to take action. Once the Yuan Realm opens, Ill immediately expel all the emperors from the Dragon Race and the external forces. As for the Yuan Realm, I plan to allow you, some emperors from the Tian Pavilion, and the native emperors of Earth to enter the Yuan Realm to strengthen Earths power!

Be careful, my husband, Empress Yue cautioned.

Although she knew her husband Ye Tian was very powerful, she still urged him to be careful.

Dont worry, Yueer, I will be, Ye Tian said, touching Empress Yues face and then holding her in his arms for a long time.

After a while, Ye Tian released Empress Yue and turned to leave.

Chapter 354: An Astonishing Entrance

The third update, seeking full subscription.

In the Kunlun Mountain Range.

On this day, the forces from outside, including eight or nine 8-star Emperors, as well as the Dragon Clans eight or nine 8-star Emperors, had mostly gathered here, accompanied by demigods from both sides.

The Yuan Realm was of no use to the demigods, but their main purpose here was to serve as a deterrent.

On the Dragon Clans side, there were a total of three demigods, with Prince Long Tianlin commanding the Emperor-level beings.

As for the thirteen major external forces, there were a total of seven demigods. Naturally, they outnumbered the Dragon Clan. The main reason was that the Dragon Clan learned about the Yuan Realm too late and simply didnt have enough time to nurture demigods. Those who were

qualified to ascend to the God level and possessed eight or nine 8-star Emperor-level strength were definitely going to be sent to the Yuan Realm, so naturally, they couldnt be nurtured into demigods, otherwise, they wouldnt be able to enter the Yuan Realm.

Of course, even though the Dragon Clan side only had three demigods, the thirteen forces did not dare to encircle and suppress the Dragon Clan, simply because the Dragon Clan had brought a powerful weapon, enough to deter the thirteen forces.

If a real battle were to ensue, the thirteen forces eight or nine 8-star Emperors would probably suffer heavy casualties, which would not be in their interest. These Emperors did not wish for a battle either.

Boom! The thirteen forces and the Dragon Clan stood at opposite ends of the sky, with Kunluns main peak as the boundary, confronting each other.

Long Tianlin spoke, Everyone, the Yuan Realm is about to open, and our Dragon Clan wants 100 spots!

Representing the thirteen forces, the Myriad Fire Emperor retorted, Long Tianlin, your Dragon Clan hasnt done anything and yet demands 100 spots. Isnt that too much? This Yuan Realm depletes potential and cant accommodate too many people entering. At most, 200 people can enter. We, the thirteen forces, have so many Emperors that we dont even have enough spots for ourselves. If you take away 100 spots just like that, we might as well go to war!

Long Tianlin frowned. Indeed, demanding 100 spots was asking for too much, but if the number of spots was too small, it wouldnt be enough for the Dragon Clan either. 50 spots! he countered.

Impossible! At most, we can give 20 spots! the Myriad Fire Emperor declared.

30 spots. If thats not acceptable, then lets just go to war. Our Dragon Clan is not afraid! Long Tianlin declared coldly.

The thirteen forces naturally did not want to start a war; their earlier threats were just that, threats.

After much arguing between the two forces, no conclusion was reached.

Finally, Long Tianlin suggested, Lets allocate 100 spots to your thirteen forces first. The remaining 100 spots will be contested between our Dragon Clan and you through a wager. Each side will send one Emperor-level warrior to fight, and each victory will secure 10 spots. How about that?

We need to discuss this, the Myriad Fire Emperor said.

Soon, representatives of the thirteen forces engaged in discussions.

After a long while, they reached an agreement and accepted this arrangement.

A contest for 10 spots, with a total of 10 matches. Winning 5 matches would mean a huge gain for them.

We agree! the Myriad Fire Emperor announced.

Then lets begin. First, write down the names of the ten contestants from each side in order, and then proceed to the contest in that order. This way, its fairer, Long Tianlin suggested.

the Myriad Fire Emperor agreed.

Soon, the order of appearance for both sides was determined.

Two golden papers flew up, with the names clearly visible on them.

On the side of the thirteen forces, the Myriad Fire Emperor was the first to fight, and for the Dragon Clan, Long Tianlin was the first.

What? Long Tianlin is the first to fight? the Myriad Fire Emperors expression changed.

According to their predictions, Long Tianlin, being a top-tier nine-star Emperor, should have been the final contestant since no one could match him. To have him fight first was unexpected! Had they known this, they would have sent one of their ten nine-star Emperors to fight first.

Now, with one of their strongest, the Myriad Fire Emperor, facing Long Tianlin, they were at a disadvantage. Boom! Long Tianlin took a step forward, looking directly at the Myriad Fire Emperor: the Myriad Fire Emperor, come forth!

the Myriad Fire Emperors face turned ashen. He clasped his fists and conceded, I admit defeat!

There was no choice but to admit defeat. He was only a fourth-tier nine-star Emperor, and if Long Tianlin were to make a move, he could be killed in an instant.

The gap between them was too vast! On the side of the thirteen forces, only the very top demigods could defeat Long Tianlin, but demigods were not allowed to participate.

The Dragon Clan side won, securing 10 spots.

Next, a nine-star Emperor from the Dragon Clan faced off against a nine-star Emperor from the thirteen forces. After a brutal fight, the Emperor from the thirteen forces won the match at a great cost, securing 10 spots.

In the subsequent sparring sessions, both sides had their victories and defeats.

After a day, the ten matches concluded.

The final result was that the Dragon Clan won six matches, securing 60 spots, while the remaining 140 spots went to the thirteen forces.

For the Dragon Clan, this was naturally a win, as it would have been difficult to secure 60 spots through negotiations alone.

Neither side was willing to engage in a full-scale battle.

With the spots allocated, what followed was the internal distribution of spots within each force, which was determined after several rounds of discussions.

Another day passed.

The yuan qi on Earth became significantly thinner, dropping by at least tenfold. However, inside the Kunlun Mountains, a powerful world fluctuation emerged, causing the entire mountain range to shake.

The Yuan Realm is about to truly open! Long Tianlin was extremely excited.

This was the Yuan Realm, after all. He had learned about the Yuan Realm from the Dragon Clans treasury. Although the Dragon Clans territory had encountered Yuan Realms before, even the most outstanding individuals of the Dragon Clan found it difficult to enter. Whenever a Yuan Realm appeared, countless Heavenly Prides would fight to the death over it, even attracting foreign races to compete.

Although he was a top-tier nine-star Emperor, he was not considered significant within the Dragon Clan and had no right to compete for the Yuan Realm.

But now, a Yuan Realm had appeared in such a small place as Earth. Even if it was a Yuan Realm with depleted potential, it was still a tremendous opportunity! If he could enter the Yuan Realm, he was almost guaranteed to become a Heavenly Pride. Once he became a Heavenly Pride of the Dragon Clan, he would not only hold supreme status on his own planet but also gain immense fame across the vast Dragon Clan star field, truly conquering the stars and seas and fulfilling his long-cherished dream.

The entrance to the Yuan Realm is about to manifest, everyone retreat quickly! the Myriad Fire Emperor warned.

Whoosh! One after another, the Emperors rapidly retreated, and even the demigods stepped back.

The Dragon Clan side also dared not approach and retreated. They were well aware that when the entrance to the Yuan Realm manifested, the spatial fluctuations would be incredibly intense, creating a strong suction force. If anyone got too close, they would be sucked in.

The entrance was not yet stable, and being sucked in at this point would result in being caught in spatial turbulence, tearing the individual to shreds.

With a thunderous roar, the main peak of Kunlun suddenly split open, and countless fragments flew in all directions.

To everyone's astonishment, the main peak of Kunlun had disappeared, replaced by a hundred-meter-long black hole, the entrance to the Yuan Realm.

Whoosh!

Streams of gray gas spread out from the entrance of the Yuan Realm, quickly absorbed by the crowd.

In an instant, many felt as if their bodies had been tempered.

Chaos yuan qi! Long Tianlin was filled with endless desire. This was the legendary chaos yuan qi, and although it wasn't very pure, chaos yuan qi was Chaos yuan qi, far superior to ordinary yuan qi. Even the elemental yuan qi emitted by treasures like Breath Soil and Weak Water couldn't compare to chaos yuan qi.

Chaos yuan qi was a true treasure, offering a heaven-defying opportunity for Emperors.

The chaos yuan qi that leaked out was fervently absorbed by the Emperors, not willing to waste a single bit.

And inside the Yuan Realm, there was a vast amount of chaos yuan qi, exciting everyone at the thought.

Wait a bit longer, the entrance to the Yuan Realm is not yet fully stable! the Myriad Fire Emperor reminded, to prevent any Emperor from rushing in and risking their lives.

Time passed, and after a few hours, with a loud bang, the entrance to the Yuan Realm stabilized completely.

Whoosh! An eight-star Emperor rushed towards the entrance of the Yuan Realm. However, just as he was about to enter, a hand reached out from the space and grabbed his neck.

With a snap, the eight-star Emperor was instantly killed.

Crack!

Space tore open, and a figure stepped out from within.

Such an entrance method put everyone on high alert.

Heavenly Emperor of Ten Thousand Laws! Recognizing Ye Tian, the Myriad Fire Emperor was shocked.

Chapter 355: Slaying a Demigod with One Strike

Ye Tian, who had once demonstrated the strength of an eight-star Emperor, had forcefully snatched a wondrous object and repelled two eight-star Emperors with his formidable power. As such, many Emperors, including the Myriad Fire Emperor, recognized Ye Tian as the so-called number one Emperor native to Earth.

However, over four years ago, Ye Tian announced his seclusion and ceased to vie for wondrous objects, leading the external forces to disregard him and nearly forget about his existence.

But now, not only had Ye Tian made an appearance, but he had also emerged from the realm of space and instantly killed one of their eight-star Emperors.

Heavenly Emperor of Ten Thousand Laws, you are quite bold to dare to kill an Emperor from our Wind and Rain Sect! the nine-star Emperor Blood River of the Wind and Rain Sect bellowed in rage.

Had it not been for Ye Tians apparent formidable strength, he would have attacked him alone already.

The Dragon Clan, upon witnessing Ye Tians action, adopted a stance of watching the drama unfold. They saw Ye Tian as a member of the human race involved in an internal conflict, which they had no interest in intervening in.

As for entering the Yuan Realm, it made little difference to them whether they entered a moment sooner or later, as long as it did not take too much time.

Whoosh! Ye Tian drew out a Dawn-level saber and stood with it horizontally, addressing the thirteen human sects and the Dragon Clan, This Yuan Realm belongs to Earth, and it belongs to me. Everyone, please leave Earth!

What? You wish to monopolize the Yuan Realm all by yourself?! the Myriad Fire Emperor exclaimed in anger.

Ye Tians arrogance was astounding, daring to contend against thirteen sects and the Dragon Clan alone. Was he out of his mind?

Even if you are a nine-star Emperor of the first tier, you have no right to monopolize the Yuan Realm!

The nine-star Emperor Blood River of the Wind and Rain Sect charged forward, wielding a blood-red spear, aiming to pierce through Ye Tian. Although Blood River was only a fifth-tier nine-star Emperor, he was much more powerful than an eight-star Emperor and could even contend with a fourth-tier nine-star Emperor for a time.

Moreover, he did not truly believe that Ye Tian could have advanced from an eight-star Emperor to a first-tier nine-star Emperor in just a few short years. At best, Ye Tians strength was comparable to his own, if not weaker.

The Myriad Fire Emperor and the others did not stop Blood River, reasoning that even if he was no match for Ye Tian, he could at least gauge Ye Tians strength.

Ye Tian, watching the charging nine-star Emperor, smiled slightly and waved his hand. A spatial orb instantly enveloped Blood River.

Explode!

The space within the orb shattered, and Blood River didnt even have the chance to scream. He was reduced to dust, dispersing within the collapsing space.

In an instant, the shattered space healed under the influence of the laws of heaven and earth, but Blood River had vanished completely.

With one strike, Blood River fell.

You killed Blood River? the Myriad Fire Emperor exclaimed, his pupils constricting in anger and astonishment.

Meanwhile, the several eight-star Emperors of the Wind and Rain Sect glared at Ye Tian but dared not advance. After all, if even a nine-star Emperor was annihilated by Ye Tian in one strike, they would only be courting death by confronting him.

Spatial Orb!

Long Tianlin, with his extensive knowledge, recognized Ye Tians technique. It was a move characteristic of a spatial talent at the Pseudo-Mystic level, yet very few with such talent could actually execute the spatial orb.

Long Tianlin had only heard of the spatial orb but had never seen it until now.

At that moment, he frowned in contemplation, wondering whether he could withstand the power of the spatial orb. Without being enveloped by it, he could not judge its strength.

However, it was clear that Ye Tians strength surpassed that of an eight-star Emperor and was not merely that of an ordinary nine-star Emperor. He was definitely above the second-tier nine-star Emperors, and quite possibly a first-tier nine-star Emperor.

As for the notion of Ye Tian being a Heavenly Pride, no one entertained such a thought, deeming it impossible.

Zishan Demigod, this time, we request your intervention to eliminate the Heavenly Emperor of Ten Thousand Laws. Otherwise, we wont be able to enter the Yuan Realm! the Myriad Fire Emperor implored a demigod.

Alright! the Zishan Demigod responded.

He had actually been eager to act earlier, but as a demigod, his status was not as high as that of the Myriad Fire Emperor. After all, the latter was not only a nine-star Emperor but could also easily ascend to a god level, whereas he, having attained demigod status through certain treasures and secret techniques, was doomed to remain at the demigod realm for life, unable to break through.

Thus, his status was not very high.

As the Zishan Demigod made his move, all the Emperors present laughed.

In their eyes, Ye Tian was no match for Zishan Demigod, and even Long Tianlin was no match for him.

Zishan Demigod, having achieved demigod status as an eight-star Emperor, possessed strength that even surpassed that of a nine-star Emperor, equivalent to that of a one-star Heavenly Pride.

Heavenly Emperor of Ten Thousand Laws, you have great potential, but its a pity you foolishly wished to monopolize the Yuan Realm alone. Had you requested our assistance, we might have granted you a spot. But now, youve killed one of our eight-star Emperors and a nine-star Emperor, making an enemy of us. Youre undoubtedly doomed today! Zishan Demigod, wielding a purple-golden hammer, launched an attack.

Boom! The void trembled, forcing many Emperors to retreat continuously.

How powerful!

Many Emperors marveled at Zishan Demigods strength, even Long Tianlin, a first-tier nine-star Emperor, regarded him with wariness.

Yet, Ye Tian remained calm. In his eyes, even if Zishan Demigod were to break through to god level immediately, he would still be no match for him.

A nine-star Emperor becoming a god would only be comparable to a six-star peerless Heavenly Pride at best. And Zishan Demigod, being merely a demigod and an eight-star Emperor at that, stood no chance against Ye Tian.

Ant!

Ye Tian moved his saber.

Ghost Blade!

A flash of light passed, and Zishan Demigods hammer was split in two, along with his body, which was severed at the waist. His life force faded, and his corpse plummeted to the ground.

At that moment, the entire scene was in shock! A demigod had fallen! And not just any demigod, but one who achieved demigod status as an eight-star Emperor, yet was slain by Ye Tian with a single strike.

What kind of strength is this? You are a Heavenly Pride!!!

Long Tianlin exclaimed in terror.

Only then did others realize they were opposing a true Heavenly Pride.

Heavenly Pride!!!

The Myriad Fire Emperor took a step back in fear.

In his planetary system, there was not a single Heavenly Pride, whose status far exceeded the value of all their sects combined.

The thirteen great forces had joined together to create the Yuan Realm, all in the hope of nurturing a Heavenly Pride. And now, a genuine Heavenly Pride stood before them.

Indeed, I am a Heavenly Pride!

Ye Tian activated the Heavenly Pride mark on his forehead, its dazzling brilliance undeniable.

At that moment, everyone, including the Dragon Clan, was utterly convinced that Ye Tian was indeed a Heavenly Pride.

Leave now. This Yuan Realm is not for you to occupy. Whoever advances is courting death!

Ye Tian stated coldly.

How can we retreat?

The allure of the Yuan Realm was immense. Once inside, they too harbored hopes of becoming Heavenly Prides. Who would want to give up such a chance?

Abandoning this opportunity would mean they would never find such a chance again.

Especially for Long Tianlin, who had been a first-tier nine-star Emperor for hundreds of years and had been searching for a chance to break through his bottleneck and ascend to the level of a Sovereign Emperor, becoming a Heavenly Pride.

Now, the opportunity was right before him. If he entered the Yuan Realm, there was a 100% chance of ascending to Heavenly Pride status. How could he possibly give up?

Heavenly Pride of Ten Thousand Laws, I am willing to pay the price. Let me enter the Yuan Realm. How about it? Long Tianlin said through gritted teeth.

No!

Ye Tian responded coldly: The entire solar system is now my territory, and Earth is naturally my private property. Your actions are equivalent to invading the domain of a planetary systems lord. Even if I were to kill you all, it would be completely justified!

The solar system is yours? Dont joke. The solar system belongs to the Solar Empire. Have you even heard of the Solar Empire?

The Myriad Fire Emperor retorted sarcastically.

At that moment.

Ye Tian waved his hand, and the phantom images of several agreements appeared in the air.

The Solar Emperor has already authorized the transfer of the solar system to my name. The solar system has long been my territory, and this agreement has also been recognized by Silver Universe Star, one of the nine major stars of the Milky Way Galaxy!

Ye Tians words caused a drastic change in the expressions of all the members of the thirteen great forces.

Chapter 356: Sweeping Through the Competition

The representatives of the thirteen major powers exchanged bewildered glances. Ye Tian, a native of this place, actually knew about the Solar Empire and even Silver Universe Star.

Moreover, these agreements did not seem fake, and it was unlikely that a native could forge such documents.

You have left Earth for these four years, deduced the Myriad Fire Emperor.

No wonder Ye Tian had secluded himself for four years, not even bothering to compete for wondrous objects. He must have left Earth and then, through some unknown opportunity, purchased the entire Solar System.

With the identity of a Heavenly Pride and the master of the Solar System, if it were any ordinary opportunity, these powers, along with the Dragon Clan, would have immediately left Earth, not daring to set foot on it again.

But this was a chance to enter the Yuan Realm. Even if the royal family of the Solar Empire were here, they wouldnt want to give it up!

Heavenly Pride of Ten Thousand Laws, the Yuan Realm can allow up to 200 people to cultivate. Its wasteful for you alone to occupy it. We are willing to offer a vast amount of resources and inheritances in exchange for your permission to enter, proposed the Myriad Fire Emperor.

Ye Tian responded with a smile, Its just two people. I have the Tian Pavilion under my command, and there are so many Emperor-level talents native to Earth. Gathering 200 people wont be difficult!

The strongest on Earth are only seven or eight at the Star Emperor level, mostly at the one or two Star Emperor levels. Such Emperors entering the Yuan Realm would be a total waste! the Myriad Fire Emperor argued through gritted teeth.

Even if its a waste, I am willing. What can you do to me? Ye Tians stance was clear; he was unwilling to concede anything to the thirteen major powers or the Dragon Clan, even if they were willing to pay a price.

At that moment, Long Tianlin telepathically suggested to the Myriad Fire Emperor, Lets join forces. With our combined strength, we should be able to kill a Heavenly Pride. As long as we dont speak of it, no one will know what happened here.

Ill consider it, replied the Myriad Fire Emperor.

His situation was different from Long Tianlins. Long Tianlin belonged to the Dragon Clan, and even if he killed Ye Tian and returned to the Dragon Clans territory, the human race couldnt do anything to them.

But it was different for them; they were humans, and demigods were not allowed to act against Emperors. If they intervened, the consequences would be severe.

Moreover, this was Ye Tians territory. If they entered and forcibly killed Ye Tian, it would be tantamount to declaring war on the Solar Empire, with severe consequences.

However, the opportunity of the Yuan Realm was right before them, and they couldnt just give it up.

Immediately, the Myriad Fire Emperor discussed with other Emperors and demigods to see what they thought.

Finally, a decision was made.

Kill!

They had planned for many years, even depleting their sects resources, all for this moment. If they gave up now, their backing forces would decline, and they might not even be considered a five-star power in the future, eventually disappearing into the annals of history like other sects before them.

They couldnt accept such an outcome. It was better to take a risk and use all their strength to kill Ye Tian. Even if they suffered heavy losses, as long as they took over the Yuan Realm, it would all be worth it.

Long Tianlin, lets act together, but you must use your Dragon Clans ultimate weapon. We will join forces to kill the Heavenly Pride of Ten Thousand Laws with the smallest price. What do you say? the Myriad Fire Emperor communicated telepathically.

Agreed! Long Tianlin consented.

Are they about to make a move? Ye Tian could clearly sense the telepathic communication between Long Tianlin and the Myriad Fire Emperor, and their malice was becoming more intense. They were clearly planning to attack him.

Unfortunately, they would never be able to grasp the extent of Ye Tians strength.

A group of eight or nine, at the 8-Star Emperor level, along with a worthless demigod, dared to make a move against a peerless Heavenly Pride. Even if their numbers were ten times more, they were far from being Ye Tians match.

To kill a peerless Heavenly Pride, ordinary Heavenly Prides were useless; it was all in vain.

If you seek death, then I shall grant it, Ye Tian declared inwardly.

Take action! shouted the Myriad Fire Emperor, and all the Emperors attacked simultaneously.

Boom! A barrage of attacks tore through the void, all targeting Ye Tian.

Spatial Phasing! Ye Tian moved, entering into the spatial domain.

Then, he swung his blade.

Ghost Blade! With a swoosh, the blade split open the bodies of several Emperors.

In an instant, over a hundred Emperors fell on the spot, including powerful figures from the Dragon Clan. A demigod, unlucky enough to be in the path of the Ghost Blades attack, was also instantly decapitated and fell on the spot.

The attacks from the Emperors didnt even touch Ye Tian; they all bombarded the entrance to the Yuan Realm, causing it to tremble momentarily.

Pfft, pfft, pfft! One after another, the Emperors fell, dying at an alarmingly fast rate. Ye Tian remained within the spatial realm, his hand moving in and out of space, rendering the Emperors unable to pinpoint his location.

At that moment, a Nine-Star Emperor brought out a mirror.

Patrol God Mirror, activate!

The Patrol God Mirror emitted a faint light, piercing through the void for thousands of miles and revealing Ye Tians whereabouts.

If Ye Tian left this area, the Patrol God Mirror would become ineffective, but then they could enter the Yuan Realm.

To stop them, Ye Tian couldnt leave.

Another demigod produced a talisman.

Ice Soul Divine Light Talisman!

The talisman transformed into a beam of Ice Soul Divine Light, piercing through the void and completely enveloping the space where Ye Tian was.

Seeing that phasing into space was of little use, Ye Tian emerged and put up a defense.

Boom! The Ice Soul Divine Light struck Ye Tian, but it didnt even break his defense.

Impossible!!! The demigod was stunned.

His Ice Soul Divine Light Talisman, a treasure of his sect capable of breaking through a Heavenly Prides defenses and even shattering space, failed to breach Ye Tians defenses How terrifying were Ye Tians defenses? Suddenly, a blades tip pierced through the demigods body, shattering his demigod physique.

Killed in one strike! Too weak!

Too weak! Ye Tian, like chopping vegetables, killed one Emperor after another, and the numbers of the thirteen major powers and the Dragon Clan dwindled.

Suddenly.

The Myriad Fire Emperor brought out a divine artifact, a bell.

Ding! A pleasant bell sound spread, under which souls seemed to freeze.

This was a soul-targeting sound-based divine artifact, capable of momentarily using sound to immobilize an enemys soul, causing sluggishness and dizziness.

Long Tianlin, quickly use the ultimate weapon! The Myriad Fire Emperor urged.

Long Tianlin hesitated no longer, his subordinates had suffered too many casualties. The Myriad Fire Emperor had created a perfect opportunity with the divine artifacts sound, it was time to use the ultimate weapon.

Long Tianlin took out a fiery red bead and flicked it towards Ye Tian.

Then.

Boom! The fiery red bead exploded, transforming into a flame that even burned space.

This is a one-time divine artifact refined from the True Dragon Clans primordial flames, capable of killing a powerful Heavenly Pride! Long Tianlin exclaimed excitedly.

Killing a Heavenly Pride was an incredible feat, and now he was about to achieve it.

Is this your trump card? A voice permeated the void.

In an instant, a hand covered the sky, grabbed the True Dragon Clans primordial flame, and pulled it into the void.

Then.

Under the layers of suppression from the void, the uncontrolled primordial flame was completely extinguished, not even singeing a single hair on Ye Tian.

Had a True Dragon Clan member released the primordial flame, Ye Tian would have fled as far as possible. But this was a divine artifact refined from the primordial flame, its power was significantly reduced, and without control, it was not formidable.

Of course, the primordial flame could kill a three or four-star Heavenly Pride, provided the Heavenly Pride didnt evade. But a five-star Heavenly Pride could directly destroy it, and Ye Tian, a six-star peerless Heavenly Pride, saw the primordial flame as no different from a small flame.

Long Tianlin waited a while, and seeing Ye Tians right hand unharmed, his face turned pale.

Its over, didnt grandfather say that this ultimate weapon could kill a Heavenly Pride as long as it hit? Why is the Heavenly Pride of Ten Thousand Laws unscathed even after grabbing the ultimate weapon with his hand? Long Tianlin was perplexed, even doubting his grandfathers words.

Starry Sky Annihilation! Ye Tian unleashed his AOE god-level sword technique, instantly shattering the space in the area.

One after another, Emperors and members of the Dragon Clan were pierced by the shattered space and fell on the spot.

Chapter 357: The Fall of External Forces

No, I will not die!!!

The Myriad Fire Emperor exerted all his strength to activate a Dawn-tier defensive treasure on his body, attempting to fend off the spatial fragments and countless sword energies that were shooting at him from all directions.

However, in the blink of an eye, his Dawn-tier defensive treasure shattered.

Crack, crack!!! The Myriad Fire Emperor watched in horror as his defensive treasure broke apart, followed by numerous spatial fragments and sword energies piercing through his body.

Almost instantly, his body was torn to shreds.

Thus fell a Nine-Star Emperor, who could not withstand Ye Tians attack. Not just the Nine-Star Emperors, but even those powerful demigods were unable to resist the Starry Sky Annihilation.

In no time, the majority of the Emperors on the field had fallen, leaving only a few lucky Emperors and demigods alive.

Long Tianlin, being on the edge of the Starry Sky Annihilations attack and having numerous protective treasures, also miraculously survived.

However, he was severely injured at this moment, his aura extremely weak, with barely a tenth of his combat strength remaining.

You are not just any ordinary Heavenly Pride,

Long Tianlin said with a look of terror as he gazed at Ye Tian.

If it were just any ordinary Heavenly Pride, it would not have been possible to kill so many with such ease.

It should be noted that there were several demigods with the achievement of Nine-Star Emperor present here. The strength of these demigods was by no means inferior to that of one or two-star Heavenly Prides.

So many demigods, along with so many Nine-Star Emperors and their trump cards and major weapons, would have been more than enough to deal with a three-star Heavenly Pride.

But what was the outcome? They were almost entirely annihilated, while Ye Tian remained unscathed.

Ye Tian stood tall, looking down at Long Tianlin and the others.

When did I ever claim to be just an ordinary Heavenly Pride? It was merely your assumption! I gave you the chance to leave, but you chose to seek death!

To be honest, I don't mind telling you that among those who have fallen by my hand in the Milky Way, there was even a five-star Heavenly Pride. What do you think you are to oppose me?

Ye Tian's words completely stunned Long Tianlin.

To kill a five-star Heavenly Pride, what kind of concept was that?

Are you a peerless Heavenly Pride?

Long Tianlin was extremely frightened. His life's goal was to become a Heavenly Pride, let alone a peerless Heavenly Pride, something he had never even dared to dream of.

He knew his own talent and realized that he had no hope of becoming a peerless Heavenly Pride.

Even with this opportunity in the Yuan Realm, he had little hope of becoming a peerless Heavenly Pride.

He was not as ignorant as those Emperors from the Glory Pavilion. To become a peerless Heavenly Pride was too difficult.

In one galaxy, in one era, there would only be a few who could become peerless Heavenly Prides.

Indeed, I am a six-star peerless Heavenly Pride!

Ye Tian admitted on the spot.

His status as a peerless Heavenly Pride was no longer a secret; it had already been known by many major forces in the Milky Way. It was just that Long Tianlin and others like the Myriad Fire Emperor had always been on Earth and had not inquired about the situation in the Milky Way.

Otherwise, they would have certainly heard of the newly risen peerless Heavenly Pride, the Heavenly Pride of Ten Thousand Laws.

Run, run quickly!!!

The few remaining demigods and Emperors among the thirteen major external forces quickly fled in all directions.

They knew all too well that Ye Tian would not let them go, so it was better to take the chance to escape, saving whoever could be saved.

But they did not understand how powerful a peerless Heavenly Pride was. A few Nine-Star Emperors and demigods trying to escape from a peerless Heavenly Pride was simply impossible.

Die!

With a few swings of his sword energy, Ye Tian executed several Ghost Blades. As a six-star peerless Heavenly Pride using a perfected technique, these people stood no chance of resisting.

The Ghost Blade was too fast! Almost instantly, those fleeing were struck by the blade, their bodies severed in two, falling to their deaths.

At this moment, atop Mount Kunlun, only Long Tianlin and three members of the Dragon Clan remained. All other members of the Dragon Clan and humans had been slain by Ye Tian.

If Ye Tian, who had not entered the Milky Way, might have been somewhat merciful and not necessarily killed them.

But after entering the Milky Way, Ye Tian was very clear that in this era, mercy was not reciprocated with kindness by others.

If it were not for his status as a Heavenly Pride, many forces would have wanted him dead.

The Solar System was his, and so was the Earth. Anyone who coveted the Earth was his enemy.

He had already given these external forces the opportunity to leave, but they chose not to. Not only did they refuse to leave, but they also wanted to besiege him, so they could only blame themselves.

Whoosh! Ye Tians gaze turned towards Long Tianlin.

At this moment, Long Tianlin had lost all his previous arrogance and domineering, leaving only endless fear and nervousness.

Heavenly Pride of Ten Thousand Laws, how can I buy my life?

Long Tianlin asked.

He was very clear that merely begging Ye Tian for mercy was nothing but a vain hope.

He could only hope that Ye Tian would allow him to use treasures to buy his life.

After all, his status was not ordinary, and the wealth of the Dragon Clan was sufficient to offer enough treasures.

Do you want to live?

Ye Tian asked with a slight smile.

Yes!

Long Tianlin nodded repeatedly.

Since Ye Tian asked this question, it meant there was a chance he might not kill him.

He had already decided that no matter what Ye Tian demanded, he would agree.

Have you heard of the Fire Dragon God Stone?

Ye Tian inquired.

I know, I know!

Long Tianlin nodded, The Fire Dragon God Stone is a precious treasure of our Dragon Clan. It is said that it can only be formed from the blood of a True God-level Fire Dragon that covers a

stone, and after eons of evolution, there's a very low chance that a Fire Dragon God Stone will emerge!

How many Fire Dragon God Stones do you think your life is worth?

Ye Tian asked with a smile.

Long Tianlin's face changed, and he said, Heavenly Pride of Ten Thousand Laws, the Fire Dragon God Stone is an extremely precious treasure, I don't have such treasures in my possession!

You might not have them, but the Dragon Clan definitely does.

You few go back and tell my grandfather, the True God Qingtian, to try his best to collect two Fire Dragon God Stones to save me!

Long Tianlin ordered.

Yes, Your Highness!

The remaining members of the Dragon Clan responded.

Immediately, these Dragon Clan members flew away.

Ye Tian was not worried about them leaking the secrets of the Yuan Realm.

He would soon arrange for people to enter the Yuan Realm, and by then, even if the outside world knew about the existence of the Yuan Realm, they would not be able to enter.

An inaccessible Yuan Realm, and one that would soon collapse, would not be of concern to anyone. Moreover, this place was the territory of the human race, and the Dragon Clan would not dare to be arrogant here.

Long Tianlin, you will stay in my Xumi Realm for the time being.

Ye Tian used the Super God-level skill Xumi Palm to capture Long Tianlin into the Xumi Realm.

The severely injured Long Tianlin could not escape from the Xumi Realm, so Ye Tian was quite at ease.

Then, Ye Tian set up numerous formations around Mount Kunlun, sealing it off to prevent ordinary people from entering.

Afterward, Ye Tian returned to Zhonghai Super Base.

Immediately, Ye Tian summoned Empress Yue and Ye Yu.

Yueer, Little Yu, the external forces and members of the Dragon Clan, including Eight-Nine Star Emperors and demigods, have almost all been killed by me. Now, the Yuan Realm is completely under my control.

I plan to let you enter the Yuan Realm, and then select some Emperors from the Tian Pavilion and Moon God Sect. As for the other slots, they will be distributed among other great Emperors of Huaxia!

Ye Tian announced.

Husband, are you serious?

Empress Yue was very surprised.

The Dragon Clan and those external forces had so many Eight-Nine Star Emperors and demigods, yet Ye Tian had killed them all by himself! At this moment, Empress Yue truly understood the strength of a so-called Heavenly Pride.

Knowing that the Yuan Realm was under Ye Tians control, both Empress Yue and Ye Yu were very happy.

Then, Ye Yu asked, Brother, you just mentioned distributing the other slots to the Emperors of Huaxia, what about the Emperors outside of Huaxia?

No slots for Emperors outside of Huaxia!

Ye Tian stated solemnly.

Although such a decision was very selfish, there was no other way. He was a Huaxia person, and naturally, he had to consider Huaxia people. As for people from other countries, what did they have to do with him? Even though the entire Earth was his, he still considered Huaxia first and foremost.

Empress Yue and Ye Yu both strongly agreed with Ye Tians decision.

Afterward, Ye Tian announced the existence of the Yuan Realm to the whole of Huaxia through the virtual world.

He also informed the Emperors of Huaxia that he had eradicated the Dragon Clan and the external forces Eight-Nine Star Emperors and demigods.

He offered 120 slots to Huaxias Emperors, but required them to arrive at Zhonghai Super Base within half a day to discuss.

For a time, the whole of Huaxia was in an uproar!!!

Chapter 358: Slaying to Establish Authority

The Battle Axe Emperor was at Zhonghai Super Base when he heard the news and immediately rushed to meet Ye Tian.

Inside the Tian Pavilion.

Upon seeing Ye Tian, the Battle Axe Emperor said, Heavenly Pride of Ten Thousand Laws, is what you said in the virtual world true?

He could hardly believe it was true. The Dragon Clan and foreign forces were incredibly powerful; any individual they dispatched could easily annihilate him. Yet, among so many, including eight-star Emperors and some demigods, Ye Tian alone had slain them all. If it weren't true, how could Ye Tian dare spread the news throughout the entire virtual world? Wouldn't that be seeking death? Clearly, ninety percent of what Ye Tian said was true.

Indeed, it's all true. Now, only some riffraff from the foreign forces remain in the Earth Immortal Realm. As for the Dragon Clan, only some sub-dragons and other ferocious beasts are left, none of which are a concern, Ye Tian said indifferently.

What about the Yuan Realm? the Battle Axe Emperor asked eagerly. If what Ye Tian said was true, entering the Yuan Realm would be a leap to the heavens.

Ye Tian looked at the Battle Axe Emperor and assured, Don't worry, Battle Axe Emperor, there's a spot for you in the Yuan Realm.

Thrilled by Ye Tian's assurance, the Battle Axe Emperor was extremely grateful and thanked him profusely, Thank you, Heavenly Pride of Ten Thousand Laws!!!

At the headquarters of the Earth Immortal Realms Glory Temple.

Upon hearing the news from the virtual world, the first reaction of the Void Breaker Sword Emperor was that Ye Tian had gone mad.

He was well aware of the formidable strength of the foreign forces; Earth's native emperors were mere ants in front of them.

Even if Ye Tian was a nine-star Emperor, he was far from being a match for the foreign forces. How could he possibly have slain all the Emperors of the foreign forces and the Dragon Clan? Immediately, he tried to contact an Emperor from the Glory Pavilion.

As the Glory Temple, an influence nurtured by the Glory Pavilion on Earth, naturally had a way to contact the Emperors of the Glory Pavilion, the Void Breaker Sword Emperor reached out to an eight-star Emperor.

But soon, the Void Breaker Sword Emperor's expression drastically changed.

He couldnt make contact! Then, the Void Breaker Sword Emperor tried another eight-star Emperor, only to find he couldnt reach him either.

Immediately, he went to see the Glory Temples Emperor Ling Fei.

Soon, he met Emperor Ling Fei.

Emperor Ling Fei, a major incident has occurred! the Void Breaker Sword Emperor said urgently.

At that moment, Emperor Ling Fei frowned and said, Are you referring to what the Heavenly Pride of Ten Thousand Laws said in the virtual world?

Yes, and I tried to contact several Emperors from the Glory Pavilion, but I couldnt reach any of them. Could it be that everything the Heavenly Pride said is true? the Void Breaker Sword Emperor asked.

Emperor Ling Fei sighed deeply and said, I also tried to contact that nine-star Emperor from the Glory Pavilion, but I couldnt reach him either.

And just a short while ago, I sent someone to the Glory Pavilion headquarters, only to find that all the people from the Glory Pavilion had disappeared!

Could it be true that all the high-ranking members of the foreign forces have fallen? the Void Breaker Sword Emperor took a deep breath.

If all the high-ranking members of the foreign forces were killed and this was all done by Ye Tian alone, it indicated how terrifying Ye Tians strength was.

Lets go to Zhonghai Super Base. If the Yuan Realm is real, it would be an enormous opportunity, one that even the foreign forces and the Dragon Clan were frantically pursuing. Perhaps we can also secure a spot, Emperor Ling Fei said with a hint of hope and desire.

Yes, theres also the Yuan Realm! the Void Breaker Sword Emperors eyes sparkled.

Immediately, Emperor Ling Fei, the Void Breaker Sword Emperor, and other Emperors from the Glory Temple rushed from the Earth Immortal Realm to Zhonghai Super Base.

Meanwhile, other Emperors from Huaxia also arrived at Zhonghai Super Base.

Their goal was one and the same: the Yuan Realm. Half a day later, a large number of Emperors had gathered at Zhonghai Super Base, including many five-star, six-star, and even seven-star Emperors.

Yet, not a single Emperor dared to act arrogantly or cause trouble at Zhonghai Super Base, all because Ye Tian was there.

By now, they had confirmed that the high-ranking members and the high-ranking members of the thirteen major foreign forces had all disappeared, undoubtedly fallen.

If Ye Tian could single-handedly slay all those eight-star Emperors and demigods, such strength was not something they could compare with. If they dared to cause trouble at Zhonghai Super Base, and Ye Tian casually killed them, it would be too late for regrets.

To accommodate these Emperors, the Battle Axe Emperor had constructed a huge palace.

Ye Tian had not yet made an appearance, so the Battle Axe Emperor could only entertain these Emperors. He dared not neglect these Emperors, as he was not Ye Tian.

Battle Axe Emperor, when will the Heavenly Pride of Ten Thousand Laws arrive? a six-star Emperor inquired.

The Battle Axe Emperor hurriedly explained, Im not sure either. Once most of the Emperors have arrived, the Heavenly Pride of Ten Thousand Laws should be coming!

Clearly unsatisfied with this answer, the six-star Emperor managed to restrain himself at first and dared not cause any trouble. However, as an hour passed, his patience began to wear thin.

Battle Axe Emperor, go to the Tian Pavilion and ask when the Heavenly Pride will arrive, the six-star Emperor demanded.

The Battle Axe Emperor was reluctant and even a bit irritated.

After all, he was only a four-star Emperor, having reached this level by using Realm Breaking Pills to break through his physical limits multiple times. Facing a six-star Emperor, he was no match and thus dared not retort, but he also dared not inquire with Ye Tian.

Just then, a voice descended: Emperor Jing Xing's qualification to enter the Yuan Realm is revoked. Emperor Jing Xing, you may leave Zhonghai Super Base now!

On what grounds? Emperor Jing Xing protested, visibly unconvinced.

Boom! A giant hand suddenly reached out from the space, grabbed Emperor Jing Xing, and whisked him away, throwing him out of Zhonghai Super Base in an instant.

In the divine senses of many Emperors, Emperor Jing Xing was thrown out of Zhonghai Super Base and landed on a distant mountain.

Although Emperor Jing Xing was not injured, the act was truly embarrassing.

More importantly, facing that giant hand, Emperor Jing Xing had no power to resist at all. If the hand wished, it could easily crush him to death.

It was the Heavenly Pride of Ten Thousand Laws who made a move! everyone realized in their hearts.

Outside Zhonghai Super Base, Emperor Jing Xing showed a terrified expression and promptly left, not daring to step into Zhonghai Super Base again.

He would never know what kind of opportunity he had missed.

Although Ye Tian had revealed the existence of the Yuan Realm, they had no idea what the Yuan Realm was. They only knew it could significantly enhance their cultivation and help them break through their physical limits.

This was why, although Emperor Jing Xing considered the Yuan Realm a great opportunity, he still vastly underestimated its importance. Otherwise, he would have begged Ye Tian for a spot, even on his knees, rather than just leaving like that.

After the incident with Emperor Jing Xing, the other Emperors suddenly became much more subdued and dared not make any further disturbances.

More Emperors have arrived!

Several Emperors sensed the presence of Emperor-level auras coming from the teleportation hall and turned their gaze towards it.

To their surprise, the arriving Emperors were not from Huaxia but from the island nation.

Clearly, Ye Tian had only summoned Emperors from Huaxia to Zhonghai Super Base in the virtual world and had not informed the Emperors from the island nation.

It was evident that the Emperors from the island nation had received the news and shamelessly made their way to Zhonghai Super Base in Huaxia.

The island nation had few Emperors, and their strength was relatively weak.

Thus, the arriving Emperors were mostly two or three-star Emperors, with the strongest being at most a four-star Emperor.

The Emperors from the island nation also arrived at the palace, intending to enter and rest.

At that moment, Ye Tians voice descended again.

Emperors from the island nation, please leave Zhonghai Super Base immediately!

However, the Emperors from the island nation did not leave. The leading Emperor smiled and said, Heavenly Pride of Ten Thousand Laws, our island nation was once part of Huaxia, so we are also members of Huaxia. Therefore, we should also have the right to participate in this meeting!

The Emperors from Huaxia cast disdainful glances at them. To gain entry into the Yuan Realm, the island nations Emperors were willing to abandon all pride.

Leave, or die! Ye Tians cold voice descended.

The Emperors from the island nation hesitated but did not leave, believing Ye Tian would not actually kill them and was merely trying to scare them.

Suddenly, the heads of the island nations Emperors fell from their necks, instantly slain, and the Emperors from Huaxia couldnt even see how they died.

For a moment, the Emperors from Huaxia felt immense awe and fear towards Ye Tian.

Over the next two days, Emperors from other countries tried to enter Zhonghai Super Base but were either driven away or killed by Ye Tian.

As the Emperors from Huaxia had mostly arrived at Zhonghai Super Base, the meeting began.

Chapter 359: Allocation of Slots, Entering the Yuan Realm

The meeting was held at the Tian Pavilion, where Ye Tian had created a vast virtual world within the pavilion, spanning over ten thousand miles.

Due to the excessive number of Emperor-level figures arriving, the usual conference hall was insufficient to accommodate them all, prompting Ye Tian to relocate the meeting to the virtual world.

All the Emperor-level figures gathered here, with Ye Tian looking down upon them from a high position.

The meeting officially commenced. Ye Tian addressed the assembly of Emperors, Many of you might still harbor doubts about whether I have slain those foreign forces and the Dragon Clan. I can tell you now that I have killed all the high-ranking members of the foreign forces. As for the Dragon Clan, most are dead, and I have captured Long Tianlin alive.

As he spoke, Ye Tian spread his right hand, projecting the situation within the Xumi Realm.

Long Tianlin lay exhausted within the Xumi Realm in Ye Tians hand, his breath weak.

Sensing that Ye Tian was projecting the situation of the Xumi Realm to the outside, he shouted, Heavenly Pride of Ten Thousand Laws, let me out! I dont want to stay here!

The once imposing Long Tianlin had now become a prisoner, his pitiful state shocking many Emperors.

Its indeed Long Tianlin; Ive seen him before! an Emperor exclaimed.

Ye Tian retracted the projection and continued, The true purpose behind the foreign forces coming to Earth was the Yuan Realm, with the so-called wondrous objects being merely secondary objectives.

The Yuan Realm has opened a few days ago, and I have prevented the foreign forces and the Dragon Clan from entering.

Many of you Emperors may have been nurtured by these foreign forces and might feel a certain fondness towards them. But let me tell you, the foreign forces are just thatforeign, and not Earths inhabitants.

Furthermore, let me inform you that the entire Solar System has been allocated under my name; the whole Earth is mine.

Ye Tian briefly explained the situation regarding the Milky Way, Silver Universe Star, Sun Wheel Empire, etc., causing a huge stir.

They were unsure whether to believe Ye Tian, but there seemed no reason for him to deceive them. At this moment, Ye Tian added, Earth is mine, so those coveting Earth are my enemies. I

gave these foreign forces a chance to leave, but they refused and even attempted to besiege me. Unfortunately, I had no choice but to send them to their deaths! Similarly, I will allocate some slots for entering the Yuan Realm. If I don't offer them, you can't snatch them, or you'll face the consequences!

Heavenly Emperor of Ten Thousand Laws, how are the slots allocated? Emperor Ling Fei inquired.

As I mentioned in the virtual world, I will allocate 120 slots to the Emperors of Huaxia. Those above six-star six Emperor-level warriors will each receive a slot. For those below six-star six Emperor-level, slots will be allocated based on their cultivation talent. If one possesses a Dawn-level or higher cultivation talent, they will be granted a slot. If there are slots remaining, they will be distributed through a lottery, giving each Emperor a chance to win a slot!

Of course, even those Emperors who do not secure a slot need not be disheartened. I can allow you to cultivate near the Yuan Realm in Mount Kunlun, where a small amount of chaos yuan qi leaks from the Yuan Realm, which will also be beneficial for your cultivation!

After Ye Tian finished, the Emperors with six-star six Emperor-level and above, as well as those with Dawn-level cultivation talents, were thrilled.

At this moment, many felt sympathy for Emperor Jing Xing.

Emperor Jing Xing, also a six-star six Emperor-level, unfortunately chose to defy Ye Tian and was expelled, losing the opportunity to enter the Yuan Realm. Otherwise, with his strength, he could have secured a slot.

There were not many powerhouses above the six-star six Emperor-level in Huaxia, only 35 present, and only 14 Emperors with Dawn-level or higher cultivation talents, some of whom were six-star six Emperor-level. Only six individuals below six-star six Emperor-level possessed Dawn-level cultivation talents.

Thus, 41 Emperors instantly secured slots to enter the Yuan Realm.

With 120 slots available and only 79 remaining, the vast number of attending Emperors made winning a slot extremely difficult.

Suddenly, Ye Tian brought out a lottery machine.

This lottery machine will randomly select numbers using a virtual system. Each of you will choose a numbered ticket. We will draw 79 numbers, and those selected will get the slots. Lets begin!

As soon as Ye Tian finished speaking, the Emperors eagerly picked their numbers.

Once all the Emperors had chosen their numbers, Ye Tian activated the machine, and the numbers were drawn one by one.

In no time, all 79 numbers were drawn. The Emperors who won the lottery were ecstatic, while those who didnt were deeply disappointed.

Swoosh, swoosh, swoosh! Ye Tian took out a series of tokens and tossed them casually. They landed in the hands of those Emperors who had drawn the winning numbers, as well as the first 41 Emperors to receive slots: These are tokens Ive created. Take them to Mount Kunlun, and you will be able to enter the Yuan Realm. Any other Emperor who dares to intrude into the Yuan Realm without permission will be killed by me without mercy!

Yes! The multitude of Emperors responded, not daring to object.

Subsequently, the Emperors left one after another.

Ye Tian had allocated 120 slots, holding onto 80 more. He reserved one slot for himself, two for his sister and wife, Empress Yue, and one for Xiao Xue.

As for the remaining slots, twenty were allocated to the Emperors of the Tian Pavilion, twenty to the Moon God Sect, and the rest to those Emperors at Zhonghai Super Base who had not received a slot.

Soon, all the slots were fully allocated.

Lets go to the Yuan Realm! Ye Tian, leading a group of Emperors, flew towards Mount Kunlun.

Outside the Kunlun Mountain Range.

Many Emperors had gathered here, but at that moment, no one entered Mount Kunlun because Ye Tian had used a grand formation to completely seal off the Kunlun Mountain Range. Although the formations were not of a high level, they dared not break them.

Heavenly Emperor of Ten Thousand Laws is here! An Emperor exclaimed with surprise.

Greetings to the Heavenly Emperor of Ten Thousand Laws!

Greetings to the Heavenly Emperor of Ten Thousand Laws!

Greetings to the Heavenly Emperor of Ten Thousand Laws!

Numerous Emperors greeted him with respectful fists.

Upon Ye Tians arrival, the formations were removed.

Whoosh! With the formations gone, the situation in the Kunlun Mountain Range was revealed.

Only then did all the Emperors discover that the main peak of the Kunlun Mountain Range was gone, leaving behind only a gigantic spatial entrance. Moreover, many skeletons lay around, with those of the Dragon Clan being particularly noticeable due to their enormous size, stretching for kilometers. The numerous Dragon Clan corpses scattered across the mountain range and the vast amount of Emperor-level blood stained Mount Kunlun red.

At that moment, some of the foreign forces Emperors corpses were relatively well-preserved, and Ye Tian had not dealt with them, leaving these bodies lying on the ground.

Seeing so many forces and even the corpses of the once-revered eight or nine-star Emperors, the Huaxia Emperors were deeply moved.

Emperors who have obtained slots, enter the Yuan Realm! Ye Tian announced.

Whoosh, whoosh, whoosh! One by one, the Emperors flew towards the Yuan Realm entrance. Empress Yue, Ye Yu, Xiao Xue, and others also entered the Yuan Realm one after another, followed by Ye Tian.

Shortly after, twenty Emperors and ferocious beasts approached the Yuan Realm.

At that moment, an Emperor whispered, Theyve all gone in. Is it still possible for others to enter?

Why dont you give it a try? another Emperor egged on.

Alright, Ill try! The Emperor flew towards the Yuan Realm entrance.

Boom! A massive repelling force directly knocked him back, hurling his body into a distant mountain peak and causing severe injuries.

Seeing this, the other Emperors dared not attempt entry, choosing instead to cultivate near the Yuan Realm entrance, absorbing the traces of chaos yuan qi that seeped out.

Inside the Yuan Realm.

Ye Tian and the other Emperors discovered a world without solid ground, sun, moon, stars, or other life forms, filled only with yuan qi, primarily chaos yuan qi.

In essence, the Yuan Realm was a miniature world filled with chaos yuan qi.

Upon entering the Yuan Realm, many Emperors found the chaos yuan qi infiltrating their bodies, tempering them at an inconceivable rate.

Boom! An Emperor, who had only broken through the seventh physical limit, absorbed a trace of chaos yuan qi and suddenly found himself breaking through the eighth limit.

His strength surged dramatically! Witnessing this, the other Emperors became excited and couldnt help but start their cultivation.

Chapter 360: Breaking Through the 18th Physical Limit

As other Emperors couldn't resist starting cultivating, Ye Tian did not begin his. He was very clear that the density of the chaos yuan qi varied in different areas of the Yuan Realm. They had just entered the Yuan Realm, where the chaos yuan qi density was relatively low. The deeper one went into the Yuan Realm, the higher the density of the chaos yuan qi would be, making it very inefficient to cultivate here.

However, these Emperors, having just entered the Yuan Realm and unable to resist the temptation of the chaos yuan qi, had started their cultivation.

Yueer, Little Yu, Xiao Xue, follow me! Ye Tian said to the two women and one dragon behind him.

Swoosh! Ye Tian quickly flew towards the depths of the Yuan Realm. At this moment, the other Emperors reacted and followed suit.

The Yuan Realm was not very large, and soon Ye Tian arrived at the center of the Yuan Realm. The chaos yuan qi in the center of the Yuan Realm was extremely dense, especially around an ancient well.

A large amount of chaos yuan qi gushed out from this ancient well, but Ye Tian could clearly see that the well was covered in cracks.

If the Yuan Realm were normal, the ancient well at its center would not have any cracks and would be flawless.

From this ancient well, it was evident that this Yuan Realm had overdrawn its potential and could not be preserved for much longer.

Crack! Crack! Crack!

Large cracks slowly appeared on the ancient well, and at this rate, once there were too many cracks, the entire well would collapse. Once the ancient well collapsed, the entire Yuan Realm would naturally collapse as well.

The Chaos Ancient Well! Ye Tian murmured.

The Chaos Ancient Well was the name of this ancient well and was also the most important treasure of the Yuan Realm, supporting the entire realm.

The Yuan Realm was so special and had so much chaos yuan qi because the Chaos Ancient Well channeled a vast amount of chaotic energy from an unknown place and then transformed and transported it into the Yuan Realm.

Ye Tian approached the Chaos Ancient Well and looked deep into it. He saw only void; his divine consciousness could not penetrate the interior of the Chaos Ancient Well, and even his copy talent could not extend there.

At the same time, he felt a sense of trepidation, as if stepping into the interior of the Chaos Ancient Well would undoubtedly lead to his death.

My strength is too weak. If I were to enter the well, I probably wouldn't even be able to inspect the situation inside before my body was torn apart and I perished within the well! Ye Tian thought to himself.

He wasn't foolish and naturally wouldn't recklessly enter the Chaos Ancient Well. Instead, he began his cultivation not far from the Chaos Ancient Well.

Empress Yue and Ye Yu also started their cultivation not far from Ye Tian, while Xiao Xue wandered around aimlessly, which Ye Tian did not mind.

Soon, the other Emperors arrived at this area and each found a spot to start their cultivation.

Yueer, come closer to me, Ye Tian transmitted his voice to his wife, Empress Yue.

Empress Yue glanced at Ye Tian, understood his intention, and then came over to sit beside him.

At this moment, Ye Tian activated his high-level time talent, initiating a 10x time acceleration.

Once the 10x time acceleration was activated, Ye Tian and Empress Yue could cultivate for 10 days while others only cultivated for one day.

Since this Yuan Realm could not be maintained for long, Ye Tian naturally wanted to extend the time, and the time talent fulfilled his wish.

Begin the cultivation! Ye Tian activated the unnamed physical body cultivation technique. Under the light of the technique, a vast amount of chaos yuan qi was absorbed into his body, furiously refining his physique.

The speed is so much faster than before, incomparably faster! Ye Tian was astonished.

At this moment, he felt that the so-called cultivation resources were completely insignificant compared to this.

Moreover, the chaos yuan qi was the most perfect for refining the body, whereas using cultivation resources to break physical limits, although effective, was not the most perfect refinement.

Without the chaos yuan qi of the Yuan Realm, I fear that no matter how many cultivation resources I had, I wouldn't dream of breaking through the 20th physical limit, Ye Tian silently thought.

Now, the chaos yuan qi from the Yuan Realm gave Ye Tian hope.

Of course, Ye Tian did not expect this Yuan Realm to allow him to break through the 20th physical limit in one go, but breaking through two physical limits was still very hopeful.

He had already broken through the 17th physical limit, and his next goal was to break through the 18th physical limit.

Days passed by.

On just the third day, Empress Yue successfully broke through her 10th physical limit, and this so-called third day was within the accelerated time, with only a few hours having passed in the outside world.

On the tenth day, which was equivalent to one day in the outside world, Empress Yue broke through her 11th physical limit.

Such a rapid speed of breaking physical limits was something Empress Yue had never dared to hope for before, but it seemed quite normal in the Yuan Realm.

In the outside world, breaking through a physical limit would urgently require replenishing energy, necessitating a large amount of yuan qi stones or cultivation resources. However, in the Yuan Realm, there was no need for energy replenishment, as the chaos yuan qi alone could replenish the energy needed by the body.

Compared to Empress Yues progress, Ye Tians progress was slightly slower, after all, he was attempting to break through the 18th physical limit, which was not easily achieved.

Throughout the Yuan Realm, one Emperor after another broke their physical limits.

In just a few days, eight of these Emperors had reached the 8-star Emperor level.

The first to become an 8-star Emperor was Emperor Ling Fei, followed by the Void Breaker Sword Emperor, who also broke through a physical limit and advanced to a 7-star Emperor level.

It could be said that the strength of the Huaxia Emperors was growing rapidly, and they were very grateful for the opportunity to enter the Yuan Realm, otherwise, they could not have achieved such rapid strength enhancement.

At the same time, they also felt sympathy for those Emperors who were unable to enter the Yuan Realm.

Once they left, their strength would easily surpass those Emperors.

In the blink of an eye, the Huaxia Emperors had been in the Yuan Realm for 15 days.

On this day.

Intense fluctuations appeared on Ye Tians body. Empress Yue stopped her cultivation and moved away from Ye Tian to avoid disturbing his breakthrough.

Empress Yue was very clear that this was Ye Tian attempting to break through the 18th physical limit.

Once Ye Tian broke through the 18th physical limit, his strength would surely increase significantly, and he would have a 100% chance of entering the strength of a 7-star peerless Heavenly Pride.

The 18th physical limit, break for me!!! Ye Tian used the unnamed physical cultivation technique, absorbing a large amount of chaos yuan qi, and fiercely attacked the 18th physical limit.

With a booming sound, a breaking sound echoed in the void, signifying that Ye Tian had successfully broken through the 18th physical limit.

In the outside world, even using a large amount of resources, it would be very difficult to break through the 18th physical limit in one day. The effect of chaos yuan qi was too significant, breaking through the 18th physical limit in just one attempt.

Just after breaking through the 18th physical limit, Ye Tians body urgently needed a large amount of energy, and the chaos yuan qi around him surged into his body, replenishing what was needed.

A few hours later, Ye Tians realm was completely stabilized.

Then, Ye Tian moved his body, feeling his own strength and power.

My current strength should have solidly entered the realm of a 7-star peerless Heavenly Pride!

Ye Tian estimated.

A 7-star peerless Heavenly Pride, even in the Milky Way galaxy, would be invincible. After all, the strongest peerless Heavenly Pride Ye Tian had encountered so far was only a 6-star.

Now, those Heavenly Prides of the galaxy were no match for Ye Tian. For example, if he encountered the Netherkill Heavenly Pride again, Ye Tian was confident he could defeat him within a few moves.

The gap between a 6-star Heavenly Pride and a 7-star Heavenly Pride was significant.

Continue the cultivation! Ye Tians goal was not just to break through the 18th physical limit; he also wanted to break through the 19th physical limit.

However, even if he broke through the 19th physical limit, Ye Tian had no hope of advancing to an 8-star peerless Heavenly Pride.

Because he was still weak in other areas, such as sword skills, he didnt even know a single Super God-level sword technique.

Although he had mastered a Super God-level palm technique, it was just the basics, far from a perfected Super God-level palm technique.

Regardless, the priority was to elevate his cultivation level and then improve other aspects.
