

## Talent 361

Chapter 361: The Yuan Realm Shattered!

Crack, crack, crack!!!

Once again, sounds of fracturing emanated from the Chaos Ancient Well.

Ye Tian, who was preparing to continue his cultivation, opened his eyes and looked in that direction, immediately frowning.

Judging by the cracks in the Chaos Ancient Well, it can probably hold up for at most another month!

Ye Tian estimated.

Normally, a Yuan Realm could remain open for six months to a year before it had to wait a long time to open again.

However, this Yuan Realm could only last for one and a half months. After that, it would completely shatter and disappear.

Lucky for me, I have a 10x time acceleration ability, along with the unnamed physical cultivation secret technique. Otherwise, just this Yuan Realm wouldnt have been enough for me to break through my bodys limits even once!

Ye Tian couldnt help but sigh.

With one month left, he planned to attempt breaking through his 19th bodily limit.

With his time talent, a month for him was like ten months.

Previously, it had taken him 15 days to break through the 18th bodily limit. Now, with time doubled, he might have a chance to break through the 19th limit.

Ye Tian looked at his wife, Empress Yue, and saw that she had already broken through her 14th bodily limit.

Based on Empress Yues cultivation progress, she should be able to break through the 16th bodily limit by the time the Yuan Realm closed and shattered.

He then looked at his sister, Ye Yu, and found that her cultivation speed was also very fast. She had already broken through her 6th bodily limit.

Its worth noting that his sister Ye Yu had only broken through her 2nd bodily limit before, and now she had suddenly reached the 6th, which was incredibly fast! Ye Tian had thought about bringing his sister into the time acceleration as well, but decided against it in the end.

The fewer people knew about his time talent, the better. It wasnt that he didnt trust his sister, but it wasnt necessary.

His sisters cultivation speed was already very fast, having jumped from the 2nd to the 6th bodily limit in a short time.

In essence, his sister had almost no foundation at the Emperor level, and if he were to use his time talent to help her, she might directly break through more than a dozen bodily limits.

This might not necessarily be a good thing for his sister.

A strong individual isnt built from resources alone. Under his protection, his sister had hardly faced any dangers or difficulties.

If he were to endlessly help his sister, it wouldnt be aiding her but harming her.

For instance, the Heavenly Pride Pavilion of Silver Universe Star doesnt provide resources for cultivating Heavenly Prides. They let the Heavenly Prides struggle and fight on their own; otherwise, they would only cultivate a worthless Heavenly Pride. Ye Tian wanted his sister to strive and fight for resources on her own, to carve out her own path. He couldnt always protect his sister.

Of course, for his wife, Empress Yue, Ye Tian would naturally help as much as he could. After all, spouses are one, and Empress Yue had already accumulated a lot of experience at the Emperor level. Even if she advanced rapidly, it wouldn't cause her realm to become unstable.

Ye Tian continued his cultivation.

As days passed, the Chaos Ancient Well emitted less and less chaos yuan qi.

Moreover, with both Ye Tian and Empress Yue cultivating in a time-accelerated environment, they absorbed far more chaos yuan qi than others, leading to the rapid depletion of the Yuan Realms chaos yuan qi.

Gradually, the cultivation speed of others began to slow down.

Why has the cultivation speed slowed down, and why is there less and less chaos yuan qi around?

Look, the cracks on that ancient well are increasing. Is it about to shatter?

The chaos yuan qi is spewing from that ancient well. Now that it's spewing less and less, it seems the Yuan Realm is becoming less effective for us!

If this continues, won't we soon be unable to cultivate in the Yuan Realm?

My goodness, I've already grown fond of cultivating in the Yuan Realm. It's too painful not to be able to cultivate here!

Hehe, who wouldn't want to cultivate in the Yuan Realm?

In such a short time, I've broken through three bodily limits. Given enough time, I might even reach the 9 star level!

The Emperors became restless, but they soon regained their composure. They didn't want to waste time on pointless discussions or chatter but wanted to seize every moment.

To absorb chaos yuan qi and temper their bodies.

Finally, one day, the chaos yuan qi became extremely scarce, teetering on the edge of shattering.

All Emperors, leave the Yuan Realm immediately. Its about to shatter!

Ye Tians voice echoed throughout the entire Yuan Realm.

What, the Yuan Realm is about to shatter?

The Emperors within the Yuan Realm began to panic.

They didnt believe Ye Tian would deceive them, as there was no reason for him to do so.

Moreover, with the chaos yuan qi in the Yuan Realm already so scarce, many Emperors left the realm one after another.

Haha, Master, Ive completed my 11th bloodline transformation!

Xiao Xue excitedly ran to Ye Tian and reported.

Xiao Xue, your progress is very good. However, the Yuan Realm is about to shatter, so you should leave with Little Yu and the others first!

Ye Tian instructed.

Okay!

Xiao Xue nodded and complied.

Immediately, Ye Tian had Ye Yu lead the Emperors from the Tian Pavilion to leave, even asking his wife, Empress Yue, to leave first.

Husband, aren't you leaving?

Empress Yue asked.

Ye Tian shook his head and truthfully replied, I plan to attempt breaking through the 19th bodily limit before the Yuan Realm completely shatters. I'm only one step away from the 19th limit, and I don't want to give up, so I want to seize this opportunity to make a breakthrough.

Yue'er, don't worry. I'll be able to leave before the Yuan Realm completely shatters.

Alright, then I'll go first! You must be careful not to put yourself in danger just for the sake of breaking through the 19th bodily limit.

Empress Yue advised.

Soon, almost all the Emperors had left, leaving only Ye Tian sitting beside the Chaos Ancient Well.

Boom!!!

Ye Tian began to frantically absorb the chaos yuan qi from the entire Yuan Realm, with the yuan qi from other areas surging towards him.

With no one competing with Ye Tian for the chaos yuan qi, he managed to absorb a considerable amount.

Crack, crack!!

Suddenly, two more cracks appeared, and the entire Chaos Ancient Well began to tremble, a clear sign that it was about to shatter.

Ye Tian knew he didn't have much time left. He had to try breaking through the 19th bodily limit with the little time he had, or else he would have to leave the Yuan Realm.

Minutes passed, and even with the 10x time acceleration, time seemed to fly by extremely fast for Ye Tian.

Finally, Ye Tian felt the bottleneck of the 19th bodily limit.

Lets begin the breakthrough!

Ye Tian gathered the last bits of chaos yuan qi remaining in the Yuan Realm within his body and then activated the unnamed physical cultivation secret technique.

Ye Tian knew he only had one chance to make this breakthrough. If he failed, there wouldnt be enough chaos yuan qi left for another attempt, nor would there be time for another opportunity.

The 19th bodily limit, break for me!!!

Ye Tian roared inwardly.

With a crack, a sound of something breaking echoed in Ye Tians ears.

Instantly, he felt an endless surge of power within his body, replenishing what was needed with the remaining chaos yuan qi.

At this moment, Ye Tian felt his bodys strength growing stronger, undergoing a transformation.

Clearly, he had broken through the 19th bodily limit.

Hahaha, Ive finally made a breakthrough!!!

Ye Tian was extremely excited.

Breaking through the 19th bodily limit was something unheard of in the entire galaxy, at least Ye Tian had never heard of any Heavenly Pride achieving this.

Before Ye Tian could familiarize himself with his newfound strength, the Chaos Ancient Well completely shattered.

Not good, time to leave!

Ye Tian quickly used instantaneous movement to leave.

Whoosh, whoosh, whoosh!!!

After several instances of teleportation, Ye Tian reached the entrance of the Yuan Realm.

By then, the entrance to the Yuan Realm had also begun to collapse. A normal Emperor would have no chance of escaping, but Ye Tians space talent had reached the Pseudo-Mystic level.

He used his space talent to lock onto the coordinates of Earths main world.

With a thunderous boom, Ye Tian forcefully tore through the collapsing entrance of the Yuan Realm and entered it.

Countless space fragments attempted to annihilate Ye Tian, but they were all blocked by the spatial barrier he cast.

At Mount Kunlun.

Empress Yue, Ye Yu, and Xiao Xue were all waiting outside for Ye Tians return.

## Chapter 362: Acquiring the Fire Dragon God Stone

Sister-in-law, the entrance to the Yuan Realm has shattered! Ye Yus face was filled with worry.

The shattered entrance to the Yuan Realm raised concerns about whether Brother Ye Tian could still make it out. Although Empress Yue was also very worried, she reassured, Little Yu, your brother will definitely make it out.

No sooner had her words faded than a hand reached out from the broken entrance of the Yuan Realm.

Following that, Ye Tians entire body emerged, looking somewhat disheveled but otherwise unharmed.

Seeing Ye Tian safely emerge, Empress Yue hurried over and threw herself into Ye Tians arms, holding him tightly.

Its okay, Im fine! Ye Tian said, patting Empress Yues back.

Thereupon, Ye Tian, Empress Yue, Ye Yu, and Xiao Blood left the Kunlun Mountain Range and returned to Zhonghai Super Base.

In the following days, Earth became a hub of activity, mainly due to the escalating tensions between Huaxia and other nations.

The emperors from other nations was envious of the significant improvement in cultivation and strength of Huaxias emperors who had entered the Yuan Realm. They questioned why Huaxia had not allocated slots for them to enter the Yuan Realm.

Such minor issues naturally did not require Ye Tians intervention. Huaxias emperors visited various nations, defeating all opposing emperors one by one, and soon, the voices of opposition and questioning towards Huaxia gradually subsided.

Its noteworthy that after emerging from the Yuan Realm, Huaxias emperors not only gave rise to several Nine-Star Emperors but also quite a few Eight-Star Emperors, with a large number of Six and Seven-Star Emperors as well.

As for the emperors from other nations, most were considerably weaker. Rising Star Emperors were the strongest, but were unable to withstand Huaxias great emperors.

Furthermore, Huaxias great emperors initiated numerous wars in the Earth Immortal Realm, virtually sweeping through the entire realm.

Originally, some foreign forces emperors remained in the Earth Immortal Realm, but once these emperors learned of the fall of the foreign forces Eight and Nine-Star Emperors, as well as demigods, they immediately withdrew from Earth and vanished.

Thus, Huaxias emperors swiftly took control of the entire Earth Immortal Realm.

The forces from other nations were completely submissive to Huaxias power, daring not to contend with it.

For a time, Huaxia emerged as Earths strongest nation, and its forces became the planets most formidable powers.

Simultaneously, with the shattering of the Yuan Realm, Earths Yuan Qi began to recover.

A new era was on the horizon.

Ye Tian did not concern himself with these trivial matters. Upon returning to Zhonghai Super Base, he began a retreat to stabilize his realm.

Days passed by.

One day.

Near Zhonghai Super Base, in the ferocious beast world, numerous dragon clan powerhouses appeared.

In the ferocious beast world.

A humanoid dragon, wearing a golden robe and treading on the void, looked towards the spatial rift. His presence seemed to freeze the entire ferocious beast world, forcing countless ferocious beasts to prostrate, not daring to move an inch.

Standing behind him were numerous God-level dragons, who showed great respect and awe, not daring to breathe too loudly in his presence.

This leading figure, known as the Dragon Lord, was Long Tianlin's grandfather and was revered as the True God Qingtian.

True God Qingtian, Prince Long Tianlin is on the human planet on the other side of this spatial rift, a demigod reported apprehensively to True God Qingtian.

True God Qingtian remained silent, but his facial expression was quite pronounced.

He was a True God of the dragon clan, and his grandson was a source of great pride for him. It was unimaginable that his grandson had been captured on a human planet and was being exchanged for the dragon clan's Fire Dragon God Stone.

Being threatened by an emperor-level being was an immense humiliation for him, a True God.

Even if that emperor was a Heavenly Prince, this incident, once made public, would be a stain on his reputation. Unfortunately, as a True God, he couldn't pass through the spatial rift.

Of course, he could directly enter the human Milky Way Solar System and destroy Earth with his godly presence.

However, entering the Solar System wouldn't be easy for him, as the outer regions of the human star field were heavily guarded. If he, a True God, dared to infiltrate the human domain, he would undoubtedly attract the attention of powerful beings.

If he merely intended to roam the Milky Way, that wouldn't be a problem. However, if he dared to strike against a human planet, especially one of high status, he wouldn't be able to return.

To destroy a human planet and risk leaving his own life in the human world was not a foolish risk he was willing to take.

Losing face was a minor issue that could be dealt with later. His grandson's life was of utmost importance and could not be jeopardized.

Thus, the True God Qingtian spoke, These are two Fire Dragon God Stones. Enter Earth and bring back my grandson. If you fail in this task, you and your clan members will serve as funeral offerings for my grandson.

The demigod, trembling with fear, assured, True God Qingtian, I will surely accomplish this task!

Immediately, the demigod, holding the two Fire Dragon God Stones, passed through the spatial rift and entered Earth.

Before long, he arrived outside Zhonghai Super Base, reported his identity, and requested to notify Ye Tian.

In the Heavenly Pride Pavilion.

Ye Tian quickly learned of the arrival of the dragon clans envoy.

True God Qingtian managed to gather two Fire Dragon God Stones so quickly. Impressive speed! Ye Tian exclaimed.

He had initially thought that Long Tianlins grandfather, True God Qingtian, would need half a year to collect them, considering that the Fire Dragon God Stones were no ordinary items and were extremely precious even among the dragon clan. It wouldnt be easy for a True God to gather them, likely requiring visits to many dragon clan planets and possibly trading with other powerful entities.

Moreover, he demanded two Fire Dragon God Stones, not just one, which would require even more time.

True God Qingtian must have been extremely concerned about his grandsons safety to have gathered the two Fire Dragon God Stones so quickly.

Whoosh! Ye Tian flew out of Zhonghai Super Base and met with the dragon clans demigod.

Greetings to the Heavenly Pride of Ten Thousand Laws! the dragon clans demigod said respectfully.

Enough, bring out the two Fire Dragon God Stones. As long as you hand them over, your Prince Long Tianlin will surely be returned to you! Ye Tian said promptly.

Instantly, the demigod from the dragon clan nervously took out the two Fire Dragon God Stones.

He was somewhat afraid that Ye Tian would take the stones and not release Prince Long Tianlin. If that happened, not only would he face death, but his clan members would also face True God Qingtians wrath.

Swoosh!

Ye Tian instantly took the two Fire Dragon God Stones and then opened his palm, activating the Xumi Palm, releasing Long Tianlin from the Xumi Realm.

Long Tianlin, severely injured, slightly opened his eyes upon emerging from the Xumi Realm and immediately understood the situation upon seeing the demigod from the dragon clan and Ye Tian.

The dragon clan had come to his rescue. Take your Prince Long Tianlin and leave quickly! Ye Tian waved his hand.

Thank you, Heavenly Pride of Ten Thousand Laws! After expressing his gratitude, the dragon clans demigod quickly left with Long Tianlin.

In a short while, they passed through the spatial rift and arrived in the ferocious beast world.

This was when Long Tianlin saw his grandfather, True God Qingtian.

Grandfather! Long Tianlin called out.

Lets go back, True God Qingtian said indifferently, without saying much else.

Long Tianlin knew he had disappointed his grandfather.

The dragon clan group left the ferocious beast world through a teleportation array.

Soon, peace was restored to the ferocious beast world.

Meanwhile, Ye Tian returned to the Heavenly Pride Pavilion and took out the two Fire Dragon God Stones.

He was laughing wildly, his face filled with excitement.

Hahaha, I've gathered all four auxiliary materials required to cultivate the fire-element divine technique, Great Flame Extinguishing Hand. With my god-level fire domain talent and the Five Elements Transformation talent, I've met all the requirements to cultivate the Great Flame Extinguishing Hand! Ye Tian declared.

This meant he could now begin cultivating the fire-element divine technique, Great Flame Extinguishing Hand.

Chapter 363: The Great Flame Extinguishing Hand, a Divine Fire Technique, Achieved

The method to cultivate the Great Flame Extinguishing Hand, a divine fire technique, was actually quite simple: it involved refining four materials with a special method and integrating them into the palm of one's hand.

Then, one would use a god-level fire talent to form a special divine mark in the palm.

Once in battle, activating this divine mark would allow the user to wield the divine technique.

Of course, like martial techniques, divine techniques also had different stages of mastery, such as the Great Flame Extinguishing Hand, which was divided into four minor stages: beginner, intermediate, advanced, and perfected.

This division was similar to that of martial techniques, but advancing in divine techniques was much more difficult than in martial arts.

Many Heavenly Prides, even after mastering a divine technique, only reached the beginner level. Advancing further without sufficient talent and time was virtually impossible.

However, even a beginner-level divine technique was incredibly powerful, far surpassing god-level talents.

Ye Tian was quite looking forward to the Great Flame Extinguishing Hand and thus prepared to begin its cultivation.

He took out the Dragon Fire God Stone, Fire God Crystal, Million-Year Fire Spirit Essence, and the Seventh-Tier Strange Fire, the Golden Lotus Flame.

These four materials were not ordinary; they were treasures containing the essence of fire laws.

Normally, these four materials were very difficult to melt, let alone integrate into ones palm, but the Great Flame Extinguishing Hand included a corresponding method for their refinement.

According to the records of the Great Flame Extinguishing Hand, the first to be refined should be the Seventh-Tier Strange Fire, the Golden Lotus Flame.

The Golden Lotus Flame was chosen first because the subsequent refinement processes required the power of this strange fire.

Immediately, Ye Tian opened the jade box sealing the Golden Lotus Flame.

Boom! The Golden Lotus Flame appeared out of thin air, its terrifying flame power burning the void.

It seemed as if even space would turn black under the flames of the Golden Lotus.

For an ordinary emperor-level cultivator, merely touching the Golden Lotus Flame could reduce them to ashes.

Of course, for a peerless Heavenly Pride like Ye Tian, the Golden Lotus Flame was merely a flame with a higher temperature.

Swish!

Ye Tian grabbed the Golden Lotus Flame and activated the refinement method recorded in the Great Flame Extinguishing Hand.

Refine!

Ye Tian put all his effort into refining, and under his method, the Golden Lotus Flame gradually merged into his palm.

Instantly, Ye Tians entire palm turned red.

Time passed, and in the blink of an eye, a day had gone by.

After a whole day of refinement, the Golden Lotus Flame was finally completely integrated into Ye Tians palm.

Now to refine the Fire God Crystal, Ye Tian said with a solemn expression.

Refining the Golden Lotus Flame was not difficult, but refining the Fire God Crystal would not be easy.

The Fire God Crystal was an extremely tough treasure of the fire element. Even with the Golden Lotus Flame, melting the Fire God Crystal into the palm would take a long time.

Swish! A faint flame appeared in Ye Tians palm, enveloping the Fire God Crystal under the effect of the refinement method.

The refinement began.

Soon, a day passed, and the flame changed shape, but it was far from being completely melted.

In the blink of an eye, half a month had passed.

On this day, the Fire God Crystal finally transformed into a different form, slowly enveloping Ye Tians entire palm and gradually merging into the flesh of his palm.

This process took another three days to complete, finally finishing the second phase.

The third one to refine is the Dragon Fire God Stone.

Refining the Dragon Fire God Stone was slightly easier than the Fire God Crystal but still required a considerable amount of time.

Ye Tian held the Dragon Fire God Stone in his right hand and activated the refinement method, slowly refining the Dragon Fire God Stone as time slowly passed.

After ten days, the Dragon Fire God Stone was also completely integrated into Ye Tians palm.

With this, three of the fire treasures had been fully refined by Ye Tian, leaving only the last treasure, the Million-Year Fire Spirit Essence.

This Million-Year Fire Spirit Essence played an indispensable role, acting as an integrator.

The Fire God Crystal, Dragon Fire God Stone, and Golden Lotus Flame, although refined into Ye Tians palm, had not truly merged their fire essences.

The Million-Year Fire Spirit Essence, however, could fully and perfectly integrate the essences of the Fire God Crystal, Dragon Fire God Stone, and Golden Lotus Flame in the palm, making them one.

Refining the Million-Year Fire Spirit Essence was relatively simple. Ye Tian placed his palm into the liquid substance of the Million-Year Fire Spirit Essence and, in just three days, completely absorbed all of it.

Now, only the last step remained: using his god-level fire talent to cultivate the divine mark in his palm.

Thus, Ye Tian utilized his god-level fire domain talent and the cultivation method of the Great Flame Extinguishing Hand to start condensing the divine mark on his right palm.

Lets begin!

Ye Tian thought to himself.

Boom! A vast amount of fire law power appeared in the center of his right palm, continuously gathering and condensing.

Gradually, his entire right palm was completely transformed.

Days passed, and after five days, all the fire law power converged to a single point, forming a divine mark hidden deep within his right palm.

The Great Flame Extinguishing Hand, a divine fire technique, was fully cultivated.

The Great Flame Extinguishing Hand has reached the beginner level!

This was Ye Tians first divine technique, and he was quite interested in the power of the Great Flame Extinguishing Hand.

Swoosh! Ye Tian flew out from Zhonghai Super Base, rushing out of Earth to test the power of the Great Flame Extinguishing Hand in the starry sky.

He prepared to test the might of the Great Flame Extinguishing Hand in the vastness of space.

Upon activating the divine mark of the Great Flame Extinguishing Hand, Ye Tian struck out with his palm towards the space ahead.

Great Flame Extinguishing Hand!

With a thunderous boom, a gigantic fiery palm appeared in the void, grasping towards the stars, its terrifying fire power burning a vast area of space.

Under the effect of the Great Flame Extinguishing Hand, even space itself was affected.

The power of a divine fire technique is indeed much stronger than that of a god-level fire talent!

Ye Tian exclaimed.

Although the attack power of the Great Flame Extinguishing Hand was still far from his strongest attack, the divine fire technique could be activated instantly without hindering his ability to use other techniques. In other words, the divine fire technique could assist his attacks, making it extremely useful.

Moreover, the divine fire technique consumed very little energy and could be used for sustained attacks.

Furthermore, this was only a beginner-level divine fire technique. Once it reached the intermediate, advanced, or perfected levels, its power would be even more terrifying.

Not to mention, the Great Flame Extinguishing Hand was not the most heaven-defying divine technique, and there were certainly many more terrifying divine techniques.

In any case, divine techniques were a very powerful enhancement for martial warriors.

Ye Tian was actually more excited about the divine techniques corresponding to his time and space talents.

Even his space talent, which had only reached the pseudo-mystic level, was much more powerful than a god-level talent. If his space talent also reached the god level and he cultivated a space divine technique, its power would be unimaginably terrifying, definitely becoming Ye Tians strongest attack method in the future.

Ye Tian had a feeling that he was not far from becoming an eight-star peerless Heavenly Pride.

After breaking through his nineteenth physical limit, his strength was already at the peak of eight-star peerless Heavenly Prides. Now that he had cultivated the Great Flame Extinguishing Hand, his strength had increased even further, reaching the limit of eight-star peerless Heavenly Prides.

Now that the Great Flame Extinguishing Hand had been cultivated, advancing it to the intermediate level would be very difficult. Ye Tian decided to temporarily set aside the cultivation of divine fire techniques and focus on palm, sword, and claw techniques.

Especially palm and sword techniques, any slight improvement in one of them would definitely allow Ye Tian to step into the realm of eight-star peerless Heavenly Prides.

I still lack a Super God-level sword technique!

Ye Tian frowned slightly.

His current Sword Dao realm was at fifty percent, not far from 51%.

Ordinary Super God-level sword techniques required a 55% Sword Dao realm to cultivate.

However, a Super God-level sword technique involving space only required a 51% Sword Dao realm to reach the beginner level.

Therefore, what Ye Tian most desired now was a Super God-level sword technique involving space.

#### Chapter 364: The Plan to Plunder Resources

Super God level sword techniques are extremely rare, and indeed there are some within the Heavenly Pride Pavilion. Having revealed the power of a peerless Heavenly Pride, I can certainly return to the Heavenly Pride Pavilion to challenge the Heavenly Pride Tower. I should be able to earn a considerable amount of points, and with those points, I should be able to purchase a Super God level sword technique that involves spatial manipulation!

This was what Ye Tian thought.

This was the only method he could think of to obtain a Super God level sword technique. However, for now, he couldnt return to Silver Universe Star because there were far too many matters to attend to on Earth. He couldnt just up and leave now! Especially since he had only just returned, and if he were to leave again, his wife, Empress Yue, would definitely find it hard to let go.

Theres no rush for the Super God level sword technique; I need to sort out the matters on Earth first!

Ye Tian thought to himself.

Currently, the Dragon Clan and other external forces had mostly left Earth, but there were still many ferocious beasts remaining.

It could be said that the humans of Earth hadnt even fully taken control of their own planet, let alone the entire Solar System.

As the master of the Solar System, if Ye Tian hadnt fully taken control of his homeland, Earth, it would undoubtedly be crazy.

Moreover, there was another point.

The spatial rifts would soon disappear. The reason so many spatial rifts appeared on Earth was due to the rapid expansion of the planet, which caused spatial fluctuations, coupled with the influence of the Yuan Realm; otherwise, it wouldnt be possible for so many spatial rifts to appear.

Once the spatial rifts disappeared, Earth would no longer be threatened by the world of ferocious beasts, but it would also lose many resources.

Therefore, the first thing Ye Tian needed to handle was the collection of resources from the world of ferocious beasts. Taking advantage of the time before the spatial rifts disappeared, he planned to plunder the resources of the world of ferocious beasts thoroughly.

After all those worlds of ferocious beasts were mostly within the star fields controlled by the Dragon Clan, and humanity would not feel remorseful about plundering these resources.

Thus, Ye Tian initiated an Emperor-level meeting in the virtual world.

Before long, many Emperors joined the meeting.

During the meeting,

Ye Tian spoke, All Emperors from various parts of Huaxia, I've called you here to propose an idea. We should take this opportunity to collect the resources from the world of ferocious beasts as the spatial rifts on Earth will soon disappear, according to my calculations.

With our current strength, sweeping through the world of ferocious beasts is not difficult. If the spatial rifts disappear, we would lose a vast amount of resources.

The spatial rifts are going to disappear!!!

Emperor Ling Fei frowned.

He had been busy dealing with matters in the Earth Immortal Realm and almost neglected the world of ferocious beasts.

Most of Earth's resources were plundered from the world of ferocious beasts. Although Earth itself also had many resources, the cumulative wealth of the world of ferocious beasts was immense.

Immediately,

Ye Tian proposed that the Emperors of Huaxia assist some of the weaker bases to attack the world of ferocious beasts, sweeping through the worlds corresponding to the spatial rifts within Huaxia's territory as quickly as possible, and plundering all their resources.

Once the resources corresponding to the spatial rifts within Huaxia's territory were mostly plundered, they would then move on to the oceans to attack the worlds of ferocious beasts corresponding to the spatial rifts in the oceans.

If the spatial rifts had not yet disappeared by then, they would then invade the worlds of ferocious beasts corresponding to the spatial rifts in other countries.

In short, the goal was to collect resources as quickly and as much as possible.

This was the purpose of this meeting.

Heavenly Emperor of Ten Thousand Laws, we understand! We will arrange our forces immediately to attack the world of ferocious beasts and collect resources!

One after another, the Emperors responded.

Then, the Emperors started making arrangements, and Ye Tian also logged off.

Afterwards, Ye Tian informed the Battle Axe Emperor and other Emperors of Zhonghai Super Base that they must collect the resources from the world of ferocious beasts as quickly as possible.

The world of ferocious beasts corresponding to the five-star spatial rift near Zhonghai Super Base had already been cleared of its beastly masters, and it was sufficient to dispatch some three or four-star Emperors to sweep through the entire world of ferocious beasts.

Therefore, there was no need for Ye Tian to take action.

However, this time, Ye Tian also dispatched warriors from the Tian Pavilion as a formality.

Following that, Ye Tian dispatched many warriors from the Tian Pavilion and Zhonghai Super Base to Demon Sea Base, which was near a three-star spatial rift.

Indeed,

Ye Tian was preparing to take action against the world of ferocious beasts corresponding to this three-star spatial rift.

Normally, a three-star spatial rift would only allow King-level powerhouses to enter, and Saint-level and Emperor-level individuals could not pass through a three-star spatial rift.

However, in reality, a three-star spatial rift could be upgraded to a four-star or even a five-star spatial rift.

Its just that most people didnt know this.

But Ye Tian knew. During his time on Silver Universe Star, he had reviewed many documents, including detailed information about spatial rifts.

There are many ways to upgrade the level of a spatial rift, one of which is to establish a special spatial array.

However, Ye Tian had not studied spatial formations and did not want to waste time on it.

The second method is to use spatial talent to expand the spatial rift, but not by forcibly tearing it, as that would incur the backlash of the worlds force, just like what happened to Ye Tian before.

Expanding with spatial talent involves integrating countless spatial fragments into the spatial rift, allowing it to devour these fragments and grow, eventually reaching the level of a five-star spatial rift.

The maximum a spatial rift within a planet can grow is up to a five-star level, but that is sufficient.

Whoosh whoosh whoosh! Saints and Emperors arrived at Demon Sea Base, heading straight for the three-star spatial rift.

Regarding the arrival of so many Saints and Emperors, Yun Mengli, the base master of Demon Sea Base, was quite bewildered.

Therefore, he also led many kings from Demon Sea Base to the three-star spatial rift to understand the situation.

Yun Mengli saw a familiar face, his old friend who was only a King level back then but had now become a Saint level powerhouse.

Li Feng!

Yun Mengli communicated through spiritual sense.

Li Feng, the Saint in question, saw Yun Mengli and flew over.

He didnt look down on Yun Mengli, even though Yun Mengli was still a King level, but they were still friends.

Yun Mengli, youre here too!

Li Feng said.

How could I not come? With so many Saints and Emperors passing through our Demon Sea Base, how could I, as the base master, not come to understand the situation?

Yun Mengli said helplessly.

He then curiously asked, Li Feng, whats going on? Is something going to happen to this three-star spatial rift?

Li Feng replied seriously, Indeed, but the change is not caused by ferocious beasts but by us. Were planning to attack the world of ferocious beasts and plunder its resources.

Ah, attack the world of ferocious beasts?

Yun Mengli widened his eyes, not understanding the plan.

Moreover, this was just a three-star spatial rift. How could Saints and higher-level powerhouses get through? Initially, Ye Tian managed to pass through the three-star spatial rift using his spatial talent but also suffered from backlash.

How can you pass through the three-star spatial rift?

Yun Mengli was puzzled.

Of course, we cant, but the Heavenly Emperor of Ten Thousand Laws has a way.

Li Feng explained.

Heavenly Emperor of Ten Thousand Laws! Yun Mengli knew who that was, Ye Tian.

Ye Tian was once part of Demon Sea Base, but his strength had grown far beyond Yun Menglis imagination.

However, he didnt understand Ye Tian well, knowing only that Ye Tian was very powerful among Emperors.

After all, he was only a King level, and even though he could log into the virtual world, he had access to very little information.

At that moment,

A figure teleported in, appearing in front of the numerous Emperors.

Greetings to the Heavenly Emperor of Ten Thousand Laws!

The Emperors and Saints bowed respectfully.

Ye Tian scanned the crowd and then lightly waved his hand, erasing the formation of the three-star spatial rift.

Boom! The three-star spatial rift, which had been suppressed to a one-star level, slowly recovered, becoming a true three-star spatial rift after a while.

Everyone, back away, far away!

Ye Tian commanded.

Yes!

Everyone backed off, no one daring to object.

In an instant, everyone retreated quite a distance.

At this moment, Yun Mengli quietly asked, Li Feng, I noticed that some of the Emperors here are also leaders of major forces from Zhonghai Super Base. Heavenly Emperor of Ten Thousand Laws is the head of the Tian Pavilion, and everyone should be equals. Why do they seem to respect him so much, almost like subordinates?

Li Feng hastily replied, Yun Mengli, be careful with your words, dont let the Heavenly Emperor of Ten Thousand Laws hear you, or else if he doesnt teach you a lesson, others definitely will. How can you compare these ordinary Emperors with the Heavenly Emperor of Ten Thousand Laws? They are not on the same level at all!

Not on the same level?

Yun Mengli didnt understand.

### Chapter 365: The Disappearance of the Spatial Rift!

Emperor level is divided into ordinary Emperor level, one-star Emperor level, two-star Emperor level, three-star Emperor level up to nine-star Emperor level. Above the nine-star Emperor level, there are even stronger tiers, but Im not quite clear about what they entail.

However, the Heavenly Emperor of Ten Thousand Laws has surpassed the level above the nine-star Emperor level, and other Emperors are mere ants in front of him!

Li Feng explained earnestly to Yun Mengli.

What, the Heavenly Emperor of Ten Thousand Laws is actually that powerful!

Yun Mengli was extremely shocked.

Li Feng continued, You, being in the small place of the Demon Sea Base, are unaware of many things.

You must have heard of the Dragon Race and other foreign forces before. The foreign forces were once superior to the local forces on Earth, possessing many eight-star and nine-star Emperors, and even the most top-tier demigods. Sending out any one of their powerhouses would be enough to sweep through the local forces on our planet, and what we call super bases would be nothing but easily destroyed bases in their eyes.

The Dragon Race, controlling countless ferocious beasts in the oceans, naturally need not mention their strength, as they could easily obliterate all super bases on Earth.

Yet, even so, they all died by the hand of the Heavenly Emperor of Ten Thousand Laws alone!

The Dragon Race and the foreign forces are dead?

Yun Mengli's pupils shrank sharply. He really hadn't heard this news, but he was aware of the terror of the Dragon Race and the foreign forces. Once, a dragon from the Dragon Race flew over the Demon Sea Base, and he was terrified at the time.

He later found out that the dragon was just a weak Emperor-level being of the Dragon Race with no significant status, but even that had frightened him immensely.

But now, such powerful Dragon Race and foreign forces were all killed by Ye Tian alone.

If it weren't for Li Feng's words, he wouldn't believe it at all! Yes, the high ranks of the foreign forces and the Dragon Race are all dead. Moreover, it is said that under the help of the Heavenly Emperor of Ten Thousand Laws, many Emperors have gained great opportunities, and the strength of many Emperors has greatly increased. Now, our Earth has also seen the

birth of eight and nine-star Emperors. As for the strength of the Heavenly Emperor of Ten Thousand Laws, it must have become even more powerful!

Li Feng said while envying.

Yun Mengli fell silent on the side, slowly digesting Li Feng's words just now.

At this moment, he was truly stunned! I never thought that Ye Tian has already reached this step, truly the number one person on Earth!

Yun Mengli exclaimed.

On the other side.

Ye Tian began to expand the spatial rift.

He shattered the surrounding space, and then while the space had not yet repaired itself, he mobilized his spatial talent to control those space fragments and poured them into the three-star level spatial rift.

This step required precise control, otherwise, it would accidentally cause spatial turbulence, which would be troublesome.

Boom!

The three-star level spatial rift absorbed a large amount of space fragments and slowly began to expand.

In a short while, the three-star level spatial rift absorbed a large number of space fragments and grew to the extent of a four-star level spatial rift.

But at this time, the spatial rifts were fewer, and the newly formed four-star level spatial rift was also unstable. It needed to absorb more space fragments to stabilize.

Thus.

Ye Tian repeatedly shattered the surrounding space, controlling a large number of space fragments to merge into the spatial rift.

In this way, time slowly passed.

When other Emperors and Saints watched Ye Tian shatter the Earth's space as if he was chopping vegetables, they were extremely shocked.

But as they watched more, they got used to it! After a long time, this spatial rift finally grew into a five-star level spatial rift, but this was not permanent. Even if the spatial rifts on Earth would not disappear, this five-star level spatial rift could only last for a few days at most, unless Ye Tian continued to merge space fragments into it, otherwise, it would return to the three-star level.

You all go in, remember, you must collect as quickly as possible, I will only give you one day, understood?

Ye Tian said.

Understood!

Many Emperors and Saints said.

Immediately, these Emperors and Saints rushed into the ferocious beast world.

In the blink of an eye, these Emperors and Saints disappeared.

Yun Mengli flew over, facing Ye Tian, Heavenly Emperor of Ten Thousand Laws, may I enter this ferocious beast world and collect resources along with them?

In Yun Mengli's view, so many Emperors and Saints were enough to sweep through this ferocious beast world. Following behind them and picking up unwanted treasures would also yield a huge harvest.

You may, but your strength is still lacking. If you encounter danger, no one will save you!

Ye Tian warned.

I understand!

Yun Mengli nodded.

Immediately, Yun Mengli and some martial warriors from the Demon Sea Base entered the Ape Dragon Ferocious Beast World.

Upon hearing the news, other King-level powerhouses also arrived and entered the Ape Dragon Ferocious Beast World.

For a time, the Ape Dragon Ferocious Beast World became a treasure land that everyone wanted to enter, but it was not a benevolent place. Even with Emperors paving the way, dangers were still abundant.

Many martial warriors entered the Ape Dragon Ferocious Beast World and gained a lot of benefits before coming out, but many also remained there forever.

Ye Tian indeed had the ability to save those people, but he chose not to.

The path was chosen by oneself. If one wished to gain benefits, one must be prepared to pay the price.

In the blink of an eye, a day passed, and the Emperors and Saints returned.

In just one day, it was unrealistic to want to plunder all the resources of the Ape Dragon Ferocious Beast World, but the Emperors and Saints who returned alive all gained a massive amount of resources.

Ye Tian was not interested in these resources, so he did not ask for them.

He expanded the spatial rift only for the resource development of Zhonghai Super Base and Earth, so as not to waste the resources of this ferocious beast world.

Afterward.

Ye Tian did not continue to expand the spatial rift. After all, there were not a few five-star level spatial rifts, and those Emperors did not lack resources to plunder.

Ye Tian, along with Empress Yue, Ye Yu, and Xiao Xue, also entered some five-star level spatial rifts and plundered many resources, but all were stored in the treasury of the Tian Pavilion and the Moon God Sect.

In the blink of an eye, half a month passed.

Nearly all the ferocious beast worlds corresponding to the spatial rifts in Huaxia were swept clean by the Emperors from Huaxia, including those top-tier ferocious beast worlds, which were also swept clean by the joint efforts of many seven-star level Emperors and above.

The Emperors from Huaxia also conquered some of the ferocious beast worlds corresponding to spatial rifts in the oceans, gaining countless resources.

But one day, the Earth began to tremble slightly.

At this time, people discovered that the spatial rifts were slowly shrinking.

In less than a day, those spatial rifts disappeared.

The lower-level martial warriors were very excited. Without the spatial rifts, they no longer needed to live in fear, but the high-level Emperors regretted the loss of important resources.

However, due to Ye Tians plan, the resources of the major forces in Huaxia increased manyfold, enough to sustain decades or even a hundred years of cultivation. There was no need to worry about the cultivation resources for the disciples within the forces.

Other nations, lacking powerful Emperors, dared not conquer ferocious beast worlds and could only watch enviously as the Emperors from Huaxia brought back countless resources from the ferocious beast worlds.

In the days that followed, the Emperors from Huaxia were not idle. Without the threat of ferocious beast worlds, the Emperors no longer needed to guard the spatial rifts, allowing more Emperors to be mobilized.

These Emperors, under the leadership of seven, eight, and even nine-star Emperors, began to sweep through the ferocious beasts within Huaxias territory. Aside from some forests, mountains, and rivers, the ferocious beasts in other areas were completely eradicated, greatly expanding the land area occupied by humans.

Otherwise, with just the area of these bases, the human population could not develop.

Now, humans had driven the ferocious beasts back into the forests, mountains, and rivers, allowing for the construction of more human cities.

One could imagine that in a few decades, Earth would become incredibly prosperous.

Initially, some Emperors suggested exterminating all the ferocious beasts on Earth, but Ye Tian stopped this plan.

The existence of ferocious beasts keeps martial warriors from becoming complacent. Moreover, the presence of ferocious beasts provided a massive supply of ferocious beast blood, an indispensable resource for martial warriors at the beginning of their cultivation. Even on main planets like Silver Universe Star, there were a large number of ferocious beasts. Worlds without ferocious beasts were those technological planets where cultivation was difficult, and Ye Tian did not wish for Earth to become such a technological planet.

In this universe, technology was far inferior to martial arts, and the path of martial arts was the true way.

In the blink of an eye, a year had passed since the spatial rifts disappeared.

During this year, he spent most of his time with his wife, Empress Yue.

And now, he was preparing to leave Earth again!

### Chapter 366: Super God-Level Sword Technique – The Phantom God Sword Technique!

Ye Tian had long harbored the idea of leaving Earth, and now, after delaying for a year, he was unwilling to waste any more time.

At present, Earth was entirely under human control, with Huaxia holding supreme authority over the planet.

Additionally, humans from Earth had begun to set foot in other planetary systems.

The interstellar teleportation array on the Moon was shared by Ye Tian, allowing some Emperor-level beings to leave the solar system by using the teleportation array.

Ye Tian was not afraid of the solar system coming into contact with other planetary systems because the solar system was allocated under his name, and other forces in the Milky Way would not dare to disrupt it.

Moreover, his identity as a peerless Heavenly Pride was enough to suppress everything. Even the Flame Sect, which bore grudges against him, did not dare to harm the solar system, as no force would want to endure the wrath of a peerless Heavenly Pride.

Only a peerless Heavenly Pride could stand against another, and Ye Tian, now a Seven-Star peerless Heavenly Pride, could easily crush other Six-Star Heavenly Prides.

Should any peerless Heavenly Pride seek trouble with him, he would not hesitate to eliminate them.

This time, Ye Tian was not leaving alone; he was leaving with someone else his wife, Empress Yue, intending to enter Silver Universe Star with her.

With his status as a Heavenly Pride, having an Emperor-level individual join Silver Universe Star was well within his capabilities.

The reason he took his wife was that he did not want to be separated from her for too long, and Empress Yue also did not wish to stay on Earth by herself.

Furthermore, Empress Yues strength was not weak, and upon entering Silver Universe Star, Ye Tian could definitely train her to become a Heavenly Pride.

Training a Heavenly Pride is something others could not guarantee, but Ye Tian could.

Ye Tians copy talent possessed the ability of Seizure and Bestowal; he could strip enemies of their talents and bestow them upon Empress Yue. With many powerful talents, it would not be difficult for Empress Yue to become a Heavenly Pride.

On this day, Ye Tian completely handed over the Tian Pavilion on Earth to his sister, Ye Yu, and entrusted the Glory Temple to help take care of the Tian Pavilion. Then, he left Earth with Empress Yue, departing the solar system through the interstellar teleportation array.

After several transfers, Ye Tian and Empress Yue finally arrived at Silver Universe Star.

At a spaceport on Silver Universe Star, Empress Yue stepped off the cosmic spaceship and was immediately astonished by the vastness of Silver Universe Star, exclaiming, My husband, Silver Universe Star is so vast! Earth is simply like a tiny broken planet compared to it!

Ye Tian smiled and said, The Milky Way contains countless planetary systems, and the solar system is just one small system within it. Earth is merely one planet in the solar system, only becoming a high-level planet only because of the revival of yuan qi. Otherwise, Earth would be insignificant in the universe. Silver Universe Star, being one of the nine major stars of the Milky Way, is incomparable to Earth.

Indeed! Empress Yue agreed with Ye Tians words and nodded repeatedly.

The two then took the teleportation array from the spaceport to Qingfeng Giant City.

Upon entering Qingfeng Giant City, Empress Yue was shocked by the strength of the martial warriors there.

On Earth, Emperor-level beings were considered peak powerhouses, but here, Emperors seemed quite common, and she even sensed the divine aura emanating from several individuals, clearly indicating they were God-level warriors.

At that moment, Empress Yue truly understood the strength of Silver Universe Star in the Milky Way.

This was just one giant city, yet there were so many Emperor-level beings visible on the streets, showing that Emperor-level was just a mid-level rank on Silver Universe Star.

Soon, Ye Tian brought Empress Yue back to his place in Qingfeng Giant City.

In the following days, Ye Tian took Empress Yue around Qingfeng Giant City, and obtained Silver Universe Star identity tokens, officially becoming members of Silver Universe Star.

Moreover, Ye Tian introduced a few friends to Empress Yue to ensure she had company.

Among the friends he introduced were Liu Qingyi and Qin Zixuan.

Empress Yue, Liu Qingyi, and Qin Zixuan hit it off quite well and quickly became good friends.

Seeing that Empress Yue had officially integrated into life on Silver Universe Star, Ye Tian began planning for his future cultivation path.

Ye Tians first goal was to cultivate a Super God-Level Sword Technique.

He browsed the Heavenly Pride Pavilions points mall and found a suitable Super God-Level Sword Technique the Phantom God Sword Technique!

The Phantom God Sword Technique, a technique that involves spatial elements, could penetrate through space, allowing it to strike down an enemy even if they were hidden within the fabric of space itself.

Moreover, the Phantom God Sword Technique could pulverize every cell of an enemy. Once it struck an opponents body, if their physical body was relatively weak, all their cells would disintegrate instantaneously due to the Phantom God Sword Qi.

It could be said that the Phantom God Sword Technique was an extremely powerful and terrifying technique. Even Heavenly Prides with healing talents could be slain by the Phantom God Sword Qi, with no chance of recovery.

Of course, given the Phantom God Sword Techniques immense power, its value was also considerable, requiring 100 points.

100 points in the Heavenly Pride Pavilion was not a small sum. Even the opportunity for a planets birth was only worth 500 points, and very few Heavenly Prides could gather 100 points.

However, a sword technique like the Phantom God Sword Technique could become the foundation of a top-tier power, its value immeasurable. If it were available in the outside world, it would simply be unattainable.

The Heavenly Pride Pavilions decision to offer this Super God-Level Sword Technique, even for 100 points, was absolutely worth the price.

I currently dont have a single point, so to purchase the Phantom God Sword Technique, I must challenge the Heavenly Pride Tower! Ye Tian resolved. Before, he had conquered the second level of the Heavenly Pride Tower and obtained 200 points.

Once he breached the third level of the Heavenly Pride Tower, he would gain 400 points, and if he could get through the fourth level, he would receive 800 points.

That is, Ye Tian only needed to surpass the fourth level of the Heavenly Pride Tower to acquire 120 points, enough to purchase the Super God-Level Sword Technique the Phantom God Sword Technique! The third level of the Heavenly Pride Tower corresponded to four-star Heavenly Prides, and the fourth level to five-star Heavenly Prides, while Ye Tian was a seven-star Heavenly Pride, capable of even surpassing the sixth level if he so wished.

Thus, a mere 100 points were nothing to him.

Ye Tian entered the virtual world and applied to challenge the Heavenly Pride Tower.

Soon, Ye Tian entered the third level of the Heavenly Pride Tower, and the challenge began.

The virtual opponent of the third level appeared, and with a movement of Ye Tians hand, he executed the Ghost Sword Technique.

With a whoosh, he decapitated the opponent with a single stroke, the opponent dissipating into nothingness, challenge successful.

On the fourth level of the Heavenly Pride Tower.

Ye Tian faced the virtual opponent of the fourth level and still managed to kill the opponent with a single move, successfully conquering the fourth level.

By then, he had already accumulated 120 points, but Ye Tian continued to the fifth level.

On the fifth level, Ye Tian was slightly more cautious and took some effort to kill the opponent, passing the fifth level and obtaining 160 points.

Thus, Ye Tians total points reached 280 points.

For Ye Tian to consecutively conquer the third, fourth, and fifth levels of the Heavenly Pride Tower was almost unprecedented; his strength had soared.

Other Heavenly Prides, even if they wished to enhance their strength by one star, would likely need a long time.

Ye Tian did not continue to the fifth level of the Heavenly Pride Tower, as he was not yet ready to reveal the strength of a seven-star peerless Heavenly Pride.

After obtaining 280 points, Ye Tian immediately purchased the Super God-Level Sword Technique the Phantom God Sword Technique.

After deducting 100 points, Ye Tian still had 160 points remaining.

He did not continue to spend these 160 points, as he had not yet decided what to purchase and planned to save them for the time being.

Afterwards, Ye Tian went to the Heavenly Pride Pavilion branch and collected the inheritance orb of the Super God-Level Sword Technique, the Phantom God Sword Technique.

In the following time, Ye Tian devoted himself to comprehending the realm of the Sword Dao, attempting to elevate his Sword Dao realm from 50% to 51%.

With Ye Tians current Dawn-level Swordsmanship Talent and top-tier comprehension talent, elevating the Sword Dao realm from 50% to 51% would still take some time, especially since there was no opportunity for a planets birth at the moment.

But then, good news arrived.

The Heavenly Sword Secret Realm was about to open again!

#### Chapter 367: Eight-Star Peerless Heavenly Pride

Ye Tian was well aware of the benefits of the Heavenly Sword Secret Realm.

The Heavenly Sword Stele within the Secret Realm could significantly enhance ones comprehension of the Sword Dao. Once Ye Tian entered the Heavenly Sword Secret Realm, he could definitely elevate his Sword Dao realm from 50% to 51%, and possibly even reach 52%, within a month.

The Heavenly Sword Secret Realm required only 30 points to purchase an entry spot, and Ye Tian quickly secured one for himself.

On the day the Heavenly Sword Secret Realm opened, Ye Tian arrived at the designated area.

Upon his arrival, many greeted him.

After all, his fame was immense, being one of the two peerless Heavenly Prides of Silver Universe Star.

Since Ye Tian arrived early and the Secret Realm hadn't opened yet, he waited outside.

Suddenly, a terrifying aura approached from the distance, and a young man in a purple robe appeared before everyone.

Seeing this young man, many Gods and True Gods respectfully greeted him, saying, Greetings to the Purple Sword True God!

From the title alone, it was clear that this young man was a True God. Given the respect he commanded from other True Gods, his strength among them must be terrifying indeed.

Ye Tian became interested in this person, particularly in his talent in swordsmanship.

This True God's renown suggested that his swordsmanship talent might be at the Dawn level.

Ye Tian was just one Dawn-level swordsmanship talent away from elevating his own to a new level, so he was eager to copy one.

Upon the Purple Sword True God's arrival and seeing that the Secret Realm had not yet opened, he too waited in mid-air. Ye Tian slowly approached within a kilometer of the Purple Sword True God and then used his talent-copying ability to check his talents.

Human: Kong Ming

Cultivation Talent: Desolate level

Strength Talent: Mystic

Defense Talent: Mystic

Speed Talent: Mystic

Purple Light Talent: God level

Swordsmanship Talent: Dawn level

Indeed, a Dawn-level swordsmanship talent!

Ye Tian was thrilled and immediately copied the Purple Sword True Gods Dawn-level swordsmanship talent.

Half a day passed, and the Heavenly Sword Secret Realm finally opened.

One by one, martial warriors flew into the Secret Realm, and Ye Tian followed suit.

Upon entering the Heavenly Sword Secret Realm, Ye Tian didn't immediately head to the central Heavenly Sword Stele. Instead, he flew to a random spot and landed on the ground.

He planned to integrate the newly copied Dawn-level swordsmanship talent before heading to the Stele.

Integrate!

Without hesitation, Ye Tian began the integration.

Immediately, intense pain surged through his body. Ye Tian endured in silence, knowing his swordsmanship talent was evolving. Despite the agony, he persevered.

About half an hour later, the pain gradually subsided.

By then, the integration of the Dawn-level swordsmanship talent was successful.

Ye Tian eagerly checked his swordsmanship talent:

[Swordsmanship Talent: Supreme level].

Seeing this Supreme level swordsmanship talent, Ye Tian couldn't help but smile excitedly.

Ha ha ha, with this Supreme level swordsmanship talent, I can use the Heavenly Sword Stele to greatly enhance my Sword Dao realm this time!

Ye Tian exclaimed excitedly.

After resting for a while, Ye Tian flew towards the center of the Heavenly Sword Secret Realm.

Upon his arrival, others had already begun their comprehension.

So, Ye Tian casually found a large rock, sat on it, and started to comprehend the Sword Dao realm with the help of the Heavenly Sword Stele.

Ten times time acceleration!

Top-tier comprehension talent activated!

With these two talents, along with the Heavenly Sword Stele and Ye Tian's newly elevated Supreme swordsmanship talent, his comprehension speed was incredibly fast.

Days passed, and in just four days, Ye Tian successfully elevated his 50% Sword Dao realm to 51%.

On the ninth day, Ye Tian elevated his 51% Sword Dao realm to 52%.

On the fifteenth day, Ye Tian elevated his 52% Sword Dao realm to 53%.

On the twenty-second day, Ye Tian successfully elevated his 53% Sword Dao realm to 54%.

Finally, the day came when the Heavenly Sword Secret Realm was about to close.

As the Heavenly Sword Secret Realm was about to close, Ye Tian successfully elevated his 54% Sword Dao realm to 55%.

Reaching a 55% Sword Dao realm, Ye Tian could even cultivate any Super God level sword technique to the introductory level, and he could cultivate the Phantom God Sword Technique to the minor accomplishment realm.

Thus, the gains from this visit to the Heavenly Sword Secret Realm far exceeded his expectations.

Of course, Ye Tian knew that his significant achievements were due to integrating a Dawn-level swordsmanship talent, which transformed his own talent into a Supreme level swordsmanship talent.

Otherwise, he could have at most elevated his Sword Dao realm to 52%.

As the Heavenly Sword Secret Realm was closing, everyone left, and Ye Tian, after departing the Heavenly Sword Secret Realm, returned to Qingfeng Giant City.

Back in the city, he focused on cultivating the Phantom God Sword Technique.

He paid great attention to this Super God level sword technique because mastering it would enhance his strength significantly.

By then, he could transcend the barriers of seven-star and eight-star peerless Heavenly Prides, successfully becoming an eight-star peerless Heavenly Pride.

Time passed, and with his Supreme level swordsmanship talent, Ye Tian cultivated sword techniques very quickly.

Although the Phantom God Sword Technique was challenging to cultivate, Ye Tian managed to reach the introductory level within just 20 days.

On the day he successfully cultivated the Phantom God Sword Technique, Ye Tian broke through the barriers and became an eight-star peerless Heavenly Pride.

However, at this point, Ye Tian was at the bottom among the eight-star peerless Heavenly Prides.

After all, he had only barely reached the eight-star peerless Heavenly Pride status.

Ye Tian continued to cultivate the Phantom God Sword Technique and, with his efforts, managed to reach the minor accomplishment realm in another month.

The Phantom God Sword Technique at the minor accomplishment realm significantly boosted Ye Tians strength.

One day, Ye Tian discovered a God-level powerhouse with a Dawn-level swordsmanship talent in Qingfeng Giant City.

He secretly copied the others Dawn-level swordsmanship talent.

He copied this Dawn-level swordsmanship talent not for himself, as he already possessed a Supreme level swordsmanship talent, making the Dawn-level talent somewhat redundant.

He did it for his wife, Empress Yue, whose swordsmanship talent was only at the top level, making it difficult to elevate.

Therefore, Ye Tian planned to copy a Dawn-level swordsmanship talent and then use his talent-copying ability to strip his own swordsmanship talent and bestow it upon Empress Yue.

This method was absolutely feasible.

He could continuously copy talents, so even if he stripped his own Dawn-level swordsmanship talent, it wouldnt affect him.

This method was the simplest; otherwise, he would have to find an enemy with a Dawn-level swordsmanship talent, capture them, and strip their talent, which would be too troublesome.

If it were about bestowing a cultivation talent, he would definitely strip someone else's talent.

After all, he couldn't strip his own cultivation talent; otherwise, it would be too difficult for him to copy another Hong-level cultivation talent.

But swordsmanship talent was different; he didn't need it, so even if he gave it to Empress Yue, it wouldn't matter, which is why he thought of using his talent-copying ability to strip his own swordsmanship talent.

Seizure!

Ye Tian used his talent-copying ability to seize, and the Dawn-level swordsmanship talent within his soul was slowly stripped and stored.

Then, Ye Tian specifically chose a herb resembling a sword as a precious material and called Empress Yue over.

Yueer, this is a precious treasure I found for you. It can enhance your swordsmanship talent. Just eat it!

Ye Tian said.

Really?

Empress Yue was surprised and excited.

Top-level swordsmanship talent was considered quite good on Earth, but after arriving at Silver Universe Star, it seemed quite ordinary.

If she could enhance her swordsmanship talent, her strength would significantly increase.

So, Empress Yue didn't hesitate to consume the unknown spiritual item, and Ye Tian took the opportunity to bestow the Dawn-level swordsmanship talent upon her.

Instantly, Empress Yues swordsmanship talent began to transform.

## Chapter 368: Re-entering the Ancient God Ruins

After a long while, Empress Yue opened her eyes.

At this moment, she was extremely exhausted. After all, merging the bestowed Swordsmanship Talent was no easy task.

But she had succeeded in merging them! Ye Tian used his Copy Talent to check Empress Yues talent status, and saw that her Swordsmanship Talent had changed.

[Swordsmanship Talent: Dawn Level]

Empress Yues Swordsmanship Talent had been elevated from Top-tier to Dawn Level in an instant. This meant that in the future, Empress Yue could cultivate Legendary Sword Techniques, God-level Sword Techniques, and even Super God-level Sword Techniques.

For Empress Yue, this was a tremendous transformation. Her strength could definitely increase rapidly.

Moreover, having broken through her sixteenth physical limit, as long as she could enhance her Sword Techniques, her strength would see a significant surge.

In addition, Ye Tian could bestow upon Empress Yue other powerful talents in the future, making it no difficult feat for her to become a Heavenly Pride.

Of course, this process wouldnt be completed in a short period of time, as turning talent into strength also required time.

In the following days, Ye Tian devoted himself to rigorous cultivation, mainly focusing on the Dao of the Sword, the Claw Dao, and the Palm Dao. Occasionally, he would delve into the mysteries of space, though the results were not very significant.

In fact, Ye Tian was at a bottleneck, currently an 8-star peerless Heavenly Pride. Advancing further was incredibly difficult.

Without a significant opportunity, even a hundred or five hundred years of cultivation might not suffice to advance to a 9-star peerless Heavenly Pride.

Thus, Ye Tian needed to seek out significant opportunities to rapidly enhance his strength.

But such opportunities were not easily found. If they were, everyone could become a Heavenly Pride.

Half a year had passed without much improvement in Ye Tians strength. On the other hand, Empress Yue, not lacking in resources and with her Swordsmanship Talent elevated to Dawn Level, aided by a 6-star Wondrous Sword Dao Stele, was progressing swiftly in her Sword Dao cultivation. She had already begun to cultivate God-level Sword Techniques.

In terms of combat power, Empress Yue was also at a 9-star Emperor level, albeit on the weaker side among them.

How can I find a great opportunity? Ye Tian was quite troubled at this moment.

Suddenly, he thought of the Ancient God Ruins. Initially, he had acquired an unnamed physical secret technique from the ruins but had left afterwards without continuing further.

Undoubtedly, the Ancient God Ruins were a place of great opportunity.

Perhaps its time to visit the Ancient God Ruins again! Ye Tian thought to himself.

Back then, he had dared to enter the Ancient God Ruins as merely a 2-star Heavenly Pride. Now, as an 8-star Heavenly Pride, he was many times more formidable than before.

With his 8-star Heavenly Pride strength, defeating a 6-star peerless Heavenly Pride would not be a problem. Although the Ancient God Ruins were dangerous, they might not be able to stop him, and he could potentially enter the grand temple within the ruins directly.

Inside the Ancient God Ruins, just one peculiar space had brought significant gains. If he could enter that grand temple, the rewards could be immense! However, he needed to first understand the current situation of the Ancient God Ruins.

Afterwards, Ye Tian entered the forum section of the Heavenly Pride Pavilion virtual world and browsed through the posts of other Heavenly Prides.

These Heavenly Prides must have discussed the Ancient God Ruins, so he could glean some basic information from here.

Soon, Ye Tian found many posts about the Ancient God Ruins and read through them.

As expected, there were peerless Heavenly Prides who entered the ruins later! Ye Tian mused.

From these posts, Ye Tian learned that the Heavenly Pride Qing Zhan had entered the Ancient God Ruins. The specific gains were unclear to everyone, but it was known that Qing Zhan was injured and had not yet recovered.

Additionally, a recent event had occurred in the Milky Way Galaxy.

The peerless Heavenly Pride who had been chased by the three major peerless Heavenly Prides had returned to the galaxy and seemed to have re-entered the Ancient God Ruins.

The three major peerless Heavenly Prides had also returned and had ceased their pursuit of that peerless Heavenly Pride, for reasons unknown.

Perhaps an agreement had been reached between the parties, or other forces had intervened.

Scorpio Heavenly Pride has returned and re-entered the Ancient God Ruins. It seems the allure of the Ancient God Ruins is irresistible even to peerless Heavenly Prides!

Ye Tian marveled.

Scorpio Heavenly Pride was the peerless Heavenly Pride who had fled from being hunted. Initially, Scorpio had acquired a secret physical cultivation technique, and now he wanted to

enter the Ancient God Ruins again, undoubtedly for the treasures within the temple! After pondering for a while, Ye Tian decided to enter the Ancient God Ruins once more.

Compared to other Heavenly Prides, not only was his strength formidable, but he also had numerous life-saving measures. If he still hesitated to re-enter the Ancient God Ruins, it would be overly cautious.

Moreover, if he wished to become a Child of the Universe, not taking risks was practically impossible.

Ye Tian informed Empress Yue and then set off from Silver Universe Star.

This time, Ye Tian did not conceal his movements. Instead, he entered the Ancient God Ruins in his true form.

Having broken through his nineteenth physical limit, if he wanted to use the Soul Transfer Talent to occupy an Emperor-level body, he must possess a body that had broken through the nineteenth physical limit to unleash his true strength.

Unfortunately, it was estimated that such an Emperor-level individual who had broken through the nineteenth physical limit could not be found in the Milky Way Galaxy.

Therefore, Ye Tian had no choice but to enter the Ancient God Ruins in his true form to fully unleash his strongest power.

Furthermore, as an 8-star peerless Heavenly Pride, Ye Tian hardly had any rivals, so why should he be so cautious? Therefore, he didn't even use his Disguise Talent and went directly to the Tunjiang Planetary System.

Tunjiang Planetary System.

Ye Tian arrived at the Ancient God Ruins, and this news was spread by many Emperors.

Many major forces knew that Ye Tian, the Heavenly Emperor of Ten Thousand Laws, had come to the Ancient God Ruins, intending to enter.

The entry of a peerless Heavenly Pride into the Ancient God Ruins was naturally a sensational event.

When Ye Tian arrived at the Ancient God Ruins, he saw that there were many fewer Emperors here than before.

It was evident that since most of the True God Ruins had been thoroughly plundered, the number of Emperors willing to take the risk had significantly decreased.

As for the Ancient God Ruins, who would dare to enter if not at the Heavenly Pride level? Even a 9-star Emperor would undoubtedly die once inside the Ancient God Ruins.

One would enter only to die; the Emperors weren't foolish enough to throw their lives away for nothing.

Whoosh! Ye Tian flew directly into the Ancient God Ruins.

Passing through the light screen, he entered the interior of the Ancient God Ruins.

At that moment, he saw the immensely huge temple radiating infinite oppressive might, and the phantom of an ancient god still standing there, its gaze seemingly overlooking him.

The stronger one's strength, the more one could sense the terror of this ancient god. Let alone a True God, even a Great God-level powerhouse was far from being a match for this ancient god.

To this day, Ye Tian was still unclear about the true strength of this ancient god.

In any case, this ancient god was terrifying! Ye Tian walked up the stone steps, soon encountering one killing formation after another.

Now, these killing formations posed no threat to him at all, and he easily passed through them.

Originally, Ye Tian thought he might be transported again to the Moro tribes peculiar space, but he was disappointed.

When he crossed the stone steps where he had been transported last time, nothing happened.

Clearly, one could only enter a peculiar space once, and since he had already entered a peculiar space before, he could not enter it again.

However, there were undoubtedly many peculiar spaces along the way, so Ye Tian didnt need to worry about not being able to enter any.

As expected.

After passing through a few more killing formations, Ye Tian suddenly sensed a teleportation force surging towards him.

Even as an 8-star peerless Heavenly Pride, Ye Tian was still powerless to resist and was transported away.

The next moment.

He found himself in a new peculiar space.

Immediately, Ye Tian activated his invisibility.

Although invisibility couldnt deceive God-level powerhouses, it could fool Emperors. As long as he could deceive the Emperors, that was sufficient.

Swoosh! Ye Tian swiftly left, not daring to linger here. He urgently needed to find the dwelling places of other races and then understand the situation in this peculiar space.

Chapter 369: The Golden Armor Clan, Iron Battle Heavenly Pride

At the moment when Ye Tian was just about to leave, a voice echoed in his ear: Survive for ten days or kill ten Emperor-level beings, and then you can leave this place!

Clearly, the assessment rules of this otherworldly space were similar to the previous Moro Clans otherworldly space.

Whoosh!

Ye Tian flew away! Before long, Ye Tian encountered an Emperor-level powerhouse.

This Emperor-level powerhouse bore some resemblance to humans but was definitely not a human. His skin exhibited a pale golden color, as if he were clad in a suit of golden armor. However, that was definitely not armor but a part of his body.

Whoosh! Ye Tians Copy Talent enveloped the other, examining his talents.

Golden Armor Clan: Iron Mang

Cultivation Talent: Moonlight-level

Strength Talent: Mystic

Speed Talent: Pseudo-Mystic 80%

Defense Talent: Pseudo-Mystic 30%

Palm Technique Talent: Morning Star

Golden Armor Talent: Top-tier

Ye Tian, upon seeing the talents of this Emperor-level being, immediately knew what clan this was.

The Golden Armor Clan, Ive never heard of them!

Ye Tian had limited interactions with other clans, so he was completely unaware of many other clans. Besides the human clan, there were many other clans in the universe, and who knew where this Golden Armor Clan came from.

The appearance of a Golden Armor Clan Emperor-level being here indicates that this otherworldly space holds prisoners of the Golden Armor Clan! Ye Tian thought to himself.

Immediately, he deactivated his Invisibility Talent and instantly used his Disguise Talent to transform into a Golden Armor Clan Emperor-level being.

Whoosh!

Ye Tian teleported in front of the Golden Armor Clan Emperor-level being and, without a word, directly used his Hypnosis Talent to hypnotize the other party.

This Emperor-level being was not very strong, having only broken through his physical limits six times, and thus was easily hypnotized by Ye Tian.

Immediately after, Ye Tian began to interrogate the Emperor-level being.

Soon, he had a general understanding of this otherworldly space.

This otherworldly space indeed belonged to the Golden Armor Clan, which was very powerful here.

From the information Ye Tian gathered, the Golden Armor Clan had over a dozen God-level beings and more than five hundred Emperor-level beings in this otherworldly space.

Additionally, the Golden Armor Clan had a Heavenly Pride!

Yes, a Heavenly Pride. In such a resource-scarce otherworldly space, the Golden Armor Clan had managed to cultivate a Heavenly Pride.

As for how they managed to do it, this Emperor-level being named Iron Mang obviously didn't know. He even believed it was due to the high talent of that Heavenly Pride that he could become one.

But Ye Tian was very clear that in a resource-scarce otherworldly space, without some fortune, becoming a Heavenly Pride was not that simple! Ye Tian also inquired about the temple, and as he had guessed, this otherworldly space also had a small temple.

Every few years, the Golden Armor Clan would send powerful Emperor-level clan members into the temple.

As for what treasures the Golden Armor Clan obtained from the temple, this Emperor-level being was not clear. It seemed the Golden Armor Clan did not disclose the specifics, keeping it tightly sealed.

Furthermore, Ye Tian learned that there indeed were otherworldly spaces with Heavenly Prides in the past, and two Heavenly Prides were killed by the Golden Armor Clan. As for the other Heavenly Prides, they had all disappeared, obviously having escaped.

However, in recent years, the Golden Armor Clan had lost quite a few Emperor-level beings, so they were very strict in their investigation of outsiders. All the cities of the Golden Armor Clan were equipped with formations that could detect clan members' bloodlines.

Once someone who was not from the Golden Armor Clan entered the city, they would be immediately detected.

At that time, a God-level powerhouse from the Golden Armor Clan would come over.

The Golden Armor Clan actually has a formation that can detect bloodlines. In this case, my Disguise Talent won't allow me to enter the city! Ye Tian frowned.

The Disguise Talent could only mimic appearance and aura, but it couldn't possibly create a bloodline out of thin air that was unrealistic! For example, even though he was disguised as a member of the Golden Armor Clan, he did not possess the bloodline of the Golden Armor Clan.

At his core, he was still human.

At this moment, Ye Tian was also quite relieved that he had first encountered an Emperor-level being and obtained specific information from him. Otherwise, if he had directly entered a city, he might have had to face a God-level being soon after.

With his current strength, he didn't need to fear ordinary God-level beings, but he was wary of some extremely powerful God-level beings. If he encountered such a God-level being, he definitely wouldn't be a match.

After asking many more questions and not being able to extract any more information, Ye Tian killed the Emperor-level being.

After killing the Emperor-level being, Ye Tian quickly left.

Not long after, a God-level powerhouse from the Golden Armor Clan arrived at the scene. When he saw Iron Mang's corpse, his face was filled with anger.

Another foreign human Heavenly Pride!!!

The God-level powerhouse of the Golden Armor Clan roared in fury.

Shortly after learning of the intrusion of an external human, he began searching for traces of the human Heavenly Pride.

Unexpectedly, it wasn't long before news came from within the clan that an Emperor-level member had perished.

For the Golden Armor Clan, which didn't have many at the Emperor level, the loss of even one was painful, and the recent consecutive losses of Emperor-level members were a heavy blow to the clan.

Atop a mountain within the Golden Armor Clan's otherworldly space, Ye Tian was taking a temporary rest.

At this moment, he was devising a plan.

The Golden Armor Clan has formations capable of detecting bloodlines. Perhaps such formations are also placed near the temple, guarded by powerful God-level beings, making it impossible for even peerless Heavenly Prides to break in! I suspect the peerless Heavenly Prides who came here either hid for ten days or killed ten Emperor-level beings to leave.

Ye Tian speculated.

Hiding for ten days wouldn't be difficult for him, but he didn't want to just hide; he wanted to enter the temple, where significant gains might be possible.

Not to mention anything else, if he could learn another secret technique for physical enhancement, that would also be a great gain! Suddenly,

Ye Tian sensed a dangerous aura and quickly disguised himself as an ordinary King-level member of the Golden Armor Clan.

The next moment, a powerful divine consciousness swept through the area, obviously paying no attention to him as a King-level Golden Armor Clan member.

A God-level Golden Armor Clan member!

Ye Tian recognized the identity of the owner of this divine consciousness.

Clearly, the God-level powerhouses of the Golden Armor Clan were mobilized and were searching for his whereabouts.

Meanwhile, within a grand city of the Golden Armor Clan, in a magnificent hall, a young man emerged from seclusion.

This young man was the only Heavenly Pride of the Golden Armor Clan—Iron Battle Heavenly Pride! Upon learning that a human Heavenly Pride had entered this otherworldly space, he became eager to act.

He couldn't leave this otherworldly space, and no other Emperor-level members within the clan were a match for him, so naturally, he wanted to find an opponent for a spar.

Previously, he had been in seclusion, missing the opportunity when human Heavenly Prides entered their otherworldly space.

This time, he didn't want to miss out again.

But as he was about to leave the city, a God-level powerhouse appeared before him.

Iron Battle Heavenly Pride, you cannot go out! the God-level powerhouse warned.

Iron Long, you want to stop me? Humph, you may be at the God level, but you're just a five-star Emperor who recently broke through. I am a five-star Heavenly Pride; in terms of strength, you're not even my match. What right do you have to stop me? Iron Battle Heavenly Pride retorted sarcastically.

God Iron Long didn't dare to argue back, but still said, Recently, a human Heavenly Pride has come, and we're not clear about their strength. You are our clan's only Heavenly Pride and have the potential to become a six-star peerless Heavenly Pride. If you become a six-star peerless Heavenly Pride and pass the temple's test, our clan might have a chance to leave this otherworldly space. You know the importance of yourself. What if that human Heavenly Pride is a peerless Heavenly Pride?

You think I'm not a match for that human Heavenly Pride? Humph, I, Iron Battle, fear no one. Besides, I have ways to save my life. Even if I encounter a human six-star peerless Heavenly Pride, I'm confident in keeping myself alive. Moreover, this otherworldly space is only so big, and our clan's God-level powerhouses will soon arrive. Are we afraid of a single human Heavenly Pride?

Iron Battle Heavenly Pride said so.

I'll go out of the city with you! God Iron Long suggested.

No need, your strength isn't even comparable to mine. If we really encounter that human Heavenly Pride, you might even slow me down! Iron Battle Heavenly Pride didn't forget to mock.

Hearing this, God Iron Long felt uncomfortable as well.

Go if you want to! God Iron Long waved his sleeve and turned to leave, not caring about

Iron Battle Heavenly Pride.

In fact, he didn't believe Iron Battle Heavenly Pride would encounter any trouble.

Moreover, with Iron Battle Heavenly Prides occasional mockery, following him would only result in getting scolded, so it was better not to follow.

After God Iron Long left, Iron Battle Heavenly Pride stepped out of the grand city and transformed into a streak of light, flying high in the sky.

At the same time, his divine consciousness scanned the surroundings, searching for traces of the human Heavenly Pride.

However, he had no idea of the terrifying Heavenly Pride he was about to encounter!

#### Chapter 370: Divine Ability of the Metal Element, An Unexpected Gain

Iron Battle Heavenly Pride roamed this unique space in search of traces of human Heavenly Prides, and this matter quickly spread.

After all, the Iron Battle Heavenly Pride was too famous, and almost all the slightly stronger members of the Golden Armor race recognized him.

On the other side.

Ye Tian captured a Saint-level warrior of the Golden Armor race. He initially wanted to capture an Emperor-level Golden Armor being, but it seemed that the Emperor-level ones had received the news and all hid inside various cities. Since he dared not appear inside the cities, he could only target a Saint-level being.

However, this time he interrogated an important piece of intelligence from the mouth of this Saint-level Golden Armor being.

The Iron Battle Heavenly Pride of the Golden Armor race is looking for me.

Ye Tian was somewhat surprised.

His first thought was that it was a trap, but then he thought it unlikely.

The Golden Armor race had deployed God-level warriors; there was no need to use a Heavenly Pride as bait. Moreover, human Heavenly Prides entering this unique space were not here to assassinate Heavenly Prides of other races, so the notion of a trap did not exist at all.

That left only one possibility.

Do they want to kill me?

Heavenly Prides all had their pride. Ye Tian thought that perhaps the Iron Battle Heavenly Pride, having no opponents in this unique space, wanted to compete with other Heavenly Prides and thus came looking for him.

For Ye Tian, this was an opportunity.

If the Iron Battle Heavenly Pride had been in one of the giant cities, it would have been difficult for Ye Tian to find him. But now that he had come out, Ye Tian could capture him instantly, even before the God-level powerhouses could come to his aid.

With the status of the Iron Battle Heavenly Pride, he must know many more secrets than that Iron Mang.

Swoosh! Ye Tian also took action, starting to search for the Iron Battle Heavenly Pride.

Finding the Iron Battle Heavenly Pride was not difficult. The latter would search a certain area every few hours, and Ye Tian, using his Hypnosis Talent to gather intelligence, soon pinpointed the Iron Battle Heavenly Prides location.

Found him!

Ye Tians gaze turned towards the distance, where a young member of the Golden Armor race was standing in mid-air, his divine consciousness scanning the surroundings, with quite a few Golden Armor beings watching around.

This young man was the Iron Battle Heavenly Pride of the Golden Armor race! Soon, after the Iron Battle Heavenly Pride finished surveying this area, he prepared to leave.

And Ye Tian, after confirming through his Insight Eye Talent that there were no hidden God-level powerhouses in this area, only the Iron Battle Heavenly Pride was present.

Ye Tian disguised himself as a human, so as not to expose the secret of his Disguise Talent. Otherwise, if he transformed into the appearance of a Golden Armor being to capture the Iron Battle Heavenly Pride, even a fool would know he possessed the Disguise Talent.

Teleport!

Ye Tian instantly moved close to the Iron Battle Heavenly Pride.

Human Heavenly Pride!

Upon seeing Ye Tian, the Iron Battle Heavenly Pride was extremely excited, his body surging with the will to fight, ready to make a move.

At that moment.

Ye Tian executed the Super God-level palm technique Xumi Palm, pressing down with a palm.

Whoosh!

In just an instant, the Iron Battle Heavenly Pride was captured by Ye Tian and taken into the Xumi Realm within the Xumi Palm, completely trapped in the Xumi Realm.

Lets go!

Ye Tian teleported away, vanishing into the horizon.

At this moment.

The nearby Golden Armor beings started to panic.

Not good, the Iron Battle Heavenly Pride has been taken by a human!

How could this happen? That human is clearly only at the Emperor level, and the Iron Battle Heavenly Pride is a Heavenly Pride. How could he be captured so easily?

That person must be a peerless Heavenly Pride; he captured the Iron Battle Heavenly Pride!

Quick, inform the God-level masters!

Before long, one God-level powerhouse after another arrived.

The leader among them was the Golden Desolation God of the Golden Armor race, a very powerful God-level powerhouse. He was once a Heavenly Pride and later became a God-level powerhouse.

It could be said that he alone could sweep through all the other God-level members of the Golden Armor race.

The Iron Battle Heavenly Pride had life-saving means, yet he was captured.

The Golden Desolation God frowned, almost unable to believe the outcome.

Golden Desolation God, its probably because that persons methods are bizarre. The Iron Battle Heavenly Pride probably didnt even have time to activate his life-saving means before he was captured and taken away! another God-level being said.

Lets go, quickly return to our race and use the Iron Battle Heavenly Prides soul lamp for secret tracking. Otherwise, if were too late, his life will be in danger!

The Golden Desolation God said urgently.

Swoosh, swoosh, swoosh!

The God-level beings all flew towards the ancestral land of the Golden Armor race.

The life of the Iron Battle Heavenly Pride was too important; it was related to whether their race could escape this unique space. If the Iron Battle Heavenly Pride died, they were unsure if they could cultivate another five-star Heavenly Pride.

They must rescue the Iron Battle Heavenly Pride at all costs!

On the other hand,

Ye Tian casually entered a forest and then threw the Iron Battle Heavenly Pride out from the Xumi Realm. He severely injured the Iron Battle Heavenly Pride, and then Ye Tian directly forced him into hypnosis.

No!

The Iron Battle Heavenly Pride tried to resist Ye Tians hypnosis, but the difference in the strength of their souls was too great, and since he was seriously injured, he couldnt block Ye Tians Hypnosis Talent at all.

Soon, he was completely hypnotized.

Then, Ye Tian began to rapidly ask a series of questions.

He was very clear that he didnt have much time to interrogate. The Golden Armor race definitely had a way to find the Iron Battle Heavenly Pride. If he delayed even a little, and the God-level beings of the Golden Armor race arrived, he would be in big trouble.

The Iron Battle Heavenly Pride answered Ye Tians questions one by one, revealing everything while hypnotized.

Soon, Ye Tian had a complete understanding of the basic situation.

Firstly, the temple in the unique space of the Golden Armor race was special, containing many inheritances and treasures, but one needed to complete corresponding assessments. The assessments were not about fighting corpses or puppets but had bizarre requirements. Most of them were not dangerous, with only a very few being highly dangerous.

And one person only had one opportunity to enter the temple in their lifetime, similar to the rules of the temple in the unique space of the Moro race.

But what truly shocked Ye Tian was another piece of news: how the Golden Armor race birthed a Heavenly Pride, and a five-star Heavenly Pride at that. The temple contributed to this, but more so was the foundation of the Golden Armor race itself.

The Golden Armor race possessed a divine ability inheritance, specifically a metal element divine ability.

The Iron Battle Heavenly Pride had mastered this divine ability, combined with his high talent and the combat power from breaking through the seventeenth physical limit, becoming a five-star Heavenly Pride.

This metal element divine ability was named Golden Threads! The name Golden Threads might sound simple, but this metal element divine ability was anything but. According to what Ye Tian found out, this divine ability was probably even more terrifying than the Great Flame Extinguishing Hand.

Once the Golden Threads Divine Ability was activated, a thin golden thread would appear and instantly slice towards the enemy. Its speed was incredibly fast, and it was extremely sharp, capable of slicing even Heavenly Prides with astonishing defensive abilities in half in an instant.

Of course, the more powerful a divine ability, the harder it is to cultivate. It required not only a God-level metal element talent but also three metal element treasures. These three metal

element treasures were extremely precious, even more rare and unusual than Fire God Crystal, Fire Dragon God Stone, Million-Year Fire Spirit Marrow, and Seventh Order Strange Fire.

These three metal element treasures were Tiangang God Stone, Hell Refining God Stone, and Desolate Primordial Gold Stone. Ye Tian had never heard of these three treasures before. The Golden Armor race didn't possess them either. But coincidentally, these three items were inside that temple.

After generations of effort, the Golden Armor race finally obtained these three items from the temple. However, the only one who met the cultivation requirements and succeeded was the Iron Battle Heavenly Pride.

Not only that, but the Iron Battle Heavenly Pride had also cultivated this divine ability to the pinnacle of the introductory stage, just one step away from the minor achievement stage.

Unfortunately, he encountered Ye Tian, and his life would inevitably end today.

Tell me the cultivation method of the Golden Threads Divine Ability!

Ye Tian commanded.

There's a copy of the Golden Threads Divine Ability inheritance bead in my spatial ring!

The Iron Battle Heavenly Pride responded.

Immediately, Ye Tian had the Iron Battle Heavenly Pride take out the inheritance bead. After checking it and finding no restrictions, Ye Tian learned from the Iron Battle Heavenly Pride that he had also obtained a piece of Tiangang God Stone from the temple. As for the Hell Refining God Stone and Desolate Primordial Gold Stone, he didn't have them. The only Hell Refining God Stone and Desolate Primordial Gold Stone had been used up.

No good, I can't delay any longer!

Ye Tian immediately killed the Iron Battle Heavenly Pride, taking the piece of Tiangang God Stone. As for the other items, he didn't take them to avoid the risk of the Golden Armor race sensing any treasures, which would be problematic.

After all the Iron Battle Heavenly Pride, aside from the inheritance bead and the Tiangang God Stone, didnt possess anything of value that Ye Tian cared for.

After killing the Iron Battle Heavenly Pride, Ye Tian kept teleporting, and then disguised himself as an ordinary King-level Golden Armor being, pretending to practice his swordsmanship in a forest.
