

Talent 381

Chapter 381: The Theory of Destiny, the Battle of Heavenly Prides!

The Heavenly Pride Conference A major announcement!

Ye Tian looked at this notification from the Heavenly Pride Pavilion with confusion.

However, the conference was to be held in the virtual world of the Heavenly Pride Pavilion on Silver Universe Star, so naturally, Ye Tian would not miss it.

The next day.

The conference was about to begin.

Ye Tian, along with many other Heavenly Prides, entered the virtual world of the Heavenly Pride Pavilion and was directly teleported to the conference hall in the virtual world.

However, not all the Heavenly Prides were present.

After all, many Heavenly Prides were not on Silver Universe Star, and some were in deep seclusion, not noticing the notification from the Heavenly Pride Pavilion.

Ye Tian roughly counted, and there were nearly 200 Heavenly Prides attending the conference.

This was the first time Ye Tian had encountered so many Heavenly Prides, and the virtual world of the Heavenly Pride Pavilion could replicate talents, so he checked the talents of others.

Soon, Ye Tian became somewhat excited.

Another Dawn level palm technique talent, copy!

Ye Tian copied this Dawn level palm technique talent. Now, he could be said to have gathered all he needed. Once he integrated this Dawn level palm technique talent, his palm technique talent could transform into Supreme level.

As for other talents, Ye Tian was not interested.

And the Hong level cultivation talent that Ye Tian was most looking forward to was not present; the highest talent among these Heavenly Prides was only at the Desolate level cultivation talent.

The martial arts level of the Milky Way was still too low, making it difficult to give birth to Hong level or higher cultivation talents.

Suddenly.

A person appeared at the conference, whose powerful soul pressure let all the Heavenly Prides know that this person was a very powerful being.

Hello, I am Changqing, a senior member of the Heavenly Pride Pavilion, and I am in charge of starting this conference, said Great God Changqing.

Great God Changqing, its him!

Ye Tians expression shifted.

This Great God Changqing was a very remarkable figure. Even in the entire Silver Universe Star, he was one of the top overlords. Great God Changqing was once a peerless Heavenly Pride and has now stepped into the rank of a Great God. One can imagine how terrifying his strength is! Great God Changqing was one of the several elders of Silver Universe Star Heavenly Pride Pavilion, holding a lot of decision-making power.

Many Heavenly Prides did not expect such a powerful God to start the Heavenly Pride Conference. What kind of major event had happened?

Greetings to Great God Changqing!

Greetings to Great God Changqing!

Greetings to Great God Changqing!

Many Heavenly Prides greeted Great God Changqing in unison.

No need to be so polite. I have limited time. Let me directly tell you the content of the conference, said Great God Changqing very solemnly.

All the Heavenly Prides listened intently, and the whole venue quieted down.

This conference is related to the Pan Star Field.

You should have some understanding of the Pan Star Field, right? Great God Changqing suddenly said.

The mention of the Pan Star Field made everyones pupils contract, and they were all shocked.

Naturally, they knew about the Pan Star Field; the Milky Way was part of the Pan Star Field.

There were many galaxies in the vast universe, and the Milky Way was one of countless galaxies. Many of such galaxies formed a star field.

The Milky Way, the Andromeda Galaxy, and many other galaxies formed a massive star field the Pan Star Field.

In the center of the Pan Star Field was a place called the Eternal Pan Galaxy. In that place, even God level powerhouses dare not act recklessly. Planetary level powerhouses could only barely be considered strong, and Galaxy level powerhouses were qualified to be the overlords of that place.

A Galaxy level powerhouse was enough to sweep through the Milky Way, an invincible existence. Yet there were quite a few Galaxy level powerhouses in the Pan Star Field.

This showed the strength of the Pan Star Field! Many of the Heavenly Prides present had not even been to other galaxies, let alone expect this conference to involve the Pan Star Field.

Although the Heavenly Prides had countless questions, they did not interrupt Great God Changqing and continued to listen.

Great God Changqing continued, The Pan Star Field is very vast, and our Milky Way is just a relatively weak galaxy in the Pan Star Field. Not long ago, several overlord level powers in the Pan Star Field prepared to initiate the Battle of Heavenly Prides, which will affect the entire Pan Star Field. Once the Battle of Heavenly Prides begins, no Heavenly Pride can avoid it. That is unless they really hide away, not communicating with the outside world, or stay hidden within their powers headquarters.

Regarding the Battle of Heavenly Prides, I have never participated in it either. In our era, the Battle of Heavenly Prides was never initiated.

You encountering the Battle of Heavenly Prides could be considered both your luck and your misfortune.

Great God Changqing, what exactly is the Battle of Heavenly Prides?

A Heavenly Pride couldn't help but ask.

Great God Changqing explained, The so-called Battle of Heavenly Prides is a grand war that spans the entire star field, where Heavenly Prides gather to cultivate a Child of the Universe.

The concept of destiny has existed since ancient times, and Heavenly Prides, being favored and blessed by the universe, naturally possess a significant amount of destiny.

Once the Battle of Heavenly Prides begins, defeating other Heavenly Prides allows one to obtain a portion of their destiny. Through countless battles without defeat, one can gather an immense amount of destiny.

At the end of the Battle of Heavenly Prides, the Heavenly Prides with the richest destiny will have the opportunity to enter a grand opportunity site arranged by those overlord forces. Only

under the influence of such dense destiny and with the help of this great opportunity can one hope to break through their bottleneck and ascend to become a Child of the Universe!

I see! Ye Tians expression turned serious.

Didnt this mean that the weaker Heavenly Prides would become targets of bullying? And the exchanges among Heavenly Prides could easily lead to casualties. God level and above powerhouses were not allowed to intervene in the Battle of Heavenly Prides, so the weaker Heavenly Prides were very likely to die at the hands of stronger ones.

For the powerful Heavenly Prides, this was undoubtedly a huge opportunity, potentially obtaining the qualifications to become a Child of the Universe. However, for the weaker ones, it was a disaster.

Instantly, those one-star, two-star, and even three-star Heavenly Prides were all extremely fearful, afraid of becoming stepping stones for others.

If one wanted to avoid the Battle of Heavenly Prides, they would have to forever hide within their powers headquarters, enduring the ridicule of other Heavenly Prides without venturing out. But in doing so, where would their dignity be?

Great God Changqing then suggested, I recommend that those Heavenly Prides who lack sufficient strength or potential should not linger at the Emperor level any longer. Go directly for the God level. This way, you can easily avoid the Battle of Heavenly Prides. Otherwise, once the Battle of Heavenly Prides begins, powerful Heavenly Prides from other galaxies might cross galaxies to come here.

And with our Milky Way being weaker, the nearby stronger galaxies might consider the Milky Way an easy target!

Hearing Great God Changqings words, many Heavenly Prides expressions changed several times, and they soon made their decisions.

Ye Tian guessed that most Heavenly Prides would probably give up on the Battle of Heavenly Prides and directly choose to strive for the God level. Of course, many Heavenly Prides would probably wait and see.

For Ye Tian, this Battle of Heavenly Prides was undoubtedly a great opportunity. Exchanging moves with countless Heavenly Prides, not only could he copy many impressive talents, but he could also gain astonishing destiny, aiding his assault on the title of Child of the Universe.

Once one's strength reaches the nine-star peerless Heavenly Pride level, breaking through the twentieth physical limit, that would qualify as a Child of the Universe.

And Ye Tian, being an eight-star peerless Heavenly Pride, having broken through the nineteenth physical limit, was only one step away.

Thus, he had a great chance of becoming a Child of the Universe in this Battle of Heavenly Prides.

Those who want to participate in the Battle of Heavenly Prides stay, others can log off and leave!

Great God Changqing said.

Whoosh! One by one, the Heavenly Prides logged off, leaving only over fifty Heavenly Prides.

Clearly, those hundred or so Heavenly Prides had given up on the Battle of Heavenly Prides.

Not bad. I thought not many would stay!

Great God Changqing said with a smile.

If you are willing to participate in the Battle of Heavenly Prides, the Milky Way will naturally not withhold its help. This time, all forces within the Milky Way have decided to grant a great opportunity to the Heavenly Prides participating in the Battle of Heavenly Prides. As for how much you can gain, that depends on yourselves!

Great God Changqing's words excited the remaining dozens of Heavenly Prides.

An opportunity deemed significant by Great God Changqing was definitely not ordinary.

Great God Changqing, what kind of opportunity is it?

Heavenly Pride Thunder Ling, couldn't help but ask.

Great God Changqing said, This opportunity is the Divine Tomb!

Divine Tomb?

The Heavenly Prides were all puzzled, not knowing what the Divine Tomb was.

But judging by the name, the Divine Tomb should be a burial ground. Could it be the burial ground of fallen Gods? But how could that be considered a great opportunity? Amidst the puzzled looks of many Heavenly Prides, Great God Changqing began to explain this so-called Divine Tomb.

Chapter 382: The Divine Tomb World, Thousands of Heavenly Prides

Great God Changqing began to explain, The Divine Tomb is the grave in an alternate dimension of many God-level beings, including even the tombs of planetary-level powerhouses.

Graveyard, alternate dimension! As Great God Changqing continued his narration, everyone began to understand more about the Divine Tomb.

It turned out that in the ancient world, the Divine Tomb was a realm, vast in size and with very peculiar rules, somewhat like the legendary rules of hell.

Inside the world of the Divine Tomb, the aura of the undead was particularly strong, making it suitable as a burial ground. Moreover, Gods yearned for resurrection after death, thus turning the Divine Tomb into a world of hope.

According to legends, the Divine Tomb could preserve the imprints of the Gods indefinitely, offering a chance for resurrection in the future.

Whether this legend was true remained unknown, as so far, no God-level being or planetary-level powerhouse had been resurrected. However, the enduring imprints of the God-level

beings wills were real. Their wills could exist for countless years, though they were unconscious imprints, but at least they proved their existence.

Of course.

Since the Divine Tomb world was so special, not just anyone could enter. Only God-level beings could place their remains in the graveyard.

Over countless years, many God-level powerhouses at the end of their lifespans or those who were fatally injured chose to enter the Divine Tomb world to construct their own graves and rest there eternally.

One could imagine how many tombs of God-level and planetary-level powerhouses the Divine Tomb world contained.

And as many Gods passed away, they would leave behind gifts for future generations. They set conditions for certain Heavenly Prides, and those who met these conditions would receive their gifts.

However, many major powers in the Milky Way rarely opened the Divine Tomb, as they disliked the idea of later generations disturbing the eternal rest of their predecessors.

But this time, with the Battle of Heavenly Prides about to begin, they decided to open the Divine Tomb world. After all, the Divine Tomb world was full of opportunities, and if the Heavenly Prides obtained astonishing fortunes, their strength might greatly increase, adding to the chances of victory in the upcoming Battle of Heavenly Prides and bringing fame to the Milky Way.

In this way, the Milky Way wouldnt lose face. Otherwise, if the Heavenly Prides from the Milky Way were defeated too miserably, it would be equivalent to a slap in the face of their own powers.

The Divine Tomb world is not a place to stay for long. The aura of the undead there is very strong. If you stay too long, it could erode your physical body.

Many years ago, we once opened the Divine Tomb world, but some Heavenly Prides were too greedy and ended up being eroded by the aura of the undead and died, turning into undead themselves! Great God Changqing warned.

The Heavenly Prides took this to heart and remembered this warning.

In ten days, I will personally take you into the Divine Tomb world. Gather at the headquarters of the Heavenly Pride Pavilion in ten days!

After saying this, Great God Changqing disappeared.

And Ye Tian logged out as well. Im really looking forward to the Battle of Heavenly Prides!

Ye Tian muttered to himself.

At the same time, he was also looking forward to the upcoming Divine Tomb world, wondering if he could obtain a great fortune there.

At that moment, Ye Tian did not forget to integrate and copy the Dawn-level palm technique talent he had acquired.

Soon, the integration of the Dawn-level palm technique talent was successful, and Ye Tians palm technique talent underwent a transformation.

[Palm Technique Talent: Supreme Level]

His palm technique talent reached the supreme level, and in the future, Ye Tians speed in comprehending the palm dao would increase by many times.

Ten days passed quickly.

On this day.

Ye Tian arrived at the headquarters of the Heavenly Pride Pavilion on Silver Universe Star.

At that time, he found that there were many more Heavenly Prides, not just the few dozen from the other day.

The other Heavenly Prides must have been those who were not on Silver Universe Star before but were prepared to participate in the Battle of Heavenly Prides, totaling over eighty.

Soon after the Heavenly Prides gathered, Great God Changqing appeared.

Lets go!

With a wave of Great God Changqings hand, everyone found themselves outside of Silver Universe Star.

This ability to change ones environment was astonishing, causing many Heavenly Prides to marvel silently.

So powerful!

Ye Tian thought to himself.

He sensed the change in space, having a space talent after all.

Although Great God Changqings shifting of their location could not be hidden from him, he could not resist it.

After all, his strength was far too inferior compared to Great God Changqings. There were countless realms between them.

Great God Changqings method was not a talent in space, but rather using powerful force to envelop everyone and move through space, which required immense strength. It seemed very sophisticated, but in reality, it was easily disrupted and not very useful.

Board the cosmic spaceship!

With a casual wave of his hand, Great God Changqing made a massive cosmic spaceship appear.

A six-star cosmic spaceship!

Ye Tian was slightly taken aback.

Great God Changqing, a terrifying figure among even Great Gods, had brought out a six-star cosmic spaceship with a mere gesture. Ye Tians excitement about acquiring a cosmic spaceship dissipated somewhat in light of this.

Compared to the six-star cosmic spaceship, his five-star cosmic spaceship was undoubtedly inferior.

Of course, a five-star cosmic spaceship was still something countless Emperors and even Gods dreamed of possessing.

Whoosh!

One after another, Emperors entered the six-star cosmic spaceship, which soon set off.

In less than a minute, the spaceship came to a halt.

They had arrived at the Divine Tomb world!

Ye Tian stepped out from the six-star cosmic spaceship and saw many Heavenly Prides.

Including the nine major planets and other regions of the Milky Way, the number of Heavenly Prides entering the Divine Tomb world this time was estimated to be nearly or over a thousand.

A thousand Heavenly Prides, what an astonishing number! But considering the vastness of the Milky Way, with tens of thousands of planetary systems, where on average not even one

Heavenly Pride could emerge from a single system, and most Heavenly Prides came from the nine major planets, this number was not small.

However, most Heavenly Prides would not participate in the Battle of Heavenly Prides. Those Heavenly Prides would soon no longer be considered such, becoming Demigods or Gods instead.

Thus, these Heavenly Prides would be the only ones left in the Milky Way in the future.

With so many Heavenly Prides, I should be able to copy some good talents!

What Ye Tian looked forward to the most was a Hong-level cultivation talent.

Unfortunately, those with Hong-level cultivation talent were too rare. Even Great God Changqing only had Desolate-level cultivation talent.

But it made sense. If Great God Changqing had a Hong-level cultivation talent, given his age and talent, he would have stepped into the planetary-level powerhouse realm long ago and wouldnt have remained at the God-level.

Now, Ye Tian hoped to copy another Hong-level cultivation talent.

Enter that planet; the Divine Tomb world is on that planet!

Great God Changqing pointed to a nearby planet.

Many Heavenly Prides looked over and saw that the planet was devoid of life and filled with a grey aura, representing the aura of death.

It was probably only on such a desolate planet that the miraculous Divine Tomb world could exist.

Swoosh! One by one, the Heavenly Prides flew to that planet.

After arriving on the planet, Ye Tian began to copy talents.

Wow! A vast array of talent information appeared before Ye Tian.

Immediately, Ye Tian, through filtering, found that there indeed was one with Hong-level cultivation talent.

Moreover, Ye Tian discovered that this person with Hong-level cultivation talent also possessed other strong talents.

This person had not only broken through the eighteenth physical limit but also possessed various God-level cultivation talents.

Mu Tong!

Ye Tian looked at the name and tried to recall, but found that he had never heard of this Heavenly Prides name before.

Ye Tian had been on Silver Universe Star for several years and was familiar with many Heavenly Prides names, even those from other major stars and powerful Heavenly Prides in the Milky Way.

But this Heavenly Prides name was completely unfamiliar to him.

Could it be that this person was not previously in the Milky Way?

Ye Tian speculated.

Immediately, he sent a telepathic message to Thunder Ling Heavenly Pride: Thunder Ling Heavenly Pride, do you recognize that Heavenly Pride?

As Ye Tian inquired, his gaze shifted towards Mu Tong.

Thunder Ling Heavenly Pride noticed the direction of Ye Tians gaze and immediately knew who Ye Tian was asking about, so he said, Heavenly Pride of Ten Thousand Laws, that seven-star peerless Heavenly Pride Jin Guang Heavenly Pride, Jin Guang Heavenly Pride left the Milky Way a long time ago and has only now returned, so its normal for you not to recognize him!

As expected!

Ye Tian had already guessed as much in his heart. He knew there were two seven-star peerless Heavenly Prides in the Milky Way.

Sure enough, this Mu Tong was one of the seven-star Heavenly Prides.

Hong-level cultivation talent, copy!

Ye Tian copied Mu Tongs Hong-level cultivation talent, feeling extremely excited. He couldnt wait to integrate it immediately, but considering the many Heavenly Prides and Gods present, he suppressed the urge to integrate right away.

Then, Ye Tian continued to check the talents of others.

Chapter 383: Cosmic Level Cultivation Talent

Ye Tian discovered that the cultivation talents of these Heavenly Prides were mostly at the Supreme and Desolate levels.

Additionally, there were many with swordsmanship and sword technique talents, followed by spear technique, boxing, and palm technique talents. Claw technique talents were less common, while leg techniques and finger techniques were even rarer.

Ye Tians sword technique and palm technique talents were already at the Supreme level, and since there were no Heavenly Prides with Supreme level sword or palm technique talents, it was unnecessary to copy their Dawn level talents, as it would be a waste.

However, he was very interested in claw technique talents.

But there was only one with a Dawn level claw technique talent, so Ye Tian copied their Dawn level claw technique talent.

Besides these talents, Ye Tian also discovered several decent auxiliary talents.

Among them, Ye Tian was most satisfied with a soul talent, not an offensive soul talent, but a defensive one the Top-level Soul Armor Talent. This talent could amplify soul defense by twenty times. Coupled with the defensive effects of a soul treasure, it could provide absolute protection for the soul, making it very difficult to harm.

Ye Tian had encountered offensive soul talents before, but this was his first time encountering a defensive soul talent.

Therefore, he did not hesitate to copy the Top-level Soul Armor Talent.

Additionally, the God level Wood Shield Talent was also good. This was a wood attribute talent, but a defensive one, capable of significantly increasing defensive power.

Ye Tian copied it too, so that he could use it in the future along with the God level Iron Armor Talent as a defensive measure.

Although Ye Tian had many defensive measures, who would complain about having too many? Time passed, and Ye Tian along with the other Heavenly Prides were silently waiting on this star.

Suddenly.

Countless deathly auras on the star converged, creating a tumultuous scene.

Crack! The void split open, revealing a massive portal in front of everyone.

This portal was a giant bone gate, emitting a gloomy aura that made ones skin crawl.

At that moment.

The voices of God level powerhouses descended.

The Divine Tomb World is open. Enter, but remember you can only stay for a maximum of one year, otherwise the deathly aura of the Divine Tomb World will completely destroy your physical bodies.

The numerous Heavenly Prides took note and flew into the Divine Tomb World one after another.

Ye Tian passed through the giant bone gate and entered the Divine Tomb World.

Upon entering, he felt an intense concentration of deathly aura, many times denser than the deathly aura on the outer star.

No wonder its called a hell world. The density of deathly aura here is completely different from the world of the living! Ye Tian exclaimed.

At this moment.

The other Heavenly Prides flew off in different directions.

Without the tombs, no one would stay here.

Ye Tian also chose a direction and not long after, found a secluded spot to begin integrating the talents he had copied earlier.

The first talent he wanted to integrate was the Hong level cultivation talent.

He had long wanted to integrate this talent, but due to the presence of too many people before, he hadnt had the opportunity.

Now that he was in the Divine Tomb World, he was eager to begin.

Hong level cultivation talent, integrate!

Instantly, the Hong level cultivation talent merged with Ye Tians own.

Originally, Ye Tian had already integrated a Hong level cultivation talent, and now he had integrated another one, so his cultivation talent finally began to evolve again.

Boom! Intense pain struck, and Ye Tian almost bit his teeth to pieces.

After a long time, the pain subsided.

At this moment, Ye Tian eagerly checked his cultivation talent.

Cultivation Talent: Cosmic Level.

Cosmic level cultivation talent! From Desolate to Hong to Cosmic. Could it be that the next level is Universal? It seems to be the case! Ye Tian murmured.

After resting for a while, Ye Tian began to integrate the Soul Armor Talent and the God level Wood Shield Talent.

Soon, the Soul Armor Talent and the God Wood Shield Talent were successfully integrated.

Then, he set off to search for the tombs of Great God or Planetary level powerhouses.

Before long, a tomb appeared in front of him, but aside from him, about a dozen other Heavenly Prides also spotted the tomb and flew down.

Heavenly Pride of Ten Thousand Laws!

The dozen Heavenly Prides, upon seeing Ye Tian, greeted him with reverence.

However, they did not leave.

Although everyone had seen this tomb, whether one could obtain the chance left by the tombs owner depended on luck and whether one met the requirements. Otherwise, even if ones strength was formidable, it was impossible to gain the opportunity.

Ye Tian glanced at the tomb, which was in the shape of a giant Buddha. In front of the Buddha was a huge tombstone, which recorded the origins and deeds of the tombs owner.

Miyoi Great God! Ye Tian murmured.

From the introduction on the tombstone of the Miyoi Great God, it was learned that the Great God was a Buddhist cultivator, a Great God powerhouse from Silver Buddha Star.

And this Great God also left behind a requirement for the test.

Those who possess a heart inclined towards Buddhism may take the test and receive the opportunity I bestow! This was a phrase on the back of the tombstone.

How can one test for a heart inclined towards Buddhism? A Heavenly Pride frowned.

But he rushed towards the giant Buddha regardless, trying to enter its interior directly.

At that moment, a formation barrier stopped him; he couldnt enter at all.

Ye Tian also tried, but he couldnt enter the interior of the giant Buddha either.

Moreover, even if one could enter, one wouldnt dare to. How could a Great God powerhouse not set up a killing formation in his tomb before death? If one forcibly entered, even a True God might not be able to survive.

Let this humble monk give it a try! The only Buddhist cultivator among the dozen or so Heavenly Prides spoke up.

This Buddhist cultivator was not very strong, merely a three-star Heavenly Pride.

He walked towards the giant Buddha step by step with his hands clasped together.

Boom!!! A towering Buddha shadow appeared on the giant Buddha, enveloping this part of the world.

Instantly, a ray of Buddha light wrapped around this Buddhist cultivator.

In the next moment, the Buddhist cultivator disappeared, presumably taken for the test.

A heart inclined towards Buddhism, this is obviously prepared for Buddhist cultivators, it has nothing to do with us! Ye Tian shook his head and left the place, and the other Heavenly Princes also left one after another.

The Divine Tomb World was full of countless opportunities. Why force oneself for an opportunity that didn't belong to oneself?

In the following days, Ye Tian encountered many tombs, but undoubtedly, he did not meet the requirements for any of them.

It was really because some of the requirements left by the Great God powerhouses were specific. They obviously didn't want outsiders to gain the opportunity, preferring to leave it for their own descendants or sect disciples.

Some Great God powerhouses were even selfish, not leaving behind any opportunity at all, just establishing a tomb that left others helpless.

Therefore, finding an opportunity that belonged to oneself was not an easy task.

One day.

Ye Tian came across another huge tomb, which was shaped like a giant tower, with a tombstone in front of the tower as well.

Invincible Sword God!

Ye Tian looked at the tombstone, seeing the unyielding realm of sword art, as if it had traversed countless years, that sword still crushing through time and space.

The Invincible Sword God was a Great God powerhouse, and he left behind an opportunity.

Release your sword realm, and the test will present itself! Ye Tian saw this and released his own sword realm.

Boom!!! A sword realm enveloped this part of the world.

In an instant, the environment changed, as another terrifying sword realm descended, colliding with Ye Tians sword realm.

This was a pure collision of sword realms! Ye Tians sword realm was as high as 55%, not weak at all. Even many God level powerhouses who used sword techniques were not as good as Ye Tian in sword realm.

Because the sword realm was correlated to ones sword technique talent, if the sword technique talent was low, even after cultivating for millions of years, it would be impossible to raise the sword realm.

This was the helplessness of many sword wielders!

Boom!

The collision between the two sword realms was intense. The opponents sword realm was purer, more ancient, and more powerful. But Ye Tians sword realm was not much weaker, barely managing to contend with the opponent.

Time passed by! If it were another Heavenly Pride with a sword realm, they definitely couldnt have held on, but Ye Tian persisted.

An hour passed!

Two hours passed!

Three hours passed!

After a full five hours, the opponents sword realm suddenly dissipated, and Ye Tian felt an immense relief, taking a deep breath.

Test passed, you can obtain an Eight-Star Wondrous Object, the Ancient Sword Stele!

Chapter 384: The Great Flame Extinguishing Hand, Minor Accomplishment Realm

An eight-star wondrous object, the Ancient Sword Stele!!!

Ye Tian was utterly stunned, his face a picture of shock.

This was the eight-star wondrous object, the Ancient Sword Stele, a treasure of the same caliber as the Heavenly Sword Stele of the Heavenly Sword Secret Realm. Its value was unimaginable.

Many True Gods longed to enter the Heavenly Sword Secret Realm for its benefits.

But now, he had actually obtained the eight-star wondrous object, the Ancient Sword Stele. Didn't this mean that he could, from now on, be equivalent to cultivating in the Heavenly Sword Secret Realm at all times!

The Invincible Sword God must have had no sect; otherwise, he would have left such a treasure within his sect before death, rather than bringing it into his tomb and setting up a test to bestow it upon a later generation!

Ye Tian pondered.

It had to be said, the Invincible Sword God was truly generous, even bestowing such a treasure upon later generations.

Boom!!!

The void trembled! A giant sword stele, hundreds of meters tall, appeared in front of Ye Tian. It was indeed the Ancient Sword Stele.

Looking at this Ancient Sword Stele, Ye Tian felt an aura similar to that of the Heavenly Sword Stele, both belonging to the same level of treasures.

Collect!

Ye Tian effortlessly took the Ancient Sword Stele into his Xumi Storage Realm, finally feeling at ease.

In this trip into the Divine Tomb World, just getting this Ancient Sword Stele is a huge gain!

Ye Tian thought with a smile on his face.

The test was over, and the treasure was taken. Ye Tian found himself back in front of the tombstone in the graveyard.

Thank you, Senior Invincible Sword God!

Ye Tian expressed his gratitude.

Then, he prepared to leave.

At this moment.

The tomb of the Invincible Sword God trembled slightly, and a will of the sword burst forth from the void, seemingly responding to Ye Tian.

Seeing this, Ye Tian was slightly surprised, Is this the residual will of the Invincible Sword God? A pity it has no self-awareness. The Invincible Sword God is still dead and cannot be revived!

Ye Tian did not linger and left the place.

In the following months, Ye Tian encountered many gravesites. Although most had no opportunities, he still found some in certain gravesites.

However, these opportunities were not very valuable, mostly consisting of cultivation resources and weapons.

What satisfied Ye Tian more was that he obtained a lower-grade divine artifact level sword, which greatly helped him and could enhance the power of his sword techniques.

In addition, he also acquired several yuan force defense secret techniques and several divine power defense secret techniques.

Unfortunately, these yuan force and divine power defense secret techniques were of little use to him, not even comparable to the Dark Scales Demon Body Technique.

Of course, these items, if brought out, would be enough to drive many emperors mad.

Regrettably, Ye Tian had obtained many opportunities before, and his strength had reached the level of an eight-star peerless Heavenly Pride, so there were not many opportunities that could catch his eye.

One day.

As Ye Tian was flying in the sky, he suddenly saw a sea of fire rising in the distance.

In the sea of fire phenomenon, a figure stood there, its aura as if it had frozen billions of times, standing there like an invincible existence from ancient times.

So powerful!

Even from a great distance, Ye Tian could feel the strength of this person, no, the strength of this will.

This was clearly a manifestation of will, someone had triggered the gravesite of that terrifying existence, causing the will to manifest. The will was so powerful that it affected such a far range, allowing Ye Tian to see it.

Lets go take a look!

Ye Tian quickly flew over.

Soon, Ye Tian arrived at the destination, where many Heavenly Prides had also gathered.

Heavenly Pride of Ten Thousand Laws!

Heavenly Pride of Ten Thousand Laws!

Heavenly Pride of Ten Thousand Laws!

Many Heavenly Prides greeted Ye Tian.

Whats the situation with this gravesite? Ye Tian asked casually.

One Heavenly Pride said, Heavenly Pride of Ten Thousand Laws, this is the gravesite of a level powerhouse, and the Eternal Flame Heavenly Pride from Silver Flame Star triggered the gravesites test mechanism and succeeded in the test. He is now receiving the opportunity, causing the gravesite owners will to manifest.

Ye Tian stood in front of the tombstone, taking a closer look, and then understood what this so-called test was about.

Any emperor with fire attribute divine abilities can take the test!

Seeing this line of text, Ye Tians heart moved.

He did have fire attribute divine abilities, which meant he also had the chance to obtain this opportunity.

Thus, Ye Tian walked over.

The next moment, Ye Tian disappeared.

At this time, many Heavenly Prides were shocked.

The Heavenly Pride of Ten Thousand Laws has fire attribute divine abilities? I havent heard of that!

Divine abilities are so rare. I didnt even know about them before. If I hadnt come here and heard other Heavenly Prides mention divine abilities, I would have been completely unaware of them.

I cant believe the Heavenly Pride of Ten Thousand Laws, with no significant background, has actually cultivated a fire attribute divine ability. Isnt his main focus supposed to be sword techniques and spatial talents? This is too monstrous!

The Heavenly Pride of Ten Thousand Laws is a peerless Heavenly Pride, and its said to be a seven-star peerless Heavenly Pride. Its normal for him to be a bit monstrous!

Im envious. This is the gravesite of a planetary level powerhouse. The opportunity must be significant. Its a pity we dont have fire attribute divine abilities and cant obtain the opportunity!

Lets go. We might as well look for other gravesites. Staying here is just a waste of time!

After a while, many Heavenly Prides left, but many more arrived.

At the testing ground.

In a void, Ye Tian stood there.

Suddenly.

A fire attribute law diagram appeared in front of Ye Tian.

At the same time, a voice sounded: Within ten days, perfectly comprehend and replicate this fire attribute law diagram, and you will pass the test!

Testing my aptitude in the fire attribute laws, huh?

Ye Tian smiled slightly.

In terms of aptitude, he had a huge advantage! Who else had such a top-tier talent for comprehension? This test was practically cheating for him! Top-tier talent for comprehension, activate!

Ye Tian began to comprehend the fire attribute law diagram.

This was a rather simple fire attribute law diagram, not profound or mysterious, and with the amplification of Ye Tians top-tier talent for comprehension, he easily fully understood the diagram.

In just a few hours, Ye Tian successfully comprehended the fire attribute law diagram, but he did not immediately replicate it. Instead, he delayed, waiting until a day had passed before replicating the diagram.

He did this to avoid shocking others and to keep a low profile.

However, if others knew of Ye Tians achievement, it wouldnt be low-key at all; it was still astonishing!

Test successful, you are granted three drops of fire attribute origin divine essence!

The voice descended once again.

Boom!!! Ye Tian was teleported above a sea of fire.

At this time, he saw a Heavenly Pride sitting in the distance, seemingly refining something.

Eternal Flame Heavenly Pride!

Ye Tian recognized him. The Eternal Flame Heavenly Pride was not a peerless Heavenly Pride, just a five-star Heavenly Pride. But he also had the hope of stepping into the realm of peerless Heavenly Prides.

Moreover, Ye Tian could feel the power of the fire attribute divine ability on the other party increasing, as if moving towards the realm of peerless Heavenly Prides.

Whoosh whoosh whoosh!!!

Three drops of fire attribute origin divine essence suddenly flew out from the depths of the sea of fire, landing in front of Ye Tian.

At the same time, a wave of information flooded into Ye Tians mind.

This information was about the introduction and uses of the fire attribute origin divine essence.

The fire attribute origin divine essence can actually enhance the level of fire attribute divine abilities!!!

Ye Tian was quite surprised.

Now, he finally understood why this gravesites owner only allowed Heavenly Prides with fire attribute divine abilities to enter, because the reward was prepared for those with fire attribute divine abilities, and it was useless for other Heavenly Prides to come.

I never thought that there would be treasures in this world that could enhance the level of fire attribute divine abilities. The value of this fire attribute origin divine essence must be extremely high, perhaps not even possessed by Great Gods.

Ye Tian speculated.

He couldn't help but marvel at the wealth of a planetary level powerhouse, offering such precious treasures so readily.

Refine!

Ye Tian sat cross-legged and began to refine the three drops of fire attribute origin divine essence.

According to the information, the fire attribute origin divine essence was very special and difficult to preserve. It could be preserved in this sea of fire, but once taken out, it would quickly return to the natural world.

Therefore, to refine the fire attribute origin divine essence, one had to do it here.

This was also the reason the Eternal Flame Heavenly Pride had not left! Ye Tian swallowed the three drops of fire attribute origin divine essence and activated the Great Flame Extinguishing Hand to absorb the energy of the fire attribute origin divine essence.

Boom!!!!

The power of the fire attribute origin divine essence gradually infiltrated into the mark of the Great Flame Extinguishing Hand, a fire attribute divine ability.

My Great Flame Extinguishing Hand is at the initial stage of divine abilities. I wonder if these three drops of fire attribute origin divine essence can elevate it to the minor accomplishment stage!

Ye Tian was quite expectant.

As time passed, a month flew by in the blink of an eye.

On this day.

Ye Tian's Great Flame Extinguishing Hand suddenly underwent a transformation.

The Great Flame Extinguishing Hand has reached the minor accomplishment stage, its power has increased by several times!

Ye Tian was very excited.

Moreover, the three drops of fire attribute origin divine essence had not been completely consumed and could continue to be refined.

So, Ye Tian refined for another month, advancing the Great Flame Extinguishing Hand a little further before the energy of the fire attribute origin divine essence was completely exhausted.

Chapter 385: Unique Beings of the Divine Tomb World

Cultivating to the Minor Accomplishment stage of the Great Flame Extinguishing Hand is equivalent to saving many years of hard cultivation!

Ye Tian smiled.

If he were to cultivate the Great Flame Extinguishing Hand to the Minor Accomplishment stage himself, he didn't know how long it would take. But now, three drops of fire attribute origin divine essence had advanced his Great Flame Extinguishing Hand to the Minor Accomplishment realm, and even made a small step towards the Major Accomplishment realm.

It could be said that the breakthrough of the Great Flame Extinguishing Hand had slightly improved Ye Tian's strength.

By this time, the Heavenly Pride of Eternal Flame had already left, and Ye Tian departed as well.

Whoosh!

Coming out of the tombs fiery space, Ye Tian noticed many envious gazes from other Heavenly Prides.

After all, the opportunity left behind by a planetary level powerhouse was bound to be extremely precious, and everyone envied that Ye Tian had successfully obtained such an opportunity.

Swish! Ye Tian left, paying no attention to these Heavenly Prides.

His time in the Divine Tomb World was limited, so naturally, he wouldn't waste it.

Time passed by.

At this point, many weaker Heavenly Prides were gradually unable to withstand the erosion of the necrotic energy and left the Divine Tomb World one after another.

Ye Tian was also feeling uncomfortable. According to his estimation, he could stay in the Divine Tomb World for another five months.

The closer to the core of the Divine Tomb World, the denser the necrotic energy. Some powerful Gods or planetary level powerhouses also wished to establish their tombs in places with dense necrotic energy, thus there were many tombs in the center of the Divine Tomb World.

However, the Heavenly Prides were reluctant to enter the center of the Divine Tomb World because the necrotic energy there was so dense that they wouldn't last long if they ventured deeper.

But Ye Tian was no longer satisfied with the opportunities on the outskirts of the Divine Tomb World. His strength had reached the level of an 8-star peerless Heavenly Pride, and ordinary opportunities were useful for other Heavenly Prides but not for him.

Therefore, he had to take a risk.

Head to the central location of the Divine Tomb World!

Ye Tian decided.

Moreover, he had a trump card.

He possessed spatial talent, allowing him to phase into space. Although the necrotic energy in the Divine Tomb World was formidable, it had not reached the extent of invading deep into space.

Swish! Ye Tian phased into space and rapidly headed towards the central location of the Divine Tomb World.

Ye Tian was extremely fast, and soon he arrived at the central location of the Divine Tomb World.

However, the situation in the center of the Divine Tomb World was quite surprising to him.

It was a sea!

The Sea of Death!

Ye Tians pupils shrank.

This sea was entirely formed by the liquefaction of extremely dense necrotic energy, which showed just how dense the necrotic energy was here.

Standing within the space, Ye Tian sent out his divine consciousness, scanning the surroundings.

Suddenly.

He saw a skeleton. The skeleton had turned into white bones, but from the aura on the bones, it could be inferred that this was an emperor-level being, and not a weak one at that.

It must be a Heavenly Pride!

Ye Tian guessed.

This was a Heavenly Pride who died due to the sea, obviously attempting to enter the Sea of Death. But before he could enter, he was eroded by the dense necrotic energy and died right there.

Even I might not be able to last long!

Ye Tians expression was very solemn.

Although he possessed the life, healing, and immortality talents, the necrotic energy here was endless. Once his vitality was exhausted, he would also die.

However, compared to other Heavenly Prides, he could last a bit longer.

Ye Tian entered the Sea of Death, but in the manner of phasing through space. He dared not come out, or the countless necrotic energies would overwhelm him, and he estimated he couldnt withstand it.

Above the Sea of Death.

The necrotic sea water churned, wave after wave, as if it were a real sea.

But Ye Tian was very aware that a single drop of this sea water could kill a Heavenly Pride.

The Sea of Death was not very large, and soon Ye Tian arrived at the center of the Sea of Death.

At this time, Ye Tian was shocked to discover a tomb.

Yes, a very large tomb, built on a giant turtle shell as its foundation, sat atop the Sea of Death.

Lord of Ruins!

Through the space, Ye Tian saw the inscription on the tombstone and learned the origin of the owner of this tomb.

The Lord of Ruins was the title of the owner of this tomb. According to his own account, he was a galaxy-level powerhouse who had built this tomb on the Sea of Death. If a Heavenly Pride could reach this place, he would bestow upon them an astonishing opportunity.

There was no test! As long as one could arrive here, they could receive the opportunity.

Because reaching this place was unimaginably difficult in itself, Heavenly Prides simply couldn't make it here. To come was to court death! It could even be said that those True Gods and Great Gods would not dare to enter here.

The necrotic energy would also devour the flesh of these True Gods and Great Gods. Although their strength was formidable, once they reached the God level, their physical bodies could no longer improve. Generally, beings above the God level didn't even have physical bodies as strong as Ye Tians.

Even if divine bodies were somewhat more resistant to the necrotic energy than emperor-level beings, it was estimated that they would have a hard time resisting the necrotic energy here unless they were determined to face certain death.

Because of this, it was estimated that no one knew of the existence of a tomb here.

Could it be that the owner of this tomb was looking for an inheritor with an invincible physical body?

Ye Tian thought.

Other than having an invincible physical body, he couldn't think of anyone else who could reach this place. Even though he had arrived here, he only dared to hide in space and didn't dare to come out at all.

This place had the densest necrotic energy in the Divine Tomb World. He estimated that he would die if he came out.

What a pity, the opportunity here must be unimaginable. The Milky Way probably doesn't have any galaxy-level powerhouses now. The Lord of Ruins must have been a heaven-defying existence in the Milky Way from eons ago. How precious the opportunity he bestows must be!

Ye Tian sighed.

But between opportunity and life, he naturally chose life.

Knowing that there wasn't even a one in ten thousand chance of success, why would he take the risk? Wouldn't that be seeking death? Ye Tian was preparing to leave, unable to obtain the opportunity here and having to give up.

But just as he was about to leave, a sound from the distance caught his attention.

It wasn't the sound of sea waves, but the sound of something slapping the water.

There's life!

Ye Tian was stunned.

Since entering the Divine Tomb World, he hadn't encountered a single living being because this place was filled with necrotic energy, making it impossible for living beings to survive here.

He hadn't sensed it wrong just now; there was definitely a living being that had slapped the necrotic sea water.

It was like the scene of a fish slapping in the sea! Ye Tian was excited. If a special being had indeed been nurtured here, then if that special being could survive here, he might be able to find a special talent from it.

Xumi Eye!

Ye Tian activated the secret technique, the Xumi Eye, piercing through space with his gaze towards the Sea of Death.

Immediately, the situation in the surrounding sea area appeared before his eyes.

Ye Tian kept searching.

Soon, he made a discovery.

What is that

Ye Tian saw a fish, or rather, it couldn't be called a fish, because it had hands and feet, but its body was similar to a fish. It could be described as a fishman.

This fishman probably didn't have much intelligence, swimming around in the sea like an ordinary fish, not appearing bored even though it was alone.

Copy Talent, encompass!

Ye Tian approached the fishman, his soul power permeating through space, enveloping the nearby area with the range of Copy Talent.

In an instant, the talent situation of the fishman appeared before Ye Tian.

Type: Necrotic Ghostfish

Bloodline Talent: Dawn

Necrotic Talent: Top-tier

Devouring Talent: Mystic

The Necrotic Ghostfish didn't have many talents, appearing quite ordinary, but Ye Tian was interested in its top-tier necrotic talent! The physique of this Necrotic Ghostfish must be related to necrosis, but it could survive comfortably in the Sea of Death. The top-tier necrotic talent must be able to absorb the necrotic energy.

Ive copied the top-tier necrotic talent. Even if I cant roam the Sea of Death like the Necrotic Ghostfish, theres definitely hope to resist the necrotic energy of the Sea of Death.

Ye Tian was absolutely confident.

Thus, he copied the top-tier necrotic talent of the Necrotic Ghostfish.

After successfully copying, Ye Tian didnt linger here but headed towards the outskirts of the Sea of Death.

He needed to integrate the top-tier necrotic talent, which naturally couldnt be done on the Sea of Death.

Therefore, he now needed to find a safe place to do so.

Chapter 386: The Art of Immortality, A Heaven Defying Secret Technique

Ye Tian moved away from the Sea of Death and arrived at a place where the necrotic energy wasnt too dense. He then emerged from the spatial realm.

Integrating top-tier necrotic talent!

Ye Tian silently endured the pain brought by the integration of the necrotic talent. However, this pain was quite minimal, as it was only a top-tier talent. Even though the necrotic talent was peculiar, it didnt cause Ye Tian too much suffering.

Ten minutes passed, and Ye Tian successfully integrated the top-tier necrotic talent.

Immediately, he understood the use of this top-tier necrotic talent.

Absorbs necrotic energy to enhance physical strength!

Therefore, the necrotic talent was also a method to improve strength, but its usefulness was not significant.

However, for Ye Tian, the greatest use of this necrotic talent under the current circumstances was not to enhance strength but to resist the aura of the Sea of Death.

With the effect of the top-tier necrotic talent, I should be able to withstand the aura of the Sea of Death!

Ye Tian thought.

But whether he could really withstand it needed to be tested.

Thus, Ye Tian flew towards the Sea of Death.

This time, he did not phase into the spatial realm but flew directly there.

Along the way, Ye Tian activated the necrotic talent to absorb the necrotic energy that entered his body. His physical strength was improving at a very slow pace, much better than the effect of yuan qi tempering his body but not as fast as using resources for cultivation.

However, it was undeniable that the necrotic energy didnt harm Ye Tian much anymore.

Before long, Ye Tian arrived at the Sea of Death.

He looked at the corpses of the Heavenly Prides lying at the edge of the Sea of Death, took a deep breath, and stepped into the Sea of Death.

Boom!!!! Numerous auras of dead spirits, as if they had sensed Ye Tians presence and considered him delicious food, surged towards him.

The aura of the living and the aura of necrosis were incompatible. It was just like a drop of clean water entering ink, instantly swallowed; the principle was similar.

Necrotic talent, absorb!

Ye Tian exerted his necrotic talent to its fullest, frantically absorbing the necrotic energy that entered his body to prevent them from corroding his flesh.

I withstood it!

Ye Tian breathed a sigh of relief.

The effect of the necrotic talent was excellent. Although it did not completely negate the damage caused by the necrotic energy, it at least prevented him from dying.

However, Ye Tian couldn't stay here for long; otherwise, his body would still be corroded by the necrotic energy, and he would die here.

Phasing into the spatial realm!

Ye Tian activated his spatial talent and entered the spatial realm, immediately heading towards the tomb of the Lord of the Ruins above the Sea of Death.

Before long, he arrived at the tomb of the Lord of the Ruins.

Whoosh! Ye Tian emerged from the spatial realm and stepped onto the turtle shell where the tomb was located.

Then, he walked towards the tomb.

Boom! The tomb sensed Ye Tian's arrival, and a beam of light enveloped him, seemingly checking his identity.

If Ye Tian were not human, he definitely wouldn't be eligible for the opportunity left by the Lord of the Ruins.

The light quickly faded, seemingly confirming Ye Tian's identity.

Just then, the figure of an old man, as if coming from the depths of time and space, appeared.

His appearance caused the waters of the Sea of Death to solidify, and the void was also sealed.

Ye Tian could only watch as the phantom appeared, unable to move.

However, he wasn't the slightest bit worried because he didn't feel any danger.

The phantom left by the Lord of the Ruins, huh!

Ye Tian looked at the phantom of the old man and thought to himself.

The phantom of the Lord of the Ruins spoke, Young man, I don't know who you are, but your ability to come here and trigger the appearance of this phantom I left behind indicates that you are an Emperor level and have arrived at my tomb.

I must congratulate you; you are about to receive a tremendous opportunity.

You don't need to ask me anything. I am now just a phantom, merely narrating the words I left behind, so I cannot hear the questions of people from countless years in the future.

What I want to tell you is that I once obtained an astonishing inheritance, but unfortunately, I did not master this inheritance.

This inheritance could increase a person's lifespan, not just by a little, but by a great deal, almost defying the laws of the universe.

As my life approached its limit, I discovered the Divine Tomb World within the Milky Way and then ventured into this Divine Tomb World, intending to use its endless aura of death to reverse my vitality and cultivate that secret technique inheritance, thereby rejuvenating myself.

Unfortunately, I still failed, but in the moment of failure, I finally grasped a truth.

When a person reaches the God level, their physical body becomes fully formed, and it becomes nearly impossible to cultivate this secret technique. Only at the Emperor level, when the physical body hasn't fully settled, would there be a chance to cultivate this technique.

However, this technique requires absorbing the aura of death to reverse vitality, and the aura of death inflicts too much damage on the physical body, which is very fragile at the Emperor level, making it difficult to withstand such a degree of erosion by the aura of death.

Therefore, I built my tomb in the center of the Sea of Death. If an Emperor was able to reach this place, perhaps he might have a chance to cultivate this secret technique.

That's all I have to say. The inheritance of the secret technique is yours, whether to cultivate it or not is up to you!

Whoosh! The phantom of the Lord of the Ruins disappeared.

The next moment.

A golden scroll appeared in front of Ye Tian.

Then, the golden scroll unfolded, and countless ancient characters appeared in the air.

These ancient characters converged into a mysterious and profound secret technique inheritance.

The Art of Immortality!

Ye Tian was shocked by the effects of the Art of Immortality as he looked at its contents.

The Art of Immortality had three realms. Once the first realm was cultivated, it could extend one's life by 10,000 years. For instance, Ye Tian, currently at the Emperor level with a lifespan of 3,000 years, could obtain a lifespan of 13,000 years upon cultivating the Art of Immortality.

Perhaps this didn't seem impressive, as many treasures were able to extend life by tens of thousands of years. But, this was not just an addition of 10,000 years of life with no further increases; it continued to grow.

Normally, the lifespan of human Gods was 10,000 years. But Gods who cultivated the Art of Immortality would have an additional 10,000 years of lifespan.

In other words, once they reached the God level, they would have an extra 20,000 years of lifespan compared to a normal God, totaling 30,000 years of lifespan. When they reached the True God level, they would have an additional 40,000 years of lifespan compared to other True Gods.

This demonstrated the power of the first realm of the Art of Immortality.

Many ancient Gods, once they reached the limit of their lifespan, find it almost impossible to extend it. Despite life-extending treasures no longer being effective, the Art of Immortality could continue to increase ones lifespan across realms. Truly heaven-defying!

The second realm of the Art of Immortality was even more terrifying. It could directly increase ones lifespan by 100,000 years, with each realm adding 100,000 years of life.

As for the highest realm of the Art of Immortality, the third realm, once cultivated, granted eternal life.

Of course, Ye Tian didnt know if the eternal life mentioned by the Art of Immortality was an exaggeration, but since the Lord of the Ruins did not doubt the authenticity of the Art of Immortality, it must not be false.

A true great opportunity!

Ye Tian was extremely excited.

Such a secret technique, if spread out, would completely stir up the entire Milky Way.

Ye Tian quickly memorized the Art of Immortality and then destroyed the scroll.

Such a secret technique should not remain in the world; it was enough for him to remember it alone. If taken out, there may be mighty beings with special secret techniques capable of tracing this technique, which would cause him trouble.

Thus, keeping it in mind was the safest option.

Places with necrotic energy are rare; this is the best place to cultivate the Art of Immortality. I hope to cultivate the first realm of the Art of Immortality!

Ye Tian hoped.

Thus,

He sat directly on the turtle shell and began to comprehend the Art of Immortality.

Top-tier comprehension talent activated!

Time talent activated!

Ye Tian even took out several wondrous stone tablets that could enhance comprehension and placed them around him to assist in cultivating the Art of Immortality.

Five days passed, and Ye Tian had almost fully comprehended the Art of Immortality and then began to cultivate it.

As soon as he started cultivating the Art of Immortality, an unimaginable wave of necrotic energy surged towards him, as if it would corrode his physical body in an instant.

Ye Tian timely used the top-tier necrotic talent to absorb the necrotic energy, coordinating with the Art of Immortality to cultivate.

Its working! Ye Tian exclaimed.

Chapter 387: The First Stage of the Art of Immortality, 13,000 Years of Lifespan

A massive influx of necrotic energy surged into Ye Tians body. Although he withstood it, his body inevitably suffered damage.

From the outside, one could see Ye Tians body slowly corroding, while his life talent, healing talent, and immortality talent all activated simultaneously, restoring his physical body.

Meanwhile, his blood-devouring talent also consumed the blood of ferocious beasts stored in his personal space to replenish his vitality.

With the assistance of his top-tier necrotic talent, Ye Tian could cultivate in the Sea of Death for a considerable amount of time.

As time passed, the Art of Immortality gradually progressed.

Three days! Five days! Ten days! A month!

Despite having various means, Ye Tians physical body and vitality was greatly eroded.

For an ordinary Heavenly Pride, even if they could exit in time, it would likely take a long time to recover their vitality. However, Ye Tian was not concerned; he could restore his vitality in a short period if he left.

Therefore, he was indifferent to the corrosion of his physical body and the consumption of his vitality.

His only concern was the progress of the Art of Immortality.

This Art of Immortality is too perverse. I possess top-tier comprehension talent, top-tier immortality talent, mystic-level blood-devouring talent, mystic-level life talent, and mystic-level healing talent, along with necrotic talent. Yet, I can barely withstand the erosion of necrotic energy. Even if the Lord of Ruins could return to the Emperor level, he wouldnt be able to cultivate this technique! Ye Tian muttered to himself.

However, he felt he was about to succeed in cultivating the first stage of the Art of Immortality. As for the second stage, he was uncertain.

The second stage was even more perverse than the first, and the lower-level necrotic energy here was insufficient for cultivating the second stage.

Ye Tian was shocked to learn that the second stage of the Art of Immortality demanded even higher-level necrotic energy. He couldnt withstand the necrotic energy of the Divine Tomb world, so how could he withstand higher-level necrotic energy? Even with the appropriate

environment to cultivate the second stage of the Art of Immortality, Ye Tian dared not attempt it, unless he sought death!

Of course, Ye Tian was not in a hurry to cultivate the second stage because once the second stage was achieved, he could continue to cultivate even as a God-level being, unlike the Lord of Ruins who could no longer practice.

Cultivating the first stage was like laying the foundation. Only by cultivating the first stage at the Emperor level could one continue to cultivate the second and third stages.

In the blink of an eye, five months passed.

Ye Tian had been cultivating the Art of Immortality for five months, with nearly eighty percent of his physical body corroded by necrotic energy, his strength reduced to one-tenth, and his vitality greatly depleted.

Such injuries were undoubtedly severe and near death, but Ye Tian persevered.

Now, he was about to successfully cultivate the Art of Immortality!

Immortality Art, break!

Ye Tian roared inwardly.

Boom!

The shackles in the unknown were shattered by Ye Tian, and the necrotic energy within his body began to transform into rich and pure vitality under the effect of the Art of Immortality.

Instantly, Ye Tians vitality regenerated at an incredible rate.

In such a state, the parts of Ye Tians body corroded by necrotic energy regenerated at an incredible speed.

My lifespan is increasing!

Ye Tian distinctly felt the transformation of his physical body.

Similar to evolution, although his physical strength didn't increase much, his lifespan significantly extended.

After half a day, the transformation was complete.

Ye Tian clearly sensed that his lifespan had increased by 10,000 years, meaning his maximum lifespan had reached 13,000 years, far longer than the lifespan of an ordinary God-level human.

Who wouldn't want to live longer? Moreover, Ye Tian possessed the time talent. With just a high-level time talent, he could accelerate time by tenfold. As his time talent improved, he could accelerate time even faster. With such a long lifespan, he wouldn't have to worry about running out of time and could confidently use his time talent for cultivation.

Thus, Ye Tian greatly desired a longer lifespan.

Having cultivated the Art of Immortality, Ye Tian's body had almost recovered, and he prepared to leave.

Continuing to stay in the Sea of Death offered no benefit to him. After all, the Sea of Death alone couldn't enable him to cultivate the second stage of the Art of Immortality.

Furthermore, having stayed in the Divine Tomb world for a year, if he didn't leave now, it would inevitably cause a lot of trouble.

If other forces learned that he could stay in the Divine Tomb world for a long time without his lifespan being affected, it would surely lead to significant problems.

Before leaving,

Ye Tian deliberately allowed the necrotic energy of the Sea of Death to erode his physical body to a certain extent without repairing it and then flew away like that.

To make the disguise convincing, he left the Divine Tomb world in such a severely eroded state. Who would suspect him?

Swish!

Ye Tian flew swiftly, quickly arriving at the exit of the giant bone gate of the Divine Tomb world.

Boom!

Ye Tian flew out, arriving above the planet in the outside world.

Immediately after, he flew into the starry sky.

At this time,

Many Heavenly Prides were already sitting cross-legged here, recovering from the erosion of their physical bodies by the necrotic energy. He was relatively late in returning.

Ye Tian also pretended to start repairing his physical body, showing no abnormalities.

Time slowly passed.

At this moment,

A Great God level powerhouse took out a mysterious compass and deduced, saying, The Divine Tomb world is now devoid of Heavenly Prides; it can be closed!

Boom!

The Divine Tomb world closed, and the entrance disappeared.

At this time,

Great God Changqing spoke, Everyone board the cosmic spaceship; Ill take you back!

The Heavenly Prides on Silver Universe Star one by one flew into the cosmic spaceship, which then took off.

Ye Tian scanned the area and found that three Heavenly Prides hadnt returned, likely having perished in the Divine Tomb world.

Although the Heavenly Prides knew not to court death and would almost never die in the Divine Tomb world, there may be some dangerous Great God level assessments. It was not impossible to die during an assessment. Furthermore, the Divine Tomb world was not small, so skirmishes between each other were also possible.

Therefore, it made sense that a few Heavenly Prides died!

Soon, the cosmic spaceship returned to Silver Universe Star, and the Heavenly Prides went their separate ways.

Ye Tian also received the date for the true start of the Battle of Heavenly Prides half a year later!

Half a year later, the Pan Star Fields Battle of Heavenly Prides would commence. If one had not embarked on the path to Godhood by then, it meant participation in the Battle of Heavenly Prides. That is, unless they hid away.

However, the Battle of Heavenly Prides lasted a long time, so hiding away would be less practical than directly striving for Godhood!

Qingfeng Giant City.

After returning from the Divine Tomb world, Ye Tian began his closed-door cultivation.

This time, his main cultivation task was to comprehend the Dao of the Sword.

Now, having obtained the Ancient Sword Stele, he could comprehend the Dao of the Sword at any time, ensuring rapid progress in his swordsmanship.

With tenfold time acceleration, top-tier comprehension talent, the Ancient Sword Stele, and supreme sword technique talent,

These advantages combined allowed Ye Tian to continuously improve from a 55% mastery of the Dao of the Sword.

In just one month, Ye Tian comprehended the Dao of the Sword to a 58% mastery.

But at this time, Ye Tian clearly felt that comprehension was becoming increasingly difficult.

Another month passed, and Ye Tian elevated his mastery of the Dao of the Sword to 60%.

Reaching 60% mastery of the Dao of the Sword meant that Ye Tian could comprehend the Super God-level sword technique, the Phantom God Sword Technique, to the major realm.

Mastering a Super God-level sword technique would significantly boost Ye Tians combat power!

In the following days, Ye Tian spent most of his time cultivating the Phantom God Sword Technique, which couldnt be mastered immediately and required countless sessions of cultivation.

Thus, after nearly a month of intense cultivation, Ye Tian finally comprehended the Phantom God Sword Technique to the major realm.

With the Phantom God Sword Technique mastered, Ye Tian clearly felt a significant increase in his strength.

Chapter 388: The Start of the Battle of Heavenly Prides

In the blink of an eye, several months had passed, and the Battle of Heavenly Prides was about to commence.

At this time, Ye Tians progress in the Dao of the Sword was significantly noticeable, as he had now reached the 64% realm.

Once he reached the 65% realm, Ye Tian could even perfect the cultivation of the Phantom God Sword Technique.

However, Ye Tian did not make much progress in palm techniques, because he spent most of his time on the Sword Dao and sword techniques.

On this day, Ye Tian entered the virtual world of the Heavenly Pride Pavilion.

He checked the Heavenly Pride List and noticed that the number of Heavenly Prides from Silver Universe Stars Heavenly Pride Pavilion had drastically decreased.

Once boasting over 300 Heavenly Prides, now only about eighty to ninety remained. The others had vanished from the Heavenly Pride List, indicating they were no longer considered Heavenly Prides.

The remaining eighty to ninety Heavenly Prides were undoubtedly set to participate in the Battle of Heavenly Prides.

However, this did not mean that these eighty to ninety Heavenly Prides would persist until the end of the Battle of Heavenly Prides.

Should they decide to abandon their Heavenly Pride title to challenge the God level, they could forfeit their place in the Battle of Heavenly Prides.

The true survivors of the Battle of Heavenly Prides would only be the most top-tier Heavenly Prides.

Soon, several more days passed.

On this day, in the central region of the Pan Star Field.

Within a vast expanse of starry space.

Several towering figures appeared, as if they enveloped the entire starry sky.

The time is almost right, its time to start the Battle of Heavenly Prides!

We hope that this time, a Child of the Universe will emerge from our Pan Star Field!

Yes, among the many human star fields, quite a few powerful ones have already produced one or even multiple Children of the Universe. Yet, our Pan Star Field has not produced a single one.

Talking about this is pointless, lets just start the Battle of Heavenly Prides!

Alright, I will now unveil the Heavenly Pride Golden List!

Boom!

A giant golden list, spanning thousands of miles, rose into the air, covering this piece of the starry sky.

Soon, the mysterious power of this Heavenly Pride Golden List spread throughout the entire Pan Star Field.

At this moment, the aura of all the Heavenly Prides within the Pan Star Field was captured by the Heavenly Pride Golden List.

Instantly, titles of Heavenly Prides appeared on the list.

Countless names of Heavenly Prides appeared on their shoulders, along with a ranking for each.

These rankings were arranged based on the Heavenly Prides destiny, not their strength.

For example, some Heavenly Prides were very strong but had not made a name for themselves, and thus their destiny was low.

While some Heavenly Prides might not be as powerful, they were born into top-tier forces within the Pan Star Field, making their destiny very strong.

However, being weak in strength but strong in destiny was not necessarily a good thing, as such Heavenly Prides are more likely to become targets for other Heavenly Prides.

The Heavenly Pride Golden List recorded all the names of the Heavenly Prides and then merged into the void, disappearing from sight.

Simultaneously, all the Heavenly Prides within the Pan Star Field sensed this, knowing that the Battle of Heavenly Prides had begun.

And all the Heavenly Prides were now connected in consciousness to the Heavenly Pride Golden List in the center of the Pan Star Field, allowing them to see the names and rankings of the Heavenly Prides on the list.

In Silver Universe Star.

Ye Tian also sensed the existence of the Heavenly Pride Golden List. He connected his consciousness to the Heavenly Pride Golden List in the void, where he saw his ranking.

Ranked 105,000th, Heavenly Pride of Ten Thousand Laws!

Seeing this ranking, Ye Tian was extremely surprised.

Im actually ranked over 100,000, so low!

Although Ye Tian was surprised, he understood after some thought that the tens of thousands of Heavenly Prides ranked before him were not necessarily stronger than him; its just that their destinies were stronger.

The Milky Way was relatively weak within the many other galaxies in the Pan Star Field.

The powerful galaxies had produced many strong Heavenly Prides, whose fame has spread far and wide, making their destinies high and naturally ranking above Ye Tian.

Ye Tian searched the Heavenly Pride Golden List and found that the two seven-star Heavenly Prides from the Milky Way, in terms of destiny, were much stronger than him.

For instance, the Golden Light Heavenly Pride was ranked over 70,000th. It wasn't very high, but still much higher than Ye Tian's ranking.

Yet in terms of strength, Ye Tian could easily defeat the Golden Light Heavenly Pride.

This was the advantage of fame.

The Golden Light Heavenly Pride had made a name for himself outside the Milky Way, gaining a strong destiny.

Although Ye Tian had a great reputation in the Milky Way, outside of it, he was hardly known, hence his average destiny.

However, now during the Battle of Heavenly Prides, destiny could be plundered. Ye Tian simply needed to continuously defeat one Heavenly Pride after another to accumulate a large amount of destiny. Thus, improving his ranking was a relatively simple matter.

Ye Tian did not challenge the weaker Heavenly Prides of the Milky Way because there was no need. Even though these weaker Heavenly Prides possessed considerable destiny, defeating them would likely not grant him much destiny.

Only by defeating those with stronger destiny than himself could he plunder a significant amount of their destiny.

Defeating a hundred weaker Heavenly Prides was not as valuable as defeating a single powerful Heavenly Pride.

Therefore, Ye Tian set his sights on the two seven-star Heavenly Prides of the Milky Way.

Before he could challenge the two seven-star Heavenly Prides, one of them came looking for him.

On this day.

The Silver King Heavenly Pride descended upon Silver Universe Star, arriving outside Qingfeng Giant City.

Heavenly Pride of Ten Thousand Laws, the Battle of Heavenly Prides has begun. Come out and fight me!

The voice of the Silver King Heavenly Pride reached inside Qingfeng Giant City.

At this time in Qingfeng Giant City, many martial warriors knew that the Silver King Heavenly Pride had arrived at Qingfeng Giant City in Silver Universe Star.

At the city lords mansion.

God Zilun and his daughter, Qin Zixuan, stood atop a majestic tower, gazing into the distance at the Silver King Heavenly Pride outside Qingfeng Giant City.

Father, who do you think is stronger, the Silver King Heavenly Pride or the Heavenly Pride of Ten Thousand Laws? Qin Zixuan inquired.

God Zilun sighed, The talent of the Heavenly Pride of Ten Thousand Laws is indeed heaven-defying. He became a seven-star Heavenly Pride in such a short time, which was beyond my expectations. Unfortunately, he has not been cultivating for long.

The Silver King Heavenly Pride is not an ordinary Heavenly Pride. When he rose to prominence, he also shocked the entire Milky Way. Afterward, he left the Milky Way and gained a great reputation in other galaxies.

In terms of strength, the Silver King Heavenly Pride is very powerful among the seven-star Heavenly Prides. The chances of the Heavenly Pride of Ten Thousand Laws winning are less than thirty percent.

Father, perhaps the Heavenly Pride of Ten Thousand Laws can win. I believe in his strength! Qin Zixuan said.

Somewhere in Qingfeng Giant City.

Ye Tian also heard the declaration of war from the Silver King Heavenly Pride and muttered, The Silver King Heavenly Pride is indeed impatient. I havent even challenged him yet, and he has come here to challenge me.

It seems he thinks my strength is the weakest among the seven-star Heavenly Prides, so he couldnt wait to challenge me, fearing that the Golden Light Heavenly Pride would challenge me first.

Silver King Heavenly Pride, how unfortunate of you to challenge me! Ye Tian left the villa and headed towards the outskirts of Qingfeng Giant City.

Soon, Ye Tian arrived at the location where the Silver King Heavenly Pride had declared war, facing him directly, with only a few dozen miles between them.

Heavenly Pride of Ten Thousand Laws, we have no grievances, but with the Battle of Heavenly Prides underway, I have no choice. Dont blame me for plundering your destiny! the Silver King Heavenly Pride confidently stated.

Ye Tian smiled slightly and responded, Silver King Heavenly Pride, the battle hasnt even started, and you think youve already won? I hope you wont regret it!

At this moment, many powerful beings above the God level in Qingfeng Giant City were secretly watching, observing the battle.

Even many powerful existences, from billions of miles away, were spying on this battle, and the scene was being transmitted to various places in the Milky Way.

Thus, many powerful forces in the Milky Way were paying attention to this battle.

They were also very curious about who was stronger between the Heavenly Pride of Ten Thousand Laws and the Silver King Heavenly Pride, these two peerless Heavenly Prides.

Boom!

The Silver King Heavenly Pride made his move, wielding a divine artifact spear and unleashing a Super God level spear technique, thrusting his spear forward.

The power of this spear was immense, capable of piercing through space and killing weaker six-star Heavenly Prides.

In normal circumstances, Ye Tian would keep a low profile and hide his strength. But with the Battle of Heavenly Prides underway, he could no longer afford to hide his strength unless he didn't want to become a Child of the Universe.

To defeat countless Heavenly Prides and gather destiny, Ye Tian was destined to engage in battles with numerous Heavenly Prides.

This battle was his first.

He intended to crush the Silver King Heavenly Pride with his formidable strength, declaring his invincible prowess.

Phantom God Sword Technique!

Ye Tian slashed with his sword.

With a thunderous roar, the Silver King Heavenly Prides divine artifact spear was sent flying by Ye Tians slash.

Then, the Silver King Heavenly Prides defensive divine artifact was penetrated, and his entire body was impaled.

A vast amount of blood spilled into the void.

The Silver King Heavenly Pride was sent flying backward, his aura becoming extremely weak.

Ye Tian had still held back; otherwise, that slash would have obliterated the Silver King Heavenly Pride.

At this moment, the entire scene fell silent, and the countless onlooking powerhouses were left with their mouths agape, in disbelief.

Chapter 389: The Strongest Heavenly Pride of the Milky Way

Just a second ago, no one would have believed this scene.

In a mere second, everything was settled.

Silver King Heavenly Pride was severely injured by a single strike and was unable to continue fighting. The gap between them was too vast, not even on the same level of combat power.

Inside Qingfeng Giant City, the pupils of God Zilun shrank, also incredibly shocked by Ye Tians strength. Considering Ye Tians current combat power, it seemed he would soon catch up to him! And yet, Ye Tian was only at the Emperor level, while he had cultivated at the God level for many years. If Ye Tian stepped into the God level, he could probably defeat him in an instant.

I underestimated Ye Tian once again, sighed God Zilun.

Beside him, Qin Zixuan watched the scene evolved by her father, clearly seeing Ye Tian defeating Silver King Heavenly Pride.

She covered her mouth in disbelief.

When had she ever expected Ye Tian to be so powerful? She had once undertaken missions with Ye Tian, not seeing him as particularly formidable at that time.

Yet, in such a short time, Ye Tian had continuously advanced within the ranks of Heavenly Prides, surpassing one-star, two-star, and three-star Heavenly Prides. Now, even one of the strongest Heavenly Prides of the Milky Way, Silver King Heavenly Pride, was helplessly defeated by Ye Tian, severely injured.

It was conceivable that Golden Light Heavenly Pride, who was on par with Silver King Heavenly Pride, was also no match for Ye Tian.

Ye Tian had truly become the strongest Heavenly Pride of the Milky Way, without a doubt.

Do you still wish to fight? Ye Tian gazed at Silver King Heavenly Pride and asked.

I concede! Silver King Heavenly Pride said weakly.

And at the moment of his concession, destiny emerged from his body, separating from him and merging into Ye Tian.

At this moment, Ye Tians destiny surged! Normally, destiny was invisible, but under the influence of the Heavenly Pride Golden List, the destinies of Heavenly Prides materialized, making it clearly visible.

Now, Ye Tian had absorbed a portion of Silver King Heavenly Prides destiny, significantly enriching his own.

Simultaneously, Ye Tians ranking on the Heavenly Pride Golden List rose substantially.

[Heavenly Pride Golden List: No. 61,900]

Ye Tian jumped from over one hundred thousand to over sixty thousand, advancing by forty thousand ranks.

And this was merely the achievement from defeating a single Heavenly Pride. It was imaginable that if Ye Tian defeated more Heavenly Prides, his rank would rise dramatically.

After Silver King Heavenly Pride conceded, a giant hand whisked him away.

No one stopped the owner of this hand, as this person was an elder of Silver King Heavenly Pride.

The Milky Way.

Many major powers received the news of the defeat of Silver King Heavenly Pride, all stunned.

For a while, Ye Tians fame truly echoed throughout the Milky Way.

Many speculated whether Ye Tians strength had reached the eight-star Heavenly Pride. But without a doubt, Ye Tian was at least among the top ranks of the seven-star peerless Heavenly Prides.

For many major powers, Ye Tians strength was a boon for the Milky Way, ensuring it wouldnt be weaker than other galaxies.

However, some powers were unhappy.

For instance, the Flame Sect.

When the sect master of the Flame Sect learned that Ye Tian had defeated Silver King Heavenly Pride, he erupted in the sects main hall.

Damn! Heavenly Pride of Ten Thousand Laws, why are you strong!?! The sect master roared.

Sect Master, please calm down. The strength of the Heavenly Pride of Ten Thousand Laws might be a good thing. If he chooses to stay in the Milky Way, once he goes to the Pan Star Field, he will encounter far stronger Heavenly Prides. There are many nine-star Heavenly Prides in the Pan Star Field. If he meets a nine-star Heavenly Pride, the Heavenly Pride of Ten Thousand Laws will likely be killed.

The battles among Heavenly Prides were extremely brutal, with ninety percent of them either perishing or withdrawing from the competition.

If the Heavenly Pride of Ten Thousand Laws doesn't withdraw and continues, there's a high chance he will perish.

If he withdraws and becomes a Demigod, we can send a True God to assassinate him! said a True God elder.

Right, I was confused. No matter how strong the Heavenly Pride of Ten Thousand Laws is, he will eventually meet a Heavenly Pride he cannot withstand. The Battle of Heavenly Prides is timely; his death is certain! the sect master thought, feeling much better.

However, they did not consider another possibility.

What if Ye Tian continued to rise and ultimately became a Child of the Universe? Once he became a Child of the Universe, who would dare to provoke such a being?

The human race would not stand by and watch a Child of the Universe fall. Even if a Child of the Universe ascended to the God level, their noble status would still command respect, and no one would dare to assassinate them, or else the high echelons of the human race would not sit idly by.

In reality, Ye Tian was not afraid of the Flame Sect at all.

He had ways to contend with the Flame Sect; he was just too lazy to bother with them for the time being.

If the Flame Sect didn't provoke Ye Tian, it would remain one of the top powers on Silver Universe Star. However, if it truly opposed Ye Tian, the possibility of the Flame Sect's destruction was high.

Silver Universe Star, one of the nine major planets, was Silver Light Star.

Golden Light Heavenly Pride, Mu Tong, was the prided peerless Heavenly Pride of Silver Light Star, worshipped by countless martial warriors.

However, at this moment, Golden Light Heavenly Pride was very nervous, even panicked.

He had received the news that Silver King Heavenly Pride had been defeated by Ye Tian. Originally, he had planned to challenge Ye Tian immediately, but he was just a step too late.

When he learned that Silver King Heavenly Pride had challenged the Heavenly Pride of Ten Thousand Laws, he decided to wait and see. Depending on the situation, he would challenge either the Heavenly Pride of Ten Thousand Laws, Ye Tian, or Silver King Heavenly Pride.

Unexpectedly, the next moment, he received news of Silver King Heavenly Prides defeat, nearly killed by a single strike from the Heavenly Pride of Ten Thousand Laws.

His strength was similar to that of Silver King Heavenly Pride. How could he possibly stand against Ye Tian?

If Ye Tian came for him, his destiny would also be greatly taken by Ye Tian, and his rank on the Heavenly Pride Golden List would surely plummet.

What he feared came to pass.

Ye Tian, the Heavenly Pride of Ten Thousand Laws from Silver Universe Star, has come to seek guidance from Golden Light Heavenly Pride!

Ye Tians voice came from afar.

Clearly, Ye Tian had already arrived on Silver Light Star.

Such haste! He just defeated Silver King Heavenly Pride and now hes challenging me. Is he afraid Ill run away? Golden Light Heavenly Pride frowned.

To avoid or to face the fight? After pondering for a while, Golden Light Heavenly Pride made his decision.

Fight!

He couldn't always avoid battles. If he was to avoid battles indefinitely, he might as well give up on the Battle of Heavenly Prides. Why participate at all? Even if he were to lose, he wanted to lose honorably, without losing his courage.

Boom!

Golden Light Heavenly Pride transformed into a beam of golden light, appearing in front of Ye Tian.

Heavenly Pride of Ten Thousand Laws, if you wish to fight, then let's fight! Golden Light Heavenly Pride said solemnly.

Good! Ye Tian responded loudly.

In the blink of an eye, the two exchanged blows, and the battle concluded.

Similarly, with a single move, Golden Light Heavenly Pride was defeated, without even a chance to evade Ye Tian's attack.

An eight-star Heavenly Pride! I didn't expect you to have truly stepped into the ranks of the eight-star Heavenly Prides! Golden Light Heavenly Pride exclaimed in shock.

I was lucky! Ye Tian replied indifferently.

I concede! After saying this, Golden Light Heavenly Pride dragged his severely injured body back to his residence to heal.

A portion of Golden Light Heavenly Prides' destiny was also successfully plundered by Ye Tian, causing Ye Tian's rank to rise substantially again.

[Heavenly Pride Golden List: No. 51,200]

I've advanced by about 10,000 ranks again, not bad! Ye Tian was very satisfied.

In the following time, the Milky Way was chaotic. Heavenly Prides fought each other, and it was common to see two Heavenly Prides battling under a certain part of the starry sky.

News of some Heavenly Prides being killed or breaking through was also heard.

In short, the major news in the Milky Way was almost entirely dominated by the Heavenly Prides. And people were most interested in the Heavenly Pride of Ten Thousand Laws, Ye Tian, who, after defeating Silver King Heavenly Pride and Golden Light Heavenly Pride, did not take further action.

Many believed that Ye Tian couldnt find a worthy opponent and wouldnt make a move in the short term.

One day.

At the edge of the Milky Way.

A huge cosmic spaceship emerged from the spatial turbulence, a five-star level cosmic spaceship.

When this spaceship arrived in the Milky Way, several Heavenly Prides disembarked.

One of the Heavenly Prides said, So this is the Milky Way! It seems its yuan qi is not as rich as our Andromeda Galaxy!

Haha, the Milky Way has always been one of the weaker galaxies in the Pan Star Field. How high can its yuan qi concentration be? I heard that the strongest Heavenly Pride here is only a seven-star Heavenly Pride, and there are probably only one or two of them.

Haha, lets go challenge the Heavenly Prides of the Milky Way, harvest some destiny, and then leave!

Lets go, there are probably other galaxies eyeing the Heavenly Prides of the Milky Way besides us from the Andromeda Galaxy. We cant waste time, or else others from different galaxies might get there first!

The cosmic spaceship started again, heading for Silver Buddha Star!

Chapter 390: The Promise of a Great God

Silver Buddha Star was one of the nine major planets in the Milky Way, yet it didn't have any seven-star peerless Heavenly Prides. However, it did have two six-star peerless Heavenly Prides.

The two peerless Heavenly Prides of Silver Buddha Star were rather low-profile, known as Heavenly Pride Yaluo and Heavenly Pride Pulan.

Heavenly Pride Yaluo hails from the Golden Buddha Temple on Silver Buddha Star, which ranks among the top three pinnacle forces on the star.

One day,

A Heavenly Pride arrived outside the Golden Buddha Temple.

From the Andromeda Galaxy, the Bloodhand Heavenly Pride has come to challenge the Golden Buddha Temple's Heavenly Pride Yaluo!

Announcing his identity, the Bloodhand Heavenly Prides voice spread across a million miles.

Instantly, the attention of many powerful beings was drawn.

Within the Golden Buddha Temple,

Several Great God-level powerhouses frowned.

The Heavenly Pride from the Andromeda Galaxy has arrived so soon and the first one to be challenged is our Golden Buddha Temple's Heavenly Pride Yaluo. This is too much! A Great God-level powerhouse exclaimed angrily.

However, being a Great God-level being, he could not personally intervene against a Heavenly Pride, especially since Heavenly Pride Yaluo was only at the emperor level.

Does anyone know this Bloodhand Heavenly Pride, and what his strength might be?

I don't know him. Why would we, as Great God-level powerhouses, pay attention to these emperor-level juniors? Moreover, this Bloodhand Heavenly Pride comes from the Andromeda Galaxy. We rarely get news from there to our Milky Way, unless we inquire through the Milky Way Commerce Association. But it's a bit late for that now!

We should let Yaluo face the Bloodhand Heavenly Pride. With us here, we can intervene at the critical moment. Even if Yaluo is no match, we can rescue him in time!

Indeed, Yaluo should take action. Otherwise, if the six-star peerless Heavenly Prides of Silver Buddha Star is too scared to respond, it would be a joke to the other eight major stars!

Immediately,

These Great God-level powerhouses notified Heavenly Pride Yaluo to take action.

Deep within the Golden Buddha Temple, Heavenly Pride Yaluo, who was in seclusion, stepped out of his cultivation room.

Draped in the battle garment of the Buddhist sect, he emerged from the Golden Buddha Temple and confronted the Bloodhand Heavenly Pride in the sky.

I hear you are one of the two most powerful peerless Heavenly Prides of the Golden Buddha Star. Although your strength isn't much to speak of, your destiny is decent enough to warrant my action! The Bloodhand Heavenly Pride said arrogantly.

How presumptuous! Heavenly Pride Yaluo was enraged.

As a peerless Heavenly Pride, he was naturally very proud, and the tone of the Bloodhand Heavenly Pride, treating him as if he were a mere ant, was intolerable.

Golden Buddha Divine Ability!

A colossal Buddha appeared above Yaluos head, its palm striking towards the Bloodhand Heavenly Pride.

This move displayed the might of a six-star peerless Heavenly Pride.

Heh, I thought you were one of the top-tier six-star peerless Heavenly Prides. Im disappointed to see that this is all the strength you have. Despite being one of the nine major planets of the Milky Way, Silver Buddha Stars top Heavenly Pride is only of this level. Too disappointing!

The Bloodhand Heavenly Pride shook his head, extending his right hand, which transformed into a bloody hand.

Swipe! Divine Ability Blood Soul Claw!

With a claw strike, the Blood Soul Claw pierced through the golden light of the Golden Buddha divine ability and impaled Heavenly Pride Yaluos chest at an incredible speed.

Just as the Bloodhand Heavenly Pride was about to finish off Heavenly Pride Yaluo, Yaluo disappeared.

Heavenly Pride Yaluo has conceded. Youngster, you may leave now!

A voice came from the Golden Buddha Temple.

A Great God! The Bloodhand Heavenly Pride hesitated.

He was a bloodthirsty individual, and for him, defeating a Heavenly Pride and killing a Heavenly Pride brought different levels of satisfaction.

He was eager to kill a peerless Heavenly Pride.

Every Heavenly Pride from the Andromeda Galaxy had a significant background. If he killed one, it would undoubtedly be disadvantageous for his force.

However, this was the Milky Way, and even if he killed a Heavenly Pride from the Milky Way, the powerful forces of the galaxy couldn't do much to him. The forces of the Milky Way couldn't trouble his backers across galaxies.

Thus, he came to the Milky Way intending to kill a few peerless Heavenly Prides, to experience the joy of killing peerless Heavenly Prides.

Unfortunately, The Great God-level beings of the Golden Buddha Temple are too shameless, saving this peerless Heavenly Pride!

The Bloodhand Heavenly Pride was infuriated.

But since the Great God-level powerhouse didn't attack him directly and didn't break the rules, he was powerless to retaliate.

Boom!

A surge of destiny flew from the depths of the Golden Buddha Temple into the Bloodhand Heavenly Pride, increasing his destiny slightly, which somewhat improved his mood.

Time to find other Heavenly Prides. I hope those guys haven't finished off all the kills; otherwise, I'll have no fun left!

The Bloodhand Heavenly Pride moved and left the place.

In the following days, many Heavenly Prides received challenges from several of the Andromeda Galaxy's Heavenly Prides. Those with backing, despite being defeated, managed to preserve their lives.

However, some Heavenly Prides who were venturing outside were discovered by the Andromeda Galaxy's seven-star peerless Heavenly Prides. Forced into battle, they ended up being killed.

Afterward, even if the elders of these deceased Heavenly Prides became aware, they were powerless to do anything.

One day,

A Great God-level powerhouse descended upon Qingfeng Giant City on Silver Universe Star.

Who is it?

From deep within the mansion of the city lord of Qingfeng Giant City, a voice rang out.

The next instant, a middle-aged Great God-level powerhouse appeared in the sky, blocking another Great God-level powerhouse who was about to enter Qingfeng Giant City.

This Great God-level powerhouse emerging from the mansion was the grandfather of Qin Zixuan, the father of God Zilun, and the city lord of Qingfeng Giant City Great God Qin Niu. So its Great God Lei Yu who visits, please come to the city lords mansion for a chat!

Upon seeing the visitor, Great God Qin Niu immediately greeted him with respect.

Although Great God Qin Niu was also at the Great God level, he was relatively ordinary among Great God-level powerhouses. In contrast, the present Great God Lei Yu was a powerhouse among them, having once been a Heavenly Pride himself.

Great God Qin Niu, Im not here for a visit. The Heavenly Pride of Ten Thousand Laws is here, right? I have some matters with him.

Great God Lei Yu looked quite displeased, seemingly suppressing his anger.

Did the Heavenly Pride of Ten Thousand Laws offend Great God Lei Yu?

Great God Qin Niu was startled.

Although he hadn't interacted with the Heavenly Pride of Ten Thousand Laws, the latter was affiliated with Qingfeng Giant City, and the city had benefited greatly from the Heavenly Pride Ye Tian in recent years.

Moreover, the relationship between the city lord's mansion and the Heavenly Pride Ye Tian was good, so he couldn't just ignore the situation.

If there were indeed conflicts between them, he naturally wanted to try and mediate.

Don't worry, we don't have any conflicts. Even if there were, the Heavenly Pride of Ten Thousand Laws is a Heavenly Pride, how could I possibly make a move against him?

Great God Lei Yu explained.

Hearing this, Great God Qin Niu immediately breathed a sigh of relief.

The Heavenly Pride of Ten Thousand Laws is still in Qingfeng Giant City. Please follow me, Great God Lei Yu!

Great God Qin Niu led the way, taking Lei Yu Great God to Ye Tian's villa.

Heavenly Pride of Ten Thousand Laws, I am the city lord, please come out for a chat! Great God Qin Niu spoke.

In truth, he could easily enter, as the formations here were like paper to him. However, as the city lord, he shouldn't just break through a resident's formations.

Moreover, breaking through the formations to enter would surely offend Ye Tian. Inside the villa,

Ye Tian and Empress Yue were startled upon hearing Great God Qin Niu's voice.

The city lord of Qingfeng Giant City had actually come.

Immediately,

Ye Tian came out and saw both Great God Qin Niu and Great God Lei Yu.

Neither Great God Qin Niu nor Great God Lei Yu had completely concealed their aura, and the Great God-level aura emanating from them imposed a heavy pressure on Ye Tian.

Greetings to the two Great Gods!

Ye Tian bowed.

Heavenly Pride of Ten Thousand Laws, my son often meets with you, so I wont introduce myself.

This is Great God Lei Yu, youve probably heard of him. He has some matters with you. Great God Qin Niu introduced.

Great God Lei Yu! Ye Tian was surprised.

Great God Lei Yus reputation was not small; he was one of the very powerful Great God-level powerhouses in the Milky Way.

Moreover, Great God Lei Yu was one of the elders of a top force in the Milky Way, the Crazy Thunder Sect.

Heavenly Pride of Ten Thousand Laws, Ive come to ask for a favor, would you be willing to help? Great God Lei Yu spoke directly.

A favor?

Ye Tian quickly responded, Great God Lei Yu, you are a Great God-level powerhouse. Although I am a Heavenly Pride, I am only at the emperor level. How could I possibly help you?

You can! Great God Lei Yu said earnestly, To be honest, my disciple, the Purple Thunder Heavenly Pride, was merely a five-star Heavenly Pride, but he was slain by a seven-star Heavenly Pride from the Andromeda Galaxy, all for that mere bit of destiny.

I cant make a move, but you should be able to kill that seven-star Heavenly Pride.

I can promise, as long as you kill that seven-star Heavenly Pride, I will protect your family and the Solar System for a hundred thousand years.

Even if the Flame Sect causes you trouble in the future, I can exert pressure on them with the force of the Crazy Thunder Sect. How about that?
