Chapter 371: A Map, The World of Gold Laws

The Gods of the Golden Armor Clan arrived at the forest where Iron Battle Heavenly Pride had met his demise.

Upon seeing the corpse of the Iron Battle Heavenly Pride, a terrifying murderous intent erupted from the God-level warriors one after another.

Boom! The fluctuations of divine ability swept across, instantly turning the forest into ashes.

Human Heavenly Pride, I want you dead! roared Golden Desolation God, seething with rage.

The Iron Battle Heavenly Pride was the hope of their clan. Having been captured in this strange spatial dimension for countless years, generation after generation of their people had worked hard. They had finally seen a glimmer of hope, only for it to be shattered.

God Iron Long, you deserve to die for letting the Iron Battle Heavenly Pride leave! Golden Desolation God slammed his palm onto God Iron Long, sending him flying.

Of course, Golden Desolation God did not intend to kill; he merely inflicted severe injuries on God Iron Long. Otherwise, with Golden Desolation Gods strength, a single finger would have been enough to easily crush God Iron Long.

I was wrong, Golden Desolation God! God Iron Long regretted deeply. If he had known, he would have risked offending the Iron Battle Heavenly Pride and stopped him at all costs.

He had assumed that the Iron Battle Heavenly Pride, being stronger than him and a Five-Star Heavenly Pride, would be safe.

Moreover, the Iron Battle Heavenly Pride had various means to save his life; he should not have died so easily! But unexpectedly, the enemy was so powerful that the Iron Battle Heavenly Pride had no chance to resist.

Quickly find that human Heavenly Pride. Once we find him, I want his body torn to pieces!
Golden Desolation God bellowed.

Yes! the other Gods responded in unison.

Unfortunately, they were doomed not to find Ye Tians presence, unless they gathered all members of the Golden Armor Clan and checked them one by one.

Ensuring that no member of the Golden Armor Clan was outside their city would be impractical, as many were undergoing trials in various places. Bringing them all back to the city would take a long time.

Hence, this method was virtually impossible.

Moreover, these Gods did not anticipate that Ye Tian possessed a talent for disguise.

They simply thought that Ye Tian was hiding well in a hard-to-find place, nothing more.

Not only did the Gods of the Golden Armor Clan mobilize to search for Ye Tian, but they also dispatched a large number of emperors. Although this might result in significant losses among the emperors, the Golden Armor Clan had completely lost its sanity.

Meanwhile, Ye Tian headed towards the temple in this strange spatial dimension.

As for whether he could successfully enter the temple, he could not be sure.

But it was worth a try! Soon, he arrived at the temple of the Golden Armor Clans spatial dimension, which was surrounded by a city.

To enter the temple, one had to get inside the city, and the city was also protected by a bloodline detection formation.

Immediately, Ye Tian phased into the spatial dimension and sneaked into the city.

Once in the spatial dimension, the formations could not affect Ye Tian, but as soon as he emerged from the space, he would be detected by the formations.

Ye Tian had been in the spatial dimension for quite some time, so he was not worried.

Moreover, this time he planned to approach the temple and then enter it in an instant, even Gods would not be able to react in time.

Soon, Ye Tian approached the temple.

There were many guards around the temple, including emperor-level members of the Golden Armor Clan.

Swoosh! Ye Tian emerged from the spatial dimension.

The next moment, he rushed into the temple.

Despite his speed, he was still spotted by other members of the Golden Armor Clan.

Immediately, the incident caused a great stir and was reported to the Gods.

Inside the temple.

After entering, Ye Tian quickly found an orb.

This orb was no ordinary object; when Ye Tian approached it, a voice emerged from the orb.

Examinee, what reward do you desire? Please choose.

Ye Tian responded, I want the Hell Refining God Stone and the Desolate Primordial Gold Stone.

The Hell Refining God Stone and the Desolate Primordial Gold Stone were two essential treasures for cultivating the Golden Silk Divine Ability of the gold element.

Once he obtained the Hell Refining God Stone and the Desolate Primordial Gold Stone, he would have all three gold element treasures needed to cultivate the Golden Silk Divine Ability.

The orb voiced again, The examinees request has been approved. The examinee needs to complete the two highest difficulty assessments to obtain the Hell Refining God Stone and the Desolate Primordial Gold Stone.

Should any assessment fail, the reward cannot be obtained.

Ye Tian was already aware of the rules stated by the orb.

He had previously interrogated Iron Battle Heavenly Pride and learned about the rules of this temple from him.

Under normal circumstances, a person entering the temple could only obtain one treasure or one inheritance.

If one wished to obtain two treasures and two inheritances, it was possible, but they had to complete two assessments, and both assessments were extremely difficult. That is why almost no one chose two treasures, as the likelihood of failure was too high.

Choosing a single treasure might still allow one to complete the assessment and obtain the reward.

But Ye Tian did not want to miss this opportunity; he wanted to obtain the Hell Refining God Stone and the Desolate Primordial Gold Stone in one go.

By doing so, he could then cultivate the Golden Silk Divine Ability.

Confirm the assessment! Ye Tian said.

The voice of the orb appeared again: The first assessment is to perfectly replicate a map within one day!

What kind of assessment is this? Ye Tian was puzzled and somewhat confused.

Whoosh! A pulling force came, and Ye Tian was sucked into a strange space without resistance.

In this unfamiliar space, Ye Tian saw a map about three meters long and one meter wide. This map was very strange, with irregular patterns on it.

It didn't quite look like a painting, nor did it resemble the patterns of a formation.

In short, the map was very peculiar.

Normally, drawing a map should be quite simple; what kind of assessment was this? Moreover, the orb had mentioned that both assessments were of the highest difficulty.

Yet, drawing a map was considered the highest level of assessment? Ye Tian didn't think too much and began to replicate the map in the void.

Swoosh, swoosh, swoosh!

In the blink of an eye, Ye Tian had drawn an identical map.

But the assessment did not end, and he was still in this space.

Clearly, he had failed! It seems it's not as simple as just replicating this map!

Ye Tian pondered deeply.

He then began to extend his divine consciousness into the map, trying to comprehend its profound mysteries.

As soon as his divine consciousness touched the map, everything changed dramatically.

Boom! In Ye Tians eyes, the world within the map transformed into something else, as if it had become a world governed by laws.

The world of Gold Laws! Ye Tian was astonished.

This world of Gold Laws, although the Gold Laws contained within were very faint, were not something an ordinary person could mimic.

Therefore, to replicate this map, one must fully comprehend these Gold Laws.

The purpose wasnt to draw the map; the real goal was to comprehend the Gold Laws contained within it.

If one couldnt comprehend the Gold Laws within the map, naturally, they wouldnt be able to replicate it, and the assessment would be failed.

Top-tier Comprehension Talent, activate! Ye Tians comprehension instantly increased by twentyfold.

He then began to delve into the Gold Laws contained in the map, understanding its profound essence.

Time slowly passed.

One-tenth! Two-tenths! Three-tenths! Ye Tians comprehension of the map deepened, and in just half a day, he had grasped seventy percent.

Even so, Ye Tian was deeply amazed by the difficulty of this assessment.

Without the assistance of the top-tier Comprehension Talent, he could only rely on the Time Talent. But if neither the top-tier Comprehension Talent nor the Time Talent were activated, Ye Tian couldnt complete the assessment on his own! No wonder such an assessment was considered the highest difficulty.

Eighty percent! Ninety percent! After spending most of the day, Ye Tian finally fully comprehended the map.

Then, Ye Tian began to replicate the map once again.

While drawing, he fully integrated the Gold Laws into the map.

When he finished drawing the map, a voice descended: Congratulations to the examinee for completing the first assessment. Now, proceed to the second assessment.

Chapter 372: The Sudden Inheritance Assessment

Ye Tian was once again transported to a different space.

With a thunderous rumble, a terrifying figure appeared. This figure had no aura of a living being, yet it wasn't a corpse either.

It resembled a human but was more akin to a spiritual entity.

This is an illusory consciousness! Ye Tian discerned.

It was similar to the virtual consciousness in a virtual world, fictitious and not a real creature.

However, this space was unique, which allowed for the formation of such a consciousness.

If Ye Tian were to be killed by this consciousness, he would likewise perish.

Defeat the opponent to pass the second barrier! A voice announced.

Defeating this consciousness was Ye Tian's assessment. Should he fail, the consequences were imaginable.

The first assessment posed no danger, but this second one was perilous.

Ye Tian could sense that the aura of this consciousness was terrifying, comparable to the most exceptional of the heavenly prides, but its true strength could only be determined through combat.

Whoosh! The consciousness moved its finger, and a golden thread swept towards him.

This attack

Ye Tian was slightly startled but quickly dodged.

Along its path, the space was sliced open, leaving behind a black line.

At this moment, Ye Tian was puzzled. This attack resembled the Golden Thread Divine Ability, but wasn't that a secret technique of the Golden Armor Clan? How could the consciousness in this temple possess the Golden Thread Divine Ability? Soon, Ye Tian gauged the true strength of this consciousness, roughly equivalent to a six-star pinnacle among the heavenly prides. Even the Dark Slaughter Heavenly Pride would not be its match.

Die!

Ye Tian wielded his blade and unleashed a ghostly slash.

With a splatter, the consciousness was slain by Ye Tian and instantly dissipated.

Killing this consciousness was not difficult for Ye Tian, but he was still pondering over the Golden Thread Divine Ability.

Could it be that the Golden Thread Divine Ability wasn't originally from the Golden Armor Clan but was acquired by their ancestors from this temple, and then shamelessly claimed as their own to be passed down?

This possibility was highly likely. Firstly, the temple contained the Tiangang God Stone, Hell Refining God Stone, and Desolate Primordial Gold Stone, essential for the Golden Thread

Divine Ability. Although the temple housed many treasures, they couldn't have been created out of thin air and must have been placed by an ancient deity long ago.

Even with countless treasures from that ancient deity, it was too coincidental to have the exact three needed by the Golden Armor Clan. It was plausible that the Golden Thread Divine Ability originated from the temple, which also contained the necessary golden treasures.

With this realization, things made sense! Having slain the consciousness, Ye Tian naturally passed the second assessment.

Whoosh! He was transported back to the main hall of the temple, where the initial orb reappeared.

Suddenly, two treasures materialized before him: the Hell Refining God Stone and the Desolate Primordial Gold Stone.

Swiftly, Ye Tian stored these treasures in his portable void to prevent any mishaps.

Now, with the Golden Thread Divine Ability and the three golden treasures, coupled with his god-level golden talent, Ye Tian met the requirements for cultivating the Golden Thread Divine Ability.

He could now begin cultivating the Golden Thread Divine Ability! Instead of leaving the temple, Ye Tian started to delve into the Golden Thread Divine Ability.

The cultivation method of the Golden Thread Divine Ability was unique. It involved grinding the Tiangang God Stone, Hell Refining God Stone, and Desolate Primordial Gold Stone into powder, blending them in a special way, applying the mixture to the body, and then using the refining method from the Golden Thread Divine Ability to integrate the powder with the body, imprinting the divine ability's mark.

Previously, Ye Tian hadn't thoroughly studied the Golden Thread Divine Ability. Now, upon closer inspection, he discovered something incredible.

The refining method of the Golden Thread Divine Ability involved inscribing patterns on the body, essentially etching law patterns, with the three golden treasures powder serving as the foundation for these patterns.

These law patterns resembled the diagram from the first assessment but weren't identical.

The first assessment seems related to the Golden Thread Divine Ability, but what exactly is the connection?

Ye Tian frowned, puzzled.

However, having fully comprehended the diagram from the first assessment, Ye Tian found it relatively easy to grasp the law patterns of the Golden Thread Divine Ability, despite some differences.

In just half a day, Ye Tian had fully mastered the refining and cultivation methods of the Golden Thread Divine Ability.

According to his estimation, once he mastered these methods, he could quickly cultivate the Golden Thread Divine Ability, without the lengthy process required for the Great Flame Extinguishing Hand.

The Tiangang God Stone, Hell Refining God Stone, and Desolate Primordial Gold Stone, despite their incredible durability, also tended to be brittle. Using his full strength along with the Divine Claw Ripping technique, a god-level claw skill, Ye Tian crushed the three golden treasures into powder over several hours.

Finally, Ye Tian mixed the three types of powder with spirit water in a special ratio. This so-called spirit water was formed by the gathering of the yuan qi of heaven and earth, and creating it was not difficult for an emperor-level cultivator.

After everything was prepared, Ye Tian applied the viscous mixture resulting from the fusion of the three powders onto his chest.

Begin the cultivation! Seated in a lotus position, Ye Tian activated the refining method of the Golden Thread Divine Ability.

Suddenly, golden law patterns appeared in the void, forming a special design that enveloped him, covering the skin on his chest. The viscous substance slowly merged with the golden law patterns, permanently imprinting onto Ye Tians body, becoming a part of him.

At the same time, the divine ability mark of the Golden Thread Divine Ability began to slowly form on Ye Tians chest.

One day! Two days! Three days! On the fourth day, Ye Tian finally formed the divine ability mark and successfully cultivated the Golden Thread Divine Ability.

Phew, its a success! Ye Tian smiled.

Suddenly, a terrifying suction force pulled him into a certain space within the temple.

An unknown dark space.

The assessor has been detected as a human who has cultivated the ordinary divine ability, the Golden Thread Divine Ability. The inheritance assessment is now initiated!

The inheritance assessment begins! A new diagram appeared before Ye Tian, similar to the previous one but depicting an entirely different set of golden laws.

Complete this diagram within three days to pass the first part of the inheritance assessment! The voice sounded again.

For other heavenly prides, three days would undoubtedly be challenging, but not for Ye Tian.

Immediately, Ye Tian activated his top-tier comprehension talent. As for his time talent, he chose not to use it, feeling confident in completing the assessment with his comprehension talent alone.

Under a twentyfold increase in comprehension, Ye Tian began to understand and permeate the golden laws depicted in the diagram with his own insight.

In just one day, Ye Tian had fully comprehended the diagram.

Only with my top-tier comprehension talent could I understand this diagram in one day. If it were the Iron Battle Heavenly Pride, even transformed into a human, he wouldn't be able to pass the assessment, Ye Tian thought.

Then, Ye Tian began to draw the diagram, easily completing the task and passing the assessment.

The first part of the assessment is successful. The second part of the inheritance assessment begins! As soon as the voice faded, another diagram appeared.

This new diagram was different from the previous one but clearly belonged to the same series.

This time, the inheritance assessment allowed five days.

Ye Tian, using his top-tier comprehension talent, completed it in two days.

Then, a third diagram appeared! The time given for this third diagram was six days, but Ye Tian took three days to complete the assessment.

The fourth diagram, the fifth diagram, the sixth diagram Ye Tian wasn't sure how many there were in total, but he continued with the assessments, hoping to complete the so-called inheritance assessment as soon as possible.

Finally, the ninth diagram appeared, with a time requirement of twenty days, and this time Ye Tian frowned.

This diagram was more complex, containing deeper and more profound golden laws.

Just relying on my top-tier comprehension talent might not be enough for twenty days! Ye Tian was genuinely impressed by the ancient deity who set up the assessment. It seemed deliberately designed to be nearly impossible to pass. Even with his top-tier comprehension talent, it was a struggle. How could others pass? I have no choice but to activate my time talent!

Deciding, Ye Tian effortlessly completed the assessment after activating his time talent, successfully drawing the diagram.

In total, there were nine diagrams, plus the one drawn earlier, making ten diagrams in total.

Congratulations to the assessee for completing the inheritance assessment! Hearing this, Ye Tian laughed excitedly and also breathed a sigh of relief.

He had spent a lot of time here and was genuinely worried that the assessments might never end.

Ye Tian was very much looking forward to what rewards completing the inheritance assessment would bring.

Chapter 373: A Peerless Heavenly Pride from the Andromeda Galaxy

Suddenly, a picture appeared in the void, not an illusory one, but a tangible scroll, placed in front of Ye Tian.

Ye Tian picked up the scroll and looked at it carefully, only to discover that this picture was related to the ten pictures of the assessment.

To be precise, this picture perfectly integrated the previous ten pictures into a method of cultivation linkage.

Of course, there were some additional elements on this picture.

Phantom Gold Thread Divine Ability!

Ye Tian was astonished as he looked at the method of cultivation linkage recorded on the picture.

Soon, he understood the reason behind it.

The Phantom Gold Thread Divine Ability and the Gold Thread Divine Ability were of the same lineage, to be exact, the Gold Thread Divine Ability was the foundational divine ability of the Phantom Gold Thread Divine Ability.

However, the Phantom Gold Thread Divine Ability was extremely difficult to link and required high qualifications. Therefore, the ancient god deduced the Gold Thread Divine Ability from it, but its was much weaker than that of the Phantom Gold Thread Divine Ability.

The Phantom Gold Thread Divine Ability was one of the top divine abilities! But what shocked Ye Tian the most was that the Phantom Gold Thread Divine Ability was part of a great divine ability, which contained the Five Elements, and the Phantom Gold Thread Divine Ability was the gold element aspect of it.

The five top divine abilities could be merged into one great divine ability!

I happen to have the Five Elements Transformation talent, which qualifies me to cultivate the Five Elements Great Divine Ability!

Ye Tian was filled with excitement.

A great divine ability! That was a level above a divine ability! One divine ability was already a great help to Ye Tian, let alone cultivating a great divine ability. Wouldnt that be even more heaven-defying?

I wonder if this ancient god has the complete Five Elements Great Divine Ability.

Ye Tian thought to himself.

Regardless, he had now obtained the Phantom Gold Thread Divine Ability, which was a significant gain.

He briefly checked and found that he was not yet able to cultivate the Phantom Gold Thread Divine Ability, as this divine ability required seven rare gold elemental treasures, and he had already mastered the Gold Thread Divine Ability, theoretically needing only the other four treasures.

However, Ye Tian currently did not possess any of the four materials.

These four materials were the Void Tears, Spirit Qilin Crystal, the heart blood of a high-level gold elemental divine beast, and the essence of a ten million-year-old Kongdong Stone.

From their names, one could tell how rare these four materials were, not easily obtainable.

And now, Ye Tian could no longer obtain treasures from the temple assessment and could only hope to obtain these four treasures later.

At this moment.

Ye Tian was transported out of the temple.

In fact, he had long passed the time to leave the temple, even to leave the alternate space, but he had unexpectedly met the requirements for the divine ability inheritance assessment, which is why he was forcibly arranged to undergo the assessment.

Now that the assessment was over, Ye Tian naturally could not stay inside the temple any longer.

Outside the temple.

The Golden Armor Clan did not station many powerful beings at the temple entrance, not even God level powerhouses.

Initially, there might have been God level powerhouses who doubted the identity of the person who entered the temple, but now, after two or three months, they almost all believed that he had perished inside the temple.

After all, no one could stay in the temple for a long time, and external heavenly prides could not stay in the alternate space for a long time either, so they all believed that the human heavenly pride who had killed the Iron Battle Heavenly Pride had long gone.

Therefore, no one paid attention to the situation of the temple.

Suddenly.

Ye Tian appeared at the entrance of the temple, which attracted the attention of many of the Golden Armor Clan.

But before they could react, he disappeared, leaving the alternate space.

Swoosh, swoosh, swoosh!

A God level powerhouse landed in front of the temple from various directions.

Lord Golden Desolation God, a human just came out of the temple! said one of the imperial level members of the Golden Armor Clan.

Because Ye Tian had not used his disguise talent just then and appeared as a human.

So these members of the Golden Armor Clan recognized him.

A human came out of the temple?

Golden Desolation God was initially puzzled, but then he remembered the mysterious clan member who had entered the temple a few months ago, and he immediately connected the dots.

It was clear that the clansman was the human heavenly pride in disguise.

No wonder we've been unable to find the human heavenly pride for so long. It turns out that this human possesses the talent for disguise! Golden Desolation God was furious.

However, he was also very puzzled as to how Ye Tian could stay in the temple for two to three months, which was a violation of the rules! The other Gods were also very puzzled and couldn't understand it.

This incident became an unsolved case for the Golden Armor Clan!

On a stone step of the Ancient God Ruins.

Ye Tians figure appeared here!

Im out! Ye Tian murmured.

In the Golden Armor Clans alternate space, he had gained a lot, but he had also stayed for a long time.

However, he had received the inheritance of the Phantom Gold Thread Divine Ability, which was incredibly valuable.

Immediately after, Ye Tian continued forward.

Before long, he encountered many killing formations, illusionary formations, and trapping formations, but with Ye Tians eight-star peerless heavenly pride combat power, he easily passed through them.

In the blink of an eye, half a year had passed.

During this half year, Ye Tian had entered many alternate spaces. Some of these alternate spaces were indeed very dangerous, and each one indeed had a temple, but not all temples allowed one to freely choose rewards. Ye Tian only encountered one such temple afterwards.

He sneaked into that temple and chose the Void Tears as his reward, because that temple did not have the other three treasures, only the Void Tears.

Fortunately, he passed the assessment and obtained the Void Tears.

Apart from the Void Tears, Ye Tian also gained many treasures, such as three techniques for physical body cultivation. Though they were not very advanced and could at most enhance the cultivation speed by 14 times, they were still invaluable.

One was suitable for warriors with ice-based talents to cultivate.

One was suitable for warriors with light-based talents to cultivate.

And one was suitable for warriors with fire-based talents to cultivate.

If he included the unnamed physical body cultivation technique, Ye Tian now had four physical body cultivation techniques. Even the top forces in the Milky Way might not have as many physical body cultivation techniques as him.

Additionally, Ye Tian obtained many cultivation resources, but the gains decreased as he progressed.

Because the deeper he went into the alternate spaces, the more terrifying the strength of the alien races inside. Some alternate spaces had very few living beings, just a few dozen aliens, but each one was extremely formidable, forcing Ye Tian to disguise himself as an ordinary fierce beast and hide for ten days before leaving the alternate space.

Therefore, Ye Tian hardly gained anything in the later alternate spaces.

One day.

Ye Tian finally reached the end of the stone steps and came to the front of the Ancient God Ruins.

The doors of the Ancient God Ruins were open, and Ye Tian stepped into the Ancient God Ruins.

Upon entering the Ancient God Ruins, he came to an immensely vast hall.

Around the hall were numerous statues and stone paintings, each statue exuding a sense of vicissitude, and the stone paintings recorded many deeds.

But what caught Ye Tians attention upon entering the Ancient God Ruins were not these statues and stone paintings, but the few people standing in the hall.

Three heavenly prides! Ye Tian frowned.

Logically, with so many alternate spaces, even a six-star peerless heavenly pride wouldnt be able to pass through them all. He was an eight-star heavenly pride and, with many life-saving methods, had barely managed to reach the Ancient God Ruins.

How did these three heavenly prides get here through their strength? He did not believe that these three heavenly prides possessed the combat power of eight or nine-star peerless heavenly prides!

Who are you to have also arrived here? one of the heavenly prides asked curiously.

Heavenly Pride of Ten Thousand Laws, and you? Ye Tian asked.

Youre Heavenly Pride of Ten Thousand Laws? another heavenly pride exclaimed in surprise, I am Scorpio Heavenly Pride!

Immediately, Scorpio Heavenly Pride respectfully introduced the other two heavenly prides: These two are Hong Yang Heavenly Pride and Lie Jun Heavenly Pride from the Andromeda Galaxy, they are among the top of the six-star peerless heavenly prides!

Scorpio Heavenly Pride! Its him! Ye Tian recognized him immediately.

Scorpio Heavenly Pride was the one who had obtained the physical body cultivation technique before but was chased by the three peerless heavenly prides of the Milky Way, even chased to other galaxies, and had only recently returned to the Milky Way.

Previously, he didnt know why those three heavenly prides had given up the chase, but now he understood.

So, he made acquaintances with two peerless heavenly prides from the Andromeda Galaxy! Ye Tian realized.

The Andromeda Galaxy, like the Milky Way, was a galaxy. Rumor had it that the Andromeda Galaxy was even larger and more prosperous than the Milky Way, with more powerful beings.

With two six-star peerless heavenly prides protecting Scorpio Heavenly Pride, the other three peerless heavenly prides of the Milky Way wouldnt dare to make a move and had to give up the chase.

But as for how Scorpio Heavenly Pride and the other two got to the Ancient God Ruins, he didnt know, but they definitely didnt come here step by step like he did.

Chapter 374: Instantly Defeating the Strange Bird Statue with a Single Slash

I never expected that someone from your Milky Way would actually have obtained the token of the Dark Star Demon God! Lie Jun Heavenly Pride stared at Ye Tian, expressing his surprise.

Token, what token? Ye Tian frowned and asked curiously.

Dont play dumb. Without the token, could you have directly passed through so many traps to arrive at the Ancient God Ruins? Lie Jun Heavenly Pride said.

Hearing this, Ye Tian immediately understood. Lie Jun Heavenly Pride and the others possessed a token, which prevented them from being sucked into formations and different spaces, allowing them to easily reach the Ancient God Ruins. They assumed Ye Tian didnt have the strength to make it through on his own, hence they thought he had come with a token.

Unfortunately, they were mistaken! Of course, Ye Tian didnt explain.

Why are you still lingering in the main hall? Isnt there a passage over there? Why not go in? Ye Tian asked.

Looking puzzled at Ye Tian, Lie Jun Heavenly Pride said, Could it be that you were lucky enough to obtain the token and know nothing about the Dark Star Demon Gods temple?

Not a clue! Ye Tian responded truthfully.

Well, since we cant enter now I might as well tell you. The Dark Star Demon God was quite a powerful deity among the Galaxy Gods in the ancient era. However he was not a benevolent one. He liked to conduct research and even captured the Heavenly Prides of various races, offending many forces.

He often conducted research, hence he built temples in many galaxies.

This relic in the Milky Way is just one of his ancient temple ruins, but it also contains many good items.

After all, anything a galaxy-level powerhouse discards as trash is a treasured artifact we greatly desire.

But the Dark Star Demon God had a peculiar temperament. While his ruins do contain many treasures, they are extremely dangerous. Only the most powerful Heavenly Prides could survive, let alone gain something.

And to obtain what he left behind, one must meet certain conditions!

For example, to enter that passage in the Dark Star Demon Gods temple, you must face that strange bird!

Lie Jun Heavenly Pride pointed at the strange bird statue at the entrance of the passage.

To enter the passage, one must bypass the strange bird statue.

A statue of a bird is stopping you? Ye Tian was puzzled.

Unable to hold back, Hong Yang Heavenly Pride said, You lack experience and cant recognize the origin of this statue. Let me explain to avoid any rash actions that could cost you your life.

This strange bird statue may seem like a mere statue, but its not. Its a stone puppet, crafted by merging a living soul with the statue using special methods. This stone puppet is very powerful. I tested it once and was severely injured by just one move.

Its strength is probably comparable to that of a seven-star Heavenly Pride. It took me a long time to recover from the injury, and I still havent figured out how to get past it!

A strange bird statue with the power of a seven-star peerless Heavenly Pride!!! Ye Tian was truly astonished. The methods of the so-called Dark Star Demon God were indeed eerie, to be able to create such a strange bird statue.

Through the conversation with these two Heavenly Prides from the Andromeda Galaxy, Ye Tian learned many secrets.

For instance, the realm above the Great God level was the planetary level, and above that is the galaxy level.

The Dark Star Demon God was a Galaxy God who traversed countless galaxies, making him a renowned deity among humanity. Unfortunately, something happened in the past, and the Dark Star Demon God fell, leaving behind many relics.

A relic of a galaxy-level powerhouse, even if its just a minor one among many, is a rare opportunity.

If one could obtain the inheritance of a galaxy-level powerhouse, it would be a complete rise to power.

However, given the Dark Star Demon Gods nature, although he left behind many benefits, its unlikely he left his entire lifes inheritance. So, one shouldnt expect to obtain the Dark Star Demon Gods complete inheritance.

Lie Jun Heavenly Pride and Hong Yang Heavenly Pride obtained the Dark Star Demon Gods token and heard about a relic of his in the Milky Way. They came here hoping to gain some benefits to advance to the seven-star Heavenly Pride level.

Unexpectedly, they were stopped by just a strange bird statue.

Heavenly Pride of Ten Thousand Laws, do you have any way to bypass this strange bird statue? Lie Jun Heavenly Pride asked.

After hearing so much from them, Ye Tian decided to let them follow him in. So, he said, Of course, theres a way. You three, follow me!

With that, Ye Tian walked towards the entrance of the passage.

Heavenly Pride of Ten Thousand Laws, are you just going to walk over like that? Scorpio Heavenly Prides pupils constricted.

In his view, the Heavenly Pride of Ten Thousand Laws was merely a newcomer to the six-star peerless Heavenly Pride level. If he were to just walk over like that, he might be instantly killed by the strange bird statue puppet in one move.

But the three of them still followed, keeping their distance from the strange bird statue, but ready to rush through if Ye Tian truly had a way.

Without a word, Ye Tian walked straight up to the strange bird statue.

At that moment, the strange bird statue moved, slashing with a wing at an incredibly fast speed! The wing of the strange bird statue was fast, but Ye Tians blade was faster.

Phantom God Blade Technique!

An extremely fast slash struck the wing of the strange bird statue first.

With a thunderous crash, the entire strange bird statue collapsed, and Ye Tian seized the opportunity to fly into the passage.

The three Heavenly Prides behind him were stunned! Ye Tian had killed the strange bird statue with a single slash, what kind of power was that? But they quickly snapped out of it, realizing now was not the time to be dumbfounded, and swiftly flew into the passage as well.

At this time, the fragments of the strange bird statue disappeared, and a statue appeared instantly at the entrance of the passage, replacing the previous strange bird statue.

Everything returned to calm.

Thank you, Heavenly Pride of Ten Thousand Laws!

Lie Jun Heavenly Pride, Hong Yang Heavenly Pride, and Scorpio Heavenly Pride expressed their gratitude with clasped fists.

At this moment, they held profound respect for Ye Tian.

From that one slash earlier, it was clear that Ye Tians strength was definitely that of a seven-star peerless Heavenly Pride. Even among the seven-star peerless Heavenly Prides, he probably belonged to the top-tier, or he wouldnt have been able to kill the strange bird statue puppet with a single slash.

If previously Lie Jun Heavenly Pride and Hong Yang Heavenly Pride looked down on Ye Tian from the Milky Way, now they dared not harbor such thoughts.

Respect was all they had.

After all, that was a seven-star peerless Heavenly Pride, and even in the Andromeda Galaxy, there werent many seven-star Heavenly Prides. Their ultimate goal was also just to become seven-star peerless Heavenly Prides, and once they reached that level, they would probably aim to challenge the God level.

No need to be polite, lets move forward! Ye Tian said.

The group continued along the passage and soon arrived at another hall.

Here, an artifact spirit appeared before the four of them.

Examiners, congratulations on reaching the Dark Star Demon Gods Temple. I am the artifact spirit of the Dark Star Demon Gods Temple.

According to the rules left by the master, human Heavenly Prides who enter the Dark Star Demon Gods Temple only need to challenge the Dark Star Demon God Tower to have a chance to gain certain fortunes.

Each person has only one chance, and once they fail, they must leave the Dark Star Demon Gods Temple! the artifact spirit said.

As expected, its about challenging the Dark Star Demon God Tower. I hope I can make it through the second level! Lie Jun Heavenly Pride whispered.

One by one, Lie Jun Heavenly Pride and the others chose to challenge the Dark Star Demon God Tower and disappeared.

Challenge! Ye Tian muttered to himself and also arrived at the first level of the Dark Star Demon God Tower.

At this time, Ye Tian heard a reminder from the artifact spirit, The opponent you are about to face comes from a past six-star peerless Heavenly Pride. The master once fought with this Heavenly Pride and later perfectly created him in a virtual state.

An ancient eras Heavenly Pride, huh! Ye Tian murmured, his heart, however, not stirring much.

Just a mere six-star Heavenly Pride, he didnt take it seriously at all.

Whoosh! A young man dressed in a black robe wielding a spear appeared out of nothingness, staring directly at Ye Tian.

The battle began!

Boom!!!

The young man unleashed a Super God-level spear technique, piercing with a thrust.

Spatial Imprisonment!

Ghost Blade!

With a swish, Ye Tian effortlessly decapitated his opponent, passing the first challenge.

At this time, the artifact spirit appeared and said, Examinee, you have passed the first challenge of the Dark Star Demon God Tower. Please choose your reward method, treasures or cultivation secret techniques

Artifact spirit, I want to know if the Dark Star Demon God Tower possesses the Great Divine Abilities of the Five Elements, Ye Tian asked.

He knew from before that artifact spirits were sentient and had certain emotions, but he wasn't sure if this artifact spirit would answer him.

Chapter 375: Gathering the Materials

Examinee, you have obtained the Phantom Gold Thread Divine Ability, so I'll make an exception and tell you. The Five Elements Divine Ability is extremely rare, even the master did not obtain the complete Five Elements Divine Ability. Besides the Phantom Gold Thread Divine Ability, the other four abilities are missing. There are only some rumors, but so many years have passed, those rumors have become useless! You should not hold out hope! The artifact spirit said.

Ye Tian showed a look of disappointment. He had thought that he could obtain the Five Elements Divine Ability in the Dark Star Demon God Temple. It seems that even for galaxy-level powerhouses, Great Divine Abilities were very rare and hard to come by.

Spirit Qilin Crystal, the heart blood of a high-level gold elemental divine beast, and the essence of a ten million-year-old Kongdong Stone: can I obtain them as rewards in the first layer? Ye Tian asked.

No!

The artifact spirit said, The heart blood of a high-level gold elemental divine beast can be obtained as a reward in the second level. The Spirit Qilin Crystal requires the third level's reward, and as for the ten million-year-old Kongdong Stone essence, it requires the fourth level's reward!

The Spirit Qilin Crystal and the ten million-year-old Kongdong Stone essence are so precious!

Ye Tian was quite surprised. He had thought that these items would be of similar value.

Since he couldn't obtain those items as rewards in the first layer, and probably couldn't obtain any good inheritances either, it might be better to choose items as rewards.

I choose the item rewards!

Ye Tian said.

Whoosh! A large number of item illusions appeared in Ye Tian's sight.

The artifact spirit pointed at these items and said, Choose any one of the rewards!

After looking for a while, Ye Tian did not find any particularly good items. Almost none of them were of much use to him, as he was now an eight-star peerless Heavenly Pride, and items useful to him were extremely rare.

In the end, he chose an itemMoon God Heart!

The Moon God Heart was an item that could assist in cultivation, containing extremely terrifying moon power. For someone like the Empress Yue who possessed moon power, this Moon God Heart could be of great help.

Although the Empress Yue had already broken through her sixteenth bodily limit, with this Moon God Heart, there was a chance she could break through the seventeenth limit in the future.

Therefore, Ye Tian chose this Moon God Heart, planning to give it to his wife, the Empress Yue, once he returned to the Silver Universe Star.

After choosing the reward, whoosh! The Moon God Heart appeared in front of Ye Tian. He placed it in a jade box and stored it in his personal Xumi Realm.

Having passed the first level, Ye Tian applied to challenge the second level of the Dark Star Demon God Tower.

In the second level of the Dark Star Demon God Tower, Ye Tian encountered another Heavenly Pride.

This Heavenly Pride was a female, but her strength was comparable to the very top six-star peerless Heavenly Prides.

Similarly, Ye Tian easily defeated her, passing the second level.

The artifact spirit appeared again, offering Ye Tian a choice of rewards.

I choose the item rewards!

Soon, a myriad of item illusions appeared, and Ye Tian quickly found the heart blood of a high-level gold elemental divine beast.

Divine beasts refer to fierce beasts with strength above the God level. Low-grade divine beasts have God-level strength, mid-grade divine beasts have True God-level strength, and high-grade divine beasts have Great God-level strength.

In other words, the heart blood of a high-level gold elemental divine beast was from a Great God-level golden divine beast. To take the hearts blood of a Great God-level divine beast meant defeating it.

Therefore, the heart blood of a high-level gold elemental divine beast was also a very rare and precious item.

Ye Tian chose the heart blood of a high-level gold elemental divine beast and successfully obtained this item.

Next, Ye Tian went to challenge the third level of the Dark Star Demon God Tower.

The Heavenly Pride of the third level was a seven-star peerless Heavenly Pride, and even among the seven-star peerless Heavenly Prides, she was not weak. However, she stood no chance against Ye Tian, an eight-star peerless Heavenly Pride, and was easily slain by Ye Tian.

In the third levels rewards, Ye Tian also chose an item and obtained the Spirit Qilin Crystal.

At this point, Ye Tian was only missing one itemthe ten million-year-old Kongdong Stone essence.

As long as he passed the fourth level, he could obtain the ten million-year-old Kongdong Stone essence.

By then, all the materials would be gathered, and his strength could be significantly enhanced.

Challenge the fourth level!

Ye Tian arrived at the fourth level, where a gigantic Heavenly Pride appeared, at least 20 meters tall. This opponent was not of the human race, as humans were not generally that tall.

At this moment, the Heavenly Pride held a giant hammer, with a terrifying aura spreading all around.

Soon, Ye Tian engaged in battle with his opponent and quickly assessed his strengtha top-tier seven-star Heavenly Pride! Ye Tian, now an eight-star Heavenly Pride, swiftly defeated this Heavenly Pride, successfully passing the fourth level.

Victory achieved!

At this moment, the artifact spirit appeared, congratulating Ye Tian.

Then, Ye Tian obtained the ten million-year-old Kongdong Stone essence as a reward for the fourth level.

It could be said that Ye Tian had now gathered all the materials needed to cultivate the Phantom Gold Thread Divine Ability and could attempt to cultivate it.

But he wanted to challenge the fifth level.

Artifact Spirit, I want to challenge the fifth level!

Ye Tian declared.

Whoosh! Ye Tian arrived at the fifth level of the Dark Star Demon God Tower.

At that moment, a terrifying figure shrouded in darkness appeared, with two horns on its head and fangs, its face resembling that of a demon.

This was an eight-star peerless Heavenly Pride!

An eight-star peerless Heavenly Pride, I must give it my all! Ye Tian stated solemnly.

He too was an eight-star peerless Heavenly Pride. He was not considered strong among his peers, so it was uncertain if he could defeat this eight-star peerless Heavenly Pride.

However, being less powerful didn't mean certain defeat.

He had many life-saving techniques, enough to wear down the enemy.

Boom!!! The opponent made a move, launching a punch.

This was a terrifyingly powerful Super God-level punch, imbued with extreme force.

Time TalentTime Freeze!

Ye Tian activated his long-unused time talent, instantly freezing time.

However, due to the opponent's strength, the freeze was brief, but it allowed Ye Tian to successfully dodge the attack and deliver a strike with the Phantom God Sword Technique.

Boom! The Phantom God Sword Technique struck the opponent, but as the time freeze ended, the opponents physique endured Ye Tians attack.

Clearly, the opponents defense was formidable! In the ensuing battle, Ye Tian used his time talent, spatial talent, Super God-level sword techniques, Super God-level palm techniques, and almost all his methods, but only just managed to match this eight-star peerless Heavenly Pride.

The opponent had almost no weaknesses, with terrifying punching techniques, defense, speed, and even soul defense methods.

Ye Tians attacks hardly inflicted significant damage, while the opponent easily injured Ye Tian.

It had to be admitted, though Ye Tian had reached the eight-star level, his strength was accumulated through various talents, and his pure attack power wasnt that strong.

However, Ye Tians immortality talent, life talent, and healing talent allowed his recovery speed to reach a terrifying level, almost making him indestructible.

Ten minutes passed! Twenty minutes! An hour! Two hours! Although Ye Tian was injured many times, he remained largely unharmed, quickly recovering, but the eight-star Heavenly Pride struggled, with each injury accumulating over time, significantly weakening him.

This was the fifth level of the Dark Star Demon God Tower, and this Heavenly Pride was a simulation, not a real one, so it couldnt escape.

In the outside world, the opponent would have left long ago if unable to kill Ye Tian, instead of fighting him for so long and allowing Ye Tian to inflict such damage.

Overall, Ye Tian had the upper hand in the Dark Star Demon God Tower.

After another two hours, Ye Tian fully seized the advantage, launching a relentless attack on the eight-star Heavenly Pride, eventually exhausting him to death and successfully passing the fifth level.

But at this point, Ye Tian was nearly exhausted, and had the opponent persisted for another hour, perhaps Ye Tian would have been the one to lose.

The artifact spirit appeared, congratulating him: Examinee, congratulations on passing the fifth level of the Dark Star Demon God Tower. Please choose your reward method

I choose the cultivation technique reward!

Ye Tian spoke.

After all, he no longer needed items, having gathered all the materials for the Phantom Gold Thread Divine Ability. It would be better to choose a cultivation technique reward, possibly encountering a very good one, which would be a real gain.

Whoosh!

A collection of cultivation technique rewards appeared before Ye Tian.

Chapter 376: Ten-Star Defense Secret Technique, Leaving the Ancient God Ruins

Among the many types of secret cultivation techniques, there were several that were exceedingly malevolent, which Ye Tian had no interest in whatsoever.

After a long search, Ye Tian finally found a yuan force defense secret technique that he was thoroughly satisfied with.

Dark Qilin Demon Body Technique

This Dark Qilin Demon Body Technique was a dark attribute yuan force defense secret technique, which only martial warriors with dark talents could cultivate. Once mastered, it allowed the practitioner to condense dark qilin scales on their body surface, significantly enhancing their defense.

Moreover, this Dark Qilin Demon Body Technique was of a very high tier, surpassing all other yuan force defense secret techniques Ye Tian had acquired before.

It was a ten-star yuan force defense secret technique.

To put things into perspective, the best yuan force defense secret technique that Ye Tian could purchase at the Heavenly Pride Pavilion on Silver Universe Star was only nine-star level.

One could imagine how valuable the Dark Qilin Demon Body Technique was.

If the Dark Qilin Demon Body Technique were to be made public, it would surely incite conflict among many major powers.

In fact, there were even more valuable secret techniques among the possible rewards, but Ye Tian did not choose those because they were of little use to him.

The most useful and acceptable secret technique for him was the Dark Qilin Demon Body Technique.

After selecting the Dark Qilin Demon Body Technique, a secret manual appeared before Ye Tian.

Ye Tian grabbed the manual and stored it away.

At this moment, the spirit spoke again: Examiner, every Heavenly Pride who manages to come here is entitled to a token!

With that, the spirit produced a jade pendant and handed it to Ye Tian.

This is the token. In the future, if you encounter relics of the master, this token can grant you direct access into the relics. However, I do not recommend doing so, as the real benefits within some relics lie elsewhere, not within the temple ruins, the spirit explained.

Ye Tian nodded in agreement with the spirits words.

For instance, in this relic, although the rewards within the Dark Star Demon Temple were considerable, the opportunities in those dimensional spaces were not much lesser.

If he had directly forsaken the gains from those distinct spaces and come straight to this Dark Star Demon Temple, he would not have been able to obtain those rewards.

Thus, danger and opportunity coexist, and it depends on one's pursuit.

Nonetheless, this token is also quite remarkable. Should he truly encounter an extremely dangerous relic, where entry almost guarantees death, using the token to directly enter could be a viable option.

After Ye Tian took the token and stored it away, the spirit teleported him out.

In the next moment, Ye Tian found himself outside the Ancient God Ruins, standing before the relics light barrier.

He tried to re-enter the relic but found that he was no longer able to do so.

My gains are already plentiful; it's time to leave!

Ye Tian flew out of the relic and arrived in the starry sky of the Tun Jiang planetary system.

At that moment, several Heavenly Prides intercepted Ye Tian.

Ye Tian looked over and recognized one of the Heavenly Prides Qing Zhan Heavenly Pride! Qing Zhan Heavenly Pride was one of the six-star peerless Heavenly Prides. Besides him, there were three other Heavenly Prides.

These three Heavenly Prides, standing alongside Qing Zhan Heavenly Pride, seemed to hold similar statuses and were likely also peerless Heavenly Prides.

Could they be the three Heavenly Prides who were previously chasing after the Scorpio Heavenly Pride?

Ye Tian speculated.

Qing Zhan Heavenly Prides gaze was firmly fixed on Ye Tian as he threatened, Heavenly Pride of Ten Thousand Laws, youve been inside the Ancient God Ruins for several months. Being able to stay for so long, you must have obtained quite a bit. According to reports, some Heavenly Prides have obtained secret techniques of physical body cultivation within the Ancient God Ruins, and not just one but several. You must have obtained some secret techniques of physical body cultivation too, right? As long as you share those secret techniques of physical body cultivation with us, we wont make things difficult for you. Otherwise, imagine the scene of being besieged by four peerless Heavenly Prides at the same time.

Are you threatening me? Ye Tian responded coldly.

You can think of it that way! Qing Zhan Heavenly Pride nodded.

Just then,

Boom, boom, boom!

Three presences appeared, unmistakably Scorpio, Hong Yang, and Lie Jun Heavenly Prides.

Upon seeing these three, Qing Zhan Heavenly Pride and his companions changed their expressions.

They warily watched Hong Yang Heavenly Pride and Lie Jun Heavenly Pride. These two were among the top-tier of the six-star peerless Heavenly Prides, and the four of them combined were probably no match for the two.

Heavenly Pride of Ten Thousand Laws, how about we three take action and teach them a lesson? Lie Jun Heavenly Pride inquired, bowing.

This scene shocked Qing Zhan Heavenly Pride and his companions immensely.

What stature did Lie Jun Heavenly Pride hold? As one of the top existences among the six-star peerless Heavenly Prides and a disciple from a vast power within the Andromeda Galaxy, his strength and status far exceeded theirs! Yet, such a peerless Heavenly Pride was showing such respect to Ye Tian, almost like a subordinate! This had to be a joke.

No need, they're just a bunch of nobodies! Ye Tian waved his hand, seemingly not taking Qing Zhan Heavenly Pride seriously at all.

You're calling us nobodies? Qing Zhan Heavenly Pride and the others were enraged.

As peerless Heavenly Prides, they were extremely proud. Typically, other Heavenly Prides would approach them with utmost respect.

From their birth until now, anyone who disrespected them had died.

And Ye Tian, even as a peerless Heavenly Pride, was no different in their eyes without a powerful background.

Seeking death! Qing Zhan Heavenly Pride was the first to launch an attack on Ye Tian.

At that moment, with a light flick of his finger, Ye Tian sent out a golden thread.

With a swish, the golden thread sliced through Qing Zhan Heavenly Prides body, cutting him in half instantly.

Master, save me! Qing Zhan Heavenly Pride cried out in horror.

His body being cut in half was a minor issue, but the power of the golden divine ability was infiltrating his entire body, rapidly draining his life force.

If this continued even for a moment longer, he would undoubtedly die!

Boom!

A terrifying presence appeared, and a fearsome figure emerged from the void. With a wave of his hand, the nearly dead Qing Zhan Heavenly Pride was quickly restored to life, narrowly escaping death.

However, Qing Zhan Heavenly Prides injuries were not so easily healed and would likely take a considerable amount of time to recover.

A Great God level powerhouse! Ye Tian frowned slightly, looking at an elder in the distance.

With a sweep of his Copying Talent, he quickly assessed the elders talents.

Human: Chang Dongshun

Cultivation Talent: Desolate level

Strength Talent: Mystic

Speed Talent: Mystic

Defense Talent: Mystic

Wood God Talent: God level

Swordsmanship Talent: Moonlight

Chang Dongshun! Its that Great God Dongshun! Ye Tian recalled the background of this Great God in his mind.

Great God Dongshun was a Great God from one of the nine major planets, the Silver Emperor Star.

Ye Tian had crammed a lot of knowledge, learning about many True Gods and above powerhouses, which is why he could recognize Great God Dongshun immediately.

Golden divine ability, quite impressive. It seems you obtained this divine ability in the Ancient God Ruins, along with the materials required for the golden divine ability. Otherwise, with your background, it would be difficult to gather the materials needed for a divine ability! Your

strength has stepped into the seven-star Emperor tier. In the current younger generation of the Milky Way, you should be considered the third seven-star Heavenly Pride.

Great God Dongshun looked at Ye Tian and spoke.

The third seven-star Heavenly Pride! Ye Tian thought to himself, indicating there were two other seven-star Heavenly Prides in the Milky Way.

However, those two seven-star peerless Heavenly Prides must have left the Milky Way for other galaxies.

Master, I've disgraced you! Qing Zhan Heavenly Prides face fell, and he bowed his head.

Qing Zhan, he's a seven-star Heavenly Pride, and it's normal for you not to be his match. Go back! Great God Dongshun said.

Yes! Qing Zhan Heavenly Pride responded.

Ye Tian did not pursue Qing Zhan Heavenly Pride any further. With a Great God present, it was impossible to kill a Heavenly Pride.

While powerhouses above the God level are not allowed to attack Heavenly Prides directly, it doesn't mean they can't protect other Heavenly Prides.

Great God Dongshun could easily block Ye Tian's attack and then take Qing Zhan Heavenly Pride away.

After Qing Zhan Heavenly Pride left, the other three peerless Heavenly Prides also hurriedly fled, not daring to block the path of a seven-star peerless Heavenly Pride. Lie Jun Heavenly Pride came over, laughing and congratulating,

Heavenly Pride of Ten Thousand Laws, that golden divine ability you used just now was incredible. If it weren't for that Great God level powerhouse appearing, you would have killed Qing Zhan Heavenly Pride in one move!

It was just that Qing Zhan Heavenly Pride was too weak! Ye Tian modestly said.

In reality, he had held back, only unleashing the strength of a seven-star Heavenly Pride. If he had gone all out, even Great God Dongshun wouldnt have been able to intervene in time.

Chapter 377: Another Page of the Mira Sutra

Ye Tian and the Heavenly Prides like Lie Jun only chatted for a while before parting ways.

Lie Jun and Hong Yang Heavenly Prides were not from the Milky Way but from the Andromeda Galaxy, so naturally, they would not stay in the Milky Way for long.

However, before departing, Lie Jun said, Heavenly Pride of Ten Thousand Laws, as a Seven-Star Heavenly Pride, the Milky Way is far too small for you. Theres no need to stay here for long. Once you step out of the Milky Way, youll discover a vast and boundless world!

Thank you for the advice. I will leave the Milky Way in the future to explore other places! Ye Tian responded.

After Lie Jun and Hong Yang left, Ye Tian returned to Silver Universe Star.

Not long after his return, he handed the Heart of the Moon Goddess to his wife, Empress Yue, and then began his seclusion.

This time, he was preparing to cultivate the Phantom Gold Thread Divine Ability.

Compared to the Golden Thread Divine Ability, the Phantom Gold Thread Divine Ability was much more powerful, so he wanted to master it as soon as possible to significantly enhance his strength.

Ye Tian had already mastered the Golden Thread Divine Ability, but to further cultivate the Phantom Gold Thread Divine Ability on its basis was not an easy task and would require some time.

It took Ye Tian a month to fully comprehend the Phantom Gold Thread Divine Ability before he began the cultivation process.

Void Tears, the heart blood of a high-level gold elemental divine beast, Spirit Qilin Crystal, and the essence of a million-year-old Kongdong stone.

These four treasures needed to be fused together and then applied to Ye Tians body, forming runes all over to create a complete diagram of the divine ability.

Only then could the Phantom Gold Thread Divine Abilitys mark be condensed, fully mastering this divine ability.

Ye Tian spent several days grinding the Spirit Qilin Crystal and the essence of the million-year-old Kongdong stone into powder, mixing it with the Void Tears and the heartblood of the high-level golden beast, and then applying it to his body.

Afterward, Ye Tian began to condense the mark of the Phantom Gold Thread Divine Ability according to the cultivation method.

Time passed day by day.

Ye Tian did not use his Time Talent, so it took him two full months to successfully condense the mark of the Phantom Gold Thread Divine Ability.

With this, he had entered the threshold of the Phantom Gold Thread Divine Ability! After mastering it, Ye Tian decided to test the power of this divine ability in reality. He flew out of Silver Universe City and began searching for traces of ferocious beasts.

After about fifteen minutes, he found a Saint-level ferocious beast.

This Saint-level beast was a violent bear with a height of several hundred meters.

Ye Tian appeared in front of it and unleashed the Phantom Gold Thread Divine Ability.

In an instant, the violent bear was covered in golden threads, which seemed to form a prison around it, trapping it completely.

With a thought from Ye Tian, the golden threads instantly sliced the violent bear into countless pieces.

How powerful. The Golden Thread Divine Ability can only control a single golden thread, but the Phantom Gold Thread Divine Ability can control multiple threads, with faster speed and more concealment. In terms of power, the Phantom Gold Thread Divine Ability is ten times more terrifying than the Golden Thread Divine Ability! Ye Tian thought to himself.

He was very satisfied with the Phantom Gold Thread Divine Ability.

And this was just a top-tier divine ability. He couldn't help but wonder how terrifying the greater divine abilities above it would be! With the Phantom Gold Thread Divine Ability mastered, Ye Tian then took out the Dark Qilin Demon Body Technique, a yuan force defensive secret technique.

He opened the content of the Dark Qilin Demon Body Technique and started to read through it, his first time going through this secret technique.

After reading it, Ye Tian realized he had underestimated the value of this secret technique.

It can continue to be cultivated even above the God level! Ye Tian was quite surprised.

Typically, yuan force defensive secret techniques become useless once one reached the God level, simply because they only affected yuan force. After reaching the God level, yuan force transformed into divine force.

Divine force was different from yuan force, hence yuan force defensive secret techniques could not affect divine force.

But there were corresponding divine force defensive secret techniques, but they were even rarer than yuan force defensive techniques.

The Dark Qilin Demon Body Technique, however, was a defensive secret technique that encompassed both yuan and divine force defenses. At the Emperor level, it was merely a yuan force defensive secret technique, but at the God level, it became a God-level divine force defensive secret technique.

However, at the God level, it was not a ten-star divine force defensive secret technique but a seven-star one.

Even so, its value was extremely high, far exceeding Ye Tians initial estimation.

In summary, the Dark Qilin Demon Body Technique was incredibly precious, and even a Great God would be tempted by it.

The Dark Qilin Demon Body Technique was extremely abstruse and difficult to comprehend, making it impossible for ordinary people to master. However, Ye Tian, with his top-tier comprehension talent, would be able to cultivate it.

As time went by, several months passed in the blink of an eye.

One day, Ye Tian finally cultivated the Dark Qilin Demon Body Technique to the minor achievement stage. Even just at this stage, its defensive capabilities far surpassed those of a perfected eight-star yuan force defensive secret technique.

In the following days, Ye Tian devoted his efforts to understanding the Dao of the Palm, Claw, and Sword.

Due to the lack of significant opportunities, Ye Tians progress was slow, but he was still making progress.

In the blink of an eye, another half year passed.

Compared to six months ago, Ye Tians strength had slightly improved. He was probably at the lower end of the eight-star Peerless Heavenly Prides, still a bit away from the middle level.

On this day, Ye Tian was chatting with his wife.

An Emperor-level individual came to Ye Tians residence.

I am Zhang Hui from the Milky Way Commerce Association, here to seek an audience with the Heavenly Pride of Ten Thousand Laws, Zhang Hui said, bowing outside Ye Tians villa.

What is it? Ye Tians voice emanated from inside the villa, inquiring.

If an Emperor-level individual did not have significant matters to discuss, Ye Tian naturally wouldnt allow them inside; otherwise, he would be overwhelmed by visitors every day.

The Milky Way Commerce Association has an invitation letter, hoping that the Heavenly Pride of Ten Thousand Laws would grace our treasure auction with your presence! Zhang Hui stated.

Leave the invitation and go, Ye Tian instructed.

Yes! Zhang Hui placed the invitation on the villas door and then turned to leave.

Swiftly, a hand reached out from the void and took the invitation.

Inside the villa, Ye Tian examined the invitation. He was aware of the Milky Way Commerce Association, reputed to be a vast commerce association with strength even surpassing the major forces of Silver Universe Star.

Moreover, the business of the Milky Way Commerce Association was not limited to the Milky Way but also extended to other galaxies.

In short, the Milky Way Commerce Association was undoubtedly one of the top untouchable powers in the Milky Way.

The auction was one of the business ventures of the Milky Way Commerce Association, and it was no surprise to Ye Tian that they sent him an invitation.

Although his eight-star Peerless Heavenly Pride strength was not revealed, his seven-star level was well known. As the third seven-star Heavenly Pride in the Milky Way, his reputation far exceeded that of Netherkill, Qing Zhan, Thunder Ling, and others.

Essentially, most of the somewhat powerful warriors in the Milky Way had heard of him in one way or another, so it was normal for the Milky Way Commerce Association to send him an invitation.

Initially, Ye Tian was not keen on attending such auctions, but after reading the invitation, his interest was piqued.

The invitation was not just a mere request but also listed some of the treasures to be auctioned, one of which caught his attention.

A page from the Mira Sutra! This was one of the auction items. Although it didn't specify which page, the Mira Sutra was a nine-star wondrous object, making even a single page extremely precious.

Moreover, the Mira Sutra contained numerous secret techniques and might hold great secrets. Having already obtained two pages of the Mira Sutra, Ye Tian was naturally interested in the rest.

Since it's hard to improve my strength lately, why not take a look? Ye Tian originally planned to take Empress Yue with him, but she insisted on continuing her cultivation and did not want to waste time.

Thus, Ye Tian decided to go alone.

The auction was not held on one of the nine major planets but on the commercial planet of the Milky Way, Glorious Star. It was located at the edge of the Milky Way but close to three other galaxies, making it a prime location.

Silver Universe Star was far from Glorious Star, but with cosmic ships and interstellar teleportation arrays, it wouldn't take long to reach Glorious Star.

Furthermore, the auction was set to start a month later, giving even warriors from the other end of the Milky Way enough time to arrive.

Ye Tian stayed on Silver Universe Star for a few days before setting off for Glorious Star.

Along the way, Ye Tian traveled slowly, often staying on a planet for some time, and it took him half a month to finally reach Glorious Star.

By then, there were ten days left until the auction began.

Chapter 378: Five-Star Cosmic Spaceship

Glorious Star was a technologically advanced planet.

However, there were also many martial warriors on Glorious Star due to its prosperity, attracting many from the outside world.

Therefore, it was common to see God-level powerhouses on Glorious Star. After arriving, Ye Tian first took a tour around Glorious Star.

He then sold some treasures on Glorious Star in exchange for a significant amount of star points.

In an auction, one could not barter but must use star points to make purchases.

In the galaxy, star points were the universal currency, so naturally, Ye Tian had to prepare a substantial amount of star points. Otherwise, even if he wanted to bid on the Mira Sutra, he would not be able to compete.

Ye Tian had many common treasures, having killed many emperors and even several Heavenly Prides previously.

The entire fortune of those emperors and Heavenly Prides was now in his possession, which spoke volumes of Ye Tians current wealth.

Moreover, during his time in the ancient God ruins, he also obtained numerous high-level cultivation resources, each of which could incite fierce battles among countless emperors.

Thus, Ye Tian was certainly not short on money.

In the following days, Ye Tian sold most of the treasures he did not need, exchanging them for approximately 50 billion star points.

For most Heavenly Prides, having ten billion star points would be considered wealthy.

After all, Heavenly Prides also needed to cultivate, which required even more resources. Additionally, some treasures could not be sold, limiting the available funds.

Ye Tian believed his 50 billion star points were sufficient to win a mere page of the Mira Sutra, as it couldn't be too precious.

In the blink of an eye, the auction day arrived.

That day, Ye Tian went to the Milky Way Commerce Association building, where the auction was held. The building, although modern, was constructed from materials as solid as those used in temples.

Upon entering the building, Ye Tian activated his copy talent to survey the talents of the people around.

The suppression of his copy talent on Glorious Star was minimal, allowing him to easily cover the area and even the entire building.

Soon, the talents of numerous warriors appeared before Ye Tian.

After filtering, Ye Tian spotted an impressive talent.

A Dawn-level palm technique talent, not bad. Copy!

His palm technique talent was also at the Dawn level. Two more Dawn-level palm technique talents would elevate it to Supreme level. Now, he needed only one more.

With this, he was only one Dawn-level palm technique talent short.

Copying this Dawn-level palm technique talent alone makes the trip worthwhile! Ye Tian thought.

At the top of the Milky Way Commerce Association building.

Ye Tian reached this floor and saw thousands of seats filled with warriors.

He noticed that most of the warriors here were emperor-level, with no God-level warriors in sight.

Clearly, this was an auction for those below the God level.

At the auction, Ye Tian saw some familiar faces.

Heavenly Pride Qing Zhan, Thunder Ling Heavenly Pride, and other notable figures.

Obviously, these Heavenly Prides were also invited.

As the auction start time approached, more and more Heavenly Prides arrived.

So many Heavenly Prides attending, I wonder what they're after. I'm here for the Mira Sutra and wouldn't usually participate. What about these Heavenly Prides? Ye Tian telepathically asked Thunder Ling Heavenly Pride.

Although not close, they were both peerless Heavenly Prides from Silver Universe Star, so he inquired.

Thunder Ling Heavenly Pride, upon realizing it was Ye Tian asking, replied truthfully, Heavenly Pride of Ten Thousand Laws, although this auction is not as high-profile as a God-level auction, the Milky Way Commerce Association will feature a five-star cosmic spaceship added at the last minute about ten days ago. Upon hearing the news, all Heavenly Prides rushed here!

What, a five-star spaceship?!

Ye Tian admitted he was also tempted.

Cosmic spaceships were categorized by levels, with the lowest being one-star, which could only travel within a planetary system and had limited functions.

Two-star spaceships could traverse between planetary systems, but could only cross one system at a time, making them slow even within the Milky Way.

After all, the Milky Way consisted of countless planetary systems, and traveling from one end of the galaxy to the other by hopping between systems would take an incredibly long time.

The value of three-star cosmic spaceships was much higher, as they could traverse multiple systems in one go, and many of the galaxy's tech companies used three-star spaceships for their high-end transportation services.

Four-star cosmic spaceships were even more impressive, allowing free roam across the entire Milky Way at speeds up to a hundred times the speed of light, making it no problem to traverse thousands of systems at once.

As for five-star cosmic spaceships, the Milky Way lacked the capability to construct such vessels. The spaceship Ye Tian and others used to travel to the Mota Galaxy was not actually a five-star spaceship but a specially crafted artifact shaped like a spaceship, with the functionality of one.

It was not a technological ship but a divine artifact ship crafted by martial warriors.

A five-star cosmic spaceship could traverse galaxies, something a four-star spaceship cannot do. Attempting to cross galaxies in a four-star spaceship would result in its disintegration.

Thunder Ling Heavenly Pride, five-star spaceships are not even owned by many spaceship transportation companies, so why bring one here for auction?

Ye Tian was curious.

Thunder Ling Heavenly Pride explained, Heavenly Pride of Ten Thousand Laws, you might be mistaken. This spaceship is not a large one but a small, personal model, unfit for transport. Its only about 100 meters long.

So, its a personal model cosmic spaceship!

Ye Tian admitted he was tempted.

The value and utility of a personal five-star cosmic spaceship was immense.

If Ye Tian wanted to leave the Milky Way, it would be much easier. He could easily travel across the spatial turbulence between galaxies in a five-star spaceship, which would otherwise be quite difficult.

Thunder Ling Heavenly Pride, how much would a personal five-star cosmic spaceship approximately cost?

Ye Tian asked again.

Knowing Ye Tian wanted to buy, despite his own interest, Thunder Ling Heavenly Pride still shared, Heavenly Pride of Ten Thousand Laws, Im not sure about the exact amount, but I guess it could cost tens of billions of star points!

That much!?

Ye Tian frowned.

He had 50 billion star points and was unsure if that would be enough. The powers backing these Heavenly Prides could easily produce tens of billions of star points.

If these Heavenly Prides had their support, he wouldnt be able to compete.

Swiftly, Ye Tian left his seat and found a manager of the Milky Way Commerce Association.

Heavenly Pride of Ten Thousand Laws, do you need something?

The manager of the Milky Way Commerce Association asked.

Id like to consign an item for auction, is it still possible?

Ye Tian inquired.

Its possible, as long as the auction hasnt started yet. What item would you like to consign?

I want to consign a secret technique of physical body cultivation!

Ye Tian declared.

What, you want to consign a secret technique of physical body cultivation?

The manager of the Milky Way Commerce Association was astonished.

Such a secret technique for physical cultivation was incredibly precious, and Ye Tian was planning to auction it.

Is it possible?

Ye Tian asked.

Absolutely! The Milky Way Commerce Association manager eagerly agreed, visibly excited.

He had never handled such an auction item before.

Soon, the manager processed Ye Tians consignment.

The secret technique of physical body cultivation Ye Tian was auctioning was one of the three he had obtained previously, the Blazing God Body Technique, which could amplify cultivation effects up to 14 times, making it an extremely powerful technique among its peers.

The starting price for this secret technique was set at 30 billion. The price wasn't high because Ye Tian imposed restrictions, allowing only one person to cultivate it with a soul oath, making it impossible for others to cultivate and significantly reducing its value.

Without restrictions, a power might be willing to spend tens of trillions of star points for a secret technique of physical body cultivation! But then, the buyer would demand Ye Tian not to teach or sell the technique, which he would not agree to.

Thus, he chose this method. Even if it didn't earn much, it would be enough to buy a five-star cosmic spaceship.

Afterwards,

Ye Tian returned to his seat, waiting for the auction to start!

Chapter 379: Successful Bid

The auction soon began!

Initially, the items up for auction were some ordinary treasures. Of course, ordinary was only in the eyes of Ye Tian; for other Emperors, those treasures were quite rare and difficult to obtain in the outside world since hardly anyone sold them.

These items could only occasionally be encountered at auctions, which attracted quite a few Emperors to compete.

Ye Tian and the other Heavenly Princes naturally didn't take any interest in these items and did not compete for them.

Before long, the auction finally reached the point where the Mira Sutra was up for sale.

The auctioneer began introducing the Mira Sutra, saying, The next item for auction is a page from the nine-star wondrous object, the Mira Sutra.

You might have heard of the Mira Sutra. This wondrous object did not originate from the Milky Way but from the Andromeda Galaxy. Many Gods and True Gods fought over this nine-star wondrous object when it first appeared. A part of the Mira Sutra has made its way to our Milky Way, and this page is one of those original pages.

This page contains a secret technique, the Xumi Eye.

The Xumi Eye can see through illusions and even penetrate space, making it a very powerful illusion technique.

Of course, the requirements to cultivate the Xumi Eye are quite high. Not only does it require someone with spatial talent to cultivate it, but it also requires the Xumi Spatial Technique, which has been lost for a long time and has never reappeared. Perhaps it was destroyed during that war.

Because of this, its almost impossible to cultivate the Xumi Eye!

Somebody is auctioning a technique that cant be cultivated?

Someone expressed dissatisfaction.

The auctioneer smiled and said, Under normal circumstances, it would be impossible to cultivate the Xumi Spatial Technique, but our Milky Way Commerce Association has a capable person who created a minor technique called the Minor Spatial Technique, which can assist in cultivating the Xumi Eye, achieving about a third of its original effect.

This time, along with the auction of this page from the Mira Sutra, were also providing the Minor Spatial Technique!

Providing the Minor Spatial Technique makes it worth bidding for!

Many Heavenly Prides became interested, as the practicality of a technique like the Xumi Eye was significant.

Ye Tian frowned slightly. Initially, when he heard the auctioneer say that the Xumi Eye couldnt be cultivated, he got a bit excited.

Because he possessed the Xumi Spatial Technique, he could completely cultivate the Xumi Eye.

He guessed that the Xumi Spatial Technique must be a very important secret technique in the Mira Sutra, also serving as a foundational technique, with many secret methods requiring the Xumi Spatial Technique as support.

He thought that since others didnt have the Xumi Spatial Technique, they wouldnt bid for the Xumi Eye.

However, he didnt expect that the Milky Way Commerce Association would have a substitute technique. Even though it couldnt cultivate the complete version of the Xumi Eye, a diminished version was enough to attract the Heavenly Prides.

Thus, he faced considerable competition.

The Mira Sutras Xumi Eye, starting bid 3 billion star points!

The auctioneer announced loudly.

3 billion star points were undoubtedly a huge number for eight or nine-star Emperors. However, for the Heavenly Prides, it wasnt much.

3.1 billion star points!

3.2 billion star points!

3.3 billion star points!

One after another, Heavenly Prides competed as if these amounts were just numbers to them.

3.5 billion star points!

Ye Tian made his bid.

At this, many Heavenly Prides backed down.

They could afford the 200 million extra star points, but they also wanted to bid for a five-star cosmic spaceship.

Owning a five-star cosmic spaceship would allow them to travel across many galaxies.

However, a few Heavenly Prides still competed with Ye Tian, including Qing Zhan, a Heavenly Pride who had a grudge against Ye Tian.

Qing Zhan nearly got killed by Ye Tian in one move previously, a humiliation for him! Unable to defeat Ye Tian, he could only compete with Ye Tian in the auction.

3.6 billion! Qing Zhan said.

Ye Tian smiled slightly and calmly placed a bid, 4 billion.

Just as Qing Zhan was about to continue bidding, an Emperor beside him hurriedly advised, Lord Qing Zhan, 4 billion is too much. It far exceeds the value of the Xumi Eye by many times. If we spend too much here, we might not be able to compete for the five-star cosmic spaceship later!

Hearing this, Qing Zhan immediately gave up on bidding.

With Qing Zhan backing down, the other Heavenly Prides also withdrew, and Ye Tian successfully bid for the Xumi Eye.

Although he spent a lot, a bit at a loss, he wasn't short of money and didn't mind the star points. As long as he could obtain the Xumi Eye, it was worth it! After the Xumi Eye from the Mira

Sutra was auctioned, other items were presented one by one, their values no less than the page from the Mira Sutra. However, these items were useless to Ye Tian, so he didnt bid anymore.

Half an hour later, it was finally time for the five-star cosmic spaceship to be auctioned.

Due to the significant weight of the five-star cosmic spaceship, despite being only 100 meters long, it was not easy to carry, so it was placed inside a spatial ring.

The spatial ring was presented on the auction stage, and the auction began.

The five-star cosmic spaceship is a personal model with the capabilities of spatial jumping, traveling at a hundred times the speed of light, and possessing ordinary True God level defenses. It can traverse various galaxies, with a starting bid of 10 billion!

The auctioneer announced.

The starting bid of 10 billion made it impossible for many Emperors and some Heavenly Prides to even consider participating in the auction.

Only peerless Heavenly Prides or disciples from top-tier forces with the backing of significant resources could afford to participate in this fierce auction.

11 billion star points!

12 billion star points!

13 billion star points!

Soon, many Heavenly Prides could no longer compete as the value of the five-star cosmic spaceship exceeded their expectations.

50 billion star points!

Peerless Heavenly Pride Qing Zhan announced a shocking price.

55 billion star points!

Peerless Heavenly Pride Thunder Ling called out.

60 billion star points!

Ye Tian also joined the bidding.

Several peerless Heavenly Prides competed, driving the price up rapidly, reaching 63 billion star points in no time.

At this point, Thunder Ling gave up due to insufficient funds.

Only three Heavenly Prides were still in competition: Ye Tian, Qing Zhan, and another peerless Heavenly Pride, Long Yan. Long Yan was one of the three peerless Heavenly Prides who had previously pursued the Scorpio Heavenly Pride and was also quite wealthy.

65 billion star points!

Ye Tian announced another astonishing bid.

At this moment, Qing Zhan said, Heavenly Pride of Ten Thousand Laws, you have no significant backing. I don't believe you have that many star points. If your account doesn't have enough funds, you shouldn't make random bids. That's the rule of the auction.

How do you know I'm not qualified to bid?

Ye Tian retorted with a cold smile.

Let's have the Milky Way Commerce Association auction staff check our accounts and determine our eligibility. Otherwise, making random bids breaks the rules!

Qing Zhan suggested.

Fine by me!

Ye Tian agreed.

Soon, the three were on the auction stage, and a staff member from the Milky Way Commerce Association checked their accounts.

Shortly after, Ye Tians funds were revealed to be 50 billion, with a usable balance of over 45 billion after bidding for the Xumi Eye.

Long Yan and Qing Zhan had around 70 billion in available funds, significantly more than Ye Tian.

Heavenly Pride of Ten Thousand Laws, with only so much in funds, you dared to bid 65 billion. You're breaking the rules!

Qing Zhan accused.

Many Emperors in the audience were alarmed.

Bidding high without the funds was indeed breaking the rules, which could tarnish one's reputation.

Ye Tian calmly responded, Qing Zhan, you seem to have forgotten something. If I have an item consigned at the auction, its value is also considered part of my funds. And I happen to have an item consigned, which the Milky Way Commerce Association staff can verify!

The Milky Way Commerce Association staff member confirmed, Heavenly Pride of Ten Thousand Laws indeed has an item consigned with a starting bid of 30 billion, thus he has sufficient funds to bid for the five-star cosmic spaceship!

What, an item with a starting bid of 30 billion?!

Qing Zhan and the others were stunned.

They could produce an item worth 30 billion, but they would never auction it off.

Now, it was too late to prepare the funds. It also didn't allow consignments after the auction had already started.

According to the auction's regulations, since Qing Zhan requested to check the balance, he couldn't raise his bid any further. Ye Tian's bid of 65 billion star points was valid, effectively withdrawing Qing Zhan from the bidding.

As for Long Yan, knowing he couldn't outbid Ye Tian and not wanting to offend him intentionally, he also withdrew.

Ultimately, Ye Tian won the five-star cosmic spaceship for 65 billion star points.

At this point, many Heavenly Prides were curious about the item Ye Tian had consigned, worth a starting bid of 30 billion.

Chapter 380: Acquiring a Five-Star Cosmic Spaceship, Roaming the Galaxy

The five-star cosmic spaceship was the finale item of the auction, originally intended to be the last piece offered.

However, due to Ye Tian consigning the secret technique for physical body cultivation, it became the ultimate finale item instead.

Next, the heritage orb that contained the secret technique for physical body cultivation was presented on the auction stage.

The auctioneer introduced, This is the final highlight item, a secret technique for physical body cultivation called the Blazing God Body Technique. Its maximum amplification effect can reach 14, but it's only useful for those with fire attribute talents. The starting bid is 30 billion!

Boom!

The entire venue erupted in excitement! A secret technique for physical body cultivation was an incredibly precious treasure, something even top powers would covet and be willing to pay a huge price for.

Now, someone was willing to consign a secret technique for physical body cultivation, and it was at an emperor-level auction no less.

If it were at a God-level auction, it could have fetched an even higher price! Moreover, the starting bid for a secret technique for physical body cultivation seemed too low at just 30 billion star points. The Heavenly Pride of Ten Thousand Laws actually consigned a secret technique for physical body cultivation!

All the Heavenly Prides were incredulous.

At that moment, Qing Zhan Heavenly Pride said, Auctioneer, a secret technique for physical body cultivation that can amplify effects up to 14, why is the starting bid so low? Could there be something wrong with this secret technique?

The auctioneer smiled slightly and explained, There's nothing wrong with the Blazing God Body Technique secret technique. However, the consignor has placed a restriction on it, allowing only individual cultivation. It can't be cultivated by others, thus significantly reducing its value.

Ah, a restricted secret technique for physical body cultivation, useless to powers and only valuable to individuals, no wonder the starting bid is just 30 billion star points!

The crowd suddenly understood.

Even so, many Heavenly Prides were thrilled, especially those with fire attribute talents who were extremely eager to obtain this secret technique for physical body cultivation.

The auction began, and one after another, the Heavenly Prides started bidding.

The starting price of 30 billion star points was still steep for them, but for a secret technique for physical body cultivation, they were willing to pay any price! Qing Zhan Heavenly Pride was very dissatisfied with Ye Tian, but even though this secret technique was consigned by Ye Tian, he still participated in the bidding.

Because he also wanted this secret technique for physical body cultivation.

Although he didnt have a fire attribute talent, he could use a treasure to acquire one, and then, at great cost, elevate this newly acquired fire attribute talent to a mystic level. Despite the high cost, it was possible.

Then, he could cultivate this secret technique for physical body cultivation! In other words, even if he didnt cultivate this secret technique, selling it to the power behind him could bring even more benefits.

So, he too wanted to win this secret technique for physical body cultivation.

Soon, only a few peerless Heavenly Prides remained in the competition, as the others lacked the financial power.

In the end, Long Yan Heavenly Pride won the auction for the Blazing God Body Technique secret technique for physical body cultivation at a price of 87 billion.

In fact, Long Yan Heavenly Pride didnt have that much money, but he borrowed some from others in secret, allowing him to win the bid at 87 billion and outbid the other Heavenly Prides.

In the outside world, 87 billion star points wouldnt be enough to buy a secret technique for physical body cultivation, making Long Yan Heavenly Prides acquisition a huge bargain.

If Ye Tian had consigned it earlier and allowed the Milky Way Commerce Association to promote it, it could definitely have sold for over a hundred billion star points, but there wasnt enough time.

Ye Tian had no regrets; his goal was to acquire the five-star cosmic spaceship. As for consigning the Blazing God Body Technique, it was no loss to him; he was more than happy.

The auction ended.

Ye Tian went backstage to complete the transaction with the Milky Way Commerce Association, not spending a single penny and even earning several hundred billion star points.

Outside Glorious Star, in the cosmic space.

Ye Tian stood there, summoning the five-star cosmic spaceship from his spatial ring.

This time, he didn't plan to use the interstellar teleportation array or any other cosmic spaceship to return but to pilot his own cosmic spaceship back to Silver Universe Star.

He was looking forward to it!

With a roar, the five-star cosmic spaceship appeared before him, the hatch opened, and Ye Tian entered.

A five-star cosmic spaceship was a technological product, but it also required a master.

The process of becoming the master of a technological product was different from that of a martial arts treasure. The latter involved refining and soul recognition, while the former involved code recognition.

If the code was leaked, the technological product could easily be taken by others.

Therefore, technological products could change owners easily, but that's an unavoidable issue.

But if one's strength was sufficiently strong, technological products could also be safeguarded.

In this universe, everything depended on strength.

Ye Tian quickly completed the ownership process of the cosmic spaceship, securing the highest authority over this five-star cosmic spaceship.

Master, I am the AI Little Ai of Cosmic Spaceship No. 39, at your service!

The voice of the AI echoed in Ye Tians ears.

To Silver Universe Star!

Ye Tian issued the command.

Little Ai responded, Searching for Silver Universe Star, target located and locked, please select the mode of travel.

I choose spatial jump!

Ye Tian hurriedly instructed.

Spatial jump in progress Estimated to require three jumps, taking a total of 10 minutes to reach Silver Universe Star, Little Ai informed.

Ten minutes, thats so fast!

Ye Tian was quite surprised.

Despite its small size, the five-star cosmic spaceship was high-performing, much to Ye Tians satisfaction.

Boom!

The spatial jump commenced! The cosmic spaceship darted into a spatial tunnel and vanished.

After a minute.

The cosmic spaceship emerged from another star system. However, spatial jumps couldnt be continuous, so the jumping equipment needed to cool down before it could be initiated again.

A few minutes later, another spatial jump began.

And so.

Ten minutes passed, and Ye Tians cosmic spaceship had jumped to the vicinity of Silver Universe Star.

Since Ye Tians cosmic spaceship wasnt registered on Silver Universe Star, it couldnt directly fly into the spaceport of Silver Universe Star.

Thus, Ye Tian exited the cosmic spaceship and with a wave of his hand, stored the five-star cosmic spaceship into his personal spatial realm.

Swoosh! Ye Tian flew towards a spaceport.

Before long, Ye Tian returned to Qingfeng Giant City.

Upon his return, he shared the news of his acquisition of the five-star cosmic spaceship with his wife, Empress Yue, who was also very interested in the so-called five-star cosmic spaceship.

Hence, in the following days, Ye Tian took Empress Yue on a tour across numerous planets in the galaxy aboard the five-star cosmic spaceship, even making a trip back to Earth.

Half a month later.

Ye Tian returned to Silver Universe Star and no longer indulged in the pleasure of the five-star cosmic spaceship.

Some things, once tried, lost their appeal.

Ye Tian and Empress Yue resumed their cultivation.

In the cultivation room.

Ye Tian took out the page that recorded the Xumi Eye. As for the Xumi Spatial Technique gifted by the Milky Way Commerce Association, he glanced at it and then stored it away.

The Xumi Spatial Technique was of no use to him, far inferior to the Xumi Spatial Technique.

Ye Tian studied the Xumi Eye and discovered that its core also involved the Xumi Realm, requiring the integration of two small Xumi Realms into the eyes to cultivate the Xumi Eye.

Once the Xumi Eye was cultivated, even if someone phased into space, Ye Tian could see through it clearly, even observing the spatial jumps of cosmic spaceships with ease, potentially even intercepting them if he was fast enough.

Furthermore, illusions would hardly affect Ye Tian in the future; the Xumi Eye could see through and break illusions.

Such an awesome Xumi Eye! This time I hit the jackpot!

Ye Tian couldn't wait to start cultivating.

After a few days, Ye Tian successfully captured two small Xumi Realms and integrated them into his eyes.

Then, he spent half a month successfully cultivating the Xumi Eye.

If others knew he had cultivated the true Xumi Eye, they would be incredibly shocked.

Afterward, Ye Tian returned to the monotonous and tedious grind of cultivation.

One day.
