

## Talent 391

Chapter 391: Heavenly Pride Huayang Faces Danger, Ye Tian Arrives

The promise of a Great God!

Ye Tian had not expected that Great God Lei Yu would actually promise to protect his family and the Solar System for a hundred thousand years and solve the troubles of the Flame Sect for him in the future.

Such a promise was more valuable than any treasure! And the price to pay was merely to kill a seven-star peerless Heavenly Pride of the Andromeda Galaxy for Great God Lei Yu. Indeed, this deal was very worthwhile.

As for the seven-star Heavenly Prides of the Andromeda Galaxy, he had also heard of them recently. However, since they had not come to Silver Universe Star, and he was too lazy to look for these peerless Heavenly Prides, he had not yet had a confrontation with any of the Andromeda Galaxy's peerless Heavenly Prides.

Now, Great God Lei Yu had come to Ye Tian for help.

Ye Tian felt that he could completely agree to the request of Great God Lei Yu. This was indeed a win-win situation.

Moreover, with the protection of Great God Lei Yu, his wife, Earth and the Solar System would be even less troubled by others.

After all, the scope of the Battle of Heavenly Prides covered the entire Star Field, and he couldn't always stay in the Milky Way Galaxy. He was bound to leave the Milky Way Galaxy, but the safety of Empress Yue and Earth was a concern.

Great God Lei Yu, I agree to your request! Ye Tian readily agreed.

Great God Lei Yu was also very straightforward: Good, if you kill that seven-star peerless Heavenly Pride, I guarantee that your family and the Solar System will not be disturbed by other forces. I believe that in the Milky Way Galaxy, apart from Heavenly Prides, my word is enough to deter others.

As for the Heavenly Prides, Great God Lei Yu was also helpless. To him, they were a group of weak martial warriors, but he could not make a move against them.

But for other martial warriors, the reputation of Great God Lei Yu held significant deterrent power. Even other Great God-level powerhouses would not deliberately offend Great God Lei Yu.

And the Flame Sect did not have any Planetary-level powerhouses above the God-level. Planetary-level powerhouses in the Milky Way Galaxy were scarce, and were mainly the ancient ancestors of the top forces in the Milky Way Galaxy, who hardly dealt with trivial matters.

These old monsters would not lower themselves to deal with a small Solar System, which is why Great God Lei Yu had the confidence to protect Ye Tian's family and the Solar System.

Great God Lei Yu, which Heavenly Pride do you want to be killed? Ye Tian asked.

The Bloodhand Heavenly Pride of the Andromeda Galaxy! Great God Lei Yu said indignantly.

As expected, it's him!

Ye Tian was not surprised at all. Among the Heavenly Prides of the Andromeda Galaxy, the Bloodhand Heavenly Pride was the most ruthless, having killed many Heavenly Prides. Therefore, Ye Tian had already guessed it was him.

After Great God Lei Yu left, Great God Qin Niu did not leave but asked Ye Tian, Heavenly Pride of Ten Thousand Laws, are you confident in killing that Bloodhand Heavenly Pride? It is said that the Bloodhand Heavenly Pride is much more powerful than the Silver King Heavenly Pride. Furthermore, the Andromeda Galaxy is stronger than the Milky Way Galaxy. Their Heavenly Prides might have very powerful trump cards, so be careful!

Thank you, Great God Qin Niu, for the reminder. I will be cautious!

Ye Tian nodded lightly.

After Great God Qin Niu left, Ye Tian briefly informed Empress Yue about the matter and then left Silver Universe Star.

Then, he boarded his five-star level cosmic spaceship and left.

He was going to find that Bloodhand Heavenly Pride!

It was not difficult to find the Bloodhand Heavenly Pride. Many major forces in the Milky Way Galaxy were paying attention to the whereabouts of the Bloodhand Heavenly Pride. The Crazy Thunder Sect, where Great God Lei Yu belonged, had been tracking the Bloodhand Heavenly Pride, knowing his every move.

Therefore, Great God Lei Yu had already sent the coordinates of the Bloodhand Heavenly Pride to him and would report the whereabouts of the Bloodhand Heavenly Pride in real-time. Even if the Bloodhand Heavenly Pride left that place and went to other places, the Crazy Thunder Sect could find the Bloodhand Heavenly Pride again.

Huayang Star in the Milky Way Galaxy.

This was a very ordinary planet, but a peerless genius was born on this planet decades ago. She grew up to be a Heavenly Pride and is now a five-star Heavenly Pride, with the potential to become a peerless Heavenly Pride in the future.

This Heavenly Pride was known as Heavenly Pride Huayang.

It was because of this Heavenly Prides fame that the previously nameless planet got its name.

But on this day.

The Bloodhand Heavenly Pride arrived at Huayang Star.

Heavenly Pride Huayang, it is said that this woman is extremely beautiful. She has been in the Milky Way Galaxy for some time. How wonderful it would be to capture a female Heavenly Pride and enjoy her company.

The Bloodhand Heavenly Pride became excited at the thought.

The key was that Heavenly Pride Huayang had not joined any forces, reportedly because she cherished her hometown very much and had always been developing Huayang Star, not willing to join other forces.

Since she was without the backing of a powerful force, the Bloodhand Heavenly Pride dared to target Heavenly Pride Huayang. Otherwise, he would not dare to offend a Heavenly Pride in such a way.

Even if the forces with Great God-level powerhouses could not make a move, they would at invite eight or nine-star Heavenly Prides to punish him, sparing no expense.

Therefore, he did not dare to target the female Heavenly Prides of major forces, as that would insult those top-tier major forces, making them go insane.

Heavenly Prides can be killed but not insulted; this was also a rule among Heavenly Prides.

But now, the Bloodhand Heavenly Pride was about to break this rule. There weren't many powerful Heavenly Prides in the Milky Way Galaxy, and since Heavenly Pride Huayang had no backing, he was fearless!

Heavenly Pride Huayang, come out, or I will destroy this planet with one strike!

The Bloodhand Heavenly Pride stood outside Huayang Star, with his hands behind his back, and arrogantly said.

Whoosh!

A beautiful figure flew out from Huayang Star, holding a divine sword and staring at the Bloodhand Heavenly Pride.

Bloodhand Heavenly Pride! Heavenly Pride Huayang was somewhat afraid.

The few seven-star peerless Heavenly Prides from the Andromeda Galaxy came to the Milky Way Galaxy to challenge all the Heavenly Prides. It was said that even the Golden Light Heavenly Pride and the Silver King Heavenly Pride were defeated by them. Although she did not understand the specifics, the Bloodhand Heavenly Pride was undoubtedly a seven-star peerless Heavenly Pride.

If it were a normal peerless Heavenly Pride, they definitely would not bother challenging a five-star Heavenly Pride, but the Bloodhand Heavenly Pride was shameless, not caring at all.

No matter how many stars the Heavenly Pride had, he would challenge them upon sight, often killing the opponent in one move without holding back.

Bloodhand Heavenly Pride, I am just a five-star Heavenly Pride, I am no match for you, I admit defeat! Heavenly Pride Huayang said.

Admitting defeat won't do. I do not accept, unless you are willing to be my woman!

The Bloodhand Heavenly Pride revealed a wicked smile and stepped closer to Heavenly Pride Huayang.

You.

Heavenly Pride Huayang was enraged, holding the long sword, filled with the intent to kill.

With Bloodhand Heavenly Pride daring to humiliate her like this, how could she endure it? Even if it meant death, she wanted to leave a scar on the Bloodhand Heavenly Pride.

Swoosh!

Heavenly Pride Huayang attacked the Bloodhand Heavenly Pride, slashing with her sword technique.

The Bloodhand Heavenly Pride lightly waved his hand, directly breaking through the attack of Heavenly Pride Huayang, and then injured Heavenly Pride Huayang with a claw.

Hahaha! Heavenly Pride Huayang, you might as well obediently be my woman!

The Bloodhand Heavenly Pride reached out to grab her, seemingly about to completely capture Heavenly Pride Huayang.

But just at that moment.

The space trembled, and a cosmic spaceship emerged from not far away.

The Bloodhand Heavenly Pride retracted his hand, looking solemnly at the spaceship.

He felt a sense of crisis.

Crack!

The door of the spaceship opened, and a figure walked out, it was Ye Tian.

Ye Tian put away the spaceship, his gaze fixed on the Bloodhand Heavenly Pride.

Bloodhand Heavenly Pride, as a seven-star Heavenly Pride, you are picking on a five-star Heavenly Pride, isn't that a bit too much? Ye Tian questioned.

Who are you? The Bloodhand Heavenly Pride asked.

The Heavenly Pride of Ten Thousand Laws! Ye Tian said.

What, you are the Heavenly Pride of Ten Thousand Laws!

The Bloodhand Heavenly Pride became very cautious.

Having been in the Milky Way Galaxy for so long, he had also learned about the situation in the Milky Way Galaxy, knowing that the strongest Heavenly Pride in the Milky Way Galaxy was Ye Tian.

Rumors said that Ye Tian was an eight-star peerless Heavenly Pride, but he did not believe it, thinking it was the people of the Milky Way Galaxy glorifying their own galaxy.

How could a mere Milky Way Galaxy, which previously had no eight-star peerless Heavenly Prides, suddenly have an eight-star Heavenly Pride? Wasnt that nonsense? He thought Ye Tian was at most a top-tier seven-star peerless Heavenly Pride, impossible to reach eight-star peerless Heavenly Pride.

Of course, in terms of real combat power, he was no match for Ye Tian, but he also had his trump cards and didnt believe he couldnt defeat Ye Tian.

In the battles between Heavenly Prides, external objects could be used. If strength was lacking, artifacts could make up for it.

Heavenly Pride Huayang, you leave first! Ye Tian transmitted his thoughts telepathically.

Thank you, Heavenly Pride of Ten Thousand Laws, for your help! Heavenly Pride Huayang quickly flew away.

And the Bloodhand Heavenly Prides attention was all on Ye Tian, naturally not bothering with Heavenly Pride Huayang.

A battle between Ye Tian and the Bloodhand Heavenly Pride was about to begin!

Chapter 392: Slaying the Bloodhand Heavenly Pride!

Facing Ye Tian, Bloodhand Heavenly Pride was very solemn, not daring to be careless in the slightest.

Ye Tian did not immediately make a move. Instead, he enveloped Bloodhand Heavenly Pride with his Copy Talent, checking the latters talent profile, a habit of his.

Instantly, the talent profile of Bloodhand Heavenly Pride appeared in Ye Tians vision.

Human: He Yong

Cultivation Talent: Desolate level

Strength Talent: God level

Defense Talent: Mystic level

Speed Talent: God level

Claw Talent: Dawn level

Blood Arrow Talent: God level

From the talent profile, Bloodhand Heavenly Prides talents were impressive, and some of them were exactly what Ye Tian needed.

For instance, the Dawn level Claw Talent was rare among humans, let alone at such a high level.

Ye Tian also possessed Dawn level Claw Talent, so Bloodhand Heavenly Prides Dawn level Claw Talent was useful to him.

Additionally, the blood arrow talent was also noteworthy.

More importantly, some talents above the Mystic level could be merged with the help of the Copy Talent, such as the potential fusion of blood arrow talent with the blood devouring talent.

The blood arrow talent, being an attack-focused Blood Talent, wasn't of much help to Ye Tian, but the blood devouring talent was significantly beneficial.

The blood devouring talent allowed for the absorption of blood energy to recover vitality and quickly restore strength.

Ye Tian was able to reach the first realm of the Art of Immortality previously, partly thanks to the blood devouring talent.

Therefore, Ye Tian wanted to enhance his healing talent, immortality talent, life talent, and blood devouring talent to aid him against the necrotic energy in the future.

Thus, Ye Tian paid great attention to Blood Talents.

Now, the appearance of the blood arrow talent fulfilled Ye Tians wish.

God level Blood Arrow Talent, copy!

Dawn level Claw Talent, copy!

In an instant, Ye Tian copied two of Bloodhand Heavenly Prides talents, unbeknownst to the latter.

Just as they were about to clash, Bloodhand Heavenly Pride suddenly said.

Heavenly Pride of Ten Thousand Laws, I dont wish to fight you. I can retreat from this battle, what do you say?

Bloodhand Heavenly Pride spoke, which was undoubtedly an admission of weakness.

Actually, it wasnt that he feared Ye Tian. He was concerned that if he were to fight Ye Tian and both were severely injured, Ye Tian might not be affected, but many Heavenly Prides of the Milky Way might take the opportunity to attack him, which would be disastrous.

So, after careful consideration, he didnt want to fight Ye Tian anymore.

If you commit suicide, we dont have to fight! Ye Tian mocked.

You really think Im afraid of you? Bloodhand Heavenly Pride was also angered.

Blood Soul Claw!

Bloodhand Heavenly Pride unleashed his divine ability with all his might.

The Blood Soul Claw, a powerful blood attribute divine ability with strong corrosive power, could even penetrate divine artifacts.

Blood divine ability, a decent divine ability, but too weak!

Ye Tian commented.

Phantom Gold Thread Divine Ability!

Ye Tians right hand formed a void grip.

Rip!!! From the void, strands of golden threads enveloped Bloodhand Heavenly Pride from all directions.

Metal attribute divine ability, this is bad!

Bloodhand Heavenly Pride was shocked.

This metal divine abilitys power exceeded his expectations; the attack was terrifying.

At this moment, he felt the threat of death! Instantly, Bloodhand Heavenly Pride took out a talisman and slapped it on himself.

Pfftt!!!

The Phantom Gold Thread divine ability sliced Bloodhand Heavenly Pride into countless pieces, but then he turned into a blood mist and reformed not far away.

What a talisman, capable of turning into blood mist and reassembling!

Ye Tian was quite surprised.

But this couldnt save Bloodhand Heavenly Prides life.

I must escape, this guy is truly an eight-star peerless Heavenly Pride! Good heavens, how could such a small place like the Milky Way produce an eight-star peerless Heavenly Pride!!!

Bloodhand Heavenly Pride was extremely panicked.

Had he known that there was truly an eight-star peerless Heavenly Pride in the Milky Way, he wouldnt have been so arrogant.

Blood Escape Secret Technique!

Bloodhand Heavenly Pride transformed into a streak of blood light, piercing through space.

But at that moment, a Dimensional Cube appeared in the void.

As soon as the Dimensional Cube appeared, it instantly froze space.

A giant hand reached out from the space, grabbing towards him.

This was Ye Tians Super God level palm techniqueXumi Palm! Bloodhand Heavenly Pride, do you think you can escape?

Ye Tians voice came through.

The Xumi Palm descended, instantly grasping Bloodhand Heavenly Pride.

Realizing he was in a true life-and-death crisis, Bloodhand Heavenly Pride threw out an object.

It was a flower! And as this flower was thrown, the starry sky suddenly changed.

Countless flowers grew from the depths of the void, turning this place into a world of flowers, with Ye Tian standing atop one of them.

Suddenly.

The flower beneath him transformed into a gaping maw, biting towards Ye Tian.

A normal person would definitely panic, but Ye Tian remained very calm.

Xumi Eye!

Ye Tian activated this secret technique, easily piercing through everything.

Illusion, no, it should be the power of illusion. That flower must possess a strong hallucinogenic effect.

Unfortunately, it met me who has the Xumi Eye. Otherwise, it would indeed be somewhat troublesome!

Ye Tian thought to himself.

Bloodhand Heavenly Pride also couldnt withstand the flower, after all, he couldnt control the flower.

So, when he threw out the flower and it bloomed, he was also pulled into the illusionary world.

Die!

Ye Tian squeezed Bloodhand Heavenly Pride with the Xumi Palm, exerting full force.

Before long, Bloodhand Heavenly Prides life force dissipated, and he was completely dead.

However, Ye Tian did not discard Bloodhand Heavenly Prides corpse but kept it behind.

For Ye Tian, Bloodhand Heavenly Prides corpse was undoubtedly a treasure.

Because Ye Tian could seize and bestow talents, he could completely strip Bloodhand Heavenly Prides talents and someday bestow one to his wife, Empress Yue.

In this way, Empress Yue could quickly become stronger.

However, he didnt expect Empress Yue to become an eight or nine-star peerless Heavenly Pride; he planned to let Empress Yue break through the seventeenth body limit and then aim for God level, not staying in the ranks of Heavenly Prides for too long.

After others reached God level, it was almost impossible to improve their talents. But Empress Yue was different. Ye Tian could bestow talents to Empress Yue, so even if she entered God level, it wouldnt affect her talent improvement.

The only thing that would be fixed for Empress Yue was her physical strength; other aspects could continue to be enhanced.

If it werent for the title of Child of the Universe, Ye Tian would also like to aim for the God level. But since he had the Copy Talent, it would feel a bit unsatisfactory to not try to become a Child of the Universe.

Of course,

Even without aiming for the Child of the Universe, with the Copy Talent, he would have a way to defeat Children of the Universe in the future.

But having the ability and not aiming for the Child of the Universe would be foolish. Ye Tian, after killing Bloodhand Heavenly Pride, was thanked by Heavenly Pride Huayang: Thank you, Heavenly Pride of Ten Thousand Laws, for your assistance. Without you, I fear

Heavenly Pride Huayang, youre welcome. Actually, my purpose here was just to kill Bloodhand Heavenly Pride! Ye Tian said.

Heavenly Pride Huayang wanted to invite Ye Tian to be a guest on Huayang Star, but Ye Tian declined.

Soon after, he left on his five-star cosmic spaceship.

Heavenly Pride of Ten Thousand Laws is very handsome, powerful, and has a good character. It would be nice to be his wife, but its a pity I heard he already has a wife!

Heavenly Pride Huayang sighed secretly.

Ye Tian was completely unaware that a female Heavenly Pride had developed a liking for him, but even if he knew, he would just smile briefly and then not care.

With his current strength and reputation, there were countless women in the Milky Way who had a good impression of him. If put together, they might even be able to burst a planet.

However, his greatest love was still his wife, Empress Yue, and he had little interest in others.

Not long after,

Ye Tian returned to Silver Universe Star, and the news of Bloodhand Heavenly Prides slaying by Heavenly Pride of Ten Thousand Laws Ye Tian quickly spread.

For a time, the Heavenly Pride circle of the Milky Way was shaken!

Chapter 393: Passing Through the Spatial Turbulence and Entering the Andromeda Galaxy

In the Golden Buddha Temple on Silver Buddha Star, Heavenly Pride Yaluo was brimming with excitement.

The Bloodhand Heavenly Pride is dead, hahaha, fantastic!

Last time, the Bloodhand Heavenly Pride, being a seven-star peerless Heavenly Pride, bullied him, a six star peerless Heavenly Pride. If it hadn't been for the timely rescue by a Great God in the temple, he would have likely fallen at the hands of the Bloodhand Heavenly Pride.

In recent days, the Bloodhand Heavenly Pride had killed numerous Heavenly Prides. Yaluo had been itching to slaughter the Bloodhand Heavenly Pride himself, but he was well aware of his own strength, nowhere near a match for the Bloodhand Heavenly Pride.

Fortunately, Heavenly Pride of Ten Thousand Laws had made a move, slaying the Bloodhand Heavenly Pride, a turn of events that delighted many. Compared to the excitement among the many Heavenly Prides of the Milky Way, the remaining few seven-star peerless Heavenly Prides from the Andromeda Galaxy were terrified.

The Bloodhand Heavenly Pride was no weaker than them, and since he had been slain, without even a chance to escape, if they encountered Heavenly Pride of Ten Thousand Laws, they too might meet the same fate. These Heavenly Prides from the Andromeda Galaxy dared not stay in the Milky Way any longer, quickly boarding their cosmic ships to pass through the spatial turbulence and return to the Andromeda Galaxy.

Killing the Bloodhand Heavenly Pride has significantly boosted my ranking on the Heavenly Pride Gold List! Ye Tian thought after returning to Silver Universe Star and checking the Heavenly Pride Gold List, noting, Heavenly Pride Gold List: Rank 31,200.

His ranking had soared by over 30,000 places, a huge leap, demonstrating just how immense the Bloodhand Heavenly Prides destiny had been. By slaying the Bloodhand Heavenly Pride his destiny had surged dramatically.

The greatest gain from killing the Bloodhand Heavenly Pride was inheriting his possessions. The Bloodhand Heavenly Pride owned many treasures, including various life-saving and killing artifacts. It was uncertain who would win if a Seven Star Heavenly Pride encountered the Bloodhand Heavenly Pride; one could easily be killed off guard by the Bloodhand Heavenly Pride.

The only regret was that Ye Tian couldn't find the inheritance of the Bloodhand Heavenly Prides blood divine ability, the Blood Soul Claw. It seemed that the Bloodhand Heavenly Pride didn't possess the original scripture of this divine ability. It might have been learned from a backing power or acquired through a chance inheritance, but without the original scripture.

Never mind, learning that blood divine ability wouldnt have made much difference to my strength anyway, Ye Tian thought, deciding not to dwell on it.

He then prepared to strip one of the Bloodhand Heavenly Prides talents.

Lets strip the God-level Extreme Speed talent!

Ye Tian made up his mind.

Empress Yues speed talent was still at the Mystic level, and upgrading it to the God level was difficult. By directly stripping the Bloodhand Heavenly Prides God-level Extreme Speed talent and bestowing it upon Empress Yue, he could significantly increase her speed and naturally enhance her survivability.

Strip!

In an instant, Ye Tian successfully stripped the Bloodhand Heavenly Prides God-level Extreme Speed talent.

He then summoned Empress Yue.

Yueer, Ive actually been hiding something from you, Ye Tian suddenly said.

What is it? Empress Yue asked, slightly nervous, fearing it might be bad news.

The treasures Ive given you before werent really for enhancing talents. I have other means to improve your talents, Ye Tian confessed.

Originally, Ye Tian didnt want to reveal this, but after bestowing various talents on Empress Yue repeatedly, she wasnt foolish enough to not notice something amiss.

Moreover, having arrived at Silver Universe Star and seen much, Empress Yue knew that treasures capable of elevating ones cultivation talent to the Desolate level were nearly impossible to come by.

If Ye Tian kept using treasures as an excuse for every talent he bestowed upon Empress Yue, it would be far-fetched. A once-in-a-lifetime chance encounter could be believable, but having such treasures multiple times when even top-tier powers lacked them would raise doubts, even if Empress Yue trusted Ye Tian.

Thus, Ye Tian decided to be honest.

Empress Yue smiled gently, saying, Husband, I understand. Some things are better left unsaid.

Yueer, thank you, Ye Tian said, holding Empress Yue close.

Empress Yue, snuggling up to him, replied, Husband, I should be thanking you. Youve done so much for me!

After a heartfelt conversation, Ye Tian ultimately didnt disclose the means he had to enhance Empress Yues talents.

He then bestowed the God-level Extreme Speed talent upon Empress Yue.

Soon after, Empress Yue integrated the God-level Extreme Speed talent, significantly boosting her strength.

Now, Empress Yue had reached the first tier of the Nine Star Emperor level, just one step away from becoming a Heavenly Pride.

In the following months, Heavenly Prides from nearby galaxies also arrived in the Milky Way. Before they could cause any trouble, Ye Tian sent them packing one by one, further increasing his destiny considerably.

Nowadays,

Ye Tians ranking on the Heavenly Pride Gold List was over 20,000, which was already considered quite high.

However, if Ye Tian wanted to quickly improve his ranking on the Heavenly Pride Gold List, he couldn't stay in the Milky Way. Hoping to break into the top 10,000 of the Heavenly Pride List was fantasy. The higher the ranking, the more difficult it becomes to advance, even to the point where moving up a few ranks could require a tremendous amount of destiny.

I must leave the Milky Way! Ye Tian decided.

Nowadays, the emergence of an Eight Star Heavenly Pride in the Milky Way had spread throughout the nearby galaxies, and the Heavenly Prides from those galaxies dared not come to the Milky Way anymore. Therefore, the Heavenly Prides of the Milky Way were relatively safe for the time being. As long as they did not leave the Milky Way, they need not fear being targeted by Heavenly Prides from other galaxies.

Even for Empress Yue, who had stepped into the ranks of Heavenly Pride, Ye Tian believed that no one would dare to challenge her, given that she was his wife.

Therefore, Ye Tian had no concerns and could leave the Milky Way with peace of mind.

One day,

Ye Tian boarded his five-star cosmic ship and left Silver Universe Star, heading towards the edge of the Milky Way.

Soon,

He arrived at the edge of the Milky Way.

At that moment, he saw a boundless black storm in the distance, which was the spatial turbulence.

The space between galaxies was interspersed with long regions of spatial turbulence. There were several ways to cross from one galaxy to another. One could take a five-star cosmic ship through the spatial turbulence, or rely on one's own strength to withstand the spatial turbulence and cross the galaxy.

However, crossing galaxies carried certain risks. Even Ye Tian did not dare to guarantee that he could pass through the spatial turbulence safely. Even if everything went smoothly, it would take him a long time to completely pass through the spatial turbulence, and would be far slower than the speed of a cosmic ship.

Why take the risk of braving the spatial turbulence alone?

Master, the ship is about to enter the spatial turbulence region between galaxies, and it is expected to enter the Andromeda Galaxy in one month! Little Ais voice rang out.

Enter! Ye Tian commanded.

Boom!

The five-star cosmic ship plunged into the spatial turbulence, and a strong spatial pressure hit, but this pressure was nothing to Ye Tian.

Activate the sensing system and display the external view of the cosmic ship!

Master, the sensing system is being activated!

Whoosh! A scene appeared on the display screen of the cosmic ship, showing the ship flying through the spatial turbulence.

Space turbulence bombarded the ship, colliding with the ships energy shield.

If it were a four-star cosmic ship, not only would the material not hold up, but even the energy shield would not be able to withstand the attacks of the spatial turbulence and would be quickly torn apart into countless pieces.

Time passed bit by bit.

The cosmic ship flew alone through the spatial turbulence, day after day. Finally, after a month, Ye Tian arrived in the Andromeda Galaxy.

Boom! After passing through the spatial turbulence, the spatial pressure disappeared, and a completely unfamiliar galaxy appeared before Ye Tian.

Andromeda Galaxy, here I am! Ye Tian murmured.

Inexplicably, he felt that the cosmic rules of the Andromeda Galaxy seemed a bit different from those of the Milky Way, perhaps a bit stronger.

Little Ai, does the cosmic ship have a map of the Andromeda Galaxy? Ye Tian asked.

Master, the cosmic ship has maps of the entire Star Field, including the Andromeda Galaxy!

Bring up the map and head to a bustling area of the Andromeda Galaxy!

Master, the map has been brought up. The nearest powerful planet to the master is Purple Immortal Star, which is a powerful planet in the Andromeda Galaxy aside from the ten main planets! Little Ai reported.

Then lets go to Purple Immortal Star first. The Heavenly Prides of the Andromeda Galaxy dared to swagger into the Milky Way. This time, I will also sweep through the Heavenly Prides of the entire Andromeda Galaxy before heading to other galaxies! Ye Tian said solemnly.

Master, the coordinates have been locked, and the ship is undergoing a spatial jump!

Whoosh! The cosmic ship performed a spatial jump and quickly arrived near Purple Immortal Star.

#### Chapter 394: The First Battle

Purple Immortal Star should have some strong Heavenly Prides, Ye Tian muttered as he stood outside Purple Immortal Star.

However, he knew nothing about Purple Immortal Star at the moment. Even if he wanted to challenge a Heavenly Pride, he needed to at least know their names. He couldnt just shout outside Purple Immortal Star. Although Purple Immortal Star wasnt a main star like Silver

Universe Star, it surpassed high-level planetary worlds and was a top-tier planetary world, vast in size.

Ye Tian put away his cosmic spaceship and flew directly into Purple Immortal Star.

As he was about to enter Purple Immortal Star, a God-level powerhouse attempted to stop him.

You cannot enter Purple Immortal Star at will; you must enter through the spaceport! the God-level powerhouse stated.

At that moment, the mark of Heavenly Pride appeared on Ye Tians forehead.

Heavenly Pride!

The God-level powerhouse was taken aback and dared not stop Ye Tian any longer.

During the period of the Battle of Heavenly Prides, Heavenly Prides were a group of lunatics, and no one dared to provoke them.

Moreover, Ye Tian was only trespassing into Purple Immortal Star and hadnt done anything else, so the powerhouse felt it inappropriate to block his way.

With a swoosh, Ye Tian continued flying and soon arrived at a city on Purple Immortal Star.

After inquiring briefly, Ye Tian learned about the situation on Purple Immortal Star.

Indeed, Purple Immortal Star had Heavenly Prides, not just one or two, but more than a dozen.

However, as Purple Immortal Star was not a main star, the strength of these Heavenly Prides was not very formidable, with the strongest among them being only a four-star Heavenly Pride.

Blood Wolf Empire, Royal Heavenly PrideSilver Wolf Heavenly Pride!

Ye Tian locked onto the location of this Heavenly Pride.

There were many empires on Purple Immortal Star, each occupying different parts of the planet. Compared to empires that occupied multiple star systems, the Blood Wolf Empire might be small in size, but its strength was hardly inferior.

The Blood Wolf Empire had many God-level powerhouses and even several True God-level powerhouses.

However, in the entire Andromeda Galaxy, the Blood Wolf Empire was undoubtedly a minor force.

Swoosh! Ye Tian teleported continuously and soon arrived at the capital of the Blood Wolf Empire.

In the Blood Wolf Empires capital, soldiers stationed on the city walls were all Saint-level powerhouses, with the captains being Emperor-level powerhouses, and officials of the general rank were mostly God-level powerhouses.

Suddenly,

Ye Tian appeared above the capital of the Blood Wolf Empire, angering the soldiers who saw him.

Who dares to wreak havoc above the Blood Wolf Empires territory, seeking death!

A dozen Emperor-level soldiers flew up high, ready to capture Ye Tian.

You may step down, Ye Tian waved his hand, and spatial confinement was deployed.

In an instant, the group of Emperor-level soldiers was confined, completely immobilized.

Then, Ye Tian used spatial power to expel these Emperor-level soldiers, causing them to fall to the ground.

At that moment.

A God-level powerhouse made a move! However, just then, a voice echoed through the void.

Stop!

The God-level powerhouse guarding the city immediately recognized the voice it was from a significant figure in the Blood Wolf Empire, a True God-level powerhouse!

Are you perhaps a Heavenly Pride? The True God-level powerhouse of the Blood Wolf Empire inquired.

Indeed, I've come to challenge the Silver Wolf Heavenly Pride. Let him come out!

Ye Tian declared.

The next moment, a young man flew out from the Blood Wolf Empire's palace.

Ye Tian enveloped the opponent with his copy talent and observed the talent situation.

Huh, Dawn-level Claw Talent!

Ye Tian was somewhat surprised to see the opponent's Dawn-level Claw Talent.

This time, he had only come to start the first battle of sweeping through the Andromeda Galaxy, merely going through the motions. However, he hadn't expected an unexpected gain.

If he copied this Dawn-level Claw Talent, his own Dawn-level Claw Talent could transform into a Supreme-level Claw Talent, which would be an unexpected gain.

Dawn-level Claw Talent, copy!

Ye Tian successfully copied it.

Who are you? I've never seen you before. The Silver Wolf Heavenly Pride looked at Ye Tian with confusion.

Heavenly Pride of the Milky Way! Ye Tian introduced himself.

Heavenly Pride of the Milky Way? I wondered which Heavenly Pride it was. It turns out to be from that minor Milky Way. I didn't expect a Heavenly Pride from the Milky Way to dare enter our Andromeda Galaxy.

Ye Tian looked at the Silver Wolf Heavenly Pride with disdain.

What exactly gave the Silver Wolf Heavenly Pride the confidence and the capital to disdain the Heavenly Prides of the Milky Way? Was it due to his mere four-star Heavenly Pride strength? Even if Ye Tian hadn't risen, the Milky Way was still a galaxy after all, with numerous four and five-star Heavenly Prides, and even six and seven-star peerless Heavenly Prides. It was audacious of the Silver Wolf Heavenly Pride to look down upon the Milky Way's Heavenly Prides.

The Silver Wolf Heavenly Pride doesn't recognize me, probably because the news about those few seven-star peerless Heavenly Prides who returned hasn't been spread.

Moreover, it seems like the Andromeda Galaxy has always belittled the Milky Way. I guess many Heavenly Prides in the Andromeda Galaxy have been instilled with the idea that any strong Heavenly Pride from the Andromeda Galaxy can easily sweep through the Heavenly Prides of the Milky Way! Ye Tian thought to himself.

Shall we begin? I'm pressed for time, Ye Tian said.

Alright! The Silver Wolf Heavenly Pride nodded and then unleashed a Super God-level claw technique.

Ghost Blade! With a single slash, Ye Tian's blade moved silently, severing the Silver Wolf Heavenly Pride's arm and inflicting severe injuries on him.

Ah!!!

The Silver Wolf Heavenly Pride screamed in agony, a pitiful sight.

Do you admit defeat? Ye Tian asked.

I admit defeat, I admit defeat! The Silver Wolf Heavenly Pride hastily shouted.

He was frightened! He had thought that Ye Tian wasn't very strong. With this being his home ground, he had been a bit arrogant. But he was instantly defeated by Ye Tian with one move. If Ye Tian hadn't shown mercy, he probably would have been dead by now.

When the Silver Wolf Heavenly Pride admitted defeat, a portion of his destiny peeled away from him and flowed into Ye Tian, slightly increasing Ye Tian's destiny.

After all, he was an eight-star Heavenly Pride, and the Silver Wolf Heavenly Pride was only a four-star Heavenly Pride. Defeating the Silver Wolf Heavenly Pride naturally wouldn't grant him much destiny.

But with this battle, the news of the Heavenly Pride from the Milky Way arriving in the Andromeda Galaxy would surely spread quickly.

At that moment, within the capital of the Blood Wolf Empire, many martial warriors were stunned, unable to believe what they saw as they looked at the Silver Wolf Heavenly Pride, who had lost an arm.

In their eyes, the Silver Wolf Heavenly Pride was the first genius of their Blood Wolf Empire and the top Heavenly Pride of the entire Purple Immortal Star, almost invincible at the Emperor level.

To these martial warriors with limited knowledge, the Silver Wolf Heavenly Pride was the strongest Emperor-level being, unbeatable by anyone.

But now, the Silver Wolf Heavenly Pride had been defeated in one move, a miserable sight. Their faith had collapsed all at once.

Impossible, how could the Silver Wolf Heavenly Pride lose? I don't believe it!

Is all this an illusion? Our Blood Wolf Empire's Silver Wolf Heavenly Pride is incredibly strong. I've seen him in action with my own eyes, even instantly killing a recently ascended God-level criminal with his own hands. He can't possibly lose!

Though unbelievable, that Heavenly Pride from the Milky Way must be the strongest. The Silver Wolf Heavenly Pride has indeed lost!

Soon,

The other empires on Purple Immortal Star received the news of the Silver Wolf Heavenly Pride's defeat by Ye Tian, and this news began to spread throughout the entire Andromeda Galaxy.

During the period of the Battle of Heavenly Prides, many great forces were collecting information on Heavenly Prides. The Silver Wolf Heavenly Pride might not be much in the entire Andromeda Galaxy, but he was still a four-star Heavenly Pride, and his defeat by a Heavenly Pride from the Milky Way was no small matter.

Moreover, the arrival of a Heavenly Pride from the Milky Way in the Andromeda Galaxy was a significant event.

In the Andromeda Galaxy, on one of the ten main planets, Xianqiong Star, two Heavenly Prides were chatting.

These two Heavenly Prides were Heavenly Pride Hong Yang and Heavenly Pride Lie Jun, who had once visited the Milky Way.

As six-star peerless Heavenly Prides, their backing forces were also very powerful. Thus, the news of the Heavenly Pride from the Milky Way coming to the Andromeda Galaxy naturally reached their ears.

Heavenly Pride Hong Yang, the Heavenly Pride of Ten Thousand Laws has come to our Andromeda Galaxy. He probably wants to challenge the seven-star peerless Heavenly Prides of our Andromeda Galaxy. His first challenge against the Silver Wolf Heavenly Pride is probably a signal of his arrival! Heavenly Pride Lie Jun said.

The strength of the Heavenly Pride of Ten Thousand Laws is indeed formidable, but our Andromeda Galaxy has more than a dozen seven-star Heavenly Prides, with the strongest one nearly reaching eight-star. The Heavenly Pride of Ten Thousand Laws might find it challenging! Although Heavenly Pride Hong Yang admired Ye Tians strength, he didnt blindly believe that Ye Tian could sweep through the Andromeda Galaxy.

By the way, a few seven-star Heavenly Prides seemed to have gone to the Milky Way a while ago and returned not long after. It seems like the Bloodhand Heavenly Pride didnt return. Do you know what happened? Heavenly Pride Lie Jun frowned slightly, feeling that something had happened.

Im not sure. Maybe they encountered the Heavenly Pride of Ten Thousand Laws, and neither side could do anything to the other, so they returned, Heavenly Pride Hong Yang speculated.

At this time, Ye Tian had already left Purple Immortal Star and was heading towards the core area of the Andromeda Galaxy.

His goal was to sweep through the Heavenly Prides of the ten main planets of the Andromeda Galaxy!

Hong Yang and Lie Jun Heavenly Pride changed to Heavenly Pride Hong Yang and Lie Jun

#### Chapter 395: Ten Seven Star Peerless Heavenly Prides

The ten major stars of the Andromeda Galaxy included Xianqiong Star, Xianyu Star, Xianhuang Star, Xiantong Star. Among them, the most powerful was Xianhuang Star, known as the number one main star of the Andromeda Galaxy.

Ye Tian chose to descend on Xianhuang Star, the number one main star of the Andromeda Galaxy, where the number of Heavenly Prides was the highest. Moreover, the top few seven-star peerless Heavenly Prides of the Andromeda Galaxy are also on Xianhuang Star. Therefore, he must come to Xianhuang Star to challenge these Heavenly Prides. Besides, when Ye Tian left Purple Immortal Star, he had already stated his intention to descend on Xianhuang Star. Presumably, many powerful Heavenly Prides would come to Xianhuang Star! After all, Ye Tians arrival in the Andromeda Galaxy to challenge the Heavenly Prides of the Andromeda Galaxy is seen as a provocation in their eyes.

How could they tolerate provocation from a Heavenly Pride of the Milky Way?

Perhaps many Heavenly Prides will besiege me! Ye Tian speculated.

Although it was quite disgraceful for multiple Heavenly Prides to besiege one, it was not restricted; even if thousands of Heavenly Prides besiege one Heavenly Pride, it would not violate the rules of the Battle of Heavenly Prides.

During the period of the Battle of Heavenly Prides, there were almost no rules. The only rule was that God level and above powerhouses could not participate.

Xianhuang Star.

Before Ye Tians arrival, a top-tier Great God level powerhouse from Xianhuang Star had already made a declaration; he wanted the Heavenly Pride of Ten Thousand Laws, Ye Tian, dead.

This top-tier Great God level powerhouse was the current Sect Master of the Blood God Sect and the mentor of the Bloodhand Heavenly Pride the Fierce Blood Great God!

The Bloodhand Heavenly Pride was personally nurtured by the Sect Master of the Blood God Sect and even had the potential to advance to an eight star Heavenly Pride. He had high hopes for him.

However, what he never expected was for the Bloodhand Heavenly Pride to be slain in the relatively weak Milky Way.

At first, he didnt believe this fact, but after repeatedly confirming it, he had to admit that the Bloodhand Heavenly Pride was indeed killed, and the one who killed him was the Heavenly Pride of Ten Thousand Laws from the Milky Way.

However, to prevent the Blood God Sects reputation from being damaged, he did not publicize the death of the Bloodhand Heavenly Pride.

But now that Ye Tian had personally come to the Andromeda Galaxy, the Fierce Blood Great God could no longer hold back. He wanted the Heavenly Pride of Ten Thousand Laws, Ye Tian, to also fall.

Of course.

Ye Tians strength is formidable, reportedly having reached the level of an eight-star peerless Heavenly Pride, making it difficult to kill him.

Although the Andromeda Galaxy was much stronger than the Milky Way, it does not have an eight-star peerless Heavenly Pride; how could they defeat Ye Tian?

If one seven-star Heavenly Pride is not enough, let multiple seven-star peerless Heavenly Prides besiege Ye Tian. I will promise that whoever kills the Heavenly Pride of Ten Thousand Laws will be granted a top-tier eight star wondrous object. I dont believe no one will be tempted!

The Fierce Blood Great God believed the allure of a top-tier eight star wondrous object would be enough to attract those seven-star Heavenly Prides.

More importantly, the Heavenly Pride of Ten Thousand Laws was a Heavenly Pride from the Milky Way, and the seven-star Heavenly Prides of the Andromeda Galaxy also didnt want Ye Tian to sweep through the Andromeda Galaxy.

Although an eight star Heavenly Pride is powerful, with multiple seven-star Heavenly Prides joining forces and using some external means, killing an eight star Heavenly Pride is not impossible.

When the bounty issued by the Sect Master of the Blood God Sect, the Fierce Blood Great God, was released, and information about Ye Tian spread, one after another, seven-star Heavenly Prides gathered on Xianhuang Star.

This time, a total of ten seven-star Heavenly Prides would participate in the battle, including two top-tier seven-star peerless Heavenly Prides.

Seeing so many seven-star Heavenly Prides gathering on Xianhuang Star, other Heavenly Prides also came to watch the excitement, fully aware that this would definitely be a remarkable battle of Heavenly Prides.

Even the Heavenly Prides of Xianqiong Star, Heavenly Pride Hong Yang, and Heavenly Pride Lie Jun came to Xianhuang Star to watch the battle.

Is it true that the Heavenly Pride of Ten Thousand Laws possesses the strength of an eight star Heavenly Pride? Heavenly Pride Hong Yang asked through a voice transmission.

Im not sure either! the Bloodhand Heavenly Pride was a seven-star Heavenly Pride and wasnt considered weak among them. Unexpectedly, he was killed by the Heavenly Pride of Ten Thousand Laws. I was also incredulous when I first heard this news. No wonder those few seven-star Heavenly Prides ran back from the Milky Way; they were scared off. Lie Jun replied.

The Heavenly Pride of Ten Thousand Laws helped us in the past, and although he is a peerless Heavenly Pride, this time ten seven-star peerless Heavenly Prides are taking action, and each possesses a killer move. Im afraid the Heavenly Pride of Ten Thousand Laws is in danger! Lets inform him to leave the Andromeda Galaxy, Heavenly Pride Hong Yang suggested.

Dont. Do you think the Heavenly Pride of Ten Thousand Laws will listen to us? Besides, we are also Heavenly Prides of the Andromeda Galaxy; its better not to get involved, Heavenly Pride Lie Jun shook his head and said.

Just then,

News came that Ye Tian had already arrived outside Xianhuang Star.

In fact, Ye Tian could have arrived earlier, but to allow more Heavenly Prides to gather on Xianhuang Star, he deliberately delayed his arrival.

Outside Xianhuang Star.

Ye Tian had just emerged from a five-star cosmic spaceship when he sensed powerful divine consciousness sweeping over him.

Have I been discovered?

Ye Tian didnt care about this at all; he had no intention of hiding his identity.

After putting away the cosmic spaceship, Ye Tian flew directly towards Xianhuang Star.

Although he didnt enter Xianhuang Star through official channels, no one stopped him at this time.

Soon, Ye Tian entered Xianhuang Star.

Xianhuang Star is vast, and it would naturally be quite troublesome for Ye Tian alone to find those Heavenly Prides.

But at this moment, a True God appeared in front of Ye Tian.

This True God said directly, You must be the Heavenly Pride of Ten Thousand Laws, right? If you want to challenge other Heavenly Prides, follow me!

Ye Tian found it strange that a True God had come to lead the way. He was here to challenge, after all, which could easily be seen as a provocation! Ye Tian guessed that many Heavenly Prides must already be waiting for him, and what awaited him would surely be the besiegement by multiple Heavenly Prides.

Of course, he was not afraid! With his current strength, he was not afraid of those Heavenly Prides! Moreover, he had almost no flaws and was not afraid of being countered. Even if the enemy had powerful killer moves, so what?

Then Ill trouble you to lead the way! Ye Tian said, cupping his fists.

Then, Ye Tian followed the person to a giant city, and after taking a teleportation formation, they teleported several times and finally arrived atop a massive divine mountain.

As soon as he arrived, Ye Tian felt many gazes on him.

Among them were gazes from some True Gods and Great God level beings, some of which even exuded killing intent, with a strong malice coming straight at him.

The Heavenly Pride of Ten Thousand Laws, you brutally killed our the Bloodhand Heavenly Pride of the Andromeda Galaxy, and now you've come to our Andromeda Galaxy to provoke us. You're really not taking the many Heavenly Prides of our Andromeda Galaxy seriously!

The speaker was a seven-star Heavenly Pride.

Ye Tian looked over and said with a smile, You must be the Jade Mountain Heavenly Pride of the Andromeda Galaxy, right? Among the few seven-star Heavenly Prides who entered the Milky Way, you were one of them. You also killed a few Heavenly Prides in our Milky Way, didn't you? Why didn't you speak of mercy then? There's no need for a war of words. If you want to fight, then come!

Jade Mountain Heavenly Pride and the others stopped talking, one by one they stepped forward, surrounding Ye Tian in total.

These ten Heavenly Prides were all seven-star peerless Heavenly Prides, each with great reputation in the Andromeda Galaxy.

Previously, asking them to besiege one Heavenly Pride would have been impossible; they couldn't lower their pride for that! But now, facing Ye Tian, an eight-star peerless Heavenly Pride, these ten seven-star peerless Heavenly Prides had joined forces.

Attack! The leader, a top-tier seven-star peerless Heavenly Pride, Sunset Heavenly Pride, spoke.

Boom!

The void transformed, and a large formation covered the area.

A formation master! Ye Tian was slightly surprised.

Among Heavenly Prides, formation masters were rare, as some Heavenly Prides, even if they had a talent for formations, were unwilling to spend time learning them. For example, Ye Tian had a talent for formations, but his level was only at the Morning Star level because he had too many aspects to cultivate, leaving no time to study formations! And the level of the formation master who set up this formation this time was quite high, about at the Moonlight level.

That is to say, the opponent was a Moonlight level formation master and a seven-star peerless Heavenly Pride.

Its not a killing formation, but a trapping formation! Ye Tian immediately judged.

But it made sense; a formation set up by a seven-star peerless Heavenly Pride, no matter how strong, would hardly threaten an eight-star peerless Heavenly Pride. Setting up a killing formation would also hinder other Heavenly Prides. So it was better not to set one up.

The trapping formation was a great help; it could prevent the enemy from leaving without restricting ones own side.

Moreover, this trapping formation had the ability to suppress space, indeed capable of suppressing Ye Tians strength.

But just a trapping formation alone was merely a slight suppression of Ye Tian.

Swoosh, swoosh, swoosh!

One after another, the seven-star Heavenly Prides also appeared within the trapping formation, launching attacks on Ye Tian.

Chapter 396: Is This Your Trump Card?

Facing the attack of ten seven-star peerless Heavenly Prides, Ye Tian naturally did not underestimate them.

Immediately, he deployed numerous defensive measures, even resorting to the ten-star yuan force defense secret technique known as the Dark Qilin Demon Body Technique.

Boom!

The attacks from the ten seven-star peerless Heavenly Prides bombarded Ye Tians defenses, yet failed to breach them.

Ghost Blade!

Ye Tian executed a perfected God-level sword technique. Although the Ghost Blades offensive power was not the highest among Ye Tians various methods, its unpredictability made its lethality extremely terrifying.

With an incredible speed, the Ghost Blade slashed towards one of the seven-star peerless Heavenly Prides, piercing directly through the opponents chest.

A blade through the chest.

Although the Ghost Blades attack was not comparable to that of an eight-star peerless Heavenly Pride, it was top-notch among seven-star peerless Heavenly Prides, hence the heavily wounded state of this particular Heavenly Pride.

However, at the critical moment, the formation instantly teleported the severely injured seven-star peerless Heavenly Pride away.

Without this formation, that seven-star peerless Heavenly Pride would definitely not have withstood Ye Tians second blade.

I can break through the formation, but these peerless Heavenly Prides probably wont give me the time to do so! Ye Tian thought.

But Ye Tian wasnt without options. He still had the Super God-level palm technique the Xumi Palm. The Xumi Palm could capture the enemy within the palms Xumi Realm, leaving them no chance to escape.

Boom! The battle raged on.

Taking the opportunity, Ye Tian executed the Super God-level palm technique, the Xumi Palm.

He targeted a relatively weaker seven-star peerless Heavenly Pride and grabbed him.

Although these Heavenly Prides knew that Ye Tian possessed spatial talents, they definitely underestimated the Super God-level palm technique, the Xumi Palm, and prepared to withstand it head-on.

However, they overestimated themselves! A Super God-level palm technique executed by an eight-star peerless Heavenly Pride is not something a seven-star peerless Heavenly Pride could withstand, especially a spatial palm technique like the Xumi Palm.

As the Xumi Palm descended, space seemed to freeze.

Suppress!

Capture!

In an instant, this seven-star peerless Heavenly Pride was sucked into the Xumi Realm and completely suppressed.

Not good!

The other seven-star peerless Heavenly Prides expressions changed.

They launched attacks, trying to cut off Ye Tians Xumi Palm and rescue their captured comrade.

Scram!

With a thought from Ye Tian, the Phantom Gold Thread divine ability was unleashed.

Pfft pfft pfft! Phantom Gold Threads sliced towards these Heavenly Prides. No matter how the seven-star peerless Heavenly Prides resisted, they struggled to withstand the slicing of the Phantom Gold Thread divine ability.

Immediately, several Heavenly Prides were maimed, suffering serious injuries.

The Heavenly Pride of Ten Thousand Laws is too powerful; we are no match. Lets use our trump card! said the Sunset Heavenly Pride.

Using the trump card so soon was beyond everyones expectations.

They had thought that ten seven-star peerless Heavenly Prides, along with a Moonlight-level trapping formation, would be enough to injure Ye Tian. But in reality, they were powerless to resist, not even qualifying to contend.

If the battle continued this way, they would all perish! Hence, they had no choice but to use their trump card! One of the seven-star peerless Heavenly Prides took out an arrow filled with law patterns, clearly a one-time divine artifact arrow with immense power. Driven by the cultivation strength of this seven-star peerless Heavenly Pride, it required time.

In a one-on-one battle, he would not have the time to prepare, but in such a situation, he had the chance to fire the arrow.

In the Andromeda Galaxy, this arrow was known as the Godfall Arrow!

In other words, this arrow possessed the power to slay Gods.

High above, a group of Gods watched the scene unfold.

Seeing the seven-star peerless Heavenly Pride take out the Godfall Arrow, they smiled slightly.

With the Godfall Arrow, capable of piercing through the void, even the Heavenly Pride of Ten Thousand Laws, no matter how strong, might not avoid injury. Even if the Godfall Arrow cannot kill the Heavenly Pride of Ten Thousand Laws, it can severely wound him!

Indeed, once the Heavenly Pride of Ten Thousand Laws is injured by the Godfall Arrow, the other Heavenly Prides can seize the opportunity to execute their techniques and kill the Heavenly Pride of Ten Thousand Laws.

What does it matter if hes an eight-star peerless Heavenly Pride? If he dares to act arrogantly in our Andromeda Galaxy, he still has to die!

Under the expectant gazes of the other Heavenly Prides and many God-level powerhouses, the Godfall Arrow was finally launched by the seven-star peerless Heavenly Pride towards Ye Tian.

Whoosh!

The Godfall Arrow pierced through, coming at an extremely fast speed.

The spatial barrier was immediately penetrated by the Godfall Arrow, which continued its trajectory towards Ye Tian.

Under the influence of the grand formation, Ye Tian couldn't phase into space. Even if he could, he felt that he wouldn't be able to dodge the Godfall Arrow.

At this moment, the other seven-star peerless Heavenly Prides were also attacking him, timing their assault perfectly with the launch of the arrow.

But they still underestimated Ye Tian!

Dimensional Cube!

Ye Tian summoned the divine artifact, the Dimensional Cube, and manipulated it to execute a spatial technique—Spatial Collapse!

Boom!

The space around Ye Tian instantly collapsed, swallowing the attacks of the other peerless Heavenly Prides and even causing the entire trapping formation to start destabilizing.

Although the Godfall Arrow managed to pierce through the Spatial Collapse with incredible force, its power was greatly diminished, and Ye Tian deflected it with a slash.

The Godfall Arrow proved ineffective! Seizing the opportunity, Ye Tian teleported in front of a peerless Heavenly Pride and slashed at him with the Void God Sword Technique.

Just as the seven-star peerless Heavenly Pride controlling the formation was about to teleport this peerless Heavenly Pride away, Ye Tian activated the Dimensional Cube to forcibly interrupt the teleportation and immediately beheaded the seven-star peerless Heavenly Pride.

Under normal circumstances, losing ones head wouldnt result in death, but Ye Tians Void God Sword Technique was a Super God-level technique that could pulverize every cell of the Heavenly Prides, making it a truly terrifying technique.

Therefore, this seven-star peerless Heavenly Pride was instantly killed for good.

On the other hand, the peerless Heavenly Pride trapped within Ye Tians Xumi Realm also perished, crushed to death by repeated suppressions. Thereafter, two seven-star peerless Heavenly Prides fell, one was severely injured, and another seven-star peerless Heavenly Pride was incapacitated, only able to control the formation.

So, at this moment, only six seven-star peerless Heavenly Prides were left capable of fighting Ye Tian! However, now, the remaining seven-star peerless Heavenly Prides were filled with fear.

They were terrified! A moments carelessness could lead to death, far from a normal spar or challenge.

In a normal challenge, even if they lost, they wouldnt die.

But now, with so many Heavenly Prides besieging Ye Tian within the formation, a slight mistake could indeed lead to death, and the forces behind them couldnt intervene, as it could easily lead to attacking Ye Tian.

If a God-level being attacked Ye Tian, the nature of the incident would change, and the forces behind them might be eradicated by the human upper echelons.

The Sunset Heavenly Pride then commanded: Well throw all our trump cards out, abandon this trapping formation, and retreat immediately. We might have a chance to directly obliterate Ye Tian.

Remember, we only have one chance, don't hesitate to use all your trump cards!

Okay, I agree with Sunset Heavenly Prides suggestion!

One after another, the Heavenly Prides nodded in agreement.

One Heavenly Pride took out a one-time weapon containing terrifying toxins, capable of exploding and creating a poisonous domain.

Another Heavenly Pride produced a special kind of fire seed, capable of igniting and generating a horrific attack.

Yet another Heavenly Pride took out a talisman, a destructive divine talisman capable of killing seven-star peerless Heavenly Prides, releasing terrifying destructive power.

The Sunset Heavenly Pride, on the other hand, took out a miniaturized stellar core that had been refined. Once detonated, it would create an attack resembling a small sun. Even the Sunset Heavenly Pride himself dared not use this stellar core carelessly, as it could easily harm himself.

But once thrown into the formation, with the formations barrier and timely retreat, he should be safe.

The Heavenly Prides almost exhausted their final reserves, launching their attacks.

At the same time,

The besieging Heavenly Prides received warnings from their elders and rapidly retreated, reaching millions, even tens of millions of miles away in a blink of an eye.

Leading the way, Sunset Heavenly Pride unleashed their trump cards into the formation.

The next moment.

The eight seven-star peerless Heavenly Prides quickly retreated, while a horrific explosion erupted in the center of the formation, sweeping the surroundings like a supernova.

Countless flames, poison mists, and destructive lights enveloped the area, instantly annihilating mountains thousands of feet high, turning tens of thousands of miles into scorched earth.

Seeing this, the eight seven-star peerless Heavenly Prides, who had run out of the explosions range, used their divine senses to probe.

The Heavenly Pride of Ten Thousand Laws must be dead, right? they thought.

But then.

A voice came from the center of the explosion.

Is this your trump card?

Chapter 397: Sweeping Through the Andromeda Galaxy

Boom! Ye Tian stepped out of the explosions center, his scales formed by the Dark Qilin Demonic Body Technique almost shattered, and his body bore numerous wounds.

Yet, Ye Tians aura remained undiminished, and his injuries were rapidly healing.

The seven-star peerless Heavenly Prides had unleashed their trump cards. If it were a slightly weaker eight-star peerless Heavenly Pride, they might have truly perished.

But Ye Tian was unafraid! With spatial barriers, God-level defensive talents, God-level iron armor talent, and a ten-star yuan force defensive secret technique, combined with a defensive divine artifact he wore, his defensive capabilities were terrifying.

Furthermore, Ye Tian possessed top-tier immortality talent, Mystic-level healing talent, Mystic-level life talent, and a new blood-devouring talent formed by the fusion of God-level blood arrow talent and blood-devouring talent, making him nearly impossible to kill.

Therefore, the collective trump cards of these peerless Heavenly Prides only managed to breach Ye Tians defenses and cause some superficial damage.

Impossible! How can you be unharmed?

Sunset Heavenly Pride was terrified and in disbelief.

Other Heavenly Prides and the many onlookers, including Gods, were also stunned.

Even many God-level powerhouses felt that had they been in Ye Tians place, they would have perished, yet Ye Tian was unscathed, showcasing his extraordinary ability to survive.

Ive survived, and now you must die!

Ye Tian activated the Dimensional Cube, freezing the space around them.

Then, he unleashed the Void God Sword Technique, targeting one of the seven-star peerless Heavenly Prides.

Spatial Collapse!

Xumi Palm!

Great Flame Extinguishing Hand!

Phantom Gold Thread Divine Ability!

Ye Tian displayed most of his offensive capabilities, attacking like a terrifying Demon God against the eight peerless Heavenly Prides.

Above in the sky, the God-level powerhouses watching the excitement suddenly changed their expressions.

This is bad, they're in danger!

These seven-star peerless Heavenly Prides were treasures of the Andromeda Galaxy, and losing even one was unbearable! Moreover, the elders of these peerless Heavenly Prides wouldn't allow their demise. Previously, they were cautious due to the large formation covering them, fearing that any intervention might harm Ye Tian, which would be difficult to justify.

But now, saving these peerless Heavenly Prides became much easier! However, Ye Tian anticipated the intervention of the God-level powerhouses and thus unleashed a divine artifact.

Puff! A net-like divine artifact engulfed with flames expanded wildly, covering millions of miles in an instant.

The God-level powerhouses withdrew their hands as soon as they were about to touch the artifact.

It's the Bloodhand Heavenly Prides Fire Spider Heavenly Net divine artifact!

A God-level powerhouse exclaimed.

The Fire Spider Heavenly Net divine artifact wasn't very powerful and was just an average artifact for peerless Heavenly Prides, but it could prevent enemies from escaping, which was its true purpose.

Now, as Ye Tian had refined the Fire Spider Heavenly Net, it became part of him. If the God-level powerhouses attacked this artifact, it would be considered an attack on Ye Tian.

God-level powerhouses attacking a Heavenly Pride was a serious matter, and if pursued by the human hierarchy, they could face severe punishment, especially during the Battle of Heavenly Prides. Intervening in the Battle of Heavenly Prides would compound the issue.

Therefore, these God-level powerhouses dared not destroy Ye Tian's artifact.

This delay allowed Ye Tian to teleport next to the seven-star peerless Heavenly Prides and slay them one by one.

Even Sunset Heavenly Pride, who attempted to escape, was trapped by the Phantom Gold Thread divine ability. Although he relied on various defensive means to avoid being shredded immediately, Ye Tians Void God Sword Technique struck him repeatedly.

Instantly, Sunset Heavenly Prides body disintegrated and he fell on the spot.

Everything happened so swiftly that within a single breath, Ye Tian had slain all the seven-star peerless Heavenly Prides.

Shoo! Ye Tian retracted the Fire Spider Heavenly Net, leaving only himself in the field, with all the seven-star peerless Heavenly Prides fallen.

Heavenly Pride of Ten Thousand Laws, youre in fine form indeed!

God-level powerhouses appeared before Ye Tian, glaring at him angrily.

They had lost ten of the Andromeda Galaxys seven-star peerless Heavenly Prides, a significant blow since the galaxy had only a dozen or so to begin with. Now, only a few remained.

The God-level powerhouses were filled with hatred towards Ye Tian, even wanting to kill him, but they dared not act. Of course, Im in fine form, no need for the God-level powerhouses to worry about me!

Ye Tian spoke with neither arrogance nor humility.

Hmph!

The God-level powerhouses snorted coldly and turned to leave.

They feared that if they stayed any longer, they might not be able to resist killing Ye Tian, a consequence they couldnt bear.

These God-level powerhouses have underestimated the Heavenly Pride of Ten Thousand Laws. If they knew his strength was not just that of a newly advanced eight-star peerless

Heavenly Pride, they wouldn't have allowed ten peerless Heavenly Prides to besiege him! an unrelated God-level powerhouse whispered.

Other warriors nodded in agreement.

Without a doubt, Ye Tian's strength was not that of an ordinary eight-star peerless Heavenly Pride; he was among the strongest, or else even the top-tier seven-star peerless Heavenly Pride, Sunset Heavenly Pride, could have survived more than a dozen moves against an eight-star peerless Heavenly Pride.

But now, Sunset Heavenly Pride was easily killed by Ye Tian, a testament to the vast difference in strength! Ye Tian's destiny surged tremendously after killing ten seven-star peerless Heavenly Prides in one go.

Originally ranked over ten thousand on the Heavenly Pride Gold List, Ye Tian suddenly jumped to the 6820th place.

In the vast Pan Star Field, being ranked within the top ten thousand was already a sign of a very powerful Heavenly Pride.

Ranking 6820th on the Heavenly Pride Gold List was indeed a matter of pride. Is there anyone else who wishes to challenge me? Ye Tian asked.

The crowd was silent. Ten seven-star peerless Heavenly Prides were no match for Ye Tian; how could they stand a chance? They simply couldn't defeat him.

If you don't challenge me, then I will challenge you. Rest assured, as long as you don't harbor the intent to kill me, I won't kill you, Ye Tian declared solemnly.

He possessed the talent to discern good and evil; he could sense anyone with significant malice towards him, so they couldn't hide it from him.

The Heavenly Prides had no choice but to accept Ye Tian's challenge as they couldn't escape.

Thus, one by one, the Heavenly Prides were effortlessly defeated by Ye Tian.

In the end, all the Heavenly Prides chose to admit defeat from the start. Since Ye Tians destiny was high, losing didnt take much of their destiny, so their losses were minimal.

Half a day later.

After challenging many Heavenly Prides and gaining a lot of destiny, Ye Tians rank rose by ten or so places, reaching 6810st on the Heavenly Pride Gold List.

However, this ranking was unstable, subject to change at any moment, either rising or falling.

Over the next month, Ye Tian sought out the traces of Heavenly Prides, even finding and defeating the few remaining seven-star peerless Heavenly Prides, taking some of their destiny.

In essence, Ye Tian single-handedly swept through the entire Andromeda Galaxys Heavenly Prides.

One day.

Ye Tian visited the Xianqiong Star.

On a pavilion on Xianqiong Star, Ye Tian met with Heavenly Pride Hong Yang and Heavenly Pride Lie Jun.

You two are quite bold. Im now the public enemy of the entire Andromeda Galaxy, and yet you dare to invite me for tea and chat. Arent you afraid of offending those powers? Ye Tian asked with a smile.

Heavenly Pride Lie Jun responded with a laugh, Not really afraid. Now that ten seven-star peerless Heavenly Prides of the Andromeda Galaxy have died, plus the Bloodhand Heavenly Pride, making eleven, the ones who truly despise you are the forces behind those eleven peerless Heavenly Prides.

Other forces are just a bit dissatisfied with you but dont have a significant hostility. In fact, some forces are even grateful to you.

Grateful to me? Why is that? Ye Tian was surprised.

Heavenly Pride Lie Jun explained, You should be aware that although we humans are strong, there is also a lot of scheming among the various forces, both in the Milky Way and the Andromeda Galaxy.

For example, the forces we belong to are happy to see those seven-star Heavenly Prides fall, as it means a significant loss for our competitors, which our forces are pleased to see. Moreover, with only a few seven-star Heavenly Prides left in the Andromeda Galaxy, some resources that belong to Emperor-level powers will be allocated to us. With our strength and talents, we still have a chance to advance to seven-star Heavenly Prides.

So, isnt this a good thing for us and our forces?

That makes sense! Ye Tian nodded in agreement.

Heavenly Pride of Ten Thousand Laws, where do you plan to go next? Heavenly Pride Hong Yang asked curiously.

After all, having swept through the Heavenly Prides of the Andromeda Galaxy, Ye Tian was unlikely to continue staying there, as it would be meaningless. He would surely head to other galaxies.

Chapter 398: The Reappearance of the Time Talent

Im planning to visit other galaxies, but I havent decided which one yet, Ye Tian truthfully said.

At this moment, Heavenly Pride Lie Jun suggested, Heavenly Pride of Ten Thousand Laws, if you havent decided yet, I suggest you visit the Moma Galaxy!

Moma Galaxy?

Ye Tian heard of this galaxy for the first time, and out of curiosity, he asked, What is the Moma Galaxy, and why this one?

Heavenly Pride Lie Jun explained, The Moma Galaxy is quite far from our Andromeda Galaxy, with about a dozen galaxies in between. Unlike your Milky Way, which has limited contact with other galaxies, our Andromeda Galaxy interacts with many galaxies and even has branches of some powerful galactic forces. The Moma Galaxy is a powerful galaxy that far surpasses our Andromeda Galaxy, rumored to have eight peerless Heavenly Prides, perhaps even greater. However, my suggestion for you to visit the Moma Galaxy isn't because of the number of Heavenly Prides there but rather because there seems to be a fortuitous opportunity there that has attracted many powerful Heavenly Prides from various galaxies!

That's right! Heavenly Pride Hong Yang also added, Originally, some of the seven-star peerless Heavenly Prides from our Andromeda Galaxy were planning to go, but with your arrival, they decided to deal with you first before heading to the Moma Galaxy. Unfortunately, they all perished at your hands!

What exactly is this great opportunity?

Ye Tian was quite curious.

Were not sure about the specifics. It seems that a world has appeared there with many valuable items, Heavenly Pride Lie Jun said.

Knowing that Heavenly Pride Lie Jun and Heavenly Pride Hong Yang didn't have much information, Ye Tian didn't inquire further.

After pondering for a while, he decided to head to the Moma Galaxy. Since he had no specific destination in mind, the Moma Galaxy seemed like an excellent place to visit.

A few days later, Ye Tian prepared to leave the Andromeda Galaxy for the Moma Galaxy. Normally, traversing a galaxy would take at least a month, and since there were over a dozen galaxies between the Andromeda and Moma Galaxies, it would take over a year if Ye Tian were to travel through each space turbulence zone in a cosmic spaceship. This was undoubtedly too long for Ye Tian.

Of course, there was a way to shorten the journey taking a galaxy flight! The Andromeda Galaxy had flights to other galaxies, including one to the Moma Galaxy. This flight used a six-star level cosmic spaceship, far more advanced than Ye Tian's spaceship. Although the Andromeda Galaxy's technology was advanced enough to produce five-star level cosmic spaceships, slightly better than the Milky Way, they had channels to acquire six-star level

spaceships, unlike the transportation companies on Earth that could only manage up to five-star level spaceships.

The speed of a six-star level cosmic spaceship was swift, capable of traveling from one galaxy to another in just one day, reducing the travel time by thirtyfold. Therefore, the journey from the Andromeda to the Moma Galaxy would take only about a dozen days.

A mere dozen days were naturally not considered long by anyone. However, the cost of taking a six-star level cosmic spaceship was very high, unaffordable for ordinary people, but Ye Tian, with his substantial wealth, easily purchased a ticket to the Moma Galaxy.

On the flight to the Moma Galaxy.

Ye Tian sat inside and casually observed that the passengers were mostly God-level and True God-level powerhouses, with very few Emperor-level powerhouses, only about a dozen or so.

He also used his copy talent to scan but didnt find any noteworthy talents.

The Moma Galaxy, I should be able to acquire some decent talents this time! Ye Tian thought.

As time passed day by day, the six-star level cosmic spaceship swiftly traversed galaxy after galaxy, astonishing Ye Tian with its speed.

Sometimes, Ye Tian had to admit that technological aids were significant, at least in terms of traveling, as the speed of martial warriors couldnt compare to that of cosmic spaceships. However, the foundation of humanitys status as a powerful race in the universe was still based on martial warriors, not technology.

After several days.

The spaceships crew announced, Andromeda Galaxy Flight 25 will soon arrive at its final destinationthe Moma Galaxy, Goth Star. Please prepare for disembarkation.

In a minute, the cosmic spaceship reached its destination.

The cosmic spaceships hatch opened, and one by one, the God-level beings flew out.

Ye Tian flew out of the cosmic spaceship and landed at a spaceport on Goth Star, looking towards the not-too-distant Goth Star.

This star is no smaller than Purple Immortal Star! Ye Tian remarked.

Goth Star, a level 1 technological planet, was clearly not a main star of the Moma Galaxy, but it was a relatively bustling and important technological planet; otherwise, it wouldn't have flights from other galaxies.

After entering Goth Star, Ye Tian began to inquire about the general situation of the Moma Galaxy.

Four eight-star peerless Heavenly Prides and thirty seven-star peerless Heavenly Prides! The Moma Galaxy is indeed powerful! Ye Tian was quite surprised.

Compared to the Moma Galaxy, the Milky Way was undoubtedly much weaker.

However, the yuan qi on the life planets of the Moma Galaxy was much denser than that of the Milky Way, and the resources here were abundant, something the Milky Way couldn't compare to.

Moreover, being close to the center of the Pan Star Field, it had strong martial arts inheritances and could easily trade with other powerful galaxies, making it incomparable to the Milky Way. Of course, Ye Tian also carefully inquired about the recent opportunity that had appeared in the Moma Galaxy.

Because this opportunity had caused quite a stir, Ye Tian easily found out about it.

Soon, he knew the specifics.

The Water Cleansing Realm!

On one of the planets in the Moma Galaxy, a realm had appeared. This realm was vast, but it was almost entirely made of freshwater, not seawater, with no land.

Initially, no one paid attention to this Water Cleansing Realm, but soon people were shocked to discover that it harbored many powerful aquatic beasts and even a legacy left by a Galaxy-level powerhouse.

This Galaxy-level powerhouse, known as the Water Cleansing True Lord, was once a dominating figure. However, after countless years, he was certainly dead.

Ye Tian learned about the life of the Water Cleansing True Lord and discovered that he possessed one of the Five Elements Great Divine Abilities, the Water Sinking Realm divine ability. It was a top-tier water attribute divine ability that had shone brilliantly in the hands of the Water Cleansing True Lord.

The Five Elements Great Divine Abilities were famous in the Pan Star Field, but few had collected all of them, and no one had ever mastered them.

However, everyone greatly desired the Five Elements Great Divine Abilities.

With the emergence of the Water Cleansing True Lords legacy, naturally, others were very interested.

But the real benefit of the Water Cleansing Realm was not just the legacy of the Water Cleansing True Lord but another great opportunitythe Misty Fish! People discovered a very rare beast fish, the Misty Fish, in the Water Cleansing Realm. This fish possessed the rare time talent, and each fishs time talent level varied. Someone had encountered a high-level time talent Misty Fish, which directly cut off several hundred years of their lifespan and forced them to flee in a sorry state, not daring to confront it.

This caused a huge sensation in the Moma Galaxy. A Misty Fish with a high-level time talent was incredibly valuable. Now, large forces were offering high prices to purchase Misty Fish.

Unfortunately, the Water Cleansing Realm was a world with special rules that only allowed Emperor-level and below martial warriors to enter.

A Galaxy-level powerhouse could break the rules and forcefully enter the Water Cleansing Realm. However, a previous Galaxy-level powerhouse who tried found that the Water Cleansing Realm had been modified by the Water Cleansing True Lord, and forcefully entering would mean confronting the measures left by the Water Cleansing True Lord.

Even if one could overpower them, he might destroy the Water Cleansing Realm.

Thus, that Galaxy-level powerhouse left and revealed the legacy of the Water Cleansing True Lord before leaving.

Only then did people know about the legacy of the Water Cleansing True Lord in the Water Cleansing Realm, but so far, no one had found this legacy.

Therefore, people were not very concerned about the legacy of the Water Cleansing True Lord; their target was the Misty Fish, which was one of the reasons many Heavenly Prides entered the Water Cleansing Realm.

Capturing some Misty Fish could yield gains comparable to a major opportunity! The Water Cleansing Realm belonged to the Water Cleansing True Lord, but it was essentially a world without an owner, since the Water Cleansing True Lord was already dead. Therefore, any Emperor could enter the Water Cleansing Realm.

However, the fighting in the Water Cleansing Realm was also very fierce, with threats not only from beasts but also from other Emperor-level beings.

Even Heavenly Prides entering it faced the risk of falling.

Time talent; I never expected the time talent I've longed for to appear again. If I copy two high-level time talents, my time talent can definitely advance to the top tier! Ye Tian exclaimed excitedly.

Chapter 399: The Water Cleansing Realm, the Misty Fish

Ye Tian's time talent had always been at the high-tier level. Although a high-tier time talent was quite formidable, in reality, it wasn't of much help.

Even abilities like time freeze, time acceleration, and time deceleration didn't have much effect on powerful Heavenly Prides.

After all, the stronger one's power, the more one could, to a certain extent, be immune to time talents.

For instance, if Ye Tian were to use his time talent on a Great God level entity, it wouldn't shake the opponent's soul consciousness at all. Although the opponent couldn't break the time talent, they could see through time, or even directly ignore it.

And the ability that came with high-tier time talent the Blade of Time was somewhat lackluster. After all, Heavenly Prides had long lifespans, and erasing 100 years of an enemy's lifespan wasn't very useful.

The Blade of Time posed a fatal threat only to those whose lifespans were about to end, but encountering an enemy whose life was nearing its limit was rare.

In essence, the greatest use of the time talent for Ye Tian was as an aid in cultivation.

However, once the time talent was elevated to the top-tier, its capabilities would undoubtedly increase significantly, with time acceleration reaching up to twenty times, and other abilities also greatly enhanced.

In short, elevating the time talent to the top-tier level would be greatly beneficial for Ye Tian.

Moreover, within the Water Cleansing Realm, there was also the legacy of the Water Cleansing True Lord, which might contain one of the top-tier Five Elements Divine Abilities, the Water Sinking Realm divine ability.

If Ye Tian could obtain the Water Sinking Realm divine ability, he would have two of the top-tier Five Elements Divine Abilities, bringing him closer to collecting all the Five Elements Divine Abilities.

For the sake of his time talent and the Water Sinking Realm divine ability, Ye Tian naturally wanted to venture into the Water Cleansing Realm.

Furthermore, by entering the Water Cleansing Realm, he could encounter many Heavenly Prides, fight against them, and even seize their destinies.

Ye Tian left the Gothic Star and boarded his five-star cosmic spaceship, heading towards the planet where the Water Cleansing Realm was located.

After entering the coordinates, Ye Tians five-star cosmic spaceship quickly jumped to a starry sky near the Water Cleansing Realm.

Then, Ye Tian retracted the spacecraft and flew towards the planet where the Water Cleansing Realm was located.

Soon after, he arrived above this planet.

At this time, a spaceport was established on the outer orbital path of this planet, where many cosmic spaceships were parked, and there were also various shops and palace complexes.

Clearly, many forces had stationed people here.

After all, if someone caught a Misty Fish, they could trade it from the hands of Emperors at the first opportunity.

Moreover, it was said that there were many other treasures within the Water Cleansing Realm, which they could also trade at the first opportunity.

The entrance to the Water Cleansing Realm was similar to a water vortex.

At this moment, several God level beings were guarding the entrance.

When Ye Tian arrived, these God level beings said, Entering the Water Cleansing Realm requires a payment of 1 million star points!

The Moma Galaxy also used star points. After leaving the Milky Way, Ye Tian learned that the human upper echelons had standardized the trading currency, and the trading systems of

various galaxies were actually interconnected. Star points were the common trading currency for humans, supposedly controlled by a major power.

Thus, the star points from the Milky Way or other galaxies could be used in the Moma Galaxy.

Therefore, these God level powerhouses demanded star points, and Emperors from other galaxies could naturally afford them.

Are you sure you want my star points?

Ye Tian activated the Heavenly Pride mark on his forehead, revealing his identity as a Heavenly Pride.

Heavenly Pride!

The expressions of the God level beings changed.

They thought Ye Tian was just an ordinary Emperor, but to their surprise, he was a Heavenly Pride.

They recognized most of the Heavenly Prides in the Moma Galaxy, but Ye Tian was quite unfamiliar, either a Heavenly Pride who had been in seclusion for a long time or a Heavenly Pride from another galaxy.

In any case, for the duration of the Battle of Heavenly Prides, Heavenly Prides were the last ones they wanted to provoke.

This Heavenly Pride, please enter!

The God level beings stepped aside, no longer daring to charge a fee.

Originally, this was a private act, and even though there were forces backing them, the Water Cleansing Realm was not theirs. Offending a Heavenly Pride over a small fee would result in punishment from their backers.

Thus, they naturally dared not charge Ye Tian any further.

Hmph!

Ye Tian snorted coldly and turned into a beam of light, entering the Water Cleansing Realm.

Inside the Water Cleansing Realm, Ye Tian stood a hundred meters above the water surface as soon as he entered.

With a sweep of his divine consciousness, the surroundings became clear at a glance.

Its all water indeed, and its fresh water, not seawater! Ye Tian murmured to himself.

From what he understood, the Water Cleansing Realm was vast, and finding the Misty Fish and the legacy of the Water Cleansing True Lord within such a vast realm was undoubtedly a daunting task.

The first target is the Misty Fish, followed by the legacy of the Water Cleansing True Lord!

This was the plan Ye Tian had set.

After all, to him, the time talent was more useful than the so-called Water Sinking Realm divine ability.

Swoosh!

Ye Tian employed his Water Escape talent and submerged into the water.

He then began to search for aquatic fierce beasts.

He planned to hypnotize some aquatic fierce beasts and interrogate them to find the Misty Fish.

As for the Contract talent, Ye Tian didnt want to use it because even if he contracted a large number of fierce beasts to find the fish, it wouldnt be useful. The Misty Fish wouldnt stay in one place; by the time the fierce beast that found the target returned, the Misty Fish would have already gone elsewhere.

Thus, under such circumstances, the Contract talent was undoubtedly quite ineffective.

Soon, Ye Tian encountered an Emperor-level aquatic fierce beast.

It was an Emperor-level fierce beast known as the Water Carp Beast, which Ye Tian caught and then applied his Hypnosis talent on.

Do you know where the Misty Fish is?

Ye Tian asked.

The Water Carp Beast replied, Im not sure. I rarely see Misty Fish. Their traces are hard to find.

Ye Tian asked many questions, but this Water Carp Beast knew nothing.

So, Ye Tian killed it with a slap.

Afterward, Ye Tian encountered many fierce beasts. Some had seen the Misty Fish but were also unclear about its whereabouts.

After questioning many fierce beasts, Ye Tian had a rough idea of the Misty Fish.

The Misty Fish was different from ordinary fish. They were about ten meters long, slender, similar to a saury in shape, with grey patterns on their bodies and golden eyes.

Moreover, the Misty Fish seemed to have no sense of territory and wandered everywhere.

In one word, they were nomadic.

So, finding a Misty Fish relied on luck. With good luck, one could find a Misty Fish; otherwise, it would be difficult to find one.

On this day,

Ye Tian didnt find the Misty Fish but encountered a Heavenly Pride.

The other party was fighting a group of Emperor-level fierce beasts. The group of fierce beasts was quite strong, each possessing the strength of 8 or 9 stars, but they were no match for this Heavenly Pride and were single-handedly swept away.

In less than a minute, the group of fierce beasts was completely killed by the Heavenly Pride.

The Heavenly Pride killed this group of fierce beasts for the aquatic treasures in their territory. This area grew many valuable aquatic treasures.

But he didnt immediately collect these aquatic treasures; instead, he turned his gaze towards Ye Tian in the distance.

Ye Tian hadnt deliberately concealed his presence, so the Heavenly Pride noticed him.

Scram, or Ill kill you!

This Heavenly Pride obviously had a bad temper.

Milky Ways Heavenly Pride of Ten Thousand Laws, please enlighten me!

Ye Tian activated his Heavenly Pride mark and issued a challenge.

Heavenly Pride?

The persons expression changed slightly.

Encountering a Heavenly Pride at this time was not a good thing.

Although he was a five-star Heavenly Pride, he wasn't foolish. How could a Heavenly Pride from another galaxy be weak?

But during the period of the Battle of Heavenly Prides, he couldn't avoid the fight.

Then let's fight! The Heavenly Pride said.

He displayed a major realm God level sword technique, slashing a sword towards Ye Tian.

Ye Tian lightly waved the blade in his hand, sending a ghostly slash in return.

This slash was precisely aimed at the opponent's sword.

Boom!

The opponent's sword was sent flying, the immense force of the impact causing the other's blood to churn and skin to crack, severely injuring him.

But the opponent didn't die! This was intentional by Ye Tian, as he had no grudge against this person and had actively challenged him, so he naturally wouldn't kill him.

So strong!

The person knew Ye Tian had shown mercy and immediately conceded, I've lost!

Once he conceded, some of his destiny was taken by Ye Tian and merged into his own, slightly strengthening his destiny.

I'm not interested in these aquatic treasures here. I just want to know the whereabouts of the Misty Fish. Do you happen to know?

Ye Tian asked casually, not expecting the Heavenly Pride to know.

But some things were just such unexpected coincidences.

The Misty Fish, youre looking for it too? I do know some information, but I dont recommend you go after it! The Heavenly Pride said.

Chapter 400: Discovering the Misty Fish, Trading

Are you really aware of where to find a Misty Fish?

Ye Tian was somewhat skeptical. After all, if this Heavenly Pride knew the whereabouts of the Misty Fish, why wouldnt he capture it himself?

Of course, I know. But I dare not go there because several eight-star Heavenly Prides have sealed off that area. The Misty Fish is very powerful and has burrowed into an underwater cavern, making it hard to find.

You are much stronger than I am, but that Misty Fish is said to possess a high-level time talent, capable of wielding the Blade of Time, which can reduce our lifespans by 100 years in a single strike! I suggest you give up on that Misty Fish! said the Heavenly Pride.

Please enlighten me on its location! Ye Tian earnestly requested.

If you insist on going, Ill tell you. Its over there. The Heavenly Pride informed Ye Tian of the area and its general vicinity.

After hearing the information, Ye Tian flew towards the location.

Seeing Ye Tian leave, the Heavenly Pride breathed a sigh of relief, fearing that Ye Tian might kill him.

Fortunately, Ye Tian departed without seizing any of the water treasures.

Immediately, he began collecting the water treasures.

A Misty Fish with a high-level time talent, if encountered, would be a huge windfall! Ye Tian thought excitedly as he traveled.

Basic and intermediate time talents were useless to him; he only wanted to copy high-level or higher time talents but also wished to avoid encountering beasts with pseudo-mystic-level time talents. After all, he was not familiar with pseudo-mystic-level time talents, and if they were too terrifying, he might fall to them.

High-level and top-level time talents were undoubtedly the best options. He wasn't greedy; copying two high-level time talents this time would suffice.

Soon, Ye Tian arrived at the area sealed off by several eight-star peerless Heavenly Prides.

Diving underwater, Ye Tian saw a continuous underwater mountain range, within which were numerous caverns interconnected, forming a complex maze.

According to that Heavenly Pride, the Misty Fish entered these caverns. Those eight-star Heavenly Prides followed, and probably other six or seven-star Heavenly Prides as well, Ye Tian thought.

At that moment, he could even sense the distant fluctuations of battle.

Boom, boom, boom! The fluctuations of yuan qi spread, shaking the underwater world and creating whirlpool storms.

Although the underwater cavern was vast, if the eight-star peerless Heavenly Prides fought with all their might, they could destroy this area. Probably fearing the consequences, they hadn't made a real move but were searching for the Misty Fishs whereabouts through exploration.

After all, the caverns were interconnected in many places and might lead to even deeper waters. Destroying this place and allowing the Misty Fish to escape elsewhere would be troublesome. Ye Tian also entered an underwater cavern, using his water phasing talent while spreading his divine sense to search for the Misty Fish.

However, instead of finding the Misty Fish, he encountered a Heavenly Pride.

Please leave immediately! the Heavenly Prides voice transmitted.

Ye Tians copy talent enveloped the other, quickly identifying him.

Eight-star peerless Heavenly Pride Heavenly Pride Mo Wen! Ye Tian recognized this peerless Heavenly Pride because Mo Wen was one of the few eight-star peerless Heavenly Prides in the Moma Galaxy, and he had naturally made inquiries.

The Misty Fish isnt yours; why should I leave? Ye Tian responded.

Without another word, Heavenly Pride Mo Wen unleashed a wood-based divine ability. Inside the underwater cavern, a forest of wood appeared, with countless vines entwining towards him, each vine filled with terrifying law power, capable of crushing easily.

This wood-based divine ability was extraordinary and clearly not at an introductory level.

As expected of an eight-star peerless Heavenly Pride! Ye Tian silently admired.

Fire-based divine abilities would typically counter wood-based ones, but being underwater, fire-based divine abilities would undoubtedly be suppressed. Therefore, Ye Tian did not use the Great Flame Extinction Hand but instead used the Phantom Gold Thread divine ability.

Puff, puff, puff! Strand after strand of Phantom Gold Thread sliced through the countless vines.

At the same time, Ye Tian teleported forward, unleashing a strike with the Phantom God Sword Technique.

This strike was delivered with his full strength! With a loud boom, Heavenly Pride Mo Wen was sent flying by Ye Tians sword, sustaining injuries, but he quickly recovered.

Phantom Gold Thread divine ability, a Super God-level sword technique! From which galaxy do you hail?

Heavenly Pride Mo Wen ceased his attack.

Had it been a seven-star peerless Heavenly Pride, he might have driven the other away, but Ye Tian was also an eight-star peerless Heavenly Pride and somewhat stronger than him. He had no confidence in defeating Ye Tian and naturally had to cease.

Milky Ways Heavenly Pride of Ten Thousand Laws! Ye Tian declared his identity.

The Milky Way, I've never heard of it! Heavenly Pride Mo Wen shook his head. Indeed, he had never heard of the Milky Way Galaxy; with so many galaxies within the Pan Star Field, who would care about a weak one?

How did you recognize my Phantom Gold Thread divine ability? Have you seen it before? Ye Tian inquired.

Heavenly Pride Mo Wen responded gravely, The Phantom Gold Thread divine ability is one of the Five Elements Grand Divine Abilities. Its fame is immense. Although I've never seen it, I've heard of the grand reputation of the Five Elements Grand Divine Abilities. Your ability is definitely a top-tier divine ability and closely resembles the Phantom Gold Thread divine ability, so I naturally assumed it as such.

He continued, With the strength of an eight-star peerless Heavenly Pride, you are qualified to search for the Misty Fish here. However, I must warn you, it's best not to attempt to destroy this underground cavern mountain range, or you will be suppressed by the world's force.

This Water Cleansing Realm has been modified by the Water Cleansing True Lord, and its underwater environment must not be wantonly destroyed.

So that's how it is! Ye Tian suddenly understood. It seems his previous guess was wrong; he thought these eight-star peerless Heavenly Prides were genuinely afraid of accidents happening, which is why they refrained from destroying the underwater cavern mountain range. It turns out they dared not destroy it.

With a swish, Heavenly Pride Mo Wen left, diving into another cavern.

Ye Tian continued his search! Time passed, and suddenly another battles fluctuations caught Ye Tians attention.

Phasing into space! Ye Tians body entered space, quickly moving towards the source.

Soon, he arrived at the site of the battle.

At that moment, he saw two peerless Heavenly Prides besieging a fierce beast.

This beast was none other than the Misty Fish! This Demigod-level Misty Fish was incredibly powerful, second only to an eight-star peerless Heavenly Pride.

More importantly, these two peerless Heavenly Prides were very wary of this Misty Fish, especially afraid of its Blade of Time, thus fighting cautiously.

After all, a Misty Fish with a high-level time talent could unleash the Blade of Time ten times in a day, with each strike capable of reducing 100 years of lifespan, totaling a reduction of 1000 years.

As peerless Heavenly Prides, they could live up to 3000 years, even if they were already 1000 years old, they would still have 2000 years of lifespan left.

But with 2000 years of lifespan, no one would want their lifespan to be reduced! The key issue was, if the Misty Fish escaped again, causing a loss of lifespan, it would not be worth it.

Ye Tians approach did not escape the notice of the two peerless Heavenly Prides.

They both possessed the means to penetrate space and naturally detected Ye Tian.

Among these two peerless Heavenly Prides was Heavenly Pride Mo Wen.

Seeing Ye Tian, Heavenly Pride Mo Wen hurriedly said, Heavenly Pride of Ten Thousand Laws, you possess spatial talent. Could you assist us in immobilizing this Misty Fish? Not

only does this Misty Fish possess a time talent, but it also has a God-level water escape talent, making it incredibly fast underwater. Last time, it escaped from us and entered here.

Whats in it for me? Ye Tian asked.

100 divine crystals, plus the location of the Water Cleansing True Lords inheritance site. How about this deal? But you must ensure we capture this Misty Fish! Heavenly Pride Mo Wen stated.

Deal! Ye Tian agreed without hesitation.

This deal seemed too good for him, and he was even worried Heavenly Pride Mo Wen might regret it!
